Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)
Free translation from the original prepared in Spanish for publication in Argentina

1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA" or "the Company") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of December 31, 2012, the Group operates in six business segments. See Note 5 for a description of the Group's segments.

Group's real estate business operations are conducted primarily through IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA, the Group primarily owns, manages and develops shopping centers across Argentina. The Group primarily owns, manages and develops a portfolio of office and other rental properties in Buenos Aires, and it entered the US real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels (see Note 3). Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

The activities of the Group's segment "Financial operations and others" is carried out mainly through Banco Hipotecario S.A. ("BHSA"), where IRSA has a 29.77% interest (without considering treasury shares). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 43.55% interest in Tarshop S.A ("Tarshop") which main activities are credit card and loan origination transactions.

IRSA's shares are listed and traded on both the BASE and the New York Stock Exchange ("NYSE"). APSA's shares are listed and traded on both the BASE and the National Association of Securities Dealers Automated Quotation ("NASDAQ").

Cresud is the ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Consolidated Financial Statements have been approved for issuance by the Board of Directors on February 18, 2013.

2. Basis of preparation and adoption of international financial reporting standards ("IFRS")

2.1 Basis of preparation and transition to IFRS

The National Securities Commission, ("CNV", as per its Spanish acronym), through General Resolutions No. 562/9 and 576/10, has provided for the application of Technical Resolutions No. 26 and 29 of the Argentine Federation of Professional Councils of Economic Sciences (as per its Spanish acronym "FACPCE"), which adopt the International Financial Reporting Standards ("IFRS"), issued by the International Accounting Standards Board ("IASB"), for companies subject to the public offering regime ruled by Law 17,811, due to the listing of their shares or corporate notes, and for entities that have applied for authorization to be listed under the mentioned regime.

The Group is required to adopt IFRS as from the fiscal year beginning July 1, 2012. Consequently, the Group's transition date for the adoption of IFRS is July 1st, 2011.

The Unaudited Condensed Interim Consolidated Financial Statements of the Group for the six-month periods ended December 31, 2012 and 2011 have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" and IFRS 1. The Unaudited Condensed Interim Consolidated Financial Statements have been prepared in accordance with the accounting policies that the Group expects to adopt in its first annual consolidated financial statements as of June 30, 2013 in accordance with IFRS. The accounting policies are based on IFRS issued by the IASB and the interpretations issued by the IFRS Interpretation Committee ("IFRIC") that the Group expects to become applicable on such date.

The consolidated financial statements of the Group were prepared in accordance with the Argentine accounting standards ("Argentine GAAP") in force, which differ from IFRS in some significant aspects. To prepare these Unaudited Condensed Interim Consolidated Financial Statements, the Management of the Company has modified certain valuation and presentation accounting policies that were previously applied under Argentine GAAP in order to comply with the IFRS.

Comparative figures and figures as of the transition date (July 1st, 2011) have been modified to reflect such adjustments. The notes below include a reconciliation of shareholders' equity figures of consolidated financial statements prepared in accordance with the Argentine GAAP on the transition date (July 1st, 2011), on the adoption date (June 30, 2012) and on the closing date of the comparative period (December 31, 2011) and the statements of income and other comprehensive income figures for the fiscal year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011, and those presented in accordance with the IFRS in these condensed consolidated interim financial statements, as well as the effects of the adjustments to cash flows.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

These Unaudited Condensed Interim Consolidated Financial Statements should be read together with the annual financial statements of the Group as of June 30, 2012 prepared in accordance with Argentine GAAP and with the Unaudited Condensed Interim Consolidated Financial Statements as of September 30, 2012, which include an Exhibit ("Exhibit I") which presents additional information as of June 30, 2012 and July 1st, 2011 under IFRS which is considered necessary to understand these condensed interim consolidated financial statements. The figures corresponding to the unaudited statement of financial position, the statement of income, the statement of changes in shareholders' equity, and the statement of cash flows under IFRS for the fiscal year ended June 30, 2012, and the figures of the statement of financial position as of July 1st, 2011 are detailed in Note 2.3 to these Unaudited Condensed Interim Consolidated Financial Statements. The Unaudited Condensed Interim Consolidated Financial Statements are presented in Argentine Pesos.

Unaudited Condensed Interim Consolidated Financial Statements corresponding to the six and three-month periods ended December 31, 2012 and 2011 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's six-month periods ended December 31, 2012 and 2011 results do not necessarily reflect the proportion of the Group's full-year results.

The format of the primary financial statements under Argentine GAAP is governed by Technical Resolutions 8 and 9 of the Argentine Federation of Professional Councils of Economic Science (as per its Spanish acronym “FACPCE”) and Resolutions of the CNV. IAS 1 “Presentation of Financial Statements” requires certain disclosures to be made on the face of the primary statements and other required disclosures may be made in the notes or on the face of the financial statements, unless another standard specifies otherwise. The transition to IFRS has resulted in the Group changing the format of its statement of income, statement of financial position and statement of cash flows, as well as the disclosure of certain line items not prescribed by Argentine GAAP.

2.2 Initial elections upon adoption of IFRS

IFRS exemption options

As a general rule, the Group is required to establish its IFRS accounting policies for the year ended June 30, 2013 and apply these retrospectively. However, advantage has been taken of certain exemptions afforded by IFRS 1 as further described below:

Exemption for business combinations

IFRS 1 provides the option to apply IFRS 3, “Business combinations”, prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Group elected to apply IFRS 3 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

The business combination exemption applies equally to acquisitions of investments in associates or joint ventures. The Group elected not to restate the acquisitions of investments in associates or joint ventures prior to transition date.

Exemption for deemed cost

IFRS 1 allows previous GAAP revaluations to be used as deemed cost under IFRS if those valuations were, at the time of the valuation, equivalent to fair value or depreciated cost adjusted to reflect changes in a price index. The Group elected to measure certain items of property, plant and equipment and investment properties at price-adjusted historical values as of July 1st, 2011.

In addition, IFRS 1 allows the carrying values of the assets and liabilities immediately following a business combination to be deemed cost for any cost-based measurement going forward from the date of the combination. The Group adopted a cost-based policy for all of its assets. As such, the Group used the previous fair values recognized in past business combinations (not restated as per the business combination exemption above) for certain items of investment properties and property, plant and equipment (primarily shopping centers, office buildings and hotels) as deemed cost at the date of transition. All depreciation methods were already in compliance with those required by IAS 16, “Property, plant and equipment”.

Exemption for accumulated exchange differences

The IFRS 1 allows accumulated exchange differences to be reset to zero on the transition date, thus avoiding the determination of accumulated exchange differences pursuant to IAS 21 “Effects of changes in foreign exchange rates” from the moment a subsidiary or associate was created or acquired. The Group chose to reset all accumulated exchange differences to zero on the transition date.

Exemption for compound financial instruments

IFRS 1 provides that if the liability component of a financial instrument is no longer outstanding at the date of transition to IFRS, first-time adopters do not have to separate it from the equity component. The Group elected not to restate convertible debt instruments that were not outstanding at the date of transition.

Exemption for borrowing costs

IFRS 1 has been amended to permit first-time adopters not to restate borrowing costs capitalized at transition date under previous GAAP. The Group elected to apply the provisions of IAS 23 “Borrowing costs” prospectively from the date of transition.

Exemption for assets and liabilities of subsidiaries

In accordance with IFRS 1, if a parent company adopts IFRS subsequent to its subsidiary, associate or joint venture adopting IFRS, the assets and liabilities of the subsidiary, associate or joint venture are to be included in the consolidated financial statements at the same carrying amounts as in the financial statements of the subsidiary, associate or joint venture, adjusted to reflect changes for the Group’s accounting policies upon consolidation, as applicable. The Group’s associates, Tarshop S.A. and Banco Hipotecario S.A., adopted IFRS in December 31, 2011.

The group has not used other optional exemptions of IFRS 1.

IFRS mandatory exceptions

Set out below are the applicable mandatory exceptions in IFRS 1 applied in the conversion from Argentine GAAP to IFRS.

Exception for estimates

IFRS estimates as of July 1st, 2011 are consistent with the estimates as at the same date made in conformity with Argentine GAAP. Therefore the estimates made by the Group under previous GAAP were not revised for application of IFRS except where necessary to reflect any difference in accounting policies.

Exception for non-controlling interests

IFRS 1 establishes that an entity must apply the requirements IFRS 10 “Consolidated financial statements” for accounting for changes in a parent’s ownership interest in a subsidiary that do not result in a loss of control prospectively. Under Argentine GAAP, the Group accounted for acquisitions of non-controlling interests that did not result in change of control as business combinations. Furthermore, under Argentine GAAP, the Group accounted for disposals of non-controlling interests based on its carrying value at the date of disposal, recognizing any difference between the carrying value of the non-controlling interest and the consideration received in the statement of income. The Group did not restate these acquisitions prior to transition date.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

IFRS 1 establishes that an entity must apply the requirements of IFRS 10 for accounting for a loss of control over a subsidiary prospectively. Under Argentine GAAP, the Group recognized any non-controlling equity investment retained under the equity method at the date control was lost.

The other compulsory exceptions of IFRS 1 have not been applied, as these are not relevant to the Group.

2.3 Reconciliations of Argentine GAAP to IFRS

In accordance with the requirements of Technical Resolution No. 26 and 29 of the FACPCE, set out below are the reconciliations of shareholders’ equity from Argentine GAAP to IFRS as of June 30, 2012, as of December 31, 2011 and July 1st, 2011, the reconciliations of income and comprehensive income for the year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011, and the reconciliations of cash flows for the year ended June 30, 2012 and for the six month period ended December 31, 2011. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Group for the financial statements as of and for the year ended June 30, 2013. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the annual financial statements prepared under IFRS for the first time are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2013, applicable standards are different.

The first reconciliation provides an overview of the impact on equity of the transition as of July 1st, 2011, as of December 31, 2011 and June 30, 2012 (Note 2.3.1). The second reconciliation provides details of the impact on income for the six and three-month periods ended December 31, 2011 and for the year ended June 30, 2012 (Note 2.3.1). The third reconciliation provides details of the impact on other comprehensive income for the six and three-month periods ended December 31, 2011 and for the year ended June 30, 2012 (Note 2.3.1). The following reconciliations provide details of the impact of the transition on:

- Statement of financial position as of July 1st, 2011 (Note 2.3.2)
- Statement of financial position as of December 31, 2011 (Note 2.3.3)
 - Statement of financial position as of June 30, 2012 (Note 2.3.4)
- Statement of income for the six-month period ended December 31, 2011 (Note 2.3.5)
- Statement of income for the three-month period ended December 31, 2011 (Note 2.3.6)

2.3.12. Explanation of the transition to IFRS

In addition to the exemptions and exceptions discussed above, the following narratives explain the significant differences between the previous Argentine GAAP accounting policies and the current IFRS applied by the Group. Only the differences having an impact on the Group are explained below. The following is not a complete summary of all of the differences between Argentine GAAP and IFRS. The descriptive caption next to each numbered item below corresponds to the same numbered and descriptive caption in the reconciliations above, which reflect the quantitative impacts from each change. Unless the quantitative impact is disclosed, the impact is not significant to the Group.

Column I in the tables included on previous pages represents Argentine GAAP balances prior to transition as published in the latest Group’s Argentine GAAP financial statements as of and for the year ended June 20, 3012 compared to transition date (July 1st, 2011), and in the Group’s Argentine GAAP financial statements for the six-month period ended December 31, 2011. However, certain reclassifications and/or groupings have already been made to that information in Column I to avoid lengthy explanations of certain format changes introduced in these IFRS financial statements. The following changes have been made to the previous Argentine GAAP statement of financial position in Column I:

- (1) The line items “Trade receivables” and “Other receivables” have been grouped into the new line item “Trade and other receivables, net”.
- (2) The line items “Trade payables”, “Customer advances”, “Taxes payable” and “Other liabilities” have been also grouped into the new line item “Trade and other payables”, with the exception of income tax payable and deferred income tax which have been shown separately.
- (3) Goodwill which was previously disclosed separately offsetting negative goodwill has been included as part of “Intangible assets”.
- (4) Cash equivalents previously disclosed as part of the line item current investments have been grouped together with cash and banks, in the line named “Cash and cash equivalents”.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

- (5) Derivative financial instruments which were previously included as part of the non-current line items “Other receivables”, “Other payables” and/ or “Investments” have been disclosed as separate assets or liabilities as appropriate.
- (6) Investments in associates and joint ventures previously included as part of “Non-current investments” have been separately disclosed in the new line item “Investments in associates and joint ventures”.
- (7) The portion of equity in a subsidiary not attributable directly or indirectly to a parent is known as “Minority interest” and is classified as a separate component between the liability and equity sections of the statement of financial position (mezzanine section). IFRS 10 “Consolidated financial statements” specifies that a non-controlling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as a separate component within equity in the consolidated financial statements. The Group has non-controlling interest in more than one subsidiary. Accordingly, the Group aggregated its various non-controlling interests on the consolidated statements, renamed them as “Non-controlling interest” and reclassified the aggregated amount from the mezzanine section to shareholders’ equity at transition date.

The following changes have been made to the statements of income for the year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011:

- (1) The format of the statement of income has been restructured to simplify its reading. To that effect, all revenue streams of the Group which were previously disclosed separately (i.e. sales of development properties, leases and services revenue, and hotel revenue), together with its corresponding costs of sales, have been aggregated into two line items titled "Revenues" and "Costs" in Column I. Revenues and Costs are then cross-referenced to the respective notes in the financial statements where a detailed breakdown is provided per line of business.
- (2) Pursuant to the Argentine GAAP in force, the share of losses and profits from associates and joint ventures is shown after the financial results. Likewise, under IFRS, the share of profits and losses from associates and joint ventures is generally shown after the financial income (expense) line. However, where associates and joint ventures are an integral vehicle to carry out the Group’s operations, it is more adequate to show the share of profits and losses of associates and joint ventures before financial income (expense). In accordance with its strategy, the Group conducts its operations through associates or joint ventures. Therefore, under the IFRS, the Group shows the profits or losses from associates and joint ventures before the financial income (expense) line. For simplicity, the share of profits and losses associates is shown before financial results, net, in Column I.

2. Basis of preparation and adoption of international financial reporting standards ("IFRS") (Continued)

- (3) Non-controlling interests in the results of a consolidated subsidiaries which was previously classified as a component of profits within the statement of income has been presented as an allocation of profit in Column I. As part of the adoption to IFRS, the term "Minority interest" has also been replaced with the new term "non-controlling interest" in accordance with IAS 1.
- (4) Under the Argentine GAAP in force, financial results are broken down depending on whether it is generated by assets or liabilities. Under the IFRSs, the Group has adopted the criterion of showing financial income and financial expenses on different lines in the statement of income. For simplicity, the Group has reclassified the figures as per Argentine GAAP shown under "Financial income (expense) generated by assets" and "Financial income (expense) generated by liabilities", into "Financial income" and "Financial cost" as established by the IFRS, as applicable, in Column I.
- (5) According to IFRS, income and expense items not recognized in the statement of income (that is, exchange differences related to translation of foreign businesses) are shown in the statement of comprehensive income as "Other comprehensive income". According to Argentine GAAP, the statement of comprehensive income is not mandatory and, therefore, such items are recognized as part of shareholders' equity, in a separate reserve account. For simplicity, these items are shown in "Other comprehensive income" in Column I.

2.3.12.1 Deconsolidation of joint ventures (Column II)

Argentine GAAP - Entities in which the Group has joint control are proportionately consolidated. As of July, 1st 2011, the Group's joint ventures are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A.. As of December 31, 2011 and June 30, 2012, the joint ventures of the Group are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. and Nuevo Puerto Santa Fe S.A..

IFRS - The Group has assessed the nature of its joint arrangements in line with IFRS 11 "Joint Arrangements" and determined them to be joint ventures. Joint ventures are accounted for under the equity method of accounting.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

As a result, the Group deconsolidated the accounts of the joint ventures and presented them as a single line item on the face of the statement of financial position. Column II titled “Deconsolidation of joint ventures” reflects the elimination on a line-by-line basis of the Argentine GAAP pro-rata equity interest in the joint ventures and the disclosure of the Group’s investments in the joint ventures as a single line item titled “Investments in associates and joint ventures” on the statement of financial position and as a single line item titled “Share of profit / loss of associates and joint ventures” on the statement of income. The impact of the IFRS adjustments on joint ventures balances is further discussed in Note 2.3.12.3 below.

2.3.12.2 Reclassifications (Column III)

Reclassifications affecting the statement of financial position

The column titled “Reclassifications” reflects the differences in presentation and format between the statement of financial position under Argentine GAAP and IFRS. Unless otherwise stated, amounts have been reclassified for presentational purposes under IFRS prior to affecting the corresponding IFRS adjustments, as applicable, to the Argentine GAAP corresponding amounts. The impact of the IFRS adjustments on reclassified balances is included in Column IV titled “Measurement Adjustments” and is further discussed in Note 2.3.12.3 below. Unless otherwise stated, reclassifications affect both the statement of financial position as of transition date, (July 1st, 2011), December 31, 2011, and June 30, 2012.

(a) Investment properties, net

Argentine GAAP - There are not specific requirements for presentation of investment property. Accordingly, the Group does not present separately investment property and includes it as part of property, plant and equipment and non-current investments.

Certain property of the Group is being partially owner-occupied while the rest is being rented out to third parties. There is no such distinction under Argentine GAAP. Portions that are owner-occupied are accounted for and presented in the same way as portions that are being rented out.

Certain associates and joint ventures are currently occupying certain property of the Group. There is no distinction under Argentine GAAP and property rented out to associates or joint ventures are accounted for as property, plant and equipment.

IFRS - IAS 1 “Presentation of Financial Statements” requires investment property to be presented as a separate line item on the face of the statement of financial position within non-current assets.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

In addition, the portions of the property that are being owner-occupied are accounted for and presented as property, plant and equipment under IAS 16 while the portions being rented out are treated and presented as investment property under IAS 40.

The Group’s property occupied by associates or joint ventures accounted for using the equity method of accounting is not considered part of the Group for consolidation purposes and, therefore, the property is not owner-occupied from the Group’s perspective. Therefore, this property is treated as investment property.

(b) Trading properties

Argentine GAAP - There are not specific requirements for separate presentation of trading properties. Trading properties are included as part of inventories and non-current investments.

IFRS - Trading properties are inventories under IAS 2 “Inventories”. The Group also has materials and supplies, and other items classified as inventories under IAS 2. Due to the significance and different nature of these inventories, the Group decided to present trading properties separately.

(c) In-kind receivables from barter transactions

Argentine GAAP - In-kind receivables from barter transactions representing the Group’s right to receive residential apartments to be constructed by a third-party developer are classified as inventory on the face of the statement of financial position.

IFRS - In-kind receivables representing the Group’s right to receive residential apartments to be constructed by a third-party developer are not financial assets under IFRS. These in-kind receivables are similar to trading properties and they are classified accordingly in current or non-current assets, as appropriate.

(d) Non-current investments – financial assets

Argentine GAAP - There are not specific requirements for separate presentation of financial assets. Certain financial assets carried at cost under Argentine GAAP were included within non-current investments.

IFRS - IAS 1 “Presentation of Financial Statements” requires financial assets carried at fair value through profit or loss to be presented as a separate line item on the face of the statement of financial position.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

(e) Current investments – investments in financial assets

Argentine GAAP - Certain instruments carried at fair value are included within the line item investments in the face of the statement of financial position.

IFRS - These investments are also carried at fair value but they are separately disclosed in the new line item titled “Investments in financial assets”.

(f) Advances for purchases of property, plant and equipment, inventories and investments in associates and joint ventures

Argentine GAAP - Receivables representing money advances made for the purchase of items of property, plant and equipment, inventories and investments in associates and joint ventures are shown as part of their respective balances.

IFRS - Advances for the purchase of items of investment properties, property, plant and equipment, inventories and investments in associates and joint ventures are not considered part of these balances until the respective item is received, and, thus, they are shown within “Trade and other receivables, net”.

(g) Software

Argentine GAAP – Under Argentina GAAP, the Group classified software into property, plant and equipment.

IFRS – Software is not considered part of property, plant and equipment, thus, it is shown within “Intangible Assets, net”.

Reclassifications affecting the statement of income for the six and three-month periods ended December 31, 2011 and for the year ended June 30, 2012

(i) Revenue – service income and service charges

Argentine GAAP – The Group structures its operating leases to allow for recovery of a significant portion of property operating, real estate taxes, repairs and maintenance, and advertising and promotion expenses from tenants. A substantial portion of the Group’s leases require the tenants to reimburse the Group for a substantial portion of operating expenses, including common area maintenance, real estate taxes and insurance. The Group’s tenants are required to pay for their proportionate share of property common operating costs. These expenses (“service charge expenses”) are incurred and paid by the Group and subsequently charged to tenants without any mark-up (“service charge income”).

Under Argentine GAAP, service charge income and service charge expense are offset and presented net in the income statement.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

IFRS - IAS 18 states that whether an entity is acting as a principal or an agent in transactions is dependent on the facts and circumstances of the relationship. The Group has assessed the substance of the transactions and concluded that the Group is acting as a principal since it has exposure to the significant risks and rewards associated with the rendering of services.

Therefore, service charge income is presented separately from property operating expenses. Property operating expenses are expensed as incurred and any property operating expenditure not recovered from tenants through service charges or when the property is vacant are charged to the statement of income. The Group’s advertising and promotional costs are expensed as incurred.

(ii) Gains on disposal of investment

Argentine GAAP - As part of the Group’s strategy, the Group may dispose of investment properties which are no longer considered core to the Group’s ongoing operations and for which profit can be realized from value appreciation. Gain on disposals of office buildings is classified as revenue in the statement of income.

IFRS - Based on the IFRS Conceptual Framework, gain on disposal of assets described above are not reported under “Revenues”.

Under IFRS, gains from the disposal of fixed assets are not included in “Revenue” as the standard refers to the sale of goods including goods produced by the entity for sale or purchased for resale. Only property acquired or constructed for sale and held as inventory (“Trading property”) would therefore be included in the “Revenues”, except for property held as an investment properties or property, plant and equipment.

(iii) Other operating results, net

Argentine GAAP - Under Argentine GAAP, certain income and expense items are included as part of financial results or other non-operating income and expenses, as appropriate. These items primarily comprise fees payable related to the management contract charges for provisions (i.e. generally charges for litigation and claims), gains or losses on disposal of property, plant and equipment items, gains or losses from the sale of subsidiaries and taxes borne by the Group on behalf of shareholders, among others.

IFRS - Under IFRS, income and expense items are generally presented according to its nature and the Group’s presentation policy. The items described above are generally presented as “Other operating results, net” under IFRS.

(iv) Investment in financial assets

Argentine GAAP – Investments in entities in which the Company does not exercise significant influence, joint control or control, are accounted at cost plus dividends. The received dividends are included within Share of profit or loss of associates and joint ventures.

IFRS – Investments in entities which are not subsidiaries, associates and joint ventures, are measured at fair value. Changes in fair values and gains from disposal of equity investments at fair value through profit or loss and dividends income are recorded within “Financial results, net” in the statement of income.

Reclassifications affecting the statements of cash flows for the six-month period ended December 31, 2011 and for the year ended June 30, 2012.

Pursuant to Argentine GAAP, the Group proportionally consolidated the joint ventures’ accounts. Consequently, a difference is generated between the amount of cash and cash equivalents reported in the statement of cash flows under Argentine GAAP and the amount of cash and cash equivalents that would be reported in the statement of cash flows prepared under IFRS.

On the other hand, under the Argentine GAAP, the effect of exchange rate changes on cash and cash equivalents was shown as part of operating activities and not under a fourth category in the statement of cash flows as required by the IFRSs.

Additionally, pursuant to Argentine GAAP, proceeds from sale of property, plant and equipment (including properties classified as investment properties under IFRS) were reported as operating activities. In accordance with IFRS proceeds from sale of investment properties and property, plant and equipment are reported as investing activities.

Finally, pursuant to Argentine GAAP, acquisition of non-controlling interest was reported as investing activities, whereas, in accordance with IFRS, it must be reported as cash from financing activities.

Thus, cash flows generated by or used in operating, investing and financing activities were different in the statement of cash flow prepared under Argentine GAAP.

2.3.12.3 Measurement adjustments (Column IV)

Argentine GAAP differs in certain significant respects from IFRS. Such differences involve methods of measuring the amounts shown in the consolidated financial statements, as further described below:

(A) Currency translation adjustment

As noted in the section titled “IFRS exemption options”, the Group has applied the one-time exemption to set the foreign currency cumulative translation adjustment (“CTA”) to zero as of July 1st, 2011.

(B) Revenue recognition – “scheduled rent increases”

Argentine GAAP - Revenue from “non-cancelable” leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Therefore, revenue does not include an averaging of rental income. Rent-free periods, reduced rent or other tenant incentives, if any, are recognized in the period in which these incentives are provided.

IFRS - The Group applied IAS 17 “Leases”. As a result, lease income from operating leases with scheduled rent increases is recognized on a straight-line basis over the term of the leases. All tenant incentives, if any, are treated as a reduction of rental income on a straight-line basis over the lease terms.

(C) Revenue recognition – “letting fees”

Argentine GAAP - The Group does not generally use the services of a third-party lease agent for its shopping center properties. Rather, the Group acts as its own leasing agent and earns letting fees. Letting fees are recognized at the time a transaction is successfully completed. A transaction is considered successfully completed when both parties (the tenant and the Group) have signed the related lease contract.

IFRS - The Group considers that in these circumstances payments received from tenants for “letting fees” are not different from other payments received such as admission rights. Accordingly, revenue from letting fees is recognized under the straight-line method over the lease term.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

(D) Trading properties

Argentine GAAP - Trading properties are stated at the lower of cost adjusted for inflation or net realizable value. Additionally, trading properties are measured at net realizable value when contracts are exchanged for which a non-refundable deposit has been received securing the sale in advance of legal completion (i.e. transfer of deed of title and significant risk and rewards). This form of sale fixes the price of the property and the terms and conditions of the contract providing reasonable certainty about the closing of the transaction and realization of the gain. Accordingly, these transactions are deemed consummated for Argentine GAAP purposes and revenue is recognized at the time the contract is signed. Gains on the revaluation of trading property to net realizable value are shown as “gain from recognition of inventories at net realizable value” in the statement of income.

IFRS - Trading properties are measured at the lowest of cost or net realizable value. Revenue from the sale of properties is recognized only when the significant risks and rewards have transferred to the buyer. This will normally take place on unconditional exchange of contracts at the moment of the transfer of title deed. For conditional exchanges, sales are recognized when these conditions are satisfied.

(E) Pre-operating and organization expenses

Argentine GAAP - Under Argentine GAAP, pre-operating, organization expenses and other start-up costs (mainly related to the opening of new shopping centers) are capitalized and amortized under the straight-line method generally over a period of three to five years.

IFRS - IFRS prescribes that pre-operating expenses cannot be attributed to the cost of property, plant and equipment, investment properties, trading properties or the creation of intangible assets and are immediately recognized as expenses.

(F) Goodwill

Argentine GAAP - The Group accounts for acquisitions of businesses and non-controlling interests under the purchase method of accounting. Under the purchase method of accounting, the Group allocates the purchase price to tangible and intangible assets and liabilities based on the respective fair values. Goodwill represents the excess of cost over the fair value of net identifiable assets and is amortized under the straight-line method over the weighted average useful life of the tangible assets acquired. Goodwill does not exceed its respective estimated recoverable value at year-end.

IFRS - As noted Note 2.2., the Group has applied the exemption in IFRS 1 for business combinations. Also, as noted in Note 2.2., the Group has applied the exception in IFRS 1 for acquisitions of non-controlling interests.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

(G) Negative Goodwill

Argentine GAAP - Under Argentine GAAP, when the amount paid in a business combination or acquisition of a non-controlling interest is lower than the carrying amount of the acquired assets and assumed liabilities, the Group recognizes such amount as negative goodwill on the statement of financial position (as a deduction to non-current assets) and amortizes it over the period considered to justify negative goodwill not exceeding 20 years. However, under Argentine GAAP, when negative goodwill exists, acquired intangible assets which otherwise would be recognized are reduced to absorb the negative goodwill even if they are then assigned a zero value.

Additionally, where the amount paid for the acquisition of associates and/or joint ventures is lower to the investor's interest in the net fair values of the associate and/or joint venture's identifiable assets and liabilities, the Group recognizes such amount as negative goodwill on the statement of financial position and amortizes it over the period considered to justify negative goodwill not exceeding 20 years. That amortization is recognized under the line “Share of profit / (loss) of associates and joint ventures” in the statement of income.

IFRS - As noted in Note 2.2., the Group has applied the exemption in IFRS 1 for business combinations. Also, as noted in Note 2.2., the Group has applied the exception in IFRS 1 for acquisitions of non-controlling interests. Consequently, business combinations and acquisitions of non-controlling interests completed prior to July 1st, 2011 have not been restated, and the carrying amount of negative goodwill under IFRS as of July 1st, 2011 equals the carrying amount under Argentine GAAP as of that date. In accordance with IFRS, negative goodwill is recognized in profit or loss immediately.

Additionally, acquisitions of associates and/or joint ventures are initially recorded at cost of the investment. Any difference between the cost of the investment and the investor's interest in the net fair values of the associate's and/or joint venture's identifiable assets and liabilities is goodwill. Negative goodwill is taken to the income statement in the period when the associate and/or joint venture is acquired.

(H) Non-current investments – investments in financial assets

Argentine GAAP - The Group holds investments in quoted equity securities with readily determinable fair values, namely TGLT S.A., Hersha Hospitality Trust and Supertel. Under Argentine GAAP, these investments are carried at acquisition cost since they are not held for the purpose of trading in the short term.

IFRS - Under IFRS 9 “Financial Instruments”, all equity investments are measured at fair value. For certain equity investments, the Group can make an irrevocable election at initial recognition to recognize changes in fair value through other comprehensive income rather than profit or loss. However, the Group has decided to not recognize changes in fair value through other comprehensive income. The Group has elected to recognize changes in the fair value of these equity securities in the statement of income.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

(I) Initial direct costs on operating leases

Argentine GAAP - Under Argentine GAAP, certain initial direct costs (i.e. legal fees, commissions and other fees) paid to third parties for arranging a lease (when the Group is a lessor) are recognized as an immediate expense when incurred.

IFRS - Initial direct costs incurred by lessors in arranging an operating lease are added to the carrying amount of the leased assets (i.e. investment properties) and are recognized as an expense over the lease term on the same basis as the lease income.

(J) Tenant deposits

Argentine GAAP - The Group obtains deposits from tenants as a guarantee for returning the property at the end of the lease term in a specified good condition or for the lease payments for a period of generally 3 years. The deposit amounts, usually, one month of rent. These deposits are treated as liabilities under Argentine GAAP and measured at the amount received by the tenants.

IFRS - Tenant deposits are treated as a financial liability in accordance with IFRS 9, and they are initially recognized at fair value. The difference between fair value and cash received is considered to be part of the minimum lease payments received for the operating lease (deferred income). The deposits are subsequently measured at amortized cost, and deferred income is amortized under the straight line method over the lease term.

(K) Impairment of financial assets

Argentine GAAP - At July 1st, 2011, December 31, 2011 and June 30, 2012, the Group maintains receivables relating to credit card loans, which are carried at amortized cost. Under Argentine GAAP, the Group determined an allowance for doubtful accounts based on specific criteria set forth for financial and banking institutions.

IFRS - The Group applied the criteria for impairment provisions in IFRS 9.

(L) Present value accounting – tax credits

Argentine GAAP - Under Argentine GAAP, certain long-term tax credits are present-valued as of year-end.

IFRS - Under IFRS, there is no requirement to discount long-term tax credits. The Group elects to measure tax receivables and payables at the amounts expected to be recovered from or paid to the tax authorities and thus, not discounting long-term tax credits.

(M) Investment properties

Argentine GAAP - There are not specific requirements for presentation of investment property. Accordingly, the Group includes it as part of property, plant and equipment and non-current investments and are measured at acquisition cost less accumulated amortization and loss for impairments, if any. Additionally, trading properties are measured at net realizable value when contracts are exchanged for which a non-refundable deposit has been received securing the sale in advance of legal completion (i.e. transfer of title deed and significant risk and rewards). This form of sale fixes the price of the property and the terms and conditions of the contract providing reasonable certainty about the closing of the transaction and realization of the gain. Accordingly, these transactions are deemed consummated for Argentine GAAP purposes and revenue is recognized at the time the contract is signed. Gains on the revaluation of trading property to net realizable value is shown as “Gain from recognition of inventories at net realizable value” in the statement of income.

IFRS - Investments properties are measured at cost, less accumulated depreciation and loss for impairments, if any. Revenue from the sale of properties is recognized only when the significant risks and rewards have transferred to the buyer. This will normally take place with the transfer of title deed. For conditional exchanges, sales are recognized when these conditions are satisfied.

(N) Impact of adjustments in accordance with IFRS in investments in associates

Argentine GAAP - Investments in entities in which the Group exercises significant influence, but not control, are accounted for under the equity method. Under the equity method, the investment is recorded at original cost and periodically increased (decreased) by the investor's proportionate share of earnings (losses) of the investee and decreased by all dividends received from the investor by the investee. The Group applies its percentage ownership interest to the financial statements of its equity method investments prepared under Argentine GAAP.

As of July 1st, 2011, the associates of the Group are Banco Hipotecario S.A., Banco de Crédito & Securitización S.A., Manibil S.A., New Lipstick LLC, Lipstick Management LLC, Rigby 183 LLC and Tarshop S.A. As of December 31, 2011 and June 30, 2012 Bitania 26 S.A. is incorporated.

IFRS - The Group assessed all of its interests in the entities mentioned in the paragraph above and determined that the Company exercises significant influence over them. Accordingly, under IFRS, the Group also accounts for these investments under the equity method of accounting. However, the Group has assessed the impact of IFRS adjustments on the financial statements of these investments prepared under Argentine GAAP prior to the application of the equity method.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

Following is a description of the most significant IFRS adjustments to the equity, income and comprehensive income of its associates. For ease of presentation and to facilitate an understanding of the nature of the IFRS adjustments, associates were grouped by business activities. Associates are not discussed below when IFRS adjustments were not significant to the Group or no IFRS adjustments were identified:

Banking business

The Group assessed the financial statements of associates of the Group related to the banking business as of July 1st, 2011, December 31, 2011 and June 30, 2012 and determined the following adjustments to IFRS:

- Under Argentine GAAP, revenues from life and disability insurance and loan origination fees are recognized on an up-front basis. Under IFRS, these revenues are recognized on a straight line basis over the term of the respective underlying receivables.

- Under Argentine GAAP, the allowance for doubtful accounts for loan losses are recognized based on specific criteria as set forth by the Central Bank for financial and banking institutions. Under IFRS, the associate applied the impairment provisions in IFRS 9.

- Under Argentine GAAP, receivables transferred to trusts in securitization programs are treated as sales and a gain or loss is recognized on the sale. Usually the transferor retains an interest in the trust and maintains a cash reserve which serves as collateral for payments of amounts due under the debt securities issued by the trust. Under IFRS, following the provisions of IFRS 9, the associate is not able to derecognize financial assets with these characteristics. As a result, the associate continues recognizing the receivables and a liability for the consideration received upon transfer. The receivables recognized are then tested for impairment following the IFRS 9 criteria.

- Under Argentine GAAP, the calculation of the insurance technical reserves is recognized following the regulations issued by the National Insurance Superintendence. Under IFRS, following the guidance of IFRS 4 “insurance contracts”, the associate measured the insurance technical reserve in accordance with the “best estimation” approach.

Investment properties

The Company assessed the financial statements of the associates related to the investment property business and determined the following adjustments to IFRS as of July 1st, 2011, December 31, 2011 and June 30, 2012:

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

- Under Argentine GAAP, revenue from non-cancelable leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Therefore, revenue does not include an averaging of rental income. Rent-free periods, reduced rent or other tenant incentives, if any, are recognized in the period in which these incentives are provided. Under IFRS, lease income from operating leases with scheduled rent increases is recognized on a straight-line basis over the term of the leases. All tenant incentives, if any, are treated as a reduction of rental income on a straight-line basis over the lease terms.

- Under Argentine GAAP, lease expense where the entity is the lessee under an operating ground lease agreement subject to escalation clauses is recognized when the escalated payments are due. Therefore, lease expenses are not recognized on a straight-line basis. Under IFRS, lease payments for operating leases with scheduled rent increases are recognized on a straight-line basis over the term of the leases.

(O) Impact of IFRS adjustment on joint ventures

Argentine GAAP - Investments in entities in which the Group exercises joint control are accounted for under the proportionate consolidation method. Under the proportionate consolidation method, the financial statements of the Group reflect the Group’s pro-rata equity interest in the jointly controlled entities on a line-by-line basis. The Group applied its pro-rata equity interest to the financial statements of its jointly-controlled entities prepared under Argentine GAAP.

IFRS – The Group assessed all of its interests in joint arrangements and determined that they are joint ventures under IFRS 11 “Joint Arrangements”. Accordingly, the Group accounted for its joint ventures under the equity method of accounting. The Group has assessed the impact of IFRS adjustments on the financial statements of joint ventures prepared under Argentine GAAP prior to the application of the equity method.

As of July 1st, 2011, the joint ventures of the Group are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A. As of December 31, 2011 and June 30, 2012 Nuevo Puerto Santa Fe S.A. is incorporated.

Following is a description of the most significant IFRS adjustments to the equity and income of the joint ventures. Joint ventures are not discussed below when IFRS adjustments were not significant to the Group or no adjustments were identified.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

- Under Argentine GAAP, the joint venture has historically accounted for revenues and therefore profits from all property sales on a percentage of completion basis once contracts for the sale of a property have been exchanged and only if the eventual profit from that property can be foreseen with reasonable certainty. Under IFRS, the joint venture has applied IFRIC 15 “Agreements for the construction of Real Estate”. The Group assessed the contractual terms of the agreements and concluded that revenue from open market sales of real estate should be accounted for on legal completion of the agreement in accordance with IAS 18 “Revenue”. As a result, the joint venture recognizes revenue from the sale of private homes and commercial units entirely at the point of legal completion in accordance with IAS 18. The most significant impact of IFRIC 15 is therefore the deferral of profits previously recognized from the point of exchange of contracts onwards until the point of legal completion. All of these profits are now recognized at a later date.

- Under Argentine GAAP, tenant deposits are treated as liabilities and measured at the amount received by the tenants. Under IFRS, tenant deposits are treated as both a financial asset and a financial liability in accordance with IFRS 9, and they are initially recognized at fair value. The difference between fair value and cash received is considered to be part of the minimum lease payments received for the operating lease. The deposits are subsequently measured at amortized cost.

- Under Argentine GAAP, revenue from non-cancelable leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Under IFRS, the Group applied IAS 17 “Leases”. Consequently, revenue derived from operating leases with scheduled increases is recognized on a straight line basis over the lease agreement term.

- Under Argentine GAAP, certain long-term tax credits are present-valued as of year-end. Under IFRS, there is no requirement to discount long-term tax credits. The joint venture elects to measure tax receivables and payables at the amounts expected to be recovered from or paid to the tax authorities and thus, not discounting long-term tax credits. As a result, the joint venture eliminated the effect of discounting tax.

(P) Acquisition of non-controlling interest

As stated in Note 2.2., the Group has applied the exception provided by IFRS 1 for accounting for changes in the interest in subsidiaries that do not result in loss of control. Consequently, acquisitions of non-controlling interests that took place before July 1st, 2011 have not been restated.

IFRS adjustments detailed below relate to acquisitions of non-controlling interest that took place on July 1st, 2011 or after date.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

Argentine GAAP - Under Argentine GAAP, the Group accounted for the acquisition of the non-controlling interests under the purchase method of accounting. Under the purchase method of accounting, the purchase price paid is allocated to the net assets acquired based on its fair value. Assets, including goodwill, and liabilities of the acquired business are recognized using a cost accumulation approach (i.e. for the previous equity interests acquired). These acquisitions generated goodwill since the cost of acquisition exceeded the fair value of the net tangible and intangible assets acquired.

IFRS - Under IFRS, the Group applied the principles of IFRS 10 in accounting for changes in ownership interests. As per IFRS 10, when an additional interest is obtained and control is maintained, the transaction is accounted for as an equity transaction. The Group does not recognize any additional acquisition adjustments to reflect the subsequent acquisition of additional interest in the subsidiary if there is no change in control.

Under IFRS, the difference between the fair value of the consideration paid and the related carrying value of the non-controlling interest acquired is recognized in the controlling interest’s equity as a credit or debit to a reserve in net equity. Therefore, no gain or loss is recognized in the statement of income and no additional goodwill is recognized. The carrying value of the non-controlling interest is adjusted to reflect the change in the non-controlling interest’s ownership interest in the subsidiary.

(Q) Amortization of borrowing costs

Argentine GAAP - Under Argentine GAAP, transactions costs directly attributable to the acquisition of borrowings are amortized under the straight-line method over the contract term.

IFRS - Transaction costs directly attributable to the acquisition of borrowings are deducted from the fair value at which the financial liability is initially recognized. Subsequently, they are amortized using the effective interest method over the contract term.

(R) Currency translation adjustment

Argentine GAAP - Foreign operations shall be classified as integrated or non-integrated entities depending if their activities are carried out as an extension of the reporting entity. Exchange differences resulting from the translation of integrated entities are recognized in the statement of income. Exchange differences resulting from the translation of non-integrated entities are recognized in a separate reserve in equity.

IFRS - Exchange differences resulting from the translation of foreign operations of subsidiaries and associates are recognized in the statement of other comprehensive income.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

(S) Deferred income tax

Argentine GAAP - The Group accounts for income taxes using the deferred tax method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax based assets and liabilities and are measured using the enacted tax rates. Argentine GAAP does not prescribe detailed specific guidance related to the recognition of a valuation allowance. The Group assesses the need for a valuation allowance based on several factors including but not limited to current projections, legal expiration periods and others.

IFRS - There is no difference in the determination of deferred income taxes. However, deferred tax assets are recognized when it is considered probable (defined as “more likely than not”) that sufficient taxable profits will be available to utilize the temporary difference or unused tax losses. IFRS does not allow the recognition of valuation allowances.

IFRS establishes more specific and strict procedures to assess whether a deferred tax asset should be recognized. All available evidence, both positive and negative, is considered to determine whether, based on the weight of that evidence, a deferred tax asset should be recognized. Judgment must be used in considering the relative impact of negative and positive evidence. The weight given to the potential effect of negative and positive evidence should be commensurate with the extent to which it can be objectively verified. The more negative evidence that exists (a) the more positive evidence is necessary and (b) the more difficult it is to support a conclusion that a deferred tax asset can be recognized.

(T) Non-controlling interest

Differences for non-controlling interest include the effect of recording, where applicable, the corresponding effect of other differences between Argentine GAAP and IFRS.

2.4. Significant Accounting Policies

The principal accounting policies applied in the presentation of these Unaudited Condensed Interim Consolidated Financial Statements are consistent with those applied in the preparation of the information under IFRS as of June 30, 2012, which is described in Exhibit I attached hereto and are based upon such IFRS expected to be in force as of June 30, 2013. The most significant accounting policies are described in Exhibit I.

2.5. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

2. Basis of preparation and adoption of international financial reporting standards (“IFRS”) (Continued)

In the preparation of these condensed interim consolidated financial statements, the significant judgments made by Management in applying the Group’s accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual consolidated financial statements for the year ended June 30, 2012 which are described in Exhibit I.

2.6 Seasonal effects on operations

The operations of the Group’s shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

3. Acquisitions and disposals

Transactions with non-controlling interest

APSA

As of August, 2012, the Group, through E-Commerce Latina S.A., acquired an additional equity interest of 0.03% in APSA for a total consideration of Ps. 0.6 million. The book value of the non-controlling interest in APSA as of the date of the acquisition was Ps. 36 million (which represents an interest of 4.39%). As a result of this transaction, the non-controlling interest was reduced by Ps. 1 million and the interest attributable to the shareholders’ of the controlling parents was reduced by Ps. 1 million. The effect on shareholders’ equity of this change in the equity interest in APSA is summarized as follows:

	Ps.
Carrying value of the equity interests acquired by the Group	256
Price paid for the non-controlling interest	(590)
Reserve created due to the acquisition recognized in the parent’s equity	(334)

3. Acquisition and disposals (Continued)

As of October, 2012, the Group, through E-Commerce Latina S.A., acquired an additional equity interest of 0.04% in APSA for a total consideration of Ps. 1.1 million. The book value of the non-controlling interest in APSA as of the date of the acquisition was Ps. 39 million (which represents an interest of 4.36%). As a result of this transaction, the non-controlling interest was reduced by Ps. 0.3 million and the interest attributable to the shareholders' of the controlling parents was reduced by Ps. 0.3 million. The effect on shareholders' equity of this change in the equity interest in APSA is summarized as follows:

	Ps.
Carrying value of the equity interests acquired by the Group	318
Price paid for the non-controlling interest	(1,126)
Reserve created due to the acquisition recognized in the parent's equity	(808)

Acquisition of equity interest in joint venture

On November 29, 2012 APSA acquired shares of common stock, representing 50% of Entertainment Holdings S.A. ("EH")'s capital stock and votes for Ps. 32 million. APSA exercises joint control over EH together with shareholder owners of the remaining 50%.

EH's core asset is a 50% indirect interest in La Rural S.A. ("LRSA")'s capital stock and votes. EH exercises joint control over LRSA, together with Sociedad Rural Argentina ("SRA"), the owner of the remaining 50% interest in LRSA.

Therefore, APSA's indirect interest in LRSA amounts to 25% as of the date of these unaudited condensed interim consolidated financial statements.

LRSA is mainly engaged in the operation of Predio Ferial de Buenos Aires, a fairground located in an area surrounded by Cerviño, Sarmiento, and Santa Fe Avenues and Oro Street, City of Buenos Aires (the "Fairground"). LRSA is the beneficiary of that Fairground under an usufruct agreement executed with the owner thereof, SRA, in 1999.

Purchase of financial assets

During this period the Group purchased the following corporate notes from:

- a) The Government of the City of Buenos Aires, for a nominal value of Ps. 19.0 million. These notes accrue interest at an annual 7.95% fixed rate, payable semi- annually and maturing on April 29, 2014.
- b) Banco Hipotecario for Ps. 5 million, which accrue interest at an annual 18.75% fixed annual rate, payable semi- annually and maturing on August 8, 2013.

3. Acquisition and disposals (Continued)

Disposal of financial assets

In September 2012 the Group sold 2,000,000 ordinary shares of Hersha Hospitality Trust (“Hersha”) for a total amount of US\$ 9.7 million. Therefore, the Group’s interest in Hersha’s capital stock decreased from 9.13% to 8.12% as of September 30, 2012. This percentage has remained unchanged as of the date of these Unaudited Condensed Interim Consolidated Financial Statements. Subsequent to December 31, 2012, the Group sold an additional number of Hersha’s shares. See Note 33.

In November and December 2012, IRSA sold all of its shareholdings in NH Hoteles S.A. (138,572 shares for a consideration of € 0.38 million) and in NH Hoteles S.A. (387,758 shares for a total consideration of US\$ 1.4 million).

In December 2012, IRSA sold all of its shareholdings in Metrovacesa F (1,238,990 shares for a consideration of € 2.7 million); Metrovacesa SM (229,995 shares for a total consideration of € 0.5 million) and Metrovacesa F (919,087 shares for a consideration of US\$ 2.7 million).

Significant sales of investment properties

On August 31, 2012, IRSA sold certain functional units of the building “Libertador 498” in the city of Buenos Aires. The total price of the transaction amounted to Ps. 15 million and was paid on the execution of the title conveyance deeds. This transaction generated a gain of Ps. 12.7 million.

On September 14, 2012, IRSA sold certain functional units on floors 18 and 19, as well as parking areas, of the building Bouchard 551. The total price of the transaction was US\$ 8.5 million paid upon execution of the conveyance deed. This transaction generated a gain of Ps. 18.4 million.

On October 4 and 11, 2012, IRSA signed the transfer deed for the sale of several functional units (stores and parking spaces) of the building “Libertador 498”. The transactions price was set at Ps. 29.4 million, amount that had been completely collected. This transaction generated a gain of Ps. 24.9 million.

Subsequent to December 31, 2012, IRSA disposed of other investment property. See Note 33.

3. Acquisition and disposals (Continued)

Acquisition of Rigby 183 LLC

On June 30, 2012, the Group held through its subsidiary IMadison LLC a 49% equity interest in the capital stock of Rigby 183 LLC (“Rigby”), a company that owns office buildings for rental at Madison Avenue 183, New York, USA. On November 27, 2012, the Group, through its subsidiary IRSA International LLC, purchased an additional 25.5% equity interest in Rigby’s capital stock, thus taking control over said company. As a result of the acquisition, the Group expects to increase its footprint in the US real estate market. The goodwill from the acquisition, which amounts to Ps. 45.7 million, is attributable to the synergies expected to be achieved by combining the Group’s and Rigby’s operations.

The following chart shows the consideration paid by the Group, the fair value of the acquired assets, the assumed liabilities and the non-controlling interest as of the acquisition date.

Consideration paid:	11.27.2012
Cash and cash equivalents	118,373
Total consideration paid	118,373
Fair value of the interest in Rigby’s equity held before the business combination	227,462
Total consideration	345,835
Recognized balances of acquired identifiable assets and assumed liabilities:	
Cash and cash equivalents	499
Investment properties (Note 9)	679,219
Trade and other receivables, net	14,135
Borrowings	(252,834)
Trade and other payables	(12,081)
Deferred income tax liabilities (Note 22)	(26,103)
Total net identifiable assets	402,835
Non-controlling interest	(102,723)
Goodwill (Note 22)	45,723
Total	345,835

The acquisition-related costs (which amount to Ps. 2.5 million) were charged under “General and Administrative Expenses” in the statement of income.

The fair value of the investment property acquired for Ps. 679.2 million was assessed by a qualified independent appraiser. The fair value of trade and other receivables amounts to Ps. 14.1 million, including trade receivables in the amount of Ps. 0.1 million. As of the acquisition date, the Group estimates that these receivables are recoverable. The fair value of the non-controlling interest in Rigby, an unlisted company, has been determined on a proportional basis to the fair value of Rigby's net acquired assets.

3. Acquisition and disposals (Continued)

The Group recognized income of Ps. 124.1 million derived from the reassessment of the fair value of the 49% interest held in Rigby before the business combination. In addition, all exchange gains (losses) accumulated in shareholders' equity from the interest held in Rigby before the business combination (Ps. 12.9 million) were charged to income. These gains were disclosed under "Other operating results, net" in the statement of income.

The revenues Rigby has generated since November 27, 2012 and that have been disclosed in the consolidated statement of income amount to Ps. 12.1 million. Rigby has also run a net loss of Ps. 4 million during said period. If Rigby had been included in the consolidation since July 1st, 2012, the consolidated income statement would have shown pro-forma revenues in the amount of Ps. 1,101.4 million and pro-forma net income of Ps. 244.2 million.

4. Financial risk management

4.1. Financial risk

The group's diverse activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk) credit risk, liquidity risk and capital risk.

The Exhibit I provides information on financial risk management as of June 30, 2012 and July 1st, 2011. Since June 30, 2012, there have been no significant changes in the risk management or risk management policies applied by the Group.

4.2. Fair value estimates

Since June 30, 2012 there have been no significant changes in business or economic circumstances affecting the fair value of the Group's financial assets or liabilities (either measured at fair value or amortized cost), nor any transfers between the different hierarchies used to assess the fair value of the Group's financial instrument and / or reclassifications between categories of financial instruments.

7. Interests in joint ventures

As of December 31, 2012, the joint ventures of the Group are Canteras Natal Crespo S.A., Cyrsa S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. Nuevo Puerto Santa Fe S.A. (“NPSF”) and Entertainment Holdings S.A. The shares in these joint ventures are not publicly traded.

As of June 30, 2012, the joint ventures of the Group were Canteras Natal Crespo S.A., Cyrsa S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. and NPSF.

As noted Note 3, APSA acquired shares of common stock, representing 50% of Entertainment Holdings S.A. (“EH”)’s capital stock and votes and as a consequence APSA holds a jointly indirect interest in LRSA of 25% which operates the fairground Predio Ferial de Buenos Aires.

In connection with the Fairground, as publicly known, in December 2012 the Executive Branch issued Executive Order 2,552/12 that annulled an executive order dated 1991 which approved the sale of the Fairground to the SRA; the effect of this new order was to revoke the sale transaction. Subsequent to December 21, 2012, the Executive Branch notified the SRA of said executive order and further ordered that the property be returned to the Federal Government within 30 subsequent days. Then, the SRA issued a press release publicly disclosing the initiation of legal actions.

Neither has APSA been served notice formally nor is it a party involved in the legal actions brought by the SRA.

As of the date of these unaudited condensed interim consolidated financial statements, the above mentioned legal matters resulted in certain delays in gathering the information necessary to register the acquisition pursuant to IFRS 3. Therefore, APSA has prudently decided to record its investment at cost. APSA expects to complete the fair value computation on net assets acquired during the fiscal year ended June 30, 2013.

Changes in the Group’s investments in joint ventures for the six-month period ended December 31, 2012 and for the year ended June 30, 2012 were as follows:

	12.31.2012	06.30.2012

22. Current and deferred income tax

The details of the provision for the Group's income tax, were as follows:

	12.31.2012	12.31.2011
Current income tax	(98,711)	(106,507)
Deferred income tax	28,627	53,023
Income tax gain	(70,084)	(53,484)

The gross movement on the deferred income tax account was as follows:

	12.31.2012	06.30.2012
Beginning of the period / year	(376,977)	(467,129)
Acquisition of subsidiary	(26,103)	-
Currency translation adjustment	3,870	
Income tax and deferred income tax	28,627	90,152
End of the period / year	(370,583)	(376,977)

The Group did not recognize deferred income tax assets of Ps. 37.1 million and Ps. 48.9 million as of December 31, 2012 and June 30, 2012, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of the different Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of the Group itself, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

Below is a reconciliation between income tax recognized and that which would result applying the prevailing tax rate on Profit before income tax for the six-month periods ended December 31, 2012 and 2011:

	12.31.2012	12.31.2011
Tax calculated at the tax rates applicable to profits in the respective countries	118,423	39,925
Permanent differences:		
Share of loss of associates and joint ventures	(15,597)	(16,006)
Difference between tax return and provision	(6,332)	(4,904)
Unrecognized tax losses	(23,151)	810
Non-deductible items	1,429	1,513
Non-taxable items	-	(5,601)
Non-taxable income	(7,322)	34,402
Others	2,634	3,345
Income tax gain	70,084	53,484

Limited Review Report

To the Shareholders, President and Board of Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
C.U.I.T.: 30-52532274-9

Legal address: Bolívar 108 - 1° floor - Autonomous City of Buenos Aires

1. We have reviewed the accompanying unaudited condensed interim consolidated statement of financial position of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries as of December 31, 2012, and the related unaudited condensed interim consolidated statements of income, unaudited condensed interim consolidated statements of comprehensive income for the six and three-month periods ended December 31, 2012, and the unaudited condensed interim consolidated statements of changes of shareholders' equity and unaudited condensed interim consolidated statements of cash flows for the six-month period ended December 31, 2012 and selected explanatory notes. The balances and other information corresponding to the fiscal year ended June 30, 2012 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

2. The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with International Financial Reporting Standards (IFRS). The IFRS as issued by the International Accounting Standard Board (IASB) were adopted as accounting standards by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and incorporated by the National Securities Commission (CNV) to its regulations. Therefore, the Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" (IAS 34). Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph 3.

3. We conducted our review in accordance with Technical Resolution No. 7 issued by the FACPCE for a review of interim financial statements. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit, the objective of which is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

4. As mentioned in Note 2.1 to the unaudited condensed interim consolidated financial statements, these unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34. The fiscal year ended June 30, 2013 will be the first year of application of IFRS. The adjustments and other effects of the transition to IFRS are presented in Note 2.3 to these unaudited condensed interim consolidated financial statements. The amounts included in the reconciliations shown in Note 2.3 are subject to change as a consequence of potential changes in IFRS which may occur until June 30, 2013, and should only be considered as final upon issuance of the annual financial statements for the fiscal year ended June 30, 2013.

Limited Review Report (Continued)

5. Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements have not been prepared in all material respects in accordance with IAS 34.

6. In accordance with current regulations, we hereby inform that :

a) the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima are recorded in the "Inventory and Balance Sheet Book" and carried in all formal respects in conformity with legal requirements, and comply, as regards those matters that are within our competence, with the provisions set forth in the Commercial Companies Law and the corresponding resolutions of the National Securities Commission;

b) the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima arise from accounting records carried in all formal respects in accordance with applicable legal provisions;

c) we have read the Business Summary ("Reseña Informativa") and the Additional Information to the notes to the unaudited condensed interim consolidated financial statements required by Article 68 of the Buenos Aires Stock Exchange Regulations, on which, as regards those matters that are within our competence, we have no observations to make;

d) at December 31, 2012, the debt of IRSA Inversiones y Representaciones Sociedad Anónima owed in favor of the Argentine Integrated Pension System which arises from accounting records and submissions amounted to Ps. 384,633, which was not callable at that date.

1. General information and company's business

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA" or the "Company") was founded in 1943, primarily engaged in managing real estate holdings in Argentina since 1991.

IRSA is a corporation incorporated and domiciled in Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

The Company primarily owns, manages and develops a portfolio of office and other rental properties in Buenos Aires. In addition, IRSA through its subsidiaries, associates and joint ventures manages and develops shopping centers and branded hotels across Argentina, and also office properties in the United States of America.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on February 18, 2013.

2. Basis of preparation and adoption of Technical Resolution No. 26 ("RT 26")

2.1. Basis of preparation and transition to RT 26

The National Securities Commission, ("CNV", as per its Spanish acronym), through General Resolutions No. 562/9 and 576/10, has provided for the application of Technical Resolutions No. 26 and 29 of the Argentine Federation of Professional Councils of Economic Sciences ("FACPCE", as per its Spanish acronym), which adopt the International Financial Reporting Standards ("IFRS"), issued by the International Accounting Standards Board ("IASB"), for companies subject to the public offering regime ruled by Law 17,811, due to the listing of their shares or corporate notes, and for entities that have applied for authorization to be listed under the mentioned regime.

The Company is required to adopt IFRS as from the fiscal year beginning July 1st, 2012. Consequently, the Company's transition date for the adoption of IFRS as defined by IFRS 1, "First time adoption of IFRS", is July 1st, 2011.

The Unaudited Condensed Interim Separate Financial Statements of the Company for the six and three-month periods ended December 31, 2012 and 2011 have been prepared in accordance with RT 26 of FACPCE, adopted by CNV. This Technical Resolution differs from International Accounting Standard (IAS) 34 "Interim Financial Reporting" issued by IASB, in reference to the accounting measurement criteria of the investments in subsidiaries, joint ventures and associates, which are accounted for under the equity method described by IAS 28 "Investments in associates". This criterion differs from the provisions of paragraph 38 of IAS 27 "Separate Financial Statements", whereby such investments are measured at cost or fair value.

2. Basis of preparation and adoption of Technical Resolution No. 26 (“RT 26”) (Continued)

The Unaudited Condensed Interim Separate Financial Statements have been prepared in accordance with the accounting policies that the Company expects to adopt in its first annual separate financial statements as of June 30, 2013, issued in accordance with IFRS. The accounting policies are based on IFRS issued by the IASB and the interpretations issued by the IFRS Interpretation Committee (“IFRIC”) that the Company expects to become applicable on such date.

The separate financial statements of the Company were prepared in accordance with the Argentine accounting standards (Argentine GAAP) in force, which differ from IFRS in some significant areas. To prepare these Unaudited Condensed Interim Separate Financial Statements, the Management of the Company has modified certain valuation and presentation accounting policies that were previously applied under Argentine GAAP in order comply with the IFRS.

Comparative figures and figures as of the transition date (July 1st, 2011) have been modified to reflect such adjustments. The notes below include a reconciliation of shareholders’ equity of separate financial statements prepared in accordance with the Argentine GAAP on the transition date (July 1st, 2011), on the adoption date (June 30, 2012) and on the closing date of the comparative period (December 31, 2011) and the statement of income and other comprehensive income for the fiscal year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011, and those presented in accordance with RT 26 in these Unaudited Condensed Interim Separate Financial Statements, as well as the effects of the adjustments to cash flows.

These Unaudited Condensed Interim Separate Financial Statements should be read together with the annual financial statements of the Company as of June 30, 2012 prepared in accordance with Argentine GAAP in force, and with the Unaudited Condensed Interim Separate Financial Statements as of September 30, 2012, with include an exhibit (the “Exhibit I”) which presents additional information as of June 30, 2012 and July 1st, 2011 under IFRS which is considered necessary to understand these Unaudited Condensed Interim Separate Financial Statements. Amounts included in the statement of financial position, statement of income, statement of changes in shareholders’ equity and statement of cash flows prepared under IFRS for the year ended June 30, 2012 and the amounts included in the statement of financial position as of July 1st, 2011 are detailed in Note 2.3 to these Unaudited Condensed Interim Separate Financial Statements. These Unaudited Condensed Interim Separate Financial Statements are presented in Argentine Pesos.

Unaudited Condensed Interim Separate Financial Statements corresponding to the six and three-month periods ended December 31, 2012 and 2011 have not been audited. The Company’s Management believes they include all necessary adjustments to fairly present the results of each period. The Company’s six and three-month periods ended December 31, 2012 and 2011 results do not necessarily reflect the proportion of the Company’s full-year results.

2. Basis of preparation and adoption of Technical Resolution No. 26 (“RT 26”) (Continued)

The format of the primary financial statements under Argentine GAAP is governed by Technical Resolutions 8 and 9 of the FACPCE and Resolutions of the CNV. IAS 1, “Presentation of Financial Statements” requires certain disclosures to be made on the face of the primary statements and other required disclosures may be made in the notes of the financial statements, unless another standard specifies otherwise. The transition to Technical Resolutions No. 26 has resulted in the Company changing the format of its statements of income, statements of financial position and statements of cash flows, as well as the disclosure of certain line items not prescribed by Argentine GAAP.

2.2. Initial elections upon adoption of RT No. 26

As a general rule, the Company is required to establish its IFRS accounting policies for the year ended June 30, 2013 and apply these retrospectively. However, advantage has been taken of certain exemptions and exceptions afforded by IFRS 1.

In Note 2.2. to the Unaudited Condensed Interim Consolidated Financial Statements of the Company indicates the exemptions and exceptions that are applicable in IFRS 1 and that have been applied in the transition from Argentine GAAP to RT 26.

2.3. Reconciliations of Argentine GAAP to Technical Resolution No. 26 (“RT 26”)

In accordance with the requirements of Technical Resolution No. 26 and No. 29 of FACPCE, set out below are the reconciliations of shareholders’ equity in accordance with Argentine GAAP and RT 26 at June 30, 2012, at December 31, 2011 and July 1st, 2011, and the reconciliations of income, comprehensive income and cash flows for the year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Company for the financial statements as of and for the year ended June 30, 2013. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the consolidated financial statements prepared under RT 26 for the first time as of and for the year ended June 30, 2013 are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2013, applicable standards are different.

The first reconciliation provides an overview of the impact on shareholders’ equity of the transition at July 1st, 2011, at December 31, 2011 and June 30, 2012 (Note 2.3.1). The second reconciliation provides an overview of the impact on income for the six and three-month periods ended December 31, 2011 and for the year ended June 30, 2012 (Note 2.3.1). The third reconciliation provides an overview of the impact on other comprehensive income for the six and three-month periods ended December 31, 2011 and for the year ended June 30, 2012 (Note 2.3.1).

2.3.12. Explanation of the transition to RT 26

In addition to the exemptions and exceptions discussed above, the following narratives explain the significant differences between the Argentine GAAP accounting policies and the RT No. 26 applied by the Company. Only the differences having an impact on the Company are explained below. The following is not a complete summary of all of the differences between Argentine GAAP and RT No. 26. The descriptive caption next to each numbered item below corresponds to the same numbered and descriptive caption in the summary tables above, which reflect the quantitative impacts from each change. Unless the quantitative impact is disclosed, the change impact is not significant to the Company.

Column I in the tables included on previous pages represents the Argentine GAAP balances prior to transition as published in the latest Company’s Argentine GAAP financial statements as of and for the year ended June 30, 2012 compared to the transition date (July 1st, 2011) and in the financial statements of the Company prepared under Argentine GAAP as of and for the six-month period ended December 31, 2011. However, certain reclassifications and/or groupings have already been made to that information in Column I to avoid lengthy explanations of certain format changes introduced in these first financial statements according to RT 26. The following changes have been made to the previous Argentine GAAP statement of financial position included in Column I:

- (1) The line items “Trade receivables” and “Other receivables” have been grouped into the new line item “Trade and other receivables, net”.
- (2) The line items “Trade payables”, “Customer advances”, “Taxes payable” and “Other liabilities” have been also grouped into the new line item “Trade and other payables”, with the exception of income tax and deferred income taxes which have been shown separately.
- (3) Goodwill which was previously disclosed separately offsetting negative goodwill has been included as part of “Intangible assets, net”.
- (4) Cash equivalents previously disclosed as part of the line item current investments have been grouped together with cash and banks, and the resulting line renamed “Cash and cash equivalents”.
- (5) Derivative financial instruments which were previously included as part of the non-current line items “Other receivables”, “Other payables” and/ or “Non-current investments” have been disclosed as separate assets or liabilities as appropriate.
- (6) Investments in subsidiaries, associates and joint ventures previously included as part of “Non-current investments” have been separately disclosed in the new line item “Investments in subsidiaries, associates and joint ventures”.

2. Basis of preparation and adoption of Technical Resolution No. 26 ("RT 26") (Continued)

2.3.12. Explanation of the transition to RT 26 (Continued)

The following changes have been made to the statements of income for the year ended June 30, 2012 and for the six and three-month periods ended December 31, 2011:

- (1) The format of the statements of income has been restructured to simplify its reading. To that effect, all revenue streams of the Company which were previously disclosed separately (i.e. sale of development properties, leases and services revenue), together with its corresponding costs of sales, have been aggregated into two line items titled "Revenues" and "Costs" in Column I. Revenues and Costs are then cross-referenced to respective notes in the financial statements where a detailed breakdown of the items included is provided per line of business.
- (2) According to Argentine GAAP, the share of losses and profits from subsidiaries, associates and joint ventures is shown after the financial results. Likewise, under IFRSs, the share of profits and losses from subsidiaries, associates and joint ventures is generally shown after the financial results. However, where subsidiaries, associates and joint ventures are an integral vehicle to carry out the Company's operations, it is more adequate to show the share of profits and losses of subsidiaries, associates and joint ventures before financial results. In accordance with its strategy, the Company conducts its operations through controlled companies, associates or joint ventures. Therefore, under RT 26, the Company shows the profits or losses from subsidiaries, associates and joint ventures before the financial results. For simplicity, the share of profits and losses from subsidiaries, associates and joint ventures is shown before financial results, in Column I.
- (3) According to Argentine GAAP, the financial results are separated between those generated by assets from those generated by liabilities. According to RT 26, the Company adopted the policy based on showing the finance income and the finance cost separately in the statements of income. In order to simplify the explanations, the Company reclassified the accounts according to Argentine GAAP presented in the captions "Financial results generated by assets" and "Financial results generated by liabilities" to "Finance Income" and "Finance Cost", respectively, in Column I.
- (4) According to RT 26, income and expense items not recognized in the statements of income (that is, exchange differences related to translation of foreign businesses) are shown in the statement of comprehensive income as "Other comprehensive income". According to Argentine GAAP in force, the statements of comprehensive income are not mandatory and, therefore, such items are recognized as part of shareholders' equity, in a separate reserve account. For simplicity, these items are shown in "Other comprehensive income" in Column I.

2.3.12.1 Reclassifications (Column II)

Reclassifications affecting the statements of financial position

The column titled “Reclassifications” reflects the various differences in disclosure and format between the statements of financial position according to Argentine GAAP and RT 26. Unless otherwise stated, amounts have been reclassified for presentational purposes under RT 26 prior to affecting the corresponding RT 26 adjustments, as applicable, to the Argentine GAAP amounts. The impact of the RT 26 adjustments on reclassified balances is included in Column III titled “Measurement Adjustments” and is further discussed in Note 2.3.12.2 below. Unless otherwise stated, these reclassifications affect both the statements of financial position as of the transition date, i.e. July 1st, 2011, December 31, 2011, and as of June 30, 2012.

(a) Investment properties

The reclassification is consistent with the one described in Note 2.3.12.2 a) to the Unaudited Condensed Interim Consolidated Financial Statements.

(b) Trading properties

The reclassification is consistent with the one described in Note 2.3.12.2 b) to the Unaudited Condensed Interim Consolidated Financial Statements.

(c) In-kind receivables from barter transactions

The reclassification is consistent with the one described in Note 2.3.12.2 c) to the Unaudited Condensed Interim Consolidated Financial Statements.

(d) Non-current investments – investments in financial assets

The reclassification is consistent with the one described in Note 2.3.12.2 d) to the Unaudited Condensed Interim Consolidated Financial Statements.

(e) Current investments – investments in financial assets

2. Basis of preparation and adoption of Technical Resolution No. 26 (“RT 26”) (Continued)

2.3.12.1 Reclassifications (Column II) (Continued)

Reclassifications affecting the statements of cash flows for the six-month period ended December 31, 2011 and for the fiscal year ended June 30, 2012.

Under Argentine GAAP, the effect of changes in exchange rate of cash and cash equivalents were shown as operating activities and were not presented as a fourth category in the statement of cash flow, as RT 26 required.

Additionally, pursuant to Argentine GAAP, proceeds derived from sale of property, plant and equipment (including properties classified as investment properties under RT 26) were reported as operating activities. In accordance with RT 26, proceeds derived from sale of investment properties and property, plant and equipment are reported as investment activities.

Finally, according to Argentine GAAP, the acquisition of non-controlling interests was reported as investing activities, while under RT 26 are reported as cash from financing activities.

Thus, cash flows generated by or used in operating, investing and financing activities were different in the statement of cash flow prepared under Argentine GAAP.

2.3.12.2 Measurement adjustments (Column III)

Argentine GAAP differs in certain significant respects from RT 26. Such differences involve methods of measuring the amounts shown in the consolidated financial statements, as further described below:

(A) Foreign currency translation

The Company has applied the one-time exemption to set the foreign currency cumulative translation adjustment (“CTA”) to zero as of July 1st, 2011

(B) Revenue recognition – “scheduled rent increases”

The adjustment is consistent with the one described in Note 2.3.12.3 B) to the Unaudited Condensed Interim Consolidated Financial Statement.

(I) Present value accounting – tax credits

The adjustment is consistent with the one described in Note 2.3.12.3 L) to the Unaudited Condensed Interim Consolidated Financial Statements.

(J) Investment properties

The adjustment is consistent with the one described in Note 2.3.12.3 M) to the Unaudited Condensed Interim Consolidated Financial Statements.

(K) Impact of adjustments according to RT 26 in investments in subsidiaries

Argentine GAAP - Investment in entities in which the Company exercises control, are accounted for under equity method. Under this method, the investment is recognized at its original cost and periodically increased (decreased) for the investor share in profits (loss) of the subsidiary, and decreased by dividends received from the subsidiary. The Company applies its share to the financial statements of its investments booked under the equity method, prepared in accordance with Argentine GAAP.

As of July 1st, 2011, and June 30, 2012, the subsidiaries of the Company are those detailed in Exhibit I.

RT 26 – The Company has assessed all of its interests in the companies indicated in the preceding paragraph and has determined that it exercises control over all of them. Consequently, under RT 26, the Company also accounts for such investments under the equity method. Nevertheless, the Company has assessed the impact of adjustments to RT 26 to financial statements of such entities prepared under the Argentine GAAP in force, before the application of the equity method.

In Notes 2.3.12.3 (B),(C),(D),(E),(F),(G),(H),(I),(J),(K),(L),(N),(O),(P),(S) and (T) to the Unaudited Condensed Interim Consolidated Financial Statements, there is a description of the most significant adjustments to the shareholders’ equity and profit or loss of subsidiaries, as per RT 26.

The adjustment is consistent with the one described in Note 2.3.1.12.3 O) to the Unaudited Condensed Interim Consolidated Financial Statements.

(N) Acquisition of non-controlling interest

The adjustment is consistent with the one described in Note 2.3.12.3 P) to the Unaudited Condensed Interim Consolidated Financial Statements.

(O) Amortization of borrowing costs

The adjustment is consistent with the one described in Note 2.3.12.3 Q) to the Unaudited Condensed Interim Consolidated Financial Statements.

(P) Currency translation adjustments

The adjustment is consistent with the one described in Note 2.3.12.3 R) to the Unaudited Condensed Interim Consolidated Financial Statements.

(Q) Deferred income tax

The adjustment is consistent with the one described in Note 2.3.12.3 S) to the Unaudited Condensed Interim Consolidated Financial Statements.

2.4. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Separate Financial Statements are consistent with those used in preparing the information under RT 26 as of June 30, 2012 (which is shown in Exhibit I), and are based on those IFRS expected to be in force on June 30, 2013 (except for the accounting of investments in subsidiaries, associates and joint ventures, as described in Note 2.1). In addition, the most significant accounting policies are described in Exhibit I.

2. Basis of preparation and adoption of Technical Resolution No. 26 (“RT 26”) (Continued)

2.5. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of the Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company’s accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2012, which are described in Exhibit I.

3. Acquisitions and disposals

See the summary of acquisitions and disposals made by the Company for the six-month period ended December 31, 2012 in Note 3 to the Unaudited Condensed Interim Consolidated Financial Statements.

4. Financial risk management

4.1. Risk management principles and processes

The Company’s activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

Exhibit I provides information on financial risk management as of June 30, 2012 and July 1st, 2011. Since June 30, 2012 there have been no changes in the risk management or risk management policies applied by the Company.

4.2. Fair value estimates

Since June 30, 2012 there have been no significant changes in business on economic circumstances affecting the fair value of the Company's financial assets or liabilities (either measured at fair value or amortized cost), nor any transfers between the different hierarchies used to assess the fair value of the Company's financial instruments and/ or reclassifications between categories of financial instruments.

Limited Review Report

To the Shareholders, President and Board of Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
C.U.I.T.: 30-52532274-9
Legal address: Bolívar 108 - 1° floor - Autonomous City of Buenos Aires

1. We have reviewed the accompanying unaudited condensed interim separate statement of financial position of IRSA Inversiones y Representaciones Sociedad Anónima as of December 31, 2012, and the related unaudited condensed interim separate statements of income, unaudited condensed interim separate statements of comprehensive income for the six and three-month periods ended December 31, 2012 and the unaudited condensed interim separate statements of changes of shareholders' equity and unaudited condensed interim separate statements of cash flows for the six-month period ended December 31, 2012 and selected explanatory notes. The balances and other information corresponding to the fiscal year ended June 30, 2012 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

2. The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Pronouncement No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiary as to the aspects mentioned in note 2.1 to the unaudited condensed interim separate financial statements attached. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph 3.

3. We conducted our review in accordance with Technical Resolution No. 7 issued by the FACPCE for a review of interim financial statements. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of personnel responsible for financial and accounting matters. It is substantially less in scope than an audit, the objective of which is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

4. As mentioned in Note 2.1 to the unaudited condensed interim separate financial statements, these unaudited condensed interim separate financial statements have been prepared in accordance to Technical Pronouncement No. 26 of the Argentine Federation of Professional Councils in Economic Sciences, which differ from the International Financial Reporting Standards, and especially, from the International Accounting Standard No 34 used in the preparation of the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in Note 2.3 to the unaudited condensed interim separate financial statements attached. The fiscal year ended June 30, 2013 will be the first year of application of IFRS. The adjustments and other effects of the transition to IFRS are presented in Note 2.3 to these unaudited condensed interim separate financial statements. The amounts included in the reconciliations shown in Note 2.3 are subject to change as a consequence of potential changes in IFRS which may occur until June 30, 2013, and should only be considered as final upon issuance of the annual financial statements for the fiscal year ended June 30, 2013.

Limited Review Report (Continued)

5. Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements have not been prepared in all material respects in accordance with Technical Pronouncement No. 26 of the FACPCE for separate financial statements of a parent company.

6. In accordance with current regulations, we hereby inform that :

a) the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima are recorded in the "Inventory and Balance Sheet Book" and carried in all formal respects in conformity with legal requirements, and comply, as regards those matters that are within our competence, with the provisions set forth in the Commercial Companies Law and the corresponding resolutions of the National Securities Commission;

b) the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima arise from accounting records carried in all formal respects in accordance with applicable legal provisions;

c) we have read the Additional Information to the notes to the unaudited condensed interim separate financial statements required by Article 68 of the Buenos Aires Stock Exchange Regulations, on which, as regards those matters that are within our competence, we have no observations to make;

d) at December 31, 2012, the debt of IRSA Inversiones y Representaciones Sociedad Anónima owed in favor of the Argentine Integrated Pension System which arises from accounting records and submissions amounted to Ps. 384,663, which was callable at that date.

Net Income for the period	195.1	227.2	(14.2))%	245.9	74.9	209.7	%

„ Revenues grew by 24.6% in the second quarter of 2013 compared to the same quarter of 2012, and by 19.0% compared to the first six months of the previous fiscal year.

„ Consolidated operating income for the first six months of 2013 amounted to ARS 558.9 million, 50.1% higher than in the same semester of 2012. The growth in operating income, which outpaced revenues, is mainly explained by the sale of Investment Properties during this period, which was 126.3% higher than in the first six months of 2012. EBITDA recorded a similar behavior, as it grew 45.4% in the first six months of 2013 compared to the same period of 2012.

„ Profit for the period increased by 209.7% for the first six months of the year compared to the same period last year mainly due to the results of the investment in Madison 183 Building in Manhattan, NY.

II. Shopping Centers (through our subsidiary Alto Palermo S.A.)

During the second quarter of 2013, our shopping centers maintained their growth rate in terms of sales and reached a 98.8% occupancy level, one percentage point higher than in the same period of 2012.

According to the Shopping Centers' poll made by the INDEC¹, as of December 31, 2012, cumulative tenants' sales for the past twelve months recorded a 22.5% increase compared to the same period of the previous year.

Our tenants' sales grew 23.2% compared to the same period of the previous fiscal year, and 24.1% if we compare the second quarter of 2013 to the same quarter of 2012, driven by the growth in sales from the shopping centers in Greater Buenos Aires and the interior of Argentina. In this way, Revenues and EBITDA from this segment recorded increases of 20.4% and 17.1%, respectively.

EBITDA	11.1	18.1	(38.6))%	41.2	29.3	41.1	%

During the first six months of 2013, sales totaled ARS 85.7 million, mainly explained by the recognition of higher revenues from the “Horizons” project recorded in the second quarter of the period, offset by lower revenues from the Terreno Rosario project, which was sold during the first half of 2012. EBITDA for the first six months of fiscal year 2013 grew 41.1%, driven by the sale of the investment properties Libertador 498 (“El Rulero”) and “Bouchard 551” (“La Nación”).

Sales and progress of development projects

Partial Sale of “La Nación” Building, City of Buenos Aires

On October 4, 2012, IRSA executed the deed of conveyance of title for the sale of functional unit No. 359, in floor 20, and functional units (parking spaces) No. 290 to 294, in the first basement, and No. 42 to 44, in the third basement, of the building located at Avda. Libertador 498. The transaction price was fixed at USD 2.9 million, USD 1.9 million of which had been collected on September 14, 2012, the date of execution of the preliminary sale agreement, and the balance was paid upon execution of the title deed.

Torre Caballito, City of Buenos Aires

This property, with a surface area of 8,404 square meters, is situated in the northern area of Caballito’s residential neighborhood in the City of Buenos Aires. On May 4, 2006, IRSA and KOAD S.A. (“KOAD”), an Argentine developer, entered into an asset barter agreement valued at USD 7.5 million in connection with plot number 36 of “Terrenos de Caballito” whereby KOAD agreed to develop a residential complex called “Caballito Nuevo”, at its cost, consisting of two 34-story towers containing 220 apartments each, consisting of one, two and three bedroom residential units with surface areas ranging from 40 to 85 sqm, totaling approximately 28,000 saleable sqm. The project offers a wide variety of amenities and services. As a result of this transaction, Koad delivered to IRSA 118 apartments and 61 parking spaces in the first tower, representing 25% of the total square meters for sale. As of December 31, 2012, 1 apartment and 16 parking spaces were available for sale.

Abril, Hudson, Greater Buenos Aires

Abril is a 312-hectare private residential community located near Hudson City, approximately 34 kilometers south of the City of Buenos Aires. We have developed this property into a private residential community for the construction of single family homes targeting the upper-middle income market. The project includes 20 neighborhoods subdivided into 1,273 lots of approximately 1,107 square meters each. Abril also includes an 18-hole golf course, 130 hectares of woodlands, a 4,000-square meter mansion and entertainment facilities. A bilingual school, horse stables and sports centers and the construction of the shopping center were concluded in 1999. The neighborhoods have been completed, and as of December 31, 2012, 4 plots extending over an area of 5,137 sqm, were available for sale.

El Encuentro, Benavidez, Tigre

In the district of Benavidez, Municipality of Tigre, 35 kilometers north from downtown Buenos Aires, a 110-hectare gated residential complex known as “El Encuentro” is located, consisting of a total of 527 lots with a total saleable area of 610,785.15 sqm with two privileged accesses: the main one to Vía Bancalari and the service one to Highway No. 9, allowing an easy way to and from the city. On May 21, 2004 a barter deed was signed for the original lot whereby DEESA agreed to pay USD 4.0 million to our subsidiary Inversora Bolívar, USD 1.0 million of which was paid in cash and the balance of USD 3.0 million was paid on December 22, 2009, through the transfer of 110 residential plots already chosen, totaling a saleable area of 127,795 sqm. The development of the project is completed and equipped with power supply, water, sewage, effluent treatment plant, public lighting, finished driveways and accesses, buildings, sports facilities, etc.

As of December 31, 2012, 14 lots extending over a total area of 13,690 sqm, were available for sale.

Torres Rosario Project (through APSA) – City of Rosario, Province of Santa Fe

Condominios del Alto I – (parcel 2-G)

The project is composed of two opposite blocks of buildings, commercially divided into 8 sub-blocks. Apartments (97 units) are distributed into 6 stories with parking spaces (98 units) in the basement. Condominios del Alto I’s amenities include a swimming pool with solarium, a multiple use room, sauna, a gym with dressroom and a laundry. Given its excellent location and construction quality, this development is targeted at a medium-high income segment.

As of December 31, 2012, the project had been completed and was in process of sale, with 4 apartments and 4 parking spaces being available for sale.

Condominios del Alto II – (parcel 2-H)

The project will be composed of two opposite blocks of buildings, commercially divided into 10 sub-blocks. The project will include a total of 189 apartments distributed into 6 stories and 195 parking spaces located in two basements. The amenities will include a swimming pool with solarium, a multiple use room, sauna, a gym with dressroom and a laundry. As of December 31, 2012, 17 apartments (approximately 2,100 sqm), 36 parking spaces and 6 storage spaces are available for sale.

V. Hotels

Several months after having suffered the eruption of the Chilean volcano that resulted in the closing down of the Bariloche airport for most of calendar year 2012, our Llao Llao hotel has recovered its income and occupancy levels, whereas the company's hotels in the City of Buenos Aires recorded a slight fall in sales and occupancy levels during this six-month period as compared to the previous quarters, explained by the lower number of visitors from Brazil and Chile.

The record date was November 27 and the execution date was November 29. This dividend has been made available to the local shareholders, whereas the payment date to the ADR holders is in process of being determined.
- On November 16, 2012 we took a syndicated loan from our subsidiary APSA among several local banks for an amount of ARS 118 million. The loan is repayable in 9 quarterly consecutive installments beginning in November 2013, at an annual fixed rate of 15.01%. Interest will be paid monthly.
- On November 27, 2012, the closing of the transaction agreed on August 31, 2012 took place. Under this transaction the Group, acting through IRSA International LLC, acquired the entire 33.36% interest held by Rigby Madison LLC in Rigby 183 LLC, the company that owns the building located at Madison 183, Manhattan. The transaction amount was fixed in USD 32.5 million, which were fully paid. As of to date, IRSA's direct and indirect interest in

Rigby 183 LLC reaches 74.50% of its stock capital.

- On December 3, 2012, IRSA collected dividends from Alto Palermo S.A. for ARS 133.8 million.

Subsequent Events

- On January 16, 2013, IRSA accepted APSA's repurchase offer for all its Convertible Series I Notes for a principal amount of USD 31,738,262, for a total price of USD 35,362,817.54 or USD 1.11420145 per Convertible Note.

X. Brief comment on prospects for the next period

Our shopping centers have continued to exhibit sound invoicing figures and occupancy rates remain close to 100%, hand in hand with our tenants' strong commitment, who keep choosing our spaces both in the City of Buenos Aires and the inner regions of Argentina to position their brands.

We expect that during fiscal year 2013 we will continue to consolidate as the leading shopping center company in Argentina, adding new properties and footage to our current portfolio, including new top brands among our tenants and devising new ways to continue offering the best commercial proposals to our visitors.

In this sense, we will continue to work in the development of our "Arcos del Gourmet" project located in the neighborhood of Palermo, in the City of Buenos Aires. This project will follow an urban model, offering a variety of premium brands in an open-air environment, with approximately 13,000 sqm of gross leaseable area and 70 stores. This future shopping center, the fourteenth in our portfolio, started to be developed in December 2011 and it is expected to be opened in Spring 2013. Over the last months the project has been eagerly accepted among tenants, and we expect that this new proposal, which also introduces a cultural space in the retail concept, will achieve the same degree of success of our former developments.

On the other hand, we continue working on the development of a new shopping center in the City of Neuquén. We hope to have suitable business, financial and governmental conditions for making progress in this development during the second half of this fiscal year.

In addition, we will continue making efforts to improve our shopping centers' service offerings, so as to maintain our successful occupancy rates and visitors' traffic.

Regarding the Offices business, we expect to continue our sales of non-strategic portfolio assets for attractive prices as we have actively done during the past months. In addition, we will strive to achieve maximum occupancy in our buildings and the best possible lease agreements, trying to attract new firms wishing to relocate in the spaces we offer. Moreover, we are deciding on the most suitable timing for launching our "Catalinas Norte" project, which is strategically located and will add approximately 35,000 sqm of gross leaseable area to our portfolio.

Our hotel business showed improved indicators during the first six months of 2013 as our Llao Llao hotel, affected in 2012 by the eruption of the Chilean volcano, recovered its income and occupancy levels, whereas occupancy rates in our hotels in Buenos Aires have decreased as a result of the smaller number of tourists, mainly from Brazil and Chile. Betting on the growth of local tourism, we expect to recover occupancy levels in our Sheraton and Intercontinental hotels in the second half of this fiscal year.

Regarding the Sales and Developments segment, we expect to continue selling non-strategic assets and small land reserves and to make progress in the sale of units received following barter agreements in the residential projects Caballito Nuevo, Torres Rosario and El Encuentro.

As concerns our investments outside Argentina, operating indicators in our New York buildings have improved in the first six months of fiscal year 2013, thanks to our management's experience in managing real estate assets. We will continue to work towards increasing occupancy and income levels in our Lipstick and Madison buildings. Moreover, we retained our share in the hotel REITs Hersha Hospitality Trust and Supertel Hospitality Inc., listed in the New York Stock Exchange (NYSE) and NASDAQ, respectively. We expect to obtain a satisfactory return from these highly opportune investments at the shares' present values.

Given the quality of the real estate assets in our portfolio, the Company's financial position and low indebtedness level, its experience in taking advantage of market opportunities and its credentials in the capital markets, we are confident that that we will remain on the growth track, consolidating the best real estate portfolio of Argentina and taking advantage of opportunities that may arise abroad.
