## **TOP TANKERS ANNOUNCES DELIVERY OF THE FIRST DRYBULK VESSEL**

ATHENS, GREECE (November 13, 2007) ... TOP Tankers Inc (NasdaqGS:TOPT) today announced that it has taken delivery of the M/V BERTRAM, a 73,506 DWT Panamax drybulk vessel, built in 1995 in South Korea. The vessel has been financed with secured bank debt.

The M/V BERTRAM is the first of six drybulk vessel deliveries for the fourth quarter 2007 and first quarter 2008. The BERTRAM has entered into a time-charter employment for a period of 24-26 months at a daily net rate of \$29,700.

Evangelos Pistiolis, President & CEO, said that "The delivery of this vessel marks our official entry into the world of drybulk, and we believe that the diversification that this represents for us will serve to make TOP a stronger company with a broader base in marine transportation."

### ***About TOP Tankers Inc***

TOP Tankers Inc is an international provider of worldwide seaborne crude oil and petroleum products and of drybulk transportation services. The Company operates a fleet of 20 tankers, consisting of 12 double-hull Suezmax tankers and 8 double-hull Handymax tankers, with a total carrying capacity of approximately 2.2 million dwt, of which 87% are sister ships, and one drybulk vessels. It expects delivery of five more drybulk vessels between January and March 2008. Thirteen of the Company's 20 tankers will be on time charter contracts with an average term of over three years with all but four of the time charters including profit sharing agreements. Three of the Company's drybulk vessels will have period charter contracts for an average period of 18 months.

### ***Forward-Looking Statements***

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward- looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intends," "estimate," "forecast," "project," "plan," "potential," "will," "may," "should," "expect" "pending" and similar expressions identify forward-looking statements. The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and

currencies, general market conditions, including fluctuations in charter rates and vessel values, failure of a seller to deliver one or more vessels or of a buyer to accept delivery of one or more vessels, inability to procure acquisition financing, default by one or more charterers of our ships, changes in the demand for crude oil and petroleum products, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
