QUESTIONS AND ANSWERS

Q: WHY AM I RECEIVING THIS PROXY STATEMENT AND CARD?

A: The Board of Directors of Remington Oil and Gas Corporation is soliciting your proxy for the 2002 Annual Meeting of Stockholders and any adjournments or postponements thereof. The meeting will be held at 9:00 a.m. CDT on Tuesday May 21, 2002, at The Crescent Club, Dallas, Texas. This Proxy Statement and card are initially being provided to stockholders on or about April 19, 2002.

Q: WHAT AM I VOTING ON?

A: Re-election of the Board of Directors.

Q. WHO IS ENTITLED TO VOTE?

A: Stockholders as of the close of business on April 16, 2002. Each share of common stock is entitled to one vote. As of April 16, 2002, there were 25,927,093 shares of Remington common stock outstanding.

Q: HOW DO I GIVE VOTING INSTRUCTIONS?

A: You may attend the meeting and vote and give instructions in person or by mail. Instructions are on the proxy card. The persons named on the proxy card will vote all properly executed proxies that are delivered pursuant to this solicitation and not subsequently revoked in accordance with the instructions given by you.

Q: MAY I CHANGE MY VOTE?

A: Yes, you may revoke your proxy by submitting a subsequent proxy or by written request received by the company's secretary before the meeting. The company's executive offices are located at 8201 Preston Road, Suite 600, Dallas, Texas 75225-6211. The telephone number is (214) 210-2650.

Q: HOW DO I VOTE IF I HOLD MY STOCK THROUGH A BROKER, BANK OR OTHER NOMINEE?

A: Only stockholders of record as of April 16, 2002, are entitled to vote. If you hold your shares through a broker, bank, or other nominee, you hold your shares in "street name." You most likely will receive a request for voting instructions from the record holder through whom you hold your shares. Follow the instructions in such a request in order for the record holder to follow your voting wishes.

Q: WHAT DOES IT MEAN IF I GET MORE THAN ONE PROXY CARD?

A: You will receive a proxy card for each account that you have. Please vote proxies for all accounts to ensure that all your shares are voted.

Q: WHAT CONSTITUTES A QUORUM?

A: A majority of the outstanding shares of the company must be represented at the meeting, whether in person or by proxy, for there to be a quorum for the meeting. For purposes of determining the existence of a quorum so that business may be conducted at the meeting, abstentions are counted as are properly executed proxies which withhold voting authority on any matter. Abstentions for purposes of tabulating the vote have the same effect as a vote against the proposal as does a proxy withholding voting authority.

Q: WHO PAYS THE EXPENSE OF SOLICITING PROXIES?

A: The company pays the cost of soliciting proxies. The officers or other employees of the company may solicit proxies to have a larger representation at the meeting.

Q: ARE THERE ANY OTHER MATTERS WHICH MAY BE BROUGHT BEFORE THE MEETING?

A: The Board of Directors knows of no matters to be brought before the meeting

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

other than the election of Directors discussed in this Proxy Statement.

Q: HOW MANY INDEPENDENT DIRECTORS ARE THERE ON REMINGTON'S BOARD OF DIRECTORS?

A: At present our Board consists of nine members. Seven of these members are independent, and the other two members are officers of the company.

Q: HOW IS THE COMPANY'S SLATE OF NOMINEES FOR DIRECTOR DETERMINED?

A: The entire Board of Directors, consisting of seven independent members and two company officers, select the nominees after receiving the recommendations of the Nominations Committee. The company's By-Laws specify that the Nominations Committee consists of the Chairman of the Board, the President, and such other members as may be provided by resolution of the Board.

1

QUESTIONS AND ANSWERS—CONTINUED

Q: WHAT BOARD COMMITTEES ARE THERE AND HOW ARE THEIR MEMBERS AND CHAIRMEN SELECTED?

A: There are currently four standing committees of the Board: Audit, Compensation, Executive and Nominations. The members of the Executive Committee and the members and chairmen of the Audit and Compensation Committees are selected by a vote of the Board. The company's By-Laws specify the composition of the Nominations Committee. (See previous question.). All members of the Audit and Compensation committees must be independent directors. A majority of the executive committee members are independent.

2

PROPOSAL

- PROPOSAL NO. 1 RE-ELECTION OF DIRECTORS

- After receiving the recommendations of the Nominations Committee, the entire Board of Directors, consisting of seven independent members and two company officers, unanimously nominated the following for election as directors:

- Don D. Box (age 51, director since 1991)
- John E. Goble, Jr. (age 55, director since 1997)
- William E. Greenwood (age 63, director since 1997)
- David H. Hawk (age 57, director since 1997)
- James Arthur Lyle (age 57, director since 1997)
- David E. Preng (age 55, director since 1997)
- Thomas W. Rollins (age 71, director since 1996)
- Alan C. Shapiro (age 56, director since 1994)
- James A. Watt (age 52, director since 1997)

- The nominees constitute the current Board of Directors, and each has consented to serve until the Annual Meeting in the year 2003.

- If any director is unable to stand for re-election, the Board may provide for a lesser number of directors or the Nominations Committee may designate a substitute. In the latter event, shares represented by proxies may be voted for a substitute director.

- The affirmative vote of a plurality of shares present and entitled to vote is required for the election of directors.

- The Board of Directors recommends a vote "For" the nominees listed in Proposal No. 1.

AUDIT COMMITTEE REPORT

The Audit Committee, consisting solely of independent directors, submits the following report:

In accordance with its written charter adopted by the Board of Directors and included in the company's year 2000 proxy statement, the Audit Committee of the Board ("Committee") assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of the Company. During 2001 the Committee met 4 times. The Committee reviewed and discussed with management and the independent auditors the quarterly unaudited financial statements.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the independent auditors a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees;" discussed with the auditors any relationships that may affect their objectivity and independence, including the compatibility of non-audit services with the auditors' independence; and satisfied itself as to the auditors' independence. The Committee also discussed with management and the independent auditors the quality and adequacy of the Company's internal controls.

The Committee discussed and reviewed with the independent auditors all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees," and discussed and reviewed the results of the independent auditors' examination of the financial statements.

The Committee reviewed the audited financial statements of the Company for the year ended December 31, 2001, with management and the independent auditors.

Based on the above-mentioned review and discussions with management and the independent auditors, the Committee recommended to the Board that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2001, for filing with the Securities and Exchange Commission.

STOCK OPTION PLANS

We have stock option plans for our employees and directors because we believe these options act as both an incentive and a reward for the long-term growth of our company. The core of our stock option program is the 1997 stock option plan. Both directors and employees are eligible for options under this plan. Significant attributes of the 1997 plan include the following:

- Administered by the Compensation Committee of our board of directors.
- Subject to adjustments, up to 3,750,000 shares of our common stock may be issued under the plan.
- Up to 25% of issuable shares may be issued to any single individual.
- Both qualified incentive and non-qualified options may be issued.
- The plan terminates December 4, 2007.

The importance of whether an option is granted as a qualified incentive option or a non-qualified option is mainly tax driven. If an option is an incentive option, the exercise price can be no less than the fair market value on the date of grant. Additional details concerning the 1997 stock option plan are contained in the plan itself. For a copy of the plan, call Investor Relations at (214) 210-2650.

(1) We determined these values using the Black-Scholes option pricing model with the following assumptions: stock price volatility of 62.68%; interest rate based on the yield to maturity of a 10-year Treasury security; exercise in the tenth year; and a dividend rate of zero. We made no adjustments for nontransferability or risk of forfeiture. Our use of this model does not constitute an endorsement or an acknowledgment that such model can accurately determine the value of options. No assurance can be given that the actual value, if any, realized by an executive upon the exercise of these options will approximate the estimated values calculated by using the Black-Scholes model.

CONDITIONAL STOCK GRANTS

In 1999, the directors approved awards of stock to employees and directors totaling 679,937 shares of our common stock. The number of shares awarded to each employee and director was based on the employee's annual base salary as of June 17, 1999, or, in the case of non employee directors, \$100,000, divided by \$4.19, which was the closing stock price on June 17, 1999. In order for the grant to be effective, our stock had to close above a trigger price of \$10.42 for 20 consecutive trading days. This trigger was achieved on January 24, 2001. Recipients of the grant must remain an employee or a director during the vesting schedules in order to receive the shares. Employees and directors individually elected one of two vesting periods. The first vesting schedule has 50% percent of the grant vesting on June 17, 2002, with an additional 25% vesting on June 17, 2003, and the final 25% vesting on June 17, 2004. 267,502 shares are subject to the this vesting schedule. The second vesting option has 20% of the grant vesting on January 17, 2002, with an additional 20% vesting on each successive January 17 through 2006. 395,080 shares are subject to the second vesting schedule. While 679,937 shares of restricted stock were granted in 1999, as of March 12, 2001, 662,592 shares were subject to the grant because a director

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

voluntarily surrendered 23,880 shares, and a new employee was granted 6,535 shares. The number of shares subject to the grant may decrease to the degree that participants fail to remain with us during the vesting period. In the event of a participant's death while employed or serving as a director with us, or reaching the retirement age of 65 or receiving long term disability benefits while employed with us, the grant becomes 100% vested. In addition, the grants can become 100% vested upon a change of control.

14

PENSION PLANS

Our defined benefit pension plans provide retirement and other benefits to eligible employees upon reaching the "normal retirement age," which is age 65 or after 3 years of service (5 years if employment terminated prior to January 1, 2001), if later. Directors who are not also employees of the company are not eligible to participate in the plans. Employees are eligible to participate on January 1 following the completion of six months of service or the attainment of age 20 1/2, if later. Additional provisions are made for early or late retirement, disability retirement and benefits to surviving spouses. At normal retirement age, an eligible employee will receive a monthly retirement income equal to 35% of his or her average monthly compensation during the three consecutive calendar years in the prior 10 years which provide the highest average compensation, plus 0.65% of such average compensation in excess of the amount shown in the Social Security Covered Compensation Table (as published annually by the Internal Revenue Service) multiplied by his or her years of service, limited to 35 years. If an employee terminates employment (other than by death or disability) before completion of three years of service (five years if employment terminated prior to January 1, 2001), no benefits are payable. If an employee terminates employment after three years of service (five years if employment terminated prior to January 1, 2001), the employee is entitled to all accrued benefits. The following table illustrates the annual pension for plan participants that retire at "normal retirement age" in 2001:

(1) As of December 31, 2001, the Internal Revenue Code does not allow qualified plan compensation to exceed \$170,000 or the benefit payable annually to

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

exceed \$140,000. The Internal Revenue Service will adjust these limitations for inflation in future years. When the limitations are raised, the compensation considered and the benefits payable under the pension plans will increase to the level of the new limitations or the amount otherwise payable under the pension plans, whichever amount is lower.

- (2) Subject to the above limitations, compensation in this table is generally equal to all of a participant's cash compensation paid in a fiscal year (the total of Salary, Bonus, and Other Annual Compensation in the Summary Compensation Table). Average compensation in this table is the average of a plan participant's compensation during the highest three consecutive years out of the prior 10 years.
- (3) The estimated credited service at December 31, 2001, for the executive officers shown in the Summary Compensation Table on page 12 is as follows: James A. Watt (5 years), Robert P. Murphy (4 years), Steven J. Craig (7 years), J. Burke Asher (5 years), and Edward V. Howard (11 years).

CHANGE IN CONTROL ARRANGEMENTS AND EMPLOYMENT CONTRACTS

All of our full-time regular employees are covered by a severance plan that we adopted in 1997. Under this plan, if an employee is involuntarily terminated, as that term is defined in the plan, the employee will be entitled to a payment of between two months base pay and eighteen months base pay depending on the employee's job and years of experience. If an employee voluntarily quits, is terminated for cause as defined in the plan, dies, leaves due to a disability for which benefits are payable, or the termination is expected to be of short duration, the employee is not eligible for payment under the plan. In addition, under certain circumstances, a change in control could cause immediate vesting and triggering of stock options and contingent restricted stock grants. If the vesting of the contingent restricted stock grants were accelerated by a change in control, it would result in the issuance of a maximum aggregate of 662,592 shares to directors and employees.

Employment Agreements

We have employment agreements with James A. Watt, Robert P. Murphy, Steven J. Craig, and J. Burke Asher. The most significant terms of such agreements are summarized below:

James A. Watt

- Term of three years from January 31, 2000, subject to single year extensions by mutual agreement
- Base salary of \$270,000 a year subject to discretionary increases
- Eligible to receive discretionary performance bonus (targeted at 70% of base salary, as amended)

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

- If terminated prior to a change in control, without cause, he receives his salary plus a pro rata bonus
- He receives 2.99 times the sum of his base salary plus his target bonus if he is terminated within 24 months of a change in control, other than for death, disability or cause, or he leaves for good reason within the 24 month period

Robert P. Murphy

- Term of three years from September 30, 1999, subject to single year extensions by mutual agreement
- Base salary of \$175,000 a year subject to discretionary increases
- Eligible to receive discretionary performance bonus (targeted at 50% of base salary, as amended)
- If terminated prior to a change in control, without cause, he receives his salary plus a pro rata bonus
- He receives 2.99 times the sum of his base salary plus his target bonus if he is terminated within twelve months of a change in control, other than for death, disability or cause, or he leaves for good reason within the twelve month period

Steven J. Craig and J. Burke Asher

- Term of two years from September 30, 1999, subject to single year extensions by mutual agreement

17

CHANGE IN CONTROL ARRANGEMENTS AND EMPLOYMENT CONTRACTS - CONTINUED

- Base salary of \$114,200 (Mr. Craig) and \$109,200 (Mr. Asher) subject to discretionary increases
- Eligible to receive discretionary performance bonus (targeted at 20% of base salary)
- Severance payments similar to Robert Murphy's, except that Mr. Craig and Mr. Asher each receive 2 times the sum of his respective annual salary plus target bonus in connection with leaving employment within twelve months of a change in control

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION IN COMPENSATION DECISIONS

David E. Preng, William E. Greenwood, and James Arthur Lyle served on the compensation committee in 2001. No executive officer or employee serves on the compensation committee of the board. None of our executive officers serves on the board of directors of any other entity that has an executive officer serving on our board.

BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

We believe that employing and retaining highly qualified and high performing executive officers is vital to our achievement of long-term business goals. To this end, the Compensation Committee of the Board of Directors (the "Committee") developed an executive compensation program which is designed to attract and retain such officers.

The philosophy is to develop a systematic, competitive executive compensation program which recognizes an executive officer's position and responsibilities, takes into account competitive compensation levels payable within the industry by similarly sized companies, and reflects both individual and company performance.

The executive compensation program developed by the Committee is composed of the following three elements: (i) a base salary, (ii) a performance-based annual cash incentive (short-term), and (iii) a stock-based incentive (long-term). Under this program, short-term and long-term incentives are "at risk" and are based on performance of the company versus defined goals.

The Committee compiles data reflecting the compensation practices of a broad range of organizations in the oil and gas industry that are similar to us in size and performance. For both the base salary and annual cash incentives portions of executive compensation discussed below, the Committee adopted a philosophy of paying the executive officers at a level that is competitive and within the ranges reflected by the data compiled.

BASE SALARIES

Base salary is the portion of an executive officer's total compensation package which is payable for performing the specific duties and assuming the specific responsibilities defining the executive's position with the company. The Committee's objective is to provide each executive officer a base salary that is competitive at the desired level.

ANNUAL CASH INCENTIVES

The Committee developed a performance-based annual cash incentive plan covering the executive officers and top managers. The objectives in designing the plan are to reward participants for accomplishing objectives which are generally measurable and increase shareholder value. Under the annual cash incentive plan, the Committee has established a "target" cash incentive award for each executive officer (including the Chief Executive Officer) that is payable based mostly upon the company's achieving certain performance targets and, to a lesser extent, for achieving highly challenging individual performance objectives. The performance targets are increasing reserves and production; controlling finding, development, and production costs; and achieving an overall return on capital; all of which are competitive with a peer group of oil and gas companies. The Committee also determined that award levels under the plan should be fiscally prudent.

19

BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION - CONTINUED

LONG-TERM STOCK-BASED INCENTIVES

We maintain a stock option plan for officers and other employees. The philosophy is to award stock options to selected plan participants based on their levels within the company and upon individual merit. The plan is to grant stock options which are competitive within the industry for other individuals at the employee's level and which provide the employee a meaningful incentive to remain with the company, to increase performance, and to focus on achieving long-term

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

increases in shareholder value. Other factors the Committee considers in granting stock options include the employee's contributions toward achieving the company's long-term objectives, such as reserve replacements and acquisitions, as well as the employee's contributions in achieving the company's short-term and long-term profitability targets.

PERFORMANCE GRAPH

The following performance graph compares the performance of all classes of our common stock to the Nasdaq indices of United States companies and to a peer group comprising Nasdaq companies listed under the Standard Industrial Classification Codes 1310-1319 for the company's last five fiscal years. Such industrial codes include companies engaged in the oil and gas business. The graph assumes that the value of an investment in our common stock and in each index was \$100 at December 31, 1996, and that all dividends were reinvested.
