## **Audit Committee and Financial Expert**

We do not have a separately-designated standing audit committee but our full Board of Directors performs some of the same functions of an audit committee, including selecting the firm of independent certified public accountants to audit the annual financial statements, reviewing the independent auditors independence, the financial statements and the audit report, and reviewing the Company's system of internal controls over financial reporting. The Company does not currently have a written audit committee charter or similar document.

## **Nominating Committee**

We do not have a nominating committee or a nominating committee charter. The full Board of Directors performs some of the functions associated with a nominating committee, including consideration of director nominees. The Company does not have a nominating committee because it is still in the development stage and has limited resources and a limited number of directors. The Board of Directors concluded that the expense of a separate nominating committee was not warranted at this time. At present, all of the members of the Board of Directors participate in discussions regarding nominees for director. Since at the present time there are only four directors and all directors will work closely with any new directors, the Board of Directors has determined that it is appropriate for all members of the Board of Directors to participate in the selection of directors. All of the directors approved the selection of the nominees for director named in the proxy statement. Three nominees are current directors of the Company, and two nominees are not current directors of the Company.

Generally, nominees for director have been identified and suggested by the members of the Board of Directors or management of the Company. The Board of Directors has not retained any executive search firms or other third parties to identify or evaluate director candidates in the past and does not intend to in the near future. In selecting a nominee for director, the Board of Directors considers the following criteria:

whether the nominee has the personal attributes for successful service on the Board of Directors, such as demonstrated character and integrity; experience at a strategy/policy setting level; managerial experience dealing with complex problems; an ability to work effectively with others; and sufficient time to devote to the affairs of the Company;

whether the nominee has been the chief executive officer or senior executive of a public company or a leader of a similar organization, including industry groups, universities or governmental organizations;

whether the nominee, by virtue of particular experience, technical expertise or specialized skill or contracts relevant to the Company's current or future business, will add specific value as a Board member; and

whether there are any other factors related to the ability and willingness of a new nominee to serve, or an existing Board member to continue his service.

The Board of Directors has not established any specific minimum qualifications that a candidate for director must meet in order to be recommended for Board membership. Rather the Board of Directors will evaluate the mix of skills and experience that the candidate offers, consider how a given candidate meets the Board's current expectations with respect to each such criterion and make a determination regarding whether a candidate should be recommended to the stockholders for election as a director. During the fiscal year ended June 30, 2006, the

## **Table of Contents**

Company received no recommendation for directors from any of its non-officer/director stockholders. Subsequent to the end of the fiscal year, the Company received a recommendation from Vision to nominate David Skriloff to be elected to the board of directors, pursuant to Vision's rights under that certain letter agreement between Vision and the Company dated October 12, 2006, a copy of which was included as Exhibit 10.134 to the Company's Current Report on Form 8-K filed with the SEC on October 13, 2006. The Board of Directors evaluated Mr. Skriloff, as it did the other candidates, and recommends that the stockholders elect Mr. Skriloff along with the other director nominees at the annual meeting of stockholders.

This Company will consider for inclusion in its nominations of new Board of Director nominees proposed by stockholders who have held at least 1% of the outstanding voting securities of the Company for at least one year. Board candidates referred by such stockholders will be considered on the same basis as Board candidates referred from other sources. Any stockholder who wishes to recommend for the Company's consideration a prospective nominee to serve on the Board of Directors may do so by giving the candidate's name and qualifications in writing to the Company's Secretary at the following address: Halo Technology Holdings, 200 Railroad Avenue, Greenwich, CT 06830, Attention: Ernest C. Mysogland.

## **Board of Directors Meetings**

The Board of Directors of the Company met fifteen times during the fiscal year ended June 30, 2006. All directors attended at least 75% of the meetings held while they were a director. All members of the Board of Directors and nominees (other than Mr. Boehmer) are expected to be present, either in person or by telephone, at the annual meeting on December 6, 2006. All members of the Board of Directors were present at the annual meeting of shareholders for the fiscal year ended June 30, 2005.

## **Compensation Committee and Compensation Report**

The Board of Directors appointed a Compensation Committee on September 13, 2005. The Compensation Committee currently consists of Mr. Boehmer and Mr. Rapkin, both of whom meet the requirements of non-employee directors under the rules under section 16(b) of the Securities Exchange Act of 1934, as amended, and the requirements of outside directors under section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). The Compensation Committee does not yet have a written charter. If the Halo Technology Holdings 2006 Equity Incentive Plan is approved, the Compensation Committee will administer such plan. The Compensation Committee met five times during the fiscal year ended June 30, 2006.

The Compensation Committee reviewed all forms of compensation provided to our executive officers, directors, consultants and employees including stock compensation. The Compensation Committee had no existing policy with respect to the specific relationship of corporate performance to executive compensation. The Compensation Committee has set executive compensation at what the Compensation Committee considered to be the minimal levels necessary to retain and compensate the officers of the Company for their activities on the Company's behalf.

## **Code of Ethics**

A code of ethics is a set of written standards designed to deter wrongdoing and to promote:

- (1) Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- (2) Full, fair, accurate, timely and understandable disclosure in reports and documents that are filed with, or submitted to, the Commission and in other public communications made by an issuer;

- (3) Compliance with applicable governmental laws, rules and regulations;
- (4) The prompt internal reporting of violations of the code to an appropriate person or persons identified in the code; and
- (5) Accountability for adherence to the code.

**Table of Contents**

The Company demands ethical conduct from its officers and employees. In the past, due to the Company's limited resources and its small number of employees, the Company had determined that it was not necessary to devote the resources necessary to develop a written Code of Ethics in order to require ethical conduct. As we have grown significantly through acquisitions during the past twelve months, the Company has determined that a Code of Ethics should be adopted. We are in the process of preparing a Code of Ethics to help ensure all employees of the Company and its subsidiaries adhere to the Company's standards of ethical conduct.

On October 12, 2006, the Company entered into a Subscription Agreement, a letter agreement and related agreements with Vision Opportunity Master Fund, Ltd. ( Vision ). Pursuant to these agreements, Vision invested in a convertible subordinated debt offering of the Company, and received certain Notes and Warrants convertible or exercisable for the Company's Common Stock. Furthermore, the Company agreed that, for as long as Vision is a holder of at least 25% of the Notes or Warrants purchased under the Subscription Agreement (or the shares of Common Stock issuable upon the conversion or exercise thereof), Vision will have the right to nominate one director to the Company's board of directors. The Company agreed to recommend that its shareholders approve such nomination at any stockholders meeting for the election of directors or in connection with any written consent of stockholders of the election of directors. In connection with these agreements, Vision has nominated Mr. Skriloff to be elected as a director of the Company. Accordingly, the Company has nominated Mr. Skriloff to be elected by the stockholders at the annual meeting of stockholders of the Company to be held on December 6, 2006.

**PROPOSAL THREE APPROVAL OF HALO TECHNOLOGY HOLDINGS  
2006 EQUITY COMPENSATION PLAN**

On October 27, 2006, the Board of Directors adopted the Halo Technology Holdings 2006 Equity Compensation Plan (the 2006 Plan), subject to stockholder approval. If approved by stockholders, the 2006 Plan will be deemed to have become effective on October 27, 2006.

The Board of Directors believes that the 2006 Plan will attract and retain officers and other employees, consultants and directors of the Company and related companies. The Board of Directors believes that the approval of the 2006 Plan is in the best interests of the Company and its stockholders.

The following is a brief description of the 2006 Plan. The full text of the 2006 Plan is attached as *Appendix A* hereto. You are encouraged to read the 2006 Plan in its entirety.

**Administration of the Plan**

The 2006 Plan shall be administered by the Compensation Committee of the Board of Directors, which shall consist solely of not fewer than two directors of the Company who shall be appointed by, and serve at the pleasure of, the Board of Directors (taking into consideration the rules under section 16(b) of the Exchange Act and the requirements of section 162(m) of the Code). The Committee shall have the authority:

- (1) to select the employees, consultants and directors of the Company or an affiliate to be granted Awards under the Plan and to grant such Awards at such time or times as it may choose;
- (2) to determine the type and size of each Award, including the number of Shares subject to the Award;
- (3) to determine the terms and conditions of each Award;
- (4) to amend an existing Award in whole or in part (including the extension of the exercise period for any NQSO), except that the Committee may not (i) lower the exercise price of any Option, or (ii) without the consent of the Participant holding the Award, take any action under this clause if such action would adversely affect the rights of such Participant;
- (5) to adopt, amend and rescind rules and regulations for the administration of the Plan;
- (6) to interpret the Plan and decide any questions and settle any controversies that may arise in connection with it; and
- (7) to adopt such modifications, amendments, procedures, sub-plans and the like which may be inconsistent with the provisions of the Plan, as may be necessary to comply with the laws and regulations of other countries in which the Company and its related companies operate in order to assure the viability of Awards granted under the Plan to individuals in such other countries.

**Eligibility**

The Company's employees, consultants and directors, or the employees, consultants and directors of the Company's related companies, may receive awards under the 2006 Plan. Currently, there are approximately 265 persons who would be eligible to receive awards under the 2006 Plan.

**Authorized Shares, Limits on Awards**

Subject to any future adjustment for share splits and similar events, the total number of shares of common stock of the Company, par value \$0.0001 per share ( Shares ) that can be delivered under the 2006 Plan initially is 3,000,000. The total number of Shares that may be delivered under the 2006 Plan with respect to ISOs is 3,000,000. No employee may receive options and/or stock appreciation rights for more than 4 million Shares during any calendar year; or more than 4 million dividend equivalent rights during any calendar year. The maximum number of Shares that may be issued to any employee under an Award in any calendar year is 4 million. Shares available under the Plan may be authorized but unissued Shares or reacquired Shares. If any award that requires the participant to exercise the award for Shares to be delivered terminates without having been exercised in full, if any Shares subject

to an award are forfeited, if any shares are withheld for the payment of taxes with respect to an award, or if any award payable in cash or shares is paid in cash rather than in Shares, the unexercised portion of the award, the forfeited Shares, the withheld Shares, or the portion that was paid in cash will continue to be available for future awards. However, if an option is cancelled, the shares subject to such option will continue be counted against the maximum number of Shares specified above for which options may be granted to an employee in any calendar year. In addition, the aggregate fair market value, determined at the time the option is granted, of shares with respect to which ISOs are exercisable for the first time by any participant during any calendar year, under the 2006 Plan and under any other ISO plan of the Company or a related company, may not exceed \$100,000. The fair market value of a Share as of October 26, 2006 is \$.80.

## **Types of Awards**

The 2006 Plan provides for the granting of the following types of awards:

*Stock Options.* The 2006 Plan permits the Compensation Committee to grant options that qualify as ISOs under the Internal Revenue Code of 1986, as amended (the Code ), and options that do not so qualify ( NQSOs ). Only employees of the Company or a subsidiary may receive ISOs. The Compensation Committee determines the exercise price of each option. The exercise price of an ISO, however, may not be less than 100% of the fair market value of the underlying shares on the date of grant (110% in the case of an ISO granted to a greater-than-10% shareholder). The exercise price of any option may not be less than the par value of the underlying Share(s).

The Compensation Committee will fix the term of each option, but no term may exceed 10 years from the date of grant (five years in the case of an ISO granted to a greater-than-10% shareholder). The Compensation Committee will determine at what time or times each option may be exercised. Options may be made exercisable in installments, and the exercisability of options may be accelerated by the Compensation Committee.

*Stock Appreciation Rights.* The Compensation Committee may grant two types of stock appreciation rights, one that entitles the participant to receive upon exercise an amount in Shares measured by the increase since the date of grant in the value of the Shares covered by the right (an Exercisable SAR ). The other type of stock appreciation right entitles the participant to receive as soon as practicable after the right vests (unless the Compensation Committee specifies a later date in the award agreement), cash equal to the increase since the date of grant through the vesting date in the value of the Shares covered by the right (a Vesting SAR ). The Compensation Committee may accelerate the date(s) on which Exercisable SARs may be exercised or the date(s) on which Vesting SARs vest.

*Restricted Stock.* The Compensation Committee may grant shares of restricted stock (for any or no consideration), subject to any restrictions the Compensation Committee may determine. The Compensation Committee may accelerate the date(s) on which the restrictions will lapse. Before the lapse of restrictions on Shares of restricted stock, the participant will have voting and dividend rights on the shares, unless the Compensation Committee determines otherwise.

*Restricted Stock Unit.* The Compensation Committee may grant restricted stock units subject to any restrictions the Compensation Committee may determine. A restricted stock unit entitles a participant to receive (with respect to a vested restricted stock unit) one share of the Company's stock, the cash value thereof, or a combination of both. Although a participant will not have voting or dividend rights with respect to his or her restricted stock units, a participant will have dividend equivalent rights on his or her restricted stock units.

*Performance Stock.* The Compensation Committee may grant awards entitling a participant to receive Shares, the cash value thereof, or a combination of both, without payment therefore if certain performance criteria are met. Receipt of the Shares (or cash) may be conditioned on the achievement of goals using one or more of the following

criteria: return on assets, return on net assets, asset turnover, return on equity, return on capital, market price appreciation of Shares, economic value added, total shareholder return, net income, pre-tax income, earnings per Share, operating profit margin, net income margin, sales margin, cash flow, market

share, inventory turnover, sales growth, capacity utilization, net revenue per shipment, net revenue growth, increase in customer base, environmental health and safety, diversity, and/or quality.

*Contract Stock.* The Compensation Committee may grant awards entitling a participant to receive Shares without payment therefore if the participant continues providing services to the Company or related company through a date(s) specified in the participant's award agreement.

*Bonus Stock.* The Compensation Committee may grant awards entitling a participant to receive Shares without payment therefore as a bonus for services provided to the Company or a related company.

*Dividend Equivalent Rights.* The Compensation Committee may grant awards entitling a participant to receive a benefit in lieu of cash dividends that would have been payable on any or all Shares subject to another award granted to the participant had the shares been outstanding.

## **Treatment of Awards upon Termination of Service**

If a participant's service terminates by reason of death or disability, all options and Exercisable SARs then held by the participant that were not exercisable immediately before the termination of service will terminate on that date, except as otherwise stated in the participant's award agreement. Any vested options and Exercisable SARs will remain exercisable for one year from the date of termination of service, or for a shorter or longer period as stated in the participant's award agreement. In the event of any other termination of service, all options and Exercisable SARs held by the participant that are not then exercisable will terminate (except as otherwise stated in the participant's award agreement). Except as otherwise provided by the award agreement, any options or Exercisable SARs that were exercisable generally will continue to be exercisable for three months, or for a longer period as stated in the participant's award agreement, with the exception of a termination for cause, in which case all options and Exercisable SARs (whether or not exercisable) shall terminate upon such termination of service. Notwithstanding the post-termination exercise periods described above, no option or Exercisable SARs may be exercised beyond its original term.

If a participant holds shares of restricted stock and terminates service for any reason, including death or disability, before the lapse of the restrictions, the participant must forfeit the shares to the Company; except that the participant's award agreement may provide that the restrictions lapse upon a specified type of termination of service. Except as otherwise stated in a participant's award agreement, all other types of awards including Vesting SARs, restricted stock units, performance stock awards, contract stock awards, bonus stock awards, and dividend equivalent rights, to which a participant has not become entitled will terminate irrevocably upon the participant's termination of service for any reason, including death or disability.

## **Transferability**

No ISO granted under the 2006 Plan may be transferred other than by will or by the laws of descent and distribution. No other award may be transferred, except to the extent provided in a participant's award agreement. During a participant's lifetime, an award requiring exercise may be exercised only by the participant, or, in the event of the participant's incapacity, the person(s) legally appointed to act on the participant's behalf.

## **Adjustments in Shares; Corporate Transactions**

If a stock dividend, stock split, reverse split, or similar change in capitalization occurs, the Compensation Committee will make appropriate adjustments to the maximum number of shares that may be delivered under the 2006 Plan, the maximum number of shares that may be delivered under the Plan with respect to ISOs, the maximum number of

shares with respect to which options, stock appreciation rights or other awards may be granted in any calendar year, the exercise price of outstanding options, and the number of shares issuable after an award is exercised or vests.

If a corporate transaction occurs (such as a merger, consolidation, sale of all or substantially all of the Company's property or the sale of more than 50% of the outstanding shares of the Company's stock, separation, reorganization or liquidation), each outstanding award will be assumed by the surviving or successor entity. In the event of a proposed corporate transaction, however, the Compensation Committee may terminate all or a portion of

## **Table of Contents**

any outstanding award, effective upon the closing of the corporate transaction, if the Compensation Committee determines that doing so is in the Company's best interests. If so, the Compensation Committee will give each participant holding an option and stock appreciation right (that is payable upon exercise) not less than seven days notice before the termination to exercise any such option or stock appreciation right that is to be so terminated, to the extent it is then exercisable, before the termination. Further, in the event of a corporate transaction, the Compensation Committee, in its discretion, may:

- accelerate the date on which options, stock appreciation rights and restricted stock units vest;
- remove restrictions from outstanding shares of restricted stock;
- cause the delivery of any performance stock, even if the associated performance goals have not been met;
- cause the payment of any contract stock, even if the date such stock is to be delivered has not been reached; and/or
- cause the payment of any dividend equivalent rights.

The Compensation Committee may also change the terms of any outstanding award to reflect the corporate transaction, subject to certain limitations. Finally, the Compensation Committee may, in lieu of the actions described above, arrange to have the surviving or acquiring entity grant the participant a replacement award that, in the judgment of the Compensation Committee, is substantially equivalent to the replaced award (if the participant will provide services to the surviving or acquiring entity or an affiliate).

## **Federal Income Tax Consequences of Awards and Options under the 2006 Plan**

The income tax consequences of the 2006 Plan under current federal law, which is subject to change, are summarized in the following discussion. This summary is not intended to be exhaustive and, among other considerations, does not describe state or local tax consequences.

*ISOs.* To the extent options issued under the 2006 Plan qualify as ISOs under Section 422 of the Code, the Company's principal Federal income tax consequences to each participant receiving an ISO generally should be as follows:

(1) The participant will not recognize taxable income on the grant of the ISO. Moreover, the participant generally will not recognize taxable income on the participant's exercise of the ISO, provided the participant was an employee of the Company or of any of its subsidiary companies, as defined in Section 424(f) of the Code, during the entire period from the date of grant of the ISO until three months before the date of exercise, increased to 12 months if the participant's employment ceased due to permanent and total disability. However, an amount, generally equal to the excess of the fair market value of the shares over the exercise price at the time of exercise, will be included in the participant's alternative minimum taxable income in the year of exercise. The employment requirement that an ISO be exercised within three months of the participant's termination of employment is waived if the participant dies while employed or during such period, in which case the ISO will remain exercisable for 12 months from the date of the participant's death. Of course, in all of these situations, the ISO itself may provide a shorter exercise period after the participant's employment ceases than the allowable period under the Code. If the employment requirements described above are not met, the tax consequences relating to NQSOs, discussed below, will apply.

(2) If the participant disposes of the shares acquired under the ISO at least two years after the date of grant the ISO and at least one year following the date the shares are transferred to the participant following the exercise of the ISO, the participant will recognize a long-term capital gain or loss, equal to the difference between the amount realized on

the disposition and the exercise price, assuming the participant held the shares as capital assets.

(3) If the participant makes a disqualifying disposition of the shares, that is, disposes of the shares within two years after the date of grant of the ISO or within one year after the shares are transferred to the participant following the exercise of the ISO, but all other requirements of Section 422 of the Code are met, the participant generally will recognize ordinary income on disposition of the shares in an amount equal to the lesser of (i) the

**Table of Contents**

fair market value of the shares on the date of exercise minus the exercise price, or (ii) the amount realized on disposition minus the exercise price. Disqualifying dispositions of shares may also, depending on the sales price, result in either long-term or short-term capital gain or loss under the Code rules that govern other stock dispositions, assuming that the participant held the shares as capital assets.

(4) If all requirements of Section 422 of the Code, including the holding and employment requirements described in (1) and (2) above, are met, the Company is not entitled to any federal income tax deduction with respect to the ISO. If any of the requirements are not met, the Company will be allowed a federal income tax deduction to the extent of the ordinary income includible in the participant's gross income in accordance with the provisions of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

*Nonqualified Stock Options.* If options are NQSOs when granted under the 2006 Plan, or if options, when granted, are intended to be ISOs but fail to qualify as ISOs, the principal federal income tax consequences to the Company and each participant generally should be as follows:

(1) The participant will not recognize taxable income on the grant of the NQSO.

(2) The participant will recognize ordinary income at the time of exercise of the NQSO, in an amount equal to the excess of the shares' fair market value at the time of the exercise over the exercise price.

(3) The Company will not be entitled to a deduction on the grant of the NQSO. The Company will be entitled to a deduction to the extent of the ordinary income the participant recognizes in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(4) Gain or loss that is recognized by the participant after a subsequent disposition of shares will be short-term or long-term capital gain or loss, if the shares are otherwise capital assets in the participant's hands.

(5) Section 162(m) of the Code limits the extent to which the compensation paid to the Company's chief executive officer, or the person acting in that capacity, and the four highest compensated executives other than the chief executive officer (collectively, the "Covered Employees"), is deductible by the Company when the annual compensation for any Covered Employee exceeds \$1,000,000 in a taxable year. Compensation for purposes of Section 162(m) includes cash compensation and noncash benefits paid for services, including, with respect to NQSOs, the difference between the exercise price and the market value of the stock at the time of exercise, subject to some exclusions. However, approval of the 2006 Plan by the Company's shareholders will prevent the spread on exercise of NQSOs from being treated as compensation for purposes of Section 162(m), so that the Company will be entitled to deduct any compensation recognized on the exercise of the NQSOs granted under the Plan.

*Stock Appreciation Rights.* To the extent that a participant exercises an Exercisable SAR or receives payment with respect to a Vesting SAR granted under the 2006 Plan, the principal Federal income tax consequences to the Company and each participant generally should be as follows:

(1) When the Company grants the stock appreciation right, a participant recognizes no taxable income, and the Company is not entitled to a deduction.

(2) When the participant exercises an Exercisable SAR or receives payment with respect to a Vesting SAR, the participant will recognize ordinary income as of the date of exercise or payment, respectively, in an amount equal to the excess of the fair market value of the shares on the date of exercise or vesting, respectively, over the fair market value of the shares on the date of grant to which the stock appreciation rights relate.

(3) The Company is entitled to a deduction, in the same year in which the participant recognizes income, to the extent of the amount includible in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(4) Gain or loss that the participant recognizes after a subsequent disposition of shares will be short-term or long-term capital gain or loss, if the shares are otherwise capital assets in the participant's hands.

**Table of Contents**

(5) The Company's otherwise allowable deduction for compensation paid or accrued to any Covered Employee is generally limited under Section 162(m) of the Code to \$1,000,000 per taxable year. However, approval of the 2006 Plan by the Company's shareholders will prevent the spread upon exercise or payment, as applicable, of stock appreciation rights from being treated as remuneration for purposes of Section 162(m), so that the Company will be entitled to deduct any compensation recognized on exercise, or payment, of stock appreciation rights granted under the 2006 Plan.

(6) The Company recognizes no gain or loss when it issues stock with respect to an Exercisable SAR under the 2006 Plan.

*Restricted Stock Awards.* The principal Federal income tax consequences to the Company and each participant if granted restricted stock under the 2006 Plan generally should be as follows:

(1) When the Company grants restricted stock, the participant will not recognize taxable income, and the Company will not be entitled to a deduction, unless the participant timely elects under Section 83(b) of the Code to be taxed at the time of the grant.

(2) When the Company pays dividends attributable to restricted stock, the participant will recognize ordinary income at the time the dividends are paid to the participant.

(3) After the lapse of all restrictions on shares issued through a restricted stock award, the participant will recognize ordinary income in an amount equal to the fair market value of the shares on the date of vesting, unless the participant elected previously and timely under Section 83(b) of the Code to be taxed at the time of grant.

(4) The basis of the shares received by the participant after the vesting of a restricted stock grant is the amount recognized by the participant as income attributable to the shares, as described in (3) above, plus any purchase price paid for the restricted stock. The participant's holding period for the shares begins on the day after the date of vesting (or, if the participant previously made a timely election under Section 83(b) of the Code to be taxed at the time of grant, on the day after the date of grant). When the participant disposes of the shares, the participant will recognize a short- or long-term capital gain or loss, under Code rules that govern stock dispositions, assuming that the participant held the shares as capital assets.

(5) The Company will generally be entitled to a deduction, in the same year in which the participant recognize income, equal to the amount of ordinary income includible in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(6) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee is generally limited under Section 162(m) of the Code to \$1,000,000 per taxable year. Restricted stock grants, and the dividends received on them, should be treated as compensation for purposes of this \$1,000,000 limit (unless the Covered Employee's vesting in them is subject to performance criteria).

*Restricted Stock Unit Awards.* The principal Federal income tax consequences of the Company and the Participant if granted restricted stock units under the 2006 Plan generally should be as follows:

(1) When the Company grants the participant a restricted stock unit award, the participant will not recognize taxable income, and the Company will not be entitled to a deduction.

(2) After the shares or cash with respect to a restricted stock unit is delivered to a participant, the participant will recognize ordinary income in an amount equal to the fair market value of the shares on the date of delivery.

(3) If shares are delivered with respect to the restricted stock unit, the basis of the shares received is the amount the participant recognized as income attributable to the shares, as described in (2) above. The participant's holding period for the shares begins on the day after the date of delivery. When the participant disposes of the shares, the participant will recognize a short- or long-term capital gain or loss, under Code rules that govern stock dispositions, assuming that the participant held the shares as capital assets.

**Table of Contents**

(4) The Company will generally be entitled to a deduction, in the same year in which the participant recognizes income, equal to the amount of ordinary income includible in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(5) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee is generally limited under Section 162(m) of the Code to \$1,000,000 per taxable year. Restricted stock units should be treated as compensation for purposes of this \$1,000,000 limit (unless the Covered Employee's vesting in them is subject to performance criteria).

*Performance Stock Awards.* The principal Federal income tax consequences to the Company and each participant if granted performance stock under the 2006 Plan generally should be as follows:

(1) When the Company grants the participant a performance stock award, the participant will not recognize taxable income, and the Company will not be entitled to a deduction.

(2) After the shares or cash with respect to a performance stock award is delivered to a participant, the participant will recognize ordinary income in an amount equal to the fair market value of the shares on the date of delivery.

(3) If shares are delivered with respect to the performance stock award, the basis of the shares the participant receives through the performance stock award is the amount the participant recognized as income attributable to the shares, as described in (2) above. The participant's holding period for the shares begins on the day after the date of the grant. When the participant disposes of the shares, the participant will recognize a short- or long-term capital gain or loss, under Code rules that govern stock dispositions, assuming that the participant holds the shares as capital assets.

(4) Generally, the Company will be entitled to a deduction, in the same year in which the participant recognizes income, equal to the amount of ordinary income includible in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(5) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee is generally limited under Section 162(m) of the Code to \$1,000,000 per year. However, approval of the 2006 Plan by the Company's shareholders will prevent the performance stock from being treated as compensation for purposes of Section 162(m) (provided the performance goals are pre-established in accordance with the regulations issued under Section 162(m) of the Code), so that the Company will be entitled to deduct any compensation recognized through the participant's receipt of the performance stock.

(6) The Company will recognize no gain or loss when it issues performance stock under the 2006 Plan.

*Contract Stock Awards.* The principal Federal income tax consequences to the Company and each participant if granted contract stock under the 2006 Plan generally should be as follows:

(1) When the Company grants the participant a contract stock award, the participant will not recognize taxable income, and the Company will not be entitled to a deduction.

(2) When the Company delivers the contract stock to the participant, the participant will recognize ordinary income in an amount equal to the fair market value of the stock on the date of delivery.

(3) The basis of the stock received by the participant through the contract stock award is the amount the participant recognized as income attributable to the stock, as described in (2) above. The holding period for the stock begins on the day after the date of the delivery. When the participant disposes of the stock, the participant will recognize a long-term or short-term capital gain or loss, under Code rules that govern stock dispositions, assuming that the participant holds the stock as a capital asset.

(4) Generally, the Company will be entitled to a deduction, in the same year in which the participant recognizes income, equal to the amount of ordinary income includable in the participant's gross income in

## **Table of Contents**

accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(5) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee generally is limited under Section 162(m) of the Code to \$1,000,000 per taxable year. Contract stock awards should be treated as compensation for purposes of this \$1,000,000 limit.

(6) The Company will recognize no gain or loss when it issues contract stock under the 2006 Plan.

*Bonus Stock Awards.* The principal federal income tax consequences to the company and each participant if granted bonus stock under the 2006 Plan generally should be as follows:

(1) The participant will recognize ordinary income in an amount equal to the fair market value of the stock on the date of grant.

(2) The basis of the stock received by the participant through a bonus stock award is the amount recognized as income attributable to the stock, as described in (1) above. The holding period for the stock begins on the day after the date of the grant. When the participant disposes of the stock, the participant will recognize a long-term or short-term capital gain or loss, under Code rules that govern stock dispositions, assuming that the participant holds the stock as a capital asset.

(3) Generally, the Company will be entitled to a deduction, in the same year in which the participant recognizes income, equal to the amount of ordinary income includable in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(4) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee generally is limited under Section 162(m) of the Code to \$1,000,000 per year. Bonus stock should be treated as compensation for purposes of this \$1,000,000 limit.

(5) The Company recognizes no gain or loss when it issues bonus stock under the 2006 Plan.

*Dividend Equivalent Rights.* If a participant receives dividend equivalent rights under the 2006 Plan, the principal Federal income tax consequences to the Company and each participant generally should be as follows:

(1) The participant will recognize ordinary income as of the date the dividend equivalent rights are paid to the participant.

(2) The Company is entitled to a deduction, in the same year in which the participant recognizes income, equal to the amount includable in the participant's gross income in accordance with the rules of Section 83 of the Code, and Section 162(m) of the Code to the extent applicable, and the regulations under those Sections.

(3) The otherwise allowable deduction for compensation paid or accrued to any Covered Employee is generally limited under Section 162(m) of the Code to \$1,000,000 per year. Amounts attributable to dividend equivalent rights should be treated as compensation for purposes of the \$1,000,000 limit.

## **New Plan Benefits**

Under the 2006 Plan, an aggregate of up to 3,000,000 shares can be issued to employees, consultants and directors under the terms of the 2006 Plan. The shares will have a value equivalent to the fair market value on the date of grant. The Company has no immediate intention to issue share awards under the 2006 Plan; however, the Company has committed to issue certain options described below under the 2006 Plan, subject to stockholder approval.

Additional future awards under the 2006 Plan will be granted at the discretion of the Compensation Committee, the type, number, recipients, and other terms of such awards cannot be determined at this time. Information regarding our recent practices with respect to stock-based compensation under the 2005 Plan and 2002 Plan is printed elsewhere in this Proxy Statement and in our financial statements for the fiscal year ended June 30, 2006, located in our annual report on Form 10-KSB/A which accompanies this Proxy Statement. If stockholders decline to approve the 2006 Plan, awards will not be granted under the 2006 Plan.

**Table of Contents****Amendment and Duration of 2006 Plan**

No ISO may be granted under the 2006 Plan after October 26, 2016, but ISOs previously granted may extend beyond that date. Awards other than ISOs may be granted after that date. The Compensation Committee may at any time discontinue granting awards under the 2006 Plan. The Board of Directors may at any time amend or terminate the 2006 Plan, and the Compensation Committee may amend any outstanding award, other than lowering the exercise price of options for any purpose, except that the following amendments may not be made without shareholder approval:

- an increase in the maximum number of shares with respect to which ISOs may be granted under the 2006 Plan;
- a change in the class of employees eligible to receive ISOs under the 2006 Plan;
- an extension of the 2006 Plan's duration with respect to ISOs; and
- any amendment to the 2006 Plan requiring shareholder approval under the \$1 million deduction limit on compensation in Section 162(m) of the Code; and
- any amendment of the 2006 Plan requiring shareholder approval under any other applicable law, rule or regulation.

Further, no amendment or termination of the 2006 Plan or amendment of an outstanding award may adversely affect the rights of any participant, without the participant's consent, under any award previously granted.

**2002 Stock Incentive Plan**

In November 2002, the Company's Board of Directors approved and adopted the 2002 Plan as a means through which the Company and its subsidiaries may attract, retain and compensate employees and consultants. So that the appropriate incentive can be provided, the 2002 Plan provides for granting Incentive Stock Options, Nonqualified Stock Options, Restricted Stock Awards and Stock Bonuses, or a combination of the foregoing. A total of 776,611 Shares have been reserved for issuance pursuant to the 2002 Plan plus Shares that are subject to: (a) issuance upon exercise of an option but cease to be subject to such option for any reason other than exercise of such option; (b) an award granted under the 2002 Plan but forfeited or repurchased by the Company at the original issue price;

**Table of Contents**

and (c) an Award that otherwise terminates without Shares being issued. The 2002 Plan is administered by the Board of Directors. The Board of Directors may at any time terminate or amend the 2002 Plan in any respect, including without limitation amendment of any form of award agreement or instrument to be executed pursuant to the 2002 Plan; provided, however, that the Board of Directors will not, without the approval of the stockholders of the Company, amend the 2002 Plan in any manner that requires stockholder approval. Unless earlier terminated as provided under the 2002 Plan, the 2002 Plan will terminate November 2012. As of June 30, 2006, there were outstanding options to purchase 570,077 shares and there were 206,634 shares available for award under the 2002 Plan.

**2005 Equity Incentive Plan**

At the Annual Meeting of Stockholders of the Company held October 21, 2005, the stockholders of the Company approved the 2005 Plan which had been previously approved by the Board of Directors of the Company. The Compensation Committee of the Board of Directors of the Company will administer the 2005 Plan, including selecting the employees, consultants and directors to be granted Awards under the 2005 Plan and determining the type and size of each Award and the terms and conditions of each Award. The Company's employees, consultants and directors, or the employees, consultants and directors of the Company's related companies, may receive Awards under the 2005 Plan. The types of Awards that may be granted under the 2005 Plan are stock options (both incentive and non-qualified), stock appreciation rights, restricted stock, restricted stock units, performance stock, contract stock, bonus stock and dividend equivalent rights. Subject to adjustment for stock splits and similar events, the total number of shares of common stock that can be delivered under the 2005 Plan is 8,400,000 shares. No employee may receive options, stock appreciation rights, shares or dividend equivalent rights for more than four million shares during any calendar year. No incentive stock option will be granted under the 2005 Plan after September 13, 2015. The Board of Directors may at any time suspend, terminate or amend the 2005 Plan in any respect, including without limitation amendment of any form of award agreement or instrument to be executed pursuant to the 2005 Plan, and the Compensation Committee may amend any outstanding awards in any respect; provided, however, that the Board of Directors or Compensation Committee will not, without the approval of the stockholders of the Company, amend the 2005 Plan in any manner that requires stockholder approval. As of June 30, 2006, there were outstanding options to purchase 3,643,500 shares and 4,756,500 shares available for award under the 2005 Plan.

Also as a result of the stockholder's approval of the 2005 Plan, the Compensation Committee of the Board of Directors determined to award cash bonus amounts, options and/or shares pursuant to the Fiscal 2006 Halo Senior Management Incentive Plan. No specific awards have yet been made under the Fiscal 2006 Halo Senior Management Incentive Plan. Any awards made will be made out of shares reserved under the 2002 Plan, the 2005 Plan or any other plans adopted in the future.

**PROPOSAL FOUR TRANSACTION OF OTHER BUSINESS**

The Company may transact such other business as may properly come before the annual meeting or any adjournment or postponement thereof, however, as of the date of this filing, the Board of Directors knows of no matters other than those described above that will be presented at the annual meeting.

**Table of Contents**

**Other proposals (not for inclusion in the proxy statement).**

Stockholder proposals, other than those submitted above and nominations must be submitted in writing, delivered or mailed by first class United States mail, postage prepaid, to the secretary of the Company not fewer than 30 days nor more than 60 days prior to any such meeting; provided, however, that if notice or public disclosure of the meeting is given fewer than 40 days before the meeting, such written notice shall be delivered or mailed to the Secretary of the Company not later than the close of the 10th day following the day on which notice of the meeting was mailed to stockholders.

**STOCKHOLDER COMMUNICATIONS**

Stockholders who desire to communicate with the Board of Directors should send communications addressed to the Board of Directors or an individual director c/o Halo Technology Holdings, 200 Railroad Avenue, Greenwich, CT 06830, Attention: Corporate Secretary. Any such communications will be forwarded directly to such members.

**QUORUM AND VOTING PROCEDURES**

The Bylaws of the Company provide that a majority of the shares of stock issued and outstanding and entitled to vote, present in person or by proxy, shall constitute a quorum at a meeting of stockholders of the Company. In accordance with the Articles of Incorporation, the Series D Preferred Shares are entitled to the number of votes equal to the largest number of whole shares of common stock into which their Series D Preferred Shares could be converted on the record date. For purposes of determining a quorum, each share of Series D Preferred Stock issued and outstanding will be counted as one share of common stock. Shares of stock represented by a properly signed and returned proxy are considered as present at the annual meeting for purposes of determining a quorum. Abstentions and broker non-votes are counted as present for purposes of determining the existence of a quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

The Series D Preferred Stock is entitled to vote together as a single class with the common stock on all matters submitted to a vote of the stockholders of the Company and is entitled to that number of vote equal to the largest number of whole shares of common stock into which such holder's Preferred Shares could be converted pursuant to the Articles of Incorporation, at the record date. As at October 30, 2006, the record date, each share of Series D Preferred Stock is entitled to one vote. The vote required for election of directors is the affirmative vote of a plurality of the shares present or represented at the annual meeting and entitled to vote thereon (i.e., the nominees receiving the greatest number of votes will be elected). Votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. Approval by a majority of the issued and outstanding shares of stock of the Company represented at the annual meeting and entitled to vote thereat, voting together as a single class, is required for approval of the 2006 Plan. A failure to vote or a broker non-vote will have the same legal effect as a vote cast against approval of any Proposal.

If a stockholder of record specifies in the proxy how it is to be voted, it will be voted in accordance with such specification. If a properly signed proxy is returned to the Company by a stockholder of record and is not marked, it will be voted in accordance with the Board of Directors' recommendations on all proposals.

**REVOCAION OF PROXIES**

Any stockholder giving a proxy in the accompanying form retains the power to revoke it at any time before the exercise of the powers conferred thereby, by notice in writing to the Secretary of the Company. Any stockholder who attends the annual meeting in person will not be deemed thereby to revoke the proxy unless such stockholder

affirmatively indicates at the annual meeting his intention to vote the shares covered thereby in person.

**Table of Contents**

**OTHER MATTERS**

The Board of Directors and Company's management know of no business which will be presented for consideration at the Annual Meeting other than that discussed above. However, if any other proper business should come before the Annual Meeting, it is the intention of the persons named in the enclosed form of proxy to vote the proxies in respect to any such business in accordance with their best judgment. Matters with respect to which the enclosed form of proxy confers such discretionary authority are as follows: (i) matters which the Board of Directors does not know are to be presented at the Annual Meeting as of a reasonable time before the mailing of this Proxy Statement; (ii) approval of the minutes of the prior meeting of stockholders, such approval not constituting ratification of the action taken at such meeting; (iii) election of any person as a director if any of the nominees named herein is unable to serve or for good cause will not serve; and (iv) matters incident to the conduct of the Annual Meeting.

The cost of preparing, assembling and mailing this proxy material will be paid by the Company. The Company may solicit proxies other than by the use of the mail, in that certain officers and regular employees of the Company, without additional compensation, may use their personal efforts, by telephone or otherwise, to obtain proxies. The Company requests individuals, firms and corporations holding shares in their names, or in the names of their nominees, which shares are beneficially owned by owners, to send this proxy material to and obtain proxies from such beneficial owners and will reimburse such holders for their reasonable expenses in doing so. Representatives of Pacific Stock Transfer, our transfer agent, will tabulate the proxies received from the common stockholders. Ernest C. Mysogland will tabulate the proxies received from the Series D Preferred stockholders and will act as inspector of elections.

(a) The Plan shall be administered by the Committee. Each member of the Committee, while serving as such, shall be deemed to be acting in his or her capacity as a director of the Company. Acts approved by a majority of the members of the Committee at which a quorum is present, or acts without a meeting reduced to or approved in writing by a majority of the members of the Committee, shall be the valid acts of the Committee. Any authority of the Committee (except for the authority described in subsection (b)(1)-(4) and (7) below which may only be exercised by the Committee) may be delegated to a Plan administrator.

(b) The Committee shall have the authority:

(1) to select the employees, consultants and directors of the Company or an affiliate to be granted Awards under the Plan and to grant such Awards at such time or times as it may choose;

(2) to determine the type and size of each Award, including the number of Shares subject to the Award;

(3) to determine the terms and conditions of each Award;

(4) to amend an existing Award in whole or in part (including the extension of the exercise period for any NQSO), except that the Committee may not (i) lower the exercise price of any Option, or (ii) without the consent of the Participant holding the Award, take any action under this clause if such action would adversely affect the rights of

such Participant;

(5) to adopt, amend and rescind rules and regulations for the administration of the Plan;

(6) to interpret the Plan and decide any questions and settle any controversies that may arise in connection with it; and

of other countries in which the Company and its Related Corporations operate in order to assure the viability of Awards granted under the Plan to individuals in such other countries.

Such determinations and actions of the Committee, and all other determinations and actions of the Committee made or taken under authority granted by any provision of the Plan, shall be conclusive and shall bind all parties. Nothing in this subsection (b) shall be construed as limiting the power of the Board or the Committee to make the adjustments described in Sections 8.3 and 8.4.

### *4. Effective Date and Term of Plan*

(a) *Effective Date.* The Plan, having been adopted by the Board on September 13, 2005, shall become effective on that date, but subject to the approval of the stockholders of the Company pursuant to Section 9(b). Awards may be granted under the Plan before such stockholder approval (but after the Board's adoption of the Plan), subject to such stockholder approval.

(b) *Term of Plan for ISOs.* No ISO may be granted under the Plan after September 13, 2015, but ISOs previously granted may extend beyond that date. Awards other than ISOs may be granted after that date.

### *5. Shares Subject to the Plan*

(a) *Limits.* The aggregate number of Shares that may be delivered under the Plan is 3,000,000. The aggregate number of Shares that may be delivered under the Plan with respect to ISOs is 3,000,000. Further, no employee shall receive Options (in the aggregate) or Stock Appreciation Rights for more than 1,500,000 Shares each during any calendar year; or more than 1,500,000 Dividend Equivalent Rights during any calendar year, under the Plan. Finally, the maximum number of Shares that may be issued to any Participant under any Award in any calendar year is 1,500,000.

(b) *Special Rules.* The limits set forth in subsection (a) above shall be subject to the adjustments described in Section 8.3. Shares delivered under the Plan may be authorized but unissued Shares or reacquired Shares, and the Company may purchase Shares required for this purpose, from time to time, if it deems such purchase to be advisable. Any Shares still subject to an Option which expires or otherwise terminates for any reason whatsoever (including, without limitation, the surrender thereof) without having been exercised in full, any Shares still subject to an Award that is forfeited, any Shares withheld for the payment of taxes with respect to an Award, and the Shares subject to an Award which is payable in Shares or cash and that is satisfied in cash rather than in Shares, shall continue to be available for Awards under the Plan. However, if an Option or Stock Appreciation Right is cancelled, the Shares covered by the cancelled Option and/or Stock Appreciation Right shall be counted against the maximum number of Shares specified in Section 5(a) above for which Options and Stock Appreciation Rights may be granted to an employee in any calendar year.

6. *Eligibility.* Except as otherwise provided, employees, consultants and directors of the Company or an affiliate shall be eligible to receive Awards under the Plan. More than one Award may be granted to a employee, consultant or director under the Plan.

### *7. Types of Awards*

#### *7.1 Options*

(a) *Kinds of Options.* Both ISOs and NQSOs may be granted by the Committee under the Plan. NQSOs may be granted to an employee, consultant or director of the Company or an affiliate. ISOs may only be granted to employees of the Company or of a Related Corporation. Once an ISO has been granted, no action by the Committee that would

cause the Option to lose its status as an ISO under the Code will be effective without the consent of the Participant holding the Option.

(b) *\$100,000 Limit.* The aggregate Fair Market Value of the Shares with respect to which ISOs are exercisable for the first time by an employee during any calendar year (counting ISOs under this Plan and under any other stock option plan of the Company or a Related Corporation) shall not exceed \$100,000. If an Option intended as an ISO is granted to an employee and the Option may not be treated in whole or in part as an ISO

pursuant to the \$100,000 limit, the Option shall be treated as an ISO to the extent it may be so treated under the limit and as an NQSO as to the remainder. For purposes of determining whether an ISO would cause the limit to be exceeded, ISOs shall be taken into account in the order granted. The annual limits set forth above for ISOs shall not apply to NQSOs.

(c) *Exercise Price.* The exercise price of an Option shall be determined by the Committee, subject to the following:

(i) The exercise price of an ISO shall not be less than the greater of (A) 100 percent (110 percent in the case of an ISO granted to a More-Than-10-Percent Shareholder) of the Fair Market Value of the Shares subject to the Option, determined as of the time the Option is granted, or (B) the par value per Share.

(ii) The exercise price of an NQSO shall not be less than the greater of (A) 100 percent of the Fair Market Value of the Shares subject to the Option, determined as of the time the Option is granted, or (B) the par value per Share.

(d) *Term of Options.* The term of each Option may not be more than 10 years (five years, in the case of an ISO granted to a More-Than-10-Percent Shareholder), from the date the Option was granted, or such earlier date as may be specified in the Award Agreement.

(e) *Exercise of Options.* An Option shall become exercisable at such time or times, and on such conditions, as the Committee may specify. The Committee may at any time and from time to time accelerate the time at which all or any part of the Option may be exercised. Any exercise of an Option must be in writing, signed by the proper individual, and delivered or mailed to the Company, accompanied by (i) any other documents
