PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Callisto Pharmaceuticals, Inc. (Callisto or the Company) to be voted at the Annual Meeting of stockholders which will be at the Company's offices located at 420 Lexington Avenue, Suite 1609, New York, New York, on , , 2007 beginning at 11:00 a.m., and at any postponements or adjournments thereof on.

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Q: What is the purpose of the Annual Meeting?

A: At our Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting on the cover page of this Proxy Statement, including the election of directors, to approve the potential issuance of up to 45,882,000 shares of our common stock (issuable upon the conversion of 1,147,050 shares of Series B Convertible Preferred Stock and the exercise of 22,941,000 common stock purchase warrants) at a price below fair market value issued in connection with a private placement conducted August 2007, to vote upon and approve an amendment to our Certificate of Incorporation, as amended, to increase the number of authorized shares of common stock from 150,000,000 shares to 225,000,000 shares and to approve the ratification of the appointment of the Company's independent registered public accountants. In addition, management will report on the performance of the Company during fiscal year 2007 and respond to questions from stockholders.

Q: Who is entitled to vote at the meeting?

A: Stockholders of record at the close of business on August , 2007, the record date for the meeting, are entitled to receive notice of and to participate in the Annual Meeting. As of that record date, the Company had outstanding and entitled to vote shares of common stock. The common stock is the only class of stock of Callisto that is outstanding and entitled to vote at the Annual Meeting. If you were a stockholder of record of common stock on that record date, you will be entitled to vote all of the shares that you held on that date at the meeting, or any postponements or adjournments of the meeting. Each outstanding share of Callisto common stock will be entitled to one vote on each matter. Stockholders who own shares registered in different names or at different addresses will receive more than one Proxy card. You must sign and return each of the Proxy cards received to ensure that all of the shares owned by you are represented at the Annual Meeting.

Q: Who can attend the meeting?

A: Only stockholders as of the record date, or their duly appointed proxies, may attend the meeting, and each may be accompanied by one guest. Seating, however, is limited. Admission to the meeting will be on a first-come, first-served basis. Registration will begin at 10 a.m., and seating will begin at 10:30 a.m. Cameras, recording devices and other electronic devices will not be permitted at the meeting.

Edgar Filing: CALLISTO PHARMACEUTICALS INC - Form PRE 14A

Q: Why is the Company soliciting proxies?

A: Because many of our stockholders are unable to personally attend the Annual Meeting, the Board of Directors of Callisto (the Board or the Board of Directors) solicits the enclosed proxy so that each stockholder is given an opportunity to vote. This proxy enables each stockholder to vote on all matters which are scheduled to come before the meeting. When the Proxy is returned properly executed, the stockholder's shares will be voted according to the stockholder's directions. Stockholders are urged to specify their choices by marking the appropriate boxes on the enclosed Proxy card.

Q: What constitutes a quorum?

A: The presence at the meeting, in person or by proxy, of the holders of a majority of the number of shares of common stock issued and on the record date will constitute a quorum permitting the meeting to conduct its business. As noted above, as of the record date, shares

3

of Callisto common stock, representing the same number of votes, were outstanding. Thus, the presence of the holders of common stock representing at least votes will be required to establish a quorum. If you submit a properly executed proxy card, even if you abstain from voting or if you withhold your vote with respect to any proposal, you will be considered present for purposes of a quorum and for purposes of determining voting power present. Because abstentions and withheld votes are considered present for purposes of determining voting power, abstentions and withheld votes have the effect of a vote AGAINST a proposal. If a broker indicates on a proxy that it does not have discretionary authority as to certain shares to vote on a particular matter (broker non-votes), those shares will be considered present for purposes of a quorum but will not be considered present for purposes of determining voting power on that matter.

Q: How do I vote?

A: Callisto is offering you four methods of voting.

- You may indicate your vote on the enclosed proxy card, sign and date the card, and return the card in the enclosed prepaid envelope.
- You may vote by telephone by calling the toll free number that appears on the enclosed proxy card and following the instructions given.
- You may vote via the Internet by following the instructions provided on the enclosed proxy card.
- You may attend the meeting and vote in person.

All shares entitled to vote and represented by a properly completed and executed proxy received before the meeting and not revoked will be voted at the meeting as you instruct in a proxy delivered before the meeting. If you do not indicate how your shares should be voted on a matter, the shares represented by your properly completed and executed proxy will be voted as the Board of Directors recommends on each of the enumerated proposals and with regard to any other matters that may be properly presented at the meeting and all matters incident to the conduct of the meeting. If you are a registered stockholder and attend the meeting, you may deliver your completed Proxy card in person. Street name stockholders who wish to vote at the meeting will need to obtain a proxy form from the institution that holds their shares. All votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Q: Can I vote by telephone or electronically?

A: If you are a registered stockholder (that is, if you hold your stock in certificate form), you may vote by telephone, or electronically through the Internet, by following the instructions included with your Proxy card. If your shares are held in street name, please check your Proxy card or contact your broker or nominee to determine whether you will be able to vote by telephone or electronically. Please follow the voting instructions on the enclosed proxy card.

The deadline for voting by telephone or electronically is 5:00 p.m. (Eastern Daylight Time) on September , 2007.

Q: Can I change my vote after I return my Proxy card?

A: A Proxy may be revoked by giving the Secretary of Callisto written notice of revocation at any time before the voting of the shares represented by the Proxy. A stockholder who attends the meeting may revoke a Proxy at the meeting. Attendance at the meeting will not, by itself, revoke a Proxy.

Q: What are the Board's recommendations?

A: Unless you give other instructions on your Proxy card, the persons named as proxy holders on the Proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with the description of each item in this Proxy Statement. In summary, the Board recommends a vote:

- for election of the nominated slate of directors (see page);
- for approval of the potential issuance of up to 45,882,000 shares of our common stock, \$.0001 par value (issuable upon the conversion of 1,147,050 shares of Series B Convertible Preferred Stock and the exercise of 22,941,000 common stock purchase warrants) at a price below fair market value issued in connection with a private placement conducted August 2007 (see page);
- For an amendment to the Company's Certificate of Incorporation, as amended, to increase the number of authorized shares of common stock from 150,000,000 shares to 225,000,000 shares (see page); and
- for ratification of the appointment of BDO Seidman, LLP as the Company's independent registered public accountants for the fiscal year 2007 (see page)

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

Q: What vote is required to approve each item?

A: The election of the directors of the Company requires the affirmative vote of a plurality of the votes cast by stockholders at the Annual Meeting. A properly executed Proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for the purposes of determining whether there is a quorum.

Approving the potential issuance of up to 45,882,000 shares of our common stock, \$.0001 par value (issuable upon the conversion of 1,147,050 shares of Series B Convertible Preferred Stock and the exercise of 22,941,000 common stock purchase warrants) at a price below fair market value issued in connection with a private placement conducted August 2007 and ratification of the appointment of BDO Seidman, LLP as the Company's independent registered public accountants for fiscal year 2007, will each require the affirmative vote of the holders of at least a majority of the shares of common stock present in person or represented by proxy and entitled to vote at the Annual Meeting.

Approving the amendment of our Certificate of Incorporation will require the affirmative vote, either in person or by proxy, of the holders of a majority of our outstanding shares of common stock.

PROPOSAL NO. 1**ELECTION OF DIRECTORS**

At the Annual Meeting, the stockholders will elect seven directors to serve until the 2008 Annual Meeting of Stockholders or until their successors are elected and qualified. In the event the nominees are unable or unwilling to serve as directors at the time of the Annual Meeting, the proxies will be voted for any substitute nominees designated by the present Board or the proxy holders to fill such vacancy, or for the balance of the nominees named without nomination of a substitute, or the size of the Board will be reduced in accordance with the Bylaws of the Company. The Board has no reason to believe that the persons named below will be unable or unwilling to serve as nominees or as directors if elected.

Assuming a quorum is present, the seven nominees receiving the highest number of affirmative votes of shares entitled to be voted for such persons will be elected as directors of the Company for the ensuing year. Unless marked otherwise, proxies received will be voted FOR the election of the nominees named below. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such a manner as will ensure the election of the nominees listed below, and, in such event, the specific nominees to be voted for will be determined by the proxy holders.

In evaluating potential candidates for director, the Corporate Governance/Nominating Committee considers the entirety of each candidate's credentials.

- high personal and professional ethics and integrity;
- the ability to exercise sound judgment;
- the ability to make independent analytical inquiries;
- a willingness and ability to devote adequate time and resources to diligently perform Board and committee duties; and

In addition to these minimum qualifications, the Corporate Governance/Nominating Committee also takes into account when considering whether to nominate a potential director candidate the following factors:

- whether the person would qualify as an independent director under the listing standards of the Amex;
- the importance of continuity of the existing composition of the Board of Directors to provide long term stability and experienced oversight; and
- the importance of diversified Board membership, in terms of both the individuals involved and their various experiences and areas of expertise.

The Corporate Governance/Nominating Committee will consider director candidates recommended by any stockholder provided such recommendations are submitted in accordance with the procedures set forth below.

Edgar Filing: CALLISTO PHARMACEUTICALS INC - Form PRE 14A

In order to provide for an orderly and informed review and selection process for director candidates, the Board of Directors has determined that stockholders who wish to recommend director candidates for consideration by the Corporate Governance/Nominating Committee must comply with the following:

- the recommendation must be made in writing to the Corporate Secretary, Callisto Pharmaceuticals, Inc., 420 Lexington Avenue, Suite 1609, New York, New York 10170;
- the recommendation must include the candidate's name, home and business contact information, detailed biographical data and qualifications, information regarding any relationships between the candidate and the Company within the last three years and evidence of the recommending person's ownership of the Company's common stock;

- a statement from the stockholder nominee indicating that such nominee wants to serve on the Board and could be considered independent under the Rules and Regulations of the Amex and the Securities and Exchange Commission, as in effect at that time.

All candidates submitted by stockholders will be evaluated by the Corporate Governance/Nominating Committee according to the criteria discussed above and in the same manner as all other director candidates.

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission and American Stock Exchange. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

Based on a review of the copies of such forms received, we believe that during 2006, all filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with, except that a Form 4 with respect to each of Randall Johnson, Stephen Carter, John Brancaccio, Christoph Bruening and Riccardo Dalla-Favera was filed late.

PROPOSAL NO. 2

TO APPROVE THE POTENTIAL ISSUANCE OF UP TO 45,882,000 SHARES OF COMMON STOCK (ISSUABLE UPON THE CONVERSION OF 1,147,050 SHARES OF SERIES B CONVERTIBLE PREFERRED STOCK AND THE EXERCISE OF 22,941,000 COMMON STOCK PURCHASE WARRANTS) AT A PRICE BELOW FAIR MARKET VALUE ISSUED IN CONNECTION WITH A PRIVATE PLACEMENT CONDUCTED AUGUST 2007.

American Stock Exchange Requirements

Edgar Filing: CALLISTO PHARMACEUTICALS INC - Form PRE 14A

In connection with the transactions described below with accredited investors, we are seeking stockholders' approval of the potential issuance of up to 45,882,000 shares of our common stock (issuable upon the conversion of 1,147,050 shares of Series B Convertible Preferred Stock and the exercise of 22,941,000 common stock purchase warrants), which is 115% of the outstanding shares of common stock as of August 1, 2007 (the trading day immediately preceding the date of the initial closing), to the extent required by the American Stock Exchange (AMEX), at a market price below fair market value at the time of issuance and sale (including, if, at that time, the price is also below book value per share). Under Section 713 of the Listing Standards, Policies and Requirements of the AMEX, the sale, issuance, or potential issuance by a company of common stock (or securities convertible into common stock) equal to 20% or more of its currently outstanding shares of common stock, at a price less than the greater of book or market value of our stock requires stockholder approval, provided that stockholder approval is not required for a public offering as defined by the AMEX. Since the conversion price for shares of our common stock into which the Series B Convertible Preferred Stock and the warrants (as described below) could be converted at a price below fair market value in

accordance with the terms of the Series B Convertible Preferred Stock and the warrants, we are seeking approval from you for issuances of common stock underlying the Series B Convertible Preferred Stock and the warrants.

As of August 1, 2007, we had _____ shares of our common stock outstanding.

Summary of the Financing

On August 2, 2007 we entered into a securities purchase agreement, respectively, with accredited investors (the "Investors") for the sale of 1,124,550 shares of Series B Convertible Preferred Stock (the "Series B Preferred Stock"), and 22,491,000 warrants (collectively, the "Warrants"), for aggregate gross proceeds of \$11,245,550. On August 14, 2007, we closed on the sale of an additional 22,500 shares of Series B Preferred Stock and 450,000 Warrants for aggregate gross proceeds of \$225,000. Additionally, we issued warrants to purchase 2,473,900 shares of common stock at \$0.50 per share and 2,473,900 shares of common stock at \$0.70 per share to certain selling agents. The Series B Preferred Stock is convertible into 22,941,000 shares of our common stock at a conversion price of \$0.50 per share and the Warrants are exercisable for 22,941,000 shares of our common stock at an exercise price of \$0.70 per share, in each case subject to anti-dilution adjustments (the "Financing"). Other than pursuant to certain issuances, for the twelve (12) month period beginning on the effective date of the Registration Statement registering the resale of the shares of common stock underlying the Warrants by the Holder, if we at any time while the Series B Preferred Stock is outstanding, shall sell or grant any option to purchase or otherwise dispose of or issue any common stock or common stock equivalents entitling any person to acquire shares of common stock, at an effective price per share less than the then exercise price (such lower price, the "Base Exercise Price", then, the exercise price shall be reduced to an amount equal to the Base Exercise Price.

The Series B Preferred Stock and Warrants were issued at a discount from fair market value of 23% based on the closing sales price on the AMEX for the trading day immediately preceding the closing date.

The Certificate of Designations, Number, Voting Powers, Preferences and Rights of the Series B Preferred Stock and the terms of the Warrants includes a restriction which states that we cannot issue any shares of common stock pursuant to the conversion of the Series B Preferred Stock or the exercise of the Warrants which would result in more than 19.999% of the number of shares of common stock outstanding immediately prior to the original issuance date of the Series B Preferred Stock and Warrants being issued. If we do not obtain shareholder approval, then we may not issue upon conversion of the Series B Preferred Stock and exercise of the Warrants in the aggregate, in excess of 19.999% of the number of shares of common stock outstanding on August 1, 2007 (the trading day immediately preceding August 2, 2007 (the closing date)), or 7,950,935 shares of common stock.

Reasons for the Financing

We are a development stage biopharmaceutical company. Currently, we have no products approved for commercial sale and, to date, we have not generated any revenue. Our ability to generate revenue depends heavily on:

- demonstration in Phase I/IIa and Phase IIb clinical trials that our two product candidates, Atiprimod for the treatment of relapsed multiple myeloma and advanced carcinoid cancer and L-Annamycin for the treatment of relapsed acute leukemia, respectively, are safe and effective;
- the successful development of our other product candidates;
- our ability to seek and obtain regulatory approvals, including with respect to the indications we are seeking;
- the successful commercialization of our product candidates; and
- market acceptance of our products.

All of our existing product candidates will require extensive additional clinical evaluation, regulatory review, significant marketing efforts and substantial investment before they could provide us with any revenue. We do not anticipate that we will generate revenue from the sale of products for the foreseeable future and, as a result, our Board of Directors has determined that obtaining additional capital pursuant to the Financing is critical to our ability to execute our business plan and continue our research, development and commercialization activities.

Furthermore, our operations have consumed substantial amounts of cash since inception. We expect to continue to spend substantial amounts to:

- complete the clinical development of our two lead product candidates, Atiprimod for the treatment of advanced carcinoid cancer and multiple myeloma and L-Annamycin for the treatment of acute leukemia;
- finance the preclinical and clinical development of Guanilib for the treatment of gastrointestinal disorders and diseases;
- continue the development of our other product candidates;
- finance our general and administrative expenses;
- prepare regulatory approval applications and seek approvals for Atiprimod and L-Annamycin and our other product candidates;
- license or acquire additional technologies;
- launch and commercialize our product candidates, if any such product candidates receive regulatory approval; and
- develop and implement sales, marketing and distribution capabilities.

10

We expect that our cash used in operating activities will increase significantly for the next several years. For the years ended December 31, 2006, 2005 and 2004 we used approximately \$8.3 million, \$8.7 million and \$4.7 million in operating activities, respectively.

As of the date of this Proxy Statement, we cannot predict with certainty all of the particular uses for the proceeds from this Financing. The amount and timing of our actual expenditures of the proceeds from this offering will depend on numerous factors, including:

- the rate of progress and cost of our clinical trials, preclinical studies and other discovery, research and development activities;
- the costs of acquiring or investing in product candidates and technologies;
- the costs of filing, prosecuting, defending and enforcing any patent claims and other intellectual property rights; and
- the costs and timing of seeking and obtaining U.S. Food and Drug Administration and other regulatory approvals.

Accordingly, we will retain the discretion to allocate the net proceeds of this Financing as needed.

Effects of the Financing

The Financing will result in a significant increase in the number of shares of our common stock which could be outstanding upon conversion of the Series B Preferred Stock and exercise of the Warrants and, as a result, current stockholders who are not participating in the Financing could own a smaller percentage of our outstanding common stock and, accordingly, a smaller percentage interest in the voting power, liquidation value and aggregate book value of our Company. Additionally, the sale or any resale of the common stock issued upon conversion of the Series B Preferred Stock and the exercise of the Warrants sold in the Financing could cause the market price of our common stock to decline.

Our stockholders may incur dilution of their percentage ownership in the Company as a result of the Financing. Immediately following the closing of the Financing on August 2, 2007, 39,756,661 shares of our common stock and 578,000 shares of Series A Convertible Preferred Stock were outstanding which are convertible into 11,560,000 shares of common stock at \$.50 per share. In addition, warrants to purchase 16,296,620 shares of common stock were outstanding at exercise prices ranging from \$0.50 to \$2.48 per share. Further, stock options to purchase 8,493,707 shares of common stock were outstanding at exercise prices ranging from \$0.66 to \$6.75 per share. Following the closing of the Financing, 1,147,050 shares of Series B Preferred Stock convertible into 22,941,000 shares of common stock at \$0.50 per share and Warrants exercisable for 22,941,000 shares of common stock at \$0.70 per share will be outstanding.

Summary of the Securities Purchase Agreement

The Securities Purchase Agreement is summarized below. A copy of the Securities Purchase Agreement was filed by us as an exhibit to the Current Report on Form 8-K filed with the Securities and Exchange Commission (the "SEC") on August 7, 2007 and incorporated by reference herein. You are encouraged to review the full text of the Securities Purchase Agreement.

The Series B Preferred Stock and Warrants were issued by the Company in a private placement in reliance upon the exemption from registration pursuant to Section 4(2) of the Securities Act and Rule 506 thereunder. The securities may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act.

Pursuant to the terms of the Securities Purchase Agreement, the Company and the investors have made representations and warranties regarding matters that are customarily included in financings of this nature, including, without limitation, representations by each investor that it is an accredited investor as defined in Rule 501(a) and that such investor is acquiring the securities for investment purposes for such investor's own account and not with a view toward distribution of the securities and that such investor understands that the shares of Common Stock issued in the Financing are restricted securities under the Securities Act. In addition, each Investor has represented and warranted that neither it nor any person acting on its behalf, has engaged in any purchases or sales of the Company's securities since the date first contacted by the Company. Further, each Investor has agreed that it will not use the shares of Common Stock issued in the Financing to cover any short sales in the Common Stock of the Company in violation of applicable securities laws. The Securities Purchase Agreement also contains indemnification undertakings by the parties in the event of certain liabilities related to the Financing.

Other Agreements

Pursuant to the terms of a Registration Rights Agreement which was filed by us as an exhibit to the Current Report on Form 8-K filed with the SEC on August 7, 2007, the Company has agreed to file a registration statement (the "Registration Statement") with the SEC to register for resale the shares of common stock underlying the Series B Preferred Stock and the Warrants sold in the Financing. The Company is required to file a Registration Statement within 45 days of August 2, 2007. Subject to certain exceptions, in the event the Registration Statement is not filed within such 45-day period or the Registration Statement is not declared effective within 90 days of August 2, 2007, the Company will be required to pay each investor in the Financing an amount in cash equal to 1% of the stated value of the Series B Preferred Stock for the first 30 days (prorated on a daily basis) after the relevant date and thereafter each subsequent 30 day period (prorated on a daily basis) not to exceed 18% in total in each case until the Registration Statement is filed or declared effective, as applicable.

11

As part of the Financing, certain lead investors (the "Lead Investors") were granted a put option (the "Put") in exchange for their funding commitment which gives them the right to require the Company to redeem their Series B Preferred Stock and 80% of the associated Warrants (the "Redeemable Securities") for the stated value of the Series B Preferred Stock (the "Redemption Price") on 10 days notice in the event, on or before September 30, 2007: (i) the Company's shareholders shall not have approved the Company's potential issuance of more than 20% of the outstanding common stock upon the conversion of the Series B Preferred Stock and Warrants; (ii) AMEX has not approved the listing on notice of issuance of the shares of Company's common stock issuable upon the conversion of the Series B Preferred Stock and the exercise of the Warrants; or (iii) the Common Stock has been de-listed by AMEX. If (i), or (ii) are not satisfied (or (iii) occurs) on or before September 30, 2007, the Company shall immediately provide the Lead Investors with written notice that the Put is exercisable ("Put Trigger Notice"). The Put shall expire upon the earlier of: (A) the Company obtaining the approvals described in clauses (i) and (ii) of the prior sentence (the "Approvals") or (B) the Lead Investors have not exercised the Put right within thirty (30) days of the Put Trigger Notice. In order to protect the Put rights to be granted to the Lead Investors, \$8,480,000 of the proceeds from the sale of the Series B Preferred Stock and Warrants have been placed in escrow and will be held until the Put right expires (in which case the funds will be released to the Company) or the Put rights are exercised (in which case the funds will be released to the Lead Investor(s) exercising such right).

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE POTENTIAL ISSUANCE OF UP TO 45,882,000 SHARES OF OUR COMMON STOCK, \$.0001 PAR VALUE (ISSUABLE UPON THE CONVERSION OF 1,147,050 SHARES OF SERIES B CONVERTIBLE PREFERRED STOCK AND THE EXERCISE OF 22,941,000 COMMON STOCK PURCHASE WARRANTS) AT A PRICE BELOW FAIR MARKET VALUE ISSUED IN CONNECTION WITH A PRIVATE PLACEMENT CONDUCTED AUGUST 2007.

PROPOSAL 3

APPROVAL OF AN AMENDMENT TO THE CERTIFICATE OF INCORPORATION, AS AMENDED, INCREASING THE AUTHORIZED COMMON STOCK FROM 150,000,000 SHARES TO 225,000,000 SHARES

The Board of Directors authorized an amendment to our Certificate of Incorporation, as amended, to increase the number of our authorized shares of common stock. Subject to stockholder approval, Article Four would be amended to read as follows and would be filed with the Delaware Secretary of State:

FOURTH: The Corporation is authorized to issue two classes of stock to be designated, respectively, Common Stock and Preferred Stock. The total number of shares that the Corporation is authorized to issue is two hundred forty five million (245,000,000), of which two hundred twenty five million (225,000,000) shares shall be Common Stock, \$.0001 par value per share, and of which twenty million (20,000,000) shares shall be Preferred Stock, \$.0001 par value per share.

The Preferred Stock may be issued from time to time in one or more series, without further stockholder approval. The Board of Directors of the Corporation is hereby authorized to fix or alter the rights, preferences, privileges and restrictions granted to or imposed upon each series of Preferred Stock, and the number of shares constituting any such series and the designation thereof, or of any of them. The rights, privileges, preferences and restrictions of any such additional series may be subordinated to, *pari passu* with (including, without limitation, inclusion in provisions with respect to liquidation and acquisition preferences, redemption and/or approval of matters by vote), or senior to any of those of any present or future class or series of Preferred Stock or Common Stock. The Board of Directors is also authorized to increase or decrease the number of shares of any series prior or subsequent to the issue of that series, but not below the number of shares of such series then outstanding. In case the number of shares of any series shall be so decreased, the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series.

A copy of the proposed Certificate of Amendment to the Certificate of Incorporation of the Company is attached to this Proxy Statement as Appendix A. The terms of the additional shares of common stock will be identical to those of the currently outstanding shares of common stock. However, because holders of common stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of common stock will reduce the current stockholders' percentage ownership interest in the total outstanding shares of Common Stock. This amendment and the creation of additional shares of authorized common stock will not alter the current number of issued shares. The relative rights and limitations of the shares of common stock will remain unchanged under this amendment.

As of the Record Date, a total of _____ shares of the Company's currently authorized 150,000,000 shares of common stock are issued and outstanding. The increase in the number of authorized but unissued shares of common stock would enable the Company, without further

stockholder approval, to issue shares from time to time as may be required for proper business purposes, such as raising additional

12

capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes.

The proposed increase in the authorized number of shares of common stock could have a number of effects on the Company's stockholders depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company so as to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company. Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. Except as further discussed herein, the Board of Directors is not aware of any attempt, or contemplated attempt, to acquire control of the Company, and this proposal is not being presented with the intent that it be utilized as a type of anti-takeover device.

There are currently no plans, arrangements, commitments or understandings for the issuance of the additional shares of common stock which are to be authorized.

Stockholders do not have any preemptive or similar rights to subscribe for or purchase any additional shares of common stock that may be issued in the future, and therefore, future issuances of common stock may, depending on the circumstances, have a dilutive effect on the earnings per share, voting power and other interests of the existing stockholders.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE PROPOSAL TO AMEND THE CERTIFICATE OF INCORPORATION, AS AMENDED, TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF THE COMMON STOCK FROM 150,000,000 TO 225,000,000.

Compensation Discussion and Analysis

Overview

We compete with many other biotechnology companies in seeking to attract and retain a skilled work force. To meet this challenge, we have developed our compensation structure to enable our management to make decisions regarding our compensation programs, to manage these programs, and to effectively communicate the goals of these programs to our employees and stockholders.

Our compensation philosophy is to offer our employees compensation and benefits that are competitive and that meet our goals of attracting, retaining and motivating highly skilled employees so that we can achieve our financial and strategic objectives.

Utilizing this philosophy, our compensation programs are designed to:

- be market-based and reflect the competitive environment for personnel;
- stress our pay for performance approach to managing pay levels;
- share risks and rewards with employees at all levels;
- be affordable, within the context of our operating expense model;
- align the interests of our employees with those of our stockholders;
- reflect our values; and
- be fairly and equitably administered.

In addition, as we administer our compensation programs, we plan to:

- evolve and modify our programs to reflect the competitive environment and our changing business needs;
- focus on simplicity, flexibility and choice wherever possible;
- openly communicate the details of our programs with our employees and managers to ensure that our programs and their goals are understood; and

- provide our managers and employees with the tools they need to administer our compensation programs.

18

Elements of Our Compensation Program

As a total rewards package, we design our compensation program to enable us to attract and retain talented personnel. The individual elements of our compensation program serve to satisfy this larger goal in specific ways as described below.

We design base pay to provide the essential reward for an employee's work, and is required to be competitive in attracting talent. Once base pay levels are initially determined, increases in base pay are provided to recognize an employee's specific performance achievements. Consistent with our compensation philosophy, we implement a pay for performance approach that provides higher levels of compensation to individual employees whose results merit greater rewards. Our managers typically make performance assessments throughout the year, and provide ongoing feedback to employees, provide resources and maximize individual and team performance levels.

We design equity-based compensation, including stock options, to ensure that we have the ability to retain talent over a longer period of time, and to provide optionees with a form of reward that aligns their interests with those of our stockholders. Employees whose skills and results we deem to be critical to our long-term success are eligible to receive higher levels of equity-based compensation.

We also utilize various forms of variable compensation, including cash bonuses that allow us to remain competitive with other companies while providing upside potential to those employees who achieve outstanding results.

Core benefits, such as our basic health benefits, are designed to provide a stable array of support to employees and their families throughout various stages of their careers, and are provided to all employees regardless of their individual performance levels.

The four key elements of our compensation structure are:

- base pay;
- variable pay;
- equity-based pay; and
- benefits.

Consistent with our compensation philosophy, we have structured each element of our rewards package as follows:

Base Pay

We create a set of base pay structures that are both affordable and competitive in relation to the market. We continuously monitor base pay levels within the market and make adjustments to our structures as needed. In general, an employee's base pay level should reflect the employee's overall sustained performance level and contribution to our company over time. We seek to structure the base pay for our top performers to be aggressive in relation to the market.

Variable Pay

We design our variable pay programs to be both affordable and competitive in relation to the market. We monitor the market and adjust our variable pay programs as needed. Our variable pay programs, such as our bonus program, are designed to motivate employees to achieve overall goals. Our programs are designed to avoid entitlements, to align actual payouts with the actual results achieved and to be easy to understand and administer.

Equity-Based Rewards

We design our equity programs to be both affordable and competitive in relation to the market. We monitor the market and applicable accounting, corporate, securities and tax laws and regulations and adjust our equity programs as needed. Stock options and other forms of equity compensation are designed to reflect and reward a high level of sustained individual performance over time. We design our equity programs to align employees' interests with those of our stockholders.

Benefits Programs

We design our benefits programs to be both affordable and competitive in relation to the market while conforming with local laws and practices. We monitor the market, local laws and practices and adjust our benefits programs as needed. We design our benefits programs to provide an element of core benefits, and to the extent possible, offer options for additional benefits, be tax-effective for employees in each country and balance costs and cost sharing between us and our employees.

Determining the Amount of Each Element of Compensation

Base Pay .. We provide our executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. The Compensation Committee intends to compensate our executive officers competitively within the industry. The Compensation Committee considered the scope of and accountability associated with each executive officer's position and such factors as the performance and experience of each executive officer when setting base salary levels for fiscal year 2006. With respect to executive officers other than Dr. Jacob, who is discussed below, the Compensation Committee targeted base salaries to be competitive with our peers within the biotechnology industry. In some circumstances it is necessary to provide compensation above these levels; these circumstances include the need to retain key individuals, to recognize roles that were larger in scope or accountability than standard market positions and/or to reward individual performance.

Salary levels are typically reviewed annually as part of our performance review process as well as upon a promotion or other change in job responsibility.

Variable Pay .. The Compensation Committee and the executive officer work together to establish targets and goals for the executive officer. Upon completion of the fiscal year, the Compensation Committee assesses the executive officer's performance and with input from management determines the amount of variable pay to be awarded within the parameters of the executive officer's agreement with us.

Equity-Based Pay . The Compensation Committee may provide our executive officers with long-term incentive awards through grants of stock options. The Compensation Committee is responsible for determining who will receive awards, when awards will be granted, the exercise price of each stock option grant, and the number of shares of our common stock subject to each option. The Compensation Committee considers grants of long-term incentive awards to executive officers each fiscal year. Stock options enhance the link between the creation of stockholder value and long-term executive incentive compensation. Stock options provide our executive officers with the opportunity to purchase and maintain an equity interest in our company and to share in the appreciation of the value of our common stock. Additionally, stock options maintain a competitive level of total compensation. The Compensation Committee believes that stock options are inherently performance-based and are a form of at-risk compensation, as the optionee does not receive any benefit unless our stock price rises after the date that the option is granted, thus providing direct incentive for future performance. Stock option award levels are determined based on prevailing market practice and market data and vary among participants based on their positions within our company.

Our stock options typically have annual vesting over a three-year period and a term of ten years, in order to encourage a long-term perspective and to encourage key employees to remain with us. We also use performance based vesting in our option grants. Generally, vesting and exercise rights cease upon termination of employment. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

Timing of Equity Awards

Only the Compensation Committee may approve stock option grants to our executive officers. Stock options are generally granted at predetermined meetings of the Compensation Committee. On limited occasions, grants may occur upon unanimous written consent of the Compensation Committee, which occurs primarily for the purpose of approving a compensation package for newly hired or promoted executive. The exercise price of a newly granted option is the closing price of our common stock on the American Stock Exchange on the date of grant.

Executive Equity Ownership

We encourage our executives to hold a significant equity interest in our company. However, we do not have specific share retention and ownership guidelines for our executives.

Performance-Based Compensation and Financial Restatement

We have not considered or implemented a policy regarding retroactive adjustments to any cash or equity-based incentive compensation paid to our executives and other employees where such payments were predicated upon the achievement of certain financial results that were subsequently the subject of a financial restatement.

Severance and Change in Control Arrangements

Several of our executives have employment and other agreements which provide for severance payment arrangements and/or acceleration of stock option vesting that would be triggered by an acquisition or other change in control of our company. See Employment Agreements and Change of Control Arrangements below for a description of the severance and change in control arrangements for our named executive officers.

Effect of Accounting and Tax Treatment on Compensation Decisions

In the review and establishment of our compensation programs, we consider the anticipated accounting and tax implications to us and our executives.

Section 162(m) of the Internal Revenue Code imposes a limit on the amount of compensation that we may deduct in any one year with respect to our chief executive officer and each of our next four most highly compensated executive officers, unless certain specific and detailed criteria are satisfied. Performance-based compensation, as defined in the Internal Revenue Code, is fully deductible if the programs are approved by stockholders and meet other requirements. We believe that grants of equity awards under our existing stock plans qualify as performance-based for purposes of satisfying the conditions of Section 162(m), thereby permitting us to receive a federal income tax deduction in connection with such awards. In general, we have determined that we will not seek to limit executive compensation so that it is deductible under Section 162(m). However, from time to time, we monitor whether it might be in our interests to structure our compensation programs to satisfy the requirements of Section 162(m). We seek to maintain flexibility in compensating our executives in a manner designed to promote our corporate goals and therefore our compensation committee has not adopted a policy requiring all compensation to be deductible. Our compensation committee will continue to assess the impact of Section 162(m) on our compensation practices and determine what further action, if any, is appropriate.

Beginning on January 1, 2006, we began accounting for stock-based payments including our stock options in accordance with the requirements of FASB Statement 123(R).

Role of Executives in Executive Compensation Decisions

Our board of directors and our Compensation Committee generally seek input from our Chief Executive Officer, Gary S. Jacob, when discussing the performance of, and compensation levels for executives other than himself. The Compensation Committee also works with Dr. Jacob and our Vice President, Finance evaluating the financial, accounting, tax and retention implications of our various compensation programs. Neither Dr. Jacob nor any of our other executives participates in deliberations relating to his or her own compensation.

Chief Executive Officer Compensation for Fiscal Year 2006

On February 16, 2007, Dr. Jacob entered into an Extension and Amendment Agreement with us as approved by the Compensation Committee which extended the term under his employment agreement to June 30, 2009. In addition, pursuant to the agreement, Dr. Jacob was granted 225,000 ten year incentive stock options exercisable at \$0.81 per share of which 75,000 vest on each of December 31, 2007, 2008 and 2009. The Compensation Committee believes the grant of options to Dr. Jacob is a key component of his compensation and an important means of ensuring that as Chief Executive Officer he continues to share significantly in the success of our business with the other stockholders. The Compensation Committee determined that it was appropriate to grant these options for these reasons and due to Dr. Jacob's performance. Dr. Jacob received a salary of \$287,500 for 2006. Dr. Jacob also earned a bonus of \$48,125 for 2006. Dr. Jacob's bonus was earned pursuant to this employment agreement and is based on achieving key performance objectives for our company as approved and measured by the Compensation Committee.

A Change in Control shall be deemed to have occurred if (i) there shall be consummated (A) any consolidation or merger of our company in which we are not the continuing or surviving corporation or pursuant to which shares of our common stock would be converted into cash, securities or other property, other than a merger of our company in which the holders of our common stock immediately prior to the merger have substantially the same proportionate ownership of common stock of the surviving corporation immediately after the merger, or (B) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all or substantially all the assets of our company; or (ii) the stockholders of our company shall approve any plan or proposal for the liquidation or dissolution of our company, (iii) any person (as such term is used in Sections 13(d) and 14(d)(2) of the Securities Exchange Act of 1934 (the Exchange Act)), other than us or any employee benefit plan sponsored by us, shall become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) of our securities representing 20% or more of the combined voting power of our then outstanding securities ordinarily (and apart from rights accruing in special circumstances) having the right to vote in the election of directors, as a result of a tender or exchange offer, open market purchases, privately negotiated purchases or otherwise, or (iv) at any time during a period of two consecutive years, individuals who at the beginning of such period constituted the Board of Directors of our company shall cease for any reason to constitute at least a majority thereof, unless the election or the nomination for election by our stockholders of each new director during such two-year period was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of such two-year period (or in the case that Dr. Jacob is our CEO, in addition if the Board appoints a new CEO during the term of the agreement or substantially reduces the title and authority of Dr. Jacob without his prior consent). Had a Change of Control occurred on December 31, 2006 and the executive had been terminated on that date, Dr. Jacob would have been eligible for total compensation (salary and bonus) for the term of his employment under his employment agreement for the time remaining of such employment term, of \$1,080,000.

We are party to an employment agreement with Bernard Denoyer dated January 15, 2004, pursuant to which Mr. Denoyer serves as our Vice President, Finance and Secretary. Agostino. Mr. D. Agostino will be paid an annual base salary of \$175,000. In addition, Mr. D. Agostino will be eligible to earn an annual cash bonus up to 15% of his annual base salary, plus up to \$25,000 based on meeting performance objectives and bonus criteria, specifically surrounding our corporate development plans to expand our technology and product portfolio. In addition, Mr. D. Agostino's employment agreement provides that in the event there is a change of control of our company and Mr. D. Agostino's employment shall have been terminated within two years after a change in control by him for good reason or by our company and such termination did not occur as a result of (i) death, (ii) disability, (iii) retirement or (iv) termination for cause, Mr. D. Agostino shall only be entitled to all of his unvested stock options immediately and irrevocably vesting and the exercise period of such options will be extended to the later of the longest period permitted by our stock option plans or ten years following termination. The remaining 100,000 options will vest upon the successful in-licensing of certain drug candidates. The fair value of Mr. D. Agostino's unvested options as of December 31, 2006, which would have vested had a Change of Control occurred as of December 31, 2006, was \$342,172. Mr. D. Agostino resigned his position on August 1, 2007.

CONSULTING AGREEMENTS

On January 31, 2006 we entered into a consulting agreement with Dr. Moshe Talpaz, whereby Dr. Talpaz will provide consulting services for our Degrasyns program. Under the agreement Dr. Talpaz will be paid \$10,000 per year and was granted 575,000 10-year options to purchase our common stock at \$1.60 per share. Such options vest based on milestones related to the Degrasyns compounds being developed towards FDA approval. In addition, pursuant to the agreement we issued 75,000 restricted shares of common stock to Dr. Talpaz subject to stockholder approval. The term of the agreement is for the length of time we are developing the Degrasyns platform of compounds in all indications.

On December 27, 2004, we entered into a consulting agreement with Gabriele M. Cerrone, our Chairman of the Board and a principal stockholder. On January 25, 2007, we entered into an Extension and Amendment Agreement with Mr. Cerrone. Additionally, in recognition of the services beyond that required of Mr. Cerrone during the period from July 1, 2006 to January 25, 2007, we paid a bonus to Mr. Cerrone of \$75,000 on April 5, 2007. Mr. Cerrone shall be eligible to earn a cash bonus of up to 22.5% of his base compensation for each twelve month period during the term of the agreement based on meeting performance objectives and bonus criteria

to be mutually identified by Mr. Cerrone and our Board. Under the original agreement, Mr. Cerrone received a grant of 375,000 stock options, all of which have vested.

In the event the agreement is terminated without cause or for good reason, Mr. Cerrone will receive a cash payment equal to the aggregate amount of his annual fee for the then remaining term of the Agreement and all unvested stock options will immediately vest and the exercise period of such options will be extended to the later of the longest period permitted by our stock option plans or ten years following termination. In the event a change of control of the Company occurs, Mr. Cerrone shall be entitled to such compensation upon the subsequent termination of the agreement within two years of the change in control unless such termination is the result of Mr. Cerrone's death, disability or retirement or his termination for cause.

On August 12, 2004, in connection with our L-Annamycin license, we entered into a consulting agreement with Roman Perez-Soler, M.D., for a term concurrent with the L-Annamycin license agreement. In connection therewith Dr. Perez-Soler agreed to be appointed to our Scientific Advisory Board. As consideration for consulting and advisory services Dr. Perez-Soler shall receive a \$30,000 per year consulting fee and 44,000 shares of restricted common stock. In addition, we granted to Dr. Perez-Soler an option to purchase 468,500 shares of common stock at an exercise price of \$3.00 per share.

STOCK OPTION PLANS

We rely on incentive compensation in the form of stock options to retain and motivate directors, executive officers, employees and consultants. Incentive compensation in the form of stock options is designed to provide long-term incentives to directors, executive officers, employees and consultants, to encourage them to remain with us and to enable them to develop and maintain an ownership position in our common stock.

In 1996, we adopted the 1996 Incentive and Non-Qualified Stock Option Plan (the "Plan") for employees, consultants and outside directors to purchase up to 2,000,000 shares of common stock. This Plan was amended in December 2002 to increase the number of shares authorized under the Plan to 10,000,000. The option term for 4,745,042 options outstanding to date under the Plan is ten years from date of grant. The Plan terminated on January 1, 2006 under its original terms and no further options will be granted under the Plan.

On October 20, 2005, our stockholders approved the 2005 Equity Compensation Incentive Plan. The maximum number of shares of common stock with respect to which awards may be granted under the 2005 Equity Plan is 5,000,000. The option term for options granted under the 2005 Equity Plan is ten years from date of grant and there were 4,150,000 options available for future grants as of December 31, 2006.

On October 20, 2005, our stockholders approved our 2005 Directors' Stock Option Plan. The maximum number of shares of common stock with respect to which awards may be granted under the 2005 Directors' Plan is 1,000,000. The option term for options granted under the 2005 Directors' Plan is ten years from date of grant and there are 894,000 option shares available for future grants as of December 31, 2006.

Our 2005 Equity Compensation Incentive Plan authorizes the grant of stock options to directors (excluding outside directors), eligible employees, including executive officers and consultants. The value realizable from exercisable options is dependent upon the extent to which our performance is reflected in the value of our common stock at any particular point in time. Equity compensation in the form of stock options is designed to provide long-term incentives to directors, executive officers and other employees. We approve the granting of options in order to motivate these employees to maximize stockholder value. Generally, vesting for options granted under the stock option plan is determined at the time of grant, and options expire after a 10-year period. Options are generally granted at an exercise price not less than the fair market value at the date of grant. As a result of this policy, directors, executives, employees and consultants are rewarded economically only to the extent that the stockholders also benefit through appreciation in the market. Options granted to employees are based on such factors as individual initiative, achievement and performance. In administering grants to executives, the Compensation Committee of the Board of Directors evaluates each executive's total equity compensation package. The compensation committee generally reviews the option holdings of each of the executive officers, including vesting and exercise price and the then current value of such unvested options. We consider equity compensation to be an integral part of a competitive executive compensation package and an important mechanism to align the interests of management with those of our stockholders.

The options we grant under the 2005 Equity Plan may be either incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or non-statutory stock options at the discretion of the Board of Directors and as reflected in the terms of the written option agreement. None of our stock option plans are qualified deferred compensation plans under Section 401(a) of the Code, and are not subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As of December 31, 2006, we have 2,352,333 stock options outstanding not subject to our stock option plans.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On December 27, 2004 we entered into a consulting agreement with Gabriele M. Cerrone, our Chairman of the Board and a principal shareholder. On January 25, 2007, we entered into an Extension and Amendment Agreement with Mr. Cerrone. The agreement extends the term of the consulting agreement between us and Mr. Cerrone dated as of December 27, 2004 to December 31, 2009. Among other things, the agreement increases Mr. Cerrone's compensation from \$205,000 to \$275,000 per year. In addition, Mr. Cerrone was granted 225,000 ten year non-qualified stock options at an exercise price of \$0.96 per share of which 75,000 vest on each of December 31, 2007, 2008 and 2009. Additionally, in recognition of the services beyond that required of Mr. Cerrone during the period from July 1, 2006 to January 25, 2007, we paid a bonus to Mr. Cerrone of \$75,000 on April 5, 2007. Mr. Cerrone shall be eligible to earn a cash bonus of up to 22.5% of his base compensation for each twelve month period during the term of the agreement based on meeting performance objectives and bonus criteria to be mutually identified by Mr. Cerrone and our Board.

The agreement, the amendment and their respective terms were approved by our Compensation Committee, which consists solely of independent members of the Board.
