**Item 2.02 Results of Operations and Financial Condition**

On February 2, 2005, HearUSA, Inc. (the Company) will host a conference call relating to January 2005 revenues and discussing certain fiscal year 2004 financial results. A copy of the conference call script is furnished with this Form 8-K as Exhibit 99.1.

The attached script contains forward-looking statements within the meaning of the Securities Litigation Reform Act of 1995, including those concerning the Company's expectations that 2005 fiscal year revenues will exceed \$80 million; that 2005 will be the Company's first profitable year; that the Company expects to generate almost 60% of its 2005 revenues from contracts with healthcare providers; that the source of the balance of revenue will be traditional private pay patients; that the Company will continually increase the percentage of business derived from the medical side of the industry; that Hearx and Hearx West centers with additional staff and increased patient flow could generate at least \$1.5 million per annum per center; that Helix and HearUSA centers with additional staff and increased patient flow could generate approximately \$600,000 in annual revenue per center; that growth in the membership of contracted healthcare providers will provide the largest percentage growth over the next 12-18 months; that patients will continue to shift from Medicare to Medicare managed care; and that the Company's combination of centers and audiologists will allow it a unique opportunity to seek additional contracts with Medicare managed care organizations. Such statements involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Potential risks and uncertainties include such factors as market demand for the Company's goods and services; changes to the Company's run rate; success of new and expanded healthcare provider contracts; effects of the Medicare Prescription Drug Improvement and Modernization Act; changes in the pricing environment; general economic conditions in those geographic regions where the Company's centers are located; the impact of competitive products; and other risks and uncertainties described in the Company's filings with the Securities and Exchange Commission, including the Company's annual report on Form 10-K for the 2003 fiscal year.
