INFORMATION ABOUT THE MEETING

What is the purpose of the meeting?

At the meeting, the Company's stockholders will vote on the following proposals to:

1. Elect seven directors to serve on the Board of Directors of the Company for a term of one year; and
2. Ratify the selection of KPMG LLP as the Company's independent auditor for 2006.

In addition, the Company's management will report on the performance of the Company during 2005 and will respond to appropriate questions from stockholders.

Who is entitled to vote?

The record date for the meeting is March 27, 2006. Only stockholders of record at the close of business on March 27, 2006, are entitled to receive notice of the meeting and to vote at the meeting the shares of the Company's common stock that they held on that date. Each outstanding share of common stock entitles its holder to one vote on each matter voted on at the meeting. At the close of business on March 27, 2006, there were 34,204,132 outstanding shares of common stock.

Am I entitled to vote if my shares are held in street name ?

If you are the beneficial owner of shares held in street name by a brokerage firm, bank, or other nominee, such entity, as the record holder of the shares, is required to vote the shares in accordance with your instructions. If you do not give instructions to your nominee, it will nevertheless be entitled to vote your shares on discretionary items but will not be permitted to do so on non-discretionary items. Both Proposal 1 (election of directors) and Proposal 2 (ratification of the selection of the independent auditor) are discretionary items on which your nominee will be entitled to vote your shares even in the absence of instructions from you. As of the date hereof, there is no proposal to be voted on at the meeting that is a non-discretionary item on which your nominee will not have discretion to vote in the absence of voting instructions from you.

How many shares must be present to conduct business at the meeting?

A quorum must be present at the meeting in order for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of the Company's common stock outstanding on the record date of March 27, 2006, will constitute a quorum. Abstentions and broker non-votes will be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum.

What happens if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, the holders of a majority of the shares present in person or represented by proxy at the meeting may adjourn the meeting to another place, date, or time until a quorum is present. The place, date, and time of the adjourned meeting will be announced when the adjournment is taken, and no other notice will be given.

How do I vote my shares?

If you are a registered stockholder, you may vote by telephone. If you are a registered stockholder (*i.e.*, your shares are held in your own name), you may vote by telephone by following the instructions included on the proxy card. You do not need to return your proxy card if you vote by telephone.

If your shares are held in street name, you may be eligible to provide voting instructions to your nominee by telephone or on the Internet. If you are a beneficial owner of shares held in street name (*i.e.*, your shares are held in the name of a brokerage firm, bank, or other nominee), you may be eligible to provide voting instructions to your nominee by telephone or on the Internet. A large number of brokerage firms, banks, and other nominees participate in a program provided through ADP Investor Communications Services (ADP) that offers

Table of Contents

telephone and Internet voting options. If your shares are held in street name by a brokerage firm, bank, or other nominee that participates in the ADP program, you may provide voting instructions to your nominee by telephone or on the Internet by following the instructions set forth on the voting instruction form provided to you. You do not need to return your proxy card if you provide voting instructions to your nominee by telephone or on the Internet.

You may vote by mail. If you are a registered stockholder, you may vote by properly completing, signing, dating, and returning the accompanying proxy card. The enclosed postage-paid envelope requires no additional postage if it is mailed in the United States or Canada. If you are a beneficial owner of shares held in street name, you may provide voting instructions to the brokerage firm, bank, or other nominee that holds your shares by properly completing, signing, dating, and returning the voting instruction form provided to you by your nominee.

You may vote in person at the meeting. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. In addition, the Company will pass out written ballots to registered stockholders who wish to vote in person at the meeting. If you are a beneficial owner of shares held in street name and wish to vote at the meeting, you will need to obtain a proxy form from the brokerage firm, bank, or other nominee that holds your shares.

Can I change my vote after I submit my proxy?

Yes, you can revoke your proxy and change your vote at any time before the polls are closed at the meeting in any of the following ways: (1) by voting again by telephone, because only your latest telephone vote will be counted; (2) by properly completing, signing, dating, and returning another proxy card with a later date; (3) if you are a registered stockholder, by voting in person at the meeting; (4) if you are a registered stockholder, by giving written notice of such revocation to the Corporate Secretary of the Company prior to or at the meeting; or (5) if you are a beneficial owner of shares held in street name, by following the instructions given by the brokerage firm, bank, or other nominee that holds your shares. Your attendance at the meeting itself will not revoke your proxy unless you give written notice of revocation to the Secretary of the Company before the polls are closed.

Who will count the votes?

American Stock Transfer & Trust Company (AST), the registrar and transfer agent for the Company's common stock, will tabulate and certify the stockholder votes submitted by proxy. A representative of AST will serve as the inspector of election at the meeting.

How does the Board of Directors recommend that I vote on the proposals?

Your Board of Directors recommends that you vote:

1. FOR the election of the seven director nominees to serve on the Board of Directors of the Company for a term of one year; and
2. FOR the ratification of the selection of KPMG LLP as the Company's independent auditor for 2006.

What happens if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, your shares will be voted FOR each of the proposals.

Will any other business be conducted at the meeting?

As of the date hereof, the Board of Directors knows of no business that will be presented at the meeting other than the proposals described in this Proxy Statement. However, if any other proposal properly comes before the stockholders for a vote at the meeting, the proxy holders will vote your shares in accordance with their best judgment.

Table of Contents

How many votes are required for action to be taken on each proposal?

Election of Directors. The seven director nominees will be elected to serve on the Board of Directors for a term of one year if they receive a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter. This means that the seven director nominees will be elected if they receive more votes than any other person at the meeting. If you vote to Withhold Authority with respect to the election of one or more director nominees, your shares will not be voted with respect to the person or persons indicated, although they will be counted for the purpose of determining whether there is a quorum at the meeting.

Ratification of Selection of Independent Auditor. The selection of KPMG LLP as the Company's independent auditor for 2006 will be ratified if a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter are voted in favor of the proposal.

How will abstentions be treated?

You do not have the option of abstaining from voting on Proposal 1 (election of directors), but you may abstain from voting on Proposal 2 (ratification of the selection of the independent auditor). With respect to Proposal 1, because the directors are elected by a plurality vote, an abstention will have no effect on the outcome of the vote and, therefore, is not offered as a voting option on the proposal. In the case of an abstention on Proposal 2, your shares would be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum. Because your shares would be voted but not in favor of Proposal 2, your abstention would have the same effect as a negative vote in determining the outcome of the vote on the proposal.

How will broker non-votes be treated?

A broker non-vote occurs when a brokerage firm, bank, or other nominee does not vote shares that it holds in street name on behalf of a beneficial owner, because the beneficial owner has not provided voting instructions to the nominee with respect to a non-discretionary item. Proposal 1 (election of directors) and Proposal 2 (ratification of the selection of the independent auditor) are discretionary items for which a nominee will have the discretion to vote even without voting instructions from the beneficial owner. Accordingly, there will not be broker non-votes with regard to Proposals 1 and 2. As of the date hereof, there is no proposal to be voted on at the meeting that is a non-discretionary item on which a nominee will not have the discretion to vote in the absence of voting instructions from the beneficial owner. However, if a proposal that is a non-discretionary item is submitted to the stockholders for a vote at the meeting, it would be possible for there to be broker non-votes with respect to the proposal. In the case of a broker non-vote, the shares would be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum. The effect of a broker non-vote on the outcome of the vote on the proposal would depend on the applicable voting standard for the proposal. For instance, if the approval of the proposal required the affirmative vote of a majority of the outstanding shares, a broker non-vote would have the effect of a negative vote in determining the outcome of the vote on the proposal. On the other hand, if the approval of the proposal required the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the proposal, a broker non-vote, being shares not entitled to vote, would not have any effect on the outcome of the vote on the proposal.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that the Company's directors and executive officers and the beneficial owners of more than 10% of the Company's registered equity securities (the reporting persons) file with the Securities and Exchange Commission (the SEC) initial reports of, and subsequent reports of changes in, their beneficial ownership of the Company's equity securities. The reporting persons are required to furnish the Company with copies of all such Section 16(a) reports. Based solely on the Company's review of the copies of such Section 16(a) reports and written representations from certain reporting persons furnished to the Company, the

Company believes that the reporting persons complied with all applicable Section 16(a) filing requirements during 2005 and prior years, except that Richard B. Emmitt, a former director of the Company who resigned on March 9, 2006, inadvertently did not timely report his receipt of a stock option granted under the Company's 1999 Equity Incentive Plan, as amended and restated (the Equity Incentive Plan), on September 1, 2005. Mr. Emmitt's stock option grant now has been accurately reported.

The Compensation Committee is composed of three directors who are appointed by the Board of Directors. The members of the Compensation Committee are David D. Stevens (chairman), Beverly A. Huss, and James E. Thomas, all of whom are independent as defined in Nasdaq's listing standards. Elizabeth H. Weatherman, a former director of the Company who resigned on April 6, 2006, was a member of the Compensation Committee in 2005 and until her resignation. Ms. Huss was elected a member of the Compensation Committee on April 6, 2006. The reports of the Compensation Committee appear beginning on pages 11 and 24 of this Proxy Statement.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee oversees the corporate governance processes of the Company. In this role, the Nominating and Corporate Governance Committee identifies and recommends individuals qualified to become members of the Board of Directors, makes recommendations regarding the establishment and membership of the Board of Directors' committees, develops and reviews corporate governance principles applicable to the Company, and leads the annual review of the performance of the Board of Directors and its committees. The Nominating and Corporate Governance Committee has a written charter which was revised by the Board of Directors on February 7, 2006. A copy of the charter is posted on the Company's website at www.wmt.com/corporate/nominatingandcorporategovernancecharter.pdf. The information on the Company's website, however, is not a part of this Proxy Statement. The Nominating and Corporate Governance Committee is composed of two directors who are appointed by the Board of Directors. The members of the Nominating and Corporate Governance Committee are Thomas E. Timbie (chairman) and Beverly A. Huss, both of whom are independent as defined in Nasdaq's listing standards. Richard B. Emmitt and Elizabeth H. Weatherman, former directors of the Company who resigned on March 9, 2006, and April 6, 2006, respectively, were members of the Nominating and Corporate Governance Committee in 2005 and until their respective resignations. Ms. Huss was elected a member of the Nominating and Corporate Governance Committee on April 6, 2006.

Director Nominations

The Board of Directors will consider all potential candidates for nomination by the Board of Directors for election as directors who are recommended by the Company's stockholders, directors, officers, and employees. All director recommendations must be made in accordance with the provisions of Article II, Section 5 of the Company's bylaws, which sets forth requirements concerning the information about the candidate to be provided and the timing for the submission of the recommendations. All director recommendations should be sent to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Wright Medical Group, Inc., 5677 Airline Road, Arlington, Tennessee 38002. The Nominating and Corporate Governance Committee will screen all potential director candidates in the same manner, regardless of the source of their recommendation. The Nominating and Corporate Governance Committee's review typically will be based on the written materials provided with respect to a potential director candidate. The Nominating and Corporate Governance Committee will evaluate and determine whether a potential candidate meets the Company's minimum qualifications and specific qualities and skills for directors and whether

requesting additional information or an interview is appropriate.

Table of Contents

The Board of Directors has adopted the following series of minimum qualifications and specific qualities and skills for the Company's directors, which will serve as the basis upon which potential director candidates are evaluated by the Nominating and Corporate Governance Committee:

Directors should possess the highest personal and professional ethics, integrity, and values.

Directors should have an inquisitive and objective perspective, practical wisdom, and mature judgment.

Directors should have expertise and experience at policy-making levels in areas that are relevant to the Company's business.

Directors should have, or demonstrate an ability and willingness to acquire in short order, a clear understanding of the fundamental aspects of the Company's business.

Directors should be committed to representing the long-term interests of the Company's stockholders.

Directors should be willing to devote sufficient time to carry out their duties and responsibilities effectively and should be committed to serving on the Board of Directors for an extended period of time.

Directors should offer their resignation in the event of any significant change in their personal circumstances, including a change in their principal job responsibilities.

Directors who also serve as the chief executive officer, chief operating officer, or chief financial officer of another enterprise should not serve on more than two boards of public companies in addition to the Company's Board of Directors, and other directors should not serve on more than four boards of public companies in addition to the Company's Board of Directors.

In making its determinations regarding director nominees, the Board of Directors will consider whether a potential candidate has previously served as a director of the Company. The Board of Directors does not believe, however, that directors should expect to be automatically renominated on an annual basis. Instead, the annual self-assessment of the performance of the Board of Directors and its committees is an important determinant of director tenure.

Director Compensation

The Company compensates its directors for their services as members of the Board of Directors and its committees with a combination of annual retainers and stock options. Directors who are not employees of the Company are eligible to receive compensation for their services as directors, while directors who are employees of the Company are ineligible to receive separate director compensation. The Company's director compensation program, which was last modified as of April 1, 2006, is as follows:

Directors Eligible directors are paid an annual retainer of \$25,000. All directors are reimbursed for their out-of-pocket expenses incurred in connection with attending meetings of the Board of Directors and its committees. In addition, eligible directors are granted a stock option to purchase 20,000 shares of common stock upon their initial election to the Board of Directors and, provided that they have served as a director for at least one year, a stock option to purchase 12,500 shares of common stock upon each subsequent re-election to the Board of Directors. The stock options are granted pursuant to the Equity Incentive Plan, have an exercise price equal to the fair market value of the common stock on the grant date as determined under the Equity Incentive Plan, and vest and become exercisable in equal annual installments over a period of four years after the grant date for the initial 20,000-share stock option and in a single installment one year after the grant date

Audit Committee Report

Management is responsible for the Company's accounting and financial reporting processes, including its internal control over financial reporting, and for preparing the Company's consolidated financial statements. KPMG LLP (KPMG), the Company's independent auditor, is responsible for performing an audit of the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and for expressing an opinion on the conformity of the Company's audited consolidated financial statements to accounting principles generally accepted in the United States of America. In this context, the responsibility of the Audit Committee of the Board of Directors is to oversee the Company's accounting and financial reporting processes and the audits of its consolidated financial statements.

In the performance of its oversight function, the Audit Committee reviewed and discussed with management and KPMG the Company's audited consolidated financial statements as of and for the year ended December 31, 2005, and management's assessment of the Company's internal control over financial reporting. Management and KPMG represented to the Audit Committee that the Company's audited consolidated financial statements as of and for the year ended December 31, 2005, were prepared in accordance with accounting principles generally accepted in the United States of America. Management and KPMG also represented to the Audit Committee that the Company's internal control over financial reporting was effective as of December 31, 2005. The Audit Committee also discussed with KPMG the matters required to be discussed by Statement on Auditing Standards (SAS) Nos. 61, 89 and 90 issued by the Auditing Standards Board of the American Institute of Certified Public Accountants. SAS Nos. 61, 89 and 90 set forth requirements pertaining to the independent auditor's communications with the Audit Committee regarding the conduct of the audit.

The Audit Committee received the written disclosures and the letter from KPMG required by Independence Standards Board (ISB) Standard No. 1, *Independence Discussions with Audit Committees*, as amended. ISB Standard No. 1

requires the independent auditor to disclose in writing to the Audit Committee all relationships between the auditor and the Company that, in the auditor's judgment, reasonably may be thought to bear on independence and to discuss the auditor's independence with the Audit Committee. The Audit Committee discussed with KPMG its independence and considered in advance whether the provision of any non-audit services by KPMG is compatible with maintaining their independence.

The members of the Audit Committee are not professionally engaged in the practice of accounting or auditing and, as such, rely without independent verification on the information provided to them and on the representations

made by management and KPMG. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting processes or appropriate internal controls and procedures designed to assure compliance with the accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's reviews and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the Company's audited consolidated financial statements are presented in accordance with generally accepted accounting principles, or that KPMG is in fact independent.

Based on the reviews and discussions of the Audit Committee described above, in reliance on the unqualified opinion of KPMG dated February 27, 2006, regarding the Company's audited consolidated financial statements as of and for the year ended December 31, 2005, and subject to the limitations on the responsibilities of the Audit Committee discussed above and in the Audit Committee's charter, the Audit Committee recommended to the Board of Directors, and the Board of Directors approved, that such financial statements be included in the Company's annual report on Form 10-K for the year ended December 31, 2005, to be filed with the Securities and Exchange Commission.

The foregoing report is provided by the undersigned members of the Audit Committee of the Board of Directors. Richard B. Emmitt, a former director of the Company who resigned on March 9, 2006, was a member of the Audit Committee in 2005 and until his resignation. David D. Stevens was elected a member of the Audit Committee on March 20, 2006.

Compensation Committee Report on Executive Compensation

Overview. The Compensation Committee of the Board of Directors oversees the Company's general programs of compensation and benefits for all employees and determines the compensation of the Company's executive officers and directors. In making its determinations regarding executive compensation, the Compensation Committee has implemented a policy that attempts to serve the financial interests of the Company's stockholders while providing appropriate performance and retention incentives to its executive officers.

Compensation Philosophy. The Company's executive compensation program is designed to attract and retain high caliber executives and motivate them to achieve superior performance for the benefit of the Company's stockholders. The Compensation Committee believes that a significant portion of executive officers' compensation potential on an annual basis should be at risk based on the Company's performance. If the Company's performance does not meet the criteria established by the Compensation Committee, incentive compensation will be adjusted accordingly.

Compensation Program. The compensation for executive officers of the Company consists primarily of a base salary, a performance incentive bonus opportunity, and long-term incentive awards tied directly to the performance of the Company. The total cash compensation (*i.e.*, base salary plus performance incentive bonus) paid to the Company's executive officers is intended to be competitive with the total cash compensation paid to executive officers in similar positions at companies engaged primarily in the orthopaedic medical device industry with revenues similar to those of the Company. These components of executive compensation are discussed more fully below.

Base Salary. The Compensation Committee determines the annual base salaries of the President and Chief Executive Officer and all other executive officers of the Company. The Compensation Committee considers the input of the President and Chief Executive Officer with respect to the base salaries of the other executive officers of the Company. In establishing the base salaries, the Compensation Committee seeks relevant compensation information such as

(1) the scope of the executive officer's position, (2) the executive officer's responsibilities, (3) the executive officer's experience and length of service with the Company, the industry, and the community, (4) the executive officer's efforts and performance, (5) the executive officer's team building skills, (6) the observance by the executive officer of the Company's ethics and compliance programs, (7) the salaries paid by

Table of Contents

competitive companies to officers in similar positions, and (8) the base salaries paid to the Company's other executive officers. Salaries are reviewed annually, and increases are based primarily on merit according to each executive officer's achievement of performance objectives.

Performance Incentive Bonus. The Company implemented an Executive Performance Incentive Plan for all of its officers, including executive officers, in 2005. The plan, which is administered by the Compensation Committee, provides that each year the Compensation Committee will establish a method for determining the total amount of performance incentive bonuses available to be paid to all officers under the plan (the "bonus pool"). The Compensation Committee is to establish the bonus pool based upon specific measures of the Company's financial performance, among them being the Company's sales, operating income, pre-tax income, net income, and earnings per share. For 2005, the Compensation Committee determined that the bonus pool would be established based upon the Company's performance relative to a specific operating income target. The plan also provides for the Compensation Committee to establish individual performance goals, which include financial and operational performance measures, for each officer based upon his or her responsibility within the Company. Shortly after the end of the year, the Compensation Committee is to determine the amount of the performance incentive bonus for each officer by multiplying such officer's percentage achievement of his or her individual performance goals by such officer's allocable portion of the bonus pool. The Compensation Committee, in its sole and absolute discretion, may determine that the amount of an officer's actual performance incentive bonus is less than or more than the amount earned by the officer under the plan. The amount of the performance incentive bonus payable to an officer may vary from zero to 200% of his or her annual base salary. For 2005, the Compensation Committee authorized the discretionary payment of performance incentive bonuses under the plan to the Company's officers totaling approximately \$395,000, which included approximately \$186,000 paid to the Company's executive officers.

Long-Term, Equity-Based Incentives. The Company may grant long-term, equity-based incentive awards to its executive officers under the Company's 1999 Equity Incentive Plan, as amended and restated (the "Equity Incentive Plan"). Under the Equity Incentive Plan, which is administered by the Compensation Committee, the Company may grant long-term, equity-based awards in the form of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, phantom stock units, performance share units, and stock bonuses. Based on an assessment of competitive factors, the Compensation Committee determines an award that is suitable for providing an adequate incentive for the performance and retention of each executive officer. It is not intended that such awards be granted on the basis of past corporate performance or the size or amount of awards previously granted.

The Compensation Committee's prevailing practice has been to award stock options in order to closely align the interests of the executive officers with those of the Company's stockholders. For 2005, the Company granted stock options to purchase a total of 425,000 shares of common stock to eight executive officers. To encourage retention, the stock options may be granted with a vesting period of one or more years. Of those granted to executive officers for 2005, seven options to purchase a total of 265,000 shares will vest in equal installments over four years, while two options to purchase a total of 160,000 shares will vest after one year. The Compensation Committee has taken the position that stock options should be granted with an exercise price that is equal to the fair market value of the common stock on the grant date, which is calculated as the average of the highest and lowest reported sale prices on the trading day immediately prior to the grant date. The actual value of stock option compensation, therefore, depends on the market value of the common stock increasing after the grant date.

Compensation of Chief Executive Officers. The Company had two Chief Executive Officers in 2005, Laurence Y. Fairey and F. Barry Bays. Mr. Fairey was the President and Chief Executive Officer until October 5, 2005, when he resigned from these positions and his position as a director of the Company. As of that date, Mr. Bays, who at the time was the Executive Chairman of the Board, relinquished his position and became the interim President and Chief Executive Officer of the Company. Mr. Bays served in this capacity through December 31, 2005, and until Gary D. Henley was elected the President and Chief Executive Officer of the Company on April 4, 2006.

Mr. Fairey had an employment agreement with the Company covering his service as the President and Chief Executive Officer. Mr. Fairey's annual base salary for 2005 was \$350,000, of which he received \$266,312 for his service from the beginning of the year to his resignation on October 5, 2005. Mr. Fairey did not receive a bonus for

Table of Contents

2005 under the Company's Executive Performance Incentive Plan, nor did he receive any stock option grant under the Equity Incentive Plan in 2005. The Compensation Committee considers that the employment compensation paid to Mr. Fairey for the portion of 2005 during which he served as the President and Chief Executive Officer of the Company was reasonable and appropriate under the circumstances.

Upon Mr. Fairey's resignation from the Company on October 5, 2005, the Company entered into a severance agreement with him. Under the agreement, in exchange for certain releases and covenants by Mr. Fairey, the Company agreed to provide him with severance consisting of (a) his base salary with respect to a period of 24 months after his termination at his base salary on the termination date, (b) the base salary equivalent of his earned and unused vacation for 2005, (c) paid continuation coverage under the Company's group medical, dental and vision insurance plans pursuant to COBRA for a period of 18 months after his termination, and (d) \$200 to be applied to Mr. Fairey's legal costs for review of the agreement. The Company paid a total of \$738,460 in severance to Mr. Fairey under the agreement. The Compensation Committee considers that the severance paid to Mr. Fairey upon his resignation from the Company were reasonable and appropriate under the circumstances.

Mr. Bays has an employment agreement with the Company covering both his former service as the interim President and Chief Executive Officer from October 5, 2005, to April 4, 2006, and his current service as the Executive Chairman of the Board from April 4, 2006, to the present. Mr. Bays's annual base salary for 2005 as the interim President and Chief Executive Officer was \$270,000, of which he received \$64,043 for his service from October 5, 2005, to the end of the year. Mr. Bays also received a discretionary performance incentive bonus of \$22,773 under the Executive Performance Incentive Plan for 2005. In addition, on October 20, 2005, the Company granted to Mr. Bays an option to purchase 100,000 shares of common stock under the Equity Incentive Plan. The exercise price of the stock option is \$20.35 per share, which was the fair market value of the common stock on the grant date as determined under the Equity Incentive Plan. The stock option will vest and become exercisable one year after the grant date. The Compensation Committee considers that the employment compensation paid to Mr. Bays for the portion of 2005 during which he served as the interim President and Chief Executive Officer of the Company was reasonable and appropriate under the circumstances.

PROPOSAL 2 RATIFICATION OF SELECTION OF INDEPENDENT AUDITOR

General

The Audit Committee of the Board of Directors has selected KPMG LLP (KPMG) as the independent auditor to perform the audit of the Company s consolidated financial statements for 2006. KPMG has audited the Company s consolidated financial statements since 2002. KPMG is a registered public accounting firm.

The Board of Directors is asking the stockholders to ratify the selection of KPMG as the Company s independent auditor for 2006. Although not required by law, Nasdaq s listing standards, or the Company s bylaws, the Board of Directors is submitting the selection of KPMG to the stockholders for ratification as a matter of good corporate practice. Even if the selection is ratified, the Audit Committee in its discretion may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Representatives of KPMG are expected to be present at the meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions from the Company s stockholders.

Board of Directors Recommendation

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE *FOR* THE RATIFICATION OF THE SELECTION OF KPMG AS THE COMPANY S INDEPENDENT AUDITOR FOR 2006. Each proxy solicited on behalf of the Board of Directors will be voted *FOR* the ratification of the selection of KPMG as the Company s independent auditor for 2006 unless the stockholder instructs otherwise in the proxy. If the stockholders do not ratify the selection, the matter will be reconsidered by the Audit Committee and the Board of Directors.

Audit and Non-Audit Services

The Audit Committee is directly responsible for the appointment, compensation, and oversight of the Company s independent auditor. In addition to retaining KPMG to audit the Company s consolidated financial statements for 2005, the Audit Committee retained KPMG to provide other auditing and advisory services in 2005. The Audit Committee understands the need for KPMG to maintain objectivity and independence in its audits of the Company s financial statements. The Audit Committee has reviewed all non-audit services provided by KPMG in 2005 and has concluded that the provision of such services was compatible with maintaining KPMG s independence in the conduct of its auditing functions.

To help ensure the independence of the independent auditor, the Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services to be performed for the Company by its independent auditor. Pursuant to this policy, all audit and non-audit services to be performed by the independent auditor must be approved in advance by the Audit Committee. The Audit Committee may delegate to one or more of its members the authority to grant the required approvals, provided that any exercise of such authority is presented to the full Audit Committee at its next regularly scheduled meeting.

- (1) The exercise price of each stock option granted to the named executive officers is equal to the fair market value, within the meaning of the Equity Incentive Plan, of the underlying shares of common stock on the grant date.
- (2) In accordance with the SEC's regulations, these dollar figures represent hypothetical gains that could be achieved for the respective stock options if they were exercised at the end of the option term. The gains are based on assumed annual rates of stock price appreciation of 5% and 10% compounded annually from the date that the respective stock options were granted to their expiration date. They do not reflect the Company's estimates or projections of future prices of the common stock. The gains are net of the stock option exercise price, but do not include deductions for taxes or other expenses associated with the exercise. The actual gains, if any, realized upon stock option exercises will depend upon the future performance of the common stock, the executive's continued employment with the Company or its subsidiaries, and the dates on which the stock options are exercised. The hypothetical gains shown in the table might not be achieved.

All the stock options granted to the named executive officers were granted under the Company's 1999 Equity Incentive Plan, as amended and restated (the "Equity Incentive Plan"). The Compensation Committee, which administers the Equity Incentive Plan, has general authority to accelerate, extend, or otherwise modify the benefits under the stock options in certain circumstances within overall plan and other limitations. The Compensation Committee has no present intention to exercise that authority with respect to these stock options.

* In accordance with the SEC's regulations, an option is in-the-money if the fair market value of the underlying security exceeds the exercise price of the option. In the table, the values of the unexercised in-the-money stock options are calculated by multiplying the number of underlying shares of the Company's common stock by the difference between the fair market value of the shares and the exercise prices of the stock options. For the purposes of the table, the fair market value of the Company's common stock on December 31, 2005, is deemed to have been \$20.40 per share, which is the closing sale price of the common stock reported for transactions effected on the Nasdaq National Market on December 30, 2005, the last business day of 2005.

Compensation Committee Report on Repricing of Stock Options in 2005

In 2005, the Company upwardly repriced a stock option previously granted to Jason P. Hood, one of the executive officers named in the Summary Compensation Information table, by amending his stock option agreement to increase the exercise price of the option. On January 15, 2001, the Company granted Mr. Hood an option to purchase 3,636 shares of common stock at an exercise price of \$4.3538 per share. The stock option vested and became exercisable in four equal annual installments of 909 shares each beginning on January 15, 2002. The Company subsequently determined that the original exercise price of the option was discounted *i.e.*, it was less than the fair market value of the common stock on the grant date. To eliminate the application of a higher tax rate imposed by Section 409A of the Internal Revenue Code on the compensation realized from the exercise of discounted stock options, on December 20, 2005, the Company and Mr. Hood amended his stock option agreement to increase the exercise price of the final installment of 909 shares that vested on January 15, 2005, to \$5.50 per share, which was the fair market value of the common stock on the grant date. In addition, the Company paid \$1,042, before taxes and other withholdings, to Mr. Hood, which represented the product of the number of affected shares multiplied by the difference between the revised exercise price and the original exercise price. The table below sets forth information

regarding the repricing of Mr. Hood's stock option, there having been no other repricings of stock options or stock appreciation rights held by any executive officer of the Company during the last ten completed years.

Name and Position	Date	Shares of Common Stock Underlying Option Repriced or Amended	Market Price of Common Stock at Time of Repricing or Amendment*	Exercise Price at Time of Repricing or Amendment	New Exercise Price	Length of Original Option Term Remaining at Date of Repricing or Amendment
Jason P. Hood Vice President, General Counsel and Secretary	12/20/2005	909	\$ 19.86	\$ 4.3538	\$ 5.50	5 years and 25 days

* For the purpose of the table, the market price of the Company's common stock at the time of repricing is deemed to have been the closing sale price of the common stock reported for transactions effected on the Nasdaq National Market on December 20, 2005.

The Company's stockholders have approved the Equity Incentive Plan and the Company's 2002 Employee Stock Purchase Plan (the "Stock Purchase Plan").

The Company is authorized under the Equity Incentive Plan to grant equity-based awards in the form of stock options, stock appreciation rights, restricted stock, phantom stock units, performance share units, and stock bonuses to the employees (including executive officers), directors, and consultants of the Company and its subsidiaries. The Company is authorized to grant awards under the Equity Incentive Plan for up to 9,767,051 shares of common stock. The Company thus far has granted only stock options and stock bonuses under the Equity Incentive Plan. At December 31, 2005, the Company had issued 1,616,285 shares of common stock pursuant to stock option exercises and 69,688 shares of common stock as stock bonuses, the Company had paid cash in an amount equivalent to 52,356 shares of common stock to offset the tax consequences of the stock bonuses, and there were outstanding stock options to purchase 6,187,958 shares of common stock. As a result, at December 31, 2005, there were 1,840,764 remaining shares of common stock available for future awards under the Equity Incentive Plan.

The Stock Purchase Plan authorizes the Company to issue shares of common stock to its eligible employees. The Stock Purchase Plan divides the calendar year into two six-month plan periods, one beginning on January 1 and ending on June 30 and the other beginning on July 1 and ending on December 31. Under the Stock Purchase Plan, a participant can choose each plan period to have up to 5% of his or her annual base earnings up to \$5,000 withheld to purchase shares of common stock. The purchase price of the common stock is equal to 85% of the lower of its beginning-of-period or end-of-period market price. The Company is authorized to issue up to 200,000 shares of common stock under the Stock Purchase Plan. At December 31, 2005, the Company had issued 38,781 shares of common stock to employees, leaving 161,219 shares of common stock available for future issuance under the Stock Purchase Plan.

Employment Agreements With Existing Executive Officers

The Company has entered into employment agreements with five existing executive officers named in the Summary Compensation Information: F. Barry Bays, Gary D. Henley, John K. Bakewell, Jeffrey G. Roberts, and Jason P. Hood. The principal terms of these executive officers' employment agreements are summarized below.

Table of Contents

Term. The terms of the agreements began and will end on the respective dates shown below, subject to earlier termination under certain circumstances.

Name	Beginning Date	Ending Date
F. Barry Bays	November 22, 2005	March 31, 2007
Gary D. Henley	April 4, 2006	April 4, 2009
John K. Bakewell	November 22, 2005	March 31, 2007
Jeffrey G. Roberts	November 22, 2005	March 31, 2007
Jason P. Hood	November 22, 2005	March 31, 2007

Base Salary. Each agreement establishes the initial annual base salary of the executive officer and provides that the Compensation Committee will review his compensation at least once per year and will make such increases in his base salary as are merited based on the executive officer's performance and are consistent with the Company's compensation policies. The current base salaries of the executive officers are set forth below.

Name	Current Base Salary
F. Barry Bays	\$ 100,000
Gary D. Henley	390,000
John K. Bakewell	244,000
Jeffrey G. Roberts	248,500
Jason P. Hood	182,000

Performance Incentive Bonus. Each agreement provides that the executive officer is eligible to receive an annual performance incentive bonus pursuant to the Executive Performance Incentive Plan depending on whether, and to what extent, certain performance goals established by the Compensation Committee for such year have been achieved. The amount of the performance incentive bonus payable to an executive officer may vary from zero to 200% of his annual base salary. The performance incentive bonuses paid to the executive officers with respect to 2005 and prior years are set forth in the Bonus column of the Summary Compensation Information table.

Long-Term, Equity-Based Incentives. Each agreement provides that the executive officer is eligible to receive stock options and other long-term, equity-based incentive awards granted under the Equity Incentive Plan. Information with respect to the stock options granted to the executive officers in 2005 is set forth in the Stock Option Grants in 2005 table. In addition, under Mr. Henley's agreement, on April 4, 2006, in connection with the commencement of his service as the President and Chief Executive Officer, the Company granted to him an option to purchase 300,000 shares of common stock under the Equity Incentive Plan. The exercise price of the option is \$19.52, which is equal to the fair market value of the common stock on the grant date as determined under the Equity Incentive Plan. The stock option will vest and become exercisable in equal annual installments over a period of four years after the grant date.

Fringe Benefits. Each agreement provides that the executive officer is eligible to participate in the fringe benefit programs, including those for medical insurance and retirement benefits, that the Company generally furnishes to its executive officers from time to time. The executive officer is required to make any generally applicable employee contribution that is required under such fringe benefit programs.

Automobile Allowance. The agreements for Messrs. Bays, Henley, and Bakewell provide for a monthly automobile allowance of \$850, \$800, and \$700, respectively, to cover the expenses relating to the use of their personal automobiles.

Restrictive Covenants. Each agreement imposes on the executive officer customary restrictive covenants prohibiting his disclosure of the Company's confidential information, requiring him to assign to the Company any intellectual property developed in connection with his employment, and prohibiting him from competing and interfering with the Company's business. The non-competition and non-interference covenants extend for a period following the executive officer's cessation of employment that is coterminous with the period, if any, with respect to which he receives post-employment pay and benefits from the Company.

Table of Contents

Termination. Each agreement allows the Company to terminate the employment of the executive officer in the event of his disability, for cause (as defined in the agreement), or without cause. In the event of the termination of his employment, the post-employment pay and benefits, if any, to be received by the executive officer will vary according to the basis for his termination.

If the Company terminates the executive officer's employment due to his disability, the Company is required to provide to him, with respect to a period of 12 months after the termination date, (a) his base salary for such period at his base salary on the termination date, minus any amount that he receives under any disability insurance policy or plan that the Company or he maintains or under Social Security or any similar law, and (b) continued coverage for such period under the Company's health benefit and life insurance programs on the same terms that were applicable on the termination date.

If the Company terminates the executive officer's employment for cause, or if the executive officer resigns from his employment with the Company (which resignation in the case of Mr. Hood is other than for good reason (as defined in his agreement)), the Company may, but is not obligated to, provide to him, with respect to a period of up to 24 months after his termination or resignation, as determined by the Company in its sole and absolute discretion, his base salary for such period at his base salary on the termination date or resignation date.

If the Company terminates the executive officer's employment without cause, or if after a change in control (as defined in the agreement) of the Company the term of the agreement expires and the executive officer's employment is terminated without cause within 12 months after such expiration, or in the case of Mr. Hood if he resigns from his employment with the Company for good reason, the Company is required to provide to him, with respect to a period of between 12 and 24 months after his termination, as determined by the Company in its sole and absolute discretion, (a) his base salary for such period at the greater of his base salary on the expiration date or his base salary on the termination date, and (b) continued coverage for such period under the Company's health benefit and life insurance programs on the same terms that were applicable on the termination date.

In each case, the executive officer's right to receive post-employment pay and benefits is subject to his compliance with the non-competition and non-interference covenants contained in the agreement.

Gross-Up Payment. Each agreement provides that the Company will make a gross-up payment (as defined in the agreement) to the executive officer in the event that he becomes subject to the excise tax imposed by Section 4999 of the Internal Revenue Code. The gross-up payment will be equal to an amount such that after the executive officer timely pays the gross-up payment to the appropriate taxing authority(ies), his liability for all taxes would be the same as if no excise tax applied.

Severance Agreements With Former Executive Officers

The Company has entered into severance agreements with three former executive officers named in the Summary Compensation Information table whose employment with the Company ceased in 2005—Laurence Y.
