April 30, 2007

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 20-F

(Mark One)

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR 12(g) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
Date of event requiring this shell company report

For the transition period from _____ to _____

Commission file number _____

EUROSEAS LTD.

(Exact name of Registrant as specified in its charter)

Euroseas Ltd.

(Translation of Registrant's name into English)

Marshall Islands

(Jurisdiction of incorporation or organization)

Aethrion Center, 40 Ag. Konstantinou Street, 151 24 Maroussi Greece

(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class _____ Name of each exchange on which registered _____

Edgar Filing: EUROSEAS LTD. - Form 20-F

Common shares, \$0.03 par value

NASDAQ Global Market

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

Common shares, \$0.03 par value

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

12,620,150

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined by Rule 405 of the Securities Act.

[] Yes [X] No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

[] Yes [X] No

Note - Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

[X] Yes [] No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check One)

Large accelerated filer

Accelerated filer

Non-accelerated filer

Edgar Filing: EUROSEAS LTD. - Form 20-F

FORWARD-LOOKING STATEMENTS

Euroseas Ltd., or the Company, desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. This annual report contains forward-looking statements. These forward-looking statements include information about possible or assumed future results of our operations or our performance. Words such as "expects," "intends," "plans," "believes," "anticipates," "estimates," and variations of such words and similar expressions are intended to identify the forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. These statements involve known and unknown risks and are based upon a number of assumptions and estimates which are inherently subject to significant uncertainties and contingencies, many of which are beyond our control. Actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding:

- o our future operating or financial results;
- o future, pending or recent acquisitions, business strategy, areas of possible expansion, and expected capital spending or operating expenses;
- o drybulk and container shipping industry trends, including charter rates and factors affecting vessel supply and demand;
- o our financial condition and liquidity, including our ability to obtain additional financing in the future to fund capital expenditures, acquisitions and other general corporate activities;
- o availability of crew, number of off-hire days, drydocking requirements and insurance costs;
- o our expectations about the availability of vessels to purchase or the

Edgar Filing: EUROSEAS LTD. - Form 20-F

useful lives of our vessels;

- o our expectations relating to dividend payments and our ability to make such payments;
- o our ability to leverage to our advantage our manager's relationships and reputations in the drybulk and container shipping industry;
- o changes in seaborne and other transportation patterns;
- o changes in governmental rules and regulations or actions taken by regulatory authorities;
- o potential liability from future litigation;
- o global and regional political conditions;
- o acts of terrorism and other hostilities; and
- o other factors discussed in the section titled "Risk Factors."

WE UNDERTAKE NO OBLIGATION TO PUBLICLY UPDATE OR REVISE ANY FORWARD-LOOKING STATEMENTS CONTAINED IN THIS ANNUAL REPORT, OR THE DOCUMENTS TO WHICH WE REFER YOU IN THIS ANNUAL REPORT, TO REFLECT ANY CHANGE IN OUR EXPECTATIONS WITH RESPECT TO SUCH STATEMENTS OR ANY CHANGE IN EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH ANY STATEMENT IS BASED.

Item 3. Key Information

A. Selected Financial Data

SELECTED CONSOLIDATED FINANCIAL DATA

The following information shows selected historical financial data for Euroseas. We derived this information from our audited financial statements for the years ended December 31, 2002, 2003, 2004, 2005 and 2006 included in this annual report. The information is only a summary and should be read in conjunction with our historical financial statements and related notes, and our Management's Discussion and Analysis of Financial Condition and Results of Operations contained elsewhere herein. The historical results included below and elsewhere in this annual report are not indicative of our future performance.

See next page for table of Euroseas Ltd. - Summary of Selected Historical Financials.

G&A Expenses	-	-	-	162	366
Total Operating Expenses	3,467	3,595	4,064	4,223	4,660

(1) In 2004, the estimated scrap value of the vessels was increased from \$170 to \$300 per light ton to better reflect market price developments in the scrap metal market. The effect of this change in estimate was to reduce 2004 depreciation expense by \$1,400,010 and increase 2004 net income by the same amount. In addition, in 2004, the estimated useful life of the vessel m/v Ariel was extended from 28 years to 30 years since the vessel performed drydocking in the current year and it is not expected to be sold until year 2007. The m/v Widar was sold in April 2004. Depreciation expenses for m/v Widar for the year ended December 31, 2004 amounted to \$136,384 compared to \$409,149 in 2003.

(2) This amount reflects a dividend in the amount of \$30,175,223 and a return of capital in the amount of \$16,700,000. The total payment to shareholders made in 2005 is in excess of previously retained earnings because the Company decided to distribute to its original shareholders in advance of going public most of the profits relating to the Company's operations up to that time and to recapitalize the Company. This one-time dividend cannot be considered indicative of future dividend payments and the Company refers you to the other sections in this annual report for a clearer understanding of the Company's dividend policy.

(3) For the definition of calendar days, available days, voyage days and utilization rate see Item 5A-Operating Results.

B. Capitalization and Indebtedness

Not Applicable.

C. Reasons for the Offer and Use of Proceeds

Not Applicable.

D. Risk Factors

Any investment in our stock involves a high degree of risk. You should consider carefully the following factors, as well as the other information set forth in this annual report, before making an investment in our common stock. Some of the following risks relate principally to the industry in which we operate and our business in general. Other risks relate to the securities market for and ownership of our common stock. Any of the risk factors could significantly and negatively affect our business, financial condition, operating results and common stock price. The following risk factors describe the material risks that are presently known to us.

Industry Risk Factors

The cyclical nature of the shipping industry may lead to volatile changes in freight rates which may reduce our revenues and net income.

We are an independent shipping company that operates in the drybulk and container shipping industry. Our profitability is dependent upon the freight rates we are able to charge. The supply of and demand for shipping capacity strongly influences freight rates. The demand for shipping capacity is determined primarily by the demand for the type of commodities carried and the distance that those commodities must be moved by sea. The demand for commodities is affected by, among other things, world and regional economic and political conditions (including developments in international trade, fluctuations in industrial and agricultural production and armed conflicts), environmental concerns, weather patterns, and changes in seaborne and other transportation costs. The size of the existing fleet in a particular market, the number of new

Edgar Filing: EUROSEAS LTD. - Form 20-F

vessel deliveries, the scrapping of older vessels and the number of vessels out of active service (i.e., laid-up, drydocked, awaiting repairs or otherwise not available for hire), determines the supply of shipping capacity, which is measured by the amount of suitable tonnage available to carry cargo. The cyclical nature of the shipping industry may lead to volatile changes in freight rates which may reduce our revenues and net income.

In addition to the prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other operating costs, costs associated with classification society surveys, normal maintenance and insurance coverage, the efficiency and age profile of the existing fleet in the market and government and industry regulation of maritime transportation practices, particularly environmental protection laws and regulations. These factors influencing the supply of and demand for shipping capacity are outside of our control, and we may not be able to correctly assess the nature, timing and degree of changes in industry conditions. Some of these factors may have a negative impact on our revenues and net income.

The value of our vessels may fluctuate, adversely affecting our earnings, liquidity and causing us to breach our secured credit agreements.

The market value of our vessels can fluctuate significantly. The market value of our vessels may increase or decrease depending on the following factors:

- o general economic and market conditions affecting the shipping industry;
- o supply of drybulk, container and multipurpose vessels;
- o demand for drybulk, container and multipurpose vessels;
- o types and sizes of vessels;
- o other modes of transportation;
- o cost of newbuildings;
- o new regulatory requirements from governments or self-regulated organizations; and
- o prevailing level of charter rates.

As vessels grow older, they generally decline in value. Due to the cyclical nature of the drybulk and container shipping industry, if for any reason we sell vessels at a time when prices have fallen, we could incur a loss and our business, results of operations, cash flow, financial condition and ability to pay dividends could be adversely affected.

In addition, we periodically re-evaluate the carrying amount and period over which long-lived assets are depreciated to determine if events have occurred which would require modification to their carrying values or their useful lives. A determination that a vessel's estimated remaining useful life or market value has declined could result in an impairment charge against our earnings and a reduction in our shareholders' equity. Any change in the assessed value of any of our vessels might also cause a violation of the covenants of each secured credit agreement which in turn might restrict our cash and affect our liquidity. All of our credit agreements provide for a minimum security maintenance ratio. If the assessed value of our vessels declines below certain thresholds, we will be deemed to have violated these covenants and may incur penalties for breach of our credit agreements. For example, these penalties

Edgar Filing: EUROSEAS LTD. - Form 20-F

could require us to prepay the shortfall between the assessed value of our vessels and the value such vessels are required to maintain pursuant to the secured credit agreement, or to provide additional security acceptable to the lenders in an amount at least equal to the amount of any shortfall. Further, future loans that we may agree to may include various other covenants, in addition to the vessel-related ones, that may ultimately depend on the assessed values of our vessels. Such covenants include, but are not limited to, maximum fleet leverage covenants and minimum fair net worth covenants.

Our future profitability will be dependent on the level of charter rates in the international drybulk and container shipping industry.

Charter rates for the international drybulk and container shipping industry have reached record highs during the past two years; however, by the beginning of 2006 rates declined and while drybulk rates have recovered since early 2006 and continue strong in 2007, container ship rates have remained flat for most of 2006, further declined by the end of the year and only modestly recovered in the beginning of 2007. We anticipate that the future demand for our drybulk, container and multipurpose vessels and the charter rates of the corresponding markets will be dependent upon continued economic growth in China, India and the world economy, seasonal and regional changes in demand, and changes to the capacity of the world fleet. The capacity of the world fleet seems likely to increase and economic growth may not continue. Adverse economic, political, social or other developments could also have a material adverse effect on our business and results of operations. If the number of new ships delivered exceeds the number of vessels being scrapped and lost, vessel capacity will increase. For instance, given that as of April 1, 2007 the capacity of the fully cellular worldwide container vessel fleet was approximately 9.7 million teu, with approximately 4.6 million teu of additional capacity on order, the growing supply of container vessels may exceed future demand, particularly in the short term. If the supply of vessel capacity increases but the demand for vessel capacity does not increase correspondingly, charter rates and vessel values could materially decline.

The factors affecting the supply and demand for vessels are outside of our control, and the nature, timing and degree of changes in industry conditions are unpredictable. Some of the factors that influence demand for vessel capacity include:

- o supply and demand for drybulk and container ship commodities, and separately for containerized cargo;
- o global and regional economic and political conditions;
- o the distance drybulk and containerized commodities are to be moved by sea;
- o environmental and other regulatory developments;
- o currency exchange rates;
- o changes in global production and manufacturing distribution patterns of finished goods that utilize drybulk and other containerized commodities; and
- o changes in seaborne and other transportation patterns.

Some of the factors that influence the supply of vessel capacity include:

- o the number of newbuilding deliveries;
- o the scrapping rate of older vessels;

Edgar Filing: EUROSEAS LTD. - Form 20-F

- o the price of steel and other materials;
- o port congestion;
- o changes in environmental and other regulations that may limit the useful life of vessels; and
- o the number of vessels that are out of service.

An economic slowdown in the Asia Pacific region could materially reduce the amount and/or profitability of our business.

A significant number of the port calls made by our vessels involve the loading or discharging of raw materials and semi-finished products in ports in the Asia Pacific region. As a result, a negative change in economic conditions in any Asia Pacific country, particularly in China or India, may have an adverse effect on our business, financial position and results of operations, as well as our future prospects. In particular, in recent years, China has been one of the world's fastest growing economies in terms of gross domestic product. Such growth may not be sustained and the Chinese economy may experience contraction in the future. Moreover, any slowdown in the economies of the United States of America, the European Union or certain Asian countries may adversely effect economic growth in China and elsewhere. Our business, financial position and results of operations, as well as our future prospects, will likely be materially and adversely affected by an economic downturn in any of these countries.

We may become dependent on spot charters in the volatile shipping markets, which may result in decreased revenues and/or profitability.

Although most of our vessels are currently under period charters, in the future, we may have more of these vessels and/or any newly acquired vessels on spot charters. The spot market is highly competitive and rates within this market are subject to volatile fluctuations, while period charters provide income at pre-determined rates over more extended periods of time. If we decide to spot charter our vessels, we may not be able to keep all our vessels fully employed in these short-term markets or that future spot rates will be sufficient to enable our vessels to be operated profitably. A significant decrease in charter rates could affect the value of our fleet and could adversely affect our profitability and cash flows with the result that our ability to pay debt service to our lenders and dividends to our shareholders could be impaired.

An over-supply of drybulk carrier and container ship capacity may lead to reductions in charter hire rates and profitability.

The market supply of drybulk carriers and especially container ships has been increasing, and the number of container ships on order have recently reached historic highs. These newbuildings are expected to begin being delivered in significant numbers starting in 2007. An over-supply of drybulk carrier and container ship capacity may result in a reduction of charter hire rates. If such a reduction occurs upon the expiration or termination of our drybulk carriers' and container ships' current charters, such as during 2007, when the charters under which two of our container ships are currently deployed expire, we may only be able to recharter those drybulk carriers and container ships at reduced or unprofitable rates or we may not be able to charter these vessels at all.

We are subject to regulation and liability under environmental laws that could require significant expenditures and affect our cash flows and net income.

Our business and the operation of our vessels are materially affected by

Edgar Filing: EUROSEAS LTD. - Form 20-F

government regulation in the form of international conventions, national, state and local laws and regulations in force in the jurisdictions in which the vessels operate, as well as in the country or countries of their registration. Because such conventions, laws, and regulations are often revised, we may not be able to predict the ultimate cost of complying with such conventions, laws and regulations or the impact thereof on the resale prices or useful lives of our vessels. Additional conventions, laws and regulations may be adopted which could limit our ability to do business or increase the cost of our doing business and which may materially adversely affect our operations. We are required by various governmental and quasi-governmental agencies to obtain certain permits, licenses, certificates and financial assurances with respect to our operations.

The operation of our vessels is affected by the requirements set forth in the International Maritime Organization's ("IMO's") International Management Code for the Safe Operation of Ships and Pollution Prevention ("ISM Code"). The ISM Code requires shipowners and bareboat charterers to develop and maintain an extensive "Safety Management System" that includes the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe operation and describing procedures for dealing with emergencies. The failure of a shipowner or bareboat charterer to comply with the ISM Code may subject such party to increased liability, may decrease available insurance coverage for the affected vessels, and/or may result in a denial of access to, or detention in, certain ports. Currently, each of our vessels and Eurobulk, our affiliated ship management company, are ISM Code-certified, but we may not be able to maintain such certification indefinitely.

Although the United States of America is not a party, many countries have ratified and follow the liability scheme adopted by the IMO and set out in the International Convention on Civil Liability for Oil Pollution Damage, 1969, as amended (the "CLC"), and the Convention for the Establishment of an International Fund for Oil Pollution of 1971, as amended. Under these conventions, a vessel's registered owner is strictly liable for pollution damage caused on the territorial waters of a contracting state by discharge of persistent oil, subject to certain complete defenses. Many of the countries that have ratified the CLC have increased the liability limits through a 1992 Protocol to the CLC. The right to limit liability is also forfeited under the CLC where the spill is caused by the owner's actual fault or privity and, under the 1992 Protocol, where the spill is caused by the owner's intentional or reckless conduct. Vessels trading to contracting states must provide evidence of insurance covering the limited liability of the owner. In jurisdictions where the CLC has not been adopted, various legislative schemes or common law govern, and liability is imposed either on the basis of fault or in a manner similar to the CLC.

The United States Oil Pollution Act of 1990 ("OPA") established an extensive regulatory and liability regime for the protection and clean-up of the environment from oil spills. OPA affects all owners and operators whose vessels trade in the United States of America or any of its territories and possessions or whose vessels operate in waters of the United States of America, which includes the territorial sea of the United States of America and its 200 nautical mile exclusive economic zone. OPA allows for potentially unlimited liability without regard to fault of vessel owners, operators and bareboat charterers for all containment and clean-up costs and other damages arising from discharges or threatened discharges of oil from their vessels, including bunkers (fuel), in the U.S. waters. OPA also expressly permits individual states to impose their own liability regimes with regard to hazardous materials and oil pollution materials occurring within their boundaries.

While we do not carry oil as cargo, we do carry fuel oil (bunkers) in our drybulk carriers. We currently maintain, for each of our vessels, pollution liability coverage insurance of \$1 billion per incident. If the damages from a catastrophic spill exceeded our insurance coverage, that would have a material

Edgar Filing: EUROSEAS LTD. - Form 20-F

adverse affect on our financial condition.

Capital expenditures and other costs necessary to operate and maintain our vessels may increase due to changes in governmental regulations, safety or other equipment standards.

Changes in governmental regulations, safety or other equipment standards, as well as compliance with standards imposed by maritime self-regulatory organizations and customer requirements or competition, may require us to make additional expenditures. In order to satisfy these requirements, we may, from time to time, be required to take our vessels out of service for extended periods of time, with corresponding losses of revenues. In the future, market conditions may not justify these expenditures or enable us to operate some or all of our vessels profitably during the remainder of their economic lives.

Increased inspection procedures and tighter import and export controls could increase costs and disrupt our business.

International shipping is subject to various security and customs inspection and related procedures in countries of origin and destination. Inspection procedures may result in the seizure of contents of our vessels, delays in the loading, offloading or delivery and the levying of customs duties, fines or other penalties against us.

It is possible that changes to inspection procedures could impose additional financial and legal obligations on us. Furthermore, changes to inspection procedures could also impose additional costs and obligations on our customers and may, in certain cases, render the shipment of certain types of cargo uneconomical or impractical. Any such changes or developments may have a material adverse effect on our business, financial condition and results of operations.

Rising fuel prices may adversely affect our profits.

Fuel (bunkers) is a significant, if not the largest, operating expense for many of our shipping operations when our vessels are under voyage charter. When a vessel is operating under a time charter, these costs are paid by the charterer. However fuel costs are taken into account by the charterer in determining the amount of time charter hire and therefore fuel costs also indirectly affect time charters. The price and supply of fuel is unpredictable and fluctuates based on events outside our control, including geopolitical developments, supply and demand for oil and gas, actions by OPEC and other oil and gas producers, war and unrest in oil producing countries and regions, regional production patterns and environmental concerns. Fuel prices have been at historically high levels recently, but shipowners have not really felt the effect of these high prices because the shipping markets have also been at high levels. Any increase in the price of fuel may adversely affect our profitability. Further, fuel may become much more expensive in future, which may reduce the profitability and competitiveness of our business versus other forms of transportation, such as truck or rail.

If our vessels fail to maintain their class certification and/or fail any annual survey, intermediate survey, drydocking or special survey, that vessel would be unable to carry cargo, thereby reducing our revenues and profitability and violating certain loan covenants of our third-party indebtedness.

The hull and machinery of every commercial vessel must be classed by a classification society authorized by its country of registry. The classification society certifies that a vessel is safe and seaworthy in accordance with the applicable rules and regulations of the country of registry of the vessel and the Safety of Life at Sea Convention ("SOLAS"). Our vessels are currently classed with Lloyd's Register of Shipping, Bureau Veritas and Nippon Kaiji

Edgar Filing: EUROSEAS LTD. - Form 20-F

Kyokai. ISM and International Ship and Port Facilities Security ("ISPS") certification have been awarded by Bureau Veritas and the Panama Maritime Authority to our vessels and Eurobulk.

A vessel must undergo annual surveys, intermediate surveys, drydockings and special surveys. In lieu of a special survey, a vessel's machinery may be on a continuous survey cycle, under which the machinery would be surveyed periodically over a five-year period. Every vessel is also required to be drydocked every two to three years for inspection of the underwater parts of such vessel.

If any vessel does not maintain its class and/or fails any annual survey, intermediate survey, drydocking or special survey, the vessel will be unable to carry cargo between ports and will be unemployable and uninsurable which could cause us to be in violation of certain covenants in our loan agreements. Any such inability to carry cargo or be employed, or any such violation of covenants, could have a material adverse impact on our financial condition and results of operations. That status could cause us to be in violation of certain covenants in our loan agreements.

Maritime claimants could arrest our vessels, which could interrupt our cash flow.

Crew members, suppliers of goods and services to a vessel, shippers of cargo and other parties may be entitled to a maritime lien against that vessel for unsatisfied debts, claims or damages. In many jurisdictions, a maritime lienholder may enforce its lien by arresting a vessel through foreclosure proceedings. The arresting or attachment of one or more of our vessels could interrupt our cash flow and require us to pay large sums of funds to have the arrest lifted which would have a material adverse effect on our financial condition and results of operations.

In addition, in some jurisdictions, such as South Africa, under the "sister ship" theory of liability, a claimant may arrest both the vessel which is subject to the claimant's maritime lien and any "associated" vessel, which is any vessel owned or controlled by the same owner. Claimants could try to assert "sister ship" liability against one of our vessels for claims relating to another of our vessels.

Governments could requisition our vessels during a period of war or emergency, resulting in loss of earnings.

A government could requisition for title or seize our vessels. Requisition for title occurs when a government takes control of a vessel and becomes the owner. Also, a government could requisition our vessels for hire. Requisition for hire occurs when a government takes control of a vessel and effectively becomes the charterer at dictated charter rates. Generally, requisitions occur during a period of war or emergency. Government requisition of one or more of our vessels could have a material adverse effect on our financial condition and results of operations.

World events outside our control may negatively affect our ability to operate, thereby reducing our revenues and net income or our ability to obtain additional financing, thereby restricting the implementation of our business strategy.

Terrorist attacks such as the attacks on the United States of America on September 11, 2001, on London, England on July 7, 2005, and the response to these attacks, as well as the threat of future terrorist attacks, continue to cause uncertainty in the world financial markets and may affect our business, results of operations and financial condition. The continuing conflict in Iraq may lead to additional acts of terrorism and armed conflict around the world, which may contribute to further economic instability in the global financial

Edgar Filing: EUROSEAS LTD. - Form 20-F

markets. These uncertainties could also have a material adverse effect on our ability to obtain additional financing on terms acceptable to us or at all. Terrorist attacks may also negatively affect our operations and financial condition and directly impact its vessels or its customers. Future terrorist attacks could result in increased volatility of the financial markets in the United States of America and globally and could result in an economic recession in the United States of America or the world. Any of these occurrences could have a material adverse impact on our financial condition and costs.

Company Risk Factors

If we cannot use the remaining proceeds of our follow-on offering to acquire vessels and expand our fleet, we may use the proceeds of this offering for general corporate purposes which may result in lower earnings.

We intend to use the remaining proceeds of our recent follow-on offering to acquire additional vessels and expand our fleet. Our management will have the discretion to identify and acquire vessels. If our management is unable to identify and acquire vessels on terms acceptable to us, we may use the remaining proceeds for general corporate purposes. It may take a substantial period of time before we can locate and purchase suitable vessels. During this period, the remaining proceeds of the offering may be invested on a short-term basis and therefore may not yield returns at rates comparable to what a vessel might have earned.

We depend entirely on Eurobulk to manage and charter our fleet, which may adversely affect our operations if Eurobulk fails to perform its obligations.

We have no employees and we currently contract the commercial and technical management of our fleet, including crewing, maintenance and repair, to Eurobulk, our affiliated ship management company. We may lose Eurobulk's services or Eurobulk may fail to perform its obligations to us which could have a material adverse effect on our financial condition and results of our operations. Although we may have rights against Eurobulk if it defaults on its obligations to us, you will have no recourse against Eurobulk. Further, we expect that we will need to seek approval from our lenders to change Eurobulk as our ship manager.

Because Eurobulk is a privately held company, there is little or no publicly available information about it and there may be very little advance warning of operational or financial problems experienced by Eurobulk that may adversely affect us.

The ability of Eurobulk to continue providing services for our benefit will depend in part on its own financial strength. Circumstances beyond our control could impair Eurobulk's financial strength, and because Eurobulk is privately held it is unlikely that information about its financial strength would become public unless Eurobulk began to default on its obligations. As a result, there may be little advance warning of problems affecting Eurobulk, even though these problems could have a material adverse effect on us.

We are controlled by Friends, which may limit your ability to influence our actions.

As of April 27, 2007, Friends, our largest shareholder, owns or controls 54.0% of the outstanding shares of our common stock. As a result of this share ownership and for so long as Friends owns a significant percentage of our outstanding common stock, Friends will be able to influence the outcome of any shareholder vote, including the election of directors, the adoption or amendment of provisions in our articles of incorporation or bylaws and possible mergers, corporate control contests and other significant corporate transactions. This

Edgar Filing: EUROSEAS LTD. - Form 20-F

concentration of ownership may have the effect of delaying, deferring or preventing a change in control, merger, consolidation, takeover or other business combination involving us. This concentration of ownership could also discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which could in turn have an adverse effect on the market price of our common stock.

We are a "controlled company" under NASDAQ rules, and as such we are entitled to exemption from certain NASDAQ corporate governance standards, and you may not have the same protections afforded to stockholders of companies that are subject to all of the NASDAQ corporate governance requirements.

Friends owns or controls a majority of our outstanding voting stock. As a result, we are a "controlled company" within the meaning of the NASDAQ corporate governance standards. Under NASDAQ rules, a company of which more than 50% of its voting power is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain NASDAQ corporate governance requirements, including (1) the requirement that a majority of the board of directors consist of independent directors and (2) the requirement to maintain independent compensation and nominating committees. We may utilize these exemptions. As a result, non-independent directors, including members of our management who also serve on our board of directors, will, among other things, fix the compensation of our management, make stock and option awards and resolve governance issues regarding our company. Accordingly, in the future you may not have the same protections afforded to stockholders of companies that are subject to all of the NASDAQ corporate governance requirements.

We and our principal officers have affiliations with Eurobulk that could create conflicts of interest detrimental to us.

Our principal officers are also principals, officers and employees of Eurobulk, which is our ship management company. These responsibilities and relationships could create conflicts of interest between us and Eurobulk. Conflicts may also arise in connection with the chartering, purchase, sale and operations of the vessels in our fleet versus other vessels that are or may be managed in the future by Eurobulk. Circumstances in any of these instances may make one decision advantageous to us but detrimental to Eurobulk and vice versa. Eurobulk is expected to manage at least one vessel other than those owned by Euroseas. In the past, Eurobulk has managed other vessels where the Pittas family was a minority shareholder but never any where there was no Pittas family participation at all. However, it is possible that in the future Eurobulk may manage additional vessels which will not belong to Euroseas and in which the Pittas family may have controlling, little or even no power or participation and where such conflicts may arise. Eurobulk may not be able to resolve all conflicts of interest in a manner beneficial to us.

Companies affiliated with Eurobulk or our officers and directors may acquire vessels that compete with our fleet.

Companies affiliated with Eurobulk or our officers and directors own drybulk carriers and may acquire additional drybulk carriers, container ships or multipurpose vessels in the future. These vessels could be in competition with our fleet and other companies affiliated with Eurobulk might be faced with conflicts of interest with respect to their own interests and their obligations to us. Eurobulk, Friends Investment Company Inc. and Aristides J. Pittas, our Chairman and Chief Executive Officer, have granted us a right of first refusal to acquire any drybulk vessel or container ship which any of them may consider for acquisition in the future. In addition, Mr. Pittas will use his best efforts to cause any entity with respect to which he directly or indirectly controls to grant us this right of first refusal. Were we, however, to decline any such opportunity offered to us or we do not have the resources or desire to accept any such opportunity, Eurobulk, Friends and Aristides J. Pittas, and any of

Edgar Filing: EUROSEAS LTD. - Form 20-F

their respective Affiliates, could acquire such vessels.

Our officers do not devote all of their time to our business.

Our officers are involved in other business activities that may result in their spending less time than is appropriate or necessary in order to manage our business successfully. Our Chief Executive Officer, Chief Financial Officer and Secretary are not employed directly by us, but rather their services are provided pursuant to our master management agreement with Eurobulk. These officers may spend a material portion of their time providing services to Eurobulk and its affiliates on matters unrelated to us.

We are a holding company, and we depend on the ability of our subsidiaries to distribute funds to us in order to satisfy our financial obligations or to make dividend payments.

We are a holding company and our subsidiaries, which are all wholly-owned by us either directly or indirectly, conduct all of our operations and own all of our operating assets. We have no significant assets other than the equity interests in our wholly-owned subsidiaries. As a result, our ability to make dividend payments to you depends on our subsidiaries and their ability to distribute funds to us. If we are unable to obtain funds from our subsidiaries, we may be unable or our Board of Directors may exercise its discretion not to pay dividends.

We may not be able to pay dividends.

Subject to the limitations discussed below, we currently intend to pay regular minimum quarterly dividends of \$0.22 per share in 2007 to holders of our common stock, when, as and if declared by our Board of Directors. However, we may not earn sufficient charterhire or we may incur expenses or liabilities that would reduce or eliminate the cash available for distribution as dividends. Our loan agreements may also limit the amount of dividends we can pay under some circumstances based on certain covenants included in the loan agreements.

If we are not successful in acquiring additional vessels, any unused net proceeds from our recent follow-on offering may be used for other corporate purposes or held pending investment in other vessels. Identifying and acquiring vessels may take a significant amount time. The result may be that proceeds of this offering are not invested in additional vessels, or are so invested but only after some delay. In either case, we will not be able to earn charter hire consistent with our current anticipations, and our profitability and our ability to pay dividends will be affected.

In addition, the declaration and payment of dividends will be subject at all times to the discretion of our Board of Directors. The timing and amount of dividends will depend on our earnings, financial condition, cash requirements and availability, restrictions in our loan agreements, growth strategy, charter rates in the drybulk and container shipping industry, the provisions of Marshall Islands law affecting the payment of dividends and other factors. Marshall Islands law generally prohibits the payment of dividends other than from surplus (retained earnings and the excess of consideration received for the sale of shares above the par value of the shares), but if there is no surplus, dividends may be declared out of the net profits (basically, the excess of our revenue over our expenses) for the fiscal year in which the dividend is declared or the preceding fiscal year. Marshall Islands law also prohibits the payment of dividends while a company is insolvent or if it would be rendered insolvent upon the payment of a dividend. As a result, we may not be able to pay dividends.

If we are unable to fund our capital expenditures, we may not be able to continue to operate some of our vessels, which would have a material adverse effect on our business and our ability to pay dividends.

Edgar Filing: EUROSEAS LTD. - Form 20-F

In order to fund our capital expenditures, we may be required to incur borrowings or raise capital through the sale of debt or equity securities. Our ability to access the capital markets through future offerings may be limited by our financial condition at the time of any such offering as well as by adverse market conditions resulting from, among other things, general economic conditions and contingencies and uncertainties that are beyond our control. Our failure to obtain the funds for necessary future capital expenditures would limit our ability to continue to operate some of our vessels and could have a material adverse effect on our business, results of operations and financial condition and our ability to pay dividends. Even if we are successful in obtaining such funds through financings, the terms of such financings could further limit our ability to pay dividends.

If we fail to manage our planned growth properly, we may not be able to successfully expand our market share.

We intend to continue to grow our fleet. Our growth will depend on:

- o locating and acquiring suitable vessels;
- o identifying and consummating acquisitions or joint ventures;
- o integrating any acquired business successfully with our existing operations;
- o enhancing our customer base;
- o managing our expansion; and
- o obtaining required financing on acceptable terms.

During periods in which charter rates are high, vessel values generally are high as well, and it may be difficult to consummate vessel acquisitions at favorable prices. In addition, growing any business by acquisition presents numerous risks, such as undisclosed liabilities and obligations and difficulty experienced in (1) obtaining additional qualified personnel, (2) managing relationships with customers and suppliers, and (3) integrating newly acquired operations into existing infrastructures. We may not be successful in executing our growth plans or that we will not incur significant expenses and losses in connection with the execution of those growth plans.

A decline in the market value of our vessels could lead to a default under our loan agreements and the loss of our vessels.

We have incurred secured debt under loan agreements for our vessels and currently expect to incur additional secured debt in connection with our acquisition of other vessels. If the market value of our fleet declines, we may not be in compliance with certain provisions of our existing loan agreements and we may not be able to refinance our debt or obtain additional financing. If we are unable to pledge additional collateral, our lenders could accelerate our debt and foreclose on our fleet.

Our existing loan agreements contain restrictive covenants that may limit our liquidity and corporate activities.

Our existing loan agreements impose operating and financial restrictions on us. These restrictions may limit our ability to:

- o incur additional indebtedness;
- o create liens on our assets;

Edgar Filing: EUROSEAS LTD. - Form 20-F

- o sell capital stock of our subsidiaries;
- o make investments;
- o engage in mergers or acquisitions;
- o pay dividends;
- o make capital expenditures;
- o change the management of our vessels or terminate or materially amend the management agreement relating to each vessel; and
- o sell our vessels.

Therefore, we may need to seek permission from our lenders in order to engage in some corporate actions. The lenders' interests may be different from our interests, and we may not be able to obtain the lenders' permission when needed. This may prevent us from taking actions that are in our best interest.

Servicing future debt would limit funds available for other purposes.

To finance our fleet, we have incurred secured debt under loan agreements for our vessels. We also currently expect to incur additional secured debt to finance the acquisition of additional vessels. We must dedicate a portion of our cash flow from operations to pay the principal and interest on our debt. These payments limit funds otherwise available for working capital expenditures and other purposes. As of December 31, 2006, we had total bank debt of \$74.95 million. Our current repayment schedule requires us to repay \$18.04 million of this debt over the next 12 months. If we were unable to service our debt, it could have a material adverse effect on our financial condition and results of operations.

A rise in interest rates could cause an increase in our costs and have a material adverse effect on our financial condition and results of operations. To finance vessel purchases, we have borrowed, and may continue to borrow, under loan agreements that provide for periodic interest rate adjustments based on indices that fluctuate with changes in market interest rates. If interest rates increase significantly, it would increase our costs of financing our acquisition of vessels, which could have a material adverse effect on our financial condition and results of operations. Any increase in debt service would also reduce the funds available to us to purchase other vessels.

Our ability to obtain additional debt financing may be dependent on the performance of our then existing charters and the creditworthiness of our charterers.

The actual or perceived credit quality of our charterers, and any defaults by them, may materially affect our ability to obtain the additional debt financing that we will require to purchase additional vessels or may significantly increase our costs of obtaining such financing. Our inability to obtain additional financing at all or at a higher than anticipated cost may materially affect our results of operation and our ability to implement our business strategy.

As we expand our business, we may need to upgrade our operations and financial systems, and add more staff and crew. If we cannot upgrade these systems or recruit suitable employees, our performance may be adversely affected.

Our current operating and financial systems may not be adequate if we expand the size of our fleet, and our attempts to improve those systems may be

Edgar Filing: EUROSEAS LTD. - Form 20-F

ineffective. In addition, if we expand our fleet, we will have to rely on Eurobulk to recruit suitable additional seafarers and shoreside administrative and management personnel. Eurobulk may not be able to continue to hire suitable employees as we expand our fleet. If Eurobulk's unaffiliated crewing agent encounters business or financial difficulties, we may not be able to adequately staff our vessels. If we are unable to operate our financial and operations systems effectively or to recruit suitable employees, our performance may be materially adversely affected.

Because we obtain some of our insurance through protection and indemnity associations, we may also be subject to calls in amounts based not only on our own claim records, but also the claim records of other members of the protection and indemnity associations.

We may be subject to calls in amounts based not only on our claim records but also the claim records of other members of the protection and indemnity associations through which we receive insurance coverage for tort liability, including pollution-related liability. Our payment of these calls could result in significant expense to us, which could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

Labor interruptions could disrupt our business.

Our vessels are manned by masters, officers and crews that are employed by third parties. If not resolved in a timely and cost-effective manner, industrial action or other labor unrest could prevent or hinder our operations from being carried out normally and could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

In the highly competitive international drybulk and container shipping industry, we may not be able to compete for charters with new entrants or established companies with greater resources.

We employ our vessels in highly competitive markets that are capital intensive and highly fragmented. Competition arises primarily from other vessel owners, some of whom have substantially greater resources than us. Competition for the transportation of drybulk and container cargoes can be intense and depends on price, location, size, age, condition and the acceptability of the vessel and its managers to the charterers. Due in part to the highly fragmented market, competitors with greater resources could operate larger fleets through consolidations or acquisitions that may be able to offer better prices and fleets.

We will not be able to take advantage of favorable opportunities in the current spot market with respect to vessels employed on period charters.

As of April 27, 2007, eight of the ten vessels in our fleet are employed under period charters with remaining terms ranging between four months and 59 months, and one of our vessels is partly protected from market fluctuations (77% of its capacity in 2007 and 42% in 2008) via its participation in a shipping pool and three "short panamax funds" (cargo funds). Although period charters provide relatively steady streams of revenue, vessels committed to period charters may not be available for spot charters during periods of increasing charter hire rates, when spot charters might be more profitable. If we cannot re-charter these vessels on period charters or trade them in the spot market profitably, our results of operations and operating cash flow may suffer. We may not be able to secure charter hire rates in the future that will enable us to operate our vessels profitably.

We may be unable to attract and retain key management personnel and other

Edgar Filing: EUROSEAS LTD. - Form 20-F

employees in the shipping industry, which may negatively affect the effectiveness of our management and our results of operations.

Our success depends to a significant extent upon the abilities and efforts of our management team. Our success will depend upon our ability to hire additional employees and to retain key members of our management team. The loss of any of these individuals could adversely affect our business prospects and financial condition. Difficulty in hiring and retaining personnel could adversely affect our results of operations. We do not currently intend to maintain "key man" life insurance on any of our officers.

Risks involved with operating ocean-going vessels could affect our business and reputation, which may reduce our revenues.

The operation of an ocean-going vessel carries inherent risks. These risks include, among others, the possibility of:

- o marine disaster;
- o piracy;
- o environmental accidents;
- o grounding, fire, explosions and collisions;
- o cargo and property losses or damage;
- o business interruptions caused by mechanical failure, human error, war, terrorism, political action in various countries, labor strikes or adverse weather conditions; and
- o work stoppages or other labor problems with crew members serving on our vessels.

Such occurrences could result in death or injury to persons, loss of property or environmental damage, delays in the delivery of cargo, loss of revenues from or termination of charter contracts, governmental fines, penalties or restrictions on conducting business, higher insurance rates, and damage to our reputation and customer relationships generally. Any of these circumstances or events could increase our costs or lower our revenues, which could result in reduction in the market price of our shares of common stock. The involvement of our vessels in an environmental disaster may harm our reputation as a safe and reliable vessel owner and operator.

The operation of drybulk carriers has certain unique operational risks.

The operation of certain ship types, such as drybulk carriers, has certain unique risks. With a drybulk carrier, the cargo itself and its interaction with the ship can be a risk factor. By their nature, drybulk cargoes are often heavy, dense, easily shifted, and react badly to water exposure. In addition, drybulk carriers are often subjected to battering treatment during unloading operations with grabs, jackhammers (to pry encrusted cargoes out of the hold), and small bulldozers. This treatment may cause damage to the vessel. Vessels damaged due to treatment during unloading procedures may be more susceptible to breach to the sea. Hull breaches in drybulk carriers may lead to the flooding of the vessels holds. If a drybulk carrier suffers flooding in its forward holds, the bulk cargo may become so dense and waterlogged that its pressure may buckle the vessels bulkheads leading to the loss of a vessel. If we are unable to adequately maintain our vessels we may be unable to prevent these events. Any of these circumstances or events could negatively impact our business, financial condition, results of operations and ability to pay dividends. In addition, the loss of any of our vessels could harm our reputation as a safe and reliable

Edgar Filing: EUROSEAS LTD. - Form 20-F

vessel owner and operator.

The operation of container ships has certain unique operational risks.

The operation of container ships has certain unique risks. Container ships operate at high speeds in order to move cargoes around the world quickly and minimize delivery delays. These high speeds can result in greater impact in collisions and groundings resulting in more damage to the vessel when compared to vessels operating at lower speeds. In addition, due to the placement of the containers on a container ship, there is a greater risk that containers carried on deck will be lost overboard if an accident does occur. Furthermore, with the highly varied cargo that can be carried on a single container ship, there can be additional difficulties with any clean-up operation following an accident. Also, we may not be able to correctly control the contents and condition of cargoes within the containers which may give rise to events such as customer complaints, accidents on-board the ships or problems with authorities due to carriage of illegal cargoes. Any of these circumstances or events could negatively impact our business, financial condition, results of operations and ability to pay dividends. In addition, the loss of any of our vessels could harm our reputation as a safe and reliable vessel owner and operator.

Our vessels may suffer damage and it may face unexpected drydocking costs, which could affect our cash flow and financial condition.

If our vessels suffer damage, they may need to be repaired at a drydocking facility. The costs of drydock repairs are unpredictable and may be substantial. We may have to pay drydocking costs that our insurance does not cover. The loss of earnings while these vessels are being repaired and reconditioned, as well as the actual cost of these repairs, would decrease our earnings.

Purchasing and operating previously owned, or secondhand, vessels may result in increased operating costs and vessels off-hire, which could adversely affect our earnings.

Although we inspect the secondhand vessels prior to purchase, this inspection does not provide us with the same knowledge about their condition and cost of any required (or anticipated) repairs that it would have had if these vessels had been built for and operated exclusively by us. Generally, we do not receive the benefit of warranties on secondhand vessels.

In general, the cost of maintaining a vessel in good operating condition increases with the age of the vessel. As of April 27, 2007, the average age of our fleet was approximately 17 years. As our fleet ages, we will incur increased costs. Older vessels are typically less fuel efficient and more costly to maintain than more recently constructed vessels. Cargo insurance rates also increase with the age of a vessel, making older vessels less desirable to charterers. Governmental regulations and safety or other equipment standards related to the age of a vessel may also require expenditures for alterations or the addition of new equipment to our vessels and may restrict the type of activities in which our vessels may engage.

Governmental regulations, safety or other equipment standards related to the age of vessels may require expenditures for alterations, or the addition of new equipment, to our vessels and may restrict the type of activities in which the vessels may engage. As our vessels age, market conditions may not justify those expenditures or enable us to operate our vessels profitably during the remainder of their useful lives. If we sell vessels, we are not certain that the price for which we sell them will equal their carrying amount at that time.

We may not have adequate insurance to compensate us adequately for damage to, or loss of, our vessels.

Edgar Filing: EUROSEAS LTD. - Form 20-F

We procure hull and machinery insurance, protection and indemnity insurance, which includes environmental damage and pollution insurance and war risk insurance and freight, demurrage and defense insurance for our fleet. We do not maintain insurance against loss of hire, which covers business interruptions that result in the loss of use of a vessel. We may not be adequately insured against all risks and we may not be able to obtain adequate insurance coverage for our fleet in the future. The insurers may not pay particular claims. Our insurance policies contain deductibles for which we will be responsible and limitations and exclusions which may increase our costs or lower our revenue. Moreover, the insurers may default on any claims they are required to pay. If our insurance is not enough to cover claims that may arise, it may have a material adverse effect on our financial condition and results of operations.

Our international operations expose us to risks of terrorism and piracy that may interfere with the operation of our vessels.

We are an international company and primarily conducts our operations outside the United States of America. Changing economic, political and governmental conditions in the countries where we are engaged in business or where our vessels are registered affect our operations. In the past, political conflicts, particularly in the Arabian Gulf, resulted in attacks on vessels, mining of waterways and other efforts to disrupt shipping in the area. Acts of terrorism and piracy have also affected vessels trading in regions such as the South China Sea. The likelihood of future acts of terrorism may increase, and our vessels may face higher risks of being attacked. We are not fully insured against any of these risks. In addition, future hostilities or other political instability in regions where our vessels operate could have a material adverse effect on our trade patterns and adversely affect our operations and performance.

Obligations associated with being a public company require significant company resources and management attention.

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the other rules and regulations of the SEC, including the Sarbanes-Oxley Act of 2002. Section 404 of the Sarbanes-Oxley Act requires that we evaluate and determine the effectiveness of our internal control over financial reporting. However, as a non-accelerated filer, we are not yet subject to this requirement. Currently, we would be subject to such requirement by the end of our fiscal year ending December 31, 2007. If we have a material weakness in our internal control over financial reporting, we may not detect errors on a timely basis and our financial statements may be materially misstated. We have to dedicate a significant amount of time and resources to ensure compliance with these regulatory requirements.

We work with our legal, accounting and financial advisors to identify any areas in which changes should be made to our financial and management control systems to manage our growth and our obligations as a public company. We evaluate areas such as corporate governance, corporate control, internal audit, disclosure controls and procedures and financial reporting and accounting systems. We will make changes in any of these and other areas, including our internal control over financial reporting, which we believe are necessary. However, these and other measures we may take may not be sufficient to allow us to satisfy our obligations as a public company on a timely and reliable basis. In addition, compliance with reporting and other requirements applicable to public companies will create additional costs for us and will require the time and attention of management. Our limited management resources may exacerbate the difficulties in complying with these reporting and other requirements while focusing on executing our business strategy. We may not be able to predict or estimate the amount of the additional costs we may incur, the timing of such costs or the degree of impact that our management's attention to these matters will have on our business.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Our historical financial and operating data may not be representative of our future results because we are a recently formed company with a limited operating history as a stand-alone entity and as a publicly traded company.

Our historical financial and operating data may not be representative of our future results because we are a recently formed company with a limited operating history as a stand-alone entity and as a publicly traded company. Our consolidated financial statements include the financial position, results of operations and cash flows of shipowning companies managed by Eurobulk and majority owned by the Pittas family prior to their contribution to us. Although our results of operations, cash flows and financial condition reflected in the consolidated financial statements include all expenses allocable to our business, due to factors such as the additional administrative and financial obligations associated with operating as a publicly traded company, they may not be indicative of the results of operations that we would have achieved had we operated as a public entity for all periods presented or of future results that we may achieve as a publicly traded company with our current holding company structure.

Exposure to currency exchange rate fluctuations will result in fluctuations in our cash flows and operating results.

We generate all our revenues in U.S. dollars, but our ship manager, Eurobulk, incurs approximately 30% of vessel operating expenses and we incur general and administrative expenses in currencies other than the U.S. dollar. This difference could lead to fluctuations in our vessel operating expenses, which would affect our financial results. Expenses incurred in foreign currencies increase when the value of the U.S. dollar falls, which would reduce our profitability. We do not currently engage in hedging transactions to minimize our exposure to currency rate fluctuations, but we may do so in the future.

U.S. tax authorities could treat us as a "passive foreign investment company," which could have adverse U.S. federal income tax consequences to U.S. holders.

A foreign corporation will be treated as a "passive foreign investment company," or PFIC, for U.S. federal income tax purposes if either (1) at least 75% of its gross income for any taxable year consists of certain types of "passive income" or (2) at least 50% of the average value of the corporation's assets produce or are held for the production of those types of "passive income." For purposes of these tests, "passive income" includes dividends, interest, and gains from the sale or exchange of investment property and rents and royalties other than rents and royalties which are received from unrelated parties in connection with the active conduct of a trade or business. For purposes of these tests, income derived from the performance of services does not constitute "passive income." U.S. shareholders of a PFIC are subject to a disadvantageous U.S. federal income tax regime with respect to the income derived by the PFIC, the distributions they receive from the PFIC and the gain, if any, they derive from the sale or other disposition of their shares in the PFIC.

Based on our current method of operation, we do not believe that we have been, are or will be a PFIC with respect to any taxable year. In this regard, we treat the gross income we derive or are deemed to derive from our time chartering activities as services income, rather than rental income. Accordingly, we believe that our income from our time chartering activities does not constitute "passive income," and the assets that we own and operate in connection with the production of that income do not constitute passive assets.

There is, however, no direct legal authority under the PFIC rules addressing our method of operation. Accordingly, the U.S. Internal Revenue

Edgar Filing: EUROSEAS LTD. - Form 20-F

Service, or IRS, or a court of law may not accept our position, and there is a risk that the IRS or a court of law could determine that we are a PFIC. Moreover, we may constitute a PFIC for any future taxable year if there were to be changes in the nature and extent of our operations.

If the IRS were to find that we are or have been a PFIC for any taxable year, our U.S. shareholders will face adverse U.S. tax consequences. Under the PFIC rules, unless those shareholders make an election available under the United States Internal Revenue Code of 1986 (the "Code") (which election could itself have adverse consequences for such shareholders, as discussed below under "Tax Consequences -- United States Federal Income Taxation of U.S. Holders"), such shareholders would be liable to pay U.S. federal income tax at the then prevailing income tax rates on ordinary income plus interest upon excess distributions and upon any gain from the disposition of our shares, as if the excess distribution or gain had been recognized ratably over the shareholder's holding period of our shares. See "Tax Consequences -- United States Federal Income Taxation of U.S. Holders" for a more comprehensive discussion of the U.S. federal income tax consequences to U.S. shareholders if we are treated as a PFIC.

We may have to pay tax on United States source income, which would reduce our earnings.

Under the Code, 50% of the gross shipping income of a vessel owning or chartering corporation, such as ourselves and our subsidiaries, that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States may be subject to a 4% United States federal income tax without allowance for deduction, unless that corporation qualifies for exemption from tax under section 883 of the Code and the applicable Treasury Regulations promulgated thereunder.

We believe that we and each of our subsidiaries qualify for this statutory tax exemption and we have taken this position for United States federal income tax return reporting purposes. However, there are factual circumstances beyond our control that could cause us to lose the benefit of this tax exemption and thereby become subject to United States federal income tax on our United States source income. Due to the factual nature of the issues involved, we may not be able to maintain our tax-exempt status or that of any of our subsidiaries.

If we or our subsidiaries are not entitled to exemption under Section 883 for any taxable year, we or our subsidiaries could be subject for those years to an effective 2% United States federal income tax on the shipping income these companies derive during the year that are attributable to the transport or cargoes to or from the United States. The imposition of this taxation would have a negative effect on our business and would result in decreased earnings available for distribution to our shareholders.

It may be difficult to enforce service of process and enforcement of judgments against us and our officers and directors.

We are a Marshall Islands corporation, and our executive offices are located outside of the United States in Maroussi, Greece. A majority of our directors and officers reside outside of the United States, and a substantial portion of our assets and the assets of our officers and directors are located outside of the United States. As a result, you may have difficulty serving legal process within the United States upon us or any of these persons. You may also have difficulty enforcing, both in and outside of the United States, judgments you may obtain in the U.S. courts against us or these persons in any action, including actions based upon the civil liability provisions of U.S. federal or state securities laws.

There is also substantial doubt that the courts of the Marshall Islands or

Edgar Filing: EUROSEAS LTD. - Form 20-F

Greece would enter judgments in original actions brought in those courts predicated on U.S. federal or state securities laws.

Risk Factors Relating To Our Common Stock

There may not be a liquid market for our common stock, which may cause our common stock to trade at lower prices and make it difficult to sell your common stock.

Although our shares of common stock have traded on the NASDAQ Global Market since January 31, 2007, the trading volume has been low. We cannot predict at this time how actively our shares will trade in the public market or whether the price of our shares in the public market will reflect our actual financial performance.

The market price of our common stock has been and may in the future be subject to significant fluctuations.

The market price of our common stock has been and may in the future be subject to significant fluctuations as a result of many factors, some of which are beyond our control. Among the factors that have in the past and could in the future affect our stock price are:

- o quarterly variations in our results of operations;
- o changes in sales or earnings estimates or publication of research reports by analysts;
- o speculation in the press or investment community about our business or the shipping industry generally;
- o changes in market valuations of similar companies and stock market price and volume fluctuations generally;
- o strategic actions by us or our competitors such as acquisitions or restructurings;
- o regulatory developments;
- o additions or departures of key personnel;
- o general market conditions; and
- o domestic and international economic, market and currency factors unrelated to our performance.

The stock markets in general, and the markets for drybulk shipping and shipping stocks in general, have experienced extreme volatility that has sometimes been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our common stock.

Our stock price may fall below the minimum share price requirements of the NASDAQ Global Market.

Although the price of shares of our common stock is currently above the minimum share price requirement to maintain the listing of our shares on the NASDAQ Global Market, we cannot predict what the price will be in the future. If our share price falls below \$5.00, our common stock will not be marginable and this may reduce the liquidity of our common stock. If our share price falls below the required \$1.00 minimum share price requirement for listed stock or we fail to maintain any other listing requirements, our stock could be delisted.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Any of these events could result in an active trading market no longer existing for our shares.

The price of our shares may be volatile and less than you originally paid for such shares.

The price of our shares may be volatile, and may fluctuate due to factors such as:

- o actual or anticipated fluctuations in quarterly and annual results;
- o mergers and strategic alliances in the shipping industry;
- o market conditions in the industry;
- o changes in government regulation;
- o fluctuations in our quarterly revenues and earnings and those of our publicly held competitors; o payment of dividends;
- o shortfalls in our operating results from levels forecasted by securities analysts;
- o announcements concerning us or our competitors; and
- o the general state of the securities markets.

The international drybulk and container shipping industry has been highly unpredictable and volatile. The market for stock of companies in this industry may be equally volatile. Our shares may trade at prices lower than you originally paid for such shares.

Our Articles of Incorporation and Bylaws contain anti-takeover provisions that may discourage, delay or prevent (1) our merger or acquisition and/or (2) the removal of incumbent directors and officers.

Our current Articles of Incorporation and Bylaws contain certain anti-takeover provisions. These provisions include blank check preferred stock, the prohibition of cumulative voting in the election of directors, a classified board of directors, advance written notice for shareholder nominations for directors, removal of directors only for cause, advance written notice of shareholder proposals for the removal of directors and limitations on action by shareholders. These provisions, either individually or in the aggregate, may discourage, delay or prevent (1) our merger or acquisition by means of a tender offer, a proxy contest or otherwise, that a shareholder may consider in its best interest and (2) the removal of incumbent directors and officers.

Future sales of our stock could cause the market price of our common stock to decline.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales could occur, may depress the market price for our common stock. These sales could also impair our ability to raise additional capital through the sale of our equity securities in the future.

Pursuant to our prior Form F-1 registration statement that was declared effective on February 3, 2006, we registered for resale 2,342,331 shares of common stock issued in a private placement transaction on August 25, 2005 (the "Private Placement"), 585,589 shares of our common stock issuable upon the exercise of warrants issued in the Private Placement and 272,868 shares of our common stock issued to certain affiliates of Cove Apparel, Inc. ("Cove"), in connection with the merger of Cove with our wholly-owned subsidiary, Euroseas

Edgar Filing: EUROSEAS LTD. - Form 20-F

Acquisition Company Inc. At no time did Euroseas Ltd., the parent company, merge with or into Cove. Registration of such shares has, except for any shares purchased by affiliates, resulted in such shares becoming freely tradable without restriction under the Securities Act of 1933, as amended (the "Securities Act").

In addition, we have entered into a registration rights agreement with Friends Investment Company Inc. ("Friends"), our largest shareholder, pursuant to which we have granted Friends the right to require us to register under the Securities Act, shares of our common stock held by it. Under the registration rights agreement, Friends has the right to request that we register the sale of shares held by it on its behalf and may require us to make available shelf registration statements permitting sales of shares into the market from time to time over an extended period. In addition, Friends has the ability to exercise certain piggyback registration rights in connection with registered offerings requested by stockholders or initiated by us. Friends has agreed to waive its rights under the registration rights agreement until 180 days from January 30, 2007. Registration of such shares under the Securities Act would, except for shares purchased by affiliates, result in such shares becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of such registration. Shares not registered pursuant to the registration rights agreement may, subject to a lock-up agreement to which Friends is a party, be resold pursuant to an exemption from the registration requirements of the Securities Act, including the exemptions provided by Rule 144 and Regulation S under the Securities Act.

On January 30, 2007, we issued an additional 5,750,000 shares pursuant to our follow-on common stock offering. We may issue additional shares of our stock in the future and our stockholders may elect to sell large numbers of shares held by them from time to time. Our amended and restated articles of incorporation authorize us to issue up to 100,000,000 shares of common stock and 20,000,000 shares of preferred stock, of which 18,370,150 shares of common stock are outstanding as of April 27, 2007. Entities affiliated with our President and Chief Executive Officer and certain other large affiliated shareholders currently own or control 10,251,390 shares (assuming no exercise of 83,334 warrants owned by Eurobulk Marine Holdings, Inc.), or approximately 54.0%, of our outstanding common stock. The number of shares of stock available for sale in the public market will be limited by restrictions applicable under securities laws and agreements that we and our executive officers, directors and principal shareholders have entered into with the underwriters of our follow-on common stock offering. Subject to certain exceptions, these agreements generally restrict us and our executive officers, directors and certain shareholders from directly or indirectly offering, selling, pledging, hedging or otherwise disposing of our equity securities or any security that is convertible into or exercisable or exchangeable for our equity securities and from engaging in certain other transactions relating to such securities for a period of 180 days (with respect to our officers, directors, Friends and Eurobulk Marine) and 90 days (with respect to certain other large, non-affiliated shareholders) from January 30, 2007 without the prior written consent of Oppenheimer & Co. Inc.

Dividends paid on the common stock to U.S. individuals, trusts and estates may be taxed as ordinary income.

Our common stock is listed on the NASDAQ Global Market and dividends on our common stock are treated as "qualified dividend income" which is taxed to U.S. individuals, trusts and estates at preferential tax rates. If our common stock fails to maintain the requirements of the NASDAQ Global Market or another established securities market in the United States, our shares will trade over the counter and any dividends paid on the shares will be treated for U.S. tax purposes as ordinary income rather than "qualified dividend income" and lose the preferential tax treatment. We might not be able to maintain the listing of our common stock on the NASDAQ Global Market or another established securities

Edgar Filing: EUROSEAS LTD. - Form 20-F

market in the United States. In such case, any dividends paid on the common stock will not be treated as "qualified dividend income" and will not be subject to tax at preferential rates.

Because the Republic of the Marshall Islands, where we are incorporated, does not have a well-developed body of corporate law, shareholders may have fewer rights and protections than under typical United States law, such as Delaware, and shareholders may have difficulty in protecting their interest with regard to actions taken by our Board of Directors.

Our corporate affairs are governed by our Articles of Incorporation and Bylaws and by the Marshall Islands Business Corporations Act (the "BCA"). The provisions of the BCA resemble provisions of the corporation laws of a number of states in the United States. However, there have been few judicial cases in the Republic of the Marshall Islands interpreting the BCA. The rights and fiduciary responsibilities of directors under the law of the Republic of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in certain U.S. jurisdictions. Stockholder rights may differ as well. For example, under Marshall Islands law, a copy of the notice of any meeting of the shareholders must be given not less than 15 days before the meeting, whereas in Delaware such notice must be given not less than 10 days before the meeting. Therefore, if immediate shareholder action is required, a meeting may not be able to be convened as quickly as it can be convened under Delaware law. Also, under Marshall Islands law, any action required to be taken by a meeting of shareholders may only be taken without a meeting if consent is in writing and is signed by all of the shareholders entitled to vote, whereas under Delaware law action may be taken by consent if approved by the number of shareholders that would be required to approve such action at a meeting. Therefore, under Marshall Islands law, it may be more difficult for a company to take certain actions without a meeting even if a majority of the shareholders approve of such action. While the BCA does specifically incorporate the non-statutory law, or judicial case law, of the State of Delaware and other states with substantially similar legislative provisions, public shareholders may have more difficulty in protecting their interests in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a U.S. jurisdiction.

Item 4. Information on the Company

A. History and development of the Company

We are a Marshall Islands company incorporated in May 2005. We are a provider of worldwide ocean-going transportation services. We own and operate drybulk carriers that transport major bulks such as iron ore, coal and grains, and minor bulks such as bauxite, phosphate and fertilizers. We also own and operate container ships and multipurpose vessels that transport dry and refrigerated containerized cargoes, mainly including manufactured products and perishables. As of April 27, 2007, our fleet consisted of four drybulk carriers, comprised of two Panamax drybulk carriers and two Handysize drybulk carriers, five containerships and one multipurpose vessel. The total cargo carrying capacity of the four bulk carriers is 212,443 deadweight tons, or dwt, and of the three containerships is 110,042 dwt and 7,487 twenty-foot equivalent units, or teu. Our multipurpose vessel can carry 22,568 dwt and/or 950 teu. Six of our vessels were acquired before January 1, 2004 and were controlled by the Pittas family interests. On June 29, 2005, the shareholders of the four vessels (and of three additional vessels that have since been sold) transferred their shares in each of the vessels to Euroseas in exchange for shares in Friends, a 100% owner of Euroseas at that time. We have purchased six additional vessels since June 2005.

On August 25, 2005, we raised approximately \$17.5 million in net proceeds

Edgar Filing: EUROSEAS LTD. - Form 20-F

from the private placement of our securities to a number of institutional and accredited investors (the "Private Placement"). In the Private Placement, we issued 2,342,331 shares of common stock at a price of \$9.00 per share (adjusted for the 1-for-3 reverse split of our common stock effected on October 6, 2006), as well as warrants to purchase an additional 585,589 shares of common stock. The warrants have a five year term and an exercise price of \$10.80 per share (adjusted for the 1-for-3 reverse split of our common stock). As a condition to the Private Placement, we agreed to execute a merger agreement with Cove, a public shell company, whereby Cove would merge with our wholly-owned subsidiary, Euroseas Acquisition Company Inc. The merger was consummated on March 27, 2006.

We registered for resale the shares issued in the Private Placement, the shares underlying the warrants issued in the Private Placement as well as the shares issued to certain Cove's shareholders in the merger. On February 3, 2006, the SEC declared our registration statements effective.

On February 5, 2007, we raised approximately \$43.1 million in net proceeds from a follow-on common stock offering. Our shares originally traded on the OTCBB under the symbol ESEAF.OB until October 5, 2006 and EUSEF.OB from October 6, 2006 to January 30, 2007. Since January 31, 2007, our shares have traded on the NASDAQ Global Market under the symbol ESEA.

Our executive offices are located at 40 Ag. Konstantinou Ave., 151 24, Maroussi, Greece. Our telephone number is +30-211-1804005.

B. Business overview

Our fleet consists of: (i) drybulk carriers that transport iron ore, coal, grain and other dry cargoes along worldwide shipping routes; (ii) containerships that transport container boxes providing scheduled service between ports; and (iii) multipurpose vessels that can carry either bulk cargoes or containers. Please see information in the section "Our Fleet", below. During 2002, 2003, 2004, 2005 and 2006 we had a fleet utilization of 99.7%, 99.3%, 99.5%, 98.5% and 98.9%, respectively, our vessels achieved daily time charter equivalent rates of \$6,049, \$8,965, \$17,839, \$17,485 and \$14,313, respectively, and we generated revenues of \$15.29 million, \$25.95 million, \$45.72 million, \$44.52 million and \$42.14 million, respectively.

Our business strategy is focused on providing consistent shareholder returns by carefully selecting the timing and the structure of our investments in drybulk and containership vessels and by reliably, safely and competitively operating the vessels we own, through our affiliate, Eurobulk. Representing a continuous shipowning and management history that dates back to the 19th century, we believe that one of our advantages in the industry is our ability to select and safely operate drybulk and containership vessels of any age. We continuously evaluate sale and purchase opportunities, as well as long term employment opportunities for our vessels.

Our Fleet

As of April 27, 2007, the profile and deployment of our fleet is the following:

Name	Type	Dwt	TEU	Year Built	Employment	TCE Rate (\$/day)
------	------	-----	-----	------------	------------	-------------------

Dry Bulk

Edgar Filing: EUROSEAS LTD. - Form 20-F

Vessel Name	Type	Capacity	Age	Year	Charter Type	Rate
IRINI	Panamax	69,734	1988		Baumarine Pool - until end 2008	\$17,000 to \$20,000 (TC until)

FLEET GRAND TOTAL	10	345,053	8,437			

(*) The owning company of m/v Irini participates in 2 short funds (contracts of affreightment to carry cargo) that provide an effective coverage of m/v Irini for 77% in 2007 and 42% in 2008. The combination of the short funds and pool employment secures the mentioned rate range for the greater part of the period to the end of 2008 for the percent of the earnings mentioned above respectively in 2007 and 2008.

We plan to expand our fleet by investing in vessels in the drybulk, containership and multipurpose segments by targeting primarily mid-age vessels at the time of purchase under market conditions as those prevailing during the first three months of 2007. We also intend to take advantage of the cyclical nature of the market by buying and selling ships when we believe favorable opportunities exist. We employ our vessels in the spot and time charter market, through pool arrangements and under contracts of affreightment. Presently, our

Edgar Filing: EUROSEAS LTD. - Form 20-F

five containerships, our multipurpose vessel, one of our panamax bulkers and one of our handysize bulkers are employed under time charters. Our other panamax vessel, m/v Irini, is employed in the Baumarine pool that is managed by Klaveness, a major global charterer in the drybulk area, and also participates in two "short" funds (contracts to carry cargo at agreed rates), minimizing its exposure to the spot market (covered at 77% for 2007 and 42% for 2008, approximately).

As of April 27, 2007, 88% of our ship capacity days in 2007 accounting for fixed spot employment in the first and second quarter of the year, and 40% of our ship capacity days in 2008, are under time charter contracts or protected from market fluctuations.

Management of Our Fleet

The operations of our vessels are managed by Eurobulk Ltd., or Eurobulk, an affiliated company, under a master management agreement with us and separate management agreements with each ship-owning company. Eurobulk was founded in 1994 by members of the Pittas family and is a reputable ship management company with strong industry relationships and experience in managing vessels. Under our master management agreement, Eurobulk is responsible for providing us with executive services and commercial management services, which include obtaining employment for our vessels and managing our relationships with charterers. Eurobulk also performs technical management services, which include managing day-to-day vessel operations, performing general vessel maintenance, ensuring regulatory and classification society compliance, supervising the maintenance and general efficiency of vessels, arranging our hire of qualified officers and crew, arranging and supervising drydocking and repairs, arranging insurance for vessels, purchasing stores, supplies, spares and new equipment for vessels, appointing supervisors and technical consultants and providing technical support and shoreside personnel who carry out the management functions described above and certain accounting services.

Our master management agreement with Eurobulk is effective as of October 1, 2006 and has an initial term of 5 years until September 30, 2011. The master management agreement cannot be terminated by Eurobulk without cause or under the other limited circumstances, such as sale of the Company or Eurobulk or the bankruptcy of either party. This master management agreement will automatically be extended after the initial period for an additional five year period unless terminated on or before the 90th day preceding the initial termination date. Pursuant to the master management agreement, each new vessel we acquire in the future will enter into a separate five year management agreement with Eurobulk. In addition, upon expiration of the current ship management agreements between Eurobulk and each vessel-owning subsidiary, such subsidiaries will enter into new ship management agreements with Eurobulk that terminate contemporaneously with the master management agreement.

In exchange for providing us with the services described above, we pay Eurobulk 630 euros per vessel per day adjusted annually for inflation.

Our Competitive Strengths

We believe that we possess the following competitive strengths:

- o Experienced Management Team. Our management team has significant experience in all aspects of commercial, technical, operational and financial areas of our business. Aristides J. Pittas, our Chairman and Chief Executive Officer, holds a dual graduate degree in Naval Architecture and Marine Engineering and Ocean Systems Management from the Massachusetts Institute of Technology. He has worked in various technical, shipyard and ship management capacities and since 1991 has focused on the ownership and operation of vessels carrying dry

Edgar Filing: EUROSEAS LTD. - Form 20-F

cargoes. Dr. Anastasios Aslidis, our Chief Financial Officer, holds a Ph.D. in Ocean Systems Management also from Massachusetts Institute of Technology and has over 19 years of experience, primarily as a partner at a Boston based international consulting firm focusing on investment and risk management in the maritime industry.

- o Cost Effective Vessel Operations. We believe that because of the efficiencies afforded to us through Eurobulk, the strength of our management team and the quality of our fleet, we are, and will continue to be, a reliable, low cost vessel operator, without compromising our high standards of performance, reliability and safety. Despite the average age of our fleet being approximately 19 years during 2006, our total vessel operating expenses, including management fees and general and administrative expenses were \$4,660 per day for the year ended December 31, 2006. We consider this amount to be among the lowest of the publicly listed drybulk shipping companies in the U.S. Our technical and operating expertise allows us to efficiently manage and transport a wide range of cargoes with a flexible trade route profile, which helps reduce ballast time between voyages and minimize off-hire days. Our professional, well-trained masters, officers and on board crews further help us to control costs and ensure consistent vessel operating performance. We actively manage our fleet and strive to maximize utilization and minimize maintenance expenditures. For the year ended December 31, 2006, our fleet utilization was 98.9% and since 2002 our utilization rate has averaged in excess of 99.0%.
- o Strong Relationships with Customers and Financial Institutions. We believe Eurobulk and the Pittas family have developed strong industry relationships and have gained acceptance with charterers, lenders and insurers because of their long-standing reputation for safe and reliable service and financial responsibility through various shipping cycles. Through Eurobulk, we offer reliable service and cargo carrying flexibility that enables us to attract customers and obtain repeat business. We also believe that the established customer base and reputation of Eurobulk and the Pittas family helps us to secure favorable employment for our vessels with well known charterers.

Our Business Strategy

Our business strategy is focused on providing consistent shareholder returns by carefully timing and structuring acquisitions of drybulk carriers and container ships and by reliably, safely and competitively operating our vessels through Eurobulk. We continuously evaluate purchase and sale opportunities, as well as long term employment opportunities for our vessels. Additionally, with the remaining proceeds from our recent follow-on offering, we plan to expand our fleet to increase our revenues and earnings and make our drybulk carrier and container ship fleet more cost efficient and attractive to our customers. We believe the following describe our business strategy:

- o Renew and Expand our Fleet. We expect to grow our fleet in a disciplined manner through timely and selective acquisitions of quality vessels. We perform in-depth technical review and financial analysis of each potential acquisition and only purchase vessels as market conditions and developments present themselves. We will be initially focused on purchasing well-maintained, secondhand vessels, which should provide a significant value proposition given the strong charter rates that exist currently. However, we will also consider purchasing younger vessels or newbuildings if the value proposition exists at the time. Furthermore, as part of our fleet renewal, we will continue to sell certain vessels when we believe it is in the best interests of the Company and our shareholders.

Edgar Filing: EUROSEAS LTD. - Form 20-F

- o Maintain Balanced Employment. We intend to strategically employ our fleet between period and spot charters. We actively pursue period charters to obtain adequate cash flow to cover our fleet's fixed costs, consisting of vessel operating expenses, management fees, general and administrative expenses, interest expense and drydocking costs for the upcoming 12-month period. We look to deploy the remainder of our fleet through period charters, spot charters, shipping pools or contracts of affreightment depending on our view of the direction of the markets and other tactical or strategic considerations. We believe this balanced employment strategy will provide us with more predictable operating cash flows and sufficient downside protection, while allowing us to participate in the potential upside of the spot market during periods of rising charter rates. On the basis of our fixed spot and existing period contracts, approximately 88% of our vessel capacity in 2007 and approximately 40% in 2008 are fixed, which will help protect us from market fluctuations, enable us to make significant principal and interest payments on our debt and pay dividends to our shareholders.
- o Operate a Fleet in Two Sectors. While remaining focused on the dry cargo segment of the shipping industry, we intend to continue to develop a diversified fleet of drybulk carriers and container ships of up to Panamax size. A diversified drybulk fleet profile will allow us to better serve our customers in both major and minor bulk trades, as well as to reduce any dependency on any one cargo, trade route or customer. We will remain focused on the smaller size ship segment of the container market, which has not experienced the same level of expansion in vessel supply that has occurred with larger container ships. A diversified fleet, in addition to enhancing the stability of our cash flows, will also help us to reduce our exposure to unfavorable developments in any one shipping sector and to benefit from upswings in any one shipping sector experiencing rising charter rates.
- o Optimize Use of Financial Leverage. We will use bank debt to partly fund our vessel acquisitions and increase financial returns for our shareholders. We actively assess the level of debt we incur in light of our ability to repay that debt based on the level of cash flow generated from our balanced chartering strategy and efficient operating cost structure. Our debt repayment schedule as of December 31, 2006 calls for a reduction of more than 45% of our then outstanding debt by the end of 2008. We expect this will increase our ability to borrow funds to make additional vessel acquisitions in order to grow our fleet and pay consistent and possibly higher dividends to our shareholders.

Our Customers

Our major charterer customers during the last three years include Klaveness (Bulkhandling and Baumarine shipping pools), Cheng Lie, Swiss Marine, Hamburg Bulk Carriers, Phoenix, Yang Ming Lines and Italia Maritima. We are a relationship driven company, and our top five customers in 2006 include three of our top five customers from 2005 (Cheng Lie, Yang Ming Lines and Klaveness). Our top five customers accounted for approximately 60% of our total revenues in 2006, 72% of our total revenues in 2005 and 69% of our total revenues for 2004. In 2006, our largest five customers, Italia Maritima, Klaveness, Cheng Lie, Yang Ming Lines and Tasman Orient Lines, accounted for 16.6%, 15.1%, 12.7%, 10.4% and 5.3% of our total revenues, respectively.

Year ended December 31,

The Dry Cargo and Containership Industries

Dry cargo shipping refers to the transport of certain commodities by sea between various ports in bulk or containerized form.

The drybulk commodities are often divided into two categories -- major bulks and minor bulks. Major bulks include items such as coal, iron ore and grains, while minor bulks include items such as aluminum, phosphate rock, fertilizer raw materials, agricultural and mineral cargo, cement, forest products and some steel products, including scrap.

There are four main classes of bulk carriers -- Handysize, Handymax, Panamax and Capesize. These classes represent the sizes of the vessel carrying the cargo in terms of deadweight ton ("dwt") capacity, which is defined as the total weight including cargo that the vessel can carry when loaded to a defined load line on the vessel. Handysize vessels are the smallest of the four categories and include those vessels weighing up to 40,000 dwt. Handymax carriers are those vessels that weigh between 40,000 and 60,000 dwt, while Panamax vessels are those ranging from 60,000 dwt to 80,000 dwt. Vessels over 80,000 dwt are called Capesize vessels.

Drybulk carriers are ordinarily chartered either through a voyage charter or a time charter, under a longer term contract of affreightment or in pools. Under a voyage charter, the owner agrees to provide a vessel for the transport of cargo between specific ports in return for the payment of an agreed freight rate per ton of cargo or an agreed dollar lump sum amount. Voyage costs, such as canal and port charges and bunker expenses, are the responsibility of the owner. Under a time charter, the ship owner places the vessel at the disposal of a charterer for a given period of time in return for a specified rate (either hire per day or a specified rate per dwt capacity per month) with the voyage costs being the responsibility of the charterer. In both voyage charters and time charters, operating costs (such as repairs and maintenance, crew wages and insurance premiums) are the responsibility of the ship owner. The duration of time charters varies, depending on the evaluation of market trends by the ship owner and by charterers. Occasionally, drybulk vessels are chartered on a bareboat basis. Under a bareboat charter, operations of the vessels and all operating costs are the responsibility of the charterer, while the owner only pays the financing costs of the vessel.

A contract of affreightment ("COA") is another type of charter relationship where a charterer and a ship owner enter into a written agreement pursuant to which identified cargo will be carried over a specified period of time. COA's benefit charterers by providing them with fixed transport costs for a commodity over an identified period of time. COA's benefit ship owners by offering ascertainable revenue over that same period of time and eliminating the uncertainty that would otherwise be caused by the volatility of the charter market. A shipping pool is a collection of similar vessel types under various ownerships, placed under the care of a single commercial manager. The manager markets the vessels as a single fleet and collects the earnings which are

Edgar Filing: EUROSEAS LTD. - Form 20-F

distributed to individual owners under a pre-arranged weighing system by which each entered vessel receives its share. Pools have the size and scope to combine voyage charters, time charters and contracts of affreightment with freight forward agreements for hedging purposes, to perform more efficient vessel scheduling thereby increasing fleet utilization.

Containership shipping refers to the transport of containerized trade which encompasses mainly the carriage of finished goods, but an increasing number of other cargoes in container boxes. Containerized trade is the fastest growing sector of seaborne trade. Containerships are further categorized by their size measured in twenty-foot equivalent units (teu) and whether they have their own gearing. The different categories of containerships are as follows. Post-panamax vessels are vessels with carrying capacity of more than 4,000 teu. Panamax vessels are vessels with carrying capacity from 3,000 to 4,000 teu. Intermediate container ships are vessels with carrying capacity from 2,000 to 3,000 teu. Handysize container ships are vessels with carrying capacity from 1,300 to 2,000 teu and are sometimes equipped with cargo loading and unloading gear. Finally, Feeder containerships are vessels with carrying capacity from 500 to 1,300 teu and are usually equipped with cargo loading and unloading gear. Containerships are primarily employed in time charter contracts with liner companies, which in turn employ them as part of the scheduled liner operations. Feeder containership are put in liner schedules feeding containers to and from central regional ports (hubs) where larger containerships provide cross ocean or longer haul service. The length of the time charter contract can range from several months to years.

Our Competitors

We operate in markets that are highly competitive and based primarily on supply and demand. We compete for charters on the basis of price, vessel location, size, age and condition of the vessel, as well as on our reputation. Eurobulk arranges our charters (whether spot charters, period charters or shipping pools) through the use of Eurochart, an affiliated brokering company who negotiates the terms of the charters based on market conditions. We compete primarily with other shipowners of drybulk carriers in the Handysize, Handymax and Panamax drybulk carrier sectors and the container ship sector. Ownership of drybulk carriers and container ships is highly fragmented and is divided among state controlled and independent shipowners. Some of our publicly listed competitors include Diana Shipping Inc. (NYSE: DSX), DryShips Inc. (NASDAQ: DRYS), Excel Maritime Carriers Ltd. (NYSE: EXM), Eagle Bulk Shipping Inc. (NASDAQ: EGLE), Genco Shipping and Trading Limited (NASDAQ: GSTL), Navios Maritime Holdings Inc. (NASDAQ: BULK), Quintana Maritime Limited (NASDAQ: QMAR), Danaos Corporation (NYSE: DAC) and Goldenport Holdings Inc. (LSE: GPRT).

Seasonality

Coal, iron ore and grains, which are the major bulks of the drybulk shipping industry, are somewhat seasonal in nature. The energy markets primarily affect the demand for coal, with increases during hot summer periods when air conditioning and refrigeration require more electricity and towards the end of the calendar year in anticipation of the forthcoming winter period. The demand for iron ore tends to decline in the summer months because many of the major steel users, such as automobile makers, reduce their level of production significantly during the summer holidays. Grains are completely seasonal as they are driven by the harvest within a climate zone. Because three of the five largest grain producers (the United States of America, Canada and the European Union) are located in the northern hemisphere and the other two (Argentina and Australia) are located in the southern hemisphere, harvests occur throughout the year and grains require drybulk shipping accordingly.

The container ship industry seasonal trends are driven by the import patterns of manufactured goods and refrigerated cargoes by the major importers, such as the United States, Europe, Japan and others. The volume of containerized

Edgar Filing: EUROSEAS LTD. - Form 20-F

trade is usually higher in the fall in preparation for the holiday season. During this period of time, container shipping rates are higher and, as a result, the charter rates for container ships are higher. However, fluctuations due to seasonality in the container shipping industry are much less pronounced than in the drybulk shipping industry.

Environmental and Other Regulations

Government regulation significantly affects the ownership and operation of our vessels. Our vessels are subject to international conventions and national, state and local laws and regulations in force in the countries in which our vessels may operate or are registered.

A variety of governmental and private entities subject our vessels to both scheduled and unscheduled inspections. These entities include the local port authorities (U.S. Coast Guard, harbor master or equivalent), classification societies, flag state administration (country of registry) and charterers. Certain of these entities require us to obtain permits, licenses and certificates for the operation of our vessels. Failure to maintain necessary permits or approvals could require us to incur substantial costs or temporarily suspend operation of one or more of our vessels.

We believe that the heightened level of environmental and quality concerns among insurance underwriters, regulators and charterers is leading to greater inspection and safety requirements on all vessels and may accelerate the scrapping of older vessels throughout the industry. Increasing environmental concerns have created a demand for vessels that conform to the stricter environmental standards. We are required to maintain operating standards for all of our vessels that will emphasize operational safety, quality maintenance, continuous training of our officers and crews and compliance with U.S. and international regulations. We believe that the operation of our vessels is in substantial compliance with applicable environmental laws and regulations; however, because such laws and regulations are frequently changed and may impose increasingly stricter requirements, such future requirements may limit our ability to do business, increase our operating costs, force the early retirement of our vessels, and/or affect their resale value, all of which could have a material adverse effect on our financial condition and results of operations.

Environmental Regulation - International Maritime Organization ("IMO")

The IMO has negotiated international conventions that impose liability for oil pollution in international waters and a signatory's territorial waters. In September 1997, the IMO adopted Annex VI to the International Convention for the Prevention of Pollution from Ships to address air pollution from ships. Annex VI was ratified in May 2004, and became effective in May 2005. Annex VI sets limits on sulfur oxide and nitrogen oxide emissions from ship exhausts and prohibits deliberate emissions of ozone depleting substances, such as chlorofluorocarbons. Annex VI also includes a global cap on the sulfur content of fuel oil and allows for special areas to be established with more stringent controls on sulfur emissions. We had developed a plan to comply with the Annex VI regulations, which became effective once Annex VI became effective. Additional or new conventions, laws and regulations may be adopted that could adversely affect our ability to operate our ships.

The operation of our vessels is also affected by the requirements set forth in the ISM Code. The ISM Code requires shipowners and bareboat charterers to develop and maintain an extensive "Safety Management System" that includes the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe operation and describing procedures for dealing with emergencies. The failure of a shipowner or management company to comply with the ISM Code may subject such party to increased liability, may decrease available insurance coverage for the affected vessels, and may result

Edgar Filing: EUROSEAS LTD. - Form 20-F

in a denial of access to, or detention in, certain ports. Currently, each of our vessels is ISM Code-certified. However, we may not be able to maintain such certification indefinitely.

Environmental Regulations - The United States of America Oil Pollution Act of 1990 ("OPA")

OPA established an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills. OPA affects all shipowners and operators whose vessels trade in the United States of America, its territories and possessions or whose vessels operate in waters of the United States of America, which includes the United States' territorial sea of the United States of America and its 200 nautical mile exclusive economic zone.

Under OPA, vessel owners, operators, charterers and management companies are "responsible parties" and are jointly, severally and strictly liable (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or threatened discharges of oil from their vessels, including bunkers (fuel).

OPA was amended in 2006 to increase the limits of the liability of responsible parties for non-tank vessels to the greater of \$950 per gross ton or \$800,000 (subject to possible adjustment for inflation). These limits of liability do not apply if an incident was directly caused by violation of applicable United States federal safety, construction or operating regulations or by a responsible party's gross negligence or willful misconduct, or if the responsible party fails or refuses to report the incident or to cooperate and assist in connection with oil removal activities.

We currently maintain for each of our vessels pollution liability coverage insurance in the amount of \$1 billion per incident. If the damages from a catastrophic pollution liability incident exceed our insurance coverage, the payment of those damages may materially decrease our net income.

OPA requires shipowners and operators of vessels to establish and maintain with the United States Coast Guard evidence of financial responsibility sufficient to meet their potential liabilities under OPA. In December 1994, the Coast Guard implemented regulations requiring evidence of financial responsibility for non-tank vessels in the amount of \$900 per gross ton, which includes the OPA limitation on liability of \$600 per gross ton and the U.S. Comprehensive Environmental Response, Compensation, and Liability Act liability limit of \$300 per gross ton. We expect that the Coast Guard will increase the amount of financial responsibility to reflect the 2006 increase in liability under OPA. Under the regulations, vessel owners and operators may evidence their financial responsibility by showing proof of insurance, surety bond, self-insurance, or guaranty.

OPA specifically permits individual states to impose their own liability regimes with regard to oil pollution incidents occurring within their boundaries, and some states have enacted legislation providing for unlimited liability for oil spills. In some cases, states, which have enacted such legislation, have not yet issued implementing regulations defining vessels owners' responsibilities under these laws. We currently comply, and intend to comply in the future, with all applicable state regulations in the ports where our vessels call.

Environmental Regulation - The United States of America Clean Water Act

The U.S. Clean Water Act, or CWA, prohibits the discharge of oil or hazardous substances in navigable waters and imposes strict liability in the form of penalties for any unauthorized discharges. The CWA also imposes

Edgar Filing: EUROSEAS LTD. - Form 20-F

substantial liability for the costs of removal, remediation and damages and compliments the remedies available under OPA and CERCLA.

Currently, under U.S. Environmental Protection Agency, or EPA, regulations that have been in place since 1978, vessels are exempt from the requirement to obtain CWA permits for the discharge in U.S. ports of ballast water and other substances incidental to the normal operation of vessels. However, on March 30, 2005, the United States District Court for the Northern District of California ruled in Northwest Environmental Advocate v. EPA, 2005 U.S. Dist. LEXIS 5373, that EPA exceeded its authority in creating an exemption for ballast water. On September 18, 2006, the court issued an order granting permanent injunctive relief to the plaintiffs, invalidating the blanket exemption in EPA's regulations for all discharges incidental to the normal operation of a vessel as of September 30, 2008, and directing EPA to develop a system for regulating all discharges from vessels by that date. Under the Court's ruling, shipowners and operators of vessels visiting U.S. ports would be required to comply with the CWA permitting program to be developed by EPA or face penalties. EPA has appealed this decision to the Ninth Circuit Court of Appeals, but, if the lower court's order is ultimately upheld, we will incur certain costs to obtain CWA permits for our vessels.

Environmental Regulation - Other Environmental Initiatives

The European Union is considering legislation that will affect the operation of vessels and the liability of shipowners for oil pollution. It is difficult to predict what legislation, if any, may be promulgated by the European Union or any other country or authority.

The U.S. National Invasive Species Act, or NISA, was enacted in 1996 in response to growing reports of harmful organisms being released into U.S. ports through ballast water taken on by ships in foreign ports. Under NISA, the U.S. Coast Guard adopted regulations in July 2004 imposing mandatory ballast water management practices for all vessels equipped with ballast water tanks entering U.S. waters. These requirements can be met by performing mid-ocean ballast exchange, by retaining ballast water on board the ship, or by using environmentally sound alternative ballast water management methods approved by the U.S. Coast Guard. (However, mid-ocean ballast exchange is mandatory for ships heading to the Great Lakes or Hudson Bay, or vessels engaged in the foreign export of Alaskan North Slope crude oil.) Mid-ocean ballast exchange is the primary method for compliance with the Coast Guard regulations, since holding ballast water can prevent ships from performing cargo operations upon arrival in the United States, and alternative methods are still under development. Vessels that are unable to conduct mid-ocean ballast exchange due to voyage or safety concerns may discharge minimum amounts of ballast water (in areas other than the Great Lakes and the Hudson River), provided that they comply with recordkeeping requirements and document the reasons they could not follow the required ballast water management requirements. The Coast Guard is developing a proposal to establish ballast water discharge standards, which could set maximum acceptable discharge limits for various invasive species, and/or lead to requirements for active treatment of ballast water.

At the international level, the IMO adopted an International Convention for the control and Management of Ships' Ballast Water and Sediments in February 2004 (the "BWM Convention"). The Convention's implementing regulations call for a phased introduction of mandatory ballast water exchange requirements (beginning in 2009), to be replaced in time with mandatory concentration limits. The BWM Convention will not enter into force until 12 months after it has been adopted by 30 states, the combined merchant fleets of which represent not less than 35% of the gross tonnage of the world's merchant shipping.

Vessel Security Regulations

Edgar Filing: EUROSEAS LTD. - Form 20-F

Since the terrorist attacks of September 11, 2001, there have been a variety of initiatives intended to enhance vessel security. On November 25, 2002, the Maritime Transportation Security Act of 2002 ("MTSA"), came into effect. To implement certain portions of the MTSA, in July 2003, the U.S. Coast Guard issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States of America. Similarly, in December 2002, amendments to the International Convention for the Safety of Life at Sea ("SOLAS") created a new chapter of the convention dealing specifically with maritime security. The new chapter went into effect in July 2004, and imposes various detailed security obligations on vessels and port authorities, most of which are contained in the newly created ISPS Code. Among the various requirements are:

- o on-board installation of automatic information systems ("AIS"), to enhance vessel-to-vessel and vessel-to-shore communications;

- o on-board installation of ship security alert systems;
- o the development of vessel security plans; and
- o compliance with flag state security certification requirements.

The U.S. Coast Guard regulations, intended to align with international maritime security standards, exempt non-U.S. vessels from MTSA vessel security measures provided such vessels have on board, by July 1, 2004, a valid International Ship Security Certificate ("ISSC") that attests to the vessel's compliance with SOLAS security requirements and the ISPS Code. Our vessels are in compliance with the various security measures addressed by the MTSA, SOLAS and the ISPS Code. We do not believe these additional requirements will have a material financial impact on our operations.

Inspection by Classification Societies

The hull and machinery of every commercial vessel must be classed by a classification society authorized by its country of registry. The classification society certifies that a vessel is safe and seaworthy in accordance with the applicable rules and regulations of the country of registry of the vessel and SOLAS. Our vessels are currently classed with Lloyd's Register of Shipping, Bureau Veritas and Nippon Kaiji Kyokai. ISM and International Ship and Port Facilities Security ("ISPS") certification have been awarded by Bureau Veritas and the Panama Maritime Authority to our vessels and Eurobulk, our ship management company.

A vessel must undergo annual surveys, intermediate surveys, drydockings and special surveys. In lieu of a special survey, a vessel's machinery may be on a continuous survey cycle, under which the machinery would be surveyed periodically over a five-year period. Every vessel is also required to be drydocked every two to three years for inspection of the underwater parts of such vessel. If any vessel does not maintain its class and/or fails any annual survey, intermediate survey, drydocking or special survey, the vessel will be unable to carry cargo between ports and will be unemployable and uninsurable which could cause us to be in violation of certain covenants in our loan agreements. Any such inability to carry cargo or be employed, or any such violation of covenants, could have a material adverse impact on our financial condition and results of operations.

The following table lists the next drydocking and special survey for the vessels in our current fleet.

Vessel	Next	Type
-----	-----	-----

Edgar Filing: EUROSEAS LTD. - Form 20-F

TASMAN TRADER.....	June 2010	Special Survey
YM QINGDAO I.....	July 2010	Special Survey
ARTEMIS.....	April 2010	Special Survey
YM XINGANG I	December 2007	Drydocking
ARISTIDES N.P.	March 2008	Special Survey
KUO HSIUNG	April 2008	Special Survey
IRINI.....	June 2008	Special Survey
NIKOLAOS P	March 2009	Special Survey
GREGOS.....	June 2007	Drydocking
MANOLIS P.....	July 2007	Drydocking

Risk of Loss and Liability Insurance

General

The operation of any cargo vessel includes risks such as mechanical failure, physical damage, collision, property loss, cargo loss or damage and business interruption due to political circumstances in foreign countries, hostilities and labor strikes. In addition, there is always an inherent possibility of marine disaster, including oil spills and other environmental mishaps, and the liabilities arising from owning and operating vessels in international trade. OPA, which imposes virtually unlimited liability upon shipowners, operators and bareboat charterers of any vessel trading in the exclusive economic zone of the United States of America for certain oil pollution accidents in the United States of America, has made liability insurance more expensive for shipowners and operators trading in the United States of America market. While we believe that our present insurance coverage is adequate, not all risks can be insured, and there can be no guarantee that any specific claim will be paid, or that we will always be able to obtain adequate insurance coverage at reasonable rates.

Hull and Machinery Insurance

We procure hull and machinery insurance, protection and indemnity insurance, which includes environmental damage and pollution insurance and war risk insurance and FD&D insurance for our fleet. We do not maintain insurance against loss of hire, which covers business interruptions that result in the loss of use of a vessel.

Protection and Indemnity Insurance

Protection and indemnity insurance is provided by mutual protection and indemnity associations, or P&I Associations, which covers our third-party liabilities in connection with our shipping activities. This includes third-party liability and other related expenses of injury or death of crew, passengers and other third parties, loss or damage to cargo, claims arising from collisions with other vessels, damage to other third-party property, pollution arising from oil or other substances, and salvage, towing and other related costs, including wreck removal. Protection and indemnity insurance is a form of mutual indemnity insurance, extended by protection and indemnity mutual associations, or "clubs."

Our current protection and indemnity insurance coverage for pollution is \$1 billion per vessel per incident. The 14 P&I Associations that comprise the International Group insure approximately 90% of the world's commercial tonnage and have entered into a pooling agreement to reinsure each association's liabilities. Our vessels are members of the UK Club. Each P&I Association has capped its exposure to this pooling agreement at \$4.5 billion. As a member of a P&I Association, which is a member of the International Group, we are subject to calls payable to the associations based on our claim records as well as the claim records of all other members of the individual associations and members of

Edgar Filing: EUROSEAS LTD. - Form 20-F

the shipping pool of P&I Associations comprising the International Group.

C. Organizational structure

Euroseas is the sole owner of all outstanding shares of the subsidiaries listed in Note 1 of our consolidated financial statements under Item 18 and in Exhibit 8.1 to this annual report.

D. Property, plants and equipment

We do not own any real property. As part of the management services provided by Eurobulk during the period in which we conducted business to date, we have shared, at no additional cost, offices with Eurobulk. We do not have current plans to lease or purchase office space, although we may do so in the future.

Our interests in our vessels are owned through our wholly-owned vessel owning subsidiaries and these are our only material properties. Our vessels are subject to mortgages. Specifically:

- o Searoute Maritime Ltd. incorporated in Cyprus on May 20, 1992, owner of the Cyprus flag 33,712 dwt bulk carrier motor vessel Ariel, which was built in 1977 and acquired on March 5, 1993. Ariel was sold on February 22, 2007.
- o Oceanopera Shipping Ltd. incorporated in Cyprus on June 26, 1995, owner of the Cyprus flag 34,750 dwt bulk carrier motor vessel Nikolaos P, which was built in 1984 and acquired on July 22, 1996.
- o Oceanpride Shipping Ltd. incorporated in Cyprus on March 7, 1998, owner of the Cyprus flag 26,354 dwt bulk carrier motor vessel John P, which was built in 1981 and acquired on March 7, 1998. John P was sold on July 5, 2006.
- o Alcinoe Shipping Ltd. incorporated in Cyprus on March 20, 1997, owner of the Cyprus flag 26,354 dwt bulk carrier motor vessel Pantelis P, which was built in 1981 and acquired on June 4, 1997. Pantelis P was sold on May 31, 2006. On February 22, 2007, Alcinoe Shipping Ltd. acquired the 38,691 dwt Cyprus flag dry bulk motor vessel "Gregos", which was built in 1984.
- o Alterwall Business Inc. incorporated in Panama on January 15, 2001, owner of the Panama flag 18,253 dwt container carrier motor vessel HM Qingdao 1 (ex Kuo Jane), which was built in 1990 and acquired on February 16, 2001.
- o Allendale Investment S.A. incorporated in Panama on January 22, 2002, owner of the Panama flag 18,154 dwt container carrier motor vessel Kuo Hsiung, which was built in 1993 and acquired on May 13, 2002.
- o Diana Trading Ltd. incorporated in the Marshall Islands on September 25, 2002, owner of the Marshall Islands flag 69,734 dwt bulk carrier motor vessel Irini, which was built in 1988 and acquired on October 15, 2002.
- o Salina Shipholding Corp., incorporated in the Marshall Islands on October 20, 2005, owner of the Marshall Islands flag 29,693 dwt container carrier motor vessel Artemis, which was built in 1987 and acquired on November 25, 2005.
- o Xenia International Corp., incorporated in the Marshall Islands on April 6, 2006, owner of the Marshall Islands flag 22,568 dwt / 950 TEU multipurpose motor vessel m/v Tasman Trader, which was built in 1990 and acquired on April 27, 2006.
- o Prospero Maritime Inc., incorporated in the Marshall Islands on July 21, 2006, owner of the Marshall Islands flag 69,268 dwt dry bulk motor vessel "Aristides N.P.", which was built in 1993 and acquired on September 4, 2006.
- o Xingang Shipping Ltd., incorporated in Liberia on October 16, 2006, owner of the Liberian flag 23,596 dwt container carrier "YM Xingang I", which was built in February 1993 and acquired on November 15, 2006.
- o Manolis Shipping Ltd., incorporated in Marshall Islands on March 16, 2007, owner of the Marshall Islands flag 20,346 dwt container carrier motor vessel "Manolis P", which was built in 1995 and acquired on April 12,

Edgar Filing: EUROSEAS LTD. - Form 20-F

2007.

As of December 31, 2006, our vessels m/v Ariel and m/v Nikolaos P, were collateral to a loan with an outstanding balance of \$3,800,000. Our vessels, m/v HM Quingdao 1 and m/v Kuso Hsiung, were collateral to a loan with an outstanding balance of \$11,750,000; our vessel m/v Irini was collateral to two loans with an aggregate balance of \$4,180,000. Our vessel, m/v Artemis, was collateral to a loan with an outstanding amount of \$12,000,000. Our vessel, m/v Tasman Trader, was collateral to a loan with an outstanding balance of \$7,720,000. Our vessel, m/v Aristides N.P., was collateral to a loan with an outstanding balance of \$15,500,000. Our vessel, m/v YM Xingang I, was collateral to a loan with an outstanding balance of \$20,000,000. Our vessel, m/v Gregos, was added as collateral to the same loan as our vessel, m/v YM Xingang I, after its acquisition on February 22, 2007.

Item 4A Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

The following discussion should be read in conjunction with our financial statements and footnotes thereto contained in this annual report. This discussion contains forward-looking statements, which are based on our assumptions about the future of our business. Our actual results will likely differ materially from those contained in the forward-looking statements. Please read "Forward-Looking Statements" for additional information regarding forward-looking statements used in this annual report. Reference in the following discussion to "our" and "us" refer to Euroseas, our subsidiaries and the predecessor operations of Euroseas, except where the context otherwise indicates or requires.

We are a Marshall Islands company incorporated in May 2005. We are a provider of worldwide ocean-going transportation services. We own and operate drybulk carriers that transport major bulks such as iron ore, coal and grains, and minor bulks such as bauxite, phosphate and fertilizers. We also own and operate container ships and multipurpose vessels that transport dry and refrigerated containerized cargoes, mainly including manufactured products and perishables. As of April 27, 2007, our fleet consisted of four drybulk carriers, comprised of two Panamax drybulk carriers and two Handysize drybulk carriers, five containerships and one multipurpose vessel. The total cargo carrying capacity of the four bulk carriers is 212,443 deadweight tons, or dwt, and of the three containerships is 110,042 dwt and 7,487 twenty-foot equivalent units, or teu. Our multipurpose vessel can carry 22,568 dwt and/or 950 teu.

We actively manage the deployment of our fleet between spot market voyage charters, which generally last from several days to several weeks, and time charters, which can last up to several years. Some of our vessels may participate in shipping pools, or, in some cases participate in contracts of affreightment (please refer to the section "The Dry Cargo and Containership Industries" under Item 4B for a description of the above mentioned types of vessel employment). As of April 27, 2007, one of our vessels participated in a shipping pool.

Vessels operating on time charters provide more predictable cash flows but can yield lower profit margins than vessels operating in the spot market during periods characterized by favorable market conditions. Vessels operating in the spot market generate revenues that are less predictable but may enable us to achieve increased profit margins during periods of high vessel rates although we are exposed to the risk of declining vessel rates, which may have a materially adverse impact on our financial performance. Vessels operating in pools benefit from better scheduling, and thus increased utilization, and better access to contracts of affreightment due to the larger commercial operation. We are

Edgar Filing: EUROSEAS LTD. - Form 20-F

constantly evaluating opportunities to increase the number of our vessels deployed on time charters or to participate in shipping pools (if available for our vessels), however we only expect to enter into additional time charters or shipping pools if we can obtain contract terms that satisfy our criteria. Containerships are employed almost exclusively on time charter contracts. We carefully evaluate the length and the rate of the time charter contract at the time of fixing or renewing a contract considering market conditions, trends and expectations.

We constantly evaluate secondhand vessel purchase opportunities to expand our fleet accretive to our earnings and cash flow, as well as, sale opportunities of certain of our vessels. Since December 31, 2006, we have purchased one drybulk carrier (m/v Gregos built in 1984) and one container ship (m/v Manolis P both built in 1995) in accordance with our strategy of renewing our fleet and expanding it utilizing the funds we raised in our follow-on common stock offering that was completed on February 5, 2007.

A. Operating results

Factors Affecting Our Results of Operations

We believe that the important measures for analyzing trends in the results of our operations consist of the following:

Calendar days. We define calendar days as the total number of days in a period during which each vessel in our fleet was in our possession including off-hire days associated with major repairs, drydockings or special or intermediate surveys. Calendar days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during that period.

Available days. We define available days as the total number of days in a period during which each vessel in our fleet was in our possession net of off-hire days associated with scheduled repairs, drydockings or special or intermediate surveys. The shipping industry uses available days to measure the number of days in a period during which vessels were available to generate revenues.

Voyage days. We define voyage days as the total number of days in a period during which each vessel in our fleet was in our possession net of off-hire days associated with scheduled and unscheduled repairs, drydockings or special or intermediate surveys or days waiting to find employment. The shipping industry uses voyage days to measure the number of days in a period during which vessels actually generate revenues.

Fleet utilization. We calculate fleet utilization by dividing the number of our voyage days during a period by the number of our available days during that period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons such as unscheduled repairs or days waiting to find employment.

Spot Charter Rates. Spot charter rates are volatile and fluctuate on a seasonal and year to year basis. The fluctuations are caused by imbalances in the availability of cargoes for shipment and the number of vessels available at any given time to transport these cargoes.

Time Charter Equivalent ("TCE"). A standard maritime industry performance measure used to evaluate performance is the daily time charter equivalent, or daily TCE. Daily TCE revenues are voyage revenues minus voyage expenses divided by the number of voyage days during the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are

Edgar Filing: EUROSEAS LTD. - Form 20-F

unique to a particular voyage, which would otherwise be paid by a charterer under a time charter. We believe that the daily TCE neutralizes the variability created by unique costs associated with particular voyages or the employment of drybulk carriers on time charter or on the spot market (containership are chartered on a time charter basis) and presents a more accurate representation of the revenues generated by our vessels.

Basis of Presentation and General Information

We use the following measures to describe our financial performances:

Voyage revenues. Our voyage revenues are driven primarily by the number of vessels in our fleet, the number of voyage days during which our vessels generate revenues and the amount of daily charter hire that our vessels earn under charters, which, in turn, are affected by a number of factors, including our decisions relating to vessel acquisitions and disposals, the amount of time that we spend positioning our vessels, the amount of time that our vessels spend in drydock undergoing repairs, maintenance and upgrade work, the age, condition and specifications of our vessels, levels of supply and demand in the transportation market and other factors affecting spot market charter rates in both the drybulk carrier and containership markets.

Commissions. We pay commissions on all chartering arrangements of 1.25% to Eurochart, one of our affiliates, plus additional commission of usually up to 5% to other brokers involved in the transaction. These additional commissions, as well as changes to charter rates will cause our commission expenses to fluctuate from period to period. Eurochart also receives a fee equal to 1% calculated as stated in the relevant memorandum of agreement for any vessel bought or sold by them on our behalf.

Voyage expenses. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage which would otherwise be paid by the charterer under a time charter contract, as well as commissions. Under time charters, the charterer pays voyage expenses whereas under spot market voyage charters, we pay such expenses. The amounts of such voyage expenses are driven by the mix of charters undertaken during the period.

Vessel operating expenses. Vessel operating expenses include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses. Our vessel operating expenses, which generally represent fixed costs, have historically changed in line with the size of our fleet. Other factors beyond our control, some of which may affect the shipping industry in general (including, for instance, developments relating to market prices for insurance or inflationary increases) may also cause these expenses to increase.

Management fees. These are the fees that we pay to Eurobulk, our ship manager and an affiliate, under our management agreement with Eurobulk for the technical and commercial management that Eurobulk performs on our behalf. The fee is 630 Euros per vessel per day and is payable monthly in advance adjusted annually for inflation.

Vessel depreciation. We depreciate our vessels on a straight-line basis with reference to the cost of the vessel, age and scrap value as estimated at the date of acquisition. Depreciation is calculated over the remaining useful life of the vessel, which is estimated to range from 25 to 30 years from the date of original construction. Remaining useful lives of property are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of estimated lives are recognized over current and future periods. During 2004, management changed

Edgar Filing: EUROSEAS LTD. - Form 20-F

its estimate of the scrap value of its vessels (see Item 3A Selected Consolidated Financial Data.

Amortization of deferred drydocking and special survey expense. Our vessels are required to be drydocked approximately every 30 to 60 months for major repairs and maintenance that cannot be performed while the vessels are trading. We capitalize the costs associated with drydockings as they occur and amortize these costs on a straight-line basis over the period between drydockings. Costs capitalized as part of the drydocking include actual costs incurred at the drydock yard; cost of hiring riding crews to effect repairs on a vessel and parts used in making such repairs that are reasonably made in anticipation of reducing the duration or cost of the drydocking; cost of travel, lodging and subsistence of our personnel sent to the drydocking site to supervise; and the cost of hiring a third party to oversee a drydocking. We believe that these criteria are consistent with industry practice and that our policy of capitalization reflects the economics and market values of the vessels. Commencing January 1, 2006, we revised our policy to exclude the cost of hiring riding crews and the cost of parts used by riding crews from amounts capitalized as drydocking cost. We have not restated any historical financial statements because we determined that the impact of such a revision is not material to our operating income and net income for any periods presented.

Interest expense. We traditionally finance vessel acquisitions partly with debt on which we incur interest expense. The interest rate we pay is generally linked to the 3-month LIBOR rate, although from time to time we utilize fixed rate loans or could use interest rate swaps to eliminate our interest rate exposure. Interest due is expensed in the period is accrued. Loan cost are amortized over the period of the loan; the un-amortized portion is written-off if the loan is prepaid early.

Other general and administrative expenses. We incur expenses consisting mainly of executive compensation, professional fees, directors liability insurance and reimbursement of our directors' and officers' travel-related expenses. General and administrative expenses increased following the completion of our Private Placement and Euroseas becoming a public company due to the duties typically associated with public companies. We acquire executive services, our CEO, CFO and Secretary, through Eurobulk as part of our management agreement. In 2006, the management fee paid to Eurobulk for such executive compensation services to us as a public company was \$508,750, incremental to the vessel management fee. In 2005, we paid \$250,000 for such services to Eurobulk starting on July 1, 2005. The fee for executive services is adjusted annually for inflation every July 1st.

In evaluating our financial condition, we focus on the above measures to assess our historical operating performance and we use future estimates of the same measures to assess our future financial performance. In addition, we use the amount of cash at our disposal and our total indebtedness to assess our short term liquidity needs and our ability to finance additional acquisitions with available resources (see also discussion under "Capital Expenditures" below). In assessing the future performance of our present fleet, the greatest uncertainty relates to the spot market performance which affects those of our vessels that are not employed under fixed time charter contracts. Decisions about the acquisition of additional vessels or possible sales of existing vessels are based on financial and operational evaluation of such action and depend on the overall state of the drybulk, containership and multipurpose vessel market, the availability of purchase candidates, available employment and our general assessment of economic prospects for the sectors in which we operate.

Results from Operations

Edgar Filing: EUROSEAS LTD. - Form 20-F

Year ended December 31, 2006 compared year ended December 31, 2005.

Voyage revenues. Voyage revenues for the period were \$42.14 million, down 5.3% compared to the same period in 2005 during which voyage revenues amounted to \$44.52 million. The decrease was primarily due to the lower charter rates our vessels achieved in 2006 as compared to 2005. Our fleet of 8.09 vessels had throughout the period 31 unscheduled offhire days, primarily due to an unscheduled repair for m/v Ariel and 47 days of scheduled offhire for the drydocking of m/v Nikolaos P and m/v Kuo Hsiung, generating an average TCE rate per vessel of \$14,313 per day compared to \$17,485 per day per vessel for the same period in 2005. The average TCE rate our vessels achieve is a combination of the time charter rate earned by our vessels under time charter contracts, which is not influenced by market developments, and the TCE rate earned by our vessels employed in the spot market which is influenced by market developments. Shipping markets in 2006 were on average weaker compared to 2005, although in the second half of 2006 the drybulk market recovered significantly. The lower average market rates during 2006 influenced the earnings of our vessel employed in the spot market.

Commissions. Commissions for the period were \$1.83 million. At 4.34% of voyage revenues, commissions were lower than in the same period in 2005. For the year ended December 31, 2005, commissions amounted to \$2.39 million, or 5.36% of voyage revenues. The lower level of commissions in 2006 is partly due to the fact that more vessels operated in pools (where commissions are paid by the pool thus reducing the commissions paid by us) and the lower level of commissions of certain period charters (for example, m/v Tasman Trader's charter had commissions of 2.25%).

Voyage expenses. Voyage expenses for the year were \$1.15 million related to expenses for certain voyage charters. For the year ended December 31, 2005, voyage expenses amounted to \$0.67 million. Because our vessels are generally chartered under time charter contracts, voyage expenses represent a small fraction (1.5% and 2.7% in 2005 and 2006, respectively) of voyage revenues; in 2006, we had more voyage charters than in 2005 which resulted in higher voyage expenses.

Vessel operating expenses. Vessel operating expenses were \$10.37 million for the period compared to \$8.61 million for the same period in 2005. This difference was due to the higher average number of vessels we operated in 2006, specifically an average of 8.09 vessels in 2006 compared to 7.10 vessels in 2005. Daily vessel operating expenses per vessel increased modestly between the two periods to \$3,524 per day in 2006 compared to \$3,323 per day in 2005, a 6.1% increase, reflecting primarily higher crew and lubricant costs.

Management fees. These are part of the fees we pay to Eurobulk under our management agreement. As of December 31, 2006, Eurobulk charged us 610 Euros per day per vessel totalling \$2.27 million for the period, or \$770 per day per vessel. For the same period in 2005, management fees amounted to \$1.91 million, or \$738 per day per vessel based on the daily rate per vessel of 590 Euros. The Euro exchange rate has been on average about 1% higher in 2006 as compared to 2005. The increase in the management fees paid in 2006 also resulted from an increase in the average number of vessels we owned during the period; in 2006, we owned 8.09 vessels compared to an average of 7.10 vessels we owned during 2005.

Other general and administrative expenses. These are expenses we pay as part of our operation as a public company and include the fixed portion of our management agreement fees, legal and auditing fees, directors' and officers' liability insurance and other miscellaneous corporate expenses. In 2006, we had a total of \$1.1 million of general and administrative expenses as compared to \$0.4 million in 2005. We started incurring these expenses in the second half of 2005 and mainly after the completion of our private placement in August 2005.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Our 2006 level of general and administrative expenses reflect a full year of incurring them compared to less than half a year in 2005.

Amortization of drydocking and special survey expense and vessel depreciation. Amortization and depreciation for the period was \$7.29 million. This consists of \$6.28 million of depreciation and \$1.01 million of amortization of deferred drydocking expenditures. Comparatively, depreciation and amortization for the same period in 2005 amounted to \$2.66 million and \$1.55 million, respectively, for a total of \$4.21 million. Depreciation in 2006 was higher than in 2005 because of the higher average number of vessels and also because the depreciation associated with vessels bought in 2006 was higher than the corresponding depreciation of the vessels sold during 2006. Amortization in 2006 is lower than the same period in 2005 due to the sale of m/v Pantelis P and m/v John P in the middle of 2006, while the 3 vessels bought during 2006 did not have any amortization during the year.

Net gain or Loss from vessel sales. There were two vessels sold in 2006 for a gain of \$4.45 million. There were no vessel sales in the year ended December 31, 2005.

Interest and other financing costs, net. Interest and other financing costs, net for the period were \$2.53 million. Of this amount, \$3.40 million relates to interest incurred, loan fees and expenses paid and deferred loan fees written-off during the period, offset by \$0.87 million of interest income during the period. Comparatively, during the same period in 2005, net interest and finance costs amounted to \$1.04 million, comprised of \$1.50 million of interest incurred and loan fees and offset by \$0.46 million of interest income. Interest incurred and loan fees are higher in 2006 due to the higher loan amount outstanding as a result of the new loans undertaken in June 2006, August 2006 and November 2006.

Derivative and Foreign Exchange Gains or Losses. In 2006, we had a \$1,598 foreign exchange loss and no derivative gains or losses. In 2005, we had a derivative loss of \$0.10 million due to an interest rate swap on a notional amount of \$5 million, and foreign exchange gains of less than \$0.01 million.

Net income. As a result of the above, net income for the year ended on December 31, 2006 was \$20.07 million compared to \$25.18 million for the same period in 2005, representing a decrease of 20.3%.

Year ended December 31, 2005 compared year ended December 31, 2004.

Voyage revenues. Voyage revenues for the period were \$44.52 million, down 2.6% compared to the same period in 2004 during which voyage revenues amounted to \$45.72 million. The decrease was primarily due to the lower charter rates our vessels achieved, the fact that we operated on average fewer vessels compared to the same period in 2004 (on average 7.10 vessels in 2005 versus 7.31 vessels in 2004) and the lower utilization rate of our available days (97.4% in 2005 compared to 99.5% in 2004). Our fleet of 7.10 vessels had throughout the period 38 unscheduled offhire days, primarily due to an unscheduled repair for m/v Ariel, and, 45 days of scheduled off-hire for the drydocking of m/v Irini and m/v John P, generating an average TCE rate per vessel of \$17,643 per day compared to \$17,839 per day per vessel for the same period in 2004. The average TCE rate our vessels achieve is a combination of the time charter rate earned by our vessels under time charter contracts, which is not influenced by market developments, and the TCE rate earned by our vessels employed in the spot market which is influenced by market developments. Shipping markets weakened in the second half of 2005 influencing a portion of the TCE earned by some of our vessels.

Commissions. Commissions for the period were \$2.39 million. At 5.36% of voyage revenues, commissions were higher than in the same period in 2004. For

Edgar Filing: EUROSEAS LTD. - Form 20-F

the year ended December 31, 2004 commissions amounted to \$2.22 million, or 4.85% of voyage revenues. The higher level of commissions in 2005 is due to the fact that fewer vessels operated in pools (where commissions are paid by the pool thus reducing the commissions paid by us).

Voyage expenses. Voyage expenses for the year were \$0.67 million related to expenses for certain voyage charters. For the year ended December 31, 2004 voyage expenses amounted to \$0.37 million. Because our vessels are generally chartered under time charter contracts, voyage expenses represent a small fraction of voyage revenues; in 2005, we had more voyage charters than in 2004 which resulted in higher voyage expenses.

Vessel operating expenses. Vessel operating expenses were \$8.61 million for the period compared to \$8.91 million for the same period in 2004. This difference was due to the lower average number of vessels we operated in 2005, specifically an average of 7.10 vessels in 2005 compared to 7.31 vessels in 2004. Daily vessel operating expenses per vessel were rather stable between the two periods at \$3,322 per day in 2005 compared to \$3,327 per day in 2004.

Management fees. These are the fees we pay to Eurobulk under our management agreement with it. As of December 31, 2005, Eurobulk charged us 590 Euros per day per vessel totalling \$1.91 million for the period, or \$738 per day per vessel. For the same period in 2004, management fees amounted to \$1.97 million, or \$737 per day per vessel based on the same daily rate per vessel of 590 Euros. The Euro exchange rate has been on average the same during 2005 and 2004. The modest decline in the management fees paid in 2005 is also attributed to the lower average number of vessels we owned during the period; in 2005, we owned 7.10 vessels compared to an average of 7.31 vessels we owned during 2004.

Other general and administrative expenses. These are expenses we pay as part of our operation as a public company and include the fixed portion of our management agreement fees, legal and auditing fees, directors' and officers' liability insurance and other miscellaneous corporate expenses. In 2005, we had a total of \$0.4 million of general and administrative expenses. We started incurring these expenses in the second half of 2005 and mainly after the completion of our private placement in August 2005. In 2004, we had no general and administration expenses.

Amortization of drydocking and special survey expense and vessel depreciation. Amortization and depreciation for the period was \$4.21 million. This consists of \$2.66 million of depreciation and \$1.55 million of amortization of deferred drydocking expenditures. Comparatively, depreciation and amortization for the same period in 2004 amounted to \$2.53 million and \$0.93 respectively for a total of \$3.46 million. Depreciation in 2005 is higher than in 2004 despite the lower average number of vessels because the depreciation associated with m/v Artemis which was bought in November 2005 was higher than the corresponding depreciation of m/v Widar which was sold in April 2004. Amortization for 2005 is higher than the same period in 2004 due to the amortization of additional drydocking expenditures incurred in 2004 and 2005.

Net gain or loss from vessel sales. There were no vessel sales in the year ended December 31, 2005. In 2004, m/v Widar was sold on April 24 for a gain of \$2.32 million.

Interest and other financing costs, net. Interest and other financing costs, net for the period were \$1.04 million. Of this amount, \$1.50 million relates to interest incurred and loan fees and expenses paid and deferred loan fees written-off during the period, offset by \$0.46 million of interest income during the period. Comparatively, during the same period in 2004, net interest and finance costs amounted to \$0.52 million, comprised by \$0.71 million of interest incurred and loan fees and offset by \$0.19 million of interest income. Interest incurred and loan fees are higher in 2005 due to the higher loan amount

Edgar Filing: EUROSEAS LTD. - Form 20-F

outstanding as a result of the new loans undertaken in May 2005 and December 2005.

Derivative and Foreign Exchange Gains or Losses. During the period, we had a derivative loss of \$0.10 million due to an interest rate swap on a notional amount of \$5 million, and foreign exchange gains of less than \$0.01 million. In the same period in 2004, there was a net derivative gain of \$0.03 million (same interest rate swap) and foreign exchange losses of less than \$0.02 million.

Net income. As a result of the above, net income for the year ended on December 31, 2005 was \$25.18 million compared to \$30.61 million for the same period in 2004 representing a decrease of 17.7%.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America, or U.S. GAAP. The preparation of those financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. We have described below what we believe are our most critical accounting policies that involve a high degree of judgment and the methods of their application.

Depreciation

We record the value of our vessels at their cost (which includes acquisition costs directly attributable to the vessel and expenditures made to prepare the vessel for its initial voyage) less accumulated depreciation. We depreciate our vessels on a straight-line basis over their estimated useful lives, estimated to range from 25 to 30 years from date of initial delivery from the shipyard. We believe that the 25 to 30 year range of depreciable life is consistent with that of other ship owners. As of December 31, 2006, one of our vessels has already reached an age of 29 years and continues to be employed (this vessel, m/v Ariel, was sold for further trading in February 2007). Depreciation is based on cost less the estimated residual scrap value. In 2004, the estimated scrap value of the vessels was increased from \$170 to \$300 per LWT to better reflect market price developments in the scrap metal market (see Item 3A Selected Consolidated Financial Data. An increase in the useful life of the vessel or in the residual value would have the effect of decreasing the annual depreciation charge and extending it into later periods. A decrease in the useful life of the vessel or in the residual value would have the effect of increasing the annual depreciation charge.

Revenue and expense recognition

Revenues are generated from voyage and time charter agreements. Time charter revenues are recorded over the term of the charter as service is provided. Under a voyage charter, the revenues and associated voyage expenses are recognized on a pro-rata basis over the duration of the voyage. Probable losses on voyages are provided for in full at the time such losses can be estimated. A voyage is deemed to commence upon the completion of discharge of the vessel's previous cargo and is deemed to end upon the completion of discharge of the current cargo. Demurrage income, which is included in voyage revenues, represents payments received from the charterer when loading or

Edgar Filing: EUROSEAS LTD. - Form 20-F

discharging time exceeded the stipulated time in the voyage charter and is recognized when earned.

Charter fees received in advance are recorded as a liability (deferred revenue) until charter services are rendered.

Vessels operating expenses comprise all expenses relating to the operation of the vessels, including crewing, insurance, repairs and maintenance, stores, lubricants, spares and consumables, professional and legal fees and miscellaneous expenses. Vessel operating expenses are recognized as incurred; payments in advance of services or use are recorded as prepaid expenses. Voyage expenses comprise all expenses relating to particular voyages, including bunkers, port charges, canal tolls, and agency fees.

For the Company's vessels operating in chartering pools, revenues and voyage expenses are pooled and allocated to each pool's participants on a time charter equivalent basis in accordance with an agreed-upon formula. For vessels that simultaneously participate in spot chartering pools and cargo pools (pools of contracts of affreightment, also called, short funds; in the Company's case, participation in cargo pools requires participation in spot chartering pools), a combined time charter equivalent revenue is provided by the operator of the vessel and cargo pools

Deferred drydock costs

Our vessels are required to be drydocked approximately every 30 to 60 months for major repairs and maintenance that cannot be performed while the vessels are trading. We capitalize the costs associated with drydockings as they occur and amortize these costs on a straight-line basis over the period between drydockings. Costs capitalized as part of the drydocking include actual costs incurred at the drydock yard cost of hiring riding crews to perform specific tasks determined by us in accordance with the requirements of the classification society in connection with the drydocking and parts used in performing such tasks, cost of travel, lodging and subsistence of our personnel sent to the drydocking site to supervise and the cost of hiring a third party to oversee a drydocking. We believe that these criteria are consistent with industry practice and that our policy of capitalization reflects the economics and market values of the vessels. Commencing January 1, 2006, we revised our policy to exclude the cost of hiring riding crews and the cost of parts used by riding crews from amounts capitalized as drydocking cost. We have not restated any historical financial statements because we determined that the impact of such a revision is not material to our operating income and net income for any periods presented.

Fair value of time charter acquired

We record all identified tangible and intangible assets or any liabilities associated with the acquisition of a vessel at fair value. Where vessels are acquired with existing time charters, the Company determines the present value of the difference between: (i) the contractual charter rate and (ii) the prevailing market rate for a charter of equivalent duration. In discounting the charter rate differences in future periods, the Company uses its Weighted Average Cost of Capital (WACC) adjusted to account for the credit quality of the charterer. The capitalized above-market (assets) and below-market (liabilities) charters are amortized as a reduction and increase, respectively, to voyage revenues over the remaining term of the charter.

Impairment of long-lived assets

We evaluate the carrying amounts and periods over which long-lived assets are depreciated to determine if events have occurred which would require modification to their carrying values or useful lives. In evaluating useful lives and carrying values of long-lived assets, we review certain indicators of

Edgar Filing: EUROSEAS LTD. - Form 20-F

potential impairment, such as undiscounted projected operating cash flows, vessel sales and purchases, business plans and overall market conditions. We determine undiscounted projected net operating cash flows for each vessel and compare it to the vessel carrying value. In the event that impairment occurred, we would determine the fair value of the related asset and we record a charge to operations calculated by comparing the asset's carrying value to the estimated fair market value. We estimate fair market value primarily through the use of third party valuations performed on an individual vessel basis.

Recent Accounting Pronouncements

In March 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 156 Accounting for Servicing of Financial Assets--an amendment of FASB Statement No. 140. The Statement requires that an entity separately recognize a servicing asset or a servicing liability when it undertakes an obligation to service a financial asset under a servicing contract in certain situations. Such servicing assets or servicing liabilities are required to be initially measured at fair value, if practicable. Statement 156 also allows an entity to choose one of two methods when subsequently measuring its servicing assets and servicing liabilities: (1) the amortization method or (2) the fair value measurement method. The amortization method existed under Statement 140 and remains unchanged. The Statement is effective for financial statements issued for fiscal years beginning after September 15, 2006. The Company has analyzed this pronouncement and has concluded that this pronouncement does not have any effect on its financial condition, results of operation or cash flows.

In September 2006, the FASB issued Staff Position (FSP) AUG AIR-1, Accounting for Planned Major Maintenance Activities. FSP AUG AIR-1 addresses the accounting for planned major maintenance activities. Specifically, the FSP prohibits the practice of the accrue-in-advance method of accounting for planned major maintenance activities. FSP AUG AIR-1 is effective for fiscal years beginning after December 15, 2006. The Company has analyzed FSP AUG AIR-1 and concluded that it does not have any effect on its financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements. The Statement provides a single definition of fair value, together with a framework for measuring it, and requires additional disclosure about the use of fair value to measure assets and liabilities. Statement 157 also emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority being quoted prices in active markets. Under the Statement, fair value measurements are disclosed by level within that hierarchy. The Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159 The Fair Value Option for Financial Assets and Financial Liabilities--Including an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure certain financial assets and financial liabilities at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities using different attributes and applying complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

Edgar Filing: EUROSEAS LTD. - Form 20-F

On September 13, 2006, the SEC released SAB No. 108, which provides guidance on materiality. SAB No. 108 states that registrants should use both a balance sheet (iron curtain) approach and an income statement (rollover) approach when quantifying and evaluating the materiality of a misstatement, contains guidance on correcting errors under the dual approach, and provides transition guidance for correcting errors existing in prior years. If prior-year errors that had been previously considered immaterial (based on the appropriate use of the registrant's prior approach) now are considered material based on the approach in the SAB, the registrant need not restate prior period financial statements. SAB No. 108 is effective for annual financial statements covering the first fiscal year ending after November 15, 2006. This statement is effective for the Company for the fiscal year ending December 31, 2006. The Company has concluded that the adoption of SAB No. 108 does not have any effect on its financial position, results of operations and cash flows.

B. Liquidity and Capital Resources

Historically, our sources of funds have been equity provided by our shareholders, operating cash flows and long-term borrowings. Our principal use of funds has been capital expenditures to establish and expand our fleet, maintain the quality of our drybulk carriers, comply with international shipping standards and environmental laws and regulations, fund working capital requirements, make principal repayments on outstanding loan facilities, and pay dividends. We expect to rely upon funds raised from our recent follow-on common stock offering, operating cash flows, long term borrowings, as well as future offerings to implement our growth plan and meet our liquidity needs going forward. In our opinion our working capital is sufficient for our present requirements.

Cash Flows

As of December 31, 2006, we had a cash balance of \$2.79 million, funds due from related companies of \$2.65 million and \$3.85 million cash in restricted retention accounts. Amounts due from related party represent net disbursements and collections made by our fleet manager, Eurobulk, on behalf of the ship-owning companies during the normal course of operations for which they have the right of offset. Amounts due from related parties mainly consist of advances to our fleet manager of funds to pay for all anticipated vessel expenses. The amount of \$2.65 million due from related parties as of December 31, 2006 therefore consists entirely of such deposits. Interest earned on funds deposited in related party accounts is credited to the account of the ship-owning companies or Euroseas. Working capital is current assets minus current liabilities, including the current portion of long term debt. We have a working capital deficit of \$11.69 million including the current portion of long term debt which was \$18.04 million as of December 31, 2006. All of the \$9.47 million dividend declared was paid as of December 31, 2006. We consider our liquidity sufficient for our operations. We expect to finance all our working capital requirements from cash generated from operations and proceeds from our January 30, 2007 follow-on common stock offering.

Net cash from operating activities.

Our net cash from operating activities for 2006 was \$20.97 million. This represents the net amount of cash, after expenses, generated by chartering our vessels. Eurobulk and another related party, on our behalf, collect our chartering revenues and pay our chartering expenses. Net income for the period was \$20.07 million, which was reduced by a gain of \$4.45 million from the sale of m/v Pantelis P and m/v John P and increased by \$7.37 million of depreciation and amortization amongst other adjustments. In 2005, net cash flow from operating activities was \$20.59 million based on a contribution of net income of \$25.18 million.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Net cash from investing activities.

In 2006, we purchased m/v Tasman Trader for \$10.85 million, m/v Aristides NP for \$23.57 million and m/v YM Xingang I for \$27.33 million for a total of \$61.75 million, we received proceeds from the sale of m/v Pantelis P and m/v John P totaling \$9.15 million, and, we had to put in retention accounts \$65,672 and increase restricted cash by \$2.70 million to satisfy requirements of our new loan facilities for a total of funds used in investment activities of \$55.37 million. It is our strategy to expand and renew our fleet by pursuing selective acquisitions. At the same time, we sell vessels in order to renew our fleet or take advantage of opportune market conditions. In 2005, cash flow used in investing activities amounted to \$21.83 million reflecting the purchase of m/v Artemis for \$20.82 million in November 2005 and contribution in retention accounts of \$1.01 million.

Net cash used in financing activities.

In 2006, net cash provided by financing activities amounted to \$16.74 million. This is mainly accounted by net proceeds from long term debt of \$26.39 offset by \$9.47 million of dividends and \$0.15 million in loan arrangement fees paid. In 2005, net cash provided by financing activities amounted to \$6.19 million mainly reflecting \$18.63 in net proceeds from a private placement, \$34.57 million of net proceeds from long term debt offset by \$46.88 million of dividend payments / return of capital.

Debt Financing

We operate in a capital intensive industry which requires significant amounts of investment, and we fund a major portion of this investment through long term debt. We maintain debt levels we consider prudent based on our market expectations, cash flow, interest coverage and percentage of debt to capital. During 2006, we drew three loans to partly finance the acquisition of the three vessels we acquired totaling \$43.75 million.

As of December 31, 2006, after considering the loan repayments and new loans discussed in the preceding paragraph, we had eight outstanding loans with a combined outstanding balance of \$74.95 million. These loans have maturity dates between 2008 and 2013. Our long-term debt as of December 31, 2006 comprises bank loans granted to our vessel-owning subsidiaries. A description of our loans as of December 31, 2006 is provided in Note 9 of our attached financial statements. In 2007, we plan to repay approximately \$18.0 million of our long term debt.

Our loans have various covenants which include restrictions to changes in management and ownership of the vessels, distribution of dividends or any other distribution of profits or assets, additional indebtedness and mortgaging of vessels without lenders' consent, the sale of vessels, as well as minimum requirements regarding the hull cover ratio and corporate liquidity. If we are found to be in default of any covenants we might be required to provide supplemental collateral to the lenders, usually in the form of restricted cash. Increases in restricted cash required to satisfy loan covenants, would reduce funds available for investment or working capital and could have a negative impact on our operations. If we cannot correct any violated covenants, we might be required to repay all or part of our loans, which, in turn, might require us to sell one or more of our vessels under distressed conditions. We are not in default of any credit facility covenant as of December 31, 2006.

Capital Expenditures

We make capital expenditures from time to time in connection with our vessel acquisitions. Our two most recent vessel acquisitions consists of one

Edgar Filing: EUROSEAS LTD. - Form 20-F

container ship, m/v Bitre Ritscher (renamed m/v Manolis P), which was delivered to us in April 2007, and one drybulk carrier, m/v Gregos, which was delivered to us in February 2007. We financed both of those purchases initially with 100% equity. We subsequently arranged for a loan to partly finance the acquisition of m/v Gregos and we are in the process to arrange for a loan to finance partly the acquisition of m/v Manolis P to free funds for further acquisitions. Our three acquisitions during 2006, m/v Tasman Trader, m/v Aristides NP and m/v YM Xingang I, were financed with both equity and bank debt.

In December 2006, we signed an agreement to sell m/v Ariel. We delivered m/v Ariel on February 22, 2007. We will use the proceeds from the sale of the above vessel for general corporate purposes including additional acquisitions, repayment of debt or payment of dividends.

Two of our vessels in our operating fleet underwent scheduled special surveys in 2006, two vessels underwent special survey or drydocking in 2007 and three additional vessels are scheduled to undergo a special survey or drydocking in 2007. This process of recertification may require us to reposition these vessels from a discharge port to shipyard facilities, which will reduce our operating days during the period. The loss of earnings associated with the decrease in operating days, together with the capital needs for repairs and upgrades, is expected to result in increased cash flow needs. We expect to fund these expenditures with cash on hand.

Dividends

On January 8, 2007, the Company announced the declaration of its sixth consecutive dividend since its Private Placement in August 2005. This dividend of \$0.22 per common share was paid on or about February 15, 2007 to all shareholders of record as of January 29, 2007. This follows the Company's prior dividend declarations of \$0.21 per common share on November 9, 2006, \$0.18 per common share on August 7, 2006, \$0.18 per common share on May 9, 2006, \$0.18 per common share on February 7, 2006 and of \$0.21 per share on November 2, 2005. The aggregate amount of all such dividends was \$14,891,738.

C. Research and development, patents and licenses, etc.

We incur from time to time expenditures relating to inspections for acquiring new vessels that meet our standards. Such expenditures are insignificant and they are expensed as they incur.

D. Trend information

Our results of operations depend primarily on the charter hire rates that we are able to realize. Charter hire rates paid for drybulk, containership and multipurpose carriers are primarily a function of the underlying balance between vessel supply and demand.

The demand for drybulk carrier, containership and multipurpose vessel capacity is determined by the underlying demand for commodities transported in these vessels, which in turn is influenced by trends in the global economy. One of the main reasons for the resurgence in drybulk and containerized trade has been the growth in imports by China of iron ore, coal and steel products during the last five years and exports of finished goods. Demand for drybulk carrier and containership capacity is also affected by the operating efficiency of the global fleet, with port congestion, which has been a feature of the market in 2004, the first half of 2005 and again in late 2006 and early 2007, absorbing additional tonnage especially in the drybulk market.

The supply of drybulk carriers, containerships and multipurpose vessels is dependent on the delivery of new vessels and the removal of vessels from the global fleet, either through scrapping or loss. As of March 31, 2007, the global

Edgar Filing: EUROSEAS LTD. - Form 20-F

drybulk carrier orderbook amounted to approximately 99 million dwt, or about 27% of the existing fleet, with most vessels on the orderbook expected to be delivered within 30 months. Containership orderbook (including multipurpose vessels) amounted to approximately 4.9 million teu, or about 45% of the existing fleet with most vessels, again, expected to be delivered within 30 months. The level of scrapping activity is generally a function of scrapping prices in relation to current and prospective charter market conditions, as well as operating, repair and survey costs. The average age at which a vessel is scrapped over the last five years has been between 26 and 27 years, with smaller vessels scrapped at later age. However, due to recent strength in the drybulk and container shipping industry, the average age at which the vessels are scrapped has increased; during 2004, 2005 and 2006, the majority of the handysize and handymax bulkers and feedership, handysize and intermediate size containerships that were scrapped were in excess of 30 years of age. Panamax drybulk carriers were scrapped at an average age of 29 years over 2004, 2005 and 2006.

E. Off-balance Sheet Arrangements

As of December 31, 2006 we did not have any off-balance sheet arrangements.

F. Tabular Disclosure of Contractual Obligations

Contractual Obligations and Commitments

Contractual obligations are set forth in the following table as of December 31, 2006:

In U.S. dollars	Total	Less Than One Year	One to Three Years	Three to Five Years	More Than Five Years
Bank debt	\$74,950,000	\$18,040,000	\$26,345,000	\$14,820,000	\$15,745,000
Interest Payment (1)	\$ 9,808,000	\$ 3,278,000	\$ 3,971,000	\$ 1,970,000	\$ 589,000
Vessel Management fees (2)	\$15,397,586	\$ 2,966,525	\$ 6,433,314	\$ 5,997,747	--
Other Management fees (3)	\$ 2,669,983	\$ 526,556	\$ 1,109,046	\$ 1,034,381	--

(1) Assuming the amortization of the loan described above and an estimated average effective interest rate of about 6.55%, 6.50%, 6.45% and 6.40% for the four periods, respectively, based on an underlying assumption for LIBOR of 5.50%.

(2) Refers to our obligation for management fees of 630 Euros per day per vessel (approximately \$840) for the nine vessels owned by Euroseas at December 31, 2006 and those acquired and sold up to April 27, 2007 under our five-year management contract under our Master Management Agreement, which expires on October 1, 2011. For years two to five we have assumed no changes in the number of vessels, an inflation rate of 3.5% per year and no changes in this US Dollar to Euro exchange rate (assumed approximately at 1.33 USD/Euro).

(3) Refers to our obligation for management fees of \$517,500 per year under our Master Management Agreement with Eurobulk for the cost of providing management services to Euroseas as a public company. This fee is adjusted for inflation in Greece during the previous calendar year every July 1st. From July 1st, 2007 on, we have assumed an inflation rate of 3.5% per year.

G. Safe Harbor

Edgar Filing: EUROSEAS LTD. - Form 20-F

See section "Forward-Looking Statements" at the beginning of this annual report.

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following sets forth the name and position of each of our directors and executive officers.

Name	Age	Position
Aristides J. Pittas	48	Chairman, President and CEO; Class A Director
Dr. Anastasios Aslidis	47	CFO and Treasurer; Class A Director
Aristides P. Pittas	55	Vice Chairman; Class A Director
Stephanía Karmiri	39	Secretary
Panagiotis Kyriakopoulos	46	Class B Director
George Skarvelis	46	Class B Director
George Taniskidis	46	Class C Director
Gerald Turner	59	Class C Director

Aristides J. Pittas has been a member of our Board of Directors and our Chairman and Chief Executive Officer since our inception on May 5, 2005. Since 1997, Mr. Pittas has also been the President of Eurochart S.A., our affiliate. Eurochart is a shipbroking company specializing in chartering and selling and purchasing ships. Since 1997, Mr. Pittas has also been the President of Eurotrade, a ship operating company and our affiliate. Since January 1995, Mr. Pittas has been the President and Managing Director of Eurobulk, our affiliate. He resigned as Managing Director of Eurobulk in June 2005. Eurobulk is a ship management company that provides ocean transportation services. From September 1991 to December 1994, Mr. Pittas was the Vice President of Oceanbulk Maritime SA, a ship management company. From March 1990 to August 1991, Mr. Pittas served both as the Assistant to the General Manager and the Head of the Planning Department of Varnima International SA, a shipping company operating tanker vessels. From June 1987 until February 1990, Mr. Pittas was the head of the Central Planning department of Eleusis Shipyards S.A. From January 1987 to June 1987, Mr. Pittas served as Assistant to the General Manager of Chios Navigation Shipping Company in London, a company that provides ship management services. From December 1985 to January 1987, Mr. Pittas worked in the design department of Eleusis Shipyards S.A. where he focused on shipbuilding and ship repair. Mr. Pittas has a B.Sc. in Marine Engineering from University of Newcastle - Upon-Tyne and a MSc in both Ocean Systems Management and Naval Architecture and Marine Engineering from the Massachusetts Institute of Technology.

Dr. Anastasios Aslidis has been our Chief Financial Officer and Treasurer and member of our Board of Directors since September 2005. Prior to joining Euroseas, Dr. Aslidis was a partner at Marsoft, an international consulting firm focusing on investment and risk management in the maritime industry. Dr. Aslidis has more than 18 years of experience in the maritime industry. Between 2003 and 2005, he worked on financial risk management methods for shipowners and banks lending to the maritime industry, especially as pertaining to compliance to the Basel II Capital Accords. He also served as consultant to the Boards of Directors of shipping companies (public and private) advising in strategy development, asset selection and investment timing. Between 1993 and 2003, as part of his tenure at Marsoft, he worked on various projects including development of portfolio and risk management methods for shipowners, establishment of investments funds and structuring private equity in the maritime industry and business development for Marsoft's services. Between 1989 and 1993, Dr. Aslidis worked on economic modeling of the offshore drilling industry and on the development of a trading support system for the drybulk

Edgar Filing: EUROSEAS LTD. - Form 20-F

shipping industry on behalf of a major European shipowner. Dr. Aslidis holds a diploma in Naval Architecture and Marine Engineering from the National Technical University of Athens (1983), M.S. in Ocean Systems Management (1984) and Operations Research (1987) from the Massachusetts Institute of Technology, and a Ph.D. in Ocean Systems Management (1989) also from Massachusetts Institute of Technology.

Aristides P. Pittas has been a member of our Board of Directors since our inception on May 5, 2005 and our Vice Chairman since September 1, 2005. Mr. Pittas has been a shareholder in over 70 oceangoing vessels during the last 20 years. Since February 1989, Mr. Pittas has been the Vice President of Oceanbulk Maritime SA, a ship management company. From November 1987 to February 1989, Mr. Pittas was employed in the supply department of Drytank SA, a shipping company. From November 1981 to June 1985, Mr. Pittas was employed at Trust Marine Enterprises, a brokerage house as a sale and purchase broker. From September 1979 to November 1981, Mr. Pittas worked at Gourdomichalis Maritime SA in the operation and Freight Collection department. Mr. Pittas has a B.Sc in Economics from Athens School of Economics.

Stephania Karmiri has been our Secretary since our inception on May 5, 2005. Since July 1995, Mrs. Karmiri has been executive secretary to Eurobulk, our affiliate. Eurobulk is a ship management company that provides ocean transportation services. At Eurobulk, Mrs. Karmiri has been responsible for dealing with sale and purchase transactions, vessel registrations/deletions, bank loans, supervision of office administration and office/vessel telecommunication. From May 1992 to June 1995, she was secretary to the technical department of Oceanbulk Maritime SA, a ship management company. From 1988 to 1992, Mrs. Karmiri served as assistant to brokers for Allied Shipbrokers, a company that provides shipbroking services to sale and purchase transactions. Mrs. Karmiri has taken assistant accountant and secretarial courses from Didacta college.

Panagiotis Kyriakopoulos has been a member of our Board of Directors since our inception on May 5, 2005. Since July 2002, he has been the Chief Executive Officer of New Television S.A., one of the leading Mass Media Companies in Greece, running television and radio stations. From July 1997 to July 2002 he was the C.E.O. of the Hellenic Post Group, the Universal Postal Service Provider, having the largest retail network in Greece for postal and financial services products. From March 1996 until July 1997, Mr. Kyriakopoulos was the General Manager of ATEMKE SA, one of the leading construction companies in Greece listed on the Athens Stock Exchange. From December 1986 to March 1996, he was the Managing Director of Globe Group of Companies, a group active in the areas of shipowning and management, textiles and food and distribution. The company was listed on the Athens Stock Exchange. From June 1983 to December 1986, Mr. Kyriakopoulos was an assistant to the Managing Director of Armada Marine S.A., a company active in international trading and shipping, owning and managing a fleet of 12 vessels. Presently he is a member of the Board of Directors of the Hellenic Post and General Secretary of the Hellenic Private Television Owners Union. He has also been an investor in the shipping industry for more than 20 years. Mr. Kyriakopoulos has a B.Sc. degree in Marine Engineering from the University of Newcastle upon Tyne and a MSc. degree in Naval Architecture and Marine Engineering with specialization in Management from the Massachusetts Institute of Technology.

George Skarvelis has been a member of our Board of Directors since our inception on May 5, 2005. He has been active in shipping since 1982. In 1992, he founded Marine Spirit S.A., a ship management company. Between 1999 and 2003, Marine Spirit acted as one of the crewing managers for Eurobulk. From 1986 until 1992, Mr. Skarvelis was operations director at Markos S. Shipping Ltd. From 1982 until 1986, he worked with Glysca Compania Naviera, a management company of five vessels. Over the years Mr. Skarvelis has been a shareholder in numerous shipping companies. He has a B.Sc. in economics from the Athens University Law

Edgar Filing: EUROSEAS LTD. - Form 20-F

School.

George Taniskidis has been a member of our Board of Directors since our inception on May 5, 2005. He is the Chairman and Managing Director of Millennium Bank and a member of the Board of Directors of BankEuropa (subsidiary bank of Millennium Bank in Turkey). He is a member of the Executive Committee of the Hellenic Banks Association. From 2003 until 2005, he was a member of the Board of Directors of Visa International Europe, elected by the Visa issuing banks of Cyprus, Malta, Portugal, Israel and Greece. From 1990 to 1998, Mr. Taniskidis worked at XIOSBANK (until its acquisition by Piraeus Bank in 1998) in various positions, with responsibility for the bank's credit strategy and network. Mr. Taniskidis studied Law in the National University of Athens and in the University of Pennsylvania Law School, where he received a LL.M. After law school, he joined the law firm of Rogers & Wells in New York, where he worked until 1989 and was also a member of the New York State Bar Association. He is also a member of the Young Presidents Organization.

Gerald Turner has been a member of our Board of Directors since our inception on May 5, 2005. Since 1999, he has been the Chairman and Managing Director of AON Turner Reinsurance Services. From 1987 to 1999, he was the Chairman and sole owner of Turner Reinsurance services. From 1977 to 1987, he was the Managing Director of E.W.Payne Hellas (member of the Sedgwick group).

Family Relationships

Aristides P. Pittas is the cousin of Aristides J. Pittas, our CEO.

B. Compensation

Executive Compensation

We have no direct employees. The services of our Chief Executive Officer, Chief Financial Officer and Secretary are provided by Eurobulk. In July 2005 we entered into a written services agreement with Eurobulk where we pay \$500,000 per year, before bonuses, adjusted annually for Greek inflation to account for the increased management cost associated with us being a public company. As of October 1, 2006, these services are now provided to us under our master management agreement with Eurobulk. Under this master management agreement, that includes the provision of the services of our executives, Mr. Aristides J. Pittas, Dr. Anastasios Aslidis and Mrs. Stephania Karmiri, we pay Eurobulk \$517,500 per year, before bonuses, on an annualized basis for the provision of these services, adjusted annually every July 1st for Greek inflation.

Director Compensation

Our directors who are also our employees or have executive positions or beneficially own greater than 10% of the outstanding common stock will receive no compensation for serving on our Board or its committees.

Directors who are not our employees, do not have any executive position and do not beneficially own greater than 10% of the outstanding common stock will receive the following compensation: an annual retainer of \$10,000, plus an additional retainer of \$5,000, if serving as Chairman of the Audit Committee.

All directors are reimbursed reasonable out-of-pocket expenses incurred in attending meetings of our Board of Directors or any committee of our Board of Directors.

C. Board Practices

The term of our Class A directors expires in 2008. The term of our Class B directors expires in 2009 and the term of our Class C directors expires in 2007.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Audit Committee

We currently have an audit committee comprised of three independent members of our Board of Directors. The Audit Committee is responsible for reviewing the Company's accounting controls and the appointment of the Company's outside auditors. The members of the Audit Committee are Mr. Panos Kyriakopoulos (Chairman and audit committee "financial expert" as such term is defined under SEC regulations), Mr. Gerald Turner and Mr. George Taniskidis. Our Board of Directors does not have separate compensation or nominations committees, and instead, the entire Board of Directors performs those responsibilities.

Code of Ethics

We have adopted a code of ethics that complies with the applicable guidelines issued by the SEC. Our code of ethics is posted on our website: <http://www.euroseas.gr> under "Corporate Governance."

Corporate Governance

Our Company's corporate governance practices are in compliance with, and are not prohibited by, the laws of the Republic of the Marshall Islands. Therefore, we are exempt from many of NASDAQ's corporate governance practices other than the requirements regarding the disclosure of a going concern audit opinion, submission of a listing agreement, notification of material non-compliance with NASDAQ corporate governance practices, and the establishment and composition of an audit committee and a formal written audit committee charter. The practices followed by us in lieu of NASDAQ's corporate governance rules are described below.

- o We are not required under Marshall Islands law to maintain a board of directors with a majority of independent directors, and we cannot guarantee that we will always in the future maintain a board of directors with a majority of independent directors.
- o In lieu of a compensation committee comprised of independent directors, our Board of Directors will be responsible for establishing the executive officers' compensation and benefits. Under Marshall Islands law, compensation of the executive officers is not required to be determined by an independent committee.
- o In lieu of a nomination committee comprised of independent directors, our Board of Directors will be responsible for identifying and recommending potential candidates to become board members and recommending directors for appointment to board committees. Shareholders may also identify and recommend potential candidates to become candidates to become board members in writing. No formal written charter has been prepared or adopted because this process is outlined in our bylaws.
- o In lieu of obtaining an independent review of related party transactions for conflicts of interests, consistent with Marshall Islands law requirements, a related party transaction will be permitted if: (i) the material facts as to his or her relationship or interest and as to the contract or transaction are disclosed or are known to the Board of Directors and the Board of Directors in good faith authorizes the contract or transaction by the affirmative votes of a majority of the disinterested directors, or, if the votes of the disinterested directors are insufficient to constitute an act of the Board of Directors as defined in Section 55 of the Marshall Islands Business Corporations Act, by unanimous vote of the disinterested directors; or (ii) the material facts as to his relationship or

Edgar Filing: EUROSEAS LTD. - Form 20-F

interest are disclosed and the shareholders are entitled to vote thereon, and the contract or transaction is specifically approved in good faith by a simple majority vote of the shareholders; or (iii) the contract or transaction is fair as to the Company as of the time it is authorized, approved or ratified, by the Board of Directors, a committee thereof or the shareholders. Common or interested directors may be counted in determining the presence of a quorum at a meeting of the Board of Directors or of a committee which authorizes the contract or transaction.

- o As a foreign private issuer, we are not required to solicit proxies or provide proxy statements to NASDAQ pursuant to NASDAQ corporate governance rules or Marshall Islands law. Consistent with Marshall Islands law, we will notify our shareholders of meetings between 15 and 60 days before the meeting. This notification will contain, among other things, information regarding business to be transacted at the meeting. In addition, our bylaws provide that shareholders must give us advance notice to properly introduce any business at a meeting of the shareholders. Our bylaws also provide that shareholders may designate in writing a proxy to act on their behalf.

- o In lieu of holding regular meetings at which only independent directors are present, our entire board of directors, a majority of whom are independent, will hold regular meetings as is consistent with the laws of the Republic of the Marshall Islands.

Other than as noted above, we are in full compliance with all other applicable NASDAQ corporate governance standards.

D. Employees

We have no salaried employees, although we reimburse our fleet manager, Eurobulk, for the salaries of our CEO, CFO and Secretary. Eurobulk also ensures that all seamen have the qualifications and licenses required to comply with international regulations and shipping conventions, and that all our vessels employ experienced and competent personnel. As of December 31, 2006, approximately 75 officers and 150 crew members served on board the vessels in our fleet.

E. Share Ownership

The following table sets forth certain information the ownership of our common stock by each of our directors and executive officers, and all of our directors and executive officers as a group.

Name of Beneficial Owner(1)	Number of Shares of Voting Stock Beneficially Owned	Percent of Voting Stock
Friends Investment Company Inc.(2)	9,918,056	54.0%
Aristides J. Pittas(3)	--	*
George Skarvelis(4)	--	*
George Taniskidis(5)	--	*
Gerald Turner(6)	--	*
Panagiotis Kyriakopoulos(7)	--	*
Aristides P. Pittas(8)	--	*
Anastasios Aslidis.....	--	*

Edgar Filing: EUROSEAS LTD. - Form 20-F

Stephania Karmiri(9)	--	*
All directors and officers and 5% owners as a group	9,918,056	54.0%

* Indicates less than 1.0%.

- (1) Beneficial ownership is determined in accordance with the Rule 13d-3(a) of the Securities Exchange Act of 1934, as amended, and generally includes voting or investment power with respect to securities. Except as subject to community property laws, where applicable, the person named above has sole voting and investment power with respect to all shares of common stock shown as beneficially owned by him/her.

- (2) Includes 9,918,056 shares of common stock held of record by Friends. A majority of the shareholders of Friends are members of the Pittas family. Investment power and voting control by Friends resides in its Board of Directors which consists of five directors, a majority of whom are members of the Pittas family. Actions by Friends may be taken by a majority of the members on its Board of Directors.

- (3) Does not include 1,190,167 shares of common stock held of record by Friends, by virtue of Mr. Pittas' ownership interest in Friends. Also does not include 40,000 shares of common stock held of record by Eurobulk Marine Holdings, Inc. ("Eurobulk Marine") and 10,000 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Pittas' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Pittas disclaims beneficial ownership except to the extent of his pecuniary interest.

- (4) Does not include 525,657 shares of common stock held of record by Friends, by virtue of Mr. Skarvelis' ownership interest in Friends. Also does not include 17,667 shares of common stock held of record by Eurobulk Marine and 4,417 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Skarvelis' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Skarvelis disclaims beneficial ownership except to the extent of his pecuniary interest.

- (5) Does not include 9,918 shares of common stock held of record by Friends, by virtue of Mr. Taniskidis' ownership in Friends. Also does not include 333 shares of common stock held of record by Eurobulk Marine and 83 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Taniskidis' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Taniskidis disclaims beneficial ownership except to the extent of his pecuniary interest.

- (6) Does not include 140,836 shares of common stock held of record by Friends, by virtue of Mr. Turner's ownership interest in Friends. Also does not include 4,733 shares of common stock held of record by Eurobulk Marine and 1,183 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Turner's ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Turner disclaims beneficial ownership except to the extent of his pecuniary interest.

Edgar Filing: EUROSEAS LTD. - Form 20-F

- (7) Does not include 59,508 shares of common stock held of record by Friends, by virtue of Mr. Kyriakopoulos' ownership in Friends. Also does not include 2,000 shares of common stock held of record by Eurobulk Marine and 500 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Kyriakopoulos' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Kyriakopoulos disclaims beneficial ownership except to the extent of his pecuniary interest.
- (8) Does not include 813,281 shares of common stock held of record by Friends, by virtue of Mr. Pittas' ownership interest in Friends. Also does not include 27,333 shares of common stock held of record by Eurobulk Marine and 6,833 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Pittas' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Pittas disclaims beneficial ownership except to the extent of his pecuniary interest.
- (9) Does not include 1,984 shares of common stock held of records by Friends, by virtue of Mrs. Karmiri's ownership in Friends. Also does not include 67 shares of common stock held of record by Eurobulk Marine and 17 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mrs. Karmiri's ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mrs. Karmiri disclaims beneficial ownership except to the extent of her pecuniary interest.

All of the shares of our common stock have the same voting rights and are entitled to one vote per share.

Equity Incentive Plan

In August 2006, we adopted an equity incentive plan which entitles our Board of Directors to grant to our officers, key employees and directors awards in the form of (i) incentive stock options, (ii) non-qualified stock options, (iii) stock appreciation rights, (iv) dividend equivalent rights, (v) restricted stock, (vi) unrestricted stock, (vii) restricted stock units and (viii) performance shares. The aggregate number of shares of common stock with respect to which options or restricted shares may at any time be granted under the plan are 600,000 shares of Common Stock. The plan is administered by our Board of Directors. The plan does not have any set term. However, the Board of Directors may not grant any incentive stock options after the tenth anniversary of the adoption of the Plan. As of April 27, 2007, no awards have been made under the plan.

Options

No options were granted during the fiscal year ended December 31, 2006. There are currently no options outstanding to acquire any of our shares.

Warrants

In connection with our Private Placement in August 2005, we issued warrants to purchase 585,589 shares of our common stock. The warrants have a five year term and an exercise price of \$10.80 per share. We do not currently have any other outstanding warrants.

Item 7. Major Shareholders and Related Party Transactions

Edgar Filing: EUROSEAS LTD. - Form 20-F

A. Major Stockholders

The following table sets forth certain information regarding the beneficial ownership of our voting stock as of April 27, 2007 by each person or entity known by us to be the beneficial owner of more than 5% of the outstanding shares of our voting stock, each of our directors and executive officers, and all of our directors and executive officers as a group. All of our shareholders, including the shareholders listed in this table, are entitled to one vote for each share of stock held.

Name of Beneficial Owner(1)	Number of Shares of Voting Stock Beneficially Owned	Percent of Voting Stock
Friends Investment Company Inc.(2)	9,918,056	54.0%
Aristides J. Pittas(3)	--	*
George Skarvelis(4)	--	*
George Taniskidis(5)	--	*
Gerald Turner(6)	--	*
Panagiotis Kyriakopoulos(7)	--	*

Anastasios Aslidis.....	--	*
Stephania Karmiri(9)	--	*

All directors and officers and 5% owners as a group	9,918,056	54.0%
=====		

* Indicates less than 1.0%.

- (1) Beneficial ownership is determined in accordance with the Rule 13d-3(a) of the Securities Exchange Act of 1934, as amended, and generally includes voting or investment power with respect to securities. Except as subject to community property laws, where applicable, the person named above has sole voting and investment power with respect to all shares of common stock shown as beneficially owned by him/her.
- (2) Includes 9,918,056 shares of common stock held of record by Friends. A majority of the shareholders of Friends are members of the Pittas family. Investment power and voting control by Friends resides in its Board of Directors which consists of five directors, a majority of whom are members of the Pittas family. Actions by Friends may be taken by a majority of the members on its Board of Directors.
- (3) Does not include 1,190,167 shares of common stock held of record by Friends, by virtue of Mr. Pittas' ownership interest in Friends. Also does not include 40,000 shares of common stock held of record by Eurobulk Marine Holdings, Inc. ("Eurobulk Marine") and 10,000 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Pittas' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Pittas disclaims beneficial ownership except to the extent of his pecuniary interest.
- (4) Does not include 525,657 shares of common stock held of record by Friends,

Edgar Filing: EUROSEAS LTD. - Form 20-F

by virtue of Mr. Skarvelis' ownership interest in Friends. Also does not include 17,667 shares of common stock held of record by Eurobulk Marine and 4,417 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Skarvelis' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Skarvelis disclaims beneficial ownership except to the extent of his pecuniary interest.

- (5) Does not include 9,918 shares of common stock held of record by Friends, by virtue of Mr. Taniskidis' ownership interest in Friends. Also does not include 333 shares of common stock held of record by Eurobulk Marine and 83 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Taniskidis' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Taniskidis disclaims beneficial ownership except to the extent of his pecuniary interest.
- (6) Does not include 140,836 shares of common stock held of record by Friends, by virtue of Mr. Turner's ownership interest in Friends. Also does not include 4,733 shares of common stock held of record by Eurobulk Marine and 1,183 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Turner's ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Turner disclaims beneficial ownership except to the extent of his pecuniary interest.
- (7) Does not include 59,508 shares of common stock held of record by Friends, by virtue of Mr. Kyriakopoulos' ownership interest in Friends. Also does not include 2,000 shares of common stock held of record by Eurobulk Marine and 500 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Kyriakopoulos' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Kyriakopoulos disclaims beneficial ownership except to the extent of his pecuniary interest.
- (8) Does not include 813,281 shares of common stock held of record by Friends, by virtue of Mr. Pittas' ownership interest in Friends. Also does not include 27,333 shares of common stock held of record by Eurobulk Marine and 6,833 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mr. Pittas' ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mr. Pittas disclaims beneficial ownership except to the extent of his pecuniary interest.
- (9) Does not include 1,984 shares of common stock held of records by Friends, by virtue of Mrs. Karmiri's ownership interest in Friends. Also does not include 67 shares of common stock held of record by Eurobulk Marine and 17 shares of common stock issuable upon the exercise of warrants by Eurobulk Marine, by virtue of Mrs. Karmiri's ownership interest in Eurobulk Marine. Eurobulk Marine was an investor in our Private Placement in August 2005. Friends and Eurobulk Marine are each controlled by members of the Pittas family. Mrs. Karmiri disclaims beneficial ownership except to the extent of her pecuniary interest.

B. Related Party Transactions

The operations of our vessels are managed by Eurobulk, an affiliated ship

Edgar Filing: EUROSEAS LTD. - Form 20-F

management company, under a master management agreement with us and separate management agreements with each shipowning company. Under this agreement, Eurobulk is responsible for all aspects of management and compliance for the Company, including the provision of the services of our Chief Executive Officer, Chief Financial Officer and Secretary. Eurobulk is also responsible for all commercial management services, which include obtaining employment for our vessels and managing our relationships with charterers. Eurobulk also performs technical management services, which include managing day-to-day vessel operations, performing general vessel maintenance, ensuring regulatory and classification society compliance, supervising the maintenance and general efficiency of vessels, arranging our hire of qualified officers and crew, arranging and supervising dry docking and repairs, arranging insurance for vessels, purchasing stores, supplies, spares and new equipment for vessels, appointing supervisors and technical consultants and providing technical support and shoreside personnel who carry out the management functions described above and certain accounting services. Eurobulk also currently manages one other vessel not owned by us.

Our master management agreement with Eurobulk is effective as of October 1, 2006 and has an initial term of 5 years until September 30, 2011. The master management agreement cannot be terminated by Eurobulk without cause or under the other limited circumstances, such as sale of the Company or Eurobulk or the bankruptcy of either party. This master management agreement will automatically be extended after the initial period for an additional five year period unless terminated on or before the 90th day preceding the initial termination date. Pursuant to the master management agreement, each new vessel we acquire in the future will enter into a separate management agreement with Eurobulk. In addition, upon expiration of the current ship management agreements between Eurobulk and each vessel-owing subsidiary, such subsidiaries will enter into new ship management agreements with Eurobulk that terminate contemporaneously with the master management agreement. Under the master management agreement we pay Eurobulk a fixed cost of \$517,500 annually, adjusted annually for inflation (every July), and a per ship per day cost of (euro)630 as of April 27, 2007 (or \$837.90 based on \$1.33/euro exchange rate) adjusted annually for inflation (every February 1st). Eurobulk has received fees for management and executive compensation expenses of \$1,722,800, \$1,972,252, \$2,161,856 and \$2,775,339 for years ended December 31, 2003, 2004, 2005 and 2006, respectively.

We receive chartering and sale and purchase services from Eurochart, an affiliate, and pay a commission of 1.25% on charter revenue and 1% on vessel purchase or sale price. We will pay additional commissions to major charterers and their brokers as well that usually range from 3.75% to 5.00%. Eurochart has received chartering and sale and purchase commissions of \$286,605, \$604,717, \$742,680 and \$1,198,399 for years ended December 31, 2003, 2004, 2005 and 2006, respectively.

More Maritime Agencies Inc. are crewing agents and Sentinel Marine Services Inc. are insurance brokering companies and affiliates to whom we will pay a fee of \$50 per crew member per month and a commission on premium not exceeding 5%, respectively.

Aristides J. Pittas, Euroseas' President, Chief Executive Officer and Chairman, has provided personal guarantees for some of Euroseas' debts. Eurobulk has provided corporate guarantees for all debts. Additionally, Aristides J. Pittas is currently the Chairman of each of Eurochart and Eurobulk, both of which are our affiliates.

We have entered into a registration rights agreement with Friends, our largest shareholder, pursuant to which we granted Friends the right, under certain circumstances and subject to certain restrictions, to require us to register under the Securities Act shares of our common stock held by Friends. Under the registration rights agreement, Friends has the right to request us to

Edgar Filing: EUROSEAS LTD. - Form 20-F

register the sale of shares held by it on its behalf and may require us to make available shelf registration statements permitting sales of shares into the market from time to time over an extended period. In addition, Friends has the ability to exercise certain piggyback registration rights in connection with registered offerings initiated by us.

Eurobulk, Friends Investment Company Inc. and Aristides J. Pittas, our Chairman and Chief Executive Officer, have granted us a right of first refusal to acquire any drybulk vessel or container ship which any of them may consider for acquisition in the future. In addition, Mr. Pittas has granted us a right of first refusal to accept any chartering out opportunity for a drybulk vessel or container ship which may be suitable for any of our vessels, provided that we have a suitable vessel, properly situated and available, to take advantage of the chartering out opportunity. Mr. Pittas use his best efforts to cause that any entity with respect to which he directly or indirectly controls to grant us this right of first refusal.

C. Interests of Experts and Counsel

Not Applicable.

Item 8 Financial information

A. Consolidated Statements and Other Financial Information

See Item 18.

Legal Proceedings

To our knowledge, there are no material legal proceedings to which we are a party or to which any of our properties are subject, other than routine litigation incidental to our business. In our opinion, the disposition of these lawsuits should not have a material impact on our consolidated results of operations, financial position and cash flows.

Dividend Policy

Our policy is to declare regular quarterly dividends to shareholders from our net profits each February, May, August and November in amounts the Board of Directors may from time to time determine are appropriate. Our Board has adopted a minimum target quarterly dividend of \$0.22 per common share for 2007. The exact timing and amount of dividend payments will be determined by our Board of Directors and will be dependent upon our earnings, financial condition, cash requirement and availability, restrictions in its loan agreements, growth strategy, the provisions of Marshall Islands law affecting the payment of distributions to shareholders and other factors, such as the acquisition of additional vessels. However, we do not believe that the acquisition of vessels to our fleet will impact our dividend policy of paying quarterly dividends to our shareholders out of our net profits. We believe that the addition of vessels to our fleet in the future should enable us to pay a higher dividend per share than we would otherwise be able to pay without additional vessels since such additional vessels should increase our earnings. However, we cannot give any current estimate of what dividends may be in the future since any such dividend amounts will depend upon the amount of revenues those vessels are able to generate and the costs incurred in operating such vessels.

The payment of dividends is not guaranteed or assured, and may be discontinued at any time at the discretion of our Board of Directors. Because we are a holding company with no material assets other than the stock of its subsidiaries, our ability to pay dividends will depend on the earnings and cash flow of its subsidiaries and their ability to pay dividends to us. If there is a substantial decline in the drybulk, containership or multipurpose charter

Edgar Filing: EUROSEAS LTD. - Form 20-F

market, our earnings would be negatively affected, thus limiting its ability to pay dividends. Marshall Islands law generally prohibits the payment of dividends other than from surplus or while a company is insolvent or would be rendered insolvent upon the payment of such dividends. Dividends may be declared in conformity with applicable law by, and at the discretion of, our Board of Directors at any regular or special meeting. Dividends may be declared and paid in cash, stock or other property of Euroseas.

Euroseas paid \$687,500, \$1,200,00, \$26,962,500, \$46,875,223 (consisting of \$30,175,223 of dividends and \$16,700,000 as return of capital) and \$9,465,082 in 2002, 2003, 2004, 2005 and 2006, respectively. While Euroseas has paid dividends on an annual basis during the time it has been a private company, it has paid dividends on a quarterly basis since it has become a public company. Since our Private Placement in August 2005, we declared and paid dividends of \$2,650,223 for the third quarter of 2005, \$2,271,620 for each of the fourth quarter of 2005, first quarter of 2006 and second quarter of 2006, \$2,650,223 for the third quarter of 2006 and \$2,776,433 for the fourth quarter of 2006. The most recent dividend was declared and paid in 2007.

B. Significant Changes

After December 31, 2006 the following significant events occurred:

(a) On January 8, 2007, the Board of Directors declared a cash dividend of \$0.22 per Euroseas Ltd. common share payable on or about February 15, 2007 to the holders of record of Euroseas Ltd. common shares as of January 29, 2007.

(b) On December 19, 2006, a subsidiary of the Company agreed to sell m/v Ariel, a handysize bulk carrier of 33,712 dwt built in 1977 for a gross price of \$5.35 million less 2% sales commissions. The vessel was delivered to the buyers on February 22, 2007.

(c) On February 5, 2007 the Company completed its follow-on offering of common stock of 5,750,000 shares including the underwriters' exercise of the over-allotment option at \$8.25 per share. The gross proceeds of the offering amounted to approximately \$47.4 million, while the net proceeds to the Company after the underwriters' discount and offering expenses amounted to approximately \$43.1 million.

(d) On February 5, 2007, the Company purchased the 38,691 dwt drybulk carrier (m/v Triada), built in 1984, for \$13.1 million. The vessel was delivered to the Company on February 22, 2007. The acquisition was financed with approximately \$13.1 million from the Company's cash on hand. The Company instead of exercising its option to re-pay \$7 million of the \$20 million loan drawn to finance its November 2006 acquisition of the vessel m/v YM Xingang I (by using part of the proceeds of its recently completed follow-on offering), will add m/v Triada (renamed m/v Gregos) as additional collateral to the same loan. As a result of the additional collateral, the margin of the loan will be reduced from 0.935% above LIBOR to 0.90% above LIBOR.

(e) On March 21, 2007, the Company purchased the 1,452 teu container vessel m/v Bitre Ritscher (renamed m/v Manolis P) built in 1995 in Germany, for \$19.15 million. The vessel was delivered to the Company on April 12, 2007. The Company plans to finance the acquisition with cash on hand, and, subsequently, arrange a loan for approximately 50% of the purchase price, the terms of which are currently under negotiation.

Item 9. The Offer and Listing

A. Offer and Listing Details

The trading market for shares of our common stock is the NASDAQ Global

Edgar Filing: EUROSEAS LTD. - Form 20-F

Market, on which our shares trade under the symbol "ESEA". The following table sets forth the high and low closing prices for shares of our common stock since our listing originally in the OTCBB (under symbols ESEAF.OB and EUSEF.OB) and since January 31, 2007 on the NASDAQ Global Market. The prices below have been adjusted for the reverse 1-for-3 common stock split that was effected on October 6, 2006.

Period	High	Low
-----	----	----
2006.....	18.93	6.70
2nd quarter 2006.....	18.93	8.82
3rd quarter 2006.....	9.15	8.55

Item 10. Additional Information

A. Share Capital

Not Applicable.

B. Articles of Incorporation, as amended, and Bylaws

We refer you to the Section of our F-1 Registration Statement (File No. 333-129145) entitled "Description of Euroseas Securities" and Exhibits 3.1 (Articles of Incorporation) and 3.2 (Bylaws) thereto as filed on October 20, 2005 with the SEC and to the Section of our F-1 Registration Statement (File No. 333-138780) entitled "Description of Capital Stock" and Exhibit 3.3 (Amendment

Edgar Filing: EUROSEAS LTD. - Form 20-F

to Articles of Incorporation) thereto as filed on November 16, 2006 with the SEC, incorporated by reference herein.

C. Material Contracts

We have no material contracts, other than contracts entered into in the ordinary course of business, to which the Company or any member of the group is a party.

D. Exchange Controls

Under Marshall Islands law, there are currently no restrictions on the export or import of capital, including foreign exchange controls or restrictions that affect the remittance of dividends, interest or other payments to non-resident holders of our shares.

E. Taxation

The following is a discussion of the material Marshall Islands and United States federal income tax considerations relevant to an investment decision by a U.S. Holder, as defined below, with respect to the common stock. This discussion does not purport to deal with the tax consequences of owning common stock to all categories of investors, some of which, such as dealers in securities, investors whose functional currency is not the United States dollar and investors that own, actually or under applicable constructive ownership rules, 10% or more of our common stock, may be subject to special rules. This discussion deals only with holders who purchase common stock in connection with this offering and hold the common stock as a capital asset. You are encouraged to consult your own tax advisors concerning the overall tax consequences arising in your own particular situation under United States federal, state, local or foreign law of the ownership of common stock.

Marshall Islands Tax Considerations

We are incorporated in the Marshall Islands. Under current Marshall Islands law, we are not subject to tax on income or capital gains, and no Marshall Islands withholding tax will be imposed upon payments of dividends by us to our stockholders.

United States Federal Income Tax Considerations

The following are the material United States federal income tax consequences to us of our activities and to U.S. Holders, as defined below, of our common stock. The following discussion of United States federal income tax matters is based on the United States Internal Revenue Code of 1986, or the Code, judicial decisions, administrative pronouncements, and existing and proposed regulations issued by the United States Department of the Treasury, all of which are subject to change, possibly with retroactive effect. This discussion is based in part upon Treasury Regulations promulgated under Section 883 of the Code. The discussion below is based, in part, on the description of our business as described in "Business" above and assumes that we conduct our business as described in that section. References in the following discussion to "we" and "us" are to Euroseas and its subsidiaries on a consolidated basis.

United States Federal Income Taxation of Our Company

Taxation of Operating Income: In General

Unless exempt from United States federal income taxation under the rules discussed below, a foreign corporation is subject to United States federal income taxation in respect of any income that is derived from the use of vessels, from the hiring or leasing of vessels for use on a time, voyage or

Edgar Filing: EUROSEAS LTD. - Form 20-F

bareboat charter basis, from the participation in a pool, partnership, strategic alliance, joint operating agreement, code sharing arrangements or other joint venture it directly or indirectly owns or participates in that generates such income, or from the performance of services directly related to those uses, which we refer to as "shipping income," to the extent that the shipping income is derived from sources within the United States. For these purposes, 50% of shipping income that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States constitutes income from sources within the United States, which we refer to as "U.S.-source shipping income."

Shipping income attributable to transportation that both begins and ends in the United States is considered to be 100% from sources within the United States. We are not permitted to engage in transportation that produces income which is considered to be 100% from sources within the United States.

Shipping income attributable to transportation exclusively between non-U.S. ports will be considered to be 100% derived from sources outside the United States. Shipping income derived from sources outside the United States will not be subject to any United States federal income tax.

In the absence of exemption from tax under Section 883, our gross U.S.-source shipping income would be subject to a 4% tax imposed without allowance for deductions as described below.

Exemption of Operating Income from United States Federal Income Taxation

Under Section 883 of the Code, we will be exempt from United States federal income taxation on our U.S.-source shipping income if:

- o we are organized in a foreign country (our "country of organization") that grants an "equivalent exemption" to corporations organized in the United States; and

either

- o more than 50% of the value of our stock is owned, directly or indirectly, by "qualified stockholders," individuals who are "residents" of our country of organization or of another foreign country that grants an "equivalent exemption" to corporations organized in the United States, which we refer to as the "50% Ownership Test," or
- o our stock is "primarily and regularly traded on an established securities market" in our country of organization, in another country that grants an "equivalent exemption" to United States corporations, or in the United States, which we refer to as the "Publicly-Traded Test."

The Marshall Islands, the jurisdiction where we and our ship-owning subsidiaries are incorporated, grants an "equivalent exemption" to United States corporations. Therefore, we will be exempt from United States federal income taxation with respect to our U.S.-source shipping income if we satisfy either the 50% Ownership Test or the Publicly-Traded Test.

We believe that we satisfied the 50% Ownership Test for our 2006 taxable year. However, we may not be able to satisfy the 50% Ownership Test in the future. For the 2007 taxable year and each taxable year thereafter, we anticipate that we will satisfy the Publicly-Traded Test.

Taxation in Absence of Exemption

Edgar Filing: EUROSEAS LTD. - Form 20-F

To the extent the benefits of Section 883 are unavailable, our U.S. source shipping income, to the extent not considered to be "effectively connected" with the conduct of a U.S. trade or business, as described below, would be subject to a 4% tax imposed by Section 887 of the Code on a gross basis, without the benefit of deductions. Since under the sourcing rules described above, no more than 50% of our shipping income would be treated as being derived from U.S. sources, the maximum effective rate of U.S. federal income tax on our shipping income would never exceed 2% under the 4% gross basis tax regime.

To the extent the benefits of the Section 883 exemption are unavailable and our U.S.-source shipping income is considered to be "effectively connected" with the conduct of a U.S. trade or business, as described below, any such "effectively connected" U.S.-source shipping income, net of applicable deductions, would be subject to the U.S. federal corporate income tax currently imposed at rates of up to 35%. In addition, we may be subject to the 30% "branch profits" taxes on earnings effectively connected with the conduct of such trade or business, as determined after allowance for certain adjustments, and on certain interest paid or deemed paid attributable to the conduct of its U.S. trade or business.

Our U.S.-source shipping income would be considered "effectively connected" with the conduct of a U.S. trade or business only if:

- o We have, or are considered to have, a fixed place of business in the United States involved in the earning of shipping income; and
- o substantially all of our U.S.-source shipping income is attributable to regularly scheduled transportation, such as the operation of a vessel that follows a published schedule with repeated sailings at regular intervals between the same points for voyages that begin or end in the United States.

We do not intend to have, or permit circumstances that would result in having any vessel operating to the United States on a regularly scheduled basis. Based on the foregoing and on the expected mode of our shipping operations and other activities, we believe that none of our U.S.-source shipping income will be "effectively connected" with the conduct of a U.S. trade or business.

United States Taxation of Gain on Sale of Vessels

Regardless of whether we qualify for exemption under Section 883, we will not be subject to United States federal income taxation with respect to gain realized on a sale of a vessel, provided the sale is considered to occur outside of the United States under United States federal income tax principles. In general, a sale of a vessel will be considered to occur outside of the United States for this purpose if title to the vessel, and risk of loss with respect to the vessel, pass to the buyer outside of the United States. It is expected that any sale of a vessel by us will be considered to occur outside of the United States.

United States Federal Income Taxation of U.S. Holders

As used herein, the term "U.S. Holder" means a beneficial owner of common stock that is a United States citizen or resident, United States corporation or other United States entity taxable as a corporation, an estate the income of which is subject to United States federal income taxation regardless of its source, or a trust if a court within the United States is able to exercise primary jurisdiction over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust.

If a partnership holds our common stock, the tax treatment of a partner

Edgar Filing: EUROSEAS LTD. - Form 20-F

will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner in a partnership holding our common stock, you are encouraged to consult your tax advisor.

Distributions

Subject to the discussion of passive foreign investment companies below, any distributions made by us with respect to our common stock to a U.S. Holder will generally constitute dividends, which may be taxable as ordinary income or "qualified dividend income" as described in more detail below, to the extent of our current or accumulated earnings and profits, as determined under United States federal income tax principles. Distributions in excess of our earnings and profits will be treated first as a nontaxable return of capital to the extent of the U.S. Holder's tax basis in his common stock on a dollar-for-dollar basis and thereafter as capital gain. Because we are not a United States corporation, U.S. Holders that are corporations will not be entitled to claim a dividends received deduction with respect to any distributions they receive from us.

Dividends paid with respect to our common stock will generally be treated as "passive income" (or "passive category income" for taxable years beginning after December 31, 2006) or, in the case of certain types of U.S. Holders, "financial services income," (which will be treated as "general category income" income for taxable years beginning after December 31, 2006) for purposes of computing allowable foreign tax credits for United States foreign tax credit purposes. Dividends paid on our common stock after the time that our stock became listed on the NASDAQ Global Market to a U.S. Holder who is an individual, trust or estate (a "U.S. Individual Holder") will generally be treated as "qualified dividend income" that is taxable to such U.S. Individual Holders at preferential tax rates (through 2010) provided that (1) we are not a passive foreign investment company for the taxable year during which the dividend is paid or the immediately preceding taxable year (which we do not believe we are, have been or will be), (2) our common stock is readily tradable on an established securities market in the United States (such as the NASDAQ Global Market, on which our common stock is listed), and (3) the U.S. Individual Holder has owned the common stock for more than 60 days in the 121-day period beginning 60 days before the date on which the common stock becomes ex-dividend. There is no assurance that any dividends paid on our common stock will be eligible for these preferential rates in the hands of a U.S. Individual Holder. Dividends paid on our stock prior to the date on which our stock became listed on the NASDAQ Global Market were not eligible for these preferential rates. Legislation has been recently introduced in the U.S. House of Representatives which, if enacted in its present form, would preclude our dividends from qualifying for such preferential rates prospectively from the date of the enactment. Any dividends paid by us which are not eligible for these preferential rates will be taxed as ordinary income to a U.S. Individual Holder.

Special rules may apply to any "extraordinary dividend" generally, a dividend in an amount which is equal to or in excess of ten percent of a stockholder's adjusted basis (or fair market value in certain circumstances) in a share of common stock paid by us. If we pay an "extraordinary dividend" on our common stock that is treated as "qualified dividend income," then any loss derived by a U.S. Individual Holder from the sale or exchange of such common stock will be treated as long-term capital loss to the extent of such dividend.

Sale, Exchange or other Disposition of Common Stock

Assuming we do not constitute a passive foreign investment company for any taxable year, a U.S. Holder generally will recognize taxable gain or loss upon a sale, exchange or other disposition of our common stock in an amount equal to the difference between the amount realized by the U.S. Holder from such sale, exchange or other disposition and the U.S. Holder's tax basis in such stock.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Such gain or loss will be treated as long-term capital gain or loss if the U.S. Holder's holding period is greater than one year at the time of the sale, exchange or other disposition. Such capital gain or loss will generally be treated as U.S.- source income or loss, as applicable, for U.S. foreign tax credit purposes. A U.S. Holder's ability to deduct capital losses is subject to certain limitations.

Passive Foreign Investment Company Status and Significant Tax Consequences

Special United States federal income tax rules apply to a U.S. Holder that holds stock in a foreign corporation classified as a passive foreign investment company for United States federal income tax purposes. In general, we will be treated as a passive foreign investment company with respect to a U.S. Holder if, for any taxable year in which such holder held our common stock, either:

- o at least 75% of our gross income for such taxable year consists of passive income (e.g., dividends, interest, capital gains and rents derived other than in the active conduct of a rental business); or
- o at least 50% of the average value of the assets held by the corporation during such taxable year produce, or are held for the production of, passive income.

For purposes of determining whether we are a passive foreign investment company, we will be treated as earning and owning our proportionate share of the income and assets, respectively, of any of our subsidiary corporations in which we own at least 25 percent of the value of the subsidiary's stock. Income earned, or deemed earned, by us in connection with the performance of services would not constitute passive income. By contrast, rental income would generally constitute "passive income" unless we were treated under specific rules as deriving our rental income in the active conduct of a trade or business.

Based on our current operations and future projections, we do not believe that we are, nor do we expect to become, a passive foreign investment company with respect to any taxable year. Although there is no legal authority directly on point, and we are not relying upon an opinion of counsel on this issue, our belief is based principally on the position that, for purposes of determining whether we are a passive foreign investment company, the gross income we derive or are deemed to derive from the time chartering and voyage chartering activities of our wholly-owned subsidiaries should constitute services income, rather than rental income. Correspondingly, such income should not constitute passive income, and the assets that we or our wholly-owned subsidiaries own and operate in connection with the production of such income, in particular, the vessels, should not constitute passive assets for purposes of determining whether we are a passive foreign investment company. We believe there is substantial legal authority supporting our position consisting of case law and Internal Revenue Service pronouncements concerning the characterization of income derived from time charters and voyage charters as services income for other tax purposes. However, in the absence of any legal authority specifically relating to the statutory provisions governing passive foreign investment companies, the Internal Revenue Service or a court could disagree with our position. In addition, although we intend to conduct our affairs in a manner to avoid being classified as a passive foreign investment company with respect to any taxable year, we cannot assure you that the nature of our operations will not change in the future.

As discussed more fully below, if we were to be treated as a passive foreign investment company for any taxable year, a U.S. Holder would be subject to different taxation rules depending on whether the U.S. Holder makes an election to treat us as a "Qualified Electing Fund," which election we refer to as a "QEF election." As an alternative to making a QEF election, a U.S. Holder should be able to make a "mark-to-market" election with respect to our common

Edgar Filing: EUROSEAS LTD. - Form 20-F

stock, as discussed below.

Taxation of U.S. Holders Making a Timely QEF Election

If a U.S. Holder makes a timely QEF election, which U.S. Holder we refer to as an "Electing Holder," the Electing Holder must report each year for United States federal income tax purposes his pro rata share of our ordinary earnings and our net capital gain, if any, for our taxable year that ends with or within the taxable year of the Electing Holder, regardless of whether or not distributions were received from us by the Electing Holder. The Electing Holder's adjusted tax basis in the common stock will be increased to reflect taxed but undistributed earnings and profits. Distributions of earnings and profits that had been previously taxed will result in a corresponding reduction in the adjusted tax basis in the common stock and will not be taxed again once distributed. An Electing Holder would generally recognize capital gain or loss on the sale, exchange or other disposition of our common stock. A U.S. Holder would make a QEF election with respect to any year that our company is a passive foreign investment company by filing IRS Form 8621 with his United States federal income tax return. If we were aware that we were to be treated as a passive foreign investment company for any taxable year, we would provide each U.S. Holder with all necessary information in order to make the QEF election described above.

Taxation of U.S. Holders Making a "Mark-to-Market" Election

Alternatively, if we were to be treated as a passive foreign investment company for any taxable year and our stock is treated as "marketable stock," a U.S. Holder would be allowed to make a "mark-to-market" election with respect to our common stock, provided the U.S. Holder completes and files IRS Form 8621 in accordance with the relevant instructions and related Treasury Regulations. Since our stock is traded on the NASDAQ Global Market, we believe that our stock can be treated as "marketable stock" for the 2007 taxable year and each taxable year thereafter. For taxable years prior to the 2007 taxable year, our stock was not "marketable stock" since it was traded on the OTC Bulletin Board. If that election is made, the U.S. Holder generally would include as ordinary income in each taxable year the excess, if any, of the fair market value of the common stock at the end of the taxable year over such holder's adjusted tax basis in the common stock. The U.S. Holder would also be permitted an ordinary loss in respect of the excess, if any, of the U.S. Holder's adjusted tax basis in the common stock over its fair market value at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. A U.S. Holder's tax basis in his common stock would be adjusted to reflect any such income or loss amount. Gain realized on the sale, exchange or other disposition of our common stock would be treated as ordinary income, and any loss realized on the sale, exchange or other disposition of the common stock would be treated as ordinary loss to the extent that such loss does not exceed the net mark-to-market gains previously included by the U.S. Holder.

Taxation of U.S. Holders Not Making a Timely QEF or Mark-to-Market Election

Finally, if we were to be treated as a passive foreign investment company for any taxable year, a U.S. Holder who does not make either a QEF election or a "mark-to-market" election for that year, whom we refer to as a "Non-Electing Holder," would be subject to special rules with respect to (1) any excess distribution (i.e., the portion of any distributions received by the Non-Electing Holder on our common stock in a taxable year in excess of 125 percent of the average annual distributions received by the Non-Electing Holder in the three preceding taxable years, or, if shorter, the Non-Electing Holder's holding period for the common stock), and (2) any gain realized on the sale, exchange or other disposition of our common stock. Under these special rules:

- o the excess distribution or gain would be allocated ratably over the

Edgar Filing: EUROSEAS LTD. - Form 20-F

Non-Electing Holders' aggregate holding period for the common stock;

- o the amount allocated to the current taxable year and any taxable year before we became a passive foreign investment company would be taxed as ordinary income; and
- o the amount allocated to each of the other taxable years would be subject to tax at the highest rate of tax in effect for the applicable class of taxpayer for that year, and an interest charge for the deemed deferral benefit would be imposed with respect to the resulting tax attributable to each such other taxable year.

These penalties would not apply to a pension or profit sharing trust or other tax-exempt organization that did not borrow funds or otherwise utilize leverage in connection with its acquisition of our common stock. If a Non-Electing Holder who is an individual dies while owning our common stock, such holder's successor generally would not receive a step-up in tax basis with respect to such stock.

United States Federal Income Taxation of "Non-U.S. Holders"

A beneficial owner of common stock that is not a U.S. Holder is referred to herein as a "Non-U.S. Holder."

Dividends on Common Stock

Non-U.S. Holders generally will not be subject to United States federal income tax or withholding tax on dividends received from us with respect to our common stock, unless that income is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States. If the Non-U.S. Holder is entitled to the benefits of a United States income tax treaty with respect to those dividends, that income is taxable only if it is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States.

Sale, Exchange or Other Disposition of Common Stock

Non-U.S. Holders generally will not be subject to United States federal income tax or withholding tax on any gain realized upon the sale, exchange or other disposition of our common stock, unless:

- o the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States. If the Non-U.S. Holder is entitled to the benefits of an income tax treaty with respect to that gain, that gain is taxable only if it is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States; or
- o the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of disposition and other conditions are met.

If the Non-U.S. Holder is engaged in a United States trade or business for United States federal income tax purposes, the income from the common stock, including dividends and the gain from the sale, exchange or other disposition of the stock that is effectively connected with the conduct of that trade or business will generally be subject to regular United States federal income tax in the same manner as discussed in the previous section relating to the taxation of U.S. Holders. In addition, if you are a corporate Non-U.S. Holder, your earnings and profits that are attributable to the effectively connected income, which are subject to certain adjustments, may be subject to an additional branch profits tax at a rate of 30%, or at a lower rate as may be specified by an

Edgar Filing: EUROSEAS LTD. - Form 20-F

applicable income tax treaty.

Backup Withholding and Information Reporting

In general, dividend payments, or other taxable distributions, made within the United States to you will be subject to information reporting requirements. Such payments will also be subject to backup withholding tax if you are a non-corporate U.S. Holder and you:

- o fail to provide an accurate taxpayer identification number;
- o are notified by the Internal Revenue Service that you have failed to report all interest or dividends required to be shown on your federal income tax returns; or
- o in certain circumstances, fail to comply with applicable certification requirements.

Non-U.S. Holders may be required to establish their exemption from information reporting and backup withholding by certifying their status on IRS Form W-8BEN, W-8ECI or W-8IMY, as applicable.

If you sell your common stock to or through a United States office or broker, the payment of the proceeds is subject to both United States backup withholding and information reporting unless you certify that you are a non-U.S. person, under penalties of perjury, or you otherwise establish an exemption. If you sell your common stock through a non-United States office of a non-United States broker and the sales proceeds are paid to you outside the United States then information reporting and backup withholding generally will not apply to that payment. However, United States information reporting requirements, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made to you outside the United States, if you sell your common stock through a non-United States office of a broker that is a United States person or has some other contacts with the United States.

Backup withholding tax is not an additional tax. Rather, you generally may obtain a refund of any amounts withheld under backup withholding rules that exceed your income tax liability by filing a refund claim with the Internal Revenue Service.

We encourage each stockholder to consult with his, her or its own tax advisor as to particular tax consequences to it of holding and disposing of Euroseas shares, including the applicability of any state, local or foreign tax laws and any proposed changes in applicable law.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

In the normal course of business, we face risks that are non-financial or non-quantifiable. Such risks principally include country risk, credit risk and legal risk. Our operations may be affected from time to time in varying degrees by these risks but their overall effect on us is not predictable. We have identified the following market risks as those which may have the greatest impact upon our operations:

Interest Rate Fluctuation Risk

The international drybulk industry is a capital intensive industry, requiring significant amounts of investment. Much of this investment is provided in the form of long term debt. Our debt usually contains interest rates that fluctuate with LIBOR. In 2006, we did not use and currently we do not have financial instruments such as interest rate swaps to manage the impact of interest rate changes on earnings and cash flows and increasing interest rates could adversely impact future earnings.

As at December 31, 2006, we had \$74.95 million of floating rate debt outstanding with margins over LIBOR ranging from 0.90% to 1.60%. Our interest expense is affected by changes in the general level of interest rates. As an indication of the extent of our sensitivity to interest rate changes, an increase of 100 basis points would have decreased our net income and cash flows in the twelve-month period to December 31, 2006 by approximately \$556,000 assuming the same debt profile throughout the year.

In March of 2004, we entered into an interest rate swap agreement on a notional amount of \$5.00 million. Under this swap agreement, we receive interest based on the 3-month LIBOR rate and we pay based on 1.10% fixed rate if the 1-year LIBOR remains below 4.02%; otherwise we pay the 1-year LIBOR rate. This agreement was terminated in October 2005.

The following table sets forth the sensitivity of loans in U.S. dollars to a 100 basis points increase in LIBOR during the next five years:

Year Ended December 31,	Amount in \$
2007	496,000
2008	355,000
2009	252,000
2010	193,000
2011 and thereafter	203,000

Foreign Exchange Rate Risk

The international drybulk and containership shipping industry's functional currency is the U.S. Dollar. We generate all of our revenues in U.S. dollars, but incur approximately 33% of our vessel running expenses in currencies other than U.S. dollars. In addition, our management fee is denominated in euros (590 euros during January 2006, 610 euros since February 1, 2006 and 630 euros per vessel per day as of February 1, 2007). At December 31, 2006, approximately 27% of our outstanding accounts payable were denominated in currencies other than the U.S. dollar, mainly in Euros. We do not use currency exchange contracts to reduce the risk of adverse foreign currency movements but we believe that our exposure from market rate fluctuations is unlikely to be material. Net foreign

Edgar Filing: EUROSEAS LTD. - Form 20-F

exchange losses for the year to December 31, 2006 were \$1,598.

Inflation Risk

The general rate of inflation has been relatively low in recent years and as such its associated impact on costs has been minimal. We do not believe that inflation has had, or is likely to have in the foreseeable future, a significant impact on expenses. Should inflation increase, it will increase our expenses and subsequently have a negative impact on our earnings.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

On January 30, 2007, our registration statement on Form F-1 (File No. 333-138780) relating to our follow-on common stock offering was declared effective by the SEC. On February 5, 2007, we raised approximately \$47 million in gross proceeds from such offering. The offering terminated after all registered securities were sold. The offering was underwritten by Oppenheimer & Co., Ferris, Baker Watts, Incorporated, Cantor Fitzgerald & Co. and Fortis Securities LLC. The offering was an offering of our common stock, par value \$0.03 per share, and such stock is not convertible. In the offering, we registered 5,750,000 shares of common stock (including shares issuable in connection with the exercise of the underwriters' over-allotment option) and the aggregate price of the offering amount registered was \$47,437,500. In the offering, we sold 5,750,000 shares (including shares issuable in connection with the exercise of the underwriters' over-allotment option), at an offering price of \$8.25 per share for an aggregate price of \$47,437,500.

From January 30, 2007, the effective date of the registration statement on Form F-1, until April 27, 2007, we estimate that we incurred approximately \$3.3 million expenses for our account in connection with the issuance and distribution of the registered securities for underwriting discounts and commissions, finders' fees, expenses paid to or for underwriters, other expenses and total expenses. Our total expenses of our follow-on common stock offering are estimated at approximately \$4.3 million. None of these payments were made direct or indirectly to our directors, officers, general partners or their associates, to persons owning 10% or more of any class of our equity securities or our affiliates.

Our net offering proceeds after deducting the total expenses described above was approximately \$43.1 million.

From January 30, 2007, the effective date of the registration statement on Form F-1, until April 27, 2007, we used approximately \$32.3 million of the net offering proceeds for the acquisition of two vessels, m/v Gregos and m/v Manolis P. None of the foregoing payments were made directly or indirectly to our directors, officers, general partners or their associates, to persons owning 10% or more of any class of our equity securities or our affiliates except for \$322,500 paid as purchase commissions to Eurochart in connection with the purchase price of these two vessels, as per the terms of our master management

Edgar Filing: EUROSEAS LTD. - Form 20-F

agreement with our fleet manager, Eurobulk Ltd., which is partly owned by our Chairman and CEO.

Item 15. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has concluded, based upon its evaluation as of the end of the period covered by this report, that our "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) are effective to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. The controls and procedures are designed to ensure that information required to be disclosed is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in internal controls over financial reporting that occurred during the year covered by this annual report that have materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

Pursuant to an exemption for foreign private issuers, we are not required to comply with all of the corporate governance requirements of NASDAQ that are applicable to U.S. listed companies. A description of the significant differences between our corporate governance practices and the NASDAQ requirements may be found on our website under "Corporate Governance" at <http://www.euroseas.gr>.

Item 16A. Audit Committee Financial Expert

Our Board of Directors has determined that all the members of our Audit Committee qualify as financial experts and they are all considered to be independent according to the SEC rules. Mr. Panos Kyriakopoulos serves as the chairman of our Audit Committee with Mr. Gerald Turner and Mr. George Taniskidis as members.

Item 16B. Code of Ethics

We have adopted a code of ethics that applies to officers and employees. Our code of ethics is posted in our website: <http://www.euroseas.gr> under "Corporate Governance."

Item 16C. Principal Accountant Fees and Services

Our principal auditors, Deloitte Hadjipavlou, Sofianos & Cambanis S.A. have charged us for audit, audit-related and non-audit services as follows:

	2006 (dollars in thousands)	2005 (dollars in thousands)
Audit Fees	\$ 388	\$ 615
Further assurance/audit related fees	-	-
Tax fees	-	-
Other fees/expenses	3	2
Total	\$ 391	\$ 617

In 2005, audit fees relate to audit services provided in connection with our Private Placement in August 2005, merger with Cove Apparel, Inc., our F-1

Edgar Filing: EUROSEAS LTD. - Form 20-F

and F-4 filings and the audit of our consolidated financial statements. For those services our principal auditors charged us \$615,000 of fees plus \$2,291 of expenses. In 2006, audit fees relate to audit services provided in connection to a post-effective amendment to our prior F-1 filing related to our private placement of August 2005, our F-1 filing related to our follow-on offering initially filed in November 2006 and the audit of our consolidated financial statements. For these services our principal auditors charged us \$388,000 of fees plus \$3,000 of expenses.

The audit committee is responsible for the appointment, replacement, compensation, evaluation and oversight of the work of the independent registered public accounting firm. As part of this responsibility, the Audit Committee pre-approves the audit and non-audit services performed by the independent registered public accounting firm in order to assure that they do not impair the auditor's independence from the Company. The Audit Committee has adopted a policy which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent registered public accounting firm may be pre-approved.

All audit services and other services provided by Deloitte Hadjipavlou, Sofianos & Cambanis S.A., after the formation of our audit committee in November 2005 were pre-approved by the audit committee.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not Applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Not Applicable.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
of Euroseas Ltd. and subsidiaries

We have audited the accompanying consolidated balance sheets of Euroseas Ltd. and subsidiaries (the "Company") as of December 31, 2006 and 2005, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Euroseas Ltd. and subsidiaries at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Euroseas Ltd. and Subsidiaries
Notes to the consolidated financial statements
Years ended December 31, 2004, 2005 and 2006
(All amounts expressed in U.S. Dollars)

1. Basis of Presentation and General Information

Euroseas Ltd. (the "Company") was formed on May 5, 2005 under the laws of the Republic of the Marshall Islands to consolidate the beneficial owners of the ship owning companies in existence at that time (see list below). On June 28, 2005, the beneficial owners exchanged all their shares in the ship-owning companies for shares in Friends Investment Company Inc., a newly formed Marshall Islands company. On June 29, 2005, Friends Investment Company Inc. then exchanged all the shares in the ship-owning companies for shares in Euroseas Ltd., thus becoming the sole shareholder of Euroseas Ltd. The transaction described above constitutes a reorganization of companies under common control, and has been accounted for in a manner similar to a pooling of interests, as each ship-owning company was under the common control of the Pittas family prior to the transfer of ownership of the companies to Euroseas Ltd. Accordingly, the accompanying consolidated financial statements have been presented as if the ship-owning companies were consolidated subsidiaries of the Company for all periods presented and using the historical carrying costs of the assets and the liabilities of the ship-owning companies in existence at that time (see list below).

On August 25, 2005, Euroseas Ltd. sold 2,342,331 common shares at \$9.00 per share in an institutional private placement, together with 0.25 of detachable warrants for each common share to acquire up to 585,589 common shares. The total proceeds, net of issuance costs of \$3,500,309, amounted to \$17,510,400. The warrants allow their holders to acquire one share of Euroseas Ltd. stock at a price of \$10.80 per share and are exercisable for a period of five years from the issue of the warrant.

Edgar Filing: EUROSEAS LTD. - Form 20-F

On August 25, 2005, as a condition to the institutional private placement described above, the Company and Cove Apparel, Inc. (Cove, an unrelated party and public shell corporation) signed an Agreement and Plan of Merger (the "Merger Agreement"). The Merger Agreement provided for the merger of Cove and Euroseas Acquisition Company Inc., a Delaware corporation and a wholly-owned subsidiary of Euroseas Ltd. formed on June 21, 2005, with the current stockholders of Cove receiving 0.0034323 shares of Euroseas Ltd. common shares for each share of Cove common stock they presently own. Euroseas Ltd., as part of the merger, filed a registration statement with the Securities and Exchange Commission (SEC) to register the shares issued in the merger to the Cove stockholders.

The SEC declared effective on February 3, 2006 the Company's registration statement on Form F-4 that registered the Euroseas Ltd. common shares issued to Cove shareholders. The SEC also declared effective on February 3, 2006 the Company's registration statement on Form F-1 that registered the re-sale of the 2,342,331 Euroseas Ltd. common shares and 585,589 Euroseas Ltd. common shares issuable upon the exercise of the warrants issued in connection with the institutional private placement as well as 272,868 Euroseas Ltd. common shares that were issued to certain Cove's shareholders as part of the merger with Cove.

On March 27, 2006, Euroseas Ltd. consummated the merger with Cove and, as a result, Cove merged into Euroseas Acquisition Company Inc., and the separate corporate existence of Cove ceased. The Cove stockholders received Euroseas Ltd. common shares and received dividends totaling to \$140,334 related to dividends previously declared by Euroseas Ltd. Euroseas Acquisition Company Inc. changed its name to Cove Apparel, Inc. Also, following the completion of the merger, the common stock of Cove has been de-listed and no longer trades on the OTC Bulletin Board. On the date of the merger, Cove had cash of \$10,000, had no other assets and had no liabilities.

Euroseas Ltd. common share was approved to trade on March 2, 2006 and started trading on the OTC Bulletin Board on May 5, 2006. On October 6, 2006, the Company effected a 1-for-3 reverse split of its common stock (see also Note 14). On January 31, 2007 upon the completion of the Company's follow-on common stock offering of 5,750,000 shares (see Note 18(c)), the Euroseas Ltd. common share started trading on the NASDAQ Global Market.

The operations of the vessels are managed by Eurobulk Ltd. (the "manager"), a corporation controlled by members of the Pittas family. The Pittas family is the controlling shareholders of Friends Investment Company Inc.

The manager has an office in Greece located at 40 Ag. Konstantinou Ave, Maroussi, Athens, Greece. The manager provides the Company with a wide range of shipping services such as technical support and maintenance, insurance consulting, chartering, financial and accounting services, as well as executive management services, in consideration for fixed and variable fees (see Note 8).

The Company is engaged in the ocean transportation of dry bulk and containers through ownership and operation of dry bulk and container carriers owned by the following ship-owning companies:

- o Searoute Maritime Ltd. incorporated in Cyprus on May 20, 1992, owner of the Cyprus flag 33,712 DWT bulk carrier motor vessel (M/V) "Ariel", which was built in 1977 and acquired on March 5, 1993. M/V "Ariel" was sold on February 22, 2007.
- o Oceanopera Shipping Ltd. incorporated in Cyprus on June 26, 1995, owner of the Cyprus flag 34,750 DWT bulk carrier M/V "Nikolaos P", which was built in 1984 and acquired on July 22, 1996.
- o Oceanpride Shipping Ltd. incorporated in Cyprus on March 7, 1998, owner of

Edgar Filing: EUROSEAS LTD. - Form 20-F

the Cyprus flag 26,354 DWT bulk carrier M/V "John P", which was built in 1981 and acquired on March 7, 1998. M/V "John P" was sold on July 5, 2006.

- o Alcinoe Shipping Ltd. incorporated in Cyprus on March 20, 1997, owner of the Cyprus flag 26,354 DWT bulk carrier M/V "Pantelis P", which was built in 1981 and acquired on June 4, 1997. M/V "Pantelis P" was sold on May 31, 2006.
- o Alterwall Business Inc. incorporated in Panama on January 15, 2001, owner of the Panama flag 18,253 DWT container carrier M/V "HM Qingdao1" which was built in 1990 and acquired on February 16, 2001.
- o Allendale Investment S.A. incorporated in Panama on January 22, 2002, owner of the Panama flag 18,154 DWT container carrier M/V "Kuo Hsiung", which was built in 1993 and acquired on May 13, 2002.
- o Diana Trading Ltd. incorporated in the Marshall Islands on September 25, 2002, owner of the Marshall Islands flag 69,734 DWT bulk carrier M/V "Irini", which was built in 1988 and acquired on October 15, 2002.
- o Salina Shipholding Corp., incorporated in the Marshall Islands on October 20, 2005, owner of the Marshall Islands flag 29,693 DWT container carrier M/V "Artemis", which was built in 1987 and acquired on November 25, 2005.
- o Xenia International Corp., incorporated in the Marshall Islands on April 6, 2006, owner of the Marshall Islands flag 22,568 DWT / 950 TEU multipurpose M/V "Tasman Trader", which was built in 1990 and acquired on April 27, 2006.
- o Prospero Maritime Inc., incorporated in the Marshall Islands on July 21, 2006, owner of the Marshall Islands flag 69,268 DWT dry bulk M/V "Aristides N.P.", which was built in 1993 and acquired on September 4, 2006.
- o Xingang Shipping Ltd., incorporated in Liberia on October 16, 2006, owner of the Liberian flag 23,596 DWT container carrier M/V "YM Xingang I" , which was built in February 1993 and acquired on November 15, 2006.

In addition, the accompanying consolidated financial statements include the accounts of the ship-owning company, Silvergold Shipping Ltd., which was also managed by Eurobulk Ltd. during the periods presented.

- o Silvergold Shipping Ltd. (Silvergold) incorporated in Cyprus on May 16, 1994. Up to June 3, 1996, Silvergold was engaged in ship owning activities, but thereafter, Silvergold's assets and liabilities were liquidated and the remaining net assets were distributed to shareholders. The Company remained dormant until October 10, 2000 when it acquired the 18,000 DWT Cyprus flag container carrier M/V "Widar", which was built in 1986. M/V "Widar" was sold on April 24, 2004. The Pittas family, the controlling shareholders of Friends Investment Company Ltd. which is the Company's largest shareholder, also owned Silvergold and, accordingly, these accompanying financial statements also consolidated the accounts of Silvergold until May 31, 2005, when Silvergold declared a final dividend of \$35,000 to its shareholders.

During the years ended December 31, 2004, 2005 and 2006, the following charterers individually accounted for more than 10% of the Company's voyage and time charter revenues as follows:

	Year ended December 31,

G	12.20%	-	-
H	14.07%	-	-
I	10.52%	-	-

2. Significant Accounting Policies

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America. The following are the significant accounting policies adopted by the Company:

Principles of consolidation

The accompanying consolidated financial statements included the accounts of Euroseas Ltd. and its subsidiaries. Inter-company transactions were eliminated on consolidation.

Use of estimates

The preparation of the accompanying consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the stated amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other comprehensive income

The Company presents separately comprehensive income, if any, and its components in stockholders' equity. The Company has no other comprehensive income and, accordingly, comprehensive income equals net income for all periods presented.

Foreign currency translation

The Company's functional currency is the U.S. dollar. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at exchange rates prevailing at the balance sheet date. Income and expenses denominated in foreign currencies are translated into U.S. dollars at exchange rates prevailing at the date of the transaction. The resulting exchange gains and/or losses on settlement or translation are included in the accompanying consolidated statements of operations.

Cash equivalents

Cash equivalents are time deposits or other certificates purchased with an original maturity of three months or less.

Trade accounts receivable

The amount shown as trade accounts receivable, at each balance sheet date, includes estimated recoveries from each voyage or time charter. At each balance sheet date, the Company provides for doubtful accounts on the basis of specific identified doubtful receivables. At December 31, 2005 and 2006, no provision for doubtful debts was considered necessary.

Edgar Filing: EUROSEAS LTD. - Form 20-F

Inventories

Inventories are stated at the lower of cost and market value. Victualling is valued using the FIFO (First-In First-Out) method while lubricants are valued on an average cost basis.

Vessels

Vessels are stated at cost which comprises the vessels' contract price, costs of major repairs and improvements upon acquisition, direct delivery and other acquisition expenses less accumulated depreciation. Subsequent expenditures for conversions and major improvements are also capitalized when they appreciably extend the life, increase the earning capacity or improve the efficiency or safety of the vessels otherwise these amounts are charged to expense as incurred.

Expenditures for vessel repair and maintenance is charged against income in the period incurred.

Depreciation

Depreciation is calculated on a straight line basis with reference to the cost of the vessel, age and scrap value as estimated at the date of acquisition. Depreciation is calculated over the remaining useful life of the vessel, which is estimated to range from 25 to 30 years from the completion of its construction. Remaining useful lives of property are periodically reviewed and revised to recognize changes in conditions and such revisions, if any, are recognized over current and future periods. The Company changed its estimate of the scrap value of its vessels in 2004 (see Note 4).

Revenue and expense recognition

Revenues are generated from voyage and time charter agreements. Time charter revenues are recorded over the term of the charter as service is provided. Under a voyage charter, the revenues and associated voyage expenses are recognized on a pro-rata basis over the duration of the voyage. Probable losses on voyages are provided for in full at the time such losses can be estimated. A voyage is deemed to commence upon the completion of discharge of the vessel's previous cargo and is deemed to end upon the completion of discharge of the current cargo. Demurrage income, which is included in voyage revenues, represents payments received from the charterer when loading or discharging time exceeded the stipulated time in the voyage charter and is recognized when earned.

Charter fees received in advance is recorded as a liability (deferred revenue) until charter services are rendered.

Vessel operating expenses comprise all expenses relating to the operation of the vessels, including crewing, insurance, repairs and maintenance, stores, lubricants, spares and consumables, professional and legal fees and miscellaneous expenses. Vessels operating expenses are recognized as incurred; payments in advance of services or use are recorded as prepaid expenses. Voyage expenses comprise all expenses relating to particular voyages, including bunkers, port charges, canal tolls, and agency fees.

For the Company's vessels operating in chartering pools, revenues and voyage expenses are pooled and allocated to each pool's participants on a time charter equivalent basis in accordance with an agreed-upon formula. Revenues and voyage expenses are recognized during the period services were performed. For vessels that simultaneously participate in spot chartering pools and cargo pools (pools of contracts of affreightment, also called, short funds; in the Company's case, participation in cargo pools requires participation in spot chartering pools), a combined time charter equivalent revenue is provided by the operator of the

Edgar Filing: EUROSEAS LTD. - Form 20-F

vessel and cargo pools.

Dry-docking and special survey expenses

Dry-docking and special survey expenses are deferred and amortized over the estimated period to the next scheduled dry-docking or special survey, which are generally two and a half years and five years, respectively. Unamortized dry-docking and special survey expenses of vessels that are sold are written-off to income in the year of the vessel's sale.

Pension and retirement benefit obligations - crew

The ship-owning companies employ the crews on board the vessels under short-term contracts (usually up to 9 months). Accordingly, they are not liable for any pension or post retirement benefits.

Financing costs

Loan arrangement fees are deferred and amortized to interest expense over the duration of the underlying loan using the effective interest method. Unamortized fees relating to loan repaid or refinanced are expensed in the period the repayment or refinancing occurs.

Assets held for sale

It is the Company's policy to dispose of vessels when suitable opportunities occur and not necessarily to keep them until the end of their useful life. The Company classifies vessels as being held for sale when: management has committed to a plan to sell the vessels; the vessels are available for immediate sale in its present condition; an active program to locate a buyer and other actions required to complete the plan to sell the vessels have been initiated; the sale of the vessels is probable, and transfer of the asset is expected to qualify for recognition as a completed sale within one year; the vessels are being actively marketed for sale at a price that is reasonable in relation to its current fair value and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Long-lived assets classified as held for sale are measured at the lower of their carrying amount or fair value less cost to sell. These vessels are not depreciated once they meet the criteria to be classified as held for sale.

Impairment of long-lived assets

Impairment losses are recognized on long-lived assets used in operations when indicators of impairment are present and if the carrying amount of the long-lived asset is not recoverable from the undiscounted cash flows estimated to be generated by those assets and the asset's carrying amount is less than its fair value. In determining fair value and future benefits derived from use of long-lived assets, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds its undiscounted future net cash flows, the carrying value is reduced to its fair value. Various factors including future charter rates and vessel operating costs are included in this analysis. The Company did not note, for all years presented, any events or changes in circumstances indicating that the carrying amount of its vessels may not be recoverable.

Fair value of time charter acquired

The Company records all identified tangible and intangible assets or any liabilities associated with the acquisition of a vessel at fair value. Where

Edgar Filing: EUROSEAS LTD. - Form 20-F

vessels are acquired with existing time charters, the Company determines the present value of the difference between: (i) the contractual charter rate and (ii) the prevailing market rate for a charter of equivalent duration. In discounting the charter rate differences in future periods, the Company uses its Weighted Average Cost of Capital (WACC) adjusted to account for the credit quality of the charterer. The capitalized above-market (assets) and below-market (liabilities) charters are amortized as a reduction and increase, respectively, to voyage revenues over the remaining term of the charter.

Derivative financial instruments

Every derivative instrument (including certain derivative instruments embedded in other contracts) are recorded in the balance sheet as either an asset or liability measured at its fair value with changes in the instruments' fair value recognized currently in earnings unless specific hedge accounting criteria are met.

For the years ended December 31, 2004 and 2005, the interest rate swaps did not qualify for hedge accounting treatment. Accordingly, all gains or losses have been recorded in the consolidated statements of income. There were no interest rate swaps for the year ended December 31, 2006.

Earning per common share

Basic earnings per common share are computed by dividing the net income by the weighted average number of common shares outstanding during the year. Potential common shares that are anti-dilutive, such as the warrants outstanding as of December 31, 2005 and December 31, 2006 since their exercise price exceeds the fair value of Euroseas Ltd. common shares, are excluded from diluted earnings per share calculation. Additional 5,750,000 Euroseas Ltd. common shares were issued subsequent to December 31, 2006 as a result of the Company's follow-on offering of common stock [see Note 18(c)].

Segment reporting

The Company reports financial information and evaluates its operations by charter revenue and not by the length of ship employment for its customers, i.e. spot or time charters. The Company does not use discrete financial information to evaluate the operating results for each such type of charter. Although revenue can be identified for these types of charters, management cannot and does not identify expenses, profitability or other financial information for these charters. As a result, management, including the chief operating decision maker, reviews operating results solely by revenue per day and operating results of the fleet and thus the Company has determined that it operates under one reporting segment. Furthermore, when the Company charters a vessel to a charterer, the charterer is free to trade the vessel worldwide and, as a result, the disclosure of geographical information is impracticable.

Recent accounting pronouncements

In March 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 156 Accounting for Servicing of Financial Assets--an amendment of FASB Statement No. 140. The Statement requires that an entity separately recognize a servicing asset or a servicing liability when it undertakes an obligation to service a financial asset under a servicing contract in certain situations. Such servicing assets or servicing liabilities are required to be initially measured at fair value, if practicable. Statement 156 also allows an entity to choose one of two methods when subsequently measuring its servicing assets and servicing liabilities: (1) the amortization method or (2) the fair value measurement method. The amortization method existed under Statement 140 and remains unchanged. The Statement is effective for financial statements issued for fiscal years beginning after September 15, 2006. The Company has analyzed this

Edgar Filing: EUROSEAS LTD. - Form 20-F

pronouncement and has concluded that this pronouncement does not have any effect on its financial condition, results of operation or cash flows.

In September 2006, the FASB issued Staff Position (FSP) AUG AIR-1, Accounting for Planned Major Maintenance Activities. FSP AUG AIR-1 addresses the accounting for planned major maintenance activities. Specifically, the FSP prohibits the practice of the accrue-in-advance method of accounting for planned major maintenance activities. FSP AUG AIR-1 is effective for fiscal years beginning after December 15, 2006. The Company has analyzed FSP AUG AIR-1 and concluded that it does not have any effect on its financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements. The Statement provides a single definition of fair value, together with a framework for measuring it, and requires additional disclosure about the use of fair value to measure assets and liabilities. Statement 157 also emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority being quoted prices in active markets. Under the Statement, fair value measurements are disclosed by level within that hierarchy. The Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159 The Fair Value Option for Financial Assets and Financial Liabilities--Including an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure certain financial assets and financial liabilities at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities using different attributes and applying complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

Recent accounting pronouncements - Continued

On September 13, 2006, the SEC released staff accounting bulleting ("SAB") No. 108, which provides guidance on materiality. SAB No. 108 states that registrants should use both a balance sheet (iron curtain) approach and an income statement (rollover) approach when quantifying and evaluating the materiality of a misstatement, contains guidance on correcting errors under the dual approach, and provides transition guidance for correcting errors existing in prior years. If prior-year errors that had been previously considered immaterial (based on the appropriate use of the registrant's prior approach) now are considered material based on the approach in the SAB, the registrant need not restate prior period financial statements, but is required to record one-time cumulative effect adjustment to correct for misstatements in prior fiscal years. SAB No. 108 is effective for annual financial statements covering the first fiscal year ending after November 15, 2006. This statement was effective for the Company for the fiscal year ended December 31, 2006. The Company has concluded that adoption of SAB No. 108 does not have any effect on its financial position, results of operations and cash flows.

3. Inventories

Edgar Filing: EUROSEAS LTD. - Form 20-F

This consisted of the following:

	2005	2006
Lubricants	312,390	637,758
Victualling	59,301	78,373
Total	371,691	716,131

4. Vessels, net

The amounts in the accompanying consolidated balance sheets are as follows:

	Costs	Accumulated Depreciation	Net Book Value
Balance, January 1, 2005	55,760,394	(21,589,230)	34,171,164
- Depreciation for the year		(2,657,914)	(2,657,914)
- Purchase of vessel	20,821,647	-	20,821,647
Balance, December 31, 2005	76,582,041	(24,247,144)	52,334,897
- Depreciation for the year		(6,277,328)	(6,277,328)
- Purchase of vessels	55,479,929	-	55,479,929
- Vessels held for sale	(6,119,713)	4,336,873	(1,782,840)
- Sale of vessels	(12,411,482)	8,151,166	(4,260,316)
Balance, December 31, 2006	113,530,775	(18,036,433)	95,494,342

The Company increased in 2004 its estimate of the scrap value of the vessels to reflect increases in the market price in the scrap metal market. The effect of this change in estimate was to reduce 2004 depreciation expense by \$1,400,010 and increase 2004 net income by the same amount, or \$0.14 per share. In addition, in 2004, the estimated useful life of the vessel M/V Ariel was extended from 28 years to 30 years as a result of the dry-docking performed in such year.

M/V Pantelis P was sold in May 2006 and the Company recognized net gain from the sale of \$2,165,799. Depreciation expense for M/V Pantelis P for the year ended December 31, 2006 amounted to \$107,587. M/V John P was sold in July 2006 and the Company recognized net gain from the sale of \$2,280,057. Depreciation expense for M/V John P for the year ended December 31, 2006 amounted to \$60,067 (see Note 11).

On December 19, 2006, Searoute Maritime Ltd., a wholly-owned subsidiary of the company, signed a Memorandum of Agreement to sell M/V "Ariel", a handysize bulk carrier of 33,712 DWT built in 1977 for a gross price of \$5,350,000 with 2% sales commissions. The vessel was delivered to the buyers on February 22, 2007 resulting in a gain of approximately \$3,400,000. M/V "Ariel" is presented as "vessel held for sale" in the consolidated balance sheet as of December 31, 2006. The vessel was already fully depreciated as of December 19, 2006 and, therefore, its classification as "vessel held for sale" had no effect on the depreciation. The book value of M/V "Ariel" (representing its estimated salvage value) as of December 31, 2006 is \$1,782,840.

5. Deferred Charges, net

This consisted of:

2005	2006
------	------

Edgar Filing: EUROSEAS LTD. - Form 20-F

Balance, beginning of year	2,205,178	1,855,829
Additions	1,284,733	972,448
Amortization of dry-docking and special survey expenses	(1,550,338)	(1,015,510)
Amortization of loan arrangement fees	(83,744)	(74,601)
Unamortized portion of dry-docking and special survey expenses written-off upon sale of M/V Pantelis P and M/V John P	-	(446,322)
Balance, end of year	1,855,829	1,291,844

The additions of \$972,448 in 2006 consisted of loan financing fees of \$151,250 and dry-docking and special survey expenses of \$821,198. The additions of \$1,284,733 in 2005 consisted of loan financing fees of \$208,500 and dry-docking and special survey expenses of \$1,076,233.

6. Accrued Expenses

The accrued expenses account consisted of:

	2005	2006
Accrued follow-on offering expenses	1,121,397	458,329
Accrued payroll expenses	31,928	72,807
Accrued interest	139,536	291,567
Accrued general and administrative expenses	269,666	199,678
Other accrued expenses	215,110	210,804
Total	1,777,637	1,233,185

7. Fair Value of Above or Below Market Time Charters Acquired

M/V "Tasman Trader" was acquired on April 27, 2006 with an outstanding time charter terminating on December 17, 2008 with a charter rate of \$8,850 per day and M/V "Aristides N.P." was acquired on September 4, 2006 with an outstanding time charter contract terminating on November 8, 2006 with a charter rate of \$19,750 per day. These charter rates were below the market rates for equivalent time charters prevailing at the time the foregoing vessels were acquired (see Note 11). The present values of the below the market charters were estimated by the Company at \$1,237,072 and \$412,500, respectively, and were recorded as liabilities in the consolidated balance sheets. Net voyage revenues included \$318,872 as amortization of the below market rate charters for M/V "Tasman Trader" and \$412,500 for M/V "Aristides N.P." for the year ended December 31, 2006. The unamortized below market rate charter for M/V "Tasman Trader" was \$918,200 and none for M/V "Aristides N.P." as of December 31, 2006 and is recorded as a liability in the consolidated balance sheets.

M/V "YM Xingang I" was acquired on November 15, 2006 with an outstanding time charter terminating on July 21, 2009 with a charter rate of \$26,650 per day. This charter rate was above the market rates for equivalent time charters prevailing at the time (see Note 11). The present value of the above the market charter was estimated by the Company at \$7,923,480, and was recorded as an asset in the consolidated balance sheets. Net voyage revenues included \$380,003 as amortization of the above market rate charter for M/V "YM Xingang I" for the year ended December 31, 2006. The remaining unamortized above market rate charter was \$7,543,477 as of December 31, 2006.

8. Related Party Transactions

Edgar Filing: EUROSEAS LTD. - Form 20-F

The Company's vessel owning companies are parties to management agreements with Eurobulk Ltd. ("Management Company"), which is controlled by members of the Pittas family, whereby the Management Company provides technical and commercial vessel management for a fixed daily fee of Euro 590 per vessel for 2004 and 2005 and an average of Euro 608 for 2006 under our Master Management Agreement (see below). Vessel management fees paid to the Management Company amounted to \$1,972,252, \$1,911,856 and \$2,266,589 in 2004, 2005 and 2006, respectively. These agreements were renewed on January 31, 2005 and amended in August and October 2006 with an initial term of five years and will automatically be extended after the initial term until terminated by the parties. Termination is not effective until two months following notice having been delivered in writing by either party after the expiration of the initial five-year period. An annual adjustment of the management fee due to inflation as provided under the management agreement took effect on the annual anniversary of the agreement on January 31, 2006 increasing the management fee by Euro 20 per vessel per day to Euro 610 per vessel.

Our master management agreement with Eurobulk is effective as of October 1, 2006 and has an initial term of five years until September 30, 2011. In addition to the vessel management services, Eurobulk provides us with management services for our needs as a public company. In 2006, compensation for such services to us as a public company was \$508,750, incremental to the management fee. The compensation for executive services is adjusted annually for inflation every July 1st.

Amounts due to or from related parties represent net disbursements and collections made on behalf of the vessel-owning companies by the Management Company during the normal course of operations for which a right of off-set exists. As of December 31, 2006 and 2005, the amount due from related companies was \$2,649,259 and \$3,012,720, respectively. Based on the master management agreement between Euroseas Ltd. and Euroseas' shipowning subsidiaries and Eurobulk Ltd. an estimate of the quarter's operating expenses, expected drydock expenses, vessel management fee and fee for management executive services is to be advanced in the beginning of quarter to Eurobulk Ltd. For the fleet as of December 31, 2006, this advance is estimated between \$3,500,000 and \$4,000,000 excluding any advances needed for drydock expenses and is paid in advance around the beginning of each quarter. Interest earned on funds deposited in related party accounts is credited to the account of the ship-owning companies or Euroseas Ltd.

The Company uses brokers for various services, as is industry practice. Eurochart S.A., a company controlled by certain members of the Pittas family, provides vessel sale and purchase services, and chartering services to the Company whereby the Company pays commission of 1% of the vessel sales price and 1.25% of charter revenues. Commission expenses for the years ended December 31, 2004 and 2006 for vessel sales were \$70,000 and \$96,000, respectively, incurred for the sale of M/V Widar in 2004, and, sale of M/V "Pantelis P" and M/V "John P" in 2006; there were no sales of vessels in 2005. Eurochart S.A. also received commissions from the sellers of \$206,500 and \$610,250 for the Company's acquisition of M/V Artemis in 2005, and, M/V "Tasman Trader", M/V "Aristides N.P." and M/V "YM Xingang I", in 2006; there were no acquisitions in 2004. The commissions for vessel acquisitions were ultimately charged to the Company. Commissions for chartering services were \$534,717, \$536,180 and \$492,149 in 2004, 2005 and 2006, respectively.

8. Related Party Transactions - Continued

Certain members of the Pittas family, together with another unrelated ship management company, have formed a joint venture with the insurance broker Sentinel Maritime Services Inc., and with a crewing agent More Maritime Agencies Inc. The shareholders' percentage participation in these joint ventures was 35% in 2004, 48% in 2005 and 78% in 2006. Sentinel Maritime Services Inc. is paid a

Edgar Filing: EUROSEAS LTD. - Form 20-F

commission on premium not exceeding 5%; More Maritime Agencies Inc. is paid a fee of \$50 per crew member per month. Total fees charged by Sentinel Marine Services Inc. and More Maritime Agencies Inc. in 2004 were \$209,685 and \$23,543, respectively, \$219,400 and \$45,277, in 2005 and \$60,750 and \$79,495, in 2006, respectively.

9. Long-Term Debt

This consisted of bank loans of the ship-owning companies are as follows:

Borrower		December 31, 2005	December 31, 2006
Diana Trading Limited	(a)	\$ 6,560,000	\$ 4,180,000
Alcinoe Shipping Limited/ Oceanpride Shipping Limited/ Searoute Maritime Ltd/ Oceanopera Shipping Ltd	(b)	9,500,000	3,800,000
Alterwall Business Inc./ Allendale Investments S.A	(c)	17,000,000	11,750,000
Salina Shipholding Corp.	(d)	15,500,000	12,000,000
Xenia International Corp	(e)	-	7,720,000
Prospero Maritime Inc.	(f)	-	15,500,000
Xingang Shipping Ltd.	(g)	-	20,000,000
		48,560,000	74,950,000
Less: Current portion		(14,430,000)	(18,040,000)
Long-term portion		\$ 34,130,000	\$ 56,910,000

The future annual loan repayments are as follows:

To December 31

2007	18,040,000
2008	17,535,000
2009	8,810,000
2010	9,210,000
2011	5,610,000
Thereafter	15,745,000
Total	\$ 74,950,000

- (a) This consisted of a loan amounting to \$4,900,000 and \$1,000,000 drawn on October 16, 2002 and on December 2, 2002, respectively. The loan is payable in twenty-four consecutive quarterly installments of \$220,000 each, and a balloon payment of \$620,000 payable together with the final quarterly installment due in October 2008. The interest is based on LIBOR plus 1.6% per annum.

An additional loan of \$4,200,000 was drawn on May 9, 2005. The loan is payable in twelve consecutive quarterly installments consisting of four installments of \$450,000 each, and eight installments of \$300,000 each with the final installment due in May 2008. The interest is based on LIBOR plus 1.25% per annum.

- (b) Alcinoe Shipping Ltd., Oceanpride Shipping Ltd., Searoute Maritime Ltd. and Oceanopera Shipping Ltd. drew, in 2005, \$13,500,000 against a loan facility for which they are jointly and severally liable. The loan is payable in twelve consecutive quarterly installments consisting of two installments of

Edgar Filing: EUROSEAS LTD. - Form 20-F

\$2,000,000 each, one installment of \$1,500,000, nine installments of \$600,000 each and a balloon payment of \$2,600,000 payable with the final installment due in May 2008. The interest is based on LIBOR plus 1.5% per annum.

The Company made two additional early repayments for a total of \$3,000,000 from the sales proceeds of M/V "John P" and M/V "Pantelis P" in June 2006 and July 2006 (see Note 8). The Company also negotiated a revised repayment schedule starting July 1, 2006, which provides for payment of \$300,000 per quarter and a balloon payment of \$2,300,000 payable with the final installment due in the second quarter of 2008.

- (c) Allendale Investments S.A. and Alterwall Business Inc. drew \$20,000,000 on May 26, 2005 against a loan facility for which they are jointly and severally liable. The loan is payable in twenty-four unequal consecutive quarterly installments of \$1,500,000 each in the first year, \$1,125,000 each in the second year, \$775,000 each in the third year, \$450,000 each in the fourth through sixth years and a balloon payment of \$1,000,000 payable with the final installment due in May 2011. The interest is based on LIBOR plus 1.25% per annum as long as the outstanding loan amount remains below 60% of the fair market value (FMV) of M/V "YM Qingdao I" and M/V "Kuo Hsiung" and plus 1.375% if the outstanding loan amount is above 60% of the FMV of such vessels.
- (d) This is a \$15,500,000 loan drawn by Salina Shipholding Corp. on December 30, 2005. The loan is payable in ten consecutive semi-annual installments consisting of six installments of \$1,750,000 each and four installments of \$650,000 each and a balloon payment of \$2,400,000 payable with the final installment due in January 2011. The interest is based on LIBOR plus a margin that ranges between 0.9%-1.1%, depending on the asset cover ratio. The loan is secured with the following: (i) first priority mortgage over M/V Artemis, (ii) first assignment of earnings and insurance of M/V Artemis, (iii) a corporate guarantee of Euroseas Ltd., (iv) a minimum cash balance equal to an amount of no less than \$300,000 in an account Salina Shipholding Corp. maintains with the bank, and, (v) overall liquidity (cash and cash equivalents) of \$300,000 for each of the Company's vessels throughout the life of the facility.
- (e) This is a \$8,250,000 loan drawn by Xenia International Corp. on June 30, 2006. The loan is payable in twenty three consecutive quarterly installments consisting of \$265,000 each and a balloon payment of \$2,155,000 payable with the final quarterly installment due in March 2012. The interest is based on LIBOR plus a margin of 0.95%. The loan is secured with the following: (i) first priority mortgage over M/V "Tasman Trader", (ii) first assignment of earnings and insurance of M/V "Tasman Trader", (iii) a corporate guarantee of Euroseas Ltd., and, (iv) overall liquidity (cash and cash equivalents) of \$300,000 for each of the Company's vessels throughout the life of the facility.
- (f) This is a \$15,500,000 loan drawn by Prospero Maritime Inc. on September 4, 2006. The loan is payable in fourteen consecutive semi-annual installments consisting of two installments of \$1,200,000 each, one installment of \$1,000,000 each and eleven installments of \$825,000 each and a balloon payment of \$3,025,000 payable with the final semi-annual installment due in September 2013. The interest is based on LIBOR plus a margin that ranges between 0.9%-0.95%, depending on the asset cover ratio. The loan is secured with the following: (i) first priority mortgage over M/V "Aristides N.P.", (ii) first assignment of earnings and insurance of M/V "Aristides N.P.", (iii) a corporate guarantee of Euroseas Ltd., (iv) a minimum cash balance equal to an amount of no less than \$300,000 in an account Prospero Maritime Inc. maintains with the bank, and, (v) overall liquidity (cash and cash equivalents) of \$300,000 for each of the Company's vessels throughout the

Edgar Filing: EUROSEAS LTD. - Form 20-F

life of the facility.

- (g) This is a \$20,000,000 loan drawn by Xingang Shipping Ltd. on November 15, 2006. The loan is payable in eight consecutive quarterly installments of \$1.0 million each, the first of which is due in February 2007, followed by four consecutive quarterly installments of \$750,000 each, followed by sixteen consecutive installments of \$250,000 each and a balloon payment of \$5.0 million payable with the final quarterly instalment due in November 2013. The interest is based on LIBOR plus a margin of 0.935%. The Company has the option to prepay \$7.0 million during the first year following the drawdown, in which case the remaining repayment installments during the first three years may be reduced by a maximum of 35% each with the balance of the prepayment amount to be setoff against the balloon payment. The margin will be reduced to 0.90% if the Company exercises its option to prepay. The loan is secured with the following: (i) first priority mortgage over M/V "YM Xingang I", (ii) first assignment of earnings and insurance, (iii) a corporate guarantee of Euroseas Ltd. and (iv) a third mortgage on M/V "Irimi" also financed by the same bank.

In addition to the terms specific to each loan described above, all the above loans are secured with one or more of the following:

- o first priority mortgage over the respective vessels on a joint and several basis.
- o first assignment of earnings and insurance.
- o a personal guarantee of one shareholder.
- o a corporate guarantee of Eurobulk Ltd. and/or Euroseas Ltd. a pledge of all the issued shares of each borrower.

The loan agreements contain covenants such as restrictions as to changes in management and ownership of the vessel shipowning companies, distribution of profits or assets, additional indebtedness and mortgage of vessels without the lender's prior consent, sale of vessels, maximum fleet leverage, sale of capital stock of our subsidiaries, ability to make investments and other capital expenditures, entering in mergers or acquisitions, minimum requirements regarding the hull ratio cover, minimum cash balance requirements and minimum cash retention accounts (restricted cash). The loans agreements also require that the Company to make deposits in retention accounts with certain banks that can only be used to pay the current loan installments. Minimum cash balance requirements are in addition to cash held in retention accounts. These cash deposits amounted to \$1,080,949 and \$3,846,621 as of December 31, 2005 and 2006, respectively, and are shown as "Restricted cash" under "Current Assets" and "Long-Term Assets" in the consolidated balance sheets. The Company is not in default of any of the foregoing covenants.

Interest expense for the years ended December 31, 2004, 2005 and 2006 amounted to \$566,880, \$1,412,127 and \$3,324,257 respectively. At December 31, 2006, LIBOR for the Company's loans was on average approximately 5.35% and the average interest rate on our debt was approximately 6.40%.

10. Derivative Financial Instruments

The gains for the period ended December 31, 2004 and the losses for the period ended December 31, 2005 arose from interest rate swaps entered into in 2004 and settled in 2005 that did not meet the criteria for hedge accounting treatment. The Company did not enter into any derivative transaction in 2006.

11. Vessel Sales and Purchases

The Company, in 2006, acquired M/V "Tasman Trader", M/V "Aristides N.P." and M/V "YM Xingang I" and sold M/V "Pantelis P" and M/V "John P"; in 2005, it acquired M/V "Artemis"; and in 2004, it sold M/V "Widar".

Edgar Filing: EUROSEAS LTD. - Form 20-F

M/V "Tasman Trader" was acquired for \$10,775,000 with an existing time charter (see Note 7) below the prevailing market charter rate. Consequently, the Company recorded M/V "Tasman Trader" at \$12,091,393 consisting of the amount paid plus the present value of the below market charter rate of \$1,237,072 and additional cost of acquisition amounting to \$79,321.

M/V "Aristides N.P." was acquired for \$23,460,000 with an existing time charter (see Note 7) below the prevailing market charter rate. Consequently, the Company recorded M/V "Aristides N.P." at \$23,985,752 consisting of the amount paid plus the present value of the below market charter rate of \$412,500 and additional cost of acquisition of \$113,252.

M/V "YM Xingang I" was acquired for \$27,250,000 with an existing time charter (see Note 7) above prevailing market rates. Consequently, the Company recorded M/V "YM Xingang I" at \$19,402,784 which is calculated as the total amount paid less the present value of the above market charter rate of \$7,923,480, plus additional acquisition cost of \$76,264.

M/V "Pantelis P" was sold on May 31, 2006. The net sale proceeds from the sale of M/V "Pantelis P" were \$4,416,228. In 2006, the depreciation of M/V "Pantelis" until it was sold amounted to \$107,587 resulting in a book value at the time of sale of \$2,114,421. The unamortized deferred drydock charge at the time of sale was \$136,008 resulting in a gain on sale of \$2,165,799.

M/V "John P" was sold on July 5, 2006. The net sale proceeds from the sale of M/V "John P" were \$4,736,266. The book value of M/V "John P" as of July 5, 2006 was \$2,145,894 and its related unamortized deferred drydocking expenses was \$310,315. A gain on sale of \$2,280,057 was recognized from the sale of M/V "John P".

M/V "Artemis" was acquired on November 22, 2005 for \$20,650,000 and the Company incurred additional acquisition expenses of \$171,647 for a total acquisition cost of \$20,821,647.

M/V "Widar" was sold in April 2004 and the Company recognized net gain on sale of \$2,315,477. Depreciation expenses for M/V "Widar" for the year ended December 31, 2004 amounted to \$136,384.

12. Income Taxes

Under the laws of the countries of the companies' incorporation and/or vessels' registration, the companies are not subject to tax on international shipping income, however, they are subject to registration and tonnage taxes, which have been included in Vessel operating expenses in the accompanying consolidated statements of income.

Pursuant to the Internal Revenue Code of the United States (the "Code"), U.S. source income from the international operations of ships is generally exempt from U.S tax if the company operating the ships meets certain requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country, which grants an equivalent exemption from income taxes to U.S corporations. All the company's ship-operations subsidiaries satisfy this particular criteria. In addition these Companies must be more than 50% owned by individuals who are residents as defined in the countries of incorporation or another foreign country that grants an equivalent exemption to U.S corporations. These companies also currently satisfy the more that 50% benefit ownership requirement. In addition, upon completion of the public offering of the company' shares, the management of the Company believes that by virtue of the special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company like the Company, the more than 50% beneficial ownership requirement can

Edgar Filing: EUROSEAS LTD. - Form 20-F

also be satisfied based on the trading volume and the anticipated widely held ownership of the Company's shares, but no assurance can be given that this will remain so in the future, since continued compliance with this rule is subject to factors outside the Company's control.

13. Commitments and Contingencies

There are no material legal proceedings to which the Company is a party or to which any of its properties are subject, other than routine litigation incidental to the Company's business. In the opinion of the management, the disposition of these lawsuits should not have a material impact on the consolidated results of operations, financial position and cash flows.

The distribution of the net earnings by one of the chartering pools which has one of the Company's vessels in its pool has not yet been finalized for the year ended December 31, 2006. Any effect on the Company's income resulting from any future reallocation of pool income cannot be reasonably estimated, however, the effect on the results for the year is not expected to be significant.

14. Common Stock and Additional Paid-in Capital

Common stock relates to 12,620,150 shares with a par value of \$0.03 each adjusted for the 1-for-3 reverse split of the Company's common stock effected on October 6, 2006 (see below). There are warrants outstanding to acquire up to 585,589 common shares as adjusted for the reverse stock split (see Note 1). The value of the warrants, which is included in "Additional Paid-in Capital," was estimated to be about \$600,000 as of August 25, 2005 when the warrants were issued.

On March 27, 2006 and as part of the merger of Euroseas Acquisition Company Inc., (a wholly owned subsidiary of Euroseas Ltd.), with Cove Apparel Inc. an additional 359,728 Euroseas Ltd common shares, as adjusted for the reverse split, were issued on March 27, 2007 to Cove Apparel Inc.'s shareholders (a total of 15 more shares than originally calculated were issued to Cove Apparel Inc.'s shareholders due to the rounding-up of fractional shares during the exchange). The issuance of these shares was recorded as an increase in share capital (\$10,793) and a decrease in paid-in capital of \$793, as Cove Apparel Inc. had at the time of merger net assets of \$10,000.

On October 6, 2006, the Company effected a 1-for-3 reverse stock split of its common stock. As a result of the reverse stock split, the par value of the Company's common shares was increased to \$0.03 per share and the number of outstanding shares was increased to 12,620,150. There was no change in the number of authorized common shares of the Company. All share and per share amounts in these financial statements have been retroactively restated to reflect this stock split.

Stock Incentive Plan

The shareholders approved on August 8, 2006 during its annual meeting the Company's 2006 Stock Incentive Plan (Plan). The Plan will be administered by the Board of Directors which can make awards totaling in aggregate up to 600,000 shares as adjusted for the reverse split over the next 10 years. The persons eligible to receive awards under the Plan are officers, directors, and executive, managerial, administrative and professional employees of the Company, (collectively, "key persons") as the Board, in its sole discretion, shall select based upon such factors as the Board shall deem relevant. Awards may be made under the Plan in the form of incentive stock options, non-qualified stock options, stock appreciation rights, dividend equivalent rights, restricted stock, unrestricted stock, restricted stock units and performance shares. No awards have been made under this plan as of December 31, 2006.

Edgar Filing: EUROSEAS LTD. - Form 20-F

15. Earnings Per Share

Basic and diluted earnings per common share are computed as follows:

	2004	2005	2006
Income:			
Net income	30,611,765	25,178,454	20,069,407
Basic and Diluted earnings per share:			
Weighted average common shares -			
Outstanding (as adjusted for the 1 for 3			
reverse stock split on October 6, 2006)	9,918,056	10,739,476	12,535,365
Basic and diluted earnings per share	3.09	2.34	1.60

The Company's warrants for the acquisition of 585,589 shares of common stock have an exercise price of \$10.80 per share which was above the fair value of the Company shares during the period the warrants have been outstanding. Consequently, the Company's warrants are not dilutive.

16. Voyage, Vessel Operating Expenses and Commissions

These consisted of:

	Year ended December 31,		
	2004	2005	2006
Voyage expense			
Port charges and canal dues	165,661	234,535	289,496
Bunkers	182,026	416,712	845,123
Agency fees	22,658	19,304	20,119
Total	370,345	670,551	1,154,738
Vessel operating expenses			
Crew wages and related costs	4,460,233	4,281,680	5,132,985
Insurance	1,486,179	1,525,683	1,591,986
Repairs and maintenance	515,820	515,373	314,132
Lubricants	446,034	484,930	808,338
Spares and consumable stores	1,660,600	1,465,063	1,811,691
Professional and legal fees	46,997	23,975	31,488
Others	290,389	313,575	678,197
Total	8,906,252	8,610,279	10,368,817

Commission consisted of commissions charged by:

	Year ended December 31,		
	2004	2005	2006

Edgar Filing: EUROSEAS LTD. - Form 20-F

Third parties	1,680,480	1,852,169	1,337,385
Related parties (see Note 8)	534,717	536,180	492,149
<hr style="border-top: 1px dashed black;"/>			
	2,215,197	2,388,349	1,829,534
<hr style="border-top: 1px dashed black;"/>			

17. Financial Instruments

The principal financial assets of the Company consists of cash on hand and at banks, interest rate swaps and accounts receivable due from charterers. The principal financial liabilities of the Company consist of long-term loans and accounts payable due to suppliers.

Interest rate risk

The Company entered into interest rate swap contracts as economic hedges to its exposure to variability in its floating rate long term debt. Under the terms of the interest rate swaps the Company and the bank agreed to exchange, at specified intervals the difference between a paying fixed rate and floating rate interest amount calculated by reference to the agreed principal amounts and maturities. Interest rate swaps allow the Company to convert long-term borrowings issued at floating rates into equivalent fixed rates. Even though the interest rate swaps were entered into for economic hedging purposes, the derivatives described below do not qualify for accounting purposes as fair value hedges, under FASB Statement No. 133, Accounting for derivative instruments and hedging activities, as the Company does not have currently written contemporaneous documentation, identifying the risk being hedged, and both on a prospective and retrospective basis performed an effective test supporting that the hedging relationship is highly effective. Consequently, the Company recognizes the change in fair value of these derivatives in the consolidated statements of income.

Concentration of credit risk

Financial instruments, which potentially subject the Company to significant concentration of credit risk consist primarily of cash and trade accounts receivable. The Company places its temporary cash investments, consisting mostly of deposits, with high credit qualified financial institutions. The Company performs periodic evaluation of the relative credit standing of these financial institutions that are considered in the Company's investment strategy. The Company limits its credit risk with accounts receivable by performing ongoing credit evaluations of its customers' financial condition and generally does not require collateral for its accounts receivable.

Fair value

The carrying values of cash, accounts receivable and accounts payable are reasonable estimates of their fair value due to the short term nature of these financial instruments. The fair value of long term bank loans bearing interest at variable interest rates approximates the recorded values.

18. Subsequent Events

- a) The Board of Directors declared a cash dividend of \$0.22 per Euroseas Ltd. common share on January 8, 2007. Such cash dividend was paid on or about February 15, 2007 to the holders of record of Euroseas Ltd. common shares as of January 29, 2007.
- b) On February 22, 2007, a subsidiary of the Company delivered to its buyers M/V "Ariel" (see Note 4). The vessel was agreed to be sold on December 19, 2006 for a gross price of \$5.35 million less 2% sales

Edgar Filing: EUROSEAS LTD. - Form 20-F

commissions.

- c) The Company completed on February 5, 2007 a follow-on offering of 5,750,000 shares at \$8.25 per share. The gross proceeds of the offering amounted to \$47.4 million with the net proceeds after the underwriters' discount and offering expenses amounting to \$43.1 million.
- d) A subsidiary of the Company, on February 5, 2007, purchased the 38,691 dwt drybulk carrier (M/V Triada), built in 1984, for \$13.1 million. The vessel was delivered to a subsidiary of the Company on February 22, 2007. The acquisition was financed with \$13.1 million from the Company's cash balance. The Company instead of exercising its option to re-pay \$7 million of the \$20 million loan drawn to finance its November 2006 acquisition of the vessel M/V "YM Xingang I" (by using part of the proceeds of its recently completed follow-on offering), will add M/V Triada (renamed M/V Gregos) as an additional collateral to the same loan. As a result of the additional collateral, the margin of the loan will be reduced from 0.935% above LIBOR to 0.90% above LIBOR.
- e) A subsidiary of the Company, on March 21, 2007, purchased the 1,452 TEU container vessel M/V Bitre Ritscher (renamed M/V "Manolis P") built in 1995 in Germany, for \$19.15 million. The vessel was delivered to the Company on April 12, 2007. The Company plans to finance the acquisition with cash reserves from its balance sheet, and, subsequently, arrange a loan for about 50% of the purchase price the terms of which are currently under negotiation.
