IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS, AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer s account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer s account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser s privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance s Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC s website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC s public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds and Portfolios Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC s website at www.sec.gov.

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

Eaton Vance Insured Municipal Bond Funds (the Funds) are closed-end funds traded on the NYSE Amex, which are designed to provide current income exempt from regular federal income tax, federal alternative minimum tax and, in state specific funds, state personal income taxes. The Funds invest primarily in high-grade municipal securities that are insured as to the timely payment of principal and interest.

Economic and Market Conditions

During the year ending September 30, 2009, the U.S. economy and the capital markets continued to show improvement from the market upheaval that occurred in the fall of 2008 and continued through the first quarter of 2009. After contracting in the first three quarters of the Funds fiscal year, the U.S. economy showed positive growth in the year s final quarter. According to the U.S. Department of Commerce, the economy declined at annualized rates of 5.4%, 6.4% and 0.7% in the fourth quarter of 2008 and the first and second quarters of 2009, respectively. In the third quarter of 2009, the economy grew at an estimated annualized rate of 3.5%.

In the first three months of the period, the capital markets were shaken by unprecedented events. Just prior to the beginning of the period, in September 2008, the federal government had taken control of federally chartered mortgage giants Fannie Mae and Freddie Mac. During the same month, Lehman Brothers filed for bankruptcy protection; Bank of America announced its acquisition of Merrill Lynch; and Goldman Sachs and Morgan Stanley petitioned the U.S. Federal Reserve (the Fed) to become bank holding companies, a step that brings greater regulation but also easier access to credit. These actions redefined the Wall Street landscape. In response, the Fed lowered the federal funds rate to a range of 0.0% to 0.25% from 2.00% as of September 30, 2008, and took extraordinary action through a variety of innovative lending techniques in an attempt to ease the credit crisis.

During calendar year 2009, the municipal market witnessed a significant rebound as headline risk abated, demand returned from investors who had sought the relative safety of Treasury bonds in 2008, and cautious optimism spread on signs of a mildly improving economy. The renewed appetite for municipal bonds was buoyed by provisions in the American Recovery and Reinvestment Act of 2009 aimed at supporting the municipal market. The new Build America Bonds Program gave municipal issuers access to the taxable debt markets, providing the potential for lower net borrowing costs and reducing the supply of traditional tax-exempt bonds. The federal stimulus program also provided direct cash subsidies to municipalities that were facing record budget deficits. The result of these events was a dramatic rally for the sector as yields fell and prices rose across the yield curve.

During the year ending September 30, 2009, municipals continued the rally that had begun in mid-December 2008, posting strong returns for the period. The Barclays Capital Municipal Bond Index a broad-based, unmanaged index of municipal bonds posted a return of 14.85% for the period, and the Barclays Capital Long (22+) Municipal Bond Index a sub-index (consisting of bonds with maturities of at least 22 years) of the Barclays Capital Municipal Bonds Index gained 19.78%.

Management Discussion

During the year ending September 30, 2009, the Funds outperformed their respective benchmark Indices (at NAV), as reflected on the Fund-specific pages following this letter. Given the combination of the Funds—objective of providing tax-exempt income and the historical upward slope of the municipal yield curve, the Funds generally hold longer-maturity bonds relative to the broad market and many of our competitors. Management—s bias toward longer maturities was the basis for much of the Funds—relative outperformance for the period, given the significant price movement of the longer end of the municipal yield curve. The Funds generally invest in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. While the price

Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

¹ It is not possible to invest

directly in an Index. The Indices total returns do not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Indices.

Private insurance does not decrease the risk of loss of principal associated with this investment.

Past performance is no guarantee of future results.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Funds current or future investments and may change due to active management.

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

declines experienced by municipals in 2008 were most pronounced on the long end of the yield curve, longer-maturity bonds outperformed shorter maturities during the first half of 2009, thus providing the basis for much of the Funds underperformance in the earlier part of the period and significant outperformance later in the fiscal year, respectively. Management employed leverage in the Funds, through which additional exposure to the municipal market was achieved. Leverage has the impact of magnifying the Funds exposure to their leveraged investments in both up and down markets.

As we move ahead, we recognize that many state governments, particularly California, face significant budget deficits that are driven primarily by a steep decline in tax revenues. We will continue to monitor any new developments as state legislatures formulate solutions to address these fiscal problems. As in all environments, we maintain our long-term perspective on the markets against the backdrop of relatively short periods of market volatility. We will continue to manage municipals with the same income-focused, relative value approach we have always employed. We believe that this approach, which is based on credit research and decades of experience in the municipal market, has served municipal investors well over the long term.

A Note Regarding The Use Of Leverage

The Funds employ leverage through the issuance of Auction Preferred Shares (APS) and/or the use of residual interest bond (RIB) financing. Each Fund s APS and/or RIB percentage leverage as of September 30, 2009, is reflected on the Fund-specific pages following this letter. The leverage created by APS and RIB investments provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and share price of the common shares).

During the period, certain of the Funds redeemed a portion of their outstanding APS to reduce the amount of the Funds financial leverage. Information relating to these redemptions is contained in Note 2 to the Financial Statements.

See Note 1H to the Financial Statements for more information on RIB investments.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

** APS leverage represents the liquidation value of the Fund s Auction Preferred Shares (APS) outstanding at 9/30/09 as a percentage of the Fund s net assets applicable to common shares

plus APS and
Floating Rate
Notes. RIB leverage
represents the
amount of Floating
Rate Notes
outstanding at
9/30/09 as a
percentage of the
Fund s net assets
applicable to
common shares
plus APS and
Floating Rate
Notes.

1 Returns are

historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The Fund s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund s shares, or changes in Fund distributions.

Performance

results reflect the

effects of APS

outstanding and

RIB investments,

which are forms of

investment

leverage. Use of

leverage creates an

opportunity for

increased income

but, at the same

time, creates

special risks

(including the

likelihood of

greater volatility of

net asset value and

market price of

common shares). ²

The Fund s market

yield is calculated

by dividing the

most recent

dividend per share

by the market price

at the end of the

period and

annualizing the

result. 3

Taxable-equivalent

figure assumes a

maximum 35.00%

federal income tax

rate. A lower tax

rate would result in

 $a\ lower$

tax-equivalent

figure. ⁴ It is not

possible to invest

directly in an Index.

The Index s total

return does not

reflect the expenses

that would have

been incurred if an

investor

individually

purchased or sold

the securities

represented in the

Index. Index

performance is

available as of

month end only. ⁵

The Lipper

Averages are the

average annual

total returns, at net

asset value, of the

funds that are in the

same Lipper

Classification as

the Fund. It is not

possible to invest in

a Lipper

Classification.

Lipper

Classifications may

include insured and

uninsured funds, as

well as leveraged

and unleveraged

funds. The Lipper

Insured Municipal

Debt Funds

(Leveraged)

Classification

(closed-end)

contained 24, 24

and 24 funds for the

1-year, 5-year and

Life-of-Fund

periods,

respectively. Lipper

Averages are

available as of

month end only. 6

Rating Distribution

is determined by

dividing the total

market value of the

issues by the total

investments of the

Fund. Although the

investment adviser

considers ratings

when making

investment

decisions, it

performs its own

credit and

investment analysis

and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. 7 Fund holdings information excludes securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1H to the Fund s financial

statements.

Rating Distribution

is determined by

dividing the total

market value of the

issues by the total

investments of the

Fund. Although the

investment adviser

considers ratings

when making

investment

decisions, it

performs its own

credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. ⁷ Fund holdings information excludes securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1H to the Fund s financial statements.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

** APS leverage represents the liquidation value of the Fund s Auction Preferred Shares (APS) outstanding at 9/30/09 as a percentage of the Fund s net assets applicable to common shares plus APS.

Returns are historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The Fund s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results

over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund s shares, or changes in Fund distributions. Performance results reflect the effects of APS outstanding, which is a form of investment leverage. Use of leverage creates an opportunity for income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares). ² The Fund s market vield is calculated by dividing the most recent dividend per share by the market price at the end of the period and annualizing the result. 3 Taxable-equivalent figure assumes a maximum 37.83% combined federal and state income tax rate. A lower tax rate would

result in a lower

tax-equivalent

figure. ⁴ It is not

possible to invest

At September 30, 2009, the concentration of the Fund s investments in the various states, determined as a percentage of total investments, is as follows:

California	14.5%
New York	10.5%
Others, representing less than 10% individually	75.0%

See notes to financial statements

14

Eaton Vance Insured Municipal Bond Fund II as of September 30, 2009

PORTFOLIO OF INVESTMENTS CONT D

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 90.0% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.5% to 24.4% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$2,483,900.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

Eaton Vance Insured California Municipal Bond Fund II as of September 30, 2009

PORTFOLIO OF INVESTMENTS CONT D

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 89.2% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.2% to 31.3% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by Massachusetts municipalities. In addition, 10.7% of the Fund s total investments at September 30, 2009 were invested in municipal obligations issued by Puerto Rico. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 85.2% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.9% to 38.6% of total investments.

(1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 86.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.4% to 38.4% of total investments.

(1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 93.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.3% to 34.0% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$260,622.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 85.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.7% to 25.7% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2009, the aggregate value of these securities is \$540,742 or 1.7% of the Fund s net assets.
- (3) Security is subject to a shortfall agreement which may require the Fund to pay amounts to a counterparty in the event of a significant decline in the market value of the security underlying the inverse floater. In case of a shortfall, the maximum potential amount of payments the Fund could ultimately be required to make under the agreement is \$1,320,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security underlying the inverse floater.

Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2009.

(5) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
