Item 3.01 Notice of Delisting or Failure to Satisfy a Continued Listing Rule or Standard; Transfer of Listing

On June 23, 2016, Cinedigm Corp., a Delaware corporation (the "Company"), received a letter (the "Notice") from the Listing Qualifications staff of The NASDAQ Stock Market LLC ("Nasdaq") indicating that the Company no longer meets the requirement to maintain a minimum market value of publicly held shares ("MVPHS") of \$15,000,000, as set forth in Nasdaq Listing Rule 5450(b)(3)(C). The Notice does not result in the immediate delisting of the Company's common stock from the Nasdaq Global Market.

In accordance with Nasdaq Listing Rule 5810(c)(3)(A), the Company has been provided a period of 180 calendar days, or until December 20, 2016, in which to regain compliance. In order to regain compliance with the MVPHS requirement, the Company's MVPHS must be at least \$15,000,000 for a minimum of ten consecutive business days during this 180-day period. If the Company does not regain compliance with the bid price requirement by December 20, 2016, the Company may be eligible for an additional 180 calendar day compliance period. If the Company does not regain compliance by December 20, 2016, or the termination of any subsequent compliance period, if applicable, the Staff will provide written notification to the Company that its common stock may be delisted. At such time, the Company would be afforded the opportunity for a hearing before a Nasdaq Listing Qualifications Panel (the "Panel"). A request for a hearing would stay any suspension or delisting action pending the issuance of a decision by the Panel following the hearing and the expiration of any extension period granted by the Panel. In that regard, the Panel would have the authority to grant the Company up to an additional 180-day period in which to regain compliance.

The Company intends to monitor the MVPHS for its common stock between now and December 20, 2016 and will consider the various available options if its common stock does not trade at a level that is likely to regain compliance.
