**CAUTIONARY STATEMENT**

Certain statements made in this Quarterly Report on Form 10-Q are forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on management's expectations, beliefs, current assumptions and projections. When used in this press release, words such as may, will, expect, intend, estimate, anticipate, believe, should, project or negative thereof or similar words are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond our control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Those factors include, but are not limited to:

economic changes in global markets where we do business, such as reduced demand for the products we sell, weakness in the housing and commercial real estate markets, currency exchange rates, inflation rates, interest rates, recession, foreign government policies and other external factors that we cannot control;

unanticipated fluctuations in commodity prices and raw material costs;

cyclical downturns affecting the global market for capital goods;

unexpected issues and costs arising from the integration of acquired companies and businesses;

marketplace acceptance of new and existing products including the loss of, or a decline in business from, any significant customers;

the impact of capital market transactions that we may effect;

the availability and effectiveness of our information technology systems;

unanticipated costs associated with litigation matters;

actions taken by our competitors, including new product introductions or technological advances, and other events affecting our industry and competitors;

difficulties in staffing and managing foreign operations;

other domestic and international economic and political factors unrelated to our performance, such as the current substantial weakness in economic and business conditions and the stock markets as a whole; and

other risks and uncertainties described from time to time in our reports filed with the U.S. Securities and Exchange Commission, or SEC, which are incorporated by reference.

Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date of this report, and we undertake no obligation to update these statements to reflect subsequent events or circumstances. Additional information regarding these and other risks and factors is included in **Item 1A Risk Factors** in our Annual Report on Form 10-K filed with the SEC on March 2, 2010.

**REGAL BELOIT CORPORATION**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**October 2, 2010**  
**(Unaudited)**

**1. BASIS OF PRESENTATION**

The accompanying (a) condensed consolidated balance sheet as of January 2, 2010, which has been derived from audited financial statements, and (b) unaudited interim condensed consolidated financial statements as of October 2, 2010, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's 2009 Annual Report on Form 10-K filed on March 2, 2010.

Recent accounting guidance changed the consolidation rules as they relate to variable interest entities (VIEs). The guidance changed the model related to consolidating a VIE, and defines the assessment methodology for determining VIE status. The guidance was adopted by the Company as required at the beginning of fiscal 2010, and did not have an effect on the Company's consolidated financial statements.

In the opinion of management, all adjustments considered necessary for a fair presentation of financial results have been made. Except as otherwise discussed, such adjustments consist of only those of a normal recurring nature.

Operating results for the three and nine months ended October 2, 2010 are not necessarily indicative of the results that may be expected for the entire fiscal year ending January 1, 2011.

The Company operates on a 52/53 week fiscal year, and fiscal 2009 was a 53 week year with an additional week in the fiscal fourth quarter.

**2. OTHER FINANCIAL INFORMATION****Inventories**

Cost for approximately 50% of the Company's inventory is determined using the last-in, first-out (LIFO) inventory valuation method. The approximate percentage distribution between major classes of inventories was as follows:

	<b>October 2, 2010</b>	January 2, 2010
Raw Material and Work in Process	<b>32%</b>	34%
Finished Goods and Purchased Parts	<b>68%</b>	66%

**Property, Plant and Equipment**

Property, plant and equipment by major classification was as follows:

	<b>October 2, 2010</b>	January 2, 2010
Land and Improvements	<b>44,612</b>	42,034
Buildings and Improvements	<b>137,723</b>	127,468
Machinery and Equipment	<b>498,362</b>	470,130
Construction in Progress	<b>20,484</b>	14,144
Property, Plant and Equipment	<b>701,181</b>	653,776
Less: Accumulated Depreciation	<b>(340,167)</b>	(310,705)
Net Property, Plant and Equipment	<b>361,014</b>	343,071

**3. ACQUISITIONS**

The results of operations for acquired businesses are included in the Condensed Consolidated Financial Statements from the dates of acquisition.

On September 1, 2010, the Company acquired Rotor B.V. ( Rotor ) headquartered in Eibergen, the Netherlands. Rotor sells electric motors to a variety of industries including the marine industry, ship building and offshore oil and gas. In addition to the Netherlands, Rotor also sells throughout Europe, the United Kingdom and Japan. The purchase price was approximately \$36.4 million net of cash acquired and assumed liabilities. Rotor is reported as part of the Electrical segment.

**Table of Contents**

On April 6, 2010, the Company acquired CMG Engineering Group Pty, Ltd. ( CMG ) headquartered in Melbourne, Australia. CMG manufactures and distributes fractional horsepower industrial motors, blower systems, and industrial metal products with operations in Australia, New Zealand, South Africa, Malaysia, Singapore, the United Kingdom, and the Middle East. The purchase price was \$83.5 million, including \$74.7 million in cash, approximately \$2.7 million in assumed liabilities and 100,000 shares of Company stock with a fair market value of \$6.1 million. CMG has operations in both the Mechanical and Electrical segments.

Purchase price allocations for the Rotor and CMG acquisitions included adjustments for intangible assets, property and other working capital adjustments. The excess of purchase price over fair value was assigned to goodwill.

**4. INVESTMENTS**

Investments are generally short term in duration and are classified as trading securities, which are reported at fair value with gains and losses, which were insignificant for all periods presented, included in earnings. As of October 2, 2010 and January 2, 2010, the Company had \$194.1 million and \$117.6 million respectively, of trading securities recorded at fair value (Level 2) (see Note 16 of the Condensed Consolidated Financial Statements for description of the fair value hierarchy).

**8. GOODWILL AND OTHER INTANGIBLES****Goodwill**

As required, we perform an annual impairment test of goodwill during the fourth quarter or more frequently if events or circumstances change that would more likely than not reduce the fair value of our reporting units below their carrying value.

At October 2, 2010, substantially all of the Company's goodwill is attributable to the Electrical segment and the Company believes that substantially all of the goodwill is deductible for tax purposes. The following information presents changes to goodwill during the periods indicated (in thousands):

Balance as of January 2, 2010	\$ 663,920
Acquisitions	39,492
Translation Adjustments	7,831
Balance as of October 2, 2010	\$ 711,243

**9. DEBT AND BANK CREDIT FACILITIES**

The Company's indebtedness as of October 2, 2010 and January 2, 2010 was as follows (in thousands):

	<b>October 2, 2010</b>	January 2, 2010
Senior notes	\$ 250,000	\$ 250,000
Term loan	165,000	165,000
Revolving credit facility		2,863
Convertible Notes		39,198
Other	17,927	19,389
	<b>432,927</b>	476,450
Less: Current maturities	<b>(7,029)</b>	(8,385)
Non-current portion	<b>\$ 425,898</b>	\$ 468,065

At October 2, 2010, the Company has \$250.0 million of Senior Notes (the "Notes") outstanding. The Notes were sold pursuant to a Note Purchase Agreement (the "Agreement") by and among the Company and the purchasers of the Notes. The Notes were issued and sold in two series: \$150.0 million in Floating Rate Series 2007A Senior Notes, Tranche A, due August 23, 2014, and \$100.0 million in Floating Rate Series 2007A Senior Notes, Tranche B, due August 23, 2017. The Notes bear interest at a margin over the London Inter-Bank Offered Rate ("LIBOR"), which margin varies with the ratio of the Company's consolidated debt to consolidated earnings before interest, taxes, depreciation and amortization ("EBITDA") as defined in the Agreement. These interest rates also vary as LIBOR varies. The Agreement permits the Company to issue and sell additional note series, subject to certain terms and conditions described in the Agreement, up to a total of \$600.0 million in combined Notes. At October 2, 2010, the interest rate of 1.0% was based on a margin over LIBOR.

The Company also has a Term Loan Agreement ("Term Loan") with certain financial institutions, whereby the Company borrowed an aggregate principal amount of \$165.0 million. The Term Loan matures in June 2013, and borrowings generally bear interest at a variable rate equal to (i) a margin over LIBOR, which margin varies depending on whether certain criteria are satisfied, or (ii) the alternate base rate as defined in the agreement. At October 2, 2010, the interest rate of 1.0% was based on a margin over LIBOR.

The Company's \$500.0 million revolving credit facility ("Facility") matures in April 2012 and permits the Company to borrow at interest rates based upon a margin above LIBOR, which margin varies with the ratio of total funded debt to EBITDA, as defined in the Facility. These interest rates also vary as LIBOR varies. The Company pays a commitment fee on the unused amount of the Facility, which also varies with the ratio of total debt to EBITDA as defined in the Facility.

The Notes, the Term Loan, and the Facility require the Company to meet specified financial ratios and to satisfy certain financial condition tests. The Company was in compliance with all debt covenants as of October 2, 2010. The Company has entered into interest rate swap agreements to manage fluctuations in cash flows resulting from interest rate risk. (See also Note 15 of Notes to Condensed Consolidated Financial Statements.)

As of October 2, 2010, the Company has no Convertible Notes that remain outstanding. The Company exercised its right to call the remaining bonds, which resulted in bondholders exercising their conversion right. As a result,

bondholders received the principal amount of the notes in cash, with the balance of the conversion obligation satisfied in shares of the Company's common stock. During the first nine months of 2010, bondholders exercised their conversion right for a total of \$39.2 million of Convertible Notes. The par value was paid in cash, and 917,394 shares of common stock were issued for the conversion premium.

At October 2, 2010, other notes payable of approximately \$17.9 million were outstanding with a weighted average interest rate of 5.0%.

**Table of Contents****10. PENSION PLANS**

The Company's net periodic defined benefit pension cost is comprised of the following components (in thousands):

	Three Months Ending		Nine Months Ending	
	October 2, 2010	September 26, 2009	October 2, 2010	September 26, 2009
Service cost	\$ 586	\$ 578	\$ 1,758	\$ 1,734
Interest cost	1,734	1,591	5,203	4,775
Expected return on plan assets	(1,566)	(1,414)	(4,697)	(4,242)
Amortization of prior service cost	47	49	141	147
Amortization of net actuarial loss	564	188	1,691	564
Net periodic benefit expense	\$ 1,365	\$ 992	\$ 4,096	\$ 2,978

The estimated net actuarial loss and prior service cost for defined benefit pension plans that will be amortized from accumulated other comprehensive loss into net periodic benefit cost during the 2010 fiscal year is \$2.2 million and \$0.2 million, respectively.

In the third quarter of 2010 and 2009, the Company contributed \$2.9 million and \$8.5 million to defined benefit pension plans, respectively. The Company expects to contribute an additional \$0.5 million, for total contributions of \$4.3 million in 2010. The Company contributed a total of \$10.1 million in 2009. The assumptions used in the valuation of the Company's pension plans and in the target investment allocation have remained the same as those disclosed in the Company's 2009 Annual Report on Form 10-K filed on March 2, 2010.

**11. SHAREHOLDERS' EQUITY**

The Company recognized approximately \$1.9 million and \$1.3 million in share-based compensation expense for the three month period ended October 2, 2010 and September 26, 2009, respectively. Share-based compensation expense for the nine month period ending October 2, 2010 and September 26, 2009 was \$5.0 million and \$3.3 million, respectively. The total excess income tax benefit recognized relating to share-based compensation for the nine months ended October 2, 2010 and September 26, 2009 was approximately \$1.6 million and \$1.9 million, respectively. The Company recognizes compensation expense on grants of share-based compensation awards on a straight-line basis over the vesting period of each award. As of October 2, 2010, total unrecognized compensation cost related to share-based compensation awards was approximately \$19.0 million, net of estimated forfeitures, which the Company expects to recognize over a weighted average period of approximately 3.0 years.

The Company was authorized as of October 2, 2010 to deliver up to 5.0 million shares of common stock upon exercise of non-qualified stock options or incentive stock options, or upon grant or in payment of stock appreciation rights, and restricted stock. Approximately 1.7 million shares were available for future grant or payment under the various plans at October 2, 2010.

On May 22, 2009, the Company completed the sale of 4,312,500 shares of common stock at a price of \$36.25 per share to the public. Net proceeds of \$150.4 million were received by the Company.

**Share-based Incentive Awards**

The Company uses several forms of share-based incentive awards, including non-qualified stock options, incentive stock options, and stock appreciation rights (SARs). All grants are made at prices equal to the fair market value of the stock on the grant dates, and expire ten years from the grant date. The Company values restricted stock awards at the closing market value of its common stock on the date of grant and restrictions generally lapse three years after the date of grant.

The majority of the Company's annual share-based incentive awards are made in the fiscal second quarter. The per share weighted average fair value of share-based incentive awards granted in the May 2010 annual grant was \$22.88. The fair market value of the awards is estimated on the date of grant using the Black-Scholes pricing model and the following assumptions: risk-free interest rate of 3.0%; expected dividend yield of 1.1%; expected volatility of 35.4%, and an estimated life of 7.0 years.

A summary of share-based awards (options and SARs) as of October 2, 2010 follows below. Forfeitures of share-based awards were immaterial.

Outstanding	1,480,950	\$ 43.38	7.1	\$ 23.6
Exercisable	571,150	36.65	5.6	12.9

**Restricted Stock**

As of October 2, 2010, the Company had 184,150 shares of restricted stock outstanding with a weighted average grant date fair value of \$53.12 and a weighted average life of 2.3 years. The Company values restricted stock awards at the closing market value of its common stock on the date of grant and restrictions generally lapse three years after the date of the grant. In the first nine months of 2010 there were 105,950 shares of restricted stock granted, and 29,300 shares of restricted stock vested.

**12. INCOME TAXES**

The effective tax rate for the three months ended October 2, 2010 was 30.2% versus 26.9% in the prior year period. The effective tax rate for the nine months ended October 2, 2010, was 31.2% versus 28.9% in the prior period. The changes in the effective rates are driven by changes in the global distribution of income.

As of October 2, 2010 and January 2, 2010, the Company had approximately \$6.0 million and \$6.6 million respectively, of unrecognized tax benefits, all of which would affect its effective tax rate if recognized. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Federal tax returns from 2007 through 2009 and various state tax returns remain subject to income tax examinations by tax authorities.

**13. EARNINGS PER SHARE (EPS)**

The numerator for the calculation of basic and diluted earnings per share is Net Income Attributable to Regal Beloit Corporation. The denominator is computed as follows (in thousands):

		Three Months Ending		Nine Months Ending	
		October 2, 2010	September 26, 2009	October 2, 2010	September 26, 2009
Denominator for basic EPS	weighted average	<b>38,581</b>	36,056	<b>38,113</b>	33,590
Effect of dilutive securities		<b>442</b>	2,127	<b>763</b>	1,704
Denominator for diluted EPS		<b>39,023</b>	38,183	<b>38,876</b>	35,294

The Effect of dilutive securities represents the dilution impact of equity awards and the Convertible Notes (see Note 9 of Notes to Condensed Consolidated Financial Statements). There was no dilutive effect of the Convertible Notes for the three months ended October 2, 2010. The dilutive effect of the Convertible Notes was approximately 1.8 million shares for the three months ended September 26, 2009. The dilutive effect of the Convertible Notes was approximately 0.3 million shares and 1.4 million shares of the nine month period ending October 2, 2010 and September 26, 2009 respectively.

Options for common shares where the exercise price was above the market price at October 2, 2010, and September 26, 2009 totaling approximately 0.3 million and 0.2 million shares, have been excluded from the calculation of the effect of dilutive securities as the effect of such options is anti-dilutive.

**14. CONTINGENCIES**

On July 30, 2009, the Company filed a response and counterclaims to an action filed by Nordyne, Inc. ( Nordyne ) in the U.S. District Court for the Eastern District of Missouri in which action Nordyne is seeking a judgment declaring that neither Nordyne s G7 furnace systems nor its iQ Drive 23-seer air conditioning systems infringe on our ECM (electronically commutated motor) systems patents (U.S. Patent No. 5,592,058) ( the 058 Patent ) and/or that the 058 Patent is invalid. In our response and counterclaims against Nordyne we are seeking a judgment that the 058 Patent is valid and that Nordyne has, in fact, infringed and continues to infringe the 058 Patent by making, using, offering for sale and selling it G7 furnace systems and iQ Drive 23-seer air conditioning systems. We have also requested the U.S. District Court to enjoin Nordyne and all persons working in concert with Nordyne from further infringement of the 058 Patent and to award us compensatory and other damages caused by such infringement. We intend to defend our intellectual property vigorously against the claims asserted by Nordyne and against any infringement by Nordyne or any other person. We do not currently believe that the litigation will have a material effect on the Company s financial position or its results of operations.

**Table of Contents**

The Company is, from time to time, party to litigation that arises in the normal course of its business operations, including product warranty and liability claims, contract disputes and environmental, asbestos, employment and other litigation matters. The Company's products are used in a variety of industrial, commercial and residential applications that subject us to claims that the use of our products is alleged to have resulted in injury or other damage. The Company accrues for anticipated costs in defending against such lawsuits in amounts that we believe are adequate, and the Company does not believe that the outcome of any such lawsuit will have a material effect on the Company's financial position or its results of operations.

**15. DERIVATIVE INSTRUMENTS**

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are commodity price risk, currency exchange, and interest rate risk. Forward contracts on certain commodities are entered into to manage the price risk associated with forecasted purchases of materials used in the Company's manufacturing process. Forward contracts on certain currencies are entered into to manage forecasted cash flows in certain foreign currencies. Interest rate swaps are entered into to manage interest rate risk associated with the Company's floating rate borrowings.

The Company must recognize all derivative instruments as either assets or liabilities at fair value in the statement of financial position. Accordingly, the Company designates commodity forward contracts as cash flow hedges of forecasted purchases of commodities, currency forward contracts as cash flow hedges of forecasted foreign currency cash flows and interest rate swaps as cash flow hedges of forecasted LIBOR-based interest payments. There were no significant collateral deposits on derivative financial instruments as of October 2, 2010.

**Cash flow hedges**

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income or loss and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or changes in market value of derivatives not designated as hedges are recognized in current earnings.

At October 2, 2010, the Company had an additional \$1.6 million, net of tax, of derivative gains on closed hedge instruments in AOCI that will be realized in earnings when the hedged items impact earnings. At September 26, 2009, the Company had an additional (\$0.7) million, net of tax, of derivative losses on closed hedge instruments in AOCI that was realized in earnings when the hedged items impacted earnings.

As of October 2, 2010, the Company had outstanding the following commodity forward contracts (with maturities extending through June 2012) to hedge forecasted purchases of commodities (in millions):

	Notional Amount
Copper	\$ 73.6
Aluminum	4.5
Zinc	0.4
Natural Gas	0.7

As of October 2, 2010, the Company had outstanding the following currency forward contracts (with maturities extending through December 2012) to hedge forecasted foreign currency cash flows (in millions):

	Notional Amount
Mexican Peso	\$ 92.5
Indian Rupee	34.5
Chinese Renminbi	7.0
Australian Dollar	1.8
Thai Baht	1.3

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

As of October 2, 2010, the total notional amount of the Company's receive-variable/pay-fixed interest rate swaps was \$250.0 million (with maturities extending to August 2017).

Fair values of derivative instruments as of October 2, 2010 and January 2, 2010 were (in millions):

**16. FAIR VALUE**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The inputs used to measure fair value are classified into the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or

Unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or

Inputs other than quoted prices that are observable for the asset or liability

Level 3 Unobservable inputs for the asset or liability

The Company uses the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of October 2, 2010 and January 2, 2010 (in millions):

**17. SUBSEQUENT EVENT**

On November 1, 2010, the Company acquired 55% of Elco Group B.V. ( Elco ). Elco manufactures and sells motors, fans and blowers, and has manufacturing facilities in Italy, China and Brazil.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Unless the context requires otherwise, references in this Item 2 to we, us, our or the Company refer collectively to Regal Beloit Corporation and its subsidiaries.

**OVERVIEW**

The global economy and particularly the U.S. economy continued to show growth in the third quarter 2010. Sales of high efficiency products, particularly for HVAC and commercial refrigeration applications, continued to show strong growth rates, supported by the net economic impact to the end user and, in certain cases, by tax credits and other subsidies. During the third quarter we experienced difficulties meeting some of our demand due to supply chain disruptions. In an effort to mitigate the impact on our customers, we incurred incremental costs, including costs associated with qualifying new vendors, plant labor inefficiencies, and expedited transportation.

Net sales for the third quarter 2010 increased 27.0% to \$590.8 million from \$465.2 million in the third quarter 2009. Sales for the third quarter 2010 included \$33.5 million of incremental sales from the Rotor and CMG businesses acquired in 2010.

Net Income Attributable to Regal Beloit Corporation increased 43.4% to \$44.7 million for the third quarter 2010 compared to \$31.2 million for the third quarter 2009. Diluted earnings per share increased 39.0% to \$1.14 for the third quarter 2010 compared to \$0.82 for the third quarter 2009.

**Three Months Ended October 2, 2010**

Net sales for the third quarter 2010 were \$590.8 million, a 27.0% increase compared to \$465.2 million for the third quarter 2009. Sales for the third quarter 2010 included \$33.5 million of incremental sales from the Rotor and CMG businesses acquired in 2010.

In the Electrical segment, sales for the third quarter 2010 increased 25.1% over the third quarter 2009. Sales for the residential HVAC motor business increased 5.3% for the third quarter 2010 compared to the third quarter 2009, driven by higher efficiency product mix which was supported by tax credits. Driven by improving end markets, commercial and industrial motor sales in North America for the third quarter 2010 increased 23.0% compared to the third quarter 2009. Global generator sales increased 34.2% for the third quarter 2010 compared to the third quarter 2009.

In the Mechanical segment, sales for the third quarter 2010 increased 45.9% compared to the third quarter 2009, including \$9.5 million from the CMG acquisition and improving later cycle end markets. From a geographic perspective, Asia-based sales for the third quarter 2010 increased compared to the third quarter 2009. In total, sales to regions outside of the United States were 31.0% of total sales for the third quarter 2010 compared to 25.6% for the third quarter 2009. The impact of foreign currency exchange rates decreased total sales by (0.1%) for the third quarter 2010 compared to the third quarter 2009. Sales of high efficiency products were 18.3% of total sales for the third quarter 2010 compared to 19.3% for the third quarter 2009.

**Nine Months Ended October 2, 2010**

Net sales for the nine months ended October 2, 2010 were \$1,682.3 million, a 23.4% increase compared to \$1,363.0 million for the nine months ended September 26, 2009. Sales for the nine months ended October 2, 2010 included \$61.8 million of incremental sales from the Rotor and CMG businesses acquired in 2010.

In the Electrical segment, sales for the nine months ended October 2, 2010 increased 23.5% compared to the nine months ended September 26, 2009. Sales for the residential HVAC motor business were impacted by higher efficiency product mix and low prior year comparables resulting in an 18.6% increase for the nine months ended October 2, 2010 compared to the

**Three Months Ended October 2, 2010**

Gross profit margin for the third quarter 2010 was 24.5%, unchanged from the gross profit margin for the third quarter 2009.

Gross profit margin for the Electrical segment was 24.2% for the third quarter 2010 compared to 24.6% for the third quarter 2009. Electrical segment margins were negatively impacted by higher raw material costs in the third quarter 2010 compared to the third quarter 2009 as well as incremental supply chain disruption costs experienced in the third quarter 2010.

Gross profit margin for the Mechanical segment was 26.5% for the third quarter 2010 compared to 23.3% for the third quarter 2009. The improvements were driven primarily by sales volume leverage and cost reduction efforts.

**Nine Months Ended October 2, 2010**

Gross profit margin for the nine months ended October 2, 2010 was 24.9% compared to 21.9% for the nine months ended September 26, 2009.

Gross profit margin for the Electrical segment was 24.6% for the nine months ended October 2, 2010 compared to 21.6% for the nine months ended September 26, 2009. Electrical segment margins improved due to a mix change toward higher efficiency products, cost reduction efforts and sales volume leverage. The improvement however, was partially offset by significant costs incurred in an effort to mitigate the impact to our customers of supply chain disruptions we experienced during the nine months ended October 2, 2010. These costs included qualifying new vendors, plant labor inefficiencies, and expedited transportation.

Gross profit margin for the Mechanical segment was 27.7% for the nine months ended October 2, 2010 compared to 24.7% for the nine months ended September 26, 2009. The improvements were driven primarily by sales volume leverage and cost reduction efforts.

**LIQUIDITY AND CAPITAL RESOURCES**

Our principal source of liquidity is operating cash flow. In addition, other significant factors affecting our liquidity management include working capital levels, capital expenditures, dividends, acquisitions, availability of debt financing and the ability to attract long-term capital on acceptable terms.

Our working capital was \$725.3 million at October 2, 2010, an increase of 8.3% from \$670.3 million at January 2, 2010. At October 2, 2010 our current ratio, the ratio of our current assets to current liabilities, was 2.8:1 versus 3.2:1 at the previous year-end.

The following table presents selected financial information and statistics as of October 2, 2010 and January 2, 2010 (in millions):

	October 2, 2010	January 2, 2010
Cash and Cash Equivalents	\$ 134.1	\$ 262.4
Investments Trading Securities	194.1	117.6
Trade Receivables, Net	353.2	240.7
Inventories, Net	340.6	268.8
Working Capital	725.3	670.3

Our 2010 acquisitions added approximately \$32.3 million to working capital as of October 2, 2010.

Cash flow provided by operating activities ( operating cash flow ) was \$148.6 million for the nine months ended October 2, 2010, an (\$87.0) million decrease from the nine months ended September 26, 2009. The decrease reflects higher net income which was more than offset by a reduction in the cash provided from working capital. During 2009, significant cash was provided by inventory reductions.

Cash flow used in investing activities was (\$213.6) million for the first nine months of 2010, (\$175.8) million more than in 2009 driven by business acquisitions of (\$107.3) million. The net cash used in purchasing investment securities was (\$76.4) million in 2010.

Cash flow used in financing activities for the first nine months of 2010 was (\$64.7) million in 2010 compared to cash flow provided of \$90.7 million in 2009. The change is driven by the \$150.4 million in net proceeds from the sale of stock in 2009.

At October 2, 2010, the Company had \$250.0 million of Senior notes (the Notes ) outstanding. The Notes were sold pursuant to a Note Purchase Agreement (the Agreement ) by and among the Company and the purchasers of the Notes. The Notes were issued and sold in two series: \$150.0 million in Floating Rate Series 2007A Senior Notes, Tranche A, due August 23, 2014, and \$100.0 million in Floating Rate Series 2007A Senior Notes, Tranche B, due August 23, 2017. The Notes bear interest at a margin over the London Inter-Bank Offered Rate ( LIBOR ), which margin varies with the ratio of the Company s consolidated debt to consolidated earnings before interest, taxes, depreciation, and amortization ( EBITDA ) as defined in the Agreement. These interest rates also vary as LIBOR varies. The Agreement permits the Company to issue and sell additional note series, subject to certain terms and conditions described in the Agreement, up to a total of \$600.0 million in combined Notes. At October 2, 2010, the interest rate of 1.0% was based on a margin over LIBOR.

The Company's \$500.0 million revolving credit facility, (the Facility) matures in April 2012 and permits the Company to borrow at interest rates based upon a margin above LIBOR, which margin varies with the ratio of senior funded debt (total debt excluding convertible debt) to EBITDA, as defined in the Facility. These interest rates also vary as LIBOR varies. We pay a commitment fee on the unused amount of the Facility, which also varies with the ratio of senior funded debt to EBITDA.

**Table of Contents**

The Company has entered into a Term Loan Agreement ( Term Loan ) with certain financial institutions, whereby the Company borrowed an aggregate principal amount of \$165.0 million. The Term Loan matures in June 2013, and borrowings under the Term Loan generally bear interest at a variable rate equal to (i) a margin over the LIBOR, which margin varies depending on whether certain criteria are satisfied, or (ii) the alternate base rate as defined in the agreement. At October 2, 2010, the interest rate of 1.0% was based on a margin over LIBOR.

The Notes, the Term Loan and the Facility require us to meet specified financial ratios and to satisfy certain financial condition tests. We were in compliance with all debt covenants as of October 2, 2010.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The following information should be read in conjunction with the Company s 2009 Annual Report on Form 10-K filed on March 2, 2010. Updated information on the Company s use of derivative financial instruments is contained in Note 15 of Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

We are exposed to market risk relating to the Company s operations due to changes in interest rates, foreign currency exchange rates and commodity prices of purchased raw materials. We manage the exposure to these risks through a combination of normal operating and financing activities and derivative financial instruments such as interest rate swaps, commodity cash flow hedges and foreign currency forward exchange contracts.

The Company is exposed to interest rate risk on certain of its short-term and long-term debt obligations used to finance our operations and acquisitions. At October 2, 2010, net of interest rate swaps, we had \$258.3 million of fixed rate debt and \$174.6 million of variable rate debt, the latter subject to interest rate risk. As a result, interest rate changes impact future earnings and cash flows assuming other factors are constant. The Company utilizes interest rate swaps to manage fluctuations in cash flows resulting from exposure to interest rate risk on forecasted variable rate interest payments.

A hypothetical 10% change in our weighted average borrowing rate on outstanding variable rate debt at October 2, 2010, would result in a change in after-tax annualized earnings of approximately \$0.1 million.

The Company periodically enters into commodity futures and options hedging transactions to reduce the impact of changing prices for certain commodities, such as copper and aluminum. Contract terms of commodity hedge instruments generally mirror those of the hedged item, providing a high degree of risk reduction and correlation. At October 2, 2010, we had commodity future contracts amounting to \$16.9 million of commodity purchases. A hypothetical 10% change in underlying commodity prices would have a potential impact of \$1.7 million. This impact would be offset by gains and losses in the transactions being hedged.

We are also exposed to foreign currency risks that arise from normal business operations. These risks include the translation of local currency balances of foreign subsidiaries, intercompany loans with foreign subsidiaries and transactions denominated in foreign currencies. Our objective is to minimize our exposure to these risks through a combination of normal operating activities and the utilization of foreign currency contracts to manage our exposure on the transactions denominated in currencies other than the applicable functional currency. Contracts are executed with creditworthy banks and are denominated in currencies of major industrial countries. It is our policy not to enter into derivative financial instruments for speculative purposes. We do not hedge our exposure to the translation of reported results of foreign subsidiaries from local currency to United States dollars.

At October 2, 2010, we had currency contracts outstanding that totaled \$5.8 million. A hypothetical 10% change in the underlying currencies would have a potential impact of \$0.6 million. This impact would be offset by gains and losses in the transactions being hedged.

All derivatives are recorded on the balance sheet at fair value and are accounted for as cash flow hedges, changes in fair value are recorded in accumulated other comprehensive income (loss) in each accounting period. An ineffective portion of the hedge s change in fair value, if any, is recorded in earnings in the period of change. The impact due to ineffectiveness was immaterial for all periods included in this report.

**ITEM 4. CONTROLS AND PROCEDURES**

Disclosure Controls and Procedures. The Company s management, with the participation of the Company s Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )) as of the end of the period covered by this report. Based on such evaluation, the

Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective to ensure that (a) information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and (b) information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

**Table of Contents**

Internal Control Over Financial Reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II OTHER INFORMATION**

Items 4 and 5 are inapplicable and have been omitted.

**ITEM 1. LEGAL PROCEEDINGS**

On July 30, 2009, we filed a response and counterclaims to an action filed by Nordyne, Inc. ( Nordyne ) in the U.S. District Court for the Eastern District of Missouri in which action Nordyne is seeking a judgment declaring that neither Nordyne's G7 furnace systems nor its iQ Drive 23-seer air conditioning systems infringe on our ECM (electronically commutated motor) systems patents (U.S. Patent No. 5,592,058) ( the 058 Patent ) and/or that the 058 Patent is invalid. In our response and counterclaims against Nordyne we are seeking a judgment that the 058 Patent is valid and that Nordyne has, in fact, infringed and continues to infringe the 058 Patent by making, using, offering for sale and selling its G7 furnace systems and iQ Drive 23-seer air conditioning systems. We have also requested the U.S. District Court to enjoin Nordyne and all persons working in concert with Nordyne from further infringement of the 058 Patent and to award us compensatory and other damages caused by such infringement. We intend to defend our intellectual property vigorously against the claims asserted by Nordyne and against any infringement by Nordyne or any other person. We do not currently believe that the litigation will have a material effect on the Company's financial position or its results of operations.

The Company is, from time to time, party to litigation that arises in the normal course of our business operations, including product warranty and liability claims, contract disputes and environmental, asbestos, employment and other litigation matters. The Company's products are used in a variety of industrial, commercial and residential applications that subject us to claims that the use of our products is alleged to have resulted in injury or other damage. The Company accrues for anticipated costs in defending against such lawsuits in amounts that we believe are adequate, and the Company does not believe that the outcome of any such lawsuit will have a material effect on the Company's financial position or its results of operations.

**ITEM 1A. RISK FACTORS**

The business and financial results of the Company are subject to numerous risks and uncertainties. The risks and uncertainties have not changed materially from those reported in Item 1A in the 2009 Annual Report on Form 10-K filed on March 2, 2010.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Under the Company's equity incentive plans, participants may pay the exercise price or satisfy all or a portion of the federal, state and local withholding tax obligations arising in connection with plan awards by electing to (a) have the Company withhold shares of common stock otherwise issuable under the award, (b) tender back shares received in connection with such award or (c) deliver other previously owned shares of common stock, in each case having a value equal to the exercise price or the amount to be withheld. During the three months ended October 2, 2010, there were no shares acquired in connection with equity incentive plans.

The Board of Directors has approved repurchase programs for up to three million shares of the Company's common stock. Management is authorized to effect purchases from time to time in the open market or through privately negotiated transactions.
