ASUR 2Q07 PASSENGER TRAFFIC UP 15.29% YOY

2Q07 Highlights¹:

EBITDA increased by 18.08% to Ps. 430.5 million.

Total passenger traffic up 15.29%.

Total revenues rose by 17.45%, mainly due to an increase of 32.47% in non-aeronautical revenues and an 11.65% increase in aeronautical revenues.

Commercial revenues per passenger rose by 15.12% to Ps.42.41 per passenger.

Operating profit increased by 25.67%.

EBITDA margin was 61.40% compared with 61.07% in 2Q06.

México D.F., July 23, 2007 Grupo Aeroportuario del Sureste, S.A.B. de C.V. (NYSE:ASR; BMV:ASUR), (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight others in the southeast of Mexico, today announced results for the three- and six-month periods ended June 30, 2007.

¹ Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Financial Reporting Standards, expressed in constant Mexican pesos as of June 30, 2007, and represent comparisons between the three-month period ended June 30, 2007, and the equivalent three-month period ended June 30, 2006. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps.10.7946.

Passenger Traffic

For the second quarter of 2007, total passenger traffic increased year-over-year by 15.29%. International passenger traffic rose by 8.52% and domestic passenger traffic increased by 25.51%.

The 15.29% year-over-year increase in total passenger traffic primarily reflected the drop in passenger traffic in the second quarter of 2006, due to the lingering effect of Hurricane Wilma on Cancun, the Mayan Riviera and Cozumel. Hurricane Wilma struck the Yucatan peninsula in October 2005 and inflicted widespread damage on the region's infrastructure. Travel and tourism in Cancun and the Mayan Riviera regions have since recovered, while Cozumel's recovery is continuing.

The 8.52% rise in international passenger traffic resulted mainly from increases of 8.08%, 29.39% and 10.19% at the Cancun, Cozumel and Huatulco airports, respectively. The increases at Cancun and Cozumel were principally due to favorable year-over-year comparisons with the 2Q06 base numbers affected by Hurricane Wilma, as noted above. The increase in international passenger traffic was partially offset by a 39.51% decrease in international passenger traffic to Oaxaca in the wake of social unrest in the region.

The 25.21% rise in domestic passenger traffic resulted mainly from increases of 29.88%, 30.55%, 46.92% and 21.23% at the Cancun, Merida, Veracruz and Villahermosa airports, respectively. The increase at Cancun was principally due to the favorable year-over-year comparison described above. The increases in Merida, Veracruz and Villahermosa were principally due to the opening of new airline services at those airports.

For the first six months of 2007, total passenger traffic rose by 21.45% compared to the first six months of 2006, with international passenger traffic up 21.60% and domestic passenger traffic up 21.22%.

Consolidated Results for 2Q07

Total revenues for 2Q07 increased year-over-year by 17.45% to Ps.701.2 million. This was mainly due to increases of:

11.65% in revenues from aeronautical services, principally as a result of the 15.29% rise in passenger traffic; and

32.47% in revenues from non-aeronautical services, principally as a result of the 32.68% rise in commercial revenues detailed below.

ASUR classifies commercial revenues as those derived from the following activities: duty-free services, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lots.

Commercial revenues rose by 32.68% year-over-year during the quarter, principally as a result of revenue increases from the following areas:

32.80% from duty-free stores,

10.87% from food and beverage,

35.39% from retail operations,

22.01% from parking lots,

427.39% from advertising,

2.44% from banking and currency exchange services,

25.76% from ground transportation,

33.73% from car rental companies,

5.33% from teleservices services, and

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

21.50% from other revenues.

The growth in each of these areas resulted generally from the rise in passenger traffic and in particular from the opening on May 18, 2007 of Cancun Airport's new Terminal 3, including the following commercial establishments:

Other factors also boosted revenues during the quarter. Retail revenues benefited from higher concession fees charged to local crafts and specialty shops. Revenues from car rental companies increased due to improved economic terms with concessionaires and the opening of eight new commercial spaces in Terminal 3. The rise in parking lot revenues was partially due to annual rate increases at several airports.

The sharp rise in advertising revenue reflects ASUR s direct sale of advertising space at its airports, which began on August 2006.

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

Total operating costs and expenses for 2Q07 increased 11.76% year over year, primarily as a result of:

an 18.02% increase in the cost of services, due mainly to increased personnel costs relating to the implementation of internal accounting controls pursuant to the Sarbanes-Oxley Act of 2002, as well as higher energy costs, insurance premiums and maintenance expenses;

a 2.70% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets and improvements made to concession assets;

a 17.85% increase in the cost of technical assistance, reflecting the increase in EBITDA for the quarter (a factor for the calculation of the fee);

a 17.45% increase in concession fees, mainly due to higher revenues; and

a 3.38% increase in administrative expenses.

Operating margin for the quarter rose to 43.75% from 40.89% in 2Q06. This was mainly the result of the 17.45% increase in total revenues, which more than offset the increase in costs during the period.

Mexican companies are generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.25% of the average tax value of virtually all of the company's assets including, in ASUR's case, its concessions, without deducting the average tax value of certain liabilities). ASUR made asset tax payments of Ps.35.8 million for 2Q07. Of these payments, Ps.4.5 million was recorded as an expense in the results for the quarter. The difference was recorded as an asset, since ASUR expects to recover Ps.31.3 million as a credit against future income tax payments.

Net income for 2Q07 was Ps.234.0 million, an increase of 29.82% from 2Q06. Earnings per common share for the quarter were Ps.0.7798, or earnings per ADS (EPADS) of US\$0.7224 (one ADS represents ten series B common shares). This compares with Ps.0.6007, or EPADS of US\$0.5565, for the same period last year.

- (1) On July 1, 2006, ASUR ceased the direct commercial operation of the restaurant and snack bar at Cancun Airport, and these facilities are now leased to a subsidiary of Grupo Mera. Since July 1, 2006, revenues from direct commercial operations represent solely the operation of ten convenience stores, as well as the direct commercialization of advertising space, which started in August 2006.

Consolidated Results for the Six-Months Ended June 30, 2007

Total revenues for 1H07 increased by 23.33% from 1H06 to Ps.1,381.3 million. This was mainly due to increases of:

21.51% in revenues from aeronautical services as a result of the 21.45% rise in passenger traffic during the period; and

27.95% in revenues from non-aeronautical services, principally as a result of the 28.26% rise in commercial revenues detailed below.

Commercial revenues rose by 28.26% year-over-year during 1H07, principally as a result of revenue increases from the following areas:

28.82% from duty-free revenues,

3.20% from food and beverage,

35.83% from retail revenues,

15.91% from parking lot revenues,

211.90% from advertising revenues,

32.81% from ground transportation services,

40.42% from car rental companies, and

10.85% from other income.

The growth in each of these areas resulted generally from the rise in passenger traffic and in particular from the opening on May 18, 2007 of Cancun Airport's new Terminal 3, including the new commercial establishments described above.

ASUR 2Q07, Page 8 of 16

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

Other factors also contributed to the rise in commercial revenue for the first half of 2007. Retail revenues benefited from higher concession fees charged to local crafts and specialty shops. Revenues from car rental companies increased due to improved economic terms with concessionaires and the opening of eight new commercial spaces in Terminal 3. The rise in parking lot revenues was partially due to annual rate increases at several airports.

The increase in commercial revenue for the half was partially offset by declines in the following areas:

a 0.98% decline in revenue from banking and currency exchange services as a result of the expiration of a contract with Banamex; and

a 6.05% decline in teleservices.

Costs and expenses for 1H07 increased year-over-year by 11.24%, mainly due to the following:

a 14.32% increase in costs of services, due mainly to increased personnel costs relating to the implementation of internal accounting controls pursuant to the Sarbanes-Oxley Act of 2002, as well as higher energy costs, insurance premiums and maintenance expenses;

a 3.30% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets and improvements made to concession assets;

a 23.32% increase in concession fees mainly due to higher revenues;

a 27.84% rise in technical assistance costs reflecting the corresponding increase in EBITDA during the period; and

a 5.24% increase in administrative expenses.

Operating margin increased to 45.01% in 1H07, up from 39.03% for 1H06. This was mainly the result of the 23.33% increase in revenues, which more than offset the 11.24% increase in costs and expenses during the period.

Net income for 1H07 increased by 45.08% to Ps.456.6 million. Earnings per common share for the period were Ps.1.5220, or earnings per ADS (EPADS) of US\$1.4100 (one ADS represents ten series B common shares). This compares with Ps.1.0491, or EPADS of US\$0.9719, for the same period last year.

Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for 1H07 were Ps. 1,027.10 million, resulting in an annual average tariff per workload unit of Ps.120.26. ASUR's regulated revenues accounted for approximately 74.90% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

Balance Sheet

On June 30, 2007, Airport Facility Usage Rights and Airport Concessions represented 84.74% of the Company's total assets, with current assets representing 11.38% and other assets representing 3.80%.

On June 30, 2007, cash and marketable securities were Ps.1,393.04 million. On the same date, shareholder's equity was Ps.14,010.78 million and total liabilities were Ps.1,320.77 million, representing 91.38% and 8.61% of total assets, respectively. Total deferred liabilities represented 81.24% of the Company's total liabilities.

Capex

During the quarter, ASUR made investments of Ps.127.10 million as part of the Company's ongoing plan to modernize its airports pursuant to its master development plans. During 1H07 ASUR made capital investments of Ps.369.22 million.
