Independent Auditor's Report

To the Buckeye Investment Committee
Buckeye Retirement Plan
Memphis, Tennessee

We have audited the accompanying statements of net assets available for benefits of Buckeye Retirement Plan as of June 30, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Buckeye Retirement Plan at June 30, 2003 and 2002, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes at end of year as of June 30, 2003 is presented for the purpose of complying with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is not a required part of the basic financial statements. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BUCKEYE RETIREMENT PLAN

Notes to Financial Statements
June 30, 2003 and 2002

Note 1 - Description of Plan

The following description of Buckeye Retirement Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Buckeye Retirement Plan (the "Plan") is a defined contribution plan covering all full-time salaried and hourly employees of Buckeye Technologies Inc. and its wholly owned subsidiaries (collectively the "Company"). Employees, as defined in the Plan Agreement, are eligible upon completion of 1,000 hours of service during their first year of employment or during any plan year (July 1 to June 30). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer up to 20% of their annual compensation and may also contribute a portion or all of incentive compensation, subject to Internal Revenue Service limitations.

Foundation contributions, as defined in the Plan Agreement, made annually by the Company are computed based upon the following formula:

Contribution = (A+B)C A = 1% B = .5% X number of years service not to exceed twenty (20) years. C = Plan year compensation. The minimum contribution is 1 1/2% of eligible compensation and the maximum contribution is 11% of compensation.

Foundation contributions are generally funded in the six month period following

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

the Plan's year end.

The Company may also make a premium contribution, determined annually by the Board of Directors, that is based upon the Company's financial performance. As required by the Plan Agreement, subsequent to June 30, 1996, all Company premium contributions are invested in the common stock of Buckeye Technologies Inc. The Company did not make a premium contribution to the Plan for the years ended June 30, 2003 and 2002.

Participant accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's foundation contributions, and an allocation of the Company's discretionary premium contribution, if any, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their deferral contributions and Company discretionary premium contributions plus earnings thereon.

Participants are 100% vested in their Company foundation contributions after completion of five years of credited service. In the event of death, disability, normal retirement (age 65) or if the Plan is discontinued, participants become 100% vested in their foundation account balances.

Payment of benefits

Participants may choose to receive account distributions either in the form of a lump sum payment or installments over a period of time as defined in the Plan Agreement. However, if the participant's vested balance does not exceed \$5,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant.

Forfeitures

If an employee terminates before his or her account has become fully vested, such portion of the account is forfeited. Forfeitures are used to reduce future contributions by the Company. Forfeitures used to reduce employer contributions totaled \$77,746 in 2003. There were no participant forfeitures in 2002.

Plan termination

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement. In the event of termination, the Plan provides that all affected participants' interests will become fully vested and nonforfeitable.

Note 2 - Summary of significant accounting policies

Investments

Investments are stated at fair value and represent the Plan's share of the market value of fund holdings or are based upon quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.
