Item 1. Report to Shareholders.

The Trust's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

SEMIANNUAL REPORT

January 31, 2010

MUTUAL FUNDS

Van Kampen
Senior Income Trust
(VVR)

Privacy Notice information on the back.

Welcome, Shareholder

In this report, you will learn about how your investment in Van Kampen Senior Income Trust performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the trust's financial statements and a list of trust investments as of January 31, 2010.

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the trust will achieve its investment objective. Trusts are subject to market risk, which is the possibility that the market values of securities owned by the trust will decline and that the value of the trust shares may therefore be less than what you paid for them. Accordingly, you can lose money investing in this trust.

An investment in senior loans is subject to certain risks such as loan defaults and illiquidity due to insufficient collateral backing.

Performance Summary as of 1/31/10 (Unaudited)

Senior Income Trust

Symbol: VVR

**Average Annual
Total Returns**

	Based on NAV	Based on Market Price
Since Inception (6/23/98)	1.34%	1.29%
10-year	0.46	1.94
5-year	3.63	3.60
1-year	77.47	78.83
6-month	19.91	32.40

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit vankampen.com or speak with your financial advisor. Investment returns and principal value will fluctuate and trust shares, when redeemed, may be worth more or less than their original cost.

The NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The S&P/LSTA Leveraged Loan Index is a daily total return index that uses LSTA/LPC Mark-to-Market Pricing to calculate market value change and represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. The Index is unmanaged and its returns do not include any sales charges or fees. Such costs would lower performance. It is not possible to invest directly in an index.

Trust Report

For the six-month period ended January 31, 2010

Market Conditions

The senior loan market continued to rally strongly throughout the reporting period. For the six-month period ended January 31, 2010, the S&P LSTA Leveraged Loan Index (the Index) gained 11.75 percent, while average loan prices rose from 81.2 cents on the dollar to 89.49 cents on the dollar. Within the Index, lower quality loans outperformed for the period, with CCC rated issuers (+26.53 percent) significantly outpacing higher credit quality BB (+4.74 percent) and B (+11.81 percent) issuers.

From a technical standpoint, the loan market continued to benefit from increasing demand, loan repayments and relatively tepid new loan issuance. The bank loan category of retail mutual funds continued to enjoy strong inflows over the course of the period sparked by the opportunity to purchase senior loans at a discount and the prospect of higher short-term interest rates in the future. Additionally, loan repayments were strong as the trend of companies issuing new high yield bonds and using the proceeds to pre-pay bank debt at par continued. New loan issuance, on the other hand, remained weak, especially in the first half of the reporting period. In the later part of the fourth quarter of 2009 and continuing into 2010, new issuance did pick up substantially; however, in the fourth quarter of 2009, the pool of investable loans still contracted as loan repayments of \$32 billion were well in excess of the \$26 billion of new loan issuance.

The loan market benefited from a substantial improvement in credit fundamentals. Borrowers performance generally reflected the growth in U.S. GDP that we experienced in the second half of 2009, and this growth is expected to continue in 2010. The improved macroeconomic conditions translated into an improving default picture. The senior loan default rate peaked in November 2009 at 10.8 percent and by the end of January 2010 had declined to 8.8 percent. We expect the rate to fall to the mid-single digits by the end of 2010.

Although we are cautiously optimistic that the loan rally will continue in 2010, albeit at a much slower pace than in 2009, it is clear that risks and uncertainties remain that could negatively impact the markets. The economic recovery is likely to be less robust than previous recoveries as the consumer remains stressed with unemployment just below 10 percent and foreclosures still at an elevated level. There is uncertainty as to how the economy will react as governments and central banks begin to remove the global stimulus as well as concerns about the size of the budget deficit both here in the U.S. and in other countries around the world.

Performance Analysis

The Trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the Trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. For the six months ended January 31, 2010, the Trust returned 32.40 percent on a market price basis and 19.91 percent on an NAV basis.

Total return for the six-month period ended January 31, 2010

Based on NAV

19.91%

Based on Market Price

32.40%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and Trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information.

The Trust invests primarily in senior secured loans to non-investment grade companies. Although non-investment grade companies have a higher probability of defaulting than investment grade companies, our loans are typically secured by the assets of the company and are senior in the capital structure and thus are generally repaid before any of the company's other obligations. As of the end of the reporting period, 91 percent of the Trust's assets are first lien senior secured loans. The remainder is a mix of second lien senior secured loans and high yield bonds. Concentration in the portfolio by both industry and borrower remains low.

We continued to adhere to our research-intensive investment process, employing a bottom-up security selection process driven by thorough analysis of individual company fundamentals. We focus primarily on investing in companies that we believe will have consistent cash flows and strong collateral coverage and thus we typically have a bias toward more defensive industries such as health care, utilities, food and cable.

The Trust used a modest amount of leverage, which enhanced returns as loan prices increased during the period. Leverage involves borrowing at a floating short-term rate and reinvesting the proceeds at a higher rate. Unlike other fixed-income asset classes, using leverage in conjunction with senior loans does not involve the same degree of risk from rising short-term interest rates since the income from senior loans generally adjusts to changes in interest rates, as do the rates which determine the Trust's borrowing costs. The use of leverage could be a risk of greater volatility. (Similarly, should short-term rates fall, borrowing costs would also decline.) We believe the modest use of leverage will continue to benefit shareholders in the periods ahead.

Market Outlook

While we have certainly witnessed a dramatic rally in loan prices over the past year, given current price levels and the potential for declining default rates this year, we believe there are still compelling investment opportunities in senior secured loans. Additionally, while investors continue to have the ability to purchase loans at what we believe are relatively attractive values, they are also positioning themselves well should short-term interest rates begin to rise. Because senior loans pay a floating interest rate, should short-term rates move higher, senior loan investors may benefit through increasing distribution yields. This can act as a nice complement to fixed rate investments that typically face a headwind in a rising interest rate environment.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the Trust in the future.

Subject to change daily. Provided for informational purposes only and should not be deemed as a recommendation to buy or sell the securities mentioned or securities in the sectors shown above. All percentages include total exposure of loans, bonds and the notional value of credit derivatives, with unfunded loan commitments being treated as if they were fully funded. This method of aggregation is reflected in both the numerator and denominator of each calculation. Securities are classified by sectors that represent broad groupings of related industries. Van Kampen is a wholly owned subsidiary of a global securities firm which is engaged in a wide range of financial services including, for

example, securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services.

Derivatives Policy

The Trust has amended and restated its policy on derivatives to permit it to invest in the derivative investments discussed below.

The Trust may use derivative instruments for a variety of purposes, including hedging, risk management, portfolio management or to earn income. Derivatives are financial instruments whose value is based on the value of another underlying asset, interest rate, index or financial instrument. A derivative instrument often has risks similar to its underlying instrument and may have additional risks, including imperfect correlation between the value of the derivative and the underlying instrument, risks of default by the other party to certain transactions, magnification of losses incurred due to changes in the market value of the securities, instruments, indices or interest rates to which they relate, and risks that the transactions may not be liquid. The use of derivatives involves risks that are different from, and possibly greater than, the risks associated with other portfolio investments. Derivatives may involve the use of highly specialized instruments that require investment techniques and risk analyses different from those associated with other portfolio investments. Certain derivative transactions may give rise to a form of leverage. Leverage associated with derivative transactions may cause the Trust to liquidate portfolio positions when it may not be advantageous to do so to satisfy its obligations or to meet earmarking or segregation requirements, pursuant to applicable SEC rules and regulations, or may cause the Trust to be more volatile than if the Trust had not been leveraged. Although the Investment Adviser seeks to use derivatives to further the Trust's investment objective, there is no assurance that the use of derivatives will achieve this result.

Following is a description of the derivative instruments and techniques that the Trust may use and their associated risks:

Swaps. A swap contract is an agreement between two parties pursuant to which the parties exchange payments at specified dates on the basis of a specified notional amount, with the payments calculated by reference to specified securities, indexes, reference rates, currencies or other instruments. Most swap agreements provide that when the period payment dates for both parties are the same, the payments are made on a net basis (i.e., the two payment streams are netted out, with only the net amount paid by one party to the other). The Trust's obligations or rights under a swap contract entered into on a net basis will generally be equal only to the net amount to be paid or received under the agreement, based on the relative values of the positions held by each counterparty. Swap agreements are not entered into or traded on exchanges and there is no central clearing or guaranty function for swaps. Therefore, swaps are subject to credit risk or the risk of default or non-performance by the counterparty. Swaps could result in losses if interest rate or foreign currency exchange rates or credit quality changes are not correctly anticipated by the Trust or if the reference index, security or investments do not perform as expected. The Trust's use of swaps may

include those based on the credit of an underlying security and commonly referred to as credit default swaps. Where the Trust is the buyer of a credit default swap contract, it would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract only in the event of a default by a third party on the debt obligation. If no default occurs, the Trust would have paid to the counterparty a periodic stream of payments over the term of the contract and received no benefit from the contract. When the Trust is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay upon default of the referenced debt obligation.

Structured Investments. The Trust also may invest a portion of its assets in structured notes and other types of structured investments. A structured note is a derivative security for which the amount of principal repayment and/or interest payments is based on the movement of one or more factors. These factors include, but are not limited to, currency exchange rates, interest rates (such as the prime lending rate or LIBOR), referenced bonds and stock indices. Investments in structured notes involve risks including interest rate risk, credit risk and market risk. Changes in interest rates and movement of the factor may cause significant price fluctuations and changes in the reference factor may cause the interest rate on the structured note to be reduced to zero and any further changes in the reference factor may then reduce the principal amount payable on maturity. Other types of structured investments include interests in entities organized and operated for the purpose of restructuring the investment characteristics of underlying investment interests or securities. These investment entities may be structured as trusts or other types of pooled investment vehicles. Holders of structured investments bear risks of the underlying investment and are subject to counterparty risk. Certain structured investments may be thinly traded or have a limited trading market and may have the effect of increasing the Trust's illiquidity to the extent that the Trust, at a particular point in time, may be unable to find qualified buyers for these securities.

Foreign Currency Forward Contracts. In connection with its investments in foreign securities, the Trust also may enter into contracts with banks, brokers or dealers to purchase or sell securities or foreign currencies at a future date (forward contracts). A foreign currency forward contract is a negotiated agreement between the contracting parties to exchange a specified amount of currency at a specified future time at a specified rate. The rate can be higher or lower than the spot rate between the currencies that are the subject of the contract. Forward foreign currency exchange contracts may be used to protect against uncertainty in the level of future foreign currency exchange rates or to gain or modify exposure to a particular currency. In addition, the Trust may use cross currency hedging or proxy hedging with respect to currencies in which the Trust has or expects to have portfolio or currency exposure. Cross currency hedges involve the sale of one currency against the positive exposure to a different currency and may be used for hedging purposes or to establish an active exposure to the

exchange rate between any two currencies. Hedging the Trust's currency risks involves the risk of mismatching the Trust's objectives under a forward or futures contract with the value of securities denominated in a particular currency. Furthermore, such transactions reduce or preclude the opportunity for gain if the value of the currency should move in the direction opposite to the position taken. There is an additional risk to the effect that currency contracts create exposure to currencies in which the Trust's securities are not denominated. Unanticipated changes in currency prices may result in poorer overall performance for the Trust than if it had not entered into such contracts.

Portfolio Management

Van Kampen Senior Income Trust is managed by members of the Adviser's Senior Loan Group, which currently includes Gerard Fogarty, a Vice President of the Adviser, and Jeffrey Scott and Philip Yarrow, each an Executive Director of the Adviser. All team members are responsible for the day-to-day management of the Trust's portfolio.

Mr. Fogarty joined the Adviser in 2007 and began managing the Trust in July 2008. Mr. Fogarty has approximately 12 years of investment experience. From 2003 to 2007 and prior to joining the Adviser, Mr. Fogarty was employed by JPMorgan and held a number of positions including Director in the financial institutions group, and most recently as a Credit Executive in the commercial real estate group. Prior to joining JPMorgan, Mr. Fogarty was employed as an Associate in the financial institutions group at Bank of America. Mr. Fogarty received a B.S. from Indiana University and an M.B.A. from the University of Chicago Graduate School of Business.

Mr. Scott joined the Adviser in 2005 and began managing the Trust in July 2008. Mr. Scott has approximately 19 years of investment industry experience. Prior to joining the Adviser, Mr. Scott was employed by State Farm Insurance Companies where he served as an Assistant Vice President in the Mutual Fund Group responsible for product development and strategy as well as a Regional Vice President for Sales for the Financial Services Division. Mr. Scott received a B.S. from Elmhurst College and an M.B.A. from the University of Chicago Graduate School of Business. Mr. Scott also holds the Chartered Financial Analyst designation.

Mr. Yarrow joined the Adviser in 2005 and began managing the Trust in March 2007. Mr. Yarrow has over 14 years of investment experience. Prior to joining the Adviser, Mr. Yarrow was a credit analyst and a portfolio manager at Bank One/JPMorgan. Mr. Yarrow received a bachelor's degree in mathematics and economics from the University of Nottingham and an M.B.A. in finance from Northwestern University. Mr. Yarrow also holds the Chartered Financial Analyst designation.

For More Information About Portfolio Holdings

Each Van Kampen trust provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the trust's second and fourth fiscal quarters. The semiannual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Van Kampen also delivers the semiannual and annual reports to fund shareholders, and makes these reports available on its public Web site, www.vankampen.com. In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public Web site, each fund files a complete schedule of portfolio holdings with the SEC for the trust's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public Web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's Web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference section of the SEC, Washington, DC 20549-1520.

You may obtain copies of a trust's fiscal quarter filings by contacting Van Kampen Client Relations at (800) 341-2929.

Proxy Voting Policy and Procedures and Proxy Voting Record

You may obtain a copy of the Trust's Proxy Voting Policy and Procedures without charge, upon request, by calling toll free (800) 341-2929 or by visiting our Web site at www.vankampen.com. It is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

You may obtain information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 without charge by visiting our Web site at www.vankampen.com. This information is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

Investment Advisory Agreement Approval

The current investment adviser for the Fund is Van Kampen Asset Management (the Adviser) pursuant to the investment advisory agreement approved by the Board on May 20-21, 2009. The Adviser is a wholly owned subsidiary of Van Kampen Investments Inc. (Van Kampen Investments), which is an indirect wholly owned subsidiary of Morgan Stanley. On October 19, 2009, Morgan Stanley entered into a definitive agreement to sell substantially all of its retail asset management business, including Van Kampen Investments, to Invesco Ltd., a leading independent global investment management company (the Transaction). As a result of this Transaction, the asset management business of Van Kampen Investments will be combined with that of Invesco Advisers, Inc. (Invesco), a subsidiary of Invesco Ltd.

The closing of the Transaction (currently expected to be in mid-2010) will constitute an assignment of the current investment advisory agreement for the Fund and, therefore, pursuant to the Investment Company Act of 1940 (the 1940 Act), will result in the automatic termination of the Fund s current investment advisory agreement. The 1940 Act requires that shareholders of the Fund approve any new investment advisory agreement for the Fund.

In connection with the Transaction, the Fund s Board of Trustees has approved a new investment advisory arrangement between the Fund and Invesco, which arrangement includes (i) a new advisory agreement with Invesco, which agreement allows Invesco to enter into subadvisory agreements and delegate any or all of its rights, duties or obligations to one or more wholly owned affiliates of Invesco Ltd. as subadvisers and (ii) that Invesco enter into a master subadvisory agreement with several of Invesco Ltd. s wholly owned affiliates (collectively, the New Advisory Agreements).

The Fund s Board of Trustees is seeking shareholder approval of the New Advisory Agreements at a special meeting of shareholders and a proxy statement is being sent to shareholders in advance of the special meeting. Closing of the Transaction and shareholder approval of the New Advisory Agreements are conditions precedent to the effectiveness of the New Advisory Agreements. As part of the Transaction, it is also expected that Invesco and its affiliates will provide the Fund with administrative and client servicing services that are currently provided by Van Kampen Investments and its affiliates.

At several in-person and telephonic meetings held in August, September, October, November and December 2009, the Board discussed and ultimately approved the New Advisory Agreements. At these meetings, the Board considered information provided by Morgan Stanley, Van Kampen Investments and Invesco regarding, among other things: Invesco s organization and personnel; business strategy; ownership structure; financial strength; affiliations (including other asset management affiliations); asset management practices and capabilities; legal and regulatory matters; and compliance matters. Emphasis during these meetings focused on Invesco being a global investment management leader with momentum in the U.S. retail market, and that the combination of Invesco and Morgan Stanley s retail asset management business, including Van Kampen Investments, can bring additional value to the

Fund's shareholders. The parties discussed Invesco's independence as a publicly traded entity, its strategic focus solely on the investment management business (including Invesco's investment reputation, broad product line, service quality, industry relationships and objective of putting investors' interests first) and its significant depth in resources, diversification, performance and experience. The parties discussed how the current Invesco and Van Kampen Investments businesses compare and complement each other and the synergies of the combined organization which management believes will benefit the Fund's shareholders. The parties discussed aligning the Fund and other funds currently advised by the Adviser together with other funds and products currently advised by Invesco and its affiliates towards using a single, common operating platform (which includes, among other things, common investment operating platforms, common global performance measurement and risk analysis, and common compliance policies and procedures).

In connection with the Board's consideration of the New Advisory Agreements, the Trustees considered the factors discussed above as well as the following:

Nature, Extent and Quality of the Services to be Provided. The Board considered the roles and responsibilities of the investment adviser (and its affiliates) as a whole and those specific to portfolio management, support and trading functions anticipated to be servicing the Fund. The Board noted that the current portfolio management team for the Fund is expected to remain the same under the New Advisory Agreements. The Trustees discussed with Invesco the resources available in managing the Fund. The Trustees also discussed certain other services that are to be provided by Invesco or its affiliates to the Fund including subadvisory services, certain global performance measurement and risk analysis, compliance, accounting, and administrative services. The Board has determined that the nature, extent and quality of the services to be provided by Invesco (and its affiliates) support its decision to approve the New Advisory Agreements.

Projected Fees and Expenses of the Fund. The Board considered that the advisory fee rate for the Fund would remain the same under the New Advisory Agreements as they are under the current advisory agreement. The Board had previously determined that such fees were acceptable under the current advisory agreement. The Board has determined that the projected fees and expenses of the Fund support its decision to approve the New Advisory Agreements.

Investment Adviser's Expenses in Providing the Service and Profitability. At least annually, the Trustees expect to review Invesco's expenses in providing services to the Fund and other funds advised by Invesco and the profitability of Invesco. In connection with the Fund, the Trustees discussed with Invesco its projected revenues and expenses, including among other things, revenues for advisory services, portfolio management-related expenses, and other costs. The Board has determined that the analysis of Invesco's projected expenses and profitability support its decision to approve the New Advisory Agreements.

Economies of Scale. The Board noted that economies of scale were already reflected in the advisory fees. In future determinations of whether to approve the continuation

of the advisory agreement, the Board will consider whether economies of scale exist and should be passed along to shareholders.

Other Benefits of the Relationship. The Board considered other benefits to Invesco and its affiliates derived from its relationship with the Fund and other funds advised by Invesco. These benefits include, among other things, fees for administrative services (which is reimbursement of Invesco's cost or such reasonable compensation as may be approved by the Board), transfer agency services provided to other funds in the fund family, in certain cases research to be received by Invesco or its affiliates generated from commission dollars spent on funds' portfolio trading, and in certain cases distribution or service related fees related to sales of other funds in the fund family. The Trustees reviewed with Invesco each of these arrangements and the reasonableness of its costs relative to the services performed. The Board has determined that the other benefits received by Invesco or its affiliates support its decision to approve the New Advisory Agreements.

Total Investments 154.1% (Cost \$1,523,689,926)	1,279,188,286
Borrowings (11.7%)	(97,000,000)
Preferred Shares (including accrued distributions) (42.2%)	(350,083,076)
Liabilities in Excess of Other Assets (0.2%)	(1,703,308)
Net Assets 100.0%	\$ 830,401,902

Percentages are calculated as a percentage of net assets applicable to common shares.

- (a) All or a portion of this security is designated in connection with unfunded loan commitments.
- (b) All or a portion of this security is payment-in-kind.
- (c) This borrower is currently in liquidation.
- (d) This Senior Loan interest is non-income producing.
- (e) This borrower has filed for protection in federal bankruptcy court.

- (f) Market value is determined in accordance with procedures established in good faith by the Board of Trustees.
- (g) Senior loan is past due.
- (h) Affiliated company.
- (i) Variable rate security. Interest rate shown is that in effect at January 31, 2010.
- (j) 144A-Private Placement security which is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. This security may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.
- (k) Non-income producing security.
- (l) Restricted security. Securities were acquired through the restructuring of senior loans. These securities are restricted as they are not allowed to be deposited via the Depository Trust Company. If at a later point in time, the company wishes to register, the issuer will bear the costs associated with registration.

Van Kampen Senior Income Trust**Portfolio of Investments n January 31, 2010 (Unaudited) continued**

- * Senior Loans in the Trust's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Trust's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Trust's portfolio may be substantially less than the stated maturities shown.
- ** Senior Loans in which the Trust invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate (LIBOR), (ii) the prime rate offered by one or more major United States banks or (iii) the certificate of deposit rate. Senior Loans are generally considered to be restricted in that the Trust ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

Van Kampen Senior Income Trust
Notes to Financial Statements n January 31, 2010 (Unaudited)

1. Significant Accounting Policies

Van Kampen Senior Income Trust (the Trust) is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Trust s investment objective is to seek to provide a high level of current income, consistent with preservation of capital. The Trust seeks to achieve its objective by investing primarily in a portfolio of interests in floating or variable rate senior loans to corporations, partnerships and other entities which operate in a variety of industries and geographical regions. The Trust borrows money for investment purposes which will create the opportunity for enhanced return, but also should be considered a speculative technique and may increase the Trust s volatility. The Trust commenced investment operations on June 23, 1998.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In June 2009, the Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification™ (ASC) as the single source of authoritative accounting principles recognized by the FASB in the preparation of financial statements in conformity with GAAP. The ASC supersedes existing non-grandfathered, non-SEC accounting and reporting standards. The ASC did not change GAAP but rather organized it into a hierarchy where all guidance within the ASC carries an equal level of authority. The ASC became effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Trust appropriately updated relevant GAAP references to reflect the new ASC.

A. Security Valuation The Trust s Senior Loans and notes are valued by the Trust following valuation guidelines established and periodically reviewed by the Trust s Board of Trustees. Under the valuation guidelines, Senior Loans and notes for which reliable market quotes are readily available are valued at the mean of such bid and ask quotes. Where reliable market quotes are not readily available, Senior Loans and notes are valued, where possible, using independent market indicators provided by independent pricing sources approved by the Board of Trustees. Other Senior Loans and notes are valued by independent pricing sources approved by the Board of Trustees based upon pricing models developed, maintained and operated by those pricing sources or valued by Van Kampen Asset Management (the Adviser) by considering a number of factors including consideration of market indicators, transactions in instruments which the Adviser believes may be comparable (including comparable credit quality, interest rate, interest rate redetermination period and maturity), the credit worthiness of the Borrower, the current interest rate, the period until next interest rate redetermination and the maturity of such Senior Loan. Consideration of comparable instruments may include commercial paper, negotiable certificates of deposit and short-term variable rate securities which have adjustment periods comparable to the Senior Loans in the Trust s portfolio. The fair value of Senior Loans are reviewed and approved by the Trust s Valuation Committee and the Board of Trustees. Credit default swaps are valued using quotations obtained from brokers.

Van Kampen Senior Income Trust

Notes to Financial Statements n January 31, 2010 (Unaudited) continued

Equity securities are valued on the basis of prices furnished by pricing services or as determined in good faith by the Adviser under the direction of the Board of Trustees.

Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value. Short-term loan participations are valued at cost in the absence of any indication of impairment.

B. Fair Value Measurements FASB ASC 820, *Fair Value Measurements and Disclosures* (ASC 820) (formerly known as FAS 157), defines fair value as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

C. Security Transactions Investment transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. Legal expenditures that are expected to result in the restructuring of a plan of reorganization for an investment are recorded as realized losses. The Trust may purchase and sell securities on a when-issued or delayed delivery basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At January 31, 2010, the Trust had no when-issued or delayed delivery purchase commitments. The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Trust. At January 31, 2010, the Trust had no repurchase agreements.

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

D. Investment Income Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Facility fees received are treated as market discounts. Market premiums are amortized and discounts are accreted over the stated life of each applicable senior loan, note, or other fixed income security. Other income is comprised primarily of amendment fees which are recorded when received. Amendment fees are earned as compensation for agreeing to changes in loan agreements.

E. Federal Income Taxes It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required. Management has concluded there are no significant uncertain tax positions that would require recognition in the financial statements. If applicable, the Trust recognizes interest accrued related to unrecognized tax benefits in Interest Expense and penalties in Other expenses on the Statement of Operations. The Trust files tax returns with the U.S. Internal Revenue Service. Generally, each of the tax years in the four year period ended July 31, 2009, remains subject to examination by taxing authorities. The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At July 31, 2009, the Trust had an accumulated capital loss carryforward for tax purposes of \$364,380,249 which will expire according to the following schedule.

Amount	Expiration
\$ 122,716,095	July 31, 2010
52,014,750	July 31, 2011
29,634,358	July 31, 2012
2,190,907	July 31, 2013
6,730,384	July 31, 2014
11,934,630	July 31, 2015
17,612,397	July 31, 2016
121,546,728	July 31, 2017

At January 31, 2010, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes	\$ 1,523,689,926
Gross tax unrealized appreciation	\$ 34,751,984
Gross tax unrealized depreciation	(279,253,624)
Net tax unrealized depreciation on investments	\$ (244,501,640)

F. Distribution of Income and Gains The Trust intends to declare and pay monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed at least annually to common shareholders. Distributions from net realized gains for book purposes may include short term capital gains, which are included as ordinary income for tax purposes.

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

The tax character of distributions paid for the year ended July 31, 2009 was as follows:

Distributions paid from:	
Ordinary income	\$ 79,598,098

As of July 31, 2009, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income	\$ 1,730,666
-------------------------------	--------------

Net realized gains or losses may differ for financial reporting and tax purposes primarily due to reclass of swap income from gains/losses, as a result of the deferral of losses resulting from wash sale transactions and gains and losses recognized on securities for tax purposes but not for book purposes.

G. Foreign Currency Translation Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the quoted bid and asked prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated at the rate of exchange prevailing when such securities were acquired or sold. Income and expenses are translated at rates prevailing when accrued. Unrealized gains and losses on investments resulting from changes in exchange rates and the unrealized gains or losses on translations of other assets or liabilities denominated in foreign currencies are included in foreign currency translation on the Statement of Operations. Realized gains and losses on investments resulting from changes in exchange rates and the realized gains or losses on translations of other assets or liabilities denominated in foreign currencies are included in foreign currency transactions on the Statement of Operations.

H. Reporting Subsequent Events Management has evaluated the impact of any subsequent events through March 26, 2010, the date the financial statements were effectively issued. Management has determined that there are no material events or transactions that would affect the Trust's financial statements or require disclosure in the Trust's financial statements through this date.

2. Investment Advisory Agreement and Other Transactions with Affiliates

Under the terms of the Trust's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Trust for an annual fee of 0.85% of the average daily managed assets. Managed assets are defined as the gross asset value of the Trust minus the sum of accrued liabilities, other than the aggregate amount of borrowings undertaken by the Trust. In addition, the Trust will pay a monthly administrative fee to Van Kampen Investments Inc., the Trust's Administrator, at an annual rate of 0.20% of the average daily managed assets of the Trust. The administrative services provided by the Administrator include monitoring the provisions of the loan agreements and any agreements with respect to participations and assignments, record keeping responsibilities with respect to interests in Variable Rate Senior Loans in the Trust's portfolio and providing certain services to the holders of the Trust's securities.

For the six months ended January 31, 2010, the Trust recognized expenses of approximately \$74,500 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

LLP, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Legal Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides legal services and the CCO provides compliance services to the Trust. The costs of these services are allocated to each trust. For the six months ended January 31, 2010, the Trust recognized expenses of approximately \$31,100 representing Van Kampen Investments Inc. s or its affiliates (collectively Van Kampen) cost of providing legal services to the Trust, as well as the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Legal Services agreement are reported as part of Professional Fees on the Statement of Operations. Services provided pursuant to the CCO Employment agreement are reported as part of Accounting and Administrative Expenses on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee s years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

During the period, the Trust owned shares of the following affiliated companies. Affiliated companies are defined by the 1940 Act as those companies in which a fund holds 5% or more of the outstanding voting securities.

Name	Par/ Shares* as of 1/31/2010	Interest/ Dividend Income	Market Value 1/31/2010	Cost
Cygnus Business Media Common Shares	5,882	\$ -0-	\$ 1,090,292	\$ 1,251,821
Cygnus Business Media Term Loan	4,028,134	130,417	3,987,852	3,936,619
		\$ 130,417	\$ 5,078,144	\$ 5,188,440

* Shares were acquired through the restructuring of senior loan interests.

Affiliate transactions during the six months ended January 31, 2010 were as follows:

Name	Par/Shares as of 7/31/2009	Gross Additions	Gross Reductions	Par/Shares as of 1/31/2010	Realized Gain/ (Loss)	Interest/ Dividend Income
Cygnus Business Media Common Shares	-0-	5,882	-0-	5,882	\$ -0-	\$ -0-
Cygnus Business Media Term Loan	\$ 10,683,750	\$ 4,038,229	\$ (10,693,845)	\$ 4,028,134	(5,494,422)	130,417

\$ (5,494,422) \$ 130,417

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued****3. Capital Transactions**

For the six months ended January 31, 2010 and the year ended July 31, 2009, transactions in common shares were as follows:

	Six Months Ended January 31, 2010	Year Ended July 31, 2009
Beginning Shares	180,010,000	180,010,000
Shares Repurchased	(10,100)	-0-
Ending Shares	179,999,900	180,010,000

The Board of Trustees have approved a share repurchase program whereby the Trust may, when appropriate, repurchase its shares in the open market or in privately negotiated transactions at a price not above market value or net asset value (NAV), whichever is lower at the time of purchase. For the six months ended January 31, 2010, the Trust repurchased 10,100 of its shares at an average discount of 10.50% from net asset value per share.

4. Investment Transactions

During the period, the cost of purchases and proceeds from investments sold and repaid, excluding short-term investments, were \$306,805,542 and \$275,048,611, respectively.

5. Commitments

Pursuant to the terms of certain Senior Loan agreements, the Trust had unfunded loan commitments of approximately \$58,345,900 as of January 31, 2010. The Trust intends to reserve against such contingent obligations by designating cash, liquid securities and liquid Senior Loans as a reserve. The unrealized depreciation on these commitments of \$6,379,396 as

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

of January 31, 2010 is reported as Unfunded Commitments on the Statement of Assets and Liabilities. As of January 31, 2010, the Trust held the following unfunded loan commitments:

Description	Type	Unfunded Commitment	Appreciation/ (Depreciation)
Ax Acquisition Corp.	Revolver	\$ 2,500,000	\$ (425,000)
Bright Horizons Family Solutions, Inc.	Revolver	4,160,000	(249,600)

		\$ 58,345,906	\$ (6,379,396)

6. Derivative Financial Instruments

A derivative financial instrument in very general terms refers to a security whose value is derived from the value of an underlying asset, reference rate or index.

The Trust may use derivative instruments for a variety of reasons, such as to attempt to protect the Trust against possible changes in the market value of its portfolio or to generate potential gain. All of the Trust's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

The Trust is subject to credit risk in the normal course of pursuing its investment objectives. The Trust may enter into credit default swaps to manage its exposure to the market or certain sectors of the market, to reduce its risk exposure to defaults of corporate and sovereign issuers, or to create exposure to corporate or sovereign issuers to which it is not otherwise exposed. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer

or index of issuers. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

stable or improves while the swap is outstanding. The seller in a credit default swap contract would be required to pay an agreed-upon amount to the buyer in the event of an adverse credit event of the issuer. This agreed-upon amount approximates the notional amount of the swap as disclosed in the table following the Portfolio of Investments and is estimated to be the maximum potential future payment that the seller could be required to make under the credit default swap contract. For the six months ended January 31, 2010, the average notional amount of credit default swap contracts entered into by the Trust acting as a buyer or seller of protection were \$0 and \$11,500,000, respectively. In the event of an adverse credit event, the seller generally does not have any contractual remedies against the issuer or any other third party. However, if a physical settlement is elected, the seller would receive the defaulted credit and, as a result, become a creditor of the issuer.

The current credit rating of each individual issuer is listed in the table following the Portfolio of Investments and serves as an indicator of the current status of the payment/ performance risk of the credit derivative. Alternatively, for credit default swaps on an index of credits, the quoted market prices and current values serve as an indicator of the current status of the payment/performance risk of the credit derivative. Generally, lower credit ratings and increasing market values, in absolute terms, represent a deterioration of the credit and a greater likelihood of an adverse credit event of the issuer.

The Trust accrues for the periodic fees on credit default swaps on a daily basis with the net amount accrued recorded within unrealized appreciation/depreciation of swap contracts. Upon cash settlement of the periodic fees, the net amount is recorded as realized gain/loss on swap contracts on the Statement of Operations. Net unrealized gains are recorded as an asset or net unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of the swap contracts is reported as unrealized gains or losses on the Statement of Operations. Upfront payments received or made upon entering into a credit default swap contract, if any, are recorded as realized gain or loss on the Statement of Operations upon termination or maturity of the swap. Credit default swaps may involve greater risks than if a trust had invested in the issuer directly. The Trust's maximum risk or loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk is mitigated by having a master netting arrangement between the Trust and the counterparty and by the posting of collateral by the counterparty to the Trust to cover the Trust's exposure to the counterparty.

The Trust may sell credit default swaps which expose it to risk of loss from credit risk related events specified in the contract. Although contract-specific, credit events are generally defined as bankruptcy, failure to pay, restructuring, obligation acceleration, obligation default, or repudiation/moratorium. As disclosed in the table following the Portfolio of Investments, the aggregate fair value of credit default swaps in a net liability position as of January 31, 2010 was \$5,584. The aggregate fair value of assets posted as collateral, net of assets received as collateral, for these swaps was \$50,000. If a defined credit event had occurred as of January 31, 2010, the swaps' credit-risk-related contingent features would have been triggered and the Trust would have been required to pay \$7,000,000 less the value of the contracts' related reference obligations.

Swap agreements are not entered into or traded on exchanges and there is no central clearing or guaranty function for swaps. Therefore, swaps are subject to the risk of default or non-performance by the counterparty. If there is a default by the counterparty to a swap agreement, the Trust will have contractual remedies pursuant to the agreements related to the transaction. Counterparties are required to pledge collateral daily (based on the valuation of

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

each swap) on behalf of the Trust with a value approximately equal to the amount of any unrealized gain. Reciprocally, when the Trust has an unrealized loss on a swap contract, the Trust has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Cash collateral is disclosed in the table following the Portfolio of Investments. Cash collateral has been offset against open swap contracts under the provisions of FASB ASC 210-20, *Offsetting* (formerly known as FASB Interpretation No. 39) and are included within Swap Contracts on the Statement of Assets and Liabilities. For cash collateral received, the Trust pays a monthly fee to the counterparty based on the effective rate for Federal Funds. This fee, when paid, is included within realized gain/loss on swap contracts on the Statement of Operations.

FASB ASC 815, *Derivatives and Hedging* (ASC 815) (formerly known as FAS 161), is intended to improve financial reporting about derivative instruments by requiring enhanced disclosures to enable investors to better understand how and why the Trust uses derivative instruments, how these derivative instruments are accounted for and their effects on the Trust's financial position and results of operations.

The following table sets forth the fair value of the Trust's derivative contracts by primary risk exposure as of January 31, 2010.

Primary Risk Exposure	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Credit Contracts	Swap Contracts	\$ 25,346	Swap Contracts	\$ (30,930)

The following tables set forth by primary risk exposure the Trust's realized gains/losses and change in unrealized appreciation/depreciation by type of derivative contract for the six months ended January 31, 2010.

Primary Risk Exposure	Amount of Realized Gain/(Loss) on Derivative Contracts	
		Swap Contracts
Credit Contracts		\$ 207,318

Primary Risk Exposure	Amount of Realized Appreciation/(Depreciation) on Derivative Contracts	
		Swap Contracts
Credit Contracts		\$ 432,632

7. Senior Loan Participation Commitments

The Trust invests primarily in participations, assignments, or acts as a party to the primary lending syndicate of a Variable Rate Senior Loan interest to United States and foreign corporations, partnerships, and other entities. When the Trust purchases a participation of a Senior Loan interest, the Trust typically enters into a contractual agreement with the lender or other third party selling the participation, but not with the borrower directly. As such, the

Van Kampen Senior Income Trust**Notes to Financial Statements n January 31, 2010 (Unaudited) continued**

Trust assumes the credit risk of the borrower, selling participant or other persons interpositioned between the Trust and the borrower.

At January 31, 2010, the following sets forth the selling participants with respect to interests in Senior Loans purchased by the Trust on a participation basis.

Selling Participant	Principal Amount (000)	Value (000)
Goldman Sachs Lending Partners	\$ 85	\$ 52

8. Borrowings

The Trust may utilize financial leverage to the maximum extent allowable under the 1940 Act. Under the 1940 Act, a Trust generally may not (i) borrow money greater than 331/3% of the Trust's total assets or (ii) issue preferred shares greater than 50% of the Trust's total assets. In using a combination of borrowing money and issuing preferred shares, the maximum allowable leverage is somewhere between 331/3% and 50% (but in no event more than 50%) of the Trust's total assets based on the relative amounts borrowed or preferred shares issued.

The Trust had entered into a \$625 million annual revolving credit and security agreement which closed on September 10, 2009. This revolving credit agreement was secured by the assets of the Trust. In connection with this agreement, for the period August 1, 2009 to September 10, 2009, the Trust incurred fees of approximately \$515,700 and had an average daily balance of borrowings under this agreement of \$41,707,317 with a weighted average interest rate of 0.70%.

On September 11, 2009, the Trust entered into a \$200 million revolving credit and security agreement. This revolving credit agreement is secured by the assets of the Trust. In connection with this agreement, for the period September 11, 2009 to January 31, 2010, the Trust incurred fees of approximately \$1,075,700 and had an average daily balance of borrowings under this agreement of \$88,433,566 with a weighted average interest rate of 0.49%. Effective January 6, 2010, an amendment to the revolving credit and security agreement increased the borrowing limit to \$300 million.

9. Preferred Shares Issuance

The Trust has outstanding 2,800 shares each of Series M, Series T, Series W, Series TH and Series F Auction Preferred Shares (APS), \$0.01 Par Value, \$25,000 liquidation preference, for a total issuance of \$350 million. Dividends are cumulative and the dividend rates are generally reset every seven days through an auction process. Beginning on February 12, 2008 and continuing through January 31, 2010, all series of preferred shares of the Trust were not successfully remarketed. As a result, the dividend rates of these preferred shares were reset to the maximum applicable rate on APS. The average rate in effect on January 31, 2010 was 1.708%. During the six months ended January 31, 2010, the rates ranged from 1.706% to 1.763%.

The Trust pays annual fees equivalent to 0.25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of the Preferred Share Maintenance expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to

Van Kampen Senior Income Trust

Notes to Financial Statements n January 31, 2010 (Unaudited) continued

certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

10. Indemnifications

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

11. Significant Event

On October 19, 2009, Morgan Stanley, the parent company of Van Kampen Investments Inc., announced that it has reached a definitive agreement to sell substantially all of its retail asset management business to Invesco Ltd. (the Transaction). The Transaction includes a sale of the part of the asset management business that advises funds, including the Van Kampen family of funds. The Transaction is subject to certain approvals and other conditions, and is currently expected to close in mid-2010.

Under the Investment Company Act of 1940, the closing of the Transaction will cause the Trust's current investment advisory agreement with Van Kampen Asset Management, a subsidiary of Van Kampen Investments Inc., to terminate. In connection with the Transaction, the Trust's Board of Trustees has approved a new investment advisory agreement (which includes a master subadvisory agreement) with Invesco Advisers, Inc., a subsidiary of Invesco Ltd. The new advisory agreement for the Trust (the Agreement) is subject to shareholder approval. The Agreement will be presented to shareholders of the Trust at a special meeting of shareholders.

12. Legal Matters

The Trust is one of numerous defendants (Lenders) that have been named in an adversary proceeding pending in the Bankruptcy Court of the Southern District of Florida (the Court). The action, entitled *In re Touse Inc., et al.*, was filed on July 15, 2008, by the Official Committee of Unsecured Creditors of home building companies to which the Lenders loaned money through different lending facilities. An amended complaint was filed on October 17, 2008. Plaintiff alleges that monies used to repay the Lenders should be avoided as fraudulent and preferential transfers under the bankruptcy laws. More specifically, Plaintiff alleges that subsidiaries of the home building companies were allegedly forced to become co-borrowers and guarantors of the monies used to repay the Lenders, and that the subsidiaries did not receive fair consideration or reasonably equivalent value when they transferred the proceeds to repay the Lenders. Plaintiff seeks to avoid the transfers and other equitable relief. The Trust and the other Lenders are named as defendants in two separate lending capacities; first, as lenders in a credit agreement (the Credit Lenders); and second, as lenders in a term loan (the Term Loan Lenders). The Trust, as Credit Lender, moved to dismiss the amended complaint. The Court denied the motion to dismiss on December 4, 2008. The Trust and the other Credit Lenders filed a motion for leave to appeal the dismissal, which was denied on February 23, 2009. Plaintiff thereafter filed a Second Amended Complaint that was superseded by a Third Amended Complaint. The Trust filed two answers to the Third Amended Complaint in its respective capacities as a Credit Lender and a Term Loan Lender. A court-ordered mediation took place in March 2009, but no resolution was reached. The case went to trial, which concluded in August 2009. On October 13, 2009, the Court found in favor of Plaintiff and ordered the Credit Lenders and Term Loan Lenders to disgorge any principal

Van Kampen Senior Income Trust

Notes to Financial Statements n January 31, 2010 (Unaudited) continued

received on the loans, plus interest, as well as any attorneys' fees. Additionally, the Court ordered that defendants post a bond for 110% of the ordered disgorged amounts, which was posted in December 2009. The respective Credit Lenders and Term Loan Lenders have appealed the judgment. The outcome of the appeal process is not expected until at least the fall of 2010.

The Trust is one of hundreds of defendants which include non-agent lender defendants that had been named in litigation filed by the Adelpia Recovery Trust (ART) in the U.S. District Court for the Southern District of New York in an action entitled *Adelpia Recovery Trust v. Bank of America, N.A., et al.* which alleged that a wide swath of financial institutions such as investment banks, agent lenders and non-agent lenders worked together to assist the Rigas family in its defrauding of Adelpia. The complaint by ART against the non-agent lenders stated certain claims including equitable disallowance, voidable preferences and fraudulent transfers and sought, among other remedies, to disallow and/or void certain transfers and repayments the non-agent lenders received in connection with loans made to Adelpia. The non-agent lenders, which include the Trust, moved to dismiss all claims against them. The motions to dismiss all claims against the non-agent lenders were granted in June, 2008 and final judgment was entered in December 2008. ART appealed the judgment to the United States Court of Appeals for the Second Circuit in July 2009. The outcome of the appeal is not expected until sometime in 2010.

In management's opinion, there is no material impact to the Trust as a result of these legal matters.

13. Accounting Pronouncement

On January 21, 2010, the FASB issued an Accounting Standards Update, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*, which provides guidance on how investment assets and liabilities are to be valued and disclosed. Specifically, the amendment requires reporting entities to disclose i) the input and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements, for Level 2 or Level 3 positions ii) transfers between all levels (including Level 1 and Level 2) will be required to be disclosed on a gross basis (i.e. transfers out must be disclosed separately from transfers in) as well as the reason(s) for the transfer and iii) purchases, sales, issuances and settlements must be shown on a gross basis in the Level 3 rollforward rather than as one net number. The effective date of the amendment is for interim and annual periods beginning after December 15, 2009. However, the requirement to provide the Level 3 activity for purchases, sales, issuances and settlements on a gross basis will be effective for interim and annual periods beginning after December 15, 2010. At this time, management is evaluating the implications of the amendment to ASC 820 and the impact it will have on financial statement disclosures.

14. Subsequent Event

The Trust redeemed 1,200 shares each of Series M, Series, T, Series W, Series TH and Series F APS. The redemptions occurred from February 8, 2010 to February 12, 2010 and totaled \$150,000,000.

Van Kampen Senior Income Trust
An Important Notice Concerning Our
U.S. Privacy Policy

We are required by federal law to provide you with a copy of our privacy policy (Policy) annually.

This Policy applies to current and former individual clients of Van Kampen Funds Inc., and Van Kampen Investor Services Inc., as well as current and former individual investors in Van Kampen mutual funds and related companies.

This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders, nor is this Policy applicable to individuals who are either beneficiaries of a trust for which we serve as trustee or participants in an employee benefit plan administered or advised by us. This Policy is, however, applicable to individuals who select us to be a custodian of securities or assets in individual retirement accounts, 401(k) accounts, 529 Educational Savings Accounts, accounts subject to the Uniform Gifts to Minors Act, or similar accounts. We may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

We Respect Your Privacy

We appreciate that you have provided us with your personal financial information and understand your concerns about safeguarding such information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what nonpublic personal information we collect about you, how we collect it, when we may share it with others, and how others may use it. It discusses the steps you may take to limit our sharing of information about you with affiliated Van Kampen companies (affiliated companies). It also discloses how you may limit our affiliates' use of shared information for marketing purposes. Throughout this Policy, we refer to the nonpublic information that personally identifies you or your accounts as personal information.

1. What Personal Information Do We Collect About You?

To better serve you and manage our business, it is important that we collect and maintain accurate information about you. We obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our websites and from third parties and other sources. For example:

We collect information such as your name, address, e-mail address, telephone/fax numbers, assets, income and investment objectives through application forms you submit to us.

Van Kampen Senior Income Trust
An Important Notice Concerning Our
U.S. Privacy Policy *continued*

We may obtain information about account balances, your use of account(s) and the types of products and services you prefer to receive from us through your dealings and transactions with us and other sources.

We may obtain information about your creditworthiness and credit history from consumer reporting agencies.

We may collect background information from and through third-party vendors to verify representations you have made and to comply with various regulatory requirements.

If you interact with us through our public and private Web sites, we may collect information that you provide directly through online communications (such as an e-mail address). We may also collect information about your Internet service provider, your domain name, your computer's operating system and Web browser, your use of our Web sites and your product and service preferences, through the use of cookies. Cookies recognize your computer each time you return to one of our sites, and help to improve our sites' content and personalize your experience on our sites by, for example, suggesting offerings that may interest you. Please consult the Terms of Use of these sites for more details on our use of cookies.

2. When Do We Disclose Personal Information We Collect About You?

To provide you with the products and services you request, to better serve you, to manage our business and as otherwise required or permitted by law, we may disclose personal information we collect about you to other affiliated companies and to nonaffiliated third parties.

a. Information We Disclose to Our Affiliated Companies. In order to manage your account(s) effectively, including servicing and processing your transactions, to let you know about products and services offered by us and affiliated companies, to manage our business, and as otherwise required or permitted by law, we may disclose personal information about you to other affiliated companies. Offers for products and services from affiliated companies are developed under conditions designed to safeguard your personal information.

b. Information We Disclose to Third Parties. We do not disclose personal information that we collect about you to nonaffiliated third parties except to enable them to provide marketing services on our behalf, to perform joint marketing agreements with other financial institutions, and as otherwise required or permitted by law. For example, some instances where we may disclose information about you to third

parties include: for servicing and processing transactions, to offer our own products and services, to protect against fraud, for institutional risk control, to respond to judicial process or to perform services on our behalf. When we share personal information with a nonaffiliated third party, they are required to limit their use of personal information about you to the particular purpose for which it was shared and they are not allowed to share personal information about you with others except to fulfill that limited purpose or as may be required by law.

3. How Do We Protect The Security and Confidentiality Of Personal Information We Collect About You?

We maintain physical, electronic and procedural security measures to help safeguard the personal information we collect about you. We have internal policies governing the proper handling of client information. Third parties that provide support or marketing services on our behalf may also receive personal information about you, and we require them to adhere to confidentiality standards with respect to such information.

4. How Can You Limit Our Sharing Of Certain Personal Information About You With Our Affiliated Companies For Eligibility Determination?

We respect your privacy and offer you choices as to whether we share with our affiliated companies personal information that was collected to determine your eligibility for products and services such as credit reports and other information that you have provided to us or that we may obtain from third parties (eligibility information). Please note that, even if you direct us not to share certain eligibility information with our affiliated companies, we may still share your personal information, including eligibility information, with those companies under circumstances that are permitted under applicable law, such as to process transactions or to service your account. We may also share certain other types of personal information with affiliated companies such as your name, address, telephone number, e-mail address and account number(s), and information about your transactions and experiences with us.

5. How Can You Limit the Use of Certain Personal Information About You by our Affiliated Companies for Marketing?

You may limit our affiliated companies from using certain personal information about you that we may share with them for marketing their products or services to you. This information includes our transactions and other experiences with you such as your

assets and account history. Please note that, even if you choose to limit our affiliated companies from using certain personal information about you that we may share with them for marketing their products and services to you, we may still share such personal information about you with them, including our transactions and experiences with you, for other purposes as permitted under applicable law.

6. How Can You Send Us an Opt-Out Instruction?

If you wish to limit our sharing of certain personal information about you with our affiliated companies for eligibility purposes and for our affiliated companies use in marketing products and services to you as described in this notice, you may do so by:

Calling us at (800) 847-2424
Monday-Friday between 8 a.m. and 8 p.m. (EST)

Writing to us at the following address:
Van Kampen Privacy Department
Harborside Financial Center, Plaza Two, 3rd Floor
Jersey City, NJ 07311

If you choose to write to us, your written request should include: your name, address, telephone number and account number(s) to which the opt-out applies and should not be sent with any other correspondence. In order to process your request, we require that the request be provided by you directly and not through a third party. Once you have informed us about your privacy preferences, your opt-out preference will remain in effect with respect to this Policy (as it may be amended) until you notify us otherwise. If you are a joint account owner, we will accept instructions from any one of you and apply those instructions to the entire account. Please allow approximately 30 days from our receipt of your opt-out for your instructions to become effective.

Please understand that if you opt-out, you and any joint account holders may not receive certain Van Kampen or our affiliated companies products and services that could help you manage your financial resources and achieve your investment objectives.

If you have more than one account with us or our affiliates, you may receive multiple privacy policies from us, and would need to follow the directions stated in each particular policy for each account you have with us.

SPECIAL NOTICE TO RESIDENTS OF VERMONT

This section supplements our Policy with respect to our individual clients who have a Vermont address and supersedes anything to the contrary in the above Policy with respect to those clients only.

The State of Vermont requires financial institutions to obtain your consent prior to sharing personal information that they collect about you with affiliated companies and nonaffiliated third parties other than in certain limited circumstances. Except as permitted by law, we will not share personal information we collect about you with nonaffiliated third parties or other affiliated companies unless you provide us with your written consent to share such information (opt-in).

If you wish to receive offers for investment products and services offered by or through other affiliated companies, please notify us in writing at the following address:

Van Kampen Privacy Department
Harborside Financial Center, Plaza Two, 3rd Floor
Jersey City, NJ 07311

Your authorization should include: your name, address, telephone number and account number(s) to which the opt-in applies and should not be sent with any other correspondence. In order to process your authorization, we require that the authorization be provided by you directly and not through a third-party.
