**NATIONAL BEVERAGE CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
AUGUST 1, 2009
(UNAUDITED)**

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of multi-flavored soft drinks, juice drinks, water and specialty beverages throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and rules and regulations of the Securities and Exchange Commission for interim financial information. The financial statements do not include all information and notes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended May 2, 2009.

Derivative Financial Instruments

We use derivative financial instruments to partially mitigate our exposure to changes in raw material costs. All derivative financial instruments are recorded at fair value in our Condensed Consolidated Balance Sheets. The estimated fair value of derivative financial instruments is calculated based on market rates to settle the instrument. Such valuation does not entail significant amount of judgment and the inputs that are significant to the fair value measurement are Level 2 in the fair value hierarchy as defined in SFAS 157, *Fair Value Measurements*. We do not use derivative financial instruments for trading or speculative purposes. See Note 6.

2. INVENTORIES

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at August 1, 2009 are comprised of finished goods of \$20,272,000 and raw materials of \$16,393,000. Inventories at May 2, 2009 are comprised of finished goods of \$22,168,000 and raw materials of \$17,444,000.

Table of Contents**3. PROPERTY**

Property consists of the following:

	(In thousands)	
	August 1, 2009	May 2, 2009
Land	\$ 9,779	\$ 9,779
Buildings and improvements	44,320	44,224
Machinery and equipment	124,464	123,911
Total	178,563	177,914
Less accumulated depreciation	(123,610)	(121,773)
Property net	\$ 54,953	\$ 56,141

Depreciation expense was \$2,488,000 and \$2,451,000 for the three-month periods ended August 1, 2009 and August 2, 2008, respectively.

4. DEBT

At August 1, 2009, a subsidiary of the Company maintained unsecured revolving credit facilities with banks aggregating \$75 million (the Credit Facilities). The Credit Facilities expire through December 2013 and currently bear interest at rates ranging from .3% to .6% above LIBOR or, at our election, .5% below the banks reference rates. At August 1, 2009, \$2.9 million of the Credit Facilities was used for standby letters of credit and \$72.1 million was available for borrowings.

The Credit Facilities require the subsidiary to maintain certain financial ratios and contain other restrictions, none of which are expected to have a material impact on our operations or financial position. Significant financial ratios and restrictions include: fixed charge coverage; net worth ratio; and limitations on incurrence of debt. At August 1, 2009, we were in compliance with all loan covenants and approximately \$25 million of retained earnings were restricted from distribution.

5. STOCK-BASED COMPENSATION

During the three months ended August 1, 2009, there were no options cancelled or exercised, and options for 3,000 shares were granted at a weighted average exercise price of \$6.05. At August 1, 2009, options to purchase 598,283 shares at a weighted average exercise price of \$3.87 were outstanding and stock-based awards to purchase 3,241,042 shares of common stock were available for grant.

6. DERIVATIVE FINANCIAL INSTRUMENTS

In June 2009, we entered into an aluminum swap contract to partially mitigate our exposure to changes in the cost of aluminum cans through April 2010. The financial instrument was designated and accounted for as a cash flow hedge. Accordingly, gains or losses attributable to the effective portion of the cash flow hedge are reported in Other Comprehensive Income (OCI) and reclassified into earnings, through cost of sales, in the period in which the hedged transaction affects earnings. Any gains or losses related to hedge ineffectiveness are recognized in the current period cost of sales. As of August 1, 2009, the notional amount of our outstanding

Table of Contents

aluminum swap contract was \$5.6 million and the fair value of the derivative asset was \$637,000, which was included in Prepaid and Other Assets. For the three months ended August 1, 2009, the amount of gain (net of tax of \$213,000) recognized in OCI was \$385,000 and the amount of loss (net of tax of \$14,000) reclassified from OCI to cost of sales was \$25,000. See Notes 1 and 7.

7. COMPREHENSIVE INCOME

Comprehensive income is comprised of net income and changes in the fair value of our cash flow hedge (see Note 6 above) as follows:

	(In thousands)	
	Three Months Ended	
	August	
	1, 2009	August 2, 2008
Net income	\$ 9,793	\$ 7,751
Cash flow hedge, net of tax	410	
Comprehensive income	\$ 10,203	\$ 7,751

8. NEW ACCOUNTING STANDARDS

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 was effective at the beginning of our 2009 fiscal year for all financial assets and liabilities and for nonfinancial assets and liabilities measured at fair value on a recurring basis. For all other nonfinancial assets and liabilities, SFAS 157 was effective at the beginning of our 2010 fiscal year. The adoption of SFAS 157 did not have a material impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS 141 (revised 2007), *Business Combinations* (SFAS 141R), and SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements* (SFAS 160), to improve, simplify, and converge internationally the accounting for business combinations and the reporting of noncontrolling interests in consolidated financial statements. The provisions of SFAS 141R and SFAS 160 were effective as of the beginning of our 2010 fiscal year and their adoption did not have a material impact on our consolidated financial statements.

In May 2009, the FASB issued SFAS 165, *Subsequent Events* (SFAS 165), which establishes standards for accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued. We adopted SFAS 165 during the fiscal quarter ended August 1, 2009. We reviewed events for inclusion in the financial statements through September 10, 2009, the date that the financial statements were filed with the Securities and Exchange Commission.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of quality beverage products throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. In this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries.

We consider ourselves to be a leader in the development and sale of flavored beverage products in the United States, offering the widest selection of flavored soft drinks, juices, sparkling waters, energy drinks and nutritionally-enhanced waters. Our flavor development spans over 100 years originating with our flagship brands, Shasta® and Faygo®, each of which has over 50 flavor varieties. We also maintain a diverse line of flavored beverage products geared to the health-conscious consumer, including Everfresh®, Home Juice®, and Mr. Pure® 100% juice and juice-based products; LaCroix®, Crystal Bay® and ClearFruit® flavored, sparkling, and spring water products; and ÀSanté® nutritionally-enhanced waters. In addition, we distribute Rip It® energy drinks, Ohana® fruit-flavored drinks, St. Nick's® holiday soft drinks as well as powder and effervescent tablet beverage enhancers sold under the NutraFizz® brand name. Substantially all of our brands are produced in twelve manufacturing facilities that are strategically located in major metropolitan markets throughout the continental United States. To a lesser extent, we develop and produce soft drinks for certain retailers and beverage companies (allied brands).

Our strategy emphasizes the growth of our products by offering a branded beverage portfolio of proprietary flavors; by supporting the franchise value of regional brands and expanding those brands with distinctive packaging and broader demographic emphasis; by developing and acquiring innovative products tailored toward healthy lifestyles; and by appealing to the quality-price expectations of the family consumer. We believe that the regional share dynamics of our brands perpetuate consumer loyalty within local regional markets, resulting in more retailer sponsored promotional activities.

Over the last several years, we have focused on increasing penetration of our brands in the convenience channel through Company-owned and independent distributors. The convenience channel consists of convenience stores, gas stations, and other smaller up-and-down-the-street accounts. Because of the higher retail prices and margins that typically prevail, we have undertaken several measures to expand convenience channel distribution in recent years. These include development of products specifically targeted to this market, such as ClearFruit, Crystal Bay, Rip It and ÀSanté. Additionally, we have created proprietary and specialized packaging with distinctive graphics for these products. We intend to continue our focus on enhancing growth in the convenience channel through both specialized packaging and innovative product development.

Beverage industry sales are seasonal with the highest volume typically realized during the summer months.

Additionally, our operating results are subject to numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products and competitive pricing in the marketplace.

Table of Contents

RESULTS OF OPERATIONS

**Three Months Ended August 1, 2009 (first quarter of fiscal 2010) compared to
Three Months Ended August 2, 2008 (first quarter of fiscal 2009)**

Net sales for the first quarter of fiscal 2010 increased 6.5% to \$162.8 million compared to \$152.9 million for the first quarter of fiscal 2009. The net sales increase reflects case volume growth of 3.4% for the Company's energy drinks, juices and waters and 16.1% for branded carbonated soft drinks. This improvement was partially offset by lower allied-branded volume and a 1.5% decline in unit pricing due primarily to product mix changes and higher promotional activity.

Gross profit approximated 31.0% of net sales for the first quarter of fiscal 2010 compared to 30.1% of net sales for the first quarter of fiscal 2009. The gross profit improvement was due primarily to higher sales volume and lower raw material costs. Cost of goods sold per unit decreased approximately 2.8%.

Selling, general and administrative expenses were \$35.3 million or 21.7% of net sales for the first quarter of fiscal 2010 compared to \$34.1 million or 22.3% of net sales for the first quarter of fiscal 2009. The increase in expenses is due to higher marketing expenses partially offset by lower distribution costs.

Other income includes interest income of \$99,000 (fiscal 2010) and \$202,000 (fiscal 2009). Also, included in other income for the first quarter of fiscal 2010 is a net loss of \$97,000 from the disposal of assets.

The Company's effective rate for income taxes, based upon estimated annual income tax rates, approximated 35.6% of income before taxes for the first quarter of fiscal 2010 and 35.9% for the comparable period in fiscal 2009. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, nondeductible expenses and nontaxable interest income.

Net income was \$9.8 million for the first quarter of fiscal 2010 compared to \$7.8 million for the first quarter of fiscal 2009.

LIQUIDITY AND FINANCIAL CONDITION

Liquidity and Capital Resources

Our principal source of funds is cash generated from operations, which may be supplemented by borrowings under existing credit facilities. We maintain unsecured revolving credit facilities aggregating \$75 million, of which \$2.9 million was used for standby letters of credit at August 1, 2009. There was no debt outstanding under the credit facilities. We believe that our capital resources, including cash and equivalents aggregating \$95.4 million as of August 1, 2009, are sufficient to fund our capital requirements for the foreseeable future.

Cash Flows

During the first quarter of fiscal 2010, \$12.6 million was provided by operating activities while \$1.4 million was used in investing activities. Cash provided by operating activities increased \$6.2 million due primarily to an improvement in earnings and working capital requirements.

Table of Contents

Cash used in investing activities increased \$2.2 million due primarily to changes in net marketable securities.

Financial Position

During the first quarter of fiscal 2010, working capital increased \$11.6 million to \$129.5 million due primarily to cash provided by operating activities. Trade receivables increased due to higher volume related to seasonality while inventories declined due to improved inventory rationalization. Prepaid and other assets decreased due to a decline in income tax refund receivables. The current ratio was 3.0 to 1 at August 1, 2009 and 2.7 to 1 at May 2, 2009.

NEW ACCOUNTING STANDARDS

See Note 8 of Notes to Condensed Consolidated Financial Statements for information about recently issued accounting standards.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended May 2, 2009.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective to ensure information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and (2) accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q (this Form 10-Q) constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the following: general economic and business conditions; pricing of competitive products; success in acquiring other beverage businesses; success of new product and flavor introductions;

Table of Contents

fluctuations in the costs of raw materials; our ability to increase prices; continued retailer support for our products; changes in consumer preferences; success of implementing business strategies; changes in business strategy or development plans; government regulations; regional weather conditions; and other factors referenced in this Form 10-Q. For a further list and description of various risks, relevant factors and uncertainties that could cause future results or events to differ materially from those expressed or implied in our forward-looking statements, see the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections contained in our Annual Report on Form 10-K for the fiscal year ended May 2, 2009 and other filings with the Securities and Exchange Commission. We disclaim an obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking statements contained herein to reflect future events or developments.
