Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013

Introduction

This Specialized Disclosure Report on Form SD (“Form SD”) of Advantest Corporation (“Advantest” or “we”) for the year ended December 31, 2013 is presented to comply with Rule 13p-1 under the Securities Exchange Act of 1934 (“Rule 13p-1”). The Rule 13p-1 was adopted by the Securities and Exchange Commission (“SEC”) to implement reporting and disclosure requirements related to “conflict minerals” as directed by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010.

Company Overview

Advantest conducts its business in the following segments: 1) Semiconductor and Component Test System Segment; 2) Mechatronics System Segment, focusing on peripheral devices, including test handlers and device interfaces; and 3) Services, Support and Others Segment.

Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

In accordance with the Advantest Procurement Policy, which is available publicly on our website (<https://www.advantest.com/US/AboutAdvantest/procurementpolicy/index.htm>), Advantest has concluded in good faith that during the reporting period from January 1 to December 31, 2013:

- a) Advantest has manufactured and contracted to manufacture products as to which “conflict minerals” (as defined in Item 1.01 (d) (3) of Form SD) are necessary to the functionality or production of such products.
 - b) Based on a “reasonable country of origin inquiry” (“RCOI”) and due diligence procedures (described in greater detail in the Conflict Minerals Report referenced below), Advantest knows or has reason to believe that a portion of its necessary conflict minerals originated or may have originated in the Democratic Republic of the Congo or an adjoining country (collectively, the “Covered Countries”) and knows or has reason to believe that such necessary conflict minerals may not be from recycled or scrap sources.
 - c) Advantest’s RCOI employed a combination of measures to determine whether the necessary conflict minerals in Advantest products originated from the Covered Countries. Advantest’s primary means of making this determination was by conducting a supply-chain survey with direct suppliers using the Electronic Industry Citizenship Coalition® (EICC®) / Global e-Sustainability Initiative (GeSI) Conflict Minerals Reporting Template. In addition, Advantest re-surveyed suppliers from whom we received conflicting results obtained by the original survey from the supply-chain. As a result of the supply chain survey that we conducted, approximately 93% of our direct suppliers that contribute necessary conflict minerals to our products have provided a response to the survey.
