This Form 10-K/A of Internet Pictures Corporation (iPIX, we, us, our, or the Company) is being filed for the purpose of amending Item 7, and amending and restating Items 6, 8 and 15 of our Form 10-K filed March 31, 2003 to reflect the recalculation of our earnings (loss) per common share for the year ended December 31, 2002 and for each of the quarterly periods in the year then ended. Other than as expressly stated herein, the information in this Form 10-K/A does not reflect any subsequent information or events other than the recalculation detailed below. The only changes to our previously filed Form 10-K relate to the recalculations discussed below.

The Company has revised its financial statements for the year ended December 31, 2002 and the quarter ended March 31, 2003 to reflect the impact of the cumulative dividend and participation rights of the Company's convertible preferred stock on the calculation of earnings (loss) per common share for the year ended December 31, 2002 and the quarters ended March 31, June 30, September 30 and December 31, 2002 and the quarter ended March 31, 2003. The cumulative dividend, whether or not declared, has been reflected as a reduction in net income (loss) to calculate net income (loss) available to common shareholders. In addition, the participation right of the preferred stock has been considered in the calculation of basic earnings (loss) per common share, if dilutive, using the if converted method or the two class method, if more dilutive. The revision of earnings (loss) per common share for the periods indicated above had no effect on reported revenues, gross profit, net income (loss) or cash balances in any of the periods. See Note 15 to the financial statements for more discussion on this matter. The effect of the restatement of earnings (loss) per common share is as follows:

	2002					Q1 2003
	Q1	Q2	Q3	Q4	FY 2002	
Earnings (loss) per common share:

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders of
Internet Pictures Corporation:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of changes in stockholders equity and of cash flows present fairly, in all material respects, the financial position of Internet Pictures Corporation and its subsidiaries (the Company) at December 31, 2001 and 2002 and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 15, the Company has revised its 2002 financial statements to reflect the impact of the cumulative dividend and participation rights of its preferred stock in the calculation of earnings (loss) per share.

As discussed in Note 5 to the consolidated financial statements, effective January 1, 2002, the Company changed its method of accounting for goodwill in accordance with Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets.

INTERNET PICTURES CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT SHARE AND PER SHARE DATA)

1. NATURE OF OPERATIONS

Internet Pictures Corporation (iPIX or Company) provides mission-critical imaging solutions for commerce, communication and security applications. The Company s solutions create, process and manage a rich variety of media including still images, 360-degree by 360-degree immersive images, video, text and audio.

iPIX s extensive intellectual property covers patents for immersive imaging, video and surveillance applications.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION. The consolidated financial statements include the accounts of Internet Pictures Corporation and its wholly-owned subsidiaries, Interactive Pictures Corporation, Interactive Pictures UK Limited, Internet Pictures (Canada) and PW Technology, Inc. The consolidation of these entities will collectively be referred to as the Company. All significant intercompany balances and transactions have been eliminated.

FOREIGN CURRENCY TRANSLATION. The functional currency of the Company s Canadian and United Kingdom subsidiaries is the U.S. dollar. Monetary assets and liabilities denominated in foreign currencies are translated into the Company s functional currency, U.S. dollars, at the exchange rate prevailing at the balance sheet date. Non-monetary assets and liabilities and transactions are translated at exchange rates prevailing at the respective transaction dates. Revenue and expenses are translated at the average rates of exchange during the year. Translation gains and losses are recorded in accumulated other comprehensive income. Transaction exchange gains and losses are included in the statement of operations and have not been material for any periods presented.

POOLING OF INTERESTS. Interactive and iPIX received stockholder approval and executed an Agreement and Plan of Merger (the merger agreement) in January 2000. Pursuant to the merger agreement, Interactive became a wholly-owned subsidiary of iPIX and iPIX issued 1.369 shares of its common stock for every share of Interactive common stock outstanding immediately prior to the Effective Time (as defined in the merger agreement) of the merger. The transaction was accounted for as a pooling of interests.

CASH, CASH EQUIVALENTS, RESTRICTED CASH AND SHORT-TERM INVESTMENTS. The Company considers all highly liquid debt instruments with an original maturity or remaining maturity at date of purchase of three months or less to be cash equivalents. All other liquid investments are classified as either short-term or long-term investments.

Management determines the appropriate classification of investment securities at the time of purchase and re-evaluates such designation as of each balance sheet date. Available-for-sale securities are carried at fair value with the resulting unrealized gains and losses reported as a component of accumulated other comprehensive income(loss). At December 31, 2002, the Company had \$1,400 of investments with a remaining maturity of six months that have been provided as collateral for certain capital lease obligations and, accordingly, classified as restricted. The remaining balance of restricted cash relates primarily to certain customer deposits.

Realized gains and losses and declines in value judged to be other-than-temporary on available-for-sale securities are included in the statement of operations. The cost of securities sold is based on the specific identification method. There have been no such transactions in the year ended December 31, 2002.

Interest income includes interest, amortization of purchase premiums and

Table of Contents

discounts and realized gains and losses on sales of securities. A realized loss of \$282 was recognized in 2001, while in 2000, a \$1,250 other expense was recognized primarily because of the write down of various investments.

CERTAIN RISKS AND CONCENTRATIONS. Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and cash equivalents, restricted cash and short-term investments and accounts receivable. Cash, cash equivalents and restricted cash and short-term investments are deposited with high quality financial institutions. Accounts receivable are derived from revenue earned from customers located in the U.S. and abroad. The Company performs ongoing credit evaluations of customers' financial condition and the Company does not require collateral from customers.

The following table summarizes the revenue from customers in excess of 10% of total revenues:

	Years ended December 31,	
	2001	2002
Homestore	23%	16%
eBay	21%	60%

At December 31, 2002, Homestore and eBay represented 0% and 83% of accounts receivable, respectively. All amounts due from eBay as of December 31, 2002, were collected in full during January 2003. The Company's principal agreements with Homestore and eBay, expire on June 30, 2003 and September 30, 2003, respectively. These agreements are subject to extension, amendment and re-negotiation from time to time. During the year ended December 31, 2000, no customer equaled more than 10% of the Company's revenue and as of December 31, 2001 no customer accounted for more than 10% of the Company's accounts receivable.

Depending upon the outcome of the negotiations noted above, the timeliness of collection of accounts receivable, the Company's rate of growth and ability to control costs may require additional equity or debt financing to meet future working capital or capital expenditure needs. There can be no assurance that such additional financing will be available, or if available that such financing can be obtained on terms satisfactory to the Company.

INVENTORY. Inventory, which consists primarily of digital cameras and related hardware, is stated at the lower of cost or market, with costs determined using standard costs (which approximate actual first-in, first-out costs). The Company records a provision for obsolete inventory whenever an impairment has been identified.

PREPAID EXPENSES. Prepaid expenses consist primarily of insurance, maintenance and rent, which will be reflected as an expense during the period benefited.

COMPUTER HARDWARE, SOFTWARE AND OTHER. Computer hardware and software are recorded at cost and are depreciated primarily using the straight-line method over estimated useful lives, which range from two to three years. Furniture and fixtures are depreciated over the estimated useful life, which range from two to ten years. Leasehold improvements are amortized over the term of the lease or estimated useful life, which ranges from one to five years. Routine maintenance and repair costs are expensed as incurred. The costs of major additions, replacements and improvements are capitalized. Gains and losses from disposals are included in operations as incurred.

ACCOUNTING FOR LONG-LIVED ASSETS. The carrying value of intangible assets, computer hardware and software and other long-lived assets is reviewed on a regular basis for the existence of facts, both internally and externally, that may suggest impairment. The Company recognizes impairment losses whenever events or circumstances result in the carrying amount of the assets exceeding the sum of the expected future cash flows associated with such assets. The measurement of the impairment losses to be recognized is based on the difference between the discounted cash flows from such assets and the carrying amounts of the assets. During 2000, the Company recorded an impairment of goodwill (See Note 5).

Table of Contents

INCOME TAXES. The Company uses the asset and liability method of accounting for income taxes, which requires the recognition of deferred tax liabilities and assets for expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities. A valuation allowance against deferred tax assets is recorded if, based upon available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Tax credits are accounted for as a reduction of tax expense in the year in which the credits reduce taxes payable.

The Company did not recognize deferred income taxes for temporary differences associated with its investment in the foreign subsidiaries because the differences are essentially permanent in duration.

Interactive Pictures UK Limited is not included in the tax filing of its parent, Internet Pictures Corporation. As a result, Interactive Pictures UK Limited files a separate return with the United Kingdom tax authorities. Internet Pictures (Canada), Inc. is not included in the tax filing of its parent, Internet Pictures Corporation. As a result, Internet Pictures (Canada), Inc. files a separate return with Canadian tax authorities.

REVENUE RECOGNITION. The Company recognizes revenue in accordance with SOP 97-2, Software Revenue Recognition and SAB No. 101, Revenue Recognition in Financial Statements. Transaction hosting revenues are recognized ratably as transactions are performed provided there was persuasive evidence of an arrangement, the fee was fixed or determinable and collection of the resulting receivable was reasonably assured. Initial license fees are recognized when a contract exists, the fee is fixed or determinable, software delivery has occurred and collection of the receivable is reasonably assured. If there are continuing obligations, then license fees are recognized ratably over the life of the contract.

Product revenue is recognized upon shipment or delivery provided there are no uncertainties surrounding product acceptance, persuasive evidence of an arrangement exists, there are no significant vendor obligations, the fees are fixed or determinable and collection is reasonably assured.

Revenues generated from professional services are recognized as the related services are performed. When such professional services are combined with on-going transaction services or are deemed to be essential to the functionality of the delivered software product, revenue from the entire arrangement is recognized while the transaction services are performed, on a percentage of completion method or not until the contract is completed in accordance with SOP 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts, and ARB No. 45, Long-Term Construction-Type Contracts. In February 2002, the Emerging Issues Task Force (EITF) issued EITF 00-14, Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred" (EITF-00-14), which is effective for financial statements beginning after December 31, 2001. EITF 00-14 requires that reimbursements received for out-of-pocket expenses incurred, generally, be characterized as revenue in the statement of operations. The Company adopted EITF 00-14 in the quarter ended March 31, 2002. The adoption of EITF 00-14 did not have a material effect on reported results of operations, financial position or cash flows.

Revenue from the sale of the Company's virtual tour product was recognized upon distribution to the Website designated by the customer. Royalties derived from desktop imaging products were recognized as revenues upon receipt of the royalty sell-through reports from customers, which are generally in the quarter following the quarter in which the sale by the customer took place.

Payments received in advance are initially recorded as deferred revenue and recognized ratably as obligations are fulfilled.

FAIR VALUE OF FINANCIAL INSTRUMENTS. Carrying amounts of the Company's financial instruments including short-term investments, accounts receivable, accounts payable, accrued liabilities approximate fair value due to their short maturities. Obligations under capital leases are recorded at discounted value of the future lease payments.

Table of Contents

BARTER REVENUES. Barter revenues come from barter sales of the Company's products, which are similar in nature to the Company's cash sales for the same products. Barter revenues have resulted from the exchange by the Company of certain products for advertising. Barter revenues are recognized in accordance with APB 29, Accounting for Nonmonetary Transactions. The Company records barter revenue at fair value of the products exchanged for advertising.

Revenues and sales and marketing expenses arising from these transactions are recorded at fair value as the Company has an established historical practice of receiving cash for similar sales. The Company recorded no barter revenue or related expense in 2001 and 2002. The Company recorded barter revenues of \$3,060 in 2000 which represented 6% of total revenues for 2000. Sales and marketing expense arising from these barter transactions is recognized when the advertising takes place, which occurred in 2000.

RESEARCH AND DEVELOPMENT COSTS. Research and development expenditures are expensed as incurred.

ADVERTISING EXPENSES. All advertising expenditures are expensed as incurred. Advertising expenses for 2000, 2001 and 2002, were \$24,186, \$4,130 and \$2,017, respectively.

STOCK-BASED COMPENSATION. The Company has adopted the disclosure provisions of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123, Accounting for Stock-based Compensation (FAS 133). The Company has elected to continue accounting for stock-based compensation issued to employees using Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and, accordingly, pro forma disclosures required under FAS 123 have been presented (See Note 10). Under APB 25, compensation expense is based on the difference, if any, on the date of grant, between the fair value of the Company's stock and exercise price of the option. Stock and other equity instruments issued to non-employees have been accounted for in accordance with FAS 123 and Emerging Issues Task Force Issue No. 96-18, Accounting for Equity Instruments Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods, or Services, and valued using the Black-Scholes model.

Pro forma information regarding net loss is required by FAS 123 and FAS 148, and has been determined as if the Company had accounted for its stock options under the fair value method of FAS 123. The computations for pro forma basic and diluted earnings per share for each year follow:

In connection with certain employee and non-employee stock option and restricted stock grants, the Company amortizes unearned stock-based compensation over the vesting period of the related grant using the method prescribed in FASB Interpretation No. 28. Under this method, each vested tranche of options is accounted for as a separate grant awarded for past services. Accordingly, the compensation expense is recognized over the period in which the services have been provided. This method results in higher compensation expense in the earlier vesting periods of the related grants.

ESTIMATES. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Examples of items affected by certain significant estimates made by management are adequacy of the allowance for doubtful accounts, restructuring changes, sales taxes and the carrying value of goodwill.

SEGMENT REPORTING. The Company uses a management approach, which designates the internal organization that is used by management for making operating decisions and assessing performance as the source of the Company's reportable segments. Segment reporting includes disclosures about products and services, geographic areas and major customers for years ending December 31, 2000, 2001 and 2002. In addition, for fiscal years 2001 and 2002, segment reporting includes the Company's primary business units: Transaction Services and Immersive Solutions.

NET LOSS PER SHARE. The Company computes net loss per common share in accordance with FAS No. 128, Earnings Per Share. Basic income (loss) per share is computed by dividing net income (loss) available to common stockholders for the period by the weighted average number of shares of common stock outstanding. Net income (loss) available to common stockholders is calculated as the net income (loss) less cumulative preferred stock dividends for the period. If dilutive, the participation right of the preferred stock is reflected in the calculation of basic income (loss) per share using the if-converted method or the two class method if more dilutive. Diluted income (loss) per common share is computed by dividing net income (loss) for the period by the weighted average number of shares of common stock outstanding plus, if dilutive, potential common stock outstanding during the period. Potential common shares are composed of incremental shares of common stock issuable upon the exercise of potentially dilutive stock options and warrants and upon conversion of the Company's preferred stock and convertible debenture.

The following table sets forth the computation of basic and diluted loss per common share for the years indicated:

(In thousands, except per share amounts)	2000	2001	2002 (restated)

In 2002, the Company's common stock had an average share price of \$1.77. The average strike price of the warrants to purchase common stock is \$3.04 and the average strike price of employee stock options is \$9.86. Not included in the table above are (i) 1,935,852 shares issuable upon exercise of options and (ii) 2,438,824 shares issuable upon exercise of warrants, all of which have a strike price above the average share price during 2002.

COMPREHENSIVE INCOME (LOSS). The Company follows FAS No. 130, Reporting Comprehensive Income (FAS 130), which establishes requirements for reporting and displaying the comprehensive income (loss) and its components. FAS 130 requires net unrealized gains or losses on the Company's available-for-sale securities and foreign currency translation adjustments to be reported as accumulated other comprehensive income (loss).

The components of comprehensive income (loss) are as follows:

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2002, the FASB issued FAS 146, Accounting for Exit or Disposal Activities (FAS 146). FAS 146 addresses significant issues regarding the recognition, measurement, and reporting of costs that are associated with exit and disposal activities, including restructuring activities that are currently accounted for under EITF 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). The scope of FAS 146 also includes costs related to terminating a contract that is not a capital lease and termination benefits that employees who are involuntarily terminated receive under the terms of a one-time benefit arrangement that is not an ongoing benefit arrangement or an individual deferred-compensation contract. FAS 146 will be effective for exit or disposal activities that are initiated after December 31, 2002 and early application is encouraged. The Company will adopt FAS 146 during the quarter ended March 31, 2003. The effect on adoption of FAS 146 will change on a prospective basis the timing of when restructuring charges are recorded from a commitment date approach to when the liability is incurred.

In November 2002, the FASB issued FASB Interpretation No. 45 (FIN 45), Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. FIN 45 requires that a liability be recorded in the guarantor s balance sheet upon issuance of a guarantee. In addition, FIN 45 requires disclosures about the guarantees that an entity has issued, including a reconciliation of changes in the entity s product warranty liabilities. The initial recognition and initial measurement provisions of FIN No. 45 are

F-12

applicable on a prospective basis to guarantees issued or modified after December 31, 2002, while the disclosure requirements are applicable in 2002. The Company is complying with the disclosure requirements of FIN No. 45 for the year ending December 31, 2002 and is evaluating the effect the other requirements may have on its financial statements.

In November 2002, the EITF reached consensus on Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). EITF 00-21 provides guidance on how to account for arrangements that involve the delivery or performance of multiple products, services and/or rights to use assets. The provisions of EITF 00-21 will apply to revenue arrangements entered into in fiscal periods beginning after June 15, 2003. The Company does not believe that the adoption of this standard will have a material effect on its financial position or results of operations.

In December 2002, the FASB issued FAS No. 148, Accounting for Stock-Based Compensation, Transition and Disclosure (FAS 148). FAS 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. FAS 148 also requires that disclosures of the pro forma effect of using the fair value method of accounting for stock-based employee compensation be displayed more prominently and in a tabular format. Additionally, FAS 148 requires disclosure of the pro forma effect in interim financial statements. The transition and annual disclosure requirements of FAS 148 are effective for fiscal years ending after December 15, 2002, and these disclosures are contained in Note 10. The interim disclosure requirements are effective for interim periods commencing after December 15, 2002. The Company will continue to apply the APB 25 provisions and will disclose the fair value information on a proforma basis.

In January 2003, the FASB issued FIN No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51 (FIN 46). FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 is effective immediately for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period beginning after June 15, 2003. The Company does not believe that the adoption of this standard will have a material effect on its financial position or results of operations.

RECLASSIFICATIONS

Certain amounts reported in the previous period have been reclassified to conform to the current period presentation. The reclassifications did not affect the previously reported total revenue, operating loss, net loss, total current assets, total assets or stockholders' equity.

3. MERGER COSTS

The Company recorded a charge of \$15,175 in 2000 operating expenses for costs incurred related to a merger (See Note 2). These merger costs consisted primarily of investment banking fees and costs of attorneys, accountants and other directly related external costs.

4. RESTRUCTURING AND OTHER

Restructuring during 2000, 2001 and 2002, the Company recorded as a separate line item in its statements of operations restructuring charges which consist primarily of expenses associated with reductions in workforce, the consolidation of certain offices, principally lease obligations for vacated offices, as well as a write down of abandoned office equipment and leasehold improvements to net realizable values.

Table of Contents

On March 1, 2001, the Company had 552 employees, but by the end of the second quarter the Company had reduced its workforce by approximately 440 positions. The reductions were primarily in the full-service virtual real estate business.

Included in the 2001 charges is a \$1,462 impairment charge related to the write off of the unamortized portion of our directors and officers insurance policy. The Company was required to obtain a new policy due to the change in control related to our 2001 financing.

During the third quarter of 2002, the Company recorded a restructuring charge of \$687 consisting of expenses associated primarily with a negotiated buy-out of certain lease obligations for previously vacated offices. In November 2002, the Company paid approximately \$1,250 related to the buy-out. As of December 31, 2002, \$1,049 remained in these restructuring accruals, primarily associated with abandoned re-negotiated lease obligations and long term severance agreements.

The activity in the current and long-term restructuring accruals for the years ended December 31, are as follows:

LOSS ON DISPOSAL OF ASSETS

A subsidiary of Homestore purchased certain assets from the Company pursuant to the terms of an acquisition agreement dated January 12, 2001. Under the terms of the acquisition agreement, the subsidiary of Homestore purchased certain computers, furniture, fixtures and equipment and certain sales contracts with residential real estate brokers and agents. The Company used these assets in its operations providing virtual tours of residential real estate properties. As part of the acquisition, Homestore's subsidiary hired certain sales force and customer service personnel. The purchase price for these assets was \$12,000 in cash, of which \$155 was paid directly to a lessor for certain capital lease obligations, \$7,454 was deposited into control accounts for deferred revenue obligations and the remainder, \$4,391, was paid to the Company. The Company also granted Homestore's subsidiary an exclusive domestic license of certain of its virtual tour technology for the residential real estate market. In the first quarter of 2001, the Company recorded an extraordinary gain of \$901 from the cash received from the January 12, 2001 agreement, resulting in the disposal of assets used to provide tours of residential real estate properties that were related to the 2000 pooling of Interactive Pictures Corporation and bamboo.com.

The \$1,655 loss on the 2001 sale of the remaining residential real estate related assets that were unrelated to the pooling of Interactive Pictures Corporation and bamboo.com was included in loss on the disposal of assets in the accompanying statement of operations.

GOODWILL AND OTHER INTANGIBLES:

Prior to the Company's adoption of FAS 142, the Company periodically reviewed the net realizable value of its intangible assets, including goodwill, through an assessment of the estimated future cash flows related to such assets. The reviews determined whether future cash flows over the remaining estimated useful lives of the assets provide for recovery of the assets. During the fourth quarter of 2000, certain events, including the decline in the Company's stock price and market capitalization, led the Company to perform an impairment review of goodwill in accordance with the requirements of FAS No. 121. This review indicated that goodwill was being carried at amounts in excess of revised estimates of undiscounted future cash flows of the acquired businesses, which resulted in a charge of \$176,831 to expense in the year ended December 31, 2000.

As of December 31, 2002, our consolidated balance sheet included \$3,042 of goodwill. The Company adopted the provisions of FAS 142

Goodwill and Other Intangibles (FAS 142). Under FAS 142, the Company no longer amortizes goodwill but rather evaluates goodwill for impairment on an annual basis and on an interim basis if events or changes in circumstances between annual impairment tests indicate that the asset might be impaired. In assessing the recoverability of goodwill, the Company must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the goodwill. These estimates include forecasted revenues and operating expenses, which are inherently difficult to predict. If these estimates or their related assumptions change in the future, the Company may be required to record impairment charges for these assets. The Company's assumptions about fair values require significant judgment because broad economic factors, industry factors and technology considerations can result in variable and volatile fair values. The Company completed impairment analyses on goodwill in the fourth quarter of 2002. These tests were performed internally. As of December 31, 2002, no impairment existed.

A reconciliation of reported net loss and net loss per common share as if FAS 142 had been in effect for 2000 and 2001 is presented as follows:

At December 31, 2002, the Company has approximately \$31,000 and \$29,000 of federal and state, respectively, net operating loss carryforwards, which it may use to offset future taxable income as described below. The net operating loss carryforwards, if not utilized, will begin to expire in 2009. To the extent that net operating loss carryforwards, when realized, relate to stock option deductions, the resulting benefits will be credited to stockholders' equity.

Internal Revenue Code Section 382 stipulates an annual limitation on the amount of Federal net operating losses incurred prior to a change in ownership, which can be utilized to offset the Company's future taxable income. An ownership change occurred as a result of the conversion of debt and exercise of warrants into preferred stock on September 26, 2001. The Section 382 limitation has significantly

Table of Contents

limited the amount of net operating losses the Company can use in future years. Accordingly, the Company has included in its deferred tax assets only the amount of net operating losses that are available after the Section 382 limit.

The Company has recorded a full valuation allowance against its deferred tax assets because it believes it is more likely than not that sufficient taxable income will not be realized during the carryforward period to utilize the deferred tax asset. Realization of the future tax benefits related to the deferred tax assets is dependent upon many factors, including the Company's ability to generate taxable income in the respective tax jurisdiction within the loss carryforward periods.

The Company's 2000, 2001 and 2002 income tax provision differs from that obtained by using the U.S. statutory rate of 34% due to the following:

7. CONVERTIBLE DEBT

On May 14, 2001, the Company entered into a definitive agreement with Image Investor Portfolio, a separate series of Memphis Angels, LLC (Image) for an investment by Image in the Company. Pursuant to the terms of a securities purchase agreement between the Company and Image dated as of May 14, 2001, Image purchased the Company's \$10,000 convertible senior secured note and received Tranche A and Tranche B warrants to purchase up to \$20,000 of the Company's Series B Preferred Stock.

The warrants were issued in conjunction with the convertible promissory note, and accordingly, based on APB 14, Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants and EITF 98-5, Accounting for Convertible Securities with Beneficial Conversion Features, the entire proceeds from the convertible promissory note, \$10,000, were allocated to the warrants and the beneficial conversion feature based on a calculation using the Black-Scholes model. During the third quarter of 2001, the \$10,000 note and the Tranche B warrants were converted to preferred stock and accordingly in 2001 the Company recorded \$10,000 as interest expense related to the accretion of the convertible promissory note to its face value.

8. iPIX INTERNATIONAL

In the third quarter of 2002, the Company entered into license, distribution and trademark agreements with Sorooof International, a Saudi Arabia-based corporation (Sorooof). Under the agreements, Sorooof will be the exclusive distributor for iPIX immersive still products, including the iPIX GPS Mapping System, outside of North America and Asia through Sorooof's newly established entity, iPIX International (iPIX-I). The agreement, effective July 1, 2002, expires December 31, 2007, unless renewed. iPIX-I has an exclusive license to develop integrated solutions for markets including real estate, travel and tourism and other markets in which online marketing is critical. The Company will provide certain hosting services during the term of the agreements. Sorooof has committed to certain minimum quarterly royalties during the term of the agreement. Should these minimum royalties not be met, the Company has the right to terminate the agreements with Sorooof.

iPIX has a minority equity interest in iPIX-I, however, iPIX does not have the ability to exercise significant influence over iPIX-I operations. The Company accounts for the investment in iPIX-I on the cost basis, not as a variable interest entity under FIN 46. The Company did not make any capital contributions to iPIX-I and has no commitments to fund iPIX-I. The Company does have the right, however,

but not the obligation, to purchase iPIX-I from Sorooof after December 31, 2005 for consideration as defined in the agreements. During the six months ended December 31, 2002, the Company recognized \$631 of revenue under these agreements.

9. STOCKHOLDERS EQUITY

General

On May 28, 2002 at the annual stockholders meeting, the authorized number of shares of common stock was reduced to 50,000,000 from 150,000,000. The Company's amended and restated certificate of incorporation authorizes the issuance of up to 50,000,000 shares of common stock, par value \$0.001 per share, 7,421,536 shares of Class B common stock, par value \$0.0001 per share and 5,001,100 shares of preferred stock, par value \$0.001 per share. The board of directors is authorized, without stockholder approval, to issue up to an aggregate of 5,001,100 shares of preferred stock, \$0.001 par value per share, in one or more series. Included in this amount are designated 1,100 shares of Series C redeemable preferred stock and designated 3,000,000 shares of Series B preferred stock. Each series of preferred stock may have the rights and preferences, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences that the board of directors determines. There were 1,115,080 shares of Series B preferred stock outstanding at December 31, 2002.

Each holder of common stock is entitled to one vote for each share on all matters to be voted upon by the stockholders, and there are no cumulative voting rights. Holders of common stock may receive dividends after all dividends that are owed have been paid to holders of preferred stock.

Each holder of Class B common stock is entitled to one vote for each share on all matters to be voted upon by the stockholders and, except as required by law, shall have voting rights and powers equal to the voting rights and powers of the common stock. There are no cumulative voting rights. Holders of Class B common stock may at any time convert Class B shares into Class A common stock, are not entitled to dividends and are not entitled to receive any assets of the corporation upon dissolution or liquidation.

Common Stock

On August 22, 2001 the stockholders approved a ten-for-one reverse stock split of all outstanding \$0.001 par value common stock and \$0.0001 Class B common stock. The effect of these stock splits has been retroactively reflected throughout the financial statements.

Preferred Stock

On May 14, 2001, the Company entered into a definitive agreement with Image Investor Portfolio, a separate series of Memphis Angels, LLC (Image) for an investment by Image in the Company. Pursuant to the terms of a securities purchase agreement between the Company and Image dated as of May 14, 2001, Image purchased the Company's \$10,000 convertible senior secured note and received Tranche A and Tranche B warrants to purchase up to \$20,000 of the Company's Series B Preferred Stock.

On September 26, 2001, the Company, Image and strategic investors completed the Tranche B stage of the investment. At this time, the Company issued 1,115,080 shares of the Company's Series B Preferred Stock for total consideration of \$22,302, represented by the conversion of the \$10,000 note, the conversion of \$277 of interest on the Note and \$12,025 in cash through the exercise of Tranche B warrants. The remainder of the Tranche B warrants expired. The Company recorded a charge of \$1,636 to additional paid in capital for costs incurred related to the Tranche A and Tranche B financings. These costs consisted primarily of costs of attorneys, accountants and other directly related external costs.

At December 31, 2002, there are two Tranche A warrants (Warrant 1 and Warrant 2), issued to Paradigm Capital Partners and Memphis Angels, LLC, which are outstanding. Warrant 1 entitles the holder to purchase 150,000 shares of Series B Preferred Stock at \$20 per share and is exercisable at any time before the

expiration date of May 14, 2006. Warrant 2 entitles the holder to purchase 100,000 shares of Series B Preferred Stock at \$40 per share and is exercisable at any time before the expiration date of May 14, 2006 (See Note 13).

Each share of the Series B Preferred Stock is convertible into approximately 9.2 shares of the Company's common stock and is entitled to vote on matters submitted to holders of common stock on an as-converted basis. However, at any time that the holders of the Series B Preferred Stock hold more than 50% of the voting stock of the Company, a voluntary liquidation, dissolution or winding up of the Company must be approved by at least five of the seven members of the Company's board of directors. Holders of Series B Preferred, in preference to holders of any other series of Preferred Stock and in preference to the holders of Common Stock (collectively, "Junior Securities"), shall be entitled to receive, when and if declared by the Board, but only out of funds that are legally available, cash dividends at the rate of eight percent (8%) of \$20 (or \$40 for Warrant 2 shares) per annum on each outstanding share of Series B Preferred ("Series B Dividends"). The Series B Dividends are cumulative, accrue daily and shall be payable, when and if declared by the Board, upon conversion or as an accretion to the Liquidation Preference, as defined below. Accrued Series B Dividends may be paid in cash or common stock, at the election of the Series B Preferred stockholder. Holders of Series B Preferred Stock participate on an as-if converted basis in any common stock dividends.

Upon any liquidation event, before any distribution or payment shall be made to the holders of any junior securities, the holders of Series B Preferred shall be entitled to be paid out of the assets of the Company legally available for distribution, or the consideration received in such transaction, an amount per share of Series B Preferred equal to the \$20 (or \$40 for Warrant 2 shares) plus all accrued and unpaid Series B Dividends for each share of Series B Preferred held by them (the "Liquidation Preference"). If, upon any such Liquidation Event, the assets of the Company (or the consideration received in such transaction) shall be insufficient to make payment in full to all holders of Series B Preferred of the Liquidation Preference, then such assets (or consideration) shall be distributed among the holders of Series B Preferred at the time outstanding, ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

In connection with certain restricted stock awards to employees, the Company recorded unearned stock-based compensation for the value of the restricted awards, which was amortized over the vesting periods of the awards, generally less than a year. Fair Value Disclosure

For all other option grants, because the exercise price of the stock options equaled the deemed fair value of the underlying stock on the date of the grant, no compensation cost has been recognized in the accompanying financial statements. Pro forma information regarding net loss is required by FAS 123 and FAS 148, and has been determined as if the Company had accounted for its stock options under the fair value method of FAS 123. The computations for pro forma basic and diluted earnings per share for each year follow:

(In thousands, except per share)	Years Ended December 31,		
	2000	2001	2002 (restated)

Under FAS 123, grants under the Employee Stock Purchase Plan (ESPP) have a look-back feature and a 15% discount and accordingly would have had compensation expense calculated as a result. The fair value disclosure associated with the ESPP grants is included in the fair value pro forma information above.

The minimum fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants: expected lives of three to four years in 1999, 2000 and 2001; risk free interest rate of 6.0% to 6.8% in 2000, 4.7% to 5.4% in 2000 and 4.0% to 4.5% in 2002; expected dividends of zero in 2000, 2001 and 2002; and volatility of 83% to 113% in 2000, 69% to 192% in 2001 and 92% to 117% in 2002.

During the quarter ended September 30, 2002, the Company sold certain assets totaling \$1,376 to an unaffiliated leasing company and agreed to leaseback those assets over a thirty-month period. CONTINGENCIES

On October 28, 1998, Minds-Eye-View, Inc. (Minds-Eye) and Mr. Ford Oxaal (Oxaal) filed a lawsuit against the Company in the United States District Court for the Northern District of New York. Minds-Eye alleged in its lawsuit that the Company breached a duty of confidence to them, made misrepresentations and misappropriated trade secrets. The court removed this action to arbitration upon our motion, and the Company cross-claimed alleging various affirmative claims, including trade secret theft. Minds-Eye and Oxaal filed a motion to dismiss the suit, and the court dismissed the lawsuit on May 19, 1999. Although the lawsuit was dismissed, the Company proceeded with the arbitration in Knoxville, Tennessee. The arbitration was stayed pending resolution of the following lawsuit.

On May 20, 1999, Oxaal filed a lawsuit against the Company and certain of the Company's customers in the same court alleging that our technology infringes upon a patent claim for 360 degree spherical visual technology held by him. Oxaal filed an additional complaint on December 5, 2000 in the United States District Court for the Northern District of New York, naming the Company as the sole defendant. The complaint states a single claim for relief, alleging infringement of U.S. Patent No. 6,157,385, which was issued on December 5, 2000. This patent encompasses a method of seamlessly combining at least two images into a spherical image.

On June 11, 2002, the Company reached an out of court settlement with Oxaal and Minds-Eye. As a result of the settlement, each of the lawsuits and the arbitration proceeding described above were dismissed and mutual releases have been executed. Pursuant to the settlement agreement, neither party admitted liability or any wrongdoing. The Company was granted a non-exclusive license under patents and pending patents conceived by Oxaal or in which Oxaal has an interest. The license rights inure to the benefit of the Company's customers with respect to their purchases from the Company and also inure to the benefit of the Company's business partners with respect to their business relations with iPIX. The Company included the cost of the license in computer hardware, software and other on the accompanying balance sheet. The Company does not believe that the cost of the license in the current period or the future, will have a material effect on its financial condition, results of operations or cash flows.

On May 10, 2001, Stanley Fry, Woodhaven Venture Partners, L.P., Cyrus Greg, Patrick Oliver and related entities, all of whom are former stockholders of PictureWorks Technology, Inc. (which the Company acquired in April 2000) filed a lawsuit in the Delaware Chancery Court alleging causes of action for failure to timely issue stock certificates and breach of contract. An unspecified amount of damages was sought. In December, 2002, the Company settled this case pursuant to a settlement agreement in which neither party admitted liability or any wrongdoing. The settlement did not have a material effect on the Company's financial condition, results of operations or cash flows.

During the quarter ending September 30, 2002, the Company received approximately \$1,400 in cash from a previously disclosed favorable jury verdict against Infinite Pictures that found the defendants liable for infringement of our patents under the doctrine of equivalents and awarding us \$1,000 in damages, plus approximately \$400 in interest and court costs. The defendants filed for a writ of certiorari with the United States Supreme Court in an effort to reverse the lower court's findings in our favor. The Supreme Court refused to grant the writ, which exhausted the legal remedies for disputing the award. Accordingly, the Company recorded the \$1,000 in damages as patent infringement award, along with the \$400 in interest and court costs, in the quarter ended September 30, 2002.

On November 15, 2002, a First Amended Consolidated Complaint for violation of federal securities laws was filed against Homestore.com, Inc. (Homestore) by the California Teachers' Retirement System (CalSTRS). The Complaint is a class action lawsuit filed on behalf of stockholders of Homestore.com which flows from alleged misstatements and omissions made by Homestore and the other named defendants, which include the Company. The Complaint alleges that during 2001, Homestore and iPIX entered into fraudulent reciprocal transactions intended to artificially bolster and maintain Homestore's and our respective stock prices. The Complaint alleges that Homestore's public statements with respect to these transactions are attributable to

the Company and violate Sections 10(b) and 20(a) of the Securities Exchange Act of 1934. The Company joined with other co-defendants and filed a joint motion to dismiss, alleging that the Complaint fails to state a claim upon which relief may be granted, among other things. On March 7, 2003, the United States District Court for the District of Central California granted the Company's motion to dismiss, with prejudice. However, CalSTRS may appeal this dismissal in accordance with the federal rules of procedure.

The Company is not currently a party to any other legal proceedings the adverse outcome of which, individually or in the aggregate, the Company believes could have a material adverse effect on the Company's business, financial condition, results of operations or cash flows.

During 2000, the Company's CEO at that time obtained a \$2,000 loan under a line of credit made available through his employment agreement dated February 22, 2000. Interest accrued at a rate of 9.5% during 2000 and 5.0% during 2001. 15. RECALCULATION OF EARNINGS PER SHARE

The Company has revised its 2002 financial statements to reflect the impact of the cumulative dividend and participation rights of the Company's convertible preferred stock on the calculation of earnings (loss) per share for the year ended December 31, 2002 and the quarters ended March 31, June 30, September 30 and December 31, 2002. The cumulative dividend, whether or not declared, has been reflected as a reduction in net income (loss) to calculate net income (loss) available to common shareholders. In addition, the participation right of the preferred stock has been considered in the calculation of basic earnings (loss) per share, if dilutive, using the if converted method or the two class method, if more dilutive. The revision of earnings (loss) per share for the periods indicated above had no effect on reported revenues, gross profit, net income (loss) or cash balances in any of the periods.
