NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the audited financial statements of the Company as of December 31, 2000, including notes thereto, included in the Company's Registration Statement on Form SB-1.

NOTE 2: EARNINGS PER SHARE

The Company calculates net income (loss) per share as required by SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During the periods presented, common stock equivalents were not considered, as their effect would be anti-dilutive.

NOTE 3: STOCKHOLDERS' EQUITY

During the three months ended June 30, 2001 the Company completed its Form SB-1 offering raising \$250,000 net of \$28,005 in offering expenses. The selling agent, an officer and director of the Company, deposited the proceeds in an affiliated company's bank account. Subsequent to June 30, 2001 the funds were deposited into the Company's account on behalf of the affiliated company without claim or recourse to the Company.

"forward- looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance or achievements of us to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among other things, (1) general economic and business conditions; (2) interest rate changes; (3) the relative stability of the debt and equity markets; (4) competition; (5) the availability and cost of our products; (6) demographic changes; (7) government regulations particularly those related to automatic vehicle location industry; (8) required accounting changes; (9) equipment failures, power outages, or other events that may interrupt Internet communications; (10) disputes or claims regarding our proprietary rights to our software and intellectual property; and (11) other factors over which we have little or no control.

OVERVIEW

We were incorporated in the state of Nevada on March 8, 1999 by AVL Information Systems Ltd. and its principal officer and directors. AVL Information Systems Ltd. is a Canadian public company that owns and licenses certain technology and automatic vehicle location systems. On January 7, 2001, we entered into a non-exclusive worldwide International Distribution Agreement with AVL Information Systems Ltd. Under the agreement, we are licensed to market and distribute an automatic vehicle location system called the Spryte System(TM). The Spryte System(TM) integrates Global Positioning System technology, cellular-wireless communications and the Internet to enable companies to efficiently manage their mobile resources with location-relevant and time-sensitive information. While there are several ways to transmit information from a vehicle to a central location, we believe that the Spryte System(TM) provides significant value to customers by reducing their costs of doing business and increasing the productivity of their mobile resources.

We are in the development stage and have not generated any revenues. We have a cumulative net loss of \$39,240 through June 30, 2001. We have suffered losses

Edgar Filing: I TRACK INC - Form 10QSB

from operations and require additional financing. Our current financing needs have been met by the recently completed public offering. Ultimately we need to generate revenues and successfully attain profitable operations. The marketing and distribution of the Spryte System(TM) may take years to complete and the amount of resulting revenues, if any, is difficult to determine. Our previous capital needs have been met by equity offerings, and we have issued common stock in exchange for services rendered and funds advanced by related parties. There can be no assurance that we will be able to market and distribute the Spryte System(TM). Even if we are able to market and distribute the system, there is no assurance that we will be able to generate revenues and attain profitable operations.

RESULTS FROM OPERATIONS

We have a limited operating history. We incurred a net loss of \$32,087 for the year ended December 31, 2000, and had a net loss of \$3,029 for the period ended December 31, 1999. For the six months ended June 30, 2001, we had a net loss of \$4,124, as compared to \$4,477 for the comparable 2000 period.

LIQUIDITY AND FINANCIAL CONDITION

For the six months ended June 30, 2001, the statement of cash flows reflects net cash provided by operating activities of \$13,089, and net cash provided by financing activities of \$233,380. The financing activities included our unit offering and a related party loan. For the six months ended June 30, 2000, net cash used in operating activities was \$3,277, which was offset by related party loans of \$29,996. As a result of our unit offering, we have a working capital surplus of \$201,455. Since we have no source of revenue, our working capital will be depleted by operating expenses and we will be dependent upon external sources of cash.

8

ADDITIONAL FUNDING

On November 6, 2000, we filed a registration statement on Form SB-1 with the SEC (file number 333-49388) for the offer and sale of 2,500,000 units, at a price \$0.10 per unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock. After several amended filings, our registration statement was declared effective on April 10, 2001. Under a prospectus dated April 11, 2001, we sold 2,500,000 Units for gross proceeds in the amount of \$250,000. We completed the offering on April 30, 2001. We did not incur expenses in connection with underwriting discounts and commissions, or finder's fees. The total amount of offering expenses were \$28,005, with net proceeds of \$221,995.

Our selling agent, an officer and director of the company, deposited the gross proceeds in an affiliated Company's bank account. In August 2001, the funds were deposited into our bank account on behalf of the affiliated company without claim or recourse to us. We have not used our net proceeds as of August 30, 2001. We believe the net proceeds will be sufficient to fund our operations for at least the next twelve months.

PLAN OF OPERATION

At this time, we intend to establish relationships with a number of other companies to accelerate the implementation of the distribution agreement and the sale of the Spryte Systems(TM). We believe that our status as a U.S. publicly

Edgar Filing: I TRACK INC - Form 10QSB

traded company will assist us in establishing strategic alliances because of our perceived level of credibility and access to capital in the U.S. markets. We intend to establish relationships with existing companies engaged in the automatic vehicle location industry, wireless carriers, manufacturers, distributors, and Internet companies. We intend to create relationships and to retain consultants and contractors with established connections in the telecommunication and application service provider industries. We foresee that compensation would be commission based. Depending upon the market acceptance of the Spryte System(TM), we may hire employees in the foreseeable future.

We believe that establishing a network of alliances, while not a small task, can be accomplished in a shorter period of time and at less cost than building a comparable direct sales infrastructure. It is our priority to establish a channel partner network in the U.S. and Canada, and recruit international channel partners as opportunities present themselves.

We expect to generate revenues by selling the Spryte Systems(TM) at cost plus margin. Under the distribution agreement, all orders are shipped common carrier FOB destination, and we are required to pay 30% of the total order price the time of ordering, 30% upon delivery of the order, and 40% within 30 days after installation. We believe the amount of margin will vary depending on the time, expense, and size of sale. We expect to realize revenues within the next three months.

We do not expect to purchase any significant equipment during the next twelve months, nor do we expect to hire a significant number of employees during that time period. We expect to finance our objectives through the proceeds of our unit offering.
