Report of Independent Public Accountants

To the Employee Benefits Committee of the
Labor Ready, Inc. 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the Labor Ready, Inc. 401(k) Plan as of December 31, 2000 and 1999, and the related statement of changes in net assets available for benefits for the year ended December 31, 2000. These financial statements and the schedules referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2000 and 1999, and the changes in its net assets available for benefits for the year ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting

Edgar Filing: LABOR READY INC - Form 11-K

and Disclosure under the Employee Retirement Income Security Act of 1974. The Fund Information in the statement of changes in net assets available for benefits is presented for the purpose of additional analysis rather than to present the changes in net assets available for benefits of each fund. The supplemental schedules and Fund Information have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Labor Ready, Inc. 401(k) Plan

**Notes to Financial Statements and Schedules
December 31, 2000**

1. Plan Description

The following description of the Labor Ready, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the plan document.

General

The Plan is a defined contribution plan established by Labor Ready, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

All employees of the Company who are 21 years of age or older and who have completed six months of service, as defined, are eligible to participate.

Plan Administration

Aetna Life Insurance and Annuity Company (Aetna) serves as the investment manager and recordkeeper. Prior to August 2, 2000, Fleet Bank served as the trustee. Effective August 2, 2000, ING National Trust serves as plan trustee. The Plan is administered by an employee benefits committee, whose members are appointed by the Compensation Committee of the board of directors of the Company. Certain plan investments are shares of registered investment company funds and a guaranteed interest account managed by Aetna, and, therefore, these transactions qualify as party in investment transactions.

Contributions

Eligible employees may contribute an amount up to 15% of compensation, as defined by the Plan, subject to certain limitations under the IRC. During 2000, the Company provided a discretionary matching contribution in the form of the Company's common stock equal to 25% of each participant's contribution. Participants must be employed as of the end of the year to receive the matching contribution.

Vesting

Participants are fully vested in their contributions and the earnings thereon. Employer matching contributions vest 25% after two years of continuous service, and 25% per year thereafter. In the event of termination of employment prior to the completion of five years of continuous service, for any reason other than death or disability, the participant forfeits their nonvested portion of employer matching contributions.

Forfeitures

Forfeitures are used to reduce future employer contributions. Unallocated forfeitures as of December 31, 2000 and 1999 totaled approximately \$148,600 and \$126,600, respectively. All forfeitures as of December 31, 2000 were used to reduce the 2000 employer contributions which were funded in February of 2001.

Benefits

Upon termination of service, a participant may elect to receive an amount equal to the participant's vested interest in his or her account. The form of payment is a lump-sum distribution or an annuity. Participants are fully vested in the event of death or disability.

Participant Accounts

Participants' accounts are valued on a daily basis based on quoted market prices.

Investment Options

Participants may direct their contributions and any related earnings into the registered investment company funds or guaranteed interest account in 1% increments as listed on the statement of net assets available for benefits and Labor Ready, Inc. Common Stock Fund.

Edgar Filing: LABOR READY INC - Form 11-K

Participants may change their investment elections or transfer amounts between funds daily. Participants may not direct the investment of employer contributions. Under terms of the Plan, employer matching contributions are invested in Labor Ready, Inc. Common Stock Fund, subject to rules under the IRC. Contributions may be temporarily invested in cash pending the transfer to funds.

Loans to Participants

A participant may borrow the lesser of \$50,000 or 50% of his or her vested account balance with a minimum loan amount of \$1,000. Loans are repayable through payroll deductions over periods ranging up to 60 months unless the loan is used to acquire a principal residence, in which case the loan may be issued for a reasonable time, determinable by the plan administrator. The interest rate is determined by the plan administrator based on prevailing market conditions and is fixed over the life of the loan. Interest rates on outstanding loans at December 31, 2000 ranged from 8.75% to 9.5% with maturities through March 2009.

Excess Contributions

Excess contributions represent amounts withheld from participants in excess of IRC limitations, that were refunded to participants subsequent to year end.

Administrative Expenses

The Company pays all administrative expenses of the Plan, except for the administrative costs of mutual funds and loan processing fees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefits are recorded when paid. The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Income Recognition

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Investment Valuation

Investments in shares of registered investment company funds and the Labor Ready, Inc. Common Stock Fund are stated at fair value based on quoted market prices. Cash equivalents are stated at cost, which approximates market value.

Brokerage fees are added to the acquisition cost of assets purchased and subtracted from the proceeds of assets sold.

Net Depreciation in Fair Value of Investments

Net depreciation in fair value of investments represents the change in fair value of assets from one period to the next and realized gains and losses.

Investment Contract with Insurance Company

The American Institute of Certified Public Accountants' Statement of Position 94-4, "Reporting of Investment Contracts Held by Health and Welfare Plans and Defined Contribution Pension Plans," requires investment contracts which do not meet certain criteria, including being benefit responsive, to be recorded at fair value. Investment contracts meeting the criteria may continue to be recorded at contract value.

The Aetna Fixed Account is invested in a fully benefit-responsive investment contract with Aetna Life Insurance Company. The contract is stated in the financial statements at contract value, which is determined based on the cost, plus accumulated interest. Contract value approximates fair value. The average yield and crediting interest rate was approximately 5.10% for 2000. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than 4.60%.

3. Tax Status

Edgar Filing: LABOR READY INC - Form 11-K

The Internal Revenue Service has determined and informed Aetna by a letter that the prototype plan and trust, as adopted by the Plan, are designed in accordance with applicable sections of the IRC.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.
