FLOTEK INDUSTRIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 Basis of Presentation

The consolidated financial statements included herein are unaudited and have been prepared by Flotek Industries, Inc. (the Company). These financial statements reflect all adjustments, which the Company considers necessary for the fair presentation of such financial statements for the interim periods presented and the Company believes that the disclosures included herein are adequate to make the interim information presented not misleading. Certain reclassifications of prior year data have been made to conform to 2004 classifications. These financial statements, including selected notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2003. The results of operations for interim periods are not necessarily indicative of the results expected for the full year.

Note 2 Discontinued Operations

During the third quarter of 2003, The Equipment Specialties (ESI) reporting unit, which designed, manufactured and rebuilt specialized cementing and stimulation equipments, was discontinued and the assets were sold to Special Equipment Manufacturing, Inc. (SEM). ESI assigned its remaining lease obligation with Oklahoma Facilities, LLC (Facilities) to SEM, thus eliminating any future liability for this capital lease obligation. To effect this assignment, the Company agreed to pay Facilities an additional \$91,000 of rent for the 17 month rental period beginning March 1, 2002 and ending July 31, 2003 in six equal installments beginning November 15, 2003. As of March 31, 2004, Facilities is owed \$61,700 in payments for this obligation, which is recorded in accrued liabilities.

The Equipment Specialties Division is accounted for as a discontinued operation and therefore, the results of its operations and its cash flows have been removed from the Company's results of continuing operations for all periods presented in this document.

FLOTEK INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)
Note 3 Inventories

Inventories consist of raw materials, finished goods and parts and materials used in manufacturing and construction operations. Finished goods inventories include raw materials, direct labor and production overhead. Inventories are carried at the lower of cost or market using the average cost method. The Company maintains a reserve for impaired or obsolete inventory, which is reviewed for adequacy on a periodic basis. The components of inventories at March 31, 2004 and December 31, 2003 were as follows:

	March 31, 2004	December 31, 2003
Raw materials	\$ 552,135	\$ 363,409
Finished goods	2,110,566	2,033,015
Total inventory	2,662,701	2,396,424
Inventory obsolescence reserve	(570,464)	(491,354)
Inventories, net	\$ 2,092,237	\$ 1,905,070

Note 4 Property, Plant and Equipment

At March 31, 2004 and December 31, 2003, property, plant and equipment were comprised of the following:

	March 31, 2004	December 31, 2003
Land	\$ 68,000	\$ 68,000
Buildings and leasehold improvements	1,966,926	1,954,254
Machinery and equipment	953,224	942,129
Furniture and fixtures	89,981	89,981
Transportation equipment	482,980	470,416
Computer equipment	415,833	415,833
Total property plant and equipment	3,978,848	3,940,613
Less accumulated depreciation	(1,459,847)	(1,295,753)
Net property plant and equipment	\$ 2,517,097	\$ 2,644,860

FLOTEK INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)

Note 5 Patents and Other Intangible Assets

The Company evaluates the recoverability of its intangible assets subject to amortization in accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No. 144). SFAS No. 144 requires long-lived assets to be reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment is recognized in the event that the net book value of an asset exceeds the sum of the future undiscounted cash flows attributable to such asset or the business to which such asset relates and the net book value exceeds fair value. As of March 31, 2004, the Company did not recognize any impairment associated with its long-lived assets.

Patents and other intangible assets are comprised of the following:

	March 31, 2004		December 31, 2003	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents	\$ 281,434	\$ 134,120	\$ 281,434	\$ 129,331
Other Intangibles	104,464	83,569	104,464	73,124
Total	\$ 385,898	\$ 217,689	\$ 385,898	\$ 202,455

Note 6 Short-Term Notes Payable

Short-term notes payable at March 31, 2004 and December 31, 2003 consisted of the following:

	March 31, 2004	December 31, 2003
Revolving line of credit payable to bank, secured by accounts receivable and inventory, bearing interest at the prime rate (4% at March 31, 2004) plus 4.25%, due in August 2004, with maximum borrowings of \$2,250,948 ^{(1) (2)}	\$ 2,250,948	\$ 2,250,948
Note payable to Oklahoma Facilities, secured by accounts receivable, bearing interest at the prime rate plus 4.25%, due upon collection of the pledged accounts receivable or August 1, 2004, whichever is earlier ⁽³⁾	495,780	495,780
Note payable to bank, bearing interest at prime rate plus 4.25%, payable in monthly installments of \$15,394 including interest, due in September 2004 ⁽²⁾	705,024	735,597
Total notes payable	\$ 3,451,752	\$ 3,482,325

(1) Limited to a borrowing base amount calculated as 60% of eligible accounts receivable and inventory. Eligible accounts receivable and inventory has increased 22% since December 31, 2003 as a result of increased receivables and inventory associated with higher sales levels.

(2) As of March 31, 2004, the Company was in arrears in the amount of \$31,123 in delinquent interest and principal payments.

(3) On July 25, 2002, the Company borrowed \$500,000 under a promissory note from Facilities. An officer, who is also a director and principal shareholder of the Company, has a minority investment interest in and is an officer of Facilities. The majority of the note is secured by an account receivable from the Company's major customer in Venezuela. The note is due upon the collection of the account receivable, but in any event must be paid in full by August 1, 2004. As of March 31, 2004, the Company owed approximately \$20,448 in delinquent unpaid interest to Facilities.

FLOTEK INDUSTRIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)**Note 7 Long-Term Debt**

Long-term debt at March 31, 2004 and December 31, 2003, consisted of the following:

	<u>March 31, 2004</u>	<u>December 31, 2003</u>
Notes payable to shareholders of acquired businesses, unsecured, bearing interest at 9% payable quarterly, due in five annual installments of \$200,000 each beginning January 2002 ⁽¹⁾	\$ 800,000	\$ 800,000
Note payable to bank, bearing interest at the prime rate (4% at March 31, 2004) plus 1%, payable in monthly installments of \$39,812 including interest, due in January 2008 ⁽²⁾	1,661,213	1,726,320
Construction loan payable to bank, bearing interest at the prime rate plus 4.25%, payable in monthly installments of \$16,715 including interest, due in December 2007 ⁽²⁾	658,641	681,852
Note payable to bank, bearing interest at the prime rate plus 1%, payable in monthly installments of \$14,823 including interest, due in September 2004 ⁽²⁾	129,012	176,030
Mortgage note secured by a first lien on property, payable to Marvin E. Eckert, Jr. and Wanda Eckert, bearing interest at 10%, payable in monthly installments of \$1,470 including interest, due in December 2012	102,595	104,410
Note payable to Bauer & Skloss, LLP, bearing interest at 10% annually, payable in monthly installments of \$8,792 monthly beginning April 2004	100,000	100,000
Note payable to Duncan Area Economic Development Foundation, unsecured, interest at 6%, payable in monthly installments of \$1,934 including interest, due in May 2006	43,125	48,219
Secured vehicle and other equipment loans	110,619	125,116
Total	3,605,205	3,761,947
Less current maturities	1,098,479	1,596,221
Long-term debt	\$2,506,726	\$ 2,165,726

⁽¹⁾ On December 31, 2003, forbearance agreements made on July 28, 2003 were modified to defer the \$100,000 payment due on or before December 31, 2003, and the \$100,000 payment due January 22, 2004, to June 30, 2004 with no interest penalty. All other due dates for payments set forth in the Promissory Notes are extended one (1) year from the original due date specified in the Promissory Notes.

⁽²⁾ As of March 31, 2004, the Company was in arrears in the amount of \$70,626 in delinquent interest and principal payments.

As of March 31, 2004, the Company had not received any notices of default or acceleration from any of its lenders.

The Company believes the fair value of its long-term debt approximates the recorded value at March 31, 2004.

FLOTEK INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)
Note 8 Related Party Transactions

On August 27, 2003, CESI Chemical (CESI), a Flotek Industries, Inc. subsidiary, entered into an agreement with Stimulation Chemicals, LLC (SCL) to defer \$359,993 of purchases made by SCL on CESI s behalf for 12 months. Monthly principal plus interest of 1% per month on the unpaid balance. SCL is owed \$347,333 as of March 31, 2004. SCL is owned jointly by Dr. Penny and Mr. Beall, both of whom are directors as well as principal shareholders of Flotek Industries, Inc. Dr. Penny is also an employee of the Company.

On February 11, 2003, Mr. Jerry D. Dumas, Sr., Chairman of the Board and Chief Executive Officer of the Company, made a short-term loan to the Company for \$135,000 to cover operating cash flow requirements. This note bears interest at 6% annually. This note was paid down to \$95,000 as of September 9, 2003, and refinanced as of that date with a \$10,000 principal payment due October 31, 2003 and monthly payments of \$5,000 due until the note is paid in full, bearing interest at 10% per annum. As of March 31, 2004, this note had an unpaid balance of \$60,000. Additional demand notes from Mr. Dumas total \$141,158, bearing interest at 10% per annum.

On July 25, 2002 the Company borrowed \$500,000 under a promissory note from Facilities. An officer, who is also a director and principal shareholder of the Company, has a minority investment interest in and is an officer of Facilities. See Note 6 to Consolidated Financial Statements.

Note 9 Stock Based Compensation Expense

The Company recognizes compensation expense associated with stock-based awards under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees , and related interpretations. Any difference between the quoted market price as of the date of the grant and the contractual purchase price of shares is charged to operations over the vesting period. No compensation expense has been recognized for stock options with fixed exercise prices equal to the market price of the stock on the dates of grant. Pro forma net income and earnings per common share disclosures as if the Company recorded compensation expense based on the fair value method for stock-based awards have been presented in accordance with the provisions of Statement of Financial Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure , and are as follows:

	Three Months Ended March 31,	
	2004	2003
Net income:		
As reported	\$ 233,990	\$ 1,063
Stock-based employee compensation expense determined under fair value-based method	16,486	--
Pro forma income	\$ 217,504	\$ 1,063
Earnings per share:		
Basic:		
As reported	\$ 0.04	\$ 0.00
Pro forma	\$ 0.03	\$ 0.00
Diluted:		
As reported	\$ 0.03	\$ 0.00
Pro forma	\$ 0.03	\$ 0.00

FLOTEK INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)
Note 10 Net Income (Loss) Per Common Share

Net income (loss) per common share is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding. Diluted income (loss) per share is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares and potential dilutive common shares outstanding. There were 217,618 and 158,319 potentially dilutive common equivalent shares as of March 31, 2004 and December 31, 2003 respectively. The potentially dilutive securities for the twelve months ended December 31, 2003 were not included in the computation of diluted earnings per share, since doing so would have been antidilutive due to our net loss position.

Note 11 Segment Information

The Company reports segment information in accordance with SFAS No. 131, Disclosures about Segments of and Enterprise and Related Information . Effective January 1, 2004, the Company reorganized the composition of its reportable segments, due to the sale of ESI. Certain reclassifications of prior year data have been made to conform to 2004 classifications.

The Company s product lines are divided into three segments within the oilfield service industry:

The Chemicals & Logistics segment which is made up of two business units. The Specialty Chemicals business unit develops, blends, packages and sells chemicals used by other oilfield service companies in oil and gas well cementing, stimulation and production. The Materials Translogistics, Inc. (MTI) business unit manages automated bulk material handling, loading facilities, and blending capabilities for other oilfield service companies.

The Drilling Products segment manufactures and markets the Turbeco line of casing centralizers, Dura-Flo mud shaker screens and external casing packages.

The Production Products segment manufactures and markets the Petrovalve line of downhole pump components.

FLOTEK INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(UNAUDITED)

The Company s reportable segments are strategic business units that offer different products and services. Each business segment requires different technology and marketing strategies and is managed independently. The accounting policies used in each of the segments are the same as those described in the significant accounting policies disclosed in Form 10K-SB for the year ending December 31, 2003. The Company evaluates the performance of its operating segments based on operating income excluding unusual charges. Intersegment sales and transfers are not material.

The following table presents the revenues and operating income by business segment and on a comparable basis:

Three Months Ended
March 31,

	Three Months Ended March 31,	
	2004	2003

Corporate and Other	(455,959)	(448,867)
Consolidated	<u>\$ 442,492</u>	<u>\$ 77,350</u>

Note 12 Subsequent Events

On April 5, 2004, Flotek Industries Inc. appointed Lisa Bromiley as Chief Financial Officer. Bromiley brings significant financial and operational experience to the Company. During her career Bromiley has served in various financial positions with PricewaterhouseCoopers, LLC and several Fortune 500 companies. Bromiley, a CPA, will manage and direct the finance and accounting functions of the Company.

On April 16, 2004, Mark Kehnemund resigned as Chief Operating Officer to pursue other opportunities. Jerry D. Dumas, Sr. Chairman and CEO will assume the operational role to focus on strategy and business development opportunities for the company.

During April 2004, the Company paid \$31,123 in delinquent interest and principal payments on its short-term notes payable and LOC to the bank.

During April 2004, the Company paid \$70,626 in delinquent interest and principal payments on its long-term debt.

During April 2004, the Company paid Oklahoma Facilities \$10,224 in delinquent interest on its short-term note payable.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations**Business Overview**

Flotek Industries, Inc. provides a broad range of products and services worldwide, used in the exploration and production of crude oil and natural gas. Flotek was established in 1985 and is currently traded on the OTC Bulletin Board market. Management's Discussion and Analysis should be read in conjunction with the Consolidated Financial Statements and Notes to Consolidated Financial Statements.

The Company's product lines are divided into three segments within the oilfield service industry:

The Chemicals & Logistics segment which is made up of two business units. The Specialty Chemicals business unit develops, manufactures, packages and sells chemicals used by other oilfield service companies in oil and gas well cementing, stimulation and production. The Materials Translogistics, Inc. (MTI) business unit manages automated bulk material handling, loading facilities, and blending capabilities for other oilfield service companies.

The Drilling Products segment manufactures and markets the Turbeco line of casing centralizers, Dura-Flo mud shaker screens and external casing packages.

The Production Products segment manufactures and markets the Petrovalve line of downhole pump components.

Our businesses serve the oil and gas industry and are affected by changes in the worldwide demand for and price of oil and natural gas. The majority of our products are dependent on the level of exploration and development activity and the completion phase of oil and gas well drilling. Other products and services, such as our Petrovalve downhole pump products and certain of our specialty chemicals are more closely tied to the production of oil and gas and are less dependent on drilling activity.

The oil and gas industry remained strong during the first quarter of 2004, with prices and drilling activity continuing to increase from 2003. The U.S. rig count, as measured by Baker Hughes Incorporated, increased from 1,126 to 1,160 during the first quarter of 2004, versus 972 active wells at the end of the first quarter 2003. Drilling activity should remain strong due to the extremely low levels of crude and natural gas inventory. Natural gas and crude oil prices have remained strong throughout the first quarter. The current 12-month strip for natural gas is \$6.31/MCF and \$36.20/BBL for light crude. Our business will benefit from these oil and gas commodity prices and the increase in drilling activity as we have seen in the first quarter.

Management continues to actively seek potential profitable acquisition or merger candidates in our core business to either decrease costs of providing products or add new products and customer base to diversify the Company's market.

Results of Operations

	Three Months Ended March 31,	
	2004	2003
Revenues	\$ 4,796,397	\$ 3,328,445
Cost of revenues	2,827,828	1,979,304
Gross margin	1,968,569	1,349,141
Gross margin %	41.0%	40.5%
Selling, general and administrative	1,346,749	974,898
Depreciation and amortization	179,328	150,654
Research and development	--	17,060
Total expenses	1,526,077	1,142,612
Operating income	442,492	206,529
Operating income %	9.2%	6.2%
Interest expense	(177,718)	(130,605)
Other, net	(29,555)	1,425
Other income (expense), net	(208,502)	(129,179)
Income from continuing operations	\$ 233,990	\$ 77,350

Total revenues increased by \$1,467,952 or 44.1% in the first three months of 2004 compared to the same period in 2003. As discussed in the segment analysis that follows, this significant increase in revenues was due to strong performance by our Chemicals & Logistics segment and more than doubling our Drilling Products segment sales. The increase in sales of specialty chemicals and Turbeco casing centralizers is partially attributable to the increased exploration and production activity for oil and gas as evidenced by an increase in average daily rig count from 972 at the end of the first quarter 2003 to 1,160 for this quarter end.

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form 10QSB

On an aggregate basis, the gross margin as a percentage of revenues increased from 40.5% in 2003 to 41.0% in 2004. The gross margin is best analyzed on a segment by segment basis, discussed below, as the gross margin varies significantly between operating segments and can vary significantly from period to period in certain of our operating segments.

SG&A represents the costs of selling and general and administrative expenses not directly attributable to products sold or services rendered. SG&A costs as a percentage of revenue continued to decrease, and amounted to 28.1% of revenues for the first three months of 2004 versus 29.3% of revenues for the same period in 2003. Significant emphasis and effort continues to be placed on reducing SG&A costs across the organization.

Interest expense increased \$47,113 or 36.1% in the first three months of 2004 compared to same period in 2003 due to higher interest rates. The majority of the Company's indebtedness carries a variable interest rate tied to the prime rate and is adjusted on a quarterly basis.

13

Results by Segment

Chemicals & Logistics

	Three Months Ended March 31,	
	2004	2003
Revenues	\$ 3,408,613	\$ 2,697,347
Gross margin	\$ 1,305,729	\$ 966,966
Gross margin percentage	38.3%	35.8%
Operating income	\$ 647,763	\$ 433,608
Operating margin percentage	19.0%	16.1%

Chemicals & Logistics revenues increased \$711,266 or 26.4%, in the first three months of 2004 compared to the same period in 2003. Sales in this segment are heavily dependent on drilling and well stimulation activity. The increase in sales is attributable to a 19% increase in drilling activity in the first quarter of 2004 compared to 2003 and expanded market penetration in the U.S., Canada, Mexico and Russia. The most significant revenue growth related to our environmental friendly green chemicals in the U.S., which have grown 206% from \$189,912 for the first three months of 2003 to \$580,531 for the same period in 2004. Four customers made up 52.3% of total revenues in this segment for the three months ended March 31, 2004. CESI Chemical's focus on applied research has resulted in a continued expanding customer base and product portfolio.

The gross margin in this segment also increased, from 35.8% for the first three months of 2003 to 38.3% in the same comparable period in 2004. The increase in margin is attributable to increased sales of our environmentally friendly chemicals that command higher margins than other products sold by this segment.

Operating income increased \$214,155, or 49.4%, in the first three months of 2004 compared to the same period in 2003, primarily as a result of increased revenues and gross margins between periods.

Drilling Products

	Three Months Ended March 31,	
	2004	2003
Revenues	\$ 1,263,186	\$ 596,698
Gross margin	\$ 603,576	\$ 365,197
Gross margin percentage	47.8%	61.2%
Operating income	\$ 318,910	\$ 171,570

**Three Months Ended
March 31,**

Operating margin percentage	25.2%	28.8%
------------------------------------	-------	-------

Drilling Products revenues more than doubled in the first three months of 2004 over 2003 levels. The 112% increase in revenues was driven by increased sales of the Turbeco line of casing centralizers and additional new products such as the Integral Joint Bow Spring Centralizer and the Econo-Bow Centralizer. Two customers made up 41.6% of total revenues in this segment for the three months ended March 31, 2004. The dramatic increase in sales is largely attributed to management's penetration of a wider customer base, expanding geographic coverage and an expanding proprietary product line.

While gross margin percentage was lower in the first three months of 2004 versus 2003, total gross margin increased from \$238,379 or 65% between quarters due to higher sales volume. The decrease in our gross margin percentage is due to a change in product mix, with a higher percentage of sales attributed to the Integral Joint Bow Spring Centralizer and the Econo-Bow Centralizer, which are lower margin products.

14

Operating income increased \$147,340 or 86% in the first three months of 2004 compared to the same period in 2003. This significant improvement is the direct result of increased sales and reduced costs and improved operating efficiencies.

Production Products

	Three Months Ended March 31,	
	2004	2003
Revenues	\$ 124,598	\$ 34,400
Gross margin	\$ 59,267	\$ 16,979
Gross margin percentage	47.6%	49.4%
Operating loss	\$ (68,222)	\$ (79,141)
Operating margin percentage	(54.8)%	(230.1)%

Production Products revenues increased \$90,198, or 262% in the first three months of 2004 compared to the same period in 2003. Flotek has recently expanded the unit's management team and reassigned senior management to reassess the unit's marketing plan. Petrovalve will be actively marketed in the North America and Russia based on outstanding performance of the valve in client test wells during 2003. The turnaround of this unit is a key component of management's focus for 2004. Operationally, the Petrovalve has continued to outperform competing valves in the field.

Gross margin percentage decreased 1.8% from 47.6% in 2003 to 47.5% in 2004. This decrease is due to reduced margins for the Petrovalve line of downhole pump components.

Operating loss decreased \$10,919 or 14% in the first three months of 2004 compared to the same period in 2003.

Capital Resources and Liquidity

In the first three months of 2004, the Company produced net income of \$233,990 and had positive cash flow from operations of \$156,306. This turnaround from the same period in 2003 is a result of significant improvement in operating results for all reporting units due to increased activity and operational efficiencies. The positive cash flow from operations is a result of higher net income offset by increased net working capital requirements to grow operations in the first quarter of 2004.

As of March 31, 2004, net working capital was a negative \$4,430,198, resulting in a current ratio of .52 to 1. Both accounts receivable and inventories have increased due to increased levels of activity, for the majority of reporting units, between the fourth quarter of 2003 and the first quarter of 2004. Accounts payable have also increased primarily due to increased trade payables from a higher level of business activity.

Cash and cash equivalents are \$0.00 at March 31, 2004. Overall, the level of business activity is increasing and cash flow from operations is improving, but cash flow is still tenuous.

Capital expenditures in the first three months of 2004 were \$36,331 and were used for vehicle and machinery purchases. For the first three months of 2003 capital expenditures totaled \$117,578. These expenditures were primarily for additional improvements at the MTI transload facility in Raceland, Louisiana, and the purchase of a new financial software package and related hardware. Capital expenditures budgeted for 2004 are approximately \$470,000.

In January, 2004, the Company issued 133,333 shares of its common stock in a private offering to accredited investors in exchange for \$100,000 subscription proceeds, which was paid by the tender to the Company of \$100,000 of cash.

The Company made debt service payments of \$187,315 and repayments to related parties of \$32,660 during the first three months of 2004. The company has estimated minimum debt service payments in 2004 of \$5,659,696 million. This includes minimum principal and interest payments on Related Party indebtedness, Short-Term Notes Payable, and Long-Term Debt as discussed in Notes 6, 7 and 8 of the Notes to Consolidated Financial Statements.

The Company believes its continuing operations are capable of generating sufficient cash flow to meet its debt service obligations under current market conditions. However, if a market downturn occurred it would be difficult to meet debt service obligations without increased sales. While the market we serve continues to steadily improve, as well as our cash flow position, we believe the Company will need to raise additional capital through the sale of its debt or equity securities to provide the necessary cash flow to grow the business. There can be no assurance that the Company will be able to secure such financing on acceptable terms or raise the required equity.

Forward Looking Statements

Except for the historical information contained herein, the discussion in this Form 10-QSB includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. The words anticipate, believe, expect, plan, intend, project, forecast, could and similar expressions are intended to identify forward-looking statements. All statements other than statements of historical facts included in this Form 10-QSB regarding the Company's financial position, business strategy, budgets and plans and objectives of management for future operations are forward-looking statements. Forward-looking information involves risks and uncertainties and reflects our best judgment based on current information. Our results of operations can be affected by inaccurate assumptions we make or by known or unknown risks and uncertainties. In addition, other factors may affect the accuracy of our forward-looking information. As a result, no forward-looking information can be guaranteed. Actual events and the results of operations may vary materially.

While it is not possible to identify all factors, we continue to face many risks and uncertainties that could cause actual results to differ from our forward-looking statements including:

The Company is dependent on the oil and gas industry, and activity levels in the industry are volatile.

Oil and gas prices are volatile and have a direct impact on the spending levels of our customers.

Severe weather conditions, for example, hurricanes, can have a direct impact on activity levels in the affected areas, and oil and gas prices.

The oilfield service industry is highly competitive and we must compete with many companies possessing greater financial resources and better established market positions.

The introduction of new products and technologies by competitors may adversely affect the demand for our products and services.

The Company's debt service obligations may limit our ability to fund operations and capital spending or provide for future growth.

Changes in political conditions, governmental regulations, economic and financial market conditions, unexpected litigation and other uncertainties may have an adverse effect on our operations.

Item 4 Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer (collectively, the Certifying Officers) are responsible for establishing and maintaining disclosure controls and procedures for the Company. Such officers have concluded (based upon their evaluation of these controls and procedures as of a date within 90 days of the filing of this report) that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in this report is accumulated and communicated to the Company's management, including its principal executive officers as appropriate, to allow timely decisions regarding required disclosure.

The Certifying Officers also have indicated that there were no significant changes in the Company's internal controls or other factors that could significantly affect such controls subsequent to the date of their evaluation. Previously noted weaknesses have been corrected.

PART II OTHER INFORMATION**Item 1 Legal Proceedings**

Milam Tool Company and the Estate of Jack J. Milam vs. Flotek Industries, Inc., Turbeco, Inc. and Jerry Dumas, individually, C.A. No. H-02-1647 (Jury Demanded), in the United States District Court, Southern District of Texas, Houston Division.

On May 1, 2002, Milam Tool Company and the Estate of Jack J. Milam filed a complaint against Flotek Industries, Inc., Turbeco, Inc. and Jerry D. Dumas, Sr., individually, in the United States District Court for the Southern District of Texas, Houston Division. The complaint asserts that the sale of TURBO-LOK turbulators, which are part of the Company's Drilling Products segment, violates an agreement among the parties and infringes a United States patent controlled by the Plaintiffs. Plaintiffs seek injunctive relief and unspecified damages. The Company has answered the complaint. On October 14, 2003, the Court entered a Memorandum and Order interpreting the claims of the patent and the settlement agreement. The Court adopted many of Flotek's positions and ordered mediation within 45 days. Plaintiffs moved for reconsideration or leave to file an appeal and the Court then postponed the mediation deadline. The Company strongly denies the assertions in the complaint and intends to continue to vigorously contest this matter. We believe the results of these legal actions will not have a material adverse effect on the Company's consolidated financial position.
