SHAREHOLDER LETTER

Your Fund's Goal: Templeton Dragon Fund seeks long-term capital appreciation by investing at least 45% of its total assets in the equity securities of "China companies," as defined in the Fund's prospectus.

Dear Shareholder:

This annual report for Templeton Dragon Fund covers the period ended December 31, 2000. During the year under review, economies strengthened somewhat in some of the regions where the Fund invests. Hong Kong's gross domestic product grew at a 10.4% annual rate in the third quarter, prompting the government to raise its growth forecast for the year from 8.5% to 10%. Taiwan also released strong macroeconomic data including double-digit import and export growth at 18% and 10%, respectively. Falling unemployment figures also provided good news there. As efforts continued to consolidate Taiwan's banking sector, the finance ministry announced that it would allow foreign banks to hold 100% of local banks. Taiwan's government also plans to allow foreign investors to indirectly own 100% of local telecommunications firms.

According to a leading government think tank, the State Information Center, China's economy was expected to grow 8.2% for calendar year 2000. Moreover, China was expected to record a 2000 budget surplus for the first time since 1985, due in part, to a tax windfall. China continued its efforts to strengthen international confidence by taking further steps to open up local markets to foreign investment. As China moved closer to entering the World Trade Organization (WTO), foreign direct investment surged, led by multinational companies including IBM, Intel and Shell Chemicals. A recent example of this trend, which we expect may continue, was a US\$1.5 billion joint venture between General Motors and Shanghai Automotive Industry Corporation.

In breakthrough WTO talks, China finally reached agreements on tariff quotas and expanding legal rights for foreign companies. Since the WTO articles will force the country to allow foreign investors to more seriously compete with local firms, the government has been taking measures to make its industries more globally competitive. Part of the government's strategy involves encouraging joint ventures with international entities as a way to absorb foreign know-how and technology. In an effort to replace debt with equity financing for large state enterprises and thus foster more management accountability, the government

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

took measures to modernize and expand the stock exchanges. For example, plans to merge the Shanghai and Shenzhen stock exchanges could further enhance liquidity and attract foreign and domestic capital. Privatization efforts also continued this year, with investors purchasing over \$20 billion worth of shares.

Despite these positive developments, investor concerns over corporate earnings, soaring global oil prices and signs of slowing Western economic growth partly hampered market performance. Most markets fell during the past 12 months, with the Morgan Stanley Capital International (MSCI) China Free, Hong Kong and Taiwan Indexes down 30.54%, 14.74%, and 44.90% in U.S. dollar terms, respectively.(1)

As a result of Fund allocation changes, Hong Kong holdings decreased from 58.6% of total net assets on December 31, 1999, to 47.2% on December 31, 2000. Still, our significant exposure to the Hong Kong market helped the Fund's performance compared with the overall Chinese market. We increased China `H' (Hong Kong-listed) market holdings for the same period, due in part, to our belief that positive developments could result from the U.S. Congress' recognition of China's permanent trade status and China's anticipated accession into the WTO. We also added Taiwan holdings to the portfolio during the period under review, anticipating the potential of spillover effects, such as increased trade with China, from these positive changes. Our underweighted position in Taiwan helped the portfolio's performance, as Taiwan underperformed the China market. On the other hand, we sold holdings in Singapore and the Philippines during the period under review to focus on the Chinese markets.

Seven companies fell from the list of top 10 holdings reported one year ago: Hong Kong companies Citic Pacific, Jardine Matheson, Cheung Kong Infrastructure, Cable & Wireless HKT,

MSCI China Free Index is an equity index that measures the total return (gross dividends reinvested) of equity securities available to foreign (non-local) investors in China. MSCI Hong Kong and MSCI Taiwan Indexes measure the total returns (gross dividends reinvested) of equity securities in their respective countries. Securities included in the indexes are weighted according to their market capitalizations (shares outstanding times price).

HSBC Holdings, China Overseas Land & Investment and Chinese company China Mobile (previously known as China Telecom). At the beginning of the period, China Mobile was the Fund's largest holding at over 16%. During the year, telecoms experienced rapid growth, which led to increasingly expensive valuations. The sale of the stock helped performance as the sector corrected later in the period.

As of the end of the period, we added Hong Kong companies Hutchison Whampoa, China Everbright, Swire Pacific, Ng Fung Hong and Hong Kong & Shanghai Hotels, and China `H' shares Huaneng Power and Zhejiang Expressway. As of the period's end, the real estate industry dominated the portfolio, followed by diversified financials and electric utilities.

Going forward, we expect China to work toward resolving the remaining WTO multilateral agreements as well as the final bilateral agreement with Mexico. Final barriers at a multilateral level have delayed accession to 2001. However, we believe that this delay's impact should be minimal as China continues to implement reforms. Hong Kong, for its part, should be able to rely on low taxes, minimal trade barriers and adherence to law to keep its luster as one of the world's most successful business environments. In Taiwan, political turmoil could hamper the government's ability to carry out reforms and negotiate with the mainland government to improve trade and tourism and establish direct air links. However, the situation could improve once President Chen Shui-bian and his advisors become more experienced.

Of course, investing in any emerging market means accepting a certain amount of volatility and, in some cases, the consequences of severe market corrections. For example, Hong Kong's equity

market has increased 762.56% in the last 15 years, but has suffered six quarterly declines of more than 15% each during that time.(2) Investing in any emerging market, particularly "China companies," also entails special considerations, including risks related to market and currency volatility, adverse economic, social and political developments, and the relatively small size and lesser liquidity of these markets. While short-term volatility can be disconcerting, declines exceeding 50% are not unusual in emerging markets.

Thank you for investing in Templeton Dragon Fund. We appreciate your confidence and welcome your comments.

Sincerely,

/s/ Mark Mobius

During the fiscal year ended December 31, 2000, the Fund distributed \$1.1702 in accordance with the Fund's managed distribution policy. To the extent the Fund's quarterly distributions exceed the Fund's actual net investment income and net capital gains for the Fund's fiscal year, a portion of the Fund's distributions may have to be reported to the Fund's shareholders as a return of capital for tax purposes. In general, return-of-capital distributions are not taxable. Instead, they reduce the cost basis of your Fund shares, and affect the computation of a gain or loss when you sell your shares.

1. Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated.

Since markets can go down as well as up, investment return and principal value

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

will fluctuate with market conditions, currency volatility, and the economic, social and political climates of countries where the Fund invests. Emerging markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity. Also, as a non-diversified investment company investing in "China companies," the Fund may invest in a relatively small number of issuers and, as a result, be subject to a greater risk of loss with respect to its portfolio securities. You may have a gain or loss when you sell your shares.

PERFORMANCE SUMMARY AS OF 12/31/00

Although the Board of Directors adopted a managed distribution policy for the Fund, distributions will vary based on earnings of the Fund's portfolio and any profits realized from the sale of the portfolio's securities, as well as the level of the Fund's operating expenses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases.

IMPORTANT NOTICE TO SHAREHOLDERS

 REPURCHASE PROGRAM. In May 2000, the Board of Directors of the Fund approved expansion of the Fund's open-market share repurchase program. Under the Fund's previously announced open-market share repurchase program, the Fund was authorized to purchase, from time to time, up to a maximum of 5.4 million shares of the Fund's common stock in open-market transactions, at the discretion of management (approximately 10% of the shares outstanding at the time the program was initially implemented).

The Board's action in May 2000 removed the 10% limitation on share repurchases to give management greater flexibility to engage in an aggressive share repurchase program in efforts to address the Fund's discount to net asset value. The amount and timing of additional repurchases, and the extent to which they may exceed the previous limitation, will be in the discretion of the Fund's management, taking into account various factors, including market conditions, cash on hand and the availability of other attractive investments.

MANAGED DISTRIBUTION POLICY. On July 22, 1998, the Board of Directors of the Fund adopted a managed distribution policy in an effort to address the market discount of the Fund's share price to net asset value. Under the managed distribution policy, the Fund intends to make quarterly distributions to Fund shareholders equal to 2.5% of the Fund's net asset value at the close of the New York Stock Exchange on the Friday prior to the declaration date. If the total amount distributed exceeds the Fund's aggregate net investment income and net realized capital gains with respect to a given year, the excess amount distributed generally will constitute a return of capital. Shareholders who participate in the Fund's dividend reinvestment and cash purchase plan will receive their distributions in additional shares of the Fund.

TEMPLETON DRAGON FUND, INC.
Notes to Financial Statements

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Dragon Fund, Inc. (the Fund), is registered under the Investment Company Act of 1940 as a closed-end, non-diversified investment company. The Fund seeks long-term capital appreciation by investing at least 45% of its total assets in the equity securities of "China companies", as defined in the Fund's prospectus. The following summarizes the Fund's significant accounting policies.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

a. SECURITY VALUATION:

Securities listed or traded on a recognized national exchange or NASDAQ are valued at the latest reported sales price. Over-the-counter securities and listed securities for which no sale is reported are valued within the range of the latest quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management in accordance with procedures established by the Board of Directors.

b. FOREIGN CURRENCY TRANSLATION:

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities and income items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. When the Fund purchases or sells foreign securities it will customarily enter into a foreign exchange contract to minimize foreign exchange risk from the trade date to the settlement date of such transactions.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign currency denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS:

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Certain income from foreign securities is recorded as soon as information is available to the Fund. Interest income and estimated expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

Notes to Financial Statements (continued)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONT.)

d. ACCOUNTING ESTIMATES:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

2. CAPITAL STOCK

On October 18, 1997, the Board of Directors of the Fund authorized management to implement an open-market share repurchase program pursuant to which the Fund may

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

purchase, from time to time, up to 5.4 million shares of the Fund's common stock in open-market transactions, at the discretion of management (approximately 10% of the shares outstanding at the time the program was initially implemented). Further action by the Board of Directors in May 2000, removed the 10% limitation on share repurchases in order to give management greater flexibility to engage in an aggressive share repurchase program.

At December 31, 2000, there were 100 million shares authorized (\$0.01 par value). During the year ended December 31, 2000, 3,911,700 shares were repurchased for \$33,376,986. The weighted average discount of market price to net asset value of shares repurchased during the year ended December 31, 2000 was 26%. During the year ended December 31, 1999, there were no share transactions; all reinvested distributions were satisfied with previously issued shares purchased in the open market. Through December 31, 2000, the Fund had repurchased a total of 5,058,900 shares.

3. TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

Certain officers of the Fund are also officers or directors of Templeton Asset Management Ltd. (TAML) and Franklin Templeton Services, LLC (FT Services), the Fund's investment manager and administrative manager, respectively.

The Fund pays an investment management fee to TAML of 1.25% per year of the average weekly net assets of the Fund. The Fund pays FT Services an administrative fee of 0.15% per year of the Fund's average weekly net assets, of which 0.10% is paid to Nomura Asset Management, Inc.

4. INCOME TAXES

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute all of its taxable income.

4. INCOME TAXES (CONT.)

At December 31, 2000, the net unrealized depreciation based on the cost of investments for income tax purposes of \$537,273,201 was as follows:

Unrealized appreciation.....	\$ 57,209,858
Unrealized depreciation.....	(106,675,997)

Net unrealized depreciation.....	\$ (49,466,139)
	=====

Net investment income and net realized gains differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, and losses realized subsequent to October 31, on the sales of securities and foreign currencies.

At December 31, 2000, the Fund had tax basis capital losses which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

2006.....	\$ 4,270,183
2007.....	49,694,430

	\$53,964,613
	=====

The Fund utilized capital loss carryovers during the year ended December 31, 2000 in the amount of \$102,719,784.

At December 31, 2000, the Fund had deferred capital and foreign currency losses occurring subsequent to October 31, 2000 of \$12,582,162 and \$693,762, respectively. For tax purposes, such losses will be reflected in the year ended December 31, 2001.

5. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the year ended December 31, 2000 aggregated \$666,356,042 and \$789,968,702, respectively.

6. HOLDING OF 5% VOTING SECURITIES OF PORTFOLIO COMPANIES

The Investment Company Act of 1940 defines "affiliated persons" to include any person, such as the Fund, that owns 5% or more of the outstanding voting securities of another person. As of December 31, 2000, the Fund had investments in "affiliated persons" valued at \$29,369,569. For the year ended December 31, 2000, dividend income from "affiliated persons" was \$547,582 and net realized losses from disposition of "affiliated persons" were \$113,593.

TEMPLETON DRAGON FUND, INC.
INDEPENDENT AUDITORS' REPORT
To the Board of Directors and Shareholders of
Templeton Dragon Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Templeton Dragon Fund, Inc. (the "Fund") at December 31, 2000, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2000 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights for each of the periods prior to January 1, 1999 were audited by other independent accountants whose report dated January 28, 1999 expressed an unqualified opinion on those statements.

TEMPLETON DRAGON FUND, INC.
Dividend Reinvestment and Cash Purchase Plan

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan (other than shareholders holding their shares through Japan Securities Clearing Corporation, who will not be enrolled in the Plan unless certain conditions are met and they elect to participate), unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Participants should contact Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify Mellon Securities Trust Company (the "Plan Agent") at the address above or the institution in whose name the shares are held. The Plan Agent must receive written notice within 10 business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or common stock of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in stock at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional payments to the Plan Agent, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Securities Trust Co." and sent to

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-30D

Mellon Investor Services LLC, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attn: Templeton Dragon Fund, Inc. The Plan Agent shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares in the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax which may be payable on dividends or distributions.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Agent sent to Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, stock certificates issued in the participant's name for all full shares held by the Plan Agent; or, if the participant wishes, the Plan Agent will sell the participant's shares and send the proceeds, less a service charge of \$5.00 and less trading fees.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested.

Tax Designation

At December 31, 2000, more than 50% of the Templeton Dragon Fund, Inc.'s assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the fund on these investments. The Fund intends to make an election under Section 853 of the Internal Revenue Code. This election will allow shareholders to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them.

The following table provides a breakdown by country of foreign source income and foreign taxes paid, as designated by the Fund, to shareholders of record on December 14, 2000.

COUNTRY	FOREIGN TAX PAID PER SHARE	FOREIGN SOURCE INCOME PER SHARE
China.....	\$0.0000	\$0.0094
Hong Kong.....	0.0000	0.0543
Philippines.....	0.0001	0.0003
Singapore.....	0.0014	0.0220
Taiwan.....	0.0058	0.0045
TOTAL.....	\$0.0073	\$0.0905

In January 2001, shareholders will receive Form 1099-DIV which will include their share of taxes withheld and foreign source income distributed during the calendar year 2000. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.
