EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended September 30, 2015 of Regency Centers Corporation and Regency Centers, L.P. Unless stated otherwise or the context otherwise requires, references to “Regency Centers Corporation” or the “Parent Company” mean Regency Centers Corporation and its controlled subsidiaries; and references to “Regency Centers, L.P.” or the “Operating Partnership” mean Regency Centers, L.P. and its controlled subsidiaries. The term “the Company” or “Regency” means the Parent Company and the Operating Partnership, collectively.

The Parent Company is a real estate investment trust (“REIT”) and the general partner of the Operating Partnership. The Operating Partnership's capital includes general and limited common Partnership Units (“Units”). As of September 30, 2015, the Parent Company owned approximately 99.8% of the Units in the Operating Partnership and the remaining limited Units are owned by investors. The Parent Company owns all of the Series 6 and 7 Preferred Units of the Operating Partnership. As the sole general partner of the Operating Partnership, the Parent Company has exclusive control of the Operating Partnership's day-to-day management.

The Company believes combining the quarterly reports on Form 10-Q of the Parent Company and the Operating Partnership into this single report provides the following benefits:

- enhances investors' understanding of the Parent Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

- eliminates duplicative disclosure and provides a more streamlined and readable presentation; and

- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports. Management operates the Parent Company and the Operating Partnership as one business. The management of the Parent Company consists of the same individuals as the management of the Operating Partnership. These individuals are officers of the Parent Company and employees of the Operating Partnership.

The Company believes it is important to understand the few differences between the Parent Company and the Operating Partnership in the context of how the Parent Company and the Operating Partnership operate as a consolidated company. The Parent Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership. As a result, the Parent Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing public equity from time to time and guaranteeing certain debt of the Operating Partnership. The Parent Company does not hold any indebtedness, but guarantees all of the unsecured public debt and approximately 21% of the secured debt of the Operating Partnership. The Operating Partnership holds all the assets of the Company and retains the ownership interests in the Company's joint ventures. Except for net proceeds from public equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates all remaining capital required by the Company's business. These sources include the Operating Partnership's operations, its direct or indirect incurrence of indebtedness, and the issuance of partnership units.

Stockholders' equity, partners' capital, and noncontrolling interests are the main areas of difference between the consolidated financial statements of the Parent Company and those of the Operating Partnership. The Operating Partnership's capital includes general and limited common Partnership Units, and Series 6 and 7 Preferred Units owned by the Parent Company. The limited partners' units in the Operating Partnership owned by third parties are accounted for in partners' capital in the Operating Partnership's financial statements and outside of stockholders' equity in noncontrolling interests in the Parent Company's financial statements. The Series 6 and 7 Preferred Units owned by the Parent Company are eliminated in consolidation in the accompanying consolidated financial statements of the Parent Company and are classified as preferred units of general partner in the accompanying consolidated financial statements of the Operating Partnership.

In order to highlight the differences between the Parent Company and the Operating Partnership, there are sections in this report that separately discuss the Parent Company and the Operating Partnership, including separate financial statements, controls and procedures sections, and separate Exhibit 31 and 32 certifications. In the sections that

combine disclosure for the Parent Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company.

As general partner with control of the Operating Partnership, the Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have assets other than its investment in the Operating Partnership. Therefore, while stockholders' equity and partners' capital differ as discussed above, the assets and liabilities of the Parent Company and the Operating Partnership are the same on their respective financial statements.

REGENCY CENTERS CORPORATION AND REGENCY CENTERS, L.P.

Notes to Consolidated Financial Statements

September 30, 2015

1. Organization and Principles of Consolidation

General

Regency Centers Corporation (the "Parent Company") began its operations as a Real Estate Investment Trust ("REIT") in 1993 and is the general partner of Regency Centers, L.P. (the "Operating Partnership"). The Parent Company currently owns approximately 99.8% of the outstanding common Partnership Units of the Operating Partnership. The Parent Company engages in the ownership, management, leasing, acquisition, and development of retail shopping centers through the Operating Partnership, and has no other assets or liabilities other than through its investment in the Operating Partnership. As of September 30, 2015, the Parent Company, the Operating Partnership and their controlled subsidiaries on a consolidated basis (the "Company" or "Regency") directly owned 199 retail shopping centers and held partial interests in an additional 119 retail shopping centers through investments in real estate partnerships (also referred to as "joint ventures" or "co-investment partnerships").

The financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. These adjustments are considered to be of a normal recurring nature.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which requires an entity to recognize the amount of revenue it expects to be entitled to for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP and will be effective for the Company on January 1, 2018, with adoption as early as January 1, 2017 permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures and has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In February 2015, the FASB issued ASU No. 2015-02, Amendments to the Consolidation Analysis (Topic 810), which requires amendments to both the variable interest entity ("VIE") and voting models. The amendments (i) rescind the indefinite deferral of certain aspects of accounting standards relating to consolidations and provide a permanent scope exception for registered money market funds and similar unregistered money market funds, (ii) modify the identification of variable interests (fees paid to a decision maker or service provider), the VIE characteristics for a limited partnership or similar entity and primary beneficiary determination under the VIE model, and (iii) eliminate the presumption within the current voting model that a general partner controls a limited partnership or similar entity. The new guidance is effective for annual reporting periods, and interim periods within those annual periods, beginning after December 15, 2015 with early adoption permitted. The amendments may be applied using either a modified retrospective or full retrospective approach. The adoption of this standard during the first quarter of 2016 will not have a material impact on the Company's financial position or results of operations, but may result in additional disclosures.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30), which simplifies the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years with early adoption permitted. The Company will adopt this ASU in the first quarter of 2016, which will result in a decrease to total assets and liabilities of the net unamortized balance of debt issuance costs, which is \$8.8 million at September 30, 2015,

exclusive of the line of credit costs. Debt issue costs related to the line of credit will remain in deferred costs.

4. Available-for-Sale Securities

Available-for-sale securities are included in other assets in the accompanying Consolidated Balance Sheets, and consist of the following:

September 30, 2015				
(in thousands)	Amortized Cost	Gains in Accumulated Other Comprehensive Loss	Losses in Accumulated Other Comprehensive Loss	Estimated Fair Value
Certificates of deposit	\$1,750	1	—	1,751
Corporate bonds	6,156	—	(74) 6,082

(in thousands)	Amortized Cost	Gains in Accumulated Other Comprehensive Loss	Losses in Accumulated Other Comprehensive Loss	Estimated Fair Value
Common stock	\$14,350	4,809	—	19,159

Realized gains or losses on investments are recorded in our consolidated statements of operations within other income. Upon the sale of a security classified as available-for-sale, the security's specific unrealized gain (loss) is reclassified out of accumulated other comprehensive loss into earnings based on the specific identification method. During the nine months ended September 30, 2015 and 2014, there were no reclassifications from accumulated other comprehensive loss into earnings.

The contractual maturities of available-for sale securities were as follows:

5. Notes Payable and Unsecured Credit Facilities

The Company's debt outstanding consists of the following:

(in thousands)	September 30, 2015	December 31, 2014
Notes payable:		
Fixed rate mortgage loans	\$479,413	518,993
Variable rate mortgage loans ⁽¹⁾	33,163	29,839
Fixed rate unsecured loans	1,296,076	1,397,525
Total notes payable	1,808,652	1,946,357
Unsecured credit facilities:		
Line of Credit	50,000	—
Term Loan	165,000	75,000
Total unsecured credit facilities	215,000	75,000
Total debt outstanding	\$2,023,652	2,021,357

⁽¹⁾ An interest rate swap is in place to establish a fixed interest rate on \$28.1 million of this variable rate mortgage for both periods. See note 6.

The weighted average contractual interest rates were 5.2% and 1.1% on the fixed rate and variable rate debt, respectively, at September 30, 2015. Significant financing activity since December 31, 2014 includes the following:

• The Company repaid three mortgages totaling \$76.0 million that were scheduled to mature during 2015;

• The Company borrowed \$50.0 million, net of repayments, on its \$800.0 million Line of Credit (the "Line");

In May 2015, the Company amended its Line to extend the maturity to May 13, 2019 and reduced the applicable interest rate. Based on current credit ratings, the Line bears interest at an annual rate of LIBOR plus 92.5 basis points on any drawn balance plus an annual 15 basis point facility fee on the entire \$800.0 million capacity. The interest rates are based on the higher of the Company's current corporate credit ratings issued by Moody's or S&P. Further, the Company has options to extend the maturity for two additional six-month periods.

• In August 2015, the Company issued \$250.0 million of 3.90% fixed rate ten-year unsecured public debt, which matures on November 1, 2025.

• The proceeds from the public debt offering, along with borrowings of \$90.0 million on the Term Loan, were used to repay \$350.0 million of 5.25% fixed rate ten-year unsecured public debt that matured.

• In September 2015, the Company assumed a mortgage with a fair value of \$42.8 million upon acquisition of University Commons.

	Total derivative financial instruments							\$(22,372)	(18,794)

⁽¹⁾ Represents the date specified in the agreement for either optional or mandatory early termination which will result in cash settlement.

⁽²⁾ Derivatives in an asset position are included within Other Assets in the accompanying Consolidated Balance Sheets, while those in a liability position are included within Accounts Payable and Other Liabilities.

⁽³⁾ In connection with the issuance of the new bonds, the Company terminated and settled these swaps, resulting in cash payments of \$7.3 million. The settlement value of these swaps will amortize through interest expense over the life of the bonds.

These derivative financial instruments are all interest rate swaps, which are designated and qualify as cash flow hedges. The Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges. The Company has master netting agreements; however, the Company

18

REGENCY CENTERS CORPORATION AND REGENCY CENTERS, L.P.

Notes to Consolidated Financial Statements

September 30, 2015

does not have multiple derivatives subject to a single master netting agreement with the same counterparties. Therefore, none are offset in the accompanying Consolidated Balance Sheet.

The Company expects to issue new debt in 2017. In order to mitigate the risk of interest rate volatility, the Company previously entered into \$220 million of forward starting interest rate swaps to partially hedge the new debt expected to be issued in 2017. These interest rate swaps lock in the 10-year treasury rate and swap spread at a weighted average fixed rate of 3.48%. A current market based credit spread applicable to Regency will be added to the locked in fixed rate at time of issuance that will determine the final bond yield.

The effective portion of changes in the fair value of derivatives designated and qualifying as cash flow hedges is recorded in accumulated other comprehensive income (loss) ("AOCI") and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings within interest expense.

The following table represents the effect of the derivative financial instruments on the accompanying consolidated financial statements:

As of September 30, 2015, the Company expects \$8.8 million of net deferred losses on derivative instruments accumulated in other comprehensive income to be reclassified into earnings during the next 12 months, of which \$8.3 million is related to previously settled swaps.

7. Fair Value Measurements

(a) Disclosure of Fair Value of Financial Instruments

All financial instruments of the Company are reflected in the accompanying Consolidated Balance Sheets at amounts which, in management's estimation, reasonably approximate their fair values, except for the following:

(in thousands)	September 30, 2015		December 31, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Notes receivable	\$11,314	11,339	\$12,132	11,980
Financial liabilities:				
Notes payable	\$1,808,652	1,925,400	\$1,946,357	2,116,000
Unsecured credit facilities	\$215,000	215,300	\$75,000	75,000

The table above reflects carrying amounts in the accompanying Consolidated Balance Sheets under the indicated captions. The above fair values approximate the amounts that would be received from selling those assets or that

Notes to Consolidated Financial Statements

September 30, 2015

would be paid to transfer those liabilities in an orderly transaction between market participants as of September 30, 2015 and December 31, 2014. These fair value measurements maximize the use of observable inputs. However, in situations where there is little, if any, market activity for the asset or liability at the measurement date, the fair value measurement reflects the Company's own judgments about the assumptions that market participants would use in pricing the asset or liability.

The Company develops its judgments based on the best information available at the measurement date, including expected cash flows, appropriately risk-adjusted discount rates, and available observable and unobservable inputs. Service providers involved in fair value measurements are evaluated for competency and qualifications on an ongoing basis. As considerable judgment is often necessary to estimate the fair value of these financial instruments, the fair values presented above are not necessarily indicative of amounts that will be realized upon disposition of the financial instruments.

The following methods and assumptions were used to estimate the fair value of these financial instruments:

Notes Receivable

The fair value of the Company's notes receivable is estimated by calculating the present value of future contractual cash flows discounted at interest rates available for notes of the same terms and maturities, adjusted for counter-party specific credit risk. The fair value of notes receivable was determined primarily using Level 3 inputs of the fair value hierarchy, which considered counter-party credit risk and loan to value ratio on the underlying property securing the note receivable.

Notes Payable

The fair value of the Company's unsecured debt is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to the Company for debt of the same remaining maturities. The fair value of the unsecured debt was determined using Level 2 inputs of the fair value hierarchy.

The fair value of the Company's mortgage notes payable is estimated by discounting future cash flows of each instrument at rates that reflect the current market rates available to the Company for debt of the same terms and maturities. Fixed rate loans assumed in connection with real estate acquisitions are recorded in the accompanying consolidated financial statements at fair value at the time the property is acquired. The fair value of the mortgage notes payable was determined using Level 2 inputs of the fair value hierarchy.

Unsecured Credit Facilities

The fair value of the Company's unsecured credit facilities is estimated based on the interest rates currently offered to the Company by financial institutions. The fair value of the credit facilities was determined using Level 2 inputs of the fair value hierarchy.

The following interest rate ranges were used by the Company to estimate the fair value of its financial instruments:

	September 30, 2015		December 31, 2014	
	Low	High	Low	High
Notes receivable	6.9%	6.9%	7.4%	7.4%

Notes payable	2.4%	3.9%	0.9%	3.4%
Unsecured credit facilities	1.1%	1.2%	1.3%	1.3%

(b) Fair Value Measurements

The following financial instruments are measured at fair value on a recurring basis:

Trading Securities Held in Trust

The Company has investments in marketable securities, which are assets of the non-qualified deferred compensation plan ("NQDCP"), that are classified as trading securities held in trust on the accompanying

REGENCY CENTERS CORPORATION AND REGENCY CENTERS, L.P.

Notes to Consolidated Financial Statements

September 30, 2015

Consolidated Balance Sheets. The fair value of the trading securities held in trust was determined using quoted prices in active markets, which are considered Level 1 inputs of the fair value hierarchy. Changes in the value of trading securities are recorded within net investment (income) loss from deferred compensation plan in the accompanying Consolidated Statements of Operations.

Available-for-Sale Securities

Available-for-sale securities consist of investments in certificates of deposit and corporate bonds, and are recorded at fair value using matrix pricing methods to estimate fair value, which are considered Level 2 inputs of the fair value hierarchy. Unrealized gains or losses on these securities are recognized through other comprehensive income.

Interest Rate Derivatives

The fair value of the Company's interest rate derivatives is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its interest rate swaps. As a result, the Company determined that its interest rate swaps valuation in its entirety is classified in Level 2 of the fair value hierarchy.

The following tables present the placement in the fair value hierarchy of assets and liabilities that are measured at fair value on a recurring basis:

9. Stock-Based Compensation

The Company recorded stock-based compensation in general and administrative expenses in the accompanying Consolidated Statements of Operations. During 2015, the Company granted 209,069 shares of restricted stock with a weighted-average grant-date fair value of \$69.80 per share.

10. Non-Qualified Deferred Compensation Plan ("NQDCP")

The Company maintains a NQDCP which allows select employees and directors to defer part or all of their cash bonus, director fees, and restricted stock awards. All contributions into the participants' accounts are fully vested upon contribution to the NQDCP and are deposited into a Rabbi trust. The assets of the Rabbi trust, exclusive of the shares of the Company's common stock, are classified as trading securities in the accompanying Consolidated Balance Sheets, and totaled \$28.3 million and \$28.1 million at September 30, 2015 and December 31, 2014, respectively. The participants' deferred compensation liability, also exclusive of the shares of the Company's common stock, is included within accounts payable and other liabilities in the accompanying Consolidated Balance Sheets and totaled \$27.8 million and \$27.6 million at September 30, 2015 and December 31, 2014, respectively.

Notes to Consolidated Financial Statements

September 30, 2015

12. Commitments and Contingencies

The Company is involved in litigation on a number of matters and is subject to certain claims, which arise in the normal course of business, none of which, in the opinion of management, is expected to have a material adverse effect on the Company's consolidated financial position, results of operations, or liquidity. Legal fees are expensed as incurred.

The Company is also subject to numerous environmental laws and regulations as they apply to real estate pertaining to chemicals used by the dry cleaning industry, the existence of asbestos in older shopping centers, and underground petroleum storage tanks. The Company believes that the ultimate disposition of currently known environmental matters will not have a material effect on its financial position, liquidity, or operations; however, it can give no assurance that existing environmental studies with respect to the shopping centers have revealed all potential environmental liabilities; that any previous owner, occupant or tenant did not create any material environmental condition not known to it; that the current environmental condition of the shopping centers will not be affected by tenants and occupants, by the condition of nearby properties, or by unrelated third parties; or that changes in applicable environmental laws and regulations or their interpretation will not result in additional environmental liability to the Company.

The Company has the right to issue letters of credit under the Line up to an amount not to exceed \$50.0 million, which reduces the credit availability under the Line. These letters of credit are primarily issued as collateral to facilitate the construction of development projects. As of September 30, 2015 and December 31, 2014, the Company had \$5.9 million in letters of credit outstanding.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

In addition to historical information, the following information contains forward-looking statements as defined under federal securities laws. These forward-looking statements include statements about anticipated changes in our revenues, the size of our development and redevelopment program, earnings per share and unit, returns and portfolio value, and expectations about our liquidity. These statements are based on current expectations, estimates and projections about the real estate industry and markets in which the Company operates, and management's beliefs and assumptions. Forward-looking statements are not guarantees of future performance and involve certain known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. Such risks and uncertainties include, but are not limited to, changes in national and local economic conditions; financial difficulties of tenants; competitive market conditions, including timing and pricing of acquisitions and sales of properties and building pads ("out-parcels"); changes in leasing activity and market rents; timing of development starts; meeting development schedules; natural disasters in geographic areas in which we operate; cost of environmental remediation; our inability to exercise voting control over the co-investment partnerships through which we own many of our properties; and technology disruptions. For additional information, see "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2014. The following discussion should be read in conjunction with the accompanying Consolidated Financial Statements and Notes thereto of Regency Centers Corporation and Regency Centers, L.P. appearing elsewhere herein. We do not undertake any obligation to release publicly any revisions to such forward-looking statements to reflect events or uncertainties after the date hereof or to reflect the occurrence of uncertain events.

Overview of Our Strategy

Regency Centers began its operations as a publicly-traded REIT in 1993, and currently owns direct or partial interests in 318 shopping centers, the majority of which are grocery-anchored community and neighborhood centers. Our centers are located in the top markets of 27 states and the District of Columbia, and contain 37.9 million square feet of gross leasable area ("GLA"). All of our operating, investing, and financing activities are performed through the Operating Partnership, its wholly-owned subsidiaries, and through its co-investment partnerships. The Parent Company currently owns approximately 99.8% of the outstanding common partnership units of the Operating Partnership.

Our mission is to be the preeminent grocery-anchored shopping center owner and developer through:

• First-rate performance of our exceptionally merchandised and located national portfolio;

• Value-enhancing services of the best team of professionals in the business; and

• Creation of superior growth in shareholder value.

Our strategic objectives are to:

• Sustain average annual 3% same-property net operating income ("NOI") growth from a high-quality portfolio of community and neighborhood shopping centers;

• Develop new high quality shopping centers at attractive returns on investment from a disciplined development program;

• Cost-effectively enhance our already strong balance sheet to reduce our cost of capital, provide financial flexibility and weather economic downturns; and

• Engage a talented and dedicated team that operates efficiently and is recognized as a leader in the real estate industry and sustainability initiatives.

We earn revenues and generate cash flow by leasing space in our shopping centers to grocery stores, major retail anchors, restaurants, side-shop retailers, and service providers, as well as ground leasing or selling building pads to these same types of tenants. We experience growth in revenues by increasing occupancy and rental rates in our existing shopping centers and by acquiring and developing new shopping centers.

We grow our shopping center portfolio through acquisitions of operating centers and new shopping center development. We will continue to use our development capabilities, market presence, and anchor relationships to invest in value-added new developments and redevelopments of existing centers. We fund our acquisition and development activity from various capital sources including operating cash flow, property sales, equity offerings, new financing, and co-investment real estate partnerships. Co-investment real estate partnerships provide us with an additional capital source for shopping center acquisitions, developments, and redevelopments, as well as the opportunity to earn fees for asset management, property management, and other investing and financing services.

Shopping Center Portfolio

The following table summarizes general information related to the Consolidated Properties in our shopping center portfolio:

	September 30, 2015	December 31, 2014

Significant Tenants and Concentrations of Risk

We seek to reduce our operating and leasing risks through geographic diversification and by avoiding dependence on any single property, market, or tenant. The following table summarizes our three most significant tenants, each of which is a grocery tenant, occupying our shopping centers:

Grocery Anchor	September 30, 2015		
	Number of Stores ⁽¹⁾	Percentage of Company-owned GLA ⁽²⁾	Percentage of Annualized Base Rent ⁽²⁾
Kroger	54	8.3%	4.3%

⁽¹⁾ Includes stores owned by grocery anchors that are attached to our centers.

⁽²⁾ Includes Regency's pro-rata share of Unconsolidated Properties and excludes those owned by anchors.

Bankruptcies

Although base rent is supported by long-term lease contracts, tenants who file bankruptcy may have the legal right to reject any or all of their leases and close related stores. In the event that a tenant with a significant number of leases in our shopping centers files bankruptcy and cancels its leases, we could experience a significant reduction in our revenues. We monitor the operating performance and rent collections of all tenants in our shopping centers, especially those tenants operating retail formats that are experiencing significant changes in competition, business practice, and store closings in other locations. We are not currently aware of the pending bankruptcy or announced store closings of any tenants in our shopping centers that would individually cause a material reduction in our revenues, and no tenant represents more than 5% of our annual base rent on a pro-rata basis.

Our management team devotes significant time to monitoring consumer preferences, shopping behaviors, and demographics to anticipate both challenges and opportunities in the changing retail industry that may affect our tenants. As a result of our findings, we may reduce new leasing, suspend leasing, or curtail the allowance for the construction of leasehold improvements within a certain retail category or to a specific retailer.

Liquidity and Capital Resources

Our Parent Company has no capital commitments other than its guarantees of the commitments of our Operating Partnership. The Parent Company will from time to time access the capital markets for the purpose of issuing new equity and will simultaneously contribute all of the offering proceeds to the Operating Partnership in exchange for additional partnership units. All debt is held by our Operating Partnership or by our co-investment partnerships. The following table represents the remaining available capacity under our at the market ("ATM") equity program and unsecured credit facilities:

⁽¹⁾ Net of letters of credit

⁽²⁾ The Company has the option to extend the maturity for two additional six-month periods.

In January 2015, the Parent Company entered into an underwritten public offering for 2.875 million shares of its common stock at a price of \$67.40 per share which will result in gross proceeds of approximately \$193.8 million, before any underwriting discount and offering expenses. In connection with this offering, the Parent Company entered into a forward sale agreement (the "Forward Equity Offering") with an affiliate of Wells Fargo Securities, LLC for the underwritten shares. We expect to settle the offering by the maturity date of January 14, 2016.

The following table summarizes net cash flows related to operating, investing, and financing activities of the Company:

(in thousands)	Nine months ended		
	September 30,		Change
	2015	2014	
Net cash provided by operating activities	\$216,763	217,810	(1,047)

Net (decrease) increase in cash and cash equivalents	\$(89,896)	20,024	(109,920)
Total cash and cash equivalents	\$23,880	100,708	(76,828)

Net cash provided by operating activities:

Net cash provided by operating activities decreased \$1.0 million due to:

\$19.6 million increase in cash from operating income; and,

\$4.5 million increase in operating cash flow distributions from our unconsolidated real estate partnerships as several redevelopment projects were completed and began distributing cash flows; reduced by

\$7.3 million paid in August 2015 as compared to \$4.6 million received in May 2014 upon the settlement of treasury hedges in connection with our bond issuances; and

\$13.2 million net decrease in cash due to timing of cash receipts and payments related to operating activities.

We operate our business such that we expect net cash provided by operating activities will provide the necessary funds to pay our distributions to our common and preferred share and unit holders, which were \$152.0 million and \$145.1 million for the nine months ended September 30, 2015 and 2014, respectively. Our dividend distribution policy is set by our Board of Directors who monitors our financial position. Our Board of Directors recently declared our quarterly dividend on shares of our common stock of \$0.485 per share, payable on December 2, 2015. Future dividends will be declared at the discretion of our Board of Directors and will be subject to capital requirements and availability. We plan to continue paying an aggregate

amount of distributions to our stock and unit holders that, at a minimum, meet the requirements to continue qualifying as a REIT for Federal income tax purposes.

Net cash used in investing activities:

Net cash used in investing activities decreased by \$77.9 million, primarily due to a decrease in shopping center acquisitions during 2015:

(in thousands)	Nine months ended September

Proceeds from sale of securities	22,296	5,344	16,952
Net cash used in investing activities	\$(108,354) (186,300) 77,946

Significant changes in investing and divesting activities include:

• We acquired one operating property during 2015, compared to the acquisition of five shopping centers in the same period of 2014.

• We invested \$9.6 million less on real estate development and capital improvements, as further detailed in a table below.

• We received proceeds of \$93.7 million from the sale of four shopping centers in 2015, compared to \$62.8 million for two shopping centers and five out-parcels during 2014.

• We invested \$18.6 million in our real estate partnerships during 2015 to fund our share of maturing mortgage debt, compared to \$6.0 million to fund redevelopment activities in the same period of 2014.

Distributions from our unconsolidated real estate partnerships include return of capital from sales or financing proceeds. The \$15.0 million received in 2015 is primarily driven by \$12.3 million of proceeds from the sale of one shopping center with a co-investment partner and \$2.3 million of financing proceeds. During 2014, we received \$24.8 million from real estate sales proceeds and \$5.1 million from financing proceeds.

Acquisition of securities and proceeds from sale of securities include investments in equity and debt securities. In 2014, we paid \$14.3 million for the acquisition of AmREIT, Inc. ("AmREIT") common stock. The remaining investing activity primarily relates to our deferred compensation plan and investments in corporate bonds and certificate of deposits.

We plan to continue developing and redeveloping shopping centers for long-term investment purposes. We deployed capital of \$151.0 million for the development, redevelopment, and improvement of our real estate properties as comprised of the following:

(in thousands)	Nine months ended September 30,		
	2015	2014	Change
Capital expenditures:			
Land acquisitions	\$—	26,671	(26,671)
Building and tenant improvements	22,211	25,690	(3,479)
Redevelopments	34,523	27,762	6,761
Developments	78,921	64,574	14,347
Capitalized interest	5,403	5,158	245
Capitalized direct compensation	9,909	10,697	(788)
Real estate development and capital improvements	\$150,967	160,552	(9,585)

There were no land acquisitions during 2015, as compared to the acquisition of four land parcels for \$26.7 million during 2014.

Redevelopment expenditures were higher during 2015 due to the timing, magnitude, and number of projects currently in process. We intend to continuously improve our portfolio of shopping centers through redevelopment which can include adjacent land acquisition, existing building expansion, new out-parcel building construction, and tenant improvement costs. The size and magnitude of each redevelopment project varies with each redevelopment plan.

Development expenditures were higher during 2015 due to the larger size of and progress towards completion of our development projects. At September 30, 2015 and December 31, 2014, we had five and seven development projects, respectively, that were either under construction or in lease up.

We have a staff of employees who directly support our development and redevelopment program. Internal compensation costs directly attributable to these activities are capitalized as part of each project as summarized in the table above. Changes in the level of future development and redevelopment activity could adversely impact results of operations by reducing the amount of internal costs for development and redevelopment projects that may be capitalized. A 10% reduction in development and redevelopment activity without a corresponding reduction in the compensation costs directly related to our development and redevelopment activities could result in an additional charge to net income of \$1.0 million per year.

The following table details our development projects:

Net cash used in financing activities:

Net cash flows used in financing activities increased by \$186.8 million during 2015, primarily from debt repayments, net of proceeds from debt and equity issuances, as follows:

Significant financing activities during the nine months ended September 30, 2015 and 2014 include the following:

• During 2015, we borrowed \$140.0 million on our Line and Term Loan, net of repayments, with no such borrowings during 2014.

• During both 2015 and 2014, we issued new \$250.0 million fixed rate ten-year unsecured public debt, and received proceeds from non-recourse property mortgages.

- During 2015, we used \$430.4 million to repay debt, including \$350.0 million to repay our 5.25% fixed rate ten-year unsecured public debt that matured in August 2015, \$76.0 million to repay three mortgages that matured in 2015, and \$4.4 million for scheduled principal payments.

During 2014 we used \$168.6 million to repay debt, including \$150.0 million to repay our 4.95% fixed-rate ten-year unsecured public debt that matured, \$13.5 million to repay mortgages that matured in 2014, and \$5.1 million for scheduled principal payments.

We endeavor to maintain a high percentage of unencumbered assets. At September 30, 2015, 79.4% of our wholly-owned real estate assets were unencumbered. Such assets allow us to access the secured and unsecured debt markets and to maintain availability on the Line. Our coverage ratio, including our pro-rata share of our partnerships, was 2.7 times and 2.5 times for the trailing four quarters ended September 30, 2015 and 2014, respectively. We define our coverage ratio as earnings before interest, taxes, investment transaction profits net of deal costs, depreciation and amortization (“Core EBITDA”) divided by the sum of the gross interest and scheduled mortgage principal paid to our lenders plus dividends paid to our preferred stockholders.

Through the end of 2016, we estimate that we will require approximately \$390.1 million of cash, including \$131.3 million to complete in-process developments and redevelopments, \$149.7 million to repay maturing debt and fund the partial early redemption of the 2017 notes, and \$109.1 million to fund our pro-rata share of estimated capital contributions to our co-investment partnerships for repayment of debt. If we start new developments or redevelop additional shopping centers, our cash requirements will increase. To meet our cash requirements, we may utilize cash generated from operations, proceeds from the sale of real estate, proceeds from settling our \$193.8 million Forward Equity Offering, up to \$744.1 million in available borrowings from our Line, and when the capital markets are favorable, proceeds from the sale of equity under our remaining \$95.0 million ATM program and the issuance of new long-term debt.

We continuously monitor the capital markets and evaluate our ability to issue new debt, to repay maturing debt or fund our commitments. Based upon the current capital markets, our current credit ratings, and the number of high quality, unencumbered properties that we own which could collateralize borrowings, we currently expect that we will successfully issue new secured or unsecured debt to fund our obligations, as needed.

We have \$400.0 million of fixed rate, unsecured debt maturing June 15, 2017. During October 2015, we notified the trustee that we will redeem \$100.0 million of the 2017 maturing unsecured debt on November 27, 2015. We expect to issue new fixed rate debt in 2017 to repay the remaining \$300.0 million maturity. In order to mitigate the risk of interest rate volatility, we have \$220.0 million of forward starting interest rate swaps to partially hedge any new long-term debt issued in 2017. These interest rate swaps lock in the 10-year treasury rate and swap spread at a weighted average fixed rate of 3.48%, respectively. A current market based credit spread applicable to Regency will be added to the locked in fixed rate at time of issuance that will determine the final bond yield.

Our Line, Term Loan, and unsecured loans require that we remain in compliance with various covenants, which are described in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year

ended December 31, 2014, with the Minimum Tangible Net Worth covenant removed from our Unsecured Credit Facilities. We are in compliance with these covenants at September 30, 2015 and expect to remain in compliance.

Investments in Real Estate Partnerships

At September 30, 2015 and December 31, 2014, we had investments in real estate partnerships of \$321.2 million and \$333.2 million, respectively. The following table is a summary of the unconsolidated combined assets and liabilities of these co-investment partnerships and our pro-rata share:

At September 30, 2015, our investments in real estate partnerships had notes payable of \$1.4 billion maturing through 2025, of which 98.7% had a weighted average fixed interest rate of 5.4%, and the remaining notes payable float over LIBOR and had a weighted average variable interest rate of 1.7%. These loans are all non-recourse, and our pro-rata share was \$490.3 million as of September 30, 2015. As notes payable mature, they will be repaid from proceeds from refinancing and partner capital contributions. We are obligated to contribute our pro-rata share to fund maturities if they are not refinanced. We believe that our partners are financially sound and have sufficient capital or access thereto to fund future capital requirements. In the event that a co-investment partner was unable to fund its share of the capital requirements of the co-investment partnership, we would have the right, but not the obligation, to loan the defaulting partner the amount of its capital call.

Management fee income

In addition to earning our pro-rata share of net income or loss in each of these co-investment partnerships, we receive fees, as shown below:

Results from Operations

Comparison of the three months ended September 30, 2015 to 2014:

Our revenues increased as summarized in the following table:

(in thousands)	Three months ended September 30,		
	2015	2014	Change
Minimum rent	\$ 105,071	98,620	6,451
Percentage rent	486	371	115
Recoveries from tenants	28,294	26,313	1,981
Other income	2,431	2,474	(43
Management, transaction, and other fees	5,786	5,781	5
Total revenues	\$ 142,068	133,559	8,509

Minimum rent increased as follows:

\$3.4 million increase from operations beginning at development properties;

\$550,000 increase due to acquisitions of operating properties; and

- \$4.3 million increase from same properties, of which \$2.3 million relates to redevelopment properties, and \$2.0 million relates to higher rental rates and rent paying occupancy growth (same property includes operating properties owned for the entirety of both calendar year periods being presented, including redevelopments);

reduced by \$1.8 million from the sale of operating properties.

Recoveries from tenants represent reimbursements to us for tenants' pro-rata share of the operating, maintenance, and real estate tax expenses that we incur to operate our shopping centers. Recoveries from tenants increased as follows:

\$537,000 increase from operations beginning at development properties;

\$102,000 increase due to acquisitions of operating properties; and

- \$1.7 million increase in recoveries at same properties, which was driven by an increase in recoverable costs and an increase in our recovery ratio, driven by occupancy improvements;

reduced by \$416,000 from the sale of operating properties.

Changes in our operating expenses are summarized in the following table:

(in thousands)	Three months ended September 30,		
	2015	2014	Change
Depreciation and amortization	\$ 37,032	36,417	615
Operating and maintenance	19,761	18,149	1,612
General and administrative	14,750	14,463	287
Real estate taxes	16,044	14,832	1,212
Other operating expenses	1,880	2,062	(182
Total operating expenses	\$ 89,467	85,923	3,544

Depreciation and amortization costs increased \$615,000 as follows:

\$1.0 million increase from operations beginning at development properties; and

\$443,000 increase at same properties, attributable to recent capital improvements and redevelopments being depreciated; reduced by

\$153,000 from acquired properties; and

38

\$684,000 from the sale of operating properties.

Operating and maintenance costs increased \$1.6 million attributable to the following:

\$516,000 increase related to operations beginning at development properties;

\$768,000 increase related to acquired properties; and

\$856,000 increase at same properties, primarily driven by increases in property management fees, landscaping, and parking lot maintenance costs;

reduced by \$528,000 from the sale of operating properties.

Real estate taxes increased \$1.2 million, due to

\$224,000 increase related to operations beginning at development properties;

\$38,000 increase related to acquired properties; and

\$1.2 million increase at same properties from increased tax assessments;

reduced by \$232,000 from sold properties.

The following table presents the components of other expense (income):

(in thousands)	Three months ended September 30,		
	2015	2014	Change
Interest expense, net			
Interest on notes payable	\$23,552	26,550	(2,998)
Interest on unsecured credit facilities	1,064	858	206
Capitalized interest	(1,388)	(1,886)	498
Hedge expense	2,155	2,260	(105)
Interest income	(284)	(221)	(63)
Interest expense, net	25,099	27,561	(2,462)
Net investment income	1,190	(94)	1,284)
Total other expense (income)	\$26,289	27,467	(1,178)

Our interest expense decreased mainly due to:

repayment of several non-recourse mortgages; and

repayment and new issuances during 2014 and 2015 of fixed rate, ten year, unsecured public debt at overall lower rates and lower balances;

increased by lower capitalized interest, which is based on lower cumulative costs incurred on development and redevelopment projects eligible for interest capitalization during the third quarter as two large development projects completed during 2015.

The \$1.3 million decrease in net investment income is largely related to the change in the fair value of plan assets in the non-qualified deferred compensation plan, which is consistent with the change in plan liabilities included in general and administrative expenses above.

Our equity in income of investments in real estate partnerships decreased as follows:

(in thousands)	Ownership	Three months ended September 30,		
		2015	2014	Change
GRI - Regency, LLC (GRIR)	40.00%	\$4,194	4,357	(163)
Columbia Regency Retail Partners, LLC (Columbia I)	20.00%	377	339	38
Columbia Regency Partners II, LLC (Columbia II)	20.00%	158	181	(23)
Cameron Village, LLC (Cameron)	30.00%	115	140	(25)
RegCal, LLC (RegCal)	25.00%	115	82	33
US Regency Retail I, LLC (USAA)	20.01%	198	85	113
Other investments in real estate partnerships	50.00%	510	529	(19)
Total		\$5,667	5,713	(46)

The following represents the remaining components that comprised net income attributable to the common stockholders and unit holders:

(in thousands)	Three months ended September 30,		
	2015	2014	Change
Income from operations	\$31,979	25,882	6,097
Gain on sale of real estate	27,755	27,558	197
Income attributable to noncontrolling interests	(737)	(232)	(505)
Preferred stock dividends	(5,266)	(5,266)	—
Net income attributable to common stockholders	\$53,731	47,942	5,789
Net income attributable to exchangeable operating partnership units	94	90	4
Net income attributable to common unit holders	\$53,825	48,032	5,793

During the three months ended September 30, 2015, we sold two operating properties for a gain of \$27.8 million, net of taxes, as compared to a gain of \$27.6 million from the four operating properties and two land parcels sold during the three months ended September 30, 2014.

Income attributable to noncontrolling interests increased during the three months ended September 30, 2015 primarily due to a redevelopment completion during 2015 that is owned through a consolidated partnership.

Comparison of the nine months ended September 30, 2015 to 2014:

Our revenues increased as summarized in the following table:

(in thousands)	Nine months ended September 30,		
	2015	2014	Change
Minimum rent	\$308,766	290,935	17,831
Percentage rent	2,593	2,301	292
Recoveries from tenants	87,651	82,000	5,651
Other income	6,554	8,144	(1,590)
Management, transaction, and other fees	18,032	18,353	(321)
Total revenues	\$423,596	401,733	21,863

Minimum rent increased as follows:

\$6.3 million increase from operations beginning at development properties;

\$3.4 million increase due to the acquisitions of operating properties; and

\$12.4 million increase from same properties, of which \$5.6 million relates to redevelopment properties, and \$6.8 million relates to higher rental rates and rent paying occupancy growth;

reduced by \$4.3 million from the sale of operating properties.

Recoveries from tenants represent reimbursements to us for tenants' pro-rata share of the operating, maintenance, and real estate tax expenses that we incur to operate our shopping centers. Recoveries from tenants increased as follows:

\$1.2 million increase from operations beginning at development properties;

\$1.0 million increase due to the acquisitions of operating properties; and

\$4.2 million increase from same properties associated with rent paying occupancy improvements and higher recoverable costs;

reduced by \$757,000 from the sale of operating properties.

Other income, which consists of incidental income earned at our centers, decreased primarily as a result of a large settlement fee earned in the first quarter of 2014.

We earned fees, at market-based rates, for asset management, property management, leasing, acquisition, and financing services that we provided to our co-investment partnerships and third parties as follows:

(in thousands)	Nine months ended September 30,		
	2015	2014	Change
Asset management fees	\$9,880	9,812	68
Property management fees	4,694	4,483	211
Leasing commissions and other fees	3,458	4,058	(600)
Total management, transaction, and other fees	\$18,032	18,353	(321)

Leasing commissions and other fees decreased during 2015 due to lower volume of transactions.

Changes in our operating expenses are summarized in the following table:

(in thousands)	Nine months ended September 30,		Change
	2015	2014	
Depreciation and amortization	\$ 109,249	110,345	(1,096)
Operating and maintenance	61,119	58,152	2,967
General and administrative	46,227	43,883	2,344
Real estate taxes	46,842	44,529	2,313
Other operating expenses	4,825	5,665	(840)
Total operating expenses	\$ 268,262	262,574	5,688

Depreciation and amortization decreased \$1.1 million:

\$2.1 million decrease from property sales and fully depreciated corporate assets; and
 \$1.0 million decrease at same properties attributable to a higher depreciation in 2014 on redevelopments;
 increased by \$2.0 million from new development operations and acquisitions.

Operating and maintenance increased \$3.0 million:

\$1.5 million increase from acquisitions;
 \$1.2 million increase from new development operations; and
 \$1.3 million increase at same properties primarily driven by increases in property management fees, landscaping, and parking lot maintenance costs;
 reduced by \$1.0 million from sold properties.

General and administrative expenses increased \$2.3 million due to \$1.6 million of higher compensation costs, \$800,000 of higher non compensation costs, and \$1.1 million of lower development and leasing overhead capitalization, reduced by \$1.2 million in the value of participant obligations within the deferred compensation plan.

Real estate taxes increased \$2.3 million:

\$594,000 increase from acquisitions;
 \$367,000 increase from new development operations; and
 \$1.6 million increase at same properties;
 reduced by \$246,000 from sold properties.

Other operating expenses decreased \$840,000 primarily due to higher transaction costs in 2014 due to greater property acquisitions and pursuit costs as compared to 2015.

The following table presents the components of other expense (income):

(in thousands)	Nine months ended September 30,		Change
	2015	2014	
Interest expense, net			
Interest on notes payable	\$75,299	78,307	(3,008)
Interest on unsecured credit facilities	2,667	2,779	(112)
Capitalized interest	(5,403)	(5,158)	(245)
Hedge expense	6,656	7,114	(458)
Interest income	(812)	(901)	89)
Interest expense, net	78,407	82,141	(3,734)
Provision for impairment	—	225	(225)

Net investment income	190	(915)	1,105)
Total other expense (income)	\$78,536	81,451	(2,915)

Our interest expense decreased mainly due to:

\$3.0 million decrease in interest on notes payable from the repayment and new issuances during 2014 and 2015 of fixed rate, ten-year, unsecured public debt at overall lower rates and lower balances and repayment of several non-recourse mortgages; and

\$458,000 decrease in hedge expense as our 2014 settled forward starting swaps are amortizing into interest expense to reduce our overall bond interest yield.

During the nine months ended September 30, 2014, we recognized a \$225,000 impairment on three parcels of land. We did not have any impairments during the nine months ended September 30, 2015.

Investment income increased \$1.1 million largely attributable to the change in the fair value of plan assets in the non-qualified deferred compensation plan, which is consistent with the change in plan liabilities included in general and administrative expenses above.

Our equity in income of investments in real estate partnerships decreased as follows:

(in thousands)	Ownership	Nine months ended September 30,		
		2015	2014	Change
GRI - Regency, LLC (GRIR)	40.00%	\$13,524	9,483	4,041

Other investments in real estate partnerships	50.00%	1,456	9,921	(8,465)
Total		\$17,991	22,353	(4,362)

⁽¹⁾ On August 13, 2013, the Fund sold 100% of its interest in its entire portfolio of shopping centers to a third party. The Fund was dissolved following the final distribution of proceeds in 2014.

The \$4.4 million decrease in our equity in income in investments in real estate partnerships for 2015, as compared to 2014, is largely attributed to:

\$4.0 million increase in pro-rata share of income from our GRIR partnership driven by our \$1.1 million pro-rata gain on one operating property sold during 2015 coupled with \$1.9 million higher pro-rata depreciation expense in 2014 due to redevelopment activity;

\$424,000 pro-rata share of impairment losses recognized upon sale of two properties within Columbia II during 2014; \$654,000 of pro-rata gain on one operating property disposed of within RegCal during 2014; and

\$8.5 million decrease within our other investment partnerships driven by the gain on sale of two land parcels and one operating property during 2014.

The following represents the remaining components that comprise net income attributable to the common stockholders and unit holders:

(in thousands)	Nine months ended September 30,		
	2015	2014	Change
Income from operations	\$94,789	80,061	14,728
Gain on sale of real estate	34,215	29,598	4,617
Income attributable to noncontrolling interests	(1,823)	(1,048)	(775)
Preferred stock dividends	(15,797)	(15,797)	—
Net income attributable to common stockholders	\$111,384	92,814	18,570
Net income attributable to exchangeable operating partnership units	204	185	19
Net income attributable to common unit holders	\$111,588	92,999	18,589

During the nine months ended September 30, 2015, we sold four operating properties resulting in a gain of \$34.2 million, compared to a gain of \$29.6 million from the sale of six operating properties and five land parcels during 2014.

Income attributable to noncontrolling interests increased \$775,000 during 2015 from the 2014 acquisition of the Fairfield portfolio coupled with operations from a development beginning operations and a recent redevelopment completed within consolidated partnerships.

Supplemental Earnings Information

We use certain non-GAAP performance measures, in addition to the required GAAP presentations, as we believe these measures are beneficial to us in improving the understanding of the Company's operational results among the investing public. We believe such measures make comparisons of other REITs' operating results to the Company's more meaningful. We continually evaluate the usefulness, relevance, and calculation of our reported non-GAAP performance measures to determine how best to provide relevant information to the public, and thus such reported measures could change.

The following are our definitions of Same Property Net Operating Income, Funds from Operations ("FFO"), and Core FFO, which we believe to be beneficial non-GAAP performance measures used in understanding our operational results:

NOI is calculated as total property revenues (minimum rent, percentage rents, and recoveries from tenants and other income) less direct property operating expenses (operating and maintenance and real estate taxes) from the properties owned by us, and excludes corporate-level income (including management, transaction, and other fees), for the entirety of the periods presented.

Pro-Rata information includes 100% of our consolidated properties plus our ownership interest in our unconsolidated real estate investment partnerships.

Same Property information is provided for operating properties that were owned and operated for the entirety of both calendar year periods being compared and excludes Non-Same Properties and Properties in Development. A Non-Same Property is a property acquired, sold, or development property completed during either calendar year period being compared.

Same Property NOI includes NOI for Same Properties, but excludes straight-line rental income, net of reserves, above and below market rent amortization, banking charges, and other fees. Same Property NOI is a key measure used by management in evaluating the performance of our properties.
