INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. Readers of this Quarterly Report should refer to the audited financial statements of Inland Real Estate Corporation (the “Company”) for the year ended December 31, 2014, which are included in the Company’s 2014 Annual Report, as certain footnote disclosures contained in such audited financial statements have been omitted from this Report on Form 10-Q. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included in this Quarterly Report.

(1) Organization and Basis of Accounting

Inland Real Estate Corporation (the “Company”), a Maryland corporation, was formed on May 12, 1994. The Company is a publicly held real estate investment trust (“REIT”) that owns, operates and develops (directly or through its unconsolidated entities) open-air neighborhood, community and power shopping centers and single tenant retail properties located throughout the Central and Southeastern United States. Through wholly-owned subsidiaries, Inland Commercial Property Management, Inc. (“ICPM”) and Inland TRS Property Management, Inc., the Company manages all properties it owns interests in and properties for certain third parties and related parties.

All amounts in these footnotes to the consolidated financial statements are stated in thousands with the exception of per share amounts, square foot amounts, and number of properties.

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Principles

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on January 1, 2017. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU No. 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In June 2014, the FASB issued ASU No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. The ASU requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance condition. This ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted and may be adopted either prospectively for share-based payment awards granted or modified on or after the effective date, or retrospectively, using a modified retrospective approach. The Company does not expect adoption of this ASU to have a material impact on its consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Amendments to the Consolidation Analysis. The ASU changes the way reporting entities evaluate whether (a) they should consolidate limited partnerships and similar entities, (b) fees paid to a decision maker or service provider are variable interests in a variable interest entity (“VIE”), and (c) variable interest in a VIE held by related parties of the reporting entity require the reporting entity to consolidate the VIE. It also eliminates the VIE consolidation model based on a majority exposure to variability that applied to certain investment companies and similar entities. This ASU is effective for public entities for annual and interim periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including early adoption in an interim period. The Company is evaluating the effect that this ASU will have on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest. The ASU requires that debt issuance costs be deducted from the carrying value of the financial liability and not recorded as separate assets, classified as deferred financing costs. The ASU is effective for public entities for financial statements issued for fiscal years beginning after December 15,

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

2015. Early adoption is permitted for financial statements that have not been previously issued and will be applied on a retrospective basis. The Company does not expect adoption of this ASU to have a material impact on its consolidated financial statements.

(2) Acquisitions

Date Acquired	Property	City	State	GLA Sq. Ft.	Approximate Purchase Price
03/10/15	Westbury Square	Huntsville	AL	114,904	\$ 23,417
	Total			114,904	\$ 23,417

During the three months ended March 31, 2015, consistent with the Company's growth initiative, the Company acquired the investment property listed above, which was consolidated upon acquisition. The Company acquired 100% of the beneficial interests of the property.

The following table presents certain additional information regarding the Company's acquisitions during the three months ended March 31, 2015. The amounts recognized for major assets acquired and liabilities assumed as of the acquisition date were as follows:

Property	Land	Building and Improvements	Acquired Lease Intangibles	Acquired Below Market Lease Intangibles
Westbury Square	\$3,125	18,638	3,643	(1,989)
Total	\$3,125	18,638	3,643	(1,989)

The Company has not included pro forma financial information related to the above properties acquired during the three months ended March 31, 2015. The Company believes pro forma financial information for this single property is immaterial to the consolidated financial statements as of and for the three months ended March 31, 2015.

(3) Dispositions

During the three months ended March 31, 2015, the Company sold a portion of one investment property. The table below summarizes the property sold, sales price, gain or loss on sale and any necessary asset impairments.

Date	Property	City	State	GLA Sq. Ft.	Approx. Ground Lease Sq.Ft. (a)	Sale Price	Gain (Loss) on Sale
02/26/15	Mokena Marketplace (partial)	Mokena	IL	—	4,305	\$ 5,325	\$ 1,434
				—	4,305	5,325	1,434

(a) The sale price of these properties includes square footage subject to ground leases. Ground lease square footage is not included in our GLA.

During the three months ended March 31, 2015, the Company recorded \$9,328 as provision for asset impairment on its accompanying consolidated statements of operations and comprehensive income. The asset impairments were required because the Company has negotiated sales prices on five investment properties that were below their respective carrying values.

(4) Mortgages Receivable

On December 30, 2014, the Company entered into a promissory note and first mortgage and security agreement with a related joint venture partner for a principal sum of \$24,750. The property commonly known as Clybourn Galleria, located in Chicago, Illinois is the collateral for this note. The note accrues interest at a rate of 5% per annum with final payment of the principal, all accrued and unpaid interest and the loan fee due on November 30, 2015. Total interest income earned during the three months ended March 31, 2015 was \$309.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

(5) Joint Ventures

Consolidated Joint Ventures

The accompanying consolidated financial statements of the Company include the accounts of its wholly owned subsidiaries and consolidated joint ventures. The Company consolidates the operations of a joint venture if it determines that the Company is the primary beneficiary of the joint venture, which management has determined to be a variable interest entity (“VIE”) in accordance with Accounting Standards Codification (“ASC”) Topic 810. The primary beneficiary is the party that has a controlling financial interest in the VIE, which is defined as the entity having both of the following characteristics: 1) the power to direct the activities that, when taken together, most significantly impact the VIE’s performance, and 2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. There are significant judgments and estimates involved in determining the primary beneficiary of a VIE or the determination of who has control and influence of the entity. When the Company consolidates a VIE, the assets, liabilities and results of operations of the VIE are included in our consolidated financial statements and all inter-company balances and transactions are eliminated.

The consolidated results of the Company include the accounts of IRC-IREX Venture II, LLC, while the properties are consolidated, IRC-MAB Southeast, LLC, Tanglewood Parkway Elizabeth City, LLC, and IRC-NARE 1300 Meacham Road, LLC, all of which are VIE’s for which the Company is the primary beneficiary. The Company has determined that the third-party interests in these entities are noncontrolling interests to be included in permanent equity, separate from the Company’s shareholders’ equity, in the consolidated balance sheets and statements of equity. Net income or loss related to these noncontrolling interests is included in net income or loss in the consolidated statements of operations and comprehensive income.

Joint Venture with IPCC (IRC-IREX Venture II, LLC)

In January 2013, Inland Exchange Venture LLC (“IEV LLC”), formerly known as Inland Exchange Venture Corporation, a taxable REIT subsidiary (“TRS”) of the Company, extended its joint venture with Inland Private Capital Corporation (“IPCC”), a wholly owned subsidiary of The Inland Group, Inc. (“TIGI”), through June 30, 2015 to continue the joint venture relationship that began in 2006 and to change the fee structure. The joint venture partners are currently in negotiations to extend the joint venture agreement. The joint venture provides replacement properties for investors wishing to complete a tax-deferred exchange through private placement offerings, using properties made available to the joint venture by IEV LLC. These offerings are structured to sell Delaware Statutory Trust (“DST”) interests in the identified property. IEV LLC performs the joint venture’s acquisition function and ICPM performs the asset management, property management and leasing functions. Both entities earn fees for providing these services to the joint venture. The Company will continue to earn asset management, property management and leasing fees on all properties acquired for this venture, including after all ownership interests have been sold to the investors.

The joint venture was determined to be a VIE under ASC Topic 810 and is consolidated by the Company. Prior to the sale of any DST interests, the joint venture owns 100% of the DST interests in the property and controls the major decisions that affect the underlying property; and therefore upon initial acquisition, the joint venture consolidates the property. At the time of first sale of a DST interest, the joint venture no longer controls the underlying property as the activities and decisions that most significantly impact the property’s economic performance are now subject to joint control among the co-owners or lender; and therefore, at such time, the property is deconsolidated and accounted for under the equity method (unconsolidated). Once the operations are deconsolidated, the income is included in equity in

earnings of unconsolidated joint ventures until all DST interests have been sold. No properties became deconsolidated during the three months ended March 31, 2015 and 2014.

During the three months ended March 31, 2014, the joint venture with IPCC acquired six investment properties. No investment properties were acquired through the joint venture with IPCC during the three months ended March 31, 2015. In conjunction with the sales of DST interests, the Company recorded gains of approximately \$109 for the three months ended March 31, 2015, as compared to \$108 for the three months ended March 31, 2014. These gains are included in gain on sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

Joint Venture with MAB (IRC-MAB Southeast, LLC)

In November 2013, the Company entered into a joint venture to develop grocery-anchored shopping centers in select markets throughout the southeastern U.S. with MAB, an affiliate of Melbourne, Australia-based MAB Corporation. The five-year development program is expected to target metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. MAB Corporation is a privately owned property development company and fund manager that has completed retail, office, multi-family and industrial projects at locations in Australia, New Zealand and the U.S. Under the terms of the joint venture agreement, the Company has exclusive rights to all grocery-anchored, build-to-suit opportunities in the southeastern U.S. sourced by MAB. Upon site approval by the Company, the Company will provide 90% of the equity required to fund approved project costs, while MAB will be responsible for the remaining 10% of the equity, plus venture management, sourcing and acquisition of sites, project financing and all property and development duties. The joint venture agreement also provides that the Company is required to purchase each grocery-anchored center at a discount to fair market value after stabilization and after certain criteria is met. As a result, the Company determined it is the primary beneficiary of this VIE. A typical project likely will consist of a 50,000-square-foot grocery store with approximately 20,000 square feet of additional retail space. As of March 31, 2015, there were no acquisitions through this joint venture, however, the joint venture has three sites under contract, with closings anticipated during 2015.

Joint Venture with Thompson Thrift Development, Inc. (Tanglewood Parkway Elizabeth City, LLC)

In September 2014, the Company entered into a joint venture to develop Tanglewood Pavilions, a 158,000 square foot power center that will be located in Elizabeth City, North Carolina with Thompson Thrift Development, Inc. ("TTDI"). The joint venture acquired the vacant land for \$850. Construction has started and the joint venture anticipates delivery to tenants to begin in the latter half of 2015. The Company will provide 90% of the equity required to fund approved project costs, while TTDI will be responsible for the remaining 10% of the equity, plus venture management and development duties. The joint venture agreement also provides that the Company is required to purchase the power center at a discount to fair market value after stabilization and after certain criteria is met. As a result, the Company determined it is the primary beneficiary of this VIE.

Joint Venture with NARE (IRC-NARE 1300 Meacham Road, LLC)

In February 2015, the Company entered into a joint venture to develop 1300 Meacham Road, located in Schaumburg, Illinois with North American Real Estate ("NARE"). The joint venture acquired the property on February 12, 2015 for \$4,500, using cash contributed by each partner. The property is a four-acre parcel of land with a 60,000 square foot office building, which will be demolished. The development is anticipated to consist of three pad sites, which will be ground lease or build-to-suit opportunities for single and potentially multi-tenant use. Demolition and construction is expected to begin in the second quarter of 2015. The Company has a 95% equity interest in the joint venture and NARE has a 5% interest. The joint venture agreement also provides that the Company is required to purchase the property at a discount to fair market value after stabilization and after certain criteria is met. As a result, the Company determined it is the primary beneficiary of this VIE.

Variable Interest Entity Financial Information

The following table presents certain assets and liabilities of consolidated variable interest entities ("VIEs"), which are included in the consolidated balance sheets as of March 31, 2015 and December 31, 2014. The assets in the table below include only those assets that can be used to settle obligations of consolidated VIEs. The liabilities in the table

below include third-party liabilities of consolidated VIEs only, and exclude intercompany balances that are eliminated in consolidation.

Net investment properties	\$ 10,422	3,245
Other assets	4,418	4,667
Total assets of consolidated VIEs that can only be used to settle obligations of consolidated VIEs	\$ 14,840	7,912
Liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company:		
Mortgages payable	\$ 469	—
Other liabilities	866	52
Total liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company	\$ 1,335	52

Unconsolidated Joint Ventures

Unconsolidated joint ventures are those where the Company does not have a controlling financial interest in the joint venture or is not the primary beneficiary of a VIE. The Company accounts for its interest in these ventures using the equity method of accounting. The Company's profit/loss allocation percentage and related investment in each joint venture is summarized in the following table.

Joint Venture Entity	Company's Profit/Loss Allocation Percentage at March 31, 2015	Investment in and advances to unconsolidated joint ventures at March 31, 2015	Investment in and advances to unconsolidated joint ventures at December 31, 2014
INP Retail LP (a)	55	%	\$ 156,733
Oak Property and Casualty	20	%	1,213
TMK/Inland Aurora Venture LLC (b)	40	%	(310)
IRC/IREX Venture II LLC (c)	(d)		2,367
Investment in and advances to unconsolidated joint ventures			\$ 160,003
			170,720

(a) Joint venture with PGGM Private Real Estate Fund ("PGGM")

(b) The profit/loss allocation percentage is allocated after the calculation of the Company's preferred return.

(c) Joint venture with IPCC. Investment in joint venture balance represents the Company's share of the Delaware Statutory Trust ("DST") interests.

(d) The Company's profit/loss allocation percentage varies based on the ownership interest it holds in the entity that owns a particular property and is in the process of selling ownership interests in that property to outside investors.

The unconsolidated joint ventures had total outstanding debt of \$374,542 (total debt, not the Company's pro rata share) at March 31, 2015 that matures as follows:

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Joint Venture Entity	2015	2016	2017	2018	2019	Thereafter	Total
INP Retail LP (a) (b)	\$23,671	19,353	26,142	10,318	43,815	225,889	349,188
IRC/IREX Venture II LLC	—	—	—	—	—	25,354	25,354
Total unconsolidated joint venture debt (a)	\$23,671	19,353	26,142	10,318	43,815	251,243	374,542

The total debt above reflects the total principal amount outstanding. The unconsolidated joint ventures' balance sheets at March 31, 2015 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$3,962.

Includes the mortgage payable for Evergreen Promenade and Pulaski Promenade. Amounts are not included in Joint Venture Financial Information because INP Retail LP accounts for its Evergreen Promenade and Pulaski Promenade joint venture under the equity method of accounting.

INP Retail LP has guaranteed approximately \$5,845 of the loans encumbering Evergreen Promenade and Pulaski Promenade. The guarantees are in effect for the entire term of the loans as set forth in the loan documents. INP Retail LP is required to pay on a guarantee upon the default of any of the provisions in the loan documents, unless the default is otherwise waived. The Company's pro rata share of the outstanding guarantee is approximately \$3,215. The Company is required to estimate the fair value of the guarantees and, if material, record a corresponding liability. The Company has determined that performance under the guarantee is not probable and the fair value of the guarantee is immaterial as of March 31, 2015 and accordingly has not recorded a liability related to the guarantees on the accompanying consolidated balance sheets.

The Company earns fees for providing asset management, property management, leasing and acquisition services to its joint ventures. The Company recognizes fee income equal to the Company's joint venture partner's share of the expense or

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

commission, which is reflected as fee income from unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. Fee income earned for the three months ended March 31, 2015 and 2014 are reflected in the following table.

Joint Venture with:	Three months ended March 31,	
	2015	2014
PGGM	\$758	575
IPCC	676	684
Fee income from unconsolidated joint ventures	\$1,434	1,259

The fee income from the joint venture with PGGM has increased due to the increase in assets under management. The fee income from the joint venture with IPCC increases as assets under management increase, however, total fee income may also vary based on the timing of acquisition fees earned based on the number of properties sold, the original acquisition prices of the properties and the timing of sales in each period.

The Company's proportionate share of the earnings or losses related to its unconsolidated joint ventures is reflected as equity in earnings of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. During the three months ended March 31, 2015 and 2014, the Company recorded \$516 and \$517, respectively, of amortization of basis difference between the Company's investment in the joint ventures and the amount of the underlying equity in net assets of the joint ventures. The amortization of this basis difference is included in equity in earnings of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. Differences in basis result from the recording of the Company's equity investment recorded at its historical basis versus the fair value of certain of the Company's contributions to the joint venture. Such differences are amortized over the respective depreciable lives of the joint venture property assets.

Joint Venture with PGGM

The Company formed a joint venture with PGGM, a leading Dutch pension fund administrator and asset manager in 2010 and completed an amendment to the partnership agreement in 2012 to increase the maximum equity contributions of each partner. In conjunction with the formation, the joint venture established two separate REIT entities to hold title to the properties included in the joint venture. The joint venture may acquire up to a total of \$900,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets. The Company's maximum total equity contribution is approximately \$281,000 and PGGM's maximum total equity contribution is approximately \$230,000.

As of March 31, 2015, the joint venture has acquired a total of approximately \$788,000 of retail assets, including those properties contributed by the Company. As of March 31, 2015, PGGM's remaining maximum potential equity contribution was approximately \$24,482 and the Company's was approximately \$29,922.

PGGM owns a forty-five percent equity ownership interest and the Company owns a fifty-five percent equity ownership interest in the venture. The Company is the managing partner of the venture and is responsible for the day-to-day activities of the venture. The Company determined that this joint venture is not a VIE. Both partners have the ability to participate in major decisions, as detailed in the joint venture agreement, and therefore, neither partner is deemed to have control of the joint venture. Therefore, this joint venture is accounted for using the equity method of accounting.

In June 2013, the joint venture with PGGM entered into a limited liability company agreement with Pine Tree and IBT Group, LLC (“IBT”). This agreement forms a joint venture between the three parties to acquire, develop, operate and manage the property known as Evergreen Park Promenade, located in Evergreen Park, Illinois. The venture acquired the vacant land parcel for \$5,500 and completed construction of the approximately 92,500 square foot shopping center as of December 31, 2014. Evergreen Promenade is 96% leased to national retailers, Mariano’s, which opened during the first quarter of 2015, and PetSmart which opened during the fourth quarter of 2014. Management determined that this joint venture is not a VIE. All parties have the ability to participate in major decisions, as detailed in the agreement, and therefore, no partner is deemed to have control of the venture. Therefore, the joint venture with PGGM accounts for this joint venture using the equity method of accounting.

In September 2014, the joint venture with PGGM entered into a second limited liability company agreement with Pine Tree and IBT. This agreement forms a joint venture between the same parties to acquire, develop, operate and manage the property known as Pulaski Promenade, located in Chicago, Illinois. The venture acquired the vacant land parcel for \$5,734 and intends

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

to construct approximately 133,000 square feet of gross leasable area, of which approximately 80% has been pre-leased to national retailers. Management determined that this joint venture is not a VIE. All parties have the ability to participate in major decisions, as detailed in the agreement, and therefore, no partner is deemed to have control of the joint venture. Therefore, the joint venture with PGGM accounts for this joint venture using the equity method of accounting.

Development Joint Venture

The Company currently has one unconsolidated development joint venture, which was formed for the development or sale of the property commonly known as Savannah Crossing. This property consists of approximately five acres of vacant land, which the joint venture is holding for future sale or potential development.

Joint Venture Financial Information

Summarized financial information for the unconsolidated joint ventures is as follows:

	As of March 31, 2015	December 31, 2014
Balance Sheets:		
Assets:		
Investment in real estate, net	\$775,892	755,656
Other assets	83,377	84,323
Total assets	\$859,269	839,979
Liabilities:		
Mortgage payable (a) (b)	\$359,151	320,883
Other liabilities	77,226	83,514
Total liabilities	\$436,377	404,397
Total equity	\$422,892	435,582
Total liabilities and equity	\$859,269	839,979
Investment in and advances to unconsolidated joint ventures	\$160,003	170,720
	Three months ended March 31, 2015	2014
Statements of Operations:		
Total revenues	\$28,513	\$24,746
Total expenses	(23,610) (22,760
Income from operations	\$4,903	1,986
Inland's pro rata share of income from operations (c)	\$4,089	1,794

(a) Includes \$3,962 of unamortized mortgage premiums and discounts.

(b) Amount excludes the mortgage payable for Evergreen Promenade and Pulaski Promenade, because these properties are owned through unconsolidated joint ventures of INP Retail LP and are accounted for by INP Retail LP using

the equity method of accounting.

- (c) IRC's pro rata share includes the amortization of certain basis differences and an elimination of IRC's pro rata share of the management fee expense.

(6) Secured and Unsecured Debt

Total Debt Maturity Schedule

The following table presents the principal amount of total debt maturing each year, including amortization of principal, based on debt outstanding at March 31, 2015:

	2015 (a)	2016 (a)	2017	2018	2019	Thereafter	Total	
Fixed rate debt	\$91,817	9,731	46,959	1,195	38,366	185,709	373,777	(b)
Weighted average interest rate	5.41 %	5.00 %	5.05 %	— %	4.42 %	5.25 %	5.17 %	
Variable rate debt	\$—	469	—	255,000 (c)(d)	200,000 (e)	—	455,469	(b)
Weighted average interest rate	— %	2.44 %	— %	1.96 %	1.54 %	— %	1.78 %	
Total	\$91,817	10,200	46,959	256,195	238,366	185,709	829,246	

Approximately \$90,247 of the Company's mortgages payable mature in the next twelve months. This maturing debt is secured by the Company's Algonquin Commons property. The loans encumbering Algonquin Commons (a) have matured and the property is currently subject to foreclosure litigation and the Company cannot currently predict the outcome of the litigation.

(b) The total debt above reflects the total principal amount outstanding. The consolidated balance sheets at March 31, 2015 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$1,883. Included in the debt maturing during 2018 is the Company's unsecured line of credit facility, totaling \$205,000. The Company pays interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of March 31, 2015, the (c) weighted average interest rate on outstanding draws on the line of credit facility was 1.59%. This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, the Company was in compliance with these financial covenants.

Included in the debt maturing during 2018 is the Company's \$50,000 term loan which matures in November 2018. The Company pays interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%.

(d) As of March 31, 2015, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, the Company was in compliance with these financial covenants.

Included in the debt maturing during 2019 is the Company's \$200,000 term loan which matures in July 2019. The Company pays interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of March 31, 2015, the weighted (e) average interest rate on the term loan was 1.54%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, the Company was in compliance with these financial covenants.

Mortgages Payable

The Company's mortgages payable are secured by certain of its investment properties. The face value of mortgage loans outstanding as of March 31, 2015 was \$374,246 and they bore interest at a weighted average interest rate of 5.16% per annum. Of this amount, \$373,777 bore interest at fixed rates ranging from 4.00% to 6.03% per annum and a weighted average fixed rate of 5.17% per annum as of March 31, 2015. The remaining \$469 of mortgage debt bears

interest at variable rates with a weighted average interest rate of 2.44% per annum as of March 31, 2015. The consolidated balance sheets at March 31, 2015 include the remaining unamortized mortgages premium/discount of \$1,883. As of March 31, 2015, scheduled maturities for the Company's outstanding mortgage indebtedness had various due dates through February 2023. The majority of the Company's mortgage loans require monthly payments of interest only, although some loans require principal and interest payments, as well as reserves for taxes, insurance and certain other costs.

In June 2012, a Company subsidiary ceased paying the monthly debt service on the two mortgage loans secured by both phases of Algonquin Commons. The Company subsidiary had hoped to reach an agreement with the special servicer that would revise the loan structure to make continued ownership of the property economically feasible. In January 2013, the Company subsidiary received notice that a complaint had been filed by the lender to Algonquin Commons, alleging events of default under the loan documents and seeking to foreclose on the property. In connection with the complaint, the plaintiff filed a motion for appointment of a receiver and the court granted the motion and issued an order effective February 28, 2013, appointing a receiver for the property. As a result, the receiver and its affiliated management company are now managing and operating Algonquin Commons and are now collecting all rents for the property. The Company cannot currently estimate the impact the dispute will have on its consolidated financial statements and may not be able to do so until a final outcome has been reached. The Company subsidiary believes the payment guaranty has, however, ceased and is of no further force and effect as a result of the conditions for termination having been met when the performance metrics set forth in the payment guaranty were met. As the Company has previously disclosed, if it is required to pay the full \$18,600 outstanding under the guarantee, or a foreclosure occurs, there could be a material adverse effect on its cash flows and results of operations for the period and the year in which it occurs. The Company believes these events would not have a material effect on its consolidated balance sheets because there would be a corresponding reduction in both assets and liabilities. If the Company is required to pay under the

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

payment guarantee, it would expect to fund this payment using available cash and/or a draw on its unsecured line of credit facility.

Derivative Instruments and Hedging Activities

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risk, including interest rate, liquidity and credit risk primarily by managing the amount, sources, and duration of its debt funding and, to a limited extent, the use of derivative instruments.

Specifically, the Company has entered into derivative instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative instruments, described below, are used to manage differences in the amount, timing, and duration of the Company's known or expected cash payments principally related to certain of the Company's borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objective in using interest rate derivatives is to manage exposure to interest rate movements and add stability to interest expense. To accomplish this objective, the Company uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The Company currently has one interest rate swap outstanding that is used to hedge the variable cash flows associated with its variable-rate debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in comprehensive income (expense) and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives, if any, is recognized directly in earnings. The Company has entered into one interest rate swap contract as a requirement under a secured mortgage and the hedging relationship is considered to be highly effective as of March 31, 2015.

Amounts reported in comprehensive income (expense) related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The Company estimates that an additional \$1,997 will be reclassified from comprehensive income (expense) as an increase to interest expense over the next twelve months.

In December 2010, the Company entered into a floating-to-fixed interest rate swap agreement with an original notional value of \$60,000 and a maturity date of December 21, 2020 associated with the debt secured by first mortgages on a pool of eight investment properties. This interest rate swap fixed the floating LIBOR based debt under a variable rate loan to a fixed rate debt at an interest rate of 3.627% per annum plus the applicable margin to manage the risk exposure to interest rate fluctuations, or an effective fixed rate of 6.027% per annum.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

As of March 31, 2015 and December 31, 2014, the Company had the following outstanding interest rate derivative designated as a cash flow hedge of interest rate risk:

Interest Rate Derivative	Notional	
	March 31, 2015	December 31, 2014
Interest Rate Swap	\$60,000	60,000

The table below presents the fair value of the Company's derivative financial instrument as well as its classification on the consolidated balance sheets as of March 31, 2015 and December 31, 2014.

	Derivative Liability As of March 31, 2015		Derivative Liability As of December 31, 2014	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives designated as a cash flow hedge:				
Interest rate swap	Other liabilities	\$6,970	Other liabilities	6,338

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

The table below presents the effect of the Company's derivative financial instrument on comprehensive income for the three months ended March 31, 2015 and 2014.

	Three months ended March 31,	
	2015	2014
Amount of gain (loss) recognized in comprehensive income on derivative, net	\$(1,150) (1,020
Amount of loss reclassified from accumulated comprehensive income into interest expense	518	520
Unrealized gain (loss) on derivative	\$(632) (500

Credit-risk-related Contingent Features

Derivative financial investments expose the Company to credit risk in the event of non-performance by the counterparties under the terms of the interest rate hedge agreements. The Company believes it minimizes the credit risk by transacting with major creditworthy financial institutions.

As of March 31, 2015, the fair value of derivatives in a liability position related to this agreement was \$6,970. If the Company breached any of the contractual provisions of the derivative contract, it would be required to settle its obligation under the agreement at its termination value of \$7,447.

Unsecured Credit Facilities

In 2014, the Company entered into amendments to its existing unsecured line of credit facility and term loan, together the "Credit Agreements." Under the term loan agreement, the Company borrowed, on an unsecured basis, \$200,000. The aggregate commitment of the Company's line of credit facility is \$275,000. The facility also provided for a \$200,000 accordion feature, access to which is at the discretion of the current lending group. If approved, the terms for the funds borrowed under the accordion feature would be current market terms at the time of the borrowing and not the terms of the existing line of credit facility. The lending group is not obligated to approve access to the additional funds.

The line of credit facility matures on July 30, 2018 and the term loan matures on July 30, 2019. Borrowings under the Credit Agreements bear interest at a base rate applicable to any particular borrowing (e.g., LIBOR) plus a graduated spread that varies with the Company's leverage ratio.

The Company pays interest only, on a monthly basis during the term of the Credit Agreements, with all outstanding principal and unpaid interest due upon termination of the Credit Agreements. The Company is also required to pay, on a quarterly basis, an amount less than 1% per annum on the average daily funds remaining under this line. As of March 31, 2015 and December 31, 2014, the outstanding balance on the line of credit facility was \$205,000 and \$190,000, respectively. As of March 31, 2015, the Company had up to \$70,000 available under its line of credit facility, not including the accordion feature. Availability under the line of credit facility may be limited due to covenant compliance requirements in the Credit Agreements.

On November 15, 2011, the Company entered into an unsecured loan agreement with Wells Fargo Bank, National Association as lender pursuant to which the company received \$50,000 of loan proceeds. The loan matures on November 15, 2018. The Company pays interest only, on a monthly basis, with all outstanding principal and unpaid interest due upon the maturity date. The loan accrues interest at an effective rate calculated in accordance with the

loan documents, provided, however, that in no event will the interest rate on the outstanding principal balance be less than 3.5% per annum. The Company could not prepay the loan in whole or in part prior to November 15, 2014. On or after that date, the Company may prepay the loan in its entirety or in part, together with all interest accrued and may incur a prepayment penalty in conjunction with such prepayment.

(7) Fair Value Disclosures

In some instances, certain of the Company's assets and liabilities are required to be measured or disclosed at fair value according to a fair value hierarchy pursuant to relevant accounting literature. This hierarchy ranks the quality and reliability of the inputs used to determine fair values, which are then classified and disclosed in one of three categories. The three levels of the fair value hierarchy are:

Level 1 — quoted prices in active markets for identical assets or liabilities.

15

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

Level 2 — quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable.

Level 3 — model-derived valuations with unobservable inputs that are supported by little or no market activity

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their classifications within the fair value hierarchy levels.

For assets and liabilities measured at fair value on a recurring basis for which fair value disclosure is required, quantitative disclosure of the fair value for each major category of assets and liabilities is presented below:

Description	Fair value measurements at March 31, 2015 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate derivative liability (a)	\$6,970	—
Variable rate debt (b)	—	453,557
Fixed rate debt (b)	—	401,786
Total liabilities	\$6,970	855,343

Description	Fair value measurements at December 31, 2014 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate derivative liability (a)	\$ 6,338	—
Variable rate debt (b)	—	440,163
Fixed rate debt (b)	—	407,692
Total liabilities	\$ 6,338	847,855

(a) The Company entered into these interest rate swaps as a requirement under certain secured mortgage loans.

The disclosure is included to provide information regarding the inputs used to determine the fair value of the (b) outstanding debt, in accordance with existing accounting guidance. These instruments are not presented in the accompanying consolidated balance sheets at fair value.

Level 2

The fair value of derivative instruments was estimated based on data observed in the forward yield curve which is widely observed in the marketplace. The Company also incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the counterparty's nonperformance risk in the fair value measurements which utilizes Level 3 inputs, such as estimates of current credit spreads. The Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivative and therefore has classified this in Level 2 of the hierarchy.

Level 3

The fair value of both variable and fixed rate debt is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company estimates the fair value of its total debt by discounting the

future cash flows of each instrument at rates currently offered for similar debt instruments of comparable maturities by the Company's lenders. At March 31, 2015 and December 31, 2014, the Company used rates of 3.1% and 3.4%, respectively, for fixed rate debt and 1.9% for variable rate debt in each period. The Company has not elected the fair value option with respect to its debt. The Company's other financial instruments, principally escrow deposits, accounts payable and accrued expenses, and working capital items, are short term in nature and their carrying amounts approximate their fair value at March 31, 2015 and December 31, 2014.

(8) Stockholder's Equity

In November 2012, the Company entered into a three-year Sales Agency Agreement with BMO Capital Markets Corp., Jefferies & Company, Inc. and KeyBanc Capital Markets, Inc. (together the "Agents"). The Sales Agency Agreement provides that the Company may offer and sell shares of its common stock having an aggregate offering price up to \$150,000 from time to time through the Agents. Offers and sales of shares of its common stock, if any, may be made in privately negotiated transactions or by any other method deemed to be an "at the market" offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. The Company has referred to

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

this arrangement with the Agents in this report on Form 10-Q as its ATM issuance program. During the three months ended March 31, 2015, the Company issued approximately 230 shares of its common stock through the ATM issuance program, generating net proceeds of approximately \$2,511, comprised of approximately \$2,550 in gross proceeds, offset by approximately \$38 in commission and fees. As of March 31, 2015, approximately \$137,000 remained available for sale under the ATM issuance program.

(9) Accumulated other comprehensive loss

The following table indicates the changes and reclassifications affecting other comprehensive loss by component for the three months ended March 31, 2015.

	Gain (loss) on derivative instrument	
Balance at December 31, 2014	\$(6,338)
Unrealized loss on valuation of swap agreements	(1,150)
Reclassification of realized interest on swap agreements	518	
Net other comprehensive income (loss)	(632)
Balance at March 31, 2015	\$(6,970)

(10) Operating Leases

Certain tenant leases contain provisions providing for “stepped” rent increases. U.S. GAAP requires the Company to record rental income for the period of occupancy using the effective monthly rent, which is the average monthly rent for the entire period of occupancy during the term of the lease. The accompanying consolidated financial statements include increases of \$7 and \$735 for the three months ended March 31, 2015 and 2014, respectively of rental income for the period of occupancy for which stepped rent increases apply and \$23,391 and \$23,384 in related accounts receivable as of March 31, 2015 and December 31, 2014, respectively. The Company anticipates collecting these amounts over the terms of the leases as scheduled rent payments are made.

(11) Income Taxes

The Company is qualified and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (“the Code”), for federal income tax purposes commencing with the tax year ended December 31, 1995. Since the Company qualifies for taxation as a REIT, the Company generally is not subject to federal income tax on taxable income that is distributed to stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its taxable income to stockholders, subject to certain adjustments. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to federal and state income tax on its taxable income at regular corporate tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income, property or net worth and federal income and excise taxes on its undistributed income.

The Company engages in certain activities through Inland Venture LLC (“IV LLC”) (formerly known as Inland Venture Corporation), IEV LLC and Inland TRS Property Management, Inc., wholly-owned taxable REIT subsidiaries. These entities engage in activities that would otherwise produce income that would not be REIT qualifying income, including, but not limited to, managing properties owned through certain of the Company’s joint ventures and the sale

of ownership interests through the Company's IPCC joint venture. The taxable REIT subsidiaries are subject to federal and state income and franchise taxes from these activities.

The Company had no uncertain tax positions as of March 31, 2015. The Company expects no significant increases or decreases in uncertain tax positions due to changes in tax positions within one year of March 31, 2015. The Company has no material interest or penalties relating to income taxes recognized in the consolidated statements of operations and comprehensive income for the three months ended March 31, 2015 and 2014 or in the consolidated balance sheets as of March 31, 2015 and December 31, 2014. As of March 31, 2015, returns for the calendar years 2011 through 2014 remain subject to examination by U.S. and various state and local tax jurisdictions.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

March 31, 2015 (unaudited)

Income taxes have been provided for on the asset and liability method, as required by existing guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities.

(12) Earnings per Share

Basic earnings (loss) per share (“EPS”) is computed by dividing net income (loss) by the basic weighted average number of common shares outstanding for the period (the “common shares”). Diluted EPS is computed by dividing net income (loss) by the common shares plus shares issuable upon exercise of existing options or other contracts. As of March 31, 2015 and December 31, 2014, options to purchase 61 shares of common stock, in each period, at exercise prices ranging from \$6.85 to \$19.96 per share were outstanding. These options were not included in the computation of basic or diluted EPS as the effect would be immaterial or anti-dilutive for the periods presented.

As of March 31, 2015, 793 shares of common stock have been issued pursuant to employment agreements, employment incentives and as director compensation. Of the total shares issued, 344 have vested and 6 have been cancelled. The unvested shares are excluded from the computation of basic EPS but reflected in diluted EPS by application of the treasury stock method unless the effect would be immaterial or anti-dilutive.

The following is a reconciliation of the numerator and denominator used in the basic and diluted EPS calculations, excluding amounts attributable to noncontrolling interests:

	Three months ended March 31,	
	2015	2014
Numerator:		
Income from continuing operations	\$3,033	14,914
Income from discontinued operations	—	490
Net income	3,033	15,404
Less: Net (income) loss attributable to the noncontrolling interest	(93) 20
Net income attributable to Inland Real Estate Corporation	2,940	15,424
Dividends on preferred shares	(3,972) (2,234
Net income (loss) attributable to common stockholders	\$(1,032) 13,190
Denominator:		
Denominator for net income per common share — basic:		
Weighted average number of common shares outstanding	99,932	99,411
Effect of dilutive securities:		
Unvested restricted shares	444	(a) 331
Denominator for net income per common share — diluted:		
Weighted average number of common and common equivalent shares outstanding	100,376	99,742

(a) Unvested restricted shares of common stock have a dilutive impact, although it is not material to the periods presented.

(13) Transactions with Related Parties

The Company pays or has paid affiliates of TIGI for real estate-related brokerage services and various administrative services, including, but not limited to, payroll preparation and management, data processing, insurance consultation and placement, property tax reduction services and mail processing. These TIGI affiliates provide these services at cost, with the exception of the broker commissions, which are charged as a percentage of the gross transaction amount. TIGI, through its affiliates, beneficially owns approximately 12.5% of the Company's outstanding common stock as of March 31, 2015. Daniel L. Goodwin, one of our directors, owns a controlling amount of the stock of TIGI. The Company also leases its corporate office from TIGI affiliates.

Effective July 1, 2014, the Company terminated its contracts with TIGI and its affiliates for insurance consultation and placement, mortgage/loan servicing and property tax reduction services. The Company has hired internal staff to handle loan servicing and property tax reduction services and engaged a third party broker to handle its insurance consultation and placement services.

During the three months ended March 31, 2015, the Company began the process of transitioning its computer services from a TIGI affiliate to a third-party managed service provider. The transition is expected to be complete before the end of 2015 and at the time of full transition, the Company does not expect to incur additional fees for these services from TIGI affiliates.

Amounts paid to TIGI and/or its affiliates for services and office space provided to the Company are set forth below.

	Three months ended March 31,	
	2015	2014
Loan servicing	\$—	33
Property tax payment/reduction work	—	55
Computer services	341	178
Other service agreements	59	64
Broker commissions	—	102
Office rent and reimbursements	207	148
Total	\$607	580

Joel Simmons, one of the Company's directors, is the Executive Managing Director of Newmark Grubb Knight Frank ("NGKF"), a global provider of real estate services. The Company's joint venture with PGGM paid mortgage brokerage fees to NGKF of \$195 for the three months ended March 31, 2015. No mortgage brokerage fees were paid to NGKF during the three months ended March 31, 2014. Mr. Simmons had an indirect personal interest as a broker in this transaction.

On February 10, 2015, the Company entered into a Limited Liability Company Agreement with NARE to acquire, develop, operate and manage an investment property located in Schaumburg, Illinois. The Company has a 95% equity interest in the joint venture and NARE has a 5% interest. On December 30, 2014, the Company entered into a promissory note and first mortgage and security agreement with the principal of NARE in the amount of \$24,750. Reference is made to Note 4, Mortgages Receivable for a description of the loan arrangement with the NARE principal.

(14) Segment Reporting

Guidance regarding the disclosures about segments of an enterprise and related information requires disclosure of certain operating and financial data with respect to separate business activities within an enterprise. The Company owns and acquires well located open air retail centers. The Company currently owns investment properties located in the States of Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Minnesota, Missouri, Nebraska, New York, North Carolina, Ohio, Oklahoma, South Carolina, Texas, Virginia and Wisconsin. These properties are typically anchored by grocery and drug stores, complemented with additional stores providing a wide range of other goods and services.

The Company assesses and measures operating results on an individual property basis for each of its investment properties based on property net operating income. Management internally evaluates the operating performance of the properties as a whole and does not differentiate properties by geography, size or type. The Company aggregates its properties into one reportable segment because all properties have similar characteristics and the Company evaluates the collective performance of its properties. Accordingly, the Company has concluded that it has a single reportable segment.

(15) Commitments and Contingencies

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial statements of the Company.

(16) Subsequent Events

The Company has evaluated events subsequent to March 31, 2015 through May 7, 2015, the date of the financial statement issuance.

Acquisitions

On April 2, 2015, the Company's joint venture with PGGM acquired Cedar Center North, located in South Euclid, Ohio from an unaffiliated third party for approximately \$15,400, subject to future earnout payments, and assumed a secured loan for approximately \$10,800. Cedar Center North consists of approximately 61,000 square feet of gross leasable area.

On May 7, 2015, the Company's joint venture with PGGM acquired Creekside Commons, located in Mentor, Ohio from an unaffiliated third party for approximately \$28,300 and assumed a secured loan of approximately \$16,500. Creekside Commons consists of approximately 202,000 square feet of gross leasable area.

Distributions

On April 15, 2015, the Company paid a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock to stockholders of record at the close of business on April 1, 2015.

On April 15, 2015, the Company announced that it had declared a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock. This distribution is payable on May 15, 2015 to the stockholders of record at the close of business on May 1, 2015.

On April 15, 2015, the Company paid a cash distribution of \$0.144791667 per share on the outstanding shares of its 6.95% Series B Cumulative Redeemable Preferred Stock to stockholders of record at the close of business on April 1, 2015.

On April 15, 2015, the Company announced that it had declared a cash distribution of \$0.144791667 per share on the outstanding shares of its 6.95% Series B Cumulative Redeemable Preferred Stock. This distribution is payable on May 15, 2015 to the stockholders of record at the close of business on May 1, 2015.

On April 17, 2015, the Company paid a cash distribution of \$0.0475 per share on the outstanding shares of its common stock to stockholders of record at the close of business on March 31, 2015.

On April 17, 2015, the Company announced that it had declared a cash distribution of \$0.0475 per share on the outstanding shares of its common stock. This distribution is payable on May 18, 2015 to the stockholders of record at the close of business on April 30, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Quarterly Report on Form 10-Q (including documents incorporated herein by reference) constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not reflect historical facts and instead reflect our management's intentions, beliefs, expectations, plans or predictions of the future. Forward-looking statements can often be identified by words such as "seek," "believe," "expect," "anticipate," "intend," "estimate," "may," "will," "should" and "could." Examples of forward-looking statements include, but are not limited to, statements that describe or contain information related to matters such as management's intent, belief or expectation with respect to our financial performance, investment strategy or our portfolio, our ability to address debt maturities, our cash flows, our growth prospects, the value of our assets, our joint venture commitments and the amount and timing of anticipated future cash distributions. Forward-looking statements reflect the intent, belief or expectations of our management based on their knowledge and understanding of the business and industry and their assumptions, beliefs and expectations with respect to the market for commercial real estate, the U.S. economy and other future conditions. These statements are not guarantees of future performance, and investors should not place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or forecasted in forward-looking statements due to a variety of risks, uncertainties and other factors, including but not limited to the factors listed and described under Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the Securities and Exchange Commission (the "SEC") on February 27, 2015 as they may be revised or supplemented by us in subsequent Reports on Form 10-Q and other filings with the SEC. Among such risks, uncertainties and other factors are market and economic challenges experienced by the U.S. economy or real estate industry as a whole, including dislocations and liquidity disruptions in the credit markets; the inability of tenants to continue paying their rent obligations due to bankruptcy, insolvency or a general downturn in their business; competition for real estate assets and tenants; impairment charges; the availability of cash flow from operating activities for distributions and capital expenditures; our ability to refinance maturing debt or to obtain new financing on attractive terms; future increases in interest rates; actions or failures by our joint venture partners, including development partners; and factors that could affect our ability to qualify as a real estate investment trust. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

In this report, all references to "we," "our" and "us" refer collectively to Inland Real Estate Corporation and its consolidated subsidiaries. All amounts in this Form 10-Q are stated in thousands with the exception of per share amounts, per square foot amounts, number of properties, and number of leases.

Executive Summary

We strive to be a leading owner and operator of high-quality, necessity and value-based retail centers in prime locations throughout the Central and Southeastern United States. We seek to provide predictable, sustainable cash flows and continually enhance shareholder value through the expert management and strategic improvement of our portfolio of premier retail properties.

We have qualified and elected to be taxed as a real estate investment trust ("REIT"). Inland Real Estate Corporation is a Maryland corporation formed on May 12, 1994. To date, we have focused on open-air neighborhood, community and power shopping centers and single-tenant retail properties located primarily in the Central and Southeastern United States. Through wholly owned subsidiaries, Inland Commercial Property Management, Inc. and Inland TRS Property Management, Inc., we manage all of the properties we own interests in as well as properties for certain third parties and related parties. Our investment properties are typically anchored by stores which provide everyday goods and

services to consumers, such as grocery, drug or discount stores, rather than stores that sell discretionary items. We seek to acquire properties with high quality tenants and attempt to mitigate the impact of tenant defaults by maintaining a diversified tenant base. As of March 31, 2015, no single tenant accounted for more than approximately 4.8% of annual base rent in our total portfolio, excluding properties owned through our joint venture with Inland Private Capital Corporation (“IPCC”).

As of March 31, 2015, we owned interests in 161 investment properties, including 60 properties owned by our unconsolidated joint ventures.

Table of Contents

Long-term Goals and Objectives

Management has implemented a strategic plan designed to accelerate internal growth, improve and diversify our portfolio and strengthen our balance sheet, with the ultimate goal of obtaining an investment-grade rating. The components of the plan are as follows:

• Continue to improve our tenant diversification and expand our geographic concentration, with increased footprints in the Central and Southeastern U.S.

• Continue to enhance the value of our portfolio through additional repositioning and redevelopment initiatives.

• Redeploy capital from dispositions of non-core, limited growth assets into acquisitions of high quality retail assets.

• Continue to reduce the cost and extend the term of our debt and reduce our overall leverage over time, which we believe will improve our financial flexibility and liquidity by maintaining access to multiple sources of capital.

In executing these objectives, during the three months ended March 31, 2015, we:

• acquired one investment property in Alabama for our consolidated portfolio, one in Minnesota for our PGGM joint venture and a development property in Schaumburg, Illinois for our new joint venture with North American Real Estate for an aggregate purchase price of \$54,221.

• sold two outlot pads for approximately \$5,840, the proceeds from which were used to partially fund the acquisition of investment properties.

• repaid approximately \$8,500 of consolidated mortgages payable, resulting in a decrease in outstanding secured debt.

As part of our growth strategy, management has implemented external growth initiatives focusing on investments in unconsolidated joint venture activities. Because certain joint ventures are unconsolidated, we are not able to present a complete picture of the impact these ventures have on our consolidated financial statements. We have included pro rata consolidated information in the Non-GAAP Financial Measures section of this Quarterly Report on Form 10-Q, which includes adjustments for the portion related to noncontrolling interests and unconsolidated joint ventures accounted for under the equity method of accounting. Because we incur expenses to manage properties that are not on our balance sheet, we believe providing this information allows investors to better compare our overall performance and operating metrics to those of other REITs in our peer group.

Total assets under management include consolidated assets, unconsolidated assets at 100% and assets that we do not have an ownership interest in, but that we manage on behalf of a third party. As of March 31, 2015, total assets under management were approximately \$3,090,939 and produced total revenues of \$97,541 for the three months ended March 31, 2015.

Strategies and Objectives

Current Strategies

Our primary business objective is to enhance the performance and value of our investment properties through management strategies that address the needs of an evolving retail marketplace. We believe our success in operating our centers efficiently and effectively is a direct result of our expertise in the acquisition, management, leasing and development/re-development of properties held either directly or through a joint venture.

Acquisition Strategies

We seek to selectively acquire well-located, open-air retail centers that meet our investment criteria. We will, from time to time, acquire properties either without financing contingencies or by assuming existing debt to provide us with a competitive advantage over other potential purchasers that require financing or financing contingencies.

Additionally, we concentrate our property acquisitions in areas where we have, or seek to have, a large market concentration. In doing this, we believe we are able to achieve operating efficiencies and possibly lease several locations to retailers expanding in our markets.

Joint Ventures

We have formed joint ventures to acquire stabilized retail properties as well as properties to be redeveloped and vacant land to be developed. We structure these ventures to earn fees from the joint ventures for providing property management, asset management, acquisition and leasing services, in addition to the returns on our investment in the joint ventures. We will

22

Table of Contents

continue to receive management and leasing fees for those investment properties under management, although acquisition fees may fluctuate with the level of acquisition activity through these ventures.

We believe that joint ventures support our strategic goals of expanding our footprint to improve diversification, while utilizing our partner's capital and preserving liquidity on our balance sheet. Additionally, the joint ventures provide us with ongoing fee income that enhances our results of operations from our core portfolio.

To support our ongoing effort to expand our footprint into new markets, in November 2013, we entered into a joint venture with MAB, an affiliate of Melbourne Australia-based MAB Corporation to develop grocery-anchored shopping centers in select markets throughout the Southeastern United States in metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. The joint venture agreement also provides that we will purchase each grocery-anchored center at a discount to fair market value after stabilization. A typical project likely will consist of a 50,000 square foot grocery store with approximately 20,000 square feet of additional retail space. Additionally, in September 2014, we entered into a joint venture to develop a single grocery anchored asset in North Carolina.

Additionally, we participate in a joint venture with IPCC that acquires properties which are ultimately sold to investors through a private offering of interests in Delaware Statutory Trusts ("DSTs"). We earn fees from the joint venture for providing asset management, property management, acquisition and leasing services. We will continue to receive management and leasing fees for those properties under management; even after all of the interests in a particular DST have been sold.

Operations

We actively manage costs to minimize operating expenses by centralizing all management, leasing, marketing, financing, accounting and data processing activities to provide operating efficiencies. We seek to improve rental income and cash flow by aggressively marketing rentable space. We emphasize regular maintenance and periodic renovation to meet the needs of tenants and to maximize long-term returns. We maintain a diversified tenant base consisting primarily of retail tenants providing consumer goods and services. We proactively review our existing portfolio for potential re-development opportunities.

Liquidity and Capital Resources

Our most liquid assets are cash and cash equivalents, which consists of cash and short-term investments. Cash and cash equivalents at March 31, 2015 and December 31, 2014 were \$10,086 and \$18,385, respectively. The higher cash balance at December 31, 2014 reflects proceeds from the sale of vacant land and sales activity in our joint venture with IPCC at year-end, the proceeds of which were subsequently used to pay down the balance on our unsecured line of credit facility. See our discussion of the statements of cash flows for a description of our cash activity during the three months ended March 31, 2015 and 2014.

We consider all demand deposits, money market accounts and investments in certificates of deposit and repurchase agreements purchased with a maturity of three months or less, at the date of purchase, to be cash equivalents. We maintain our cash and cash equivalents at financial institutions. The combined account balances at one or more institutions could periodically exceed the Federal Depository Insurance Corporation ("FDIC") insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage. However, we do not believe the risk is significant based on our review of the rating of the institutions where our cash is deposited. FDIC insurance currently covers up to \$250 per depositor at each insured bank.

Sources of cash

Income generated from our investment properties is the primary source from which we generate cash. Other sources of cash include amounts raised from the sale of securities, including shares of our common stock sold under our dividend reinvestment plan and ongoing ATM issuance program, draws on our unsecured line of credit facility, which may be limited due to covenant compliance requirements, proceeds from financings secured by our investment properties, cash flows we retain that are not distributed to our stockholders and fee income received from our unconsolidated joint venture properties. As of March 31, 2015, we were in compliance with all financial covenants under our various debt agreements, and we had up to \$70,000 available under our \$275,000 line of credit facility and an additional \$200,000 available under an accordion feature, subject to approval of the lending group. If approved, the terms for the funds borrowed under the accordion feature would be market terms at the time of the borrowing and not the terms of the other borrowings under the line of credit facility. The lending group is not obligated to approve access to funds under the accordion feature. We use our cash primarily to pay distributions to our stockholders, for operating expenses at our investment properties, for interest expense on our debt obligations, for purchasing

Table of Contents

additional investment properties and capital commitments at existing investment properties, to meet joint venture commitments, to repay draws on the line of credit facility and for retiring mortgages payable.

In the aggregate, our investment properties are currently generating sufficient cash flow to pay our operating expenses, monthly debt service requirements, certain capital expenditures and current distributions. Monthly debt service requirements consist primarily of interest payments on our debt obligations although certain of our secured mortgages require monthly principal amortization.

As noted above, we also fund certain of our liquidity needs through the sale of our common stock in “at the market” or “ATM” issuances. Under this ATM program, we may issue up to \$150,000 of our shares of common stock. BMO Capital Markets Corp., Jefferies & Company, Inc. and KeyBanc Capital Markets, Inc. (together the “Agents”) act as our sales agent(s) for these issuances which may be made in privately negotiated transactions or by any other method deemed to be an “at the market” offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. We refer to the arrangement with the Agents in this report on Form 10-Q as our “ATM issuance program.” During the three months ended March 31, 2015, we issued approximately 230 shares of our common stock through our ATM issuance program, generating net proceeds of approximately \$2,511, comprised of approximately \$2,550 in gross proceeds, offset by approximately \$38 in commissions and fees. As of March 31, 2015, approximately \$137,000 remains available for sale under our ATM issuance program.

Uses of Cash

Our largest cash outlays relate to the payment of distributions to our preferred and common stockholders, the operation of our properties and interest expense on our mortgages payable and other debt obligations. Property operation outlays include, but are not limited to, real estate taxes, utilities, insurance, regular maintenance, landscaping, snow removal and periodic renovations to meet tenant needs. Pursuant to lease arrangements, most tenants are required to reimburse us for some or all of their pro rata share of the real estate taxes and operating expenses of the property.

Approximately \$90,247 of consolidated debt, including required monthly principal amortization, matures in the next twelve months. This maturing debt is secured by our Algonquin Commons property, which is subject to an \$18,600 Payment Guaranty and carve-out guarantees, but generally is non-recourse to us. The loans encumbering Algonquin Commons have matured and the property is currently subject to foreclosure litigation through which the plaintiff is also seeking to enforce the Payment Guaranty. We believe the Payment Guaranty has terminated, but we cannot predict the outcome of the litigation or provide assurance that the Payment Guaranty will not be performed. Reference is made to the Total Debt Maturity Schedule in Note 6, “Secured and Unsecured Debt” to the accompanying consolidated financial statements for a discussion of our total debt outstanding as of March 31, 2015, which is incorporated into this Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

In October, 2012, we entered into a First Amendment (the “Amendment”) to the Limited Partnership Agreement of our joint venture with PGGM. Subject to the terms and conditions of the Amendment, the partners increased the potential maximum equity contributions to allow for the acquisition of up to an additional \$400,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets, using partner equity and secured debt. The Amendment increased our potential maximum equity contribution to \$281,000 and PGGM’s potential maximum equity contribution to \$230,000. The Amendment grants additional time to acquire assets and no contributions are required unless and until both partners approve an additional acquisition. We will fund our equity contributions with draws on our line of credit facility, proceeds from sales of investment properties, proceeds from financing unencumbered properties or the sale of preferred or common stock. As of March 31, 2015, PGGM’s remaining

maximum potential contribution was approximately \$24,482 and ours was approximately \$29,922.

In November 2013, we entered into a joint venture to develop grocery-anchored shopping centers in select markets throughout the southeastern U.S. with MAB, an affiliate of Melbourne, Australia-based MAB Corporation. The five-year development program is expected to target metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. Under the terms of the joint venture agreement, we have exclusive rights to all grocery-anchored, build-to-suit opportunities in the southeastern U.S. sourced by MAB. Upon our site approval, we will provide 90% of the equity required to fund approved project costs, while MAB will be responsible for the remaining 10% of the equity, plus venture management, sourcing and acquisition of sites, project financing and all property and development duties. The joint venture agreement also provides that we are required to purchase each grocery-anchored center at a discount to fair market value after stabilization and after certain criteria are met. A typical project likely will consist of a 50,000-square-foot grocery store with approximately 20,000 square feet of additional retail space. As of March 31, 2015, this joint venture had not acquired any properties, but it had three sites under contract, with closings anticipated during 2015.

Table of Contents

In September 2014, we entered into a joint venture to develop Tanglewood Pavilions, a 158,000 square foot power center that is located in Elizabeth City, North Carolina with Thompson Thrift Development, Inc. (“TTDI”). The joint venture acquired the vacant land for \$850. Construction has started and the joint venture anticipates delivery to tenants to begin in the latter half of 2015. We will provide 90% of the equity required to fund approved project costs, while TTDI will be responsible for the remaining 10% of the equity, plus venture management and development duties. The joint venture agreement also provides that we are required to purchase the power center at a discount to fair market value after stabilization and after certain criteria are met.

One of our goals is to enhance the value of our portfolio through additional repositioning and redevelopment initiatives. We believe that the stability of our portfolio, the lack of new supply of retail space in our targeted markets, and the continued demand from growing retailers has put us in excellent position to be proactive in upgrading the quality of our tenancy and increasing rents. We continue to focus on leasing vacant spaces, but we are also focusing on right-sizing certain retailers and repositioning other centers to manage tenant exposures and open up space to accommodate larger tenants. These activities may require us to take tenants off-line during construction that may have a temporary adverse effect on our results of operations during the period the tenant is not paying rent. We are proactive in moving forward with these activities, as we believe the long term benefits outweigh the temporary decline in cash flows and net operating income. We currently have several projects underway and others under consideration. During 2015, we expect to invest a total of approximately \$40,000 in capital for tenant improvements and leasing commission on new leases and building improvements related to some of these repositioning efforts, which is higher than amounts spent in the past two years. This increase in spending is reflective of planned redevelopment projects during 2015. During the three months ended March 31, 2015, we invested approximately \$8,000 on such capital items. We expect to continue to fund these improvements using cash from operations and draws on our unsecured line of credit facility.

The table below reflects our current development pipeline:

Project / Entity	Major Tenants	Anticipated Construction Completion Date	Estimated Budget Costs	Estimated IRC Equity to be Invested	Project Costs to Date	IRC Equity Invested to Date	Projected GLA upon completion	Development Costs psf (completed projects)

				959,312	150,081	230,675			

- (a) The purchase price of these properties includes square footage subject to ground leases. Ground lease square footage is not included in our GLA.
The Cap Rate disclosed is as of the time of acquisition and is calculated by dividing the forecasted net operating income (“NOI”) by the purchase price. Forecasted NOI is defined as forecasted net income for the twelve months
- (b) following the acquisition of the property, calculated in accordance with U.S. GAAP, excluding straight-line rental income, amortization of lease intangibles, interest, depreciation, amortization and bad debt expense, less a vacancy factor to allow for potential tenant move-outs or defaults.
- (c) Our joint venture with PGGM acquired vacant land to develop a 133,000 square foot retail building through a development partnership that is 80% pre-leased to national tenants.
Newport Pavilion Phase I consisting of 95,400 square feet of GLA and 126,938 ground lease square feet was purchased on June 30, 2014 for \$43,279. Newport Pavilion Phase II consisting of 109,653 square feet of GLA was
- (d) purchased on October 16, 2014 for \$23,641 and 4,916 ground lease square feet was purchased through an earnout. This property is also subject to future earnout payments of approximately \$13,000, of which \$5,044 has already been paid.
- (e) Our joint venture with Thompson Thrift Development, Inc. acquired vacant land to develop a 158,000 square foot retail building that is approximately 70% pre-leased.
- (f) Our joint venture with North American Real Estate acquired land to develop three pad sites which will be ground lease or build-to-suit opportunities.

The table below presents investment property dispositions, including properties disposed of by our unconsolidated joint ventures, during the three months ended March 31, 2015 and the year ended December 31, 2014.

Table of Contents

Date	Property	City	State	GLA Sq. Ft.	Approx. Ground Lease Sq.Ft. (a)	Sale Price	Gain (Loss) on Sale	Provision for Asset Impairment
Consolidated Portfolio								
02/26/15	Mokena Marketplace (partial)	Mokena	IL	—	4,305	\$5,325	\$1,434	\$ —
06/26/14	Gateway Square	Hinsdale	IL	39,710		10,000	3,295	—
06/16/14	Winfield Pointe Center	Winfield	IL	19,888		2,500	(346)	—
05/16/14	Lake Park	Michigan City	IN	114,867		3,900	—	222

03/11/14	River Square	Naperville	IL	58,260		16,750	10,941	—
02/04/14	Golf Road Plaza	Niles	IL	25,992		3,300	742	—
01/24/14	Dominick's	Countryside	IL	62,344		3,000	1,167	—
IPCC Joint Venture (a)								
03/03/14	7-Eleven Portfolio (b)	(b)	OH	29,813		31,625	—	—
01/14/14	Discount Retail II Portfolio (c)	(c)	(c)	100,500		13,882	—	—
				617,505	4,305	\$115,982	\$24,263	\$ 222

These properties are included as dispositions because all of the DST interests have been sold through our joint venture with IPCC. No gain or loss is reflected in this table because the disposition of these properties is not (a) considered a property sale, but rather a sale of ownership interest in the properties. The gains from these properties are included in gain from sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

(b) This portfolio includes twelve 7-Eleven stores, located in Akron, Brunswick, Chagrin Falls, Cleveland, Mentor, Painesville, Stow, Streetsboro, Strongsville, Twinsburg, Willoughby and Willoughby Hills OH.

This portfolio consists of three Family Dollar stores and eight Dollar General stores, located in Cameron, Texas; (c) Charleston, Missouri; Wausaukee, Wisconsin; Lafayette, Wisconsin; Gale, Wisconsin; Mobile, Alabama;

LaGrange, Georgia; Midland City, Alabama; Woodville, Alabama; Fortson, Georgia and Warrior, Alabama.

The table below presents development property dispositions during the three months ended March 31, 2015. There were no development property dispositions during the year ended December 31, 2014.

Date	Property	City	State	GLA Sq. Ft.	Acres	Sale Price	Gain on Sale (a)
TTDI Joint Venture							
01/16/15	Tanglewood Pavilion	Elizabeth City	NC	—	1.10	\$515	\$72
				—	1.10	\$515	\$72

(a) Amounts shown are our pro-rata share.

Critical Accounting Policies

Disclosures discussing all critical accounting policies are set forth in our Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the Securities and Exchange Commission on February 27, 2015, under the heading "Critical Accounting Policies." No significant changes have been made to the critical accounting policies subsequent to December 31, 2014.

Recent Accounting Principles

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for us on January 1, 2017. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU No. 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

In June 2014, the FASB issued ASU No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. The ASU requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance

Table of Contents

condition. This ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted and may be adopted either prospectively for share-based payment awards granted or modified on or after the effective date, or retrospectively, using a modified retrospective approach. We do not expect adoption of this ASU to have a material impact in our consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Amendments to the Consolidation Analysis. The ASU changes the way reporting entities evaluate whether (a) they should consolidate limited partnerships and similar entities, (b) fees paid to a decision maker or service provider are variable interests in a variable interest entity (“VIE”), and (c) variable interest in a VIE held by related parties of the reporting entity require the reporting entity to consolidate the VIE. It also eliminates the VIE consolidation model based on a majority exposure to variability that applied to certain investment companies and similar entities. This ASU is effective for public entities for annual and interim periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including early adoption in an interim period. We are evaluating the effect that this ASU will have on our consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest. The ASU requires that debt issuance costs be deducted from the carrying value of the financial liability and not recorded as separate assets, classified as deferred financing costs. The ASU is effective for public entities for financial statements issued for fiscal years beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued and will be applied on a retrospective basis. The Company does not expect adoption of this ASO to have a material impact on its consolidated financial statements.

Statements of Cash Flows

The following table summarizes our consolidated statements of cash flows for the three months ended March 31, 2015 and 2014:

	2015	2014
Net cash provided by operating activities	\$20,739	16,080
Net cash used in investing activities	\$(20,044) (50,422)
Net cash provided by (used in) financing activities	\$(8,994) 35,831

2015 Compared to 2014

Net cash provided by operating activities was \$20,739 for the three months ended March 31, 2015, as compared to \$16,080 for the three months ended March 31, 2014. The increase in cash provided by operating activities was due to an improvement in property operations. See our discussion below under Results of Operations for an explanation related to property operations.

Net cash used in investing activities was \$20,044 for the three months ended March 31, 2015, as compared to \$50,422 for the three months ended March 31, 2014. The primary reason for the decrease in cash used in investing activities was the use of \$23,420 to purchase investment properties and \$14,443 for additions to investment properties during the three months ended March 31, 2015, as compared to the use of \$72,826 to purchase investment properties and \$5,017 for additions to investment properties during the three months ended March 31, 2014. Additionally, we invested \$14,228 more in our unconsolidated joint ventures during the three months ended March 31, 2015. Partially offsetting this increase in cash was the receipt of \$24,342 in distributions from our unconsolidated joint ventures during the three months ended March 31, 2015, as compared to receiving \$2,144 in distributions during the three

months ended March 31, 2014.

Net cash used in financing activities was \$8,994 for the three months ended March 31, 2015, as compared to net cash provided by financing activities of \$35,831 during the three months ended March 31, 2014. The primary reason for the decrease in cash from financing activities was the receipt of \$60,000 in net proceeds from our unsecured line of credit facility during the three months ended March 31, 2014, as compared to net proceeds of only \$15,000 during the three months ended March 31, 2015.

Results of Operations

This section describes and compares our results of operations for the three months ended March 31, 2015 and 2014. At March 31, 2015, we had ownership interests in 38 single-user retail properties, 49 Neighborhood Centers, 33 Community Centers, 40 Power Centers and one Lifestyle Center. We generate almost all of our net operating income from property operations.

28

Table of Contents

One metric that management uses to evaluate our overall portfolio is same store net operating income. Same store net operating income, which is the net operating income of properties owned during the same periods during each year ("same store" properties), is considered a non-GAAP financial measure because it does not include straight-line rental income, amortization of lease intangibles, lease termination income, interest, depreciation, amortization and bad debt expense. We provide same store net operating income as another metric to compare the results of property operations for the three months ended March 31, 2015 and 2014. We also provide a reconciliation of these amounts to the most comparable U.S. GAAP measure, net income attributable to common stockholders.

Same store net operating income is a non-GAAP measure that allows management to monitor the operations of our existing properties for comparable periods to measure the performance of our current portfolio and determine the effects of our new acquisitions on net income. We believe that net operating income is also meaningful as an indicator of the effectiveness of our management of properties because net operating income excludes certain items that are not a product of management, such as depreciation and interest expense. A total of 94 of our investment properties were "same store" properties during the periods presented. These properties comprise approximately 9.5 million square feet. The "same store" investment properties represent approximately 90% of the square footage of our consolidated portfolio at March 31, 2015.

In the table below, "other investment properties" includes activity from properties acquired and properties disposed of during the three months ended March 31, 2015 and the year ended December 31, 2014, Algonquin Commons, for which a receiver and its affiliated management company are now managing and operating, properties undergoing significant redevelopment and activity from properties owned through our joint venture with IPCC while these properties were consolidated. Operations from properties acquired through this joint venture are recorded as consolidated until those properties become unconsolidated with the first sale of ownership interest to investors. Once the operations are deconsolidated, the income is included in equity in earnings of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income.

The following table presents property net operating income, broken out between "same store" and "other investment properties," for the three months ended March 31, 2015 and 2014:

Table of Contents

	Three months ended March 31,	
	2015	2014
Rental income and tenant recoveries:		
"Same store" investment properties, 94 properties		
Rental income	\$30,144	29,618
Tenant recovery income	14,889	16,146
Other property income	785	392
"Other investment properties"		
Rental income	3,746	5,020
Tenant recovery income	1,850	3,897
Other property income	183	110
Total property income	\$51,597	55,183
Property operating expenses:		
"Same store" investment properties, 94 properties		
Property operating expenses	\$7,358	10,169
Real estate tax expense	9,159	8,757
"Other investment properties"		
Property operating expenses	1,255	2,014
Real estate tax expense	1,203	1,323
Total property operating expenses	\$18,975	22,263
Property net operating income		
"Same store" investment properties	\$29,301	27,230
"Other investment properties"	3,321	5,690
Total property net operating income	\$32,622	32,920
Other income:		
Straight-line rents	\$6	735
Amortization of lease intangibles	59	(75
Lease termination income	2,671	4
Other income	413	102
Fee income from unconsolidated joint ventures	1,434	1,259
Gain on sale of investment properties, net	1,614	12,850
Gain on sale of joint venture interest	109	108
Equity in earnings of unconsolidated joint ventures	4,089	1,794
Other expenses:		
Income tax expense of taxable REIT subsidiaries	(837) (395
Bad debt expense	(307) (191
Depreciation and amortization	(16,175) (19,114
General and administrative expenses	(6,059) (6,092
Interest expense	(7,278) (8,991
Provision for asset impairment	(9,328) —
Income from continuing operations	3,033	14,914
Income from discontinued operations	—	490
Net income	3,033	15,404

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Less: Net (income) loss attributable to the noncontrolling interest	(93) 20	
Net income attributable to Inland Real Estate Corporation	2,940	15,424	
Dividends on preferred shares	(3,972) (2,234)
Net income (loss) attributable to common stockholders	\$(1,032) 13,190	

On a “same store” basis, (comparing the results of operations of the investment properties owned during the three months ended March 31, 2015 with the results of the same investment properties during the three months ended March 31, 2014), property net operating income increased \$2,071 with total property income decreasing \$338 and total property operating expenses decreasing \$2,409.

Net income attributable to common stockholders decreased \$14,222 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014.

Table of Contents

Rental income

Rental income (excluding straight-line rental income and the amortization of lease intangibles) increased \$526 on a “same store” basis, for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014, primarily due to increased rental rates on renewed leases, new leases signed during the respective periods and the end of any associated rent abatement periods. Including “other investment properties,” total rental income decreased \$748 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. This decrease is due to loss of rental income upon disposition of investment properties.

Tenant recovery income

Tenant recovery income decreased \$1,257 on a “same store” basis, for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. Including “other investment properties,” total tenant recovery income decreased \$3,304 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. The primary reason for the decrease in tenant recovery income is a corresponding decrease in the amount of property operating expenses, which are recoverable under tenant leases. Partially offsetting the decrease in recovery income are income true-up adjustments recorded in each period upon completion of annual tenant reconciliations.

Property operating expenses

Property operating expenses decreased \$2,811 on a “same store” basis for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. Including “other investment properties,” total property operating expenses decreased \$3,570 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. The primary reason for the decrease in property operating expenses is a decrease in snow removal costs and routine maintenance costs as a result of the more severe winter weather in 2014 and the elimination of expenses upon disposition of investment properties.

Real estate tax expense

Real estate tax expense increased \$402 on a “same store” basis for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. Including “other investment properties,” total real estate tax expense increased \$282 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. The change in real estate tax expense is a result of changes in the assessed values of our investment properties or the tax rates charged by the various taxing authorities.

Lease termination income

Lease termination income increased \$2,667 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. The primary reason for the increase was the receipt of approximately \$2,620 from two tenants at two different properties upon termination of their leases before expiration. These leases were terminated because we had executed leases with better credit replacement tenants and implemented a plan to undergo significant redevelopment of these investment properties.

Gain on sale of investment properties, net

Gain on sale of investment properties, net decreased \$11,236 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014 due to decreased disposition activity during the three months ended March 31, 2015, as compared to the three months ended March 31, 2014.

Equity in earnings of unconsolidated joint ventures

Equity in earnings of unconsolidated joint ventures increased \$2,295 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. During the three months ended March 31, 2015, we were granted possession of two vacant buildings which had been previously occupied by tenants under ground leases. Upon expiration of the leases, ownership of the buildings was transferred to us, according to the lease provisions, resulting in income to the joint venture of approximately \$2,347. Our pro rata share of this amount, equal to \$1,291, is included

in equity in earnings of unconsolidated joint ventures. Additionally, the increase is due to increased net income on the unconsolidated pool of properties, primarily from acquisitions through our joint venture with PGGM.

Depreciation and amortization

Depreciation and amortization decreased \$2,939 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014, due to the write-off of assets upon early termination of certain leases and upon being fully amortized. Additionally the decrease is due to reduced expense upon sale of certain investment properties during the three months ended March 31, 2015. Partially offsetting this decrease in depreciation and amortization is depreciation expense recorded on newly acquired investment properties and tenant improvements for work related to new leases.

Table of Contents

Interest expense

Interest expense decreased \$1,713 for the three months ended March 31, 2015, as compared to the three months ended March 31, 2014. The decrease in interest expense is due primarily to a decrease in mortgage interest and related loan fee amortization due to the repayment of certain loans. Additionally, the decrease is related to the elimination of interest expense and the amortization of the discount upon repayment of our convertible notes during fourth quarter of 2014.

Provision for asset impairment

Provision for asset impairment during the three months ended March 31, 2015 was \$9,328. During the three months ended March 31, 2015, the Company recorded \$9,328 as provision for asset impairment on its accompanying consolidated statements of operations and comprehensive income. The asset impairments were required because the Company has negotiated sales prices on five investment properties that were below their respective carrying values.

Portfolio Activity

During the three months ended March 31, 2015, our leasing activity remained strong and our leasing spreads were positive on both new and renewal leases in our consolidated portfolio. During the three months ended March 31, 2015, we executed seven new, 40 renewal and eight non-comparable leases (expansion square footage or spaces for which no former tenant was in place for one year or more), aggregating 405,697 square feet on our consolidated portfolio. The seven new leases comprise 38,432 square feet with an average rental rate of \$18.73 per square foot, a 23.5% increase over the average expiring rate. The 40 renewal leases comprise 236,560 square feet with an average rental rate of \$14.76 per square foot, an 8.4% increase over the average expiring rate. The eight non-comparable leases comprise 130,705 square feet with an average base rent of \$10.63 per square foot. The calculations of former and new average base rents are adjusted for rent abatements.

The following table shows the results of our leasing activity during the three months ended March 31, 2015 on the vacant gross leasable area in our consolidated portfolio.

Vacant GLA at January 1, 2015	604,408	
New vacant space during the period	205,766	
New vacant space resulting from acquisitions	—	
Vacancies filled during the period	(63,197)
Vacant space sold	—	
Vacant GLA at March 31, 2015	746,977	

During the remainder of 2015, 110 leases, comprising 408,157 square feet and accounting for approximately 4.6% of our annualized base rent, will be expiring in our consolidated portfolio. We do not believe that any of the expiring leases are individually material to our financial results. The weighted average expiring rate on these leases is \$15.65 per square foot. We will continue to attempt to renew expiring leases and re-lease those spaces that are vacant, or may become vacant, at more favorable rental rates to increase revenue and cash flow.

Occupancy as of March 31, 2015, December 31, 2014, and March 31, 2014 for our consolidated, unconsolidated and total portfolios is summarized in the following table:

	As of March 31, 2015	As of December 31, 2014	As of March 31, 2014	
Consolidated Occupancy (a)				
Leased Occupancy (b)	94.4	% 94.8	% 94.8	%
Financial Occupancy (c)	92.3	% 93.3	% 92.6	%

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Same Store Leased Occupancy (b)	94.6	% 95.0	% 94.8	%
Same Store Financial Occupancy (c)	93.0	% 93.3	% 92.4	%
Unconsolidated Occupancy (a) (d)				
Leased Occupancy (b)	96.4	% 96.7	% 96.4	%
Financial Occupancy (c)	94.7	% 93.5	% 95.9	%
Same Store Leased Occupancy (b)	95.8	% 96.4	% 96.4	%
Same Store Financial Occupancy (c)	94.2	% 94.8	% 95.9	%
Total Occupancy (a)				
Leased Occupancy (b)	95.0	% 95.4	% 95.2	%
Financial Occupancy (c)	93.0	% 93.4	% 93.5	%
Same Store Leased Occupancy (b)	94.9	% 95.4	% 95.3	%
Same Store Financial Occupancy (c)	93.4	% 93.8	% 93.4	%
Leased Occupancy excluding properties held through the joint venture with IPCC (b) (e)	94.9	% 95.3	% 95.1	%

Table of Contents

	As of March 31, 2015		As of December 31, 2014		As of March 31, 2014	
Financial Occupancy excluding properties held through the joint venture with IPCC (c) (e)	92.9	%	93.2	%	93.3	%
Anchor Leased Occupancy excluding properties held through the joint venture with IPCC (b) (e)	97.9	%	98.1	%	98.1	%
Non-Anchor Leased Occupancy excluding properties held through the joint venture with IPCC (b) (e)	88.1	%	89.0	%	88.2	%

(a) All occupancy calculations exclude seasonal tenants.

(b) Leased Occupancy is defined as the percentage of gross leasable area for which there is a signed lease, regardless of whether the tenant is currently obligated to pay rent under their lease agreement.

Financial Occupancy is defined as the percentage of total gross leasable area for which a tenant is obligated to pay (c) rent under the terms of its lease agreement, regardless of the actual use or occupation by that tenant of the area being leased, excluding tenants in their abatement period.

(d) Unconsolidated occupancy includes 100% of the square footage of the related properties.

Due to the occupancy fluctuations produced by the temporary ownership of the properties within this joint venture, (e) we disclose occupancy rates excluding these properties. We believe the additional disclosure allows investors to evaluate the occupancy of the portfolio of properties we expect to own longer term.

Joint Ventures and Off Balance Sheet Arrangements

Reference is made to Note 5, "Joint Ventures" to the accompanying consolidated financial statements for a discussion of our consolidated and unconsolidated joint ventures as of March 31, 2015, which is incorporated into this Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Table of Contents

Non-GAAP Financial Measures

We consider FFO a widely accepted and appropriate measure of performance for a REIT. FFO provides a supplemental measure to compare our performance and operations to other REITs. Due to certain unique operating characteristics of real estate companies, NAREIT has promulgated a standard known as FFO, which it believes more accurately reflects the operating performance of a REIT such as ours. As defined by NAREIT, FFO means net income computed in accordance with U.S. GAAP, excluding gains (or losses) from sales of operating property, plus depreciation and amortization and after adjustments for unconsolidated entities in which the REIT holds an interest. In addition, NAREIT has further clarified the FFO definition to add-back impairment write-downs of depreciable real estate or of investments in unconsolidated entities that are driven by measurable decreases in the fair value of depreciable real estate. Under U.S. GAAP, impairment charges reduce net income. While impairment charges are added back in the calculation of FFO, we caution that because impairments to the value of any property are typically based on reductions in estimated future undiscounted cash flows compared to current carrying value, declines in the undiscounted cash flows which led to the impairment charges reflect declines in property operating performance that may be permanent. We have adopted the NAREIT definition for computing FFO. Recurring FFO includes adjustments to FFO for the impact of lease termination income, certain gains and non-cash impairment charges of non-depreciable real estate, net of taxes recorded in comparable periods, in order to present the performance of our core portfolio operations. Management uses the calculation of FFO and Recurring FFO for several reasons. Recurring FFO per weighted average common share outstanding is used in the employment agreements we have with our executives to determine a portion of incentive compensation payable to them. Additionally, we use FFO and Recurring FFO to compare our performance to that of other REITs in our peer group. The calculation of FFO and Recurring FFO may vary from entity to entity because capitalization and expense policies tend to vary from entity to entity. Items that are capitalized do not impact FFO and Recurring FFO whereas items that are expensed reduce FFO and Recurring FFO. Consequently, our presentation of FFO and Recurring FFO may not be comparable to other similarly titled measures presented by other REITs. FFO and Recurring FFO do not represent cash flows from operations as defined by U.S. GAAP, are not indicative of cash available to fund cash flow needs and liquidity, including our ability to pay distributions, and should not be considered as an alternative to net income, as determined in accordance with U.S. GAAP, for purposes of evaluating our operating performance. The following table reflects our FFO and Recurring FFO for the periods presented, reconciled to net income (loss) attributable to common stockholders for these periods:

	Three months ended March 31,	
	2015	2014
Net income (loss) attributable to common stockholders	\$ (1,032)	13,190
Gain on sale of investment properties	(1,434)	(13,343)
Impairment of depreciable operating property	9,328	—
Equity in depreciation and amortization of unconsolidated joint ventures	4,978	4,192
Amortization on in-place lease intangibles	3,810	6,410
Amortization on leasing commissions	489	454
Depreciation, net of noncontrolling interest	11,876	12,250
Funds From Operations attributable to common stockholders	28,015	23,153
Lease termination income	(2,671)	(4)
Lease termination income included in equity in earnings of unconsolidated joint ventures	(106)	(77)
Recurring Funds From Operations attributable to common stockholders	\$ 25,238	23,072
	\$ (0.01)	0.13

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Net income (loss) attributable to common stockholders per weighted average common share — basic and diluted

Funds From Operations attributable to common stockholders, per weighted average common share — basic and diluted	\$0.28	0.23
Recurring Funds From Operations attributable to common stockholders, per weighted average common share — basic and diluted	\$0.25	0.23
Weighted average number of common shares outstanding, basic	99,932	99,411
Weighted average number of common shares outstanding, diluted	100,376	99,742
Distributions declared, common	\$14,307	14,214
Distributions per common share	\$0.14	0.14

Table of Contents

EBITDA is defined as earnings (losses) from operations excluding: (1) interest expense; (2) income tax benefit or expenses; (3) depreciation and amortization expense; and (4) gains (loss) on non-operating property. We believe EBITDA is useful to us and to an investor as a supplemental measure in evaluating our financial performance because it excludes expenses that we believe may not be indicative of our operating performance. By excluding interest expense, EBITDA measures our financial performance regardless of how we finance our operations and capital structure. By excluding depreciation and amortization expense, we believe we can more accurately assess the performance of our portfolio. Because EBITDA is calculated before recurring cash charges such as interest expense and taxes and is not adjusted for capital expenditures or other recurring cash requirements, it does not reflect the amount of capital needed to maintain our properties nor does it reflect trends in interest costs due to changes in interest rates or increases in borrowing. EBITDA should be considered only as a supplement to net earnings and may be calculated differently by other REITs.

We believe EBITDA is an important supplemental non-GAAP measure. We utilize EBITDA to calculate our interest expense coverage ratio, which equals EBITDA divided by total interest expense. We believe that using EBITDA, which excludes the effect of non-operating expenses and non-cash charges, all of which are based on historical cost and may be of limited significance in evaluating current performance, facilitates comparison of core operating profitability between periods and between REITs, particularly in light of the use of EBITDA by a seemingly large number of REITs in their reports on Forms 10-Q and 10-K. We believe that investors should consider EBITDA in conjunction with net income and the other required U.S. GAAP measures of our performance to improve their understanding of our operating results. Recurring EBITDA includes adjustments to EBITDA for the impact of lease termination income and non-cash impairment charges in comparable periods in order to present the performance of our core portfolio operations.

	Three months ended March 31,		
	2015	2014	
Net income attributable to Inland Real Estate Corporation	\$2,940	15,424	
Gain on sale of investment properties	(1,434)	(13,343)	
Gain on sale of development properties	(72)	—	
Income tax expense of taxable REIT subsidiaries	837	395	
Interest expense	7,278	8,991	
Interest expense associated with unconsolidated joint ventures	2,077	1,989	
Depreciation and amortization	16,175	19,114	
Depreciation and amortization associated with unconsolidated joint ventures	4,978	4,192	
EBITDA	32,779	36,762	
Lease termination income	(2,671)	(4)	
Lease termination income included in equity in earnings of unconsolidated joint ventures	(106)	(77)	
Impairment loss, net of taxes:			
Provision for asset impairment	9,328	—	
Recurring EBITDA	\$39,330	36,681	
Total Interest Expense	\$9,355	10,980	
EBITDA: Interest Expense Coverage Ratio	3.5	x 3.3	x
Recurring EBITDA: Interest Expense Coverage Ratio	4.2	x 3.3	x

Table of Contents

Pro Rata Consolidated Information

These schedules present certain Non-GAAP pro-rata consolidated information as of and for the three months ended March 31, 2015. These schedules are considered Non-GAAP because they include financial information related to consolidated joint ventures with an adjustment for the portion related to noncontrolling interests and unconsolidated joint ventures accounted for under the equity method of accounting. Because we incur expenses to manage properties that are not on our balance sheet, we believe providing this information allows investors to better compare our overall performance, size and operating metrics to those of other REITs in our peer group. The Company believes this Non-GAAP information provides supplementary information that is both useful to and has been requested by investors and analysts. Investors should not consider Non-GAAP information as a substitute for, or as superior to, U.S. GAAP information. Rather, Non-GAAP information may provide useful information in addition to information presented in accordance with U.S. GAAP.

Reconciliation of GAAP Reported to Selected Non-GAAP Pro Rata Consolidated Information:

At March 31, 2015

	GAAP Reported	Noncontrolling Interest	INP Retail LP (PGGM)	Development Properties	IPCC Unconsolidated properties	Non-GAAP Pro-rata Consolidated Information
Total investment properties	\$1,532,307	(816) 377,974	2,067	4,169	1,915,701

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We may enter into derivative financial instrument transactions in order to mitigate our interest rate risk on a related financial instrument. We may designate these derivative financial instruments as hedges and apply hedge accounting, as the instrument to be hedged will expose us to interest rate risk, and the derivative financial instrument is designed to reduce that exposure. Gains or losses related to the derivative financial instrument would be deferred and amortized over the terms of the hedged instrument. If a derivative terminates or is sold, the gain or loss is recognized. As of March 31, 2015, we have one interest rate swap contract, which was entered into as a requirement under a secured mortgage.

Our exposure to market risk for changes in interest rates relates to the fact that some of our long-term debt bears interest at variable rates. These variable rate loans are based on LIBOR, therefore, fluctuations in LIBOR impact our results of operations. We seek to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs by closely monitoring our variable rate debt and converting this debt to fixed rates when we deem such conversion advantageous.

Our interest rate risk is monitored using a variety of techniques, including periodically evaluating fixed interest rate quotes on all variable rate debt and the costs associated with converting the debt to fixed rate debt. Also, existing fixed and variable rate loans which are scheduled to mature in the next year or two are evaluated for possible early refinancing or extension based on our view of the current interest rate environment. The table below presents the principal amount of the debt maturing each year, including monthly annual amortization of principal, through December 31, 2019 and thereafter and weighted average interest rates for the debt maturing in each specified period. The instruments, the principal amounts of which are presented below, were entered into for non-trading purposes.

	2015 (a)	2016 (a)	2017	2018	2019	Thereafter	Total	Fair Value (b)
Fixed rate debt	\$91,817	9,731	46,959	1,195	38,366	185,709	373,777	(c) 401,786
Weighted average interest rate	5.41 %	5.00 %	5.05 %	— %	4.42 %	5.25 %	5.17 %	—
Variable rate debt	\$—	469	—	255,000	(d)(e) 200,000	(f) —	455,469	(c) 453,557
Weighted average interest rate	— %	2.44 %	— %	1.96 %	1.54 %	— %	1.78 %	—
Total	\$91,817	10,200	46,959	256,195	238,366	185,709	829,246	855,343

Approximately \$90,247 of our mortgages payable mature in the next twelve months. This maturing debt is secured (a) by our Algonquin Commons property. The loans encumbering Algonquin Commons have matured and the property is currently subject to foreclosure litigation and we cannot currently predict the outcome of the litigation.

The fair value of debt is the amount at which the instrument could be exchanged in a current transaction between (b) willing parties. We estimate the fair value of our debt by discounting the future cash flows of each instrument at rates currently offered to us for similar debt instruments of comparable maturities by our lenders (Level 3).

The total debt above reflects the total principal amount outstanding. The consolidated balance sheets at March 31, (c) 2015 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$1,883.

(d) Included in the debt maturing during 2018 is our unsecured line of credit facility, totaling \$205,000. We pay interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with our leverage ratio. As of March 31, 2015, the weighted average interest rate

on outstanding draws on the line of credit facility was 1.59%. This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, we were in compliance with these financial covenants.

Included in the debt maturing during 2018 is our \$50,000 term loan which matures in November 2018. We pay interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%. As of March 31, (e)2015, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, we were in compliance with these financial covenants.

Included in the debt maturing during 2019 is our \$200,000 term loan, which matures in July 2019. We pay interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with our leverage ratio. As of March 31, 2015, the weighted average interest rate on (f) the term loan was 1.54%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of March 31, 2015, we were in compliance with these financial covenants.

Our ultimate exposure to interest rate fluctuations depends on the amount of indebtedness that bears interest at variable rates, the time at which the interest rate is adjusted, the amount of the adjustment, our ability to prepay or refinance variable rate indebtedness, fixed rate debt that matures and needs to be refinanced and hedging strategies used to reduce the impact of any increases in rates.

At March 31, 2015, approximately \$455,500, or 55%, of our debt bore interest at variable rates, with a weighted average rate of 1.78% per annum. An increase in the variable interest rates charged on debt containing variable interest rate terms, constitutes

Table of Contents

a market risk. A 1.0% annualized increase in interest rates would have increased our interest expense by approximately \$1,139 for the three months ended March 31, 2015.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that material information relating to the Company, including our consolidated subsidiaries, is made known to the officers who certify our financial reports and to the members of senior management and the Board of Directors.

Based on management's evaluation as of March 31, 2015, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective as of the date of evaluation to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15(d)-15(f) under the Exchange Act) during the three months ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
