This proxy statement contains important information for you to consider when deciding how to vote on the matters brought before the meeting. **Please read it carefully.**

Your proxy is solicited by our board of directors. The cost of soliciting proxies will be borne by us and we will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to you. We may use the services of our officers, directors, and others to solicit proxies, personally or by telephone, without additional compensation. We have engaged the firm of Georgeson Shareholder Communications, Inc. to assist us in the solicitation of proxies. We have agreed to pay Georgeson Shareholder Communications, Inc. a fee of \$11,000 plus expenses for these services.

In some instances, we may deliver to multiple stockholders sharing a common address only one copy of this proxy statement and its attachments. If requested in writing, we will promptly provide a separate copy of the proxy statement and its attachments to a stockholder sharing an address with another stockholder. Requests in writing should be sent to McAfee, Inc., Attention: Corporate Secretary, 5000 Headquarters Drive, Plano, Texas 75024. Stockholders sharing an address who currently receive multiple copies and wish to receive only a single copy should contact their broker or send a signed, written request to us at the address above.

These proxy solicitation materials were mailed on or about April 11, 2006 to all stockholders entitled to vote at the Annual Meeting.

VOTING INFORMATION

Who may vote? You may vote if you own shares of our stock at the close of business on April 3, 2006 (the record date). As of the record date, there were 159,243,694 shares outstanding.

Can I revoke my proxy? Yes. If you are a stockholder whose shares are registered in your name, your proxy may be revoked at any time by:

delivering to our secretary a written notice of revocation before the meeting;

executing a proxy bearing a later date; or

attending the annual meeting and voting in person.

If your shares are held in street name (through a broker, bank or other nominee), you cannot revoke your proxy and will not be permitted to vote in person at the meeting unless you first obtain a legal proxy issued in your name from the record holder (your broker, bank or other nominee).

What vote is required to pass an item of business? The holders of a majority of our outstanding stock, as of the record date, must be present in person or by proxy to transact business at the meeting. Abstentions and broker non-votes will be counted for quorum purposes, but will not affect voting results. Directors receiving the most votes will be elected. All other proposals require the affirmative vote of a majority of the shares of stock present or represented and voted at the meeting.

What is the deadline for making stockholder proposals for next year's meeting? Stockholders who wish to present proposals at our 2007 annual meeting must submit their proposals in accordance with our bylaws and be received by us no later than January 25, 2007 in order to be:

considered for inclusion in the proxy statement and form of proxy relating to that meeting; and

considered at the meeting.

Table of Contents

Stockholder proposals must be delivered to us at our offices at 5000 Headquarters Drive, Plano, Texas 75024, attention: Corporate Secretary.

PROPOSALS TO BE VOTED ON

Proposal No. 1 Election of Directors

The nominees for election at the annual meeting are Mr. Leslie Denend and Mr. George Samenuk. Mr. Denend and Mr. Samenuk are Class II directors. If elected, Mr. Denend and Mr. Samenuk will each serve as directors until the annual meeting in 2009. The nominees receiving the highest number of affirmative votes of the shares will be elected as Class II directors.

The board of directors recommends that you vote for the election of Mr. Denend and Mr. Samenuk.

Proposal No. 2 Amendment to the 1993 Stock Option Plan for Outside Directors

We believe that stock options are an important factor in securing the services of outside directors, who bring knowledge and experience that is essential to our success. Our non-employee directors receive an option to purchase 40,000 shares of our common stock when they first become a director. This initial grant vests one-third each year over three years from the date of grant. Each year after the initial grant, non-employee directors are entitled to receive an additional option to purchase 20,000 shares of our common stock. These subsequent grants vest in full three years from the date of grant. Options to purchase our common stock are granted under the 1993 Stock Option Plan for Outside Directors at a price equal to the fair market value on the date the stock options are granted, and only become valuable if the price of our common stock increases over time and as the options vest.

Currently, a maximum of 1,132,813 shares may be granted under the 1993 Stock Option Plan for Outside Directors. As of March 31, 2006, 1,105,628 shares had been granted and 27,185 shares remained available for grant.

The proposed amendment would increase the number of shares issuable under the 1993 Stock Option Plan for Outside Directors by 800,000 shares, bringing the total that may be granted under the 1993 Stock Option Plan for Outside Directors to 1,932,813 shares. As of March 31, 2006, no benefits or amounts relating to the additional 800,000 shares have been received by, or allocated to, any individuals.

The affirmative vote of the holders of a majority of the shares of common stock present or represented by proxy and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the 1993 Stock Option Plan for Outside Directors.

If you would like more information about the 1993 Stock Option Plan for Outside Directors, a summary of its terms is included in Appendix A to this proxy statement.

Proposal No. 3 Ratification of Independent Public Accountants

The audit committee of our board of directors has selected Deloitte & Touche LLP (Deloitte), an independent registered public accounting firm, to audit our financial statements for the fiscal year ending December 31, 2006. This selection is being presented to the stockholders for ratification at the meeting. A representative of Deloitte is expected to attend the annual meeting in order to respond to appropriate questions from stockholders and will have the opportunity to make a statement.

Audit Fees

For the fiscal years ended December 31, 2005 and 2004, our principal independent accountant was Deloitte. Audit fees billed to us by Deloitte related to our 2005 and 2004 fiscal years for the audit of our consolidated annual financial statements, the audit of management's assessment of our internal control over

Table of Contents

financial reporting and Deloitte's own audit of our internal control over financial reporting, review of the consolidated financial statements included in our quarterly reports on Form 10-Q, statutory audits for foreign entities and securities filings totaled \$5,213,000 and \$5,927,000, respectively. Audit fees billed to us by PricewaterhouseCoopers LLP (PwC), our former independent accountants, related to our 2004 fiscal year totaled \$75,000.

Audit-Related Fees

Audit-related fees billed to us by Deloitte related to our 2005 and 2004 fiscal years for assurance services and services related to our audits and reviews of our consolidated financial statements which are not considered audit fees totaled \$8,000 and \$136,000, respectively. These fees included amounts paid for consulting on accounting matters. We were billed \$305,000 during 2004 for similar services performed by PwC.

Tax Fees

Fees billed to us by Deloitte related to our 2005 and 2004 fiscal years for tax related services, including compliance, planning and tax advice, totaled \$1,955,000 and \$2,168,000, respectively. We were billed \$43,000 during 2004 for similar services performed by PwC.

All Other Fees

No other fees were billed to us by Deloitte during our 2005 or 2004 fiscal years, or by PwC during our 2004 fiscal year.

Our audit committee charter, attached as Appendix B, includes a requirement that the audit committee of the board of directors pre-approve the services provided by our independent public accountants, including both audit and non-audit services. The pre-approval of non-audit services performed by our independent public accountants includes making a determination that the provision of the services is compatible with maintaining the independence of our independent accountants. All of the services performed by Deloitte and PwC described above under the captions

Audit-Related Fees, Tax Fees and All Other Fees were pre-approved by our audit committee.

The board of directors recommends a vote for ratification of the appointment of Deloitte & Touche LLP as our independent accountants.

Independent Public Accountants

On March 11, 2004, we reported in a Form 8-K that the audit committee of the board of directors approved the engagement of Deloitte as our independent public accountants for the fiscal year ending December 31, 2004, replacing PwC. We formally terminated our relationship with PwC on March 9, 2004 and the audit committee authorized, effective March 10, 2004, the engagement of Deloitte as our independent accountants. The audit reports of PwC on our consolidated financial statements as of and for the years ended December 31, 2003 and 2002, did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. In connection with the audits of the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, there were no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement. Except as may be related to the events described in the paragraph below, during the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, there were no reportable events requiring disclosure pursuant to Section 229.304(a)(1)(v) of Regulation S-K. During the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, neither we nor anyone on our behalf consulted Deloitte regarding the application of accounting principles to a specified transaction, either completed or proposed, or the type of

Table of Contents

audit opinion that might be rendered on our company's consolidated financial statements, nor has Deloitte provided to us a written report or oral advice regarding such principles or audit opinion.

As more fully described in our 2003 Form 10-K and Form 8-K filed with the SEC on March 9, 2004:

During the preparation and analysis of our 2003 consolidated financial statements, we identified and reported to PwC and the audit committee of the board of directors required corrections to previously reported or announced financial information relating to the booking of international deferred revenue and the making of a \$2.0 million manual journal entry. These corrections required restatement of previously reported first, second and third quarter 2003 quarterly information and adjustment of previously announced fourth quarter 2003 and full year 2003 information, with the aggregate impact on 2003 revenues being an increase of \$3.8 million. In evaluating these corrections, PwC determined and reported to our audit committee that the underlying control issues should be considered a material weakness under standards established by the Public Company Accounting Oversight Board and that we should institute additional related control procedures. The audit committee has discussed the foregoing with PwC, and we have bolstered internal controls around the recognition of international revenues as part of our quarterly financial closing process and the manual journal entry process. We are also in the process of initiating additional internal control procedures to address the identified weaknesses, including the hiring of additional personnel, determining how to automate revenue recognition calculations so as to limit the number of manual adjustments, and engaging in additional testing of our control processes and procedures.

A letter stating that PwC agrees with these statements was filed as Exhibit 16.1 to our Form 8-K filed with the SEC on March 11, 2004.

Compensation Committee Interlocks and Insider Participation

No member of the compensation committee has ever been an officer or employee of McAfee or of any of our subsidiaries or affiliates. During the last fiscal year, none of our executive officers served on the board of directors or on the compensation committee of any other entity, any officers of which served either on our Board or on our compensation committee.

Identification and Evaluation of Candidates for Board Membership

In evaluating director nominees, the governance and nominations committee evaluates each individual in the context of the board as a whole, with the objective of recommending a group that will best serve our interests and the interests of our stockholders. Nominees for director are selected on the basis of, among other criteria, their:

broad experience in business, trade, finance or management;

knowledge of regional, national and international business affairs;

reputation for working constructively with others;

absence of conflicts of interest;

wisdom, integrity, and moral character;

ability to make independent analytical inquiries; and

understanding of our business and willingness to devote adequate time to board duties.

Other than the foregoing there are no stated minimum criteria for director nominees, although the governance and nominations committee may also consider such other factors as it may deem are in our best interests and the best interests of our stockholders.

The governance and nominations committee identifies nominees by first evaluating the current members of the board of directors willing to continue in service. Current members of the board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the board with that of obtaining a new perspective. If any member of the board does not wish to continue in service or if the governance and nominations committee or the board decides not to nominate a member for re-election, the governance and nominations committee identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the governance and nominations committee and board are polled for suggestions for individuals meeting the criteria of the governance and

nominations committee. Research may

Table of Contents

also be performed to identify qualified individuals and third parties that have been and in the future may be engaged to assist in identifying, evaluating and narrowing down the list of potential nominees.

Historically, we have not had a formal policy concerning stockholder recommendations to the governance and nominations committee; however, the governance and nominations committee considers nominees recommended by stockholders provided that the provisions in our bylaws which address the process by which a stockholder may nominate an individual to stand for election to the board of directors are followed. In order to be considered timely for our 2007 annual meeting, written notice of a stockholder's nominee must be received by our Corporate Secretary by January 25, 2007. The notice must include the name and address of the stockholder and nominee; a representation that the stockholder is a holder of record of our stock and intends to appear in person or by proxy at the annual meeting to nominate the nominee; a description of all arrangements or understandings between the stockholder and nominee and any other persons pursuant to which the nomination is made; all other information regarding the nominee as required to be included in a proxy statement filed with the SEC had the nominee been nominated by the board of directors; and the consent of the nominee to serve as a director.

A stockholder desiring to recommend a nominee to the governance and nominations committee should review all of the requirements contained in our bylaws which address the process by which a stockholder may nominate an individual to stand for election to the board. Our bylaws are available on our website at www.mcafee.com under About McAfee.

It is our desire to position our company as a leader in corporate governance best practices. Therefore, the governance and nominations committee will periodically consider whether to adopt a formal policy concerning stockholder recommendations of board nominees.

Stockholder Communications with the Board of Directors

Stockholders who want to communicate directly with the board should send their communications in writing to the attention of our Corporate Secretary at our offices at 5000 Headquarters Drive, Plano, Texas 75024. Our Corporate Secretary will review the communication and deliver it to the director or directors named in the correspondence, provided that it relates to our business and it is not determined to be inappropriate. If the communication requires a response, the Corporate Secretary will prepare and send a response by working with the director or directors named in the correspondence.

Corporate Governance Matters

Although we do not have a formal policy regarding attendance by members of the board of directors at our annual meeting of stockholders, our directors are encouraged to attend. Including our chairman and chief executive officer, three of our board members attended the 2005 annual meeting.

The board of directors has adopted corporate governance guidelines, a code of business conduct and ethics, and a chief executive officer/finance code of ethics, all of which are available on our website at www.mcafee.com under About McAfee, or may be obtained without charge by calling or writing the Corporate Secretary at our corporate headquarters.

Also, during 2005, the board of directors conducted a self-evaluation of its performance.

Under our current Stock Option Plan for Outside Directors non-employee directors are automatically granted an option to purchase 40,000 shares of our common stock when they first become a director, reduced from 50,000 shares in March 2006. Each year after the initial grant they are entitled to receive an additional option grant to purchase up to 20,000 shares of our common stock, reduced from 25,000 shares in March 2006. All options under this plan are granted at the fair market value on the date of grant. The initial grant vests one-third each year over three years from the date of grant. The subsequent grants vest in full three years from the date of grant. All options granted under this plan become fully exercisable in the event of certain mergers, sales of assets or sales of the majority of our voting stock.

Our employee directors are eligible to receive options and be issued shares of common stock directly under the 1997 Stock Incentive Plan and are eligible to participate in our 2002 Employee Stock Purchase Plan and, if an executive officer, to participate in the Executive Bonus Plan.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation committee of the board of directors consists of three independent directors, Messrs. Dutkowsky, O Leary and Pangia. The members of our compensation committee have not served as our employees or officers. The compensation committee is responsible for setting and administering policies governing compensation of executive officers, including the annual Executive Bonus Plan and the 1997 Stock Incentive Plan. In addition, the compensation committee reviews compensation levels of other management level employees, evaluates the performance of management, reviews and makes recommendations regarding the compensation policy for directors and reviews other compensation-related issues.

Compensation Philosophy

Our compensation programs are designed to enable us to attract, motivate, retain and reward executive officers who are likely to contribute to our long-term success and the creation of stockholder value. The compensation committee believes that compensation decisions are complex and best made after a deliberate review of our performance and industry compensation levels. The compensation committee also believes that a strong correlation should exist between executive compensation, business objectives and our overall performance. The compensation committee awards compensation that is based upon company and individual performance, and that is designed to motivate our executive officers to achieve strategic business objectives and to continue to perform at the highest levels. The total compensation paid to our executive officers includes a significant equity component because the compensation committee believes that equity-based compensation aligns the long-term interests of the executive officers and employees with those of our stockholders.

In preparing the performance graph for this proxy statement, we have selected the CRSP Total Return Index for the NASDAQ Stock Market and the CRSP Total Return Industry Index for NASDAQ Computer and Data Processing Services Stock Index (collectively the CRSP Index). The companies which we use for comparison of salary and compensation information are not necessarily those included in the CRSP Index, because they were determined not to be competitive with us for executive talent or because compensation information was not available.

Components of Compensation

There are three components of our executive compensation program that are intended to attract and retain executive officers and to motivate them to improve our financial position and to create value for our stockholders.

Salary

We strive to offer salaries to our executive officers that are competitive with salaries offered by companies of similar size and capitalization in the software industry. Base salaries are reviewed on an annual basis and are subject to adjustment based upon the individual's contribution to us, responsibilities, tenure and changes in salary levels offered by comparable companies. In determining executive officers' salaries, the compensation committee considers information provided by our chief executive officer with respect to individual officer responsibilities and performance, as well as salary surveys and similar data available from independent sources. In addition, the compensation committee makes an independent assessment of the chief executive officer's responsibilities and performance.

Bonuses

Awards under our Executive Bonus Plan for 2005 were contingent upon our achievement of certain performance goals established by the board of directors. For executive officers other than the chief executive officer, awards were also contingent on the achievement of individual performance objectives. Target amounts of bonuses for each executive officer are set annually by the compensation committee and are specifically weighted for identified financial, management, strategic and operational goals. The compensation committee reviews performance against the goals and approves payment of the bonuses. In 2005, bonuses awarded under the plan to Mr. Samenuk, our chief executive officer, totaled \$1,000,000. The bonus received by Mr. Samenuk

Table of Contents

under the plan was 55% of his total cash compensation. Bonuses awarded under the plan in 2005 to other executive officers represented between 35% and 48% of their total cash compensation.

Equity Incentives

The compensation committee believes that employee equity ownership is highly motivating, provides a major incentive to employees in building stockholder value and serves to align the interests of employees with the interests of our stockholders. Annual equity compensation grants for executive officers are a key element of our executive compensation program. In determining the amount of equity compensation to be awarded to executive officers in any fiscal year, the compensation committee considers the position of the officer, the current stock ownership of the officer, the number of shares which continue to be subject to vesting under outstanding options and the expected future contribution of the officer to our performance, giving primary weight to the officer's position and his expected future contributions. In addition, we compare the stock ownership, options and other equity awards held by each officer with the other officers' equity positions and the officer's experience and value to us.

Compensation of the Chief Executive Officer

George Samenuk's annual base salary for 2005 increased from \$800,000 to \$850,000 in the second quarter of 2005. Mr. Samenuk was paid a performance-based bonus of \$1,000,000 in March 2006 for his performance in 2005. Annually, the compensation committee evaluates the chief executive officer based upon both qualitative and quantitative key performance measures including: financial performance, strategic positioning, product excellence, leadership, executive team development, operational processes and control. Following the filing of the Form 10-K, the compensation committee conducts a comprehensive performance review of the chief executive officer, including obtaining a self-assessment from Mr. Samenuk and input from each member of the board of directors. In addition, a performance assessment summary is prepared, reviewed by the board of directors, approved by the compensation committee and then presented to Mr. Samenuk by the compensation committee. As a result of this process, the chief executive officer's salary and maximum bonus eligibility for the then current fiscal year are established. The compensation committee followed this process in determining Mr. Samenuk's 2005 annual base salary and maximum bonus eligibility. The compensation committee's criteria for determining Mr. Samenuk's 2006 annual base salary and maximum bonus eligibility included the successful achievement of key performance measures set during the first quarter of 2005 such as the implementation of strategic direction for the company which, during 2005, included the acquisition of Wireless Security Corporation and the divestiture of McAfee Labs. For 2006, Mr. Samenuk's annual base salary and maximum bonus eligibility have been set at \$900,000 and \$1,350,000, respectively. Payment of Mr. Samenuk's 2006 bonus will be subject to the attainment of certain objectives, including objectives relating to financial performance, the strategic positioning and growth of the company, the quality and depth of our executive team, and the quality and control of our internal processes.

Compensation of Executive Officers

The chief executive officer evaluates the performance of all other executive officers on an annual basis and recommends salary adjustments, which are subject to review and approval by the compensation committee. Performance evaluations for individual executive officers are based both on individual performance and on predetermined individual goals proposed by management and approved by the compensation committee.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits deductions, for federal income tax purposes, of certain executive compensation exceeding \$1,000,000 for any executive officer in any year. Our 1997 Stock Incentive Plan enables compensation recognized in connection with the exercise of options and the vesting or payout of restricted stock or restricted stock units with certain performance-based vesting conditions to qualify as an exception to the deduction limit. The compensation committee will continue to evaluate the issues relating to executive compensation and will take appropriate action where necessary. The compensation

Table of Contents

committee's policy is to consider the impact of deductibility under applicable tax laws when structuring its total executive compensation packages, while retaining the flexibility to design them appropriately.

New Accounting Rules

In January 2006, the company adopted Statement of Financial Accounting Standards No. 123 (SFAS 123(R)) which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. In conjunction with the adoption of SFAS 123(R), we reviewed the company's existing equity compensation programs and made the determination for 2006 to include full-value awards as a component of total equity compensation. As a result of this review, in March 2006 we granted restricted stock units to certain executive officers and employees.

Conclusion

Attracting and retaining talented and motivated executive officers and employees are essential to creating long-term value for our stockholders. Offering a competitive compensation program with a significant equity component helps to achieve this objective by aligning the interests of our executive officers and other key employees with those of our stockholders. The compensation committee believes that our compensation program meets these objectives.

AUDIT COMMITTEE REPORT

The audit committee of the board of directors consists of three independent directors, Messrs. Dutkowsky and Pangia and Ms. Wilson. The members of our audit committee have not served as our employees or officers. The audit committee is responsible for acting on behalf of the board of directors in the oversight of all aspects of our financial reporting, internal control and audit functions. The audit committee has the sole authority and responsibility to select, evaluate, compensate and replace our independent registered public accountants. Our management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls.

In fulfilling its oversight responsibilities, the audit committee reviewed and discussed the audited consolidated financial statements contained in the Annual Report on Form 10-K for the year ended December 31, 2005 with management. The audit committee discussed with management our major financial risk exposures and the steps management has taken to monitor and control such exposure, including our risk assessment and risk management policies. The audit committee also met with our internal auditors, with and without management present, to discuss the overall scope and plans for their audit, and to discuss the results of their examination and evaluation of our internal control over financial reporting.

The audit committee discussed with Deloitte & Touche LLP, our independent registered public accountants, the overall scope and plans for their audit. The audit committee also met with Deloitte, with and without management present, to discuss the results of their examination, management's response to any significant findings, their observations of our internal controls over financial reporting, the overall quality of our financial reporting, the selection, application and disclosure of critical accounting policies, new accounting developments and accounting-related disclosure, the key accounting judgments and assumptions made in preparing the financial statements and whether the financial statements would have materially changed had different judgments and assumptions been made, and other pertinent items related to our accounting, internal controls and financial reporting.

In connection with the audited consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2005, the audit committee also:

reviewed the audited consolidated financial statements with our management and Deloitte;

discussed with Deloitte the materials required to be discussed by Statement of Auditing Standard 61, Communication with Audit Committees;

reviewed the written disclosures and the letter from Deloitte required by Independent Standards Board No. 1, Independence Discussions with Audit Committees;

discussed with representatives of Deloitte the accounting firm's independence from us and management; and

considered whether the provision by Deloitte of non-audit services is compatible with maintaining Deloitte's independence.

During 2005, management completed the documentation, testing and evaluation of our system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The audit committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the audit committee received periodic updates provided by management and Deloitte at each regularly scheduled audit committee meeting. At the conclusion of the process, the audit committee reviewed a report by management on the effectiveness of our internal control over financial reporting. The audit committee also reviewed Deloitte's Report of Independent Registered Public Accounting Firm included in our Annual Report on Form 10-K related to its audit of management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting.

Table of Contents

In reliance on these reviews and discussions, the audit committee recommended to the board of directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Under the 1997 Stock Incentive Plan, the board of directors is allowed to modify the terms of outstanding options. The exercisability of options may be accelerated upon a change in control. Options are cancelled on an optionee's termination of employment under certain specified circumstances.
- (2) All options in this column were granted at an exercise price equal to the fair market value of the common stock on the date of grant.
- (3) These columns present hypothetical future values that might be realized on exercise of the options, less the exercise price. These values assume that the market price of our stock appreciates at a five and ten percent compound annual rate over the term of the options. The stock price appreciation rates are presented as examples pursuant to the SEC's proxy rules and do not necessarily reflect management's assessment of our future stock price performance. The potential realizable values presented are not intended to indicate the value of the options.

The following table shows stock option exercises during the year ended December 31, 2005 and the value of unexercised stock options as of December 31, 2005 held by our chief executive officer and our four other most highly compensated executive officers:

2000 Nonstatutory Stock Option Plan

In January 2000, the board of directors approved the 2000 Nonstatutory Stock Option Plan (the 2000 Plan). The 2000 Plan provides for the grant of nonqualified stock options to employees, consultants and in certain cases, officers and directors. The plan administrator determines the exercise price of options granted under the 2000 Plan and when such options may be exercised. The 2000 Plan provides that vested options may be exercised for three months after termination of employment other than due to death or disability and for one year after termination of employment as a result of death or disability. The 2000 Plan permits options to be exercised with cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 2000 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are 11,500,000 shares of common stock reserved under the 2000 Plan. As of December 31, 2005, no shares remained available for future issuance under the 2000 Plan.

1999 Nonstatutory Stock Plan

The 1999 Plan provides for the grant of nonqualified stock options to employees, officers, directors and consultants at exercises prices determined by the plan administrator. The plan administrator determines the exercise price of options granted under the 1999 Plan and when such options may be exercised. The 1999 Plan permits options to be exercised with cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1999 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are 1,000,000 shares of common stock reserved under the 1999 Plan and there are no

shares available for future issuance under the 1999 Plan.

1997 Non-Officer Stock Plan

In January 1997, the board of directors approved the 1997 Non-Officer Stock Plan (the 1997 Non-Officer Plan). The 1997 Non-Officer Plan provides for the grant of nonqualified nonstatutory stock options to employees and consultants who are not officers of the company at exercise prices determined by the committee administering the plan, but in no event less than 85% of the fair market value of the common stock on the date of the grants. Each stock option agreement entered into under the 1997 Non-Officer Plan shall specify the exercise price, the date on which all or any installment of the option is to become exercisable and the term of the option. The 1997 Non-Officer Plan permits options to be exercised with cash or cash equivalents, certain other shares of common stock, promissory notes (provided, however, that the par value of the shares being purchased shall be paid in cash) and waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1997 Non-Officer Plan provides that the committee administering the plan may determine, at the time of granting an option or thereafter, that all or part of such option shall fully vest and become exercisable. There are 3,000,000 shares of common stock reserved under the 1997 Non-Officer Plan and there are no shares available for future issuance under this plan.

Foundstone, Inc. 2000 Stock Plan

On October 1, 2004, the company completed the acquisition of Foundstone, Inc. In connection with the acquisition, the company assumed the Foundstone, Inc. 2000 Stock Plan (the Foundstone Plan). The Foundstone Plan provides for the grant of incentive stock options, nonqualified nonstatutory stock options and stock purchase rights to employees, directors and consultants of the company and its subsidiaries at exercise prices determined by the committee administering the plan, but in no event less than 85% of the fair market value of the common stock on the date of the grant. However, due to restrictions imposed by the Internal Revenue Service the company will only grant nonqualified nonstatutory stock options under the Foundstone Plan in the future and due to restrictions imposed by the New York Stock Exchange following the acquisition of Foundstone, the company may not grant awards under the Foundstone Plan to individuals who were employed by the company or its subsidiaries, immediately prior to the acquisition of Foundstone. Each stock option agreement entered into under the Foundstone Plan shall specify the exercise price, the date on which all or any installment of the option is to become exercisable and the term of the option. The Foundstone Plan permits options to be exercised with cash or cash equivalents, certain other shares of common stock, promissory notes or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the Foundstone Plan provides that the successor corporation (or a parent or subsidiary) may assume outstanding options and awards under the Plan or substitute a substantially similar option or award. If the successor corporation does not assume or substitute the outstanding options and awards, they will fully vest and become exercisable and all forfeiture restrictions will lapse. There are 747,144 shares of common stock reserved under the Foundstone Plan, of which 370,439 are available for issuance as of April 3, 2006.

APPENDIX A

SUMMARY OF THE 1993 STOCK OPTION PLAN FOR OUTSIDE DIRECTORS

The key provisions of the 1993 Stock Option Plan for Outside Directors (the "Outside Directors Plan") are summarized below. This summary, however, is not intended to be a complete description of all terms of the Outside Directors Plan. A copy of the plan text will be furnished to any stockholder upon request. Such a request should be directed to the Corporate Secretary at the company's principal executive office at 3965 Freedom Circle, Santa Clara, CA 95054.

Each outside director who is elected or re-elected for a term longer than one year is entitled to receive options on the date of election and each year during his or her term. On a director's initial election to the Board, they are automatically granted an option to purchase 40,000 shares and each year after that they are automatically granted an option to purchase 20,000 shares.

Service Required for Exercise

The initial grant made to an Outside Director under the Outside Directors Plan becomes exercisable one-third after one year of continuous service as a director and one-third at the end of each continuous year of service as director for the following two years.

Each grant subsequent to the initial grant is exercisable in full after three years of continuous service as a director.

Number of Shares Reserved

The total number of shares of the company's Common Stock available for grant under the Outside Directors Plan as of April 3, 2006 is 27,185.

The Outside Directors Plan is administered by the Board of Directors and/or by a duly appointed committee with powers specified by the Board (hereinafter referred to as the "Board"). All questions of interpretation of the Outside Directors Plan are determined by the Board, and such determinations are final and binding.

Transfer of Control

For purposes of the Outside Directors Plan, the term "transfer of control" means:

sale or exchange of substantially all of the voting stock of the company;

a merger or consolidation;

sale, exchange or transfer of substantially all of the assets of the company.

In the event of a Transfer of Control, any unexercisable or unvested portion of the outstanding options will become immediately exercisable and vested in full, 10 days prior to the date of the transfer of control.

The Plan is intended to comply with the requirements of Rule 16b-3 under the Exchange Act.
