Commission File Number 1-15817

OLD NATIONAL BANCORP

(Exact name of Registrant as specified in its charter)

INDIANA

(State or other jurisdiction of
incorporation or organization)

35-1539838

(I.R.S. Employer
Identification No.)

1 Main Street

Evansville, Indiana

(Address of principal executive offices)

47708

(Zip Code)

(812) 464-1294

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to the filing requirements for at least the past 90 days. Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock. The Registrant has one class of common stock (no par value) with 68,648,000 shares outstanding at July 31, 2005.

EXPLANATORY NOTE

We are filing this Quarterly Report on Form 10-Q/A (the Amended Report) to correct errors related to Old National Bancorp s derivative accounting under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended. See Note 2 to the consolidated financial statements for further explanation.

For the reason discussed above, we are filing this Amended Report in order to amend Part 1. Item 1. Financial Statements, Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations, Item 3. Quantitative and Qualitative Disclosures about Market Risk, Item 4. Controls and Procedures and Part II, Item 6. certifications in Exhibits 31.1, 31.2, 32.1 and 32.2.

In order to preserve the nature and character of the disclosures set forth in the Original Report, except as expressly noted above, this report speaks as of the date of the filing of the Original Report, August 9, 2005, and we have not updated the disclosures in this report to speak as of the later date. All information contained in this Amended Report is subject to updating and supplementing as provided in our reports filed with the SEC subsequent to the date of the Original Report.

**OLD NATIONAL BANCORP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
NOTE 1 BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements include the accounts of Old National Bancorp and its wholly-owned affiliates (Old National) and have been prepared in conformity with accounting principles generally accepted in the United States of America and prevailing practices within the banking industry. Such principles require management to make estimates and assumptions that affect the reported amounts of assets, liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. All significant intercompany transactions and balances have been eliminated. Certain prior year amounts have been reclassified to conform with the 2005 presentation. Such reclassifications had no effect on net income. In the opinion of management, the consolidated financial statements contain all the normal and recurring adjustments necessary for a fair statement of the financial position of Old National as of June 30, 2005 and 2004, and December 31, 2004, and the results of its operations for the three and six months ended June 30, 2005 and 2004. Interim results do not necessarily represent annual results. These financial statements should be read in conjunction with the 2004 annual financial statements which were restated within Old National s Annual Report on Form 10-K for the year ended December 31, 2005.

NOTE 2 RESTATEMENT

The previously issued consolidated financial statements for the three months and six months ended June 30, 2005 and 2004 have been restated. The restatement is correcting errors related to the Old National s derivative accounting under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended.

Old National has entered into interest rate swap agreements relating to certain of its brokered certificates of deposit and junior subordinated debt that were accounted for as fair value hedges under SFAS No. 133. Old National previously elected the short-cut method of documenting the effectiveness of the swaps as hedges, which allowed Old National to assume no ineffectiveness in these transactions. Old National recently concluded that these swaps did not qualify for the short-cut method in prior periods. Based upon re-examination of the original documentation supporting the designation of these swap transactions as hedges, the Company concluded, in retrospect, that the hedging relationships involving brokered certificates of deposit did not qualify for the short-cut method in prior periods because the related swap did not have a fair value of zero at inception (a requirement under SFAS No. 133 to qualify for the short-cut method). Additionally, the Company determined that the hedging relationships involving junior subordinated debt did not qualify for the short-cut method in prior periods because of an interest deferral feature that permits interest payments to be deferred for up to 20 consecutive quarterly periods without creating an event of default or acceleration. Hedge accounting under SFAS No. 133 for these swap transactions is not allowed retrospectively because the hedge documentation required for the long-haul method was not in place at the inception of the hedge. Eliminating the application of fair value hedge accounting reverses the basis adjustments that were made to the brokered certificates of deposit and junior subordinated debt that originally offset the changes in fair value of the related derivatives. The changes in fair value of the derivatives are now reflected in noninterest income along with the swap net settlements that had been previously reported in interest expense.

Certain reclassifications were made to previously reported balances in order to be consistent with current presentation.

(1)

Old National recorded a \$1.1 million impairment charge in the third quarter of 2005. Based on timing, this charge should have been recorded in the second quarter of 2005, as reflected above.

Table of Contents**CONSOLIDATED STATEMENTS OF INCOME:**

(dollars in thousands)	For the Six Months Ended June 30,

Diluted net income	0.60	0.58	0.44	0.35

Certain reclassifications were made to previously reported balances in order to be consistent with current presentation. (1) Old National recorded a \$1.1 million impairment charge in the third quarter of 2005. Based on timing, this charge should have been recorded in the second quarter of 2005, as reflected above.

Also affected by the restatements were notes 1, 3, 5, 11, 13, 14, 15, 18 and 19 to the consolidated financial statements.

NOTE 3 IMPACT OF ACCOUNTING CHANGES

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment, that requires companies to expense the value of employee stock options and similar awards. Subsequently, the Securities and Exchange Commission (SEC) delayed the effective date of SFAS No. 123R to annual periods beginning after June 15, 2005. Given this delay, Old National expects to adopt SFAS No. 123R in the first quarter of 2006 using the modified prospective method applied to all outstanding and unvested share-based payment awards at the adoption date. Under this method, Old National expects to expense approximately \$1.4 million in 2006 and \$0.1 million in 2007. At June 30, 2005, and until the effective date of SFAS No. 123R, Old National will apply Accounting Principles Board (APB) Opinion No. 25 and related Interpretations in accounting for stock-based compensation plans. Under APB Opinion No. 25, no compensation cost has been recognized for any of the years presented, except with respect to restricted stock plans as disclosed in the accompanying table.

Table of Contents

Old National has presented in the following table net income and net income per share adjusted to proforma amounts had compensation costs for Old National's stock-based compensation plans been recorded based on fair values at grant dates.

(dollars in thousands, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Net income as reported	\$ 25,239	\$ 2,327	\$ 39,811	\$ 24,496
Restricted Stock:				
Add: restricted stock compensation expense included in reported net income, net of related tax effects	617		937

Proforma	0.36	0.02	0.55	0.31

NOTE 4 ACQUISITION

On May 1, 2005, Old National acquired J. W. F. Insurance Companies, an Indianapolis, Indiana-based insurance agency that did business as J.W. Flynn Company and J.W.F. Specialty Company, Inc., for \$19.0 million, including acquisition costs. Common shares of 970,912 were issued as part of the transaction with a stock value of \$18.5 million. Goodwill of \$12.0 million was recorded of which \$3.5 million is expected to be deductible for tax purposes. In addition, intangible assets totaling \$8.4 million related to customer business relationships were recorded and are being amortized over 12 to 22 years. Beginning with the quarter ended June 30, 2005, these acquisitions will be included with the non-bank service companies in the other column of Note 18 Segment Information. In accordance with the purchase agreement, future contingent payments may be paid in relation to this acquisition. These payments, which are not expected to be material, would result in a change to the purchase price and goodwill when paid. On the date of acquisition, unaudited financial statements of the companies showed assets of \$5.0 million with year-to-date revenues of \$4.7 million and net loss of \$0.2 million.

Table of Contents**NOTE 5 NET INCOME PER SHARE**

Restricted stock shares were antidilutive at June 30, 2005, for purposes of calculating diluted net income per share. The following table reconciles basic and diluted net income per share for the three and six months ended June 30:

(dollars and shares in thousands, except per share data)	Three Months Ended June 30, 2005			Three Months Ended June 30, 2004		
	Income	Shares	Amount	Income	Shares	Amount
Basic Net Income Per Share

NOTE 6 INVESTMENT SECURITIES

The following table summarizes the amortized cost and fair value of the available-for-sale and held-to-maturity investment securities portfolio at June 30 and the corresponding amounts of unrealized gains and losses therein:

(dollars in thousands)	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
2005				
Available-for-sale	\$ 2,400,776	\$ 29,565	\$ (28,685)	\$ 2,401,656
Held-to-maturity	187,032	61	(2,196)	184,897
2004				
Available-for-sale	\$ 2,562,271	\$ 28,787	\$ (73,168)	\$ 2,517,890
Held-to-maturity	192,934		(6,724)	186,210

Table of Contents

At June 30, 2005, Old National does not believe any individual unrealized loss represents other-than-temporary impairment. The unrealized losses are primarily attributable to changes in interest rates. Factors considered in evaluating the securities included whether the securities were backed by U.S. Government-sponsored agencies and credit quality concerns surrounding the recovery of the full principal balance. Old National has both the intent and ability to hold securities with any individual unrealized loss for a time necessary to recover the amortized cost.

NOTE 7 LOANS HELD FOR SALE

Residential loans held for sale are recorded at lower of cost or market value determined as of the balance sheet date. Old National's residential loans held for sale have been hedged using fair value hedge accounting in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended. The loans carrying basis reflects the effects of the SFAS No. 133 adjustments. At June 30, 2005 and 2004, Old National had residential loans held for sale of \$53.3 million and \$26.8 million, respectively. As of June 30, 2005 and 2004, ineffectiveness related to the hedge of a portion of the residential loans held for sale was immaterial.

During the second quarter of 2005, commercial loans held for investment of \$26.7 million were reclassified to loans held for sale and sold for \$21.4 million resulting in a write-down on loans transferred to held for sale of \$5.3 million, which was recorded as a reduction to the allowance for loan losses. During the second quarter of 2004, residential real estate loans held for investment of \$405.6 million were reclassified to loans held for sale and sold for \$404.4 million resulting in a write-down on loans transferred to held for sale of \$1.2 million, which was recorded as a reduction to the allowance for loan losses. Also in connection with this transaction, mortgage servicing rights of \$2.7 million were capitalized, and a net gain of \$2.7 million was recognized.

NOTE 8 ALLOWANCE FOR LOAN LOSSES

Activity in the allowance for loan losses was as follows:

(dollars in thousands)	2005	2004
Balance, January 1	\$ 85,749	\$ 95,235
Transfer from allowance for unfunded commitments		755
Additions:		
Provision charged to expense	11,100	15,000
Deductions:		
Write-downs from loans transferred to held for sale	5,348	1,177
Loans charged-off	15,090	18,332
Recoveries	(4,234)	(3,584)
Net charge-offs	16,204	15,925
Balance, June 30	\$ 80,645	\$ 95,065

During 2004, Old National reclassified the allowance for loan losses related to unfunded loan commitments to other liabilities.

The following is a summary of information pertaining to impaired loans at June 30:

(dollars in thousands)	2005	2004
Impaired loans without a valuation allowance	\$ 7,274	\$ 20,911
Impaired loans with a valuation allowance	30,639	63,721
Total impaired loans	\$ 37,913	\$ 84,632

Valuation allowance related to impaired loans	\$ 12,059	\$ 28,035
---	------------------	-----------

A loan is considered impaired under SFAS No. 114, Accounting by Creditors for Impairment of a Loan, an amendment of FASB Statement No. 5 and 15 when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. An impaired loan does not include larger groups of smaller-balance homogeneous loans that are collectively evaluated for impairment, loans that are measured at fair value or at the lower of cost or fair value, leases and debt securities.

Table of Contents

For the six months ended June 30, 2005, the average balance of impaired loans was \$42.4 million for which no interest was recorded. For the six months ended June 30, 2004, the average balance of impaired loans was \$90.1 million for which \$0.4 million of interest was recorded. No additional funds are committed to be advanced in connection with impaired loans. Loans deemed impaired are evaluated primarily using the fair value of the underlying collateral.

NOTE 9 GOODWILL AND OTHER INTANGIBLE ASSETS

At June 30, 2005 and 2004, Old National had goodwill in the amount of \$113.1 million and \$129.3 million, respectively. During the six months ended June 30, 2005, Old National reclassified the assets and liabilities of specific non-strategic companies as held for sale, including \$26.1 million of goodwill. Concurrent with this classification, these discontinued operations were evaluated for impairment using estimated fair values in the current market, resulting in goodwill impairment of \$2.9 million.

The change in the carrying amount of goodwill by segment for the six months ended June 30 was as follows:

(dollars in thousands)	Community Banking	Other	Total
Balance, January 1, 2005	\$ 70,944	\$ 59,003	\$ 129,947
Goodwill acquired during the year		12,020	12,020
Adjustments to goodwill acquired in prior year		150	150
Goodwill transferred to assets held for sale		(26,082)	(26,082)
Goodwill impairment		(2,900)	(2,900)
Balance, June 30, 2005	\$ 70,944	\$ 42,191	\$ 113,135
Balance, January 1, 2004	\$ 70,944	\$ 58,307	\$ 129,251
Adjustments to goodwill acquired in prior year		14	14
Balance, June 30, 2004	\$ 70,944	\$ 58,321	\$ 129,265

At June 30, 2005 and 2004, Old National had \$24.3 million and \$40.3 million, respectively, in unamortized intangible assets. During the six months ended June 30, 2005, Old National reclassified definite-lived intangible assets of \$18.9 million and indefinite-lived assets of \$2.8 million to assets held for sale and discontinued the related amortization. Old National continues to amortize definite-lived intangible assets in continuing operations over the estimated remaining life of each respective asset.

Table of Contents

The following table shows the gross carrying amounts and accumulated amortization for other intangible assets as of June 30:

(dollars in thousands)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
2005			
Amortized intangible assets:			
Core deposit	\$ 5,574	\$ (3,917)	\$ 1,657
Customer business relationships	25,411	(2,733)	22,678
Total intangible assets	\$ 30,985	\$ (6,650)	\$ 24,335
2004			
Amortized intangible assets:			
Core deposit	\$ 5,574	\$ (3,353)	\$ 2,221
Customer business relationships	36,676	(3,104)	33,572
Non-compete agreements	1,100	(110)	990
Technology	1,300	(570)	730
Total amortized intangible assets	44,650	(7,137)	37,513
Unamortized intangible assets:			
Trade name	2,800		2,800
Total intangible assets	\$ 47,450	\$ (7,137)	\$ 40,313

Total amortization expense associated with other intangible assets for the three months ended June 30 was \$0.6 million in 2005 and \$0.5 million in 2004. Year-to-date amortization expense as of June 30, 2005 and 2004, was \$1.2 million and \$0.9 million, respectively.

The following is the estimated amortization expense for the future years ending:

(dollars in thousands)

2005 remaining	\$ 1,275
2006	2,384
2007	2,011
2008	1,880
2009	1,756
Thereafter	15,029
Total	\$ 24,335

NOTE 10 MORTGAGE SERVICING RIGHTS

Mortgage servicing rights derived from loans sold with servicing retained were \$14.6 million and \$17.6 million at June 30, 2005 and 2004, respectively. Loans serviced for others are not included in the consolidated balance sheet of Old National. The unpaid principal balance of mortgage loans serviced for others at June 30 was \$1.937 billion in 2005 and \$2.134 billion in 2004. At June 30, 2005 and 2004, the fair value of capitalized mortgage servicing rights was \$16.9 million and \$21.5 million, respectively. Old National's key economic assumptions used in determining the

fair value of mortgage servicing rights at June 30, 2005 and 2004, respectively, were a weighted average prepayment rate of 305 PSA together with a weighted average discount rate of 9.1% and a weighted average prepayment rate of 223 PSA together with a weighted average discount rate of 9.2%.

Table of Contents

The following summarizes the activities related to mortgage servicing rights and the related valuation allowance at June 30:

(dollars in thousands)	2005	2004
Balance before valuation allowance, January 1	\$ 15,829	\$ 15,790
Rights capitalized	1,514	4,942
Amortization	(2,778)	(3,161)
Balance before valuation allowance, June 30	14,565	17,571
Valuation allowance:		
Balance, January 1		(1,131)
Additions to valuation allowance		(1,940)
Reductions to valuation allowance		3,071
Balance, June 30		
Mortgage servicing rights, net	\$ 14,565	\$ 17,571

NOTE 11 FINANCING ACTIVITIES

The following table summarizes Old National's other borrowings at June 30:

(dollars in thousands)	2005	2004
Old National Bancorp:		
Medium-term notes, Series 1997 (fixed rates 3.50% to 7.03%) maturities August 2007 to June 2008	\$ 110,000	\$ 113,200
Senior unsecured bank note (fixed rate 5.00%) maturity May 2010	50,000	
Junior subordinated debenture (fixed rate 8.00%) maturity April 2032	100,000	150,000
SFAS 133 fair value hedge and other basis adjustments	(3,358)	(4,563)
Old National Bank:		
Securities sold under agreements to repurchase (fixed rates 1.70% to 2.75% and variable rate 4.07%) maturities May 2008 to December 2009	148,000	298,000
Federal Home Loan Bank advances (fixed rates 4.28% to 8.34%) maturities August 2005 to October 2022	384,556	580,116
Senior unsecured bank notes (fixed rate 3.95% and variable rates 3.57% to 3.76%) maturities May 2006 to February 2008	100,000	165,000
Subordinated bank note (fixed rate 6.75%) maturing October 2011	150,000	150,000
Capital lease obligation	4,508	4,536
SFAS 133 fair value hedge and other basis adjustments	3,610	(6,614)
Total other borrowings	\$ 1,047,316	\$ 1,449,675

Table of Contents

Contractual maturities of other borrowings at June 30, 2005, were as follows:

(dollars in thousands)

Due in 2005	\$ 30,068
Due in 2006	78,361
Due in 2007	60,034
Due in 2008	343,037
Due in 2009	76,040
Thereafter	459,524
SFAS 133 fair value hedge and other basis adjustments	252
 Total	 \$ 1,047,316

FEDERAL HOME LOAN BANK

Federal Home Loan Bank advances had weighted-average rates of 5.50% and 5.32% at June 30, 2005 and 2004, respectively. These borrowings are collateralized by investment securities and residential real estate loans up to 150% of outstanding debt.

SUBORDINATED BANK NOTES

Subordinated bank notes qualify as Tier 2 Capital for regulatory purposes and are in accordance with the senior and subordinated global bank note program in which Old National Bank may issue and sell up to a maximum of \$1 billion. Notes issued by Old National Bank under the global note program are not obligations of, or guaranteed by, Old National Bancorp.

JUNIOR SUBORDINATED DEBENTURES

Junior subordinated debentures related to trust preferred securities are classified in other borrowings. These securities qualify as Tier 1 capital for regulatory purposes.

Old National guarantees the payment of distributions on the trust preferred securities issued by ONB Capital Trust II. ONB Capital Trust II issued \$100 million in preferred securities in April 2002. The preferred securities have a liquidation amount of \$25 per share with a cumulative annual distribution rate of 8.0% or \$2.00 per share payable quarterly and maturing on April 15, 2032. Proceeds from the issuance of these securities were used to purchase junior subordinated debentures with the same financial terms as the securities issued by ONB Capital Trust II. Old National may redeem the junior subordinated debentures and thereby cause a redemption of the trust preferred securities in whole (or in part from time to time) on or after April 12, 2007, and in whole (but not in part) following the occurrence and continuance of certain adverse federal income tax or capital treatment events. Costs associated with the issuance of these trust preferred securities totaling \$3.3 million in 2002 were capitalized and are being amortized through the maturity dates of the securities. The unamortized balance is included in other assets in the consolidated balance sheet. In March 2000, ONB Capital Trust I issued \$50 million in preferred securities guaranteed by Old National. Proceeds from the issuance of these securities were used to purchase junior subordinated debentures with the same financial terms as the securities issued by ONB Capital Trust I. In May 2005, Old National redeemed the \$50 million of junior subordinated debentures issued in March 2000, thereby causing a redemption of all of the ONB Capital Trust, 9.5% trust preferred securities. In connection with the redemption, Old National expensed the remaining \$1.7 million of unamortized debt issuance costs related to this debt.

CAPITAL LEASE OBLIGATION

On January 1, 2004, Old National entered into a long-term capital lease obligation for a new branch office building in Owensboro, Kentucky, which extends for 25 years with one renewal option for 10 years. The economic substance of this lease is that Old National is financing the acquisition of the building through the lease and accordingly, the building is recorded as an asset and the lease is recorded as a liability. The fair value of the capital lease obligation was estimated using a discounted cash flow analysis based on Old National's current incremental borrowings rate for similar types of borrowing arrangements.

Table of Contents

At June 30, 2005, the future minimum lease payments under the capital lease were as follows:

(dollars in thousands)

2005 remaining	\$ 186
2006	371
2007	371
2008	371
2009	390
Thereafter	12,874
Total minimum lease payments	14,563
Less amounts representing interest	10,055
Present value of net minimum lease payments	\$ 4,508

NOTE 12 EMPLOYEE BENEFIT PLANS
RETIREMENT PLAN

The following table sets forth the components of the net periodic benefit cost for Old National's noncontributory defined benefit retirement plan for the six months ended June 30:

(dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Service cost	\$ 360	\$ 485	\$ 878	\$ 1,022
Interest cost	891	999	1,784	1,974
Expected return on plan assets	(1,012)	(901)	(1,920)	(1,752)
Amortization of prior service cost	(86)	8	(78)	16
Amortization of transitional asset		(108)		(216)
Recognized actuarial loss	378	392	786	789
Net periodic benefit cost	\$ 531	\$ 875	\$ 1,450	\$ 1,833

STOCK-BASED COMPENSATION

Under the 1999 Equity Incentive Plan, Old National is authorized to grant up to 7.6 million shares of common stock. At June 30, 2005, 6.5 million shares were outstanding under the plan, including 6.0 million stock options and 0.5 million shares of restricted stock as described below, and 1.1 million shares were available for issuance. In addition, Old National assumed 0.1 million stock options outstanding through various mergers. Old National accounts for its stock-based compensation plans in accordance with APB Opinion No. 25 and related Interpretations, under which no compensation cost has been recognized, except with respect to restricted stock plans. See Note 3 for proforma net income and net income per share data.

Stock Options

On February 2, 2004, Old National granted 0.3 million stock options to key associates at an option price of \$20.43, the closing price of Old National's stock on that date. The options vested 100% on December 31, 2004, and expire in ten years. Also during 2004, Old National granted 26.3 thousand shares to a key associate at an option price of \$23.99, the closing price of Old National's stock on that date. These options vest 100% on September 7, 2005, and expire in ten years. At June 30, 2005, Old National had 6.0 million of stock options outstanding.

Restricted Stock

On January 27, 2005, Old National's Board of Directors approved a restricted stock award to grant 0.2 million shares to certain key officers with shares vesting at the end of a thirty-eight month period based on the achievement of certain targets. On July 22, 2004, Old National's Board of Directors approved a restricted stock award to grant 0.3 million shares to certain key officers with shares vesting at the end of a thirty-two month period based on the achievement of certain targets. Compensation expense is recognized on a straight-line basis over the performance period. Shares are subject to certain restrictions and risk of forfeiture by the participants.

Table of Contents

At June 30, 2005, the shares issued have an estimated value of \$10.0 million based on the stock price on that date. The expense recognized during the six months ended June 30, 2005, related to the vesting of these awards was \$1.4 million. The remaining \$7.5 million of deferred compensation is included as a component of capital surplus.

NOTE 13 INCOME TAXES

The following is a summary of the major items comprising the differences in taxes from continuing operations computed at the federal statutory rate and as recorded in the consolidated statement of income for the three months and six months ended June 30:

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Provision at statutory rate of 35%	\$ 10,954	\$ (2,103)	\$ 16,904	\$ 6,822
Tax-exempt income	(4,332)	(4,595)	(8,672)	(9,400)
Other, net	(21)	(570)	(188)	(441)
Income tax expense (benefit)	\$ 6,601	\$ (7,268)	\$ 8,044	\$ (3,019)
Effective tax rate	21.1%	121.0%	16.7%	(15.5)%

For the three months ended June 30, 2005, the effective tax rate was substantially lower than for the three months ended June 30, 2004. For the six months ended June 30, 2005, the effective tax rate was higher than for the six months ended June 30, 2004. The decreased effective tax rate for the three months ended June 30, 2005, resulted from a higher percentage of tax-exempt income to total income compared to the three months ended June 30, 2004; while the increased effective tax rate for the six months ended June 30, 2005, resulted from a lower percentage of tax-exempt income to total income compared to the six months ended June 30, 2004.

NOTE 14 COMPREHENSIVE INCOME

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Net income:	\$ 25,239	\$ 2,327	\$ 39,811	\$ 24,496
Unrealized gains (losses) on securities:				
Unrealized holding gains (losses) arising during the period, net of tax	18,789	(62,283)	(5,010)	(40,354)
Less: reclassification adjustment for securities gain realized in net income, net of tax	(644)	(13)	(333)	(1,163)
Cash flow hedges:				
Net unrealized derivative gains (losses) on cash flow hedges, net of tax	(1,171)	151	585	516
Less: reclassification adjustment on cash flow hedges, net of tax	(10)	47	(76)	94
Net unrealized gains (losses)	16,964	(62,098)	(4,834)	(40,907)
Comprehensive income (loss)	\$ 42,203	\$ (59,771)	\$ 34,977	\$ (16,411)

Table of Contents**NOTE 15 DERIVATIVE FINANCIAL INSTRUMENTS**

Old National designates its derivatives based upon criteria established by SFAS No. 133, as amended by SFAS No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities, an Amendment to FASB Statement No. 133, and SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. The following table summarizes the derivative financial instruments utilized by Old National at June 30:

(dollars in thousands)	Notional Amount	2005 Estimated Fair Value		Notional Amount	2004 Estimated Fair Value	
		Gain	Loss		Gain	Loss
Fair Value Hedges						
Receive fixed interest rate swaps	\$ 782,698	\$ 3,605	\$ (10,382)	\$ 725,393	\$ 351	\$ (18,301)
Pay fixed interest rate swaps	20,000		(601)			
Forward mortgage loan contracts	16,002	33		7,406		(38)
Cash Flow Hedges						
HELOC cash flow	100,000		(813)	100,000	28	(407)
Pay fixed interest rate swaps				120,000	2,342	
Stand Alone Derivatives						
Receive fixed interest rate swaps	456,000	4,328	(3,730)	496,000	6,588	(8,292)
Interest rate lock commitments	52,991	234		37,496	449	
Forward mortgage loan contracts	67,070	12		45,178		(254)
Options on contracts purchased				8,000		(16)
Anticipated floating rate debt	55,000		(798)			
Matched Customer Hedges						
Customer interest rate swaps	161,430	2,538	(403)	50,558	383	(650)
Customer interest rate swaps with counterparty	161,430	403	(2,538)	50,558	650	(383)
Customer interest rate cap	2,300		(10)	15,300		(68)
Customer interest rate cap with counterparty	2,300	10		15,300	68	
Total	\$ 1,877,221	\$ 11,163	\$ (19,275)	\$ 1,671,189	\$ 10,859	\$ (28,409)

NOTE 16 COMMITMENTS AND CONTINGENCIES**LITIGATION**

In the normal course of business, various legal actions and proceedings, which are being vigorously defended, are pending against Old National and its affiliates.

Among these are several lawsuits relating to activities in 1995 of First National Bank & Trust Company, Carbondale, Illinois, (First National), which Old National acquired in 1999. These lawsuits were brought against Old National Bank, as successor to First National, and were filed by alleged third-party creditors of certain structured settlement trusts. The lawsuits filed by the third-party creditors allege actual damages totaling approximately \$31.0 million, as well as unspecified punitive damages and other damages and attorneys' fees. In addition, certain of the corporate defendants in these lawsuits have filed lawsuits asserting contribution and indemnity against Old National Bank. The cases were brought in the City of St. Louis and St. Louis County in Missouri; St. Clair County, Madison County and Cook County in Illinois; and the U.S. Federal District Court in southern Illinois. During the quarter ended March 31, 2005, Old National received summary judgement in its favor in the U.S. Federal District Court case in southern Illinois.

During the fourth quarter of 2003, Old National established a reserve of \$10.0 million for settlement of certain of the lawsuits pending in the City of St. Louis and St. Louis County in Missouri and St. Clair County and Madison County in Illinois. As of March 31, 2004, Old National had paid \$9.1 million of this reserve to settle a number of lawsuits representing approximately \$12.0 million in alleged damages. As of June 30, 2005, the approximate \$0.9

Table of Contents

million remaining in the reserve for litigation settlement is deemed to be adequate to cover the remaining exposure for these cases of approximately \$3.0 million.

Old National has obtained a summary judgement in its favor at the trial court level on lawsuits representing approximately \$16.0 million of the estimated \$31.0 million in exposure. The Court of Appeals for the First District affirmed the decision of the trial court for these cases filed in Cook County, Illinois. The plaintiffs petitioned the Illinois Supreme Court to review the Court of Appeals' decision. As of June 30, 2005, the Illinois Supreme Court has not yet determined whether or not it will review the Court of Appeals' decision. It is uncertain at this time whether any future judgements or settlements in the Cook County matters will have a material impact on Old National's results of operations.

CREDIT-RELATED FINANCIAL INSTRUMENTS

In the normal course of business, Old National's banking affiliates have entered into various agreements to extend credit, including loan commitments of \$1.279 billion, commercial letters of credit of \$4.2 million and standby letters of credit of \$138.2 million at June 30, 2005. At June 30, 2004, loan commitments were \$1.345 billion, commercial letters of credit were \$16.3 million and standby letters of credit were \$101.9 million. These commitments are not reflected in the consolidated financial statements. No material losses are expected to result from these transactions. At June 30, 2005 and 2004, Old National had credit extensions of \$94.7 million and \$72.1 million, respectively, with various unaffiliated banks related to letter of credit commitments issued on behalf of Old National's clients. At June 30, 2005 and 2004, Old National provided collateral to the unaffiliated banks to secure credit extensions totaling \$62.7 million and \$41.3 million, respectively. Old National did not provide collateral for the remaining credit extensions.

NOTE 17 FINANCIAL GUARANTEES

Old National holds instruments, in the normal course of business with clients that are considered financial guarantees in accordance with FIN 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. Standby letters of credit guarantees are issued in connection with agreements made by clients to counterparties. Standby letters of credit are contingent upon failure of the client to perform the terms of the underlying contract. Credit risk associated with standby letters of credit is essentially the same as that associated with extending loans to clients and is subject to normal credit policies. The term of these standby letters of credit is typically one year or less. At June 30, 2005, the notional amount of standby letters of credit was \$138.2 million, which represents the maximum amount of future funding requirements, and the carrying value was \$0.5 million.

NOTE 18 SEGMENT INFORMATION

Old National operates in two reportable segments: community banking and treasury. The community banking segment serves customers in both urban and rural markets providing a wide range of financial services including commercial, real estate and consumer loans; lease financing; checking, savings, time deposits and other depository accounts; cash management services; and debit cards and other electronically accessed banking services and Internet banking. Treasury manages investments, wholesale funding, interest rate risk, liquidity and leverage for Old National. Additionally, treasury provides other miscellaneous capital markets products for its corporate banking clients. Beginning January 1, 2005, Old National disaggregated internal reporting for its non-bank operations, including wealth management, investment consulting, insurance, brokerage and investment and annuity sales. These lines of business are now included in the other column for all periods reported.

In order to measure performance for each segment, Old National allocates capital, corporate overhead and income tax provision to each segment. Capital and corporate overhead are allocated to each segment using various methodologies, which are subject to periodic changes by management. Income taxes are allocated using the effective tax rate. Tax-exempt income is primarily within the treasury segment, creating a tax benefit for this segment. Intersegment sales and transfers are not significant.

Old National uses a funds transfer pricing (FTP) system to eliminate the effect of interest rate risk from net interest income in the community banking segment and from companies included in the other column. The FTP

Table of Contents

system is used to credit or charge each segment for the funds the segments create or use. The net FTP credit or charge is reflected in segment net interest income.

The financial information for each operating segment is reported on the basis used internally by Old National's management to evaluate performance and is not necessarily comparable with similar information for any other financial institution.

Summarized financial information concerning segments is shown in the following table for the three months and six months ended June 30:

(dollars in thousands)	Community Banking	Treasury	Other	Total
Three months ended June 30, 2005				
Net interest income	\$ 64,030	\$ (5,621)	\$ (3,728)	\$ 54,681
Provision for loan losses	5,897	103		6,000

NOTE 19 DISCONTINUED OPERATIONS

In February 2005, Old National committed to a plan to sell selected non-strategic companies, J.W. Terrill Insurance Agency in St. Louis, Missouri, and Fund Evaluation Group in Cincinnati, Ohio, to better align its operations with its market and product focus. The assets and liabilities of these companies are reported as held for sale at lower of cost or market on the consolidated balance sheet at June 30, 2005. The operating activities of these companies have been reclassified to discontinued operations for all periods in the consolidated statement of income. Revenues of \$9.2 million and \$8.9 million with after-tax income of \$0.5 million and \$1.1 million were recorded for the three months ended June 30, 2005 and 2004, respectively. These discontinued operations generated revenues of \$17.7 million and \$17.1 million with after-tax loss of \$0.4 million and income of \$2.0 million for the six months ended June 30, 2005 and 2004, respectively and are reported in the other column for segment reporting.

Subsequent to the quarter ended June 30, 2005, Old National completed the sale of J.W. Terrill Insurance Agency in St. Louis, Missouri. The company was acquired in a tax-free reorganization under Internal Revenue Code section 368. As a result of the taxable sale, Old National expects to record tax expense of approximately \$9.5 million in the third quarter. Actions to locate a buyer for Fund Evaluation Group have been initiated with an expected sale during 2005.

Table of Contents

Carrying amounts of the major classes of assets and liabilities of the discontinued operations included as held for sale were as follows at June 30, 2005:

(dollars in thousands)

Assets held for sale:

Money market investments	\$ 9,120
Available-for-sale securities	11
Premises and equipment, net	371
Goodwill	24,252
Other intangible assets	21,681
Other assets	4,795
 Total assets held for sale	 \$60,230

Liabilities held-for-sale:

Other liabilities	\$14,333
-------------------	----------

Table of Contents**PART I. FINANCIAL INFORMATION****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****RESTATEMENT**

On January 31, 2006, Old National announced that it would restate certain of its previously issued financial statements because they contained errors under GAAP relating to the accounting for certain derivative transactions and other non-significant items. Accordingly, all amounts referred to in the following discussion and analysis, to the extent impacted, have been restated. For additional information regarding this statement, see Note 2 to the consolidated financial statements.

EXECUTIVE SUMMARY

Net income for the three and six months ended June 30, 2005, increased compared to the three and six months ended June 30, 2004, primarily due to a significant decrease in noninterest expense, increases in noninterest income related to gains on derivatives, and lower provisions for loan losses. Noninterest expense in 2004 was impacted by nonrecurring charges related to the company-wide profit improvement project, Ascend. The decrease in the 2005 provision for loan losses is primarily a result of the improvement in Old National's credit quality performance. These improvements were offset by decreases in net interest income and mortgage banking revenue. However, Old National's June 30, 2005 loan balance represented the first quarterly increase in total loans since the three-month period ended June 30, 2001. Related to Old National's plan to sell selected non-strategic companies during 2005, net income includes after-tax income from discontinued operations of \$0.5 million and after-tax losses from discontinued operations of \$0.4 million, respectively, for the three and six months ended June 30, 2005, and \$1.1 million and \$2.0 million, respectively, for the three and six months ended June 30, 2004. See Note 19 to the consolidated financial statements for further discussion of discontinued operations.

Total assets at June 30, 2005, were \$8.649 billion compared to total assets of \$9.041 billion at June 30, 2004, and \$8.898 billion at December 31, 2004. The decrease, primarily reflective of reductions in the investment portfolio with a corresponding decrease in borrowed funds, is an effort to right size the balance sheet in response to the flattening yield curve and resulting narrowing spreads. Partially offsetting this decrease was the addition of \$24.3 million of assets related to the purchase of J. W. F. Insurance Companies on May 1, 2005. Included in total assets at June 30, 2005, was \$60.2 million of assets held for sale related to Old National's plan to sell selected non-strategic companies during 2005. See Note 19 to the consolidated financial statements for further discussion of discontinued operations. Management uses various indicators such as return on assets, return on equity and asset quality ratios in order to evaluate the performance of the business. These are discussed throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations.

FINANCIAL BASIS AND FORWARD-LOOKING STATEMENTS

The following discussion is an analysis of Old National's results of operations for the three months and six months ended June 30, 2005 and 2004, and financial condition as of June 30, 2005, compared to June 30, 2004, and December 31, 2004. This discussion and analysis should be read in conjunction with Old National's consolidated financial statements and related notes. This discussion contains forward-looking statements concerning Old National's business that are based on estimates and involves certain risks and uncertainties. Therefore, future results could differ significantly from management's current expectations and the related forward-looking statements.

The following is a cautionary note about forward-looking statements. In its oral and written communications, Old National from time to time includes forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements can include statements about estimated cost savings, plans and objectives for future operations, and expectations about performance as well as economic and market conditions and trends. These statements often can be identified by the use of words like expect, may, could, intend, project, estimate, believe or anticipate. Old National may include forward-looking statements in filings with the Securities and Exchange Commission, such as this Form 10-Q, in other written materials and in oral statements made by senior management to analysts, investors, representatives of the media and others. It is intended that these forward-looking statements speak only as of the date they are made, and Old

Table of Contents

National undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the forward-looking statement is made or to reflect the occurrence of unanticipated events. By their nature, forward-looking statements are based on assumptions and are subject to risks, uncertainties and other factors. Actual results may differ materially from those contained in the forward-looking statement. Uncertainties which could affect Old National's future performance include, but are not limited to: (1) economic, market, operational, liquidity, credit and interest rate risks associated with Old National's business; (2) economic conditions generally and in the financial services industry; (3) increased competition in the financial services industry either nationally or regionally, resulting in, among other things, credit quality deterioration; (4) volatility and direction of market interest rates; (5) governmental legislation and regulation, including changes in accounting regulation or standards; (6) the ability of Old National to execute its business plan; (7) a weakening of the economy which could materially impact credit quality trends and the ability to generate loans; (8) changes in the securities markets; and (9) changes in fiscal, monetary and tax policies. Investors should consider these risks, uncertainties and other factors in addition to those mentioned by Old National in this and its other filings from time to time when considering any forward-looking statement.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as disclosures found elsewhere in this quarterly report, are based upon Old National's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires Old National to make estimates and judgements that affect the reported amounts of assets, liabilities, revenues and expenses. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of the mortgage servicing rights and the valuation of goodwill and other intangible assets. Actual results could differ from those estimates.

Allowance for Loan Losses. The allowance for loan losses is maintained at a level believed adequate by management to absorb probable losses inherent in the consolidated loan portfolio. Management's evaluation of the adequacy of the allowance is an estimate based on reviews of individual loans, pools of homogeneous loans, assessments of the impact of current and anticipated economic conditions on the portfolio and historical loss experience. The allowance represents management's best estimate, but significant downturns in circumstances relating to loan quality and economic conditions could result in a requirement for additional allowance in the near future. Likewise, an upturn in loan quality and improved economic conditions may allow a reduction in the required allowance. In either instance, unanticipated changes could have a significant impact on results of operations.

The allowance is increased through a provision charged to operating expense. Uncollectible loans are charged-off through the allowance. Recoveries of loans previously charged-off are added to the allowance. A loan is considered impaired when it is probable that contractual interest and principal payments will not be collected either for the amounts or by the dates as scheduled in the loan agreement. Old National's policy for recognizing income on impaired loans is to accrue interest unless a loan is placed on nonaccrual status. A loan is generally placed on nonaccrual status when principal or interest becomes 90 days past due unless it is well secured and in the process of collection, or earlier when concern exists as to the ultimate collectibility of principal or interest.

Old National monitors the quality of its loan portfolio on an on-going basis and uses a combination of detailed credit assessments by relationship managers and credit officers, historic loss trends, and economic and business environment factors in determining its allowance for loan losses. Old National records provisions for loan losses based on current loans outstanding, grade changes, mix of loans and expected losses. A detailed loan loss evaluation on an individual loan basis for the company's highest risk loans is performed quarterly. Management follows the progress of the economy and how it might affect Old National's borrowers in both the near and the intermediate term. Old National has a formalized and disciplined independent loan review program to evaluate loan administration, credit quality and compliance with corporate loan standards. This program includes periodic reviews conducted at the community bank locations as well as regular reviews of problem loan reports, delinquencies and

charge-offs.

Old National uses migration analysis as a tool to determine the adequacy of the allowance for loan losses for non-retail loans that are not impaired. Migration analysis is a statistical technique that attempts to estimate

Table of Contents

probable losses for existing pools of loans by matching actual losses incurred on loans back to their origination. The migration-derived historical commercial loan loss rates are applied to the current commercial loan pools to arrive at an estimate of probable losses for the loans existing at the time of analysis.

Old National calculates migration analysis using several different scenarios based on varying assumptions to evaluate the widest range of possible outcomes. The amounts determined by migration analysis are adjusted for management's best estimate of the effects of current economic conditions, loan quality trends, results from internal and external review examinations, loan volume trends, credit concentrations and various other factors. Historic loss ratios adjusted for expectations of future economic conditions are used in determining the appropriate level of reserves for consumer and residential real estate loans.

Management's analysis of probable losses inherent in the portfolio at June 30, 2005, resulted in a range for allowance for loan losses of \$8.8 million with the potential effect to net income ranging from a decrease of \$3.8 million to an increase of \$2.0 million. These sensitivities are hypothetical and are not guarantees of actual results.

Mortgage Servicing Rights. Mortgage servicing rights are recognized as separate assets when loans are sold with servicing retained. The total price of loans sold is allocated between the loans sold and the mortgage servicing rights retained based on the relative fair values of each. The fair value of capitalized mortgage servicing rights is estimated by calculating the present value of estimated future net servicing income derived from related cash flows. Amortization of capitalized mortgage servicing rights is determined in proportion to and over the period of estimated net servicing income of the underlying financial assets. Impairment of mortgage servicing rights exists if the book value of the mortgage servicing rights exceeds its estimated fair value. In determining impairment, mortgage servicing rights are stratified by interest rates.

Critical assumptions used in determining fair value include expected mortgage loan prepayment rates, discount rates and other economic factors, which are determined based on current market conditions. The expected rates of mortgage loan prepayments are the most significant factors driving the value of mortgage servicing rights. Increases in expected mortgage loan prepayments reduce estimated future net servicing cash flows because the life of the underlying loan is reduced. Fair values are derived by using a statistical modeling technique utilizing third-party market-based prepayment rate assumptions. Negative adjustments to the value, if any, are recognized through a valuation allowance by charges against mortgage servicing income. The use of a valuation allowance enables the recovery of this value as market conditions become more favorable.

A 10% and 20% adverse change in the current prepayment assumptions would decrease the fair value of mortgage servicing rights at June 30, 2005, by approximately \$0.9 million and \$1.6 million, respectively. A 10% and 20% adverse change in the discount rate assumption would decrease the fair value of mortgage servicing rights at June 30, 2005, by \$0.4 million and \$0.9 million, respectively. These sensitivities are hypothetical and are not guarantees of actual results. Also, in reality, changes in one factor may result in changes in other factors, which might magnify or counteract the sensitivities.

Goodwill and Other Intangible Assets. For acquisitions, Old National is required to record the assets acquired, including identified other intangible assets, and the liabilities assumed at their fair value. These often involve estimates based on third-party valuations, such as appraisals, or internal valuations based on discounted cash flow analyses or other valuation techniques that may include estimates of attrition, inflation, asset growth rates or other relevant factors. In addition, the determination of the useful lives for which an intangible asset will be amortized is subjective. Under Statement of Financial Accounting Standards (SFAS) No. 142 Goodwill and Other Intangible Assets, goodwill and indefinite-lived assets recorded must be reviewed for impairment on an annual basis, as well as on an interim basis if events or changes indicate that the asset might be impaired. An impairment loss must be

recognized for any excess of carrying value over fair value of the goodwill or the indefinite-lived intangible asset with subsequent reversal of the impairment loss being prohibited.

The determination of fair values is based on internal valuations using management's assumptions of future growth rates, future attrition, discount rates, multiples of earnings or other relevant factors. Changes in these factors, as well as downturns in economic or business conditions, could have a significant adverse impact on the

Table of Contents

carrying values of goodwill or intangible assets and could result in impairment losses affecting the financials of the company as a whole and the individual lines of business in which the goodwill or intangible assets reside. Management believes the accounting estimates related to the allowance for loan losses; the capitalization, amortization and valuation of mortgage servicing rights; and the valuation of goodwill and other intangible assets are critical accounting estimates because: (1) the estimates are highly susceptible to change from period to period because they require company management to make assumptions concerning, among other factors, the changes in the types and volumes of the portfolios, rates of future prepayments, valuation assumptions and anticipated economic conditions, and (2) the impact of recognizing an impairment or loan loss could have a material effect on Old National's assets reported on the balance sheet as well as net income. Management has discussed the development and selection of these critical accounting estimates with the Audit Committee of the Board of Directors and the Audit Committee has reviewed the company's disclosure relating to it in this Management's Discussion and Analysis.

ACQUISITION AND DIVESTITURES ACTIVITY

On May 1, 2005, Old National acquired J. W. F. Insurance Companies, an Indianapolis, Indiana-based insurance agency that did business as J.W. Flynn Company and J.W.F. Specialty Company, Inc. The purchase price of \$19.0 million included 970,912 common shares issued. Goodwill of \$12.0 million and intangible assets of \$8.4 million were recorded as part of this transaction. See Note 4 to the consolidated financial statements for further details.

During the six months ended June 30, 2005, Old National committed to a plan to sell selected non-strategic companies, J.W. Terrill Insurance Agency in St. Louis, Missouri, and Fund Evaluation Group in Cincinnati, Ohio, to better align its operations with its market and product focus. The assets and liabilities of these identified companies were reported as held for sale at lower of cost or market on the consolidated balance sheet at June 30, 2005, and were included as discontinued operations on the consolidated statement of income for all periods shown. See Note 19 to the consolidated financial statements for further details.

Subsequent to the quarter ended June 30, 2005, Old National completed the sale of J.W. Terrill Insurance Agency in St. Louis, Missouri. The company was acquired in a tax-free reorganization under Internal Revenue Code section 368. As a result of the taxable sale, Old National expects to record approximately \$9.5 million of tax expense in the third quarter of 2005.

RESULTS OF OPERATIONS**Earnings Summary**

Old National reported net income of \$25.2 million for the three months ended June 30, 2005, an increase of \$22.9 million from the \$2.3 million recorded for the three months ended June 30, 2004. For the six months ended June 30, 2005, net income was \$39.8 million, an increase of \$15.3 million, or 62.5% from the \$24.5 million recorded for the six months ended June 30, 2004. On a diluted per share basis, net income was \$0.37 for the three months ended June 30, 2005, compared to \$0.03 for the three months ended June 30, 2004. Diluted earnings per share were \$0.58 for the six months ended June 30, 2005, compared to \$0.35 for the six months ended June 30, 2004.

Related to Old National's plan to sell selected non-strategic companies during 2005, net income includes after-tax income from discontinued operations of \$0.5 million, or \$0.00 per diluted share for the three months ended June 30, 2005, compared to after-tax income from discontinued operations of \$1.1 million, or \$0.02 per diluted share for the three months ended June 30, 2004. Net income for the six months ended June 30, 2005, includes after-tax losses from discontinued operations of \$0.4 million, or a loss of \$0.01 per diluted share compared to after-tax income from discontinued operations of \$2.0 million, or \$0.03 per diluted share for the six months ended June 30, 2004. See Note 19 to the consolidated financial statements for further discussion of discontinued operations. Income from continuing operations was \$24.7 million for the three months ended June 30, 2005, compared to \$1.3 million for the three months ended June 30, 2004. Income from continuing operations was \$40.3 million for the six months ended June 30, 2005, compared to \$22.5 million for the six months ended June 30, 2004.

Operating results for both the three and six months ended June 30, 2005, were favorably impacted by a reduction in noninterest expense, primarily professional fees and salary expense, and a reduction in the provision for loan losses. Operating results for the six months ended June 30, 2005, were favorably impacted by a \$5.2 million increase in

Table of Contents

gains on derivatives. Noninterest expense decreased \$27.9 million and \$35.7 million, respectively, for the three and six months ended June 30, 2005 compared to June 30, 2004. This decrease is primarily the result of \$25.1 million of expenses related to Ascend and to severance payments to three senior executives who left Old National during the first quarter of 2004. In addition, recent corporate initiatives have reduced salary expense during 2005 despite the inclusion of \$1.2 million of personnel expense associated with the recent acquisition of J. W. F. Insurance Companies. These positive factors were offset by decreases in net interest income and mortgage banking revenue as a result of weak loan demand during 2004 and into 2005, more stringent loan underwriting standards, and loan sales.

For the three months ended June 30, 2005, Old National's return on average assets was 1.16% and return on shareholders' equity was 14.56%, compared to 0.10% and 1.30%, respectively, for the three months ended June 30, 2004. Old National's return on average assets for the six months ended June 30, 2005, was 0.91% and return on shareholders' equity was 11.39%, compared to return on average assets of 0.53% and return on shareholders' equity of 6.74% for the six months ended June 30, 2004. Results in 2004 were impacted by nonrecurring expenses related to Ascend.

Net Interest Income

Net interest income is Old National's most significant component of earnings, comprising over 58% of revenues at June 30, 2005. Net interest income and margin are influenced by many factors, primarily the volume and mix of earning assets, funding sources and interest rate fluctuations. Other factors include accelerated prepayments of mortgage-related assets and the composition and maturity of earning assets and interest-bearing liabilities. Loans typically generate more interest income than investment securities with similar maturities. Funding from client deposits generally cost less than wholesale funding sources. Factors, such as general economic activity, Federal Reserve Board monetary policy and price volatility of competing alternative investments, can also exert significant influence on Old National's ability to optimize its mix of assets and funding and its net interest income and margin. Net interest income and net interest margin in the following discussion are presented on a fully taxable equivalent basis, which adjusts tax-exempt or nontaxable interest income to an amount that would be comparable to interest subject to income taxes using the federal statutory tax rate of 35% in effect for all periods. Net income is unaffected by these taxable equivalent adjustments as the offsetting increase of the same amount is made in the income tax section. Net interest income included taxable equivalent adjustments of \$5.5 million and \$6.0 million for the three months ended June 30, 2005 and 2004, respectively. Taxable equivalent adjustments for the six months ended June 30, 2005 and 2004, were \$11.1 million and \$12.1 million, respectively.

Taxable equivalent net interest income was \$60.2 million and \$121.0 million for the three and six months ended June 30, 2005, respectively, down from the \$66.1 million and \$132.2 reported for the three and six months ended June 30, 2004, respectively. The net interest margin was 3.07% and 3.06% for the three and six months ended June 30, 2005, respectively, compared to 3.13% and 3.13% reported for the three and six months ended June 30, 2004, respectively. The reduction in both net interest income and net interest margin is a reflection of the increase in the cost of funding being greater than the increase in earning asset yields.

Average earning assets were \$7.841 billion for the three months ended June 30, 2005, compared to \$8.435 billion for the three months ended June 30, 2004, a decrease of 7.0%, or \$594.4 million. Average earning assets were \$7.901 billion for the six months ended June 30, 2005, compared to \$8.448 billion for the six months ended June 30, 2004, a decrease of 6.5%, or \$547.6 million. Significantly affecting average earning assets at June 30, 2005 compared to June 30, 2004, was the planned reduction to the investment portfolio. Also significantly affecting average earning assets was the sale of \$405.6 million of residential real estate loans at June 30, 2004. In addition, during 2004 and through March 31, 2005, average commercial and commercial real estate loans declined as a result of weak loan demand in Old National's markets, more stringent loan underwriting standards and loan sales. Sales of commercial and commercial real estate loans included \$26.7 million of nonaccrual and substandard commercial and commercial real estate loans during the quarter ended June 30, 2005, and \$43.1 million during the quarter ended December 31, 2004.

Provision for Loan Losses

The provision for loan losses was \$6.0 million and \$11.1 million for the three and six months ended June 30, 2005, respectively, compared to \$7.5 million and \$15.0 million for the three and six months ended June 30, 2004, respectively. The lower provisions in 2005 are attributable to enhanced credit administration and underwriting

Table of Contents

functions that began in 2004 and decreases in total criticized and classified loans during the twelve months ended June 30, 2005. Refer to Allowance for Loan Losses and Asset Quality section for further discussion of non-performing loans, charge-offs and additional items impacting the provision.

Noninterest Income

Old National generates revenues in the form of noninterest income through client fees and sales commissions from its core banking franchise and other related businesses, such as wealth management, investment products and insurance. Noninterest income for the three months ended June 30, 2005, was \$46.2 million, an increase of \$13.2 million, or 40.1% from the \$33.0 million reported for the three months ended June 30, 2004. For the six months ended June 30, 2005, noninterest income was \$79.2 million, a decrease of \$0.6 million, or 0.7% from the \$79.8 million reported for the six months ended June 30, 2004.

Net securities gains increased by \$1.0 million for the three months ended June 30, 2005 compared to June 30, 2004, and decreased by \$1.5 million for the six months ended June 30, 2005 compared to June 30, 2004. Derivatives gains increased by \$17.4 million for the three months ended June 30, 2005 compared to June 30, 2004, and increased by \$5.2 million for the six months ended June 30, 2005 compared to June 30, 2004. Total noninterest income excluding net securities and derivatives gains was \$37.1 million and \$73.4 million for the three and six months ended June 30, 2005, respectively, compared to \$42.2 million and \$77.7 million for the three and six months ended June 30, 2004, respectively. The decrease in noninterest income excluding securities and derivatives gains was primarily attributable to a decrease in mortgage banking revenue. Mortgage banking revenue was \$1.3 million for the three months ended June 30, 2005, compared to \$7.1 million for the three months ended June 30, 2004, a \$5.9 million decrease. For the six months ended June 30, 2005, mortgage banking revenue was \$2.6 million compared to \$6.8 million for the six months ended June 30, 2004, a \$4.2 million decrease. The decrease is primarily due to the \$405.6 million residential real estate loan sale during the second quarter of 2004 that resulted in a \$2.7 million gain and the \$2.6 million recovery of a mortgage servicing rights valuation allowance.

Noninterest Expense

Noninterest expense for the three months ended June 30, 2005, totaled \$63.6 million, a decrease of \$27.9 million or 30.5%, from the \$91.5 million recorded for the three months ended June 30, 2004. For the six months ended June 30, 2005, noninterest expense was \$129.7 million, a decrease of \$35.7 million, or 21.6% from the \$165.4 million recorded for the six months ended June 30, 2004.

Salaries and benefits, the largest component of noninterest expense, was \$38.7 million for the three months ended June 30, 2005, compared to \$48.1 million for the three months ended June 30, 2004, a decrease of \$9.3 million. For the six months ended June 30, 2005, salaries and benefits amounted to \$77.8 million compared to \$92.3 million for the six months ended June 30, 2004, a decrease of \$14.5 million. Salaries and benefits in 2004 include nonrecurring expenses related to Ascend, including severance costs for employees whose positions were eliminated and expenses related to incentive programs for employees participating in Ascend. Also included in salaries and benefits for the six months ended June 30, 2004, was \$2.9 million of severance expense related to three senior executives, including the chief executive officer, who left the company during the first quarter of 2004. Recent corporate Ascend initiatives have reduced salary expense during 2005 despite the inclusion of \$1.2 million of personnel expense associated with the recent acquisition of J. W. F. Insurance Companies.

Professional fees totaled \$2.0 million for the three months ended June 30, 2005, compared to \$16.9 million for the three months June 30, 2004. For the six months ended June 30, 2005, professional fees were \$4.1 million compared to \$19.9 million for the six months ended June 30, 2004. The decrease in professional fees was primarily attributable to consulting fees paid during 2004 in connection with Ascend.

All other components of noninterest expense totaled \$22.9 million for the three months ended June 30, 2005, compared to \$26.5 million for the three months ended June 30, 2004. For the six months ended June 30, 2005 and 2004, all other components of noninterest expense totaled \$47.8 million and \$53.1 million, respectively. Included in the totals for 2005 is a \$3.0 million decrease in expense for a reduction in the reserve for unfunded commitments due to a refinement in management's estimates.

Table of Contents**Provision for Income Taxes**

Old National records a provision for income taxes currently payable and for income taxes payable or benefits to be received in the future, which arise due to timing differences in the recognition of certain items for financial statement and income tax purposes. The major difference between the effective tax rate applied to Old National's financial statement income and the federal statutory tax rate is caused by interest on tax-exempt securities and loans. The provision for income taxes on continuing operations, as a percentage of pre-tax income, was 21.1% for the three months ended June 30, 2005, compared to an income tax provision of 121.0% in the three months ended June 30, 2004. The provision for income taxes on continuing operations, as a percentage of pre-tax income, was 16.7% for the six months ended June 30, 2005, compared to a 15.5% income tax benefit for the six months ended June 30, 2004. The increased effective tax rate for the six month period ended June 30, 2005, resulted from a lower percentage of tax-exempt income to total income compared to the same six month period ended in 2004.

FINANCIAL CONDITION**Overview**

Old National's assets at June 30, 2005, were \$8.649 billion, a 4.3% decrease compared to June 30, 2004 assets of \$9.041 billion, and an annualized decrease of 5.6% compared to December 31, 2004 assets of \$8.898 billion. Investments decreased \$122.1 million since June 30, 2004, and decreased \$374.5 million since December 31, 2004. Loans decreased \$88.7 million since June 30, 2004, and increased \$53.6 million since December 31, 2004. Total liabilities decreased \$422.1 million compared to June 30, 2004, and decreased \$247.3 million since December 31, 2004, primarily from a reduction in borrowings. Total shareholders' equity increased \$29.2 million from June 30, 2004, and decreased \$2.5 million from December 31, 2004. The increase in shareholders' equity from June 30, 2004 is primarily attributable to the changes in the unrealized gains on investment securities and the issuance of \$18.5 million in stock for the acquisition of J. W. F. Insurance Companies. At June 30, 2005, accumulated other comprehensive income, of which the largest component is unrealized gains (losses) on securities, was a net loss of \$0.5 million compared to a net loss of \$26.3 million at June 30, 2004.

Earning Assets

Old National's earning assets are comprised of loans and loans held for sale, investment securities and money market investments. Earning assets were \$7.728 billion at June 30, 2005, a decrease of 5.5% from June 30, 2004, and an annualized decrease of 7.1% since December 31, 2004. Much of the decrease is attributable to decreases in investment securities and money market investments as Old National has reduced its investment portfolio in response to the flattening of the yield curve and the desire to reduce its sensitivity to rising interest rates.

Investment Securities

Old National classifies investment securities primarily as available-for-sale to give management the flexibility to sell the securities prior to maturity if needed, based on fluctuating interest rates or changes in the company's funding requirements. Emerging Issues Task Force (EITF) Issue 03-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments, may potentially affect the treatment of investments in an unrealized loss position. Until final guidance is issued by the FASB, it is uncertain whether this EITF Issue will have a material impact on Old National. At June 30, 2005, Old National does not believe any individual unrealized loss on available-for-sale securities represents other-than-temporary impairment. The unrealized losses are primarily attributable to changes in interest rates. Old National has both the intent and ability to hold the securities for a time necessary to recover the amortized cost.

At June 30, 2005, the investment securities portfolio was \$2.638 billion compared to \$2.760 billion at June 30, 2004, a decrease of \$122.1 million or 4.4%. Investment securities decreased \$374.5 million at June 30, 2005, compared to December 31, 2004, an annualized decrease of 24.9%. Investment securities represented 34.1% of earning assets at June 30, 2005, compared to 33.8% at June 30, 2004, and 37.6% at December 31, 2004. Old National has reduced the size of the investment portfolio to reduce its sensitivity to rising interest rates.

The investment securities available-for-sale portfolio had net unrealized gains of \$0.9 million at June 30, 2005, an increase of \$45.3 million compared to net unrealized losses of \$44.4 million at June 30, 2004, and a decrease of \$8.4 million compared to net unrealized gains of \$9.3 million at December 31, 2004. These changes were primarily the result of higher market interest rates and a smaller portfolio of securities available-for-sale at June 30, 2005.

Table of Contents

The investment portfolio had an average life of 4.10 years at June 30, 2005, compared to 5.05 years at June 30, 2004, and 4.41 years at December 31, 2004. The average yields on investment securities, on a taxable equivalent basis, were 4.57% for the three months ended June 30, 2005, compared to 4.57% for the three months ended June 30, 2004, and 4.45% for the three months ended December 31, 2004. Average yields on investment securities, on a taxable equivalent basis, were 4.51%, 4.60% and 4.56% for the six months ended June 30, 2005 and 2004, and for the year ended December 31, 2004, respectively.

Residential Loans Held for Sale

Residential loans held for sale were \$53.3 million at June 30, 2005, compared to \$26.8 million at June 30, 2004, and compared to \$22.5 million at December 31, 2004. Residential loans held for sale are loans that are closed, but not yet sold on the secondary market. The amount of residential loans held for sale on the balance sheet varies depending on the timing of originations and loan sales to the secondary market.

Lending and Loan Administration

Old National has implemented certain credit approval disciplines in order to continue to focus on the reduction of problem and non-performing loans in the portfolio, including a restructuring of the manner in which commercial loans are analyzed and approved. Community-based credit personnel, which now include independent underwriting and analytic support staff, extend credit under guidelines established and administered by Old National's Credit Policy Committee. This committee, which meets quarterly, includes members from both the holding company and the bank, as well as outside directors. The committee monitors credit quality through its review of information such as delinquencies, problem loans and charge-offs and regularly reviews the loan policy to assure it remains appropriate for the current lending environment.

Old National lends primarily to small- and medium-sized commercial and commercial real estate clients in various industries including manufacturing, agribusiness, transportation, mining, wholesaling and retailing. As measured by Old National at June 30, 2005, the company had no concentration of loans in any single industry exceeding 10% of its portfolio and had no exposure to foreign borrowers or lesser-developed countries. Old National's policy is to concentrate its lending activity in the geographic market areas it serves, primarily Indiana, Illinois and Kentucky. Old National continues to be affected by weakness in the economy of its principal markets, particularly in its home state of Indiana, which until the three months ended June 30, 2005, has resulted in a decline of commercial loans and tighter credit underwriting standards. During the second quarter of 2005, Old National began to experience growth in commercial loans.

Commercial and Consumer Loans

Commercial and consumer loans are the largest classification within the earning assets of Old National representing 57.9% of earning assets at June 30, 2005, an increase from 55.9% at June 30, 2004, and an increase from 55.0% at December 31, 2004. At June 30, 2005, commercial and commercial real estate loans were \$3.243 billion, a decrease of \$134.7 million since June 30, 2004, and an increase of \$39.0 million since December 31, 2004. These changes include commercial and commercial real estate loan sales of \$26.7 million during the three months ended June 30, 2005, and \$43.1 million during the three months ended December 31, 2004.

At June 30, 2005, consumer loans, including automobile loans, personal and home equity loans and lines of credit, and student loans, increased \$36.1 million or 3.0% compared to June 30, 2004, and increased \$25.5 million or, annualized, 4.2% since December 31, 2004, partly due to enhancements to marketing and customer contact programs.

Residential Real Estate Loans

Residential real estate loans, primarily 1-4 family properties, have decreased in significance to the loan portfolio over the past five years due to higher levels of loan sales into the secondary market, primarily to Federal Home Loan Mortgage Corporation and Federal National Mortgage Association. Old National sells the majority of residential real estate loans it originates as a strategy to better manage interest rate risk and liquidity. These loans are sold with loan servicing retained in order to maintain customer relationships and generate noninterest income and fees. By using this strategy, Old National is able to recognize an immediate gain in noninterest income versus a small net interest income spread over a longer period of time. Old National sells the majority of the residential real estate loans without recourse, currently having less than 1% of loans sold with recourse.

Table of Contents

At June 30, 2005, residential real estate loans were \$544.6 million, an increase of \$9.9 million or 1.9% from June 30, 2004. Since the sale of \$405.6 million of residential real estate loans during the three months ended June 30, 2004, the level of residential real estate loans has been relatively stable.

Allowance for Loan Losses and Asset Quality Administration

Old National monitors the quality of its loan portfolio on an on-going basis and uses a combination of detailed credit assessments by relationship managers and credit officers, historic loss trends, and economic and business environment factors in determining its allowance for loan losses. Old National records provisions for loan losses based on current loans outstanding, grade changes, mix of loans and expected losses. A detailed loan loss evaluation on an individual loan basis for the company's highest risk loans is performed quarterly. Management follows the progress of the economy and how it might affect Old National's borrowers in both the near and the intermediate term. Old National has a formalized and disciplined independent loan review program to evaluate loan administration, credit quality and compliance with corporate loan standards. This program includes periodic reviews conducted at the community bank locations as well as regular reviews of problem loan reports, delinquencies and charge-offs.

Each month, problem loan reports are prepared and reviewed, which include borrowers that show indications of being unable to meet debt obligations in the normal course of business, and loans which have other characteristics deemed by bank management to warrant special attention or have been criticized by regulators in the examination process. Classified loans include non-performing loans, past due 90 days or more and other loans deemed to have well-defined weaknesses while criticized loans, also known as special mention loans, are loans that are deemed to have potential weaknesses that deserve management's close attention and also require specific monthly reviews by the bank. Assets determined by the various evaluation processes to be under-performing receive special attention by Old National management. Under-performing assets consist of: 1) nonaccrual loans where the ultimate collectibility of interest or principal is uncertain; 2) loans renegotiated in some manner, primarily to provide for a reduction or deferral of interest or principal payments because the borrower's financial condition deteriorated; 3) loans with principal or interest past due ninety (90) days or more; and 4) foreclosed properties.

A loan is generally placed on nonaccrual status when principal or interest become 90 days past due unless it is well secured and in the process of collection, or earlier when concern exists as to the ultimate collectibility of principal or interest. When loans are classified as nonaccrual, interest accrued during the current year is reversed against earnings; interest accrued in the prior year, if any, is charged to the allowance for loan losses. Cash received while a loan is classified as nonaccrual is recorded to principal.

Adjustments to the allowance for loan losses are made as deemed necessary for probable losses inherent in the portfolio. While an estimate of probable losses is, by its very nature, difficult to precisely predict, management of Old National believes that the methodology that it uses in determining an appropriate reserve for expected losses is reasonable.

Loan officers and credit underwriters jointly grade the larger commercial and commercial real estate loans in the portfolio periodically as determined by loan policy requirements or determined by specific guidelines based on loan characteristics as set by management and banking regulation. Periodically, these loan grades are reviewed independently by the loan review department. For impaired loans, an assessment is conducted as to whether there is likely loss in the event of default. If such a loss is determined to be likely, the loss is quantified and a specific reserve is assigned to the loan. For the balance of the commercial and commercial real estate loan portfolio, loan grade migration analysis coupled with historic loss experience within the respective grades is used to develop reserve requirement ranges based on expected losses.

A loan is considered impaired under SFAS No. 114, Accounting by Creditors for Impairment of a Loan, an amendment of FASB Statement No. 5 and 15 when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. An impaired loan does not include larger groups of smaller-balance homogeneous loans that are collectively evaluated for impairment, loans that are measured at fair value or at the lower of cost or fair value, leases and debt securities.

Table of Contents

Old National uses migration analysis as a tool to determine the adequacy of the allowance for loan losses for non-retail loans that are not impaired. Migration analysis is a statistical technique that attempts to estimate probable losses for existing pools of loans by matching actual losses incurred on loans back to their origination. The migration-derived historical commercial loan loss rates are applied to the current commercial loan pools to arrive at an estimate of probable losses for the loans existing at the time of analysis.

Old National calculates migration analysis using several different scenarios based on varying assumptions to evaluate the widest range of possible outcomes. The amounts determined by migration analysis are adjusted for management's best estimate of the effects of current economic conditions, loan quality trends, results from internal and external review examinations, loan volume trends, credit concentrations and various other factors. Historic loss ratios adjusted for expectations of future economic conditions are used in determining the appropriate level of reserves for consumer and residential real estate loans.

Allowance for Loan Losses and Asset Quality

At June 30, 2005, the allowance for loan losses was \$80.6 million, a decrease of \$14.5 million compared to \$95.1 million at June 30, 2004, and a decrease of \$5.1 million compared to \$85.7 million at December 31, 2004. As a percentage of total loans held for investment, the allowance decreased to 1.59% at June 30, 2005, from 1.85% at June 30, 2004, and decreased from 1.72% at December 31, 2004. For the three months ended June 30, 2005, the provision for loan losses amounted to \$6.0 million, a decrease of \$1.5 million from the three months ended June 30, 2004. The provision for the six months ended June 30, 2005, amounted to \$11.1 million compared to \$15.0 million for the six months ended June 30, 2004. Reductions in nonperforming loans during 2004 and the first six months of 2005 were significant factors in the decrease of the allowance for loan losses. Other factors included the sales of \$26.7 million of nonaccrual and substandard commercial and commercial real estate loans during 2005, sales of \$405.6 million of residential real estate loans and \$43.1 million of nonaccrual commercial and commercial real estate loans during 2004, changes to separate the loan production functions from the underwriting functions, significant strengthening of the commercial underwriting processes and the elevation of the Credit Policy Committee to a board level committee to improve credit quality.

Charge-offs, net of recoveries, totaled \$11.7 million for the three months ended June 30, 2005, a decrease of \$0.8 million from the three months ended June 30, 2004. Net charge-offs for the six months ended June 30, 2005, totaled \$16.2 million compared to \$16.0 million for the six months ended June 30, 2004. Charge-offs included write-downs of \$5.3 million and \$1.2 million on loans sold during the three months ended June 30, 2005 and 2004, respectively. Net charge-offs to average loans were 0.93% and 0.65% for the three months and six months ended June 30, 2005, respectively, as compared to 0.89% and 0.57% for the three months and six months ended June 30, 2004.

Under-performing assets totaled \$55.8 million at June 30, 2005, lower than \$65.6 million at December 31, 2004, and significantly lower than \$102.9 million at June 30, 2004. As a percent of total loans and foreclosed properties, under-performing assets at June 30, 2005, were 1.10%, a reduction from the December 31, 2004, ratio of 1.31% and the June 30, 2004 ratio of 2.00%. Nonaccrual loans were \$49.0 million at June 30, 2005, compared to \$54.9 million at December 31, 2004, and \$97.6 million at June 30, 2004. Management will continue its efforts to reduce the level of under-performing loans and may consider the possibility of additional sales of troubled and non-performing loans, which could result in additional write-downs to the allowance for loan losses.

Total classified and criticized loans were \$264.8 million at June 30, 2005, a decrease of \$75.6 million from December 31, 2004, and \$227.7 million from June 30, 2004.

Management believes it has taken a prudent approach to the evaluation of under-performing, criticized and classified loans, and the loan portfolio in general both in acknowledging the portfolio's general condition and in establishing the allowance for loan losses. Old National has been affected by weakness in the economy of its markets, which has resulted in minimal growth of commercial loans and tighter credit underwriting standards. Management expects that trends in under-performing, criticized and classified loans will be influenced by the degree to which the economy strengthens. Old National operates in the Midwest, primarily in the state of Indiana, which has been particularly negatively affected by the weakness in the manufacturing segment of the economy. The longer the significant softness in manufacturing continues the more stress it puts on Old National's borrowers, increasing the potential for additional

nonaccrual loans.

Table of Contents

The table below shows the various components of under-performing assets:

(dollars in thousands)	June 30,		December
	2005	2004	31,
			2004
Nonaccrual loans	\$ 48,996	\$ 97,620	\$ 54,890
Renegotiated loans			
Past due loans (90 days or more)	2,421	1,354	2,414
Foreclosed properties	4,341	3,879	8,331
Total under-performing assets	\$ 55,758	\$ 102,853	\$ 65,635
Classified loans (includes nonaccrual, renegotiated, past due 90 days and other problem loans)	\$ 158,620	\$ 307,873	\$ 192,214
Criticized loans	106,149	184,548	148,118
Total criticized and classified loans	\$ 264,769	\$ 492,421	\$ 340,332
Asset Quality Ratios: (1)			
Non-performing loans/total loans (1) (2)	0.97%	1.90%	1.10%
Under-performing assets/total loans and foreclosed properties (1)	1.10	2.00	1.31
Under-performing assets/total assets	0.64	1.14	0.74
Allowance for loan losses/under-performing assets	144.63	92.43	130.65

(1) Items referring to loans are net of unearned income and include residential loans held for sale.

(2) Non-performing loans include nonaccrual and renegotiated loans.

Goodwill and Other Intangible Assets

Goodwill and other intangible assets at June 30, 2005, totaled \$137.5 million, a decrease of \$32.1 million and \$31.3 million, respectively, compared to \$169.6 million at June 30, 2004, and \$168.8 million at December 31, 2004. These decreases in goodwill and other intangible assets at June 30, 2005, are primarily the result of the reclassification of \$47.8 million in goodwill and other intangible assets to assets held for sale in connection with Old National's plan to sell selected non-strategic companies. In addition, concurrent with this reclassification, these discontinued operations were evaluated for impairment using estimated fair values in the current market, resulting in goodwill impairment of \$2.9 million. See Note 9 to the consolidated financial statements for further details. These decreases are partially offset by the addition of \$20.4 in goodwill and intangible assets related to the May 1, 2005 acquisition of J. W. F. Insurance Companies as discussed under Acquisition and Divestitures Activity in this Management's Discussion and

Analysis of Financial Condition and Results of Operations.

Assets Held For Sale

Assets held for sale totaling \$60.2 million at June 30, 2005, are comprised primarily of money market investments, goodwill and other intangible assets related to discontinued operations. See Note 19 to the consolidated financial statements for further details.

Funding

Total funding, comprised of deposits and wholesale borrowings, was \$7.839 billion at June 30, 2005, a decrease of 4.8% from \$8.231 billion at June 30, 2004, and an annualized decrease of 5.8% from \$8.073 billion at December 31, 2004. Included in total funding were deposits of \$6.324 billion at June 30, 2005, a decrease of 0.5% compared to June 30, 2004, and an annualized decrease of 2.9% compared to December 31, 2004.

Old National uses wholesale funding to augment deposit funding and to help maintain its desired interest rate risk position. At June 30, 2005, wholesale borrowings, including short-term borrowings and other borrowings, decreased 19.2% and 16.8%, annualized, from June 30, 2004, and December 31, 2004, respectively. Wholesale borrowings as a percentage of total funding was 19.3% at June 30, 2005, compared to 22.8% at June 30, 2004, and 20.5% at December 31, 2004. The lower level of earning assets, primarily due to loan sales of \$26.7 million during 2005 and \$448.7 million during 2004, and a planned reduction of the investment portfolio during 2005, reduced the company's reliance on wholesale funding.

Table of Contents**Accrued Expenses and Other Liabilities**

Accrued expenses and other liabilities were \$93.1 million at June 30, 2005, a decrease of \$45.1 million or 32.6% from June 30, 2004, and a decrease of \$28.1 million or 46.3%, annualized, from December 31, 2004. The decreases were primarily related to accrued expenses and other liabilities at J.W. Terrill Insurance Agency in St. Louis, Missouri, which Old National has committed to a plan to sell. As such, these accrued expenses and other liabilities were reclassified to liabilities held for sale.

Capital Resources and Regulatory Guidelines

Shareholders' equity totaled \$701.6 million at June 30, 2005, compared to \$672.4 million at June 30, 2004, and \$704.1 million at December 31, 2004.

Old National paid cash dividends of \$0.19 and \$0.38 per share for the three months and six months ended June 30, 2005, respectively, which decreased equity by \$26.0 million, compared to cash dividends of \$0.18 and \$0.36 per share for the three months and six months ended June 30, 2004, respectively, (restated for the 5% stock dividend distributed on January 26, 2005), which decreased equity by \$25.2 million. Old National purchased shares of its stock in the open market under an ongoing repurchase program, reducing shareholders' equity by \$33.0 million during the six months ended June 30, 2005, and \$16.1 million during the six months ended June 30, 2004. The change in unrealized losses on investment securities decreased equity by \$5.0 million during the six months ended June 30, 2005, and \$40.4 million during the six months ended June 30, 2004. Shares reissued for stock options and stock purchase plans increased shareholders' equity by \$3.0 million during the six months ended June 30, 2005, compared to \$9.3 million during the six months ended June 30, 2004. Additionally, stock issued for acquisitions increased shareholders' equity by \$18.5 million in the six months ended June 30, 2005.

Old National filed an S-3 Registration Statement with the Securities and Exchange Commission for the purpose of amending the Old National Bancorp Stock Purchase and Dividend Reinvestment Plan, which became effective on January 6, 2005. The plan has two main purposes. First, the plan allows investors and shareholders a convenient, low-cost way to buy shares and reinvest cash dividends in additional shares of Old National common stock. Secondly, the plan gives Old National the ability to raise capital by selling newly issued shares of common stock. A key feature is the ability for Old National to sell newly issued shares at a discount from the market price. Common stock totaling 3.5 million shares can be issued under this plan.

Old National and the banking industry are subject to various regulatory capital requirements administered by the federal banking agencies. Old National's consolidated capital position remains strong as evidenced by the following comparisons of key industry ratios.

	Regulatory			
	Guidelines	June 30,		December
	Minimum	2005	2004	31,
				2004
Risk-based capital:				
Tier 1 capital to total avg assets (leverage ratio)	4.00%	7.23%	7.46%	7.69%
Tier 1 capital to risk-adjusted total assets	4.00	10.08	11.30	11.19
Total capital to risk-adjusted total assets	8.00	13.79	15.05	14.92
Shareholders' equity to assets	N/A	8.11	7.44	7.91

Table of Contents

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
MARKET RISK MANAGEMENT**

Inherent in Old National's balance sheet is market risk, defined as the sensitivity of income, fair market values and capital to changes in interest rates, foreign currency exchange rates, commodity prices and other relevant market rates or prices. The primary market risk to which Old National has exposure is interest rate risk. Interest rate risk arises because assets and liabilities may reprice, mature or prepay at different times or based upon different market instruments as market interest rates change. Changes in the slope of the yield curve and the pace of interest rate changes may also impact net interest income and the fair value of the balance sheet.

Old National manages interest rate risk within an overall asset and liability management framework that includes attention to credit risk, liquidity risk and capitalization. A principal objective of asset/liability management is to manage the sensitivity of net interest income to changing interest rates. Asset and liability management activity is governed by a policy reviewed and approved annually by the Board of Directors. The Board of Directors has delegated the administration of this policy to the Funds Management Committee, a committee of the Board of Directors, and the Balance Sheet Management Committee, a committee comprised of senior company management. The Funds Management Committee meets quarterly and oversees adherence to policy and recommends policy changes to the Board. The Balance Sheet Management Committee meets monthly and provides guidance to Treasury and other operating units of the company regarding the execution of asset/liability management strategies.

Old National uses two modeling techniques to quantify the impact of changing interest rates on the company, Net Interest Income at Risk and Economic Value of Equity. Net Interest Income at Risk is used by management and the Board of Directors to evaluate the impact of changing rates over a two-year horizon. Economic Value of Equity is used to evaluate long-term interest rate risk. These models simulate the likely behavior of the company's net interest income and the likely change in the company's economic value due to changes in interest rates under various possible interest rate scenarios. Because the models are driven by expected behavior in various interest rate scenarios and many factors besides market interest rates affect the company's net interest income and value, Old National recognizes that model outputs are not guarantees of actual results. For this reason, Old National models many different combinations of interest rates and balance sheet assumptions to best understand its overall sensitivity to market interest rate changes. Old National's Board of Directors, through its Funds Management Committee, monitors the company's interest rate risk. On January 26, 2005, the Funds Management Committee approved new policy guidelines for the allowable change in Net Interest Income at Risk and Economic Value of Equity to enhance the monitoring of compliance within identified interest rate risk exposure zones.

Table of Contents

Policy guidelines, in addition to June 30, 2005 and 2004 results, are as follows.

Net Interest Income 12 Month Policies (+/-)

	Interest Rate Change in Basis Points (bp)									
	Down 200		Down 100		Up 100		Up 200		Up 300	
Green Zone	6.50%		3.00%		3.00%		6.50%		12.00%	
Yellow Zone	6.50%	8.50%	3.00%	4.00%	3.00%	4.00%	6.50%	8.50%	12.00%	15.00%
Red Zone	8.50%		4.00%		4.00%		8.50%		15.00%	
6/30/2005	1.58%		1.63%		-3.71%		-8.07%		-13.38%	
6/30/2004	1.96%		2.76%		-2.85%		-6.67%		-10.99%	

Net Interest Income 24 Month Cumulative Policies (+/-)

	Interest Rate Change in Basis Points (bp)									
	Down 200		Down 100		Up 100		Up 200		Up 300	
Green Zone	5.00%		2.25%		2.25%		5.00%		10.00%	
Yellow Zone	5.00%	7.00%	2.25%	3.25%	2.25%	3.25%	5.00%	7.00%	10.00%	12.50%
Red Zone	7.00%		3.25%		3.25%		7.00%		12.50%	
6/30/2005	-1.29%		0.63%		-3.12%		-7.12%		-12.12%	
6/30/2004	0.10%		1.90%		-2.41%		-5.82%		-9.81%	

Economic Value of Equity Policies (+/-)

	Interest Rate Change in Basis Points (bp)									
	Down 200		Down 100		Up 100		Up 200		Up 300	
Green Zone	12.00%		5.00%		5.00%		12.00%		22.00%	
Yellow Zone	12.00%	17.00%	5.00%	7.50%	5.00%	7.50%	12.00%	17.00%	22.00%	30.00%
Red Zone	17.00%		7.50%		7.50%		17.00%		30.00%	
6/30/2005	-21.44%		-7.34%		1.49%		-0.57%		-4.56%	
6/30/2004	-7.05%		0.22%		-5.30%		-10.81%		-16.85%	

Red zone policy limits represent Old National's absolute interest rate risk exposure compliance limit. Policy limits defined as green zone represent the range of potential interest rate risk exposures that the Funds Management Committee believes to be normal and acceptable operating behavior. Yellow zone policy limits represent a range of interest rate risk exposures falling below the bank's maximum allowable exposure (red zone) but above its normally acceptable interest rate risk levels (green zone).

At June 30, 2005, modeling indicated Old National was within the red zone policy limits for the Up 200 24 month cumulative Net Interest Income at Risk Scenario. Immediate actions will be taken by management to move back into the yellow zone. In addition, modeling indicated Old National was within the yellow zone policy limits for the following 12 month Net Interest Income at Risk Scenarios: Up 100, Up 200, and Up 300. Modeling indicated Old National was within the yellow zone policy limits for the following 24 month cumulative Net Interest Income at Risk Scenarios: Up 100 and Up 300. Old National's position within the yellow zone was deemed acceptable by management at this time. All other Net Interest Income at Risk modeling scenarios fell within Old National's green zone, which is considered the normal and acceptable interest rate risk level.

At June 30, 2005, modeling indicated Old National was within the red zone policy limit for the Down 200 Economic Value of Equity Scenario. Actions will be taken by management to move back into the yellow zone. In addition, modeling indicated Old National was within the yellow zone policy limit for the Down 100 Economic Value of Equity Scenario. The Funds Management Committee has deemed this scenario as an acceptable risk in the short term given the company's outlook for rising interest rates. All other modeling scenarios fell within Old National's green zone,

which is considered the normal and acceptable interest rate risk level.

Table of Contents

At June 30, 2005, a notable change in the company's rate risk profile was reflected in the decrease in the company's estimated change in Economic Value of Equity resulting in the Up 200 basis points yield curve shock. Economic Value of Equity changed from -10.81% at June 30, 2004, to -0.57% at June 30, 2005. The company reduced its long term exposure to rising interest rates by reducing the effective duration of the investment portfolio to 3.25 years at June 30, 2005, compared to 4.43 years at June 30, 2004, by the shift in deposit mix from certificates of deposit to transaction accounts, and by the use of interest rate swaps.

Old National uses derivatives, primarily interest rate swaps, as one method to manage interest rate risk in the ordinary course of business. The company's derivatives had an estimated fair value loss of \$8.1 million at June 30, 2005, compared to an estimated fair value loss of \$17.6 million at June 30, 2004. The increase in market value is due to the increase in interest rates for the six months ended June 30, 2005 compared to the six months ended June 30, 2004. See Note 15 to the consolidated financial statements for further discussion of derivative financial instruments.

LIQUIDITY MANAGEMENT

The Funds Management Committee of the Board of Directors establishes liquidity risk guidelines and, along with the Balance Sheet Management Committee, monitors liquidity risk. The objective of liquidity management is to ensure Old National has the ability to fund balance sheet growth and meet deposit and debt obligations in a timely and cost-effective manner. Management monitors liquidity through a regular review of asset and liability maturities, funding sources, and loan and deposit forecasts. The company maintains strategic and contingency liquidity plans to ensure sufficient available funding to satisfy requirements for balance sheet growth, properly manage capital markets funding sources and to address unexpected liquidity requirements.

Old National's ability to raise funding at competitive prices is influenced by rating agencies' views of the company's credit quality, liquidity, capital and earnings. All three rating agencies have issued a stable outlook in conjunction with their ratings as of June 30, 2005. The senior debt ratings of Old National Bancorp and Old National Bank at June 30, 2005, are shown in the following table.

SENIOR DEBT RATINGS

	Standard and Poor's		Moody's Investor Services		Fitch, Inc.	
	Long-term	Short-term	Long-term	Short-term	Long-term	Short-term
Old National Bancorp	BBB	N/A	Baa1	N/A	BBB	F2
Old National Bank	BBB+	A2	A3	P-2	BBB	F2

N/A = not applicable

As of June 30, 2005, Old National Bank had the capacity to borrow \$808.0 million from the Federal Reserve Bank's discount window. Old National Bank is also a member of the Federal Home Loan Bank (FHLB) of Indianapolis, which provides a source of funding through FHLB advances. Old National maintains relationships in capital markets with brokers and dealers to issue certificates of deposits and short-term and medium-term bank notes as well. In addition, at June 30, 2005, Old National had \$660.0 million available for issuance under a \$1 billion global bank note program for senior and subordinated debt.

Old National Bancorp, the parent company, has routine funding requirements consisting primarily of operating expenses, dividends to shareholders, debt service, net derivative cash flows and funds used for acquisitions. Old National Bancorp obtains funding to meet its obligations from dividends and management fees collected from its subsidiaries and the issuance of debt securities. In addition, at June 30, 2005, Old National Bancorp has \$700.0 million available under a \$750.0 million global shelf registration for the issuance of a variety of securities including debt, common and preferred stock, depository shares, units and warrants of Old National. At June 30, 2005, the parent company's other borrowings outstanding was \$256.6 million, compared with \$258.6 million at June 30, 2004. The decrease in other borrowings in 2005 was driven by a \$3.2 million maturity of medium-term notes payable, partially offset by a \$1.2 million increase in derivative market values. In May 2005, Old National called for the redemption of \$50.0 million of junior subordinated debentures, thereby redeeming the trust preferred securities of

ONB Capital Trust I. Old National Bancorp, the parent company, has no debt scheduled to mature within the next 12 months.

Table of Contents

Federal banking laws regulate the amount of dividends that may be paid by banking subsidiaries without prior approval. At June 30, 2005, prior regulatory approval was not required for Old National's affiliate bank.

ITEM 4. CONTROLS AND PROCEDURES

Restatement

On January 31, 2006, Old National announced that certain of its previously issued financial statements contained an error under accounting principles generally accepted in the United States of America (GAAP) relating to the accounting for certain derivative transactions. As a result, Old National determined that it needed to restate its financial statements for the period ended June 30, 2005. For a more detailed discussion regarding this restatement, see Note 2 to the consolidated financial statements.

Evaluation of disclosure controls and procedures.

In connection with the restatement, under the direction of the Chief Executive Officer and Chief Financial Officer, Old National reevaluated its disclosure controls and procedures as of June 30, 2005.

Management identified an error related to Old National's accounting for certain derivative transactions and determined that its previously issued financial statements for the quarter ended June 30, 2005 could not be relied upon. Based upon their evaluation of the error, management concluded that as of June 30, 2005, a material weakness in Old National's internal control over financial reporting relating to the accounting for certain derivative transactions existed. A material weakness is a control deficiency, or a combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. As a result of the material weakness, management has concluded that Old National's internal control over financial reporting was not effective as of June 30, 2005. Specifically, Old National did not maintain effective controls over the classification of certain interest rate swaps and the related hedged liabilities. This failure resulted from Old National utilizing the short-cut method for evaluating hedge effectiveness when this method was not in accordance with generally accepted accounting principles for use with these instruments.

As a result of this material weakness, Old National concluded that its disclosure controls and procedures were not effective as of June 30, 2005.

Changes in Internal Control over Financial Reporting

As previously reported, there was no change to Old National's internal control over financial reporting during the quarter ended June 30, 2005, that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
