### **PROXY STATEMENT**

---

#### **INFORMATION CONCERNING SOLICITATION AND VOTING**

##### **General**

The enclosed Proxy is solicited on behalf of the Board of Directors of CIPHERGEN Biosystems, Inc. (the "Company") for use at the Annual Meeting of Stockholders (the "Annual Meeting") to be held at the Company's executive offices on Thursday, June 6, 2002, at 10:00 a.m., local time, and at any adjournment(s) thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Company's principal executive offices are located at the address listed at the top of the page and its telephone number is (510) 505-2100.

The Company's Annual Report, containing financial statements for the fiscal year ended December 31, 2001, is being mailed together with these proxy solicitation materials to all stockholders entitled to vote at the Annual Meeting. This Proxy Statement, the accompanying Proxy and the Company's Annual Report will first be mailed on or about May 3, 2002.

The Company shall provide without charge to each stockholder solicited by these proxy solicitation materials a copy of the Company's Annual Report on Form 10-K, together with the financial statements required to be filed with the Annual Report, upon request of the stockholder made in writing to CIPHERGEN Biosystems, Inc., 6611 Dumbarton Circle, Fremont, California 94555, Attention: Sue Carruthers, Investor Relations.

**Record Date; Share Ownership; Voting**

Stockholders of record at the close of business on April 11, 2002 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting and at any adjournment(s) thereof. At the Record Date, 27,057,056 shares of the Company's Common Stock were issued and outstanding and held of record by approximately 275 stockholders. The holders of those shares are entitled to one vote per share on all matters presented at the Annual Meeting. The inspector of election appointed for the Annual Meeting will separately tabulate the affirmative and negative votes, abstentions and broker non-votes.

**Revocability of Proxies**

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by (A) delivering to the Company at its principal offices (Attention: Sue Carruthers) (i) a written notice of revocation, or (ii) a duly executed proxy bearing a later date, or (B) attending the meeting and voting in person.

**Solicitation of Proxies**

This solicitation of proxies is made by the Company, and all related costs will be borne by the Company. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone or facsimile.

---

**Quorum; Abstentions; Broker Non-Votes**

Holders of a majority of the outstanding shares entitled to vote must be present, in person or by proxy, at the Annual Meeting in order to have the required quorum for the transaction of business. If the shares present, in person and by proxy, at the meeting do not constitute the required quorum, the meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum.

Shares that are voted "FOR," "AGAINST" or "WITHHELD" are treated as being present at the meeting for purposes of establishing a quorum. Shares that are voted "FOR," "AGAINST" or "ABSTAIN" with respect to a matter will also be treated as shares entitled to vote (the "Votes Cast") with respect to such matter.

When proxies are properly dated, executed and returned, the shares represented by such proxies will be voted at the Annual Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, the shares will be voted for (i) the election of the nominees for directors set forth herein; (ii) the ratification of PricewaterhouseCoopers LLP as the Company's independent public accountants for the fiscal year ending December 31, 2002; and (iii) upon such other business as may properly come before the Annual Meeting or any adjournment thereof.

While no definitive statutory or case law authority exists in Delaware as to the proper treatment of abstentions, the Company believes that abstentions should be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the number of Votes Cast with respect to a proposal (other than the election of directors). In the absence of a controlling precedent to the contrary, the Company intends to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote against the proposal.

Broker non-votes (i.e., votes from shares held of record by brokers as to which the beneficial owners have given no voting instructions) will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, but will not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted. Accordingly, broker non-votes will not affect the outcome of the voting on a proposal that requires a majority of the Votes Cast. Thus, a broker non-vote will make a quorum more readily obtainable, but the broker non-vote will not otherwise affect the outcome of the vote on a proposal. With respect to a proposal that requires a majority of the outstanding shares however, a broker non-vote has the same effect as a vote against the proposal.

**Deadline for Receipt of Stockholder Proposals**

Stockholders are entitled to present proposals for action at a forthcoming meeting if they comply with the requirements of the Company's Bylaws and the rules established by the Securities and Exchange Commission (the "SEC"), under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Proposals of stockholders of the Company that are intended to be presented by such stockholders at the Company's 2003 Annual Meeting of Stockholders must be received by the Company no later than January 3, 2003 in order that they may be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

## Edgar Filing: CIPHERGEN BIOSYSTEMS INC - Form DEF 14A

The attached proxy card grants the persons named as proxies discretionary authority to vote on any matter raised at the Annual Meeting that is not included in this Proxy Statement. If a stockholder intends to present a proposal at the 2003 Annual Meeting of Stockholders and the stockholder does not give appropriate notice to the Company on or before March 6, 2003, the persons named as proxies may use their discretionary voting authority to vote on the proposal.

### PROPOSAL ONE

#### ELECTION OF TWO CLASS II DIRECTORS

##### Nominees

The Company's Board of Directors is divided into three classes, with the terms of office of Class I expiring at the 2004 Annual Meeting of Stockholders, Class II expiring at the 2002 Annual Meeting of Stockholders and Class III expiring at the 2003 Annual Meeting of Stockholders. The Company currently has five directors, with two directors in Class I, two directors in Class II and one director in Class III. The terms of office of Class II directors John A. Young and William R. Green will expire at the Annual Meeting.

At each Annual Meeting of Stockholders, the successors to directors whose terms will then expire will be elected to serve from the time of election and qualification until the third annual meeting following election and until their successors have been duly elected and qualified. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of an equal number of directors.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's two nominees named above, who are currently directors of the Company. Each nominee has consented to be named a nominee in the Proxy Statement and to continue to serve as a director if elected. If the nominee becomes unable or declines to serve as a director or if additional persons are nominated at the meeting, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of the nominee listed below if possible (or, if new nominees have been designated by the Board of Directors, in such a manner as to elect such nominees), and the specific nominees to be voted for will be determined by the proxy holders.

The Company is not aware of any reason that the nominees will be unable or will decline to serve as directors. The term of office of each person elected as a director will continue until the Company's 2005 Annual Meeting of Stockholders or until a successor has been elected and qualified. There are no arrangements or understandings between any director or executive officer and any other person pursuant to which he is or was to be selected as a director or officer of the Company.

##### Vote Required

Directors will be elected by a plurality vote of the shares of the Company's Common Stock present or represented and entitled to vote on this matter at the meeting. Accordingly, the candidates receiving the highest number of affirmative votes of shares represented and voting on this proposal at the meeting will be elected directors of the Company. Votes withheld from a nominee and broker non-votes will be counted for purposes of determining the presence or absence of a quorum but, because directors are elected by a plurality vote, will have no impact once a quorum is present. See "Quorum; Abstentions; Broker Non-Votes."

**OPTION GRANTS IN 2001**

The following table sets forth information concerning grants of stock options to each of the Named Officers during 2001. All options granted to these executive officers in 2001 were granted under the 2000 Stock Plan. One-sixtieth (1/60<sup>th</sup>) of the shares subject to each option vests one month after the vesting commencement date, and an additional 1/60<sup>th</sup> of the shares subject to each option vests each month thereafter. The options are exercisable when vested. The percent of the total options set forth below is based on an aggregate of 1,055,100 options granted to employees during 2001. All options were granted at fair market value on the date of grant.

Potential realizable value represents hypothetical gains that could be achieved on the options if exercised at the end of the option term assuming the fair market value of the Common Stock on the date of grant appreciates at 5% and 10% per year over the option term. The assumed 5% and 10% rates of stock price appreciation are provided in accordance with rules of the Securities and Exchange Commission and do not represent our estimate or projection of the Company's future Common Stock price.

**AGGREGATE OPTION EXERCISES IN 2001 AND VALUES AT DECEMBER 31, 2001**

The following table sets forth information concerning exercisable and unexercisable stock options held by the executive officers named in the summary compensation table at December 31, 2001. The value of unexercised in-the-money options is based on the fair market value per share, as of December 31, 2001, of the Company's Common Stock underlying the options minus the actual exercise prices. All options were granted under the Company's 1993 Stock Option Plan or 2000 Stock Plan. Except as otherwise noted, these options vest over 60 months and otherwise conform to the terms of the Company's stock plans.

- (2) Value is determined by subtracting the exercise price of an option from the \$8.00 per share fair market value of the Company's Common Stock as of December 31, 2001.

**Employment And Severance Agreements**

We entered into an employment agreement, dated August 24, 2000, with William E. Rich, Ph.D., our President and Chief Executive Officer. The agreement provides that if the Company is acquired and within 12 months Dr. Rich's employment is terminated or constructively terminated without cause, Dr. Rich will receive severance pay equal to 12 months' salary and all of the options granted to Dr. Rich will immediately vest.

**Director Compensation**

During 2001, our outside directors served without cash compensation. In August 2001, outside directors or the institutions they represent were each awarded non-statutory options for 10,000 shares of our Common Stock, with each option granted vesting monthly over 12 months. In each of August 2000, November 1999, September 1998 and September 1997, outside directors or the institutions they represent were each awarded non-statutory options for 8,600 shares of our Common Stock, with each option granted vesting monthly over 12 months. In March 2000, John A. Young, the

Chairman of our Board, was granted a non-statutory option to acquire 86,000 shares, of which half vested at the date of grant and half vests monthly over 24 months.

During 2002 the Board of Directors determined that it would commence a cash compensation system for outside directors. It is planned that each outside director shall receive, at the outside director's choice, either: (i) payment in the amount of \$2,500 paid quarterly as long as such person continues to act as a director, or (ii) an additional option to purchase a number of additional whole shares of Common Stock, which are determined by the Corporation to have a Black-Scholes valuation on the date of grant approximately equal to \$10,000. In addition, each new outside director shall be granted, on the date of the first meeting of the Board he or she attends, an option to purchase 20,000 shares of Common Stock, vesting monthly over a 24-month period. Each continuing outside director shall be granted an annual option, on the date of each Annual Meeting of Stockholders, to purchase 10,000 shares of our Common Stock, vesting monthly over a 12-month period.

The Company reimburses its directors who are not officers or employees for expenses incurred in attending any Board of Directors or committee meeting. Directors who are also the Company's officers or employees are not compensated for attending Board of Directors or committee meetings.

Employee directors who meet the eligibility requirements may participate in the Company's 2000 Employee Stock Purchase Plan.

**REPORT OF THE COMPENSATION COMMITTEE  
OF THE BOARD OF DIRECTORS**

The Compensation Committee of the Board of Directors reviews and recommends to the Board of Directors for approval the Company's executive compensation policies. The Compensation Committee during 2001 consisted of directors John A. Young and Michael J. Callaghan.

The following is the report of the Compensation Committee of the Board of Directors with respect to the compensation paid to the Company's executive officers during the fiscal year ended December 31, 2001. Actual compensation earned during fiscal 2001 by the Named Officers is shown in the Summary Compensation Table above under "Executive Compensation and Other Matters."

**Compensation Philosophy**

The goal of the Company's compensation policies is to align executive compensation with business objectives and corporate performance, and to attract and retain executives who contribute to the long-term success and value of the Company. Compensation for the Company's executive officers consists of a base salary and potential cash bonus, as well as potential incentive compensation through stock options and stock ownership. The Committee considers the total current and potential long-term compensation of each executive officer in establishing each element of compensation.

**Base Salaries**

The base salary component is designed to compensate executive officers competitively at levels necessary to attract and retain qualified executives in the pharmaceutical and biotechnology industry. The base salary for each officer is set on the basis of personal performance, the salary levels in effect for comparable positions within the Company's principal competitors, and internal comparability considerations. As a general matter, the base salary for each executive officer is initially established through negotiation at the time the officer is hired, taking into account such officer's qualifications, experience, prior salary, and competitive salary information. Year-to-year adjustments to each executive officer's base salary are based upon personal performance for the year and changes in the general level of base salaries of persons in comparable positions within the industry.

**Incentive Bonuses**

The Company has a formal incentive bonus plan pursuant to which the executive officers of the Company are eligible to receive incentive cash compensation based upon achievement of quarterly or annual goals. The amounts of such cash bonuses for executive officers other than the Chief Executive Officer are determined by the Chief Executive Officer, subject to review and approval of the Compensation Committee and the Board of Directors. The amount of any cash bonus for the Chief Executive Officer is determined by the Compensation Committee, subject to the review and approval of the Board of Directors.

**Long-Term Incentives**

The Committee provides the Company's executive officers with long-term incentive compensation through grants of stock options under the Company's 1993 and 2000 stock option plans and the opportunity to purchase stock under the 2000 Employee Stock Purchase Plan (the "Purchase Plan"). The Committee believes that stock options provide the Company's executive officers with the opportunity to purchase and maintain an equity interest in the Company and to share in the appreciation of the value of the Company's Common Stock. The Committee believes that stock options directly motivate an executive to maximize long-term stockholder value. The options also utilize vesting periods (generally five years) that encourage key executives to continue in the employ of the Company. All options granted to executive officers to date have been granted at the fair market value of the

Company's Common Stock on the date of grant. The Committee considers the grant of each option subjectively, considering factors such as the individual performance of the executive officer and the past and anticipated future contribution of the executive officer to the attainment of the Company's long-term strategic performance goals. Long-term incentives granted in prior years are also taken into consideration.

The Company established the Purchase Plan both to encourage employees to continue in the employ of the Company and to motivate employees through ownership interest in the Company. Under the Purchase Plan, employees may purchase Common Stock semi-annually through payroll deductions at a price equal to the lower of 85% of the closing price on the applicable offering commencement date or 85% of the closing price on the applicable purchase date. The Company has reserved 365,000 shares of Common Stock for issuance to employees under the Purchase Plan.

### **Chief Executive Officer Compensation**

The compensation of the Chief Executive Officer is reviewed annually on the same basis as discussed above for all executive officers. In 2001, William E. Rich's base salary was increased from \$225,000 to \$240,000, an increase of 6.7%. Mr. Rich received a \$220,000 bonus in 2002 relative to 2001 performance and a \$200,000 bonus in 2001 relative to 2000 performance. As with other executive officers, Mr. Rich's total compensation was based on the Company's accomplishments and the Chief Executive Officer's contribution thereto.

### **Section 162(M)**

The Board has considered the potential future effects of Section 162(m) of the Internal Revenue Code on the compensation paid to the Company's executive officers. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1.0 million in any taxable year for any of the executive officers named in the Proxy Statement, unless compensation is performance-based. The Company has adopted a policy that, where reasonably practicable, the Company will seek to qualify the variable compensation paid to its executive officers for an exemption from the deductibility limitations of Section 162(m).

In approving the amount and form of compensation for the Company's executive officers, the Committee will continue to consider all elements of the cost to the Company of providing such compensation, including the potential impact of Section 162(m).

### **REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS**

The Board of Directors maintains an Audit Committee comprised of three of the Company's outside directors. The Board of Directors and the Audit Committee believe that the Audit Committee's composition satisfies the rule of the National Association of Securities Dealers, Inc. ("NASD") that governs audit committee composition, including the requirement that audit committee members all be "independent directors" as that term is defined by NASD Rule 4200(a)(14).

The Audit Committee oversees the Company's financial process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the system of internal controls. In fulfilling its oversight responsibilities, the committee reviewed the audited financial statements in the Annual Report to the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2001 with management, including a discussion of the quality of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Board has adopted a written Audit Committee Charter.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the committee under generally accepted auditing standards, including Statement on Auditing Standards No. 61, "Communication with Audit Committees". In addition, the Committee has discussed with the

## Edgar Filing: CIPHERGEN BIOSYSTEMS INC - Form DEF 14A

independent auditors the auditors' independence from management and the Company including the matters in the written disclosures and the letter from the independent auditors required by the Independence Standards Board, Standard No. 1.

The Committee also discussed with the Company's independent auditors the overall scope and results of their audit. The Committee meets periodically with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting. The Chairman of the Audit Committee held three meetings with the auditors in regards to their review of the first three quarterly financial statements for the year ended December 31, 2001. The Committee held two meetings with the auditors in regards to their audit of the quarterly and annual financial statements for the year ended December 31, 2001.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2001 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to stockholder approval, the reappointment of the Company's independent public accountants for the fiscal year ending December 31, 2002.

MEMBERS OF THE AUDIT COMMITTEE

## PERFORMANCE GRAPH

### Corporate Performance Graph

The following graph shows a comparison of cumulative total returns from the effective date of the Company's initial public offering on September 28, 2000 through December 31, 2001 for the Company, the Nasdaq National Market Index and the Nasdaq Biotech Index. The Nasdaq Biotech Index is a capitalization-weighted index designed to measure the performance of all NASDAQ stocks in the biotechnology sector. The graph is presented pursuant to SEC rules. The Company believes that while total stockholder return can be an important indicator of corporate performance, the stock prices of companies like CIPHERGEN are subject to a number of market-related factors other than company performance, such as competitive announcements, mergers and acquisitions in the industry, the general state of the economy and the prices of biopharmaceutical stocks.

Section 16(a) of the Exchange Act requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the SEC. Such officers, directors and ten percent or greater stockholders are also required by SEC rules to furnish the Company with copies of all forms that they file pursuant to Section 16(a). Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons, the Company believes that during fiscal 2001 all executive officers and directors of the Company complied with all applicable filing requirements, except that an amended Form 5 was filed for Matthew J. "Employment and Severance Agreements" and (2) the transactions described below.

During fiscal year 2001, the Company granted 51,600 shares of Ciphergen stock to Stanford Research Systems, Inc. ("SRS") upon the accomplishment of certain milestones as described in a joint development agreement. In addition, SRS is a vendor to the Company and Ciphergen purchased \$372,000 of inventory materials from SRS during the year. William R. Green, a director of the Company, is the President and Chief Executive Officer of SRS.

In 1998, the Company gave two interest-free loans totaling \$230,000 to William E. Rich in connection with his relocation to California. One promissory note in the principal amount of \$200,000 is secured by a deed of trust on Dr. Rich's residence. The other promissory note is unsecured. The notes are repayable on or before December 31, 2003.

Additionally, the Company has notes receivable from four officers in the aggregate amount of \$1.3 million related to the early exercise of stock options. All notes receivable related to the early exercise of options become due immediately upon termination of employment.
