**Item 1.01. Entry into a Material Definitive Agreement.**

On June 30, 2005, Array BioPharma Inc. ( Array ) entered into an amendment to the Drug Discovery Collaboration Agreement with InterMune, Inc. ( InterMune ) dated September 13, 2002, as amended, pursuant to which Array and InterMune collaborate in the discovery and development of novel small molecule inhibitors of the Hepatitis C virus. The amendment extends the term of the existing collaboration agreement to June 30, 2006, with an option to extend this term for an additional 12-month period, increases the number of Array scientists allocated to the program, and expands the program to include process research and cGMP scale-up of drug candidates to be conducted by Array to support clinical development.

Under the terms of the amended agreement, Array conducts drug discovery, preclinical and process development that is funded by InterMune, and InterMune has responsibility for clinical development and commercialization of resulting products. Array will be entitled to receive milestone payments based on the selection and progress of clinical drug candidates, as well as royalties on net sales of products derived from the collaboration.
