Basel, Switzerland, March 17, 2017

**Further expansion of SOLATENOL™ fungicide in Europe**

**New registration in Germany received**

**Basis for ELATUS™ Era and ELATUS™ Plus fungicides**

**Delivers outstanding control of major cereals diseases**

**First sales in Germany in 2017 season**

Syngenta announced today that the registration of its SDHI fungicide SOLATENOL™ has been further extended in Europe following approval by the German authorities. This most recent registration will allow Syngenta to introduce the products ELATUS™ Era and ELATUS™ Plus to the cereals market in Germany. ELATUS™ Plus is a solo formulation of the active ingredient SOLATENOL™ sold in co-packs with a range of other products. ELATUS™ Era is a combination of the two active ingredients SOLATENOL™ and prothioconazole.

The launch of SOLATENOL™ in Germany for the 2017 season gives growers in another major cereals market access to this leading new technology. SOLATENOL™ is already registered in France, Croatia, UK, Ireland, Finland, Latvia, Estonia and Austria.

SOLATENOL™ is a carboxamide fungicide offering an unrivaled performance against *Septoria* and rusts - two important diseases which can significantly impact cereals production. In trials, it has proven to be extremely consistent in providing excellent disease control on all important cereals varieties in a wide range of situations over several years. The product offers outstanding levels of leaf protection resulting in higher yield and return on investment for the farmer.

SOLATENOL™ is also available for use on soybean in Latin America and on a wide range of crops in the USA and Canada.

### **About Syngenta**

Syngenta is a leading agriculture company helping to improve global food security by enabling millions of farmers to make better use of available resources. Through world class science and innovative crop solutions, our 28,000 people in over 90 countries are working to transform how crops are grown. We are committed to rescuing land from degradation, enhancing biodiversity and revitalizing rural communities.
