I am pleased with the cash generation, significant reduction in debt and overall profitability improvements experienced in the quarter, added Roach. With the level of current activity in the marketplace and the growing awareness of CGI as a global leader, we remain confident in our ability to profitably grow our business over time.

Notes to the Consolidated Financial Statements

For the three and nine months ended June 30, 2006 and 2005

(tabular amounts only are in thousands of Canadian dollars, except share data)(unaudited)

1. Summary of significant accounting policies

The interim consolidated financial statements for the three and nine months ended June 30, 2006 and 2005, are unaudited and include all adjustments that management of CGI Group Inc. (the Company) considers necessary for a fair presentation of the financial position, results of operations and cash flows.

The disclosures provided for these interim periods do not conform in all respects to the requirements of generally accepted accounting principles (GAAP) for the annual consolidated financial statements; therefore, the interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Company for the year ended

September 30, 2005. These interim consolidated financial statements have been prepared using the same accounting policies and methods of their application as the annual consolidated financial statements for the year ended September 30, 2005.

Certain comparative figures have been reclassified in order to conform to the current period presentation.

Restatement

The Company provides a centralized service to the Canadian property and casualty insurance industry for the purpose of ordering abstracts of driving records from government authorities. Following its accounting reviews performed during the year ended September 30, 2005, the Company revised its interpretation of the accounting treatment related to those services. The revised interpretation required that the revenue and applicable costs of services charged to clients, which are included in Costs of services, selling and administrative expenses, be presented on a net basis rather than on a gross basis as they had been presented previously. For comparative purposes, the reclassification amounted to \$14,786,000 and \$40,731,000 for the three and nine months ended June 30, 2005, respectively. The revised presentation is in accordance with Emerging Issue Committee (EIC) Abstract 123, Reporting Revenue Gross as a Principal versus Net as an Agent, which addresses whether an enterprise should recognize revenue based upon the gross amount billed to the client or the net amount retained. This reclassification had no impact on net earnings or cash flows.

Change in accounting policies

The Canadian Institute of Chartered Accountants (CICA) has issued the following new Handbook Sections which were effective for interim periods beginning on or after

January 1, 2006:

- a) Handbook Section 3831, Non-Monetary Transactions, requires that non-monetary transactions be recorded at fair value unless the transaction has no commercial substance, it is an exchange of inventory, it is non-monetary, non-reciprocal transfer to owners or it is

not reliably measurable. The adoption of this section did not have any impact on the consolidated financials statements.

(tabular amounts only are in thousands of Canadian dollars, except share data)(unaudited)

1. Summary of significant accounting policies (continued)

Change in accounting policies (continued)

- b) EIC 156, *Accounting by a Vendor for Consideration Given to a Customer (Including a Reseller of the Vendor's Products)*, provides guidance to companies that give incentives to customers or resellers in the form of cash, equity, free gifts, coupons and other. The adoption of EIC 156 did not have any impact on the consolidated financial statements since the Company already adopted the US equivalent of EIC 156 which is EITF 01-9 *Accounting for Consideration Given by a Vendor to a Customer* issued by the Financial Accounting Standards Board's Emerging Issues Task Force as at September 30, 2002.

Future accounting changes

The CICA has issued the following new Handbook Sections:

- a) Handbook Section 3855, *Financial Instruments - Recognition and Measurement*, effective for interim periods beginning on or after October 1, 2006. The section describes the standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. All financial assets, except for those classified as held-to-maturity, and derivative financial instruments must be measured at their fair value. All financial liabilities must be measured at their fair value if they are classified as held for trading purposes, if not, they are measured at their carrying value. The Company is currently evaluating the impact of the adoption of this new section on the consolidated financial statements.
- b) Handbook Section 1530, *Comprehensive Income*, and Section 3251, *Equity*, effective for interim periods beginning on or after October 1, 2006. Comprehensive income is the change in equity of an enterprise during a period arising from transactions and other events and circumstances from non-owner sources. It includes items that would normally not be included in net income such as changes in the foreign currency translation adjustment relating to self-sustaining foreign operations and unrealized gains or losses on available-for-sale financial instruments. This section describes how to report and disclose comprehensive income and its components. Section 3251, *Equity*, replaces Section 3250, *Surplus*, and establishes standards for the presentation of equity and changes in equity as a result of the new requirements of Section 1530, *Comprehensive Income*. Upon adoption of this section, the consolidated financial statements will include a statement of comprehensive income.
- c) Handbook Section 3865, *Hedges*, effective for interim periods beginning on or after October 1, 2006. This section describes when hedge accounting is appropriate. Hedge accounting ensures that all gains, losses, revenues and expenses from the derivative and the item it hedges are recorded in the statement of earnings in the same period. The Company is currently evaluating the impact of the adoption of this section on the consolidated financial statements.

On March 29, 2006, the Company announced a restructuring plan impacting members located primarily in Montreal and Toronto, of which a significant portion is related to lower than expected BCE (a shareholder) work volumes. Approximately 850 of the total headcount reductions were effective as of June 30, 2006, and the remainder will be completed by the end of the calendar year. The acceleration and expansion of CGI's Global Delivery Model will partially offset the headcount reductions by creating some 400 new jobs throughout its network. Under the terms of the contract agreement signed on December 16, 2005, BCE will share in severance costs with a maximum contribution capped at \$10,000,000 for severance costs applicable to headcounts reductions exceeding 100 positions.

Total amount to be incurred as a result of this restructuring plan will approximate \$90,000,000, of which \$57,000,000 (after BCE contribution) will be for severance and \$33,000,000 for consolidation and closure of facilities.

Contingencies

From time to time, the Company is involved in various litigation matters arising in the ordinary course of its business. The Company has no reason to believe that the disposition of any such current matter could reasonably be expected to have a material adverse impact on the Company's financial position, results of operations, or the ability to carry on any of its business activities.

Sale of assets and business divestitures

In connection with sale of assets and business divestitures, the Company may be required to pay counterparties for costs and losses incurred as the result of breaches in representations and warranties, intellectual property right infringement and litigation against counterparties. While many of the agreements specify a maximum potential exposure of approximately \$108,500,000 in total, others do not specify a maximum amount or limited period. It is impossible to reasonably estimate the maximum amount that may have to be paid under such guarantees. The amounts are dependent upon the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. No amount has been accrued in the consolidated balance sheets relating to this type of indemnification as at June 30, 2006. The Company does not expect to incur any potential payment in connection with these guarantees which could have a materially adverse effect on its consolidated financial statements.

U.S. Government contracts

The Company is engaged to provide services under contracts with the U.S. Government. The contracts are subject to extensive legal and regulatory requirements and, from time to time, agencies of the U.S. Government investigate whether the Company's operations are being conducted in accordance with these requirements. Generally, the Government has the right to change the scope of, or terminate, these projects at its convenience. The termination or a reduction in the scope of a major government project could have a material adverse effect on our results of operations and financial condition.

11. Guarantees (continued)

Other transactions

In the normal course of business, the Company may provide certain clients, principally governmental entities, with bid and performance bonds. In general, the Company would only be liable for the amount of the bid bonds if the Company refuses to perform the project once the bid is awarded. The Company would also be liable for the performance bonds in the event of default in the performance of its obligations. As at June 30, 2006, the Company provided for a total of \$112,100,000 of these bonds. The Company believes it is in compliance with its performance obligations under all service contracts for which there is a performance or bid bond, and the ultimate liability, if any, incurred in connection with these guarantees would not have a material adverse effect on the Company's consolidated results of operations or financial condition.

In addition, the Company provides a guarantee of \$5,900,000 of the residual value of a leased property, accounted for as an operating lease, at the expiration of the lease term.
