GreenHaven Commodity Services LLC

Managing Owner

I. The first paragraph of page ii of the Prospectus is hereby deleted and replaced, in its entirety, with the following:

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMMODITY INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

II. All references to Page 10 in the second paragraph of page ii of the Prospectus are hereby replaced with the words Page 11 .

III. The last sentence in the first paragraph of page v of the Prospectus is hereby deleted and replaced, in its entirety, with the following:

This Prospectus is intended to be used beginning October 27, 2010.

IV. The following additional sentence is hereby added to the end of the third paragraph of page viii of the Prospectus:

The Managing Owner applies trading limits on a per-order and a per-day basis per its discretion to mitigate the risk of trading errors as well as comply with all Commodity Futures Trading Commission, federal, and state regulations regarding position limits.

V. The reference to the date September 30, 2010 in the paragraph immediately following the heading *Your investment could suffer in the event that Thomson Reuters America LLC decides to terminate the License Agreement between itself and the Managing Owner.* on page 3 of the Prospectus is hereby replaced with the date October 1, 2011.

VI. The paragraph immediately following the heading *An Absence of Backwardation in the Prices of Certain Commodities, or the Presence of Contango in the Prices of Certain Commodities, May Decrease the Price of Your Shares.* on page 9 of the Prospectus is hereby deleted and replaced, in its entirety, with the following:

As the futures contracts that underlie the Index near expiration, they are replaced by contracts that have a later expiration. Thus, for example, a contract purchased and held in November 2011 may specify a January 2012 expiration. As that contract nears expiration, it may be replaced by selling the January 2012 contract and purchasing the contract expiring in March 2012. This process is referred to as rolling. Historically, the prices of Crude Oil and Heating Oil have frequently been higher for contracts with shorter-term expirations than for contracts with longer-term expirations, which is referred to as backwardation. In these circumstances, absent other factors, the sale of the January 2012 contract would take place at a price that is higher than the price at which the March 2012 contract is purchased, thereby creating a gain in connection with rolling. While Crude Oil and Heating Oil have historically exhibited consistent periods of backwardation, backwardation will likely not exist in these markets at all times. The absence of backwardation in Crude Oil and Heating Oil could adversely affect the value of the Index and, accordingly, decrease the value of your Shares.

VII. All references to the date December 31, 2008 in the last paragraph of page 9 of the Prospectus are hereby replaced with the date December 31, 2009.

VIII. The Section of the Prospectus entitled **BREAK-EVEN ANALYSIS beginning on page 11 of the Prospectus is hereby deleted and replaced, in its entirety, with the following:**

BREAK-EVEN ANALYSIS

The Breakeven Table below shows the estimated amount of all fees and expenses which are anticipated to be incurred by a new investor in the Shares during the first twelve months of ownership. The total estimated cost and expense load of the Shares is expressed as a percentage of \$28.21 (being the closing trading price of the Shares on September 29, 2010). Although the Managing Owner has used actual numbers and good faith estimates in preparing this table, the actual expenses associated with an investment in the Shares may differ.

Breakeven Table

Expense	Shares of the Fund ⁽¹⁾		Basket ⁽²⁾	
	\$	%	\$	%
Underwriting Discount ⁽³⁾	\$ 0.00	0%	\$ 0.00	0%
Management Fee ⁽⁴⁾	\$ 0.240	0.85%	\$ 11,989	0.85%
Organization and Offering Expense Reimbursement ⁽⁵⁾	\$ 0.00	0.00%	\$ 0.00	0.00%
Brokerage Commissions and Fees ⁽⁶⁾	\$ 0.067	0.24%	\$ 3,385	0.24%
Routine Operational, Administrative and Other Ordinary Expenses ⁽⁷⁾⁽⁸⁾	\$ 0.00	0.00%	\$ 0.00	0.00%
Interest Income ⁽⁹⁾	\$ (0.039)	-0.14%	\$ (1,975)	-0.14%
12-Month Breakeven (continuous Offering)	\$ 0.268	0.95%	\$ 13,400	0.95%

1. The breakeven analysis set forth in this column assumes that the Shares have a constant month-end net asset value and is based on \$28.21 as the net asset value per share. See Fees and Charges on page 35 for an explanation of the expenses included in the Breakeven Table.

2. The breakeven analysis set forth in this column assumes that Baskets have a constant month-end net asset value and is based on \$1,410,500 as the net asset value per Basket. See Fees and Charges on page 35 for an explanation of the expenses included in the Breakeven Table.

3. No upfront selling commissions are charged to Shares sold during the continuous offering period, but it is expected that investors will be charged a customary commission by their brokers in connection with purchases of Shares that will vary from investor to investor. Investors are encouraged to review the terms of their brokerage accounts for details on applicable charges.
4. From the Management Fee, the managing owner will be responsible for paying the fees and expenses of any third party responsible for marketing and or distribution of the Fund, including, but not limited to, the Distributor.
5. All organizational and offering costs incurred in connection with organizing the Index Fund and the Master Fund

and the offering of the Shares will be borne by GreenHaven LLC, a limited liability company organized in the State of Georgia which is the sole member of the Managing Owner.

6. The costs to the fund for brokerage commissions and trading fees will vary by the broker or brokers involved to execute specific contracts for the funds interest. The managing owner expects to pay rates that are commensurate with the going market rate for commissions and brokerage. The costs to the fund will also be subject to the trading frequency of the fund.
7. Routine operational, administrative and other ordinary expenses are paid by the Managing Owner and include, but are not limited to, annual audit, accounting, and fund administration and other fund

expenses that are fixed in amount and not charged as a percentage of net asset value.

8. In connection with orders to create and redeem Baskets, Authorized Participants will pay a transaction fee in the amount of \$500 per order. Because these transactions fees are de minimis in amount, are charged on a transaction-by-transaction basis (and not on a Basket-by-Basket basis), and are borne by the Authorized Participants, they have not been included in the Breakeven Table.
9. Interest income currently is estimated to be earned at a rate of 0.14%, based upon the September 29, 2010 yield on 90 day Treasury Bills.
10. It is expected that interest income, as stated in footnote 9 above, will not exceed the fees and costs incurred by the fund over a

12 month period.
Therefore, the
fund needs to
generate gains of
at least 0.95% to
break even in a
12 month period.

11. Investors may pay customary brokerage commissions in connection with purchases of Shares during the continuous offering period. Because such brokerage commission rates will vary from investor to investor, such brokerage commissions have not been included in the breakeven table. Investors are encouraged to review the terms of their brokerage accounts for details on applicable charges.

The Breakeven Table, as presented, is an approximation only. The capitalization of the Fund does not directly affect the level of its charges as a percentage of its net asset value, other than (i) administrative expenses (which are assumed for purposes of the Breakeven Table to equal the maximum estimated percentage of the average beginning of month net asset value) and (ii) brokerage commissions.
