Certificate Pursuant to Rule 24 and Release No. 35-27063
Under the Public Utility Holding Company Act of 1935

On August 20, 1999, the Securities and Exchange Commission ("SEC") issued an order, Release No. 35-27063 in File No. 70-9465 ("Exemption Order"), granting an exemption under Section 3(a) of the Public Utility Holding Company Act of 1935, as amended, to The AES Corporation ("AES") in relation to its proposed acquisition of CILCORP Inc. ("CILCORP"), which has a public-utility subsidiary company, Central Illinois Light Company ("CILCO"). The Exemption Order required AES to file certain certificates (as described in the Exemption Order) under Rule 24 within 60 days of the close of each calendar quarter for a period of three years beginning September 30, 1999 and every six months thereafter. A certificate complying with the Exemption Order is set forth below (as an attachment) for the period ending March 31, 2001. AES is separately filing a certificate in File No. 70-9779 as required by the Commission's order in Release No. 35-27363 in connection with the AES acquisition of IPALCO Enterprises, Inc. ("IPALCO"), which has a public-utility subsidiary company, Indianapolis Power & Light Company ("IPL").

Respectfully submitted,

/s/ Earle H. O'Donnell

CILCORP's electric revenues are allocated between electric generation and electric transmission and distribution activities according to utility rate base. AES generation revenues are derived from the total generation revenues earned by AES subsidiaries times the percentage ownership interest of AES in those subsidiaries.

There has been no change in the amount of generation capacity owned by CILCORP and a 544 MW increase in the amount of generation capacity owned by AES (excluding CILCORP and IPALCO) from 34,226 to 34,770 MW since December 31, 2000. There has been a 23% decrease in the total revenues earned from the capacity owned by AES and CILCORP in the twelve-month period ended March 31, 2001 compared with the twelve-month period ended December 31, 2000. The percentage of total revenues derived from the generation capacity owned by CILCORP has increased from 3% to 4%.

The physical location of the MW capacity added by AES since December 31, 2000 is in Kazakhstan, Panama, China, and Italy.

(1) Includes revenues from electric generating capacity owned by IPALCO.

ITEM (4) PER EXEMPTION ORDER - ELECTRIC TRANSMISSION AND DISTRIBUTION AND GAS DISTRIBUTION:

Electric transmission and distribution and gas distribution assets owned as of March 31, 2001 (millions of dollars):

CILCORP	780
Total AES (excluding CILCORP) (1)	5,954

Total	6,734

Electric transmission and distribution and gas distribution revenues for 12 months ending March 31, 2001 (millions of dollars):

CILCORP	567
AES (excluding CILCORP) (2)	4,147

Total	4,714

CILCORP's electric revenues are allocated between electric generation and electric transmission and distribution activities according to utility rate base. AES transmission and distribution revenues are derived from the total revenues earned by AES transmission and distribution subsidiaries by multiplying these revenues by the percentage ownership interest of AES in those subsidiaries.

The total transmission and distribution assets owned by AES and CILCORP has not changed significantly since December 31, 2000; however, the calculation of total transmission and distribution assets owned by AES has decreased due to an improvement in the method for calculating these revenues (namely, subtracting the generation-related assets owned by such transmission and distribution companies). CILCORP's transmission and distribution assets have decreased slightly while the revenues derived from such assets have increased significantly since December 31, 2000. AES' transmission and distribution assets have been restated to be lower due to the recalculation to subtract generation-related assets owned by such transmission and distribution companies, and the revenues derived from such assets have increased significantly since December 31, 2000. CILCORP's percentage of the total transmission and distribution assets is now estimated at 12% based on the improved calculation method, and CILCORP's percentage of the total revenues from such assets has decreased slightly from 13% to 12% for the twelve-month period ending March 31, 2001 compared to the twelve-month period ending December 31, 2000.
