Annual Report

This report provides management's discussion of fund performance for Alliance World Dollar Government Fund II (the "Fund") for the annual reporting period ended March 31, 2004.

Investment Objective and Policies

This closed-end fund is designed for investors who seek high current income and, secondarily, capital appreciation. To achieve this objective, it invests primarily in high yielding, high risk sovereign debt and U.S. corporate fixed-income obligations that we expect to benefit from improving economic and credit fundamentals.

Investment Results

The following table shows the Fund's performance over the six- and 12-month periods ended March 31, 2004. For comparison, we have included the J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+), which is a standard measure of the performance of a basket of unmanaged emerging market debt securities.

INVESTMENT RESULTS*
Periods Ended March 31, 2004

	Returns	
	6 Months	12 Months
Alliance World Dollar Government Fund II (NAV)	10.50%	30.01%
J.P. Morgan Emerging Markets Bond Index Plus	8.71%	23.64%

The Fund's Market Price per share on March 31, 2004 was \$12.91. For additional Financial Highlights, please see page 25.

* The Fund's investment results are for the periods shown and are based on the

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

net asset value (NAV) of the Fund as of March 31, 2004. Performance assumes reinvestment of distributions and does not account for taxes. All fees and expenses related to the operation of the Fund have been deducted. Past performance is no guarantee of future results.

The unmanaged J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+) does not reflect fees and expenses associated with the active management of a mutual fund portfolio. The Index is comprised of dollar-denominated restructured sovereign bonds; a large percentage of the Index is made up of Brady bonds. Investors cannot invest directly in an index, and its results are not indicative of any specific investment, including Alliance World Dollar Government Fund II.

The Fund outperformed its benchmark, the JPM EMBI+, for both the six- and 12-month periods ended March 31, 2004. The Fund benefited primarily from its emerging market debt country weightings and individual security selection.

The Fund's security selection in Mexican government bonds, followed by holdings in Brazil, Venezuela and Turkey were the primary contributors to positive performance. The top performing country within the JPM EMBI+, Ecuador, also contributed to the Fund's outperformance for the

ALLIANCE WORLD DOLLAR GOVERNMENT FUND II o 1

12-month period under review. During this annual period, Ecuador returned 73.34%, as measured by the Index. The positioning of Uruguayan and Venezuelan debt also helped the Fund to outperform versus the Index, as both countries conducted debt exchanges during this period that significantly improved the maturity structure of their external debt. Uruguay is not part of the JPM EMBI+.

Market Review and Investment Strategy

The emerging market debt class, as represented by the JPM EMBI+, returned a strong 23.64% for the annual period ended March 31, 2004. The emerging debt markets benefited as a result of a very favorable world financial environment in which the average central bank policy rate declined 100 basis points to just 2.65%. Additionally, limited supply, strong investor demand and global liquidity levels all remained supportive for this asset class. For the annual period under review, Latin countries outperformed non-Latin countries, posting returns of 27.17% versus 18.91%, respectively. All countries represented within the Index posted positive returns for the reporting period. Top performing countries included Ecuador at 73.34%, Turkey at 51.78%, Venezuela at 48.80% and Brazil at 38.94%.

Early in the reporting period, we increased the Fund's overweight exposure to Brazilian sovereign bonds as President Lula exceeded expectations in his ability to push forward reforms. However, at the beginning of 2004, we reduced the Fund's holdings due to concerns over fundamentals, inflation worries and the possible inability of Brazil's Central Bank to continue reducing interest rates. In addition, political scandal and subsequent missteps have caused the Lula administration to lose much of the political goodwill it had in 2003.

We decreased the Fund's holdings in Mexico as a result of stalled growth, which was due to poor external demand, mainly from the U.S., and loss of competitiveness in Mexico's manufacturing sector.

We have maintained the Fund's position in Russian sovereign debt as credit

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

statistics continued to improve. Russia, which was recently upgraded by Standard & Poor's (S&P) to BB+ and is rated Baa3 by Moody's Investors Service, has strong gross domestic product momentum and little need to issue new debt. The country is also benefiting from high oil prices and President Putin's appointment of a pro-reform government. Russia comprises approximately 20% of the JPM EMBI+.

Early in the reporting period, we increased the Fund's holdings in Uruguay as the government announced an aggressive plan to swap its outstanding debt (with the support of the International Monetary Fund (IMF)) for longer maturity securities. This strategy contributed positively to the Fund's performance.

We also increased the Fund's holdings in Ecuador, which benefited from

2 o ALLIANCE WORLD DOLLAR GOVERNMENT FUND II

higher oil prices and greater output, significant structural reforms and engagement with the IMF.

S&P raised Turkey's rating to B+ from B during the reporting period, crediting the government's efforts to comply with targets set by the IMF and its resolve to implement reforms. At that time, we added to the Fund's position in Turkey.

Finally, we have reduced the Fund's leverage and scaled back the interest rate duration of the Fund due to the prospect of tighter monetary policy in the U.S.

Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS
March 31, 2004

NOTE A

Significant Accounting Policies

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

Alliance World Dollar Government Fund II (the "Fund") was incorporated under the laws of the State of Maryland on May 20, 1993 and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

In accordance with Pricing Policies adopted by the Board of Directors of the Fund (the "Pricing Policies") and applicable law, portfolio securities are valued at current market value or at fair value. The Board of Directors has delegated to Alliance Capital Management L.P. (the "Adviser"), subject to the Board's continuing oversight, certain responsibilities with respect to the implementation of the Pricing Policies. Pursuant to the Pricing Policies, securities for which market quotations are readily available are valued at their current market value. In general, the market value of these securities is determined as follows:

Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued in good faith at fair value in accordance with the Pricing Policies. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The Nasdaq Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used; securities traded in the over-the-counter market, (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less, or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including

ALLIANCE WORLD DOLLAR GOVERNMENT FUND II o 17

Notes to Financial Statements

mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, the Pricing Policies provide that the Adviser may establish procedures whereby

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available are valued at fair value in accordance with the Pricing Policies. The Fund fair values a security that it holds when a significant event (e.g., an earthquake or a major terrorist attack) occurs after the time that the latest market quotation was established, and, as a result, such market quotation cannot be said to represent the current market value of the security as of the time the Fund prices its shares. Fair valuing securities is imprecise, and there is no assurance that the Fund could dispose of the security at the price used for determining the Fund's net asset value.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the date securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund accretes discounts as adjustments to interest income. Additionally, the Fund amortizes premiums on debt securities for financial statement reporting purposes.

4. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with accounting principles generally accepted in the United States. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory Fee and Other Transactions with Affiliates

Under the terms of the Investment Advisory Agreement, the Fund pays the Adviser an advisory fee at an annual rate of 1% of the Fund's average weekly net assets. Such fee is accrued daily and paid monthly.

18 o ALLIANCE WORLD DOLLAR GOVERNMENT FUND II

Notes to Financial Statements

Under the terms of the Administration Agreement, the Fund pays the Adviser an administrative fee at an annual rate of .15 of 1% of the Fund's average weekly

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

net assets. Such fee is accrued daily and paid monthly. The Adviser provides administrative functions as well as other clerical services to the Fund and prepares financial and regulatory reports.

The Fund entered into a Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. ("AGIS"), a wholly-owned subsidiary of the Adviser, whereby the Fund reimburses AGIS for costs relating to servicing phone inquiries on behalf of the Fund. During the year ended March 31, 2004, there was no reimbursement paid to AGIS.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended March 31, 2004, were as follows:

	Purchases =====	Sales =====
Investment securities (excluding U.S. government securities)	\$1,433,057,570	\$1,671,571,959
U.S. government securities	-0-	-0-

The cost of investments for federal income tax purposes, gross unrealized appreciation and unrealized depreciation (excluding written options and swap contracts) are as follows:

Cost	\$ 835,993,856 =====
Gross unrealized appreciation	\$ 132,973,684
Gross unrealized depreciation	(4,915,376) -----
Net unrealized appreciation	\$ 128,058,308 =====

1. Option Transactions

For hedging and investment purposes, the Fund may purchase and write (sell) put and call options on U.S. and foreign government securities and foreign currencies that are traded on U.S. and foreign securities exchanges and over-the-counter markets.

The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

Transactions in written options for the year ended March 31, 2004, were as follows:

	Number of Contracts =====	Premiums Received =====
OPTIONS OUTSTANDING AT		
MARCH 31, 2003	36,595,124	\$ 508,492
Options written	89,499,920	1,542,599
Options terminated in closing purchase transactions	(54,103,007)	(804,583)
Options expired	(60,532,037)	(1,043,093)
	-----	-----
OPTIONS OUTSTANDING AT		
MARCH 31, 2004	11,460,000	\$ 203,415
	=====	=====

2. Swap Agreements

The Fund may enter into swaps to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of

swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/ depreciation of investments.

The Fund may enter into credit default swaps. The Fund may purchase credit protection on the referenced obligation of the credit default swap ("Buy Contract") or provide credit protection on the referenced obligation of the credit default swap ("Sale Contract"). A sale/(buy) in a credit default swap provides upon the occurrence of a credit event, as defined in the swap agreement, for the Fund to buy/(sell) from/(to) the counterparty at the notional amount (the "Notional Amount") and receive/(deliver) the principal amount of the referenced obligation. If a credit event occurs, the maximum payout amount for a Sale Contract is limited to the Notional Amount of the swap contract ("Maximum Payout Amount"). During the term of the swap agreement, the Fund receives/(pays) semi-annual fixed payments from/(to) the respective counterparty, calculated at the agreed upon interest rate applied to the Notional Amount. These interim payments are recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities.

Credit default swaps may involve greater risks than if a Fund had invested in the referenced obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund is a buyer and no credit event occurs, it will lose its investment. In addition, if the Fund is a seller and a credit event occurs, the value of the referenced obligation received by the Fund coupled with the periodic payments previously received, may be less than the Maximum Payout Amount it pays to the buyer, resulting in a loss to the Fund.

At March 31, 2004, the Fund had Sale Contracts outstanding with Maximum Payout Amounts aggregating \$76,825,000, with net unrealized appreciation of \$5,713,395 and terms ranging from 10 months to 9 years, as reflected in the portfolio of investments.

In certain circumstances, the Fund may hold Sale Contracts on the same referenced obligation and with the same counterparty it has purchased credit protection, which may reduce its obligation to make payments on Sale Contracts, if a credit event occurs. The Fund had Buy Contracts outstanding with a Notional Amount of \$21,100,000 with respect to the same referenced obligations and same counterparties of certain Sale Contracts outstanding, which reduced its obligation to make payments on Sale Contracts to \$55,725,000 as of March 31, 2004.

3. Reverse Repurchase Agreements

Under a reverse repurchase agreement, the Fund sells securities and agrees to repurchase them at a mutually agreed upon date and price. At the time the Fund

enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing liquid assets having a value at least equal to the repurchase price.

For the year ended March 31, 2004, the average amount of reverse repurchase agreements outstanding was \$63,069,505 and the daily weighted average interest rate was .85%.

NOTE D

Capital Stock

There are 100,000,000 shares of \$.01 par value common stock authorized. Of the 67,648,715 shares outstanding at March 31, 2004, the Adviser owned 7,200 shares. During the year ended March 31, 2004, the Fund repurchased 10,201,653 shares of its outstanding common stock for \$13.02 per share pursuant to a tender offer. The Fund incurred tender offering costs of \$66,049 which were charged to additional paid-in capital. During the years ended March 31, 2004 and March 31, 2003, the Fund issued no shares in connection with the Fund's dividend reinvestment plan.

NOTE E

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Concentration of Risk--Investing in securities of foreign companies or foreign governments involves special risks which include changes in foreign exchange rates and the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies or foreign governments and their markets may be less liquid and their prices more volatile than those of comparable United States companies or of the United States government.

In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

Notes to Financial Statements

NOTE F

Distributions to Shareholders

The tax character of distributions paid during the fiscal years ended March 31, 2004 and March 31, 2003 were as follows:

	2004 =====	2003 =====
Distributions paid from:		
Ordinary income	\$ 87,373,144	\$ 82,323,739
	-----	-----
Total taxable distributions	87,373,144	82,323,739
	-----	-----
Total distributions paid	\$ 87,373,144	\$ 82,323,739
	=====	=====

As of March 31, 2004, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 2,695,800
Accumulated capital and other losses	(127,414,167) (a)
Unrealized appreciation/(depreciation)	133,560,278 (b)

Total accumulated earnings/(deficit)	\$ 8,841,911
	=====

(a) On March 31, 2004, the Fund had a net capital loss carryforward of \$127,414,167 of which \$68,891,646 expires in the year 2010 and \$58,522,521 expires in the year 2011. To the extent future capital gains are offset by capital loss carryforwards, such gains will not be distributed. During the fiscal year, the fund utilized capital loss carryforwards of \$225,624,007.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premium and the difference between book and tax treatment of swap income.

During the current fiscal year, permanent differences, primarily due to the tax treatment of bond premium and the tax treatment of swap income, resulted in a net decrease in distributions in excess of net investment income and an increase in accumulated net realized loss on investment transactions. This reclassification had no effect on net assets.

NOTE G

Legal Proceedings

As has been previously reported in the press, the Staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into

these practices within the industry and have requested that Alliance Capital Management L.P. ("Alliance Capital"), the Fund's Adviser, provide information to them. Alliance Capital has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the

ALLIANCE WORLD DOLLAR GOVERNMENT FUND II o 23

Notes to Financial Statements

Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by Alliance Capital and the SEC and NYAG in connection with the investigations mentioned above.

In addition, numerous lawsuits have been filed against Alliance Capital and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. Management of the Fund's Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, Alliance Capital confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is subject to final, definitive documentation. Among the key provisions of these agreements are the following:

(i) Alliance Capital agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

(ii) Alliance Capital agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) Alliance Capital agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that Alliance Capital's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

ALLIANCE WORLD DOLLAR GOVERNMENT FUND II o 25

Financial Highlights

(a) As of April 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however prior to April 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. The effect of this change for the year ended March 31, 2004, was to decrease net investment income per share by \$0.06 and increase net realized and unrealized gain (loss) on investment transactions per share by \$0.06, and decrease the ratios of net investment income and expenses to average net assets by 0.50% and 0.20%, respectively.

(b) As required, effective April 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide, Audits of Investment Companies, and began amortizing premium on debt securities for financial statement reporting purposes only. The effect of this change for the year ended March 31, 2002 was to decrease net investment income per share by \$.01, increase net realized and unrealized gain on investments per share by \$.01, and decrease the ratio of net investment income to average net assets from 12.74% to 12.69%. Per share, ratios and supplemental data for periods prior to April 1, 2001 have not been restated to reflect this change in presentation.

(c) Based on average shares outstanding.

(d) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total investment return calculated for a period of less than one year is not annualized.

Report of Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Alliance World Dollar Government Fund II, Inc.

We have audited the accompanying statement of assets and liabilities of Alliance World Dollar Government Fund II, Inc., including the portfolio of investments, as of March 31, 2004, and the related statements of operations and cash flows for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of March 31, 2004, by correspondence with the custodian and others. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Alliance World Dollar Government Fund II, Inc. at March 31, 2004, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

(unaudited)

Shareholders whose shares are registered in their own names may elect to be participants in the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), pursuant to which dividends and capital gain distributions to shareholders will be paid in or reinvested in additional shares of the Fund. State Street Bank and Trust Company (the "Agent") will act as agent for participants under the Plan. Shareholders whose shares are held in the name of a broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan.

If the Board declares an income distribution or determines to make a capital gain distribution payable either in shares or in cash, as holders of the Common Stock may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock of the Fund valued as follows:

(i) If the shares of Common Stock are trading at net asset value or at a premium above net asset value at the time of valuation, the Fund will issue new shares at the greater of net asset value or 95% of the then current market price.

(ii) If the shares of Common Stock are trading at a discount from net asset value at the time of valuation, the Agent will receive the dividend or distribution in cash and apply it to the purchase of the Fund's shares of Common Stock in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made on or shortly after the payment date for such dividend or distribution and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with Federal securities laws. If, before the Agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average purchase price per share paid by the Agent may exceed the net asset value of the Fund's shares of Common Stock, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund.

The Agent will maintain all shareholders' accounts in the Plan and furnish written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Agent in non-certificate form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

There will be no charges with respect to shares issued directly by the Fund to satisfy the dividend reinvestment requirements. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account will be the average cost, including brokerage commissions, of any shares purchased in the

28 o ALLIANCE WORLD DOLLAR GOVERNMENT FUND II

Additional Information

open market plus the cost of any shares issued by the Fund.

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends and distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such dividend or distribution. The Plan may also be amended or terminated by the Agent on at least 90 days' written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Agent at State Street Bank and Trust Company, P.O. Box 366, Boston, Massachusetts 02101.

Since the filing of the most recent amendment to the Fund's registration statement with the Securities and Exchange Commission, there have been (i) no material changes in the Fund's investment objectives or policies, except that 50% of the Fund's required investments in sovereign debt obligations is no longer required to be invested in collateralized Brady Bonds, (ii) no changes to the Fund's charter or by-laws that would delay or prevent a change of control of the Fund, (iii) no material changes in the principal risk factors associated with investment in the Fund, and (iv) no change in the person primarily responsible for the day-to-day management of the Fund's portfolio, who is Paul J. DeNoon, a Vice President of the Fund.

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer and principal accounting officer. A copy of the registrant's code of ethics is filed herewith as Exhibit 11(a)(1).

(b) During the period covered by this report, no amendments were made to the provisions of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, no implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a) above were granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors has determined that independent directors David H. Dievler and William H. Foulk, Jr. qualify as audit committee financial experts.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The following table sets forth the aggregate fees billed by the independent auditors for the Fund's last two fiscal years for professional services rendered for: (i) the audit of the Fund's annual financial statements

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

included in the Fund's annual report to stockholders; (ii) assurance and related services that are reasonably related to the performance of the audit of the Fund's financial statements and are not reported under (i), which include advice and education on accounting and auditing issues, quarterly press release review and preferred stock maintenance testing (for those Funds that issue preferred stock); (iii) tax compliance, tax advice and tax return preparation; and (iv) aggregate non-audit services provided to the Fund, the Fund's Adviser and entities that control, are controlled by or under common control with the Adviser that provide ongoing services to the Fund ("Service Affiliates"), which include conducting an annual internal control report pursuant to Statement on Auditing Standards No. 70. No other services were provided to the Fund during this period.

	Audit Fees	Audit-Related Fees	Tax Fees	All Fees for Non-Audit Services Provided to the Fund, the Adviser and Service Affiliates
2003:	\$51,000	\$8,500	\$11,600	\$700,012
2004:	\$51,000	\$13,125	\$18,900	\$935,707

Beginning with audit and non-audit service contracts entered into on or after May 6, 2003, the Fund's Audit Committee policies and procedures require the pre-approval of all audit and non-audit services provided to the Fund by the Fund's independent auditors. The Fund's Audit Committee policies and procedures also require pre-approval of all

audit and non-audit services provided to the Adviser and Service Affiliates to the extent that these services are directly related to the operations or financial reporting of the Fund. Accordingly, all of the amounts in the table for Audit Fees, Audit-Related Fees and Tax Fees for 2004 are for services pre-approved by the Fund's Audit Committee. The amounts of the Fees for Non-Audit Services provided to the Fund, the Adviser and Service Affiliates in the table for the Fund, that were subject to pre-approval by the Audit Committee for 2004 were \$394,025 (comprising \$375,125 of audit related fees and \$18,900 of tax fees). The Audit Committee of the Fund has considered whether the provision of any non-audit services not pre-approved by the Audit Committee provided by the Fund's independent auditor to the Adviser and Service Affiliates is compatible with maintaining the auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee members are as follows:

Ruth Block	Dr. James M. Hester
David H. Dievler	Clifford L. Michel
John H. Dobkin	Donald J. Robinson
William H. Foulk, Jr.	

ITEM 6. SCHEDULE OF INVESTMENTS.

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

Form N-CSR disclosure requirement not yet effective with respect to the registrant.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant has adopted the following proxy voting policies and procedures of its investment adviser, Alliance Capital Management L.P.

July 2003

ALLIANCE CAPITAL MANAGEMENT L.P.

Statement of Policies and Procedures for Voting Proxies on Behalf of Discretionary Client Accounts

Introduction

As a registered investment adviser, Alliance Capital Management L.P. ("Alliance Capital", "we" or "us") has a fiduciary duty to act solely in the best interests of our clients. As part of this duty, we recognize that we must vote client securities in a timely manner and make voting decisions that are in the best interests of our clients.

This statement is intended to comply with Rule 206(4)-6 of the Investment Advisers Act of 1940. It sets forth our policies and procedures for voting

proxies for our discretionary investment advisory clients, including investment companies registered under the Investment Company Act of 1940. This statement is applicable to Alliance Capital's growth and value investment groups investing on behalf of clients in both US and global securities.

PROXY POLICIES

This statement is designed to be responsive to the wide range of subjects that can have a significant effect on the investment value of the securities held in our clients' accounts. These policies are not exhaustive due to the variety of proxy voting issues that we may be required to consider. Alliance Capital reserves the right to depart from these guidelines in order to avoid voting decisions that we believe may be contrary to our clients' best interests. In reviewing proxy issues, we will apply the following general policies:

Elections of Directors: Unless there is a proxy fight for seats on the Board or we determine that there are other compelling reasons for withholding votes for directors, we will vote in favor of the management proposed slate of directors. That said, we believe that directors have a duty to respond to shareholder actions that have received significant shareholder support. We may withhold votes for directors that fail to act on key issues such as failure to implement proposals to declassify boards, failure to implement a majority vote requirement, failure to submit a rights plan to a shareholder vote and failure to act on tender offers where a majority of shareholders have tendered their shares. In addition, we will withhold votes for directors who fail to attend at least seventy-five percent of board meetings within a given year without a reasonable excuse. Finally, we may withhold votes for directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement.

Appointment of Auditors: Alliance Capital believes that the company remains in

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

the best position to choose the auditors and will generally support management's recommendation. However, we recognize that there may be inherent conflicts when a company's independent auditor performs substantial non-audit related services for the company. Therefore, we may vote against the appointment of auditors if the fees for non-audit related services are disproportionate to the total audit fees paid by the company or there are other reasons to question the independence of the company's auditors.

Changes in Capital Structure: Changes in a company's charter, articles of incorporation or by-laws are often technical and administrative in nature. Absent a compelling reason to the contrary, Alliance Capital will cast its votes in accordance with the company's management on such proposals. However, we will review and analyze on a case-by-case basis any non-routine proposals that are likely to affect the structure and operation of the company or have a material economic effect on the company. For example, we will generally support proposals to increase authorized common stock when it is necessary to implement a stock split, aid in a restructuring or acquisition or provide a sufficient number of shares for an employee savings plan, stock option or executive compensation plan. However, a satisfactory explanation of a company's intentions must be disclosed in the proxy statement for proposals requesting an increase of greater than one hundred percent of the shares outstanding. We will oppose increases in authorized common stock where there is evidence that the shares will be used to implement a poison

pill or another form of anti-takeover device, or if the issuance of new shares could excessively dilute the value of the outstanding shares upon issuance.

Corporate Restructurings, Mergers and Acquisitions: Alliance Capital believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, we will analyze such proposals on a case-by-case basis, weighing heavily the views of the research analysts that cover the company and the investment professionals managing the portfolios in which the stock is held.

Proposals Affecting Shareholder Rights: Alliance Capital believes that certain fundamental rights of shareholders must be protected. We will generally vote in favor of proposals that give shareholders a greater voice in the affairs of the company and oppose any measure that seeks to limit those rights. However, when analyzing such proposals we will weigh the financial impact of the proposal against the impairment of shareholder rights.

Corporate Governance: Alliance Capital recognizes the importance of good corporate governance in ensuring that management and the board of directors fulfill their obligations to the shareholders. We favor proposals promoting transparency and accountability within a company. For example, we will vote for proposals providing for equal access to proxies, a majority of independent directors on key committees, and separating the positions of chairman and chief executive officer.

Anti-Takeover Measures: Alliance Capital believes that measures that impede takeovers or entrench management not only infringe on the rights of shareholders but may also have a detrimental effect on the value of the company. We will generally oppose proposals, regardless of whether they are advanced by management or shareholders, the purpose or effect of which is to entrench management or dilute shareholder ownership. Conversely, we support proposals that would restrict or otherwise eliminate anti-takeover measures that have already been adopted by corporate issuers. For example, we will support

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

shareholder proposals that seek to require the company to submit a shareholder rights plan to a shareholder vote. We will evaluate, on a case-by-case basis, proposals to completely redeem or eliminate such plans. Furthermore, we will generally oppose proposals put forward by management (including blank check preferred stock, classified boards and supermajority vote requirements) that appear to be intended as management entrenchment mechanisms.

Executive Compensation: Alliance Capital believes that company management and the compensation committee of the board of directors should, within reason, be given latitude to determine the types and mix of compensation and benefit awards offered. Whether proposed by a shareholder or management, we will review proposals relating to executive compensation plans on a case-by-case basis to ensure that the long-term interests of management and shareholders are properly aligned. We will analyze the proposed plans to ensure that shareholder equity will not be excessively diluted, the option exercise price is not below market price on the date of grant and an acceptable number of employees are eligible to participate in such programs. We will generally oppose plans that permit repricing of underwater stock options without shareholder approval. Other factors such as the company's performance and industry practice will generally be factored into our analysis. We will support proposals to submit severance packages triggered by a change in control to a shareholder vote and proposals that seek additional disclosure of executive compensation. Finally, we will support shareholder proposals requiring companies to expense stock options because we view them as a large corporate expense.

Social and Corporate Responsibility: Alliance Capital will review and analyze on a case-by-case basis proposals relating to social, political and environmental issues to determine whether they will have a financial impact on shareholder value. We will vote against proposals that are unduly burdensome or result in unnecessary and excessive costs to the company. We may abstain from voting on social proposals that do not have a readily determinable financial impact on shareholder value.

Proxy Voting Procedures

Proxy Voting Committees

Our growth and value investment groups have formed separate proxy voting committees to establish general proxy policies for Alliance Capital and consider specific proxy voting matters as necessary. These committees periodically review new types of corporate governance issues, evaluate proposals not covered by these policies and recommend how we should generally vote on such issues. In addition, the committees, in conjunction with the analyst that covers the company, contact management and interested shareholder groups as necessary to discuss proxy issues. Members of the committees include senior investment personnel and representatives of the Corporate Legal Department. The committees may also evaluate proxies where we face a potential conflict of interest (as discussed below). Finally, the committees monitor adherence to guidelines, industry trends and review the policies contained in this statement from time to time.

Conflicts of Interest

Alliance Capital recognizes that there may be a potential conflict of interest when we vote a proxy solicited by an issuer whose retirement plan we manage, whose retirement plan we administer, or with whom we have another business or

Edgar Filing: ALLIANCE WORLD DOLLAR GOVERNMENT FUND II INC - Form N-CSR

personal relationship that may affect how we vote on the issuer's proxy. We believe that centralized management of proxy voting, oversight by the proxy voting committees and adherence to these policies ensures that proxies are voted with only our clients' best interests in mind. That said, we have implemented additional procedures to ensure that our votes are not the product of a conflict of interests, including: (i) requiring anyone involved in the decision making process to disclose to the chairman of the appropriate proxy committee any potential conflict that they are aware of and any contact that they have had with any interested party regarding a proxy vote; (ii) prohibiting employees involved in the decision making process or vote administration from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties; and (iii) where a material conflict of interests exists, reviewing our proposed vote by applying a series of objective tests and, where necessary, considering the views of a third party research service to ensure that our voting decision is consistent with our clients' best interests. For example, if our proposed vote is consistent with our stated proxy voting policy, no further review is necessary. If our proposed vote is contrary to our stated proxy voting policy but is also contrary to management's recommendation, no further review is necessary. If our proposed vote is contrary to our stated proxy voting policy or is not covered by our policy, is consistent with management's recommendation, and is also consistent with the views of an independent source, no further review is necessary. If our proposed vote is contrary to our stated proxy voting policy or is not covered by our policy, is consistent with management's recommendation and is contrary to the views of an independent source, the proposal is reviewed by the appropriate proxy committee for final determination.

Proxies of Certain Non-US Issuers

Proxy voting in certain countries requires "share blocking." Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting (usually one-week) with a designated depository. During this blocking period, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients' custodian banks. Alliance Capital may determine that the value of exercising the vote does not outweigh the detriment of not being able to transact in the shares during this period. Accordingly, if share blocking is required we may abstain from voting those shares. In such a situation we would have determined that the cost of voting exceeds the expected benefit to the client.

Proxy Voting Records

Clients may obtain information about how we voted proxies on their behalf by contacting their Alliance Capital administrative representative. Alternatively, clients may make a written request for proxy voting information to: Mark R. Manley, Senior Vice President & Assistant General Counsel, Alliance Capital Management L.P., 1345 Avenue of the Americas, New York, NY 10105.

ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Form N-CSR disclosure requirement not yet effective with respect to the registrant.

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A in its proxy statement filed with the Commission on February 23, 2004.
