Table of Contents

JOHN B. SANFILIPPO & SON, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(Dollars in thousands, except where noted and per share data)

Note 1 Basis of Presentation

As used herein, unless the context otherwise indicates, the terms Company, we, us, our or our Company collectively refer to John B. Sanfilippo & Son, Inc. and JBSS Properties, LLC, a wholly-owned subsidiary of John B. Sanfilippo & Son, Inc. We were incorporated under the laws of the State of Delaware in 1979 as the successor by merger to an Illinois corporation that was incorporated in 1959. Our fiscal year ends on the final Thursday of June each year, and typically consists of fifty-two weeks (four thirteen week quarters). References herein to fiscal 2010 are to the fiscal year ending June 24, 2010. References herein to fiscal 2009 are to the fiscal year ended June 25, 2009. References herein to the first quarter of fiscal 2010 are to the quarter ended September 24, 2009. References herein to the first quarter of fiscal 2009 are to the quarter ended September 25, 2008.

In the opinion of our management, the accompanying statements fairly present the consolidated statements of operations, consolidated balance sheets and consolidated statements of cash flows, and reflect all adjustments, consisting only of normal recurring adjustments which, in the opinion of our management, are necessary for the fair presentation of the results of the interim periods.

The interim results of operations are not necessarily indicative of the results to be expected for a full year. The balance sheet as of June 25, 2009 was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles in the United States of America. We suggest that you read these financial statements in conjunction with the financial statements and notes thereto included in our 2009 Annual Report filed on Form 10-K for the year ended June 25, 2009.

Subsequent events have been evaluated through October 28, 2009, the date of issuance of the Company's Consolidated Financial Statements.

Note 2 Accounts Receivable

Included in accounts receivable as of September 24, 2009, June 25, 2009 and September 25, 2008 are \$1,109, \$1,121 and \$880, respectively, relating to workers' compensation excess claim recoveries.

Note 3 Inventories

Inventories are stated at the lower of cost (first in, first out) or market. Inventories consist of the following:

	September 24, 2009	June 25, 2009	September 25, 2008
Raw material and supplies	\$ 39,034	\$ 50,525	\$ 40,968
Work-in-process and finished goods	60,430	55,764	82,014
Inventories	\$ 99,464	\$ 106,289	\$ 122,982

Note 4 Income Taxes

We eliminated the valuation allowance related to the potential realization of net operating loss carryforwards during fiscal 2009. At the beginning of fiscal year 2010, we had approximately \$1.4 million of state (net of the federal effect) and \$1.3 million of federal net operating loss (NOL) carryforwards for income tax purposes. The state NOL carryforwards relate to losses generated during the years ended June 26, 2008, June 28, 2007 and June 29, 2006, which generally have a carryforward period of approximately twelve years before expiration. The federal NOL carryforwards relate to losses generated during the year ended June 26, 2008, which generally have a carryforward period of twenty years before expiration. We believe that the state NOL carryforwards will be fully utilized before expiration and the federal NOL carryforwards will be fully utilized during fiscal 2010.

As of September 24, 2009, unrecognized tax benefits and accrued interest and penalties were not material. We recognize interest and penalties accrued related to unrecognized tax benefits in the income tax (benefit) expense

caption in the statement of operations. We file income tax returns with federal and state tax authorities within the United States of America. The Internal Revenue Service has concluded auditing our Company's tax return for fiscal 2004, and there was no material impact to our Company. The Illinois Department of Revenue is currently auditing our tax returns for fiscal 2006 and fiscal 2007. No other tax jurisdictions are material to us.

Table of Contents

As of September 24, 2009, there have been no material changes to the amount of unrecognized tax benefits. We do not anticipate that total unrecognized tax benefits will significantly change in the future.

Note 5 Earnings Per Common Share

Earnings per common share is calculated using the weighted average number of shares of Common Stock and Class A Common Stock outstanding during the period. The following table presents the reconciliation of the weighted average number of shares outstanding used in computing earnings per share:

	For the Quarter Ended	
	September 24, 2009	September 25, 2008
Weighted average number of shares outstanding basic	10,621,842	10,614,125
Effect of dilutive securities:		
Stock options and restricted stock units	42,883	
Weighted average number of shares outstanding diluted	10,664,725	10,614,125

288,125 anti-dilutive stock options with a weighted average exercise price of \$13.78 were excluded from the computation of diluted earnings per share for the quarter ended September 24, 2009. 470,440 stock options with a weighted average exercise price of \$11.49 were excluded from the computation of diluted earnings per share for the quarter ended September 25, 2008 due to the net loss for the period.

Note 6 Stock-Based Compensation

At our annual meeting of stockholders on October 30, 2008, our stockholders approved a new equity incentive plan (the 2008 Equity Incentive Plan) under which awards of options and stock-based awards may be made to members of the Board of Directors, employees and other individuals providing services to our Company. A total of 1,000,000 shares of Common Stock are authorized for grants of awards, which may be in the form of options, restricted stock, restricted stock units, stock appreciation rights, Common Stock or dividends and dividend equivalents. A maximum of 500,000 of the 1,000,000 shares of Common Stock may be used for grants of Common Stock, restricted stock and restricted stock units. Additionally, awards of options or stock appreciation rights are limited to 100,000 shares annually to any single individual, and awards of Common Stock, restricted stock or restricted stock units are limited to 50,000 shares annually to any single individual. During the second quarter of fiscal 2009, 46,500 restricted stock units were awarded to employees and members of the Board of Directors. The vesting period is three years for awards to employees and one year for awards to non-employee members of the Board of Directors. We are recognizing expenses over the applicable vesting period based upon the market value of our Common Stock at the grant date. As of September 24, 2009, all restricted unit awards remain outstanding with a weighted average remaining life of 1.7 years. Also, 1,500 stock options were granted during fiscal 2009 under the 2008 Equity Incentive Plan. The exercise price of the options was determined as set forth in the 2008 Equity Incentive Plan by the Compensation Committee of our Board of Directors, and must be at least the fair market value of the Common Stock on the date of grant. Except as set forth in the 2008 Equity Incentive Plan, options expire upon termination of employment or directorship. The options granted under the 2008 Equity Incentive Plan are exercisable 25% annually commencing on the first anniversary date of grant and become fully exercisable on the fourth anniversary date of grant. Options generally will expire no later than ten years after the date on which they are granted. We issue new shares of Common Stock upon exercise of stock options. As of September 24, 2009, 952,000 shares of Common Stock remain authorized for future grants of awards. The 2008 Equity Incentive Plan replaced a stock option plan approved at our annual meeting of stockholders on October 28, 1998 (the 1998 Equity Incentive Plan) pursuant to which awards of options and stock-based awards could be made. There were 700,000 shares of Common Stock authorized for issuance to certain key employees and outside directors (i.e., directors who are not employees of our Company). The exercise price of the options was determined as set forth in the 1998 Equity Incentive Plan by the Board of Directors. The exercise price for the stock options was at least the fair market value of the Common Stock on the date of grant. Except as set forth in the 1998 Equity Incentive Plan, options expire upon termination of employment or directorship. The options granted under the 1998 Equity

Incentive Plan are exercisable 25% annually commencing on the first anniversary date of grant and become fully exercisable on the fourth anniversary date of grant. Options generally will expire no later than ten years after the date on which they are granted. We issue new shares of Common Stock upon exercise of stock options issued pursuant to the 1998 Equity Incentive Plan. Through fiscal 2007, all of the options granted, except those granted to outside directors, were intended to qualify as incentive stock options within the meaning of Section 422 of the Internal Revenue Code. Effective fiscal 2008, all option grants are non-qualified awards. The 1998 Equity Incentive Plan terminated on September 1, 2008. However, all outstanding options issued pursuant to the 1998 Equity Incentive Plan will continue to be governed by the terms of the 1998 Equity Incentive Plan.

Table of Contents

The following is a summary of stock option activity for the first quarter of fiscal 2010:

Options	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, at June 25, 2009	381,940	\$ 11.97		
Activity:				
Granted				
Exercised	(14,750)	6.08		
Forfeited	(2,000)	9.92		
Outstanding, at September 24, 2009	365,190	\$ 12.22	4.80	\$ 727
Exercisable, at September 24, 2009	287,940	\$ 13.19	4.02	\$ 499

No stock options were granted during the first quarter of fiscal 2010 or the first quarter of fiscal 2009. The total intrinsic value of options exercised during the first quarter of fiscal 2010 was \$27. There were no options exercised during the first quarter of fiscal 2009.

Compensation expense attributable to stock-based compensation during the first quarters of fiscal 2010 and fiscal 2009 was \$87 and \$55, respectively. As of September 24, 2009, there was \$421 of total unrecognized compensation cost related to non-vested, share-based compensation arrangements granted under our stock-based compensation plans. We expect to recognize that cost over a weighted average period of 0.99 years.

Note 7 Retirement Plan

On August 2, 2007, our Compensation, Nominating and Corporate Governance Committee approved a restated Supplemental Retirement Plan (the "SERP") for certain of our named executive officers and key employees, effective as of August 25, 2005. The purpose of the SERP is to provide an unfunded, non-qualified deferred compensation benefit upon retirement, disability or death to certain executive officers and key employees. The monthly benefit is based upon each individual's earnings and his or her number of years of service. Administrative expenses include the following net periodic benefit costs:

	For the Quarter Ended September 24, 2009	September 25, 2008
Service cost	\$ 36	\$ 35
Interest cost	146	140
Amortization of prior service cost	239	239
Amortization of gain	(83)	(81)
Net periodic benefit cost	\$ 338	\$ 333

Table of Contents**Note 8 Distribution Channel and Product Type Sales Mix**

We operate in a single reportable segment through which we sell various nut products through multiple distribution channels.

The following summarizes net sales by distribution channel:

Distribution Channel	Quarter Ended	
	September 24, 2009	September 25, 2008
Consumer	\$ 74,295	\$ 75,110
Industrial	17,383	20,998
Food Service	14,668	18,012
Contract Packaging	13,718	13,036
Export	6,748	7,668
Total	\$ 126,812	\$ 134,824

The following summarizes sales by product type as a percentage of total gross sales. The information is based upon gross sales, rather than net sales, because certain adjustments, such as promotional discounts, are not allocable to product type.

Product Type	Quarter Ended	
	September 24, 2009	September 25, 2008
Peanuts	22.0%	21.8%
Pecans	17.3	21.1
Cashews & Mixed Nuts	22.1	21.2
Walnuts	11.3	12.5
Almonds	10.8	11.8
Other	16.5	11.6
Total	100.0%	100.0%

Note 9 Comprehensive Income (Loss)

We account for comprehensive income (loss) in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 220, Comprehensive Income . This topic establishes standards for reporting and displaying comprehensive income (loss) and its components in a full set of general-purpose financial statements. The topic requires that all components of comprehensive income (loss) be reported in a financial statement that is displayed with the same prominence as other financial statements.

Note 10 Commitments and Contingencies

We are party to various lawsuits, proceedings and other matters arising out of the conduct of our business. Currently, it is our management's opinion that the ultimate resolution of these matters will not have a material adverse effect upon our business, financial condition or results of operations.

Note 11 Product Recall

During the time period of March 31, 2009 through April 8, 2009, we voluntarily recalled roasted inshell pistachios, raw shelled pistachios and mixed nuts containing raw shelled pistachios. The recall was made as a precautionary measure because such products may be contaminated with salmonella. Our recall was a follow-up to the industry-wide voluntary recall of pistachios announced by Setton Pistachio of Terra Bella, Inc. (Setton), one of our pistachio

suppliers. We do not currently anticipate any further recalls related to purchases of pistachios from Setton. Our total costs associated with the recall, which were all recorded in fiscal 2009, are estimated to be approximately \$2.5 million. This total may be broken down as follows: (i) \$1.7 million reduction in sales for shipments to customers; (ii) \$0.3 million increase in cost of sales for recalled inventory in our possession; and (iii) \$0.5 million increase in administrative expenses for our customers' lost profits and other miscellaneous expenses. As of September 24, 2009 and June 25, 2009, our accrued liability for product recall was \$394 and \$435, respectively. We currently intend to aggressively pursue the recovery of our recall costs from Setton, Setton's insurance and our own insurance; however, we can provide no assurance as to the likelihood, extent (if any) or timing of any such recovery.

Table of Contents**Note 12 Fair Value of Financial Instruments**

The fair value of our fixed rate debt as of September 24, 2009 and June 25, 2009, including current maturities, was estimated to be approximately \$28,000 and \$29,000, respectively, compared to a carrying value of \$32,800 and \$33,400, respectively. The fair value of the fixed rate debt was determined using a market approach, which estimates fair value based on companies with similar credit quality and size of debt issuances for similar terms. The carrying amounts of our other financial instruments approximate their estimated fair values.

Note 13 Recent Accounting Pronouncements

In June 2009, the FASB issued FASB Statement No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – A Replacement of FASB Statement No. 162*. Under Statement No. 168, the FASB Accounting Standards Codification (*Codification*) became the single source of authoritative generally accepted accounting principles (*GAAP*) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (*SEC*) under authority of federal security laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-SEC accounting literature not included in the Codification became nonauthoritative. The GAAP hierarchy was modified to include only two levels of GAAP – authoritative and nonauthoritative. This Statement was effective for financial statements issued for interim and annual periods ending after September 15, 2009. We began using the new Codification when referring to GAAP in this quarterly report on Form 10-Q for the quarter ended September 24, 2009. The effect of adopting Statement No. 168 did not have a material impact on our consolidated financial statements. In June 2009, the FASB issued Accounting Standards Update No. 2009-01, *Topic 105 – Generally Accepted Accounting Principles amendments based upon Statement of Financial Accounting Standards No. 168 – The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. Accounting Standards Update No. 2009-01 amended the FASB Accounting Standards Codification for the issuance of Statement No. 168. Accounting Standards Update No. 2009-01 includes Statement No. 168 in its entirety, including the accounting standards update instructions.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (*SFAS 157*). SFAS 157 establishes a common definition for fair value to be applied to GAAP requiring use of fair value, establishes a framework for measuring fair value and expands disclosure about such fair value measurements. SFAS 157 is effective for financial assets and financial liabilities for fiscal years beginning after November 15, 2007. Issued in February 2008, FSP 157-1 *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* removed leasing transactions accounted for under Statement 13 and related guidance from the scope of SFAS 157. FSP 157-2 *Partial Deferral of the Effective Date of Statement 157* (*FSP 157-2*), deferred the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities to fiscal years beginning after November 15, 2008. In October 2008, the FASB issued FSP 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active* (*FSP 157-3*). FSP 157-3, which is effective immediately, clarifies the application of SFAS 157 in a market that is not active. The implementation of SFAS 157 for financial assets and financial liabilities, effective for our first quarter of fiscal 2009, did not have a material impact on our consolidated financial position and results of operations. After the Codification, all fair value measurement accounting is included as Topic 820. The implementation of Topic 820 for nonfinancial assets and nonfinancial liabilities, effective for our first quarter of fiscal 2010, did not have a material impact on our consolidated financial position and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* , which replaces SFAS No. 141. The statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (previously referred to as the purchase method of accounting) be used for all business combinations, but requires a number of changes, including changes in the way assets and liabilities are recognized as a result of business combinations. It also requires the capitalization of in-process research and development at fair value and requires the expensing of acquisition-related costs as incurred. In April 2009, the FASB issued FSP FAS 141(R)-1 which amends SFAS No. 141(R) by establishing a model to account for certain pre-acquisition contingencies. Under FSP FAS 141(R)-1, an acquirer is required to recognize at fair value an asset acquired or a liability assumed in a business

combination that arises from a contingency if the acquisition-date fair value of that asset or liability can be determined during the measurement period. If the acquisition-date fair value cannot be determined during the measurement period, then the acquirer should follow the recognition criteria in SFAS No. 5, Accounting for Contingencies, and FASB Interpretation No. 14, Reasonable Estimation of the Amount of a Loss—an interpretation of FASB Statement No. 5. SFAS No. 141(R) and FSP FAS 141(R)-1 were effective for us beginning June 26, 2009, and will apply prospectively to business combinations completed on or after that date. After the Codification, all business combination accounting is included as Topic 805. The impact of the adoption of Topic 805 will depend upon the nature of acquisitions completed after the date of adoption.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

As used herein, unless the context otherwise indicates, the terms Company, we, us, our or our Company collectively refer to John B. Sanfilippo & Son, Inc. and JBSS Properties, LLC, a wholly-owned subsidiary of John B. Sanfilippo & Son, Inc. Our Company's Credit Facility and Mortgage Facility, as defined below, are sometimes collectively referred to as our new financing arrangements. The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and the Notes to Consolidated Financial Statements. Our fiscal year ends on the final Thursday of June each year, and typically consists of fifty-two weeks (four thirteen week quarters). References herein to fiscal 2010 are to the fiscal year ending June 24, 2010. References herein to fiscal 2009 are to the fiscal year ended June 25, 2009. References herein to the first quarter of fiscal 2010 are to the quarter ended September 24, 2009. References herein to the first quarter of fiscal 2009 are to the quarter ended September 25, 2008.

We are one of the leading processors and marketers of peanuts, pecans, cashews, walnuts, almonds and other nuts in the United States. These nuts are sold under a variety of private labels and under the *Fisher*, *Flavor Tree*, *Sunshine Country* and *Texas Pride* brand names. We also market and distribute, and in most cases manufacture or process, a diverse product line of food and snack products, including peanut butter, candy and confections, natural snacks and trail mixes, sunflower seeds, corn snacks, sesame sticks and other sesame snack products. We distribute our products in the consumer, industrial, food service, contract packaging and export distribution channels.

We face a number of challenges in the future. In addition to operating in a difficult economic environment, specific challenges, among others, include increasing our profitability, intensified competition, fluctuating commodity costs and our ability to achieve the anticipated benefits of our facility consolidation project. We will focus on seeking additional profitable business to utilize the additional production capacity at the New Site (as defined below). We are devoting more funds to promote and advertise our Fisher brand to attempt to regain market share that has been lost in recent years. However, this effort may be challenging because, among other things, consumer preferences have shifted towards lower-priced private label products from higher-priced branded products as a result of current economic conditions. In addition, private label products generally provide lower margins than branded products. Also, we will continue to face the ongoing challenges specific to our business such as food safety and regulatory issues and the maintenance and growth of our customer base, and we will face the challenges presented by the current state of the domestic and global economy. See the information referenced in Part II, Item 1A Risk Factors.

QUARTERLY HIGHLIGHTS

Our net sales for the first quarter of fiscal 2010 decreased by \$8.0 million, or 5.9%, to \$126.8 million from \$134.8 million for the first quarter of fiscal 2009. The decrease in net sales came mainly from price reductions on the sales of walnuts and almonds and a decline in sales volume for pecans due to a smaller 2008 pecan crop. Total pounds shipped to customers in the current first quarter increased by 0.9% in comparison to total pounds shipped to customers in the first quarter of fiscal 2009. Increases in pounds shipped to customers in the consumer, contract packaging and export distribution channels were offset in large part by volume declines in the industrial and food service distribution channels, which occurred primarily as a result of decreased pecan sales and the impact of the current economic environment in these two distribution channels.

Our gross profit margin, as a percentage of net sales, increased from 10.5% for the first quarter of fiscal 2009 to 18.8% for the first quarter of fiscal 2010, and gross profit increased by \$9.7 million. Gross profit margins improved on the sales of most major product types mainly due to lower acquisition costs for the primary commodities that we purchase. This was especially the case for products containing peanuts and cashews. The acquisition costs for peanuts and cashews were higher in the first quarter of fiscal 2009 because of temporary supply interruptions that did not recur in the first quarter of fiscal 2010. Similarly, the gross profit margin for the first quarter of fiscal 2009 was impacted negatively by a \$3.0 million charge to reduce pecan inventory carrying value to market while no such material write downs were recorded in the first quarter of fiscal 2010. Improvements in manufacturing efficiencies throughout our Company also contributed significantly to the increase in gross profit margin. Our income before income taxes for the first quarter of fiscal 2010 was \$7.8 million compared to a net loss of \$0.4 million for the first quarter of fiscal 2009. The improvements in gross margin described above are primarily responsible for the significant increase in income before income taxes.

RESULTS OF OPERATIONS

Net Sales

Our net sales decreased by 5.9% to \$126.8 million for the first quarter of fiscal 2010 from \$134.8 million for the first quarter of fiscal 2009. The quarterly decrease was primarily due to lower average selling prices which were influenced by lower acquisition costs for our major commodities, especially peanuts and cashews. Our overall sales volume increased by 0.9%. Increases in pounds shipped to customers in the consumer, contract packaging and export distribution channels were offset in large part by volume declines in the industrial and food service distribution channels, which occurred primarily as a result of decreased pecan sales and the impact of the current economic environment in these two distribution channels.

Table of Contents

The following table shows a comparison of sales by distribution channel (dollars in thousands):

Distribution Channel	Quarter Ended	
	September 24, 2009	September 25, 2008
Consumer	\$ 74,295	\$ 75,110
Industrial	17,383	20,998
Food Service	14,668	18,012
Contract Packaging	13,718	13,036
Export	6,748	7,668
Total	\$ 126,812	\$ 134,824

The following summarizes sales by product type as a percentage of total gross sales. The information is based upon gross sales, rather than net sales, because certain adjustments, such as promotional discounts, are not allocable to product type.

Product Type	Quarter Ended	
	September 24, 2009	September 25, 2008
Peanuts	22.0%	21.8%
Pecans	17.3	21.1
Cashews & Mixed Nuts	22.1	21.2
Walnuts	11.3	12.5
Almonds	10.8	11.8
Other	16.5	11.6
Total	100.0%	100.0%

Net sales in the consumer distribution channel decreased by 1.1% in dollars but increased by 2.6% in volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. Private label consumer sales volume increased by 12.9% in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009 primarily due to (i) a significant new customer that was added during the last half of fiscal 2009 and (ii) a general increase in sales of private label products due to current economic conditions. Fisher brand sales volume decreased 15.3% for the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009 primarily due to a decrease in (i) baking nut sales to a major customer and (ii) peanut sales to a separate major customer.

Net sales in the industrial distribution channel decreased by 17.2% in dollars and 4.0% in sales volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. The sales volume decrease is primarily due to lower pecan sales mainly from a limited supply of pecans available for the industrial distribution channel.

Net sales in the food service distribution channel decreased by 18.6% in dollars and 9.4% in volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. This decrease is primarily due to the effects of current economic conditions as consumers are spending less money at restaurants.

Net sales in the contract packaging distribution channel increased by 5.2% in dollars and 9.2% in volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. The sales volume increase is due to increased business with our major contract packaging customer and a separate contract packaging customer.

Net sales in the export distribution channel decreased by 12.0% in dollars but increased 2.8% in volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. The increase in volume is due to higher almond

sales.

Gross Profit

Gross profit for the first quarter of fiscal 2010 increased 68.3% to \$23.9 million from \$14.2 million for the first quarter of fiscal 2009. Gross margin increased to 18.8% of net sales for the first quarter of fiscal 2010 from 10.5% for the first quarter of fiscal 2009. Gross profit margins improved on the sales of most major product types mainly due to lower acquisition costs for the primary commodities that we purchase. This was especially the case for products containing peanuts and cashews. The acquisition costs for peanuts and cashews were higher in the first quarter of fiscal 2009

Table of Contents

because of temporary supply interruptions that did not recur in the first quarter of fiscal 2010. Similarly, the gross profit margin for the first quarter of fiscal 2009 was impacted negatively by a \$3.0 million charge to reduce pecan inventory carrying value to market while no such material write downs were recorded in the first quarter of fiscal 2010. Improvements in manufacturing efficiencies throughout our Company also contributed significantly to the increase in gross profit margin.

Operating Expenses

Selling and administrative expenses for the first quarter of fiscal 2010 increased to 11.2% of net sales from 9.3% of net sales for the first quarter of fiscal 2009. Selling expenses for the first quarter of fiscal 2010 were \$8.7 million, an increase of \$0.7 million, or 9.3%, from the first quarter of fiscal 2009. This increase is primarily due to a (i) \$0.3 million increase in incentive compensation expense as a result of improved operating results and (ii) \$0.2 million increase in salaries. Administrative expenses for the first quarter of fiscal 2010 were \$5.4 million, an increase of \$0.8 million, or 17.9%, from the first quarter of fiscal 2009. This increase is primarily due to a \$0.5 million increase in incentive compensation expense from improved operating results. Operating expenses were reduced by \$0.3 million during the first quarter of fiscal 2009 for the difference between our previously estimated cost of withdrawal from the multiemployer pension plan and the actual cost determined by the multiemployer pension plan.

Income from Operations

Due to the factors discussed above, income from operations increased to \$9.7 million, or 7.7% of net sales, for the first quarter of fiscal 2010 from income of \$1.9 million, or 1.4% of net sales, for the first quarter of fiscal 2009.

Interest Expense

Interest expense for the first quarter of fiscal 2010 decreased to \$1.4 million from \$2.1 million for the first quarter of fiscal 2009. The decrease is primarily due to lower average debt levels.

Rental and Miscellaneous Expense, Net

Net rental and miscellaneous expense was \$0.4 million for the first quarter of fiscal 2010 compared to \$0.2 million for the first quarter of fiscal 2009. The increase in net expense is due to lower rental income as a result of certain infrequent expenses such as parking lot maintenance expenses that were incurred during the first quarter of fiscal 2010.

Income Tax Expense (Benefit)

Income tax expense was \$3.1 million, or 39.3% of income before income taxes, for the first quarter of fiscal 2010 compared to a benefit of \$0.0 million, or 7.9% of loss before income taxes, for the first quarter of fiscal 2009. We eliminated the valuation allowance related to the potential realization of net operating loss carryforwards during the fourth quarter of fiscal 2009. Income tax expense should be at a normal rate for the foreseeable future.

Net Income (Loss)

Net income was \$4.8 million, or \$0.45 per common share (basic and diluted), for the first quarter of fiscal 2010, compared to a net loss of (\$0.4) million, or (\$0.04) per common share (basic and diluted), for the first quarter of fiscal 2009.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES*****General***

The primary uses of cash are to fund our current operations, fulfill contractual obligations and repay indebtedness. Also, various uncertainties could result in additional uses of cash. The primary sources of cash are results of operations and availability under our Credit Facility (as defined below). We have intensified our management of working capital as a result of the current economic situation. We anticipate that expected net cash flow generated from operations and amounts available pursuant to the Credit Facility will be sufficient to fund our operations for the next twelve months. However, in the current economic environment no assurance can be given. See Part II, Item 1A Risk Factors .

Cash flows from operating activities have historically been driven by net income but are also significantly influenced by inventory requirements, which can change based upon fluctuations in both quantities and market prices of the various nuts we buy and sell. Current market trends in nut prices and crop estimates also impact nut procurement. Net cash provided by operating activities was \$24.0 million for the first quarter of fiscal 2010 compared to \$5.3 million for the first quarter of fiscal 2009. This increase is primarily due to improved operating results and lower nut acquisition costs affecting our investment in inventories.

We repaid \$0.9 million of long-term debt during the first quarter of fiscal 2010, \$0.8 million of which was related to the Mortgage Facility. The net reduction in our Credit Facility was \$18.2 million.

Total inventories were \$99.5 million at September 24, 2009, a decrease of \$6.8 million, or 6.4%, from the balance at June 25, 2009, and a decrease of \$23.5 million, or 19.1%, from the balance at September 25, 2008. The decrease from June 25, 2009 to September 24, 2009 is primarily due to the timing of crop receipts. The decrease from September 25, 2008 to September 24, 2009 is primarily due to decreases in finished goods and work-in-process resulting from more effective inventory management and lower nut costs.

Net accounts receivable were \$35.4 million at September 24, 2009, an increase of \$0.6 million, or 1.8%, from the balance at June 25, 2009, and a decrease of \$7.3 million, or 17.2%, from the balance at September 25, 2008. The increase in net accounts receivable from June 25, 2009 to September 24, 2009 is due primarily to higher sales in the month of September 2009 compared to June 2009. The decrease in net accounts receivable from September 25, 2008 to September 24, 2009 is due to lower sales in September 2009 compared to September 2008. Accounts receivable allowances were \$2.9 million, \$2.8 million and \$2.7 million at September 24, 2009, June 25, 2009 and September 25, 2008, respectively.

Current economic and credit conditions have adversely impacted demand for consumer products and the credit markets. These conditions could, among other things, have a material adverse effect on the cash received from our operations and the availability and cost of capital. See Part II, Item 1A Risk Factors .

Real Estate Matters

In August 2008, we completed the consolidation of our Chicago-based facilities into a single facility in Elgin, Illinois (the New Site). As part of the facility consolidation project, on April 15, 2005, we closed on the \$48.0 million purchase of the New Site. The New Site includes both an office building and a warehouse. We leased 41.5% of the office building back to the seller for a three year period ending in April 2008. The seller did not exercise its option to renew its lease and vacated the office building. Accordingly, we are currently attempting to find replacement tenant(s) for the space that was rented by the seller of the New Site. Until replacement tenant(s) are found, we will not receive the benefit of rental income associated with such space. Approximately 80% of the office building is currently vacant. There can be no assurance that we will be able to lease the unoccupied space and further capital expenditures may be necessary to lease the remaining space, including the space previously rented by the seller of the New Site.

On March 28, 2006, JBSS Properties, LLC acquired title by quitclaim deed to the site that was originally purchased in Elgin, Illinois (the Original Site) for our facility consolidation project and JBSS Properties, LLC entered into an Assignment and Assumption Agreement (the Agreement) with the City of Elgin (the City). Under the terms of the Agreement, the City assigned to us the City's remaining rights and obligations under a development agreement entered into by and among our Company, certain related party partnerships and the City (the Development Agreement). We subsequently entered into a sales contract with a potential buyer of the Original Site. The sales contract was recently terminated as the potential buyer was unable to secure financing. While we are currently actively searching for new

potential buyers of the Original Site, we cannot ensure that a sale will occur in the next twelve months. We therefore reclassified \$5.6 million from current assets to property, plant and equipment. The Mortgage Facility is secured, in part, by the Original Site. We must obtain the consent of the Mortgage Lender prior to the sale of the Original Site. A portion of the Original Site contains an office building (which we began renting during the third quarter of fiscal 2007) that may or may not be included in any future sale. Our total costs under the Development Agreement were \$6.8 million as of September 24, 2009, June 25, 2009 and September 25, 2008, (i) \$5.6 million of which is currently recorded as a component of Property, Plant and Equipment as of September 24, 2009 and June 25, 2009 and was previously recorded as an Asset Held for Sale as of September 25, 2008 and (ii)

Table of Contents

\$1.2 million of which is recorded as Rental Investment Property. We have reviewed the assets under the Development Agreement and concluded that no adjustment of the carrying value is required.

Financing Arrangements

On February 7, 2008, we entered into a Credit Agreement with a bank group (the Bank Lenders) providing a \$117.5 million revolving loan commitment and letter of credit subfacility (the Credit Facility). Also on February 7, 2008, we entered into a Loan Agreement with an insurance company (the Mortgage Lender) providing us with two term loans, one in the amount of \$36.0 million (Tranche A) and the other in the amount of \$9.0 million (Tranche B), for an aggregate amount of \$45.0 million (the Mortgage Facility). The Credit Facility and Mortgage Facility replaced our prior revolving credit facility (the Prior Credit Facility) and long-term financing facility (the Prior Note Agreement). Our new financing arrangements were secured, in part, to generally obtain more flexible covenants than those associated with the Prior Note Agreement and Prior Credit Facility, which we were not in full compliance with during the first three quarters of fiscal 2008. We currently expect to be in compliance with all financial covenants under the Credit Facility and Mortgage Facility for the foreseeable future and we currently have full access to our new financing; however, it is possible that current economic and credit conditions could adversely impact our Bank Lenders' ability to honor their commitments to us under the Credit Facility. See Part II, Item 1A Risk Factors. The Credit Facility is secured by substantially all of our assets other than real property and fixtures. The Mortgage Facility is secured by mortgages on essentially all of our owned real property located in Elgin, Illinois, Gustine, California and Garysburg, North Carolina (the Encumbered Properties). The encumbered Elgin, Illinois real property includes almost all of the Original Site that was purchased prior to the New Site purchase.

The Credit Facility matures on February 7, 2013. At our election, borrowings under the Credit Facility accrue interest at either (i) a rate determined pursuant to the administrative agent's prime rate minus an applicable margin determined by reference to the amount of loans which may be advanced under a borrowing base calculation based upon accounts receivable, inventory and machinery and equipment (the Borrowing Base Calculation), ranging from 0.00% to 0.50% or (ii) a rate based upon the London interbank offered rate (LIBOR) plus an applicable margin based upon the Borrowing Base Calculation, ranging from 2.00% to 2.50%. The face amount of undrawn letters of credit accrues interest at a rate of 1.50% to 2.00%, based upon the Borrowing Base Calculation. The portion of the Borrowing Base Calculation based upon machinery and equipment will decrease by \$1.5 million per year for the first five years to coincide with amortization of the machinery and equipment collateral. As of September 24, 2009, the weighted average interest rate for the Credit Facility was 2.60%. The terms of the Credit Facility contain covenants that require us to restrict investments, indebtedness, capital expenditures, acquisitions and certain sales of assets, cash dividends, redemptions of capital stock and prepayment of indebtedness (if such prepayment, among other things, is of a subordinate debt). If loan availability under the Borrowing Base Calculation falls below \$15.0 million, we will be required to maintain a specified fixed charge coverage ratio, tested on a monthly basis. All cash received from customers is required to be applied against the Credit Facility. The Credit Facility does not include, among other things, a working capital, EBITDA, net worth, excess availability, leverage or debt service coverage financial covenant. The Bank Lenders are entitled to require immediate repayment of our obligations under the Credit Facility in the event of default on the payments required under the Credit Facility, non-compliance with the financial covenants or upon the occurrence of certain other defaults by us under the Credit Facility (including a default under the Mortgage Facility). As of September 24, 2009, we were in compliance with all covenants under the Credit Facility and we currently expect to be in compliance with the financial covenant in the Credit Facility for the foreseeable future, but see Part II, Item 1A Risk Factors. As of September 24, 2009, we had \$69.9 million of available credit under the Credit Facility. We would still be in compliance with all restrictive covenants under the Credit Facility if this entire amount were borrowed.

The Mortgage Facility matures on March 1, 2023. Tranche A under the Mortgage Facility accrues interest at a fixed interest rate of 7.63% per annum, payable monthly. Such interest rate may be reset by the Mortgage Lender on March 1, 2018 (the Tranche A Reset Date). Monthly principal payments in the amount of \$0.2 million commenced on June 1, 2008. Tranche B under the Mortgage Facility accrues interest at a floating rate of one month LIBOR plus 5.50% per annum, payable monthly. The margin on such floating rate may be reset by the Mortgage Lender on March 1, 2010 and every two years thereafter (each, a Tranche B Reset Date); provided, however, that the Mortgage

Lender may also change the underlying index on each Tranche B Reset Date occurring on or after March 1, 2016. Monthly principal payments in the amount of \$0.1 million commenced on June 1, 2008.

On the Tranche A Reset Date and each Tranche B Reset Date, the Mortgage Lender may reset the interest rates for each of Tranche A and Tranche B, respectively, in its sole and absolute discretion. With respect to Tranche A, if we do not accept the reset rate, Tranche A will become due and payable on the Tranche A Reset Date, without prepayment penalty. With respect to Tranche B, if we do not accept the reset rate, Tranche B will be due and payable on the Tranche B Reset Date, without prepayment penalty. There can be no assurance that the reset interest rates for each of Tranche A and Tranche B will be acceptable to us. If the reset interest rate for either Tranche A or Tranche B is unacceptable to us and we (i) do not have sufficient funds to repay amounts due with respect to Tranche A or Tranche B, as applicable, on the Tranche A Reset Date or Tranche B Reset Date, as applicable or (ii) are unable to refinance amounts due with respect to Tranche A or Tranche B, as applicable, on the Tranche A Reset

Table of Contents

Date or Tranche B Reset Date, as applicable, on terms more favorable than the reset interest rates, then such reset interest rates could have an adverse effect on our financial condition, results of operations and financial results. The terms of the Mortgage Facility contain covenants that require us to maintain a specified net worth of \$110.0 million and maintain the Encumbered Properties. The Mortgage Facility is secured, in part, by the Original Site. We must obtain the consent of the Mortgage Lender prior to the sale of the Original Site. A portion of the Original Site contains an office building (which we began renting during the third quarter of fiscal 2007) that may or may not be included in any future sale (assuming one were to occur). The Mortgage Facility does not include, among other things, a working capital, EBITDA, excess availability, fixed charge coverage, capital expenditure, leverage or debt service coverage financial covenant. The Mortgage Lender is entitled to require immediate repayment of our obligations under the Mortgage Facility in the event we default in the payments required under the Mortgage Facility, non-compliance with the covenants or upon the occurrence of certain other defaults by us under the Mortgage Facility. As of September 24, 2009, we were in compliance with all covenants under the Mortgage Facility. We currently believe that we will be in compliance with the financial covenant in the Mortgage Facility for the foreseeable future and therefore \$30.4 million has been classified as long-term debt as of September 24, 2009, but see Part II, Item 1A Risk Factors . This \$30.4 million represents scheduled principal payments due under Tranche A beyond twelve months of September 24, 2009.

As of September 24, 2009, we had \$4.7 million in aggregate principal amount of industrial development bonds (the bonds) outstanding, which was originally used to finance the acquisition, construction and equipping of our Bainbridge, Georgia facility. The bonds bear interest payable semiannually at 4.55% (which was reset on June 1, 2006) through May 2011. On June 1, 2011, and on each subsequent interest reset date for the bonds, we are required to redeem the bonds at face value plus any accrued and unpaid interest, unless a bondholder elects to retain his or her bonds. Any of the bonds redeemed by us at the demand of a bondholder on the reset date are required to be remarketed by the underwriter of the bonds on a best efforts basis. Funds for the redemption of the bonds on the demand of any bondholder are required to be obtained from the following sources in the following order of priority: (i) funds supplied by us for redemption; (ii) proceeds from the remarketing of the bonds; (iii) proceeds from a drawing under the bonds Letter of Credit held by the Bank Lenders (the IDB Letter of Credit); or (iv) in the event that funds from the foregoing sources are insufficient, a mandatory payment by us. Drawings under the IDB Letter of Credit to redeem the bonds on the demand of any bondholder are payable in full by us upon demand by the Bank Lenders. In addition, we are required to redeem the bonds in varying annual installments, ranging from \$0.4 million in fiscal 2010 to \$0.8 million in fiscal 2017. We are also required to redeem the bonds in certain other circumstances (for example, within 180 days after any determination that interest on the bonds is taxable). We have the option, subject to certain conditions, to redeem the bonds at face value plus accrued interest, if any.

In September 2006, we sold our Selma, Texas properties to two related party partnerships for \$14.3 million and are leasing them back. The selling price was determined by an independent appraiser to be the fair market value which also approximated our carrying value. The lease for the Selma, Texas properties has a ten-year term at a fair market value rent with three five-year renewal options. Also, we have an option to purchase the properties from the partnerships after five years at 95% (100% in certain circumstances) of the then fair market value, but not less than the \$14.3 million purchase price. The provisions of the arrangement are not eligible for sale-leaseback accounting and therefore the financing obligation is being accounted for similarly to the accounting for a capital lease, whereby \$14.3 million was recorded as a debt obligation. No gain or loss was recorded on the transaction. These partnerships were previously consolidated as variable interest entities. However, based upon reconsideration events in the third quarter of fiscal 2006 and in the first quarter of fiscal 2007, we determined that the partnerships were no longer subject to consolidation as variable interest entities. These partnerships are no longer considered variable interest entities subject to consolidation because the partnerships had substantive equity at risk at the time of entering into the Selma, Texas sale-leaseback transaction. As of September 24, 2009, \$13.6 million of the debt obligation was outstanding.

Capital Expenditures

We spent \$2.2 million on capital expenditures during the first quarter of fiscal 2010 compared to \$0.9 million during the first quarter of fiscal 2009. Total capital expenditures for fiscal 2010 are estimated to be approximately

\$8.0 million.

Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles A Replacement of FASB Statement No. 162. Under Statement No. 168, the FASB Accounting Standards Codification (Codification) became the single source of authoritative generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal security laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-SEC accounting literature not included in the Codification became nonauthoritative. The GAAP hierarchy was modified to include only two levels of GAAP authoritative and

Table of Contents

nonauthoritative. This Statement was effective for financial statements issued for interim and annual periods ending after September 15, 2009. We began using the new Codification when referring to GAAP in this quarterly report on Form 10-Q for the quarter ended September 24, 2009. The effect of adopting Statement No. 168 did not have a material impact on our consolidated financial statements.

In June 2009, the FASB issued Accounting Standards Update No. 2009-01, Topic 105 Generally Accepted Accounting Principles amendments based on Statement of Financial Accounting Standards No. 168 The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles. Accounting Standards Update No. 2009-01 amended the FASB Accounting Standards Codification for the issuance of Statement No. 168. Accounting Standards Update No. 2009-01 includes Statement No. 168 in its entirety, including the accounting standards update instructions.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 establishes a common definition for fair value to be applied to GAAP requiring use of fair value, establishes a framework for measuring fair value and expands disclosure about such fair value measurements. SFAS 157 is effective for financial assets and financial liabilities for fiscal years beginning after November 15, 2007. Issued in February 2008, FSP 157-1

Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13 removed leasing transactions accounted for under Statement 13 and related guidance from the scope of SFAS 157. FSP 157-2

Partial Deferral of the Effective Date of Statement 157 (FSP 157-2), deferred the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities to fiscal years beginning after November 15, 2008. In October 2008, the FASB issued FSP 157-3, Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active (FSP 157-3). FSP 157-3, which is effective immediately, clarifies the application of SFAS 157 in a market that is not active. The implementation of SFAS 157 for financial assets and financial liabilities, effective for our first quarter of fiscal 2009, did not have a material impact on our consolidated financial position and results of operations. After the Codification, all fair value measurement accounting is included as Topic 820. The implementation of Topic 820 for nonfinancial assets and nonfinancial liabilities, effective for our first quarter of fiscal 2010, did not have a material impact on our consolidated financial position and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations , which replaces SFAS No. 141. The statement retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (previously referred to as the purchase method of accounting) be used for all business combinations, but requires a number of changes, including changes in the way assets and liabilities are recognized as a result of business combinations. It also requires the capitalization of in-process research and development at fair value and requires the expensing of acquisition-related costs as incurred. In April 2009, the FASB issued FSP FAS 141(R)-1 which amends SFAS No. 141(R) by establishing a model to account for certain pre-acquisition contingencies. Under the FSP FAS 141(R)-1, an acquirer is required to recognize at fair value an asset acquired or a liability assumed in a business combination that arises from a contingency if the acquisition-date fair value of that asset or liability can be determined during the measurement period. If the acquisition-date fair value cannot be determined during the measurement period, then the acquirer should follow the recognition criteria in SFAS No. 5, Accounting for Contingencies , and FASB Interpretation No. 14, Reasonable Estimation of the Amount of a Loss an interpretation of FASB Statement No. 5 . SFAS No. 141(R) and FSP FAS 141(R)-1 were effective for us beginning June 26, 2009, and will apply prospectively to business combinations completed on or after that date. After the Codification, all business combination accounting is included as Topic 805. The impact of the adoption of Topic 805 will depend upon the nature of acquisitions completed after the date of adoption.

FORWARD LOOKING STATEMENTS

The statements contained in this filing that are not historical (including statements concerning our Company's expectations regarding market risk) are forward looking statements. These forward looking statements, which can be identified by the use of forward looking words and phrases such as will, intends, may, could, believes or expect, represent our Company's present expectations or beliefs concerning future events. Our Company cautions that such statements are qualified by important factors (including the factors referred to in Part II, Item 1A Risk Factors and other factors such as the timing and occurrence (or nonoccurrence) of other transactions and events) that are beyond our Company's control but that could cause the actual results to materially differ from those in the forward looking statements. Consequently, results actually achieved may materially differ from the expected results included in these forward looking statements. Among the factors that could cause the results to materially differ from the current expectations are: (i) the risks associated with our vertically integrated model with respect to pecans, peanuts and walnuts; (ii) sales activity for our products, including a decline in sales to one or more key customers; (iii) changes in the availability and cost of raw materials and the impact of fixed price commitments with customers; (iv) the ability to measure and estimate bulk inventory, fluctuations in the value and quantity of our nut inventories due to fluctuations in the market prices of nuts and bulk inventory estimation adjustments, respectively, and decreases in the value of inventory held for other entities, where we are financially responsible for such losses; (v) our ability to lessen the negative impact of competitive and pricing pressures; (vi) losses associated with product recalls or the potential for lost sales or product liability if customers lose confidence in the safety of our products or in nuts or nut products in general, or are harmed as a result of using our products; (vii) risks and uncertainties regarding our Elgin, Illinois facility, including the underutilization thereof; (viii) our ability to retain key personnel; (ix) our largest stockholder possessing a majority of the aggregate voting power of our Company, which may make a takeover or change in control more difficult; (x) the potential negative impact of government regulations, including the Public Health Security and Bioterrorism Preparedness and Response Act and laws and regulations pertaining to food safety; (xi) our ability to do business in emerging markets; (xii) deterioration in economic conditions, including restricted liquidity in financial markets, and the impact of these conditions on our lenders, customers and suppliers; (xiii) our ability to obtain additional capital, if needed; and (xiv) the timing and occurrence (or nonoccurrence) of other transactions and events which may be subject to circumstances beyond our control.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in our assessment of our sensitivity to market risk since our presentation set forth in item 7A Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the fiscal year ended June 25, 2009.

Item 4. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of September 24, 2009. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of September 24, 2009, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

In connection with the evaluation by our management, including our Chief Executive Officer and Chief Financial Officer, there were no changes in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the quarter ended September 24, 2009 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are a party to various lawsuits, proceedings and other matters arising out of the conduct of our business. Currently, it is our management's opinion that the ultimate resolution of these matters will not have a material adverse effect upon our business, financial condition or results of operations.

Item 1A. Risk Factors

In addition to the other information set forth in this report on Form 10-Q, you should also consider the factors which could materially affect our Company's business, financial condition or future results as discussed in Part I, Item 1A Risk Factors of our Annual Report on Form 10-K for the fiscal year ended June 25, 2009. There were no significant changes to the risk factors identified on the Form 10-K for the fiscal year ended June 25, 2009 during the first quarter of fiscal 2010.

Item 6. Exhibits

The exhibits filed herewith are listed in the exhibit index that follows the signature page and immediately precedes the exhibits filed.
