EX-99.01 Press Release Regarding Exchange Offer

EX-99.02 Press Release Regarding Mgmt. Changes

---

**Table of Contents**

**Item 5. Other Events**

On June 3, 2002, Xcel Energy Inc. announced that it had successfully completed the exchange of its shares for publicly held shares of its subsidiary NRG Energy, Inc. On that day Xcel Energy also announced management changes at NRG, and Xcel Energy management responsible for oversight of the NRG integration process. For more information see the full press releases included in this Form 8-K as Exhibits 99.01 and 99.02.

Xcel Energy's plan to acquire the outstanding common stock of NRG held by minority shareholders was initially announced on Feb. 15, 2002. A revised exchange ratio of 0.5 shares of Xcel Energy common stock for each share of NRG stock was announced by Xcel Energy on April 4, 2002. Sufficient NRG shares were tendered by the expiration of the exchange offer period on May 31, 2002 to enable Xcel Energy to complete the exchange offer. Following completion of the exchange offer, Xcel Energy owned approximately 96 percent of the stock of NRG and on June 3, 2002 completed a short-form merger of NRG and a wholly-owned subsidiary of Xcel Energy. As a result of the merger, NRG is now an indirect wholly-owned subsidiary of Xcel Energy.

The acquisition of NRG's publicly held common stock by Xcel Energy is being accounted for under the purchase method of accounting. Since NRG was already 74 percent owned by Xcel Energy prior to the acquisition, all of NRG's assets and liabilities have been included in consolidated Xcel Energy financial statements for all prior periods reported. The effect of the purchase will be to prospectively eliminate most of the minority interest liability on Xcel Energy's balance sheet, and also eliminate most of minority interest expense on Xcel Energy's income statement. The final purchase price assigned to Xcel Energy shares issued and allocation of the purchase price to underlying assets acquired (including, possibly, goodwill) are still being determined.

NRG is a leading global energy company engaged primarily in the development, construction, acquisition, ownership and operation of power generation facilities. More information is available at [www.nrgenergy.com](http://www.nrgenergy.com).
