To Be Held On June 9, 2010**

This Proxy Statement is being furnished to the stockholders of Big 5 Sporting Goods Corporation, a Delaware corporation (the Company), in connection with the solicitation of proxies by the Company's Board of Directors for use at the Annual Meeting of the Company's stockholders to be held on June 9, 2010 at 10:00 a.m. local time at the Ayres Hotel, 14400 Hindry Avenue, Hawthorne, California 90250, and at any adjournments or postponements thereof (the Annual Meeting).

This Proxy Statement and the accompanying Proxy Card are first being mailed to the Company's stockholders on or about May 3, 2010. The address of the principal executive offices of the Company is 2525 East El Segundo Boulevard, El Segundo, California 90245.

Important Notice Regarding Availability of Proxy Materials for the 2010 Annual Meeting of Stockholders to be Held on June 9, 2010.

ANNUAL MEETING

Record Date; Outstanding Shares; Quorum

Only holders of record of the Company's common stock at the close of business on April 26, 2010 (the Record Date) will be entitled to notice of and to vote at the Annual Meeting. As of the close of business on the Record Date, there were 21,756,162 shares of common stock outstanding and entitled to vote, held of record by 281 stockholders. A majority, or 10,878,082 of these shares, present in person or represented by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. Each of the Company's stockholders is entitled to one vote, in person or by proxy, for each share of common stock standing in such stockholder's name on the books of the Company as of the Record Date on any matter submitted to the stockholders.

Voting of Proxies; Votes Required

Stockholders are requested to complete, date, sign and return the accompanying Proxy Card in the enclosed envelope. All properly executed, returned and unrevoked Proxy Cards will be voted in accordance with the instructions indicated thereon. Executed but unmarked Proxy Cards will be voted FOR the election of each director nominee listed on the Proxy Card and FOR the ratification of the appointment of Deloitte & Touche LLP as independent auditors for fiscal 2010. The Company's Board of Directors does not presently intend to bring any business before the Annual Meeting other than that referred to in this Proxy Statement and specified in the Notice of the Annual Meeting. By signing the Proxy Cards, stockholders confer discretionary authority on the proxies (who are persons designated by the Board of Directors) to vote all shares covered by the Proxy Cards in their discretion on any other matter that may properly come before the Annual Meeting, including any motion made for adjournment of the Annual Meeting.

Table of Contents

Any stockholder who has given a proxy may revoke it at any time before it is exercised at the Annual Meeting by (i) delivering a written revocation notice to the Secretary of Big 5 Sporting Goods Corporation, 2525 East El Segundo Boulevard, El Segundo, California 90245, (ii) submitting a subsequent valid Proxy Card or (iii) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not, by itself, revoke a proxy). Any notice of revocation sent to the Company must include the stockholder's name.

Elections of directors are determined by a plurality of shares of common stock represented in person or by proxy and voting at the Annual Meeting. Affirmative votes representing a majority of the votes cast FOR or AGAINST with respect to Proposal 2 in person or by proxy and entitled to vote at the Annual Meeting will be required to ratify the appointment of Deloitte & Touche LLP as the Company's independent auditors for its 2010 fiscal year.

Broker Non-Votes; Withheld Votes; Abstentions

If an executed proxy is returned by a broker holding shares in street name that indicates that the broker does not have discretionary authority as to certain shares to vote on one or more matters, such shares will be considered present at the meeting for purposes of determining a quorum on all matters, but will not be considered to be votes cast with respect to such matters. Therefore, broker non-votes will have no effect on the outcome of the election of directors or on the outcome of Proposal 2. In addition, in the election of directors, a stockholder may withhold such stockholder's vote. Any such stockholder's shares will be counted as present at the meeting for purposes of determining a quorum on all matters, but such withheld votes will be excluded from the vote and will have no effect on the outcome of such election. In addition, a stockholder may vote to abstain on Proposal 2 or on any other proposals which may properly come before the Annual Meeting. If a stockholder votes to abstain on Proposal 2, such stockholder's shares will be counted as present at the meeting for purposes of determining a quorum on all matters, but will have no effect on the outcome of Proposal 2.

Solicitation of Proxies and Expenses

This proxy solicitation is made by the Company, and the Company will bear the cost of the solicitation of proxies from its stockholders. The directors, officers and employees of the Company may solicit proxies by mail, telephone, telegram, letter, facsimile, via the Internet or in person. Following the original mailing of the proxies and other soliciting materials, the Company will request that brokers, custodians, nominees and other record holders forward copies of the Proxy Statement and other soliciting materials to persons for whom they hold shares of common stock and request authority for the exercise of proxies. In such cases, the Company will reimburse such record holders for their reasonable expenses.

Table of Contents**PROPOSAL 1****ELECTION OF DIRECTORS
(Item No. 1 on Proxy Card)****General**

The Board of Directors consists of three classes, consisting of Class A directors, Class B directors and Class C directors. The current terms of office of the Class A directors, Class B directors and Class C directors expire in the year 2012 (Class A), the year 2010 (Class B) and the year 2011 (Class C). The terms of the Class B directors elected at the Annual Meeting will expire in 2013. Directors are elected to three-year terms. Each director holds office until such director's successor is duly elected and qualified. At each annual meeting of stockholders, directors elected to succeed those directors whose terms then expire will be elected for a term of office expiring at the third succeeding annual meeting of stockholders of the Company after their election, with each director to hold office until his or her successor shall have been duly elected and qualified.

Only members of Class B, Ms. Sandra N. Bane and Dr. Michael D. Miller, are nominees for election to the Board of Directors at the Annual Meeting. Each Class B director elected will hold office until the 2013 annual meeting of stockholders (and until such director's successor shall have been duly elected and qualified). Both of the nominees currently serve on the Board of Directors of the Company.

Each proxy received will be voted for the election of the nominees named below, unless the stockholder signing such proxy withholds authority to vote for one or more of these nominees in the manner described in the proxy. Although it is not contemplated that any nominee named below will decline or be unable to serve as a director, in the event any nominee declines or is unable to serve as a director, the proxies will be voted by the proxy holders as directed by the Board of Directors. Broker non-votes in the election of directors will not be counted as voting at the meeting and therefore will not have an effect on the election of the nominees listed below. Withheld votes will also have no effect on the election of the nominees. The two nominees receiving the highest number of votes from holders of shares of common stock represented and voting at the Annual Meeting will be elected to the Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ELECTION OF THE BOARD OF DIRECTORS NOMINEES.

Except as set forth below, there are no family relationships between any director, nominee or executive officer and any other director, nominee or executive officer of the Company. Except as disclosed under Executive and Director Compensation and Related Matters Employment Agreements and Change in Control Provisions, there are no arrangements or understandings between any director, nominee or executive officer and any other person pursuant to which such person has been or will be selected as a director and/or executive officer of the Company (other than arrangements or understandings with any such director, nominee and/or executive officer acting in such person's capacity as such).

Board Meetings, Board Committees and Board Structure

The Board of Directors of the Company held four meetings during the fiscal year ended January 3, 2010 and acted by unanimous written consent on two occasions. During the fiscal year ended January 3, 2010, each incumbent director of the Company attended at least 75% of the aggregate of (i) the total number of meetings of the Board of Directors, and (ii) the total number of meetings of the committees on which such director served (in each case, during the periods that such director served). It is the policy of the Board of Directors that directors who are nominees for election to the Board of Directors at the Company's annual meeting of stockholders should attend such annual meeting, except in the case of extenuating or exceptional circumstances. G. Michael Brown, Jennifer Holden Dunbar, Michael D. Miller and Steven G. Miller attended the Company's 2009 annual meeting of stockholders.

Each director holds office until such director's successor is duly elected and qualified. It is the policy of the Board of Directors that a majority of the Board of Directors shall be independent as that term is defined in Marketplace Rule 4200(a)(15) of the Nasdaq Stock Market's listing standards. The Board of Directors has determined that Sandra N. Bane, G. Michael Brown, Jennifer Holden Dunbar and David R. Jessick, each of whom is a current member of the Board of Directors, are independent.

Executive Sessions of Independent Directors

To promote open discussion among the independent directors, the independent directors meet in executive session at least two times per year, either before or after regularly-scheduled board meetings. The Chair of the Audit Committee presides at these executive sessions. Any independent director may request that an executive session of the independent members of the Board of Directors be scheduled. Following such meetings, the Chair of the Audit

Table of Contents

Committee (or another designated director) will discuss with the Chairman of the Board and Chief Executive Officer, to the extent appropriate, matters emanating from the executive sessions. The independent directors met twice during the fiscal year ended January 3, 2010.

Audit Committee

The Board of Directors has a standing Audit Committee, separately-designated and established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the Exchange Act), which currently consists of Ms. Bane, Ms. Dunbar and Mr. Jessick. The Audit Committee has been chaired by Mr. Jessick since April 2008. The Board of Directors has determined that each of the members of the Audit Committee is independent as that term is defined in Marketplace Rule 4200(a)(15) of the Nasdaq Stock Market's listing standards and meets the additional audit committee independence requirements set forth in Marketplace Rule 4350(d)(2) of the Nasdaq Stock Market's listing standards. The Board of Directors has determined that Mr. Jessick and Ms. Bane each qualifies as an audit committee financial expert as defined in the rules of the Securities and Exchange Commission.

On February 10, 2004, the Board of Directors adopted an amended and restated written charter for the Audit Committee to comply with the requirements of the Sarbanes-Oxley Act of 2002, as well as the requirements of the Securities and Exchange Commission and the Nasdaq Stock Market.

Among other things, the functions of the Audit Committee are to:

be directly responsible for the appointment, compensation, retention and oversight of the work of any registered public accounting firm engaged by the Company (including resolution of disagreements between management and the auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company;

pre-approve all audit and permissible non-audit services to be performed for the Company by its registered public accounting firm in accordance with the provisions of § 10A(i) of the Exchange Act;

establish procedures for (a) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters and (b) the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing matters;

review and discuss with the Company's management and independent auditors the Company's audited financial statements, including the adequacy and effectiveness of the Company's internal accounting controls;

discuss with the Company's management and independent auditors any significant changes to the Company's accounting principles;

review the independence and performance of the Company's independent auditors; and

review from time to time and make recommendations with respect to the Company's policies relating to management conduct and oversee procedures and practices to ensure compliance with such policies.

The charter for the Audit Committee can be found on the Company's website at www.big5sportinggoods.com. To locate the charter, go to the Investor Relations section of the website and click on Corporate Governance.

The Audit Committee held four meetings during the fiscal year ended January 3, 2010, and acted once by unanimous written consent.

Compensation Committee

The Board of Directors has a standing Compensation Committee, which is chaired by G. Michael Brown and currently consists of Mr. Brown, Ms. Bane and Ms. Dunbar. Each of the members of the Compensation Committee is independent within the meaning of Marketplace Rule 4200(a)(15) of the Nasdaq Stock Market's listing standards. Ms. Bane and Ms. Dunbar each is a non-employee director within the meaning of Rule 16b-3 of the

Table of Contents

Exchange Act, and an outside director within the meaning of Section 162(m) of the Internal Revenue Code. Mr. Brown is a partner at the law firm of Musick, Peeler & Garrett LLP, which from time to time is retained by the Company to handle various litigation matters, and for this reason is not a non-employee director or an outside director. Among other things, the function of the Compensation Committee is to review and determine the compensation and benefits of the Company's executive officers and to administer the Company's 2007 Equity and Performance Incentive Plan. Grants of stock options and restricted stock under the plan to, and compensation for, executive officers are approved by Ms. Bane and Ms. Dunbar, with Mr. Brown either recusing himself or abstaining. The Compensation Committee held five meetings during the fiscal year ended January 3, 2010.

The Compensation Committee may, to the extent permitted by applicable laws and regulations, form and delegate any of its responsibilities to a subcommittee so long as such subcommittee consists of at least two members of the Compensation Committee. The Compensation Committee has not formed any such subcommittees to date. In carrying out its purposes and responsibilities, the Compensation Committee has authority to retain outside counsel or other experts or consultants, as it deems appropriate. The Compensation Committee has not historically used outside consultants in making compensation determinations, other than in connection with its design of the 2007 Equity and Performance Incentive Plan. The Compensation Committee periodically receives and considers, to the extent it considers appropriate, recommendations from our Chief Executive Officer, Mr. Miller, in connection with its compensation decisions.

The charter for the Compensation Committee can be found on the Company's website at www.big5sportinggoods.com. To locate the charter, go to the Investor Relations section of the website and click on Corporate Governance.

Nominating Committee

The Board of Directors has a standing Nominating Committee, which is chaired by Jennifer Holden Dunbar and currently consists of Ms. Dunbar and Mr. Jessick. Each of the members of the Nominating Committee is independent within the meaning of Marketplace Rule 4200(a)(15) of the Nasdaq Stock Market's listing standards. Among other things, the function of the Nominating Committee is to identify, screen, review and recommend to the Board of Directors individuals qualified to be nominated for election to the Board and to fill vacancies or newly created positions on the Board consistent with criteria approved by the Board, as well as to recommend to the Board directors to serve on each Board committee. The Nominating Committee held two meetings during the fiscal year ended January 3, 2010.

Director Qualifications and Nominations Process

It is the policy of the Board of Directors that, in addition to being approved by a majority of the Board of Directors, each nominee must first be recommended by the Nominating Committee.

The policy of the Nominating Committee is to recommend and encourage the selection of directors who have achieved success in their personal fields and who demonstrate integrity and high personal and professional ethics, sound business judgment and willingness to devote the requisite time to their duties as director, and who will contribute to the overall corporate goals of the Company. Candidates are evaluated and selected based on their individual merit, as well as in the context of the needs of the Board of Directors as a whole. In evaluating the suitability of individual candidates for election or re-election to the Board of Directors, the Nominating Committee and the Board of Directors take into account many factors, including understanding of the retail sporting goods industry, sales and marketing, finance and other elements relevant to the Company's business, educational and professional background, age, and past performance as a director. The Nominating Committee and the Board of Directors evaluate each individual in the context of the composition and needs of the Board of Directors as a whole, including the independence requirements imposed by the Nasdaq Stock Market and the Securities and Exchange

Commission, with the objective of recommending a group that can best perpetuate and build on the success of the business and represent stockholder interests. The Nominating Committee strives to compose the Board of Directors to be a collection of individuals with a variety of complementary skills who, as a group, possess the appropriate skills and experience to oversee the Company's business. Accordingly, although diversity may be a consideration in the nominations process, the Nominating Committee and the Board of Directors do not have a formal policy with

Table of Contents

regard to the consideration of diversity in identifying director nominees. In determining whether to recommend a director for re-election, the Nominating Committee and the Board of Directors also consider the director's past attendance at, and participation in, meetings of the Board of Directors and its committees and contributions to its activities. The Nominating Committee and the Board of Directors use the Board's network of contacts to compile a list of potential candidates, but may also engage, if they deem appropriate, a professional search firm.

The charter for the Nominating Committee can be found on the Company's website at www.big5sportinggoods.com. To locate the charter, go to the Investor Relations section of the website and click on Corporate Governance.

Stockholders who have beneficially owned more than five percent of the Company's then-outstanding shares of common stock for a period of at least one year as of the date of making the proposal may propose candidates for consideration by the Nominating Committee and the Board of Directors by submitting the names and supporting information to: Big 5 Sporting Goods Corporation, Attention: Secretary, 2525 East El Segundo Blvd, El Segundo, CA 90245-4632. A stockholder recommendation for nomination must be submitted in accordance with the Company's Amended and Restated Bylaws and must contain the following information about the proposed nominee, as well as documentary support that the stockholder satisfies the requisite stock ownership threshold and holding period: name, age, business and residence addresses, principal occupation or employment, the number of shares of the Company's common stock held by the nominee, a resume of his or her business and educational background, the information that would be required under the Securities and Exchange Commission's rules in a proxy statement soliciting proxies for the election of such nominee as a director, and a signed consent of the nominee to serve as a director, if nominated and elected. Neither the Nominating Committee nor the Board of Directors intends to alter the manner in which it evaluates candidates, including the criteria set forth above, based on whether the candidate was recommended by a stockholder.

Board Leadership Structure

Steven G. Miller serves as both the Chief Executive Officer and the Chairman of the Board. Given Mr. Miller's long standing association with the Company, and his extensive knowledge of and experience with the retail sporting goods industry, the Board of Directors believes that Mr. Miller's service as both Chairman of the Board and Chief Executive Officer is in the best interest of the Company and its stockholders. The Board believes that Mr. Miller's extensive experience provides him with detailed and in-depth knowledge of the Company's business and industry and the issues facing the Company, and that he is thus best positioned to develop agendas that ensure that the Board's time and attention are focused on the most critical matters.

The Board believes that his combined role enables decisive leadership, ensures clear accountability, and enhances the Company's ability to communicate its message and strategy clearly and consistently to the Company's stockholders, employees, vendors and customers.

Although the Board of Directors believes that the combination of the Chairman and Chief Executive Officer roles is appropriate in the current circumstances, it has not established this approach as a formal policy.

Risk Oversight

The Board of Directors is actively involved in oversight of significant risks that could affect the Company. The Board satisfies this responsibility through reports by each committee chair (principally, the Audit Committee chair) regarding such committee's considerations and actions, as well as through regular reports directly from the officers responsible for oversight of risks within the Company.

The Audit Committee has the responsibility to review with management the Company's (1) policies governing the process by which risk assessment and risk management are undertaken and (2) major financial risk exposures and the steps management has taken to monitor and control such exposures. In carrying out this responsibility, the Audit Committee works closely with management, including the Manager of Internal Audit. The Audit Committee meets at least quarterly with members of management, including the Manager of Internal Audit, and, among other things, receives an update on management's assessment of risk exposures (including risks related to liquidity, credit, and operations, among others).

Table of Contents

In addition to the Audit Committee, the other committees of the Board consider the risks within their areas of responsibility. For example, the Compensation Committee considers the risks that may be implicated by our executive compensation programs. The Company does not believe that risks relating to its compensation policies and practices are reasonably likely to have a material adverse effect on the Company.

Audit Committee Report

The Company's management has primary responsibility for the Company's financial statements and overall reporting process, including the Company's system of internal control over financial reporting and assessing the effectiveness of internal control over financial reporting. The Company's independent registered public accounting firm audits the annual financial statements prepared by management, expresses an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discusses with the Audit Committee any issues that the independent registered public accounting firm believes should be brought to its attention. The Audit Committee oversees and monitors the Company's financial reporting process and the quality of its internal and external audit process.

The Audit Committee has reviewed the Company's audited financial statements for the fiscal year ended January 3, 2010 and the notes thereto and discussed such financial statements with management and Deloitte & Touche LLP, the Company's independent registered public accounting firm, acting as the Company's independent auditors. Management has represented to the Audit Committee that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee has discussed with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (as amended), which includes, among other items, the independent auditors' responsibilities, any significant issues arising during the audit and any other matters related to the conduct of the audit of the Company's financial statements. The Audit Committee also discussed with Deloitte & Touche LLP such other matters as are required to be discussed by other standards of the Public Company Accounting Oversight Board (United States), rules of the Securities and Exchange Commission and other applicable regulations.

The Audit Committee has received the written disclosures and correspondence from Deloitte & Touche LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding Deloitte & Touche LLP's communications with the Audit Committee concerning independence, and has discussed with Deloitte & Touche LLP its independence from the Company.

The Audit Committee also reviewed management's report on its assessment of the effectiveness of the Company's internal control over financial reporting and the independent registered public accounting firm's report on the effectiveness of the Company's internal control over financial reporting.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for its audit. The Audit Committee meets at least quarterly with the independent registered public accounting firm, with and without management present, to discuss the results of its review or examination, its evaluation of the Company's internal control, including internal control over financial reporting, and the overall quality of the Company's financial reporting.

Conclusion

Based on the review and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors that the Company's audited financial statements and management's assessment of effectiveness of the Company's internal control over financial reporting be included in the Company's Annual Report on Form 10-K for the fiscal year ended January 3, 2010 for filing with the Securities and Exchange Commission.

EXECUTIVE AND DIRECTOR COMPENSATION AND RELATED MATTERS

Compensation Discussion and Analysis

General

Attracting, motivating and retaining well-qualified executives are essential to the success of any company. We believe that our business and the interests of our shareholders are best served by continuity and stability of our management team. In the retail sporting goods industry, the market for top executive talent is highly competitive. Accordingly, the goals of our compensation program are to encourage retention of top executives who may have attractive opportunities at other companies, to provide significant rewards for successful performance, particularly over the longer term, and to align executive officers' interests with those of the stockholders. We believe these goals can be achieved by a program of executive compensation which stresses long-term incentives and which is stable and consistent over time. Our executive compensation program therefore has varied very little over the past ten years. We believe that our executive compensation policy has been successful in encouraging retention, because our executive officers have an average tenure of 28 years with us.

Our compensation decisions are made by the Compensation Committee, which is composed entirely of independent members of our Board of Directors. The Compensation Committee's philosophy is to provide a compensation package that attracts, motivates and retains executive talent and aligns the interests of management with those of the stockholders. Specifically, the objectives of the Compensation Committee's practices are to (1) provide a total compensation program that is competitive with companies with whom we compete for talent, (2) link short term incentives to financial performance, (3) provide long term compensation that focuses management's efforts on building stockholder value and aligning their interests with our stockholders and (4) promote stability and retention of our management team.

The Compensation Committee receives recommendations from our President and Chief Executive Officer, or our Principal Executive Officer, and considers factors such as publicly-available information on executive compensation, including industry comparisons and competitive data, each executive's role and responsibilities, and the responsibility levels of the executives relative to one another. Our Chief Executive Officer does not participate in the deliberations of the Compensation Committee with respect to setting his compensation.

When making its compensation decisions, the Compensation Committee has not targeted compensation to specific benchmarks against any peer group companies. The Compensation Committee and our Chief Executive Officer believe it is difficult to establish a group of peer companies that is representative of the Company's business, management structure and management experience for a truly comparative benchmarking. In addition, the

Compensation Committee and the Chief Executive Officer believe that targeting compensation solely to specific benchmarks against peer group companies would necessarily not reflect any differences in the specific performance or differing experience levels and operational responsibilities of the individual Named Executive Officers, any differences in the overall performance of the peer group companies or any additional factors affecting compensation decisions.

Table of Contents

Nonetheless, in the course of his diligence effort toward arriving at his recommendations to the Compensation Committee, the Chief Executive Officer has, in the past, identified for the Compensation Committee various companies whose compensation levels he determines to be relevant to ensure that the Company's compensation levels are not materially inconsistent with market practice of competitors and similarly-situated companies, recognizing and taking into account the fact that the level of experience of the Company's executives typically exceeds the experience of executives in comparable positions at these peer companies. In that regard, for purposes of determining the 2008 base salaries (which, as discussed below, were carried over and frozen for 2009), the Chief Executive Officer looked at past proxy statements and other public information available for certain publicly-traded retail companies including Cabela's Incorporated, Dick's Sporting Goods, Inc., The Finish Line, Inc., Hibbett Sports, Inc., Shoe Carnival, Inc., and Sport Chalet, Inc. In the Chief Executive Officer's and the Compensation Committee's view, these companies represented certain key competitors in the sporting goods retail industry as well as certain similarly situated specialty retailers in terms of geographic location and size. As indicated above, neither the Compensation Committee nor the Chief Executive Officer attempts to formulaically tie the Company's compensation levels to those of any of these peer group companies. Instead, the data is used only to inform the Chief Executive Officer and the Compensation Committee regarding general market practice in order to allow them to assess the reasonableness of the Company's compensation practices over time.

Further, the Compensation Committee does not establish any specific quantitative company or individual performance objectives, or any predetermined qualitative performance objectives, that must be achieved in order for a Named Executive Officer to earn any portion of his compensation. The Compensation Committee's decision regarding annual base salaries, any option grants or other equity awards and any annual incentive bonus received by each Named Executive Officer is a subjective one that is made by the Compensation Committee in its discretion after an overall assessment of all of the factors it deems appropriate. Factors that have historically been considered by the Compensation Committee when determining compensation to be paid to each Named Executive Officer include the Company's overall financial performance in the prior year, the executive's individual performance of his duties as evaluated in the subjective discretion of the Compensation Committee and the Chief Executive Officer, cost of living increases and the Chief Executive Officer's recommendations.

For example, with respect to Company performance, although there were no performance objectives pre-established by the Compensation Committee for purposes of determining compensation, in determining the annual salaries for 2008, the members of the Compensation Committee took into account the 2007 decline in same store sales and EBITDA. Consequently, the percentage year over year increases in annual base salary for the 2008 year were less than in prior years, and annual bonuses for 2007 (i.e., bonuses determined and paid in March 2008) were reduced in comparison to those for 2006. Further, the base salaries for 2009 were frozen at 2008 levels in light of the Company's 2008 financial performance and the continuing weakness in the consumer spending environment, and bonuses for 2008 were substantially reduced in comparison to those for 2007 and prior years in light of the decline in the Company's EBITDA in 2008.

In addition, with respect to individual performance, the Chief Executive Officer interacts with all of the other Named Executive Officers on a near daily basis throughout the year, and his subjective views on each such officer's performance are reflected in his recommendations to the Compensation Committee. Furthermore, members of the Compensation Committee (while serving on the Compensation Committee, other Board committees or while attending meetings and functions of the Company's Board of Directors generally) also interact frequently with the Chief Executive Officer and certain other Named Executive Officers, and have available other data relating to the performance of the business units or functions for which each Named Executive Officer is responsible. As a result, the Compensation Committee members also form their own subjective views on each executive's performance throughout the year, and these assessments, along with the Chief Executive Officer's recommendations, are considered in setting overall and relative salary and bonus levels and equity grants. Using those assessments, the Compensation Committee will, at the Chief Executive Officer's recommendation or when it otherwise deems it appropriate, modify compensation

levels to reflect individual performance. However, we note that, other than Mr. Emerson, each of the Company's Named Executive Officers have been with the Company for at least 12 years, and they collectively have an average term of service of 33 years. Consequently, the Company believes that, as a practical matter, the skills, scope of duties and relative contributions of these officers tend to be more consistent from year to year in comparison to the executive officers of companies for which there has been more turnover.

Table of Contents

Accordingly, the year over year compensation levels, and the compensation levels of our executive officers relative to one another, tend to reflect that fact. However, in prior years the Compensation Committee did put substantial weight on Mr. Emerson's performance following his hiring in 2005 and accordingly raised his relative overall compensation substantially in 2006 and 2007.

The Compensation Committee retained an independent compensation consultant, Frederic W. Cooke & Co., Inc., in designing our 2007 Equity and Performance Incentive Plan (the 2007 Plan), but the Compensation Committee has not otherwise used outside consultants in making compensation determinations.

Internal Revenue Code Section 162(m) generally disallows a tax deduction to reporting companies for compensation over \$1,000,000 paid to each of the company's chief executive officer and the four other most highly compensated officers, except for compensation that is performance based. Section 162(m) has not been a factor in the design of our executive compensation program because the compensation of our executives other than our President and Chief Executive Officer has not approached \$1,000,000, and the compensation of our President and Chief Executive Officer, except for stock options which are performance based compensation, has exceeded \$1,000,000 only by a minor amount.

Elements of Compensation

Salary

Our Compensation Committee generally reviews the base salaries of our Named Executive Officers annually. The salaries of our Named Executive Officers are determined in the sole discretion of the Compensation Committee, after receiving recommendations from our Principal Executive Officer. As noted above, the Compensation Committee considers individual and Company performance, as well as factors such as publicly-available information on executive compensation, including industry comparisons and competitive data, each executive's role and responsibilities, and the responsibility levels of the executives relative to one another. We believe that the salaries of our Named Executive Officers are at or below the median of salaries paid by other companies in the market with whom we compete for talent. Because of the then economic conditions and the Company's 2007 and 2008 financial performance, our Compensation Committee elected to freeze base salaries of our Named Executive Officers for fiscal year 2009. In view of the Company's improved 2009 financial performance, our Compensation Committee approved modest salary increases for each of the Named Executive Officers for fiscal year 2010.

Bonuses

We intend that bonuses paid to our Named Executive Officers will reward them for the achievement of successful financial performance over a relatively short period of time (typically one fiscal year). The bonuses of our Named Executive Officers are determined in the sole discretion of the Compensation Committee, after receiving recommendations from our Principal Executive Officer. Although the Company does not set specific Company or individual performance targets for purposes of determining the bonuses, the total amount of the annual bonuses paid to our salaried employees (except for store managers) has historically been correlated with the amount of our earnings before interest, taxes, depreciation and amortization, or EBITDA, and has historically been set at or about five percent of our EBITDA. Specifically, since the Company's initial public offering in 2002, the bonus pool has ranged from a low of 4.6% of EBITDA to a high of 5.3%. For 2009, the bonus pool was 5.3% of EBITDA. In addition, in recent years, approximately one-third of this bonus expense has been for the Named Executive Officers; however this percentage was reduced in 2008 and 2009 as described below.

The Committee varies the bonus pool as a percentage of EBITDA (as well as the percentage of the bonus pool allocable to Named Executive Officers) slightly from year to year based on a variety of factors, including but not

limited to the number of salaried employees who will be paid from the bonus pool and the Company's actual EBITDA. If EBITDA is abnormally low compared with historical patterns, the Compensation Committee may set the overall bonus pool as a percentage of EBITDA at slightly above 5% in order to allow the Company to pay most salaried employees amounts determined to be reasonable while still reflecting a reduction in the overall bonus pool (and absolute amounts of the bonuses) in light of the lower EBITDA. The converse may be true in years where EBITDA is abnormally high compared with historical patterns. For example, due to the general economic climate (and the weak consumer spending environment in particular), the Company's EBITDA was substantially lower in

Table of Contents

2008 and 2009 in comparison to prior years. Consequently, although the bonus pool as a percentage of EBITDA was 5.1% for 2008 and 5.3% for 2009, the absolute size of the pool decreased substantially from prior years (to approximately \$2.4 million for 2008 and \$3.0 million for 2009, as compared to approximately \$3.6 million for 2007 and approximately \$3.8 million for 2006). This naturally resulted in substantial reductions of bonuses for Named Executive Officers for 2008 and 2009 as compared to 2007 and prior years. In addition, the Compensation Committee determined that these reductions in bonuses for 2008 and 2009 should be borne somewhat disproportionately by the senior executive officers, including Named Executive Officers, in part to protect various lower salaried employees. As a result, the Named Executive Officers' percentage of these reduced overall bonus pools decreased from 37.4% for 2007 to 28.7% for 2008 and 27.9% for 2009.

Bonus payments to each of our Named Executive Officers are based on his individual contributions to the success of our business for the year, and fairness and proportionality of the Named Executive Officer's compensation when compared with the compensation for the year of our Chief Executive Officer and the other Named Executive Officers, as determined by the Compensation Committee in its discretion. These practices have been essentially uniform for the past ten years. We believe that the bonuses paid to our Named Executive Officers are at or below the median range of bonuses paid by other companies in the market with whom we compete for talent.

Long-Term Incentive Compensation (Equity Awards)

We believe that awards of stock options to Named Executive Officers provide a valuable long-term incentive for them, and help align their interests with the stockholders' interests. We believe that stock options are a vital component of our philosophy of compensating Named Executive Officers for successful results, as they can realize value on their stock options only if the stock price increases, and the long-term incentive of stock options is important in realizing our goal of continuity and stability of our executive team. In view of the relatively modest amount of bonuses that we pay to our Named Executive Officers, stock options are a particularly important component of rewarding them for successful results.

We also believe that unvested options are a major tool to encourage employee retention. Accordingly, our stock option grants to our Named Executive Officers generally vest over a four year period.

We periodically grant stock options to some or all of our Named Executive Officers, typically in connection with their annual performance and compensation reviews. We do not necessarily grant stock options to our Named Executive Officers annually—we want our Named Executive Officers to understand that a grant of stock options is not an entitlement. Our Compensation Committee determines the size of each option grant, after receiving recommendations from our Principal Executive Officer. In determining the size of option grants to executive officers, consideration is given to the value of total direct compensation, Company and individual performance, the number and value of stock options previously granted to the executive officer and the relative proportion of long-term incentives within the total compensation mix. Our Compensation Committee generally considers option grants to Named Executive Officers and other existing employees at committee meetings which coincide with the employees' annual performance and compensation reviews, and the exercise price of each stock option granted is the closing price of our stock on the day of the meeting. The Compensation Committee considers grants to select newly-hired executives at its regularly-scheduled quarterly committee meeting following the date of hire, and the exercise price of each stock option granted to a newly-hired executive is the closing price of our stock on the day of the meeting. We do not intend to grant options while in possession of material non-public information, except pursuant to a pre-existing policy under which options are granted on fixed dates of our annual stockholders meeting (in the case of grants to certain of our directors who are not Named Executive Officers) or of Compensation Committee meetings. Our Compensation Committee meetings which coincide with the employees' annual performance and compensation reviews, and at which our Compensation Committee considers grants to Named Executive Officers who are not newly-hired, are scheduled to coincide with trading windows for our common stock. Although the long-term incentive represented by grants of

stock options is a major component of the compensation of our Named Executive Officers, we believe that the size of option grants to our Named Executive Officers is relatively modest when compared to the size of option grants to similar officers of other companies in the market with whom we compete for talent.

Table of Contents

Our shareholder-approved equity compensation plan permits a variety of equity awards. For the last few years we have considered whether to grant awards other than stock options as part of our long term incentive compensation strategy. In March 2008, for the first time, we granted restricted stock to certain of our Named Executive Officers. The restricted stock is subject to a four-year vesting schedule, which will be accelerated upon certain change of control events. We granted restricted stock as a further enhancement to retention, as restricted stock generally maintains value during short-term cyclical downturns in our stock price or our industry as compared to stock options which may not. We note that the inclusion of restricted stock as a component of equity compensation for officers is a trend among public companies. As in prior years, in March 2008 we also awarded stock options to our Named Executive Officers. We granted stock options (but not restricted stock) to our Named Executive Officers in March 2009. In March 2010 we granted restricted stock (but not stock options) to our Named Executive Officers. This restricted stock is also subject to a four-year vesting schedule, which will be accelerated upon certain change of control events. We will continue to evaluate which equity award vehicles achieve the best balance between continuing our successful practice of providing equity-based compensation and creating and maintaining long term shareholder value. We believe that the value of our equity awards on an annualized basis to our Named Executive Officers is reasonable and appropriate when compared with the size of equity awards to executives of other companies with whom we compete for talent.

Change in Control Payments

Our Named Executive Officers generally do not have employment agreements that provide that they will receive payments if we undergo a change in control. The employment agreement of our Principal Executive Officer contains a change in control provision. This provision permits him to receive the change in control payments if he leaves for any reason within six months after the change in control. The Principal Executive Officer must resign to receive the change in control payments, so this provision is not a true single trigger provision. The reason for this provision is that a change in control of a publicly traded corporation would almost invariably affect the powers, role, and reporting relationships of its principal executive officer. If a change in control of our Company occurs, our Principal Executive Officer's employment agreement gives him the right to depart from the Company and receive the change in control payments if he deems his position to have been negatively affected by the change in control, without the need to demonstrate an objective, adverse effect such as reduction in compensation. If the change is not negative, the employment agreement allows him to stay with the Company and no severance payments will be made. We believe this provision is desirable from our standpoint because it enables our Principal Executive Officer to focus solely on the best interests of our stockholders in the event of a possible, threatened or pending change in control, without undue concern for his own personal interests.

Our Principal Executive Officer's employment agreement also contains provisions for payment on dismissal without cause or quitting for good reason, which could apply after as well as before a change in control. In March 2009, this employment agreement was amended whereby our Principal Executive Officer voluntarily agreed to reduce his lump sum severance payment for these termination events. See Employment Agreements and Change in Control Provisions.

We have entered into a severance agreement with our Senior Vice President and Chief Financial Officer, or our Principal Financial Officer, which provides that he will receive certain payments if we terminate his employment other than for cause. These provisions can operate after as well as before a change in control. These provisions were the result of arm's length negotiations between us and our Principal Financial Officer when we hired him.

We will not provide gross up payments to our Principal Executive Officer or Principal Financial Officer if they receive payments in connection with a change in control which would cause them to be subject to the excise tax of Internal Revenue Code Section 4999, which we refer to as the Golden Parachute Excise Tax. On the contrary, the employment agreement of our Principal Executive Officer provides that payments in connection with the change in control will be reduced to the extent necessary to prevent them from being subject to the Golden Parachute Excise

Tax. We do not expect that any payments made to our Principal Financial Officer will be large enough to trigger the Golden Parachute Excise Tax.

In addition, the vesting of all stock options and restricted stock granted to our executive officers and directors under the 2007 Plan will accelerate upon a change of control of the Company.

Table of Contents*All Other Compensation*

All other compensation to our Named Executive Officers includes, among other things, Company contributions and other allocations made on behalf of the individuals under the Company's defined contribution plan. We have also provided perquisites to our Named Executive Officers that have an annual incremental cost to us of \$10,000 or more, which consist of the value attributable to personal use of Company-provided automobiles.

- (1) The amounts in this Salary column reflect amounts actually earned in the applicable fiscal year. Such amounts reflect a blended amount based on the base salary in effect prior to any annual salary increase (which typically occurs in March of each year) and the higher base salary for the remainder of the year. No such increase occurred in fiscal 2009. However, each of the Named Executive Officers received salary increases that were effective March 22, 2010, resulting in the following annual salaries:

Steven G. Miller: \$485,000
 Barry D. Emerson: \$333,000
 Thomas J. Schlauch: \$276,000
 Richard A. Johnson: \$250,000
 Gary S. Meade: \$214,500

Each Stock Award entitles the Named Executive Officer to receive one share of our common stock at the time of vesting without the payment of an exercise price or other cash consideration. The amounts reported in the Stock Awards column do not necessarily reflect the dollar amounts of compensation actually realized or that may be realized. The actual value that a Named Executive Officer will realize on each Stock Award will depend on the price per share of our common stock at the time shares underlying the Stock Awards are sold.
- (3) The dollar value of Option Awards shown represents the aggregate grant date fair value calculated in accordance with FASB ASC Topic 718, on the basis of the fair value of the option on the grant dates and without any adjustment for estimated forfeitures. Each Option Award entitles the Named Executive Officer to purchase one share of our common stock at the time of vesting upon payment of the applicable exercise price. The amounts reported in the Option Awards column do not necessarily reflect the dollar amounts of compensation actually realized or that may be realized. The actual value, if any, that a Named Executive Officer

may realize with respect to each option will depend on the excess of the stock price over the exercise price on the date the option is exercised and the shares underlying such option are sold.

- (4) The amounts in the All Other Compensation column include (a) the value attributable to personal use of a Company-provided automobile, which in 2009 were the following amounts: Mr. Miller: \$18,654, Mr. Emerson: \$13,084, Mr. Schlauch: \$13,987, Mr. Johnson: \$14,843, and Mr. Meade: \$12,280, (b) Company contributions and other allocations made on behalf of the individual under the Company's defined contribution plan, which in 2009 were the following amounts: Mr. Miller: \$8,480, Mr. Emerson: \$10,262, Mr. Schlauch: \$8,480, Mr. Johnson: \$8,480, and Mr. Meade: \$8,480, and (c) Company payments of group term life insurance premiums for the individual, which in 2009 were the following amounts: Mr. Miller: \$660, Mr. Emerson: \$586, Mr. Schlauch: \$486, Mr. Johnson: \$439, and Mr. Meade: \$377.

Stock Options and Equity Compensation

Effective April 24, 2007 the Board of Directors adopted our 2007 Plan, which replaced and superseded our 2002 Stock Incentive Plan (the 2002 Plan). The 2007 Plan was approved by our stockholders at our 2007 annual meeting of stockholders. The aggregate amount of shares authorized for issuance under the 2007 Plan is 2,399,250 (the same number of shares that remained available for grant under the 2002 Plan as of April 24, 2007) plus any shares that had been subject to outstanding awards as of April 24, 2007 under the 2002 Plan that are or were forfeited or cancelled, or otherwise expire, after the April 24, 2007 effective date of the 2007 Plan.

The 2007 Plan is administered by our Compensation Committee. The Compensation Committee has broad discretion and power in operating the 2007 Plan and in determining which of our employees, directors, and consultants shall participate, and the terms of individual awards. Awards under the 2007 Plan may consist of options, stock appreciation rights, restricted stock, other stock unit awards, performance awards, dividend equivalents or any combination of the foregoing. Any shares that are subject to awards of options or stock appreciation rights shall be counted against this limit as one share for every one share granted. Awards of restricted stock and other awards that are not awards of stock options or stock appreciation rights (including shares delivered in settlement of dividend rights) shall be counted against this limit as 2.5 shares for every share granted. The aggregate number of shares available under the 2007 Plan and the number of shares subject to outstanding options and stock appreciation rights will be increased or decreased to reflect any changes in the outstanding common stock of the Company by reason of any recapitalization, spin-off, reorganization, reclassification, stock dividend, stock split, reverse stock split, or similar transaction. If any shares subject to an award under the 2007 Plan or the 2002 Plan described below are forfeited or expire, or are terminated without issuance of shares, the shares shall again be available for award under the 2007 Plan. Any shares that again become available for grant shall be added back as one share if such shares were subject to options or stock appreciation rights granted under the 2007 Plan or the 2002 Plan and as 2.5 shares if such shares were subject to awards other than options or stock appreciation rights granted under the 2007 Plan.

Under the 2007 Plan, no participant may be granted in any fiscal year of the Company (a) options or stock appreciation rights with respect to more than 500,000 shares, (b) restricted stock, performance awards or other stock unit awards that are denominated in shares with respect to more than 250,000 shares, or (c) performance awards or stock unit awards that are valued by reference to cash having a maximum dollar value of more than \$2,000,000.

Under the 2007 Plan, the exercise price for an option or stock appreciation right cannot be less than 100% of the fair market value of the underlying shares on the grant date. The 2007 Plan does not permit the repricing of options or stock appreciation rights.

At April 26, 2010, net of cancellations and forfeitures, options to purchase 840,925 shares had been issued and 279,700 shares of restricted stock had been awarded under the 2007 Plan. Also, at April 26, 2010, 74,900 shares had

been transferred from the 2002 Plan to the 2007 Plan as described above, leaving 1,304,700 shares available for additional grants under the 2007 Plan. At April 26, 2010, 840,925 shares remained subject to outstanding options under the 2007 Plan.

Employment Agreements and Change in Control Provisions

The Company has an employment agreement with Mr. Steven G. Miller, who currently serves as Chairman of the Board, President and Chief Executive Officer. His original agreement was executed in 2002 prior to our becoming a publicly-traded company.

In December 2008, the agreement was amended and restated for the principal purpose of complying with the provisions of Section 409A of the Internal Revenue Code of 1986, as amended, and related regulations and guidance. In general, the changes reflected in that restatement related to the timing of payments to Mr. Miller under his employment agreement following certain events. The restatement also updated various other provisions, including to conform Mr. Miller's base salary to his current base salary, but did not materially affect the scope or amounts of compensation or benefits that Mr. Miller is entitled to receive under his agreement.

In March 2009, in an effort to align Mr. Miller's severance package more closely with current standards, the employment agreement was further amended whereby Mr. Miller agreed to reduce the lump sum severance payment he is to receive upon certain termination events from four years annual compensation to three years annual compensation. In addition, the amendment revised the method of determining such annual compensation for that purpose as provided below.

Steven G. Miller's employment agreement provides that he will serve as Chairman of the Board of Directors, Chief Executive Officer and President for a term of four years from any given date, such that there shall always be a minimum of at least four years remaining under his employment agreement. The employment agreement provides for Mr. Miller to receive an annual base salary of \$473,000, subject to annual increase based on comparable compensation packages provided to executives in similarly situated companies, and to participate in a bonus plan to be established by the Compensation Committee. His annual base salary was not increased for fiscal 2009, but was increased to

\$485,000 per year effective March 22, 2010. In practice, his bonuses have been determined in the discretion of the Compensation Committee. Mr. Miller is also entitled to use of a Company automobile. In addition, as long as Mr. Miller serves as an officer, the Company will use its best efforts to ensure that he continues to serve on the Company's Board of Directors and on the Board of Directors of the Company's wholly-owned subsidiary, Big 5 Corp.

If Steven G. Miller's employment is terminated due to his death, the employment agreement provides for accelerated vesting of options that would have been exercisable during the 24 months following the termination date and the continuation of family medical benefits for the four years following the termination date. The table below reflects the estimated amount of payments and other benefits payable under Mr. Miller's employment agreement on a termination due to death, assuming that the termination occurred on January 3, 2010 and based upon our most recent closing stock price as of that date of \$17.18.

Table of Contents**Table Showing Benefits on a Termination Due to Death**

Name	Cash Severance	Value of Option Acceleration	Value of Medical Continuation	Total
Steven G. Miller		\$ 401,550	\$ 46,973	\$ 448,523

If Steven G. Miller's employment is terminated due to his disability, the employment agreement provides that the Company will pay Mr. Miller as a lump sum severance payment an amount equal to his base salary for two years and an additional amount equal to two times the greater of (i) his last annual cash bonus or (ii) the average annual cash bonus paid during the last three fiscal years. In addition, the employment agreement provides for accelerated vesting of options that would have been exercisable during the 24 months following the termination date and the continuation of specified benefits for the four years following the termination date. The table below reflects the estimated amount of payments and other benefits payable under Mr. Miller's employment agreement on a termination due to disability, assuming that the termination occurred on January 3, 2010 and based upon our most recent closing stock price as of that date of \$17.18.

Table Showing Benefits on a Termination Due to Disability

Name	Cash Severance	Value of Option Acceleration	Value of Medical Continuation	Value of Perquisites(1)	Total
Steven G. Miller	\$ 1,846,000	\$ 401,550	\$ 66,504	\$ 74,616	\$ 2,388,670

(1) The amount in the Value of Perquisites column includes the value attributable to personal use of a Company-provided automobile in the annual amount of \$18,654 for four years.

If Steven G. Miller terminates the employment agreement for good reason at any time, or for any reason within six months of a change in control, or if the Company terminates the employment agreement without cause at any time, the employment agreement provides the Company will pay Mr. Miller as a lump sum severance payment an amount equal to three times his annual compensation. For this purpose, Mr. Miller's annual compensation will be deemed to equal the average annual compensation received by Mr. Miller for each of the five years immediately preceding the year in which the termination date falls, as reflected on Mr. Miller's Forms W-2 for those years. In addition, the employment agreement provides for accelerated vesting of all of his options and the continuation of specified benefits for the four years following the termination date. However, the employment agreement provides that payments in connection with the change in control will be reduced to the extent necessary to prevent them from being subject to the Golden Parachute Excise Tax of Internal Revenue Code Section 4999. Prior to the amendment of Mr. Miller's employment agreement in March 2009, his agreement provided for a lump sum severance payment under the above circumstances equal to his base salary for four years and an additional amount equal to four times the greater of (i) his last annual cash bonus or (ii) the average annual cash bonus paid during the three fiscal years preceding the termination date. The table below reflects the estimated amount of payments and other benefits payable under Mr. Miller's employment agreement on a termination by Mr. Miller for good reason or due to a change in control or a termination by the Company without cause, assuming that the termination occurred on January 3, 2010 and based upon our most recent closing stock price as of that date of \$17.18.

Table Showing Benefits on a Termination by the Employee for Good Reason or Due to a Change in Control or a Termination by the Company Without Cause

(1) The amount in the Value of Perquisites column includes the value attributable to personal use of a Company-provided automobile in the annual amount of \$18,654 for four years.

(2) Payments in connection with a change in control may be less than those shown in this table, since Mr. Miller's employment agreement provides such payments will be reduced to the extent necessary to prevent them from being subject to the Golden Parachute Excise Tax of Internal Revenue Code Section 4999.

Table of Contents

If Steven G. Miller terminates the employment agreement without good reason or the Company terminates the employment agreement for cause, Mr. Miller is entitled to receive all accrued and unpaid salary and other compensation and all accrued and unused vacation pay.

The employment of our Principal Financial Officer, Mr. Barry D. Emerson, with us is governed by an employment offer letter dated August 16, 2005, which is referred to as the Offer Letter. The Offer Letter provided for Mr. Emerson to receive a starting annual base salary of \$275,000 and a minimum starting annual bonus of \$125,000, to be paid in the first quarter of 2006 and prorated based upon the period of employment during the 2005 fiscal year. He received an annual bonus in the amount of \$100,000 in March 2006. Mr. Emerson's annual base salary has since been increased to \$325,000 in 2008 (which remained in effect during 2009), and to \$333,000 effective March 22, 2010. His annual incentive bonuses have been set in the discretion of the Compensation Committee from the overall bonus pool. Pursuant to the Offer Letter, on the first day of his employment, Mr. Emerson received a stock option grant to acquire 50,000 shares of the Company's common stock, at an exercise price of \$25.05 per share, which vests 25% per year over four years and has a term of ten years. In addition, the Offer Letter provides that Mr. Emerson receives use of a Company automobile, and is eligible for future stock option grants, comparable to those provided to other senior vice presidents of the Company.

Pursuant to the Offer Letter, we and Mr. Emerson have entered into a severance agreement that provides that his employment is at will but that, if we terminate his employment other than for cause (as defined in the severance agreement), Mr. Emerson will receive a severance package which will include one year's base salary and one year's health coverage for him and his family. Payment of the severance benefit is conditioned upon the execution of a release by Mr. Emerson of all claims he may have against us. The table below reflects the estimated amount of payments and other benefits payable under Mr. Emerson's severance agreement, assuming that the termination occurred on January 3, 2010.

Compensation of Directors

Our Board of Directors sets directors' compensation based on its review of publicly-available information about what other companies pay their directors.

Directors who are also employees of the Company are compensated as officers of the Company and receive no additional compensation for serving as directors.

Effective April 2007, non-employee directors receive an annual retainer of \$30,000 for service on the Board of Directors, plus \$2,500 for attendance at each regularly scheduled meeting of the Board of Directors or each committee meeting not otherwise held on the day of a board meeting or other committee meeting, \$1,000 for attendance at each committee meeting held on the day of a board meeting or other committee meeting, and \$1,000 for attendance by telephone at any specially called telephonic board meeting or committee meeting. The Chairs of the Audit Committee, Compensation Committee and Nominating Committee receive additional annual retainers of \$10,000, \$7,500 and \$5,000, respectively. In addition, the Company has adopted a policy pursuant to which each non-employee director is

initially granted options to purchase 10,000 shares of the Company's common stock and is annually granted additional options to purchase 3,000 shares of such stock and annually granted 3,000 restricted shares of the Company's common stock. The options are to have an exercise price equal to the fair market value of the Company's common stock on the date of grant, and both the options and the restricted shares vest in four equal annual installments. Annual grants have been and will be made on the date of the Company's annual meeting of stockholders. Directors are also reimbursed for all out-of-pocket expenses incurred in attending such meetings. Dr. Miller has waived his right to receive his director fees, stock options and restricted stock.

TRANSACTIONS WITH RELATED PERSONS, PROMOTERS AND CERTAIN CONTROL PERSONS

Procedures

Our Audit Committee's written charter requires that the Audit Committee review on an ongoing basis and approve or disapprove all related party transactions that are required to be disclosed by Item 404 of Regulation S-K. The written Audit Committee Meeting Planner prepared and approved by the Audit Committee provides that this will occur annually at the first quarterly Audit Committee meeting each year and at such other times as needed. During each such review, the Company's General Counsel discusses the requirements of Item 404 of Regulation S-K and reports on all related party transactions or arrangements that have been determined to require review, following which the Audit Committee formally approves or disapproves each such transaction or arrangement. The items described below were approved by the Audit Committee following this policy and procedure, except for those payments or transactions consummated pursuant to agreements that were entered into prior to our initial public offering and the establishment of the Audit Committee, which occurred in 2002.

The Company has no formal policy regarding the standards to be applied by the Audit Committee in determining whether to approve or disapprove related party transactions. However, in determining whether a proposed related party transaction is in the best interests of the Company and whether to approve or disapprove the transaction, our Audit Committee has generally considered, among other factors, the terms that it believed would be available to the Company in an arms-length transaction with an unrelated third party. In particular, the Audit Committee has historically required that (i) the terms of the relevant transaction be, in the opinion of the Audit Committee, no less favorable to the Company than those likely to be available from an unaffiliated third party and (ii) the Company would be expected to obtain a comparable or more favorable result than it would in an arms-length transaction with an unrelated third party. In applying this standard, the Audit Committee also considers whether the transaction would be conducted in the same manner as it would be for such an unrelated third party. Other factors typically considered by the Audit Committee in making such determination include the benefit of the transaction to the Company (including the cost, nature, quantity and quality of the goods or services involved), and the terms, conditions and circumstances of the transaction. In making such a determination, the Audit Committee relies on information provided to it by Company management as well as the general knowledge and experience of Audit Committee members.

Fiscal 2009 Transactions

These agreements, among other things, provide for indemnification of the Company's directors and executive officers for expenses, judgments, fines and settlement amounts (collectively, "Liabilities") incurred by any such person in any action or proceeding arising out of such person's services as a director or executive officer or at the Company's request, if the applicable director or executive officer acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Company.
