**Special Note Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q of SANUWAVE Health, Inc. and its subsidiaries ( "SANUWAVE" or the Company ) contains forward-looking statements. All statements in this Quarterly Report on Form 10-Q, including those made by the management of the Company, other than statements of historical fact, are forward-looking statements. Examples of forward-looking statements include statements regarding the Company's future financial results, operating results, business strategies, projected costs, products, competitive positions, management's plans and objectives for future operations, and industry trends. These forward-looking statements are based on management's estimates, projections and assumptions as of the date hereof and include the assumptions that underlie such statements. Forward-looking statements may contain words such as may, will, should, could, would, expect, anticipate, believe, estimate, predict, potential and continue, the negative of these terms, or other comparable terminology. Any expectations based on these forward-looking statements are subject to risks and uncertainties and other important factors, including those discussed in the reports we file with the Securities and Exchange Commission, specifically the sections titled Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, filed on March 28, 2011. Other risks and uncertainties are and will be disclosed in the Company's prior and future Securities and Exchange Commission filings. These and many other factors could affect the Company's future financial condition and operating results and could cause actual results to differ materially from expectations based on forward-looking statements made in this document or elsewhere by the Company or on its behalf. The Company undertakes no obligation to revise or update any forward-looking statements. The following information should be read in conjunction with the financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, filed on March 28, 2011.

*Except as otherwise indicated by the context, references in this Quarterly Report on Form 10-Q to we, us and our are to the consolidated business of the Company.*

**Table of Contents**

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**1. Nature of the Business**

SANUWAVE Health, Inc. and subsidiaries (the Company) is an emerging global regenerative medicine company focused on the development and commercialization of non-invasive, biological response activating devices for the repair and regeneration of tissue, musculoskeletal and vascular structures. The Company's portfolio of products and product candidates activate biologic signaling and angiogenic responses, including new vascularization and microcirculatory improvement, helping to restore the body's normal healing processes and regeneration. The Company intends to apply its Pulsed Acoustic Cellular Expression (PACE) technology in wound healing, orthopedic/spine, plastic/cosmetic and cardiac conditions. The Company currently does not have any commercial products in the United States. Revenues are from sales of CE Marked devices and accessories in Europe.

**2. Basis of Presentation and Principles of Consolidation**

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X. Accordingly, these condensed consolidated financial statements do not include all the information and footnotes required by United States generally accepted accounting principles for complete financial statements. The financial information as of March 31, 2011 and for the three months ended March 31, 2011 and 2010 is unaudited; however, in the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2011 are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2011.

The condensed consolidated balance sheet at December 31, 2010 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by United States generally accepted accounting principles for complete financial statements.

For further information and a summary of significant accounting policies, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, filed on March 28, 2011. Please also refer to Note 6 to the condensed consolidated financial statements in this Form 10-Q regarding the Company's adoption of recent accounting pronouncements.

**3. Going concern**

As shown in the accompanying condensed consolidated financial statements, the Company incurred a net loss of \$2,183,326 and \$2,994,755 during the three months ended March 31, 2011 and 2010, respectively. We had a working capital deficiency of \$5,066,300 and \$7,029,635 at March 31, 2011 and December 31, 2010, respectively. These operating losses and working capital deficiency create an uncertainty about the Company's ability to continue as a going concern. Although no assurances can be given, management of the Company believes that potential additional issuances of equity or other potential financing will provide the necessary funding for the Company to continue as a going concern. The condensed consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. The Company is economically dependent upon future capital contributions or financing to fund ongoing operations. See "Liquidity and Capital Resources" elsewhere in this report.

On April 8, 2011 the Company raised gross proceeds of \$9,114,927 in a private placement of the Company's common stock and warrants to certain institutional and accredited investors. The net proceeds received by the Company were \$8,467,121, net of offering costs of \$647,806 (see Note 18).

**Table of Contents**

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**4. Promissory notes**

During the year ended December 31, 2010, the Company issued ten promissory notes totaling \$2,450,000. On October 12, 2010, in conjunction with an offering of securities (the Offering) of the Company pursuant to an exemption from registration under the Securities Act of 1933, as amended (the Act), the Company amended the terms of the ten outstanding promissory notes such that the unpaid principal and interest on each note was exchanged into the number of Units (as described below) equal to (i) the unpaid principal and interest on each such note, divided by (ii) 2. In accordance with ASC 470, Debt, in October 2010 the Company recorded a loss from extinguishment of debt of \$2,693,896 which was the difference between the estimated fair value of the Units on the date of exchange of \$5,211,556 as compared to the carrying value of the promissory notes of \$2,517,660.

Each Unit in the Offering consisted of: (i) one share of common stock, par value \$0.001 per share (the Common Stock); (ii) a two-year common stock purchase warrant (the Class D Warrant) to purchase one share of Common Stock, at an exercise price of \$2.00; and (iii) an option (the Option), which, as amended, expired on January 31, 2011, to purchase the same number of Units as granted pursuant to the transaction, at the purchase price of \$2.00 per Unit. The unpaid principal and interest on the notes totaled \$2,517,660, and this sum was exchanged into a total of 1,258,830 Units which consisted of 1,258,830 shares of Common Stock, 1,258,830 Class D Warrants and 1,258,830 Options.

The chairman of the board of directors of the Company exchanged promissory notes totaling \$1,790,504 and the brother of a member of the board of directors of the Company exchanged promissory notes totaling \$522,504 in the Offering.

**5. Common stock**

On September 30, 2010, in conjunction with an offering of securities of the Company under the Act, the Company issued 150,000 Units to certain accredited investors, as that term is defined in the Securities and Exchange Commission's (the SEC) Rule 501 under the Act, for an aggregate total purchase price of \$300,000. On October 1, 2010, November 19, 2010, and December 7, 2010 in conjunction with offerings of securities of the Company under the Act, the Company issued 250,000, 142,500 and 382,500 Units to accredited investors for \$500,000, \$285,000 and \$765,000, respectively. Each Unit was sold to the new investors at a purchase price of \$2.00 per Unit. As a result of the offerings, the Company sold 925,000 Units which consisted of 925,000 shares of Common Stock, 925,000 Class D Warrants and 925,000 Options. This includes 175,000 Units purchased by the brother of a member of the board of directors of the Company for a total purchase price of \$350,000.

As of December 31, 2010, the Option holders exercised 101,163 Options for total gross proceeds of \$202,326 to the Company. In connection with the exercise of the Options, the Company issued 101,163 shares of Common Stock and 101,163 Class D Warrants.

Between January 1 and January 31, 2011, Option holders exercised 1,950,167 Options for total gross proceeds of \$3,900,334 to the Company. In connection with the exercise of Options in January 2011, the Company issued 1,950,167 shares of Common Stock and 1,950,167 Class D Warrants. The Option holders included the chairman of the board of directors of the Company who exercised 545,252 Options and the brother of a member of the board of directors of the Company who exercised 686,252 Options. The 132,500 Options that remained unexercised at January 31, 2011 expired by their terms.

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**6. Recently Issued Accounting Standards**

There have been no recently issued accounting standards that have an impact on our condensed consolidated financial statements.

**7. Inventory**

Inventory consists of the following:

	March 31, 2011	December 31, 2010
Inventory finished goods	\$ 478,879	\$ 539,141
Inventory parts	84,126	78,202
Gross inventory	563,005	617,343
Provision for losses and obsolescence	(140,200)	(153,700)
Net inventory	\$ 422,805	\$ 463,643

**8. Property and equipment**

Property and equipment consists of the following:

	March 31, 2011	December 31, 2010
Machines and equipment	\$ 199,520	\$ 199,520
Office and computer equipment	296,120	296,120
Leasehold improvements	67,421	67,421
Furniture and fixtures	24,613	24,613
Vehicles	22,531	22,531
Software	40,233	40,233
Other assets	5,080	5,080
Total	655,518	655,518
Accumulated depreciation	(648,369)	(642,132)
Net property and equipment	\$ 7,149	\$ 13,386

The aggregate depreciation related to property and equipment charged to operations was \$6,237 and \$26,508 for the three months ended March 31, 2011 and 2010, respectively.

**Table of Contents**

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**9. Intangible assets**

Intangible assets consist of the following:

	March 31, 2011	December 31, 2010
Patents, at cost	\$ 3,502,135	\$ 3,502,135
Less accumulated amortization	(1,738,286)	(1,661,597)
Net intangible assets	\$ 1,763,849	\$ 1,840,538

The aggregate amortization charged to operations was \$76,689 for each of the three months ended March 31, 2011 and 2010.

**10. Accrued expenses**

Accrued expenses consist of the following:

	March 31, 2011	December 31, 2010
Accrued legal professional fees	\$ 220,192	\$ 64,531
Accrued audit and tax preparation	53,771	89,173
Accrued clinical site payments		82,500
Accrued other	47,073	20,000
	\$ 321,036	\$ 256,204

**11. Income taxes**

The Company files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. The Company is no longer subject to United States federal and state and non-United States income tax examinations by tax authorities for years before 2006.

Deferred income taxes are provided for temporary differences between the carrying amounts and tax basis of assets and liabilities. Deferred taxes are classified as current or noncurrent based on the financial statement classification of the related asset or liability giving rise to the temporary difference. For those deferred tax assets or liabilities (such as the tax effect of the net operating loss carryforward) which do not relate to a financial statement asset or liability, the classification is based on the expected reversal date of the temporary difference.

At March 31, 2011, the Company had federal net operating loss ( NOL ) carryforwards of \$40,896,849 that will begin to expire in 2025. The use of deferred tax assets, including federal net operating losses, is limited to future taxable earnings. Based on the required analysis of future taxable income under the provisions of ASC 740, *Income Taxes* (formerly SFAS No. 109), the Company's management believes that there is not sufficient evidence at March 31, 2011, indicating that the results of operations will generate sufficient taxable income to realize the net deferred tax asset in years beyond 2011. As a result, a valuation allowance was provided for the entire net deferred tax asset related to future years, including NOL carryforwards.

Table of Contents

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**11. Income taxes (continued)**

The Company's ability to use its NOL carryforwards could be limited and subject to annual limitations. In connection with future offerings, the Company may realize a more than 50% change in ownership which could further limit its ability to use its NOL carryforwards accumulated to date to reduce future taxable income and tax liabilities.

Additionally, because United States tax laws limit the time during which NOL carryforwards may be applied against future taxable income and tax liabilities, the Company may not be able to take advantage of all or portions of its NOL carryforwards for federal income tax purposes.

**12. Notes payable, related parties**

The notes payable consists of the following:

	March 31, 2011	December 31, 2010
Notes payable, unsecured, bearing interest at 6% to HealthTronics, Inc., a shareholder of the Company. The notes were issued in conjunction with the Company's purchase of the orthopedic division of HealthTronics, Inc. on August 1, 2005. Quarterly interest through June 30, 2010, was accrued and added to the principal balance. Interest is paid quarterly in arrears beginning September 30, 2010. All remaining unpaid accrued interest and principal is due August 1, 2015. Accrued interest currently payable totaled \$80,071 and \$82,977 at March 31, 2011 and December 31, 2010, respectively. Accrued interest not payable until August 1, 2015 totaled \$1,372,743 at March 31, 2011 and December 31, 2010.	\$ 5,372,743	\$ 5,372,743
Notes payable, unsecured, bearing interest at 15% to Prides Capital Fund I, LP and NightWatch Capital Partners II, LP, shareholders of the Company. Quarterly interest through March 31, 2011, is accrued and added to the principal balance. Unpaid accrued interest and principal is due September 30, 2011. Accrued interest totaled \$1,206,563 and \$1,047,290 at March 31, 2011 and December 31, 2010, respectively. All or any portion of the unpaid principal can be converted into common stock with a conversion price of \$2.92 per share.	4,406,563	4,247,290
Total	9,779,306	9,620,033
Less current portion	(4,406,563)	(4,247,290)
Non-current portion	\$ 5,372,743	\$ 5,372,743

Interest expense on notes payable, related parties totaled \$238,231 and \$217,180 for the three months ended March 31, 2011 and 2010, respectively.

**Table of Contents**

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**12. Notes payable, related parties (continued)**

On April 4, 2011, the Company amended the terms of outstanding notes with Prides Capital Fund I, LP and NightWatch Capital Partners II, LP such that the unpaid principal and interest balance on the notes totaling \$4,413,908 was cancelled in consideration for the issuance of 1,358,126 shares of common stock of the Company. In addition, the Company, in connection with this transaction, issued to the Noteholders (as defined in Note 18 below) an aggregate total of 679,064 warrants to purchase shares of common stock at an exercise price of \$4.00 per share. The Company is currently evaluating the accounting treatment for this transaction to be recorded in the second quarter of 2011 (see Note 18).

**13. Earnings (loss) per share**

The Company calculates net income (loss) per share in accordance with ASC 260, *Earnings Per Share* (formerly SFAS No. 128, *Earnings Per Share*). Under the provisions of ASC 260, basic net income (loss) per share is computed by dividing the net income (loss) attributable to common stockholders for the period by the weighted average number of shares of common stock outstanding for the period. Diluted net income (loss) per share is computed by dividing the net income (loss) attributable to common stockholders by the weighted average number of shares of common stock and dilutive common stock equivalents then outstanding. To the extent that securities are anti-dilutive, they are excluded from the calculation of diluted net income (loss) per share.

As a result of the net loss for the three months ended March 31, 2011 and 2010, respectively, all potentially dilutive shares were anti-dilutive and therefore excluded from the computation of diluted net loss per share. The anti-dilutive equity securities totaled 10,092,876 shares and 6,160,276 shares at March 31, 2011 and 2010, respectively.

**14. Commitments and contingencies**

***Operating Leases***

The Company leases office and warehouse space. Rent expense for the three months ended March 31, 2011 and 2010, was \$86,434 and \$87,089, respectively.

***Litigation***

The Company is involved in various legal matters that have arisen in the ordinary course of business. While the ultimate outcome of these matters is not presently determinable, it is the opinion of management that the resolution will not have a material adverse effect on the financial position or results of operations of the Company. HealthTronics, Inc., along with the Company, are defendants in an alleged breach of contract lawsuit dated April 21, 2006 brought in the Miami-Dade County Circuit Court, Florida by a former limited partner of a former limited partnership of the Company, Bone & Joint Treatment Centers of America. Bone & Joint Treatment Centers of America, the plaintiff, is seeking greater than \$3 million. HealthTronics, Inc. has been responsible for the defense of the lawsuit on behalf of the Company and believes the case is unfounded and is contesting the claims vigorously.

**15. 401k plan**

The Company sponsors a 401k plan that covers all employees who meet the eligibility requirements. The Company matches 50% of employee contributions up to 6% of their compensation. The Company contributed \$17,857 and \$16,661 to the plan for the three months ended March 31, 2011 and 2010, respectively.

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**16. Stock-based compensation**

On November 1, 2010, the Company approved the Amended and Restated 2006 Stock Incentive Plan of SANUWAVE Health, Inc. effective as of January 1, 2010 (the Amended Plan). The Amended Plan permits grants of awards to selected employees and directors of the Company in the form of restricted stock or options to purchase shares of common stock. The Amended Plan is currently administered by the board of directors of the Company. The Amended Plan gives broad powers to the board of directors of the Company to administer and interpret the particular form and conditions of each option. Stock options granted under the Amended Plan are non-statutory options which generally vest over a period of up to four years and have a ten year term. The options are granted at an exercise price determined by the board of directors of the Company to be the fair market value of the common stock on the date of the grant. The Amended Plan reserves 5,000,000 shares of common stock for grant.

The Company recognized as compensation cost for all outstanding stock options, restricted stock and warrants granted to employees and directors, \$152,448 and \$483,270 for the three months ended March 31, 2011 and 2010, respectively.

A summary of option activity as of March 31, 2011 and December 31, 2010, and the changes during the three months ended March 31, 2011, is presented as follows:

	Options	Weighted Average Exercise Price
Outstanding as of December 31, 2010	2,992,796	\$ 3.20
Granted		\$
Exercised		\$
Forfeited or expired		\$
Outstanding as of March 31, 2011	2,992,796	\$ 3.20
Exercisable	2,135,365	\$ 2.59

The aggregate intrinsic value of the outstanding stock options at March 31, 2011 was \$6,883,431. The aggregate intrinsic value of the exercisable outstanding stock options at March 31, 2011 was \$6,213,912.

The weighted average remaining contractual term for outstanding and exercisable stock options was 6.9 years as of March 31, 2011, and 7.1 years as of December 31, 2010.

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**16. Stock-based compensation (continued)**

A summary of the Company's nonvested options as of March 31, 2011 and December 31, 2010, and changes during the three months ended March 31, 2011, is presented as follows:

	Options	Weighted Average Grant-Date Fair Value
Outstanding as of December 31, 2010	883,993	\$ 1.67
Granted		\$
Vested	(26,562)	\$ 2.51
Forfeited or expired		\$
Outstanding as of March 31, 2011	857,431	\$ 1.65

A summary of the Company's restricted stock as of March 31, 2011 and December 31, 2010, and changes during the three months ended March 31, 2011, is presented as follows:

	Restricted Stock	Weighted Average Grant-Date Fair Value
Outstanding as of December 31, 2010	403,030	\$ 2.92
Granted		\$
Vested	(403,030)	\$ 2.92
Forfeited or expired		\$
Outstanding as of March 31, 2011		\$

**17. Warrants**

A summary of the warrant activity as of March 31, 2011 and December 31, 2010, and the changes during the three months ended March 31, 2011, is presented as follows:

	Class A Warrants	Class B Warrants	Class D Warrants
Outstanding as of December 31, 2010	1,106,627	1,106,627	2,284,993
Issued			1,950,167
Exercised			
Cancelled			
Outstanding as of March 31, 2011	1,106,627	1,106,627	4,235,160

**Table of Contents**

**SANUWAVE HEALTH, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2011**

**17. Warrants (continued)**

The Class A and Class B Warrants expire five years from date of issuance and the Class D Warrants expire two years from date of issuance. The Class A Warrants have an exercise price of \$4.00 per share, the Class B Warrants have an exercise price of \$8.00 per share, and the Class D Warrants have an exercise price of \$2.00 per share.

The exercise price and the number of shares covered by the warrants will be adjusted if the Company has a stock split, if there is a recapitalization of the Company's common stock, or if the Company consolidates with or merges into another corporation.

**18. Subsequent events**

The Company has evaluated subsequent events through the date of issuance of the unaudited condensed consolidated financial statements.

On April 4, 2011, in conjunction with an offering of securities of the Company, pursuant to certain exemptive provisions from registration under the Act and related rules and regulations of the SEC, the Company entered into a Securities Purchase Agreement with certain accredited investors (as that term is defined in the SEC's Regulation D) (the Purchasers) for the issuance of an aggregate total 2,804,593 shares of the Company's Common Stock for an aggregate total purchase price of \$9,114,927. The net proceeds received by the Company were \$8,467,121, net of offering costs of \$647,806. The Company intends to use the proceeds from this offering for working capital and general corporate purposes. The offering closed effective April 8, 2011. In addition, the Company, in connection with this offering, issued to the Purchasers an aggregate total of 2,804,593 warrants (the Class E Warrants) to purchase shares of Common Stock at an exercise price of \$4.00 per share. Each Class E Warrant represents the right to purchase one share of Common Stock. The warrants vested upon issuance and expire after five years. The placement agent was also issued 93,080 Class E Warrants. The brother of a member of our board of directors and an existing shareholder of the Company acquired 310,000 shares of Common Stock for a purchase price of \$1,007,500. He also received Class E Warrants to purchase 310,000 shares.

Pursuant to the terms of a Registration Rights Agreement that the Company entered with the Purchasers in connection with the April 4, 2011 offering, the Company is required to file a registration statement or registration statements with the SEC that cover the resale by the Purchasers in the Offering of the shares of Common Stock and the shares of Common Stock issuable upon exercise of the Class E Warrants. The failure on the part of the Company to satisfy certain deadlines described in the Registration Rights Agreement may subject the Company to payment of certain monetary penalties.

On April 4, 2011, the Noteholders (as defined below) of the amended senior notes (the Notes) of the Company exchanged the unpaid principal and interest balance of the Notes which totaled \$4,413,908 in consideration for the issuance of 1,358,126 shares of Common Stock of the Company. In addition, the Company, in connection with this transaction, issued to the Noteholders an aggregate total of 679,064 warrants to purchase shares of Common Stock at an exercise price of \$4.00 per share. Each warrant represents the right to purchase one share of Common Stock. The warrants vested upon issuance and expire after five years. The Company is currently evaluating the accounting treatment for this transaction to be recorded in the second quarter of 2011.

The Notes were held by Prides Capital Fund I, LP and NightWatch Capital Partners II, LP (the Noteholders). The chairman of the Company's board of directors serves as the managing partner of Prides Capital, LLC, an affiliate of Prides Capital Fund I, LP. A member of the Company's board of directors serves as managing principal of NightWatch Capital Advisors, LLC, an affiliate of NightWatch Capital Partners II, LP.

The Company is currently evaluating the impact, if any, these transactions could have on the Company's ability to use its NOL carryforwards to reduce future taxable income and tax liabilities which could be limited if the Company were to realize a more than 50% change in ownership as defined in Section 382 of the United States tax code.

**Table of Contents**

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*You should read the following discussion and analysis of our financial condition and results of operations together with our unaudited condensed consolidated financial statements and the related notes appearing elsewhere in this report, and together with our audited consolidated financial statements, related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations as of and for the year ended December 31, 2010 included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 28, 2011.*

**Overview**

We are an emerging global regenerative medicine company focused on the development and commercialization of non-invasive, biological response activating devices for the repair and regeneration of tissue, musculoskeletal and vascular structures. Our portfolio of products and product candidates activate biologic signaling and angiogenic responses, including new vascularization and microcirculatory improvement, helping to restore the body's normal healing processes and regeneration. We intend to apply our Pulsed Acoustic Cellular Expression (PACE) technology in wound healing, orthopedic/spine, plastic/cosmetic and cardiac conditions.

We believe we have demonstrated that our PACE technology is safe and effective in stimulating healing in chronic conditions of the foot and the elbow through our United States FDA Class III PMA approved Ossatron device, and in the stimulation of bone and chronic tendonitis regeneration in the musculoskeletal environment through the utilization of our Ossatron and Evotron, and newly introduced orthoPACE devices in Europe. Our lead product candidate for the global wound care market, dermaPACE, has received the European CE Mark allowing for commercial use on acute and chronic defects of the skin and subcutaneous soft tissue. We currently do not have any commercial products in the United States. Revenues are from sales of CE Marked devices and accessories in Europe.

We are now entirely focused on developing our PACE technology to stimulate healing in:

- wound conditions, including diabetic foot ulcers, venous ulcers, pressure sores, burns and other skin eruption conditions;
- orthopedic/spine applications, such as speeding the healing of fractures (including nonunion or delayed-union conditions), improving bone density in osteoporosis, fusing bones in the extremities and spine, eliminating chronic pain in joints from trauma or arthritis, and other potential sports injury applications;
- plastic/cosmetic applications such as cellulite smoothing, graft and transplant acceptance, skin tightening, scarring and other potential aesthetic uses; and
- cardiac applications for removing plaque due to atherosclerosis and improving heart muscle performance.

**Recent Developments**

We have completed our multi-site, randomized, double-blind, sham controlled FDA investigational device exemption wound care clinical study focused on the healing of diabetic foot ulcers utilizing our lead product candidate, dermaPACE, and released top-line data. The primary study goal is to establish superiority in diabetic foot ulcer healing rates using the dermaPACE treatment compared to sham control, when both are combined with the current standard of care. The standard of care includes wet-to-dry dressings, the most widely used primary dressing material in the United States, and offloading with a walking boot for ulcers located on the plantar surface of the foot. A total of 206 patients entered the dermaPACE study at 24 sites. The patients in the study were followed for a total of 24 weeks. The study's primary endpoint, wound closure, is defined as successful if the skin is 100% reepithelialized at 12 weeks without drainage or dressing requirements confirmed at two consecutive study visits.

Patients treated with dermaPACE showed a strong positive trend in the primary endpoint of 100% wound closure. Treatment with dermaPACE increased the proportion of diabetic foot ulcers that closed within 12 weeks by 36%, although this result was not statistically significant. Based on the pure, controlled design of the study, which blinded both investigators and patients and restricted investigators from closing wounds surgically, we analyzed a clinically relevant  $\geq 90\%$  wound closure endpoint that demonstrated statistical significance ( $p=0.0161$ ) in favor of dermaPACE (51/107, 48%) compared to patients randomized to receive sham control (31/99, 31%). The median wound closure exceeded 99% for the dermaPACE treated patients who achieved at least 90% wound closure, and these patients had

only a 4.5% recurrence rate at 24 weeks.

## **Table of Contents**

Importantly, there were no statistical differences in the adverse event rates between the dermaPACE treated patients and the sham control group. There were no issues regarding the tolerability of the treatment which suggests that a second course of treatment, if needed, is a clinically viable option.

Based on the results of the clinical trial, the dermaPACE was shown to:

- significantly accelerate the rate of diabetic foot ulcer closure;
- cause highly significant reductions in ulcer size;
- have an extremely low rate of ulcer recurrence; and
- not be associated with any device-related adverse events.

We have filed the first two modules of our PMA. We expect to file our final module with the FDA in the second quarter of 2011 and, pending a favorable response from the FDA, to launch dermaPACE in the United States in early 2012.

We have established clinical, manufacturing and development relationships and multiple regulatory pathways to product development. We believe that these relationships and pathways, coupled with the well-characterized biologic response, history of safe use and clinically-proven efficacy of our PACE technology, all position us to become a leader in the development and commercialization of non-invasive, biological response devices for the repair and regeneration of tissue, musculoskeletal and vascular structures that will capitalize on the growing market for these products in wound healing, orthopedic/spine, plastic/cosmetic and cardiac applications. Although the results of our studies have been positive to date, we cannot provide any assurance that we will be successful in developing, obtaining regulatory approval for, or commercializing our current product candidates, or that we will do so in a timely fashion.

We believe that these studies suggest that our platform technology will be effective in our target applications. If successful, we expect these clinical studies should lead to regulatory approval of our regenerative product candidates in the United States, Europe and Asia. If approved by the appropriate regulatory authorities, we believe that our product candidates will offer new, effective and non-invasive treatment options in wound healing, orthopedic/spine injuries, plastic/cosmetic uses and cardiac procedures, improving the quality of life for millions of patients suffering from injuries or deterioration of tissue, bones and vascular structures.

### **Financial Overview**

Our independent registered public accounting firm has issued a going concern statement in its report on our consolidated financial statements for the year ended December 31, 2010, stating that we had a net loss and negative cash flows from operations in fiscal 2010, and that we have an accumulated deficit. Accordingly, those conditions raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments that might result from this going-concern uncertainty.

Subsequent to quarter end, in April 2011, we completed a private placement to 28 institutional and individual accredited investors of 2,804,593 shares of our Common Stock at a purchase price of \$3.25 per share, for gross proceeds of \$9,114,927. The net proceeds received by the Company were \$8,467,121, net of offering costs of \$647,806. As part of the private placement, the investors were issued five-year warrants to purchase up to 2,804,593 shares of our Common Stock at an initial exercise price of \$4.00 per share. The warrants vested upon issuance and expire after five years. The placement agent was also issued 93,080 warrants with the same terms as those issued to the investors. The net proceeds from the private placement, following the payment of offering-related expenses, are being used by us for working capital and other general corporate purposes.

In addition, in April 2011, the noteholders (the Noteholders) of our amended senior notes (the Notes) exchanged the unpaid principal and interest balance of the Notes which totaled \$4,413,908 in consideration for the issuance of 1,358,126 shares of our Common Stock. In connection with this transaction, we issued to the Noteholders an aggregate total of 679,064 warrants to purchase shares of Common Stock at an exercise price of \$4.00 per share. Each warrant represents the right to purchase one share of Common Stock. The warrants vested upon issuance and expire after five years.

## **Table of Contents**

In January 2011, we raised \$3,900,334 from a group of accredited investors through the exercise of options they received in 2010 as part of a purchase of a Unit.

Since our inception in 2005, we have funded our operations from the sale of capital stock, the issuance of notes payable to related parties, the issuance of promissory notes, the sale of our veterinary division in June 2009, and product sales. At March 31, 2011, the balance of cash and cash equivalents totaled \$2,306,100.

We continue to incur research and development expenses for clinical trials and the development of products for additional indications. We expect to continue to incur significant research and development expenses as a result of new and ongoing clinical and pre-clinical studies in the United States and in Europe, as well as expenses associated with regulatory filings. In addition, we anticipate that our general and administrative expenses will continue to increase as we expand our operations, facilities and other administrative activities related to our efforts to bring our product candidates to commercialization. We will require additional capital to continue to implement our business strategies. There can be no assurance that we will be successful in raising such capital. See Liquidity and Capital Resources.

Since our inception, we have incurred losses from operations each year. As of March 31, 2011, we had an accumulated deficit of \$56.5 million. Although the size and timing of our future operating losses are subject to significant uncertainty, we expect that operating losses will continue over the next few years as we continue to fund our research and development activities, clinical trials and the FDA approval process and as we prepare for a future sales network to represent our products.

We cannot reasonably estimate the nature, timing and costs of the efforts necessary to complete the development and approval of, or the period in which material net cash flows are expected to be generated from, any of our products, due to the numerous risks and uncertainties associated with developing products, including the uncertainty of:

- the scope, rate of progress and cost of our clinical trials;
- future clinical trial results;
- the cost and timing of regulatory approvals;
- the establishment of successful marketing, sales and distribution;
- the cost and timing associated with establishing reimbursement for our products;
- the timing and results of our pre-clinical research programs;
- the effects of competing technologies and market developments; and
- the industry demand and patient wellness behavior as businesses and individuals suffer from the current economic recession.

Any failure to complete the development of our product candidates in a timely manner, or any failure to successfully market and commercialize our product candidates, would have a material adverse effect on our operations, financial position and liquidity. A discussion of the risks and uncertainties associated with us and our business are set forth under the section entitled Risk Factors Risks Related to Our Business in our Annual Report on Form 10-K for the year ended December 31, 2010, filed with the SEC on March 28, 2011.

### **Critical Accounting Policies and Estimates**

The discussion and analysis of our financial condition and results of operations are based on our condensed consolidated financial statements, which have been prepared in accordance with United States generally accepted accounting principles. The preparation of our condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

On an ongoing basis, we evaluate our estimates and judgments, including those related to revenue recognition, accrued expenses, fair valuation of inventory, fair valuation of stock related to stock-based compensation and income taxes. We base our estimates on authoritative literature and pronouncements, historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Our actual results may differ from these estimates under different assumptions or conditions. The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements. The results of our operations for any historical period are not necessarily indicative of the results of our operations for any future period.

**Table of Contents**

While our significant accounting policies are more fully described in Note 1 to our consolidated financial statements filed with our Annual Report on Form 10-K for the year ended December 31, 2010, filed with the SEC on March 28, 2011, we believe that the following accounting policies relating to revenue recognition, research and development costs, inventory valuation, stock-based compensation and income taxes are significant and; therefore, they are important to aid you in fully understanding and evaluating our reported financial results.

***Revenue Recognition***

Sales of medical devices, including related applicators and applicator kits, are recognized when shipped to the customer. Shipments under agreements with distributors are invoiced at a fixed price, are not subject to return, and payment for these shipments is not contingent on sales by the distributor. We recognize revenue on shipments to distributors in the same manner as with other customers. Fees from services performed are recognized when the service is performed.

***Research and Development Costs***

We expense costs associated with research and development activities as incurred. We evaluate payments made to suppliers and other vendors and determine the appropriate accounting treatment based on the nature of the services provided, the contractual terms, and the timing of the obligation. Research and development costs include payments to third parties that specifically relate to our products in clinical development, such as payments to contract research organizations, clinical investigators, clinical related consultants, contract manufacturer development costs and insurance premiums for clinical studies. In addition, employee costs (salaries, payroll taxes, benefits and travel) for employees of the regulatory affairs, clinical affairs, quality assurance, quality control, and research and development departments are classified as research and development costs.

***Inventory Valuation***

We value our inventory at the lower of our actual cost or the current estimated market value. We regularly review existing inventory quantities and expiration dates of existing inventory to evaluate a provision for excess, expired, obsolete and scrapped inventory based primarily on our historical usage and anticipated future usage. Although we make every effort to ensure the accuracy of our forecasts of future product demand, any significant unanticipated change in demand or technological developments could have an impact on the value of our inventory and our reported operating results.

Inventory is carried at the lower of cost or market, which is valued using first in, first out ( FIFO ), and consists primarily of devices and the component material for assembly of finished products, less reserves for obsolescence.

***Stock-based Compensation***

On November 1, 2010, the board of directors of the Company approved the Amended and Restated 2006 Stock Incentive Plan of SANUWAVE Health, Inc. effective as of January 1, 2010 (the Amended Plan ). The Amended Plan provides that stock options, and other equity interests or equity-based incentives, may be granted to key personnel and directors at the fair value exercise price at the time the option is granted which is approved by the Company s board of directors. The maximum term of any option granted pursuant to the Amended Plan is ten years from the date of grant. In accordance with ASC 718, *Compensation - Stock Compensation* (formerly included in SFAS No. 123(R), Accounting for Stock-Based Compensation), the fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model. The expected terms of options granted represent the period of time that options granted are estimated to be outstanding and are derived from the contractual terms of the options granted. We amortize the fair value of each option over each option s vesting period.

**Table of Contents*****Income Taxes***

We account for income taxes utilizing the asset and liability method prescribed by the provisions of ASC 740, *Income Taxes* (formerly SFAS No. 109, Accounting for Income Taxes). Deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is provided for the deferred tax assets related to future years, including loss carryforwards, if there is not sufficient evidence to indicate that the results of operations will generate sufficient taxable income to realize the net deferred tax asset in future years.

We have adopted a provision of ASC 740, *Income Taxes* (formerly FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48)). ASC 740 specifies the way public companies are to account for uncertainties in income tax reporting, and prescribes a methodology for recognizing, reversing, and measuring the tax benefits of a tax position taken, or expected to be taken, in a tax return. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions would more-likely-than-not be sustained if challenged by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year.

**Results of Operations for the Three Months ended March 31, 2011 and 2010 (Unaudited)*****Revenues and Cost of Revenues***

Revenues for the three months ended March 31, 2011 were \$251,753, compared to \$143,102 for the same period in 2010, an increase of \$108,651, or 76%. The increase in revenues for 2011, as compared to the same period in 2010, was a result of sales in Europe of our new product, orthoPACE, for orthopedic, trauma and sports medicine indications which was introduced in July 2010.

Cost of revenues for the three months ended March 31, 2011 was \$93,298, compared to \$47,644 for the same period in 2010. Gross profit as a percentage of revenues was 63% for the three months ended March 31, 2011, as compared to 67% for the same period in 2010. The decrease in gross profit as a percentage of revenues in 2011, as compared to the same period in 2010, was due to lower margin on the new orthoPACE device sales sold to distributors as demonstration devices in 2011.

***Research and Development Expenses***

Research and development expenses for the three months ended March 31, 2011 were \$749,299, compared to \$1,085,974 for the same period in 2010, a decrease of \$336,675, or 31%. Research and development costs include payments to third parties that specifically relate to our products in clinical development, such as payments to contract research organizations, clinical investigators, clinical related consultants, contract manufacturer development costs and insurance premiums for clinical studies. In addition, employee costs (salaries, payroll taxes, benefits, and travel) for employees of the regulatory affairs, clinical affairs, quality assurance, quality control, and research and development departments are classified as research and development costs. Research and development expenses decreased in 2011, as compared to the same period in 2010, due to lower expenses related to clinical site payments, clinical monitoring and clinical database costs for the clinical trial of dermaPACE for treating diabetic foot ulcers in the United States as enrollment and patient follow-up ended during 2010 and the costs for 2011 transitioned to clinical results analysis.

We expect to continue to incur significant research and development expenses as a result of next generation technology development, the finalization of our clinical trial of dermaPACE for diabetic foot ulcers in the United States and other new product candidates, as well as continuing expenses associated with pre-clinical studies and regulatory filings.

***General and Administrative Expenses***

General and administrative expenses for the three months ended March 31, 2011 were \$1,382,185, compared to \$1,598,524 for the same period in 2010, a decrease of \$216,339, or 14%. General and administrative expenses include the non-cash costs for stock-based compensation of \$152,448 and \$483,270 for the three months ended March 31, 2011 and 2010, respectively. The decrease in non-cash compensation costs for stock compensation of \$330,822 for the three months ended March 31, 2011, as compared to the same period in 2010, was primarily due to the restricted stock granted in 2009 becoming fully vested and expensed as of January 1, 2011.

**Table of Contents**

Excluding the non-cash costs for stock-based compensation, general and administrative expenses were \$1,229,737 for the three months ended March 31, 2011, as compared to \$1,115,254 for the same period in 2010, an increase of \$114,483, or 10%. The increase in general and administrative expenses is mainly due to increased legal and public company related costs as a result of capital fund raising activities.

We expect that general and administrative expenses will increase as we expand our operations and other administrative activities related to our efforts to bring our products to commercialization.

*Depreciation and Amortization*

Depreciation for the three months ended March 31, 2011 was \$6,237, compared to \$194,732 for the same period in 2010, a decrease of \$188,495, or 97%. The decrease was primarily due to depreciation expense of \$168,224 for the three months ended March 31, 2010 on assets held for sale. There was no depreciation expense for the three months ended March 31, 2011 on assets held for sale. As of December 31, 2010, the assets held for sale were fully depreciated as management determined that the market for selling the used Ossatron mobile service devices, which were classified as held for sale, was not probable due to the age of the devices and changes in international electrical standards for which the devices were no longer compliant.

Amortization of intangible assets for the three months ended March 31, 2011 and 2010 was \$76,689.

*Other Income (Expense)*

On June 3, 2009, we sold our veterinary division to Pulse Veterinary Technologies, LLC ( Pulse Vet ). Under terms of the asset purchase agreement, we will continue to provide production services at the direction of Pulse Vet for a fee until April 30, 2012, unless Pulse Vet elects to terminate the agreement at an earlier date. The income for these transitional services was \$112,500 and \$90,000 for the three months ended March 31, 2011 and 2010, respectively, an increase of \$22,500 or 25%. The increase was due to the contractual increase in the monthly production services effective January 1, 2011.

Interest expense, net, for the three months ended March 31, 2011 was \$236,280, compared to \$217,281 for the same period in 2010, an increase of \$18,999, or 9%. The increase was primarily due to interest accruing at 15% per annum on certain notes payable to related parties, on the accumulated unpaid principal and interest balances.

*Provision for Income Taxes*

At March 31, 2011, we had federal net operating loss carryforwards of approximately \$40.9 million that will begin to expire in 2025. Our ability to use these net operating loss carryforwards to reduce our future federal income tax liabilities could be subject to annual limitations. Additionally, because United States tax laws limit the time during which net operating loss carryforwards may be applied against future taxable income and tax liabilities, we may not be able to take advantage of our net operating loss carryforwards for federal income tax purposes.

*Net Loss*

Net loss for the three months ended March 31, 2011 was \$2,183,326, or (\$0.14) per basic and diluted share, compared to a net loss of \$2,994,755, or (\$0.24) per basic and diluted share, for the three months ended March 31, 2010. We anticipate that our operating losses will continue over the next several years as we continue to fund our research and development activities and clinical trials, and as we prepare for a future sales network to represent our products.

**Table of Contents****Liquidity and Capital Resources**

We incurred a net loss of \$2,183,326 and \$2,994,755 for the three months ended March 31, 2011 and 2010, respectively. We had a working capital deficiency of \$5,066,300 and \$7,029,635 at March 31, 2011 and December 31, 2010, respectively. These operating losses and working capital deficiency create uncertainty about our ability to continue as a going concern. Although no assurances can be given, management of the Company believes that potential additional issuances of equity or other potential financing will provide the necessary funding for the Company to continue as a going concern. Our condensed consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. We are dependent upon future capital contributions or financing to fund ongoing operations. At March 31, 2011, we had \$2,306,100 in cash and cash equivalents held in three financial institutions.

Subsequent to quarter end, in April 2011, we completed a private placement to 28 institutional and individual accredited investors of 2,804,593 shares of our Common Stock at a purchase price of \$3.25 per share, for gross proceeds of \$9,114,927. The net proceeds received by the Company were \$8,467,121, net of offering costs of \$647,806. As part of the private placement, the investors were issued five-year warrants to purchase up to 2,804,593 shares of our Common Stock at an initial exercise price of \$4.00 per share. The warrants vested upon issuance and expire after five years. The placement agent was also issued 93,080 warrants with the same terms as those granted to the investors. The net proceeds from the private placement, following the payment of offering-related expenses, are being used by us for working capital and other general corporate purposes.

In addition, in April 2011, the Noteholders of our Notes exchanged the unpaid principal and interest balance of the Notes which totaled \$4,413,908 in consideration for the issuance of 1,358,126 shares of our Common Stock. In connection with this transaction, we issued to the Noteholders an aggregate total of 679,064 warrants to purchase shares of Common Stock at an exercise price of \$4.00 per share. Each warrant represents the right to purchase one share of Common Stock. The warrants vested upon issuance and expire after five years.

We expect to devote substantial resources to continue our research and development efforts, including clinical trials. Because of the significant time it will take for our products to complete the clinical trial process, and for us to obtain approval from regulatory authorities and successfully commercialize our products, we will require substantial additional capital resources. Additional financing may not be available on acceptable terms, if at all. Capital may become difficult or impossible to obtain due to poor market or other conditions outside of our control.

We may raise additional capital through public or private equity offerings, outstanding warrant exercises, debt financings, corporate collaborations or other means. We may also attempt to raise additional capital if there are favorable market conditions or other strategic considerations even if we have sufficient funds for planned operations. To the extent that we raise additional funds by issuance of equity securities, our stockholders will experience dilution, and debt financings, if available, may involve restrictive covenants or may otherwise constrain our financial flexibility. To the extent that we raise additional funds through collaborative arrangements, it may be necessary to relinquish some rights to our intellectual property or grant licenses on terms that are not favorable to us. In addition, payments made by potential collaborators or licensors generally will depend upon our achievement of negotiated development and regulatory milestones. Failure to achieve these milestones would harm our future capital position. For the three months ended March 31, 2011, net cash used by operating activities was \$2,022,689, primarily consisting of salaries, clinical trials, research and development activities and general corporate operations. Net cash provided by financing activities for the three months ended March 31, 2011 was \$3,900,334, which consisted of the proceeds from the exercise of unit options. Cash and cash equivalents increased by \$1,888,643 for the three months ended March 31, 2011 as a result of the financing activities.

For the three months ended March 31, 2010, net cash used by operating activities was \$1,720,110, primarily consisting of salaries, clinical trials, research and development activities and general corporate operations. Net cash provided by financing activities for the three months ended March 31, 2010 was \$1,000,000, which consisted of the proceeds from the issuance of promissory notes payable. Cash and cash equivalents decreased by \$720,678 for the three months ended March 31, 2010.

**Segment and Geographic Information**

We have determined that we are principally engaged in one operating segment. The Company's revenues are generated from sales in Europe.

**Table of Contents**

**Other Comprehensive Income (Loss)**

FASB ASC 220, *Comprehensive Income* (formerly SFAS No. 130, Reporting Comprehensive Income), establishes standards for reporting and display of comprehensive income (loss) and its components in the condensed consolidated financial statements. Our other comprehensive income (loss) as defined by ASC 220 is the total of net income (loss) and all other changes in equity resulting from non-owner sources, including unrealized gains (losses) on foreign currency translation adjustments.

**Contractual Obligations**

Our major outstanding contractual obligations relate to our operating leases for our facilities, purchase and supplier obligations for product component materials and equipment, and our notes payable. We have disclosed these obligations in our most recent Annual Report on Form 10-K. There were no material contractual obligations entered into during the quarter ended March 31, 2011.

Subsequent to quarter end, on April 4, 2011, in conjunction with an offering of securities of the Company, pursuant to certain exemptive provisions from registration under the Act and related rules and regulations of the SEC, the Company entered into a Securities Purchase Agreement with Purchasers for the issuance of an aggregate total 2,804,593 shares of the Company's Common Stock for an aggregate total purchase price of \$9,114,927. The offering closed effective April 8, 2011. The net proceeds received by the Company were \$8,467,121, net of offering costs of \$647,806. In addition, the Company, in connection with this offering, issued to the Purchasers an aggregate total of 2,804,593 Class E Warrants. The placement agent was also issued 93,080 Class E Warrants. Pursuant to the terms of a Registration Rights Agreement that the Company entered with the Purchasers in connection with the April 4, 2011 offering, the Company is required to file a registration statement or registration statements with the Commission that cover the resale by the Purchasers in the offering of the shares of Common Stock and the shares of Common Stock issuable upon exercise of the Class E Warrants. The failure on the part of the Company to satisfy certain deadlines described in the Registration Rights Agreement may subject the Company to payment of certain monetary penalties. In addition, subsequent to quarter end, on April 4, 2011, Prides Capital Fund I, LP and NightWatch Capital Partners II, LP, the holders of the amended senior notes of the Company, exchanged the unpaid principal and interest balance of the Notes which totaled \$4,413,908 in consideration for the issuance of 1,358,126 shares of Common Stock of the Company. In connection with this transaction, the Company issued to the Noteholders an aggregate total of 679,064 warrants to purchase shares of Common Stock at an exercise price of \$4.00 per share. Each warrant represents the right to purchase one share of Common Stock. The warrants vested upon issuance and expire after five years. The Company is currently evaluating the accounting treatment for this transaction to be recorded in the second quarter of 2011.

**Off-Balance Sheet Arrangements**

Since inception, we have not engaged in any off-balance sheet activities, including the use of structured finance, special purpose entities or variable interest entities.

**Effects of Inflation**

Because our assets are, to an extent, liquid in nature, they are not significantly affected by inflation. However, the rate of inflation affects such expenses as employee compensation, office space leasing costs and research and development charges, which may not be readily recoverable during the period of time that we are bringing the product candidates to market. To the extent inflation results in rising interest rates and has other adverse effects on the market, it may adversely affect our condensed consolidated financial condition and results of operations.

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

**Table of Contents**

**Item 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act), that are designed to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act are accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. We carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2011. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not operating effectively as of March 31, 2011.

The Company had previously reported, as of December 31, 2010, a material weakness in the Company's internal control over financial reporting process for the lack of internal expertise and resources to analyze and properly apply generally accepted accounting principles to complex and non-routine transactions related to the appropriate treatments of complex financial instruments, derivatives and stock-based compensation. A material weakness is defined under SEC rules as a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company's annual or interim financial statements will not be prevented or detected on a timely basis by the company's internal controls. Management believes the material weaknesses identified above were due to the complex and non-routine nature of the Company's complex financial instruments, derivatives and stock-based compensation.

**Management Plan to Remediate Material Weaknesses**

Management is actively engaged in developing a remediation plan to address the material weakness related to its processes and procedures surrounding the accounting for non-cash stock-based compensation expense. Implementation of the remediation plan is in process and consists of, among other things, redesigning the procedures to enhance its identification, capture, review, approval and recording of contractual terms included in equity arrangements. Management is also pursuing engaging, as necessary, an outside consultant to assist in the application of United States GAAP to complex transactions, including the accounting for complex financial instruments, derivatives and stock-based compensation. These measures are intended both to address the identified material weaknesses and to enhance our overall internal control environment.

**Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that materially affect, or are reasonably likely to materially affect, our internal control over financial reporting, except as discussed above.

**PART II OTHER INFORMATION**

**Item 1. LEGAL PROCEEDINGS**

Other than legal proceedings described below, there are no material pending legal proceedings to which we are a party or of which any of our properties are subject; nor are there material proceedings known to us to be contemplated by any governmental authority.

HealthTronics, Inc., along with the Company, are defendants in an alleged breach of contract lawsuit dated April 21, 2006 brought in the Miami-Dade County Circuit Court, Florida by a former limited partner of a former limited partnership of the Company, Bone & Joint Treatment Centers of America. Bone & Joint Treatment Centers of America, the plaintiff, is seeking greater than \$3 million. HealthTronics, Inc. has been responsible for the defense of the lawsuit on behalf of the Company and believes the case is unfounded and is contesting the claims vigorously. There are no material proceedings known to us, pending or contemplated, in which any of our directors, officers or affiliates or any of our principal security holders, or any associate of any of the foregoing, is a party or has an interest

adverse to us.
