BOWNE & CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands, except share information and where noted)

Note 1. Basis of Presentation

The financial information as of March 31, 2010 and for the three month periods ended March 31, 2010 and 2009 has been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the consolidated financial position, results of operations and of cash flows for each period presented have been made on a consistent basis. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These financial statements should be read in conjunction with the Company's annual report on Form 10-K and consolidated financial statements for the year ended December 31, 2009. Operating results for the three months ended March 31, 2010 may not be indicative of the results that may be expected for the full year.

Note 2. Merger Agreement with R.R. Donnelley

On February 23, 2010, Bowne & Co., Inc. (the Company) entered into an Agreement and Plan of Merger (the Merger Agreement) with R.R. Donnelley & Sons Company, a Delaware corporation (R.R. Donnelley), and Snoopy Acquisition, Inc., a Delaware corporation and a wholly owned subsidiary of R.R. Donnelley (Merger Sub). The Merger Agreement was approved by the Boards of Directors of the parties to the Merger Agreement.

Pursuant to the terms of the Merger Agreement, Merger Sub will merge with and into the Company, with the Company surviving the merger (the Merger) as a wholly-owned subsidiary of R.R. Donnelly. In the Merger, each outstanding share of common stock of the Company, other than those held by the Company or its subsidiaries, or owned by R.R. Donnelley or Merger Sub and those with respect to which dissenters rights are properly exercised, will be cancelled and converted into the right to receive cash in the amount of \$11.50 per share.

Consummation of the merger is subject to various customary conditions, including approval of the merger by the Company's shareholders, the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, other applicable regulatory approvals and the absence of certain legal impediments to the consummation of the Merger.

The Merger Agreement contains certain termination rights for both the Company and R.R. Donnelley and further provides that, upon termination of the Merger Agreement under specified circumstances, the Company may be obligated to pay R.R. Donnelley a termination fee of \$14.5 million. In addition, in the event that the Merger Agreement is terminated in certain circumstances involving a failure to obtain antitrust approval, R.R. Donnelley will be obligated to pay the Company a termination fee of \$20.0 million plus up to \$2.5 million of legal expenses.

The Merger Agreement also contains covenants with respect to the operation of the Company's business between signing of the Merger Agreement and closing of the Merger. Pending consummation of the merger, the Company will operate its business in the ordinary and usual course, except for certain actions which would require R.R. Donnelley's approval. Such actions include mergers and acquisitions, issuance of stock, incurring debt in excess of agreed upon amounts, payment of dividends other than the regular quarterly dividend, incurring capital expenditures in excess of budgeted amounts, entering into long-term arrangements, amending or terminating contracts, establishing new employee benefits or amending existing employee benefits, and certain other spending limits.

During the first quarter of 2010, the Company recorded approximately \$2.9 million of expenses related to the Merger with R.R. Donnelley. These expenses primarily consist of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. These amounts are included in the Company's results of operations for the three months ended March 31, 2010.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 3. Recent Accounting Pronouncements**

In January 2010, the Financial Accounting Standards Board (FASB) issued an accounting standards update (ASU) regarding improving disclosure about fair value measurements, which amends the existing disclosure requirements under fair value measurements and disclosures by adding required disclosure about items transferring into and out of Levels 1 and 2 fair value measurements; adding separate disclosure about purchases, sales, issuances, and settlements relative to the Level 3 fair value measurements; and clarifying certain aspects of the existing disclosure requirements. This ASU was effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll-forward of activity in Level 3 fair value measurements, which is effective for years beginning after December 15, 2010, and for interim periods within those fiscal years. This ASU does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, the ASU requires comparative disclosures only for periods ending after the initial adoption. The Company adopted the first component of the disclosure requirement under this ASU during the first quarter of 2010. Its adoption did not have a significant impact on the Company's financial statements. In addition, the Company will adopt the latter part of the disclosure requirement under this ASU in the first quarter of 2011, and does not anticipate its adoption will have a significant impact on the Company's financial statements.

In February 2010, the FASB issued an ASU regarding amendments to certain recognition and disclosure requirements related to subsequent events, which amends the previously issued standard regarding the accounting for subsequent events. This ASU removes the requirement for an SEC filer to disclose a date through which subsequent events have been evaluated. This ASU was effective immediately, which the Company adopted in its Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. Its adoption did not have a significant impact on the Company's financial statements.

Note 4. Fair Value of Financial Instruments

The Company defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. The fair value estimates presented in the table below are based on information available to the Company as of March 31, 2010.

The FASB standard regarding fair value measurements discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The standard utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The carrying value and fair value of the Company's significant financial assets and liabilities and the necessary disclosures for the periods are presented as follows:

	Carrying Value	Total	March 31, 2010 Fair Value Measurements		
			Level 1	Level 2	Level 3
Financial Assets:					
Cash and cash equivalents ⁽¹⁾	\$ 23,652	\$ 23,652	\$ 23,652	\$	\$
Marketable securities, current	228	228	228		
Marketable securities, noncurrent ⁽²⁾	2,883	2,883			2,883
Total financial assets	\$ 26,763	\$ 26,763	\$ 23,880	\$	\$ 2,883
Financial Liabilities:					
Convertible subordinated debentures (the Notes ⁽³⁾)	\$ 8,063	\$ 8,307	\$	\$ 8,307	\$
Senior revolving credit facility ⁽⁴⁾	33,000	33,000		33,000	
Total financial liabilities	\$ 41,063	\$ 41,307	\$	\$ 41,307	\$

⁽¹⁾ Included in cash and cash equivalents is money market funds of \$3,229 as of March 31, 2010.

⁽²⁾ The amount represents the Company's investments in auction rate securities as of March 31, 2010, which is discussed in more detail in Note 5 to the Condensed Consolidated Financial Statements.

⁽³⁾ The carrying value of the Notes have been adjusted to reflect the adoption of accounting guidance for convertible debt instruments, which is discussed in more detail in Note 1 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. In addition, the carrying value of the Notes are shown net of debt discounts, and are classified as current liabilities as of March 31, 2010.

⁽⁴⁾ The carrying value represents the borrowings outstanding under the Company's revolving credit facility, which is discussed in more detail in Note 10 to the Condensed Consolidated Financial Statements.

A reconciliation of the beginning and ending balance for the Company's investments in marketable securities using significant unobservable inputs (Level 3) for the three months ended March 31, 2010 was as follows:

Balance as of December 31, 2009	\$ 2,920
Transfer in/(out) of level 3	
Unrealized loss (before income taxes) included in other comprehensive income	(37)
Balance as of March 31, 2010	\$ 2,883

The following assumptions were used by the Company in order to measure the estimated fair value of its financial assets and liabilities as of March 31, 2010: (i) the carrying value of cash and cash equivalents approximates fair value because of the short term maturity of those instruments; (ii) the Company's noncurrent marketable securities are carried at estimated fair value as calculated by the Company using a discounted cash flow model (income approach) based on current yields and other known market data; (iii) the carrying value of the liabilities under the Company's revolving credit agreement approximates fair value as of March 31, 2010, since this facility has a variable interest rate similar to those that are currently available to the Company, and is reflective of current market conditions; and (iv) the fair value of the Company's Notes was calculated using a discounted cash flow model (income approach) based on published corporate bond rates for similar debt without conversion features as of March 31, 2010.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5. Marketable Securities**

The Company classifies its investments in marketable securities as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders equity. Marketable securities as of March 31, 2010 and December 31, 2009 consist primarily of investments in auction rate securities of approximately \$2.9 million. Uncertainties in the credit markets have prevented the Company and other investors from liquidating these auction rate securities in recent auctions. Accordingly, the Company still holds these auction rate securities and is receiving interest at comparable rates for similar securities.

The Company's investments in auction rate securities had a par value of approximately \$3.1 million as of March 31, 2010, and are insured against loss of principal and interest. There were no auction rate securities liquidated during the three months ended March 31, 2010. Due to the uncertainty in the market as to when these auction rate securities will be refinanced or the auctions will resume, the Company has classified the auction rate securities as noncurrent assets as of March 31, 2010 and December 31, 2009, respectively. The total unrealized loss related to the auction rate securities was \$217 (\$132 after tax), of which \$37 (\$22 after tax) was included as a component of other comprehensive income (loss) for the three months ended March 31, 2010. The total unrealized loss related to the auction rate securities as of December 31, 2009 was \$180 (\$110 after tax).

Note 6. Stock-Based Compensation and Long-Term Incentive Plan

In accordance with the FASB standard regarding share-based payments, the Company measures the share-based compensation expense for stock options granted based upon the estimated fair value of the award on the date of grant and recognizes the compensation expense over the award's requisite service period. The Company has not granted stock options with market or performance conditions. There were no stock options granted during the three months ended March 31, 2010. The weighted-average fair value of stock options granted during the three months ended March 31, 2009 was \$1.41. The weighted-average fair value was calculated using the Black-Scholes-Merton option pricing model. The following weighted-average assumptions were used to determine the fair value of the stock options granted during the three months ended March 31, 2009:

	Three Months Ended March 31, 2009
Expected dividend yield	3.50%
Expected stock price volatility	66.1%
Risk-free interest rate	2.3%
Expected life of options	5 years

The Company uses historical data to estimate the expected dividend yield and expected volatility of the Company's stock in determining the fair value of the stock options. The risk-free interest rate is based on the U.S. Treasury yield in effect at the time of grant and the expected life of the options represents the estimated length of time the options are expected to remain outstanding, which is based on the history of exercises and cancellations of past grants made by the Company. In accordance with the FASB standard, the Company recorded compensation expense for the three months ended March 31, 2010 and 2009 net of pre-vesting forfeitures for the options granted, which was based on the

historical experience of the vesting and forfeitures of stock options granted in prior years.

The Company recorded compensation expense related to stock options of \$227 and \$663 for the three months ended March 31, 2010 and 2009, respectively, which is included in selling and administrative expenses in the Condensed Consolidated Statement of Operations. As of March 31, 2010, there was approximately \$1,431 of total unrecognized compensation cost related to non-vested stock option awards which is expected to be recognized over a weighted-average period of 1.53 years.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As discussed in more detail in Note 18 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009, the Company recognized approximately \$457 of compensation expense in March 2009 related to the accelerated vesting of the nonvested portion of the stock options voluntarily surrendered by certain executive officers of the Company during the first quarter of 2009. No additional compensation was provided to these officers in return for surrendering these stock options.

Stock Option Plans

The Company has two stock incentive plans, a 1999 Plan (which was amended in May 2006) and a 2000 Plan, which are described in more detail in Note 18 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company uses treasury shares to satisfy stock option exercises from the 2000 Plan, deferred stock units and restricted stock awards. To the extent treasury shares are not used, shares are issued from the Company's authorized and unissued shares.

The details of the stock option activity for the three months ended March 31, 2010 are as follows:

	Number of Options	Weighted- Average Exercise Price	Aggregate Intrinsic Value
Outstanding as of January 1, 2010	2,071,501	\$ 8.59	
Granted		\$	
Exercised	(3,750)	\$ 3.23	
Forfeited/Cancelled	(40,500)	\$ 11.75	
Outstanding as of March 31, 2010	2,027,251	\$ 8.54	\$ 7,608
Exercisable as of March 31, 2010	1,090,626	\$ 11.64	\$ 1,716

The total intrinsic value of the stock options exercised during the three months ended March 31, 2010 was \$30. The amount of cash received from the exercise of stock options during the three months ended March 31, 2010 was \$12. There were no stock options exercised during the three months ended March 31, 2009. The tax benefit recognized related to compensation expense for stock options amounted to \$47 and \$56 for the three months ended March 31, 2010 and 2009, respectively. The actual tax benefit realized for the tax deductions from stock option exercises was \$10 for the three months ended March 31, 2010.

The following table summarizes weighted-average option exercise price information as of March 31, 2010:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Number Outstanding	Weighted- Average Remaining Life	Weighted- Average Exercise Price	Number Exercisable	Weighted- Average Exercise Price

Edgar Filing: BOWNE & CO INC - Form 10-Q

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes information about nonvested stock option awards as of March 31, 2010:

	Number of Options	Weighted- Average Grant-Date Fair Value
Nonvested stock options as of January 1, 2010	964,500	\$ 2.26
Granted		\$
Vested	(27,875)	\$ 2.13
Forfeited		\$
Nonvested stock options as of March 31, 2010	936,625	\$ 2.26

Total compensation expense recognized for stock options that vested during the three months ended March 31, 2010 and 2009 amounted to \$4 and \$536, respectively. The decrease in compensation expense recognized for stock options that vested during the three months ended March 31, 2010 as compared to the same period in 2009 is primarily related to the compensation expense associated with the accelerated vesting of the voluntarily surrendered stock options in 2009, as previously discussed.

Deferred Stock Awards

The Company maintains a program for certain key executives and directors that provides for the conversion of a portion of their cash bonuses or directors' fees into deferred stock units. These units are convertible into the Company's common stock on a one-for-one basis, generally at the time of retirement or earlier under certain specific circumstances and are included as shares outstanding in computing the Company's basic and diluted earnings per share. As of March 31, 2010 and December 31, 2009, the amounts included in stockholders' equity for these units were \$6,538 and \$6,241, respectively. As of March 31, 2010 and December 31, 2009, there were 686,127 and 648,399 units outstanding, respectively.

Additionally, the Company has a Deferred Sales Compensation Plan for certain sales personnel. This plan allows a salesperson to defer payment of commissions to a future date. Participants may elect to defer commissions to be paid in either cash, a deferred stock equivalent (the value of which is based upon the value of the Company's common stock), or a combination of cash or deferred stock equivalents. The amounts deferred, plus any matching contribution made by the Company, will be paid upon retirement, termination or in certain hardship situations. Amounts accrued which the employees participating in the plan have elected to be paid in deferred stock equivalents amounted to \$1,691 and \$1,874 as of March 31, 2010 and December 31, 2009, respectively. In January 2004, the Plan was amended to require that the amounts to be paid in deferred stock equivalents would be paid solely in the Company's common stock. As of March 31, 2010 and December 31, 2009, these amounts are a component of additional paid in capital in stockholders' equity. The payment of certain vested employer matching amounts due under the plan may be accelerated in the event of a change of control, as defined in the plan. As of March 31, 2010 and December 31, 2009, there were 147,084 and 160,287 deferred stock equivalents, respectively, outstanding under this Plan. These awards are included as shares outstanding in computing the Company's basic and diluted earnings per share.

Compensation expense related to deferred stock awards amounted to \$300 and \$3 for the three months ended March 31, 2010 and 2009, respectively. During the three months ended March 31, 2009, the portion of directors compensation that was previously deferred in stock was credited as a cash-based deferral rather than stock. The deferral of directors compensation in stock was reinstated during the second quarter of 2009.

Restricted Stock Units

In accordance with the 1999 Incentive Compensation Plan, the Company granted certain senior executives restricted stock units (RSUs). These awards have various vesting conditions and are subject to certain terms and

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

restrictions in accordance with the agreements. The fair value of the awards is determined based on the fair value of the Company's stock at the date of grant and is charged to compensation expense over the requisite service periods.

As of March 31, 2010, there were 239,000 total RSUs outstanding, which includes 185,250 nonvested RSUs and 53,750 vested but unissued RSUs. The vested RSUs will be issued upon the earliest of either the vesting of the final tranche of each grant or the employee's termination of employment (under certain circumstances). As of December 31, 2009, there were 239,000 RSUs outstanding, which included 209,625 nonvested RSUs and 29,375 vested but unissued RSUs.

A summary of the restricted stock activity as of March 31, 2010 is as follows:

	Number of Awards	Weighted- Average Grant-Date Fair Value
Nonvested restricted stock and restricted stock awards as of January 1, 2010	209,625	\$ 9.39
Granted		\$
Vested	(24,375)	\$ 12.91
Forfeited		\$
Nonvested restricted stock and restricted stock awards as of March 31, 2010	185,250	\$ 8.93

There are 2,020 stock equivalents that have been earned through dividend reinvestments on the RSUs through March 31, 2010. These stock equivalents are unvested, and will only be paid upon the vesting of the final tranche of each RSU grant. These amounts are not included in the totals above.

Compensation expense related to RSUs amounted to \$193 and \$195 for the three months ended March 31, 2010 and 2009, respectively. As of March 31, 2010, unrecognized compensation expense related to RSUs amounted to \$994, which will be recognized over a weighted-average period of 1.5 years.

Long Term Incentive Plan

As discussed in Note 14 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009, the Company's Board of Directors approved a Long-Term Incentive Plan (the "2009 LTIP") on March 5, 2009. The 2009 LTIP includes certain officers and key employees. The actual amount to be earned under the 2009 LTIP is based on the level of performance achieved related to established goals for the three-year performance cycle beginning January 1, 2009 through December 31, 2011, and ranges from 0% to 200%. The total estimated compensation expense that can be recognized related to the 2009 LTIP is \$0 to approximately \$11.5 million, depending on the level of performance achieved during the remaining performance cycle. Amounts earned under the 2009 LTIP, if any, will be paid in cash in March 2012. During the first quarter of 2010, the Company recorded

approximately \$0.4 million of compensation expense under the 2009 LTIP based on the results of operations for the three months ended March 31, 2010. There was no such expense recorded by the Company during the first quarter of 2009, since the entry level of performance was not reached based on the results of operations for the three months ended March 31, 2009.

Note 7. Earnings (Loss) Per Share

Shares used in the calculation of basic earnings (loss) per share are based on the weighted-average number of shares outstanding and includes deferred stock units and vested restricted stock units. Shares used in the calculation of diluted earnings (loss) per share are based on the weighted-average number of shares outstanding and deferred stock units adjusted for the assumed exercise of all potentially dilutive stock options and other stock-based awards outstanding. Basic and diluted earnings (loss) per share are calculated by dividing the net income (loss) by the

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

weighted-average number of shares outstanding during each period. The incremental shares from assumed exercise of all potentially dilutive stock options and other stock-based awards that were not included in the calculation of diluted earnings (loss) per share for the three months ended March 31, 2010 and 2009 were 2,212,501 and 2,054,701, respectively, since their effect would have been anti-dilutive during the respective periods. The weighted-average diluted shares outstanding for all periods presented excludes the effect of the shares that could be issued upon the conversion of the Company's convertible subordinated debentures, since the effect of these shares is anti-dilutive to the earnings per share calculation for those years.

The weighted-average basic and diluted shares for the three months ended March 31, 2010 include 12.1 million shares related to the Company's equity offering that was completed in August 2009. The equity offering is discussed in more detail in Note 17 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The weighted-average basic and diluted shares for the three months ended March 31, 2009 have been updated from previously reported amounts in accordance with generally accepted accounting standards to include 684,485 shares as a result of stock dividends issued to shareholders in May 2009 and August 2009. This change had no impact on the basic and diluted loss per share for the three months ended March 31, 2009.

The following table sets forth the basic and diluted average share amounts:

	Three Months Ended	
	March 31,	
	2010	2009
Basic shares	40,957,313	28,537,412
Diluted shares	40,957,313	28,537,412

Note 8. Inventories

Inventories of \$38,361 as of March 31, 2010 included raw materials of \$8,295 and work-in-process and finished goods of \$30,066. As of December 31, 2009, inventories of \$26,831 included raw materials of \$8,244 and work-in-process and finished goods of \$18,587.

Note 9. Accrued Restructuring, Integration and Asset Impairment Charges

The Company continually reviews its business, manages costs and aligns its resources with market demand, especially in light of the volatility of the capital markets and the resulting variability in capital markets services revenue. The Company took several steps over the past several years to reduce fixed costs, eliminate redundancies and better position the Company to respond to market conditions. As a result of these steps, the Company incurred restructuring charges for severance and personnel-related costs related to headcount reductions and costs associated with closing down and consolidating facilities.

During the first quarter of 2010, the Company recorded approximately \$0.4 million of severance related costs related to additional headcount reductions as a result of the continuation of previous cost savings measures implemented

during 2009. In addition, the Company incurred costs of approximately \$1.5 million related to vacating certain leased facilities. Non-cash asset impairment charges amounted to approximately \$2.0 million for the three months ended March 31, 2010, and were primarily related to impaired assets associated with vacating the aforementioned leased facilities and the impairment of costs incurred for certain software development projects.

These actions resulted in total restructuring, integration and asset impairment charges of \$4,019 for the three months ended March 31, 2010.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following information summarizes the costs incurred with respect to restructuring, integration and asset impairment charges during the three months ended March 31, 2010:

	Total
Severance and personnel-related costs	\$ 352
Occupancy related costs	1,543
Asset impairment charges	1,979
Other	145
Total	\$ 4,019

The activity pertaining to the Company's accruals related to restructuring and integration charges (excluding non-cash asset impairment charges) since December 31, 2008, including additions and payments made are summarized below:

	Severance and Personnel- Related Costs	Occupancy Costs	Other	Total
Balance at December 31, 2008	\$ 8,502	\$ 1,106	\$ 29	\$ 9,637
2009 expenses	11,820	2,870	6,177	20,867
Paid in 2009	(17,254)	(2,761)	(4,547)	(24,562)
Balance at December 31, 2009	3,068	1,215	1,659	5,942
2010 expenses	352	1,543	145	2,040
Paid in 2010	(1,819)	(364)	(322)	(2,505)
Balance at March 31, 2010	\$ 1,601	\$ 2,394	\$ 1,482	\$ 5,477

The majority of the remaining accrued severance and personnel-related costs are expected to be paid by the end of the first half of 2010.

Note 10. Debt

The components of debt at March 31, 2010 and December 31, 2009 are as follows:

March 31, 2010	December 31, 2009
---------------------------	------------------------------

Convertible subordinated debentures	\$ 8,063	\$ 7,938
Borrowings under revolving credit facility	33,000	5,000
Capital lease obligations	1,156	1,340
	\$ 42,219	\$ 14,278

As of March 31, 2010, the Company had \$33.0 million outstanding under its \$123.0 million revolving credit facility (Revolver), which is classified as long-term debt since the Revolver expires in May 2013. The Company's ability to borrow under the Revolver is subject to periodic borrowing base determinations. The borrowing base consists primarily of certain accounts receivable and inventories. The Revolver is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company was in compliance with all loan covenants as of March 31, 2010.

For the three months ended March 31, 2010, the weighted-average interest rate on the Company's Revolver approximated 4.53%.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company's \$8.3 million convertible subordinated debentures (the Notes) have been reduced by debt discounts of \$257 and \$382 as of March 31, 2010 and December 31, 2009, respectively. The Notes are classified as current debt as of March 31, 2010 and December 31, 2009, respectively, since the earliest that the redemption and repurchase features can occur are on October 1, 2010. The Company's Notes are discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The Company also has various capital lease obligations which are included in long-term debt.

Note 11. Postretirement Benefits***Pension Plans***

The Company sponsors a qualified defined benefit pension plan (the Plan) which covers certain United States employees not covered by union agreements. The Plan is described in more detail in Note 13 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The Company also has a non-qualified unfunded supplemental executive retirement plan (SERP) for certain executive management employees. The SERP is described more fully in Note 13 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. Also, certain non-union international employees are covered by other retirement plans.

The components of the net periodic cost are as follows:

	Pension Plan		SERP	
	Three Months Ended		Three Months	
	March 31,		Ended	
	2010	2009	2010	2009
Service cost	\$ 1,049	\$ 795	\$ 139	\$ 146
Interest cost	1,726	1,815	284	315
Expected return on plan assets	(1,862)	(1,576)		
Amortization of transition asset		(80)		
Amortization of prior service (credit) cost	(335)	(371)	166	227
Amortization of actuarial loss	661	957	456	408
Curtailement gain		(163)		
Net periodic cost of defined benefit plans	1,239	1,377	1,045	1,096
Union plans	20	37		
Other retirement plans	357	375		
Total cost	\$ 1,616	\$ 1,789	\$ 1,045	\$ 1,096

The amortization of the transition asset, prior service credit and actuarial loss for the three months ended March 31, 2010, included in the above tables, has been recognized in the net periodic benefit cost and included in other comprehensive income, net of tax.

The Company currently expects to contribute approximately \$2.2 million to its defined benefit pension plan in 2010 and approximately \$0.3 million to its unfunded supplemental retirement plan.

The Company is required to remeasure and record the Plans' funded status as of December 31, 2010, the measurement date, and will adjust the balance in accumulated comprehensive income during the fourth quarter of 2010.

Table of Contents

BOWNE & CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12. Income Taxes

Income tax benefit for the three months ended March 31, 2010 was \$106 on pre-tax loss from continuing operations of (\$539) as compared to \$659 on pre-tax loss from continuing operations of (\$2,527) in 2009. The effective tax rate for the three months ended March 31, 2010 and 2009 were 19.7% and 26.1%, respectively.

The total gross amount of unrecognized tax benefits included in the Condensed Consolidated Balance Sheets as of March 31, 2010 and December 31, 2009 was approximately \$2.1 million, which includes estimated interest and penalties of approximately \$0.7 million and \$0.6 million, respectively. There were no significant changes to the Company's unrecognized tax benefits during the three months ended March 31, 2010.

The Company's 2007 and 2008 U.S. federal income tax returns are in the process of being audited by the Internal Revenue Service, as discussed in Note 11 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company's income tax returns filed in state and local jurisdictions have been audited at various times.

Cautionary Statement Concerning Forward Looking Statements

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the 1995 Act). The 1995 Act provides a safe harbor for forward-looking statements to encourage companies to provide information without fear of litigation so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected.

This report includes and incorporates by reference forward-looking statements within the meaning of the 1995 Act. These statements are included throughout this report, and in the documents incorporated by reference in this report, and relate to, among other things, projections of revenues, earnings, earnings per share, cash flows, capital expenditures, working capital or other financial items, output, expectations regarding acquisitions, discussions of estimated future revenue enhancements, potential dispositions and cost savings. These statements also relate to the Company's business strategy, goals and expectations concerning the Company's market position, future operations, margins, profitability, liquidity and capital resources. The words anticipate, believe, could, estimate, expect, in, may, plan, predict, project, will and similar terms and phrases identify forward-looking statements in this report and the documents incorporated by reference in this report.

Although the Company believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate and the forward-looking statements based on these assumptions could be incorrect. The Company's operations involve risks and uncertainties, many of which are outside the Company's control, and any one of which, or a combination of which, could materially affect the Company's results of operations and whether the forward-looking statements ultimately prove to be correct.

Actual results and trends in the future may differ materially from those suggested or implied by the forward-looking statements depending on a variety of factors including, but not limited to:

the prolonged continuation or further deterioration of current credit and capital market conditions;

the effect of economic conditions on capital markets and the customers the Company serves, particularly the difficulties in the financial services industry and the general economic downturn;

interest rate fluctuations and changes in capital market conditions or other events affecting the Company's ability to obtain necessary financing on favorable terms to operate and fund its business or to refinance its existing debt;

continuing availability of liquidity from operating performance and cash flows as well as the revolving credit facility;

a weakening of the Company's financial position or operating results could result in noncompliance with its debt covenants;

competition based on pricing and other factors;

fluctuations in the cost of paper, other raw materials and utilities;

changes in air and ground delivery costs and postal rates and regulations;

seasonal fluctuations in overall demand for the Company's services;

changes in the printing market;

the Company's ability to integrate the operations of acquisitions into its operations;

the financial condition of the Company's clients;

the Company's ability to continue to obtain improved operating efficiencies;

the Company's ability to continue to develop product offerings and solutions to service its clients;

Table of Contents

- changes in the rules and regulations to which the Company is subject;
- changes in the rules and regulations to which the Company's clients are subject;
- the effects of war or acts of terrorism affecting the overall business climate;
- loss or retirement of key executives or employees;
- natural events and acts of God such as earthquakes, fires or floods; and
- the impact of the proposed merger with R.R. Donnelley on the Company's business.

Many of these factors are described in greater detail in the Company's filings with the SEC, including those discussed elsewhere in this report or incorporated by reference in this report. All future written and oral forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by the previous statements.

Overview

The Company's results for the first quarter of 2010 reflect the continued improvement in overall capital markets activity that began during the second half of 2009. Total revenue for the three months ended March 31, 2010 increased by approximately \$8.0 million, or 5%, to approximately \$177.1 million as compared to the same period in 2009, primarily due to the substantial increase in revenue from the Company's capital markets services, which increased approximately 83%, as compared to the prior year. In addition, the Company's overall profitability improved from the prior year as a result of the favorable impact of the Company's cost savings measures implemented throughout 2009 and the first quarter of 2010. The Company is well positioned to further realize the benefits of its more efficient operating model as market conditions continue to recover.

Capital markets services revenue increased approximately \$21.1 million, or 83%, for the three months ended March 31, 2010, primarily due to the significant increase in the level of capital markets activity, in particular overall initial public offerings (IPOs) activity, as compared to the same period in 2009. Shareholder reporting services revenue, which includes revenue from compliance reporting, investment management services and translation services, decreased approximately \$9.0 million, or 10%, for the three months ended March 31, 2010, as compared to the same period in 2009, and marketing communications services revenue for the three months ended March 31, 2010 decreased by approximately \$2.7 million, or 6%, as compared to the same period in 2009. Diluted loss per share from continuing operations was \$0.01 for the three months ended March 31, 2010 as compared to \$0.07 for the same period in 2009.

On February 23, 2010, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with R.R. Donnelley & Sons Company, a Delaware corporation (R.R. Donnelley), and Snoopy Acquisition, Inc., a Delaware corporation and a wholly owned subsidiary of R.R. Donnelley. The all-cash deal provides for a purchase price of \$11.50 per share. The Merger Agreement was approved by the Boards of Directors of the parties to the Merger Agreement. The merger is expected to close during the second half of the year. Consummation of the merger is subject to various customary conditions, including approval of the merger by the Company's shareholders, the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, other regulatory approvals and the absence of certain legal impediments to the consummation of the merger. The Merger Agreement also contains covenants with respect to the operation of the Company's business between signing of the Merger Agreement and closing of the merger. Pending consummation of the merger, the Company will operate

its business in the ordinary and usual course, except for certain actions which would require R.R. Donnelley's approval. Such actions include mergers and acquisitions, issuance of stock, incurring debt in excess of agreed upon amounts, payment of dividends other than the regular quarterly dividend, incurring capital expenditures in excess of budgeted amounts, entering into long-term arrangements, amending or terminating contracts, establishing new employee benefits or amending existing employee benefits, and certain other spending limits.

During the first quarter of 2010, the Company recorded approximately \$2.9 million of expenses related to the merger with R.R. Donnelley. These expenses primarily consist of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. These amounts are included in the Company's results of operations for the three months ended March 31, 2010.

Table of Contents**Items Affecting Comparability**

The following table summarizes the expenses incurred for restructuring, integration and asset impairment charges and acquisition related expenses during the three months ended March 31, 2010 and 2009:

	Three Months Ended March 31,	
	2010	2009
Restructuring, integration and asset impairment charges	\$ 4,019	\$ 6,585
Acquisition related expenses	2,925	\$
Before tax impact	6,944	6,585
After tax impact	4,062	3,959
Per share impact	\$ 0.10	\$ 0.14

The Company recorded approximately \$4.0 million (approximately \$2.4 million after tax), or \$0.06 per share, of restructuring, integration and asset impairment charges for the three months ended March 31, 2010. The amount primarily represents non-cash asset impairment charges of approximately \$2.0 million, costs related to vacating certain leased facilities and costs associated with headcount reductions. These charges are discussed in more detail in Note 9 to the Condensed Consolidated Financial Statements.

During the first quarter of 2010, the Company recorded approximately \$2.9 million (approximately \$1.7 million after tax), or \$0.04 per share, of expenses directly related to the merger with R.R. Donnelley, as previously discussed.

The Company's revenue by class of service for the three months ended March 31, 2009 has been reclassified to conform to the current year presentation.

Revenue

Total revenue increased \$7,955, or 5%, to \$177,060 for the three months ended March 31, 2010 as compared to the same period in 2009. The increase in revenue is primarily attributed to the substantial increase in revenue from capital markets services during the first quarter of 2010, which reflects improvement in overall capital markets activity resulting primarily from increased levels of IPO transactions. As such, revenue from capital markets services increased \$21,119, or 83%, during the three months ended March 31, 2010 as compared to the same period in 2009.

Capital markets services revenue from the U.S. markets increased approximately \$8.3 million, or 41%, during the three months ended March 31, 2010 as compared to the same period in 2009. Capital markets services from our international markets increased approximately \$12.8 million, or 239%, for the three months ended March 31, 2010

Table of Contents

as compared to the same period in 2009. The increase in revenue from our international markets is primarily due to the overall increase in capital markets activity during the first quarter of 2010, particularly the increase in the level of IPO activity occurring in Asia in 2010, as compared to 2009. Also contributing to the increases in capital markets services revenue from international markets was the favorable impact of approximately \$1.1 million related to the weakness in the U.S. dollar as compared to certain foreign currencies during 2010 as compared to 2009.

Included in capital markets services revenue for the three months ended March 31, 2010 is \$4,135 of revenue related to the Company's VDR services, which increased 43% for the three months ended March 31, 2010 as compared to the same period in 2009, primarily as a result of the increased IPO activity.

Shareholder reporting services revenue decreased \$8,951, or 10%, to \$83,870 for the three months ended March 31, 2010, as compared to the same period in 2009. Compliance reporting services revenue decreased approximately 5% for the three months ended March 31, 2010 as compared to the same period in 2009. The decrease in revenue from compliance reporting services was primarily attributable to: (i) the loss of certain clients; (ii) non-recurring jobs in 2009; (iii) competitive pricing pressure; and (iv) the timing of certain projects that are expected to be completed in the second quarter of 2010. The decrease in compliance reporting services revenue was partially offset by increases in revenue from the Company's new compliance services, particularly Bowne Compliance DriveSM, Pure ComplianceSM and XBRL related services. In addition there was also an increase in print volumes for certain proxy related work in 2010 as certain clients shifted their focus back to printed proxies for distribution purposes from the utilization of electronic proxies in the prior year in an attempt to improve and obtain more shareholder votes since certain clients experienced a decline in total shareholder votes in the prior year when the focus was on utilizing electronic proxies for distribution purposes. Investment management services revenue decreased approximately 14% for the three months ended March 31, 2010 as compared to the same period in 2009, primarily resulting from lower revenue due to competitive pricing pressure, reduced print volumes, the timing of certain projects that are expected to be completed in the second quarter of 2010 and non-recurring work that occurred in 2009. Partially offsetting the decline in revenue from investment management services were increased projects from existing clients during the first quarter of 2010. Translation services revenue decreased 22% for the three months ended March 31, 2010 as compared to the same period in 2009, primarily due to non-recurring jobs in 2009.

Marketing communications services revenue decreased \$2,710, or 6%, for the three months ended March 31, 2010 as compared to the same period in 2009, primarily due to the loss of certain accounts and lower activity levels and volumes from existing customers, as companies reduced marketing spending associated with the recent economic downturn. These decreases were partially offset by the addition of new clients during the first quarter of 2010 and increased projects from existing clients.

Commercial printing and other revenue decreased approximately \$1,503, or 23%, for the three months ended March 31, 2010, as compared to the same period in 2009, primarily due to price pressure and lower volumes and activity levels.

Revenue by Geography:	Three Months Ended March 31,		Quarter Over		Quarter	
	2010	% of Revenue	2009	% of Revenue	Favorable/(Unfavorable)	% Change
	(Dollars in thousands)					
Domestic (United States)	\$ 140,574	79%	\$ 145,216	86%	\$ (4,642)	(3)%
International	36,486	21	23,889	14	12,597	53

Total revenue	\$ 177,060	100%	\$ 169,105	100%	\$ 7,955	5%
---------------	------------	------	------------	------	----------	----

Revenue from the domestic market decreased 3% to \$140,574 for the three months ended March 31, 2010, compared to \$145,216 for the same period in 2009. This decrease is primarily due to the decline in revenue from shareholder reporting services and marketing communications services, and is partially offset by an increase in revenue from capital markets services, as discussed above.

Revenue from the international markets increased 53% to \$36,486 for the three months ended March 31, 2010, as compared to \$23,889 for the same period in 2009. Revenue from the international markets primarily reflects the substantial increase in capital markets services revenue from our international markets, particularly the increase in

Table of Contents

IPO activity in Asia. These increases are partially offset by a decline in revenue from shareholder reporting services from international markets in 2010 as compared to 2009, particularly in Europe. Also contributing to the increase in revenue from international markets was the favorable impact related to the weakness in the U.S. dollar as compared to certain foreign currencies during 2010 as compared to 2009. At constant exchange rates, revenue from the international markets increased \$8,982, or 38%, for the three months ended March 31, 2010 as compared to the same period in 2009.

Cost of Revenue

Cost of revenue increased \$4,539, or 4%, for the three months ended March 31, 2010 as compared to the same period in 2009, primarily due to the increase in total revenue in 2010 as compared to 2009. As a percentage of revenue, the cost of revenue remained constant at 65% for both periods.

Selling and Administrative Expenses

Selling and administrative expenses increased \$447, or 1%, for the three months ended March 31, 2010 as compared to the same period in 2009. The increase is primarily due to an increase in expenses directly associated with sales, including travel and entertainment expenses related to the increase in activity and the Company's new product offerings. Partially offsetting the increase in selling and administrative expenses is a decrease in bad debt expenses for the three months ended March 31, 2010 of approximately \$0.7 million as compared to the same period in 2009, primarily as a result of the improvement in overall market conditions and the increased collection of the Company's accounts receivable during the first quarter of 2010. In addition, the Company continues to realize the favorable impact of the Company's recent cost savings measures, which includes; (i) a decrease in payroll and certain fringe benefits as a result of the headcount reductions that occurred after the first quarter of 2009; (ii) decreases in facility costs as a result of recent facility reductions and consolidations; and (iii) a decrease in commissions resulting from the renegotiation of certain sales contracts. As a percentage of revenue, overall selling and administrative expense improved approximately 100 basis points to 26% for the three months ended March 31, 2010, as compared to 27% for the same period in 2009.

Other Factors Affecting Net Income

Depreciation expense decreased \$554, or 7%, for the three months ended March 31, 2010 as compared to the same period in 2009, primarily resulting from recent facility reductions and consolidations.

Restructuring, integration and asset impairment charges for the three months ended March 31, 2010 were \$4,019 as compared to \$6,585 in 2009. The charges incurred during the three months ended March 31, 2010 primarily consist of non-cash asset impairments of approximately \$2.0 million primarily related to the closure and consolidation of certain facilities and the impairment of costs incurred for certain software development, costs related to facility closures and consolidations and costs related to additional headcount reductions. The charges incurred during the three months ended March 31, 2009 represented costs related to the Company's headcount reductions that occurred in January 2009, facility consolidations and integration costs related to the Company's acquisitions that occurred during 2008.

During the three months ended March 31, 2010, the Company recorded approximately \$2.9 million of acquisition related expenses associated with the merger with R.R. Donnelley. The amount primarily consists of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. The merger is discussed above and in more detail in Note 2 to the Condensed Consolidated Financial Statements. There were no such expenses recorded by the Company for the three months ended March 31, 2009.

Interest expense slightly increased for the three months ended March 31, 2010 as compared to the same period in 2009, primarily due to the increase in non-cash amortization expense related to deferred financing costs directly associated with amending the Company's credit facility during 2009. This increase is partially offset by a decrease in interest expense related to borrowings under the Company's credit facility for the three months ended March 31, 2010, as compared to the same period in 2009. The Company's average outstanding debt balance was significantly lower in 2010 as compared to 2009, which is primarily due to the repayment of the Company's former term loans

Table of Contents

and repayment of a portion of the Company's borrowings under its revolving credit facility through the utilization of the net proceeds received from the Company's equity offering, which occurred in August 2009. The repayment of the debt is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The weighted-average interest rate on the Company's borrowings under its credit facility was approximately 4.53% during the three months ended March 31, 2010.

Other income (expense) decreased \$1,064 to an expense of (\$321) for the three months ended March 31, 2010, as compared to income of \$743 in 2009, primarily due to non-cash foreign currency translation losses of approximately (\$0.5) million for the three months ended March 31, 2010 as compared to non-cash foreign currency translation gains of approximately \$0.8 million in 2009. The foreign currency losses in 2010 are a result of the weakness in the U.S. dollar as compared to other currencies for the three months ended March 31, 2010 as compared to the same period in 2009.

Income tax benefit for the three months ended March 31, 2010 was \$106 on pre-tax loss from continuing operations of (\$539) as compared to \$659 on pre-tax loss from continuing operations of (\$2,527) in 2009. The effective tax rate for the three months ended March 31, 2010 and 2009 were 19.7% and 26.1%, respectively.

Loss from discontinued operations for the three months ended March 31, 2010 was \$145 as compared to \$92 in 2009. The results from discontinued operations for the three months ended March 31, 2010 and 2009 primarily reflect adjustments related to the estimated indemnification liabilities associated with the Company's discontinued businesses, interest expense related to the deferred rent associated with leased facilities formerly occupied by discontinued businesses and income taxes associated with the discontinued operations.

As a result of the foregoing, net loss for the three months ended March 31, 2010 was \$578 as compared to \$1,960 for the three months ended March 31, 2009.

Domestic Versus International Results of Operations

The Company has operations in the United States, Canada, Europe, Central America, South America and Asia. Domestic and international components of loss from continuing operations before income taxes for the three months ended March 31, 2010 and 2009 are as follows:

	Three Months Ended March 31,	
	2010	2009
Domestic (United States)	\$ (3,694)	\$ (1,588)
International	3,155	(939)
Loss from continuing operations before income taxes	\$ (539)	\$ (2,527)

The increase in domestic pre-tax loss from continuing operations is primarily due to the decline in revenue from shareholder reporting services for the three months ended March 31, 2010 as compared to the same period in 2009, as previously discussed. The domestic results for the three months ended March 31, 2010 include approximately \$4.0 million of restructuring, integration and asset impairment costs and \$2.9 million of expenses related to the merger with R.R. Donnelly. Domestic results of operations also include shared corporate expenses such as: administrative, legal, finance and other support services that primarily are not allocated to the Company's international operations.

The improvement in the international results from continuing operations for the three months ended March 31, 2010 as compared to the same period in 2009 is primarily due to the substantial increase in revenue from capital markets services, which historically has been the Company's most profitable class of service. The increase is partially offset by foreign currency translation losses of approximately \$0.5 million for the three months ended March 31, 2010, as compared to foreign currency translation gains of approximately \$0.8 million for the same period in 2009, as previously discussed.

Table of Contents**Liquidity and Capital Resources**

Liquidity and Cash Flow Information:	March 31,	
	2010	2009
Working capital	\$ 115,758	\$ 104,588
Current ratio	1.95:1	1.83:1
Net cash used in operating activities (for the three months ended)	\$ (18,105)	\$ (20,641)
Net cash used in investing activities (for the three months ended)	\$ (5,670)	\$ (2,958)
Net cash provided by financing activities (for the three months ended)	\$ 25,528	\$ 22,767
Capital expenditures	\$ (5,692)	\$ (2,798)
Average days sales outstanding	63 days	72 days

Overall working capital increased by approximately \$11.2 million at March 31, 2010 as compared to March 31, 2009. The increase in working capital from March 31, 2009 to March 31, 2010 is primarily attributed to the overall improved operating results in 2010 as compared to 2009 and the improved collection of the Company's accounts receivable during the first quarter of 2010 as a result of system improvements that facilitate a more timely generation of customer invoices, thereby accelerating the collection of cash, and the overall improved market conditions. These increases are partially offset by: (i) the reclassification of the Company's Notes (approximately \$8.1 million) to current debt as of March 31, 2010 from noncurrent liabilities at March 31, 2009, since the earliest that the redemption and repurchase features can occur are on October 1, 2010; (ii) an increase in accrued bonuses as of March 31, 2010, based on the improved operating results; and (iii) cash used to pay restructuring and integration related expenses, which is discussed in more detail in Note 9 to the Condensed Consolidated Financial Statements.

As of March 31, 2010, the Company had \$33.0 million outstanding under its \$123.0 million Revolver, which is classified as long-term debt since the Revolver expires in May 2013. The Company's ability to borrow under the Revolver is subject to periodic borrowing base determinations. The borrowing base consists primarily of certain eligible accounts receivable and inventories. The Revolver is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

As of March 31, 2010, there were approximately \$36.0 million of borrowings available under the Revolver, which was based on the Company's borrowing base calculation in place as of March 31, 2010, and reflects outstanding letters of credit of approximately \$4.2 million. As of May 1, 2010, the Company had \$30.6 million outstanding and approximately \$67.3 million of borrowings available under the Revolver based on the Company's most recent borrowing base calculation. The Company's next borrowing base calculation is due on May 20, 2010.

The Company was in compliance with all loan covenants as of March 31, 2010 and based on its current projections, the Company believes it will be in compliance with the quarterly loan covenants for the remainder of fiscal year 2010.

It is expected that the cash generated from operations, working capital and the Company's borrowing capacity will be sufficient to fund its development needs (both foreign and domestic), capital expenditures, provide for the payment of cash dividends, and meet its debt service requirements. The Company experiences certain seasonal factors with respect to its working capital; the heaviest demand for utilization of working capital is normally in the first and second quarters. The Company's existing borrowing capacity provides for this seasonal increase.

Cash Flows

Average days sales outstanding was 63 days for the three months ended March 31, 2010 as compared to 72 days for the same period in 2009. The Company had net cash used in operating activities of \$18,105 as compared to \$20,641 for the three months ended March 31, 2009, respectively. The improvement in net cash used in operating activities for the three months ended March 31, 2010 as compared to the same period in 2009 is primarily the result of improved profitability in 2010 as compared to 2009. Also contributing to the improvement in cash used in operating activities was the improved collection of the Company's accounts receivable during the first quarter of 2010 as compared to 2009 and a decrease in restructuring and integration payments during the three months ended March 31, 2010 as

Table of Contents

compared to the same period in 2009. The decreases in cash used in operating activities were offset by cash bonuses of approximately \$7.0 million paid during the three months ended March 31, 2010, which was based on the Company's 2009 operating results, as compared to no cash bonuses paid during the three months ended March 31, 2009, and a decrease in net cash refunds for income taxes of approximately \$1.8 million during the three months ended March 31, 2010 as compared to same period in 2009. In addition, the cash used in operating activities for the three months ended March 31, 2010 included cash used for acquisition related costs associated with the merger with R.R. Donnelley, which is discussed in more detail in Note 2 to the Condensed Consolidated Financial Statements. Overall, cash used in operating activities improved by \$2,536 from March 31, 2009 to March 31, 2010.

Net cash used in investing activities was \$5,670 for the three months ended March 31, 2010 as compared to \$2,958 for the three months ended March 31, 2009. The change from 2009 to 2010 was primarily due to an increase in capital expenditures related to the development of new service offerings and upgrades and improvements to existing client solutions and internal solutions during the three months ended March 31, 2010 as compared to the same period in 2009. Capital expenditures for the three months ended March 31, 2010 were \$5,692 as compared to \$2,798 in 2009.

Net cash provided by financing activities was \$25,528 for the three months ended March 31, 2010 as compared to \$22,767 for the same period in 2009. The increase in net cash provided by financing activities in 2010 as compared to 2009 is primarily due to an increase in net borrowings under the Company's Revolver during the three months ended March 31, 2010 as compared to the same period in 2009. The borrowings in 2009 were reported net of debt issuance costs paid for the amendment of the previous credit facility, which occurred in March 2009. Although the net borrowings under the Revolver were higher during the first quarter of 2010 as compared to the same period in 2009, the Company's average outstanding debt balance for the three months ended March 31, 2010 was significantly lower than the average outstanding debt balance for the same period in 2009. Partially offsetting the increase in net cash provided by financing activities for the three months ended March 31, 2010 as compared to the same period in 2009 were cash dividends paid to shareholders of approximately \$2.3 million for the three months ended March 31, 2010, as compared to non-cash stock dividends paid during the three months ended March 31, 2009. During the first quarter of 2009, the Company issued 322,979 shares of its stock as a result of stock dividends to its shareholders, which was equivalent to a dividend of \$0.055 per share. During the first three quarters of 2009, the Company suspended the payment of cash dividends, and issued stock dividends to its shareholders. The payment of cash dividends was restricted under the covenants of the Company's Revolver. In October 2009, the Revolver was amended and the Company reinstated the payment of cash dividends in November 2009.

2010 Outlook

The Company is not adjusting its annual guidance at this time based on its operating performance to date and the improvements in the capital markets. This is consistent with the Company's policy of not adjusting annual guidance unless it believes the actual results will be materially outside the range provided.

The Company expects overall operating performance will be in the range of the full year guidance previously provided in the Company's earnings release filed on Form 8-K on February 3, 2010. These forward-looking statements are based upon current expectations and are subject to factors that could impact actual results to differ materially from those suggested here. Refer to the Cautionary Statement Concerning Forward-Looking Statements included at the beginning of this Item 2.

Recent Accounting Pronouncements

A description of the recently issued accounting pronouncements is included in Note 3 to the Condensed Consolidated Financial Statements.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

The Company's market risk is principally associated with activity levels and trends in the domestic and international capital markets. This includes activity levels in the IPO and mergers and acquisitions markets, both important components of the Company's revenue. The Company also has market risk tied to interest rate fluctuations related to its debt obligations and fluctuations in foreign currency, as discussed below.

Table of Contents

Interest Rate Risk

The Company's exposure to market risk for changes in interest rates relates primarily to its long-term debt obligations, revolving credit agreement and short-term investment portfolio.

The Company does not use derivative instruments in its short-term investment portfolio. The Company's \$8.3 million Notes consist of fixed rate instruments, and therefore, would not be significantly impacted by changes in interest rates. As of March 31, 2010, the Company had \$33.0 million of borrowings outstanding under its Revolver. Borrowings under the Revolver have an interest rate based on LIBOR plus 4.00% in the case of Eurodollar loans or a base rate plus 3.00% in the case of Base Rate loans. During the three months ended March 31, 2010, the weighted-average interest rate on the Company's borrowings under its Revolver approximated 4.53%. A hypothetical 1% change in this interest rate would result in a change in interest expense of approximately \$58 for the three months ended March 31, 2010 based on the average outstanding balances under the credit facility during the quarter.

Foreign Exchange Rates

The Company derives a portion of its revenues from various foreign sources. The exposure to foreign currency movements is limited in most cases because the revenue and expense of its foreign subsidiaries are substantially in the local currency of the country in which they operate. Certain foreign currency transactions, such as intercompany sales, purchases, and borrowings, are denominated in a currency other than the local functional currency. These transactions may produce receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. A change in exchange rates between the local functional currency and the currency in which a transaction is denominated increases or decreases the expected amount of local functional currency cash flows upon settlement of the transaction, which results in a foreign currency transaction gain or loss that is included in other income (expense) in the period in which the exchange rate changes.

The Company does not use foreign currency hedging instruments to reduce its exposure to foreign exchange fluctuations. The Company has reflected translation adjustments of \$594 and \$1,427 in its Condensed Consolidated Statements of Stockholders' Equity for the three months ended March 31, 2010 and 2009, respectively. These adjustments are primarily attributed to the fluctuation in value between the U.S. dollar and the euro, pound sterling, Japanese yen, Singapore dollar and Canadian dollar. The Company has reflected transaction (losses) gains of (\$494) and \$771 in its Condensed Consolidated Statements of Operations for the three months ended March 31, 2010 and 2009, respectively. The (losses) gains are primarily attributable to fluctuations in value among the U.S. dollar and the aforementioned foreign currencies.

Equity Price Risk

The Company's investments in marketable securities were approximately \$3.1 million as of March 31, 2010, primarily consisting of auction rate securities.

Uncertainties in the credit markets have prevented the Company and other investors from liquidating these auction rate securities. Accordingly, the Company currently holds \$3.1 million of auction rate securities at par, and is receiving interest at comparable rates for similar securities. These investments are insured against a loss of principal and interest.

Based on the Company's ability to access cash and other short-term investments, its expected operating cash flows and other sources of cash, the Company does not anticipate the current lack of liquidity of these investments will have a material effect on the Company's liquidity or working capital.

The Company's defined benefit pension plan (the Plan) holds investments in both equity and fixed income securities. The amount of the Company's annual contribution to the Plan is dependent upon, among other factors, the return on the Plan's investments. Based on current estimates, the Company currently expects to contribute approximately \$2.2 million to its Plan in 2010. However, declines in the market value of the Company's Plan investments may require the Company to make additional contributions in future years.

Table of Contents

Item 4. *Controls and Procedures*

(a) *Disclosure Controls and Procedures.* The Company maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to reasonably assure that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Disclosure controls include components of internal control over financial reporting, which consists of control processes designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles in the United States.

As of the end of the period covered by this report, the Company's management, under the supervision of and with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures, pursuant to Exchange Act Rule 13a-15(e) and 15d-15(e) (the Exchange Act). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in ensuring that all material information required to be filed or submitted under the Exchange Act has been made known to them in a timely fashion.

(b) *Changes in Internal Control Over Financial Reporting.* There have not been any changes in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. *Legal proceedings*

The Company, members of our board of directors and management, R.R. Donnelley and Merger Sub have been named as defendants in four purported class action lawsuits brought in the Supreme Court of the State of New York and consolidated under the caption and index number Sartoretti v. Bowne & Co., Inc., et al., Index No. 600531/2010. The consolidated complaint filed on April 12, 2010, alleges breach of fiduciary duty by the directors and officers in connection with the acquisition contemplated by the merger agreement, and asserts aiding and abetting claims against the Company, R.R. Donnelly and Merger Sub. On April 21, 2010, the parties entered into a Memorandum of Understanding, which contemplates, subject to completion of definitive settlement documents and court approval, a settlement of the consolidated cases. The Company has accrued \$550 thousand as of March 31, 2010 related to the estimated settlement costs.

The Company is not involved in any other material pending legal proceedings other than routine litigation incidental to the conduct of its business.

Item 1A. *Risk Factors*

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the year ended December 31, 2009. The risk factors disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the year ended December 31, 2009 are certain risk factors that could affect our business, financial condition, and results of operations. These risk factors should be considered in conjunction with evaluating

the forward-looking statements contained in our Annual Report on Form 10-K and set forth in this report because these factors could cause the actual results and conditions to differ materially from those projected in forward-looking statements.
