EXPLANATORY NOTE

Avis Budget Group, Inc., formerly known as Cendant Corporation (Avis Budget, the Company, we, our or us), is filing this Amendment No. 1 on Form 10-K/ A for the year ended December 31, 2005 (Form 10-K/ A Report) to amend our Annual Report on Form 10-K for the year ended December 31, 2005 (Original Filing) that was filed with the Securities and Exchange Commission (SEC) on March 1, 2006.

Discontinued Operations Cendant Separation

During the third quarter of 2006, we completed the separation of Cendant Corporation into four separate companies (the Cendant Separation). The Cendant Separation occurred through distributions to our stockholders of all of the shares of common stock of two of our subsidiaries, Realogy Corporation (Realogy), our former subsidiary that holds the assets and liabilities of our former Real Estate Services businesses, and Wyndham Worldwide Corporation (Wyndham), our former subsidiary that holds the assets and liabilities of our former Hospitality Services (including Timeshare Resorts) businesses. The distributions occurred on July 31, 2006. On August 23, 2006, we completed the sale of Travelport, Inc. (Travelport), our former subsidiary that holds the assets and liabilities of our former Travel Distribution businesses, with substantially all of the net proceeds from such sale being distributed to Realogy and Wyndham as contemplated at the time of their spin-offs. Following the completion of the Cendant Separation, our company now consists of the operations of the Avis and Budget car and truck rental brands, and therefore we changed our name from Cendant to Avis Budget Group, Inc. At the time of our name change, we also effectuated a one-for-ten reverse stock split and our common stock began trading on the New York Stock Exchange under the symbol CAR . Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets required us to present the account balances and activities of Realogy, Wyndham and Travelport as discontinued operations within our Form 10-Q for the quarterly period ended September 30, 2006 (including the comparable period for the prior year), which was filed with the SEC on November 21, 2006. In accordance with generally accepted accounting principles, we have updated in this Form 10-K/ A report our previously issued annual financial statements and certain other financial information originally reported within our Original Filing. Therefore, this Form 10-K/ A Report updates Items 6, 7 and 8 of our Original Filing to recast the account balances and activities of the aforementioned businesses as discontinued operations and should be read in conjunction with our Form 10-Q for the period ended September 30, 2006 filed on November 21, 2006. Items 6, 7 and 8, as updated, also reflect a change in our segment reporting structure that became effective as of the completion of the Cendant Separation.

Also, as a result of an evaluation performed following the completion of the spin-offs of Realogy and Wyndham and the sale of Travelport, we adopted a new segment reporting structure, whereby our reportable operating segments are Domestic Car Rental, International Car Rental and Truck Rental.

Restatement

On January 31, 2005, we spun-off to our shareholders all of the common stock of our subsidiary, PHH Corporation (PHH), a company engaged in providing mortgage and fleet management services. Following the issuance of our 2005 financial statements, we became aware through notifications required under our separation agreement with PHH and through disclosures in PHH s Current Reports filed on Form 8-K, including PHH s Form 8-K filed on July 21, 2006, that PHH had concluded that its audited and unaudited financial statements for periods prior to September 30, 2005 (the PHH Prior Financial Statements) should not be relied upon because of errors in the PHH Prior Financial Statements, and we therefore conducted a review of the accounting matters that were being evaluated by PHH. In November 2006, we completed such review and determined that we would be required to restate certain of our previously filed financial statements to address these matters, which include the allocation of purchase price among current and former business units associated with our March 2001 acquisition of Avis Group Holdings, Inc. (at such time, the parent of our Avis car rental business, PHH s fleet leasing business and the fuel card business of our former subsidiary, Wright Express Corporation) and a change to disaggregate the fleet leasing and fuel card

Table of Contents

businesses acquired for purposes of testing goodwill impairment. Such re-allocation and disaggregation have resulted in (i) a restatement of the gain recorded upon the initial public offering of Wright Express Corporation in first quarter 2005; (ii) the recognition of impairment charges related to goodwill of the fleet leasing business of \$102 million in 2003 and \$100 million in 2002, which in turn has resulted in a restatement of the impairment charge recorded upon the spin-off of PHH (which included the fleet leasing business) in first quarter 2005; and (iii) a restatement of certain of the results of operations of PHH.

This Form 10-K/A Report includes our restated financial statements for 2005, 2004 and 2003 (the Restated Financial Statements), which reflect that, as a result of addressing the matters described above:

as of the date of the acquisition of Avis Group Holdings we allocated \$256 million less purchase price to its fleet leasing business and we allocated additional purchase price of \$141 million and \$52 million (\$51 million, net of amortization in 2001) to its fuel card business and our Avis car rental business, respectively;

the fair value of the net assets acquired (excluding goodwill) of the fleet leasing business and our Avis car rental business increased \$39 million and \$24 million, respectively, and as a result, the total amount of goodwill recorded in the March 2001 acquisition decreased \$63 million;

income from continuing operations decreased \$8 million and \$5 million in 2004 and 2003, respectively, due to additional depreciation and amortization on assets we recorded in connection with the reallocation of purchase price; and

income from discontinued operations increased \$1 million and \$17 million in 2005 and 2004, respectively, related to certain operations of PHH and decreased \$51 million in 2003 related to certain operations of PHH and the effect of not aggregating the fleet leasing and fuel card businesses for purposes of testing goodwill and the reallocation of purchase price.

The effects of not aggregating the fleet leasing and fuel card businesses for purposes of testing goodwill impairment and the reallocation of purchase price discussed above are:

the recognition of impairment charges related to goodwill of the fleet leasing business of \$102 million in 2003 and \$100 million in 2002;

a decrease in the loss on disposal of PHH (which included the fleet leasing business) in first quarter 2005 due to a reduction in PHH's net assets resulting from the impairment charges and reallocation of purchase price, discussed above; and

an increase in the gain on the sale of the Wright Express fuel card business in the first quarter of 2005.

The net impact to earnings of recording these adjustments between the date of the acquisition of Avis Group Holdings through the dates of disposition of PHH and the Wright Express fuel card business is an increase of \$51 million, which is reflected in the Restated Financial Statements as an increase to goodwill of our Avis car rental business and to retained earnings as of December 31, 2005.

Substantially all of the adjustments to earnings as a result of these corrections pertain to businesses that have been sold or spun-off and that are therefore classified as discontinued operations. We refer you to Note 24 to the Restated Financial Statements for a more detailed discussion of the restatement and tables which present certain of our previously reported balance sheet and income statement data, reclassifications related to the Cendant Separation (as defined above), revisions to such data resulting from the restatement, and corresponding restated amounts currently reported.

This Form 10-K/ A Report sets forth the complete text of the following items contained in the Original Filing, in each case as a result of, and to reflect, the restatement and to recast the account balances and activities of the discontinued operations described above.

Item 6. Selected Financial Data

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Table of Contents

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Item 8. Financial Statements and Supplementary Data

Item 9A. Controls and Procedures

In addition, we have filed the following exhibits herewith:

12 Computation of Ratio of Earnings to Fixed Charges.

31.1 Certification of Chief Executive Officer Pursuant to Rules 13(a)-14(a) and 15(d)-14(a) Promulgated Under the Securities Exchange Act of 1934, as amended.

31.2 Certification of Chief Financial Officer Pursuant to Rules 13(a)-14(a) and 15(d)-14(a) Promulgated Under the Securities Exchange Act of 1934, as amended.

32 Certifications Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Except for revisions to the Original Filing related to the presentation of discontinued operations, including associated changes to our segment reporting structure, and the restatement, no other changes have been made to the Original Filing and this Form 10-K/ A Report does not amend, update or change any other items or disclosures in the Original Filing. This Form 10-K/ A Report continues to describe conditions as of the date of the Original Filing and any disclosures to reflect events that occurred at a later date have not been updated. Other events occurring after the Original Filing or other disclosures necessary to reflect subsequent events have been or will be addressed in reports filed with the SEC subsequent to the date of the Original Filing.

We have not amended and do not intend to amend our previously filed Annual Reports on Form 10-K or our Quarterly Reports on Form 10-Q for periods prior to December 31, 2005 that are affected by the restatement. However, the information in this Form 10-K/A Report for the years ended December 31, 2001 and 2002 set forth in Selected Financial Data in Item 6 herein and for the quarterly periods of 2004 and 2005 set forth in Consolidated Quarterly Results in Item 7 herein has been amended to reflect the effect of properly accounting for the restatement and to recast the account balances and activities of the discontinued operations described above.

Selling, general and administrative expenses include unallocated corporate expenses related to our discontinued operations. Accordingly, the expenses reflected in the accompanying financial statements may not be indicative of the actual expenses we will incur as a separate company following the spin-offs of Realogy and Wyndham and the sale of Travelport. As mentioned above, in September 2006, we changed our name from Cendant Corporation to Avis Budget Group, Inc. All references to Cendant Corporation in the Original Filing have been changed to Avis Budget Group, Inc. in this Form 10-K/A Report.

(*) Includes related-party debt due to Avis Budget Rental Car Funding (AESOP) LLC. See Note 15 to our Consolidated Financial Statements.

In presenting the financial data above in conformity with generally accepted accounting principles, we are required to make estimates and assumptions that affect the amounts reported. See Critical Accounting Policies under Item 7

included elsewhere herein for a detailed discussion of the accounting policies that we believe require subjective and complex judgments that could potentially affect reported results.

Income from discontinued operations, net of tax, includes the after tax results of the following disposed businesses for all periods presented (through their respective dates of disposition): (i) Travelport, which we sold in August 2006, (ii) Realogy and Wyndham, which were spun-off on July 31, 2006, (iii) our former Marketing Services division, which we sold in October 2005, (iv) Wright Express Corporation, which we sold in February 2005, (v) our former mortgage, fleet leasing and appraisal businesses, which were included in the spin-off of PHH Corporation on January 31, 2005, (vi) Jackson Hewitt Tax Service Inc., which we sold in June 2004, and (vii) National Car Parks (NCP), which we sold in May 2002. Income from discontinued operations,

Table of Contents

net of tax also includes the after tax gains on the sale of our former Marketing Services division and Wright Express in 2005, the after tax loss on the spin-off of PHH in 2005, the after tax gain on the sale of Jackson Hewitt in 2004 and the after tax loss on disposal of NCP in 2002. See Note 3 to our Consolidated Financial Statements for more detailed information regarding discontinued operations.

During 2005, 2004, 2003, 2002 and 2001, we incurred \$35 million, \$(28) million, \$11 million, \$103 million and \$86 million, respectively, for litigation and related costs (credits) primarily in connection with the 1998 discovery of accounting irregularities in the former business units of CUC International, Inc., with which we merged in December 1997. The amount in 2004 includes a \$55 million credit recorded in connection with previously established liabilities for severance and other termination benefits for which we no longer believe we are liable.

We also recorded acquisition and integration related costs (credits) of \$1 million, \$(5) million and \$27 million in 2005, 2004 and 2003, respectively. See Note 5 to our Consolidated Financial Statements for a detailed description of such charges. In 2005, we recorded \$26 million of restructuring and transaction-related charges as a result of restructuring activities undertaken following the spin-off of PHH Corporation and the initial public offering of Wright Express Corporation.

During 2003, we consolidated a number of entities pursuant to Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities, and/or as a result of amendments to the underlying structures of certain of the facilities we used to securitize assets. See Notes 2 and 15 to the Consolidated Financial Statements for more information.

During 2002, we adopted the non-amortization provisions of Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. Accordingly, our results of operations for 2001 reflect the amortization of goodwill and indefinite-lived intangible assets, while our results of operations for 2005, 2004, 2003 and 2002 do not reflect such amortization. Had we applied the non-amortization provisions of SFAS No. 142 during 2001, net income would have been \$539 million on a pro forma basis during 2001.

We incurred restructuring and other unusual charges of \$356 million in 2001, which primarily consisted of (i) \$94 million related to strategic initiatives committed to as a result of changes in business and consumer behavior following the September 11, 2001 terrorist attacks, (ii) \$95 million related to the funding of an irrevocable contribution to an independent technology trust responsible for providing technology initiatives for the benefit of our current and future real estate franchisees, (iii) \$85 million related to the funding of Trip Network, Inc. and (iv) \$41 million related to the rationalization of the Avis fleet.

As of December 31, 2001, we had accrued a \$2.85 billion stockholder litigation settlement liability for our principal securities class action lawsuit relating to the 1998 discovery of accounting irregularities in the former business units of CUC and deposited cash totaling approximately \$1.41 billion to a trust established for the benefit of the plaintiffs in this lawsuit. We funded the remaining balance of the liability with cash payments of approximately \$1.44 billion during 2002.

The accompanying Consolidated Financial Statements for the years ended December 31, 2005, 2004 and 2003 have been restated. See Note 24 to the Consolidated Financial Statements for a detailed description of the restatement and the impact thereof on our Consolidated Financial Statements for 2005, 2004 and 2003. The effect of the restatement for 2002 and 2001 is a reduction to previously reported net income of \$75 million and \$5 million, respectively.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein. Unless otherwise noted, all dollar amounts are in millions and those relating to our results of operations are presented before taxes. As discussed in Note 24 to our Consolidated Financial Statements, our financial statements for 2005, 2004 and 2003 included herein have been restated. The accompanying discussion gives effect to (i) the restatement, (ii) the presentation of Realogy Corporation, Wyndham Worldwide Corporation and Travelport, Inc. as discontinued operations and (iii) our new reportable operating segments.

As of December 31, 2005, we were a global provider of real estate and travel services. Following the distributions of the shares of Realogy Corporation and Wyndham Worldwide Corporation to our stockholders on July 31, 2006 and the sale of Travelport on August 23, 2006, which are further described below, we changed our name to Avis Budget Group, Inc. Our continuing operations consist primarily of our Avis Budget Car Rental, LLC subsidiary, the parent company of the companies that comprise our vehicle rental operations, which provide car and truck rentals and ancillary services to businesses and consumers in the United States and internationally.

We operate in the following business segments:

Domestic Car Rental provides car rentals and ancillary products and services in the United States.

International Car Rental provides car rentals and ancillary products and services primarily in Canada, Argentina, Australia, New Zealand, Puerto Rico and the U.S. Virgin Islands.

Truck Rental provides truck rentals and related services to consumers and light commercial users in the United States.

In 2004 and 2005, we undertook a strategic realignment to simplify our business model through exiting non-core businesses or businesses that produced volatility to our earnings inconsistent with our business model and the remainder of our core businesses. We began this strategic realignment by completing the initial public offering of Jackson Hewitt Tax Service Inc. in June 2004. We completed the spin-off of our former mortgage, fleet leasing and appraisal businesses in a tax-free distribution of the common stock of PHH Corporation to our stockholders in January 2005. In February 2005, we completed the initial public offering of Wright Express Corporation, raising \$964 million of cash. In October 2005, we completed the sale of our Marketing Services division, which was comprised of our former individual membership and loyalty/insurance marketing businesses, for approximately \$1.7 billion of cash (approximately \$1.8 billion of gross proceeds), representing the culmination of our 2004 and 2005 strategic realignment.

Following this strategic realignment, our management team and Board of Directors, with the aid of financial and legal advisors, performed a comprehensive review of the growth opportunities and estimated market valuations for each of our core businesses. As a result of this review, from October 2005 to July 2006, our Board of Directors approved a plan to separate Cendant into four independent companies:

Realogy Corporation encompasses our former Realogy segment, which is now presented as a discontinued operation.

Wyndham Worldwide Corporation encompasses our former Hospitality Services and Timeshare Resorts segments, which are now presented as discontinued operations.

Travelport, Inc. encompasses our former Travel Distribution Services segment, which is now presented as a discontinued operation.

Avis Budget Group, Inc. encompasses our vehicle rental operations.

On July 31, 2006, we completed the spin-offs of Realogy Corporation and Wyndham Worldwide Corporation in tax-free distributions of one share each of Realogy and Wyndham common stock for every four and five

Table of Contents

shares, respectively, of then outstanding Cendant common stock held on July 21, 2006. On August 1, 2006, Realogy and Wyndham stock began regular-way trading on the New York Stock Exchange under the symbols H and WYN, respectively. On August 23, 2006, we completed the sale of Travelport for proceeds of approximately \$4.1 billion, net of closing adjustments, of which approximately \$1.8 billion was used to repay indebtedness of Travelport. During 2005, we incurred costs of \$15 million in connection with executing our plan, consisting primarily of legal, accounting, other professional and consulting fees and various employee costs. In connection with the separation, we entered into a separation agreement, tax sharing agreement and transition services agreement with Realogy, Wyndham and Travelport.

RESULTS OF OPERATIONS

Discussed below are our consolidated results of operations and the results of operations for each of our reportable segments. Generally accepted accounting principles require us to segregate and report as discontinued operations, for all periods presented, the account balances and activities of Jackson Hewitt, PHH, Wright Express, our former Marketing Services division, Realogy, Wyndham and Travelport. Previously, we could not classify our former mortgage business as a discontinued operation due to Realogy's participation in a mortgage origination venture that was established with PHH in connection with our January 2005 spin-off of PHH. However, due to the spin-off of Realogy on July 31, 2006, this business is classified as a discontinued operation.

We measure performance using the following key operating statistics: (i) rental days, which represents the total number of days (or portion thereof) a vehicle was rented, and (ii) time and mileage (T&M) revenue per rental day, which represents the average daily revenue we earned from rental and mileage fees charged to our customers. Our car rental operating statistics (rental days and T&M revenue per rental day) are all calculated based on the actual usage of the vehicle during a 24-hour period. We believe that this methodology, while conservative, provides our management with the most relevant statistics in order to manage the business. Our calculation may not be comparable to other companies' calculation of similarly-titled statistics.

The reportable segments presented below represent our operating segments for which separate financial information is available and is utilized on a regular basis by our chief operating decision maker to assess performance and to allocate resources. In identifying our reportable segments, we also consider the nature of services provided by our operating segments. Management evaluates the operating results of each of our reportable segments based upon revenue and EBITDA, which we define as income from continuing operations before non-vehicle related depreciation and amortization, non-vehicle related interest and income taxes. Our presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

Year Ended December 31, 2005 vs. Year Ended December 31, 2004

Our consolidated results of operations comprised the following:

	2005	2004	Change
Net revenues	\$ 5,400	\$ 4,820	\$ 580
Total expenses	5,462	4,813	649
Income (loss) before income taxes	(62)	7	(69)
Benefit from income taxes	(51)	(64)	13
Income (loss) from continuing operations	(11)	71	(82)
Income from discontinued operations, net of tax	1,088	1,822	(734)
Gain on disposal of discontinued operations, net of tax	549	198	351
Cumulative effect of accounting change, net of tax	(8)	-	(8)
Net income	\$ 1,618	\$ 2,091	\$ (473)

Table of Contents

During 2005, our total revenues increased \$580 million (12%) principally due to an 11% increase in T&M revenue reflecting a 14% increase in domestic rental days and a 17% increase in international rental days. Total expenses increased \$649 million (13%) principally reflecting (i) \$306 million of additional vehicle related operating expenses primarily associated with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs and (ii) \$250 million of additional vehicle depreciation and lease charges, as well as \$65 million of additional vehicle interest expense, both primarily resulting from an increase of 15% in the average size of our domestic and international car rental fleets and, in the case of vehicle depreciation, reductions to manufacturer incentives received on our domestic car rental fleet. As a result of these items, as well as a \$13 million decrease in our benefit from income taxes, our income from continuing operations decreased \$82 million. The benefit from income taxes for 2005 and 2004 reflects the favorable resolution of prior years examination matters.

Selling general and administrative expenses include unallocated corporate expenses related to the discontinued operations treatment of our former subsidiaries. We will not incur the majority of these corporate costs going forward. Income from discontinued operations decreased \$734 million, which primarily reflects (i) a decrease of \$291 million in net income generated by Travelport which reflects a \$425 million impairment charge recorded during 2005 partially offset by increased revenue, (ii) a decrease of \$259 million in net income generated by our Marketing Services division, which principally reflects the reversal of a tax valuation allowance of \$121 million in January 2004, and (iii) a decrease of \$131 million in net income generated by PHH (this business was included in our 2005 results through January 31, 2005, the date of disposition, but was included in our results for all of 2004).

The net gain we recognized on the disposal of discontinued operations increased \$351 million year-over-year, which includes a \$581 million gain recognized in connection with the sale of our former Marketing Services division during 2005 and a \$253 million gain recognized during 2005 in connection with the initial public offering of Wright Express, partially offset by (i) a \$281 million non-cash impairment charge and \$4 million of transaction costs relating to the PHH spin-off and (ii) the absence of a \$198 million gain recognized in connection with the June 2004 sale of Jackson Hewitt. In 2005, we also recorded a \$14 million (\$8 million, after tax) non-cash charge to reflect the cumulative effect of accounting change as a result of our adoption of FASB Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations in fourth quarter 2005.

As a result of the above-mentioned items, net income decreased \$473 million.

Table of Contents

Following is a more detailed discussion of the results of each of our reportable segments:

	Revenues			EBITDA		
	2005	2004	% Change	2005	2004	% Change
Domestic Car Rental	\$ 4,109	\$ 3,658	12%	\$ 225	\$ 265	(15)%
International Car Rental	661	534	24	111	97	14
Truck Rental	546	517	6	103	105	(2)
Total Reportable Segments	5,316	4,709	13	439	467	(6)
Corporate and Other ^(a)	84	111	(24)	(213)	(76)	
Total Company	\$ 5,400	\$ 4,820	12	226	391	
Less: Non-vehicle related depreciation and amortization				116	115	
Interest expense related to corporate debt, net ^(b)				172	269	
Income (loss) before income taxes				\$ (62)	\$ 7	

(a) Includes unallocated corporate overhead, the elimination of transactions between segments and the results of operations of certain non-strategic businesses.

(b) The 2005 amount includes a credit resulting from the reversal of \$73 million of accrued interest associated with the resolution of amounts due under a litigation settlement reached in 1999.

Domestic Car Rental

Revenues increased \$451 million (12%) while EBITDA decreased \$40 million (15%) in 2005 compared with 2004, primarily reflecting growth in rental day volume offset by both reduced T&M revenue per rental day and higher fleet costs.

The revenue increase of \$451 million was comprised of a \$339 million (11%) increase in T&M revenue and a \$112 million (18%) increase in ancillary revenues. The increase in T&M revenues was principally driven by a 14% increase in rental days, partially offset by a 3% decrease in T&M revenue per day. The increase in rental days reflects, in part, our strategic decision to implement more competitive pricing in the second half of 2004. This program was continued into the first half of 2005 when we instituted a price increase in response to rising fleet costs. Accordingly, T&M revenue per day decreased 3% during 2005 when compared with 2004 as a whole, but year-over-year price comparisons strengthened over the course of 2005. Fleet depreciation, interest and lease charges increased \$226 million (21%) in 2005 primarily due to (i) an increase of 14% in the average size of our domestic rental fleet and (ii) reductions to manufacturer incentives received on our 2005 model year rental car fleet (which was utilized during 2005) as compared with those received on our 2004 model year rental car fleet (which was utilized during 2004). We also incurred \$181 million of additional expenses primarily associated with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs.

The \$112 million increase in ancillary revenues was due primarily to (i) a \$48 million increase in airport concession and vehicle licensing revenues, which was more than offset in EBITDA by \$51 million of higher airport concession and vehicle licensing expenses remitted to airport and other regulatory authorities, (ii) a \$35 million increase in counter sales of insurance and other items, and (iii) a \$29 million increase in gasoline revenues, which was more than offset in EBITDA by \$39 million of higher gasoline costs.

EBITDA from our domestic car rental operations also reflects \$28 million of incremental interest income earned on intercompany balances with our corporate parent, which will be forgiven in connection with the separation, partially offset by (i) \$12 million of incremental expenses relating to the estimated damages caused by the hurricanes experienced in the Gulf Coast in 2005, which primarily included the impairment of rental cars, and (ii) \$10 million of additional litigation expense resulting from the settlement of a dispute.

International Car Rental

Revenues and EBITDA increased \$127 million (24%) and \$14 million (14%), respectively, in 2005 compared with 2004, primarily reflecting growth in rental day volume.

Table of Contents

The revenue increase of \$127 million was comprised of an \$86 million (22%) increase in T&M revenue and a \$41 million (29%) increase in ancillary revenues. The increase in T&M revenues was principally driven by a 17% increase in rental days and a 4% increase in T&M revenue per day. The favorable effect of incremental T&M revenues was partially offset in EBITDA by \$49 million (45%) of increased fleet depreciation, interest and lease charges principally resulting from an increase of 21% in the average size of our international rental fleet to support increased demand. We also incurred \$48 million of additional expenses primarily associated with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs.

The \$41 million increase in ancillary revenues was due primarily to (i) a \$24 million increase in counter sales of insurance and other items, (ii) a \$12 million increase in airport concession and vehicle licensing revenues, substantially all of which are remitted to airport and other regulatory authorities thereby having a minimal impact on EBITDA, and (iii) a \$5 million increase in gasoline revenues, which was more than offset in EBITDA by \$6 million of higher gasoline costs.

The increases discussed above include \$46 million of revenue and \$1 million of EBITDA losses resulting from our acquisitions of international franchisees during 2005, as well as the effect of favorable foreign currency exchange rate fluctuations of \$28 million, which was largely offset in EBITDA by the opposite impact of foreign currency exchange rate fluctuations on expenses.

Truck Rental

Revenues increased \$29 million (6%), while EBITDA decreased \$2 million (2%) in 2005 compared with 2004.

The revenue increase of \$29 million was comprised of an \$18 million (4%) increase in T&M revenue and an \$11 million (16%) increase in counter sales of insurance and other items. The increase in T&M revenues was principally driven by a 3% increase in T&M revenue per day and a modest increase in rental days. The favorable effect of incremental T&M revenues was more than offset in EBITDA by \$39 million of increased fleet depreciation, interest and lease charges principally resulting from an increase of 10% in the average size of our truck rental fleet in anticipation of increased demand and higher per unit fleet costs.

EBITDA from our truck rental operations also reflects (i) \$6 million of additional dealer commission expense associated with increased T&M revenue, as discussed above and (ii) \$5 million of restructuring costs, representing facility, employee relocation and severance costs incurred in connection with the closure of a reservation center and unprofitable Budget truck rental locations. These increases were partially offset by (i) a \$13 million credit relating to a refinement made during 2005 in how we estimate repair and refurbishment costs of our truck fleet and (ii) a \$7 million decrease in our self-insurance reserve for public liability and property damage costs as a result of more favorable claims experience.

Corporate and Other

Revenues decreased \$27 million and the EBITDA loss increased from \$76 million in 2004 to \$213 million in 2005.

Revenues and EBITDA were unfavorably impacted in 2005 by a \$22 million reduction to realized gains on the sale of Homestore stock during 2005 compared with 2004 and a \$13 million reduction in earnings on a credit card marketing program under which we earn fees based on a percentage of credit card spending. Such amounts were partially offset by a \$5 million increase in revenues earned in 2005 under agreements where we provide certain transitional administrative services to businesses we recently sold or distributed (including Jackson Hewitt, PHH and our former Marketing Services division).

EBITDA was further unfavorably impacted year-over-year by (i) the absence of a \$55 million credit recorded in 2004 in connection with previously established liabilities for severance and other termination benefits for which we no longer believed we were liable, (ii) \$19 million of restructuring charges recorded during 2005, (iii) \$15 million of expenses recorded during 2005 in connection with our separation plan and (iv) a credit of \$12 million in 2004 relating to the termination of a lease on more favorable terms than originally estimated.

Table of Contents**Year Ended December 31, 2004 vs. Year Ended December 31, 2003**

Our consolidated results of operations comprised the following:

	2004	2003	Change
Net revenues	\$ 4,820	\$ 4,682	\$ 138
Total expenses	4,813	4,945	(132)
Income (loss) before income taxes	7	(263)	270
Benefit from income taxes	(64)	(114)	50
Income (loss) from continuing operations	71	(149)	220
Income from discontinued operations, net of tax	1,822	1,558	264
Gain on disposal of discontinued operations, net of tax	198	-	198
Cumulative effect of accounting change, net of tax	-	(329)	329
Net income	\$ 2,091	\$ 1,080	\$ 1,011

During 2004, our total revenues increased \$138 million (3%) principally due to a 2% increase in T&M revenue, which was primarily driven by an 11% increase in international rental days and a 6% increase in international pricing. Revenues within our domestic operations remained relatively consistent year-over-year. Total expenses decreased \$132 million (3%) principally reflecting (i) \$106 million of lower non-vehicle interest expense primarily related to the retirement of our former 11% senior subordinated notes, (ii) \$58 million of lower vehicle depreciation and lease charges primarily resulting from enhanced incentives offered by car manufacturers on our 2004 model year rental car inventory, (iii) \$28 million of lower selling, general and administrative expenses principally due to cost savings realized in connection with our strategic initiative to reduce overhead, including marketing and advertising, as well as cost savings realized upon the completion of the Budget integration and (iv) \$21 million of lower vehicle interest expense due primarily to the refinancing of higher-rate borrowings with a more favorable interest rate. The favorable effect of these reductions was partially offset by \$83 million of additional operating expenses primarily associated with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs. As a result of these items, as well as a \$50 million reduction in our benefit from income taxes, our income from continuing operations increased \$220 million. The benefit from income taxes for 2004 reflects the favorable resolution of prior years examination matters and the benefit from income taxes for 2003 reflects reversals in our valuation allowance.

Income from discontinued operations increased \$264 million, and reflects (i) an increase of \$144 million in net income generated by our Marketing Services division, which principally reflects the reversal of a tax valuation allowance of \$121 million in January 2004, and (ii) an increase of \$92 million in net income generated by Realogy. We also recorded a net gain of \$198 million in connection with the initial public offering of Jackson Hewitt in June 2004. In 2003, we recorded a non-cash charge of \$329 million to reflect the cumulative effect of accounting change in relation to the adoption of FASB Interpretation No. 46, Consolidation of Variable Interest Entities. As a result of the above-mentioned items, net income increased approximately \$1.0 billion.

Table of Contents

Following is a more detailed discussion of the results of each of our reportable segments:

	Revenues			EBITDA		
	2004	2003	% Change	2004	2003	% Change
Domestic Car Rental	\$ 3,658	\$ 3,640	-%	\$ 265	\$ 165	61%
International Car Rental	534	447	19	97	55	76
Truck Rental	517	512	1	105	108	(3)
Total Reportable Segments	4,709	4,599	2	467	328	42
Corporate and Other ^(a)	111	83	34	(76)	(111)	
Total Company	\$ 4,820	\$ 4,682	3	391	217	
Less: Non-vehicle related depreciation and amortization				115	105	
Interest expense related to corporate debt, net ^(b)				269	375	
Income (loss) before income taxes				\$ 7	\$ (263)	

^(a) Includes unallocated corporate overhead, the elimination of transactions between segments and the results of operations of certain non-strategic businesses.

Domestic Car Rental

Revenues and EBITDA increased \$18 million and \$100 million (61%), respectively, in 2004 compared with 2003, primarily reflecting cost savings upon the successful integration of Budget, the assets of which were acquired in November 2002, and the implementation of other cost savings initiatives.

The revenue increase of \$18 million was comprised of a \$3 million increase in T&M revenues and a \$15 million increase in ancillary revenues. T&M revenues increased by a modest \$3 million as a 3% increase in rental days was offset by a 3% decrease in T&M revenue per day, which was primarily driven by price competition in the car rental industry. Fleet depreciation, interest and lease charges decreased \$81 million (7%) in 2004 despite a 3% increase in the average size of our domestic rental fleet. This decrease primarily resulted from the successful integration of Budget and enhanced incentives offered by car manufacturers on our 2004 model year rental car inventory, which lowered our overall fleet costs in 2004. We also incurred \$58 million of additional expenses primarily associated with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs.

The \$15 million increase in ancillary revenues was due to (i) a \$17 million increase in airport concession and vehicle licensing revenues, which was partially offset in EBITDA by associated expenses required to be remitted to airport and other regulatory authorities and (ii) a \$10 million increase in gasoline revenues, which was more than offset in EBITDA by \$16 million of higher gasoline costs. These increases were partially offset by a \$12 million decrease in counter sales of insurance and other items.

EBITDA from our domestic car rental operations also reflects (i) \$51 million of cost savings realized in connection with the successful integration of Budget and other initiatives undertaken by management to reduce overhead, including marketing and advertising and (ii) \$33 million of lower vehicle insurance costs, which was driven by our decision to reduce higher-risk rentals.

International Car Rental

Revenues and EBITDA increased \$87 million (19%) and \$42 million (76%), respectively, in 2004 compared with 2003 due to increased rental day volume, increased pricing and favorable foreign exchange fluctuations.

The revenue increase was comprised of a \$59 million (18%) increase in car rental T&M revenue and a \$28 million (25%) increase in ancillary revenues. The increase in T&M revenues was principally driven by an 11% increase in rental days and a 6% increase in T&M revenue per day. Fleet depreciation, interest and lease charges increased by \$5 million (5%) despite a 12% increase in the average size of our international rental fleet to support increased demand. We also incurred \$27 million of additional expenses primarily associated

Table of Contents

with increased car rental volume and fleet size, including vehicle maintenance and damage costs, commissions and shuttling costs.

The \$28 million increase in ancillary revenues was due to (i) a \$15 million increase in counter sales of insurance and other items, (ii) a \$9 million increase in airport concession and vehicle licensing revenues, substantially all of which are remitted to airport and other regulatory authorities thereby having a minimal impact on EBITDA, and (iii) a \$4 million increase in gasoline revenues, which was offset in EBITDA by \$4 million of higher gasoline costs. The increases discussed above include the effect of favorable foreign currency exchange rate fluctuations of \$43 million, which was partially offset in EBITDA by \$30 million due to the unfavorable impact of foreign currency exchange rate fluctuations on expenses.

Truck Rental

Budget truck rental revenues increased \$5 million (1%) in 2004, while EBITDA decreased \$3 million (3%) in 2004 compared with 2003.

The revenue increase of \$5 million was comprised of a \$10 million (2%) increase in T&M revenue, partially offset by a \$5 million (7%) reduction in counter sales of insurance and other items. The \$10 million increase in T&M revenue was principally driven by an 8% increase in T&M revenue per day, partially offset by a 5% reduction in rental days. In addition to the favorable effect of incremental T&M revenues, EBITDA also benefited from a \$6 million (13%) reduction in fleet depreciation and lease charges principally resulting from a 10% reduction in the average size of our truck rental fleet as a result of our efforts to focus on higher utilization of newer and more efficient trucks. Our focus on higher utilization of newer and more efficient trucks also caused the reduction in rental days discussed above, as we had fewer trucks to rent. Additionally, we incurred \$5 million of additional vehicle interest expense to fund the purchase of newer and more efficient trucks. EBITDA from our truck rental operations also reflects \$9 million of additional commission expense associated with increased T&M revenue.

Corporate and Other

Revenues increased \$28 million and the EBITDA loss decreased from \$111 million in 2003 to \$76 million in 2004. Revenues and EBITDA were favorably impacted in 2004 by \$37 million of additional realized gains on the sale of Homestore stock, partially offset by a \$30 million gain recognized in 2003 on the sale of our equity investment in Entertainment Publications, Inc. Revenue and EBITDA also reflect \$21 million and \$13 million, respectively, of incremental earnings on a credit card marketing program under which we earn fees based on a percentage of credit card spending.

EBITDA was also favorably impacted year-over-year by (i) a \$39 million reduction in securities-related litigation charges in 2004 compared with 2003 principally resulting from a credit of \$55 million in 2004 relating to previously established liabilities for severance and other termination benefits for which we no longer believe we are liable, partially offset by ongoing investigation costs relating to the discovery in 1998 of accounting irregularities in former CUC businesses and (ii) a credit of \$12 million in 2004 relating to the termination of a lease on more favorable terms than originally estimated. These favorable EBITDA variances were partially offset by a \$35 million increase in incentive-based compensation expenses.

Table of Contents**FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES**

We present separately the financial data of our vehicle programs. These programs are distinct from our other activities as the assets are generally funded through the issuance of debt that is collateralized by such assets. Assets under vehicle programs are funded through borrowings under asset-backed funding or other similar arrangements. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

FINANCIAL CONDITION

	2005	2004	Change
Total assets exclusive of assets under vehicle programs	\$ 25,993	\$ 35,626	\$ (9,633)
Total liabilities exclusive of liabilities under vehicle programs	13,889	21,966	(8,077)
Assets under vehicle programs	8,500	7,072	1,428
Liabilities under vehicle programs	9,262	8,268	994
Stockholders' equity	11,342	12,464	(1,122)

Total assets exclusive of assets under vehicle programs decreased approximately \$9.6 billion primarily due to (i) the spin-off of PHH, which reduced assets by approximately \$9.6 billion, (ii) the sale of the Marketing Services division, which (excluding proceeds received on the sale) reduced assets by approximately \$1.1 billion, (iii) the sale of Wright Express, which (excluding proceeds received on the sale) reduced assets by \$685 million and (iv) a reduction of approximately \$1.3 billion in our net deferred tax asset principally due to the utilization of our net operating loss carryforwards during 2005. These decreases were partially offset by approximately \$2.3 billion of assets acquired in connection with the completion of certain acquisitions which are now presented as discontinued operations.

Total liabilities exclusive of liabilities under vehicle programs decreased approximately \$8.1 billion primarily due to (i) the spin-off of PHH, which reduced liabilities by approximately \$8.1 billion, (ii) the sale of the Marketing Services division, which reduced liabilities by \$758 million, (iii) the sale of Wright Express, which reduced liabilities by \$434 million and (iv) a net reduction of approximately \$640 million in borrowings under our revolving credit facility. These decreases were partially offset by approximately \$670 million of liabilities that we assumed in connection with certain acquisitions which are now presented as discontinued operations.

Assets under vehicle programs increased approximately \$1.4 billion primarily due to the net additions to our vehicle rental fleet, reflecting current and projected year-over-year increases in demand.

Liabilities under vehicle programs increased approximately \$1.0 billion primarily due to additional borrowings to support the growth in our vehicle rental fleet described above. See **Liquidity and Capital Resources Debt and Financing Arrangements** for a detailed account of the change in our debt related to vehicle programs.

Stockholders' equity decreased approximately \$1.1 billion primarily due to (i) the \$1.4 billion dividend of PHH's equity to our shareholders, (ii) our repurchase of approximately \$1.3 billion of our common stock and (iii) \$423 million of cash dividend payments. Such decreases were partially offset by (i) net income of approximately \$1.6 billion for 2005, (ii) the \$281 million adjustment to offset the valuation charge associated with the PHH spin-off (which is included in both the \$1.4 billion PHH dividend and in the 2005 net income, therefore necessitating the adjustment) and (iii) \$347 million related to the exercise of employee stock options (including a \$79 million tax benefit).

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

Our principal sources of liquidity are cash on hand and our ability to generate cash through operations and financing activities, including available funding arrangements and committed credit facilities, each of which is discussed below.

CASH FLOWS

At December 31, 2005, we had \$546 million of cash on hand, an increase of \$383 million from \$163 million at December 31, 2004. The following table summarizes such increase:

	Year Ended December 31,		
	2005	2004	Change
Cash provided by (used in):			
Operating activities	\$ 1,000	\$ 787	\$ 213
Investing activities	27	(810)	837
Financing activities	(1,001)	(1,030)	29
Effects of exchange rate changes	-	4	(4)
Cash provided by discontinued operations	357	639	(282)
Net change in cash and cash equivalents	\$ 383	\$ (410)	\$ 793

During 2005, we generated \$213 million more cash from operating activities in comparison to 2004. This change principally reflects (i) an increase in operating results in 2005 compared to 2004, when adjusted for non-cash items, including depreciation and amortization, and (ii) reduced working capital requirements.

During 2005, we generated \$27 million of cash from investing activities, compared to using \$810 million of cash in investing activities in 2004. This change is primarily due to an increase of approximately \$1.8 billion in cash proceeds from dispositions of businesses, net of transaction-related payments, which reflects \$1.7 billion and \$964 million in proceeds related to the disposition of our former Marketing Services division and the initial public offering of Wright Express in 2005, respectively, partially offset by \$772 million we received in connection with the initial public offering of Jackson Hewitt in 2004. These increases were partially offset by (i) an \$841 million increase in cash used to purchase rental vehicles during 2005 and (ii) the use of \$125 million more cash in 2005 to acquire rental car licensees and associated vehicles.

We used \$29 million less cash in financing activities in 2005 compared to 2004. Such change includes a reduction of \$541 million in cash used to settle corporate indebtedness, the generation of \$710 million more cash from borrowing activity within our vehicle programs in 2005, offset by the absence of proceeds received on the Upper DECS in 2004 and increased net stock repurchases in 2005. The reduction in cash used to settle corporate debt includes (i) the payment of \$778 million to repurchase \$763 million of our 6.75% notes in 2004 that formed a portion of the Upper DECS, (ii) the use of \$345 million to retire our 11% senior subordinated notes in 2004, (iii) the payment of \$811 million to redeem our 3⁷/₈% convertible senior debentures in 2004, and (iv) the repayment in 2005 of borrowings under our revolving credit facility in 2004. These increases were partially offset by (i) the absence of \$863 million of cash we received in connection with the settlement of the forward purchase contract component of our former Upper DECS securities, whereby we issued 38 million shares of common stock in 2004, (ii) an increase of \$304 million in cash used for common stock repurchases (net of proceeds received on the issuance of common stock) and (iii) the use of \$90 million more cash in 2005 for the payment of dividends.

DEBT AND FINANCING ARRANGEMENTS

At December 31, 2005, we had approximately \$11.4 billion of indebtedness (including corporate indebtedness of approximately \$3.5 billion and debt under vehicle programs of approximately \$7.9 billion).

Table of Contents

Corporate indebtedness consisted of:

		As of December 31,		
	Maturity Date	2005	2004	Change
<i>Term notes</i>				
6 ⁷ / ₈ % notes	August 2006	\$ 850	\$ 850	\$ -
4.89% notes	August 2006	100	100	-
6 ¹ / ₄ % notes	January 2008	798	797	1
6 ¹ / ₄ % notes	March 2010	349	349	-
7 ³ / ₈ % notes	January 2013	1,192	1,191	1
7 ¹ / ₈ % notes	March 2015	250	250	-
<i>Other</i>				
Revolver borrowings ^(a)	November 2009	7	650	(643)
Net hedging gains (losses) ^(b)		(47)	17	(64)
Other		9	30	(21)
		\$ 3,508	\$ 4,234	\$ (726)

^(a) Outstanding borrowings do not include \$350 million of borrowings for which our Travelport subsidiary is the primary obligor. This amount is included within liabilities of discontinued operations on our Consolidated Balance Sheet at December 31, 2005.

^(b) As of December 31, 2005, the balance represents \$153 million of net mark-to-market adjustments on current interest rate hedges, partially offset by \$106 million of net gains resulting from the termination of interest rate hedges. As of December 31, 2004, the balance represents \$138 million of net gains resulting from the termination of interest rate hedges, partially offset by \$121 million of mark-to-market adjustments on current interest rate hedges.

The following table summarizes the components of our debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding (AESOP) LLC):

		As of December 31,		
		2005	2004	Change
Avis Budget Rental Car Funding ^(a)		\$ 6,957	\$ 5,935	\$ 1,022
Budget Truck financing:				
HFS Truck Funding program ^(b)		149	220	(71)
Capital leases ^(c)		370	225	145
Other ^(d)		433	347	86
		\$ 7,909	\$ 6,727	\$ 1,182

^(a) The change in the balance at December 31, 2005 principally reflects the issuance of fixed and floating rate asset-backed notes at various interest rates to support the acquisition of vehicles, partially offset by net repayments

of outstanding term notes.

- (b) The change in the balance at December 31, 2005 reflects payment of floating rate notes in connection with the retirement of portions of our truck rental fleet, which currently is acquired primarily under capital lease arrangements.
- (c) The change in the balance at December 31, 2005 reflects \$145 million of additional capital lease arrangements to finance the acquisition of a portion of our truck rental fleet.
- (d) The change in the balance at December 31, 2005 primarily reflects incremental borrowings under our bank loan and commercial paper conduit facilities to support the acquisition of vehicles in our international operations.

On January 19, 2006, we issued \$600 million of asset-backed notes under our vehicle rental program. The issuance consisted of five-year floating rate notes currently bearing interest at LIBOR plus 22 basis points.

Table of Contents

The following table provides the contractual maturities for our corporate debt and our debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding) at December 31, 2005:

	Corporate Debt	Debt Under Vehicle Programs
Due in 2006	\$ 975	\$ 2,456
Due in 2007	5	1,816
Due in 2008	797	1,639
Due in 2009	-	480
Due in 2010	331	800
Thereafter	1,400	718
	\$ 3,508	\$ 7,909

At December 31, 2005, we had approximately \$2.9 billion of available funding under our various financing arrangements (comprised of approximately \$1.9 billion of availability at the corporate level and approximately \$1.0 billion available for use in our vehicle programs). As of December 31, 2005, the committed credit facility and commercial paper programs at the corporate level included:

	Total Capacity	Outstanding Borrowings	Letters of Credit Issued	Available Capacity
Revolving credit facility and commercial paper program ^(a)	\$ 3,500	\$ 7	\$ 1,256	\$ 1,887
Letter of credit facility ^(b)	303	-	303	-

^(a) In addition to the letters of credit issued as of December 31, 2005, the revolving credit facility contains the committed capacity to issue an additional \$494 million in letters of credit. The letters of credit outstanding under this facility at December 31, 2005 were issued primarily to support our vehicle rental business.

^(b) Final maturity date is July 2010.

As of December 31, 2005, available funding under our asset-backed debt programs related to our vehicle programs consisted of:

	Total Capacity ^(a)	Outstanding Borrowings	Available Capacity
Debt due to Avis Budget Rental Funding ^(b)	\$ 7,580	\$ 6,957	\$ 623
Budget Truck Financing:			
HFS Truck Funding program ^(c)	149	149	-
Capital leases ^(d)	370	370	-
Other ^(e)	821	433	388
	\$ 8,920	\$ 7,909	\$ 1,011

- (a) Capacity is subject to maintaining sufficient assets to collateralize debt.
- (b) The outstanding debt is collateralized by approximately \$7.5 billion of underlying vehicles (the majority of which are subject to manufacturer repurchase agreements) and related assets.
- (c) The outstanding debt is collateralized by approximately \$148 million of underlying vehicles and related assets.
- (d) In connection with these capital leases, there are corresponding unamortized assets of \$364 million classified within vehicles, net on our Consolidated Balance Sheet as of December 31, 2005.
- (e) The outstanding debt is collateralized by \$635 million of vehicles and related assets.

The significant terms for our outstanding debt instruments, credit facilities and available funding arrangements as of December 31, 2005 can be found in Notes 14 and 15 to our Consolidated Financial Statements.

At December 31, 2005, we also had \$400 million of availability for public debt or equity issuances under a shelf registration statement.

Table of Contents**LIQUIDITY RISK**

We believe that access to our existing financing arrangements is sufficient to meet liquidity requirements for the foreseeable future. We believe that access to our existing financing arrangements is sufficient to meet liquidity requirements for the foreseeable future prior to the full or partial completion of our planned separation into four independent publicly traded companies. Prior to, or in connection with any such separation, our existing financing arrangements will be revised or replaced so that our financing arrangements will remain sufficient to meet our liquidity needs for the foreseeable future. However, we can make no assurances that any such restructuring will be completed and we expect financing costs to increase for some, if not all, of the new stand-alone companies.

Our liquidity position may be negatively affected by unfavorable conditions in the vehicle rental industry.

Additionally, our liquidity as it relates to vehicle programs, could be adversely affected by (i) the deterioration in the performance of the underlying assets of such programs or (ii) increased costs associated with the principal financing program for our vehicle rental subsidiaries if General Motors Corporation or Ford Motor Company is not able to honor its obligations to repurchase the related vehicles. Access to our credit facilities may be limited if we were to fail to meet certain financial ratios or other requirements.

Additionally, we monitor the maintenance of required financial ratios and, as of December 31, 2005, we were in compliance with all financial covenants under our credit facilities.

Seasonality

Historically, the third quarter of the year has been our strongest quarter due to the increased level of leisure travel and household moving activity. Any occurrence that disrupts rental activity during the third quarter could have a disproportionately material adverse effect on our results of operations. Set forth below is the percentage of revenues earned by each of our segments during each quarter of fiscal year 2005:

	First	Second	Third	Fourth
Domestic Car Rental	22%	25%	28%	25%
International Car Rental	22	23	29	26
Truck Rental	19	27	31	23

In addition, certain expenses, such as rent, are fixed and cannot be reduced in response to seasonal fluctuations in our operations.

CONTRACTUAL OBLIGATIONS

The following table summarizes our future contractual obligations as of December 31, 2005:

	2006	2007	2008	2009	2010	Thereafter	Total
Long-term debt, including current portion	\$ 975	\$ 5	\$ 797	\$ -	\$ 331	\$ 1,400	\$ 3,508
Asset-backed debt under programs ^(a)	2,456	1,816	1,639	480	800	718	7,909
Operating leases	327	287	220	145	101	618	1,698
Commitments to purchase vehicles ^(b)	8,035	4,409	1,938	-	-	-	14,382
Other purchase commitments ^(c)	162	143	77	45	42	35	504
	\$ 11,955	\$ 6,660	\$ 4,671	\$ 670	\$ 1,274	\$ 2,771	\$ 28,001

^(a) Represents debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding), which was issued to support the purchase of vehicles.

^(b)

Primarily represents commitments to purchase vehicles from either General Motors Corporation or Ford Motor Company. These commitments are subject to the vehicle manufacturers satisfying their obligations under the repurchase agreements. The purchase of such vehicles is financed through the issuance of debt under vehicle programs in addition to cash received upon the sale of vehicles primarily under repurchase agreements (see Note 15 to our Consolidated Financial Statements).

(c) Primarily represents commitments under service contracts for information technology and telecommunications. The above table does not include future cash payments related to interest expense or any potential amount of future payments that we may be required to make under standard guarantees and indemnifications that we have entered into in the ordinary course of business. For more information regarding guarantees and indemnifications, see Note 16 to our Consolidated Financial Statements. Also not reflected in the above table are costs associated with the separation of the Company.

Table of Contents

ACCOUNTING POLICIES

Critical Accounting Policies

In presenting our financial statements in conformity with generally accepted accounting principles, we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions we are required to make relate to matters that are inherently uncertain as they pertain to future events and/or events that are outside of our control. If there is a significant unfavorable change to current conditions, it could result in a material adverse impact to our consolidated results of operations, financial position and liquidity. We believe that the estimates and assumptions we used when preparing our financial statements were the most appropriate at that time. Presented below are those accounting policies that we believe require subjective and complex judgments that could potentially affect reported results. However, our businesses operate in environments where we are paid a fee for a service performed, and therefore the results of the majority of our recurring operations are recorded in our financial statements using accounting policies that are not particularly subjective, nor complex.

Goodwill and Other Indefinite-lived Intangible Assets. We have reviewed the carrying value of our goodwill and other indefinite-lived intangible assets as required by Statement of Financial Accounting Standards (SFAS) No. 142,

Goodwill and Other Intangible Assets. In performing this review, we are required to make an assessment of fair value for our goodwill and other indefinite-lived intangible assets. When determining fair value, we utilize various assumptions, including projections of future cash flows. A change in these underlying assumptions will cause a change in the results of the tests and, as such, could cause the fair value to be less than the respective carrying amount. In such event, we would then be required to record a charge, which would impact earnings. We review the carrying value of goodwill and other indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred.

The aggregate carrying value of our goodwill and other indefinite-lived intangible assets was approximately \$2.2 billion and \$654 million, respectively, at December 31, 2005.

Our goodwill and other indefinite-lived intangible assets are allocated among three reporting units. Accordingly, it is difficult to quantify the impact of an adverse change in financial results and related cash flows, as such change may be isolated to one of our reporting units or spread across our entire organization. In either case, the magnitude of any impairment to goodwill or other indefinite-lived intangible assets resulting from adverse changes cannot be estimated. However, our businesses are concentrated in one industry and, as a result, an adverse change in the vehicle rental industry will impact our consolidated results and may result in impairment of our goodwill or other indefinite-lived intangible assets.

Income Taxes. We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. We regularly review our deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets that we believe will not be ultimately realized. In performing this review, we make estimates and assumptions regarding projected future taxable income, the expected timing of the reversals of existing temporary differences and the implementation of tax planning strategies. A change in these assumptions could cause an increase or decrease to our valuation allowance resulting in an increase or decrease in our effective tax rate, which could materially impact our results of operations. Additionally, our income tax returns are periodically examined by various tax authorities. We establish reserves for tax treatments when, despite our belief that the treatments are fully supportable, certain treatments are likely to be challenged and where we may not succeed in defending our position. We adjust our reserves upon the closing of a tax audit, which in some cases can occur several years following the related transaction or the filing of the tax return under examination, or upon the occurrence of other changes in facts and circumstances that indicate an adjustment may be necessary (including subsequent rulings and interpretations by tax authorities or court decisions on similar matters). Changes to the reserves could materially impact our results of operations.

See Notes 2 and 10 to our Consolidated Financial Statements for more information regarding income taxes.

Table of Contents

Financial Instruments. We estimate fair values for each of our financial instruments, including derivative instruments. Most of these financial instruments are not publicly traded on an organized exchange. In the absence of quoted market prices, we must develop an estimate of fair value using dealer quotes, present value cash flow models, option pricing models or other conventional valuation methods, as appropriate. The use of these fair value techniques involves significant judgments and assumptions, including estimates of future interest rate levels based on interest rate yield curves, volatility factors, and an estimation of the timing of future cash flows. The use of different assumptions may have a material effect on the estimated fair value amounts recorded in the financial statements, which are disclosed in Note 20 to our Consolidated Financial Statements. In addition, hedge accounting requires that at the beginning of each hedge period, we justify an expectation that the relationship between the changes in fair value of derivatives designated as hedges compared to changes in the fair value of the underlying hedged items will be highly effective. This effectiveness assessment, which is performed at least quarterly, involves an estimation of changes in fair value resulting from changes in interest rates, as well as the probability of the occurrence of transactions for cash flow hedges. The use of different assumptions and changing market conditions may impact the results of the effectiveness assessment and ultimately the timing of when changes in derivative fair values and the underlying hedged items are recorded in earnings. See Item 7a. Quantitative and Qualitative Disclosures about Market Risk for a discussion of the effect of hypothetical changes to these assumptions.

Changes in Accounting Policies

During 2005, we adopted the following standard as a result of the issuance of new accounting pronouncements:

FASB Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations

We will adopt the following recently issued standard as required:

SFAS No. 152, Accounting for Real Estate Time-Sharing Transactions and Statement of Position No. 04-2, Accounting for Real Estate Time-Sharing Transactions, and

SFAS No. 123R, Share-Based Payment

For detailed information regarding any of these pronouncements and the impact thereof on our business, see Note 2 to our Consolidated Financial Statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We use various financial instruments, particularly swap contracts, futures and options contracts to manage and reduce the interest rate risk related specifically to our debt. Foreign currency forwards are also used to manage and reduce the foreign currency exchange rate risk associated with our foreign currency denominated receivables and forecasted royalties, forecasted earnings of foreign subsidiaries and other transactions.

We are exclusively an end user of these instruments, which are commonly referred to as derivatives. We do not engage in trading, market-making or other speculative activities in the derivatives markets. More detailed information about these financial instruments is provided in Note 20 Financial Instruments to our Consolidated Financial Statements.

Our principal market exposures are interest and foreign currency rate risks.

Our primary interest rate exposure at December 31, 2005 was to interest rate fluctuations in the United States, specifically LIBOR and commercial paper interest rates due to their impact on variable rate borrowings and other interest rate sensitive liabilities. We anticipate that LIBOR and commercial paper rates will remain a primary market risk exposure for the foreseeable future.

We have foreign currency rate exposure to exchange rate fluctuations worldwide and particularly with respect to the British pound, Canadian dollar, Australian dollar and the New Zealand dollar. We anticipate that such foreign currency exchange rate risk will remain a market risk exposure for the foreseeable future.

Table of Contents

We assess our market risk based on changes in interest and foreign currency exchange rates utilizing a sensitivity analysis. The sensitivity analysis measures the potential impact in earnings, fair values and cash flows based on a hypothetical 10% change (increase and decrease) in interest and currency rates.

We use a duration-based model in determining the impact of interest rate shifts on our debt portfolio and interest rate derivative portfolios. The primary assumption used in this model is that a 10% increase or decrease in the benchmark interest rate produces a parallel shift in the yield curve across all maturities.

Our total market risk is influenced by a wide variety of factors including the volatility present within the markets and the liquidity of the markets. There are certain limitations inherent in the sensitivity analyses presented. While probably the most meaningful analysis, these shock tests are constrained by several factors, including the necessity to conduct the analysis based on a single point in time and the inability to include the complex market reactions that normally would arise from the market shifts modeled.

We used December 31, 2005, 2004 and 2003 market rates on outstanding financial instruments to perform the sensitivity analyses separately for each of our market risk exposures. The estimates are based on the market risk sensitive portfolios described in the preceding paragraphs and assume instantaneous, parallel shifts in interest rate yield curves and exchange rates.

We have determined that the impact of a 10% change in interest and foreign currency exchange rates and prices on our earnings, fair values and cash flows would not be material. While these results may be used as benchmarks, they should not be viewed as forecasts.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See Financial Statements and Financial Statement Index commencing on page F-1 hereof.

ITEM 9A. CONTROLS AND PROCEDURES

(a) *Disclosure Controls and Procedures.* In connection with the original filing of our 2005 Annual Report on Form-K, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were effective.

As described in Note 24 to the accompanying Consolidated Financial Statements, we have restated the Consolidated Financial Statements included in this report for certain errors in the allocation of purchase price among three businesses acquired in March 2001, the aggregation of two of the businesses for purposes of testing goodwill impairment, and certain items related to the operations of our former PHH Corporation subsidiary. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has reevaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report to determine whether the restatement changes our prior conclusion, and has determined that it does not change our conclusion that as of the end of the period covered by this report, our disclosure controls and procedures were effective. In arriving at this conclusion, management considered the facts and circumstances that resulted in the financial statement errors and restatement. Based on such considerations, management does not believe the restatement was the result of a material weakness in our internal control over financial reporting because we believe that such controls and procedures operated in a manner that provided management with a reasonable basis for the original conclusions with respect to the allocation of purchase price among three businesses acquired in March 2001 and the aggregation of two of the businesses for purposes of testing goodwill impairment. Additionally, management has concluded that the adjustments related to the operations of PHH Corporation were not the result of control deficiencies that existed within our internal control over financial reporting as of December 31, 2005, as these adjustments were the result of errors that occurred at PHH Corporation, which was spun off as of January 31, 2005.

Table of Contents

- (b) *Management's Annual Report on Internal Control over Financial Reporting.* Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2005. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*. Based on this assessment, our management believes that, as of December 31, 2005, our internal control over financial reporting is effective. Our independent auditors have issued an attestation report on our management's assessment of the Company's internal control over financial reporting, which is included below.
- (c) *Changes in Internal Control Over Financial Reporting.* During the second quarter of 2005, we began implementing integration activities related to our acquisitions of ebookers plc and Gullivers Travel Associates, which were consummated on February 28, 2005 and April 1, 2005, respectively. Total revenues and total assets related to these two acquisitions were \$303 million for the year ended December 31, 2005 and approximately \$1.8 billion as of December 31, 2005, respectively, and are reflected within discontinued in our Consolidated Financial Statements. Each of these companies, headquartered outside of the United States, was accustomed to operating under less stringent financial reporting and operating control frameworks when, compared to the Company's existing frameworks (including reporting deadlines, application of U.S. GAAP, general computer controls, extent of process documentation, etc.). As part of the process of integrating these companies into the Company's process and system of internal controls, we identified areas where improvements in process, systems and documentation were necessary at these businesses. As of December 31, 2005, the majority of the improvements that were initiated to strengthen the control environments at these businesses had been completed.

Given the large number of businesses through which we operate and their wide variety of information systems and processes, we continue to modify our internal controls and procedures throughout the organization on a fairly continuous basis in order to improve our ability to run our businesses more effectively and/or efficiently. During the introduction and training phases related to these new systems and processes, there may be a temporary weakening in our system of internal controls. However, we do not believe that any such temporary weakening has had, or is likely to have, a material effect on the Company's internal control over financial reporting.

Except as described above, there have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fiscal fourth quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Avis Budget Group, Inc.:

We have audited management's assessment, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting, that Avis Budget Group, Inc. and subsidiaries (the Company) maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Table of Contents

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's consolidated balance sheet as of December 31, 2005 and the related consolidated statements of income, stockholders' equity, and cash flow for the year ended December 31, 2005, and our report dated February 28, 2006 (March 1, 2007 as to the effects of the presentation of discontinued operations, new segment reporting structure, and restatement described in Notes 1 and 24) expressed an unqualified opinion on those financial statements, and included an explanatory paragraph relating to the change in presentation in 2005 of the Company's consolidated statements of cash flows to present separate disclosure of the cash flows from operating, investing and financing activities of discontinued operations and the retroactive revision of the statements of cash flows for the years ended December 31, 2004 and 2003, for the change.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Avis Budget Group, Inc.:

We have audited the accompanying consolidated balance sheets of Avis Budget Group, Inc. and subsidiaries (the Company) as of December 31, 2005 and 2004, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2005 and 2004, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the consolidated financial statements, during 2003, the Company adopted the consolidation provisions for variable interest entities.

As discussed in Note 1 to the consolidated financial statements, in 2005, the Company changed the presentation of its consolidated statements of cash flows to present separate disclosure of the cash flows from operating, investing and financing activities of discontinued operations and retroactively revised the statements of cash flows for the years ended December 31, 2004 and 2003, for the change.

As discussed in Note 1 to the consolidated financial statements, in connection with the Company's classification of certain subsidiaries as discontinued operations during the third quarter of 2006, the account balances and activities of these subsidiaries have been segregated and reported as discontinued operations for all periods presented. Also discussed in Note 1, the Company has adopted a new segment reporting structure.

As discussed in Note 24 to the consolidated financial statements, the consolidated financial statements have been restated.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2005, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2006 expressed an unqualified opinion on management's assessment of the effectiveness of the Company's internal control over financial reporting and an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Avis Budget Group, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unless otherwise noted, all amounts are in millions, except per share amounts)

1. Basis of Presentation

As of December 31, 2005, Cendant Corporation (Cendant) was a global provider of real estate and travel services. Following the distributions of the shares of Realogy Corporation (Realogy) and Wyndham Worldwide Corporation (Wyndham) to Cendant's stockholders on July 31, 2006 and the sale of Travelport, Inc. (Travelport) on August 23, 2006, which are further described in Note 3 Discontinued Operations, Cendant changed its name to Avis Budget Group, Inc. The Company's continuing operations consist primarily of Avis Budget Car Rental, which provides car and truck rentals and ancillary services to businesses and consumers in the United States and internationally. The accompanying Consolidated Financial Statements include the accounts and transactions of Avis Budget Group, Inc. and its subsidiaries (Avis Budget) as well as entities in which Avis Budget directly or indirectly has a controlling financial interest (collectively, the Company).

The Company operates in the following business segments:

Domestic Car Rental provides car rentals and ancillary products and services in the United States.

International Car Rental provides car rentals and ancillary products and services primarily in Canada, Argentina, Australia, New Zealand, Puerto Rico and the U.S. Virgin Islands.

Truck Rental provides truck rentals and related services to consumers and light commercial users in the United States.

The Company adopted the above segment reporting structure as a result of a reevaluation performed subsequent to the completion of the spin-offs of Realogy and Wyndham and the sale of Travelport, each of which is discussed below.

In presenting the Consolidated Financial Statements, management makes estimates and assumptions that affect the amounts reported and related disclosures. Estimates, by their nature, are based on judgment and available information. Accordingly, actual results could differ from those estimates. Certain reclassifications have been made to prior year amounts to conform to the current year presentation. Additionally, in 2005, the Company has separately disclosed the operating, investing and financing portions of cash flows attributable to its discontinued operations, which in prior periods were reported on a combined basis as a single amount.

Selling, general and administrative expenses on the accompanying Consolidated Statements of Income include unallocated corporate expenses related to the Company's discontinued operations. Accordingly, the expenses recorded by the Company in the Consolidated Statements of Income may not be indicative of the actual expenses the Company will incur as a separate company.

Vehicle Programs. The Company presents separately the financial data of its vehicle programs. These programs are distinct from the Company's other activities since the assets are generally funded through the issuance of debt that is collateralized by such assets. Assets under vehicle programs are funded through borrowings under asset-backed funding or other similar arrangements. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of the Company's vehicle programs. The Company believes it is appropriate to segregate the financial data of its vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

Discontinued Operations. In June 2004, the Company completed an initial public offering of Jackson Hewitt Tax Service Inc. (Jackson Hewitt), an operator and franchisor of tax preparation systems and services. On January 31, 2005, the Company completed the spin-off of its former mortgage, fleet leasing

F-9

Table of Contents

and appraisal businesses in a tax-free distribution to the Company's stockholders of one share of PHH Corporation (PHH) common stock per every twenty shares of Cendant common stock held on January 19, 2005. In February 2005, the Company completed an initial public offering of Wright Express Corporation (Wright Express), its former fuel card subsidiary, and in October 2005, the Company sold its former Marketing Services division, which was comprised of its individual membership and loyalty/insurance marketing businesses. Also, on July 31, 2006, the Company completed the spin-offs of Realogy and Wyndham, and on August 23, 2006, the Company completed the sale of Travelport. Upon completion of the spin-off of PHH, the Company's former mortgage business was not classified as a discontinued operation due to Realogy's participation in a mortgage origination venture that was established with PHH in connection with the spin-off. However, due to the spin-off of Realogy on July 31, 2006, the Company no longer participates in the venture. Pursuant to Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No. 144), the account balances and activities of Jackson Hewitt, PHH, Wright Express, the former Marketing Services division, Realogy, Wyndham and Travelport have been segregated and reported as discontinued operations for all periods presented. Summarized financial data for the aforementioned businesses are provided in Note 3 Discontinued Operations.

Separation Plan

From October 2005 to July 2006, the Company's Board of Directors approved a plan to separate Cendant into four independent companies:

Realogy Corporation encompasses the Company's former Realogy segment, which is now presented as a discontinued operation.

Wyndham Worldwide Corporation encompasses the Company's former Hospitality Services and Timeshare Resorts segments, which are now presented as discontinued operations.

Travelport, Inc. encompasses the Company's former Travel Distribution Services segment, which is now presented as a discontinued operation.

Avis Budget Group, Inc. encompasses the Company's vehicle rental operations.

On July 31, 2006, the Company completed the spin-offs of Realogy and Wyndham in tax-free distributions of one share each of Realogy and Wyndham common stock for every four and five shares, respectively, of then outstanding Cendant common stock held on July 21, 2006. On August 1, 2006, Realogy and Wyndham stock began regular-way trading on the New York Stock Exchange under the symbols H and WYN, respectively. On August 23, 2006, the Company completed the sale of Travelport for proceeds of approximately \$4.1 billion, net of closing adjustments.

2. Summary of Significant Accounting Policies

CONSOLIDATION POLICY

The Company adopted Financial Accounting Standards Board (FASB) FASB Interpretation No. 46 (Revised 2003), Consolidation of Variable Interest Entities (FIN 46), in its entirety as of December 31, 2003.

In connection with the implementation of FIN 46, the Company consolidated TRL Group, Inc. (TRL Group) (formerly known as Trilegiant Corporation) and Bishop's Gate Residential Mortgage Trust (Bishop's Gate) effective July 1, 2003 through the application of the prospective transition method. The consolidation of TRL Group and Bishop's Gate resulted in a non-cash charge of \$352 million (\$329 million after tax) recorded on July 1, 2003 to reflect the cumulative effect of the accounting change. Since TRL Group and Bishop's Gate were components of the Company's former individual membership business and PHH, respectively, the results of operations of TRL

Group and Bishop's Gate from July 1, 2003 and forward are reflected within discontinued operations. See Note 23 TRL Group, Inc. for more information regarding TRL Group.

F-10

Table of Contents

Also in connection with the implementation of FIN 46, the Company deconsolidated Avis Budget Rental Car Funding (AESOP) LLC (Avis Budget Rental Car Funding) (formerly Cendant Rental Car Funding AESOP, LLC), which did not result in the recognition of a charge to reflect the cumulative effect of accounting change. See Note 15 Debt Under Vehicle Programs and Borrowing Arrangements for more complete information regarding Avis Budget Rental Car Funding.

New Policy. In connection with FIN 46, when evaluating an entity for consolidation, the Company first determines whether an entity is within the scope of FIN 46 and if it is deemed to be a VIE. If the entity is considered to be a VIE, the Company determines whether it would be considered the entity's primary beneficiary. The Company consolidates those VIEs for which it has determined that it is the primary beneficiary. Generally, the Company will consolidate an entity not deemed either a VIE or qualifying special purpose entity (QSPE) upon a determination that its ownership, direct or indirect, exceeds fifty percent of the outstanding voting shares of an entity and/or that it has the ability to control the financial or operating policies through its voting rights, board representation or other similar rights. For entities where the Company does not have a controlling interest (financial or operating), the investments in such entities are classified as available-for-sale securities or accounted for using the equity or cost method, as appropriate. The Company applies the equity method of accounting when it has the ability to exercise significant influence over operating and financial policies of an investee in accordance with APB Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock.

Previous Policy. Prior to the adoption of FIN 46, the Company did not consolidate SPE and SPE-type entities unless the Company retained both control of the assets transferred and the risks and rewards of those assets. Additionally, non-SPE-type entities were only consolidated if the Company's ownership exceeded fifty percent of the outstanding voting shares of an entity and/or if the Company had the ability to control the financial or operating policies of an entity through its voting rights, board representation or other similar rights.

REVENUE RECOGNITION

The Company operates and franchises the Avis and Budget rental systems, providing vehicle rentals to business and leisure travelers. Revenue from vehicle rentals is recognized over the period the vehicle is rented. Franchise revenue principally consists of royalties received from the Company's franchisees in conjunction with vehicle rental transactions. Royalties are accrued as the underlying franchisee revenue is earned (generally over the rental period of a vehicle). Revenue from the sale of gasoline is recognized over the period the vehicle is rented and is based on the volume of gasoline consumed during the rental period or a contracted fee paid by the customer at the time the vehicle rental agreement is executed. The Company is reimbursed by its customers for certain operating expenses it incurs, including gasoline and vehicle licensing fees, as well as airport concession fees, which the Company pays in exchange for the right to operate at airports and other locations. Revenues and expenses associated with gasoline, vehicle licensing and airport concessions are recorded on a gross basis within revenue and operating expenses, respectively, on the accompanying Consolidated Statements of Income.

VEHICLE DEPRECIATION AND LEASE CHARGES, NET

Vehicles are stated at cost, net of accumulated depreciation. The initial cost of the vehicles is net of incentives and allowances from vehicle manufacturers. The Company acquires the majority of its rental vehicles pursuant to repurchase programs established by automobile manufacturers. Under these programs, the manufacturers agree to repurchase vehicles at a specified price and date, subject to certain eligibility criteria (such as car condition and mileage requirements). The Company depreciates vehicles such that the net book value of the vehicles on the date of return to the manufacturers is intended to equal the contractual guaranteed residual values, thereby minimizing any gain or loss on the sale of the vehicles. The Company records depreciation expense for any expected deficiency in the contractual guaranteed residual values due to excessive wear or damages. At December 31, 2005, the Company estimates that the difference between the contracted guaranteed residual value and the carrying value of these vehicles was \$76 million, which has already been reflected in the Company's Consolidated Statement of Income.

Table of Contents

Rental vehicles are depreciated on a straight-line basis giving consideration to the contractual guaranteed residual values and the number of months between the original purchase date of the vehicle and the expected sale date of the vehicle back to the manufacturers. For 2005, 2004 and 2003, rental vehicles were depreciated at rates ranging from 7% to 28% per annum. As market conditions change, the Company adjusts its depreciation. Upon disposal of the vehicles, depreciation expense is also adjusted for any difference between the net proceeds from the sale and the remaining book value. Vehicle-related interest amounts are net of interest income of \$4 million, \$4 million and \$5 million for 2005, 2004 and 2003 respectively.

ADVERTISING EXPENSES

Advertising costs are expensed in the period incurred. Advertising expenses, recorded within selling, general and administrative expense on the Company's Consolidated Statements of Income, were \$100 million, \$97 million and \$98 million in 2005, 2004 and 2003, respectively.

INCOME TAXES

The Company's provision for income taxes is determined using the asset and liability method, under which deferred tax assets and liabilities are calculated based upon the temporary differences between the financial statement and income tax bases of assets and liabilities using currently enacted tax rates. The Company's deferred tax assets are recorded net of a valuation allowance when, based on the weight of available evidence, it is more likely than not that some portion or all of the recorded deferred tax assets will not be realized in future periods. Decreases to the valuation allowance are recorded as reductions to the Company's provision for income taxes while increases to the valuation allowance result in additional provision. However, if the valuation allowance is adjusted in connection with an acquisition, such adjustment is recorded through goodwill rather than the provision for income taxes. The realization of the Company's deferred tax assets, net of the valuation allowance, is primarily dependent on estimated future taxable income. A change in the Company's estimate of future taxable income may require an addition or reduction to the valuation allowance.

CASH AND CASH EQUIVALENTS

The Company considers highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

DERIVATIVE INSTRUMENTS

The Company uses derivative instruments as part of its overall strategy to manage its exposure to market risks associated with fluctuations in foreign currency exchange rates and interest rates. As a matter of policy, the Company does not use derivatives for trading or speculative purposes.

All derivatives are recorded at fair value either as assets or liabilities. Changes in fair value of derivatives not designated as hedging instruments and of derivatives designated as fair value hedging instruments are recognized currently in earnings and included either as a component of net revenues or interest expense related to corporate debt, based upon the nature of the hedged item, in the Consolidated Statements of Income. Changes in fair value of the hedged item in a fair value hedge are recorded as an adjustment to the carrying amount of the hedged item and recognized currently in earnings as a component of net revenues or interest expense related to corporate debt, based upon the nature of the hedged item, in the Consolidated Statements of Income. The effective portion of changes in fair value of derivatives designated as cash flow hedging instruments is recorded as a component of other comprehensive income. The ineffective portion is reported currently in earnings as a component of net revenues or interest expense related to corporate debt, based upon the nature of the hedged item. Amounts included in other comprehensive income are reclassified into earnings in the same period during which the hedged item affects earnings.

Table of Contents**INVESTMENTS**

The Company determines the appropriate classification of its investments in debt and equity securities at the time of purchase and reevaluates such determination at each balance sheet date. The Company's non-marketable preferred stock investments are accounted for at cost. Common stock investments in affiliates over which the Company has the ability to exercise significant influence but not a controlling interest are carried on the equity method of accounting. Available-for-sale securities are carried at current fair value with unrealized gains or losses reported net of taxes as a separate component of stockholders' equity. Trading securities are recorded at fair value with realized and unrealized gains and losses reported currently in earnings.

All realized gains and losses and preferred dividend income are recorded within other revenues in the Consolidated Statements of Income. Gains and losses on securities sold are based on the specific identification method.

Affinion Group Holdings, Inc. The Company's investment in Affinion Group Holdings, Inc. (Affinion) was received in connection with the October 2005 sale of its former Marketing Services division, along with cash proceeds approximating \$1.7 billion. This investment represents preferred stock with a carrying value of \$83 million (face value of \$125 million) and warrants with a carrying value of \$3 million that are exercisable into 7.5% of the common equity of Affinion upon the earlier of four years or the achievement of specified investment hurdles.

Homestore, Inc. The Company's investment in Homestore, Inc. (Homestore) was received in exchange for the February 2001 sale of its former move.com and ancillary businesses. During 2005 and 2004, the Company sold 7.3 million and 9.8 million, respectively, shares of Homestore and recognized gains of \$18 million and \$40 million, respectively, within net revenues on its Consolidated Statements of Income. As of December 31, 2005, the Company had sold all of its shares of Homestore stock. As of December 31, 2004, the Company's investment in Homestore had a fair value of \$22 million.

PROPERTY AND EQUIPMENT

Property and equipment (including leasehold improvements) are recorded at cost, net of accumulated depreciation and amortization. Depreciation, recorded as a component of non-vehicle related depreciation and amortization in the Consolidated Statements of Income, is computed utilizing the straight-line method over the estimated useful lives of the related assets. Amortization of leasehold improvements, also recorded as a component of non-vehicle related depreciation and amortization, is computed utilizing the straight-line method over the estimated benefit period of the related assets, which may not exceed 20 years, or the lease term, if shorter. Useful lives are generally 30 years for buildings, three to seven years for capitalized software, three to seven years for furniture, fixtures and equipment and four to fifteen years for buses and support vehicles.

On March 30, 2005, the FASB issued FASB Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations (FIN 47), which clarifies that conditional asset retirement obligations are within the scope of SFAS No. 143, Accounting for Asset Retirement Obligations. FIN 47 requires the Company to recognize a liability for the fair value of conditional asset retirement obligations if the fair value of the liability can be reasonably estimated. The Company adopted the provisions of FIN 47 in fourth quarter 2005, as required. Accordingly, the Company recorded a \$14 million (\$8 million after tax, or \$0.01 per diluted share) non-cash charge to reflect the cumulative effect of accounting change during 2005 relating to the Company's obligation to remove assets at certain leased properties.

IMPAIRMENT OF LONG-LIVED ASSETS

In connection with SFAS No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), the Company is required to assess goodwill and other indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred. The Company assesses goodwill for such impairment by comparing the carrying value of its reporting units to their fair values. Each of the Company's reportable segments represents a reporting unit. The Company determines

Table of Contents

the fair value of its reporting units utilizing discounted cash flows and incorporates assumptions that it believes marketplace participants would utilize. When available and as appropriate, the Company uses comparative market multiples and other factors to corroborate the discounted cash flow results. Other indefinite-lived intangible assets are tested for impairment and written down to fair value, as required by SFAS No. 142.

The Company evaluates the recoverability of its other long-lived assets, including amortizing intangible assets, if circumstances indicate an impairment may have occurred, pursuant to SFAS No. 144. This analysis is performed by comparing the respective carrying values of the assets to the current and expected future cash flows, on an undiscounted basis, to be generated from such assets. Property and equipment is evaluated separately within each segment. If such analysis indicates that the carrying value of these assets is not recoverable, the carrying value of such assets is reduced to fair value through a charge to the Company's Consolidated Statements of Income.

The Company performs its annual impairment testing in the fourth quarter of each year subsequent to completing its annual forecasting process. In performing this test, the Company determines fair value using the present value of expected future cash flows. Within the Company's continuing operations, there was no impairment of intangible assets in 2005, 2004 or 2003. Impairment charges recorded for other long-lived assets were not material during 2005, 2004 or 2003. However, as a result of the analysis performed in 2005, the Company determined that the carrying values of goodwill and certain other indefinite-lived intangible assets assigned to Travelport's consumer travel businesses within discontinued operations exceeded their estimated fair values. Consequently, the Company also tested its other long-lived assets within Travelport's consumer travel business for impairment. In connection with the impairment assessments performed, the Company recorded a pretax charge of \$425 million within discontinued operations, of which \$254 million reduced the value of goodwill and \$171 million reduced the value of other intangible assets (including \$120 million related to trademarks). This impairment resulted from a decline in future anticipated cash flows primarily generated by Travelport's consumer travel businesses. Also, as a result of the analysis performed in 2003, the Company determined that the carrying value of goodwill assigned to its former fleet leasing business exceeded its estimated fair value. In connection with the impairment assessment performed, the Company recorded a pretax charge of \$102 million within discontinued operations as a reduction to the carrying value of goodwill of the former fleet leasing business.

PROGRAM CASH

Program cash primarily represents amounts specifically designated to purchase assets under vehicle programs and/or to repay the related debt.

SELF-INSURANCE RESERVES

The Consolidated Balance Sheets include approximately \$422 million and \$411 million of liabilities with respect to self-insured public liability and property damage as of December 31, 2005 and 2004, respectively. Such liabilities relate to additional liability insurance, personal effects protection insurance, public liability, property damage and personal accident insurance claims for which the Company is self insured. The current portion of such amounts is included within accounts payable and other current liabilities and the non-current portion is included in other non-current liabilities. The Company estimates the required liability of such claims on an undiscounted basis utilizing an actuarial method that is based upon various assumptions which include, but are not limited to, the Company's historical loss experience and projected loss development factors. The required liability is also subject to adjustment in the future based upon the changes in claims experience, including changes in the number of incidents (frequency) and change in the ultimate cost per incident (severity).

In addition, at December 31, 2005 and 2004, the Consolidated Balance Sheets include liabilities of approximately \$140 million and \$142 million, respectively, relating to health and welfare, workers' compensation and other benefits the Company provides to its employees. The Company estimates the liability required for such benefits based on actual claims outstanding and the estimated cost of claims

Table of Contents

incurred as of the balance sheet date. These amounts are included within accounts payable and other current liabilities on the Company's Consolidated Balance Sheets.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Timeshare Transactions. In December 2004, the FASB issued SFAS No. 152, Accounting for Real Estate Time-Sharing Transactions, in connection with the previous issuance of the American Institute of Certified Public Accountants' Statement of Position No. 04-2, Accounting for Real Estate Time-Sharing Transactions (SOP 04-2). The Company will adopt the provisions of SFAS No. 152 and SOP 04-2 effective January 1, 2006, as required, and anticipates recording an after tax charge in the range of \$50 million to \$80 million on such date as a cumulative effect of an accounting change. There is no expected impact to cash flows from the adoption of SFAS No. 152 and SOP 04-2.

Stock-Based Compensation. In December 2004, the FASB issued SFAS No. 123R, Share-Based Payment (SFAS No. 123R), which eliminates the alternative to measure stock-based compensation awards using the intrinsic value approach permitted by APB Opinion No. 25 and by SFAS No. 123, Accounting for Stock-Based Compensation. The Company will adopt SFAS No. 123R on January 1, 2006, as required. Although the Company has not yet completed its assessment of adopting SFAS No. 123R, it does not believe that such adoption will significantly affect its earnings, financial position or cash flows since the Company does not use the alternative intrinsic value approach.

3. Discontinued Operations

Travelport. On August 23, 2006, the Company completed the sale of Travelport for proceeds of approximately \$4.1 billion, net of closing adjustments. The Company recorded a non-cash impairment charge of approximately \$1.3 billion in second quarter 2006 to reflect the difference between Travelport's carrying value and its estimated fair value, less costs to dispose. There was no tax benefit recorded in connection with this charge. During the third quarter 2006, the Company also recorded a pretax loss of \$137 million (\$510 million, after tax) on the sale of Travelport in connection with certain transaction-specific costs and tax charges the Company could not recognize until the sale was consummated.

Realogy and Wyndham. On July 31, 2006, the Company completed the spin-offs of Realogy and Wyndham in tax-free distributions of one share each of Realogy and Wyndham common stock for every four and five shares, respectively, of Cendant Corporation common stock held on July 21, 2006.

Marketing Services Division. On October 17, 2005, the Company completed the sale of its Marketing Services division for approximately \$1.8 billion. The purchase price consisted of approximately \$1.7 billion of cash, net of closing adjustments, plus \$125 million face value of newly issued preferred stock of Affinion and warrants to purchase up to 7.5% of the common equity of Affinion (see Note 2 Summary of Significant Accounting Policies for more detailed information on the preferred stock and warrants).

Wright Express. On February 22, 2005, the Company completed the initial public offering of Wright Express for \$964 million of cash. Additionally, the Company entered into a tax receivable agreement with Wright Express pursuant to which Wright Express is obligated to make payments to the Company over a 15 year term. However, pursuant to the Separation Agreement between the Company, Realogy, Wyndham and Travelport, the Company is obligated to distribute all such payments received from Wright Express to Realogy and Wyndham following the separation. During 2005, the Company received \$15 million in connection with this tax receivable agreement, which is recorded within the gain on disposal line item on the accompanying Consolidated Statements of Income.

PHH. On January 31, 2005, the Company completed the spin-off of PHH, which includes its former mortgage, fleet leasing and appraisal businesses. In connection with the spin-off, the Company recorded a non-cash impairment charge of \$281 million and transaction costs of \$4 million during first quarter 2005. There were no tax benefits recorded in connection with these charges, as such charges are not tax deductible.

Table of Contents

Jackson Hewitt. On June 25, 2004, the Company completed the initial public offering of Jackson Hewitt. In connection with the initial public offering, the Company received \$772 million in cash.

Summarized statement of income data for discontinued operations is as follows:
Year Ended December 31, 2005

	Wright Express ^(a) (b)	PHH ^{(a) (c)}	Marketing Services Division ^(a)	Realogy

4. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share (EPS):

	Year Ended December 31,		
	2005	2004	2003
Income (loss) from continuing operations	\$ (11)	\$ 71	\$ (149)
Convertible debt interest, net of tax	-	-	7
Income (loss) from continuing operations for diluted EPS	\$ (11)	\$ 71	\$ (142)
Net income	\$ 1,618	\$ 2,091	\$ 1,080
Convertible debt interest, net of tax	-	-	7
Net income for diluted EPS	\$ 1,618	\$ 2,091	\$ 1,087
Basic weighted average shares outstanding ^(a)	1,040	1,031	1,017
Stock options, warrants and restricted stock units ^(b)	-	31	-
Convertible debt ^(c)	-	2	-
Diluted weighted average shares outstanding ^(a)	1,040	1,064	1,017

Table of Contents

	Year Ended December 31,		
	2005	2004	2003
<i>Earnings per share:</i>			
Basic			
Income (loss) from continuing operations	\$ (0.01)	\$ 0.07	\$ (0.15)
Income from discontinued operations	1.05	1.77	1.53
Gain (loss) on disposal of discontinued operations:			
PHH valuation and transaction-related charges	(0.27)	-	-
Gain on disposals	0.80	0.19	-
Cumulative effect of accounting changes	(0.01)	-	(0.32)
Net income	\$ 1.56	\$ 2.03	\$ 1.06
Diluted			
Income (loss) from continuing operations	\$ (0.01)	\$ 0.07	\$ (0.15)
Income from discontinued operations	1.05	1.71	1.53
Gain (loss) on disposal of discontinued operations:			
PHH valuation and transaction-related charges	(0.27)	-	-
Gain on disposals	0.80	0.19	-
Cumulative effect of accounting changes	(0.01)	-	(0.32)
Net income	\$ 1.56	\$ 1.97	\$ 1.06

- (a) Because the Company incurred a loss from continuing operations in 2005 and 2003, outstanding stock options, restricted stock units and stock warrants are anti-dilutive. Accordingly, basic and diluted weighted average shares outstanding are equal for such periods.
- (b) For 2004, excludes restricted stock units for which performance based vesting criteria have not been achieved.
- (c) The 2004 balance reflects the dilutive impact of the Company's zero coupon senior convertible contingent notes prior to conversion on February 13, 2004 into shares of Cendant common stock, the impact of which is reflected within basic weighted average shares outstanding from the conversion date forward (20 million shares in 2004).

The following table summarizes the Company's outstanding common stock equivalents that were anti-dilutive and therefore excluded from the computation of diluted EPS:

	Year Ended December 31,		
	2005	2004	2003
Options ^(a)	129	23	188
Warrants ^(b)	2	-	2
Upper DECS ^(c)	-	24	40

- (a) Represents all outstanding options for 2005 and 2003. The weighted average exercise price for anti-dilutive options at December 31, 2004 was \$29.76.

(b)

Represents all outstanding warrants for 2005 and 2003, for which the weighted average exercise price is \$21.31.

- (c) Represents the shares that were issuable under the forward purchase contract component of the Company's Upper DECS securities prior to the settlement of such securities on August 17, 2004, at which time the Company issued 38 million shares of Cendant common stock. The impact of this share issuance is included in basic EPS from the settlement date forward (14 million shares in 2004, due to a partial year impact). However, diluted EPS does not reflect any shares that were issuable prior to August 17, 2004, as the Upper DECS were anti-dilutive during such periods (since the appreciation price of \$28.42 was greater than the average price of Cendant common stock).

5. Acquisitions

Assets acquired and liabilities assumed in business combinations were recorded on the Company's Consolidated Balance Sheets as of the respective acquisition dates based upon their estimated fair values

F-20

Table of Contents

at such dates. The results of operations of businesses acquired by the Company have been included in the Company's Consolidated Statements of Income since their respective dates of acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed was allocated to goodwill. In certain circumstances, the allocations of the excess purchase price are based upon preliminary estimates and assumptions. Accordingly, the allocations may be subject to revision when the Company receives final information, including appraisals and other analyses. Any revisions to the fair values, will be recorded by the Company as further adjustments to the purchase price allocations.

During 2005, the Company acquired 23 vehicle rental licensees for \$206 million in cash, resulting in trademark intangible assets of \$88 million and goodwill of \$6 million, none of which is expected to be deductible for tax purposes. During 2004, the Company acquired 29 vehicle rental licensees for \$60 million in cash, resulting in goodwill of \$33 million, all of which is expected to be deductible for tax purposes, and trademark intangible assets of \$13 million. During 2003, the Company purchased seven vehicle rental licensees for \$7 million in cash, resulting in goodwill of \$8 million, all of which is expected to be deductible for tax purposes. These acquisitions, which relate primarily to the Company's International Car Rental segment, were not significant individually or in the aggregate to the Company's results of operations, financial position or cash flows.

During 2005, 2004 and 2003, the Company recorded acquisition and integration related costs (credits) of \$1 million, \$(5) million and \$27 million, respectively. The 2004 amount is comprised of \$7 million of costs primarily associated with the integration of Budget's information technology systems with the Company's platform, offset by the reversal of a previously established \$12 million accrual, which resulted from the termination of a lease on more favorable terms than originally anticipated. The 2003 amount primarily related to the integration of Budget's information technology systems into the Company's platform and revisions to the Company's original estimate of costs to exit a facility in connection with the outsourcing of its data operations.

6. Intangible Assets

Intangible assets consisted of:

	As of December 31, 2005			As of December 31, 2004		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
<i>Amortized Intangible Assets</i>						
Franchise agreements ^(a)	\$ 76	\$ 14	\$ 62	\$ 79	\$ 14	\$ 65
Customer lists ^(b)	20	6	14	20	4	16
Other ^(c)	2	1	1	2	1	1
	\$ 98	\$ 21	\$ 77	\$ 101	\$ 19	\$ 82
<i>Unamortized Intangible Assets</i>						
Goodwill	\$ 2,188			\$ 2,183		
Trademarks ^(d)	\$ 654			\$ 566		

(a) Primarily amortized over a period ranging from 2 to 40 years.

(b) Primarily amortized over 20 years.

(c) Primarily amortized over a period ranging from 6 to 20 years.

(d)

Comprised of various tradenames (including the Avis and Budget tradenames) that the Company has acquired and which distinguish the Company's consumer services. These tradenames are expected to generate future cash flows for an indefinite period of time.

F-21

Table of Contents

The changes in the carrying amount of goodwill during 2005 are as follows:

	Balance at January 1, 2005	Goodwill Acquired during 2005	Adjustments to Goodwill Acquired during 2004	Foreign Exchange and Other	Balance at December 31, 2005
Domestic Car Rental	\$ 1,351	\$ 6 ^(a)	\$ 1 ^(b)	\$ (4)	\$ 1,354
International Car Rental	589	-	-	2	591
Truck Rental	243	-	-	-	243
Total Company	\$ 2,183	\$ 6	\$ 1	\$ (2)	\$ 2,188

(a) Reflects the acquisition of licensees during 2005.

(b) Reflects refinements made during 2005 to the purchase price allocation associated with the acquisition of domestic licensees during 2004.

Amortization expense relating to all intangible assets was as follows:

	Year Ended December 31,		
	2005	2004	2003
Franchise agreements	\$ 2	\$ 3	\$ 3
Customer lists	2	1	1
Total	\$ 4	\$ 4	\$ 4

Based on the Company's amortizable intangible assets as of December 31, 2005, the Company expects related amortization expense to approximate \$3 million for each of the five succeeding fiscal years.

7. Vehicle Rental Activities

The components of vehicles, net within assets under vehicle programs are as follows:

	As of December 31,	
	2005	2004
Rental vehicles	\$ 8,247	\$ 6,997
Vehicles held for sale	165	49
	8,412	7,046
Less: accumulated depreciation	(903)	(671)
	\$ 7,509	\$ 6,375

The components of vehicle depreciation and lease charges, net are summarized below:

Year Ended December 31,

	2005	2004	2003
Depreciation expense	\$ 1,191	\$ 941	\$ 942
Lease charges	69	58	54
(Gain) loss on sales of vehicles, net ^(a)	(22)	(11)	50
	\$ 1,238	\$ 988	\$ 1,046

^(a) The 2003 amount reflects unfavorable conditions in the used car market, which the Company uses to sell any vehicles that do not meet the eligibility criteria to be repurchased under manufacturer agreements.

F-22

Table of Contents**8. Franchising Activities**

Franchising revenues, which are recorded within other revenues on the accompanying Consolidated Statements of Income, amounted to \$39 million, \$43 million and \$41 million during 2005, 2004 and 2003, respectively.

The number of Company-owned and franchised outlets in operation (excluding independent commissioned dealer locations for the Budget truck rental business and Avis and Budget locations operated under an arrangement with Avis Europe Holdings, Limited, an independent third party) is as follows:

	As of December 31,		
	2005	2004	2003
Company-owned			
Avis brand	1,186	1,074	982
Budget brand	902	822	859
Franchised			
Avis brand	849	851	820
Budget brand	1,221	1,345	1,496

In connection with ongoing fees the Company receives from its franchisees pursuant to the franchise agreements, the Company is required to provide certain services, such as training, marketing and the operation of reservation systems.

9. Restructuring Charges

During 2005, the Company recorded \$26 million of restructuring charges as a result of activities undertaken following the PHH spin-off and the IPO of Wright Express. The restructuring activities were targeted principally at reducing costs, enhancing organizational efficiency and consolidating and rationalizing existing processes and facilities. The more significant areas of cost reduction include the closure of a call center and field locations of the Company's truck rental business and reductions in staff within the Company's corporate functions.

The initial recognition of the restructuring charge and the corresponding utilization from inception are summarized by category as follows:

	Personnel Related (a)	Facility Related (b)	Asset Impairments (c)	Total
Initial charge	\$ 20	\$ 5	\$ 1	\$ 26
Cash payments	(15)	(2)	-	(17)
Other reductions ^(d)	(5)	-	(1)	(6)
Balance at December 31, 2005	\$ -	\$ 3	\$ -	\$ 3

(a) The initial charge primarily represents severance benefits resulting from the reductions in staff. The Company formally communicated the termination of employment to approximately 300 employees, representing a wide range of employee groups. As of December 31, 2005, the Company had terminated all of these employees.

(b) The initial charge principally represents costs incurred in connection with facility closures and lease obligations resulting from the consolidation of truck rental operations.

(c)

The initial charge principally represents the write-off of leasehold improvements in connection with lease terminations.

- (d) Other reductions to charges recorded for personnel-related costs represent the accelerated vesting of restricted stock units previously granted to individuals who were terminated in connection with this restructuring action. Other reductions to liabilities established for asset impairments principally represent the write-off of leasehold improvements in connection with lease terminations.

F-23

Table of Contents

Total restructuring charges are recorded as follows:

	Costs Incurred	Cash Payments/ Other Reductions	Liability as of December 31, 2005
Truck Rental	\$ 5	\$ (2)	\$ 3
Domestic Car Rental	2	(2)	-
Corporate and Other	19	(19)	-
	\$ 26	\$ (23)	\$ 3

10. Income Taxes

The benefit from income taxes consists of the following:

	Year Ended December 31,		
	2005	2004	2003
Current			
Federal	\$ 79	\$ 141	\$ 172
State	15	(8)	16
Foreign	25	27	13
	119	160	201
Deferred			
Federal	(149)	(246)	(287)
State	(34)	23	(28)
Foreign	13	(1)	-
	(170)	(224)	(315)
Benefit from income taxes	\$ (51)	\$ (64)	\$ (114)

Pretax income for domestic and foreign operations consists of the following:

	Year Ended December 31,		
	2005	2004	2003
Domestic	\$ (135)	\$ (64)	\$ (308)
Foreign	73	71	45
Pre-tax income	\$ (62)	\$ 7	\$ (263)

Table of Contents

Current and non-current deferred income tax assets and liabilities are comprised of the following:

	As of December 31,	
	2005	2004
<i>Current deferred income tax assets:</i>		
Litigation settlement and related liabilities	\$ 41	\$ 30
Net operating loss carryforwards	138	-
State net operating loss carryforwards	11	-
Accrued liabilities and deferred income	179	96
Provision for doubtful accounts	9	10
Acquisition and integration-related liabilities	42	64
Other	6	21
Current deferred income tax assets	426	221
<i>Current deferred income tax liabilities:</i>		
Prepaid expenses	51	48
Other	-	7
Current deferred income tax liabilities	51	55
Current net deferred income tax asset	\$ 375	\$ 166
<i>Non-current deferred income tax assets:</i>		
Net operating loss carryforwards	\$ 2	\$ 1,459
Foreign net operating loss carryforwards	28	-
State net operating loss carryforwards	60	185
Alternate minimum tax credit carryforward	132	53
Acquisition and integration-related liabilities	-	3
Accrued liabilities and deferred income	206	193
Other	38	62
Valuation allowance (*)	(59)	(54)
Non-current deferred income tax assets	407	1,901
<i>Non-current deferred income tax liabilities:</i>		
Depreciation and amortization	147	170
Non-current deferred income tax liabilities	147	170
Non-current net deferred income tax asset	\$ 260	\$ 1,731

(*)

The valuation allowance of \$59 million at December 31, 2005 relates to state net operating loss carryforwards and certain state deferred tax assets of \$45 million and \$14 million, respectively. The valuation allowance will be reduced when and if the Company determines that the related deferred income tax assets are more likely than not to be realized. If determined to be realizable, approximately \$4 million of the valuation allowance for state net operating loss carryforwards would reduce goodwill.

Net deferred income tax liabilities related to vehicle programs are comprised of the following:

	As of December 31,	
	2005	2004
Depreciation and amortization	\$ 1,130	\$ 1,379
Other	9	4
Net deferred income tax liability under vehicle programs	\$ 1,139	\$ 1,383

As of December 31, 2005, the Company had federal net operating loss carryforwards of approximately \$400 million, which primarily expire in 2024. No provision has been made for U.S. federal deferred income taxes on approximately \$184 million of accumulated and undistributed earnings of foreign subsidiaries at December 31, 2005, since it is the present intention of management to reinvest the undistributed earnings indefinitely in those foreign operations. The determination of the amount of unrecognized U.S. federal deferred income tax liability for unremitted earnings is not practicable.

Table of Contents

In December 2004, the FASB issued FASB Staff Position No. FAS 109-2, Accounting and Disclosure Guidance for the Foreign Earnings Repatriation Provision within the American Jobs Creation Act of 2004. The American Jobs Creation Act of 2004, which became effective October 22, 2004, provides a one-time dividends received deduction on the repatriation of certain foreign earnings to a U.S. taxpayer, provided certain criteria are met. The Company has applied the provisions of this act to qualifying earnings repatriations through December 31, 2005. In December 2005, the Company repatriated \$350 million of unremitted earnings, resulting in income tax expense of approximately \$28 million, which is reflected within discontinued operations.

The Company's effective income tax rate for continuing operations differs from the U.S. federal statutory rate as follows:

	As of December 31,		
	2005	2004	2003
Federal statutory rate	35.0%	35.0%	35.0%
State and local income taxes, net of federal tax benefits	36.9	89.0	3.0
Changes in valuation allowances	(18.4)	45.3	39.2
Taxes on foreign operations at rates different than U.S. federal statutory rates	(2.8)	(26.5)	0.9
Taxes on repatriated foreign income, net of tax credits	1.9	(28.4)	-
Resolution of prior years' examination issues	29.8	(1,153.1)	2.0
Redemption of preferred interest	-	-	(35.2)
Nondeductible expenses	(20.3)	156.2	(3.8)
Other	20.2	(31.8)	2.2
	82.3%	(914.3)%	43.3%

The Company is subject to income taxes in the United States and numerous foreign jurisdictions. Significant judgment is required in determining the Company's worldwide provision for income taxes and recording the related assets and liabilities. In the ordinary course of business, there are many transactions and calculations where the ultimate tax determination is uncertain. The Company is regularly under audit by tax authorities. Accruals for tax contingencies are provided for in accordance with the requirements of SFAS No. 5, Accounting for Contingencies.

The Internal Revenue Service (IRS) is currently examining the Company's taxable years 1998 through 2002. Over the course of this audit, the Company has responded to numerous requests for information, primarily focused on the 1999 statutory merger of the Company's former fleet business; the calculation of the stock basis in the 1999 sale of a subsidiary; and the deductibility of expenses associated with the shareholder class action litigation. To date, the Company has not received any IRS proposed adjustments related to such period. Although the Company believes it has appropriate support for the positions taken on its tax returns, the Company has recorded a liability for its best estimate of the probable loss on certain of these positions. The Company believes that its accruals for tax liabilities are adequate for all open years, based on its assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. Although the Company believes its recorded assets and liabilities are reasonable, tax regulations are subject to interpretation and tax litigation is inherently uncertain; therefore the Company's assessments can involve both a series of complex judgments about future events and rely heavily on estimates and assumptions. While the Company believes that the estimates and assumptions supporting its assessments are reasonable, the final determination of tax audits and any related litigation could be materially different than that which is reflected in historical income tax provisions and recorded assets and liabilities. Based on the results of an audit or litigation, a material effect on our income tax provision,

net income, or cash flows in the period or periods for which that determination is made could result.

F-26

Table of Contents**11. Other Current Assets**

Other current assets consisted of:

	As of December 31,	
	2005	2004
Prepaid expenses	\$ 172	\$ 146
Other	62	158
	\$ 234	\$ 304

12. Property and Equipment, net

Property and equipment, net consisted of:

	As of December 31,	
	2005	2004
Land	\$ 50	\$ 51
Building and leasehold improvements	286	263
Capitalized software	272	247
Furniture, fixtures and equipment	105	141
Buses and support vehicles	74	77
Projects in process	109	86
	896	865
Less: Accumulated depreciation and amortization	(380)	(356)
	\$ 516	\$ 509

Depreciation and amortization expense relating to property and equipment during 2005, 2004 and 2003 was \$112 million, \$111 million and \$101 million, respectively (including \$36 million, \$27 million and \$26 million, respectively, of amortization expense relating to capitalized computer software).

13. Accounts Payable and Other Current Liabilities

Accounts payable and other current liabilities consisted of:

	As of December 31,	
	2005	2004
Income taxes payable	\$ 776	\$ 622
Accrued legal settlements	313	178
Accrued payroll and related	279	305
Accounts payable	152	214
Accrued disposition costs	145	-
Public liability and property damage insurance liabilities ^(a)	125	115
Accrued interest	119	180
Other	378	393

\$ 2,287 \$ 2,007

- (a) The non-current liability related to public liability and property damage insurance was \$297 million and \$296 million at December 31, 2005 and 2004, respectively.

F-27

Table of Contents**14. Long-term Debt and Borrowing Arrangements**

Long-term debt consisted of:

		As of December 31,	
	Maturity Date	2005	2004
Term notes:			
6 ⁷ / ₈ % notes	August 2006	\$ 850	\$ 850

Other		9	30
Total long-term debt		3,508	4,234
Less: Current portion ^(c)		975	679
Long-term debt		\$ 2,533	\$ 3,555

- (a) Outstanding borrowings at December 31, 2005 do not include \$350 million of borrowings for which the Company's Travelport subsidiary is the primary obligor. This amount is included within liabilities of discontinued operations on the accompanying Consolidated Balance Sheet at December 31, 2005.
- (b) As of December 31, 2005, the balance represents \$153 million of net mark-to-market adjustments on current interest rate hedges, partially offset by \$106 million of net gains resulting from the termination of interest rate hedges. As of December 31, 2004, the balance represents \$138 million of net gains resulting from the termination of interest rate hedges, partially offset by \$121 million of mark-to-market adjustments on current interest rate hedges.
- (c) The balance as of December 31, 2005 includes \$850 million and \$100 million of borrowings under the Company's 7³/₈% and 4.89% notes, respectively, due in August 2006. The balance as of December 31, 2004 includes \$650 million of borrowings under the Company's \$3.5 billion revolving credit facility.

TERM NOTES**6⁷/₈% Notes**

The Company's 6⁷/₈% notes, with a face value of \$850 million, were issued in August 2001 for net proceeds of \$843 million. The interest rate on these notes is subject to an upward adjustment of 150 basis points in the event that the credit ratings assigned to the Company by nationally recognized credit rating agencies are downgraded below investment grade. The Company does not have the right to redeem these notes prior to maturity. These notes are senior unsecured obligations and rank equally in right of payment with all the Company's existing and future unsecured senior indebtedness.

4.89% Notes

On May 10, 2004, the Company's outstanding 6¹/₄% senior notes that formed a part of the Upper DECS, a hybrid instrument previously issued by the Company that consisted of both equity linked and debt securities, were

successfully remarketed and the interest rate was reset to 4.89%. Each Upper DECS consisted of both a senior note and a forward purchase contract to purchase shares of the Company's common stock. In connection with such remarketing, the Company purchased and retired \$763 million of the senior notes for \$778 million in cash and recorded a loss of \$18 million on the early extinguishment. The forward purchase contract was settled on August 17, 2004 (see Note 17 Stockholders' Equity for more information on the forward purchase contract). These notes are senior unsecured obligations and rank equally in right of payment with all the Company's existing and future unsecured senior indebtedness.

F-28

Table of Contents**6¹/₄% Notes**

The Company's 6¹/₄% notes (with face values of \$800 million and \$350 million) were issued in January and March 2003 for aggregate net proceeds of \$1,137 million. The notes are redeemable at the Company's option at any time, in whole or in part, at the appropriate redemption prices plus accrued interest through the redemption date. These notes are senior unsecured obligations and rank equally in right of payment with all the Company's existing and future unsecured senior indebtedness.

7³/₈% Notes

The Company's 7³/₈% notes, with a face value of \$1.2 billion, were issued in January 2003 for net proceeds of \$1,181 million. The notes are redeemable at the Company's option at any time, in whole or in part, at the appropriate redemption prices plus accrued interest through the redemption date. These notes are senior unsecured obligations and rank equally in right of payment with all the Company's existing and future unsecured senior indebtedness.

7¹/₈% Notes

The Company's 7¹/₈% notes, with a face value of \$250 million, were issued in March 2003 for net proceeds of \$248 million. The notes are redeemable at the Company's option at any time, in whole or in part, at the appropriate redemption prices plus accrued interest through the redemption date. These notes are senior unsecured obligations and rank equally in right of payment with all the Company's existing and future unsecured senior indebtedness.

COMMITTED CREDIT FACILITIES AND AVAILABLE FUNDING ARRANGEMENTS

At December 31, 2005, the committed credit facilities and commercial paper program available to the Company at the corporate level were as follows:

	Total Capacity	Outstanding Borrowings	Letters of Credit Issued	Available Capacity
Revolving credit facility and commercial paper program ^(a)	\$ 3,500	\$ 7	\$ 1,256	\$ 1,887
Letter of credit facility ^(b)	303	-	303	-

(a) In addition to the letters of credit issued as of December 31, 2005, the revolving credit facility contains the committed capacity to issue an additional \$494 million in letters of credit. The letters of credit outstanding under this facility at December 31, 2005 were issued primarily to support the Company's vehicle rental business.

(b) Final maturity date is July 2010.

As of December 31, 2005, the Company also had \$400 million of availability for public debt or equity issuances under a shelf registration statement.

DEBT COVENANTS

Certain of the Company's debt instruments and credit facilities contain restrictive covenants, including restrictions on indebtedness of material subsidiaries, mergers, limitations on liens, liquidations and sale and leaseback transactions, and also require the maintenance of certain financial ratios. At December 31, 2005, the Company was in compliance with all restrictive and financial covenants. The Company's debt instruments permit the debt issued thereunder to be accelerated upon certain events, including the failure to pay principal when due under any of the Company's other debt instruments or credit facilities subject to materiality thresholds. The Company's credit facilities permit the loans made thereunder to be accelerated upon certain events, including the failure to pay principal when due under any of the Company's debt instruments subject to materiality thresholds.

Table of Contents**15. Debt Under Vehicle Programs and Borrowing Arrangements**

Debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding) consisted of:

	As of December 31,	
	2005	2004
Debt due to Avis Budget Rental Car Funding	\$ 6,957	\$ 5,935
Budget Truck Financing:		
HFS Truck Funding program	149	220
Capital leases	370	225
Other	433	347
	\$ 7,909	\$ 6,727

Avis Budget Rental Car Funding. Avis Budget Rental Car Funding was established by the Company as a bankruptcy remote special purpose limited liability company that issues private placement notes and uses the proceeds from such issuances to make loans to a wholly-owned subsidiary of the Company, AESOP Leasing LP (AESOP Leasing), on a continuing basis. AESOP Leasing is required to use these proceeds to acquire or finance the acquisition of vehicles used in the Company's rental car operations. Prior to December 31, 2003, both Avis Budget Rental Car Funding and AESOP Leasing were consolidated by the Company and, as such, the intercompany transactions between these two entities were eliminated causing only the third-party debt issued by Avis Budget Rental Car Funding and the vehicles purchased by AESOP Leasing to be presented within the Company's Consolidated Financial Statements. However, in connection with the adoption of FIN 46, the Company determined that it was not the primary beneficiary of Avis Budget Rental Car Funding. Accordingly, the Company deconsolidated Avis Budget Rental Car Funding on December 31, 2003. As a result, AESOP Leasing's obligation to Avis Budget Rental Car Funding is reflected as related party debt on the Company's Consolidated Balance Sheet as of December 31, 2005 and 2004. The Company also recorded an asset within assets under vehicle programs on its Consolidated Balance Sheet at December 31, 2005 and 2004, which represents the equity issued by Avis Budget Rental Car Funding to the Company. The vehicles purchased by AESOP Leasing remain on the Company's Consolidated Balance Sheet as AESOP Leasing continues to be consolidated by the Company. Such vehicles and related assets, which approximate \$7.5 billion, collateralize the debt issued by Avis Budget Rental Car Funding and are not available to pay the obligations of the Company.

The business activities of Avis Budget Rental Car Funding are limited primarily to issuing indebtedness and using the proceeds thereof to make loans to AESOP Leasing for the purpose of acquiring or financing the acquisition of vehicles to be leased to the Company's rental car subsidiary and pledging its assets to secure the indebtedness. As the deconsolidation of Avis Budget Rental Car Funding occurred on December 31, 2003, the income statement and cash flow activity of the Company are not impacted for 2003. Beginning on January 1, 2004, the results of operations and cash flows of Avis Budget Rental Car Funding are no longer reflected within the Company's Consolidated Financial Statements. Borrowings under the Avis Budget Rental Car Funding program primarily represent floating rate term notes with a weighted average interest rate of 4% for 2005 and 3% for both 2004 and 2003.

Truck Financing. Budget Truck financing consists of debt outstanding under the HFS Truck Funding Program and capital leases. The HFS Truck Funding Program is a debt facility established by the Company to finance the acquisition of the Budget truck rental fleet. The borrowings under this program are collateralized by \$148 million of corresponding assets and are floating rate term notes with a weighted average interest rate of 4%, 2% and 1% for 2005, 2004 and 2003, respectively. The Company has also obtained a portion of its truck rental fleet under

capital lease arrangements for which there are corresponding unamortized assets of \$364 million and \$218 million classified within vehicles, net on the Company's Consolidated Balance Sheets as of December 31, 2005 and 2004, respectively. Interest paid as part of capital lease obligations was \$14 million and \$5 million during 2005 and 2004, respectively.

F-30

Table of Contents

Other. Borrowings under the Company's other vehicle rental programs represent amounts issued under financing facilities that provide for the issuance of notes to support the acquisition of vehicles used in the Company's international vehicle rental operations. The debt issued is collateralized by \$635 million of vehicles and related assets and primarily represents floating rate bank loans and commercial paper for which the weighted average interest rate was 4%, 3% and 4% for 2005, 2004 and 2003, respectively.

The following table provides the contractual maturities of the Company's debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding) at December 31, 2005:

	Vehicle- Backed Debt	Capital Leases	Total
2006	\$ 2,397	\$ 59	\$ 2,456
2007	1,703	113	1,816
2008	1,500	139	1,639
2009	421	59	480
2010	800	-	800
Thereafter	718	-	718
	\$ 7,539	\$ 370	\$ 7,909

COMMITTED CREDIT FACILITIES AND AVAILABLE FUNDING ARRANGEMENTS

As of December 31, 2005, available funding under the Company's vehicle programs (including related party debt due to Avis Budget Rental Car Funding) consisted of:

	Total Capacity ^(a)	Outstanding Borrowings	Available Capacity
Debt due to Avis Budget Rental Car Funding	\$ 7,580	\$ 6,957	\$ 623
Budget Truck financing:			
HFS Truck Funding program	149	149	-
Capital leases	370	370	-
Other	821	433	388
	\$ 8,920	\$ 7,909	\$ 1,011

(a) Capacity is subject to maintaining sufficient assets to collateralize debt.

DEBT COVENANTS

Debt agreements under the Company's vehicle-backed funding programs contain restrictive covenants, including restrictions on dividends paid to the Company by certain of its subsidiaries and indebtedness of material subsidiaries, mergers, limitations on liens, liquidations, and sale and leaseback transactions, and also require the maintenance of certain financial ratios. As of December 31, 2005, the Company is in compliance with all such covenants.

Table of Contents**16. Commitments and Contingencies*****Lease Commitments***

The Company is committed to making rental payments under noncancelable operating leases covering various facilities and equipment. Future minimum lease payments required under noncancelable operating leases as of December 31, 2005 are as follows:

<u>Year</u>	<u>Amount</u>
2006	\$ 327
2007	287
2008	220
2009	145
2010	101
Thereafter	618
	\$ 1,698

Other than those within the Company's vehicle rental program, for which the future minimum lease payments have been reflected in Note 15 Debt Under Vehicle Programs and Borrowing Arrangements, commitments under capital leases are not significant. During 2005, 2004 and 2003, the Company incurred total rental expense of \$491 million, \$454 million and \$430 million, respectively, inclusive of contingent rental expense of \$138 million, \$97 million and \$93 million in 2005, 2004 and 2003, respectively, principally based on car rental volume. Included within the Company's total rental expense for 2005, 2004 and 2003 are concession fees paid by the Company in connection with agreements with various airports authorities that allow the Company to conduct its car rental operations on-site. In general, concession fees for airport locations are based on a percentage of total commissionable revenue (as determined by each airport authority), subject to minimum annual guaranteed amounts.

Commitments to Purchase Vehicles

The Company maintains agreements with vehicle manufacturers, which require the Company to purchase approximately \$14.4 billion of vehicles from these manufacturers over the next three years (approximately \$8.0 billion, \$4.4 billion and \$1.9 billion during 2006, 2007 and 2008, respectively). These commitments are subject to the vehicle manufacturers' satisfying their obligations under the repurchase agreements. The Company's primary suppliers for the Avis and Budget brands are General Motors Corporation and Ford Motor Company, respectively. The purchase of such vehicles is financed through the issuance of debt under vehicle programs in addition to cash received upon the sale of vehicles primarily under repurchase programs.

Other Purchase Commitments

In the normal course of business, the Company makes various commitments to purchase goods or services from specific suppliers, including those related to capital expenditures. None of the purchase commitments made by the Company as of December 31, 2005 (aggregating approximately \$504 million) was individually significant with the exception of the Company's commitments under service contracts for information technology and telecommunications (aggregating \$358 million, of which \$91 million relates to 2006). These purchase obligations extend through 2011.

Contingencies

The Company is involved in litigation asserting claims associated with accounting irregularities discovered in 1998 at former CUC business units outside of the principal common stockholder class action litigation. While the Company has an accrued liability of approximately \$80 million recorded on its Consolidated Balance Sheet as of December 31, 2005 for these claims based upon its best estimates, it does not believe that it is feasible to predict or determine the final outcome or resolution of any unresolved proceedings. The Company does not believe that the impact of any unresolved proceedings should result in a material liability to the Company in relation to its consolidated financial position or liquidity.

Table of Contents

In addition to the matters discussed above, the Company is also involved in claims, legal proceedings and governmental inquiries related to its vehicle rental operations, including contract disputes, business practices, intellectual property, environmental issues and other commercial, employment and tax matters, including breach of contract claims by licensees. The Company believes that it has adequately accrued for such matters as appropriate or, for matters not requiring accrual, believes that they will not have a material adverse effect on its results of operations, financial position or cash flows based on information currently available. However, litigation is inherently unpredictable and, although the Company believes that its accruals are adequate and/or that it has valid defenses in these matters, unfavorable resolutions could occur, which could have a material adverse effect on the Company's results of operations or cash flows in a particular reporting period.

Standard Guarantees/Indemnifications

In the ordinary course of business, the Company enters into numerous agreements that contain standard guarantees and indemnities whereby the Company indemnifies another party for breaches of representations and warranties. In addition, many of these parties are also indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. Such guarantees or indemnifications are granted under various agreements, including those governing (i) purchases, sales or outsourcing of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities and use of derivatives and (v) issuances of debt or equity securities. The guarantees or indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility arrangements and derivative contracts, and (v) underwriters in debt or equity security issuances. While some of these guarantees extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these guarantees, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these guarantees as the triggering events are not subject to predictability. With respect to certain of the aforementioned guarantees, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates any potential payments to be made.

Other Guarantees

The Company has provided certain guarantees to subsidiaries of PHH, which, as previously discussed, was spun-off during first quarter 2005. These guarantees relate primarily to various real estate and product operating leases. The maximum potential amount of future payments that the Company may be required to make under the guarantees relating to the various real estate and product operating leases is estimated to be approximately \$40 million. At December 31, 2005, the liability recorded by the Company in connection with these guarantees was approximately \$1 million. To the extent that the Company would be required to perform under any of these guarantees, PHH has agreed to indemnify the Company.

In connection with the Company's disposition of its Marketing Services division (MSD), the Company agreed to provide certain indemnifications related to, among other things, litigation matters related to various suits brought against MSD by individual consumers and state regulatory authorities seeking monetary and/or injunctive relief regarding the marketing of certain membership programs and inquiries from state regulatory authorities related to such programs. Such indemnification entitles the purchaser to reimbursement for a portion of the actual losses suffered by it in regards to such matters. In addition, pursuant to a number of post-closing commercial arrangements entered into between certain of the Company's subsidiaries and MSD, the Company also agreed to provide a minimum number of call transfers to certain MSD subsidiaries, as well as retaining pre-existing guarantee obligations for certain real estate operating lease obligations on behalf of certain MSD subsidiaries. The Company established a liability for the estimated fair value of these guarantees in the amount of approximately \$100 million on the sale date, which reduced the gain on the transaction recorded within discontinued operations. The

Table of Contents

maximum potential amount of future payments to be made under these guarantees is approximately \$400 million excluding one litigation matter for which there is no limitation to the maximum potential amount of future payments.

17. Stockholders Equity***Dividend Payments***

During the quarterly periods ended March 31, June 30, September 30 and December 31, 2005, the Company paid cash dividends of \$0.09, \$0.09, \$0.11 and \$0.11 per common share, respectively (\$423 million in the aggregate). During the quarterly periods ended March 31, June 30, September 30 and December 31, 2004, the Company paid cash dividends of \$0.07, \$0.07, \$0.09 and \$0.09 per common share, respectively (\$333 million in the aggregate).

Share Repurchases

During 2005, the Company used \$1.1 billion of available cash and \$289 million of proceeds primarily received in connection with option exercises to repurchase approximately \$1.3 billion (approximately 68 million shares) of common stock under its common stock repurchase program. During 2004, the Company used \$756 million of available cash and \$567 million of proceeds primarily received in connection with option exercises to repurchase approximately \$1.3 billion (approximately 58 million shares) of common stock under its common stock repurchase program. During 2003, the Company used \$644 million of available cash and \$446 million of proceeds primarily received in connection with option exercises to repurchase approximately \$1.1 billion (approximately 65 million shares) of common stock under its common stock repurchase program.

Share Issuances

During first quarter 2004, the Company announced its intention to redeem its \$430 million then-outstanding zero coupon senior convertible contingent notes for cash. As a result, holders had the right to convert their notes into shares of Cendant common stock. Virtually all holders elected to convert their notes. Accordingly, the Company issued approximately 22 million shares in exchange for approximately \$430 million in notes (carrying value) during February 2004. The Company used the cash that otherwise would have been used to redeem these notes to repurchase shares in the open market.

On August 17, 2004, the forward purchase contracts that formed a portion of the Company's Upper DECS securities settled pursuant to the terms of such contracts. Accordingly, the Company issued approximately 38 million shares in exchange for \$863 million in cash and recorded an increase of \$863 million to stockholders equity.

3⁷/8% Convertible Senior Debentures Call Spread Options

During 2004, the Company redeemed its former 3⁷/8% convertible senior debentures for cash. However, holders could have elected to convert each \$1,000 par value debenture into 41.58 shares of Cendant common stock (33.4 million shares in the aggregate). In order to offset a portion of the dilution that would have occurred if the holders elected to convert their debentures, the Company purchased call spread options on April 30, 2004 covering 16.3 million of the 33.4 million shares issuable upon conversion. The call spread options, which expired unexercised in fourth quarter 2004, and which cost \$23 million, were accounted for as a capital transaction and included as a component of stockholders equity.

Table of Contents**Accumulated Other Comprehensive Income**

The after-tax components of accumulated other comprehensive income are as follows:

	Currency Translation Adjustments ^(*)	Unrealized Gains (Losses) on Cash Flow Hedges	Unrealized Gains (Losses) on Available-for-Sale Securities	Minimum Pension Liability Adjustment	Accumulated Other Comprehensive Income (Loss)
Balance, January 1, 2003	\$ 81	\$ (41)	\$ 4	\$ (58)	\$ (14)
Current period change	143	38	42	-	223
Balance, December 31, 2003	224	(3)	46	(58)	209
Current period change	84	23	(30)	(12)	65
Balance, December 31, 2004	308	20	16	(70)	274
Effect of PHH spin-off	(12)	(5)	(1)	7	(11)
Current period change	(219)	28	(15)	(17)	(223)
Balance, December 31, 2005	\$ 77	\$ 43	\$ -	\$ (80)	\$ 40

(*) Assets and liabilities of foreign subsidiaries having non-U.S.-dollar functional currencies are translated at exchange rates at the Consolidated Balance Sheet dates. Revenues and expenses are translated at average exchange rates during the periods presented. The gains or losses resulting from translating foreign currency financial statements into U.S. dollars, net of hedging gains or losses and taxes, are included in accumulated other comprehensive income. Gains or losses resulting from foreign currency transactions are included in the Consolidated Statements of Income.

All components of accumulated other comprehensive income are net of tax except currency translation adjustments, which exclude income taxes related to indefinite investments in foreign subsidiaries.

18. Stock-Based Compensation

The Company may grant stock options, stock appreciation rights, restricted shares and restricted stock units (RSUs) to its employees, including directors and officers of the Company and its affiliates. Beginning in 2003, the Company changed the method by which it provides stock-based compensation to its employees by significantly reducing the number of stock options granted and instead, issuing RSUs as a form of compensation. The Company is authorized to grant up to 318 million shares of its common stock under its active stock plans and at December 31, 2005, approximately 123 million shares were available for future grants under the terms of these plans.

Stock Options

Stock options generally have a ten-year term, and those granted prior to 2004 vest ratably over periods ranging from two to five years. In 2004, the Company adopted performance and time vesting criteria for stock option grants. The predetermined performance criteria determine the number of options that will ultimately vest and are based on the growth of the Company's earnings and cash flows over the vesting period of the respective award. The

number of options that will ultimately vest may range from 0% to 200% of the base award. Vesting occurs over a four-year period, but cannot exceed 25% of the base award in each of the three years following the grant date. The Company's policy is to grant options with exercise prices at then-current fair market value.

F-35

Table of Contents

The annual activity of the Company's common stock option plans consisted of:

	2005		2004		2003	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Balance at beginning of year	151	\$ 17.83	188	\$ 17.21	237	\$ 16.23
Granted at fair market value ^(a)	1	20.38	1	23.12	1	13.40
Granted in connection with acquisitions	-	-	2	15.60	1	15.02
Granted in connection with PHH spin-off ^(b)	6	(*)	-	-	-	-
Exercised	(24)	11.35	(38)	14.61	(40)	10.77
Forfeited	(5)	20.23	(2)	19.33	(11)	19.45
Balance at end of year	129	\$ 18.09	151	\$ 17.83	188	\$ 17.21

(*) Not meaningful.

(a) In 2005 and 2004, reflects the maximum number of options assuming achievement of all performance and time vesting criteria.

(b) As a result of the spin-off of PHH, the closing price of the Company's common stock was adjusted downward by \$1.10 on January 31, 2005. Additionally, the Company granted incremental options to achieve a balance of 1.04249 options outstanding subsequent to the spin-off for each option outstanding prior to the spin-off. The exercise price of each option was also adjusted downward by a proportionate value.

The Company records pre-tax compensation expense related to the issuance of stock options to its employees over the vesting period of the award and based on the estimated number of options the Company believes it will ultimately provide. During 2005, 2004 and 2003, the Company recorded \$2 million, \$2 million and \$1 million, respectively, of pre-tax compensation expense within general and administrative expenses related to the stock options issued subsequent to January 1, 2003. The Company also recorded pre-tax stock-based compensation expense of \$8 million and \$2 million during 2005 and 2004, respectively, within discontinued operations.

The table below summarizes information regarding the Company's outstanding and exercisable stock options as of December 31, 2005:

<u>Range of Exercise Prices</u>	Outstanding Options			Exercisable Options	
	Number of Options	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
\$0.01 to \$10.00	26	3.5	\$ 9.15	26	\$ 9.15
\$10.01 to \$20.00	64	3.8	17.10	63	17.15

Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-K/A

\$20.01 to \$30.00	25	3.1	22.95	24	23.08
\$30.01 to \$40.00	14	1.9	30.93	13	30.93
	129	3.4	\$ 18.09	126	\$ 18.10

As a result of the contemplated separation plan, approximately 128 million of the options outstanding at December 31, 2005 are expected to be accelerated and converted into options of the new companies based upon the pro rata market values of each new company. An additional one million options are expected to be cancelled in connection with the plan. The actual options to be accelerated, converted and cancelled will be contingent upon the options outstanding balance at the date of each respective spin-off.

The weighted-average grant-date fair value of the Company's common stock options granted in the normal course of business during 2005, 2004 and 2003 was \$5.89, \$6.90 and \$5.19, respectively. The weighted-average grant-date fair value of Cendant common stock options granted in connection with

F-36

Table of Contents

acquisitions made during 2004 and 2003 was \$9.49 and \$3.89, respectively. No options were granted in connection with acquisitions made in 2005. The fair values of these stock options are estimated on the dates of grant using the Black-Scholes option-pricing model with the following weighted average assumptions for Cendant common stock options granted in 2005, 2004 and 2003:

	2005	2004	2003
Dividend yield	1.7%	1.5%	-
Expected volatility	30.0%	30.0%	49.0%
Risk-free interest rate	3.8%	4.0%	2.4%
Expected holding period (years)	5.5	5.5	3.6

Restricted Stock Units

RSUs granted by the Company entitle the employee to receive one share of Cendant common stock upon vesting. RSUs granted in 2003 vest ratably over a four-year term. In 2004, the Company adopted performance and time vesting criteria for RSU grants. The predetermined performance criteria determine the number of RSUs that will ultimately vest and are based on the growth of the Company's earnings and cash flows over the vesting period of the respective award. The number of RSUs that will ultimately vest may range from 0% to 200% of the base award. Vesting occurs over a four-year period, but cannot exceed 25% of the base award in each of the three years following the grant date.

The annual activity related to the Company's RSU plan consisted of:

	2005		2004		2003	
	Number of RSUs	Weighted Average Grant Price	Number of RSUs	Weighted Average Grant Price	Number of RSUs	Weighted Average Grant Price
Balance at beginning of year	16	\$ 20.85	6	\$ 13.98	-	\$ -
Granted at fair market value ^(a)	14	20.19	13	23.16	6	13.98
Granted in connection with PHH spin-off ^(b)	1	(*)	-	-	-	-
Vested	(3)	19.48	(2)	13.97	-	-
Canceled	(5)	20.90	(1)	17.02	-	-
Balance at end of year	23	20.65	16	20.85	6	13.98

(*) Not meaningful.

(a) In 2004 and 2005, reflects the maximum number of RSUs assuming achievement of all performance and time vesting criteria.

(b) As a result of the spin-off of PHH, the closing price of Cendant common stock was adjusted downward by \$1.10 on January 31, 2005. In order to provide an equitable adjustment to holders of its RSUs, the Company granted incremental RSUs to achieve a balance of 1.0477 RSUs outstanding subsequent to the spin-off for each RSU outstanding prior to the spin-off.

During 2005, 2004 and 2003, the Company recorded pre-tax compensation expense in connection with these RSUs of (i) \$23 million, \$11 million and \$4 million, respectively, included within general and administrative expenses, and (ii) \$46 million, \$33 million and \$11 million, respectively, within discontinued operations. The expense recorded in 2005 includes \$5 million related to accelerated vesting of restricted stock units of individuals terminated in connection with the Company's 2005 restructuring initiatives. The related deferred compensation balance is recorded on the Company's Consolidated Balance Sheets within additional paid-in capital and approximated \$440 million and \$301 million as of December 31, 2005 and 2004, respectively. The Company will amortize the deferred compensation balance as of December 31, 2005 to expense over the remaining vesting periods of the respective RSUs and based on the estimated performance goals of the award the Company believes it will ultimately achieve. Currently, such amortization expense is predicated on the base award.

F-37

Table of Contents***Pro Forma Compensation Expense***

The effect on net income and earnings per share for 2004 and 2003 if the Company had applied the fair value based method to all employee stock awards granted (including those granted prior to January 1, 2003 for which the Company has not recorded compensation expense) is as follows:

	Year Ended December 31,	
	2004	2003
Reported net income	\$ 2,091	\$ 1,080
Add back: Stock-based employee compensation expense included in reported net income, net of tax	29	10
Less: Total stock-based employee compensation expense determined under fair value based method for all awards, net of tax	(31)	(50)
Pro forma net income	\$ 2,089	\$ 1,040
 <i>Earnings per share:</i>		
Reported		
Basic	\$ 2.03	\$ 1.06
Diluted	1.97	1.06
Pro forma		
Basic	\$ 2.03	\$ 1.02
Diluted	1.96	0.99

As of January 1, 2005, the Company recorded compensation expense for all outstanding employee stock awards; accordingly, pro forma information is not presented subsequent to December 31, 2004.

Employee Stock Purchase Plan

The Company is also authorized to sell up to 8.5 million shares of its common stock to eligible employees under its current non-compensatory employee stock purchase plan (ESPP), which expires in March 2006. Under the terms of the ESPP, employees may authorize the Company to withhold up to 10% of their compensation from each paycheck for the purchase of the Company's common stock. For amounts withheld during 2005, 2004 and 2003, the purchase price of the stock was calculated as 95% of the fair market value of the Company's common stock as of the first day of each month. During 2005, the Company issued approximately 0.5 million shares under the ESPP, bringing the cumulative issuances to approximately 4.6 million shares. As of December 31, 2005, approximately 3.9 million shares were available for issuance under the ESPP.

19. Employee Benefit Plans***Defined Contribution Savings Plans***

The Company sponsors several defined contribution savings plans that provide certain eligible employees of the Company an opportunity to accumulate funds for retirement. The Company matches the contributions of participating employees on the basis specified by the plans. The Company's cost for contributions to these plans was \$20 million, \$25 million and \$22 million during 2005, 2004 and 2003, respectively.

Defined Benefit Pension Plans

The Company sponsors domestic non-contributory defined benefit pension plans covering certain eligible employees and contributory defined benefit pension plans in certain foreign subsidiaries with participation in the plans at the employees' option. Under both the domestic and foreign plans, benefits are based on an employee's years of credited service and a percentage of final average compensation. The projected benefit obligations of the plans were approximately \$176 million and \$160 million at December 31, 2005 and 2004, respectively. The fair

value of the plan assets was \$144 million and

F-38

Table of Contents

\$139 million at December 31, 2005 and 2004, respectively. Accordingly, the plans were underfunded by \$32 million and \$21 million at December 31, 2005 and 2004, respectively. However, the pension liability recorded by the Company (as a component of accrued liabilities on the Company's Consolidated Balance Sheets) was \$29 million (net of pension assets of \$16 million) and \$25 million, respectively, of which \$41 million and \$10 million represents additional minimum pension liability included in accumulated other comprehensive income at December 31, 2005 and 2004, respectively. At December 31, 2005 and 2004, an additional minimum pension liability of \$90 million and \$102 million, respectively, related to discontinued operations was also recorded as a charge to other comprehensive income. The Company's policy is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company determines to be appropriate. The net pension expense incurred by the Company was \$4 million during 2005 and was insignificant during 2004 and 2003. The Company expects to contribute approximately \$5 million to these plans in 2006.

20. Financial Instruments**RISK MANAGEMENT**

Following is a description of the Company's risk management policies.

Foreign Currency Risk

The Company uses foreign currency forward contracts to manage its exposure to changes in foreign currency exchange rates associated with its foreign currency denominated receivables and forecasted royalties, forecasted earnings of foreign subsidiaries and forecasted foreign currency denominated acquisitions. The Company primarily hedges its foreign currency exposure to the British pound, Canadian dollar, Australian dollar and New Zealand dollar. The majority of forward contracts utilized by the Company do not qualify for hedge accounting treatment under SFAS No. 133. The fluctuations in the value of these forward contracts do, however, largely offset the impact of changes in the value of the underlying risk that they are intended to economically hedge. Forward contracts that are used to hedge certain forecasted third party receipts and disbursements up to 12 months are designated and do qualify as cash flow hedges. The amount of gains or losses reclassified from other comprehensive income to earnings resulting from ineffectiveness or from excluding a component of the forward contracts' gain or loss from the effectiveness calculation for cash flow hedges during 2005, 2004 and 2003 was not material, nor is the amount of gains or losses the Company expects to reclassify from other comprehensive income to earnings over the next 12 months.

Interest Rate Risk

The debt used to finance much of the Company's operations is also exposed to interest rate fluctuations. The Company uses various hedging strategies and derivative financial instruments to create an appropriate mix of fixed and floating rate assets and liabilities. Derivative instruments currently used in these hedging strategies include swaps and instruments with purchased option features. The derivatives used to manage the risk associated with the Company's fixed rate debt were designated as either fair value hedges or freestanding derivatives. The fair value hedges were perfectly effective resulting in no net impact on the Company's consolidated results of operations during 2005, 2004 and 2003, except to create the accrual of interest expense at variable rates. In 2005, the freestanding derivatives resulted in \$12 million of expenses to the Company's consolidated results of operations. During 2004 and 2003, these derivatives had a nominal impact on the Company's results of operations. During 2004 and 2003, the Company terminated certain of its fair value hedges, which resulted in cash gains (losses) of (\$9) million and \$200 million, respectively. Such gains (losses) are deferred and being recognized over the lives of the formerly hedged items as a component of interest expense. During 2005, 2004 and 2003, the Company recorded \$32 million, \$33 million and \$50 million, respectively, of such amortization.

The derivatives used to manage the risk associated with the Company's floating rate debt include freestanding derivatives and derivatives designated as cash flow hedges, which had maturities ranging from July 2006 to July 2012. In connection with its cash flow hedges, the Company recorded net gains

Table of Contents

of \$39 million, \$31 million and \$36 million during 2005, 2004 and 2003, respectively, to other comprehensive income. Such amounts include gains related to the Company's continuing operations of \$27 million, \$27 million and \$43 million for 2005, 2004 and 2003, respectively. The after-tax amount of gains or losses reclassified from accumulated other comprehensive income (loss) to earnings resulting from ineffectiveness or from excluding a component of the derivatives' gain or loss from the effectiveness calculation for cash flow hedges for 2005 and 2003 was not material to the Company's results of operations. In 2004, the Company terminated certain derivatives associated with its vehicle-backed debt and reclassified \$12 million of gains (\$8 million, net of tax) from accumulated other comprehensive income to income. The amount of losses the Company expects to reclassify from accumulated other comprehensive income to earnings during the next twelve months is not material. In 2005, the Company recorded a gain of \$1 million related to freestanding derivatives. During 2004 and 2003, such freestanding derivatives had a nominal impact on the Company's results of operations.

Credit Risk and Exposure

The Company is exposed to counterparty credit risks in the event of nonperformance by counterparties to various agreements and sales transactions. The Company manages such risk by evaluating the financial position and creditworthiness of such counterparties and by requiring collateral in certain instances in which financing is provided. The Company mitigates counterparty credit risk associated with its derivative contracts by monitoring the amount for which it is at risk with each counterparty to such contracts, periodically evaluating counterparty creditworthiness and financial position, and where possible, dispersing its risk among multiple counterparties.

There were no significant concentrations of credit risk with any individual counterparties or groups of counterparties at December 31, 2005 or 2004 other than risks related to the Company's repurchase agreements with automobile manufacturers (see Note 2 - Summary of Significant Accounting Policies). Such risks relate principally to the vehicles subject to repurchase agreements with General Motors Corporation and Ford Motor Company and with respect to program cars that were sold and returned to the car manufacturers but for which the Company has not yet received payment. Concentrations of credit risk associated with trade receivables are considered minimal due to the Company's diverse customer base. Bad debts have been minimal historically. The Company does not normally require collateral or other security to support credit sales.

FAIR VALUE

The fair value of financial instruments is generally determined by reference to market values resulting from trading on a national securities exchange or in an over-the-counter market. In cases where quoted market prices are not available, fair value is based on estimates using present value or other valuation techniques, as appropriate. The carrying amounts of cash and cash equivalents, available-for-sale securities, accounts receivable, program cash, and accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these assets and liabilities.

Table of Contents

The carrying amounts and estimated fair values of all other financial instruments at December 31, are as follows:

	2005		2004	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Assets				
Investments in Affinion	\$ 86	\$ 86	\$ -	\$ -
Investment in Homestore	-	-	22	22
Debt

Interest rate swaps and other derivatives	(21)	(21)	(17)	(17)
Derivatives (*)	(14)	(14)	(21)	(21)

(*) Derivative instruments in gain (loss) positions.

21. Segment Information

The reportable segments presented below represent the Company's operating segments for which separate financial information is available and is utilized on a regular basis by its chief operating decision maker to assess performance and to allocate resources. In identifying its reportable segments, the Company also considers the nature of services provided by its operating segments. Management evaluates the operating results of each of its reportable segments based upon revenue and EBITDA, which is defined as income from continuing operations before non-vehicle related depreciation and amortization, non-vehicle related interest and income taxes. The Company's presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

Year Ended December 31, 2005
