FORWARD-LOOKING STATEMENTS

Certain statements contained in this Report may not be based on historical facts and are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by reference to a future period(s) or by the use of forward-looking terminology, such as anticipate, estimate, believe, foresee, would or plan, or future or conditional verb tenses, and variations or negatives of s might. intend. could. terms. These forward-looking statements include, without limitation, those relating to the Company s net interest margin, payment of dividends, prepayment of Junior Subordinated Debt Securities, credit losses, credit quality, core deposits, off-balance sheet commitments and arrangements, amortization expense, valuation of mortgage servicing rights, allowance for credit losses, continued weakness in the economic environment, deteriorating credit quality of borrowers, consideration for future acquisitions, estimation of pension and other postretirement benefit amounts, key indicators of the Company s financial performance (such as return on average assets and return on average shareholders equity), liquidity needs and strategies, future acquisitions to further the Company s business strategies, the effect of certain legal claims, the impact of federal and state regulatory requirements for capital, additional share repurchases under the Company s stock repurchase program, diversification of the Company s revenue stream and the application and impact of recent accounting pronouncements. We caution you not to place undue reliance on the forward-looking statements contained in this report, in that actual results could differ materially from those indicated in such forward-looking statements as a result of a variety of factors. These factors include, but are not limited to, the ability of the Company to increase noninterest revenue and expand noninterest revenue business, the ability of the Company to fund growth with lower cost liabilities, the ability of the Company to maintain credit quality, the ability of the Company to provide and market competitive services and products, the ability of the Company to diversify revenue, the ability of the Company to attract, train and retain qualified personnel, the ability of the Company to operate and integrate new technology, changes in consumer preferences, changes in the Company s operating or expansion strategy, changes in economic conditions and government fiscal and monetary policies, legislation and court decisions related to the amount of damages recoverable in legal proceedings, fluctuations in prevailing interest

rates and the effectiveness of the Company s interest rate hedging strategies, the ability of the Company to balance interest rate, credit, liquidity and capital risks, the ability of the Company to collect amounts due under loan agreements and attract deposits, laws and regulations affecting financial institutions in general, the ability of the Company to identify and effectively integrate potential acquisitions, the ability of the Company to manage its growth and effectively serve an expanding customer and market base, geographic concentrations of the Company s assets and susceptibility to economic downturns in that area, availability of and costs associated with maintaining and/or obtaining adequate and timely sources of liquidity, the ability of the Company to compete with other financial services companies, the ability of the Company to repurchase its common stock on favorable terms, possible adverse rulings, judgments, settlements and other outcomes of pending or threatened litigation, other factors generally understood to affect the financial condition or results of financial services companies and other factors detailed from time to time in the Company s press releases and filings with the Securities and Exchange Commission. We undertake no obligation to update these forward-looking statements to reflect events or circumstances that occur after the date of this report.

BANCORPSOUTH, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements (Unaudited)

NOTE 1 BASIS OF FINANCIAL STATEMENT PRESENTATION AND PRINCIPLES OF CONSOLIDATION

The accompanying unaudited interim consolidated financial statements of BancorpSouth, Inc. (the Company) have been prepared in conformity with accounting principles generally accepted in the United States of America and follow general practices within the industries in which the Company operates. For further information, refer to the audited consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. In the opinion of management, all adjustments necessary for a fair presentation of the consolidated financial statements have been included and all such adjustments were of a normal recurring nature. The results of operations for the three-month and six-month periods ended June 30, 2008 are not necessarily indicative of the results to be expected for the full year. Certain 2007 amounts have been reclassified to conform with the 2008 presentation. Also, beginning March 1, 2007, the financial statements include the accounts of The Signature Bank. See Note 11, Business Combinations, for further information regarding The Signature Bank.

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, BancorpSouth Bank (the Bank) and Risk Advantage, Inc., and the Bank s wholly-owned subsidiaries, Century Credit Life Insurance Company, Personal Finance Corporation of Tennessee, BancorpSouth Insurance Services, Inc., BancorpSouth Investment Services, Inc. and BancorpSouth Municipal Development Corporation.

NOTE 2 LOANS AND LEASES

Recoveries	2,169	1,840		4,355
Loans and leases charged off	(15,936)	(6,682)		(16,841)
Acquisitions		6,138		6,153
Balance at end of period	\$ 123,478	\$ 109,328	\$	115,197

NOTE 4 SECURITIES

The following table summarizes information pertaining to temporarily impaired held-to-maturity and available-for-sale securities with continuous unrealized loss positions at June 30, 2008:

	Cor	ntinuc	ous Unrea	lized Loss Posi	tion				
	Less Than	12 M	lonths	12 Months	or L	onger	To	otal	
	Fair	Un	realized	Fair	Un	realized	Fair	Un	realized
	Value	I	Losses	Value	I	Losses	Value	L	osses
				(In tho	usand	ls)			
Held-to-maturity securities:									
U.S. Treasury	\$	\$		\$	\$		\$	\$	
U.S. government agencies Obligations of states and	52,203	Ψ	47	Ψ	Ψ		52,203	Ψ	47
political subdivisions	51,857		1,258	25,201		395	77,058		1,653
Total	\$ 104,060	\$	1,305	\$ 25,201	\$	395	\$ 129,261	\$	1,700
Available-for-sale securities:									
U.S. government agencies Obligations of states and	\$ 287,402	\$	970	\$ 113,060	\$	2,065	\$ 400,462	\$	3,035
political subdivisions	11,411		483	422		14	11,833		497
Other	7,740		3,260				7,740		3,260
Total	\$ 306,553	\$	4,713	\$ 113,482	\$	2,079	\$ 420,035	\$	6,792

Based upon review of the credit quality of these securities, the ability and intent to hold these securities for a period of time sufficient for recovery of costs and the volatility of their market price, the impairments related to these securities were determined to be temporary.

The Company s unrealized losses on other securities relate to its investment in pooled trust preferred securities. The decline in value of these securities is attributable to the current illiquidity in these markets and not credit quality of the

individual securities. Due to the illiquidity, it is unlikely that the Company would be able to recover its investment in these securities if it sold them at this time. Because the Company has analyzed the cash flow characteristics of the securities and has the intent and ability to hold them until a recovery of fair value, which may be at maturity, it did not consider the investment in these securities to be other-than-temporarily impaired at June 30, 2008.

7

NOTE 5 PER SHARE DATA

The computation of basic earnings per share (EPS) is based on the weighted average number of shares of common stock outstanding. The computation of diluted earnings per share is based on the weighted average number of shares of common stock outstanding plus the shares resulting from the assumed exercise of all outstanding share-based awards using the treasury stock method.

The following tables provide a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the periods shown:

		-	Three months	s ended June 30	,

NOTE 7 JUNIOR SUBORDINATED DEBT SECURITIES

In 2002, the Company issued \$128,866,000 in 8.15% Junior Subordinated Debt Securities to BancorpSouth Capital Trust I (the Trust), a business trust. The Trust used the proceeds from the issuance of five million shares of 8.15% trust preferred securities, \$25 face value per share, to acquire the Junior Subordinated Debt Securities. Both the Junior Subordinated Debt Securities and the trust preferred securities mature on January 28, 2032 and are callable at the option of the Company.

Pursuant to the merger with Business Holding Corporation on December 31, 2004, the Company assumed the liability for \$6,186,000 in Junior Subordinated Debt Securities issued to Business Holding Company Trust I, a statutory trust. Business Holding Company Trust I used the proceeds from the issuance of 6,000 shares of trust preferred securities to acquire the Junior Subordinated Debt Securities. Both the Junior Subordinated Debt Securities and the trust preferred securities mature on April 7, 2034, and are callable at the option of the Company, in whole or in part, on any January 7, April 7, July 7 or October 7 on or after April 7, 2009. The Junior Subordinated Debt Securities and the trust preferred securities pay a per annum rate of interest, reset quarterly, equal to the three-month London Interbank Offered Rate (LIBOR) plus 2.80% from January 30, 2004 to April 7, 2009 and thereafter at LIBOR plus 2.85%.

9

Table of Contents

Pursuant to the merger with American State Bank Corporation on December 1, 2005, the Company assumed the liability for \$6,702,000 in Junior Subordinated Debt Securities issued to American State Capital Trust I, a statutory trust. American State Capital Trust I used the proceeds from the issuance of 6,500 shares of trust preferred securities to acquire the Junior Subordinated Debt Securities. Both the Junior Subordinated Debt Securities and the trust preferred securities mature on April 7, 2034, and are callable at the option of the Company, in whole or in part, on any July 7, October 7, January 7 or April 7 on or after April 7, 2009. The Junior Subordinated Debt Securities and the trust preferred securities pay a per annum rate of interest, reset quarterly, equal to the three-month LIBOR plus 2.80%. Pursuant to the merger with City Bancorp on March 1, 2007, the Company assumed the liability for \$8,248,000 in Junior Subordinated Debt Securities issued to Signature Bancshares Preferred Trust I, a statutory trust. Signature Bancshares Preferred Trust I used the proceeds from the issuance of 8,000 shares of trust preferred securities to acquire the Junior Subordinated Debt Securities. Both the Junior Subordinated Debt Securities and the trust preferred securities mature on October 8, 2033, and are callable at the option of the Company, in whole or in part, on any January 8, April 8, July 8 or October 8 on or after October 8, 2008. The Junior Subordinated Debt Securities and the trust preferred securities pay a per annum rate of interest, reset quarterly, equal to the three-month LIBOR plus 3.00%. Pursuant to the merger with City Bancorp on March 1, 2007, the Company also assumed the liability for \$10,310,000 in Junior Subordinated Debt Securities issued to City Bancorp Preferred Trust I, a statutory trust. City Bancorp Preferred Trust I used the proceeds from the issuance of 10,000 shares of trust preferred securities to acquire the Junior Subordinated Debt Securities. Both the Junior Subordinated Debt Securities and the trust preferred securities mature on March 15, 2035, and are callable at the option of the Company, in whole or in part, on any March 15, June 15, September 15 or December 15 on or after March 15, 2010. The Junior Subordinated Debt Securities and the trust preferred securities pay a per annum rate of interest, reset quarterly, equal to the three-month LIBOR plus 2.2%.

NOTE 8 GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying amount of goodwill by operating segment for the six months ended June 30, 2008 were as follows:

	Community	Insurance	
	Banking	Agencies	Total
		(In thousands)	
Balance as of December 31, 2007	\$ 214,780	\$ 40,109	\$ 254,889
Goodwill acquired during the period	673	10,329	11,002
Purchase accounting adjustments	4,916		4,916
Balance as of June 30, 2008	\$ 220,369	\$ 50,438	\$ 270,807

As reflected in the table above, the community banking goodwill acquired during the period is related to the acquisition of City Bancorp and the additional purchase price paid as a result of the settlement of a contingency during the first quarter of 2008. Also, an adjustment was made in the first quarter of 2008 to the allocation of the purchase price in conjunction with the acquisition of City Bancorp that related to a loan acquired which was subsequently determined to be unsubstantiated. See Note 11, Business Combinations, for more information regarding that transaction.

The following tables present information regarding the components of the Company s identifiable intangible assets for the dates and periods indicated:

10

NOTE 10 RECENT PRONOUNCEMENTS

In September 2006, Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, was issued. SFAS No. 157 establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) FAS 157-2, Effective Date of FASB Statement No. 157, which delays the effective date of SFAS 157 for non-financial assets and non-financial liabilities that are recognized or disclosed in the financial statements on a nonrecurring basis. The FSP partially defers the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of this FSP. The adoption of SFAS No. 157 and FSP FAS 157-2 has had no material impact on the financial position or results of operations of the Company. The Company has not applied the provisions of SFAS 157 to its non-financial assets and non-financial liabilities in accordance with FSP FAS 157-2. The Company will apply the provisions of SFAS 157 to these assets and liabilities beginning January 1, 2009 as required by FSP FAS 157-2.

In September, 2006, the Emerging Issues Task Force (EITF) reached a final consensus on Issue No. 06-4, Accounting for the Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. EITF Issue No. 06-4 requires employers to recognize a liability for future benefits provided through endorsement split-dollar life insurance arrangements that extend into postretirement periods in accordance with SFAS No. 106, Employers Accounting for Postretirement Benefits Other Than Pensions or APB Opinion No. 12, Omnibus 1967. EITF Issue No. 06-4 is effective for fiscal years beginning after December 15, 2007. Entities should recognize the effects of applying EITF Issue No. 06-04 through either (a) a change in accounting principle through a cumulative-effect adjustment to retained earnings or to other components of equity or net assets in the statement of financial position as of the beginning of the year of adoption or (b) a change in accounting principle through retrospective application to all prior periods. The initial adoption of EITF Issue No. 06-4 resulted in a cumulative-effect adjustment to retained earnings of approximately \$1.1 million at January 1, 2008. During the second quarter of 2008, management identified certain endorsement split-dollar life insurance arrangements that were not included in the original adoption of EITF Issue No. 06-4. The correction of this immaterial error resulted in an additional cumulative-effect adjustment to retained earnings of approximately \$2.5 million for a total cumulative-effect adjustment to retained earnings at January 1, 2008 of approximately \$3.6 million. Retained earnings was originally reported at March 31, 2008 as \$816.0 million. Subsequent to the adjustment of \$2.5 million, retained earnings was \$813.5 million. Other liabilities was originally reported at March 31, 2008 as \$147.0 million. Subsequent to the adjustment of \$2.5 million, other liabilities was \$149.5 million.

In February, 2007, SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, was issued. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company did not elect the fair value option in regards to items not previously recorded at fair value. Therefore, the adoption of SFAS No. 159 has had no material impact on the financial position or results of operations of the Company.

In November 2007, the SEC issued Staff Accounting Bulletin (SAB) No. 109, Written Loan Commitments Recorded at Fair Value Through Earnings. SAB No. 109 rescinds SAB No. 105 s prohibition on inclusion of expected net future cash flows related to loan servicing activities in the fair value measurement of a written loan commitment. SAB No. 109 also applies to any loan commitments for which fair value accounting is elected under SFAS No. 159. SAB No. 109 is effective prospectively for derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The adoption of SAB No. 109 has had no material impact on the financial position or results of operations of the Company.

In December 2007, SFAS No. 141(R), Business Combinations, was issued. SFAS No. 141(R) expands the definition of transactions and events that qualify as business combinations; requires that the acquired assets and liabilities, including contingencies, be recorded at fair value determined on the acquisition date; changes the recognition timing for restructuring costs; and requires the expensing of acquisition costs as incurred. SFAS No. 141(R) is effective for fiscal years beginning on or after December 15, 2008. The Company believes that the

12

Table of Contents

adoption of SFAS No. 141(R) will have no material impact on the financial position or results of operations of the Company.

In December 2007, SFAS No. 160, Noncontrolling Interest in Consolidated Financial Statements—an Amendment of ARB No. 51, was issued. SFAS No. 160 requires that acquired assets and liabilities be measured at full fair value without consideration to ownership percentage. Under SFAS No. 160, any non-controlling interests in an acquiree should be presented as a separate component of equity rather than on a mezzanine level. Additionally, SFAS No. 160 provides that net income or loss should be reported in the consolidated income statement at its consolidated amount, with disclosure on the face of the consolidated income statement of the amount of consolidated net income which is attributable to the parent and noncontrolling interest, respectively. SFAS No. 160 is effective prospectively for periods beginning on or after December 15, 2008, with the exception of the presentation and disclosure requirements which should be retrospectively applied to all periods presented. The Company believes that the adoption of SFAS No. 160 will have no impact on the financial position or results of operations of the Company.

In March 2008, SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—an Amendment of FASB Statement No. 133, was issued. SFAS No. 161 changes the disclosure requirements for derivative instruments and hedging activities by requiring entities to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under FASB Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity s financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. SFAS No. 161 will impact disclosures only and will not have an impact on the financial position or results of operations of the Company.

NOTE 11 BUSINESS COMBINATIONS

On March 1, 2007, City Bancorp, a bank holding company with approximately \$850 million in assets headquartered in Springfield, Missouri, merged with and into the Company. As a result of the merger, City Bancorp s subsidiary, The Signature Bank, became a subsidiary of the Company. Effective July 1, 2007, The Signature Bank merged with and into the Bank. Consideration paid to complete this transaction consisted of 3,327,564 shares of the Company s common stock in addition to cash paid to City Bancorp s shareholders in the aggregate amount of approximately \$83.8 million. The consideration paid to complete the transaction has been adjusted to reflect the additional amount paid as a result of the settlement of a contingency during the first quarter of 2008. In addition, all outstanding City Bancorp stock options were converted into stock options to purchase 272,834 shares of the Company s common stock. This transaction was accounted for as a purchase. This acquisition was not material to the financial position or results of operations of the Company.

NOTE 12 SEGMENT REPORTING

The Company s principal activity is community banking, which includes providing a full range of deposit products, commercial loans and consumer loans. During the first quarter of 2008, the Company determined that an additional operating segment, insurance agencies, should be created based upon the services offered, the significance of those services to the Company s financial statements and the regular review of the operating results of the insurance agencies by the chief operating decision makers of the Company. The insurance agencies serve as agents in the sale of title insurance, commercial lines of insurance and full lines of property and casualty, life, health and employee benefits products and services. The general corporate and other operating segment includes leasing, mortgage lending, trust services, credit card activities, investment services and other activities not allocated to community banking. The increase in profitability of the general corporate and other operating segment is primarily related to mortgage lending. Results of operations and selected financial information by operating segment for the three-month and six-month periods ended June 30, 2008 and 2007 were as follows:

NOTE 13 MORTGAGE SERVICING RIGHTS

Mortgage servicing rights (MSRs) are recognized based on the fair value of the servicing right on the date the corresponding mortgage loan is sold. An estimate of the fair value of the Company s MSRs is determined utilizing assumptions about factors such as mortgage interest rates, discount rates, mortgage loan prepayment speeds, market trends and industry demand. This estimate and the assumptions used are reviewed by management. At June 30, 2008, the valuation of MSRs included an assumed average prepayment speed of 199 PSA and an average discount rate of 9.87%. Because the valuation is determined by using discounted cash flow models, the primary risk inherent in

valuing the MSRs is the impact of fluctuating interest rates on the estimated life of the servicing revenue stream. The use of different estimates or assumptions could also produce different fair values. The Company does not hedge the change in fair value of MSRs and, therefore, the Company is susceptible to significant fluctuations in the fair value of its MSRs in changing interest rate environments.

The Company has one class of mortgage servicing asset comprised of closed end loans for one-to-four family residences, secured by first liens. The following table presents the activity in this class for the periods indicated:

15

Table of Contents

	2008 (In thou	2007 usands)
Fair value as of January 1	\$ 32,482	\$ 35,286
Additions:		
Origination of servicing assets	4,212	2,635
Changes in fair value:		
Due to change in valuation inputs or assumptions used in the valuation model	1,527	(570)
Other changes in fair value	(10)	(13)
Fair value as of June 30	\$ 38,211	\$ 37,338

All of the changes to the fair value of the MSRs are recorded as part of mortgage lending noninterest revenue on the income statement. As part of mortgage lending noninterest revenue, the Company recorded contractual servicing fees of approximately \$2.10 million and \$2.02 million and late and other ancillary fees of approximately \$294,000 and \$230,000 for the quarters ended June 30, 2008 and 2007, respectively. The Company recorded contractual servicing fees of \$4.18 million and \$4.05 million and late and other ancillary fees of approximately \$587,000 and approximately \$492,000 for the six months ended June 30, 2008 and 2007, respectively.

NOTE 14 DERIVATIVE INSTRUMENTS

The derivatives held by the Company include commitments to fund fixed-rate mortgage loans to customers and forward commitments to sell individual fixed-rate mortgage loans. The Company's objective in obtaining the forward commitments is to mitigate the interest rate risk associated with the commitments to fund the fixed-rate mortgage loans. Both the commitments to fund fixed-rate mortgage loans and the forward commitments to sell individual fixed-rate mortgage loans are reported at fair value, with adjustments being recorded in current period earnings, and are not accounted for as hedges. At June 30, 2008, the notional amount of forward commitments to sell individual fixed-rate mortgage loans was \$86.5 million with a carrying value and fair value reflecting a loss of approximately \$76,000. At June 30, 2007, the notional amount of forward commitments to sell individual fixed-rate mortgage loans was \$85.1 million with a carrying value and fair value reflecting a gain of approximately \$461,000. At June 30, 2008, the notional amount of commitments to fund individual fixed-rate mortgage loans was \$31.7 million with a carrying value and fair value reflecting a gain of approximately \$339,000. At June 30, 2007, the notional amount of commitments to fund individual fixed-rate mortgage loans was \$35.0 million with a carrying value and fair value reflecting a loss of approximately \$33,000.

The Company also enters into derivative financial instruments in the form of interest rate swaps to meet the financing, interest rate and equity risk management needs of its customers. Upon entering into these interest rate swaps to meet customer needs, the Company enters into offsetting positions to minimize interest rate and equity risk to the Company. These derivative financial instruments are reported at fair value with any resulting gain or loss recorded in current period earnings. These instruments and their offsetting positions are recorded in other assets and other liabilities on the consolidated balance sheets. As of June 30, 2008, the notional amount of customer related derivative financial instruments was \$379.2 million with an average maturity of 92 months, an average interest receive rate of 4.40% and an average interest pay rate of 6.63%.

NOTE 15 FAIR VALUE DISCLOSURES

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company s assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The hierarchy is broken down

into three levels based on the reliability of inputs as follows:

16

Table of Contents

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs for the asset or liability that reflect the reporting entity s own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The Company adopted the provisions of SFAS 157 and FSP FAS 157-2 on January 1, 2008. The adoption of these pronouncements did not have a material effect on the Company s financial position or results of operations.

Determination of Fair Value

The valuation methodologies listed below are used by the Company to measure different financial instruments at fair value. An indication of the level in the fair value hierarchy in which each instrument is generally classified is included. Where appropriate the description includes details of the valuation models, the key inputs to those models as well as any significant assumptions.

Available-for-sale securities. Available-for-sale securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities relationship to other benchmark quoted securities. The Company s available-for-sale securities that are traded on an active exchange, such as the New York Stock Exchange, are classified as Level 1. All other available-for-sale securities are valued using matrix pricing and are classified as Level 2.

Mortgage servicing rights. The Company records MSRs at fair value on a recurring basis with subsequent remeasurement of MSRs based on change in fair value. In determining fair value, the Company utilizes the expertise of an independent third party. An estimate of the fair value of the Company s MSRs is determined by the independent third party utilizing assumptions about factors such as mortgage interest rates, discount rates, mortgage loan prepayment speeds, market trends and industry demand. All of the Company s MSRs are classified as Level 3.

Derivative instruments. The Company s derivative instruments consist of commitments to fund fixed-rate mortgage loans to customers, forward commitments to sell individual fixed-rate mortgage loans and interest rate swaps. The derivative instruments are traded in over-the-counter markets where quoted market prices are not readily available. Fair value is measured on a recurring basis using internally developed models that use primarily market observable inputs, such as yield curves and option volatilities. The Company s interest rate swaps are classified as Level 2. The Company s commitments to fund fixed-rate mortgage loans to customers and forward commitments to sell individual fixed-rate mortgage loans are classified as Level 3.

Loans held for sale. Loans held for sale are carried at the lower of cost or estimated fair value and are subjected to nonrecurring fair value adjustments. Estimated fair value is determined on the basis of existing commitments or the current market value of similar loans. All of the Company s loans held for sale are classified as Level 2.

Impaired loans. Loans considered impaired under SFAS No. 114, Accounting by Creditors for Impairment of a Loan, as amended by SFAS No. 118, Accounting by Creditors for Impairment of a Loan Income Recognition and Disclosure, are loans for which, based on current information and events, it is probable that the creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. Impaired loans are subject to nonrecurring fair value adjustments to reflect (1) partial write-downs that are based on the observable market price or current appraised value of the collateral, or (2) the full charge-off of the loan carrying value. All of the Company s impaired loans are classified as Level 3.

17

Table of Contents

Assets and Liabilities Recorded at Fair Value on a Recurring Basis

The following table presents the balances of the assets and liabilities measured at fair value on a recurring basis as of June 30, 2008:

	Level 1	Level 2	Level 3 busands)	Total
Assets: Available-for-sale securities Mortgage servicing rights Derivative instruments	\$ 1,014	\$ 1,022,051 5,502	\$ 38,211 521	\$ 1,023,065 38,211 6,023
Total	\$ 1,014	\$ 1,027,553	\$38,732	\$ 1,067,299
Liabilities: Derivative instruments	\$	\$ 5,502	\$ 257	\$ 5,759

The following table presents the changes in Level 3 assets and liabilities measured at fair value on a recurring basis for the six-month period ended June 30, 2008:

	Mortgage		
	Servicing	Der	ivative
	Rights	instruments	
	(In the	ousands	s)
Balance at December 31, 2007	\$ 32,482	\$	(147)
Total net gains for the year included in:			
Net income	5,729		411
Other comprehensive income			
Purchases, sales, issuances and settlements, net			
Transfers in and/or out of Level 3			
Balance at June 30, 2008	\$ 38,211	\$	264
Net unrealized gains included in net income for the year relating to assets and			
liabilities held at June 30, 2008	\$ 1,527	\$	411

Assets and Liabilities Recorded at Fair Value on a Nonrecurring Basis

The following table presents the balances of assets and liabilities measured at fair value on a nonrecurring basis as of June 30, 2008:

					Total		
	Level	Level			Gains		
	1	2	Level 3	Total	(Losses)		
		(In thousands)					
Assets:							
Impaired loans	\$	\$	\$7,952	\$7,952	\$ (2,225)		
G	1 . 6 . 1			C' 1	. 1		

Certain non-financial assets measured at fair value on a nonrecurring basis included non-financial assets and non-financial liabilities measured at fair value in the second step of a goodwill impairment test, as well as intangible assets measured at fair value for impairment assessment. As previously stated, SFAS 157 will be applicable to these

fair value measurements beginning January 1, 2009.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS. OVERVIEW

BancorpSouth, Inc. (the Company) is a regional financial holding company headquartered in Tupelo, Mississippi with \$13.4 billion in assets. BancorpSouth Bank (the Bank), the Company s wholly-owned banking subsidiary, has commercial banking operations in Mississippi, Tennessee, Alabama, Arkansas, Texas, Louisiana, Florida and Missouri. The Bank and its consumer finance, credit insurance, insurance agency and brokerage subsidiaries provide commercial banking, leasing, mortgage origination and servicing, insurance, brokerage and trust services to corporate customers, local governments, individuals and other financial institutions through an extensive network of branches and offices.

Management s discussion and analysis provides a narrative discussion of the Company s financial condition and results of operations. For a complete understanding of the following discussion, you should refer to the unaudited consolidated financial statements for the three-month and six-month periods ended June 30, 2008 and 2007 and the notes to such financial statements found under Part I, Item 1. Financial Statements of this report. This discussion and analysis is based on reported financial information. The information that follows is provided to enhance comparability of financial information between periods and to provide a better understanding of the Company s operations. As a financial holding company, the financial condition and operating results of the Company are heavily influenced by economic trends nationally and in the specific markets in which the Company s subsidiaries provide financial services. Generally, during the first six months of 2008, the pressures of the national and regional economic cycle created a difficult operating environment for the financial services industry. The Company is certainly not immune to such pressures and their impact is reflected in the increases in our measures of credit quality, non-performing loans and net charge-offs, compared to the second quarter of 2007 and the first quarter of 2008. While these measures have increased, the Company believes that it is well positioned with respect to overall credit quality and strength of its allowance for credit losses to meet the challenges of the current economic cycle. Management believes, however, that continued weakness in the economic environment could negatively affect the strength of the Company s credit quality and intends to move decisively in accordance with the Company s business strategies to address any emerging credit issues.

Most of the revenue of the Company is derived from the operation of its principal operating subsidiary, the Bank. The financial condition and operating results of the Bank are affected by the level and volatility of interest rates on loans, investment securities, deposits and other borrowed funds, and the impact of economic downturns on loan demand and creditworthiness of existing borrowers. The financial services industry is highly competitive and heavily regulated. The Company success depends on its ability to compete aggressively within its markets while maintaining sufficient asset quality and cost controls to generate net income.

The tables below summarize the Company s net income, net income per share, return on average assets and return on average shareholders equity for the three months and six months ended June 30, 2008 and 2007. Management believes these amounts and ratios are key indicators of the Company s financial performance.

	Three months ended		
	June		
	2008	2007	% Change
(Dollars in thousands, except per share amounts)			
Net income	\$40,125	\$35,881	11.83%
Net income per share: Basic	\$ 0.49	\$ 0.44	11.36
Diluted	\$ 0.49	\$ 0.43	13.95
Return on average assets (annualized)	1.23%	1.11%	10.81
Return on average shareholders equity (annualized)	13.16%	12.82%	2.65

Return on average assets (annualized)	1.15%	1.11%	3.60
Return on average shareholders equity (annualized)	12.48%	12.86%	(2.95)

The Company s primary source of revenue is the amount of net interest revenue earned by the Bank. Net interest revenue is the difference between interest earned on loans and investments and interest paid on deposits and other obligations. The Company noticed moderate loan growth in a declining interest rate environment resulting in a decrease in interest revenue of 13.23% in the second quarter of 2008 compared to the same period in 2007 and 6.02% in the first six months of 2008 compared to the same period in 2007. The Company noticed a larger decrease in interest expense than in interest revenue as interest expense decreased 31.26% in the second quarter of 2008 compared to the second quarter of 2007 and 20.64% in the first six months of 2008 compared to the same period in 2007. The larger decrease in interest expense than in interest revenue is a result of the Company s asset/liability strategies which include funding loan growth with the proceeds from maturing lower yielding investment securities, short-term borrowings from the Federal Home Loan Bank (the FHLB) and short-term borrowings from the Federal Reserve and by growing lower rate demand deposits which offset the reduction in higher rate time deposits. These factors combined to increase the Company s net interest revenue to \$109.84 million for the second quarter of 2008, a \$3.19 million, or 2.99%, increase from \$106.66 million for the second quarter of 2007 and to \$219.91 million for the first six months of 2008, a \$14.59 million, or 7.10%, increase from \$205.33 million for the first six months of 2007. While the increase in net interest revenue during the second quarter and first six months of 2008 compared to the second quarter and first six months of 2007 positively impacted net income, the provision for credit losses increased in the second quarter and first six months of 2008 compared to the same periods in 2007, negatively impacting net income. The provision for credit losses was \$11.24 million for the second quarter of 2008 compared to \$7.84 million for the second quarter of 2007 and was \$22.05 million for the first six months of 2008 compared to \$9.20 million for the same period in 2007. Consistent with the increase in the provision for credit losses, annualized net charge-offs increased to 0.30% of average loans for the second quarter of 2008 from 0.14% of average loans for the second quarter of 2007. The increase in the provision for credit losses for the second quarter and first six months of 2008 was primarily reflective of a slowing economic environment. The unusually low provision for credit losses experienced by the Company for the first six months of 2007 was primarily the result of net charge-offs reaching an unsustainably low level during the first quarter of 2007.

The Company has taken steps to diversify its revenue stream by increasing the amount of revenue received from mortgage lending operations, insurance agency activities, brokerage and securities activities and other activities that generate fee income. Management believes this diversification is important to reduce the impact of fluctuations in net interest revenue on the overall operating results of the Company. This continued diversification strategy resulted in an overall increase in noninterest revenue of 21.64% for the second quarter of 2008, compared to the same period in 2007 and 17.63% for the first six months of 2008, compared to the same period in 2007. One of the primary contributors to the increase in noninterest revenue was insurance commissions, which increased 21.49% for the second quarter of 2008 compared to the same period in 2007 and 23.15% for the first six months of 2008 compared to the first six months of 2007. The Company s mortgage lending revenue increased 73.36% during the second quarter of 2008 as compared to the second quarter of 2007 and 52.14% during the first six months of 2008 compared to the first six months of 2007. The increase in mortgage lending revenue for the second quarter and first six months of 2008 was primarily a result of a \$4.91 million increase in the value of the Company s mortgage servicing asset during the second quarter of 2008 compared to a \$1.23 million increase in the value of the Company s mortgage servicing asset during the second quarter of 2007.

Table of Contents

Noninterest expense totaled \$112.06 million for the second quarter of 2008 compared to \$105.93 million for the second quarter of 2007, an increase of \$6.14 million, or 5.79%. Noninterest expense totaled \$225.53 million and \$211.54 million for the six months ended June 30, 2008 and 2007, respectively, for an increase of \$14.00 million, or 6.62%. The increase in noninterest expense for the second quarter and first six months of 2008 resulted primarily from increased costs related to additional banking locations and facilities added since June 30, 2007, costs attributable to the operations of the insurance agencies acquired since June 30, 2007, as well as costs related to the integration and operation of The Signature Bank, acquired by the Company on March 1, 2007. The major components of net income are discussed in more detail in the various sections that follow.

RESULTS OF OPERATIONS

Net Interest Revenue

Net interest revenue is the difference between interest revenue earned on assets, such as loans, leases and securities, and interest expense paid on liabilities, such as deposits and borrowings, and continues to provide the Company with its principal source of revenue. Net interest revenue is affected by the general level of interest rates, changes in interest rates and changes in the amount and composition of interest earning assets and interest bearing liabilities. The Company s long-term objective is to manage interest earning assets and interest bearing liabilities to maximize net interest revenue, while balancing interest rate, credit, liquidity and capital risks. For purposes of the following discussion, revenue from tax-exempt loans and investment securities has been adjusted to a fully taxable equivalent basis, using an effective tax rate of 35%.

Net interest revenue was \$112.63 million for the three months ended June 30, 2008, compared to \$109.14 million for the same period in 2007, representing an increase of \$3.49 million, or 3.20%. For the first six months of 2008 and 2007, net interest revenue was \$225.12 million and \$210.32 million, respectively, representing and increase of \$14.80 million, or 7.04%. The increase in net interest revenue for the second quarter and first six months of 2008 is related to the slight growth in loans experienced by the Company when comparing the three-month and six-month periods ended June 30, 2008 to the same periods in 2007 as well as the Company s continued focus on funding this growth with maturing securities and lower-cost liabilities.

Interest revenue decreased \$26.49 million, or 12.92%, to \$178.55 million for the three months ended June 30, 2008 from \$205.04 million for the three months ended June 30, 2007. While average interest earning assets increased \$107.11 million, or 0.90%, to \$11.96 billion for the second quarter of 2008 from \$11.85 billion for the second quarter of 2007, this increase was more than offset by a decrease of 93 basis points in the yield on those assets to 6.01% for the second quarter of 2008 from 6.94% for the second quarter of 2007 resulting in an overall decrease in interest revenue. For the first six months of 2008 and 2007, interest revenue was \$371.43 million and \$394.69 million, respectively, representing a decrease of \$23.26 million. Again, this decrease in interest revenue was a result of the 3.58% increase in average interest earning assets to \$11.95 billion for the first six months of 2008 from \$11.54 billion for the first six months of 2007 being more than offset by a decrease of 65 basis points in the yield on those assets to 6.25% for the first six months of 2008 compared to 6.90% for the first six months of 2007.

Interest expense decreased \$29.98 million, or 31.26%, to \$65.92 million for the three months ended June 30, 2008 from \$95.90 million for the three months ended June 30, 2007. While average interest bearing liabilities increased \$84.18 million, or 0.85%, to \$10.04 billion for the second quarter of 2008 from \$9.96 billion for the second quarter of 2007, this increase in average interest bearing liabilities was more than offset by a decrease of 122 basis points in the average rate paid on those liabilities to 2.64% from 3.86%. Interest expense decreased \$38.06 million, or 20.64%, to \$146.31 million for the first six months of 2008 from \$184.37 million for the first six months of 2007. The decrease in interest expense for the first six months of 2008 when compared to the first six months of 2007 was a result of the decrease of 92 basis points in the average rate paid on interest bearing liabilities to 2.92% from 3.84% with this decrease slightly offset by the \$397.09 million, or 4.10%, increase in average interest bearing liabilities to \$10.09 billion for the first six months of 2008 from \$9.69 billion for the first six months of 2007.

The relative performance of the Company s lending and deposit-raising functions is frequently measured by two calculations net interest margin and net interest rate spread. Net interest margin is determined by dividing fully taxable equivalent net interest revenue by average earning assets. Net interest rate spread is the difference between

Table of Contents

the average fully taxable equivalent yield earned on interest earning assets (earning asset yield) and the average rate paid on interest bearing liabilities. Net interest margin is generally greater than the net interest rate spread because of the additional income earned on assets funded by noninterest bearing liabilities, or interest free funding, such as noninterest bearing demand deposits and shareholders equity.

Net interest margin for the second quarter of 2008 and 2007 was 3.79% and 3.69%, respectively, representing an increase of 10 basis points. Net interest margin for the six months ended June 30, 2008 and 2007 was 3.79% and 3.68%, respectively, representing an increase of 11 basis points. Net interest rate spread for the second quarter of 2008 was 3.37%, an increase of 29 basis points from 3.08% for the second quarter of 2007. Net interest rate spread for the first six months of 2008 and 2007 was 3.33% and 3.06%, respectively, representing an increase of 27 basis points. The increase in net interest margin and net interest rate spread for the second quarter of 2008 when compared to the second quarter of 2007 was primarily a result of the smaller decrease in the average rate earned on interest earning assets, from 6.94% for the second quarter of 2007 to 6.01% for the second quarter of 2008, than the decrease in the average rate paid on interest bearing liabilities from 3.86% for the second quarter of 2007 to 2.64% for the second quarter of 2008. The increase in net interest margin and net interest rate spread for the first six months of 2008 when compared to the first six months of 2007 was primarily a result of the smaller decrease in the average rate earned on interest earning assets, from 6.90% for the first six months of 2007 to 6.25% for the first six months of 2008, than the decrease in the average rate paid on interest bearing liabilities from 3.84% for the first six months of 2007 to 2.92% for the first six months of 2008. The earning asset yield decrease for the three months and six months ended June 30, 2008 when compared to the three months and six months ended June 30, 2007 was a result of a decrease in the Company s investment portfolio. In addition, the Company chose to fund its loan growth with lower rate short-term FHLB borrowings and demand deposits rather than higher rate time deposits.

Interest Rate Sensitivity

The interest rate sensitivity gap is the difference between the maturity or repricing opportunities of interest sensitive assets and interest sensitive liabilities for a given period of time. A prime objective of the Company s asset/liability management is to maximize net interest margin while maintaining a reasonable mix of interest sensitive assets and liabilities. The Company s current asset/liability strategy of partially funding loan growth with short-term borrowings from the FHLB has contributed to the increased liability sensitivity in the 0 to 90 days category. The following table presents the Company s interest rate sensitivity at June 30, 2008:

22

	Interest Rate S	Sensitivity - Maturi 91 Days	ing or Repricing Over One	Opportunities
	0 to 90 to		Year to	Over
	Days	One Year	Five Years	Five Years
	J	(In thou	sands)

Provision for Credit Losses and Allowance for Credit Losses

The provision for credit losses is the periodic cost of providing an allowance or reserve for losses inherent within the loan and lease portfolio. The Bank employs a systematic methodology for determining the allowance for credit losses that considers both qualitative and quantitative factors and requires that management make material estimates and assumptions that are particularly susceptible to significant change. Some of the quantitative factors considered by the Bank include loan and lease growth, changes in nonperforming and past due loans and leases, historical loan and lease loss experience, delinquencies, management s assessment of loan and lease portfolio quality, the value of collateral and concentrations of loans and leases to specific borrowers or industries. Some of the qualitative factors that the Bank considers include existing general economic conditions and the inherent risks of individual loans and leases. The allowance for credit losses is based principally upon the Bank s loan and lease classification system, delinquencies and historic loss rates. The Bank has a disciplined approach for assigning credit ratings and classifications to individual credits. Each credit is assigned a grade by the appropriate loan officer, which serves as a basis for the credit analysis of the entire portfolio. The assigned grade reflects the borrower s creditworthiness, collateral values, cash flows and other factors. An independent loan review department of the Bank is responsible for reviewing the credit rating and classification of individual credits and assessing trends in the portfolio, adherence to internal credit policies and procedures and other factors that may affect the overall adequacy of the allowance. The work of the loan review department is supplemented by governmental regulatory agencies in connection with their periodic examinations of

the Bank, which provide an additional independent level of review. The loss factors assigned to each classification are based upon the attributes of the loans and leases typically assigned to each grade (such as loan-to-collateral values and borrower creditworthiness). Further, the Bank requires that a relatively narrow group of loans that have adverse internal ratings or that are significantly past due be subject to testing for impairment as required by SFAS No. 114. Management periodically reviews the loss factors assigned in light of the general economic environment and overall condition of the loan and lease portfolio and modifies the loss factors assigned to each classification as it deems appropriate. The overall allowance generally includes a

23

Table of Contents

component representing the results of other analyses intended to ensure that the allowance is adequate to cover other probable losses inherent in the portfolio. This component considers analyses of changes in credit risk resulting from the differing underwriting criteria in acquired loan and lease portfolios, industry concentrations, changes in the mix of loans and leases originated, overall credit criteria and other economic indicators.

The Company s provision for credit losses, allowance for credit losses and net charge-offs are shown in the following table:

	Three months ended June 30,			
	2008	2007	% Change	
	(D	ollars in thousand	ls)	
Provision for credit losses	\$11,237	\$7,843	43.27%	
Net charge-offs	\$ 7,060	\$3,195	120.97	
Net charge-offs as a percentage of average loans and leases				
(annualized)	0.30%	0.14%	114.29	
	Six months ended			
	June 30,			
	2008	2007	% Change	
	(Dollars in thousands)			
Provision for credit losses	\$22,048	\$9,198	139.70%	
Net charge-offs	\$13,767	\$4,842	184.32	
Net charge-offs as a percentage of average loans and leases				
(annualized)	0.30%	0.11%	172.73	
Allowance for credit losses as a percentage of loans and leases				
outstanding at period end	1.30%	1.22%	6.56	

The increase in the provision for credit losses for the first three months and six months of 2008 compared to the same periods of 2007 was a result of the increased credit risk from the loan growth experienced by the Company, an increase in net charge-offs, the slowing economic environment and some downward migration of loans within the Bank s loan and lease credit ratings and classifications. The unusually low provision for credit losses experienced during the first six months of 2007 was primarily the result of net charge-offs reaching an unsustainable low level during the first quarter of 2007. Because our mortgage lending decisions are based on conservative lending policies, we continue to have only nominal exposure to the credit issues affecting the subprime residential mortgage market. The breakdown of the allowance by loan and lease category is based, in part, on evaluations of specific loan and lease histories and on economic conditions within specific industries or geographical areas. Accordingly, because all of these conditions are subject to change, the allocation is not necessarily indicative of the breakdown of any future allowance or losses. The following table presents (a) the breakdown of the allowance for credit losses by loan and lease category and (b) the percentage of each category in the loan and lease portfolio to total loans and leases at the dates indicated:
