FRONTLINE LTD.
SECOND QUARTER AND SIX MONTHS 2012 RESULTS

Highlights

- Frontline reports a net loss, excluding vessel impairment losses, attributable to the Company of \$11.2 million for the second quarter of 2012, equivalent to a loss per share of \$0.14.
- Frontline reports a net loss, excluding vessel impairment losses, attributable to the Company of \$4.0 million for the six months ended June 30, 2012, equivalent to a loss per share of \$0.05.
- Frontline records vessel impairment losses of \$13.1 million in the second quarter of 2012, equivalent to a loss per share of \$0.17.
- Frontline will not pay a dividend for the second quarter of 2012.
- Frontline terminated the long term charter party with Ship Finance International Limited ("Ship Finance") for the OBO carrier Front Rider in July.
- In August, Frontline agreed to terminate the long term charter party with Ship Finance for the OBO carrier Front Climber.
- Frontline subscribed for 3,546,000 shares in a private placement by Frontline 2012 Ltd. of 56 million new ordinary shares.
- The chartered-in VLCC Hampstead was redelivered by Frontline on April 22, 2012.

Second Quarter and Six Months 2012 Results

The Board of Frontline Ltd. (the "Company" or "Frontline") announces a net loss, excluding impairment losses, attributable to the Company of \$11.2 million in the second quarter, equivalent to a loss per share of \$0.14, compared with net income of \$7.2 million for the first quarter, equivalent to earnings per share of \$0.09. The net loss, excluding impairment losses, attributable to the Company in the second quarter includes a gain on sale of assets and amortization of deferred gains of \$5.1 million, which includes an aggregate deferred gain of \$3.8 million relating to the sale and leasebacks of DHT Eagle (ex Front Eagle) and Gulf Eyadah (ex Front Shanghai). The net income attributable to the Company in the first quarter includes a gain on sale of assets and amortization of deferred gains of \$11.0 million, which includes a gain of \$9.4 million on the termination of the charter party for the single hull VLCC, Titan Orion (ex Front Duke), an aggregate deferred gain of \$3.8 million relating to the sale and leasebacks of DHT Eagle and Gulf Eyadah and a loss of \$2.2 million on the sale of the double hull Suezmax tanker, Front Alfa. The net income attributable to the Company in the first quarter also includes a gain on the purchase of the Company's convertible bonds of \$4.6 million, which has been recorded in other non-operating income.

The Company has recorded a vessel impairment loss of \$13.1 million in the three and six month periods ended June 30, 2012, equivalent to a loss per share of \$0.17. This loss relates to three OBO vessels – Front Rider (\$4.9 million), Front Climber (\$4.2 million) and Front Driver (\$4.0 million). The losses relating to Front Rider and Front Climber are

the expected losses on the termination of the long term charter parties in July and September, respectively. Impairment losses are taken when events or changes in circumstances occur that cause the Company to believe that future cash flows for an individual vessel will be less than its carrying value and not fully recoverable. In such instances an impairment charge is recognized if the estimate of the undiscounted cash flows expected to result from the use of the vessel and its eventual disposition is less than the vessel's carrying amount.

The average daily time charter equivalents ("TCEs") earned in the spot and period market in the second quarter by the Company's VLCCs, Suezmax tankers and Suezmax OBO carriers were \$31,000, \$16,200 and \$28,100, respectively, compared with \$25,600, \$19,500 and \$37,800, respectively, in the preceding quarter. The spot earnings for the Company's double hull VLCCs and Suezmax vessels were \$31,500 and \$16,200, respectively, compared with \$25,400 and \$19,500, respectively, in the preceding quarter. The Orion Suezmax pool had spot earnings of \$17,400 compared with \$19,200 in the first quarter. The Company's double hull VLCCs excluding the spot index time charter vessels had spot earnings of \$31,700 in the second quarter compared with \$27,400 in the first quarter.

Profit share expense in the first quarter related to the amended charter party agreements with Ship Finance and the amended charter party agreements for four leased vessels following the restructuring of the Company in December 2011. The profit share expense is calculated on a year-to-date basis and the results in the second quarter resulted in a claw back. The cash sweep expense relates to the amended charter parties with Ship Finance and the amended charter parties for four leased vessels and is based on the difference between the renegotiated rates and the actual market rate up to the original contract rates.

Ship operating expenses increased by \$5.9 million compared with the preceding quarter due to an increase in dry docking costs of \$7.3 million (five vessels were dry docked compared with no vessels in the preceding quarter), which was partially offset by a decrease in running costs.

Charter hire expenses decreased by \$2.0 million compared with the preceding quarter primarily as a result of redelivery of the chartered-in VLCC Hampstead on April 22, 2012.

Interest expense, net of capitalized interest, was \$23.9 million in the second quarter of which \$11.5 million relates to the Company's subsidiary Independent Tankers Corporation Limited ("ITCL").

Frontline announces a net loss, excluding impairment losses, attributable to the Company of \$4.0 million for the six months ended June 30, 2012, equivalent to a loss per share of \$0.05. The average daily TCEs earned in the spot and period market in the six months ended June 30, 2012 by the Company's VLCCs, Suezmax tankers and Suezmax OBO carriers were \$28,200, \$18,000, and \$33,100, respectively, compared with \$27,400, \$16,500 and \$34,000, respectively, in the six months ended June 30, 2011. The spot earnings for the Company's double hull VLCCs and Suezmax vessels were \$28,300 and \$18,000, respectively, in the six months ended June 30, 2012. The Orion Suezmax pool had spot earnings of \$18,400 per day and the Company's double hull VLCCs excluding the spot index time charter vessels had spot earnings of \$29,900 per day, respectively, in the six months ended June 30, 2012.

As of June 30, 2012, the Company had total cash and cash equivalents of \$177.1 million and restricted cash of \$89.2 million. Restricted cash includes \$87.0 million relating to deposits in ITCL.

The Company estimates average total cash cost breakeven rates for the remainder of 2012 on a TCE basis for VLCCs and Suezmax tankers of approximately \$23,900 and \$17,600, respectively.

Fleet Development

The chartered-in VLCC Hampstead was redelivered to the owners on April 22, 2012.

On June 4, 2012, the Company announced that it had agreed with Ship Finance to terminate the long term charter party for the OBO carrier Front Rider and that Ship Finance had simultaneously sold the vessel. The charter party terminated July 22, 2012. The Company paid a compensation payment to Ship Finance of \$0.4 million for the early termination of the charter. The transaction will reduce the Company's obligations under capital leases by \$2.4 million and the Company recorded an impairment loss of \$4.9 million in the second quarter.

On August 24, 2012, the Company announced that it had agreed with Ship Finance to terminate the long term charter party for the OBO carrier Front Climber and that Ship Finance had simultaneously sold the vessel. The charter party is expected to terminate in late September 2012. The Company will make a compensation payment to Ship Finance of approximately \$0.6 million for the early termination of the charter. The transaction will reduce the Company's obligations under capital leases by \$1.7 million and the Company recorded an impairment loss of \$4.2 million in the

second quarter.

Newbuilding Program

As of June 30, 2012, the Company's newbuilding program comprised two Suezmax tankers, which constitute a contractual cost of \$124.9 million. Installments of \$12.5 million have been made and the remaining installments to be paid as of June 30, 2012, amount to \$112.4 million with expected payments of \$25.0 million in 2012 and \$87.4 million in 2013.

Corporate

On May 29, 2012, the Company announced that it has been allocated 3,546,000 shares in a private placement in Frontline 2012 Ltd. of 56 million new ordinary shares at a subscription price of \$3.75 per share. Following the private placement, the Company has an ownership of 7.9% in Frontline 2012 Ltd.

The Board of Directors has decided not to declare a dividend for the second quarter of 2012.

77,858,502 ordinary shares were outstanding as of June 30, 2012, and the weighted average number of shares outstanding for the quarter was 77,858,502.

The Market

The market rate for a VLCC trading on a standard 'TD3' voyage between the Arabian Gulf and Japan in the second quarter of 2012 was WS 55, representing a decrease of approximately WS 1 point from the first quarter of 2012 and a decrease of approximately WS 3 points from the second quarter of 2011. Present market indications are approximately negative \$3,000 per day in the third quarter of 2012.

The market rate for a Suezmax trading on a standard 'TD5' voyage between West Africa and Philadelphia in the second quarter of 2012 was WS 72.9, representing a decrease of approximately WS 9.3 points from the first quarter of 2012 and an increase of WS 3.8 points from the second quarter of 2011. Current market indications are approximately \$10,000 per day in the third quarter of 2012.

Bunkers at Fujairah averaged \$662/mt in the second quarter of 2012 compared to \$730/mt in the first quarter of 2012. Bunker prices varied between a low of \$663/mt on June 22 and a high of \$739/mt at the beginning of the quarter.

The International Energy Agency's ("IEA") August 2012 report stated an OPEC oil production, including Iraq, of 31.4 million barrels per day (mb/d) in June and July 2012. This was an increase of 55 kb/d compared to the first quarter of 2012.

The IEA estimates that world oil demand averaged 88.8 mb/d in the second quarter of 2012, which is a decrease of 600,000 barrels compared to previous quarter and the IEA estimates that world oil demand will average approximately 89.6 mb/d in 2012, representing an increase of 0.3 percent or 0.3 mb/d from 2011. 2013 demand is expected to be 90.5 mb/d with non-OECD demand exceeding OECD, a trend that is unlikely to be reversed.

The VLCC fleet totalled 610 vessels at the end of the second quarter of 2012, up from 598 vessels at the end of the previous quarter. 12 VLCCs were delivered during the quarter, none removed. The order book counted 95 vessels at the end of the second quarter, down from 111 orders from the previous quarter. The current order book represents approximately 16 percent of the VLCC fleet. According to Fearnleys, the single hull fleet currently stands unchanged at 23 vessels.

The Suezmax fleet counts 468 vessels at the end of the second quarter, up from 451 vessels at the end of the previous quarter. 17 vessels were delivered during the quarter whilst none were removed. The order book counted 79 vessels at the end of the second quarter, down from 96 vessels at the end of the previous quarter. No new orders were placed during the quarter and the current order book now represents 17 percent of the total fleet. According to Fearnleys, the single hull fleet stands unchanged at nine vessels.

Strategy and Outlook

Following the restructuring completed in December 2011, the cash break even rates for the Company were substantially reduced for the period 2012- 2015, creating a downside protection for the Company.

As part of the restructuring, the Company obtained agreements with its major counterparties to reduce the gross charter payment commitments under existing chartering arrangements. Frontline will, however, compensate charter counterparties with 100 percent of any difference between the renegotiated rates and the actual market rate up to the original contract rates. Some of the counterparties will receive some additional compensation for earnings achieved above original contract rates. The TCEs earned in the second quarter of 2012 were above the renegotiated rates and Frontline recorded cash sweep expense of \$17.8 million in the quarter. The main part of this relates to the amended charter parties with Ship Finance.

The Board continues to see a challenging supply / demand situation for the tanker market as a consequence of the combined VLCC and Suezmax fleet increasing by approximately 98 percent between 2004 and 2012 without a similar increase in demand. Frontline will remain cautious in this market environment and focus its resources on the present activities until a clearer sign of recovery can be seen in the tanker market.

Based on results achieved so far in the quarter and the current outlook the Board expects the operating result in the third quarter to be significantly worse than in the second quarter.

Forward Looking Statements

This press release contains forward looking statements. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including Frontline management's examination of historical operating trends. Although Frontline believes that these assumptions were reasonable when made, because assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, Frontline cannot give assurance that it will achieve or accomplish these expectations, beliefs or intentions.

Important factors that, in the Company's view, could cause actual results to differ materially from those discussed in this press release include the strength of world economies and currencies, general market conditions including fluctuations in charter hire rates and vessel values, changes in demand in the tanker market as a result of changes in OPEC's petroleum production levels and world wide oil consumption and storage, changes in the Company's operating expenses including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, and other important factors described from time to time in the reports filed by the Company with the United States Securities and Exchange Commission.

FRONTLINE LTD.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

Frontline Ltd. (the "Company" or "Frontline") is a Bermuda based shipping company engaged primarily in the ownership and operation of oil tankers. The Company's ordinary shares are listed on the New York Stock Exchange, the Oslo Stock Exchange and the London Stock Exchange.

2. ACCOUNTING POLICIES

Basis of accounting

The condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. The condensed consolidated financial statements do not include all of the disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2011.

Significant accounting policies

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2011.

3. RESTRUCTURING

The Company successfully completed a restructuring of its business in December 2011. The restructuring included the sale of 15 wholly-owned special purpose companies ("SPCs") to Frontline 2012 Ltd. ("Frontline 2012"). These SPCs held six VLCCs (including one on time charter), four Suezmax tankers and five VLCC newbuilding contracts. The SPCs were sold at fair market value of \$1,120.7 million. As part of the transaction, Frontline 2012 assumed the obligation to pay \$666.3 million in bank debt related to the vessels and \$325.5 million in remaining commitments to the yard under the newbuilding contracts. The sale of these SPCs resulted in a loss of \$307.0 million, which was recorded in the fourth quarter of 2011. In June 2012, the Company received payment for the working capital related to the assets sold in the amount of \$10.5 million.

On December 16, 2011, Frontline 2012 completed a private placement of 100,000,000 new ordinary shares of par value \$2.00 per share at a subscription price of \$2.85, raising \$285.0 million in gross proceeds, subject to certain closing conditions. These conditions were subsequently fulfilled and Frontline 2012 was registered on the Norwegian Over the Counter list in Oslo on December 30, 2011. The Company was allocated 8,771,000 shares, representing approximately 8.8 percent of the share capital of Frontline 2012 for which it paid \$25.0 million. The Company has accounted for its investment in Frontline 2012 under the equity method. There were no discontinued operations associated with this transaction.

The Company will initially manage Frontline 2012 through its wholly owned subsidiary, Frontline Management (Bermuda) Ltd.. Frontline 2012 plans to establish its own management subsidiary with a management team solely focused on its activities over time.

Following the restructuring, the Company's operating fleet was reduced from 58 vessels to 48 vessels, including the nine vessels owned through Independent Tankers Corporation Limited ("ITCL"). In addition, newbuilding commitments reduced from \$437.9 million to \$112.4 million relating to two Suezmax tanker newbuilding contracts. Bank debt was eliminated following a prepayment of a \$12.9 million loan associated with a vessel, which was not part

of the transaction with Frontline 2012, and the prepayment of ITCL's \$33.0 million bank loan.

As part of the restructuring, the Company obtained agreements with its major counterparties to reduce the gross charter payment commitments under existing chartering arrangements by approximately \$293 million for the period from January 1, 2012 to December 31, 2015. The Company will compensate the counterparties with 100% of any difference between the renegotiated rates and the actual spot rate up to the original contract rates. Some of the counterparties will receive some additional compensation for earnings achieved above the original contract rates.

4. IMPAIRMENT LOSS

The Company has recorded a vessel impairment loss of \$13.1 million in the three and six months ended June 30, 2012, equivalent to a loss per share of \$0.17. This loss relates to three OBO vessels – Front Rider (\$4.9 million), Front Climber (\$4.2 million) and Front Driver (\$4.0 million). The losses relating to Front Rider and Front Climber are the expected losses on the termination of the long term charter parties in July and September, respectively. Impairment losses are taken when events or changes in circumstances occur that cause the Company to believe that future cash flows for an individual vessel will be less than its carrying value and not fully recoverable. In such instances an impairment charge is recognized if the estimate of the undiscounted cash flows expected to result from the use of the vessel and its eventual disposition is less than the vessel's carrying amount.

5. NEWBUILDINGS

Five VLCC newbuilding contracts were sold to Frontline 2012 in December 2011 (see Note 3), which left the Company with two Suezmax newbuilding contracts at December 31, 2011. No installments were paid in the six months ended June 30, 2012.

6. VESSELS AND EQUIPMENT, NET

The Company sold its 1993-built double hull Suezmax tanker, Front Alfa, in March 2012.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Marketable securities of \$1.2 million at June 30, 2012 (December 31, 2011: \$0.7 million) are measured at fair value on a recurring basis. The fair value of marketable securities is based on the quoted market prices. This fair value falls within the "Level 1" category of ASC 820-10 being "measurements using quoted prices in active markets for identical assets or liabilities".

8. DEBT

The Company's bank debt was eliminated in December 2011. See Note 3.

In March 2012, the Company purchased \$10.0 million notional value of the convertible bonds due 2015 for a purchase price of \$5.4 million. The Company recognized a gain of \$4.6 million in the first quarter of 2012. After the purchase, the Company holds 4.4% of the convertible bonds outstanding. The conversion price of the Company's convertible bonds at June 30, 2012 and December 31, 2011 was \$36.5567.

9. RELATED PARTY TRANSACTIONS

The Company's most significant related party transactions are with Ship Finance International Limited ("Ship Finance"), a company under the significant influence of our principal shareholder, as the Company leases the majority of its vessels from Ship Finance and pays Ship Finance cash sweep bonus and profit share based on the earnings of these vessels.

Amounts earned from other related parties comprise office rental income, technical and commercial management fees, newbuilding supervision fees, freights, corporate and administrative services income and interest income. Amounts paid to related parties comprise primarily rental for office space and guarantee fees. In addition, the Company is chartering in two vessels from Frontline 2012 on floating rate time charters under which the charter hire expense is equal to the time charter equivalent earnings of the vessels.

In September 2011, the Company negotiated the early termination of bareboat charters on three single hull VLCCs, Titan Orion (ex-Front Duke), Titan Aries (ex-Edinburgh) and Ticen Ocean (ex-Front Lady), which are being chartered in from Ship Finance. These three vessels have been sold by Ship Finance with expected delivery during 2012 and 2013. The Titan Orion (ex-Front Duke) was delivered, and the charter party with Ship Finance was terminated, on March 27, 2012.

On May 29, 2012, the Company announced that it has been allocated 3,546,000 shares in a private placement in Frontline 2012 Ltd. of 56 million new ordinary shares at a subscription price of \$3.75 per share. Following the private placement, the Company has an ownership of 7.9% in Frontline 2012 Ltd.

On June 4, 2012, the Company announced that it had agreed with Ship Finance to terminate the long term charter party for the OBO carrier Front Rider and that Ship Finance had simultaneously sold the vessel. The charter party terminated on July 22, 2012. The Company paid a compensation payment to Ship Finance of \$0.4 million for the early termination of the charter. The transaction will reduce the Company's obligations under capital leases by \$2.4 million and the Company recorded an impairment loss of \$4.9 million in the second quarter.

10. COMMITMENTS AND CONTINGENCIES

As of June 30, 2012, and following the restructuring described in Note 3, the Company was committed to make newbuilding installments of \$112.4 million with expected payments of \$25.0 million in 2012 and \$87.4 million in 2013.

As part of the Restructuring described in Note 3, Frontline 2012 agreed to fully reimburse and indemnify the Company for all payments made under any performance guarantees issued by the Company and to reimburse the Company for all costs incurred in connection with these guarantees.

11. SUBSEQUENT EVENTS

On August 24, 2012, the Company announced that it had agreed with Ship Finance to terminate the long term charter party for the OBO carrier Front Climber and that Ship Finance had simultaneously sold the vessel. The charter party is expected to terminate late September 2012. The Company will make a compensation payment to Ship Finance of approximately \$0.6 million for the early termination of the charter. The transaction will reduce the Company's obligations under capital leases by \$1.7 million and the Company recorded an impairment loss of \$4.2 million in the second quarter.

FRONTLINE LTD.
INTERIM REPORT JANUARY – JUNE 2012

Responsibility Statement

We confirm, to the best of our knowledge, that the condensed consolidated financial statements for the period January 1 to June 30, 2012 have been prepared in accordance with U.S generally accepted accounting principles, and give a true and fair view of the Company's assets, liabilities, financial position and profit or loss as a whole. We also confirm, to the best of our knowledge, that the interim management report includes a fair review of important events that have occurred during the first six months of the financial year and their impact on the condensed consolidated financial statements, a description of the principal risks and uncertainties for the remaining six months of the financial year, and major related parties transactions.
