CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOR"

PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning, among other things, our prospects and business strategies. These forward-looking statements are included in various sections of this report, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" appearing in Part I, Item 2. The words "may," "will," "believe," "should," "could," "plans," "expect," "anticipate," "intends," "estimates," and similar expressions (and variations thereof), identify these forward-looking statements. Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, these expectations may not prove to be correct. Because these forward-looking statements are also subject to risks and uncertainties, actual results may differ materially from the expectations expressed in the forward-looking statements. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include:

- changes in automotive manufacturers' production rates and their actual and forecasted requirements for our products, including the overall highly competitive nature of the automotive parts industry, and our resultant inability to realize the sales represented by our awarded book of business (which is based on anticipated pricing for the applicable program over its life, and is subject to increases or decreases due to changes in customer requirements, customer and consumer preferences, and the number of vehicles actually produced by customers);
- the loss of any of our large original equipment manufacturer ("OEM") customers (on whom we depend for a substantial portion of our revenues), or the loss of market shares by these customers if we are unable to achieve increased sales to other OEMs;
- increases in the costs of raw materials, including our ability to successfully reduce the impact of any such cost increases through materials substitutions, cost reduction initiatives and other methods;
- the cyclical nature of the global vehicular industry, including the performance of the global aftermarket sector and the longer product lives of automobile parts;
- changes in consumer demand, prices and our ability to have our products included on top selling vehicles, any shift in consumer preferences to smaller vehicles in light of higher fuel costs and other factors impacting the cyclical nature of automotive production and sales of automobiles which include our products, and the potential negative impact on our revenues and margins from such products;
- our continued success in cost reduction and cash management programs and our ability to execute restructuring and other cost reduction plans and to realize anticipated benefits from these plans;

Edgar Filing: TENNECO INC - Form 10-Q

- general economic, business and market conditions, including without limitation the financial difficulties facing a number of companies in the automotive industry and the potential impact thereof on labor unrest, supply chain disruptions and weakness in demand;
- the impact of consolidation among automotive parts suppliers and customers on our ability to compete;
- operating hazards associated with our business;
- changes in distribution channels or competitive conditions in the markets and countries where we operate, including the impact of changes in distribution channels for aftermarket products on our ability to increase or maintain aftermarket sales;
- the potential negative impact of higher fuel prices on discretionary purchases of aftermarket products by consumers;
- the cost and outcome of existing and any future legal proceedings;
- labor disruptions at our facilities or any labor or other economic disruptions at any of our significant customers or suppliers or any of our customers' other suppliers;
- economic, exchange rate and political conditions in the foreign countries where we operate or sell our products;
- customer acceptance of new products;
- new technologies that reduce the demand for certain of our products or otherwise render them obsolete;
- our ability to realize our business strategy of improving operating performance;
- capital availability or costs, including changes in interest rates, market perceptions of the industries in which we operate or ratings of securities;
- our inability to successfully integrate any acquisitions that we pursue;
- changes by the Financial Accounting Standards Board or the Securities and Exchange Commission of authoritative generally accepted accounting principles or policies;
- potential legislation, regulatory changes and other governmental actions, including the ability to receive regulatory approvals and the timing of such approvals;
- the impact of changes in and compliance with laws and regulations, including environmental laws and regulations, and environmental liabilities in excess of the amount reserved;
- acts of war and terrorism, including, but not limited to, the events taking place in the Middle East, the current military action in Iraq and the continuing war on terrorism, as well as actions taken or to be taken by the

Edgar Filing: TENNECO INC - Form 10-Q

United States and other governments as a result of further acts or threats of terrorism, and the impact of these acts on economic, financial and social conditions in the countries where we operate; and

- the timing and occurrence (or non-occurrence) of other transactions, events and circumstances which may be beyond our control.

The risks included here are not exhaustive. Refer to "Part I, Item 1A--Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2005, for further discussion regarding our exposure to risks. Additionally, new risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor to assess the impact such risk factors might have on our business or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

4

PART I.

FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS (UNAUDITED)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF
TENNECO INC.

We have reviewed the accompanying consolidated balance sheet of Tenneco Inc. and consolidated subsidiaries as of March 31, 2006, and the related consolidated statements of income, comprehensive income (loss), cash flows and changes in shareholders' equity for the three-month periods ended March 31, 2006 and 2005. These interim financial statements are the responsibility of Tenneco Inc.'s management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, the Company changed its accounting for stock-based compensation expense effective January 1, 2006 upon adoption of Statement of Financial Accounting Standard No. 123(R), "Share-Based Payment."

We previously audited, in accordance with standards of the Public Company

Edgar Filing: TENNECO INC - Form 10-Q

Accounting Oversight Board (United States), the consolidated balance sheet of Tenneco Inc. and consolidated subsidiaries as of December 31, 2005, and the related consolidated statements of income, cash flows, changes in shareholders' equity and comprehensive income (loss) for the year then ended (not presented herein); and in our report dated March 14, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2005 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(1) As you read the accompanying financial statements and Management's Discussion and Analysis you should also read our Annual Report on Form 10-K for the year ended December 31, 2005.

In our opinion, the accompanying unaudited financial statements contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly Tenneco Inc.'s financial position, results of operations, cash flows, changes in shareholders' equity, and comprehensive income (loss) for the periods indicated. We have prepared the unaudited interim consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for annual financial statements.

Our consolidated financial statements include all majority-owned subsidiaries. We carry investments in 20 percent to 50 percent owned companies at cost plus equity in undistributed earnings and cumulative translation adjustments from the date of acquisition since we have the ability to exert significant influence over operating and financial policies.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation. Specifically, we have reclassified expenditures for software-related intangible assets in the statements of cash flows from operating activities to investing activities as we believe this presentation is preferable. We do not believe this change in presentation is material to the financial statements.

(2) Equity Plans--In December 1996, we adopted the 1996 Stock Ownership Plan, which permitted the granting of a variety of awards, including common stock, restricted stock, performance units, stock equivalent units, stock appreciation rights ("SARs"), and stock options to our directors, officers, and employees. The plan, which terminated as to new awards on December 31, 2001, was renamed the "Stock Ownership Plan." In December 1999, we adopted the Supplemental Stock Ownership Plan, which permitted the granting of a variety of similar awards to our directors, officers and employees. We were authorized to deliver up to about 1.1 million treasury shares of common stock under the Supplemental Stock Ownership Plan, which also terminated as to new awards on December 31, 2001. In March 2002, we adopted the 2002 Long-Term Incentive Plan which permits the granting of a variety of similar awards to our officers, directors and employees. Up to 4 million shares of our common stock have been authorized for delivery under the 2002 Long-Term Incentive Plan. Our nonqualified stock options have 7 to 20 year terms and vest equally over a three

Edgar Filing: TENNECO INC - Form 10-Q

year requisite service period from the date of the grant.

We have granted restricted common stock to our directors and certain key employees. These awards generally require, among other things, that the award holder remains in service to our company during the restriction period. We have also granted stock equivalent units to certain key employees that are payable in cash annually based on the attainment of specified performance goals. The grant value is indexed to the stock price. Each employee granted stock equivalent units receives a percentage of the total grants value. In addition, we have granted SARs to certain key employees in our Asian operations that are payable in cash after a three year requisite service period. The grant value is indexed to the stock price.

Accounting Methods--Prior to January 1, 2006, we utilized the intrinsic value method to account for our stock-based compensation plans in accordance with Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees." Therefore, no compensation cost was reflected in net income related to stock options as all options granted under the plans had an exercise price equal to the market price of the underlying common stock on the date of the grant. Compensation cost was previously recognized for restricted stock, stock equivalent units and SARs under this accounting principle.

Effective January 1, 2006, we adopted Statement of Financial Accounting Standard ("SFAS") No. 123(R), "Share-Based Payment," using the modified prospective application method. Under this transition method, compensation cost recognized for the quarter ended March 31, 2006, includes the applicable amounts of: (1) compensation cost of all unvested stock-based awards granted prior to January 1, 2006, based upon the grant

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)
(UNAUDITED)

date fair value estimated in accordance with the original provisions of SFAS No. 123 and previously presented in pro forma footnote disclosures, and (2) compensation cost for all stock-based awards granted on or after January 1, 2006, based upon the grant date fair value estimated in accordance with the new provisions of SFAS No. 123(R). Results for prior periods have not been restated.

	THREE MONTHS ENDED MARCH 31,	
	----- 2006	2005 -----
	(MILLIONS EXCEPT PER SHARE AMOUNTS)	
Net income.....	\$ 7	\$ 7

Edgar Filing: TENNECO INC - Form 10-Q

Add: Stock-based employee compensation expense included in net income, net of income tax (including actual SFAS No. 123(R) total stock-based compensation expense recognized since January 1, 2006).....	3	1
Deduct: Stock-based employee compensation expense determined under fair value based method for all awards, net of income tax.....	(3)	(2)
	-----	-----
Adjusted net income.....	\$ 7	\$ 6
	=====	=====
Earnings per share:		
Basic--as reported.....	\$0.15	\$0.17
Basic--as adjusted for stock-based compensation expense.....	\$0.15	\$0.16
Diluted--as reported.....	\$0.14	\$0.16
Diluted--as adjusted for stock-based compensation expense.....	\$0.14	\$0.15

Prior to adopting SFAS No. 123(R), we presented all tax benefits related to the exercise of nonqualified stock options as operating cash flows. Under SFAS No. 123(R), only excess tax benefits are recognized as an addition to paid in capital. Cash retained as a result of the excess tax benefits (tax deductions realized in excess of the compensation expense recognized for the exercised stock options) are presented as financing cash flows. The write-off of deferred tax assets related to unrealized tax benefits associated with the recognized compensation cost is reported as income tax expense.

Effects of Adopting--Compensation expense for restricted stock, stock equivalent units and SARs was, prior to the adoption of SFAS No. 123(R), and continues to be recognized in net income. Compensation expense for these awards, net of tax, was less than \$3 million for the quarter ended March 31, 2006 compared to approximately \$1 million for the quarter ended March 31, 2005, and was recorded in selling, general, and administrative expense on the statement of income at the corporate level.

The impact of recognizing compensation expense related to nonqualified stock options is contained in the table below.

THREE MONTHS ENDED
MARCH 31, 2006

(MILLIONS)

Selling, general and administrative.....	\$ 1	

Loss before interest expense, income taxes and minority interest.....	(1)

	=====	
Decrease in basic earnings per share.....	\$(0.01)	
Decrease in diluted earnings per share.....	\$(0.01)	

Edgar Filing: TENNECO INC - Form 10-Q

For the quarter ended March 31, 2006, the results of adopting SFAS No. 123(R) on our results of operations including nonqualified stock options and other stock-based compensation was additional expense of approximately

12

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

\$1 million or \$0.02 per diluted share. Adoption of this accounting standard also increased the calculated number of diluted shares by approximately 0.6 million primarily due to the elimination of excess tax benefits.

For stock options awarded to retiree eligible employees prior to the adoption of SFAS No. 123(R) we continue to recognize compensation cost over the explicit vesting period and immediately accelerate the recognition of any outstanding compensation cost when employees retire before the end of the explicit vesting period. This methodology has not had a material impact on our recognized compensation cost.

As of March 31, 2006, there is approximately \$4 million, net of tax, of total unrecognized compensation costs related to these stock-based awards that is expected to be recognized over a weighted average period of 1.7 years.

Cash received from option exercises for the three months ended March 31, 2006, was approximately \$3 million. Stock option exercises during the first quarter of 2006 generated an excess tax benefit of approximately \$5 million. Pursuant to footnote 82 of FASB 123(R), this benefit was not recorded as we have federal and state net operating losses which are not currently being utilized. As a result, the excess tax benefit had no impact on our financial position or statement of cash flows.

Assumptions--We calculated the fair values of the awards using the Black-Scholes option pricing model with the weighted average assumptions listed below. Determining the fair value of share-based awards requires judgment in estimating employee and market behavior. If actual results differ significantly from these estimates, stock-based compensation expense and our results of operations could be materially impacted.

Risk-free interest rates.....	4.2%	4.2%

Edgar Filing: TENNECO INC - Form 10-Q

Dividend yields..... 0.0% 0.0%

Effective January 1, 2006, we changed our method of determining volatility on all new options granted after that date to implied volatility rather than an analysis of historical volatility. We believe the market-based measures of implied volatility are currently the best available indicators of the expected volatility used in these estimates. The effect of this change did not have a material impact to our results of operations.

Expected lives of options are based upon the historical and expected time to post-vesting forfeiture and exercise. We believe this method is the best estimate of the future exercise patterns currently available.

The risk-free interest rates are based upon the Constant Maturity Rates provided by the U.S. Treasury. For our valuations, we used the continuous rate with a term equal to the expected life of the options.

On January 10, 2001, we announced that our Board of Directors eliminated the quarterly dividend on our common stock. As a result, there is no dividend yield.

	=====	

The fair value of restricted stock grants is equal to the average market price of the companies stock at the date of grant. As of March 31, 2006, approximately \$8 million of total unrecognized compensation costs related to compensation for restricted stock awards is expected to be recognized over a weighted-average period of approximately 2 year.

Stock Equivalent Units and SAR's--Stock equivalent units and SAR's are paid in cash and recognized as a liability based upon their fair value. As of March 31, 2006, approximately \$6 million of total unrecognized compensation costs is expected to be recognized over a weighted-average period of approximately 1 year.

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)
(UNAUDITED)

(3) In April 2004, we entered into three separate fixed-to-floating interest rate swaps with two separate financial institutions. These agreements swapped an aggregate of \$150 million of fixed interest rate debt at an annual rate of 10 1/4 percent to floating interest rate debt at an annual rate of LIBOR plus an average spread of 5.68 percent. Each agreement requires semi-annual settlements through July 15, 2013. The LIBOR in effect for these swaps during the course of 2005 resulted in lower interest expense of approximately \$2

Edgar Filing: TENNECO INC - Form 10-Q

million for the year. Based upon the LIBOR rate as determined under these agreements of 4.73 percent (which remains in effect until July 15, 2006) and the rates in the market today these swaps are expected to increase our 2006 annual interest expense by \$1 million. These swaps qualify as fair value hedges in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and as such are recorded on the balance sheet at fair value with an offset to the underlying hedged item, which is long-term debt. As of March 31, 2006, the fair value of the interest rate swaps was a liability of approximately \$9 million which has been recorded as a decrease to long-term debt and an increase to other long-term liabilities.

In February 2005 we amended our senior credit facility to reduce by 75 basis points the interest rate on the term loan B facility and the tranche B-1 letter of credit/revolving loan facility. In connection with the amendment, we voluntarily prepaid \$40 million in principal on the term loan B, reducing the term loan B facility from \$396 million to \$356 million.

Additional provisions of the February 2005 amendment to the senior credit facility agreement were as follows: (i) amend the definition of EBITDA to exclude all remaining cash charges and expenses related to restructuring initiatives started on or before February 21, 2005, and to exclude up to an additional \$60 million in restructuring-related expenses announced and taken after February 21, 2005, (ii) increase permitted investments to \$50 million, (iii) exclude expenses related to the issuance of stock options from the definition of consolidated net income, (iv) permit us to redeem up to \$125 million of senior secured notes after January 1, 2008 (subject to certain conditions), (v) increase our ability to add commitments under the revolving credit facility by \$25 million, and (vi) make other minor modifications. We incurred approximately \$1 million in fees and expenses associated with this amendment, which were capitalized and are being amortized over the remaining term of the agreement. As a result of the amendment and the voluntary prepayment of \$40 million under the term loan B, our term loan B interest expense in 2005 was approximately \$5 million lower than what it would otherwise have been.

Following the February 2005 voluntary prepayment of \$40 million, the term loan B facility is payable as follows: \$74 million due March 31, 2010, and \$94 million due each of June 30, September 30 and December 12, 2010. The revolving credit facility requires that if any amounts are drawn, they be repaid by December 2008. Prior to that date, funds may be borrowed, repaid and reborrowed under the revolving credit facility without premium or penalty. Letters of credit may be issued under the revolving credit facility.

The tranche B-1 letter of credit/revolving loan facility requires that it be repaid by December 2010. We can borrow revolving loans from the \$155 million tranche B-1 letter of credit/revolving loan facility and use that facility to support letters of credit. The tranche B-1 letter of credit/revolving loan facility lenders have deposited \$155 million with the administrative agent, who has invested that amount in time deposits. We do not have an interest in any of the funds on deposit. When we draw revolving loans under this facility, the loans are funded from the \$155 million on deposit with the administrative agent. When we make repayments, the repayments are redeposited with the administrative agent.

The tranche B-1 letter of credit/revolving loan facility will be reflected as debt on our balance sheet only if we borrow money under this facility or if we use the facility to make payments for letters of credit. We will not be liable for any losses to or misappropriation of any (i) return due to the administrative agent's failure to achieve the return described above or to pay all or any portion of such return to any lender under such facility or (ii) funds on deposit in such account by such lender (other than the obligation to repay funds released from such accounts and provided to us as revolving loans under such facility).

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-- (CONTINUED)
(UNAUDITED)

During 2005, we increased the amount of commitments under our revolving credit facility from \$220 million to \$300 million and reduced the amount of commitments under our tranche B-1 letter of credit/revolving loan facility from \$180 million to \$155 million. This reduction of our tranche B-1 letter of credit/revolving loan facility was required under the terms of the senior credit facility, as we had increased the amount of our revolving credit facility commitments by more than \$55 million.

In October 2005, we further amended our senior credit facility increasing the amount of commitments we may seek under the revolving credit portion of the facility from \$300 million to \$350 million, along with other technical changes. We will not be required to reduce the commitments under our tranche B-1 letter of credit/revolving loan facility should we obtain additional revolving credit commitments. We have not yet sought any such increased commitments, but may do so when, in our judgment, market conditions are favorable.

(4) Over the past several years we have adopted plans to restructure portions of our operations. These plans were approved by the Board of Directors and were designed to reduce operational and administrative overhead costs throughout the business. Prior to the change in accounting required for exit or disposal activities, we recorded charges to income related to these plans for costs that did not benefit future activities in the period in which the plans were finalized and approved, while actions necessary to affect these restructuring plans occurred over future periods in accordance with established plans.

In the fourth quarter of 2001, our Board of Directors approved a restructuring plan, a project known as Project Genesis, designed to lower our fixed costs, improve efficiency and utilization, and better optimize our global footprint. Project Genesis involved closing eight facilities, improving the process flow and efficiency through value mapping and plant arrangement at 20 facilities, relocating production among facilities, and centralizing some functional areas. The total of all these restructuring and other costs recorded in the fourth quarter of 2001 was \$32 million before tax, \$31 million after tax, or \$0.81 per diluted common share. We eliminated 974 positions in connection with Project Genesis. Additionally, we executed this plan more efficiently than originally anticipated and as a result in the fourth quarter of 2002 reduced our reserves related to this restructuring activity by \$6 million, which was recorded in cost of sales. In the fourth quarter of 2003, we reclassified \$2 million of severance reserve to the asset impairment reserve. This reclassification became necessary, as actual asset impairments along with the sale of our closed facilities were different than the original estimates. We completed the remaining restructuring activities under Project Genesis as of the end of 2004. Since Project Genesis was announced, we have undertaken a number of related projects designed to restructure our operations, described below.

In the first quarter of 2003, we incurred severance costs of \$1 million associated with eliminating 17 salaried positions through selective layoffs and an early retirement program. Additionally, 93 hourly positions were eliminated through selective layoffs in the quarter. These reductions were done to reduce

Edgar Filing: TENNECO INC - Form 10-Q

ongoing labor costs in North America. This charge was primarily recorded in cost of sales.

In October of 2003, we announced the closing of an emission control manufacturing facility in Birmingham, U.K. Approximately 130 employees were eligible for severance benefits in accordance with union contracts and U.K. legal requirements. We incurred approximately \$3 million in costs related to this action in 2004. This action is in addition to the plant closings announced in Project Genesis in the fourth quarter of 2001.

In October 2004, we announced a plan to eliminate 250 salaried positions through selected layoffs and an elective early retirement program. The majority of layoffs were at middle and senior management levels. As of March 31, 2006, we have incurred \$23 million in severance costs. Of this total, \$7 million was recorded in cost of sales and \$16 million was recorded in selling, general and administrative expense.

In February 2006, we decided to reduce the work force at certain of our global locations as part of our ongoing effort to reduce our cost structure. We recorded a pre-tax charge of \$3 million during the first quarter of 2006 for severance and other benefits related to these reductions in force, substantially all of which have been paid in cash.

16

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

In addition to the announced actions, we will continue to evaluate additional opportunities and expect that we will initiate actions that will reduce our costs through implementing the most appropriate and efficient logistics, distribution and manufacturing footprint for the future. We expect to continue to undertake additional restructuring actions as deemed necessary, however, there can be no assurances we will undertake such actions. Actions that we take, if any, will require the approval of our Board of Directors, or its authorized committee. We plan to conduct any workforce reductions that result in compliance with all legal and contractual requirements including obligations to consult with workers' councils, union representatives and others.

We incurred \$6 million in restructuring and restructuring-related costs during the first quarter of 2006. Including the costs incurred in 2002 through 2005 of \$71 million, we have incurred a total of \$77 million for activities related to our restructuring initiatives.

Under the terms of our amended and restated senior credit agreement that took effect on December 12, 2003, we were allowed to exclude up to \$60 million of cash charges and expenses, before taxes, related to cost reduction initiatives over the 2002 to 2006 time period from the calculation of the financial covenant ratios we are required to maintain under our senior credit agreement. In February of 2005, our senior credit facility was amended to exclude all remaining cash charges and expenses related to restructuring initiatives started on or before February 21, 2005. As of March 31, 2006, we have excluded \$62 million in allowable charges relating to restructuring initiatives previously started.

Under our amended facility, we are allowed to exclude up to an additional

Edgar Filing: TENNECO INC - Form 10-Q

\$60 million of cash charges and expenses, before taxes, related to restructuring activities initiated after February 21, 2005 from the calculation of the financial covenant ratios required under our senior credit facility. As of March 31, 2006, we have excluded \$15 million in allowable charges relating to restructuring initiatives against the \$60 million available under the terms of the February 2005 amendment to the senior credit facility.

(5) We are subject to a variety of environmental and pollution control laws and regulations in all jurisdictions in which we operate. We expense or capitalize, as appropriate, expenditures for ongoing compliance with environmental regulations that relate to current operations. We expense costs related to an existing condition caused by past operations and that do not contribute to current or future revenue generation. We record liabilities when environmental assessments indicate that remedial efforts are probable and the costs can be reasonably estimated. Estimates of the liability are based upon currently available facts, existing technology, and presently enacted laws and regulations taking into consideration the likely effects of inflation and other societal and economic factors. We consider all available evidence including prior experience in remediation of contaminated sites, other companies' cleanup experiences and data released by the United States Environmental Protection Agency or other organizations. These estimated liabilities are subject to revision in future periods based on actual costs or new information. Where future cash flows are fixed or reliably determinable, we have discounted the liabilities. All other environmental liabilities are recorded at their undiscounted amounts. We evaluate recoveries separately from the liability and, when they are assured, recoveries are recorded and reported separately from the associated liability in our financial statements.

As of March 31, 2006, we are designated as a potentially responsible party in one Superfund site. Including the Superfund site, we may have the obligation to remediate current or former facilities, and we estimate our share of environmental remediation costs to be approximately \$9 million. For the Superfund site and the current and former facilities, we have established reserves that we believe are adequate for these costs. Although we believe our estimates of remediation costs are reasonable and are based on the latest available information, the cleanup costs are estimates and are subject to revision as more information becomes available about the extent of remediation required. At some sites, we expect that other parties will contribute to the remediation costs. In addition, at the Superfund site, the Comprehensive Environmental Response, Compensation and Liability Act provides that our liability could be joint and several, meaning that we could be required to pay in excess of our share of remediation costs. Our understanding of the financial strength of other potentially responsible parties at the Superfund site, and

17

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)
(UNAUDITED)

of other liable parties at our current and former facilities, has been considered, where appropriate, in our determination of our estimated liability.

We believe that any potential costs associated with our current status as a potentially responsible party in the Superfund site, or as a liable party at our current or former facilities, will not be material to our results of operations or consolidated financial position.

Edgar Filing: TENNECO INC - Form 10-Q

We also from time to time are involved in legal proceedings, claims or investigations that are incidental to the conduct of our business. Some of these proceedings allege damages against us relating to environmental liabilities (including toxic tort, property damage and remediation), intellectual property matters (including patent, trademark and copyright infringement, and licensing disputes), personal injury claims (including injuries due to product failure, design or warnings issues, and other product liability related matters), taxes, employment matters, and commercial or contractual disputes, sometimes related to acquisitions or divestitures. For example, one of our Chinese joint ventures is currently under investigation by Chinese government officials related to whether the joint venture applied the proper tariff code to certain of its imports. We vigorously defend ourselves against all of these claims. In future periods, we could be subjected to cash costs or non-cash charges to earnings if any of these matters is resolved on unfavorable terms. However, although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including our assessment of the merits of the particular claim, we do not expect that these legal proceedings or claims will have any material adverse impact on our future consolidated financial position or results of operations. In addition, we are subject to a number of lawsuits initiated by a significant number of claimants alleging health problems as a result of exposure to asbestos. Many of these cases involve significant numbers of individual claimants. However, only a small percentage of these claimants allege that they were automobile mechanics who were allegedly exposed to our former muffler products and a significant number appear to involve workers in other industries or otherwise do not include sufficient information to determine whether there is any basis for a claim against us. We believe, based on scientific and other evidence, it is unlikely that mechanics were exposed to asbestos by our former muffler products and that, in any event, they would not be at increased risk of asbestos-related disease based on their work with these products. Further, many of these cases involve numerous defendants, with the number of each in some cases exceeding 200 defendants from a variety of industries. Additionally, the plaintiffs either do not specify any, or specify the jurisdictional minimum, dollar amount for damages. As major asbestos manufacturers continue to go out of business or file for bankruptcy, we may experience an increased number of these claims. We vigorously defend ourselves against these claims as part of our ordinary course of business. In future periods, we could be subject to cash costs or non-cash charges to earnings if any of these matters is resolved unfavorably to us. To date, with respect to claims that have proceeded sufficiently through the judicial process, we have regularly achieved favorable resolution in the form of a dismissal of the claim or a judgment in our favor. Accordingly, we presently believe that these asbestos-related claims will not have a material adverse impact on our future financial condition or results of operations.

We provide warranties on some of our products. The warranty terms vary but range from one year up to limited lifetime warranties on some of our premium aftermarket products. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified on OE products. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. We actively study trends of warranty claims and take action to improve product quality and minimize warranty claims. We believe that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the reserve. The reserve is included in current liabilities on the balance sheet.

Edgar Filing: TENNECO INC - Form 10-Q

	===	===

(6) In March 2005, the FASB issued Interpretation No. ("FIN") 46(R)-5, "Implicit Variable Interests under FASB Interpretation No. 46" (revised December 2003). The statement addresses whether a reporting enterprise should consider whether it holds an implicit variable interest in a variable interest entity ("VIE") or potential VIE when specific conditions exist. The guidance should be applied in the first reporting period beginning after March 3, 2005. The adoption of FSP No. FIN 46(R)-5 did not have an impact on our consolidated financial statements.

In March 2005, the FASB issued FIN No. 47, "Accounting for Conditional Asset Retirement Obligations." This interpretation clarifies that the term conditional asset retirement obligation as used in FASB No. 143, "Accounting for Conditional Asset Retirement Obligations," refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. This interpretation was effective no later than the end of fiscal years ending after December 15, 2005. The adoption of FIN No. 47 did not have a material impact on our financial position or results of operation.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Corrections," which supersedes APB No. 20, "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This statement changes the requirements for the accounting for and reporting of a change in accounting principle. SFAS No. 154 was effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS No. 154 did not have a material impact on our financial position or results of operation.

In June 2005, the FASB issued Staff Position ("FSP") No. 143-1, "Accounting for Electronic Equipment Waste Obligations." This statement addresses the accounting for obligations associated with Directive 2005/96/ EC on Waste Electrical and Electronic Equipment adopted by the European Union. The Directive

Edgar Filing: TENNECO INC - Form 10-Q

distinguishes between "new" and "historical" waste. The guidance should be applied the later of the first reporting period ending after June 8, 2005, or the date of the adoption of the law by the applicable EU-member country. The adoption of FSP No. 143-1 did not have a material impact on our financial position or results of operations.

In November 2005, the FASB issued FSP FAS 123(R)-3, "Transition Election to Accounting for the Tax Effects of Share-Based Payment Awards." This FSP requires an entity to follow either the transition guidance for the additional paid-in-capital pool as prescribed in SFAS No. 123(R), Share-Based Payment, or the alternative transition method as described in the FSP. An entity that adopts SFAS No. 123(R) using the modified prospective application may make a one-time election to adopt the transition method described in this FSP. An entity may take up to one year from the later of its initial adoption of SFAS No. 123(R) or the effective date of this FSP to evaluate its available transition alternatives and make its one-time election. This FSP became effective in November 2005. We continue to evaluate the impact that the adoption of this FSP could have on our financial statements.

(7) We entered into an agreement to sell an interest in some of our U.S. trade accounts receivable to a third party. Receivables become eligible for the program on a daily basis, at which time the receivables are sold to the third party, net of a factoring discount, through a wholly-owned subsidiary. Under this agreement, as well as individual agreements with third parties in Europe, we have sold accounts receivable of \$147 million at both

19

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

March 31, 2006 and 2005, respectively. We recognized a loss of slightly greater than \$1 million for the quarter ended March 31, 2006, and less than \$1 million for the quarter ended March 31, 2005, on these sales of trade accounts, representing the discount from book values at which these receivables were sold to the third party. The discount rate varies based on funding cost incurred by the third party, which has averaged approximately 6 percent during 2006. We retained ownership of the remaining interest in the pool of receivables not sold to the third party. The retained interest represents a credit enhancement for the program. We value the retained interest based upon the amount we expect to collect from our customers, which approximates book value.

(8) Earnings per share of common stock outstanding were computed as follows:

Edgar Filing: TENNECO INC - Form 10-Q

For the three months ended March 31, 2006, we made pension contributions of approximately \$4 million for our domestic pension plans and \$2 million for our foreign pension plans. Based on current actuarial estimates, we believe we will be required to make approximately \$31 million in contributions for the remainder of 2006.

20

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

We made postretirement contributions of approximately \$2 million during the first three months of 2006. Based on current actuarial estimates, we believe we will be required to make approximately \$7 million in contributions for the remainder of 2006.

(10) We occasionally provide guarantees that could require us to make future payments in the event that the third party primary obligor does not make its required payments. We have not recorded a liability for any of these guarantees. The only third party guarantee we have made is the performance of lease obligations by a former affiliate. Our maximum liability under this guarantee was approximately \$1 million at both March 31, 2006 and 2005, respectively. We have no recourse in the event of default by the former affiliate. However, we have not been required to make any payments under this guarantee.

Additionally, we have from time to time issued guarantees for the performance of obligations by some of our subsidiaries, and some of our subsidiaries have guaranteed our debt. All of our existing and future material domestic wholly-owned subsidiaries fully and unconditionally guarantee our senior credit facility, our senior secured notes and our senior subordinated notes on a joint and several basis. The arrangement for the senior credit facility is also secured by first-priority liens on substantially all our domestic assets and pledges of 66 percent of the stock of certain first-tier foreign subsidiaries. The arrangement for the \$475 million senior secured notes is also secured by second-priority liens on substantially all our domestic assets, excluding some of the stock of our domestic subsidiaries. No assets or capital stock of our direct or indirect foreign subsidiaries secure these notes. You should also read Note 12 where we present the Supplemental Guarantor Condensed Consolidating Financial Statements.

We have issued guarantees through letters of credit in connection with some obligations of our affiliates. We have guaranteed through letters of credit support for local credit facilities and cash management requirements for some of our subsidiaries totaling \$15 million. We have also issued \$20 million in letters of credit to support some of our subsidiaries' insurance arrangements. In addition, we have issued \$3 million in guarantees through letters of credit to guarantee other obligations of subsidiaries primarily related to environmental remediation activities.

Interest Rate Swaps--In April 2004, we hedged our exposure to fixed interest rates by entering into fixed-to-floating interest rate swaps covering \$150 million of our fixed interest rate debt. These swaps qualify as fair value hedges in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and as such are recorded on the balance

Edgar Filing: TENNECO INC - Form 10-Q

sheet at fair value as a long-term asset or liability with an offset to the underlying hedged item, which is long-term debt. The cost of replacing these contracts in the event of non-performance by the counterparties was not material. These hedges are effective, so we have not recognized in earnings any amounts related to the ineffectiveness of the interest rate swaps. No amounts were excluded from the assessment of hedge effectiveness.

Negotiable Financial Instruments--One of our European subsidiaries receives payment from one of its OE customers whereby the account receivables are satisfied through the delivery of negotiable financial instruments. These financial instruments are then sold at a discount to a European bank. The sales of these financial instruments are not included in the account receivables sold in 2005. Any of these financial instruments which were not sold as of March 31, 2006 and 2005 are classified as other current assets and are excluded from our definition of cash equivalents. We had sold approximately \$26 million of these instruments at March 31, 2006 and \$31 million at March 31, 2005.

In certain instances several of our Chinese subsidiaries receive payment from OE customers and satisfy vendor payments through the receipt and delivery of negotiable financial instruments. Financial instruments used to satisfy vendor payables and not redeemed totaled \$4 million at March 31, 2006 and are classified as notes payable. Financial instruments received from OE customers and not redeemed totaled \$8 million at March 31, 2006 and are classified as other current assets. One of our Chinese subsidiaries is required to maintain a cash balance at a financial institution issuing the financial instruments which are used to satisfy vendor payments. The balance totaled approximately \$1 million at March 31, 2006 and is classified as cash and cash equivalents.

21

TENNECO INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

(11) In October 2004 and July 2005, we announced changes in the structure of our organization which changed the components of our reportable segments. The European segment now includes the South American and Indian operations. The Asia Pacific segment includes our other Asian and Australian operations. While this had no impact on our consolidated results, it changed our segment results. You should note that we have reclassified prior year's segment data where appropriate to conform to the 2006 presentations.

We are a global manufacturer with three geographic reportable segments: (1) North America, (2) Europe, South America and India ("Europe"), and (3) Asia Pacific. Each segment manufactures and distributes ride control and emission control products primarily for the automotive industry. We have not aggregated individual operating segments within these reportable segments. We evaluate segment performance based primarily on income before interest expense, income taxes, and minority interest. Products are transferred between segments and geographic areas on a basis intended to reflect as nearly as possible the "market value" of the products.

The following table summarizes certain Tenneco segment information:

(12) Supplemental guarantor condensed financial statements are presented below:

Basis of Presentation

Subject to limited exceptions, all of our existing and future material domestic wholly owned subsidiaries (which are referred to as the Guarantor Subsidiaries) fully and unconditionally guarantee our senior subordinated notes due 2014 and our senior secured notes due 2013 on a joint and several basis. We have not presented separate financial statements and other disclosures concerning each of the Guarantor Subsidiaries because management has determined that such information is not material to the holders of the notes. Therefore, the Guarantor Subsidiaries are combined in the presentation below.

These condensed consolidating financial statements are presented on the equity method. Under this method, our investments are recorded at cost and adjusted for our ownership share of a subsidiary's cumulative results of operations, capital contributions and distributions, and other equity changes. You should read the condensed consolidating financial statements of the Guarantor Subsidiaries in connection with our consolidated financial statements and related notes of which this note is an integral part.

Distributions

There are no significant restrictions on the ability of the Guarantor Subsidiaries to make distributions to us.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE SUMMARY

We are one of the world's leading manufacturers of automotive emission control and ride control products and systems. We serve both original equipment (OE) vehicle manufacturers and the repair and replacement markets, or aftermarket, globally through leading brands, including Monroe(R), Rancho(R), Clevite(R) Elastomers and Fric Rot(TM) ride control products and Walker(R), Fonos(TM), and Gillet(TM) emission control products. Worldwide we serve more than 30 different original equipment manufacturers, and our products or systems are included on nine of the top 10 passenger car models produced for sale in Western Europe and all of the top 10 light truck models produced for sale in North America for 2005. Our aftermarket customers were comprised of full-line and specialty warehouse distributors, retailers, jobbers, installer chains and car dealers. We operate more than 70 manufacturing facilities worldwide and employ approximately 19,000 people to service our customers' demands.

Edgar Filing: TENNECO INC - Form 10-Q

Factors that are critical to our success include winning new business awards, managing our overall global manufacturing footprint to ensure proper placement and workforce levels in line with business needs, maintaining competitive wages and benefits, maximizing efficiencies in manufacturing processes, fixing or eliminating unprofitable businesses and reducing overall costs. In addition, our ability to adapt to key industry trends, such as the consolidation of OE customers, increasing technologically sophisticated content, changing aftermarket distribution channels, increasing environmental standards and extended product life of automotive parts, also plays a critical role in our success. Other factors that are critical to our success include adjusting to environmental and economic challenges such as increases in the cost of raw materials and our ability to successfully reduce the impact of any such cost increases through material substitutions, cost reduction initiatives and other methods.

We have a substantial amount of indebtedness. As such, our ability to generate cash--both to fund operations and service our debt--is also a significant area of focus for our company. See "Liquidity and Capital Resources" below for further discussion of cash flows.

Total revenues for the first quarter of 2006 were \$1.1 billion, a three percent increase over 2005. Higher aftermarket sales in North America and OE volumes in Europe, South America and Asia primarily drove this increase. Gross margin for the first quarter of 2006 was 18.6 percent, down 0.7 percent from 19.3 percent in 2005. This was primarily driven by higher substrate sales, which on average carry a lower margin, and by higher restructuring charges that more than offset savings and improved efficiencies from Lean manufacturing and Six Sigma efforts. We reported selling, general, administrative and engineering expenses for the first three months of 2006 of 10.9 percent of revenues, as compared to 11.1 percent of revenues for 2005. This improvement in selling, general, administrative and engineering expense was driven by discretionary spending controls and savings from previously announced restructuring efforts. Earnings before interest and taxes ("EBIT") was \$42 million for the first quarter of 2006, down \$2 million from the \$44 million reported in 2005. Restructuring and restructuring related expenses in the first quarter of 2006 were \$6 million compared to \$3 million in the same period last year. Included in 2006 first quarter EBIT was expense of \$1 million for adopting the new accounting standard for stocked-based compensation. The company's revenues and earnings were also negatively impacted by currency and the retiring of several OE emission control vehicle platforms.

In October 2004 and July 2005, we announced changes in the structure of our organization which changed the components of our reportable segments. The European segment now includes our South American and Indian operations. The Asia Pacific segment includes our other Asian and Australian operations. While this had no impact on our consolidated results, it changed our segment results. These changes in segment reporting have been reflected in this Management's Discussion and Analysis, and the accompanying consolidated financial statements, for all periods presented.

In February 2005, we acquired substantially all the exhaust assets, and assumed certain related liabilities of, Gabilan Manufacturing, Inc., a privately held company that had developed and manufactured motorcycle exhaust systems for Harley-Davidson motorcycles since 1978. The company also produced aftermarket muffler kits for Harley-Davidson. We purchased Gabilan's assets, including working capital adjustments, for \$11 million in cash. We recorded revenue of approximately \$11 million related to this business in the first quarter of 2006, up from

Edgar Filing: TENNECO INC - Form 10-Q

\$6 million in the first quarter of 2005 due to both higher 2006 volumes and the additional month of ownership in 2006.

In December 2005, we completed the acquisition of the minority interest of the joint venture partner for our Indian ride control operations. We purchased the minority owned interest for approximately \$5 million in cash and property.

RESULTS FROM OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2005

NET SALES AND OPERATING REVENUES

The following tables reflect our revenues for the first quarter of 2006 and 2005. We present these reconciliations of revenues in order to reflect the trend in our sales in various product lines and geographic regions separately from the effects of doing business in currencies other than the U.S. dollar. Additionally, "substrate" catalytic converter sales include precious metals pricing, which may be volatile. These "substrate" catalytic converter sales occur when, at the direction of our OE customers, we purchase catalytic converters or components from suppliers, use them in our manufacturing process, and sell them as part of the completed system. While, generally, our original equipment customers assume the risk of this volatility, it impacts our reported revenues. Excluding "substrate" catalytic converter sales removes this impact. We have not reflected any currency impact in the 2005 table since this is the base period for measuring the effects of currency during 2006 on our operations. We use this information to analyze the trend in our revenues before these factors. We believe investors find this information useful in understanding period-to-period comparisons in our revenues.

	=====	=====	=====	=====	=====

Revenues from our North American operations increased \$10 million in the first quarter of 2006 compared to the same period last year. Higher sales from the aftermarket business were partially offset by lower total North American OE revenues which were slightly lower in the first quarter of 2006, as compared to the first quarter of 2005. OE emission control revenues decreased two percent to \$243 million in the first quarter of 2006, primarily due to the impact from retiring emission-control platforms. Adjusted for substrate sales and currency, OE emission control sales were down three percent compared to last year. OE ride control revenues for the first quarter of 2006 increased four percent from the prior year, driven by an increase in heavy-duty volumes. Total North American OE revenues, excluding substrate sales and currency, decreased one percent in the first quarter of 2006, while North American light vehicle production increased approximately three percent from one year ago. Favorable platform mix and strong heavy-duty ride control volumes were more than offset by production declines on key vehicle platforms. Aftermarket revenues for North America were \$141 million in the first quarter of 2006, representing an increase of eight percent compared to the prior year. New business, stronger ride control unit sales and higher pricing in both product lines drove this increase. Aftermarket ride control revenues grew to \$101 million in the first quarter of 2006, up 11 percent from the same period last year. Aftermarket emission control revenues increased two percent in the first quarter of 2006 to \$40 million, as compared to \$39 million in 2005, as a result of higher pricing.

Our European, South American and Indian segment's revenues increased \$13 million, or three percent, in the first quarter of 2006 compared to last year. Total Europe OE revenues were \$387 million in the first quarter of 2006, up two percent from the same period last year. OE emission control revenues increased eight percent to \$292 million in the first quarter of 2006, as compared to \$272 million in the first quarter of 2005. Excluding a \$32 million increase in substrate sales and a \$19 million decrease due to weakening currency, OE emission control revenues increased four percent over 2005, in line with European light vehicle production levels. Our increase of four percent

was a result of higher sales from the launch and ramp up of successful platforms with BMW, Volkswagen, Nissan, Volvo and Porsche. OE ride control revenues decreased to \$95 million in the first quarter of 2006, down 13 percent from \$109 million a year ago despite our position on top selling platforms with Volkswagen, Fiat, Nissan and Suzuki, and increased sales of our conventional and electronic controlled shock for the Audi A6. This was due to \$6 million of unfavorable currency and an accounting adjustment. We changed our reporting in the second quarter of 2005 for an "assembly-only" contract with a European OE

Edgar Filing: TENNECO INC - Form 10-Q

ride control customer and began accounting for those revenues net of the related cost of sales. If we had reported our first quarter 2005 revenues in the same manner, they would have been lower by \$15 million. European aftermarket sales were \$75 million in the first quarter of 2006 compared to \$82 million in the prior year. Excluding \$6 million of unfavorable currency, European aftermarket revenues declined one percent in the first quarter of 2006 compared to last year. Ride control aftermarket revenues, excluding the impact of currency, were up two percent compared to the prior year driven by higher volumes. Aftermarket emission control revenues excluding unfavorable currency of \$4 million, were lower by four percent. South American and Indian revenues were \$65 million during the first quarter of 2006, compared with \$51 million in the prior year. Higher OE volumes primarily drove this 25 percent increase. Currency appreciation in Brazil and Argentina also added \$6 million to South America's revenues.

Revenues from our Asia Pacific segment, which includes Australia and Asia, increased \$8 million to \$90 million in the first quarter of 2006 compared to the same period last year. First quarter revenues for Australia fell 14 percent to \$40 million. Currency had an unfavorable impact of \$2 million on Australian revenue, but lower production volumes had the most significant impact on Australia's revenue decline. Asia revenues for the first quarter of 2006 were \$50 million, up 45 percent from last year. This increase was primarily due to stronger sales in China driven by the ramp up of fourth quarter 2005 platform launches and higher volumes with key customers.

EBIT

Stock-based compensation accounting change.....	1		--
Europe, South America & India			
Restructuring-related expenses.....	1		1
Asia Pacific			
Restructuring-related expenses.....	2		--

EBIT for North American operations decreased to \$34 million in the first quarter of 2006, from \$37 million one year ago. Lower volumes on key OE exhaust platforms impacted EBIT by \$2 million while unfavorable currency and incremental start-up costs for new platforms each had a \$1 million impact. Higher OE price concessions also negatively impacted EBIT. These decreases were partially offset by lower selling, general, administrative and engineering costs and higher North American OE ride control and aftermarket revenues. Included in North America's first quarter 2006 EBIT were \$3 million in restructuring and restructuring-related expenses and

32

\$1 million for adopting the new accounting standard for stock-based compensation. Included in North America's first quarter 2005 EBIT were \$2 million in restructuring and restructuring-related expenses.

Our European, South American and Indian segment's EBIT was \$8 million for the first quarter of 2006 compared to \$5 million during the same period last year. Higher European OE volumes from both emission and ride control product lines contributed \$4 million to EBIT. Improved OE manufacturing performance added \$8 million to EBIT. These increases were partially offset by price concessions and higher selling, general, administrative and engineering costs of \$3 million and unfavorable currency of \$1 million. Higher aftermarket ride control volumes increased EBIT by \$1 million. Higher aftermarket manufacturing and selling, general, administrative and engineering expenses decreased EBIT by \$5 million. South America and India benefited from higher volumes and lower manufacturing costs compared to the same period last year. Included in 2006's first quarter EBIT was \$1 million in restructuring related expenses. Included in 2005's first quarter EBIT were \$1 million in restructuring related expenses.

EBIT for our Asia Pacific segment was breakeven in the first quarter of 2006 compared to \$2 million in the first quarter of 2005. Lower volumes and higher manufacturing costs in Australia primarily related to restructuring activities reduced EBIT by \$1 million and \$3 million dollars respectively. These decreases were partially offset by higher revenue and lower selling, general, administrative and engineering costs in Asia. Included in the first quarter of 2006's EBIT was \$2 million in restructuring-related expenses.

EBIT AS A PERCENTAGE OF REVENUE

Edgar Filing: TENNECO INC - Form 10-Q

	THREE MONTHS ENDED MARCH 31,	
	2006	2005
	----	----
North America.....	7%	7%
Europe, South America & India.....	2%	1%
Asia Pacific.....	0%	2%
Total Tenneco.....	4%	4%

In North America, EBIT as a percentage of revenue for the first quarter of 2006 was even with last year. Higher aftermarket revenues and lower selling, general, administrative and engineering expenses, were offset by lower volumes on OE exhaust platforms and unfavorable currency. In addition, during the first quarter of 2006, North American results included higher restructuring and other charges. In Europe, South America and India, EBIT margin for the first quarter of 2005 was one percent higher compared to the prior year. Higher revenues and improved manufacturing performance more than offset the impact of higher selling, general, administrative and engineering expenses. EBIT as a percentage of revenue for our Asia Pacific segment decreased two percent in the first quarter of 2005 versus the prior year. Lower revenue in Australia and higher restructuring and other charges drove this decrease in EBIT margin.

INTEREST EXPENSE, NET OF INTEREST CAPITALIZED

We reported interest expense of \$34 million in the first quarter of 2006 compared to \$32 million in the prior year. This increase is primarily due to the impact of higher LIBOR rates on the variable portion of our debt.

In April 2004, we entered into three separate fixed-to-floating interest rate swaps with two separate financial institutions. These agreements swapped an aggregate of \$150 million of fixed interest rate debt at an annual rate of 10 1/4 percent to floating interest rate debt at an annual rate of LIBOR plus an average spread of 5.68 percent. Each agreement requires semi-annual settlements through July 15, 2013. The LIBOR in effect for these swaps during the course of 2005 resulted in lower interest expense of approximately \$2 million for the year. Based upon the LIBOR rate as determined under these agreements of 4.73 percent (which remains in effect until July 15, 2006) and the rates in the market today these swaps are expected to increase our 2006 annual interest expense by \$1 million. These swaps qualify as fair value hedges in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and as such are recorded on the balance sheet at fair value with an offset to the underlying hedged item, which is long-term debt. As of March 31, 2006, the fair value of the interest rate swaps was

a liability of approximately \$9 million, which has been recorded as a decrease to long-term debt and an increase to other long-term liabilities.

INCOME TAXES

Edgar Filing: TENNECO INC - Form 10-Q

We had no income tax expense after recording a \$3 million tax benefit primarily related to the resolution of certain tax issues with former affiliates in the first quarter of 2006. Income tax expense was \$4 million in the first quarter of 2005. Excluding the \$3 million net tax benefit, the effective tax rate for the first quarter of 2006 was 35 percent. The effective tax rate for the first quarter of 2005 was 35 percent.

EARNINGS PER SHARE

We reported net income of \$7 million or \$0.14 per diluted common share for the first quarter of 2006, as compared to net income of \$7 million or \$0.16 per diluted common share for the first quarter of 2005. Included in the results for the first quarter of 2006 were negative impacts from expenses related to our restructuring activities. The net impact of these items decreased earnings per diluted share by \$0.09. Also included in the first three months of 2006, were charges related to the adoption of a stock-based compensation accounting standard which negatively impacted earnings per share by \$0.02. Adoption of this accounting standard also increased the calculated number of diluted shares by approximately 0.6 million primarily due to the elimination of some excess tax benefits impacting earnings per share by \$0.01. Included in the results for the first quarter of 2005 were negative impacts from expenses related to our restructuring activities. The net impact of these items decreased earnings per diluted share by \$0.04. Please read the Notes to the consolidated financial statements for more detailed information on earnings per share.

RESTRUCTURING AND OTHER CHARGES

Over the past several years we have adopted plans to restructure portions of our operations. These plans were approved by the Board of Directors and were designed to reduce operational and administrative overhead costs throughout the business. Prior to the change in accounting required for exit or disposal activities, we recorded charges to income related to these plans for costs that did not benefit future activities in the period in which the plans were finalized and approved, while actions necessary to affect these restructuring plans occurred over future periods in accordance with established plans.

In the fourth quarter of 2001, our Board of Directors approved a restructuring plan, a project known as Project Genesis, designed to lower our fixed costs, improve efficiency and utilization, and better optimize our global footprint. Project Genesis involved closing eight facilities, improving the process flow and efficiency through value mapping and plant arrangement at 20 facilities, relocating production among facilities, and centralizing some functional areas. The total of all these restructuring and other costs recorded in the fourth quarter of 2001 was \$32 million before tax, \$31 million after tax, or \$0.81 per diluted common share. We eliminated 974 positions in connection with Project Genesis. Additionally, we executed this plan more efficiently than originally anticipated and as a result in the fourth quarter of 2002 reduced our reserves related to this restructuring activity by \$6 million, which was recorded in cost of sales. In the fourth quarter of 2003, we reclassified \$2 million of severance reserve to the asset impairment reserve. This reclassification became necessary, as actual asset impairments along with the sale of our closed facilities were different than the original estimates. We completed the remaining restructuring activities under Project Genesis as of the end of 2004. Since Project Genesis was announced, we have undertaken a number of related projects designed to restructure our operations, described below.

In the first quarter of 2003, we incurred severance costs of \$1 million associated with eliminating 17 salaried positions through selective layoffs and an early retirement program. Additionally, 93 hourly positions were eliminated through selective layoffs in the quarter. These reductions were done to reduce ongoing labor costs in North America. This charge was primarily recorded in cost

Edgar Filing: TENNECO INC - Form 10-Q

of sales.

In October of 2003, we announced the closing of an emission control manufacturing facility in Birmingham, U.K. Approximately 130 employees were eligible for severance benefits in accordance with union contracts and U.K. legal requirements. We incurred approximately \$3 million in costs related to this action in 2004. This action is in addition to the plant closings announced in Project Genesis in the fourth quarter of 2001.

34

In October 2004, we announced a plan to eliminate 250 salaried positions through selected layoffs and an elective early retirement program. The majority of layoffs were at middle and senior management levels. As of March 31, 2006, we have incurred \$23 million in severance costs. Of this total, \$7 million was recorded in cost of sales and \$16 million was recorded in selling, general and administrative expense. We expect to generate savings of approximately \$20 million annually from this initiative.

In February 2006, we decided to reduce the work force at certain of our global locations as part of our ongoing effort to reduce our cost structure. We recorded a pre-tax charge of \$3 million during the first quarter of 2006 for severance and other benefits related to these reductions in force, substantially all of which have been paid in cash.

In addition to the announced actions, we will continue to evaluate additional opportunities and expect that we will initiate actions that will reduce our costs through implementing the most appropriate and efficient logistics, distribution and manufacturing footprint for the future. We expect to continue to undertake additional restructuring actions as deemed necessary, however, there can be no assurances we will undertake such actions. Actions that we take, if any, will require the approval of our Board of Directors, or its authorized committee. We plan to conduct any workforce reductions that result in compliance with all legal and contractual requirements including obligations to consult with workers' councils, union representatives and others.

We incurred \$6 million in restructuring and restructuring-related costs during the first quarter of 2006. Including the costs incurred in 2002 through 2005 of \$71 million, we have incurred a total of \$77 million for activities related to our restructuring initiatives.

We have generated about \$31 million of annual savings from Project Genesis. Approximately \$7 million of savings was related to closing the eight facilities, approximately \$16 million of savings was related to value mapping and plant arrangement and approximately \$8 million of savings was related to relocating production among facilities and centralizing some functional areas. There have been no significant deviations from planned savings. All actions for Project Genesis have been completed.

Under the terms of our amended and restated senior credit agreement that took effect on December 12, 2003, we were allowed to exclude up to \$60 million of cash charges and expenses, before taxes, related to cost reduction initiatives over the 2002 to 2006 time period from the calculation of the financial covenant ratios we are required to maintain under our senior credit agreement. In February of 2005, our senior credit facility was amended to exclude all remaining cash charges and expenses related to restructuring initiatives started on or before February 21, 2005. As of March 31, 2006, we have excluded \$62 million in allowable charges relating to restructuring

Edgar Filing: TENNECO INC - Form 10-Q

initiatives previously started.

Under our amended facility, we are allowed to exclude up to an additional \$60 million of cash charges and expenses, before taxes, related to restructuring activities initiated after February 21, 2005 from the calculation of the financial covenant ratios required under our senior credit facility. As of March 31, 2006, we have excluded \$15 million in allowable charges relating to restructuring initiatives against the \$60 million available under the terms of the February 2005 amendment to the senior credit facility.

CRITICAL ACCOUNTING POLICES

We prepare our financial statements in accordance with accounting principles generally accepted in the United States of America. Preparing our financial statements in accordance with generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The following paragraphs include a discussion of some critical areas where estimates are required.

Revenue Recognition

We recognize revenue for sales to our original equipment and aftermarket customers when title and risk of loss passes to the customers under the terms of our arrangements with those customers, which is usually at the time of shipment from our plants or distribution centers. In connection with the sale of exhaust systems to certain original equipment manufacturers, we purchase catalytic converters or components thereof ("substrates") on behalf of our

35

customers which are used in the assembled system. These substrates are included in our inventory and "passed through" to the customer at our cost, plus a small margin, since we take title to the inventory and are responsible for both the delivery and quality of the finished product. Revenues recognized for substrate sales were \$205 million and \$167 million for the first quarter of 2006 and 2005, respectively. For our aftermarket customers, we provide for promotional incentives and returns at the time of sale. Estimates are based upon the terms of the incentives and historical experience with returns.

Warranty Reserves

Where we have offered product warranty, we also provide for warranty costs. Those estimates are based upon historical experience and upon specific warranty issues as they arise. While we have not experienced any material differences between these estimates and our actual costs, it is reasonably possible that future warranty issues could arise that could have a significant impact on our financial statements.

Long-Term Receivables

We expense pre-production design and development costs incurred for our original equipment customers unless we have a contractual guarantee for reimbursement of those costs from the customer. At March 31, 2006, we had \$18 million recorded as a long-term receivable from original equipment customers for guaranteed pre-production design and development arrangements. While we believe that the vehicle programs behind these arrangements will enter production, these arrangements allow us to recover our pre-production design and development costs

Edgar Filing: TENNECO INC - Form 10-Q

in the event that the programs are cancelled or do not reach expected production levels. We have not experienced any material losses on arrangements where we have a contractual guarantee of reimbursement from our customers.

Income Taxes

We have a U.S. Federal tax net operating loss ("NOL") carryforward at March 31, 2006, of \$570 million, which will expire in varying amounts from 2018 to 2025. The federal tax effect of that NOL is \$200 million, and is recorded as a deferred tax asset on our balance sheet at March 31, 2006. We also have state NOL carryforwards at March 31, 2006 of \$724 million, which will expire in varying amounts from 2006 to 2025. The tax effect of the state NOL, net of a valuation allowance, is \$27 million and is recorded as a deferred tax asset on our balance sheet at March 31, 2006. We estimate, based on available evidence both positive and negative, that it is more likely than not that we will utilize these NOLs within the prescribed carryforward period. That estimate is based upon our expectations regarding future taxable income of our U.S. operations and the implementation of available tax planning strategies that accelerate usage of the NOL. Circumstances that could change that estimate include future U.S. earnings at lower than expected levels or a majority ownership change as defined in the rules of the U.S. tax law. If that estimate changed, we would be required to cease recognizing an income tax benefit for any new NOL and could be required to record a reserve for some or all of the asset currently recorded on our balance sheet.

Stock-Based Compensation

Prior to January 1, 2006, we utilized the intrinsic value method to account for our stock-based compensation plans in accordance with Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees." Using the modified prospective application method, effective January 1, 2006, we account for our stock-based compensation plans in accordance with Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment" which requires a fair value method of accounting for compensation costs related to our stock-based compensation plans. Under the fair value method recognition provision of the statement, a share-based payment is measured at the grant date based upon the value of the award and is recognized as expense over the vesting period. Determining the fair value of share-based awards requires judgment in estimating employee and market behavior. If actual results differ significantly from these estimates, stock-based compensation expense and our results of operations could be materially impacted. Under APB No. 25, for the quarter ended March 31, 2005, we estimated that the pro forma net income impact under SFAS No. 123(R) would have been less than \$1 million or \$.01 per diluted share. For the quarter ended March 31, 2006, the results of adopting SFAS No. 123(R) on our results of operations including nonqualified stock options and other stock-based compensation was

36

additional expense of approximately \$1 million or \$.02 per diluted share. As of March 31, 2006, there is approximately \$4 million of total unrecognized compensation costs related to these stock-based awards that is expected to be recognized over a weighted average period of 1.7 years.

Goodwill and Other Intangible Assets

We utilize an impairment-only approach to value our purchased goodwill in accordance with SFAS No. 142, "Goodwill and Other Intangible Assets." Each year in the fourth quarter, we perform an impairment analysis on the balance of

Edgar Filing: TENNECO INC - Form 10-Q

goodwill. Inherent in this calculation is the use of estimates as the fair value of our designated reporting units is based upon the present value of our expected future cash flows. In addition, our calculation includes our best estimate of our weighted average cost of capital and growth rate. If the calculation results in a fair value of goodwill which is less than the book value of goodwill, an impairment charge would be recorded in the operating results of the impaired reporting unit.

Pension and Other Postretirement Benefits

We have various defined benefit pension plans that cover substantially all of our employees. We also have postretirement health care and life insurance plans that cover a majority of our domestic employees. Our pension and postretirement health care and life insurance expenses and valuations are dependent on assumptions used by our actuaries in calculating those amounts. These assumptions include discount rates, health care cost trend rates, long-term return on plan assets, retirement rates, mortality rates and other factors. Health care cost trend rate assumptions are developed based on historical cost data and an assessment of likely long-term trends. Retirement rates are based primarily on actual plan experience while mortality rates are based upon the general population experience which is not expected to differ materially from our experience.

Our approach to establishing the discount rate assumption for both our domestic and foreign plans starts with high-quality investment-grade bonds adjusted for an incremental yield based on actual historical performance. This incremental yield adjustment is the result of selecting securities whose yields are higher than the "normal" bonds that comprise the index. Based on this approach, for 2005 we lowered the weighted average discount rate for all of our pension plans to 5.4 percent, from 6.0 percent. The discount rate for postretirement benefits was lowered from approximately 6.3 percent for 2004 to approximately 5.8 percent for 2005.

Our approach to determining expected return on plan asset assumptions evaluates both historical returns as well as estimates of future returns, and is adjusted for any expected changes in the long-term outlook for the equity and fixed income markets. As a result, our estimate of the weighted average long-term rate of return on plan assets for all of our pension plans was lowered from 8.4 percent for 2004 to 8.2 percent for 2005.

Except in the U.K., generally, our pension plans do not require employee contributions. Our policy is to fund our pension plans in accordance with applicable U.S. and foreign government regulations and to make additional payments as funds are available to achieve full funding of the accumulated benefit obligation. At March 31, 2006, all legal funding requirements had been met. Other postretirement benefit obligations, such as retiree medical, and certain foreign pension plans are not funded.

CHANGES IN ACCOUNTING PRONOUNCEMENTS

In March 2005, the FASB issued Interpretation No. ("FIN") 46(R)-5, "Implicit Variable Interests under FASB Interpretation No. 46" (revised December 2003). The statement addresses whether a reporting enterprise should consider whether it holds an implicit variable interest in a variable interest entity ("VIE") or potential VIE when specific conditions exist. The guidance should be applied in the first reporting period beginning after March 3, 2005. The adoption of FSP No. FIN 46(R)-5 did not have an impact on our consolidated financial statements.

In March 2005, the FASB issued FIN No. 47, "Accounting for Conditional Asset Retirement Obligations." This interpretation clarifies that the term conditional asset retirement obligation as used in FASB No. 143, "Accounting for

Edgar Filing: TENNECO INC - Form 10-Q

Conditional Asset Retirement Obligations," refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. This interpretation was effective no later than the end of fiscal years

37

ending after December 15, 2005. The adoption of FIN No. 47 did not have a material impact on our financial position or results of operation.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Corrections," which supersedes APB No. 20, "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This statement changes the requirements for the accounting for and reporting of a change in accounting principle. SFAS No. 154 was effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS No. 154 did not have a material impact on our financial position or results of operation.

In June 2005, the FASB issued Staff Position No. ("FSP") No. 143-1, "Accounting for Electronic Equipment Waste Obligations." This statement addresses the accounting for obligations associated with Directive 2005/96/ EC on Waste Electrical and Electronic Equipment adopted by the European Union. The Directive distinguishes between "new" and "historical" waste. The guidance should be applied the later of the first reporting period ending after June 8, 2005, or the date of the adoption of the law by the applicable EU-member country. The adoption of FSP No. 143-1 did not have a material impact on our financial position or results of operations.

In November 2005, the FASB issued FSP FAS 123(R)-3, "Transition Election to Accounting for the Tax Effects of Share-Based Payment Awards." This FSP requires an entity to follow either the transition guidance for the additional paid-in-capital pool as prescribed in SFAS No. 123(R), Share-Based Payment, or the alternative transition method as described in the FSP. An entity that adopts SFAS No. 123(R) using the modified prospective application may make a one-time election to adopt the transition method described in this FSP. An entity may take up to one year from the later of its initial adoption of SFAS No. 123(R) or the effective date of this FSP to evaluate its available transition alternatives and make its one-time election. This FSP became effective in November 2005. We continue to evaluate the impact that the adoption of this FSP could have on our financial statements.

LIQUIDITY AND CAPITAL RESOURCES

CAPITALIZATION

	MARCH 31, 2006	DECEMBER 31, 2005	% CHANGE
	-----	-----	-----
	(MILLIONS)		
Short-term debt and current maturities.....	\$ 32	\$ 22	46%
Long-term debt.....	1,352	1,356	--

Edgar Filing: TENNECO INC - Form 10-Q

Total debt.....	----- 1,384	----- 1,378	--
Total minority interest.....	----- 26	----- 24	8
Shareholders' equity.....	157	129	22
Total capitalization.....	----- \$1,567 =====	----- \$1,531 =====	2

General. Short-term debt, which includes the current portion of long-term obligations and borrowings by foreign subsidiaries, as well as any outstanding borrowings on our revolving credit facilities, increased by approximately \$10 million. Borrowings under our revolving credit facilities increased \$12 million during the first quarter of 2006 and was offset by \$2 million decrease in foreign subsidiaries' obligations. Borrowings under our revolving credit facilities were \$12 million and zero, respectively, as of March 31, 2006 and December 31, 2005.

The year-to-date increase in shareholders' equity primarily results from \$17 million related to the translation of foreign balances into U.S. dollars. In addition our net income, premium on common stock issued pursuant to benefit plans and other transactions which contributed \$11 million to shareholders' equity. While our book equity balance was small at March 31, 2006, it had no effect on our business operations. We have no debt covenants that are based upon our book equity, and there are no other agreements that are adversely impacted by our relatively low book equity.

Overview and Recent Transactions. Our financing arrangements are primarily provided by a committed senior secured financing arrangement with a syndicate of banks and other financial institutions. The arrangement is secured by substantially all our domestic assets and pledges of 66 percent of the stock of certain first-tier foreign

subsidiaries, as well as guarantees by our material domestic subsidiaries. We originally entered into this facility in 1999 and since that time have periodically requested and received amendments to the facility for various purposes. In December of 2003, we engaged in a series of transactions that resulted in the full refinancing of the facility, through an amendment and restatement. In February 2005, we amended the facility, which resulted in reduced interest rates on the term loan B and tranche B-1 letter of credit/revolving loan portions of the facility. We also made a voluntary prepayment of \$40 million on the term loan B facility, reducing borrowings to \$356 million. During 2005, we increased the amount of commitments under our revolving credit facility from \$220 million to \$300 million and reduced the amount of commitments under our tranche B-1 letter of credit/revolving loan facility from \$180 million to \$155 million. As of March 31, 2006, the senior credit facility consisted of a seven-year, \$356 million term loan B facility maturing in December 2010; a five-year, \$300 million revolving credit facility maturing in December 2008; and a seven-year, \$155 million tranche B-1 letter of credit/revolving loan facility maturing in December 2010.

In April 2004, we entered into three separate fixed-to-floating interest rate swaps with two separate financial institutions. These agreements swapped an aggregate of \$150 million of fixed interest rate debt at an annual rate of

Edgar Filing: TENNECO INC - Form 10-Q

10 1/4 percent to floating interest rate debt at an annual rate of LIBOR plus an average spread of 5.68 percent. Each agreement requires semi-annual settlements through July 15, 2013. The LIBOR in effect for these swaps during the course of 2005 resulted in lower interest expense of approximately \$2 million for the year. Based upon the LIBOR rate as determined under these agreements of 4.73 percent (which remains in effect until July 15, 2006) and the rates in the market today these swaps are expected to increase our 2006 annual interest expense by \$1 million. These swaps qualify as fair value hedges in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and as such are recorded on the balance sheet at fair value with an offset to the underlying hedged item, which is long-term debt. As of March 31, 2006, the fair value of the interest rate swaps was a liability of approximately \$9 million which has been recorded as a decrease to long-term debt and an increase to other long-term liabilities. On March 31, 2006, we had \$996 million in long-term debt obligations that have fixed interest rates. Of that amount, \$475 million is fixed through July 2013 and \$500 million through November 2014, while the remainder is fixed over periods of 2007 through 2025. Included in the \$475 million is \$150 million of long-term debt obligations subject to variable interest rates as a result of our swap agreements. We also have \$356 million in long-term debt obligations that have variable interest rates based on a current market rate of interest.

In November 2004, we refinanced our \$500 million of 11 5/8 percent senior subordinated notes maturing in October of 2009 with new senior subordinated notes. The new notes have an interest rate of 8 5/8 percent, a maturity date of November 15, 2014 and contain substantially similar terms as the notes refinanced. Premium payments and other fees in connection with the refinancing of these notes totaled approximately \$40 million, including a \$29 million or 5.813% price premium over par on the redeemed notes. The new notes accrued interest from November 19, 2004 with an initial interest payment date of May 15, 2005. These notes are described in more detail below under "Senior Secured and Subordinated Notes."

In connection with the refinancing of the \$500 million in senior subordinated notes we amended the senior credit facility effective November 17, 2004. This amendment allowed us to use up to \$50 million in cash on hand to pay redemption premiums and/or other fees and costs in connection with the redemption and refinancing of the senior subordinated notes. In exchange for the amendment, we agreed to pay a small fee to the consenting lenders. We also incurred approximately \$13 million in legal, advisory and other costs related to the amendment and the issuance of the new senior subordinated notes. These amounts were capitalized and are being amortized over the remaining terms of the senior subordinated notes and senior credit facility.

Our interest expense increased in 2004 by \$42 million due to the fees and expenses associated with the refinancing of our senior subordinated notes, which includes an expense of \$8 million for existing deferred debt issuance costs associated with the 11 5/8 percent senior subordinated notes.

In February 2005 we amended our senior credit facility to reduce by 75 basis points the interest rate on the term loan B facility and the tranche B-1 letter of credit/revolving loan facility. In connection with the amendment, we voluntarily prepaid \$40 million in principal on the term loan B, reducing the term loan B facility from \$396 million to \$356 million.

Edgar Filing: TENNECO INC - Form 10-Q

facility agreement were as follows: (i) amend the definition of EBITDA to exclude all remaining cash charges and expenses related to restructuring initiatives started on or before February 21, 2005, and to exclude up to an additional \$60 million in restructuring-related expenses announced and taken after February 21, 2005, (ii) increase permitted investments to \$50 million, (iii) exclude expenses related to the issuance of stock options from the definition of consolidated net income, (iv) permit us to redeem up to \$125 million of senior secured notes after January 1, 2008 (subject to certain conditions), (v) increase our ability to add commitments under the revolving credit facility by \$25 million, and (vi) make other minor modifications. We incurred approximately \$1 million in fees and expenses associated with this amendment, which were capitalized and are being amortized over the remaining term of the agreement. As a result of the amendment and the voluntary prepayment of \$40 million under the term loan B, our term loan B interest expense in 2005 was approximately \$5 million lower than what it would otherwise have been.

During 2005, we increased the amount of commitments under our revolving credit facility from \$220 million to \$300 million and reduced the amount of commitments under our tranche B-1 letter of credit/revolving loan facility from \$180 million to \$155 million. This reduction of our tranche B-1 letter of credit/revolving loan facility was required under the terms of the senior credit facility, as we had increased the amount of our revolving credit facility commitments by more than \$55 million.

In October 2005, we further amended our senior credit facility increasing the amount of commitments we may seek under the revolving credit portion of the facility from \$300 million to \$350 million, along with other technical changes. We will not be required to reduce the commitments under our tranche B-1 letter of credit/revolving loan facility should we obtain additional revolving credit commitments. We have not yet sought any such increased commitments, but may do so when, in our judgment, market conditions are favorable.

Senior Credit Facility--Forms of Credit Provided. Following the February 2005 voluntary prepayment of \$40 million, the term loan B facility is payable as follows: \$74 million due March 31, 2010, and \$94 million due each of June 30, September 30 and December 12, 2010. The revolving credit facility requires that if any amounts are drawn, they be repaid by December 2008. Prior to that date, funds may be borrowed, repaid and reborrowed under the revolving credit facility without premium or penalty. Letters of credit may be issued under the revolving credit facility.

The tranche B-1 letter of credit/revolving loan facility requires that it be repaid by December 2010. We can borrow revolving loans from the \$155 million tranche B-1 letter of credit/revolving loan facility and use that facility to support letters of credit. The tranche B-1 letter of credit/revolving loan facility lenders have deposited \$155 million with the administrative agent, who has invested that amount in time deposits. We do not have an interest in any of the funds on deposit. When we draw revolving loans under this facility, the loans are funded from the \$155 million on deposit with the administrative agent. When we make repayments, the repayments are redeposited with the administrative agent.

The tranche B-1 letter of credit/revolving loan facility will be reflected as debt on our balance sheet only if we borrow money under this facility or if we use the facility to make payments for letters of credit. We will not be liable for any losses to or misappropriation of any (i) return due to the administrative agent's failure to achieve the return described above or to pay all or any portion of such return to any lender under such facility or (ii) funds on deposit in such account by such lender (other than the obligation to repay funds released from such accounts and provided to us as revolving loans under such facility).

Edgar Filing: TENNECO INC - Form 10-Q

Senior Credit Facility--Interest Rates and Fees. Borrowings under the term loan B facility and the tranche B-1 letter of credit/revolving loan facility bore interest at an annual rate equal to, at our option, either (i) the London Interbank Offering Rate plus a margin of 225 basis points (reduced from 300 basis points in February 2005); or (ii) a rate consisting of the greater of the JP Morgan Chase prime rate or the Federal Funds rate plus 50 basis points, plus a margin of 125 basis points (reduced from 200 basis points in February 2005). There is no cost to us for issuing letters of credit under the tranche B-1 letter of credit/revolving loan facility, however outstanding letters of credit reduce our availability to borrow revolving loans under this portion of the facility. If a letter of credit issued under this facility is subsequently paid and we do not reimburse the amount paid in full, then a ratable portion of each lender's deposit would be used to fund the letter of credit. We pay the tranche B-1 lenders a fee which is equal to LIBOR plus 225 basis points (reduced from 300 basis points in February 2005). This fee is offset by the

40

return on the funds deposited with the administrative agent which earn interest at a per annum rate approximately equal to LIBOR. Outstanding revolving loans reduce the funds on deposit with the administrative agent which in turn reduce the earnings of those deposits and effectively increases our interest expense at a per annum rate equal to LIBOR. The interest margins for borrowings under the term loan B facility and tranche B-1 letter of credit/revolving loan facility were further reduced by 25 basis points as of April 3, 2006, based on an improved credit rating of BB- by Standard and Poor's.

Borrowings under the revolving credit facility bore interest at an annual rate equal to, at our option, either (i) the London Interbank Offering Rate plus a margin of 275 basis points (reduced from 325 basis points in March 2005 and further reduced from 300 basis points in August 2005); or (ii) a rate consisting of the greater of the JP Morgan Chase prime rate or the Federal Funds rate plus 37.5 basis points (reduced from 50 basis points to 37.5 basis points in August 2005), plus a margin of 175 basis points (reduced from 225 basis points in March 2005 and further reduced from 200 basis points in August 2005). Letters of credit issued under the revolving credit facility accrue a letter of credit fee at a per annum rate of 275 basis points (reduced from 325 basis points in March 2005 and further reduced from 300 basis points in August 2005) for the pro rata account of the lenders under such facility and a fronting fee for the ratable account of the issuers thereof at a per annum rate in an amount to be agreed upon payable quarterly in arrears. The interest margins for borrowings and letters of credit issued under the revolving credit facility are subject to adjustment based on the consolidated leverage ratio (consolidated indebtedness divided by consolidated EBITDA as defined in the senior credit facility agreement) measured at the end of each quarter. The margin we pay on the revolving credit facility is reduced by 25 basis points following each fiscal quarter for which the consolidated leverage ratio is less than 4.0 beginning in March 2005. Since our consolidated leverage ratio was 3.52 as of March 31, 2005, and 3.42 as of June 30, 2005, the margin we pay on the revolving credit facility was reduced by 25 basis points in the second quarter of 2005 and was further reduced by 25 basis points in the third quarter of 2005. We also pay a commitment fee of 50 basis points on the unused portion of the revolving credit facility. This commitment fee was reduced by 12.5 basis points during the third quarter of 2005 to 37.5 basis points as our consolidated leverage ratio was less than 3.5.

Senior Credit Facility--Other Terms and Conditions. As described above, we are highly leveraged. Our amended and restated senior credit facility requires that we maintain financial ratios equal to or better than the following

Edgar Filing: TENNECO INC - Form 10-Q

consolidated leverage ratio (consolidated indebtedness divided by consolidated EBITDA, as calculated under the facility), consolidated interest coverage ratio (consolidated EBITDA divided by consolidated cash interest paid, as calculated under the facility), and fixed charge coverage ratio (consolidated EBITDA less consolidated capital expenditures, divided by consolidated cash interest paid, as calculated under the facility) at the end of each period indicated. The financial ratios required under the amended senior credit facility and, the actual ratios we achieved for the four quarters of 2006, are shown in the following tables:

	QUARTER ENDED					
	MARCH 31, 2006		JUNE 30, 2006		SEPTEMBER 30, 2006	DECEMBER 31, 2006

The senior credit facility agreement provides: (i) the ability to refinance our senior subordinated notes and/or our senior secured notes using the net cash proceeds from the issuance of similarly structured debt; (ii) the ability to

repurchase our senior subordinated notes and/or our senior secured notes using the net cash proceeds from issuing shares of our common stock; and (iii) the prepayment of the term loans by an amount equal to 50 percent of our excess cash

Edgar Filing: TENNECO INC - Form 10-Q

flow as defined by the agreement.

The senior credit facility agreement also contains restrictions on our operations that are customary for similar facilities, including limitations on: (i) incurring additional liens; (ii) sale and leaseback transactions (except for the permitted transactions as described in the amended agreement); (iii) liquidations and dissolutions; (iv) incurring additional indebtedness or guarantees; (v) capital expenditures; (vi) dividends (limited to no more than \$15 million per year); (vii) mergers and consolidations; and (viii) prepayments and modifications of subordinated and other debt instruments. Compliance with these requirements and restrictions is a condition for any incremental borrowings under the senior credit facility agreement and failure to meet these requirements enables the lenders to require repayment of any outstanding loans. As of March 31, 2006, we were in compliance with all the financial covenants (as indicated above) and operational restrictions of the facility.

Our senior credit facility does not contain any terms that could accelerate the payment of the facility as a result of a credit rating agency downgrade.

Senior Secured and Subordinated Notes. Our outstanding debt also includes \$475 million of 10 1/4 percent senior secured notes due July 15, 2013, in addition to the \$500 million of 8 5/8 percent senior subordinated notes due November 15, 2014 described above. We can redeem some or all of the notes at any time after July 15, 2008, in the case of the senior secured notes, and November 15, 2009, in the case of the senior subordinated notes. If we sell certain of our assets or experience specified kinds of changes in control, we must offer to repurchase the notes. We are permitted to redeem up to 35 percent of the senior secured notes with the proceeds of certain equity offerings completed before July 15, 2006 and up to 35 percent of the senior subordinated notes with the proceeds of certain equity offerings completed before November 15, 2007.

Our senior secured and subordinated notes require that, as a condition precedent to incurring certain types of indebtedness not otherwise permitted, our consolidated fixed charge coverage ratio, as calculated on a proforma basis, to be greater than 2.25 and 2.00, respectively. We have not incurred any of the types of indebtedness not otherwise permitted by the indentures. The indentures also contain restrictions on our operations, including limitations on: (i) incurring additional indebtedness or liens; (ii) dividends; (iii) distributions and stock repurchases; (iv) investments; (v) asset sales and (vi) mergers and consolidations. Subject to limited exceptions, all of our existing and future material domestic wholly owned subsidiaries fully and unconditionally guarantee these notes on a joint and several basis. In addition, the senior secured notes and related guarantees are secured by second priority liens, subject to specified exceptions, on all of our and our subsidiary guarantors' assets that secure obligations under our senior credit facility, except that only a portion of the capital stock of our and our subsidiary guarantor's domestic subsidiaries is provided as collateral and no assets or capital stock of our direct or indirect foreign subsidiaries secure the notes or guarantees. There are no significant restrictions on the ability of the subsidiaries that have guaranteed these notes to make distributions to us. The senior subordinated notes rank junior in right of payment to our senior credit facility and any future senior debt incurred. As of March 31, 2006, we were in compliance with the covenants and restrictions of these indentures.

Accounts Receivable Securitization. In addition to our senior credit facility, senior secured notes and senior subordinated notes, we also sell some of our accounts receivable on a nonrecourse basis in North America and Europe. In North America, we have an accounts receivable securitization program with two commercial banks. We sell original equipment and aftermarket receivables on a daily basis under this program. We sold accounts receivable under this program of \$95 million and \$88 million at March 31, 2006 and 2005, respectively. This program is subject to cancellation prior to its maturity date if we were to (i)

Edgar Filing: TENNECO INC - Form 10-Q

fail to pay interest or principal payments on an amount of indebtedness exceeding \$50 million, (ii) default on the financial covenant ratios under the senior credit facility, or (iii) fail to maintain certain financial ratios in connection with the accounts receivable securitization program. In January 2006, this program was renewed for 364 days to January 29, 2007 at a facility size of \$100 million. We also sell some receivables in our European operations to regional banks in Europe. At March 31, 2006, we sold \$52 million of accounts receivable in Europe down from \$59 million at March 31, 2005. The arrangements to sell receivables in Europe are not committed and can be cancelled at any time. If we were not able to sell receivables under either the North American or European securitization programs, our borrowings under our

42

revolving credit agreements may increase. These accounts receivable securitization programs provide us with access to cash at costs that are generally favorable to alternative sources of financing, and allow us to reduce borrowings under our revolving credit agreements.

Capital Requirements. We believe that cash flows from operations, combined with available borrowing capacity described above, assuming that we maintain compliance with the financial covenants and other requirements of our loan agreement, will be sufficient to meet our future capital requirements for the following year. Our ability to meet the financial covenants depends upon a number of operational and economic factors, many of which are beyond our control. Factors that could impact our ability to comply with the financial covenants include the rate at which consumers continue to buy new vehicles and the rate at which they continue to repair vehicles already in service, as well as our ability to successfully implement our restructuring plans and offset higher raw material prices. Lower North American vehicle production levels, weakening in the global aftermarket, or a reduction in vehicle production levels in Europe, beyond our expectations, could impact our ability to meet our financial covenant ratios. In the event that we are unable to meet these financial covenants, we would consider several options to meet our cash flow needs. These options could include further renegotiations with our senior credit lenders, additional cost reduction or restructuring initiatives, sales of assets or common stock, or other alternatives to enhance our financial and operating position. Should we be required to implement any of these actions to meet our cash flow needs, we believe we can do so in a reasonable time frame.

CONTRACTUAL OBLIGATIONS

Our remaining required debt principal amortization and payment obligations under lease and certain other financial commitments as of March 31, 2006, are shown in the following table:

PAYMENTS DUE IN:						
2006	2007	2008	2009	2010	BEYOND 2010	TOTAL
(MILLIONS)

	=====	=====	=====	=====	=====	=====	=====

We principally use our revolving credit facilities to finance our short-term capital requirements. As a result, we classify any outstanding balances of the revolving credit facilities within our short-term debt even though the revolving credit facility has a termination date of December 13, 2008 and the tranche B-1 letter of credit facility/revolving loan facility has a termination date of December 13, 2010.

If we do not maintain compliance with the terms of our senior credit facility, senior secured notes indenture and senior subordinated debt indenture described above, all amounts under those arrangements could, automatically or at the option of the lenders or other debt holders, become due. Additionally, each of those facilities contains provisions that certain events of default under one facility will constitute a default under the other facility, allowing the acceleration of all amounts due. We currently expect to maintain compliance with terms of all of our various credit agreements for the foreseeable future.

Included in our contractual obligations is the amount of interest to be paid on our long-term debt. As our debt structure contains both fixed and variable rate interest debt, we have made assumptions in calculating the amount of the future interest payments. Interest on our senior secured notes and senior subordinated notes is calculated using

43

the fixed rates of 10 1/4 percent and 8 5/8 percent, respectively. Interest on our variable rate debt is calculated as 225 basis points plus LIBOR of 4.8 percent which was the rate at March 31, 2006. We have assumed that LIBOR will remain unchanged for the outlying years. See "--Capitalization." In addition we have included the impact of our interest rate swaps entered into in April 2004. See "Interest Rate Risk" below.

We have also included an estimate of expenditures required after March 31, 2006 to complete the facilities and projects authorized at December 31, 2005, in which we have made substantial commitments in connections with facilities.

We have not included purchase obligations as part of our contractual obligations as we generally do not enter into long-term agreements with our suppliers. In addition, the agreements we currently have do not specify the volumes we are required to purchase. If any commitment is provided, in many cases the agreements state only the minimum percentage of our purchase

Edgar Filing: TENNECO INC - Form 10-Q

requirements we must buy from the supplier. As a result, these purchase obligations fluctuate from year to year and we are not able to quantify the amount of our future obligation.

We have not included material cash requirements for taxes as we are a taxpayer in certain foreign jurisdictions but not in domestic locations. Additionally, it is difficult to estimate taxes to be paid as changes in where we generate income can have a significant impact on future tax payments. We have also not included cash requirements for funding pension and postretirement benefit costs. Based upon current estimates we believe we will be required to make contributions of approximately \$46 million to those plans in 2006, of which approximately \$8 million has been contributed as of March 31, 2006. Pension and postretirement contributions beyond 2006 will be required but those amounts will vary based upon many factors, including the performance of our pension fund investments during 2006. In addition, we have not included cash requirements for environmental remediation. Based upon current estimates we believe we will be required to spend approximately \$9 million over the next 20 to 30 years. However, due to possible modifications in remediation processes and other factors, it is difficult to determine the actual timing of the payments. See "--Environmental and Other Matters".

We occasionally provide guarantees that could require us to make future payments in the event that the third party primary obligor does not make its required payments. We have not recorded a liability for any of these guarantees. The only third party guarantee we have made is the performance of lease obligations by a former affiliate. Our maximum liability under this guarantee was approximately \$1 million at both March 31, 2006 and 2005, respectively. We have no recourse in the event of default by the former affiliate. However, we have not been required to make any payments under this guarantee.

Additionally, we have from time to time issued guarantees for the performance of obligations by some of our subsidiaries, and some of our subsidiaries have guaranteed our debt. All of our then existing and future material domestic wholly-owned subsidiaries fully and unconditionally guarantee our senior credit facility, our senior secured notes and our senior subordinated notes on a joint and several basis. The arrangement for the senior credit facility is also secured by first-priority liens on substantially all our domestic assets and pledges of 66 percent of the stock of certain first-tier foreign subsidiaries. The arrangement for the \$475 million senior secured notes is also secured by second-priority liens on substantially all our domestic assets, excluding some of the stock of our domestic subsidiaries. No assets or capital stock of our direct or indirect foreign subsidiaries secure these notes. You should also read Note 12 where we present the Supplemental Guarantor Condensed Consolidating Financial Statements.

We have issued guarantees through letters of credit in connection with some obligations of our affiliates. We have guaranteed through letters of credit support for local credit facilities and cash management requirements for some of our subsidiaries totaling \$20 million. We have also issued \$15 million in letters of credit to support some of our subsidiaries' insurance arrangements. In addition, we have issued \$3 million in guarantees through letters of credit to guarantee other obligations of subsidiaries primarily related to environmental remediation activities.

Edgar Filing: TENNECO INC - Form 10-Q

THREE
MONTHS
ENDED
MARCH 31,

2006 2005
---- ----
(MILLIONS)

Cash provided (used) by:

Operating activities.....	\$(23)	\$(96)
Investing activities.....	(41)	(42)
Financing activities.....	16	(5)

Operating Activities

For the three months ended March 31, 2006, operating activities used \$23 million in cash compared to a use of \$96 million in cash during the same period last year. For the first three months of 2006, cash used for working capital was \$80 million versus \$137 million for the first three months of 2005. Higher sales levels during the first quarter of 2006 versus the first quarter of 2005 were the primary reason for higher year over year receivables balances that resulted in a cash outflow of \$82 million, a \$4 million increase from last year. Inventory represented a cash outflow of \$27 million during the first quarter of 2006, a decrease of \$19 million over the prior year. This decrease primarily resulted from our continued focus on inventories. Accounts payable provided cash of \$67 million, up significantly from last year's cash inflow of \$21 million. Our day's payable outstanding for the three months ended March 31, 2006 was back in line with our three-year historical average. Other current liabilities resulted in a use of \$18 million in cash for the first quarter of 2006, versus a use of \$8 million in cash during the same period last year. This change of \$10 million was related to severance payments and an increase in pension contributions during the first quarter of 2006, as well as last year's increase in accruals for a new aftermarket customer. No net cash taxes were paid in the latest three months ending March 31, 2006 primarily due to the cash collected from former affiliates that offset other taxes paid during the quarter. Cash taxes paid in the first quarter of 2005 were \$7 million.

One of our European subsidiaries receives payment from one of its OE customers whereby the accounts receivable are satisfied through the delivery of negotiable financial instruments. We may collect these financial instruments before their maturity date by either selling them at a discount or using them to satisfy accounts receivable that have previously been sold to a European bank. The reported sales of these financial instruments were no longer included in the account receivables sold beginning in the fourth quarter of 2004. Any of these financial instruments which were not sold are classified as other current assets as they do not meet our definition of cash equivalents. The amount of these financial instruments that were collected before their maturity date totaled \$26 million at March 31, 2005, compared with \$31 million at March 31, 2005.

In certain instances several of our Chinese subsidiaries receive payment from OE customers and satisfy vendor payments through the receipt and delivery of negotiable financial instruments. Financial instruments used to satisfy vendor payables and not redeemed totaled \$4 million at March 31, 2006 and are classified as notes payable. Financial instruments received from OE customers

Edgar Filing: TENNECO INC - Form 10-Q

and not redeemed totaled \$8 million at March 31, 2006 and are classified as other current assets. One of our Chinese subsidiaries is required to maintain a cash balance at a financial institution issuing the financial instruments which are used to satisfy vendor payments. The balance totaled \$1 million at March 31, 2006 and is classified as cash and cash equivalents.

Investing Activities

Cash used for investing activities was \$41 million in the first three months of 2006 compared to \$42 million in the same period one year ago. During the first quarter of 2005, we used \$11 million in cash to acquire the exhaust operations of Gabilan Manufacturing, partially offset by net proceeds from the sale of assets of \$1 million. Expenditures for plant, property and equipment were \$38 million in the first three months of 2006 compared to \$32 million a year ago. This increase of \$6 million in capital expenditures was primarily due to the timing of future OE customer platform launches. First quarter expenditures for software-related intangible assets were \$3 million in both 2006 and 2005.

45

Financing Activities

Cash flow from financing activities was a \$16 million inflow in the first three months of 2006 compared to a \$5 million outflow in the same period of 2005. The difference is primarily attributable to an \$8 million issuance of common shares and an increase in short-term debt of \$9 million during the first quarter of 2006, compared to financing activities in the first quarter of 2005 that included using \$40 million in cash to reduce our long-term debt, partially offset by increased borrowings from our revolving credit facility.

INTEREST RATE RISK

Our financial instruments that are sensitive to market risk for changes in interest rates are primarily our debt securities. We primarily use our revolving credit facilities to finance our short-term capital requirements. We pay a current market rate of interest on these borrowings. We have financed our long-term capital requirements with long-term debt with original maturity dates ranging from five to ten years.

In April 2004, we entered into three separate fixed-to-floating interest rate swaps with two separate financial institutions. These agreements swapped an aggregate of \$150 million of fixed interest rate debt at an annual rate of 10 1/4 percent to floating interest rate debt at an annual rate of LIBOR plus an average spread of 5.68 percent. Each agreement requires semi-annual settlements through July 15, 2013. The LIBOR in effect for these swaps during the course of 2005 resulted in lower interest expense of approximately \$2 million for the year. Based upon the LIBOR rate as determined under these agreements of 4.73 percent (which remains in effect until July 15, 2006) and the rates in the market today these swaps are expected to increase our 2006 annual interest expense by \$1 million. These swaps qualify as fair value hedges in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and as such are recorded on the balance sheet at fair value with an offset to the underlying hedged item, which is long-term debt. As of March 31, 2006, the fair value of the interest rate swaps was a liability of approximately \$9 million which has been recorded as a decrease to long-term debt and an increase to other long-term liabilities. On March 31, 2006, we had \$996 million in long-term debt obligations that have fixed interest rates. Of that

Edgar Filing: TENNECO INC - Form 10-Q

amount, \$475 million is fixed through July 2013 and \$500 million through November 2014, while the remainder is fixed over periods of 2007 through 2025. Included in the \$475 million is \$150 million of long-term debt obligations subject to variable interest rates as a result of our swap agreements. We also have \$356 million in long-term debt obligations that have variable interest rates based on a current market rate of interest.

We estimate that the fair value of our long-term debt at March 31, 2006 was about 105 percent of its book value. A one percentage point increase or decrease in interest rates would increase or decrease the annual interest expense we recognize in the income statement and the cash we pay for interest expense by about \$2 million after tax, excluding the effect of the interest rate swaps we completed in April 2004. A one percentage point increase or decrease in interest rates on the swaps we completed in April 2004 would increase or decrease the annual interest expense we recognize in the income statement and the cash we pay for interest expense by approximately \$1 million after tax.

OUTLOOK

Volatile oil prices and rising interest rates make this an uncertain and challenging environment for automotive suppliers. Current estimates for 2006 are that North American OE light vehicle production levels will remain flat with 2005. We remain cautious about the outlook for North American production rates due to the overall financial condition of original equipment manufacturers, especially Ford and General Motors who have announced job cuts, plant closings, and other restructuring activities. We are also uncertain about the willingness of the original equipment manufacturers to continue to support consumer vehicle sales through incentives. We believe that new product launches, increasing market positions with Japanese OE customers, and a strong new product and technology pipeline will help us to offset pressures from North American production rates. European light vehicle production is expected to increase one percent in 2006 compared to 2005. Heavy-duty truck production rates for 2006 are expected to remain at the same levels as 2005, primarily due to the pull forward of production ahead of the introduction of stricter emission regulations in 2007. In China, light vehicle production is projected to grow to 6.2 million units in 2006, significantly up from 5.2 million units in 2005. In the Europe aftermarket, heightened competition and longer product replacement cycles are expected to continue to negatively impact volumes. We saw signs of sales stabilization in the North America aftermarket exhaust business unit during 2005 and are cautiously optimistic that these conditions will continue in 2006. We also plan to continue our efforts to increase new and

existing sales in the North American aftermarket ride control business unit. In addition, we are pursuing other aftermarket opportunities with the introduction of air filters in Europe and brakes in both Europe and North America.

Raw material prices, and in particular steel prices, continue to be a concern with price pressures expected to continue into the foreseeable future. Where appropriate, we have sought to mitigate short-term volatility in steel prices through supply commitments with firm pricing. These commitments generally extend for one to two years. We worked hard in 2005 and continue to work hard to address this issue by evaluating alternative materials and processes, reviewing material substitution opportunities, increasing component and assembly outsourcing to low cost countries and aggressively pursuing recovery of higher costs from our customers. In addition to these actions, we continue to pursue productivity initiatives and review opportunities to reduce costs through Six Sigma, Lean manufacturing and restructuring activities. We will continue to

Edgar Filing: TENNECO INC - Form 10-Q

focus on controlling costs and leveraging global supply chain spending.

ENVIRONMENTAL AND OTHER MATTERS

We are subject to a variety of environmental and pollution control laws and regulations in all jurisdictions in which we operate. We expense or capitalize, as appropriate, expenditures for ongoing compliance with environmental regulations that relate to current operations. We expense costs related to an existing condition caused by past operations and that do not contribute to current or future revenue generation. We record liabilities when environmental assessments indicate that remedial efforts are probable and the costs can be reasonably estimated. Estimates of the liability are based upon currently available facts, existing technology, and presently enacted laws and regulations taking into consideration the likely effects of inflation and other societal and economic factors. We consider all available evidence including prior experience in remediation of contaminated sites, other companies' cleanup experiences and data released by the United States Environmental Protection Agency or other organizations. These estimated liabilities are subject to revision in future periods based on actual costs or new information. Where future cash flows are fixed or reliably determinable, we have discounted the liabilities. All other environmental liabilities are recorded at their undiscounted amounts. We evaluate recoveries separately from the liability and, when they are assured, recoveries are recorded and reported separately from the associated liability in our financial statements.

As of March 31, 2006, we are designated as a potentially responsible party in one Superfund site. Including the Superfund site, we may have the obligation to remediate current or former facilities, and we estimate our share of environmental remediation costs to be approximately \$9 million. For the Superfund site and the current and former facilities, we have established reserves that we believe are adequate for these costs. Although we believe our estimates of remediation costs are reasonable and are based on the latest available information, the cleanup costs are estimates and are subject to revision as more information becomes available about the extent of remediation required. At some sites, we expect that other parties will contribute to the remediation costs. In addition, at the Superfund site, the Comprehensive Environmental Response, Compensation and Liability Act provides that our liability could be joint and several, meaning that we could be required to pay in excess of our share of remediation costs. Our understanding of the financial strength of other potentially responsible parties at the Superfund site, and of other liable parties at our current and former facilities, has been considered, where appropriate, in our determination of our estimated liability.

We believe that any potential costs associated with our current status as a potentially responsible party in the Superfund site, or as a liable party at our current or former facilities, will not be material to our results of operations or consolidated financial position.

From time to time we are subject to product warranty claims whereby we are required to bear costs of repair or replacement of certain of our products. Warranty claims may range from individual customer claims to full recalls of all products in the field. We believe that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates requiring adjustments to the reserve. The reserve is included in current liabilities on the balance sheet. See Note 5 to our consolidated financial statements included under Item 1 for information regarding our warranty reserves.

We also from time to time are involved in legal proceedings, claims or investigations that are incidental to the conduct of our business. Some of these proceedings allege damages against us relating to environmental liabilities

(including toxic tort, property damage and remediation), intellectual property matters (including patent, trademark and copyright infringement, and licensing disputes), personal injury claims (including injuries due to product failure, design or warnings issues, and other product liability related matters), taxes, employment matters, and commercial or contractual disputes, sometimes related to acquisitions or divestitures. For example, one of our Chinese joint ventures is currently under investigation by Chinese government officials related to whether the joint venture applied the proper tariff code to certain of its imports. We vigorously defend ourselves against all of these claims. In future periods, we could be subjected to cash costs or non-cash charges to earnings if any of these matters is resolved on unfavorable terms. However, although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including our assessment of the merits of the particular claim, we do not expect that these legal proceedings or claims will have any material adverse impact on our future consolidated financial position or results of operations. In addition, we are subject to a number of lawsuits initiated by a significant number of claimants alleging health problems as a result of exposure to asbestos. Many of these cases involve significant numbers of individual claimants. However, only a small percentage of these claimants allege that they were automobile mechanics who were allegedly exposed to our former muffler products and a significant number appear to involve workers in other industries or otherwise do not include sufficient information to determine whether there is any basis for a claim against us. We believe, based on scientific and other evidence, it is unlikely that mechanics were exposed to asbestos by our former muffler products and that, in any event, they would not be at increased risk of asbestos-related disease based on their work with these products. Further, many of these cases involve numerous defendants, with the number of each in some cases exceeding 200 defendants from a variety of industries. Additionally, the plaintiffs either do not specify any, or specify the jurisdictional minimum, dollar amount for damages. As major asbestos manufacturers continue to go out of business or file for bankruptcy, we may experience an increased number of these claims. We vigorously defend ourselves against these claims as part of our ordinary course of business. In future periods, we could be subject to cash costs or non-cash charges to earnings if any of these matters is resolved unfavorably to us. To date, with respect to claims that have proceeded sufficiently through the judicial process, we have regularly achieved favorable resolution in the form of a dismissal of the claim or a judgment in our favor. Accordingly, we presently believe that these asbestos-related claims will not have a material adverse impact on our future financial condition or results of operations.

EMPLOYEE STOCK OWNERSHIP PLANS

We have established Employee Stock Ownership Plans for the benefit of our employees. Under the plans, subject to limitations in the Internal Revenue Code, participants may elect to defer up to 75 percent of their salary through contributions to the plan, which are invested in selected mutual funds or used to buy our common stock. We currently match in cash 50 percent of each employee's contribution up to eight percent of the employee's salary. We recorded expense for these matching contributions of approximately \$2 million for each of the quarters ended March 31, 2006 and 2005, respectively. All contributions vest immediately.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to interest rate risk, see the caption entitled "Interest Rate Risk" in "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations," which is

Edgar Filing: TENNECO INC - Form 10-Q

incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the quarter covered by this report. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the company's disclosure controls and procedures are effective to ensure that information required to be disclosed by our company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosures.

48

PART II

ITEM 1A. RISK FACTORS

We are exposed to certain risks and uncertainties that could have a material adverse impact on our business, financial condition and operating results. There have been no material changes to the Risk Factors described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2005.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) None.

(b) Not applicable.

(c) Purchase of equity securities by the issuer and affiliated purchasers. The following table provides information relating to our purchase of shares of our common stock in the first quarter of 2006. All of these purchases reflect shares withheld upon vesting of restricted stock, to satisfy statutory minimum tax withholding obligations.

PERIOD	TOTAL NUMBER OF SHARES PURCHASED	AVERAGE PRICE PAID
-----	-----	-----
January 2006.....	71,567	\$20.71
February 2006.....	--	--
March 2006.....	--	--
	-----	-----
Total.....	71,567	\$20.71

Edgar Filing: TENNECO INC - Form 10-Q

We presently have no publicly announced repurchase plan or program, but intend to continue to satisfy statutory minimum tax withholding obligations in connection with the vesting of outstanding restricted stock through the withholding of shares.

ITEM 6. EXHIBITS

(a) Exhibits. The exhibits filed with this report are listed on the Exhibit Index following the signature page of this report, which is incorporated herein by reference.

49

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, Tenneco Inc. has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

INDEX TO EXHIBITS TO QUARTERLY REPORT ON FORM 10-Q FOR QUARTER ENDED MARCH 31, 2006

EXHIBIT NUMBER -----	DESCRIPTION -----
2	-- None
3.1(a)	-- Restated Certificate of Incorporation of the registrant dated December 11, 1996 (incorporated herein by reference from Exhibit 3.1(a) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1997, File No. 1-12387).
3.1(b)	-- Certificate of Amendment, dated December 11, 1996 (incorporated herein by reference from Exhibit 3.1(c) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1997, File No.

Edgar Filing: TENNECO INC - Form 10-Q

- 1-12387).
- 3.1(c) -- Certificate of Ownership and Merger, dated July 8, 1997 (incorporated herein by reference from Exhibit 3.1(d) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1997, File No. 1-12387).
- 3.1(d) -- Certificate of Designation of Series B Junior Participating Preferred Stock dated September 9, 1998 (incorporated herein by reference from Exhibit 3.1(d) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1998, File No. 1-12387).
- 3.1(e) -- Certificate of Elimination of the Series A Participating Junior Preferred Stock of the registrant dated September 11, 1998 (incorporated herein by reference from Exhibit 3.1(e) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1998, File No. 1-12387).
- 3.1(f) -- Certificate of Amendment to Restated Certificate of Incorporation of the registrant dated November 5, 1999 (incorporated herein by reference from Exhibit 3.1(f) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
- 3.1(g) -- Certificate of Amendment to Restated Certificate of Incorporation of the registrant dated November 5, 1999 (incorporated herein by reference from Exhibit 3.1(g) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
- 3.1(h) -- Certificate of Ownership and Merger merging Tenneco Automotive Merger Sub Inc. with and into the registrant, dated November 5, 1999 (incorporated herein by reference from Exhibit 3.1(h) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
- 3.1(i) -- Certificate of Amendment to Restated Certificate of Incorporation of the registrant dated May 9, 2000 (incorporated herein by reference from Exhibit 3.1(i) of the registrant's Quarterly Report on Form 10-Q for the quarter ended March 31, 2000, File No. 1-12387).
- 3.1(j) -- Certificate of Ownership and Merger merging Tenneco Inc. with and into the registrant, dated October 27, 2005 (incorporated herein by reference from Exhibit 99.1 of the registrant's Current Report on Form 8-K dated October 28, 2005, File No. 1-12387).
- 3.2 -- By-laws of the registrant, as amended October 27, 2005 (incorporated herein by reference from Exhibit 99.2 of the registrant's Current Report on Form 8-K dated October 28, 2005, File No. 1-12387).
- 3.3 -- Certificate of Incorporation of Tenneco Global Holdings Inc. ("Global"), as amended (incorporated herein by reference to Exhibit 3.3 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
- 3.4 -- By-laws of Global (incorporated herein by reference to Exhibit 3.4 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
- 3.5 -- Certificate of Incorporation of TMC Texas Inc. ("TMC") (incorporated herein by reference to Exhibit 3.5 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
- 3.6 -- By-laws of TMC (incorporated herein by reference to Exhibit 3.6 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
- 3.7 -- Amended and Restated Certificate of Incorporation of Tenneco International Holding Corp. ("TIHC") (incorporated herein by reference to Exhibit 3.7 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).

Edgar Filing: TENNECO INC - Form 10-Q

51

EXHIBIT NUMBER -----	DESCRIPTION -----
3.8	-- Amended and Restated By-laws of TIHC (incorporated herein by reference to Exhibit 3.8 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.9	-- Certificate of Incorporation of Clevite Industries Inc. ("Clevite"), as amended (incorporated herein by reference to Exhibit 3.9 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.10	-- By-laws of Clevite (incorporated herein by reference to Exhibit 3.10 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.11	-- Amended and Restated Certificate of Incorporation of the Pullman Company ("Pullman") (incorporated herein by reference to Exhibit 3.11 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.12	-- By-laws of Pullman (incorporated herein by reference to Exhibit 3.12 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.13	-- Certificate of Incorporation of Tenneco Automotive Operating Company Inc. ("Operating") (incorporated herein by reference to Exhibit 3.13 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
3.14	-- By-laws of Operating (incorporated herein by reference to Exhibit 3.14 to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
4.1(a)	-- Rights Agreement dated as of September 8, 1998, by and between the registrant and First Chicago Trust Company of New York, as Rights Agent (incorporated herein by reference from Exhibit 4.1 of the registrant's Current Report on Form 8-K dated September 24, 1998, File No. 1-12387).
4.1(b)	-- Amendment No. 1 to Rights Agreement, dated March 14, 2000, by and between the registrant and First Chicago Trust Company of New York, as Rights Agent (incorporated herein by reference from Exhibit 4.4(b) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1999, File No. 1-12387).
4.1(c)	-- Amendment No. 2 to Rights Agreement, dated February 5, 2001, by and between the registrant and First Union National Bank, as Rights Agent (incorporated herein by reference from Exhibit 4.4(b) of the registrant's Post-Effective Amendment No. 3, dated February 26, 2001, to its Registration Statement on Form 8-A dated September 17, 1998).
4.2(a)	-- Indenture, dated as of November 1, 1996, between the registrant and The Chase Manhattan Bank, as Trustee (incorporated herein by reference from Exhibit 4.1 of the registrant's Registration Statement on Form S-4, Registration No. 333-14003).
4.2(b)	-- First Supplemental Indenture dated as of December 11, 1996 to Indenture dated as of November 1, 1996 between the registrant and The Chase Manhattan Bank, as Trustee (incorporated herein by reference from Exhibit 4.3(b) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1996, File No. 1-12387).

Edgar Filing: TENNECO INC - Form 10-Q

- 4.2(c) -- Third Supplemental Indenture dated as of December 11, 1996 to Indenture dated as of November 1, 1996 between the registrant and The Chase Manhattan Bank, as Trustee (incorporated herein by reference from Exhibit 4.3(d) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1996, File No. 1-12387).
- 4.2(d) -- Fourth Supplemental Indenture dated as of December 11, 1996 to Indenture dated as of November 1, 1996 between the registrant and The Chase Manhattan Bank, as Trustee (incorporated herein by reference from Exhibit 4.3(e) of the registrant's Annual Report on Form 10-K for the year ended December 31, 1996, File No. 1-12387).
- 4.2(e) -- Eleventh Supplemental Indenture, dated October 21, 1999, to Indenture dated November 1, 1996 between The Chase Manhattan Bank, as Trustee, and the registrant (incorporated herein by reference from Exhibit 4.2(1) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
- 4.3 -- Specimen stock certificate for Tenneco Inc. common stock (incorporated herein by reference from Exhibit 4.3 of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2005, File No. 1-12387).

52

EXHIBIT NUMBER -----	DESCRIPTION -----
4.4(a)	-- Indenture dated October 14, 1999 by and between the registrant and The Bank of New York, as trustee (incorporated herein by reference from Exhibit 4.4(a) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
4.4(b)	-- Supplemental Indenture dated November 4, 1999 among Tenneco Automotive Operating Company Inc., Tenneco International Holding Corp., Tenneco Global Holdings Inc., the Pullman Company, Clevite Industries Inc. and TMC Texas Inc. in favor of The Bank of New York, as trustee (incorporated herein by reference from Exhibit 4.4(b) of the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 1999, File No. 1-12387).
4.4(c)	-- Subsidiary Guarantee dated as of October 14, 1999 from Tenneco Automotive Operating Company Inc., Tenneco International Holding Corp., Tenneco Global Holdings Inc., the Pullman Company, Clevite Industries Inc. and TMC Texas Inc. in favor of The Bank of New York, as trustee (incorporated herein by reference to Exhibit 4.4(c) to the registrant's Registration Statement on Form S-4, Reg. No. 333-93757).
4.5(a)	-- Amended and Restated Credit Agreement, dated as of December 12, 2003, among the registrant, the several banks and other financial institutions or entities from time to time parties thereto, Bank of America, N.A. and Citicorp North America, Inc., as co-documentation agents, Deutsche Bank Securities Inc., as syndication agent, and JP Morgan Chase Bank, as administrative agent (incorporated herein by reference to Exhibit 4.5(a) to the registrant's Annual Report on Form 10-K for the year ended December 31, 2003, File No. 1-12387).
4.5(b)	-- Amended and Restated Guarantee And Collateral Agreement, dated as of November 4, 1999, by Tenneco Inc. and the subsidiary guarantors named therein, in favor of JPMorgan Chase Bank, as Administrative

Edgar Filing: TENNECO INC - Form 10-Q

- Agent (incorporated herein by reference from Exhibit 4.5(f) to the registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 2003, File No. 1-12387).
- 4.5(c) -- First Amendment, dated as of April 30, 2004, to the Amended and Restated Credit Agreement dated as of December 12, 2003, among the registrant, JP Morgan Chase Bank as administrative agent and the various lenders party thereto (incorporated herein by reference from Exhibit 4.5(c) to the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2004, File No. 1-12387).
- 4.5(d) -- Second Amendment, dated November 19, 2004, to the Amended and Restated Credit Agreement dated as of December 12, 2003, among the registrant, JP Morgan Chase Bank as administrative agent and the various lenders party thereto (incorporated herein by reference from Exhibit 99.2 of the registrant's Current Report on Form 8-K dated November 19, 2004, File No. 1-12387).
- 4.5(e) -- Third Amendment, dated February 17, 2005, to the Amended and Restated Credit Agreement, dated as of December 12, 2003 among the registrant, JP Morgan Chase Bank as administrative agent and the various lenders party thereto (incorporated by reference to Exhibit 99.1 to the registrant's Current Report on Form 8-K dated February 17, 2005, File No. 1-12387).
- 4.5(f) -- New Lender Supplement, dated as of March 31, 2005, by and among Wachovia Bank, National Association, the registrant and JPMorgan Chase Bank, N.A.; New Lender Supplement, dated as of March 31, 2005, by and among Wells Fargo Foothill, LLC, the registrant and JPMorgan Chase Bank, N.A.; New Lender Supplement, dated as of March 31, 2005, by and among Charter One Bank, NA, the registrant and JPMorgan Chase Bank, N.A. (incorporated herein by reference from Exhibit 4.5(f) to the registrant's Quarterly Report on Form 10-Q for the quarter ended March 31, 2005, File No. 1-12387).
- 4.5(g) -- New Lender Supplement, dated as of April 29, 2005, by and among The Bank of Nova Scotia, the registrant and JPMorgan Chase Bank, N.A. (incorporated herein by reference from Exhibit 4.5(g) to the registrant's Quarterly Report on Form 10-Q for the quarter ended March 31, 2005, File No. 1-12387).
- 4.5(h) -- Fourth Amendment, dated October 7, 2005, to the Amended and Restated Credit Agreement, dated as of December 12, 2003, among the registrant, JP Morgan Chase Bank as administrative agent and the various lenders party thereto (incorporated herein by reference from Exhibit 4.5(h) to the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2005, File No. 1-12387).

53

EXHIBIT NUMBER -----	DESCRIPTION -----
4.5(i)	-- First Amendment, dated October 7, 2005, to the Amended and Restated Guarantee and Collateral Agreement, dated as of November 4, 1999, by the registrant and the subsidiary guarantors named therein, in favor of JPMorgan Chase Bank, as Administrative Agent (incorporated herein by reference from Exhibit 4.5(i) to the registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2005, File No. 1-12387).

Edgar Filing: TENNECO INC - Form 10-Q

- 4.6(a) -- Indenture, dated as of June 19, 2003, among the registrant, the subsidiary guarantors named therein and Wachovia Bank, National Association (incorporated herein by reference from Exhibit 4.6(a) to the registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 2003, File No. 1-12387).
- 4.6(b) -- Collateral Agreement, dated as of June 19, 2003, by the registrant and the subsidiary guarantors named therein in favor of Wachovia Bank, National Association (incorporated herein by reference from Exhibit 4.6(b) to the registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 2003, File No. 1-12387).
