ENCORE ACQUISITION COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2003
(unaudited)

1. FORMATION OF ENCORE

Encore Acquisition Company ("Encore" or the "Company"), a Delaware corporation, is an independent (non-integrated) oil and natural gas company in the United States. We were organized in April 1998 and are engaged in the acquisition, development, exploitation and production of North American oil and natural gas reserves. As of September 30, 2003, our oil and natural gas reserves are concentrated in fields located in the Williston Basin of Montana and North Dakota, the Permian Basin of Texas and New Mexico, the Anadarko Basin of Oklahoma, the Powder River Basin of Montana, the Paradox Basin of Utah, and the North Louisiana Salt Basin.

2. BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited consolidated financial statements of Encore include all adjustments necessary to present fairly our financial position as of September 30, 2003 and results of operations for the three and nine months ended September 30, 2003 and 2002, and cash flows for the nine months ended September 30, 2003 and 2002. All adjustments are of a recurring nature. These interim results are not necessarily indicative of results for an entire year.

Certain disclosures have been condensed or omitted from these consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Therefore, these financial statements should be read in conjunction with the Company's 2002 consolidated financial statements and related notes thereto included in the Company's Annual Report filed on Form 10-K.

Employee stock options and restricted stock awards are accounted for at intrinsic value under the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"). Accordingly, no compensation expense is recorded for stock options that are granted to employees or non-employee directors with an exercise price equal to or above the Company's stock price on the date of grant. If employee stock options and restricted stock awards were accounted for at fair value under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation", the Company's reported net income and net income per share amounts would have been adjusted to the pro forma amounts indicated below (in thousands, except per share amounts):

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

	THREE MONTHS ENDED SEPTEMBER 30,		200
	2003	2002	
As Reported:			
Net income	\$ 15,768	\$ 10,113	\$ 47
Basic net income per common share	0.52	0.34	
Diluted net income per common share	0.52	0.33	
Non-cash stock based compensation, net of tax ..	102	--	
Pro Forma:			
Net income	\$ 15,354	\$ 9,776	\$ 46
Basic net income per common share	0.51	0.33	
Diluted net income per common share	0.51	0.32	
Non-cash stock based compensation, net of tax ..	516	337	1

Currently, the Emerging Issues Task Force staff are engaged in discussions on the issue of whether SFAS 141, "Business Combinations" and SFAS 142, "Goodwill and Other Intangibles", which were effective June 30, 2001, called for mineral rights held under a lease or other contractual arrangement to be classified on the balance sheet as intangible assets and accompanied by specific footnote disclosures. Historically, oil and gas companies, including Encore, have included these costs with all other oil and gas property costs in Property, Plant, and Equipment on the consolidated balance sheet.

In the event this interpretation is adopted, a substantial portion of the acquisition costs of oil and gas properties would be required to be classified on the balance sheet as an intangible asset. The Company believes this interpretation would not have a material effect on our results of operations for the periods presented or in the future as these intangible assets would be depleted using the units of

7

production method in a manner consistent with the method currently used to calculate depletion, depreciation, and amortization expense ("DD&A") on these assets.

At September 30, 2003, the Company had \$1.0 million of undeveloped leasehold costs and \$302.4 million of developed leasehold costs (net of accumulated depletion) that would be reclassified as "Intangible developed and undeveloped leasehold costs" if the Company were to apply the interpretation as currently discussed.

3. NEW ACCOUNTING STANDARDS

In August 2001, the Financial Accounting Standards Board ("FASB") issued SFAS 143, "Accounting for Asset Retirement Obligations", which the Company adopted as of January 1, 2003. This statement requires that we now record a liability in the period in which we incur an asset retirement obligation, in an amount equal to the discounted estimated fair value of the obligation. Also, upon initial recognition of the liability, we must capitalize an equal amount of asset cost. Thereafter, each quarter, this liability is accreted and, if needed, adjusted up to the final cost. Accretion expense is included in 'Other operating' expense in the Company's Consolidated Statements of Operations.

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

The adoption of SFAS 143 on January 1, 2003 resulted in a cumulative effect of accounting change adjustment to record (i) a \$4.0 million increase in the carrying values of proved properties, (ii) a \$2.1 million decrease in accumulated depletion, depreciation, and amortization, (iii) a \$5.2 million increase in non-current liabilities, and (iv) a gain of \$0.9 million, net of tax.

The following table shows net income and basic and diluted net income per common share as reported, as well as pro forma amounts as if the Company had adopted SFAS 143 prior to January 1, 2002 (in thousands, except per common share amounts):

	NINE MONTHS ENDED SEPTEMBER 30,	
	2003	2002
As Reported:		
Net income	\$ 47,979	\$ 26,349
Basic net income per common share	1.60	0.88
Diluted net income per common share	1.58	0.87
Pro Forma:		
Net income	\$ 47,116	\$ 26,649
Basic net income per common share	1.57	0.89
Diluted net income per common share	1.56	0.88

The Company's primary asset retirement obligations relate to future plugging and abandonment expenses on our oil and natural gas properties and related facilities disposal. As of September 30, 2003, the Company had \$2.7 million held in an escrow account from which funds are released only for reimbursement of plugging and abandonment expenses on our Bell Creek property. This amount is included in 'Other assets' in the accompanying Consolidated Balance Sheet. The following table summarizes the changes in the Company's future abandonment liability recorded in 'Other non-current liabilities' on the Company's Consolidated Balance Sheet from the liability initially recorded upon adoption of SFAS 143 on January 1, 2003 through September 30, 2003 (in thousands):

	NINE MONTHS ENDED SEPTEMBER 30, 2003	
Future abandonment liability at January 1, 2003 ..	\$	4,791
Acquisition of Elm Grove properties		337
Accretion expense		200
Other		27

Future abandonment liability at September 30, 2003	\$	5,355
		=====

In April 2002, the FASB issued SFAS 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections".

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

Under SFAS 4, all gains and losses from extinguishment of debt were required to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. SFAS 145 eliminates SFAS 4 and, thus, the exception to applying Opinion 30 to all gains and losses related to extinguishments of debt. As a result, beginning January 1, 2003, gains and losses from extinguishment of debt should be classified as extraordinary items only if they meet the criteria in Opinion 30. As the extraordinary loss on extinguishment of debt recorded in the second quarter of 2002 of \$0.2 million, net of tax, does not meet the criteria of Opinion 30, it has been reclassified to 'Other operating' expense in the Consolidated Statements of Operations for

8

the nine months ended September 30, 2002. Additionally, the extraordinary loss on extinguishment of debt has been reclassified in the Consolidated Statement of Cash Flows for the nine months ended September 30, 2002 to conform to this new presentation.

4. EARNINGS PER SHARE ("EPS")

The following table sets forth basic and diluted EPS computations for the three and nine months ended September 30, 2003 and 2002 (in thousands, except per share data):

	THREE MONTHS ENDED SEPTEMBER 30,		NI
	2003	2002	
NUMERATOR:			
Income before cumulative effect of accounting change	\$ 15,768	\$ 10,113	\$
Net income	\$ 15,768	\$ 10,113	\$
DENOMINATOR:			
Denominator for basic earnings per share -- weighted average shares outstanding	30,103	30,030	
Effect of dilutive securities	229	178	
Denominator for diluted earnings per share	30,332	30,208	
BASIC PER COMMON SHARE:			
Income before cumulative effect of accounting change	\$ 0.52	\$ 0.34	\$
Cumulative effect of accounting change, net of income taxes	--	--	
Net income	\$ 0.52	\$ 0.34	\$
DILUTED PER COMMON SHARE:			
Income before cumulative effect of accounting change	\$ 0.52	\$ 0.33	\$
Cumulative effect of accounting change, net of income taxes	--	--	
Net income	\$ 0.52	\$ 0.33	\$

For the nine months ended September 30, 2003, 122,001 shares of stock was issued upon exercise of employee stock options granted under the Company's 2000

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

Incentive Stock Plan at a weighted average strike price of \$13.54 per share. Additionally, 9,843 shares of restricted stock, which were issued and outstanding at December 31, 2002, were forfeited during the first nine months of 2003.

5. DERIVATIVE FINANCIAL INSTRUMENTS

We record derivative fair value gains and losses for our basis swaps that are not designated for hedge accounting and ineffectiveness of our commodity futures contracts under hedge accounting. As our interest rate swap does not qualify for hedge accounting, it is also marked to market through 'Derivative fair value (gain) loss' on the Consolidated Statements of Operations each period.

The following tables summarize our open commodity hedging positions as of September 30, 2003:

OIL HEDGES AT SEPTEMBER 30, 2003

PERIOD	DAILY FLOOR VOLUME (BBLs)	FLOOR PRICE (PER Bbl)	DAILY CAP VOLUME (BBLs)	CAP PRICE (PER Bbl)	DAILY SWAP VOLUME (BBLs)	SWAP PRICE (PER Bbl)
Oct - Dec 2003	9,500	\$ 21.05	7,000	\$ 27.14	--	\$
Jan - June 2004	11,000	22.16	7,000	29.06	500	26.
July - Dec 2004	7,000	22.36	5,000	28.33	500	26.
Jan - Dec 2005	--	--	--	--	1,000	25.
Jan - Dec 2006	--	--	--	--	2,000	25.
Jan - Dec 2007	--	--	--	--	2,000	25.

In order to more effectively hedge the cash flows received on our oil production, the Company enters into financial instruments whereby we swap certain per Bbl floating market indices for a fixed dollar amount. These market indices are a component of the price the Company is paid on its actual production and by fixing this component of our marketing price, we are able to realize a net price with a more consistent differential to NYMEX. Since NYMEX is the basis of all our derivative oil hedging contracts, a more

9

consistent differential results in a more effective hedge. However, due to limitations on timing, complexity, and volume differences, we do not use hedge accounting for these contracts. Instead, we mark these contracts to market each quarter through 'Derivative fair value (gain) loss' in the Consolidated Statements of Operations. Thus, as these contracts do not change the Company's overall hedged volumes, average prices presented in the table above are exclusive of any effect of these instruments. As of September 30, 2003, the mark-to-market value of these contracts is \$0.1 million. In addition, the Company has one short oil put contract in place at September 30, 2003 covering 500 Bbls per day through December 31, 2003 at a strike price of \$17.00. This contract also does not qualify for hedge accounting and thus is not included in the table above. This contract is also marked to market through earnings each quarter. The value of this contract at September 30, 2003 was less than one hundred dollars.

NATURAL GAS HEDGES AT SEPTEMBER 30, 2003

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

PERIOD	DAILY FLOOR VOLUME (Mcf)	FLOOR PRICE (PER Mcf)	DAILY CAP VOLUME (Mcf)	CAP PRICE (PER Mcf)	DAILY SWAP VOLUME (Mcf)	SWAP PRICE (PER Mcf)
Oct - Dec 2003	7,500	\$ 3.17	2,500	\$ 6.83	7,500	\$ 4.8
Jan - Dec 2004	15,000	4.01	7,500	6.02	5,000	5.0
Jan - Dec 2005	--	--	--	--	5,000	4.6

In order to more effectively hedge the cash flows received on our natural gas production, the Company uses basis swaps to better correlate some NYMEX based natural gas hedging contracts to different underlying price points. These basis swaps are combined with a floor, collar, or swap contract and are treated as hedges in combination. As these basis swap contracts do not change the Company's overall hedged volumes and are only designed to increase the effectiveness of another natural gas hedging contracts, they have not been presented separately. However, the average prices indicated above have been adjusted to reflect the effect of these contracts on the strike price of the underlying NYMEX based hedge.

INTEREST RATE DERIVATIVES

In conjunction with the sale of our \$150 million 8 3/8% Senior Subordinated Notes (the "Notes") on June 25, 2002, the Company repaid all amounts outstanding under our previous credit facility on June 25, 2002, and terminated the facility on that date. At the time, the Company had three interest rate swaps outstanding, with a notional amount of \$30 million each, which swapped LIBOR based floating rates for fixed rates. According to the provisions of SFAS 133, these no longer qualified for hedge accounting. The unrealized loss of \$3.8 million at June 25, 2002 was recognized in 'Accumulated other comprehensive income' at that date and is being amortized to interest expense over the original life of the swaps. We increased interest expense by \$1.6 million in the first nine months of 2003 through amortization of this unrealized loss from other comprehensive income.

The following table summarizes the Company's only remaining interest rate swap contract at September 30, 2003:

CONTRACT EXPIRATION	NOTIONAL AMOUNT	ENCORE PAYS	ENCORE RECEIVES
June 2005	\$80,000,000	LIBOR + 3.89%	8.375%

This contract does not qualify for hedge accounting and thus, the changes in its fair market value are recorded in 'Derivative fair value (gain) loss' on the Consolidated Statements of Operations. During the quarter ended September 30, 2003, a loss of \$0.1 million related to the interest rate swap was recorded in the Consolidated Statement of Operations.

The actual gains or losses we realize from our derivative transactions may vary significantly from the deferred loss amount recorded in equity at September 30, 2003 due to fluctuation of prices in the commodities markets and/or fluctuations in the floating LIBOR interest rate.

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

6. COMPREHENSIVE INCOME

For the nine months ended September 30, 2003, we had total comprehensive income of \$51.0 million, while net income totaled \$48.0 million. The difference between net income and total comprehensive income is a \$3.0 million change in our deferred hedging gain/loss in 'Accumulated other comprehensive income' from \$6.6 million at December 31, 2002 to \$3.6 million at September 30, 2003. For the nine months ended September 30, 2002, we had a total comprehensive income of \$14.5 million, while net income totaled \$26.3 million. The difference between net income and total comprehensive income is due to a \$11.8 million change in deferred hedging gain/loss.

10

For the three months ended September 30, 2003, we had total comprehensive income of \$19.1 million, while net income totaled \$15.8 million. The difference between net income and total comprehensive income is due to a \$3.3 million change in our deferred hedging loss in 'Accumulated other comprehensive income' from a deferred loss of \$6.9 million at June 30, 2003 to a deferred loss of \$3.6 million at September 30, 2003. For the three months ended September 30, 2002, we had a total comprehensive income of \$7.7 million, while net income totaled \$10.1 million. The difference between net income and total comprehensive income is a \$2.4 million increase in our deferred hedging loss.

7. FINANCIAL STATEMENTS OF SUBSIDIARY GUARANTORS

As of September 30, 2003, all of the Company's subsidiaries were subsidiary guarantors of the Notes. Since (i) each subsidiary guarantor is 100% owned by the Company, (ii) the Company has no assets or operations that are independent of its subsidiaries, (iii) the subsidiary guarantees are full and unconditional and joint and several and (iv) all of the Company's subsidiaries are subsidiary guarantors, the Company has not included the financial statements of each subsidiary in this report. The subsidiary guarantors may without restriction transfer funds to the Company in the form of cash dividends, loans and advances.

8. PROPERTY PURCHASE

On July 31, 2003, the Company closed the purchase of interests in natural gas properties in North Louisiana (the "Elm Grove" acquisition) from a group of private sellers at a cost of \$52.5 million subject to additional post-closing adjustments. The purchase was effective June 1, 2003. Beginning August 1, 2003, revenues and expenses from these properties have been included in the Company's Consolidated Statements of Operations and drilling costs have been included in 'Development of oil and natural gas properties' in the Consolidated Statement of Cash Flows. From June 1, 2003 to July 31, 2003, revenues, expenses, and development capital of the properties were treated as adjustments to the purchase price. The properties are located in the Elm Grove Field in Bossier Parish, Louisiana and are non-operated working interests ranging from 2% to 38% across 1,800 net acres in 15 sections. As of July 31, 2003, the Company's internal engineers estimated total proved reserves for the Elm Grove acquisition to be 6.2 MMBOE.

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

This document contains forward-looking statements that involve risks and uncertainties that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated in our forward-looking statements due to many factors, including, but not limited to, those set forth under "SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS" contained in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in Encore's 2002 Annual Report filed on Form 10-K. The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in this document and Encore's 2002 Form 10-K.

DESCRIPTION OF CRITICAL ACCOUNTING POLICIES

The information included in "Management's Discussion and Analysis of Financial Condition and Results of Operations - Description of Critical Accounting Policies" in Encore's 2002 Annual Report filed on Form 10-K is incorporated herein by reference. There have been no material changes to our accounting policies since December 31, 2002 with the exception of the adoption of SFAS 143 and SFAS 145 discussed in Note 3 to the accompanying financial statements. See also discussion in Note 2 to the accompanying financial statements of SFAS 141 and SFAS 142 and the related possible interpretation of these statements by the FASB and the SEC and their potential impact on the Company's financial statements.

RESULTS OF OPERATIONS

The following table sets forth selected operating information for the periods presented:

	THREE MONTHS ENDED SEPTEMBER 30,		INCREASE / (DECREASE)	NINE S
	2003	2002		2003
Operating Results (in thousands):				
Oil and natural gas revenues	\$ 55,724	\$ 43,502	\$ 12,222	\$ 162,
Lease operations expense	9,795	8,358	1,437	27,
Production, ad valorem, and severance taxes	5,449	4,521	928	16,
Daily sales volumes:				
Oil (Bbls)	18,255	16,783	1,472	18,
Natural gas (Mcf)	26,447	21,913	4,534	23,
Combined (BOE)	22,663	20,435	2,228	22,
Average prices:				
Oil (per Bbl)	\$ 26.52	\$ 24.05	\$ 2.47	\$ 26
Natural gas (per Mcf)	4.60	3.16	1.44	4
Combined (per BOE)	26.73	23.14	3.59	27
Selected operating expenses per BOE:				
Lease operations	\$ 4.70	\$ 4.45	\$ 0.25	\$ 4
Production, ad valorem, and severance taxes	2.61	2.40	0.21	2
G&A (excluding non-cash stock based compensation)	0.96	0.84	0.12	1
DD&A	4.06	4.80	(0.74)	3

12

COMPARISON OF QUARTER ENDED SEPTEMBER 30, 2003 TO QUARTER ENDED SEPTEMBER 30, 2002

Set forth below is our comparison of operations during the third quarter of 2003 with the third quarter of 2002.

REVENUES AND SALES VOLUMES. Oil and natural gas revenues of Encore for the third quarter of 2003 increased as compared to the third quarter of 2002 by \$12.2 million, from \$43.5 million to \$55.7 million. The following table illustrates the primary components of oil and natural gas revenue for the three months ended September 30, 2003 and 2002, as well as each quarter's respective oil and natural gas volumes (in thousands, except per unit amounts):

	THREE MONTHS ENDED SEPTEMBER 30,					
	2003		2002			
REVENUES:	Revenue	\$/Unit	Revenue	\$/Unit	Revenue	\$/Unit
Oil wellhead	\$ 47,123	\$28.07	\$ 39,556	\$25.62	\$ 7,567	\$28.07
Oil hedges	(2,685)	(1.61)	(3,135)	(2.03)	(2,685)	(1.61)
Enron gain amortization	100	0.06	706	0.46	100	0.06
Oil Revenues	\$ 44,538	\$26.52	\$ 37,127	\$24.05	\$ 44,538	\$26.52
Natural gas wellhead	\$ 11,375	\$ 4.68	\$ 6,098	\$ 3.02	\$ 11,375	\$ 4.68
Natural gas hedges	(193)	(0.08)	(121)	(0.06)	(193)	(0.08)
Enron gain amortization	4	--	398	0.20	4	--
Natural Gas Revenues	\$ 11,186	\$ 4.60	\$ 6,375	\$ 3.16	\$ 11,186	\$ 4.60
OTHER DATA:	Sales Volumes	Average NYMEX \$/Unit	Sales Volumes	Average NYMEX \$/Unit	Sales Volumes	Average NYMEX \$/Unit
Oil (Bbls)	1,679	\$ 30.20	1,544	\$ 28.27	1,679	\$ 30.20
Natural Gas (Mcf) ...	2,433	4.89	2,016	3.21	2,433	4.89
Combined (BOE)	2,085		1,880		2,085	

Oil revenues increased from third quarter 2002 to third quarter 2003 by \$7.4 million, due to increased volumes and a higher realized average oil price. Oil volumes for the quarter ended September 30, 2003 increased 135 MBbls due to our successful development drilling program in Cedar Creek Anticline ("CCA") and Central Permian properties, as well as the Paradox Basin acquisition, which was completed in the third quarter of 2002. Our realized average oil price increased \$2.47 per Bbl in the third quarter of 2003 over the same period in 2002 primarily as a result of an increase in our average wellhead price. This

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

increase in our average wellhead price is in line with the increase in the overall market price for oil as reflected in the \$1.93 per Bbl increase in the average NYMEX price over the same period. A decrease in hedging payments of \$0.5 million (\$0.42 per Bbl) from the third quarter of 2002 to the third quarter of 2003 was offset by a decrease in the Enron gain amortization of \$0.6 million (\$0.40 per Bbl) over the same period.

Natural gas revenues increased by \$4.8 million, or \$1.44 per Mcf, in the third quarter of 2003 from the third quarter of 2002 due to an increase in sales volumes and an increase in our realized average natural gas price. Sales volumes increased 417 MMcf in the third quarter of 2003 as compared to the third quarter of 2002 due to the Elm Grove acquisition which was completed during the third quarter of 2003. The \$1.44 increase in our realized average natural gas price was primarily due to an increase of \$1.66 per Mcf in the average wellhead price received, partially offset by a \$0.4 million decrease in the Enron gain amortization. The increase in our average wellhead price received of \$1.66 per Mcf for the quarter is consistent with the increase in the overall market price for natural gas, as reflected in the increase in the average NYMEX price of \$1.68 per Mcf over the same period.

LEASE OPERATIONS. Lease operations expense for the third quarter of 2003 increased as compared to the third quarter of 2002 by \$1.4 million. The increase is primarily attributable to increased sales volumes resulting from our development drilling program, as well as inclusion of three months of production from the Paradox Basin acquisition (September 2002) and two months of production from the Elm Grove acquisition (August 2003). The slight increase in our average per BOE rate was attributable to increased costs associated with the high-pressure air injection ("HPAI") project in the CCA, the Paradox Basin acquisition (September 2002), and increased artificial lift expenses associated with production decline in our Lodgepole fields.

PRODUCTION, AD VALOREM, AND SEVERANCE TAXES. Production, ad valorem, and severance taxes for the third quarter of 2003 increased as compared to the third quarter of 2002 by approximately \$0.9 million. This increase was primarily a result of higher revenues. As a percent of oil and natural gas revenues (excluding the effects of hedges and the Enron Gain amortization), production, ad valorem, and severance taxes for the third quarter of 2003 decreased when compared to the third quarter of 2002, down to 9.3% from 9.9%. The

13

decrease is attributable to the addition of the Elm Grove properties added in the third quarter of 2003, which have a lower rate as a percentage of oil and natural gas revenues than our historical average. The effect of hedges and amortization of the Enron Gain are excluded from oil and natural gas revenues in the calculation of these percentages because this method more closely reflects the method used to calculate actual production, ad valorem, and severance taxes paid to taxing authorities.

DEPLETION, DEPRECIATION, AND AMORTIZATION ("DD&A") EXPENSE. DD&A expense for the third quarter of 2003 decreased by \$0.6 million as compared to the third quarter of 2002, due to a \$0.74 decrease in the per BOE rate partially offset by an increase in production. The decrease in the per BOE rate is a result of an increase in reserves at December 31, 2002 and the adoption of SFAS 143 on January 1, 2003 (see Note 3 to the accompanying financial statements). Historically, consistent with industry practice, the Company assumed salvage value would be offset by plugging and abandonment expenses. However, upon adoption of SFAS 143, we began subtracting the estimated salvage value of our equipment from the depreciable base in our DD&A calculation, thus lowering our

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

per BOE rate. Beginning in August 2003, we began including the financial results of the Elm Grove acquisition in the Company's financial results. As the Elm Grove acquisition has a higher per BOE DD&A rate than our historical average, we expect our DD&A rate per BOE in future periods to be slightly higher than our historical average as a result.

GENERAL AND ADMINISTRATIVE ("G&A") EXPENSE. G&A expense (excluding non-cash stock based compensation) increased \$0.4 million for the third quarter of 2003 as compared to the third quarter of 2002. The overall increase, as well as the \$0.12 increase in the per BOE rate, is a result of increased staffing levels required to manage our growing asset base and increased outside consulting services used in the evaluation of potential acquisitions. The Company expenses third party related acquisition costs to G&A as incurred. If and when the Company successfully closes on an acquisition, these costs are then reclassified to producing properties as part of the acquisition's cost. In the third quarter of 2003, the Company reclassified \$0.4 million from G&A to proved properties upon successful completion of the Elm Grove acquisition.

NON-CASH STOCK BASED COMPENSATION EXPENSE. No amount was recorded during the three months ended September 30, 2002 related to non-cash stock based compensation expense, while \$0.2 million was recorded during the three months ended September 30, 2003. This expense represents the amortization of deferred compensation which is being amortized to expense over the vesting period of the restricted stock granted at the end of 2002 under the 2000 Incentive Stock Plan.

OTHER OPERATING EXPENSE. Other operating expense for the third quarter of 2003 increased by \$0.2 million as compared to the third quarter of 2002. This increase is attributable to higher third party transportation expenses in 2003; inclusion of accretion expense on the Company's SFAS 143 future abandonment liability, which totaled \$0.1 million for the quarter (see Note 3 to the accompanying financial statements); and the abandonment of \$0.2 million in undeveloped leasehold costs during the third quarter.

INTEREST EXPENSE. Interest expense decreased \$0.1 million in the quarter ended September 30, 2003 from the quarter ended September 30, 2002. The decrease in interest expense is due to a decrease in the weighted average interest rate partially offset by an increase in weighted average debt. The weighted average interest rate, net of hedges, for the third quarter of 2003 was 9.0% compared to 10.3% for the third quarter of 2002. The following table illustrates the components of interest expense for the three months ended September 30, 2003 and 2002 (in thousands):

	THREE MONTHS ENDED SEPTEMBER 30,		INCREASE / (DECREASE)
	2003	2002	
8 3/8% notes due 2012	\$ 3,141	\$ 3,141	\$ --
Revolving credit facility	161	76	85
Interest rate hedges	414 (1)	806 (1)	(392)
Banking fees and other	300	99	201
	-----	-----	-----
Total	\$ 4,016	\$ 4,122	\$ (106)

- (1) Amount represents non-cash amortization of the unrealized loss from other comprehensive income to interest expense. This unrealized loss relates to previously outstanding interest rate swaps which no longer qualified for hedge accounting. The Company has since cash settled these interest rate

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

swaps and the swaps are no longer outstanding. See Note 5 to the accompanying financial statements.

14

COMPARISON OF NINE MONTHS ENDED SEPTEMBER 30, 2003 TO NINE MONTHS ENDED SEPTEMBER 30, 2002

Set forth below is our comparison of operations during the first nine months of 2003 with the first nine months of 2002.

REVENUES AND SALES VOLUMES. Oil and natural gas revenues of Encore for the nine months ended September 30, 2003 increased as compared to 2002 by \$49.1 million, from \$113.6 million to \$162.7 million. The following table illustrates the primary components of oil and natural gas revenue for the nine months ended September 30, 2003 and 2002, as well as each period's respective oil and natural gas volumes (in thousands, except per unit amounts):

	NINE MONTHS ENDED SEPTEMBER 30,				
	2003		2002		
REVENUES:	Revenue	\$/Unit	Revenue	\$/Unit	Rev
Oil wellhead	\$ 142,599	\$28.74	\$ 99,217	\$22.71	\$ 43
Oil hedges	(11,225)	(2.26)	(5,837)	(1.33)	(5)
Enron gain amortization	300	0.06	2,116	0.48	(1)
Oil Revenues	\$ 131,674	\$26.54	\$ 95,496	\$21.86	\$ 36
Natural gas wellhead	\$ 32,728	\$ 5.15	\$ 16,910	\$ 2.73	\$ 15
Natural gas hedges	(1,662)	(0.26)	4	--	(1)
Enron gain amortization	14	--	1,196	0.19	(1)
Natural Gas Revenues	\$ 31,080	\$ 4.89	\$ 18,110	\$ 2.92	\$ 12
OTHER DATA:	Sales Volumes	Average NYMEX \$/Unit	Sales Volumes	Average NYMEX \$/Unit	Sales Volumes
Oil (Bbls)	4,961	\$ 30.99	4,369	\$ 25.39	592
Natural Gas (Mcf)	6,355	5.51	6,201	3.03	154
Combined (BOE)	6,020		5,403		617

Oil revenues increased \$36.2 million for the nine months ended September 30, 2003 as compared to the nine months ended September 30, 2002 due to higher sales volumes and a higher realized average oil price. Oil volumes

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

increased 592 MBbls, resulting from our development drilling program in the CCA and Permian Basin properties, as well as the Paradox Basin acquisition, which closed in the third quarter of 2002. Our realized average oil price increased \$4.68 per Bbl due to a \$6.03 per Bbl increase in the average wellhead price received for the first nine months of 2003. However, this increase was partially offset by a \$5.4 million increase in hedging payments and a \$1.8 million decrease in the amortization of the Enron gain over the same period. The increase in the average wellhead price during the first nine months of 2003 as compared to the first nine months of 2002 resulted from an increase in the overall market price of oil during the same period as reflected by an increase in the average NYMEX oil price of \$5.60 per Bbl from period to period.

Natural gas revenues increased by \$13.0 million in the first nine months of 2003 as compared to the first nine months of 2002 due to an increase in our realized average natural gas price and higher volumes. Natural gas volumes increased 154 MMcf, primarily resulting from the Elm Grove acquisition, which closed in the third quarter of 2003. The increase in our realized average natural gas price is due to a higher average wellhead price of \$2.42 per Mcf, partially offset by a \$1.7 million increase in hedging payments and a \$1.2 million decrease in the Enron gain amortization from period to period. The increase from the nine months ended September 30, 2002 to the nine months ended September 30, 2003 in the average wellhead price received of \$2.42 per Mcf is consistent with the average NYMEX natural gas price increase of \$2.48 per Mcf over the same period. The increase in hedging payments over the periods was a direct result of this increase in the average NYMEX price per Mcf.

LEASE OPERATIONS. Lease operations expense for the nine months ended September 30, 2003 increased as compared to the first nine months of 2002 by \$6.1 million. The increase is primarily attributable to increased sales volumes resulting from our development drilling program, as well as inclusion of nine months of production from the Paradox Basin acquisition (September 2002), and two months of production from the Elm Grove acquisition (August 2003). On a per BOE basis, lease operations expense increased from \$4.02 to \$4.63 due to increased costs associated with the HPAI project in the CCA, the Paradox Basin acquisition (September 2002), and increased artificial lift expenses associated with production decline in our Lodgepole fields.

PRODUCTION, AD VALOREM, AND SEVERANCE TAXES. Production, ad valorem, and severance taxes for the first nine months of 2003 increased as compared to the first nine months of 2002 by approximately \$5.6 million. This increase was a result of higher revenues in the first nine months of 2003 as compared to the same period of 2002. As a percent of oil and natural gas revenues (excluding the effects of hedging settlements and the Enron gain amortization), production, ad valorem, and severance taxes remained constant, at

15

9.5% for both periods. The effect of hedges and the Enron gain amortization are excluded from oil and natural gas revenues in the calculation of these percentages because this method more closely reflects the method used to calculate actual production, ad valorem, and severance taxes paid to taxing authorities.

DEPLETION, DEPRECIATION, AND AMORTIZATION ("DD&A") EXPENSE. DD&A expense for the nine months ended September 30, 2003 decreased by approximately \$2.4 million as compared to the nine months ended September 30, 2002 due to a \$0.90 decrease in the per BOE rate, partially offset by an increase in production. The decrease in the per BOE rate is a result of an increase in reserves at December 31, 2002 and the adoption of SFAS 143 on January 1, 2003

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

(see Note 3 to the accompanying financial statements). Historically, consistent with industry practice, the Company assumed salvage value would be offset by plugging and abandonment expenses. However, upon adoption of SFAS 143, we began subtracting the estimated salvage value of our equipment from the depreciable base in our DD&A calculation, thus lowering our per BOE rate. Beginning in August 2003, we began including the financial results of the Elm Grove acquisition in the Company's financial results. As the Elm Grove acquisition has a higher per BOE DD&A rate than our historical average, we expect our DD&A rate per BOE in future periods to be slightly higher than our historical average as a result.

GENERAL AND ADMINISTRATIVE ("G&A") EXPENSE. G&A expense (excluding non-cash stock based compensation) increased \$2.3 million for the first nine months of 2003 as compared to the first nine months of 2002. The increase in G&A expense was a result of increased staffing levels used to manage our growing asset base and outside consulting services used in the evaluation of potential acquisitions. The Company expenses third party related acquisition costs to G&A as incurred. Once the Company successfully closes on an acquisition, these costs are then reclassified to producing properties as part of the acquisition's cost. In the nine months ended September 30, 2003, the Company reclassified \$0.4 million from G&A to proved properties upon successful acquisition of the Elm Grove Field.

NON-CASH STOCK BASED COMPENSATION EXPENSE. No amount was recorded during the nine months ended September 30, 2002 related to non-cash stock based compensation expense, while \$0.5 million was recorded during the nine months ended September 30, 2003. This expense represents the amortization of deferred compensation. The deferred compensation recorded in equity relates to restricted stock granted at the end of 2002 under the 2000 Incentive Stock Plan, which is being amortized to expense over the vesting period of the stock.

OTHER OPERATING EXPENSE. Other operating expense for the first nine months of 2003 increased by \$0.7 million as compared to the first nine months of 2002. This increase is attributable to higher third party transportation expenses in 2003; inclusion of accretion expense on the Company's SFAS 143 future abandonment liability, which totaled \$0.2 million for the first nine months of 2003 (see Note 3 to the accompanying financial statements); and the abandonment of \$0.2 million in undeveloped leasehold costs during the third quarter.

INTEREST EXPENSE. Interest expense for the nine months ended September 30, 2003 increased \$4.4 million when compared to the nine months ended September 30, 2002 due primarily to an increase in our weighted average interest rate from period to period, as well as an increase in weighted average debt. The weighted average interest rate, net of hedges, for the first nine months of 2003 was 9.9% compared to 7.6% for the first nine months of 2002. This higher weighted average interest rate is the result of the Notes, issued in June 2002, with a higher 8 3/8 % fixed rate being the primary component of the Company's total indebtedness during the first nine months of 2003, while the revolving credit facility with a lower floating rate was the primary component in the first nine months of 2002. In conjunction with the issuance of 8 3/8% notes in June 2002, the Company entered into an interest rate swap, which swaps fixed rates to floating, with the intent of lowering our effective interest payments. As this transaction does not qualify for hedge accounting, changes in its fair market value, as well as settlements, are not recorded in interest expense, but in 'Derivative fair value gain' on the Consolidated Statements of Operations. During the nine months ended September 30, 2003, a gain of \$2.1 million related to this interest rate swap was recorded in 'Derivative fair value gain'. See Note 5 to the accompanying financial statements. The following table illustrates the components of interest expense for the nine months ended September 30, 2003 and 2002 (in thousands):

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

	NINE MONTHS ENDED SEPTEMBER 30,		INCREASE / (DECREASE)
	2003	2002	
8 3/8% notes due 2012	\$ 9,422	\$3,347	\$ 6,075
Revolving credit facility	278	2,141	(1,863)
Interest rate hedges	1,612(1)	2,121	(509)
Banking fees and other	914	227	687
	-----	-----	-----
Total	\$12,226	\$7,836	\$ 4,390
	=====	=====	=====

- (1) Amount represents non-cash amortization of the unrealized loss from other comprehensive income to interest expense. This

16

unrealized loss relates to previously outstanding interest rate swaps which no longer qualified for hedge accounting. The Company has since cash settled these interest rate swaps and the swaps are no longer outstanding. See Note 5 to the accompanying financial statements.

17

LIQUIDITY AND CAPITAL RESOURCES

Principal uses of capital have been for the acquisition and development of oil and natural gas properties. As of September 30, 2003, our cash and cash equivalents totaled \$0.7 million. The Company's policy is to use any excess cash not needed for day-to-day operations to pay down any amounts outstanding under the revolving credit facility. As of September 30, 2002, our cash and cash equivalents totaled \$2.6 million. This excess cash was being held in reserve to pay state production taxes. Because of timing of payments made for production taxes, at September 30, 2003 no excess cash reserves were held for this purpose.

Cash Flow

During the nine months ended September 30, 2003, net cash provided by operations was \$94.8 million, an increase of \$38.3 million compared to the nine months ended September 30, 2002. This increase is primarily attributable to higher oil and natural gas revenues in 2003, which as noted previously, is primarily a result of increased prices and increased production volumes.

Cash used by investing activities decreased from \$135.1 million to \$123.9 million over the same period, largely due to a decrease in the amount invested in new acquisitions. Acquisition capital accounted for \$77.0 million during the first nine months of 2002 (primarily Central Permian and Paradox Basin acquisitions), but only \$52.9 million in 2003 (primarily Elm Grove acquisition). Investing less in new acquisitions allowed the Company to increase the amount of available capital used in the development of our existing asset base. Cash invested in development of our oil and natural gas properties increased to \$71.7 million in the first nine months of 2003 as compared to \$58.0 for the first nine months of 2002. We plan to invest an additional \$25.5 million

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

for development of our oil and natural gas properties during the remainder of 2003. We anticipate funding the additional investment through cash flows from operations.

Cash provided by financing activities was \$16.7 million in the first nine months of 2003, and \$81.1 million in the first nine months of 2002. This \$64.4 million change was caused by a decrease in the cash used in investing activities and an increase in operating cash flow. The significantly higher oil and natural gas revenues in the first nine months of 2003 resulting from increased production and an increase in prices allowed the Company to fund its development drilling program using operating cash flow, while at the same time providing enough cash flow to fund a portion of the Elm Grove acquisition, which closed in the third quarter of 2003. During 2002, however, prices were such that a portion of the cost of the Company's drilling program, as well as the Central Permian and Paradox Basin acquisitions were funded with additional borrowings.

Capitalization

At September 30, 2003, Encore had total assets of \$644.7 million. Total capitalization was \$530.4 million, of which 65.9% was represented by stockholders' equity and 34.1% by long-term debt.

Debt Maturities

At September 30, 2003, the Company's long-term debt is comprised of \$150.0 million of 8 3/8% senior subordinated Notes due June 15, 2012 and \$31.0 million outstanding under the revolving credit facility due June 25, 2006.

Revolving Credit Facility

The maximum amount available under our revolving credit facility is \$300.0 million, which is secured by a first priority lien on our proved oil and natural gas reserves representing at least 80% of the present discounted reserve value. As of September 30, 2003, the amount available to us under our revolving credit facility was \$220.0 million. However, this amount has subsequently been renegotiated and effective December 1, 2003 the amount available to us has been increased to \$270 million. As of September 30, 2003, \$31.0 million is outstanding under our revolving credit facility which matures on June 25, 2006.

Future Capital Requirements

In April 2003, the Board of Directors approved an increase to Encore's 2003 capital budget in the amount of \$20.0 million to begin the second phase of the high-pressure air injection ("HPAI") tertiary recovery project in the CCA. This, when added to the previously announced \$105.0 million capital budget, will give the Company a capital budget of \$125.0 million for 2003. These Board approved amounts do not include any capital expenditures which the Company will likely incur in the development of our Elm Grove acquisition during the remainder of 2003 which are expected to be approximately \$4.3 million. Due to the timing of capital expenditures related to our HPAI project, the Company's actual capital expenditures may be below budgeted levels for 2003. The remaining capital costs not invested at the end of 2003 for HPAI are expected to be invested during the first of 2004.

The Company believes that its capital resources from internally generated cash flows and funds available under the credit facility are adequate to meet the requirements of its business through 2004. Based on our anticipated capital investment programs, we expect

Edgar Filing: ENCORE ACQUISITION CO - Form 10-Q

to invest our internally generated cash flow to replace sales volumes and enhance our waterflood programs. Additional capital may be required to pursue acquisitions and longer-term capital projects to increase our reserve base, such as our high-pressure air injection tertiary recovery project in the CCA. Substantially all of these expenditures are discretionary and will be undertaken only if funds are available and the projected rates of return are satisfactory. Future cash flows are subject to a number of variables, including the level of oil and natural gas sales volumes and prices. Operations and the Company's capital resources may not provide cash in sufficient amounts to maintain planned levels of capital expenditures.

In November 2003, the Board of Directors approved the Company's 2004 capital budget in the amount of \$140.0 million. The \$140.0 million budgeted amount includes \$104.8 million for development drilling projects, capital workovers, field facilities, and leasehold costs. The remaining \$46.0 million budgeted capital consists of \$34.3 million for HPAI and \$0.9 million for other property, plant, and equipment. The Company plans to fund its 2004 capital budget using operating cash flow and its existing revolving credit facility.

The following table illustrates the Company's contractual obligations outstanding at September 30, 2003 (in thousands):

CONTRACTUAL OBLIGATIONS	TOTAL	PAYMENTS DUE BY PERIOD			THE
		2003	2004 - 2005	2006 - 2007	
8 3/8% Notes	\$150,000	\$ --	\$ --	\$ --	\$1
Revolving Credit Facility	31,000	--	--	31,000	
Operating Leases	3,081	240	1,938	690	
Totals	\$184,081	\$240	\$1,938	\$31,690	\$1

INFLATION AND CHANGES IN PRICES

While the general level of inflation affects certain of our costs, factors unique to the petroleum industry result in independent price fluctuations. Historically, significant fluctuations have occurred in oil and natural gas prices. In addition, changing prices often cause costs of equipment and supplies to vary as industry activity levels increase and decrease to reflect perceptions of future price levels. Although it is difficult to estimate future prices of oil and natural gas, price fluctuations have had, and will continue to have, a material effect on the Company.

The following table indicates the average oil and natural gas prices realized for the three and nine months ended September 30, 2003 and 2002. Average equivalent prices for the first nine months of 2003 and 2002 were decreased by \$2.08 and \$0.46 per BOE, respectively, as a result of our hedging activities. Average prices per equivalent barrel indicate the composite impact of changes in oil and natural gas prices. Natural gas sales volumes are converted to oil equivalents at the conversion rate of six Mcf per Bbl.

OIL (PER Bbl)	NATURAL GAS (PER Mcf)

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information included in "Quantitative and Qualitative Disclosures about Market Risk" in Encore's 2002 Annual Report filed on Form 10-K is incorporated herein by reference. Such information includes a description of Encore's potential exposure to market risks, including commodity price risk and interest rate risk. The Company's outstanding derivative contracts as of September 30, 2003 are discussed in Note 5 to the accompanying financial statements. As of September 30, 2003, the fair value of our open commodity and interest rate derivative contracts is \$3.4 million.

ITEM 4. CONTROLS AND PROCEDURES

In accordance with Exchange Act Rules 13a-15 and 15d-15, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2003 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There has been no change in our internal controls over financial reporting that occurred during the three months ended September 30, 2003 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.
