Item 11. Executive Compensation

Compensation Discussion and Analysis

The compensation committee of our board of directors operates under the authority established in the Compensation Committee Charter. The committee’s primary responsibility is to oversee our executive compensation program. In this role, the compensation committee reviews and approves all compensation decisions relating to our executive officers. In addition, the committee has responsibilities related to our incentive-compensation plans and equity-based plans.

Objectives and Philosophy of Our Executive Compensation Program

The primary objectives of the compensation committee with respect to executive compensation are to:

- ensure that a significant part of executive compensation is tied to the achievement of corporate and individual performance objectives, which both promotes and rewards the achievement of those objectives;
- align long-term executive incentives with the creation of shareholder value; and
- attract, retain and motivate the best possible executive talent.

To achieve those objectives, the compensation committee evaluates and implements our executive compensation program with the goal of setting compensation at levels the committee believes are competitive with those of other companies in our industry and similar industries that compete with us for executive talent. In addition, our executive compensation program ties a substantial portion of each executive’s overall compensation to our financial performance, as measured by metrics such as revenue, adjusted EBITDA and bookings, as well as to the achievement of strategic initiatives. We also provide a portion of our executive compensation in the form of share options that vest over time, which we believe helps to retain our executives and aligns their interests with those of our shareholders by allowing them to participate in the longer term success of our company as reflected in share price appreciation.

In making compensation decisions, the compensation committee regularly receives input from an independent compensation consulting firm engaged by the committee, Compensia. The committee engaged Compensia to assist it in making executive compensation decisions for the fiscal year ended January 31, 2008 (fiscal 2008) and has engaged them again for executive compensation determinations for the fiscal year ending January 31, 2010 (fiscal 2010). The committee chose not to engage Compensia in setting executive compensation for fiscal 2009, primarily because the committee had approved certain adjustments to executive compensation that were not effective until mid-fiscal 2008. Given those changes had only been effective for a portion of fiscal 2008, the committee determined that it would not change base salaries, target bonuses or the overall structure of executive compensation for fiscal 2009. The

committee did refer to the data from the fiscal 2008 report on executive compensation prepared by Compensia in deciding to leave executive compensation essentially the same as in fiscal 2008. That data showed what had been paid by a peer group of publicly traded companies in the software, education and training industries. This peer group, which is periodically reviewed and updated by the committee as appropriate with the assistance of Compensia, consisted of companies the committee believes are generally comparable to our company in terms of size, (based on revenue, market capitalization, profitability and/or number of employees) or industry and/or against which the committee believes we could compete for executive talent. The benchmarking study's peer group in fiscal 2008 was comprised of 23 companies, including companies such as: Aspen Technology, Blackboard, Webex Communications, Akamai Technologies, Tibco Software, The Advisory Board, Learning Tree International, Kenexa and The Corporate Executive Board. Compensia also provides the compensation committee with information on market trends and developments in executive compensation and ideas for structuring executive compensation arrangements. In addition to the benchmarking data related to the peer group, the committee considers data with respect to the amount of compensation paid to each executive officer by compensation element for the prior four-year period. This enables the committee to evaluate historical compensation changes, the amount of incentive compensation earned as a percentage of base pay, equity grant history and potential share ownership.

Table of Contents

In addition to the data and advice provided by Compensia, the committee also considers input from our chief executive officer. That input is communicated to the committee at its request and at meetings of the committee, which our CEO attends, and includes information with respect to the performance and contributions of other members of the executive management team. When asked by the committee, our CEO provides recommendations with respect to financial and operational objectives in the executive incentive compensation program, and offers his view regarding the overall structure of the plans.

The compensation committee has established the following guidelines to assist it in making executive compensation decisions. These guidelines are expressed, for a particular element of compensation, as the target percentile of the range of that compensation element paid to similarly situated executives of the companies in our benchmarking peer group. In general, the committee targets our executive compensation program elements as follows:

base salaries are targeted at the 25th percentile;
total cash compensation (base salary and target bonus) is targeted at the 50th percentile; and
equity compensation is targeted at the 75th percentile.

Based on this target positioning, overall compensation generally is targeted between the 50th and 75th percentiles. Variations to these targets may occur due to factors such as the experience levels of particular individuals, their performance, their importance within the organization and market factors. The committee believes that this approach provides market competitive pay to our executives in the short-term when performance merits it and above median compensation when long-term performance merits it.

Components of our Executive Compensation Program

The primary elements of our executive compensation program are:

base salary;
cash incentive bonuses;
share option awards;
employee benefits; and
severance benefits.

Base Salary

Base salary is used to compensate executives for the normal performance of their duties, in light of their experience, skills, knowledge and responsibilities. In establishing base salaries for our executive officers, the compensation committee considers data from our benchmarking peer group, as well as a variety of other factors, including any contractual commitments to that individual, the seniority of the individual, the level of the individual's responsibility, our ability to replace the individual, and the base salary of the individual at his prior employment, if applicable. Each of our executive officers, other than Mr. Amato, has an employment agreement dating from either 1998 or 2002 that provides for a minimum annual base salary (see "Employment Agreements and Potential Termination Payments" below). With the exception of Mr. Darcy (whose base salary for fiscal 2009 was equal to the minimum base salary provided for in his employment agreement), the current base salaries of those executives are in excess of their minimum base salaries as provided for in their employment agreements, and those employment agreements are not a significant factor in the compensation committee's base salary decisions.

Base salaries are reviewed at least annually by the compensation committee. In fiscal 2008, the committee adjusted the base salaries of certain of our executive officers, effective upon our acquisition of NETg in May 2007, to more closely align their base salaries with the 25 th percentile of the peer group data compiled in fiscal 2008 by Compensia. Those changes were not effective until mid-fiscal 2008. As a result, the committee decided not to make any changes

to base salaries in fiscal 2009.

Table of Contents

Cash Incentive Bonuses

The compensation committee establishes an executive incentive compensation program on an annual basis. This program typically provides for quarterly and annual cash bonuses that are tied to achievement of company specific objectives. The quarterly incentive cash bonuses are intended to compensate executives for achievement of quarterly company financial objectives. The annual cash incentive bonuses are generally intended to compensate executives for the achievement of corporate strategic and financial objectives. Each executive officer is assigned a target bonus under the incentive compensation program, expressed as a percentage of the executive's base salary, with more senior executives typically having a higher percentage. The target bonus is split evenly between quarterly and annual bonus opportunities. The financial targets generally conform to the financial metrics contained in the internal operating plan adopted by the board of directors at the beginning of each fiscal year. The compensation committee approves the objectives on which bonus payments are based, the allocation of the target bonus between the quarterly and annual components and among the various performance objectives, and the formula for determining potential bonus amounts based on achievement of those objectives using budgeted or plan objectives established at the beginning of the fiscal year.

The executive incentive compensation program for fiscal 2009 covered the five named executive officers. Each named executive officer was assigned a target bonus, expressed as a percentage of his annual base salary. The amount of the target bonuses were set by the compensation committee based on the benchmarking data provided by Compensia in fiscal 2008 and the committee's philosophy of setting total cash compensation (base salary and target bonus) at approximately the 50th percentile of the benchmarking peer group. For fiscal 2009, the target bonuses of each of our named executive officers were the same as those established in fiscal 2008 effective as of the NETg acquisition. The table below shows the target bonuses for the named executive officers, both as a percentage of annual base salary and in dollars.

Name	As a Percentage of Base Salary	Target Amount
Charles E. Moran	135%	\$502,200
Jerald A. Nine, Jr.	85%	\$239,700
Thomas J. McDonald	75%	\$189,000
Colm M. Darcy	75%	\$150,000
Mark A. Townsend	75%	\$150,000

For each named executive officer, 50% of his target bonus was allocated to quarterly bonus opportunities and 50% was allocated to annual bonus opportunities. The quarterly bonuses under the program were based on revenue (50% of quarterly target bonus) and adjusted EBITDA objectives (50% of quarterly target bonus); the annual bonuses were based on revenue objectives (25% of annual target bonus), adjusted EBITDA objectives (25% of annual target bonus), bookings objectives (40% of annual target bonus) and strategic objectives (10% of annual target bonus). For purposes of the incentive compensation program, adjusted EBITDA was defined as operating income, plus the amount of depreciation and amortization expense, stock-based compensation expense, restructuring charges, merger and integration related expenses and restatement-related expense. These performance metrics were selected by the compensation committee because the committee believes these are the key operating metrics that are the basis for driving shareholder value.

The maximum bonus that could be earned was 150% of the target bonus and the minimum was 0%. For most performance metrics, three levels of targets were set, with 40% to 50% of the allocated target bonus payable if the first performance level (level 1) was attained, 100% of the allocated target bonus payable if the second performance level (level 2) was attained and 150% of the allocated target bonus payable if the third performance level (level 3) was attained.

When adopting the program early in fiscal 2009, the compensation committee set the first quarter and annual targets for each category of performance objectives, and also approved fixing the targets for the second, third and fourth quarters based on the guidance SkillSoft provided to the investment community for those quarters in its earnings release for the immediately preceding quarter. Specifically, the revenue and adjusted EBITDA objectives were set as follows for each objective: (i) level 1 was the bottom end of the range to the mid-point of the range; (ii) level 2 was the mid-point of the range to the top end of the range; and (iii) level 3 was achievement above the top end of the range. The objectives included in the fiscal 2009 executive incentive compensation program were set at levels that were designed to be attainable if our business had what we consider to be a successful year, but were by no means certain or even probable of being attained.

The bonuses actually paid under the fiscal 2009 executive incentive compensation program were 118% of the executive's target bonus. We attained level 3 performance with respect to all of the performance metrics in the program for the first, second, third and fourth quarters of fiscal 2009. For the annual objectives, we attained level 3 performance with respect to revenue and adjusted EBITDA, we did not attain level 1 performance with respect to bookings and we attained level 2 for the strategic objectives. The following tables illustrate our performance as compared to the quarterly and annual adjusted EBITDA targets and the annual revenue target.

Table of Contents

Performance Metric	Level 3 Target	Actual Result
Q1 Adjusted EBITDA	\$21.5 million or higher	\$24.3 million
Q1 Revenue	\$81.0 million or higher	\$81.6 million
Q2 Adjusted EBITDA	\$24.5 million or higher	\$28.8 million
Q2 Revenue	\$82.0 million or higher	\$83.3 million
Q3 Adjusted EBITDA	\$27.0 million or higher	\$28.8 million
Q3 Revenue	\$85.5 million or higher (1)	\$83.1 million
Q4 Adjusted EBITDA	\$21.0 million or higher	\$27.7 million
Q4 Revenue	\$83.5 million or higher (1)	\$80.5 million
FY09 Adjusted EBITDA	\$101.5 million or higher	\$109.7 million
FY09 Revenue	\$338.0 million or higher (1)	\$328.5 million

(1) SkillSoft's revenue targets were based on foreign exchange rates and deferred revenue in effect at January 31, 2008. Revenue was negatively impacted due to adverse changes in foreign exchange rates in the third and fourth quarters of fiscal 2009. Consequently, revenue results for purposes of determining the level of performance achieved was actual revenue, adjusted based on foreign exchange rates and deferred revenue in effect at January 31, 2008, which was \$85.5 million for the third quarter, \$86.1 million for the fourth quarter and \$338.1 million for fiscal 2009.

We do not publicly disclose our bookings or bookings targets. We consider our actual and targeted bookings to be confidential information and we believe that disclosure of that information could be used by others in a manner that causes us competitive harm. The bookings objectives included in the fiscal 2009 executive incentive compensation program were set at levels that were designed to be attainable, but were by no means certain or even probable of being attained. For the strategic initiatives objective, the committee reviewed the initiatives undertaken by us in fiscal 2009 and determined that level 2 performance had been achieved.

Share Options

Our share option program is the primary vehicle for offering long-term incentives to our executives. We believe that option grants provide our executives with a strong link to our long-term performance, create an ownership culture and help to align the interests of our executives and our shareholders. In addition, the vesting feature of our option grants is intended to promote executive retention by providing an incentive to our executives to remain in our employ during the vesting period.

It has been the practice of the compensation committee to grant options to our executive officers every four years (after the completion of vesting of the previous grants) rather than on an annual basis, although the committee continually evaluates the optimal approach for equity compensation and this practice could change in the future. Our practice has been to grant an option award to new executives upon hire, although we have not hired a new executive officer into the organization for several years. All grants of options to our executives are approved by the compensation committee.

Late in fiscal 2007, the compensation committee approved significant option grants to our executives. No share options or other equity awards were granted to our named executive officers in fiscal 2008 or fiscal 2009.

Our board of directors has adopted policies for option grants by SkillSoft. One of the primary purposes of these policies is to establish procedures for option grants that minimize the opportunity — or the perception of the opportunity — for us to time the grant of options in a manner that takes advantage of any material nonpublic information. Among the matters covered by these policies are the following:

All option grants to executive officers, and all option grants to other employees except options granted under a limited discounted option grant program to non-executive employees, will have an exercise price equal to the last reported sale price of our ADSs on NASDAQ on the date of grant.

Our chief executive officer can continue to make option grants to non-executive officers, subject to limitations imposed by the compensation committee.

Option grants to executive officers will be made only during a meeting of the compensation committee or the board of directors, and may not be approved by written consent.

Option grants to newly hired employees — whether made by the chief executive officer, the compensation committee or the board of directors — will be made on the first trading day of the month following their date of hire.

- Options will not be granted by the compensation committee or the board of directors during the quarter-end blackout periods under our insider trading policy; provided that options may be approved during a meeting within a blackout period with the grant to be effective as of — and priced based on the trading price — two days after the end of the blackout period.

We do not have any share ownership guidelines for our executives.

Employee Benefits and Other Compensation

We maintain broad-based benefits that are provided to all employees, including health and dental insurance, life and disability insurance and a 401(k) plan. Executives are eligible to participate in all of our employee benefit plans, in each case on the same basis as other employees. Under our 401(k) plan, we match 100% of the employees' 401(k) contribution up to 3% of eligible compensation, subject to various limitations (including a limit of \$2,400 per employee annually).

In addition, our chief financial officer, Tom McDonald, does not reside in New England. Consequently, we make available to him housing and a car when he is in New Hampshire. We also reimburse Mr. McDonald for the expenses associated with his travel to and from New Hampshire. For additional information regarding these benefits, please refer to the Summary Compensation Table below and the narrative description that follows.

Severance Benefits

We have entered into employment agreements with each of our named executive officers. The employment agreements provide that the executive is entitled to specified severance benefits in the event his employment is terminated by us without "cause" or by the executive for "good reason" (each as defined in the employment agreement). In addition, all of our executive employment agreements provide that the executive may elect to extend the vesting and exercisability of their share options for a period of six months or one year (depending on the executive) following employment termination, in some cases in exchange for a non-competition covenant or the performance of consulting services. We have provided more detailed information about these arrangements, along with estimates of their value, under the section "Employment Agreements and Potential Termination Payments" below. We believe that providing these severance benefits helps us compete for and retain executive talent.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended (referred to as the Code), generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and our three other executive officers (other than the chief executive officer and the chief financial officer) whose compensation is required to be disclosed to our shareholders by reason of being among our most highly compensated officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We structure our share option awards to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. We periodically review the potential consequences of Section 162(m) on the other components of our executive compensation program. We will structure arrangements to comply with the Section 162(m) exceptions where we believe it to be feasible. However, the compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Section 409A of the Code applies to plans, agreements and arrangements that provide for the deferral of compensation, and imposes penalty taxes on employees and other service providers if those plans, agreements and arrangements do not comply with Section 409A. We have structured our share option grants and our severance arrangements to be exempt from or comply with, Section 409A.

- (1) The amounts in this column reflect the dollar amount computed for financial statement reporting purposes for fiscal 2007, 2008 and 2009, in accordance with SFAS 123R, of share options granted under our equity plans and include amounts from share options granted in and prior to the fiscal year in question. There can be no assurance that the SFAS 123R amounts will ever be realized. The assumptions we used to calculate these amounts are included in Note 9 to our audited financial statements for fiscal 2009, included in our Annual Report on Form 10-K for fiscal 2009. Due to the overall stock market drop, these options may be worth significantly less than the amounts calculated in accordance with SFAS 123R. These options vest as to 25% of the shares subject to the option on the first anniversary of the date of grant and 1/48 th of the shares subject to the option at the end of each one month period thereafter over the remaining 36 months. Each option has a term of ten or seven years, and generally expires shortly following the termination of the executive's employment. In addition, as described below under "Employment Agreements and Potential Termination Payments", the executive may elect to extend the vesting and exercisability of these options following employment termination under certain circumstances.
- (2) The amounts in this column reflect cash bonus awards earned by our named executive officers for performance under our executive incentive compensation programs. See "Compensation Discussion and Analysis — Components of our Executive Compensation Program — Cash Incentive Bonuses" above for a description of the fiscal 2009 program.
- (3) All Other Compensation is comprised of the following:

Employment Agreements and Potential Termination Payments

We have entered into employment agreements with our named executive officers that provide for termination payments under certain circumstances.

Charles E. Moran's Employment Agreement. In connection with our merger with SkillSoft Corporation, we entered into an employment agreement, effective on September 6, 2002, the date of completion of the merger, with Charles E. Moran, to employ Mr. Moran as our President and Chief Executive Officer. Mr. Moran's employment agreement provides that he will be paid a base salary of \$225,000 per year to be reviewed for increases at least annually by our Board of Directors. Mr. Moran's current base salary is \$372,000. In addition, Mr. Moran will be entitled to receive an annual performance bonus based on performance metrics established by the Board of Directors. Mr. Moran's employment is at-will, but if Mr. Moran's employment is terminated without cause or if he resigns with good reason, each as defined in his employment agreement, he will be entitled to receive a payment equal to the sum of his base salary and maximum target bonus for a period of one year after the date of termination. In addition, if Mr. Moran is terminated without cause or if he resigns with good reason, he may elect to continue vesting of the options granted to him for a period of one year after the date of termination, if he agrees to be bound by the non-solicitation and non-compete provisions contained in his employment agreement. If Mr. Moran's termination is voluntary (other than for good reason) or we terminate him for cause, the covenant not to solicit employees and the covenant not to compete will extend for a period of one year after the termination of his employment.

Thomas J. McDonald's Employment Agreement. Thomas J. McDonald is a party to an employment agreement dated February 2, 1998 with our predecessor corporation, SkillSoft Corporation. Under the terms of the employment agreement, Mr. McDonald is entitled to receive a base salary of \$135,000, which may be increased in accordance with our regular salary review practices. Mr. McDonald's current base salary is \$252,000. Mr. McDonald is also entitled to participate in any bonus plans that SkillSoft may establish for its senior executives. Either we or Mr. McDonald may terminate the employment agreement at will for any reason upon three months prior notice in the case of termination by us, or upon two months prior notice in the case of termination by Mr. McDonald. If Mr. McDonald's employment is terminated for any reason or if he resigns with good reason, as defined in his employment agreement, he will be

entitled to continuation of salary and benefits for a period of six months after the date of termination. In addition, in the event of such a termination, Mr. McDonald's stock options will continue to vest and be exercisable if he performs consulting services for us of up to ten hours per week during the six months following termination.

Jerald A. Nine Jr.'s Employment Agreement. In connection with our merger with SkillSoft Corporation, we entered into an employment agreement, effective on September 6, 2002, the date of completion of the merger, with Jerald A. Nine, to employ Mr. Nine as our Executive Vice-President, Content Solutions and General Manager Books Division. Mr. Nine's employment agreement provides for a cash compensation plan that reflects the level established by our Board of Directors for the then current fiscal year. Mr. Nine's employment agreement provides that he will be paid a base salary of \$200,000 per year to be reviewed for increases at least annually by the Board of Directors. Mr. Nine's current base salary is \$282,000. In addition, Mr. Nine will be entitled to receive an annual performance bonus based on performance metrics established by the Board of Directors. Mr. Nine's employment is at-will, but if Mr. Nine's employment is terminated without cause or if he resigns with good reason, as defined in his employment agreement, he will be entitled to receive a payment equal to the sum of his base salary plus the then maximum performance bonus for a period of one year. In addition, if Mr. Nine is terminated without cause or if he resigns with good reason, he may elect to continue vesting of the options granted to him for a period of one year. If Mr. Nine's termination is voluntary (other than for good reason) or we terminate him for cause, the covenant not to solicit employees and the covenant not to compete will extend for a period of one year after the termination of his employment.

Table of Contents

Mark A. Townsend's Employment Agreement. Mark A. Townsend is a party to an employment agreement dated January 12, 1998 with our predecessor corporation, SkillSoft Corporation. Under the terms of the employment agreement, Mr. Townsend is entitled to receive a base salary of \$145,000, which may be increased in accordance with our regular salary review practices.

Mr. Townsend's current base salary is \$200,000. Mr. Townsend is also entitled to participate in any bonus plans that SkillSoft may establish for its senior executives. Either we or Mr. Townsend may terminate the employment agreement at will for any reason upon three months prior notice in the case of termination by us, or upon two months prior notice in the case of termination by Mr. Townsend. If Mr. Townsend's employment is terminated for any reason or if he resigns with good reason, as defined in his employment agreement, he will be entitled to continuation of salary and benefits for a period of six months after the date of termination. In addition, in the event of such a termination, Mr. Townsend's stock options will continue to vest and be exercisable if he performs consulting services for us of up to ten hours per week during the six months following termination.

Colm M. Darcy's Employment Agreement. In connection with our merger with SkillSoft Corporation, we entered into an employment agreement, effective on September 6, 2002, the date of completion of the merger, with Mr. Darcy, to employ him as our Executive Vice President, Content Development. Mr. Darcy's employment agreement provides that he will be paid a base salary of \$200,000 per year to be reviewed for increases at least annually by the Board of Directors and that his participation in SkillSoft's benefit plans shall be at the SkillSoft's expense. Mr. Darcy's current base salary is \$200,000. Pursuant to the employment agreement, on September 6, 2002, we granted Mr. Darcy an option to purchase an aggregate of 50,000 shares at an exercise price of \$4.25 per share. The option grant vested as to 25% of the shares on September 6, 2003 and vests thereafter in 48 equal monthly installments on each monthly anniversary of the date of the grant. Mr. Darcy will also be reimbursed for certain supplemental travel expenses for him and his wife. In addition, Mr. Darcy will be entitled to receive relocation expense reimbursement in the event Mr. Darcy either relocates to Ireland at our request or returns there within three months after his employment is terminated without cause or if he resigns with good reason, each as defined in his employment agreement. Mr. Darcy's employment is at-will, but if his employment is terminated without cause or if he resigns with good reason, he will be entitled to receive a payment equal to the sum of \$75,000 plus his base salary for a period of six months after the date of termination. In addition, if Mr. Darcy is terminated without cause or if he resigns with good reason, he may elect to continue vesting of the options granted to him for a period of six months after the date of termination, if he agrees to be bound by the nonsolicitation and noncompete provisions contained in his employment agreement. The employment agreement also includes a covenant not to solicit employees and a covenant not to compete for a period extending until the later of six months after the termination of his employment and September 6, 2006, if Mr. Darcy's termination is voluntary (other than for good reason) or we terminate him for cause.

The table below shows the benefits potentially payable to each of our named executive officers if he were terminated without cause or resigned for good reason, or in the case of Messrs. McDonald and Townsend, if he were terminated for any reason or resigned for good cause. These amounts are calculated on the assumption that the employment termination took place on January 31, 2009.

Name	Severance Payments		Extended Vesting of Options (1)	Benefits (\$)	Total (\$)
	Base Salary (\$)	Target Bonus (\$)			
Charles E. Moran	372,000	753,300	1,598,550	—	2,472,750

Colm M. Darcy	175,000		159,855	—	334,855

(1) These options would continue to vest for a specified period of time following the termination event. We calculated a Black-Scholes value for the options for the extended period of time following the termination event and have presented this incremental value in the above table.

Compensation of Directors

Each director who is not an employee of SkillSoft (each, an “Outside Director”) receives cash compensation as follows:

each Outside Director receives an annual retainer of \$30,000;
the chairman of the Audit Committee receives an additional annual retainer of \$20,000;
the chairman of each of the Compensation Committee and the Nominating and Corporate Governance Committee receives an additional annual retainer of \$7,500; and
each Outside Director who is a member of any Committee of the Board of Directors receives an additional payment of \$2,000 per Board or Committee meeting attended up to a maximum of ten meetings per year (including by conference telephone) beyond regularly scheduled meetings (i.e. a maximum additional payment of \$20,000), provided that only one meeting payment would be made in the event such additional meetings of the Board of Directors and one or more Committee were held on the same day.

Table of Contents

Any director who is in office only for a portion of a fiscal year shall only be entitled to be paid a pro-rated portion of such remuneration reflecting such portion of the year during which he held office.

We also reimburse directors for expenses incurred in attending meetings of the Board of Directors and Committees and for certain company-approved continuing education expenses.

We currently have six Outside Directors, each of whom is eligible for cash remuneration as described above: P. Howard Edelstein, Stewart K.P. Gross, James S. Krzywicki, William F. Meagher, Jr., Dr. Ferdinand von Prondzynski and William J. Boyce. Mr. Meagher is the chair of the Audit Committee and Mr. Gross is the chair of the Compensation Committee and the Nominating and Corporate Governance Committee. As such, Messrs. Meagher and Gross received the additional retainer amounts described above in fiscal 2009.

In addition to the annual retainer and the payments described above, we grant Outside Directors compensation in the form of share options for their services as members of the Board of Directors. On initial election to the Board of Directors, each new Outside Director receives an option to purchase 50,000 ordinary shares (the "Initial Grant") under our Director Plan. Each Outside Director who has been a director for at least six months receives an option to purchase 20,000 ordinary shares on January 1st of each year (the "Annual Grant").

All options granted under the Director Plan have a term of ten years and an exercise price equal to the fair market value of the ordinary shares on the date of grant. The Initial Grant becomes exercisable as to one-third of the shares subject to the option on each of the first three anniversaries of the date of grant, provided the Outside Director remains a director on such dates. The Annual Grant becomes fully exercisable on the first anniversary of the date of grant, provided the Outside Director remains a director on such date. Upon exercise of an option, the Outside Director may elect to receive his ordinary shares in the form of ADSs. After termination as an Outside Director, an optionee may exercise an option during the period set forth in his option agreement. If termination is due to death or disability, the option will remain exercisable for 12 months. In all other cases, the option will remain exercisable for a period of three months. However, an option may never be exercised later than the expiration of its ten-year term. An Outside Director may not transfer options granted under the Director Plan other than by will or the laws of descent and distribution. Only the Outside Director may exercise the option during his lifetime. In the event of a merger of SkillSoft with or into another corporation or a sale of substantially all of SkillSoft's assets, the successor corporation may assume, or substitute a new option in place of, each option. If such assumption or substitution occurs, the options will continue to be exercisable according to the same terms as before the merger or sale of assets. Following such assumption or substitution, if an Outside Director is terminated other than by voluntary resignation, the option will become fully exercisable and generally will remain exercisable for a period of three months. If the outstanding options are not assumed or substituted for, the Board of Directors will notify each Outside Director that he has the right to exercise the option as to all shares subject to the option for a period of 30 days following the date of the notice. The option will terminate upon the expiration of the 30-day period. Unless terminated sooner, the Director Plan will automatically terminate in 2011. The Board of Directors has the authority to amend, alter, suspend, or discontinue the Director Plan, but no such action may adversely affect any grant previously made under the Director Plan.

On January 1, 2009, Messrs. Meagher, Edelstein, Gross and Krzywicki and Dr. von Prondzynski each were granted an option to purchase 20,000 ordinary shares at an exercise price of \$7.14 per share. Each such option was in accordance with the terms of the Director Plan described above.

On March 11, 2009, the Board of Directors appointed William Boyce to our Board of Directors. In connection with his appointment, Mr. Boyce received an initial share option grant under the Director Plan to purchase 50,000 ordinary shares at an exercise price of \$4.97 per share. Such option was granted in accordance with the terms of the Director Plan described above.

(1) The amounts in this column reflect the dollar amount computed for financial statement reporting purposes for fiscal 2009, in accordance with SFAS 123R, of stock options granted under our equity plans and include amounts from stock options granted in and prior to fiscal 2009. The grant date fair value, computed in accordance with SFAS No. 123(R), of options granted to each of our outside directors for fiscal 2009 was \$63,298, of which \$5,203 is included in fiscal 2009 compensation. The grant date fair value was determined by using the Black-Scholes option pricing model. There can be no assurance that the SFAS 123R amounts will ever be realized. The assumptions we used to calculate these amounts are included in Note 9 to our audited financial statements for fiscal 2009, included in our Annual Report on Form 10-K for fiscal 2009 filed on April 1, 2009. As of January 31, 2009, each continuing Outside Director held options for the following number of shares: Mr. Edelstein: 105,000, Mr. Gross: 105,000, Mr. Krzywicki: 115,000, Mr. Meagher: 95,000 and Mr. Von Prondzynski: 105,000.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information as of May 20, 2009, with respect to the beneficial ownership of our ADSs by:

each person known to SkillSoft to own beneficially more than 5% of our outstanding securities;
each director;
our named executive officers; and
our current directors and executive officers as a group.

The number of ADSs beneficially owned by each 5% shareholder, director or executive officer is determined under rules of the SEC. Under such rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting power or investment power and includes any ADSs which the individual has the right to acquire on or before July 19, 2009 through the exercise of share options, and any reference in the footnotes to this table to shares subject to share options refers only to share options that are so exercisable. For purposes of computing the percentage of outstanding ADSs held by each person or entity, any shares which that person or entity has the right to acquire on or before July 19, 2009 are deemed to be outstanding but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, each person or entity has sole investment and voting power (or shares such power with his or her spouse) with respect to the shares set forth in the following table. The inclusion herein of any shares deemed beneficially owned does not constitute an admission of beneficial ownership of those shares.

As of May 20, 2009, we had 96,683,460 ordinary shares outstanding. Our shareholders may elect to hold their respective shares of our outstanding securities in the form of ordinary shares or ADSs. In addition, holders of options to purchase ordinary shares of SkillSoft may, upon exercise of their options, elect to receive such ordinary shares in the form of ADSs. The 5% shareholders, directors and executive officers identified in the following table hold their respective shares of SkillSoft outstanding securities in the form of ADSs.

Item 13. Certain Relationships and Related Transactions, and Director Independence Policies and Procedures Regarding Review, Approval or Ratification of Related Person Transactions

Our Board of Directors has adopted written policies and procedures for the review of any transaction, arrangement or relationship in which SkillSoft is a participant, the amount involved exceeds \$50,000, and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a “related person,” has a direct or indirect material interest.

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a “related person transaction,” the related person must report the proposed related person transaction to our Vice President, Administration. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by the Board of Directors’ Audit Committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chairman of the audit committee to review and, if deemed appropriate, approve proposed related person transactions that arise between audit committee meetings, subject to ratification by the audit committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

The committee will review and consider such information regarding the related person transaction as it deems appropriate under the circumstances. The committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in, or is not inconsistent with, SkillSoft’s best interests. The committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC’s related person transaction disclosure rule, the Board has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

interests arising solely from the related person’s position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where (a) the related person owns in the aggregate less than a 5% equity interest in such entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction, (c) the amount involved in the transaction equals less than 1% of the annual consolidated gross revenues of the other entity that is a party to the transaction, and (d) the amount involved in the transaction equals less than 1% of SkillSoft’s annual consolidated gross revenues; and a transaction that is specifically contemplated by provisions of our Articles of Association or Memorandum of Association.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter.

The son-in-law of Charles Moran, our Chairman, President and Chief Executive Officer, is employed in our sales organization and receives annual compensation in excess of \$120,000 (consistent with others in similar roles). This individual was hired before becoming Mr. Moran’s son-in-law. Mr. Moran does not participate in the supervision of or compensation decisions regarding this individual, and we believe the compensation of this individual is fair and commensurate with what it would be if he had no relationship to Mr. Moran.

Director Independence

Under applicable NASDAQ rules, a director will only qualify as an “independent director” if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Under the Corporate Governance Guidelines we adopted in connection with the settlement of our securities class action litigation, our Board of Directors must propose director nominees for election such that, should the shareholders elect those nominees, two-thirds of the members of our Board of Directors will be independent directors. Our Corporate Governance Guidelines, which are available on our website at www.SkillSoft.com also include a heightened definition of independence for purposes of that requirement.

Our Board has determined that none of Messrs. Gross, Boyce, Krzywicki, Meagher or von Prondzynski has a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is an “independent director” as defined under Rule 4200(a)(15) of the NASDAQ Stock Market, Inc. Marketplace Rules and our Corporate Governance Guidelines.

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by our registered public accounting firm. These policies and procedures generally provide that we will not engage our independent registered public accounting firm to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee or the engagement is entered into pursuant to one of the pre-approval procedures described below.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to us by our registered independent public accounting firm during the next 12 months.
