Vote Required and Board Recommendation

The three people receiving the largest number of “yes”

Superior Industries International, Inc. 2012 Proxy Statement

votes will be elected as Class I directors. Under California law, since there is no particular percentage of either the outstanding shares or the shares represented at the meeting required to elect a director, abstentions and broker non-votes will have no effect on the election of our Class I directors. Shares subject to such abstentions will be counted and shares subject to broker non-votes will not be counted in determining whether there is a quorum for taking shareholder action under California law and our Restated Bylaws. However, our Corporate Governance Guidelines require that in an uncontested election, any nominee for director who receives a greater number of votes “withheld” from his or her election than votes “for” such election shall promptly tender his or her resignation following certification of the shareholder vote. The Nominating and Corporate Governance Committee and the Board must then decide whether or not to accept the tendered resignation, culminating with a public disclosure explaining the Board’s decision and decision-making process.

Prior to joining us, he was engaged in the oil exploration business for over 20 years as President of Texakota, Inc. and general partner of Texakota Oil Co. Mr. Steven Borick has also served on the Board of Directors of M.D.C. Holdings, Inc., a New York Stock Exchange listed company, for 25 years, since April 1987; he recently announced that he will not stand for re-election when his current term expires on May 21, 2012. Mr. Borick's intimate knowledge of our business and operations provides the Board with company-specific experience and expertise.

CORPORATE GOVERNANCE AND THE BOARD OF DIRECTORS

Selection of Nominees for Director

It is the policy of the Board, as set forth in the Company's Corporate Governance Guidelines, to select director nominees who possess personal and professional integrity, sound business judgment, a willingness to devote the requisite time and energies to their duties as director, and relevant experience and skills to be an effective director in conjunction with the full Board in collectively serving the long-term interests of the Company's shareholders. Board members are evaluated and selected based on their individual merit as well as in the context of the needs of the Board as a whole.

The Nominating and Corporate Governance Committee is responsible for identifying, reviewing, and recommending for the Board's selection qualified individuals to be nominated for election or re-election to the Board, consistent with the criteria set forth in the Company's Corporate Governance Guidelines. The Nominating and Corporate Governance Committee, in conducting such evaluation, may also take into account such other factors as it deems relevant.

The Nominating and Corporate Governance Committee annually reviews the appropriate experience, skills and characteristics required of Board members in the context of the current membership of the Board to determine whether the Board would better be enhanced by the addition of one or more directors. This review includes, among other relevant factors in the context of the perceived needs of the Board at that time, issues of experience, reputation, judgment, diversity and skills. Although the Nominating and Corporate Governance Committee does not have a diversity policy for the selection of nominees for director, the Nominating and Corporate Governance Committee does consider diversity when identifying director nominees. For this purpose, the Nominating and Corporate Governance Committee considers not only race, gender and ethnicity, but also differences in viewpoint, professional and business experience, education and skill, among other criteria.

Prior to nominating an existing director for re-election to the Board, the Nominating and Corporate Governance Committee considers and reviews the existing director's Board and committee meeting attendance and performance, length of Board service, and independence, as well as the experience, skills and contributions that the existing director brings to the Board. Further, the Nominating and Corporate Governance Committee receives disclosures relating to a director's independence and assists the Board in making determinations as to the independence of the directors. The Nominating and Corporate Governance Committee also reviews periodically the composition and structure of the Board as a whole.

From time to time, the Nominating and Corporate Governance Committee may engage outside search firms to assist it in identifying and contacting qualified director candidates.

Any shareholder entitled to vote in the election of directors generally may nominate one or more persons for election as director at a meeting by providing written notice of such shareholder's intent to make such nomination or nominations, either by personal delivery or by United States mail, postage prepaid, to the Corporate Secretary of the Company not later than 120 days in advance of an annual meeting of shareholders, and with respect to an election to be held at a special meeting of shareholders for the election of directors, the close of business on the seventh day following the date on which notice of such meeting is first given to shareholders. A shareholder notice must contain the following information:

- the name and address of the shareholder who intends to make the nomination and of the person or persons to be nominated;
- a representation that the shareholder is a holder of record of stock of the company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;
- a description of all arrangements or understandings between the shareholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the shareholder;
- such other information regarding each nominee proposed by such shareholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC, had the nominee been nominated, or intended to be nominated, by the Board of Directors; and
- the consent of each nominee to serve as a director of the corporation if so elected.

The chairman of the meeting may refuse to acknowledge the nomination of any person not made in compliance with these procedures, and the nomination shall be void.

The Nominating and Corporate Governance Committee recommended the directors nominated by the Board for election at the Annual Meeting. When a member of the

Superior Industries International, Inc. 2012 Proxy Statement

Nominating and Corporate Governance Committee is under consideration for nomination, the nominee typically recuses himself or herself from the discussion and abstains from the voting on the recommendation.

The Company's policies and procedures regarding the selection of director nominees are described in detail in the Company's Corporate Governance Guidelines and the Nominating and Corporate Governance Committee Charter, which are available on the Company's website at <http://www.supind.com/investor/finrpt.aspx>.

Board Leadership Structure and Risk Oversight

As is common practice among public companies in the United States, our Board has appointed the Company's Chief Executive Officer to serve as Chairman of the Board. The Board's leadership structure has combined the positions of Chairman and CEO since the Company was founded, except for a two-year transition period when our founder, Mr. Louis Borick, continued as Chairman and Mr. Steven Borick was our CEO. Mr. Steven Borick has served as Chairman and CEO since May, 2007.

The Board believes that combining the Chairman and CEO roles provides more consistent communication and coordination throughout the organization, which results in a more effective and efficient implementation of corporate strategy and is important in unifying the Company's strategy behind a single vision. In addition, we have found that our CEO is the most knowledgeable member of the Board regarding risks the Company may be facing and, in his role as Chairman, is able to facilitate the Board's oversight of such risks. If a structure was established that required an independent director to serve as Chairman, the Board believes it would impair its ability to select the most qualified individual to serve as Chairman. This would not be in the best interests of the Company and its shareholders.

When Mr. Steven Borick was elected as Chairman, the independent directors of the Board also designated an independent Lead Director. The position of Lead Director is currently held by Ms. Margaret Dano. As Lead Director, Ms. Dano has the authority and responsibility to:

- Preside at the executive sessions of the independent directors;
- Advise the Chairman regarding the agenda, structure, schedule, appropriate length of Board meetings and materials to be provided to directors;
- Assign tasks to appropriate committees in consultation with the Chairman;
- Recommend committee appointments to the Nominating and Corporate Governance Committee;
- Facilitate the annual review of the CEO's performance together with the Chair of the Compensation and Benefits Committee; and
- Serve as an independent point of contact for shareholders.

With the exception of the Chairman, the Lead Director and the remaining six directors are all independent. Thus, more than three-fourths of the Board of Directors consists of independent directors. This independent majority and our governance practices provide an effective and independent oversight of management.

Regarding risk oversight, the Company's internal audit department provides both management and the independent Audit Committee, which discusses and oversees policies with respect to risk assessment and risk management, with ongoing assessments of the Company's risk management processes and system of internal control and the specific risks facing the Company. The Audit Committee reports regularly to the Board, as provided in its charter. In addition, the Audit Committee identifies and requires reporting on areas perceived as potentially posing risk to the Company's business. Furthermore, the Compensation and Benefits Committee oversees the risks relating to the Company's compensation policies and practices and the Nominating and Corporate Governance Committee oversees management development and leadership succession at the Company.

For the foregoing reasons, the Board believes that its leadership structure provides an appropriate balance between the need for strategic leadership by our Chairman and CEO, and the oversight, objectivity and independence of the Lead Director and non-management directors. Further, the Board believes its leadership structure is appropriate given the Company's specific circumstances, the management of risk and the Board's administration of its oversight function.

Committees and Meetings of the Board of Directors; Director Independence

The Board of Directors of the Company held five regularly scheduled meetings in 2011. Each director attended all meetings of the Board of Directors and the committees of the Board on which they served during 2011. In addition to formal meetings, the Board may, from time to time, hold informal telephonic conferences for management to update the Board on new events. These conference calls provide the Board an opportunity to ask questions of management. The conference calls, when they occur, are informal in nature, and do not have an

agenda. No compensation is provided to the Board members for their participation in such calls. Although the Company has no formal policy with regard to Board members' attendance at its annual meeting of shareholders, it is customary for the Company's directors to attend. All of the Company's directors attended the Company's 2011 Annual Meeting of Shareholders. In addition to meeting as a group to review the Company's business, certain members of the Board of Directors also devote their time and talents to certain standing committees. Current committees of the Board of Directors of the Company and the respective members are discussed below.

Audit Committee

The Audit Committee's functions include direct responsibility for:

- appointment, compensation, retention and oversight of the work of any independent registered public accounting firm engaged to audit the Company's financial statements or to perform other audit, review or attestation services for the Company,
- discussing with the independent auditors their independence,
- reviewing and discussing with the Company's independent auditors and management the Company's audited financial statements,
- recommending to the Company's Board of Directors whether the Company's audited financial statements should be included in the Company's Annual Report on Form 10-K for the previous fiscal year, and
- discussing with management the company's risk assessment and risk management practices, including risk relating to the Company's financial statements and financial reporting processes.

The Audit Committee is composed of Sheldon I. Ausman (Committee Chair), Philip W. Colburn, Margaret S. Dano and Mr. Timothy C. McQuay, who was elected as of January 27, 2012. Messrs. Ausman, Colburn and McQuay and Ms. Dano are independent as that term is defined in Section 303A.02 of the New York Stock Exchange's Corporate Governance Rules and the Exchange Act Rules. The Board has determined that Mr. Ausman is an "audit committee financial expert" as defined by SEC rules based upon, among other things, his accounting background and experience. The Audit Committee met four times in 2011. See also *Audit Committee Report* on page 29 in this Proxy Statement.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee's functions include:

- assisting the Board in identifying qualified individuals to become directors,

- recommending to the Board qualified director nominees for election at the annual meeting of shareholders,
- determining membership on Board committees,
- reviewing and recommending amendments to the Corporate Governance Guidelines, and
- oversight of annual self-evaluations by the Board.

The Nominating and Corporate Governance Committee is composed of Margaret S. Dano (Committee Chair), Philip W. Colburn and Francisco S. Uranga. Ms. Dano and Messrs. Colburn and Uranga are independent as that term is defined under the New York Stock Exchange's Corporate Governance Rules. The Nominating and Corporate Governance Committee met three times in 2011.

Compensation and Benefits Committee

The Compensation and Benefits Committee's functions include:

- review and approval of compensation for the Company's officers and key employees,

The Compensation and Benefits Committee consists of V. Bonds Evans (Committee Chair), Sheldon I. Ausman, Michael J. Joyce and Timothy C. McQuay, who was elected as of January 27, 2012. Messrs. Ausman, Evans, Joyce and McQuay are independent as that term is defined under the New York Stock Exchange's Corporate Governance Rules. The Compensation and Benefits Committee met three times during 2011. The Compensation and Benefits Committee may form and delegate authority to subcommittees when it determines that such action is appropriate under the circumstances See also *Compensation Committee Report* on page 19 in this Proxy Statement. Additional information regarding the Compensation and Benefits Committee's processes and procedures for the consideration and determination of executive compensation is provided in the *Compensation Discussion and Analysis* on page 11 in this Proxy Statement.

Other Committees; Committee Charters

In addition to its standing committees, the Board of Directors may on occasion form a committee for a discrete purpose, such as the consideration of the settlement of a lawsuit or the approval of a transaction. The Board of Directors has adopted a written charter for each of the Audit Committee, the Compensation and Benefits Committee, and the Nominating and Corporate Governance Committee, which charters are available on the Company's website at www.supind.com/investor/BOC.aspx.

Non-Management Executive Sessions

Non-management directors meet generally before or after regularly scheduled meetings of the Board of Directors. The Lead Director, Ms. Dano, chairs these sessions.

Communications with Directors

Shareholders and interested parties wishing to communicate directly with the Board of Directors, the Chairman of the Board, the Lead Director, the Chair of any committee, or the non-management directors as a group about matters of general interest to shareholders are welcome to do so by writing the Company's Corporate Secretary at Superior Industries International, Inc., 7800 Woodley Avenue, Van Nuys, California 91406. The Corporate Secretary will forward these communications as directed. Before submitting proposals for consideration at a meeting of shareholders, the Company strongly encourages shareholders to commence a dialogue with the Board of Directors, as the Board may be able to address the shareholder's concerns without the necessity of a shareholder vote.

Corporate Governance Guidelines

The Board believes in sound corporate governance practices and has adopted formal Corporate Governance Guidelines to enhance its effectiveness. Our Board has adopted these Corporate Governance Guidelines in order to ensure that it has the necessary authority and practices in place to fulfill its role of management oversight and monitoring for the benefit of our shareholders. The Corporate Governance Guidelines set forth the practices our Board will follow with respect to, among other areas, director qualification and independence, board and committee meetings, involvement of and access to management, and Chief Executive Officer performance evaluation and succession planning. The Corporate Governance Guidelines are publicly available on the Company's website at:

<http://www.supind.com/investor/CorporateGovernance.aspx>.

Code of Conduct

The Company has adopted a Code of Conduct, a code of ethics that applies to all of the Company's directors, officers and employees. The Code of Conduct is publicly available on the Company's website at <http://www.supind.com/investor/CodeConduct.aspx>. Any amendments to the Code of Conduct or grant of any waiver from a provision of the code to any director or officer will be disclosed on the Company's website within five days of a vote of the Board of Directors or a designated Board committee that such an amendment or waiver is appropriate, and shall otherwise be disclosed as required by applicable law or New York Stock Exchange rules.

Transactions with Related Persons

Policies and Procedures for Review, Approval or Ratification of Related Person Transactions

The Audit Committee, pursuant to the Audit Committee Charter approved by our Board, has oversight for reviewing material transactions, contracts and agreements, including related person transactions. The Audit Committee Charter requires that management of the Company inform the Audit Committee of all related person transactions. In addition, our Code of Conduct requires our directors, officers and employees to report actual and potential conflicts of interest. Directors and officers are required to report such information to the Chairman of the Nominating and Corporate Governance Committee.

Our Board and the Nominating and Corporate Governance Committee annually review any related person transaction involving a director in determining the independence of our directors pursuant to our Corporate Governance Guidelines, SEC rules and the New York Stock Exchange listing standards.

Related Person Transactions

Superior's main office located at 7800 Woodley Avenue, Van Nuys, California, is subleased from The Louis L. Borick Trust and the Nita Borick Management Trust. The trusts are respectively controlled by Mr. Steven Borick, who is a director and CEO of the Company, and Nita Borick, who is the mother of Mr. Steven Borick. The current sublease expires in 2015, and the Company holds two options to renew: one for an additional five-year period, and one for an additional five-year, nine month period. During fiscal year 2011, Superior paid approximately \$424,695 in rentals under the land and building leases. The Company believes this transaction was on terms that are fair to the Company and could have been obtained on similar terms from an unrelated third party.

PROPOSAL 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Last year, as a result of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, the Company's shareholders were provided with their first opportunity to vote to approve, on an advisory (nonbinding) basis, the compensation of the Company's Named Executive Officers (as defined below in Compensation Discussions and Analysis). At the 2011 Annual Meeting of Shareholders, shareholders accounting for over 97% of the shares of Common Stock of the Company that voted at 2011 Annual Meeting voted to approve the compensation of the Company's Named Executive Officers. This year, the Company again seeks your advisory vote and asks that you support the compensation of the Named Executive Officers as disclosed in this proxy statement.

As described in detail under "Compensation Discussion and Analysis," our compensation programs are designed to motivate our executives to create a successful company. We believe that our compensation program, with its balance of short-term incentives and long-term incentives (including equity awards that vest over three to four years) and new share ownership requirements through restricted stock awards, reward sustained performance that is aligned with long-term shareholder interests.

This proposal, commonly known as a "say-on-pay" proposal, gives the Company's shareholders the opportunity to express their views on the compensation of its Named Executive Officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the Company's Named Executive Officers described in this proxy statement.

Accordingly, the Board invites you to review carefully the *Compensation Discussion and Analysis* beginning on page 11 and the tabular and other disclosures on compensation under *Executive Compensation* beginning on page 19, and cast a vote to approve the Company's executive compensation programs through the following resolution:

"Resolved, that shareholders approve the compensation of the Company's Named Executive Officers, as discussed and disclosed in the Compensation Discussion and Analysis, the executive compensation tables, and any narrative executive compensation disclosure contained in this proxy statement."

The say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation and Benefits Committee or the Board of Directors. The Board of Directors and the Compensation and Benefits Committee value the opinions of the Company's shareholders and, to the extent there is any significant vote against the Named Executive Officer compensation as disclosed in this proxy statement, the Board will consider the shareholders'

concerns and the Compensation and Benefits Committee will evaluate whether any actions are necessary to address those concerns.

Vote Required and Board Recommendation

Approval on an advisory basis of this proposal requires the affirmative vote of a majority of shares of Common Stock represented and voting at the Annual Meeting at which a quorum is present, together with the affirmative vote of at least a majority of the required quorum. Shares of Common Stock that are voted “FOR,” “AGAINST” or “ABSTAIN” on the proposal are treated as being present at the Annual Meeting for purposes of establishing the quorum, but only shares of Common Stock voted “FOR” or “AGAINST” are treated as shares of Common Stock “represented and voting” at the Annual Meeting with respect to the proposal. Accordingly, abstentions will be counted for purposes of determining the presence or absence of a quorum for the transaction of business. However, abstentions and broker non-votes will not be counted for purposes of determining the number of shares “represented and voting” with respect to the proposal.

THE SUPERIOR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS

THAT YOU VOTE FOR PROPOSAL 2.

- **Steven J. Borick** – Chairman, Chief Executive Officer and President;
- **Kerry A. Shiba** – Executive Vice President and Chief Financial Officer;

Executive Summary

Our Business. Superior Industries International, Inc. is headquartered in Van Nuys, California. Our principal business is design and manufacture of aluminum road wheels for sale to original equipment manufacturers (“OEM”). We are one of the largest suppliers of cast and forged aluminum wheels to the world’s leading automobile and light truck manufacturers, with wheel manufacturing operations in the United States and Mexico. The Company was founded by Louis L. Borick, who is succeeded by his son, Mr. Steven J. Borick, as the Chairman, Chief Executive Officer and President of the Company.

Our Business Strategy and Evolution of the OEM Industry. Beginning with the third quarter of 2008, the automotive industry was negatively impacted by the continued dramatic shift away from full-size trucks and SUVs caused by continuing high fuel prices, rapidly rising commodity prices and the tightening of consumer credit due to the then deteriorating financial markets. Our OEM customers announced unprecedented restructuring actions, culminating in the bankruptcy reorganizations of Chrysler and GM in 2009.

We took steps to manage our costs and rationalize our production capacity after this downturn in our industry, including closures of manufacturing facilities in Kansas, and California, along with significant workforce reductions in our other North American plants. We continue to strive to increase our operating margins from current operating levels by aligning our plant capacity with industry demand and aggressively implementing cost-saving strategies to enable us to meet customer-pricing expectations.

These cost-saving measures, as well as the turn-around experienced in the North American automobile industry in 2010 and 2011, were significant to our operating and financial results for 2011. However, competitive pricing pressures, difficulties commercializing new product programs and operating issues occurring during sustained high-volume production in 2011, as compared to 2010, resulted in increased production and sales, but declining profitability, as demonstrated by the following:

· Wheel unit shipments increased by 700,000 units to 11.7 million in 2011;

· Total revenues increased \$102.7 million over 2010;

· Gross profit decreased by \$22.1 million to \$67.1 million from a gross profit of \$89.2 million in 2010;

· Although, net income and earnings per share increased to \$67.2 million and \$2.46 per diluted share from net income of \$51.6 million and income per share of \$1.93 in 2010, this included a \$25.2 million tax benefit resulting primarily from released valuation allowances for U.S. and Mexico deferred tax assets; and

- Our closing stock price decreased from \$21.22 on December 31, 2010 to \$16.54 on December 31, 2011.

Reflective of our compensation philosophy of pay for performance, the short- and long-term compensation of our Named Executive Officers in 2011 correlated directly with the decline in our financial performance in 2011 compared to 2010 and the decrease in our stock price during 2011. For example:

For 2010, the annual bonus plans for our CEO and other Named Executive Officers directly correlated to targeted increases in adjusted pretax income, coupled with an individual performance component. For 2011, we changed the metrics in the annual bonus plans for our CEO and other Named Executive Officers to targeted increases in earnings before interest, tax, depreciation and amortization or “EBITDA”, coupled with an individual performance component. We believe that using EBITDA as a financial performance measure in the bonus plans helps to focus management on operational efficiencies that will result in improved financial results, since EBITDA is a measure of core operating performance, without considering matters such as interest income or expense, taxes, or depreciation and amortization, which generally do not impact operational efficiencies.

Similarly, the value of equity awards granted to our Named Executive Officers in 2011 and prior years decreased directly with the decrease in our stock price in 2011, illustrating a close alignment of the

Superior Industries International, Inc. 2012 Proxy Statement

financial interests of management and our other shareholders.

Continuous Improvement in Compensation Practices. Our Compensation and Benefits Committee (the “Compensation Committee”) is mindful of evolving practices in executive compensation and corporate governance. The following are some of our recently-implemented and long-standing compensation practices that we believe contribute to good governance. For example:

We do not provide tax gross-up protection for change in control excise taxes or for any other compensation to our Named Executive Officers.

None of our Named Executive Officers, other than our CEO, has an employment agreement.

The change in control definition contained in our 2008 Equity Incentive Plan, our Executive Change in Control Severance Plan and our CEO Employment Agreement is not a “liberal” definition that would be activated on mere shareholder approval of a transaction.

Our 2008 Equity Incentive Plan expressly prohibits repricing of options or stock appreciation rights (directly or indirectly) without prior shareholder approval.

Our annual incentive plans, including the shareholder-approved CEO Annual Incentive Performance Plan, are performance-based and have appropriate caps on bonus payouts. We have no history or intention of changing performance metrics mid-year.

None of our directors or executive officers engages in hedging activities involving Company stock. Moreover, our insider trading policy expressly prohibits any employee or director from engaging in hedging activities involving Company stock, such as collars, forward sales, equity swaps or other similar arrangements.

Brief Summary of Our Compensation Program for 2011. The following provides a brief overview of our fiscal 2011 compensation program as detailed later in this CD&A:

The main objectives of our compensation program continue to be paying for performance, aligning our Named Executive Officers' interests with those of our shareholders, and attracting and retaining qualified executives who can help us achieve and expand our business objectives.

During 2011, we took the following actions with respect to our executive compensation program: (i) we introduced a new executive change in control severance plan for our Named Executive Officers to help ensure their retention in the event of a change in control of the Company, (ii) we froze our salary continuation plan so that it is closed to new participants, and (iii) we instituted a new short-term incentive program for 2011 to provide annual cash bonuses contingent on the attainment of targeted levels of EBITDA.

The Compensation Committee engaged a compensation consultant in Fall of 2011 to provide in 2012 expertise on program design and implementation. Our Chief Executive Officer also provides input on compensation programs and policies and makes recommendations to the Compensation Committee with regard to compensation for our Named Executive Officers other than himself.

The total direct compensation awarded to our Named Executive Officers for 2011 consisted of base salary, annual cash incentive bonuses, stock options and restricted stock awards.

We encourage alignment of our Named Executive Officers' interests with those of our shareholders through the award of long-term equity grants. In fiscal 2011, our CEO received an equity grant consisting 100% of stock options that vest over four years. Our other Named Executive Officers received equity grants consisting of stock options (ranging from 55.5% to 57.1% of the equity grant) and restricted stock (ranging from 42.9% to 44.5% of the equity grant) which, in each case, vest ratably over a three-year period.

Our CEO has an employment agreement with the Company that was amended on March 18, 2011, to provide him a right to a severance payment of one year's base salary upon his termination without cause (or three years' base salary for involuntary termination within one year following a change in control of the Company). We do not provide a gross up for taxes.

On March 18, 2011, our Board of Directors adopted the Executive Change in Control Severance Plan. This plan helps ensure retention of our Named Executive Officers in the event of a change in control of the Company, and entitles them to a severance payment of two year's base salary, plus annual target bonus, for involuntary termination within two years of a change in control of the Company.

Superior Industries International, Inc. 2012 Proxy Statement

Following a compensation risk assessment, described on page 18, the Compensation Committee determined that the Company's compensation plans, programs and policies do not encourage employees to take risks that are reasonably likely to have a material adverse effect on the Company.

Compensation Philosophy and Objectives

Our executive compensation programs are designed to recruit, retain and motivate experienced and qualified executive talent. They are designed to reward the achievement of annual and long-term strategic goals, with the ultimate objective of creating shareholder value. This results in a significant portion of the compensation paid to the Named Executive Officers being tied to our financial performance and the future value of our common stock. However, we also recognize that we must have the ability to compete successfully for exceptional executives. Therefore, in addition to being strategically focused, it is essential to provide compensation that is competitive when compared to similar positions at comparable companies.

In designing and administering the compensation programs of the Named Executive Officers, the Compensation Committee attempts to strike a balance among the above elements, which are discussed in more detail below. The Compensation Committee considers the pay practices of comparable companies to determine the appropriate pay mix and compensation levels, as well as our own specific short and long-term strategic objectives. The following section describes the various methods the Compensation Committee uses in its design, administration and oversight of the compensation programs for the Named Executive Officers.

Methodology for Establishing Compensation

The Compensation Committee has direct responsibility for making recommendations to the Board regarding the approval, amendment or termination of our executive compensation plans and programs. However, the Compensation Committee establishes the annual compensation of our Chairman and CEO. It also reviews the compensation for our other executive officers and makes recommendations to the Board of Directors. The Compensation Committee has the authority to retain the services of outside advisors and experts.

Consistent with its charter, the Compensation Committee is composed of four directors. Each member of the Compensation Committee is independent, as determined by our Board of Directors and based on the New York Stock Exchange listing standards. Their independence from management allows the Committee members to apply independent judgment when designing and overseeing our compensation program and in making pay decisions.

Setting Executive Compensation

The Compensation Committee is responsible for establishing the annual compensation of our CEO. For the remaining Named Executive Officers and other executives, the CEO recommends compensation levels and specific components of compensation. The Compensation Committee reviews these recommendations and adjusts them as it deems appropriate before approving or recommending any changes to either the CEO or Board of Directors.

As a result of bankruptcies of a number of our historical competitors and automotive OEM suppliers generally, and increased foreign competition, the Compensation Committee is not currently able to identify a direct peer group for comparing the Company's compensation practices. Instead, the Compensation Committee reviews broad-based third-party compensation surveys covering a wide array of public companies, some larger and some smaller than we are, to obtain a general understanding of current compensation practices. In 2011, the Compensation Committee relied primarily on the published surveys of Towers Watson Data Service (for all for-profit organizations with 2,500 employees or more located on the West Coast), Salary.com, Inc. (for durable goods manufacturers with revenues between \$500 million and \$1 billion located either in the state or metropolitan area where the Named Executive Officer is based) and Economic Research Institute (for all industries with revenue of \$1 billion or less in the Named Executive Officers' metropolitan area). These compensation surveys provide valuable data for subjective review and confirmation of the equanimity of the salaries paid to the Named Executive Officers. The data also gives the Compensation Committee valid information concerning market pay practices regarding the pay mix among base salary, annual bonus and long-term incentives. The Compensation Committee may diverge from the survey data to recognize unique situations.

The Compensation Committee is focused on putting more structure and performance orientation into the Company's annual and long-term incentive programs. In 2011, this resulted in changes to the Company's annual incentive plan designed to focus Company management on metrics that promote creation of shareholder value. Specifically, we believe that using EBITDA as a financial performance measure in the bonus plans helps to focus management on operational efficiencies that will result in improved financial results, since EBITDA is a measure of core operating performance, without considering matters such as interest income or expense, taxes, or depreciation

Superior Industries International, Inc. 2012 Proxy Statement

and amortization, which generally do not impact operational efficiencies. Additionally, the Compensation Committee has retained in Fall of 2011 the consulting firm of Farient Advisors LLC to assist the Compensation Committee in evaluating the competitiveness of the Company's executive compensation program and to add greater structure and performance orientation to the Company's equity incentive programs in 2012 by linking opportunity to specific long-term financial objectives consistent with value creation and the Company's business strategy. Farient Advisors LLC also provided incidental compensation consulting services to the Company in late 2011.

2011 Executive Compensation Components

For the fiscal year ended December 25, 2011, the principal components of compensation for Named Executive Officers were:

- Base salary;
- Performance-based annual incentive compensation;
- Long-term equity incentive compensation;
- Retirement and similar benefits; and
- Other benefits.

The Compensation Committee does not use a specific formula for allocating compensation among the various components. Instead, the Compensation Committee considers market pay practices and whether the total compensation package is fair, reasonable and in accordance with the interests of our shareholders.

Base Salary

Base salary provides a fixed element of compensation that competitively rewards the executive's skills, experience and contributions to the Company. The base salary of our CEO was established in his employment agreement effective January 1, 2005, at a minimum of \$750,000. Effective January 1, 2008, the Compensation Committee increased Mr. Steven Borick's annual base salary to \$850,000. Mr. Steven Borick's annual base salary remained at this level for 2011.

For Named Executive Officers other than the CEO, base salary adjustments are based on recommendations of the CEO to the Compensation Committee, taking into account the executive's performance. In setting 2011 salaries, the CEO and the Compensation Committee reviewed the analysis and findings of the compensation consultant, as well as executive officer compensation survey data from Towers Watson Data Service, Salary.com, Inc., and the Economic Research Institute. Compensation data is obtained from these sources to ensure that we continue to reward our

principal executives with competitive compensation.

Base salaries for Named Executive Officers other than the CEO are generally adjusted when deemed necessary to meet market competition or when appropriate to recognize increased responsibilities. The last such adjustment for each of the Named Executive Officers was March 7, 2011, for all Named Executive Officers except Mr. Shiba, whose last adjustment was July 7, 2011. The magnitude of such adjustments ranged from 2.5% to 7.7% in order to meet market competition and recognize increased responsibilities, as well as enhanced performance.

Performance-Based Annual Incentive Compensation

The 2011 short-term incentive programs were designed to provide a closer correlation to Company performance by using EBITDA as a payout metric, coupled with an individual performance component. Mr. Steven Borick, our President and CEO, earned a \$350,000 bonus in 2011 CEO Annual Incentive Performance Plan (the “2011 CEO Bonus Plan”). Under the 2011 CEO Bonus Plan, Mr. Borick was eligible to receive a cash bonus ranging from 35% to 105% of his base salary depending on the Company’s level of achievement of EBITDA goals, set forth below, which were set by the Compensation Committee and approved by our Board of Directors. The 2011 CEO Bonus Plan contained fixed and discretionary components. A fixed amount, expressed as a percentage of base salary, was payable based on the level of EBITDA attained, but could be adjusted downward by 30% at the discretion of the Compensation Committee.

Superior Industries International, Inc. 2012 Proxy Statement

The following table illustrates the minimum and maximum payout opportunities and amount paid under the 2011 CEO Bonus Plan:

* Actual 2011 EBITDA achieved.

In March 2011, the Company instituted a new Annual Incentive Performance Plan to provide annual cash incentives to our Named Executive Officers and other high ranking executives, other than the CEO. Under the Annual Incentive Performance Plan, each Named Executive Officer was eligible to receive a cash bonus ranging from 30% to 40% or more of his base salary depending on the Company's earnings results as compared to the EBITDA target. The Annual Incentive Performance Plan contained fixed and discretionary components. A fixed amount, expressed as a percentage of base salary, was payable based on the level of EBITDA attained. Depending on achievement against pre-specified individual performance goals, the plan administrator may exercise discretion to increase or decrease the bonus earned by up to 20%.

The following table illustrates the payout opportunities and amounts paid under the fixed and discretionary component of the Annual Incentive Performance Plan for 2011:

EBITDA Goal (\$)	% of EBITDA Target	Fixed % of Salary Payable	Maximum Discretionary % of Salary Payable	Fixed % of Salary Earned
-	< 50%	-	-	
60,000,000	50%	12% - 16%	6% - 8%	
69,718,879*	73.4%		9% - 12%

		48%	
	> 150%	36% -	18% - 24%
		48%	

* Actual 2011 EBITDA achieved.

The following table shows the total amounts paid to the Named Executive Officers under the Annual Incentive Performance Plan for 2011, including the discretionary bonus amounts:

Name	Total Amount Paid	Amount Paid as % of Salary
K. Shiba	\$102,000	29.1%
M. O'Rourke	\$107,000	31.2%
P. Kakar	\$52,500	23.7%
R. Earnest	\$67,500	23.6%

For 2011, the Compensation Committee refined the short-term incentive program to use a payout matrix based on EBITDA, which provides for use of a consistent measure over time and allows for more consistent benchmarking. Individual executive targets, expressed as a percentage of salary, will be benchmarked against the market for a specific position, and participant awards will be distributed in direct proportion to the Company's EBITDA achievement, with up to a positive or negative 20% adjustment for individual performance.

Superior Industries International, Inc. 2012 Proxy Statement

The Compensation Committee believes that this type of program reinforces a Company culture based on team contribution towards results and provides a clear line of sight for participants to understand individual rewards.

Long-Term Equity Incentive Compensation

On May 30, 2008, our shareholders approved the 2008 Equity Incentive Plan to achieve four important goals:

- Attract and retain qualified personnel for positions of substantial responsibility,
- Motivate high levels of performance,
- Recognize employee contributions to our success, and
- Align the interests of plan participants with those of our shareholders.

Pursuant to this plan, the Compensation Committee has the authority to approve stock option awards, stock appreciation rights and stock awards in the form of either restricted stock or performance units. In 2010, for the first time, the Compensation Committee approved awards of restricted stock for Company officers, excluding the CEO. All ten officers received the same amount of restricted stock, totaling 4,000 shares each. In 2011, 19 officers and other management employees received restricted stock awards ranging from 750 to 3,000 shares. Stock option awards and restricted stock have been the only long-term equity incentive awards approved. However, the Compensation Committee continues to consider periodically other types of equity awards and re-evaluates whether such awards are consistent with our compensation philosophy and our shareholders' interests.

The decision regarding how many stock options or shares of restricted stock are awarded to each Named Executive Officer is discretionary and is based on a number of factors:

- market pay practices,
- recent performance,
- recent and expected contributions,
- the number and timing of previous stock options awards granted and their exercise price, and
- the total numbers of options to be granted.

Individual equity awards are based on recommendations of the CEO (other than with respect to his own awards), with the input of Human Resources, and then reviewed, adjusted as necessary, and approved by the Compensation Committee. The Compensation Committee considers market pay practices in this determination but does not solely rely on such data to identify the appropriate equity award levels. In granting equity awards, the Compensation

Committee also considers our financial performance without regard to any specified formula.

Stock options awarded in 2011 vest one third per year commencing one year after the grant date. Although the Compensation Committee retains the authority to grant stock option awards using a different vesting schedule, such as performance-based vesting, the Compensation Committee selected time-based vesting for the current awards because of its stronger effect on the retention of executives which is particularly important in the current business environment for the OEM industry.

Restricted stock awards granted in 2011 vest one third per year commencing one year after the grant date. As with stock option awards, the Compensation Committee retains the authority to grant restricted stock using a performance-vesting schedule, but selected time-based vesting because of the stronger retention effect on executives. Because restricted stock continues to have value even if the stock price falls below the grant date value, restricted stock awards have even stronger retention value than stock options, which enjoy higher upside leverage but have no current value if the stock price falls below the exercise price.

The Compensation Committee typically considers equity grants for its Named Executive Officers and other key employees annually. The Committee decided in 2007 to set a fixed date for the issuance of annual equity awards. Thus, equity awards are now approved one week after the release of earnings for the first quarter of the fiscal year, provided that all material information that might impact our stock price has been publicly disclosed. In 2011, our annual equity awards were approved and granted to Named Executive Officers on April 29, 2011. Pursuant to his employment agreement, Mr. Steven Borick was also entitled to an annual stock option grant of 120,000 shares per year, which was granted on March 1, 2011.

For new employees, the Compensation Committee may approve an equity grant on the employee's date of hire or as soon thereafter as is practicable. Further, the Compensation Committee reserves the authority to issue additional equity awards, as it may deem desirable. Pursuant to the 2008 Equity Incentive Plan, the exercise price for all stock options will be set at the closing stock price on the date of grant.

Retirement and Similar Benefits

Prior to 2008, we generally entered into Salary Continuation Agreements with our Named Executive Officers. In 2008, these individual agreements were

Superior Industries International, Inc. 2012 Proxy Statement

subsumed by the Salary Continuation Plan. The Salary Continuation Plan provides that after having reached specified vesting dates and after reaching the age of 65 (or in the event of death while in our employ prior to separation from service), we will pay to the individual, upon ceasing to be employed by us for any reason, a benefit equal to 30% of the individual's final average compensation over the preceding 36 months. For employee participants, final average compensation includes only base salary. The benefit is paid bi-weekly and continues for the longer of 10 years or until death, provided death occurs more than 10 years after the employee's retirement date. The rights of Messrs. S. Borick, O'Rourke and Kakar have vested under the Salary Continuation Plan, while the rights of Mr. Earnest will vest in August 2016. The Salary Continuance Plan was closed to new participants in 2011 and therefore, Mr. Shiba is not a participant.

All employees may participate in our tax-qualified Savings and Retirement Plan which is a 401(k) plan. For fiscal year 2011, we matched 100% of the first 1% of before-tax contributions made to the plan and 50% of such contributions over 1% and up to 6%. However, we did not match employee contributions in excess of the legal limit of \$16,500 in 2011. Commencing January 1, 2008, all Company contributions are vested or will be 100% vested after two years of service.

Other Benefits

We provide our Named Executive Officers with incidental benefits that the Compensation Committee believes are reasonable and consistent with the competitive market. The primary benefits are an automobile allowance and life insurance benefits. In addition, the Named Executive Officers may participate in our health and welfare benefit plans that are available to other executives and employees. Mr. Steven Borick receives an annual car allowance and is permitted personal use of the Company aircraft, as specified in footnote 4 to the **Summary Compensation Table** on page 19.

Change in Control Severance Plan

The Named Executive Officers participate in the Executive Change in Control Severance Plan that was approved by the Compensation Committee on March 18, 2011. Pursuant to this plan, if the employment of a Named Executive Officer is terminated following a change in control, the Named Executive Officer will receive two years' base salary plus the Named Executive Officer's target annual bonus, paid in one lump sum within 60 days of termination. However, this benefit does not apply if the Named Executive Officer is entitled to receive a greater change in control payment under a different plan or agreement. The Company reviewed market practices and determined that the benefits provided pursuant to the Executive Change in Control Severance Plan will support retention efforts and encourage its Named Executive Offices to act in best interest of the shareholders.

There are no other benefits payable in the event of termination or change in control, except that our 2008 Equity Incentive Plan provides that all outstanding equity awards will become fully vested upon the occurrence of a change in control unless the award agreement provides otherwise or the award is assumed by the successor corporation.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (“Code”), limits deductibility of certain compensation for the chief executive officer and the three other executive officers (other than the chief financial officer) who are highest paid and employed at year-end to \$1 million per year. If certain conditions are met, performance-based compensation may be excluded from this limitation. While we do not design our compensation programs solely for tax purposes, we do design our plans to be tax efficient for the Company where possible and where the design would not compromise our compensation philosophy or objectives. For example, consistent with our compensation philosophy, the incentive compensation paid to the CEO and the deductibility of the compensation paid to the other Named Executive Officers in 2011 was not limited by Code Section 162(m).

Risk Assessment of Overall Compensation Program

The Compensation Committee has reviewed with management the design and operation of our incentive compensation arrangements for all managers and executive officers, including the performance objectives and target levels used in connection with incentive awards, for the purpose of assuring that these arrangements do not encourage inappropriate risk taking that could impose unnecessary or excessive risk to the value of our Company or the investments of our shareholders. In connection with such review, the Compensation Committee identified certain internal and external factors that comprise the Company’s primary business risks, and then reviewed the Company’s incentive compensation arrangements for the purpose of identifying any aspects of such programs that might encourage behaviors that could exacerbate the identified business risks. In conducting this assessment, the Compensation Committee considered the performance objectives and target levels used in connection with these incentive awards and also the features of the Company’s compensation program that are designed to mitigate compensation-related risk. Based on such assessment,

Superior Industries International, Inc. 2012 Proxy Statement

the Compensation Committee concluded that the Company's compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on the Company.

(3) Reflects the amounts of the actuarial increase in the present value of each Named Executive Officer's benefits under the Company's Salary Continuation Plan (SCP), determined using the same assumptions used for financial statement reporting purposes, as reflected in Note 9 to the Company's audited financial statements. The rights of Messrs. S. Borick, O'Rourke, and Kakar have vested under the SERP, while the rights of Mr. Earnest will vest in August 2016. Mr. Shiba is not a participant in the SERP, as he was hired shortly before the SERP was closed to new participants in 2011.

(4) The amounts shown generally include matching contributions allocated by the Company to each Named Executive Officer pursuant to the Savings and Retirement Plan, the value attributable to life insurance premiums paid by the Company on behalf of the Named Executive Officers. Mr. S. Borick's other compensation in 2011 also included an annual car allowance totaling \$36,000, and imputed income for the personal use of the Company aircraft totaling \$73,012.

With respect to the personal use of the Company aircraft, the amount required to be reported represents the incremental cost of providing the benefit and not the total cost or the value of the benefit to the recipient. The Company has computed the incremental aircraft cost on a per hour basis by including:

- The cost of fuel, oil, catering expenses and crew travel expenses;
- Landing, parking, flight planning, customs and similar fees;
- The cost of flight-related maintenance; and
- The dollar value of the lost tax deductions for expenses that exceed the amounts reported as income for our Named Executive Officers.

(5) Mr. Shiba was appointed Executive Vice President and Chief Financial Officer ("CFO") of the Company on October 7, 2010. Accordingly, the amounts shown for 2010 represent the various components of compensation since that date.

Each of the restricted stock grants shown in the 2011 Grants of Plan-Based Award Table vests as to one-third of the shares on the first, second and third anniversaries of the grant date.

Employment Agreements

Effective December 31, 2010, we entered into an amended and restated employment agreement with Mr. Steven Borick as President and Chief Executive Officer. The prior employment agreement was effective January 1, 2005 and expired on December 31, 2010. The amended and restated agreement provides for:

- a five year term, with one-year renewal periods,
- equity compensation commencing March 1, 2011, in the form of an annual stock option grant of 120,000 shares per year (until the new long-term incentive plan is implemented), plus the ability to participate in our annual grant, which is discretionary on the part of the Compensation Committee,
- an automobile allowance,
- life insurance, and
- other customary employee benefits.

Pursuant to his employment agreement, if Mr. Borick's employment were terminated by the Company without cause, he would receive one year's base salary (currently \$850,000), payable monthly. The agreement further provided that if his employment were terminated following a change in control, Mr. Borick would receive three year's base salary (i.e., \$2,550,000), paid in one lump sum within 70 days of termination.

Pursuant to the SERP, after having reached specified vesting dates and after reaching the age of 65 (or in the event of death while employed by the Company), the SERP provides for the Company to pay to the individual, upon ceasing to be employed by the Company for any reason, a benefit equal to 30% of the individual's final average compensation over the preceding 36 months. Final average compensation only includes base salary for employees. The benefit is paid weekly and continues for the later of 10 years or until death, provided death occurs more than 10 years following the employee’s retirement date.

“Years of credited service” does not apply to supplemental retirement plans. The rights of Messrs. S. Borick, O’Rourke and Kakar are vested under the SERP and, thus, are entitled to receive such amounts upon retirement. The rights of Mr. Earnest vest in August 2016. Mr. Shiba was appointed Senior Vice President and Chief Financial Officer of the Company on October 7, 2010 and is not a participant in the SERP, which was closed to new participants in early 2011.

Represents the present value of accumulated benefits payable to each of the Named Executive Officers, under the SERP, determined using the same assumptions described in Note 9 to the Company’s audited financial statements for the fiscal year ended December 25, 2011, included in the Company’s Annual Report on Form 10-K, as filed with the SEC.

Nonqualified Deferred Compensation. The Company does not have any nonqualified deferred compensation plans other than the SCP.

Potential Payments Upon Termination of Employment or Change in Control

Employment Agreement with Mr. Borick. As mentioned in the CD&A, we entered into an amended and restated employment agreement with Mr. Borick effective December 31, 2010. Pursuant to his employment agreement, if Mr. Borick's employment were terminated by the Company without cause, he would receive severance equal to one year's base salary, paid in one lump sum. The agreement further provided that if his employment were terminated following a change in control, he would receive severance equal to three year's base salary, paid in one lump sum. For any other terminations, the Company would have had no further obligation to Mr. Borick under his employment agreement other than to pay any accrued compensation and unreimbursed business expenses through the date of termination.

Any payment of severance under the 2010 employment agreement is conditioned on Mr. Borick signing a release of claims and is further conditioned on his compliance with a one year covenant not to solicit the Company's customers or employees and certain covenants of confidentiality and non-disparagement.

Executive Change in Control Severance Plan. On March 18, 2011, the Board of Directors approved the Executive Change in

Superior Industries International, Inc. 2012 Proxy Statement

Control Severance Plan. This plan is designed to retain the Named Executive Officers and ensure alignment of interests with the shareholders. Under this plan, the affected Named Executive officers will receive a severance payment equal to two year's base salary, plus their annual target bonus, in the event of an involuntary termination within two years of a change in control of the Company. Although Mr. Borick is a participant in this Plan, he cannot receive any benefit under this plan if he is entitled to a larger benefit under a different plan or agreement, including his employment agreement. Other than Mr. Borick, none of our Named Executive Officers have an employment or other agreement with the Company that entitles him to severance upon termination of employment before or after a change in control.

Other Arrangements. The Salary Continuation Plan, in which all of our Named Executive Officers other than Mr. Shiba participate, provides salary continuation benefits upon termination of employment due to a change in control. Other than Mr. Earnest, all of the other Named Executive Officers are already vested in the Salary Continuation Plan.

Summary of Potential Termination Payments and Benefits. The following table summarizes the value of the termination payments and benefits that each of our Named Executive Officers would receive if he had terminated employment on December 25, 2011 under the circumstances shown. The amounts shown in the tables do not include accrued but unpaid salary, earned annual bonus for 2011, or payments and benefits to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment, such as distributions of plan balances under our tax-qualified 401(k) plan, and death or disability benefits under our generally available welfare programs. This table also does not include the value of unvested equity awards that vest on a change in control, as those amounts are shown in the next table and are not contingent on a termination of employment.

Represents the actuarially calculated present value of the Named Executive Officer's vested account balance in the Salary Continuation Plan (SCP) as of December 25, 2011, determined using the same assumptions described in Note 9 to the Company's audited financial statements for the fiscal year ended December 25, 2011, included in the Company's Annual Report on Form 10-K, as filed with the SEC. The rights of Messrs. Borick, O'Rourke and Kakar (1) under the SCP are vested and, thus, each such officer is entitled to receive payments under the SCP upon the *later* of age 65 or his separation from service for any reason. The rights of Mr. Earnest under the SCP vest in August 2016 or upon a change in control or his earlier Death or Disability; therefore, if he had terminated employment on December 25, 2011 other than due to Death or Disability, he would not receive any benefit under the SCP.

Superior Industries International, Inc. 2012 Proxy Statement

(2) Mr. Shiba is not a participant in the SCP, which was closed to new participants in 2011.

Change in Control Provisions Under Other Agreements. The Company's 2008 Stock Incentive Plan provides that a change in control occurs upon the occurrence of any of the following: (1) any person becomes the beneficial owner of securities representing 50% or more of the total voting power of the Company's outstanding voting securities; (2) consummation of a sale or disposition by the Company of all or substantially all of its assets; (3) consummation of a merger or consolidation of the Company with any other corporation, unless the Company's shareholders continue to control at least 50% of the total voting power of the successor entity; or (4) the shareholders of the Company approve a plan of complete liquidation of the Company.

The 2008 Stock Incentive Plan provides that, unless otherwise provided in an applicable award agreement, the occurrence of a change in control results in immediate vesting of outstanding equity awards, unless the awards are assumed by the successor company.

The following table shows the total additional value of the equity awards that would be payable to each of the Named Executive Officers under the accelerated vesting provisions of the 2008 Stock Incentive Plan upon the occurrence of a change in control as of December 25, 2011 and assuming that the successor company did not assume the awards.

Stock options are valued based on the excess, (1) if any, of (i) the closing price of our common stock on the New York Stock Exchange on December 23, 2011, the last trading day in our 2011 fiscal year, of \$16.62, over (ii) the exercise price of the option.

The compensation received by Mr. Steven Borick is shown in **Table 1 - Summary Compensation Table** in this Proxy Statement.

From January 1 through March 31, 2011, all non-employee directors of the Company were each compensated, on a (2) pro-rated basis, at the rate of \$36,000 per year for service as directors and \$1,000 for each Board meeting attended. Reflects the aggregate grant date fair value of restricted stock awards granted pursuant to the Company's 2008 Equity Incentive Plan to each non-employee director computed in accordance with FASB ASC 718 and based on the fair market value of the Company's common stock on the date of grant. Non-employee directors also participate in the Company's Equity Incentive Plan, which is described in this Proxy Statement on page 17 under (3) **Compensation Discussion and Analysis – 2011 Executive Compensation Components – Long-Term Equity Incentive Compensation**. The Company has not granted any stock appreciation rights to its non-employee directors, but has granted stock options and restricted stock awards. Grants made to non-employee directors under the Company's Equity Incentive Plan may be made at the same time as grants made to the Company's Named Executive Officers and other key employees.

(4) Reflects the amounts of the actuarial increase in the present value of each non-employee Director's benefits under the Company's SCP, determined using the same assumptions used for financial statement reporting purposes for the fiscal year ended December 25, 2011, as reflected in Note 9 to the Company's audited financial statements for the fiscal year ended December 25, 2011, included in the Company's Annual Report on Form 10-K, as filed with the SEC. The rights of Messrs. Ausman, S. Borick, Colburn, Evans and Joyce under the SERP have vested. The rights of Ms. Dano and Mr. Uranga vested on January 1, 2012. Information regarding the SERP can be found in **Compensation Discussion and Analysis – 2011 Executive Compensation Components – Retirement and Similar**

Benefits in this Proxy Statement. There are no other nonqualified deferred compensation arrangements with the non-employee Directors. The Company has historically entered into Salary Continuation Agreements or a Salary Continuance Plan with its non-employee directors, which provide for the Company to pay to the individual, upon ceasing to serve as a director of the Company for any reason, a monthly benefit up to 30% of the individual's final average compensation over the preceding 36 months. The Salary Continuance Plan was closed to new participants in early 2011. For current participants, the benefit is payable after having reached specified vesting dates and after reaching the age of 65 (or in the event of death while employed by the Company). Benefit payments continue through the later of ten years or, if subsequent to retirement, the individual's death. Final average compensation does not include fees paid for attending Board and committee meetings. The Company also entered into such an agreement with its former CEO and President Mr. Louis L. Borick. Effective March 1, 2007, Mr. Borick began to receive an annual benefit of \$300,000 pursuant to the terms of his Salary Continuation Agreement. Effective as of Mr. Borick's demise on November 28, 2011, his

Superior Industries International, Inc. 2012 Proxy Statement

beneficiaries, which include Mr. Steven Borick now receive these benefits. No other director is currently receiving such benefits.

From January 1, 2005 through December 31, 2009, Mr. Louis Borick received monthly, per the terms of his 1994 Employment Agreement, one-twelfth of his annual base compensation as of December 31, 2004. Commencing (5) January 1, 2010, he began receiving one-half of such amount during each of the months following. Effective as of Mr. Louis Borick's demise on November 28, 2011, this benefit terminated immediately. Mr. Louis Borick's annual base compensation on December 31, 2004 was \$1 million.

As former President, CEO and Chairman of the Board, Mr. Louis Borick also received compensation as set forth in his Services Agreement, dated January 1, 2005, and amended effective March 1, 2007 by his Founding Chairman Services Agreement. The amended Services Agreement continued to provide Mr. Louis Borick the use of a company automobile and medical and dental benefits. Mr. Louis Borick also received an assisted living benefit plus related tax reimbursements on this amount. Effective as of Mr. Louis Borick's demise on November 28, 2011, this benefit terminated immediately.

On January 1, 2005, the Company entered into a Services Agreement with Mr. L. Borick as Chairman of the Board, following the termination of his services as Chief Executive Officer under his 1994 Employment Agreement. The Services Agreement provided annual compensation of \$300,000, automobile allowance, medical and dental benefits, and life insurance. Effective March 1, 2007, Mr. L. Borick's Services Agreement was amended to change his annual compensation from \$300,000 to the same compensation plan applicable to all non-employee Directors. As of that same date, Mr. L. Borick commenced receiving his annual benefits under the SERP, which total \$300,000 per year. Mr. L. Borick's other compensation in 2011 included \$67,229 for healthcare and \$17,750 in automobile costs.

The Audit Committee reviewed and discussed with management our audited financial statements for the fiscal year ended December 25, 2011 and the notes thereto.

The Audit Committee discussed with the Company's independent registered public accounting firm, Deloitte and Touche LLP, the matters required to be discussed by Statement on Auditing Standards ("SAS") No. 61 (Communications with Audit Committees), as amended, and SAS No. 114 (The Auditor's Communication with Those Charged with Governance). The Audit Committee also received and discussed the written disclosures and the letter from the independent registered public accounting firm required by the Public Company Accounting Oversight Board Rule 3526 (Communication with Audit Committees Concerning Independence) and the SEC and has discussed the independent registered public accounting firm's independence from the Company and its management.

Based on the review and discussions referred to above, the Audit Committee recommended to our Board of Directors that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 25, 2011.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires Superior's officers and directors, and persons who beneficially own more than 10% of a registered class of Superior's equity securities, to file reports of beneficial ownership and changes in beneficial ownership on Forms 3, 4 and 5 with the SEC. Officers, directors and greater than 10% beneficial owners are required by SEC regulation to furnish Superior with copies of all Forms 3, 4 and 5 that they file. Based solely on Superior's review of the copies of such forms it has received, including amendments, or written representations from certain reporting persons regarding whether a Form 5 is required for those persons, we believe that all of our officers, directors and greater than 10% beneficial owners timely complied with all filing requirements applicable to them with respect to transactions during fiscal year 2011.
