ALLEGIANT BANCORP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Allegiant Bancorp, Inc. and its subsidiaries. The terms "Allegiant," "company," "we," "our," and "corporation" as used in this report refer to Allegiant Bancorp, Inc. and its subsidiaries as a consolidated entity, except where we clearly indicate that it means only Allegiant Bancorp, Inc. Also, sometimes we refer to Allegiant Bank, Bank of Ste. Genevieve and State Bank of Jefferson County, our bank subsidiaries, as the "banks."

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form $10-Q$ and Article 10 of Regulation $S-X$. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended September 30,2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002.

The balance sheet at December 31, 2001 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form $10-\mathrm{K}$ for the year ended December 31, 2001.

## Comprehensive Income

During the third quarter of 2002 and 2001, total comprehensive income amounted to $\$ 6.4$ million and $\$ 2.9$ million, respectively. Year-todate comprehensive income for the first nine months of 2002 and 2001 was $\$ 20.5$ million and $\$ 9.6$ million, respectively.

# Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q 

## Acquisitions

On September 28, 2001, we acquired Southside Bancshares Corp. ("Southside"). Before the acquisition, Southside was a bank holding company with four subsidiary banks in and around St. Louis, Missouri, which at closing reported consolidated total assets of approximately $\$ 804.9$ million. Under the terms of the agreement, one-half of the Southside shares were converted into the right to receive cash in the amount of $\$ 14$ per share and the other half into the right to receive 1.39 shares of Allegiant stock per share. Under the terms of the agreement, we exchanged a total of approximately 5.9 million shares of Allegiant common stock plus $\$ 59$ million in cash for all of the outstanding common stock of Southside. The issuance of Allegiant shares and cash to the former Southside shareholders was completed on November 2, 2001. We financed the cash portion of the purchase price through the issuance of trust preferred securities and bank borrowings. We accounted for the acquisition under the purchase method and recorded goodwill and a core deposit intangible of $\$ 33.6$ million and $\$ 11.0$ million, respectively. The core deposit intangible is being amortized over an estimated
useful life of ten years and none of this amortization is expected to be deductible for tax purposes. During October 2001 and May 2002, respectively, we merged Southside National Bank and the Bank of St Charles County, two of the four subsidiary banks acquired from Southside, into Allegiant Bank. In October 2002, we also merged the State Bank of Jefferson County, a subsidiary bank acquired from Southside, into Allegiant Bank.

On December 12, 2001, we acquired five St. Louis County branches from Guardian Savings Bank ("Guardian") which is headquartered in Houston, Texas. In addition to the branch facilities, we assumed $\$ 109.3$ million in related deposit liabilities. As a result of the Guardian branch acquisition, we recorded $\$ 2.2$ million of goodwill. The acquisitions of Southside and the Guardian branches significantly enhanced the scale of our banking business and positioned us for further growth and to compete effectively by offering personalized banking products and services in the St. Louis community.

On September 18, 2002, we announced the signing of a definitive exchange agreement that provides for First Banks to acquire Allegiant's wholly-owned banking subsidiary, Bank of Ste. Genevieve (BSG). Under the terms of the agreement, First Banks will acquire BSG in exchange for approximately 974,150 shares of Allegiant common stock that is currently held by First Banks. As a part of our Project 2004 initiative, this transaction will increase Allegiant's focus on the higher growth St. Louis metropolitan area, reduce the number of outstanding shares without decreasing our float and is expected to be immediately accretive to our earnings per share. The transaction, which is subject to regulatory approvals, is expected to be completed in the first quarter of 2003.

On October 1, 2002, we completed the acquisition of Investment Counselors, Incorporated ("Investment Counselors"), a privately held investment advisory firm located in St. Louis, Missouri. Under terms of the agreement, we exchanged approximately 195,000 shares of Allegiant common stock for all of the common shares of Investment Counselors. This acquisition is consistent with our strategy of focusing on the growth of

# Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q 

non-interest income and will allow us to offer a more comprehensive selection of wealth management products and services. In addition to increasing Allegiant's assets under management to approximately $\$ 800$ million, the Investment Counselors acquisition brought several individuals to Allegiant with significant management expertise in St. Louis. Investment Counselors has been serving institutional and high net worth individuals in the Midwest since 1968.

Recently Issued Accounting Standards

Effective January 1, 2002, the Company adopted Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. In accordance with this statement, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to impairment tests in accordance with the Statement. Other intangible assets will continue to be amortized over their estimated useful lives. During 2002, the Company is performing the first of the required impairment tests of goodwill and indefinite lived intangible assets as of January 1, 2002 and has not yet determined what the effect of those tests will be on the future consolidated earnings and financial position of the Company. If for any future period we determine that there has been impairment in the carrying value of our goodwill balances, we will record a charge to our earnings, which could have a material adverse effect on our net income.

6

In the third quarter of 2002, Allegiant adopted SFAS 147, Acquisition of Certain Financial Institutions. As permitted by the new accounting standard issued on October 1, 2002, we reclassified previously recorded intangible assets associated with branch acquisitions to goodwill. As required by SFAS 147 , we restated previously reported 2002 six-month earnings to reflect the non-amortization of goodwill related to our branch acquisitions. For the six months ended June 30, 2002, the impact related to implementation of SFAS 147 was an increase to net income of $\$ 345,000$ and an increase in diluted earnings per share of $\$ 0.02$ per share.

The adoption of SFAS 147 increased net income by $\$ 517,050$ or $\$ 0.03$ per diluted share for the nine months ended September 30, 2002 and is projected to increase full-year 2002 earnings by approximately $\$ 700,000$, or $\$ 0.04$ per diluted share.

Restatement

We also restated previously reported 2002 six-month earnings to recognize the impact of a $\$ 700,000$ deferred loan fee which had not been accreted into income due to an accounting oversight during the three months ended March 31, 2002 and June 30, 2002 in accordance with SFAS 91, Accounting for Non-refundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases. For the six months ended June 30, 2002, the impact of this adjustment was to increase net income by $\$ 291,000$ and diluted earnings per share by $\$ 0.02$ per share.

The combined impact of SFAS 147 adoption and the deferred loan fee adjustment on the results for the six months ended June 30, 2002 was to reflect restated diluted earnings per share of $\$ 0.65$ per share, compared to

# Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q 

$\$ 0.61$ per share previously reported and restated net income of $\$ 10.3$ million, compared to previously reported $\$ 9.7$ million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains certain forward-looking statements with respect to the financial condition, results of operations and business of Allegiant and our subsidiaries. These forward-looking statements involve certain risks and uncertainties. For example, by accepting deposits at fixed rates, at different times and for different terms, and lending funds at fixed rates for fixed periods, we accept the risk that the cost of funds may rise and interest on loans and investment securities may be at a fixed rate. Similarly, the cost of funds may fall, but we may have committed by virtue of the term of a deposit to pay what becomes an above-market rate. Investments may decline in value in a rising interest rate environment. Loans have the risk that the borrower will not repay all funds in a timely manner, as well as the risk of total loss. Collateral may or may not have the value attributed to it. The loan loss reserve, while believed adequate, may prove inadequate if one or more large borrowers, or numerous smaller borrowers, or a combination of both, experience financial difficulty for individual, national or international reasons. Because the business of banking is highly regulated, decisions of governmental authorities, such as the rate of deposit insurance, can have a major effect on operating results. All of these uncertainties, as well as others, are present in a banking operation and we caution shareholders that management's view of the future on which it prices our products, evaluates collateral, sets loan loss reserves and estimates costs of operation and regulation may prove to be other than anticipated.

The profitability of our operations depends on our net interest income, provision for loan losses, non-interest income and non-interest expense. Net interest income is the difference between the income we receive on our loan and investment portfolios and our cost of funds, which consists of interest paid on deposits and borrowings. The provision for loan losses reflects the cost of credit risk in our loan portfolio. Non-interest income consists primarily of service charges on deposit accounts and fees for ancillary banking services and, to a lesser extent, revenues generated from our mortgage banking, securities brokerage, insurance brokerage and trust operations. Non-interest expense includes salaries and employee benefits, as well as occupancy, data processing, marketing, professional fees, insurance and other expenses. Under recently adopted accounting rules, we will be required to periodically evaluate the carrying values of our goodwill balances to determine whether the values have been impaired. If we determine that there has been an impairment, we will recognize a charge to our earnings, which could be material.

Our net interest income depends on the amounts and yields of interest-earning assets compared to the amounts and rates on interest bearing liabilities. Net interest income is sensitive to changes in market rates of interest and our asset/liability management procedures in managing those changes. The provision for loan losses is dependent on increases in the loan portfolio, management's assessment of the collectibility of the
loan portfolio and loss experience, as well as economic and market factors. OVERVIEW

We are a bank holding company headquartered in St. Louis, Missouri. Our bank subsidiaries, Allegiant Bank and Bank of Ste. Genevieve, offer full-service banking and personal trust services to individuals, commercial business and municipalities in the St. Louis metropolitan area. Our services include commercial, real estate and installment loans, checking, savings and time deposit accounts, personal trust and other fiduciary services and other financial services such as securities brokerage, insurance and safe deposit boxes. As of

September 30, 2002, we reported, on a consolidated basis, total assets of $\$ 2.3$ billion, loans of $\$ 1.6$ billion, deposits of $\$ 1.7$ billion and shareholders' equity of $\$ 160.4$ million.

Since our inception in 1989, we have grown through a combination of internal growth and acquisitions of other financial institutions. Our internal growth has been achieved by positioning Allegiant as one of the leading St. Louis community banking operations. We have supplemented our growth by acquiring 31 branch locations in our community from four different thrifts and another banking organization. Our primary goals have been to expand our branch network in the $S t$. Louis market while increasing our earnings per share. We have also acquired a mortgage company and an asset management firm. In December 1998, we sold four branches located in more rural markets in northeast Missouri, in order to focus our operations exclusively in the $S t$. Louis metropolitan area. In November 2000 , we acquired Equality Bancorp, Inc. a community-based thrift holding company with seven branches in the St. Louis area and total assets of approximately $\$ 300.4$ million. As a continuation of our acquisition and growth strategies, in September 2001, we acquired Southside Bancshares Corp., another community-based bank holding company serving the St. Louis area, with total assets of approximately $\$ 804.9$ million. In addition, in December 2001, we acquired five St. Louis branch facilities from Guardian Savings Bank and assumed approximately $\$ 109.3$ million in related deposit liabilities.

Since the beginning of 1998, we have focused on improving the profitability of our banking operations. As a result, we have reduced the amount of one- to four-family mortgages we hold in our loan portfolio and have increased our amount of higher yielding commercial loans. We have hired more than 20 banking professionals averaging more than 10 years of experience in the St. Louis metropolitan area to help grow our commercial loans and deposits. We have also implemented company-wide cost-control efforts to enhance efficiencies throughout our operations. These steps taken since the beginning of 1998 have improved our efficiency, return on average assets, return of average equity and earnings per share.

Our primary financial objectives are to continue to grow our loan portfolio while maintaining high asset quality, expand our core deposit base to provide a cost-effective and stable source of funding our loan portfolio and increase non-interest income while maintaining strong expense controls. We have sought to maintain high asset quality while managing growth both internally and by acquisition.

## RESULTS OF OPERATIONS

Net income for the three months ended September 30, 2002 was $\$ 5.3$ million, an 83\% increase over the $\$ 2.9$ million earned in the third quarter of 2001. Basic earnings per share were $\$ 0.33$ for the third quarter of 2002 compared to $\$ 0.32$ for the third quarter of 2001 . Diluted earnings per share increased $3 \%$ to $\$ 0.33$ for the third quarter of 2002 compared to $\$ 0.32$ for the third quarter of 2001. The annualized return on average assets was $0.94 \%$ for both the third quarter of 2002 and 2001 . The return on average equity on an annualized basis was $13.50 \%$ for the third quarter of 2002 compared to $13.22 \%$ for the third quarter of 2001 .

Net income for the nine-month period ended September 30, 2002 was $\$ 15.7$ million, a $90 \%$ increase over the $\$ 8.3$ million earned in the nine-month period ended September 30,2001 . Basic earnings per share were $\$ 1.00$ and $\$ 0.93$, respectively, for the nine-month periods ended September 30, 2002 and 2001. Diluted earnings per share were $\$ 0.98$ and $\$ 0.92$, respectively, for the nine-month periods ended September 30, 2002 and 2001 . The annualized return on average assets for the first nine months of 2002 was $0.95 \%$, compared to the 0.94\% annualized
return on average assets reported for the first nine months of 2001 . The return on average equity on an annualized basis improved to $13.95 \%$ for the first nine months of 2002 compared to $13.19 \%$ for the first nine months of 2001.

As a result of newly effective accounting pronouncements, we have discontinued the amortization of goodwill in 2002 and will periodically determine whether the carrying value of our goodwill is impaired. As required by these pronouncements, we continue to amortize core deposit premiums and other identifiable intangibles as a noncash charge that increases our operating expenses. Intangible asset amortization included as an operating expense totaled $\$ 271,000$ and $\$ 231,000$ for the three-month periods ended September 30,2002 and 2001 , respectively. Intangible asset amortization included as an operating expense totaled $\$ 812,000$ and $\$ 712,000$ for the nine-month periods ended September 30, 2002 and 2001 , respectively.

Total assets at September 30,2002 were $\$ 2.3$ billion, an increase of $\$ 181.1$ million or $9 \%$ from September 30 , 2001 , due largely to a $\$ 203.4$ million or $14 \%$ increase in loans. At September 30,2002 , total loans increased to $\$ 1.6$ billion and total deposits increased to $\$ 1.7$ billion.

Net Interest Income. Net interest income for the three months ended September 30,2002 was $\$ 17.1$ million, an $88 \%$ increase compared to the $\$ 9.1$ million reported for the third quarter of 2001 . The growth in net interest income was attributable to an increase of $\$ 913$ million in average earning assets primarily from our September 2001 acquisition of Southside Bancshares Corp. The $\$ 9.8$ million increase in interest income was partially offset by a $\$ 1.7$ million increase in interest expense. The increase in interest expense was the result of an $\$ 855$ million increase in average interest bearing liabilities, partially offset by a decrease of 178 basis points in the average interest rate paid between the periods.

The net interest margin for the third quarter of 2002 improved 16 basis points from the third quarter of 2001 . The earning assets yield decreased 144 basis points while the overall interest rate paid on interest

# Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q 

bearing liabilities decreased 178 basis points. The net interest spread increased 34 basis points comparing the third quarter of 2002 to the third quarter of 2001.

Interest expense on deposits decreased $\$ 228,000$ and reflected a $\$ 625,000$ increase in average interest bearing deposits that was offset by a decrease in the average rate paid on deposits from 4.56\% in the third quarter of 2001 to $2.53 \%$ for the comparable period in 2002. The growth in our deposit base was primarily the result of the Southside acquisition, and was coupled with internal growth from deposit promotions and the purchase of $\$ 60$ million of brokered deposits.

Interest expense on other interest bearing liabilities increased $\$ 1.9$ million in the third quarter of 2002 compared to the third quarter of 2001 as average short- and long-term borrowings increased $\$ 194$ million. The average rate paid on short-term borrowings decreased 210 basis points while the rate paid on long-term borrowings decreased 67 basis points in the third quarter of 2002 compared to the third quarter of 2001.

Net interest income for the nine months ended September 30, 2002 was $\$ 48.5$ million, an increase of $\$ 21.7$ million or $81 \%$ from the corresponding period of 2001. The increase was attributable to average earning assets growth of $\$ 917$ million primarily from our September 2001 acquisition of Southside. The $\$ 26.9$ million increase in interest income was partially offset by a $\$ 5.2$ million increase in interest expense. The increase in interest expense was the result of an $\$ 868$ million increase in average interest bearing liabilities partially offset by a 207 basis points decline in the average interest rate paid between the periods.

The net interest margin for the first nine months of 2002 decreased 6 basis points compared to the first nine months of 2001 . The earning assets yield decreased 190 basis points while the overall interest rate paid on interest bearing liabilities decreased 207 basis points. The net interest spread increased 17 basis points comparing year-to-date 2002 to year-to-date 2001.

The following table sets forth the condensed average balance sheets for the quarterly periods reported. Also shown is the average yield on each category of interest-earning assets and the average rate paid on interest bearing liabilities for each of the periods reported.
