MERGE EFILM SIGNS DEFINITIVE AGREEMENT TO ACQUIRE RIS LOGIC - Acquisition accelerates RIS/PACS strategy and expands product and service offerings to imaging center and hospital markets

Milwaukee, WI, July 9, 2003 - Merge Technologies Incorporated (NASDAQ: MRGE), d.b.a. Merge eFilm, today announced the signing of a definitive agreement to acquire RIS Logic(r) Incorporated, a privately held Ohio-based company that develops and supports Radiology Information Systems (RIS) software. The acquisition price of all RIS Logic shares is \$2.725 million in cash plus 772,000 shares of Merge Technologies common stock and the issuance of replacement employee stock options. The transaction is subject to closing conditions.

"The acquisition of RIS Logic is an important strategic milestone in our evolution as a healthcare software and services company focused on delivering comprehensive RIS/PACS solutions to our target market," said Rich Linden, Merge eFilm President and CEO. "The imaging center and hospital markets have clearly expressed a desire to partner with a financially strong, growing and innovative software and services company that can deliver a total solution with RIS and PACS functionality. Our combined companies can now deliver on those expectations as we become a single-source provider and long-term partner for our customers. Additionally, RIS Logic brings 64 imaging center customers representing over 200 imaging centers to the new organization. Combined with

our growing number of FUSION Server PACS customers, we now have a sizable presence in our target market along with new cross-selling opportunities."

"This acquisition makes a clear statement about our intent to provide a single source solution for RIS/PACS," commented Dan Quigg, President and CEO of RIS Logic. "The RIS Logic CS solution will continue to be central to the business strategy delivered by our combined organization. We will continue to develop new features and client-driven enhancements according to our product road map, as well as continue to enhance the level of support to our existing clients. We are committed to providing the healthcare industry with an integrated business and clinical workflow solution. Together, with Merge eFilm's PACS solutions, strong financial position and sixteen years of integration expertise, our solutions will reduce complexity for our customers, accelerate productivity, optimize reimbursements, enhance referring physician relationships, and ultimately improve the care of the patients they serve."

Commenting further, Linden said, "We anticipate closing the acquisition of RIS Logic in July and providing an update to our 2003 financial guidance during the second quarter earnings conference call scheduled for July 30th. Additionally, we plan to hold a special investors' conference call on Thursday, July 10, 2003 at 9:00 a.m. Central Time to discuss the acquisition and answer investor questions." Information about the call is available at Merge eFilm's Web Site: <http://www.merge.com/companyinformation/pressroom.asp>.

##

### About Merge eFilm

Merge eFilm provides integrated healthcare image and information workflow solutions that create a filmless workflow environment, address the clinical imaging needs across the healthcare enterprise, and enable cost-effective, patient-centric care. For more than sixteen years, Merge eFilm has leveraged its healthcare IT, clinical and engineering experience to create elegant and affordable solutions that improve the clinicians' productivity and enhance the quality of the care they provide. For additional information, visit our website at [www.merge-efilm.com](http://www.merge-efilm.com).

### About RIS Logic

RIS Logic (Registered), Inc., founded in 1997 by Dr. Frank E. Seidelmann, a diagnostic neuroradiologist, provides intuitive, comprehensive radiology information systems (RIS) to diagnostic outpatient imaging centers in the United States. RIS Logic's strength lies in its ability to automate, integrate and replicate optimal workflow of a radiology practice. RIS Logic CS allows

clients to realize substantial improvements in productivity and cash flow by integrating information and automating workflow related to scheduling, report turnaround, billing, claims processing, and other mission-critical operational functions in a practice. Additionally, the practice can uncover ways to reduce bottlenecks, maximize profits and increase revenue through practice analysis tools. RIS Logic has a client base with over 200 sites. For more information or a product tour visit [www.rislogic.com](http://www.rislogic.com).
