Table of Contents

Risk Factors of our annual report on Form 10-K for the year ended December 31, 2008, and include, among other factors:

deterioration in the financial condition of borrowers resulting in significant increases in loan losses and provisions for those losses;

continuation of the historically low short-term interest rate environment;

the inability of Pinnacle Financial to continue to grow its loan portfolio at historic rates in the Nashville-Davidson-Murfreesboro-Franklin MSA and the Knoxville MSA;

changes in loan underwriting, credit review or loss reserve policies associated with economic conditions, examination conclusions, or regulatory developments;

increased competition with other financial institutions;

greater than anticipated deterioration or lack of sustained growth in the national or local economies including the Nashville-Davidson-Murfreesboro-Franklin MSA and the Knoxville MSA, particularly in commercial and residential real estate markets;

rapid fluctuations or unanticipated changes in interest rates;

the development of any new market other than Nashville or Knoxville;

a merger or acquisition;

any activity in the capital markets that would cause Pinnacle Financial to conclude that there was impairment of any asset, including intangible assets;

the impact of governmental restrictions on entities participating in the Capital Purchase Program of the U.S. Department of the Treasury, or the Treasury; and

changes in state and federal legislation, regulations or policies applicable to banks and other financial service providers, including regulatory or legislative developments arising out of current unsettled conditions in the economy.

This summary highlights some information from this prospectus supplement and the accompanying prospectus, and it may not contain all of the information that is important to you. Together, these documents describe the specific terms of the shares we are offering. Pinnacle Financial Partners, Inc.

Pinnacle Financial Partners, Inc., is the second-largest bank holding company headquartered in Tennessee, with approximately \$5.0 billion in assets as of March 31, 2009 and 33 banking offices throughout the Nashville and Knoxville MSAs. Incorporated on February 28, 2000, we own 100% of the capital stock of Pinnacle National Bank, which is our primary business operation. As of March 31, 2009, we had total deposits of approximately \$3.8 billion and shareholders equity of approximately \$631.6 million.

We operate as an urban community bank serving the Nashville-Davidson-Murfreesboro-Franklin MSA, which we refer to as the Nashville MSA, and the Knoxville MSA. As an urban community bank, we provide the personalized service most often associated with small community banks, while offering the sophisticated products and services, such as investments and treasury management, often associated with larger financial institutions. Our banking approach has enabled us to move clients from regional and national financial institutions that historically had the largest market shares in the markets we serve. As a result, in less than ten years, we have grown to capture the fourth largest market share in the Nashville MSA.

Our principal business is to originate loans and fund such loans with customer deposits. Our bank also provides fee-income producing ancillary services, including investment, trust and insurance services. We contract with Raymond James Financial Services, Inc., or RJFS, an independent contractor brokerage affiliate of Raymond James Financial, Inc., to offer and sell various securities and other financial products to the public from our bank s locations. We also maintain a trust department which provides fiduciary and investment management services for individual and institutional clients. We have also established Pinnacle Advisory Services, Inc., a registered investment advisor, to provide investment advisory services to our clients. Additionally, Miller Loughry Beach Insurance Services, Inc., a wholly-owned subsidiary of our bank, provides insurance products, particularly in the property and casualty area, to our clients.

Business Strategies

Our business strategies are simple and consist of the following:

Focus our efforts on small- and medium-sized businesses, real estate professionals and affluent households within the Nashville and Knoxville MSAs. We use one-on-one marketing to establish comprehensive relationships with our clients. As a result, and unlike many of our competitors, we have elected to forego a mass market retail strategy which would include significant expenditures for print and television advertising. Instead, we offer extraordinary convenience to our clients by building a distribution system which includes online banking, telephone banking, remote deposit services and global access to ATMs which provide options

to our clients to access our financial services 24/7.

Hire and retain highly experienced and qualified banking and financial professionals with successful track records and, for client contact personnel, established books of business. On average, our senior client contact associates have in excess of 20 years experience in their local market. We have also achieved an annual associate retention rate in excess of 90 percent. We believe we will continue to be successful in attracting more market-best associates to our firm as well as retaining our highly experienced and successful group of associates. Our compensation has traditionally included cash

S-1

incentives and equity based awards to all associates to promote this employment objective, and our compensation expense has traditionally been higher than our peers as a result.

Provide distinctive service and effective advice through individualized attention to clients with consistent, local decision-making authority and capitalize on customer dissatisfaction that we believe has been caused by our competitors less than satisfactory response to the financial needs of today s sophisticated consumers and small-to medium-sized businesses. Since we began our company, we have surveyed our customers on numerous matters related to their relationship with us. Historically, customer responses indicate that better than 97 percent believe that we are recognizably better than our competitors in customer service.

Offer a full line of financial services from traditional depository and credit products to sophisticated investment, trust and insurance products and services. We offer brokerage products through dual employees licensed by RJFS. As of March 31, 2009, Pinnacle National s brokerage division, Pinnacle Asset Management, had accumulated approximately \$671 million in brokerage assets and, in 2008 and 2007, was the top producer among RJFS branches nationwide. Additionally, our trust department had accumulated approximately \$544 million in trust assets under management at March 31, 2009. We use our trust department, Pinnacle Asset Management, and our insurance agency subsidiary, Miller Loughry Beach Insurance Services, Inc., to provide a broad array of sophisticated and convenient investment and insurance products and services.

Recent Developments

We expect our second quarter 2009 performance will include several charges that will negatively impact earnings per share for the three and six months ended June 30, 2009. We expect improved performance levels later in the year. Included in our second quarter results are the following:

FDIC Special Insurance Assessment We expect to incur a \$2.5 million pre-tax charge relating to the special assessment imposed on all FDIC-insured institutions. The FDIC has indicated that future special assessments are possible, although the FDIC has not determined the magnitude or timing of any possible future special assessments.

Silverton Charge-off On May 1, 2009, we announced that we charged-off a \$21.55 million loan to Silverton Financial Services, Inc., after learning that its subsidiary, Silverton Bank, had been placed in receivership by the Office of the Comptroller of the Currency, or the OCC.

Increased Loan Charge-offs Due to continued stress in the residential construction and development market, we anticipate an increased level of charge-offs in our loan portfolio. We currently expect full year 2009 net charge-offs expressed as a percentage of average loans to approximate 0.80% to 1.00%, exclusive of the Silverton charge-off. We expect the majority of these charge-offs will occur in the second quarter.

Increased Allowance For Loan Losses We expect our allowance for loan losses expressed as a percentage of total loans at the end of the second quarter to be within a range of 1.40% to 1.60%. We expect allowance levels for the remainder of 2009 will fluctuate in response to economic conditions in our markets.

Other We are projecting a slight increase in our net interest margin, as a result of improved loan pricing (in part due to interest rate floors) and a decrease in funding costs, although increased non-performing loans will have a negative impact. Additionally, fee income in the second quarter will likely be flat with the first quarter of 2009; however we continue to experience increased mortgage revenues associated with refinancings. We anticipate modest increases in the second half of 2009 from our other fee business primarily attributable to increased personnel in those areas. We expect a modest increase in expenses, excluding the impact of the FDIC

special assessment described above, throughout the remainder of the year due to increased personnel and the addition of two new offices scheduled to open within a few months.
