DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

NOTE 1: CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements of Diebold, Incorporated and its subsidiaries (collectively, the Company) have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles; however, such information reflects all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of the results for the interim periods.

The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in the Company's annual report on Form 10-K for the year ended December 31, 2010. In addition, some of the Company's statements in this quarterly report on Form 10-Q may involve risks and uncertainties that could significantly impact expected future results. The results of operations for the three and six months ended June 30, 2011 are not necessarily indicative of results to be expected for the full year.

The Company has reclassified the presentation of certain prior-year information to conform to the current presentation.

RECENTLY ISSUED ACCOUNTING GUIDANCE

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-05 (ASU 2011-05), *Presentation of Comprehensive Income*, that eliminates the option to present components of other comprehensive income (OCI) as part of the statement of changes in stockholders' equity. The amendments in this standard require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Under either method, adjustments must be displayed for items that are reclassified from OCI to net income, in both net income and OCI. The standard does not change the current option for presenting components of OCI gross or net of the effect of income taxes, provided that such tax effects are presented in the statement in which OCI is presented or disclosed in the notes to the financial statements. Additionally, the standard does not affect the calculation or reporting of earnings per share. ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and is to be applied retrospectively, with early adoption permitted. The adoption of this update will not have a material impact on the financial statements of the Company. The Company is in the process of determining its method of presentation.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Company is currently evaluating the effect that the provisions of ASU 2011-04 will have on the disclosures within the financial statements of the Company.

Table of Contents

FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

NOTE 2: EARNINGS PER SHARE

Basic earnings per share is based on the weighted-average number of common shares outstanding. Diluted earnings per share is based on the weighted-average number of common shares outstanding and all potential dilutive common shares. Under the two-class method of computing earnings per share, non-vested share-based payment awards that contain rights to receive non-forfeitable dividends are considered participating securities. The Company's participating securities include restricted stock units (RSUs), deferred shares and shares that were vested, but deferred by the employee. The Company calculated basic and diluted earnings per share under both the treasury stock method and the two-class method. For the three and six months ended June 30, 2011 and 2010, there was no impact in the per share amounts calculated under the two methods; therefore, the treasury stock method is disclosed.

The following represents amounts used in computing earnings per share and the effect on the weighted-average number of shares of dilutive common stock:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Numerator:				
Income used in basic and diluted earnings per share:				
Income from continuing operations, net of tax	\$ 20,275	\$ 30,414	\$ 22,787	\$ 55,308
Income (loss) from discontinued operations	529	(683)	518	(1,653)

Distributions to noncontrolling interest holders	(735)	(9)	(1,045)	(9)
Balance at end of the period	\$ 31,178	\$ 26,581	\$ 31,178	\$ 26,581

NOTE 4: SHARE-BASED COMPENSATION

The Company's share-based compensation payments to employees are recognized in the statement of income based on their grant-date fair values during the period in which the employee is required to provide services in exchange for the award. Share-based compensation is recognized as a component of selling and administrative expense. Total share-based compensation expense for the three and six months ended June 30, 2011 was \$3,181 and \$6,617, respectively. Total share-based compensation expense for the three and six months ended June 30, 2010 was \$3,139 and \$6,365, respectively.

Table of Contents

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

Options outstanding and exercisable as of June 30, 2011 under the Company's 1991 Equity and Performance Incentive Plan (as Amended and Restated as of April 13, 2009) and changes during the six months ended June 30, 2011, were as follows:

	Number of Shares (in thousands)	Weighted- Average Exercise Price (per share)	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (1)
Outstanding at January 1, 2011	3,152	\$ 36.67		
Expired or forfeited	(197)	35.49		
Exercised	(148)	27.06		
Granted	432	33.20		
Outstanding at June 30, 2011	3,239	\$ 36.69	5	\$ 4,754
Options exercisable at June 30, 2011	2,182	\$ 39.89	4	\$ 2,331
Options vested and expected to vest (2) at June 30, 2011	3,214	\$ 36.74	5	\$ 4,696

(1) The aggregate intrinsic value (the difference between the closing price of the Company's common shares on the last trading day of the second quarter of 2011 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on June 30, 2011. The amount of aggregate intrinsic value will change based on the fair market value of the Company's common shares.

(2) The options expected to vest are the result of applying the pre-vesting forfeiture rate assumption to total outstanding non-vested options.

The following tables summarize information on non-vested RSUs, performance shares and deferred shares for the six months ended June 30, 2011:

	Number of Shares (in thousands)	Weighted-Average Grant-Date Fair Value
RSUs:

NOTE 5: INCOME TAXES

The effective tax rate on continuing operations for the three months ended June 30, 2011 was 23.3 percent compared to 30.0 percent for the same period of 2010. The 6.7 percentage point decrease is due mainly to various discrete items in the periods.

The effective tax rate on continuing operations for the six months ended June 30, 2011 was 32.7 percent compared to 29.2 percent for the same period of 2010. The 3.5 percentage point increase is due mainly to operating losses in certain Europe, Middle East and Africa (EMEA) jurisdictions for which no tax benefit is recognized, partially offset by various discrete items in the periods.

NOTE 6: INVESTMENTS

The Company's investments, primarily in Brazil, consist of certificates of deposit and U.S. dollar indexed bond funds, which are classified as available-for-sale and stated at fair value based upon quoted market prices and net asset values, respectively. Unrealized gains and losses are recorded in OCI. Realized gains and losses are recognized in investment income and are determined using the specific identification method. Realized (losses) gains, net from the sale of securities were \$(1,304) and \$33 for the three months ended June 30, 2011 and 2010, respectively. Realized (losses) gains, net from the sale of securities were \$(1,468) and \$33 for the six months ended June 30, 2011 and 2010, respectively. Proceeds from the sale of available-for-sale securities were \$26,761 and \$9,718 during the six months ended June 30, 2011 and 2010, respectively.

The Company has deferred compensation plans that enable certain employees to defer receipt of a portion of their cash or share-based compensation and non-employee directors to defer receipt of director fees at the participants' discretion. For deferred cash-based compensation, the Company established a rabbi trust that is recorded at the fair value of the underlying securities within securities and other investments. The related deferred compensation liability is recorded at fair value within other long-term liabilities. Realized and unrealized gains and losses on marketable securities in the rabbi trust are recognized in investment income.

The Company's investments, excluding cash surrender value of insurance contracts of \$66,528 and \$67,975 as of June 30, 2011 and December 31, 2010, respectively, consist of the following:

	Cost Basis	Unrealized Gain (Loss)	Fair Value
As of June 30, 2011			
Short-term investments:			
Certificates of deposit	\$ 229,532	\$	\$ 229,532
U.S. dollar indexed bond funds	33,530	(1,833)	31,697

NOTE 7: ALLOWANCE FOR CREDIT LOSSES

Trade Receivables The Company evaluates the collectability of trade receivables based on (1) a percentage of sales related to historical loss experience and current trends and (2) periodic adjustments for known events such as specific customer circumstances and changes in the aging of accounts receivable balances. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off.

Financing Receivables The Company evaluates the collectability of notes and finance lease receivables (collectively, financing receivables) based on a specific customer circumstances, credit risk changes and payment patterns and historical loss experience. When the collectability is determined to be at risk based on the above criteria, the Company records the allowance for credit losses which represents the Company's current exposure less estimated reimbursement from insurance claims. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off.

The following table summarizes the Company's allowance for credit losses and recorded investment in financing receivables:

	Finance Leases	Notes Receivable	Total
Allowance for credit losses			
Balance January 1, 2011	\$ 378	\$ 470	\$ 848
Provision for credit losses	9	1,652	1,661
Recoveries	94	5,454	5,548
Write-offs	(354)	(5,956)	(6,310)
 Balance individually evaluated for impairment	 \$ 127	 \$ 1,620	 \$ 1,747
Balance collectively evaluated for impairment			
 Balance June 30, 2011	 \$ 127	 \$ 1,620	 \$ 1,747
 Recorded investment in financing receivables			
Balance individually evaluated for impairment	\$ 117,205	\$ 16,540	\$ 133,745
Balance collectively evaluated for impairment			
 Balance June 30, 2011	 \$ 117,205	 \$ 16,540	 \$ 133,745

The Company records interest income and any fees or costs related to financing receivables using the effective interest method over the term of the lease or loan. The Company reviews the aging of its financing receivables to determine past due and delinquent accounts. Credit quality is reviewed at inception and is re-evaluated as needed based on customer specific circumstances. Receivable balances greater than 60 days past due are reviewed and may be placed on nonaccrual status based on customer specific circumstances. Upon receipt of payment on nonaccrual financing receivables, interest income is recognized and accrual of interest is resumed once the account has been made current or the specific circumstances have been resolved.

As of June 30, 2011 and December 31, 2010, the recorded investment in past-due finance lease receivables on nonaccrual status was \$214 and \$531, respectively. The recorded investment in finance lease receivables past due

90 days or more and still accruing interest was \$659 and \$560 as of June 30, 2011 and December 31, 2010, respectively. The recorded investment in impaired notes receivable and the related allowance was \$1,620 and \$1,620, respectively, as of June 30, 2011. The recorded investment in impaired notes receivable and the related allowance was \$7,513 and \$470, respectively, as of December 31, 2010. The net investment in impaired notes receivable is expected to be recovered from insurance claims. The following table summarizes the Company's aging of past-due notes receivable balances as of June 30, 2011:

31-60 days past due	\$
61-90 days past due	
> 90 days past due	1,357
Total past due	\$ 1,357

NOTE 8: INVENTORIES

Major classes of inventories are summarized as follows:

	June 30, 2011	December 31, 2010
Finished goods	\$ 204,648	\$ 184,944
Service parts	170,042	166,317
Raw materials and work in process	122,174	93,314
 Total inventories	 \$ 496,864	 \$ 444,575

NOTE 9: OTHER ASSETS

Included in other assets are net capitalized software development costs of \$54,493 and \$55,575 as of June 30, 2011 and December 31, 2010, respectively. Amortization expense on capitalized software of \$4,832 and \$9,408 was included in product cost of sales for the three and six months ended June 30, 2011, respectively, and \$3,849 and \$7,930 for the three and six months ended June 30, 2010, respectively. Other long-term assets also consist of patents, trademarks and other intangible assets. Where applicable, other assets are stated at cost and, if applicable, are amortized ratably over the relevant contract period or the estimated life of the assets. Fees to renew or extend the term of the Company's intangible assets are expensed when incurred. Impairment of long-lived assets is recognized when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the expected future undiscounted cash flows are less than the carrying amount of the asset group, an impairment loss may be recognized at that time to reduce the asset to the lower of its fair value or its net book value.

The Company recorded \$2,962 and \$4,096 of intangible asset impairment charges within Diebold North America (DNA) continuing operations in the second quarter of 2011 and 2010, respectively. The 2011 impairment related to a software intangible and the 2010 impairment related to customer contract intangible assets.

Investment in Affiliate Investment in the Company's non-consolidated affiliate is accounted for under the equity method and consists of a 50 percent ownership in Shanghai Diebold King Safe Company, Ltd. The balance of this investment as of June 30, 2011 and December 31, 2010 was \$12,977 and \$12,118, respectively, and fluctuated based on equity earnings. Equity earnings from the non-consolidated affiliate are included in miscellaneous, net in the condensed consolidated statements of income and were \$434 and \$859 for the three and six months ended June 30, 2011, respectively, and \$672 and \$1,425 for the three and six months ended June 30, 2010, respectively.

NOTE 10: DEBT

Outstanding debt balances were as follows:

	June 30, 2011	December 31, 2010
Notes payable – current:		
Uncommitted lines of credit	\$ 43,784	\$ 15,038
Other	116	
	\$ 43,900	\$ 15,038

Long-term debt:

Credit facility	\$	330,000	\$	235,000
Senior notes		300,000		300,000
Industrial development revenue bonds		11,900		11,900
Other		2,761		3,468
	\$	644,661	\$	550,368

As of June 30, 2011, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$93,447. The weighted-average interest rate on outstanding borrowings on the short-term uncommitted lines of credit as of June 30, 2011 and December 31, 2010 was 2.74 and 3.01 percent, respectively. Short-term uncommitted lines mature in less than one year. The amount available under the short-term uncommitted lines at June 30, 2011 was \$49,663.

In June 2011, the Company entered into a new five-year credit facility, which replaced its existing credit facility. The Company used borrowings of approximately \$330,000 under the new credit facility to repay all amounts outstanding under (and terminated) the

Table of Contents

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

existing credit facility. As of June 30, 2011, the Company had borrowing limits under the new credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of June 30, 2011 and December 31, 2010 was 1.26 and 2.71 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the new credit facility as of June 30, 2011 was \$170,000. The Company incurred \$1,733 of fees to its creditors in conjunction with the new credit facility, which will be amortized as a component of interest expense over the term of the facility.

In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate by 14 basis points from 5.50 to 5.36 percent.

In 1997, industrial development revenue bonds were issued on behalf of the Company. The proceeds from the bond issuances were used to construct new manufacturing facilities in the United States. The Company guaranteed the payments of principal and interest on the bonds by obtaining letters of credit. The bonds were issued with a 20-year original term and are scheduled to mature in 2017. Each industrial development revenue bond carries a variable interest rate, which is reset weekly by the remarketing agents. The weighted-average interest rate on the bonds was 0.83 and 0.57 percent as of June 30, 2011 and December 31, 2010, respectively.

The Company's debt agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of June 30, 2011, the Company was in compliance with the financial covenants in its debt agreements.

NOTE 11: BENEFIT PLANS

The Company has pension plans covering certain U.S. employees. Plans that cover certain salaried employees provide pension benefits based on the employee's compensation during the ten years before retirement. The Company's funding policy for salaried plans is to contribute annually based on actuarial projections and applicable regulations. Plans covering certain hourly employees and union members generally provide benefits of stated amounts for each year of service. The Company's funding policy for hourly plans is to make at least the minimum annual contributions required by applicable regulations. Employees of the Company's operations in countries outside of the United States participate to varying degrees in local pension plans, which in the aggregate are not significant.

In addition to providing pension benefits, the Company provides healthcare and life insurance benefits (referred to as other benefits) for certain retired employees. Eligible employees may be entitled to these benefits based upon years of service with the Company, age at retirement and collective bargaining agreements. Currently, the Company has made no commitments to increase these benefits for existing retirees or for employees who may become eligible for these benefits in the future. There are no plan assets and the Company funds the benefits as the claims are paid.

The following table sets forth the net periodic benefit cost for the Company's defined benefit pension plans and other benefits:

	Three Months Ended			
	June 30,			
	Pension Benefits		Other Benefits	
	2011	2010	2011	2010
Components of net periodic benefit cost				
Service cost	\$ 2,713	\$ 2,499	\$	\$

Edgar Filing: DIEBOLD INC - Form 10-Q

Net periodic pension benefit cost	\$ 5,732	\$ 3,968	\$ 401	\$ 380

Cash Flows

There have been no significant changes to the 2011 plan year contribution amounts previously disclosed. For the six months ended June 30, 2011 and 2010, contributions of \$21,500 and \$13,381, respectively, were made to the qualified and non-qualified pension plans.

NOTE 12: GUARANTEES AND PRODUCT WARRANTIES

In 1997, industrial development revenue bonds were issued on behalf of the Company. The Company guaranteed the payments of principal and interest on the bonds (refer to note 10) by obtaining letters of credit. The carrying value of the bonds was \$11,900 as of June 30, 2011 and December 31, 2010.

The Company provides its global operations guarantees and standby letters of credit through various financial institutions to suppliers, customers, regulatory agencies and insurance providers. If the Company is not able to make payment or fulfill contractual obligations, the suppliers, customers, regulatory agencies and insurance providers may draw on the pertinent bank. At June 30, 2011, the maximum future payment obligations related to these various guarantees totaled \$77,690, of which \$22,735 represented standby letters of credit to insurance providers, and no associated liability was recorded. At December 31, 2010, the maximum future payment obligations relative to these various guarantees totaled \$74,629, of which \$23,202 represented standby letters of credit to insurance providers, and no associated liability was recorded.

The Company provides its customers a manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. Changes in the Company's warranty liability balance are illustrated in the following table:

	2011	2010
Balance at January 1	\$ 78,313	\$ 62,673
Current period accruals (a)	30,066	24,609
Current period settlements	(34,058)	(23,694)
Balance at June 30	\$ 74,321	\$ 63,588

(a) includes the impact of foreign exchange rate fluctuations

NOTE 13: COMMITMENTS AND CONTINGENCIES

At June 30, 2011, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate are considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the condensed consolidated financial statements would not be materially affected by the outcome of these legal proceedings, commitments or asserted claims. In addition to these routine legal proceedings, the Company was a party to 401(k) and securities class actions, labor and wage actions, and election systems actions which are described in note 15 of the consolidated financial statements contained in the Company's annual report on Form 10-K for the year ended December 31, 2010. The Company's global Foreign Corrupt Practices Act (FCPA) review remains on schedule with no material developments during the three months ended June 30, 2011:

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the FCPA, particularly the books and records provisions of the FCPA. As a result, the Company is conducting an internal review and collecting information related to its global FCPA compliance. In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation over the past several years which may also potentially implicate the FCPA. The Company's current assessment indicates that the transactions and payments in question to date do not materially impact or alter the Company's consolidated financial statements in any year or in the aggregate. The Company's internal review is ongoing, and accordingly, there can be no assurance that this review will not find evidence of additional transactions that potentially implicate the FCPA.

The Company has voluntarily self-reported its findings to the SEC and the DOJ and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry has been converted to a formal, non-public investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. The Company expects to complete its internal review of these matters by the end of 2011. Once the Company completes its internal review, it will begin discussions with the SEC and the DOJ to resolve this matter. At this time, the Company cannot predict the results of the government investigations and therefore cannot estimate the potential loss or range of loss it may incur with respect to these investigations or their potential impact on the consolidated financial statements. Future resolution of these matters with the DOJ and SEC could result in a material impact to the Company's consolidated financial statements.

NOTE 14: DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company uses derivatives to mitigate the economic consequences associated with the fluctuations in currencies and interest rates.

FOREIGN EXCHANGE

Non-Designated Hedges A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The Company's policy allows the use of foreign exchange forward contracts with maturities of up to 24 months to mitigate the impact of currency fluctuations on those foreign currency asset and liability balances. The Company elected not to apply hedge accounting to its foreign exchange forward contracts. Thus, spot-based gains/losses offset revaluation gains/losses within foreign exchange loss, net and forward-based gains/losses represent interest expense. The fair value of the Company's non-designated foreign exchange forward contracts was \$300 and (\$3,135) as of June 30, 2011 and December 31, 2010, respectively.

Table of Contents

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

The following table summarizes the (loss) gain recognized on non-designated foreign-exchange derivative instruments:

Income Statement Location	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Interest expense	\$ (2,028)	\$ (1,573)	\$ (3,876)	\$ (3,059)
Foreign exchange gain (loss), net	4,478	15,211	(1,738)	22,155
	\$ 2,450	\$ 13,638	\$ (5,614)	\$ 19,096

INTEREST RATE

Cash Flow Hedges The Company has variable rate debt and is subject to fluctuations in interest related cash flows due to changes in market interest rates. The Company's policy allows derivative instruments designated as cash flow hedges that fix a portion of future variable-rate interest expense. As of June 30, 2011, the Company has a pay-fixed receive-variable interest rate swap, with a total notional amount of \$25,000, to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. Changes in value that are deemed effective are accumulated in OCI and reclassified to interest expense when the hedged interest is accrued. To the extent that it becomes probable that the Company's variable rate borrowings will not occur, the gains or losses on the related cash flow hedges will be reclassified from OCI to interest expense.

In December 2005 and January 2006, the Company executed cash flow hedges by entering into receive-variable and pay-fixed interest rate swaps, with a total notional amount of \$200,000, related to the senior notes issuance in March 2006. Amounts previously recorded in OCI related to the pre-issuance cash flow hedges will continue to be reclassified on a straight-line basis through February 2016.

The fair value of the Company's interest rate contracts was (\$3,441) and (\$3,371) as of June 30, 2011 and December 31, 2010, respectively.

The gain (loss) recognized on designated derivative instruments for the three and six months ended June 30, 2011 and 2010 was not material. Gains and losses related to interest rate contracts that are reclassified from accumulated OCI are recorded in interest expense on the statement of income. The Company anticipates reclassifying \$781 from OCI to interest expense within the next 12 months.

NOTE 15: RESTRUCTURING AND OTHER CHARGES

The following table summarizes the impact of the Company's restructuring charges (benefits) on the condensed consolidated statements of income:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Cost of sales – products	\$ 251	\$ 696	\$ 374	\$ 482
Cost of sales – services	2,555	(524)	8,629	(210)
Selling and administrative expense	1,667	1,079	7,271	2,236
Research, development and engineering expense	12	(57)	12	(198)
Total	\$ 4,485	\$ 1,194	\$ 16,286	\$ 2,310

FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(dollars in thousands, except per share amounts)

The following table summarizes the Company's restructuring charges (benefits) within continuing operations for its DNA and Diebold International (DI) reporting segments:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2011	2010	2011	2010
DNA				
Severance	\$ 802	\$ 518	\$ 795	\$ 1,883
Other		447		(117)
DI				
Severance	2,844	194	14,449	378
Other (1)	839	35	1,042	166
Total	\$ 4,485	\$ 1,194	\$ 16,286	\$ 2,310

(1) Net other restructuring charges in the DI segment include legal fees, accelerated depreciation, facility refurbishment and lease termination costs.

Restructuring charges of \$3,452 and \$15,032 for the three and six months ended June 30, 2011 related to the Company's plan for the EMEA reorganization, which realigns resources and further leverages the existing shared services center. As of June 30, 2011, the Company anticipates additional restructuring costs in the range of \$10,000 to \$13,000 to be incurred into 2012 related to its EMEA restructuring plan. As management concludes on certain aspects of the EMEA restructuring plan, the anticipated future costs related to this plan are subject to change.

Restructuring charges related to reductions in the Company's global workforce were \$172 and \$552 for the three months ended June 30, 2011 and 2010, respectively and \$279 and \$1,930 for the six months ended June 30, 2011 and 2010, respectively. These charges included realignment of the organization and resources to better support opportunities in emerging growth markets as well as consolidation of certain international facilities in efforts to optimize overall operational performance. This plan resulted in a workforce reduction which primarily affected Canton, Ohio area facilities. The Company does not expect any material remaining costs related to this workforce reduction.

Restructuring charges related to the Company's strategic global manufacturing realignment plans were \$230 and \$648 for the three months ended June 30, 2011 and 2010, respectively and \$344 and \$356 for the six months ended June 30, 2011 and 2010, respectively.

The following table summarizes the Company's cumulative total restructuring costs for the significant plans:

	EMEA Reorganization	Global Workforce Reductions	Global Manufacturing Realignment
Costs incurred to date:			
DNA	\$	\$ 22,227	\$ 11,579
DI	15,032	20,571	25,409
Total costs incurred to date	\$ 15,032	\$ 42,798	\$ 36,988

The following table summarizes the Company's restructuring accrual balances and related activity:

Balance as of January 1, 2011	\$ 3,340
Liabilities incurred	16,286
Liabilities paid	(7,664)
Balance as of June 30, 2011	\$ 11,962

Other Charges and Expense Reimbursements

Other charges and expense reimbursements consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$13,441 impacted the six months ended June 30, 2011 compared to net non-routine income of \$3,073 in the same period of 2010. Net non-routine expenses for 2011 consisted primarily of legal and compliance costs related to the FCPA investigation and were recorded in selling and administrative expense. Net non-routine income for 2010 consisted

(Unaudited)

(dollars in thousands, except per share amounts)

primarily of reimbursements from the Company's director and officer (D&O) insurance carriers and was recorded in selling and administrative expense, partially offset by costs related to the FCPA investigation.

NOTE 16: FAIR VALUE OF ASSETS AND LIABILITIES

The Company measures its financial assets and liabilities using one or more of the following three valuation techniques:

Market approach Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach Amount that would be required to replace the service capacity of an asset (replacement cost).

Income approach Techniques to convert future amounts to a single present amount based upon market expectations. The hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is divided into three levels:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets, that are observable either directly or indirectly.

Level 3 Unobservable inputs for which there is little or no market data.

Assets and Liabilities Recorded at Fair Value

Assets and liabilities subject to fair value measurement are as follows:

	June 30, 2011 Fair Value Measurements Using				December 31, 2010 Fair Value Measurements Using			
	Fair Value	Level 1	Level 2	Level 3	Fair Value	Level 1	Level 2	Level 3
Assets								
Short-term investments:								
Certificates of deposit	\$ 229,532	\$ 229,532	\$	\$	\$ 221,706	\$ 221,706	\$	\$
U.S. dollar indexed bond funds	31,697		31,697		51,417		51,417	
Assets held in a rabbi trust	8,400	8,400			8,163	8,163		
Foreign exchange forward contracts	1,541		1,541		925		925	
Contingent consideration on sale of business					2,030			2,030
Total	\$ 271,170	\$ 237,932	\$ 33,238	\$	\$ 284,241	\$ 229,869	\$ 52,342	\$ 2,030
Liabilities								
Deferred compensation	\$ 8,400	\$ 8,400	\$	\$	\$ 8,163	\$ 8,163	\$	\$

Foreign exchange forward contracts	1,241	1,241	4,060	4,060
Interest rate swaps	3,441	3,441	3,371	3,371
Total	\$ 13,082	\$ 8,400	\$ 4,682	\$ 15,594
			\$ 8,163	\$ 7,431
				\$

Short-Term Investments The Company has investments in certificates of deposit that are recorded at cost, which approximates fair value. Additionally, the Company has investments in U.S. dollar indexed bond funds that are classified as available-for-sale and stated at fair value. U.S. dollar indexed bond funds are reported at net asset value, which is the practical expedient for fair value as determined by banks where funds are held.

Assets Held in a Rabbi Trust / Deferred Compensation The fair value of the assets held in a rabbi trust (refer to note 6) is derived from investments in a mix of money market, fixed income and equity funds managed by Vanguard. The related deferred compensation liability is recorded at fair value.

Foreign Exchange Forward Contracts A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates.

Table of Contents

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(dollars in thousands, except per share amounts)

Interest Rate Swaps The Company has variable rate debt and is subject to fluctuations in interest related cash flows due to changes in market interest rates. The Company's policy allows it to periodically enter into derivative instruments designated as cash flow hedges to fix some portion of future variable rate based interest expense. The Company has a pay-fixed receive-variable interest rate swap to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. The fair value of the swap is determined using the income approach and is calculated based on LIBOR rates at the reporting date.

Contingent Consideration on Sale of Business The Company's sale of its U.S. elections systems business included contingent consideration related to 70 percent of cash collected on the accounts receivable balance of the sold business as of August 31, 2009. The fair value of the contingent consideration was determined based on collections on the accounts receivable as well as the probability of future anticipated collections (level 3 inputs) and was recorded at the net present value of the future anticipated cash flows. The following table summarized the changes in fair value of the Company's level 3 assets:

Balance as of January 1	\$ 2,030
Cash collections	(2,520)
Fair value adjustments	490
Balance as of June 30	\$

Assets and Liabilities Recorded at Carrying Value

The fair value of the Company's cash and cash equivalents, trade receivables and accounts payable, approximates the carrying value due to the relative short maturity of these instruments. The fair value and carrying value of the Company's debt instruments are summarized as follows:

	June 30, 2011		December 31, 2010	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Notes payable - current	\$ 43,900	\$ 43,900	\$ 15,038	\$ 15,038
Long-term debt	660,512	644,661	565,499	550,368
Total debt instruments	\$ 704,412	\$ 688,561	\$ 580,537	\$ 565,406

The fair value of the Company's industrial development revenue bonds are measured using unadjusted quoted prices in active markets for identical assets categorized as level 1 inputs. The fair value of the Company's current notes payable and credit facility debt instruments approximates the carrying value due to the relative short maturity of the revolving borrowings under these instruments. The fair values of the Company's long-term senior notes was estimated using market observable inputs for the Company's comparable peers with public debt, including quoted prices in active markets, market indices and interest rate measurements, considered level 2 inputs.

NOTE 17: SEGMENT INFORMATION

The Company's segments are comprised of two sales channels: DNA and DI. The DNA segment sells and services financial and retail systems in the United States and Canada. The DI segment sells and services financial and retail systems over the remainder of the globe as well as voting and lottery solutions in Brazil. Each segment buys the goods it sells from the Company's manufacturing plants or through external suppliers. Intercompany sales between legal

entities are eliminated in consolidation. Each year, intercompany pricing is agreed upon which drives operating profit contribution.

The reconciliation between segment information and the condensed consolidated financial statements is disclosed. Revenue summaries by geographic area and product and service solutions are also disclosed. Certain information not routinely used in the management of the DNA and DI segments, information not allocated back to the segments or information that is impractical to report is not shown. Items not allocated are as follows: investment income; interest expense; equity in the net income of investees accounted for by the equity method; income tax expense or benefit; foreign exchange gains and losses; miscellaneous, net; and discontinued operations.

**ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
OF OPERATIONS**

OVERVIEW

Management's discussion and analysis should be read in conjunction with the condensed consolidated financial statements and accompanying notes that appear elsewhere in this quarterly report.

Introduction

The Company reported a solid second quarter of 2011 as growth continues to accelerate in North America, particularly in the U.S. regional bank space, driven by strong demand for advanced deposit automation and new technology needed to meet pending regulatory and industry compliance standards. The Company also drove operational progress in Europe, Middle East and Africa (EMEA) during the quarter.

During the second quarter of 2011, increased order activity in Diebold North America (DNA) continued to drive the business on a macro level. Much of the growth is occurring in the regional bank space, where financial self-service (FSS) orders grew about 180 percent compared to the second quarter of 2010. In DNA overall, orders grew 14 percent compared to the second quarter of 2010. In addition, Asia Pacific orders increased 18 percent, compared to the second quarter of 2010, led by strong performance in India and Southeast Asia. This was offset by decreases in orders within EMEA and Latin America of 3 percent and 30 percent respectively compared to the second quarter of 2010. The decrease in Latin America orders was primarily the result of a significant decrease in election orders and the timing of major bank FSS orders.

Income from continuing operations attributable to Diebold, Incorporated, net of tax, for the three months ended June 30, 2011 was \$20,275 or \$0.31 per share, a decrease of \$10,139 and \$0.15 per share, respectively, from the same period in 2010. Total revenue for the three months ended June 30, 2011 was \$662,382, a decrease of 0.4 percent from the same period in 2010.

Income from continuing operations attributable to Diebold, Incorporated, net of tax, for the six months ended June 30, 2011 was \$22,787 or \$0.35 per share, a decrease of \$32,521 and \$0.49 per share, respectively, from the same period in 2010. Total revenue for the six months ended June 30, 2011 was \$1,276,539, a decrease of 0.6 percent from the same period in 2010.

Vision and strategy

The Company's vision is *to be recognized as the essential partner in creating and implementing ideas that optimize convenience, efficiency and security*. This vision is the guiding principle behind the Company's transformation to becoming a more services-oriented company. Services comprise more than 50 percent of the Company's revenue. The Company expects that this percentage will continue to grow over time as the Company continues to build on its strong base of maintenance and advanced services to deliver world-class integrated services.

In the second quarter of 2011, the Company signed new integrated services contracts valued at more than \$75,000, significantly exceeding the prior-year period. By comparison, in all of 2010, the Company signed about \$150,000 in integrated services contracts. During the quarter, the Company announced it is providing a variety of products and technological upgrades through integrated services to First National Bank of Pennsylvania. The bank chose Diebold to help expand its consumer banking options and enhance security by replacing 150 ATMs with Opteva and upgrading an additional 100 ATMs. The bank is adding deposit automation to nearly a third of its fleet. Another U.S. regional customer that signed an integrated services agreement during the quarter was Teachers Credit Union. The Company is helping the credit union implement new technologies and services, including ATM upgrades for deposit automation, monitoring and security to enhance the credit union's operational efficiencies and improve convenience for its members.

Another area of focus within the FSS business is broadening the Company's deposit automation solutions set, including check imaging, envelope-free currency acceptance, teller automation, and payment and document imaging

solutions. The Company's ImageWay® check-imaging solution fulfills an industry-wide demand for cutting-edge technologies that enhance efficiencies and greatly reduce operating costs for customers. For example, in North America, the Company is experiencing increasing demand from regional and community financial institutions for deposit automation terminals to maintain their competitive position and reduce their operating costs.

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES
(unaudited)**

(dollars in thousands, except per share amounts)

Within the security business, the Company's solution set is comprehensive, including high-end enterprise security solutions. The Company's goal is to better leverage its enterprise security expertise in the financial market. Historically, Diebold's focus in this market was on the branch side with an emphasis on product sales. As new branch growth is expected to be stagnant the next several years, the Company is shifting its focus to enterprise solutions which are more oriented toward services. As security systems have become increasingly complex, financial institutions are showing more interest in outsourcing this area of its operations; particularly in the area of monitoring, services and software. In addition, the Company is pursuing other means to effectively grow its security business for the long term, including increased activity on the acquisition front. During the second quarter of 2011, while overall security revenue decreased slightly due to continued weakness in the branch business, enterprise security revenue grew more than 20 percent compared to the same period of 2010. The Company intends to continue to leverage its experience to capitalize on the opportunities in this space, particularly as it wins major projects such as the new World Trade Center Transportation Hub in New York City. The Company's integrated system will include the installation of video surveillance, access control and alarm devices throughout the hub. In addition, the Company recently announced it is managing the integration of a complex security software system for the new World Trade Center site. Diebold's integration efforts will connect an array of systems to the World Trade Center security command center via a single interface, giving operators unified control and views of the entire site.

Moving forward, the Company intends to create shareholder value by leveraging its growing advantage in services, continuing to restructure its operations in EMEA, taking advantage of key market opportunities around the world and leveraging opportunities in the security business. The focus for the remainder of 2011 is to continue striking an appropriate balance between reducing costs and investing in future growth. There are many opportunities that lie ahead, and the Company will continue to invest in developing new software solutions, services and security solutions, particularly in emerging markets to achieve the Company's stated goal of 15 percent return of capital employed.

Cost savings initiatives, restructuring and other charges

Over the past several years, the Company's SmartBusiness (SB) initiatives have led to rationalization of product development, streamlined procurement, realignment of the Company's manufacturing footprint and improved logistics. Building on that success, the Company launched SB 300, which shifts the focus from cost of sales to operating expenses and is targeted to achieve an additional \$100,000 in efficiencies during the next three years. The Company is well on target to reduce its cost structure by \$30,000 in 2011.

During the six months ended June 30, 2011 and 2010, the Company incurred pre-tax net restructuring charges of \$16,286 and \$2,310, respectively. Restructuring charges in 2011 primarily related to the Company's plan for the EMEA reorganization, which realigns resources and further leverages the existing shared services center.

Restructuring charges in 2010 primarily related to reductions in the Company's global workforce within the Canton, Ohio area facilities.

Other charges and expense reimbursements consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$13,441 impacted the six months ended June 30, 2011 compared to net non-routine income of \$3,073 in the same period of 2010. Net non-routine expenses for 2011 consisted primarily of legal and compliance costs related to the Foreign Corrupt Practices Act (FCPA) investigation and were recorded in selling and administrative expense. Net non-routine income for 2010 consisted primarily of reimbursements from the Company's director and officer (D&O) insurance carriers and was recorded in selling and administrative expense, partially offset by costs related to the FCPA investigation.

Business Drivers

The business drivers of the Company's future performance include, but are not limited to:

- demand for new service offerings, including integrated services and outsourcing;
- demand for security products and services for the financial, enterprise, retail and government sectors;

timing of a self-service upgrade and/or replacement cycle, including deposit automation in mature markets such as the United States; and
high levels of deployment growth for new self-service products in emerging markets, such as Asia Pacific.

Income (loss) from discontinued operations, net of tax	529		(683)		518		(1,653)	
Net income attributable to noncontrolling interests	1,327		659		2,961		957	
Net income attributable to Diebold, Incorporated	20,804		29,731		23,305		53,655	

Second Quarter 2011 Comparisons to Second Quarter 2010*Net Sales*

The following table represents information regarding our net sales for the three months ended June 30:

	2011	2010	\$ Change	% Change
Net sales	\$662,382	\$665,180	\$(2,798)	(0.4)

FSS sales in the second quarter of 2011 increased by \$41,225 or 8.8 percent compared to the same period of 2010. The increase in FSS sales included a net favorable currency impact of \$25,027, of which approximately 45 percent related to the Brazilian real. DNA increased \$15,992 or 8.4 percent due to strong growth within the U.S. regional business. Diebold International (DI) sales increased by \$25,233 or 9.0 percent related to the following: Asia Pacific

increased \$9,074 or 11.2 percent, EMEA increased \$27,797 or 36.5 percent, and Latin America, including Brazil, decreased \$11,638 or 9.5 percent. The increase in Asia Pacific resulted from improvement in several countries most notably India and Indonesia. The increase in EMEA was influenced by higher volumes in Africa and Western Europe as well as new market growth in the Middle East. The decrease in Latin America, including Brazil, was driven mainly from lower volumes in Brazil, partially offset with an improvement in Latin America.

Security solutions sales in the second quarter of 2011 decreased by \$1,744 or 1.2 percent compared to the same period of 2010. DNA remained relatively flat compared to the same period in the prior year, while DI decreased by \$1,109 or 6.6 percent. DI decrease was due to a decrease in Asia Pacific, partially offset with higher sales in Latin America.

The Brazilian-based lottery and election systems sales decreased \$42,279 or 91.5 percent in the second quarter of 2011 compared to the same period of 2010. This decrease was driven by a \$46,201 reduction in election sales, partially offset with a \$3,922 increase in lottery sales compared to the second quarter 2010. Election sales decreased due to the cyclical purchasing decisions within the country. There were no lottery sales in the second quarter of 2010.

Gross Profit

The following table represents information regarding our gross profit for the three months ended June 30:

	2011	2010	\$ Change/ % Point Change	% Change
Gross profit products	\$ 68,662	\$ 77,142	\$ (8,480)	(11.0)
Gross profit services	100,828	101,002	(174)	(0.2)
Total gross profit	\$ 169,490	\$ 178,144	\$ (8,654)	(4.9)
Gross margin products	25.1%	25.8%	(0.7)	
Gross margin services	25.9%	27.6%	(1.7)	
Total gross margin	25.6%	26.8%	(1.2)	

The decrease in product gross margin was due to higher volume in EMEA that included unfavorable customer mix. This decline was partially offset by favorable revenue mix in DNA resulting from a larger concentration of sales in the U.S. regional bank space and U.S. manufacturing favorability. Additionally, product gross margin in the three months ended June 30, 2011 and 2010 included restructuring charges of \$251 and \$696, respectively.

The decrease in service gross margin resulted mainly from lower margins in DNA and EMEA, partially offset with productivity improvements in Brazil. The decline in DNA was driven primarily from higher fuel costs in the service operations. In EMEA, the margin decline was due to higher restructuring charges in 2011 related to the reorganization. Service gross margin for the three months ended June 30, 2011 included \$2,555 of restructuring charges compared to restructuring benefit of \$524 in the same period of 2010.

Operating Expenses

The following table represents information regarding our operating expenses for the three months ended June 30:

	2011	2010	\$ Change	% Change
Selling and administrative expense	\$ 122,051	\$ 110,791	\$ 11,260	10.2
Research, development and engineering expense	19,375	16,402	2,973	18.1
Impairment of intangible assets	2,962	4,096	(1,134)	(27.7)
Total operating expenses	\$ 144,388	\$ 131,289	\$ 13,099	10.0

Selling and administrative expense increased in the second quarter of 2011, compared to the same period of 2010, largely due to higher non-routine and restructuring expenses, \$4,424 of unfavorable currency impact and increased benefit costs. Selling and administrative expense in the second quarter of 2011 included \$4,709 of non-routine expense, which included \$4,159 in legal, consultative, audit and severance costs related to the previously disclosed FCPA investigation. The second quarter 2010 included \$1,007 of non-routine expense also related to the FCPA investigation. In addition, selling and administrative expense included \$1,667 and \$1,079 of restructuring charges in the second quarter of 2011 and 2010, respectively. The second quarter 2011 restructuring charges were primarily

associated with the EMEA reorganization.

Research, development and engineering expense as a percent of net sales in the second quarter of 2011 and 2010 was 2.9 percent and 2.5 percent, respectively. The increase as a percent of net sales was due to higher project volume.

The impairment charges in the second quarter of 2011 and 2010 resulted from non-cash intangible asset impairments related primarily to prior acquisitions.

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES
(unaudited)
(dollars in thousands, except per share amounts)**

Operating Profit

The following table represents information regarding our operating profit for the three months ended June 30:

	2011	2010	\$ Change/ % Point Change	% Change
Operating profit	\$25,102	\$46,855	\$ (21,753)	(46.4)
Operating profit margin	3.8%	7.0%	(3.2)	

The decrease in operating profit in the second quarter of 2011 compared to the same period of 2010 resulted from higher operating expenses influenced by higher restructuring charges, higher non-routine expenses, unfavorable currency impacts and increased benefit costs. Operating profit also decreased due to lower product and service gross margins.

Other Income (Expense)

The following table represents information regarding our other income (expense) for the three months ended June 30:

	2011	2010	\$ Change	% Change
Investment income	\$ 9,669	\$ 6,017	\$ 3,652	60.7
Interest expense	(9,515)	(9,301)	(214)	2.3
Foreign exchange gain (loss), net	1,492	(553)	2,045	N/M
Miscellaneous, net	1,434	1,393	41	2.9
Other income (expense)	\$ 3,080	\$ (2,444)	\$ 5,524	N/M

Investment income in the second quarter of 2011 was favorable compared to the same period of 2010 driven primarily by Brazil with a combination of increased investment and favorable currency impact. The improvement in foreign exchange was mainly related to the impact of currencies in India and China.

Income from Continuing Operations

The following table represents information regarding our income from continuing operations for the three months ended June 30:

	2011	2010	\$ Change/ % Point Change	% Change
Income from continuing operations	\$21,602	\$31,073	\$ (9,471)	(30.5)
Percent of net sales	3.3%	4.7%	(1.4)	
Effective tax rate	23.3%	30.0%	(6.7)	

The decrease in net income from continuing operations in the second quarter of 2011 compared to the same period of 2010 resulted from a reduction in gross profit paired with higher operating expenses. These decreases to net income from continuing operations were partially offset with favorable other income (expense) and lower taxes on income compared to the same period of the prior year. The 6.7 percentage point decrease in the effective tax rate was due mainly to various discrete items in the periods.

Income (Loss) from Discontinued Operations

Edgar Filing: DIEBOLD INC - Form 10-Q

The following table represents information regarding our income (loss) from discontinued operations for the three months ended June 30:

	2011	2010	\$ Change	% Change
Income (loss) from discontinued operations, net of tax	\$529	\$(683)	\$1,212	N/M
Second quarter 2011 and 2010 income (loss) from discontinued operations, net of tax, included accrual adjustment benefits and costs related to the U.S. elections systems business and the EMEA based security business, which were both previously discontinued.

Net Income attributable to Diebold, Incorporated

The following table represents information regarding our net income for the three months ended June 30:

	2011	2010	\$ Change	% Change
Net income attributable to Diebold, Incorporated	\$20,804	\$29,731	\$(8,927)	(30.0)

Based on the results from continuing and discontinued operations discussed above, the Company reported net income attributable to Diebold, Incorporated of \$20,804 and \$29,731 for the three months ended June 30, 2011 and 2010, respectively.

Segment Analysis and Operating Profit Summary

The following table represents information regarding our revenue by reporting segment for the three months ended June 30:

	2011	2010	\$ Change	% Change
DNA	\$ 337,992	\$ 322,635	\$ 15,357	4.8
DI	324,390	342,545	(18,155)	(5.3)
Total net sales	\$ 662,382	\$ 665,180	\$ (2,798)	(0.4)

The increase in DNA net sales was due to higher FSS product volume in the U.S. regional business. In addition, there was a FSS revenue improvement driven mainly from higher billed work and managed and professional services, partially offset with lower service contract revenue. These improvements were partially offset by a decline in the U.S. regional security business.

The decrease in DI net sales included a net favorable currency impact of \$31,499, of which approximately 55 percent related to Brazil. The decrease in DI was primarily a result of lower election and FSS sales within Brazil, which was partially offset with increased FSS product volume in EMEA.

The following table represents information regarding our operating profit by reporting segment for the three months ended June 30:

	2011	2010	\$ Change	% Change
DNA	\$ 24,477	\$ 23,542	\$ 935	4.0
DI	625	23,313	(22,688)	(97.3)
Total operating profit	\$ 25,102	\$ 46,855	\$ (21,753)	(46.4)

DNA operating profit for the second quarter 2011 increased by \$935 or 4.0 percent compared to the second quarter 2010. Operating profit was favorable due to higher volume within the U.S. regional business and U. S. manufacturing favorability, partially offset by higher costs in the service business and higher operating expenses.

DI operating profit for the second quarter 2011 decreased by \$22,688 or 97.3 percent compared to the second quarter 2010. The decrease was driven primarily from the reduction in Brazil election systems as well as higher operating expense within DI. The operating expenses increased as a result of higher restructuring charges, the net impact of non-routine expenses, increased research and development spending and unfavorable currency impact.

Refer to note 17 to the condensed consolidated financial statements for further details of segment revenue and operating profit.

Six Months Ended June 30, 2011 Comparisons to Six Months Ended June 30, 2010

Net Sales

The following table represents information regarding our net sales for the six months ended June 30:

	2011	2010	\$ Change	% Change
Net sales	\$1,276,539	\$1,284,179	\$(7,640)	(0.6)

FSS sales in the first six months of 2011 increased by \$32,813 or 3.5 percent compared to the same period of 2010.

The increase in FSS sales included a net favorable currency impact of \$38,800, of which approximately 50 percent related to the Brazilian real. DNA increased \$24,713 or 7.0 percent due to strong growth within the U.S. regional business. DI sales increased by \$8,100 or 1.4 percent related to the following: Asia Pacific decreased \$2,509 or 1.4 percent, EMEA increased \$24,543 or 16.3 percent, and Latin America,

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES**

(unaudited)

(dollars in thousands, except per share amounts)

including Brazil, decreased by \$13,934 or 5.3 percent. The increase in EMEA was a result of new market growth in the Middle East as well as higher volumes in Africa and Western Europe. The decrease in Latin America, including Brazil, was primarily a result of lower volumes in Brazil, partially offset with an increase in Latin America.

Security solutions sales in the first six months of 2011 decreased by \$3,304 or 1.1 percent compared to the same period of 2010. The variance was driven by a decrease of \$3,712 or 11.9 percent within DI, resulting primarily from a decrease in Asia Pacific partially offset by higher sales in Latin America.

The Brazilian-based lottery and election systems sales decreased \$37,149 or 76.1 percent in the first six months of 2011 compared to the same period of 2010. This decrease was driven by a \$46,206 reduction in election sales, partially offset with a \$9,057 increase in lottery sales in the first six months of 2011 compared to the first six months of 2010. Election sales were down due to the cyclical purchasing decisions within the country. The improvement in lottery was related to higher sales volume in the first six months of 2011.

Gross Profit

The following table represents information regarding our gross profit for the six months ended June 30:

	2011	2009	\$ Change/ % Point Change	% Change
Gross profit products	\$ 129,582	\$ 142,610	\$ (13,028)	(9.1)
Gross profit services	189,312	193,544	(4,232)	(2.2)
Total gross profit	\$ 318,894	\$ 336,154	\$ (17,260)	(5.1)
Gross margin products	24.8%	25.6%	(0.8)	
Gross margin services	25.1%	26.6%	(1.5)	
Total gross margin	25.0%	26.2%	(1.2)	

The decrease in product gross margin was driven by DI, partially offset with favorable revenue mix in DNA resulting from a larger concentration of sales in the U.S. regional bank space and U.S. manufacturing favorability. The reduction in DI was primarily a result of higher volume in EMEA that included unfavorable customer mix as well as lower margins in most other geographies. Additionally, product gross margin in the six months ended June 30, 2011 and 2010 included restructuring charges of \$374 and \$482, respectively.

The decrease in service gross margin resulted from lower margins in DNA as well as lower margins in EMEA, due primarily from higher restructuring charges in 2011 related to the EMEA reorganization. The decline in DNA was driven primarily from higher fuel costs in the service operations. Service gross margin for the six months ended June 30, 2011 included \$8,629 of restructuring charges compared to restructuring benefit of \$210 in the same period of 2010.

Operating Expenses

The following table represents information regarding our operating expenses for the six months ended June 30:

	2011	2010	\$ Change	% Change
Selling and administrative expense	\$ 243,162	\$ 209,768	\$ 33,394	15.9

Edgar Filing: DIEBOLD INC - Form 10-Q

Research, development, and engineering expense	38,799	34,850	3,949	11.3
Impairment of intangible assets	2,962	4,096	(1,134)	(27.7)
Total operating expenses	\$ 284,923	\$ 248,714	\$ 36,209	14.6

Selling and administrative expense increased in the first six months of 2011 compared to the same period of 2010 due to higher non-routine and restructuring expenses, increased benefit costs, \$6,067 of unfavorable currency impact and lower non-routine income. Selling and administrative expense in the first six months of 2011 included \$10,480 of non-routine expense, which included \$9,930 in legal, consultative, audit and severance costs related to the FCPA investigation. The first six months of 2010 included \$1,075 of non-routine expense also related to the FCPA investigation. Non-routine income of \$4,148 in the first six months of 2010 consisted primarily of reimbursements from the Company's D&O insurance carriers. In addition, selling and administrative expense included \$7,271 and \$2,236 of restructuring charges in the first six months of 2011 and 2010, respectively. The 2011 restructuring charges related primarily to the EMEA reorganization.

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES
(unaudited)**

(dollars in thousands, except per share amounts)

Research, development and engineering expense as a percent of net sales in the first six months of 2011 and 2010 was 3.0 percent and 2.7 percent, respectively. The increase as a percent of net sales was due to higher project volume. The impairment charges in the first six months of 2011 and 2010 resulted from non-cash intangible asset impairments related primarily to prior acquisitions.

Operating Profit

The following table represents information regarding our operating profit for the six months ended June 30:

	2011	2010	\$ Change/ % Point Change	% Change
Operating profit	\$33,971	\$87,440	\$ (53,469)	(61.1)
Operating profit margin	2.7%	6.8%	(4.1)	

The decrease in operating profit in the first six months of 2011 compared to the same period of 2010 resulted from higher operating expenses due to higher restructuring charges, higher non-routine expenses, increased benefit costs, unfavorable currency impacts, and lower non-routine income. Operating profit also decreased due to lower product and service gross margins.

Other Income (Expense)

The following table represents information regarding our other income (expense) for the six months ended June 30:

	2011	2010	\$ Change	% Change
Investment income	\$ 20,567	\$ 13,489	\$ 7,078	52.5
Interest expense	(18,188)	(18,356)	168	(0.9)
Foreign exchange gain (loss), net	446	(5,194)	5,640	N/M
Miscellaneous, net	1,457	2,101	(644)	(30.7)
Other income (expense)	\$ 4,282	\$ (7,960)	\$ 12,242	N/M

Investment income in the first six months of 2011 was favorable compared to the same period of 2010, driven primarily by Brazil, with a combination of increased investment and favorable currency impact. The improvement in foreign exchange was mainly related to the impact of 2010 currency policies instituted in Venezuela.

Income from Continuing Operations

The following table represents information regarding our income from continuing operations for the six months ended June 30:

	2011	2010	\$ Change/ % Point Change	% Change
Income from continuing operations	\$25,748	\$56,265	\$ (30,517)	(54.2)
Percent of net sales	2.0	4.4	(2.4)	
Effective tax rate	32.7%	29.2%	3.5	

The decrease in net income from continuing operations in the first six months of 2011 compared to the same period of 2010 resulted from lower gross profit, higher operating expenses and higher taxes on income. These decreases to net income from continuing operations were partially offset by favorable other income (expense). The 3.5 percentage

point increase in the effective tax rate is due mainly to operating losses in certain EMEA jurisdictions for which no tax benefit is recognized, partially offset by various discrete items in the periods.

Table of Contents

AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES**

(unaudited)

(dollars in thousands, except per share amounts)

Income (Loss) from Discontinued Operations

The following table represents information regarding our income (loss) from discontinued operations for the six months ended June 30:

	2011	2010	\$ Change	% Change
Income (loss) from discontinued operations, net of tax	\$518	\$(1,653)	\$2,171	N/M

The first six months of 2011 and 2010 income (loss) from discontinued operations, net of tax, included accrual adjustment benefits and costs related to the U.S. elections systems business and the EMEA based security business, which were both previously discontinued.

Net Income attributable to Diebold, Incorporated

The following table represents information regarding our net income for the six months ended June 30:

	2011	2010	\$ Change	% Change
Net income attributable to Diebold, Incorporated	\$23,305	\$53,655	\$(30,350)	(56.6)

Based on the results from continuing and discontinued operations discussed above, the Company reported net income attributable to Diebold, Incorporated of \$23,305 and \$53,655 for the six months ended June 30, 2011 and 2010, respectively.

Segment Analysis and Operating Profit Summary

The following table represents information regarding our revenue by reporting segment for the six months ended June 30:

	2011	2010	\$ Change	% Change
DNA	\$ 643,956	\$ 618,835	\$ 25,121	4.1
DI	632,583	665,344	(32,761)	(4.9)
Total net sales	\$ 1,276,539	\$ 1,284,179	\$ (7,640)	(0.6)

The increase in DNA net sales was due primarily to the increase in FSS revenue driven from higher product volume in the U.S. regional business as well as higher FSS service revenue. The improvement was partially offset with a reduction in the security business due to lower product volumes.

The decrease in DI net sales was due primarily to lower election systems and FSS product volumes in Brazil, partially offset by net favorable currency impact of \$45,513, of which approximately 56 percent related to Brazil.

The following table represents information regarding our operating profit (loss) by reporting segment for the six months ended June 30:

	2011	2010	\$ Change	% Change
DNA	\$41,883	\$32,826	\$ 9,057	27.6
DI	(7,912)	54,614	(62,526)	(114.5)
Total operating profit	\$33,971	\$87,440	\$ (53,469)	(61.1)

DNA operating profit for the first six months of 2011 increased by \$9,057 or 27.6 percent compared to the first six months of 2010. The increase was driven primarily by higher FSS product volume in the U.S. regional business as well as U.S. manufacturing favorability. These increases were partially offset with higher restructuring and non-routine expenses, lower non-routine income and lower service gross profit.

DI operating profit for the first six months of 2011 decreased by \$62,526 or 114.5 percent compared to the first six months of 2010. The decrease was driven from lower election systems volume in Brazil as well as lower product margins throughout DI. In addition, higher restructuring and non-routine expenses as well as increased operating expenses negatively impacted operating profit.

Refer to note 17 to the condensed consolidated financial statements for further details of segment revenue and operating profit.

LIQUIDITY AND CAPITAL RESOURCES

Capital resources are obtained from income retained in the business, borrowings under the Company's senior notes, committed and uncommitted credit facilities, long-term industrial revenue bonds, and operating and capital leasing arrangements. Management expects that the Company's capital resources will be sufficient to finance planned working capital needs, research and development activities, investments in facilities or equipment, pension contributions, dividends and any purchase of the Company's common shares for at least the next 12 months. A vast majority of the Company's cash and cash equivalents and short-term investments reside in international tax jurisdictions. Repatriation of these funds could be negatively impacted by potential foreign and domestic taxes. Part of the Company's growth strategy is to pursue strategic acquisitions. The Company has made acquisitions in the past and intends to make acquisitions in the future. The Company intends to finance any future acquisitions with either cash and short-term investments, cash provided from operations, borrowings under available credit facilities, proceeds from debt or equity offerings and/or the issuance of common shares.

The following table summarizes the results of our condensed consolidated statement of cash flows for the six months ended June 30:

	2011	2010
<i>Net cash flow (used in) provided by:</i>		
Operating activities	\$ (99,974)	\$ (17,472)
Investing activities	12,791	(16,924)
Financing activities	31,064	(49,348)
Effect of exchange rate changes on cash and cash equivalents	6,201	(13,063)
Net decrease in cash and cash equivalents	\$ (49,918)	\$ (96,807)

Net cash used in operating activities was \$99,974 for the six months ended June 30, 2011, an increase of \$82,502 from \$17,472 for the same period in 2010. Cash flows from operating activities are generated primarily from operating income and managing the components of working capital. Cash flows from operating activities during the six months ended June 30, 2011 compared to the same period of 2010 were negatively affected by a \$28,346 decrease in net income and changes in accounts payable and certain other assets and liabilities, including \$84,906 of unfavorable changes in refundable income taxes and an increase of \$8,119 in contributions to the qualified and non-qualified pension plans. These changes were partially offset by favorable changes in trade receivables and deferred revenue. Net cash provided by investing activities was \$12,791 for the six months ended June 30, 2011, a change of \$29,715 from cash used in investing activities of \$16,924 for the same period in 2010. The change was primarily due to \$12,976 in collections on purchased finance receivables, \$10,029 increase in net investment proceeds and a \$3,229 decrease in capital expenditures.

Net cash provided by financing activities was \$31,064 for the six months ended June 30, 2011, a change of \$80,412 from cash used in financing activities of \$49,348 for the same period of 2010. The change was primarily due to an \$116,225 increase in net borrowings and a \$3,245 increase in issuance of common shares related to stock compensation activity. This was partially offset by an increase of \$36,463 in cash used to repurchase common shares. The effect of exchange rate changes on cash and cash equivalents for the six months included June 30, 2010 included \$7,000 of devaluation related to Venezuela.

Under the Company's share repurchase program, 2,382,890 common shares remained available as of June 30, 2011 for additional share repurchases.

As of June 30, 2011, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$93,447. The amount available under the short-term uncommitted lines at June 30, 2011 was \$49,663.

In June 2011, the Company entered into a new five-year credit facility, which replaced its existing credit facility. The Company used borrowings of approximately \$330,000 under the new credit facility to repay all amounts outstanding under (and terminated) the existing credit facility. As of June 30, 2011, the Company had borrowing limits under the new credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of June 30, 2011 and December 31, 2010 was 1.26 and 2.71 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the new credit

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS as of June 30, 2011
DIEBOLD, INCORPORATED AND SUBSIDIARIES**

(unaudited)

(dollars in thousands, except per share amounts)

facility as of June 30, 2011 was \$170,000. The Company incurred \$1,733 of fees to its creditors in conjunction with the new credit facility, which will be amortized as a component of interest expense over the term of the facility. In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate by 14 basis points from 5.50 to 5.36 percent. The Company's financing agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of June 30, 2011, the Company was in compliance with the financial covenants in its debt agreements.

Dividends The Company paid dividends of \$37,090 and \$36,076 in the six months ended June 30, 2011 and 2010, respectively. Quarterly dividends were \$0.28 and \$0.27 per share for the first six months of 2011 and 2010, respectively.

Contractual Obligations In the first six months of 2011, the Company entered into direct purchasing agreements for materials through a contract manufacturing agreement for a total negotiated price of \$6,881. The following table summarizes the Company's approximate commitment to make future payments related to these agreements.

	Total	2011	2012
Direct purchasing agreements	\$4,927	\$4,450	\$477

Except for the direct purchasing agreement noted above, all contractual cash obligations with initial and remaining terms in excess of one year and contingent liabilities remained generally unchanged at June 30, 2011 compared to December 31, 2010.

Off-Balance Sheet Arrangements The Company does not participate in transactions that facilitate off-balance sheet arrangements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's condensed consolidated financial statements. The preparation of these financial statements requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities and reported amounts of revenues and expenses. Such estimates include the value of purchase consideration, valuation of trade receivables, inventories, goodwill, intangible assets, other long-lived assets, legal contingencies, guarantee obligations, indemnifications and assumptions used in the calculation of income taxes, pension and postretirement benefits and customer incentives, among others. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the economic difficulties in the U.S. credit markets and the global markets. Management monitors the economic conditions and other factors and will adjust such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods.

Management believes there have been no significant changes during the six months ended June 30, 2011 to the items that the Company disclosed as its critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-K for the year ended December 31, 2010.

FORWARD-LOOKING STATEMENT DISCLOSURE

In this quarterly report on Form 10-Q, statements that are not reported financial results or other historical information are forward-looking statements. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. These forward-looking statements relate to, among other things, the Company's future operating performance, the Company's share of new and existing markets, the Company's short- and long-term revenue and earnings growth rates, the Company's implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the Company's manufacturing capacity. The use of the words will, believes, anticipates, expects, intends and similar expressions is intended to identify forward-looking statements that have been made and may in the future be made by or on behalf of the Company.

Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and on key performance indicators that impact the Company, these forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements. The Company is not obligated to update forward-looking statements, whether as a result of new information, future events or otherwise.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Some of the risks, uncertainties and other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

- competitive pressures, including pricing pressures and technological developments;
- changes in the Company's relationships with customers, suppliers, distributors and/or partners in its business ventures;
- changes in political, economic or other factors such as currency exchange rates, inflation rates, recessionary or expansive trends, taxes and regulations and laws affecting the worldwide business in each of the Company's operations, including Brazil, where a significant portion of the Company's revenue is derived;
- the amount of cash and non-cash charges in connection with the restructuring of the Company's EMEA operations;
- the continuing effects of the economic downturn and the disruptions in the financial markets, including the bankruptcies, restructurings or consolidations of financial institutions, which could reduce our customer base and/or adversely affect our customers' ability to make capital expenditures, as well as adversely impact the availability and cost of credit;
- acceptance of the Company's product and technology introductions in the marketplace;
- the Company's ability to maintain effective internal controls;
- changes in the Company's intention to repatriate cash and cash equivalents and short-term investments residing in international tax jurisdictions could negatively impact foreign and domestic taxes;
- unanticipated litigation, claims or assessments, as well as the impact of any current or pending lawsuits;
- variations in consumer demand for financial self-service technologies, products and services;
- potential security violations to the Company's information technology systems;
- the investment performance of the Company's pension plan assets, which could require the Company to increase its pension contributions, and significant changes in health care costs, including those that may result from government action such as the recently enacted U.S. health care legislation;
- the amount and timing of repurchases of the Company's common shares, if any;
- the outcome of the Company's global FCPA review and any actions taken by government agencies in connection with the Company's self disclosure, including the pending SEC investigation; and

the Company's ability to achieve benefits from its cost-reduction initiatives and other strategic changes.

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2010. There has been no material change in this information since December 31, 2010.

ITEM 4: CONTROLS AND PROCEDURES

This quarterly report includes the certifications of our chief executive officer (CEO) and chief financial officer (CFO) required by Rule 13a-14 of the Exchange Act. See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Based on the performance of procedures by management, designed to ensure the reliability of financial reporting, management believes that the unaudited condensed consolidated financial statements fairly present, in all material respects, the Company's financial position, results of operations and cash flows as of the dates, and for the periods presented. Refer to Note 1 in the notes to condensed consolidated financial statements.

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the CEO and CFO as appropriate, to allow timely decisions regarding required disclosures.

In connection with the preparation of this quarterly report, management, under the supervision and with the participation of the CEO and CFO, conducted an evaluation of disclosure controls and procedures. Based on this evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2011.

No change was made to the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

(dollars in thousands)

At June 30, 2011, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate is considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the Company's consolidated financial statements would not be materially affected by the outcome of those legal proceedings, commitments, or asserted claims.

In addition to the routine legal proceedings noted above the Company was a party to the lawsuits described below at June 30, 2011:

Securities Class Actions

On June 30, 2010, a shareholder filed a putative class action complaint in the United States District Court for the Northern District of Ohio alleging violations of the federal securities laws against the Company, certain current and former officers, and the Company's independent auditors (*Louisiana Municipal Police Employees Retirement System v. KPMG et al.*, No. 10-CV-1461). The complaint seeks unspecified compensatory damages on behalf of a class of persons who purchased the Company's stock between June 30, 2005 and January 15, 2008 and fees and expenses related to the lawsuit. The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 finalizing the settlement of civil charges stemming from the investigation of the Company conducted by the Division of Enforcement of the SEC (SEC Settlement).

On October 19, 2010, an alleged shareholder of the Company filed a shareholder derivative lawsuit in the Stark County, Ohio, Court of Common Pleas, alleging claims on behalf of the Company against certain current and former officers and directors of the Company for breach of fiduciary duty, unjust enrichment and corporate waste (*Levine v. Geswein et al.*, Case No. 2010-CV-3848). The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 in connection with the SEC Settlement, and asserts that the defendants are

liable to the Company for alleged damages associated with the SEC investigation, settlement, and related litigation. It also asserts that alleged misstatements in the Company's publicly issued financial statements caused the Company's common stock to trade at artificially inflated prices between 2004 and 2006, and that defendants harmed the Company by causing it to repurchase its common stock in the open market at inflated prices during that period. The complaint seeks an award of money damages against the defendants and in favor of the Company in an unspecified amount, as well as unspecified equitable and injunctive relief and attorneys' fees and expenses.

DIEBOLD, INCORPORATED AND SUBSIDIARIES
FORM 10-Q as of June 30, 2011

Management is unable to determine the financial statement impact, if any, of the putative federal securities class action and the shareholder derivative lawsuit.

Labor and Wage Actions

On August 28, 2009, a purported class action lawsuit was filed in the United States District Court for the Southern District of California alleging that a class of all California technicians employed by the Company who were scheduled to be on standby were: (a) not paid for all hours that they worked; (b) not paid overtime compensation at the correct rate of pay; (c) not properly paid for missed meal and rest breaks; and (d) not given correct paycheck stubs (*Francisco v. Diebold, Incorporated*, Case No. CV 1889 WQH WMC). The complaint seeks additional overtime and other compensation under the California Labor Code, various civil penalties and attorneys' fees and expenses, and a request for an injunction for future compliance with the California Labor Code provisions that were alleged to have been violated. A mediation was held in the first quarter of 2011, which resulted in a tentative settlement (subject to agreement on final settlement terms and court approval) which was not material to the consolidated financial statements. In May 2011, the court approved the settlement agreement.

On May 7, 2010, a purported collective action under the Fair Labor Standards Act was filed in the United States District Court for the Northern District of Florida alleging that field service employees of the Company nationwide were not paid for the time spent logging into the Company's computer network in the morning, for travel to their first jobs and for meal periods that were supposedly automatically deducted from the employees' pay but, allegedly, not taken (*Nichols v. Diebold, Incorporated*, Case No. 3:10cv150/RV/MD). The lawsuit seeks unpaid overtime, liquidated damages equal to the amount of unpaid overtime and attorneys' fees. In December 2010, the plaintiff voluntarily dismissed the lawsuit, which resulted in a tentative settlement in the amount of \$9,500 subject to agreement on final settlement terms and court approval. This tentative settlement was recorded in selling and administrative expense in the fourth quarter of 2010. In July 2011, the parties agreed upon the final terms of the settlement, which remains subject to court approval.

Election Business Related Actions

The Company, including certain of its subsidiaries, filed a lawsuit on May 30, 2008 (*Premier Election Solutions, Inc., et al. v. Board of Elections of Cuyahoga County, et al.*, Case No. 08-CV-05-7841 (Franklin Cty. Ct Common Pleas)) against Cuyahoga County, the Board of Elections of Cuyahoga County, Ohio, the Board of County Commissioners of Cuyahoga County, Ohio (collectively, Cuyahoga County), and Ohio Secretary of State Jennifer Brunner (Secretary) regarding several Ohio contracts under which certain of the Company's subsidiaries provided voting equipment and related services to the State of Ohio and a number of its counties. The lawsuit was precipitated by Cuyahoga County's threats to sue the Company for unspecified damages. The complaint sought a declaration that the Company met its contractual obligations.

In response, Cuyahoga County and the Secretary filed several claims against the Company and its former subsidiaries alleging that the voting system was defective and seeking declaratory relief and unspecified damages under several theories of recovery. In addition, Cuyahoga County and the Secretary sought to pierce the Company's corporate veil and hold Diebold, Incorporated directly liable for acts and omissions alleged to have been committed by its subsidiaries (even though Diebold, Incorporated is not a party to the contracts). In connection with the Company's subsequent sale of those subsidiaries, the Company agreed to indemnify the former subsidiaries and their purchaser from any and all liabilities arising out of the lawsuit. The Secretary also added or sought to add to the case all of the Ohio counties using the former subsidiaries' voting equipment. While many of the Ohio counties opposed the Secretary's actions, the Butler County Board of Elections joined the Secretary's claims.

In March 2010, the Company and Cuyahoga County agreed to settle their claims for \$7,500, which was paid out of the Company's insurance policies, and the court has dismissed that portion of the lawsuit.

Since then, the Company has also reached settlement agreements with the Secretary and all of the Ohio counties using the former subsidiaries' voting equipment, except Butler County. The settlements are for immaterial amounts, which were paid out of the Company's insurance policies, and free or discounted products and services, to be provided by the Company's former subsidiaries or third parties. On November 1, 2010, all of the claims in the lawsuit, except those of

Butler County, were dismissed. For procedural purposes, simultaneously with the dismissal entry on November 1, 2010, the Company and its former subsidiaries filed a claim against Butler County seeking a declaration that it is not entitled to relief on its claims. Settlement discussions with Butler County are ongoing.

FORM 10-Q as of June 30, 2011

Global FCPA Review

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the FCPA, particularly the books and records provisions of the FCPA. As a result, the Company is conducting an internal review and collecting information related to its global FCPA compliance. In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation over the past several years which may also potentially implicate the FCPA. The Company's current assessment indicates that the transactions and payments in question to date do not materially impact or alter the Company's consolidated financial statements in any year or in the aggregate. The Company's internal review is ongoing, and accordingly, there can be no assurance that this review will not find evidence of additional transactions that potentially implicate the FCPA.

The Company has voluntarily self-reported its findings to the SEC and the DOJ and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry has been converted to a formal, non-public investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. The Company expects to complete its internal review of these matters by the end of 2011. Once the Company completes its internal review, it will begin discussions with the SEC and the DOJ to resolve this matter. At this time, the Company cannot predict the results of the government investigations and therefore cannot estimate the potential loss or range of loss it may incur with respect to these investigations or their potential impact on the consolidated financial statements. Future resolution of these matters with the DOJ and SEC could result in a material impact to the Company's consolidated financial statements.

ITEM 1A: RISK FACTORS

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2010.

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Information concerning the Company's share repurchases made during the second quarter of 2011:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans (2)	Maximum Number of Shares that May Yet Be Purchased Under the Plans (2)
April	348,467	\$ 35.27	339,910	3,137,090
May	356,568	32.78	356,500	2,780,590
June	397,829	30.57	397,700	2,382,890
Total	1,102,864	32.77	1,094,110	

(1) Includes 8,557, 68 and 129 shares in April, May and June, respectively, surrendered or deemed surrendered to the Company in connection with the Company's share-based compensation plans.

(2) The Company purchased 1,094,110 common shares in the second quarter of 2011 pursuant to its share repurchase plan. The total number of shares repurchased as part of the publicly announced share repurchase plan since its inception was 11,494,059 as of June 30, 2011. The plan was approved by the Board of Directors in April 1997

and authorized the repurchase of up to 2.0 million shares. The plan was amended in June 2004 to authorize the repurchase of an additional 2.0 million shares, and was further amended in August and December 2005 to authorize the repurchase of an additional 6.0 million shares. In February 2007, the Board of Directors approved an increase in the Company's share repurchase program by authorizing the repurchase of up to an additional 2.0 million of the Company's outstanding common shares. In February 2011, the Board of Directors approved an increase in the Company's share repurchase program by authorizing the repurchase of up to an additional 1.9 million of the Company's outstanding common shares. The Company may purchase shares from time to time in open market purchases or privately negotiated transactions. The Company may make all or part of the purchases pursuant to accelerated share repurchases or Rule 10b5-1 plans. The plan has no expiration date.

ITEM 3: DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4: [REMOVED AND RESERVED]

ITEM 5: OTHER INFORMATION

None.
