SPECIAL NOTE REGARDING FORWARD-LOOKING INFORMATION

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

The Prospectus, any Prospectus supplement and the documents we incorporate by reference in this Prospectus contain forward-looking statements within the meaning of Section 21E of the Exchange Act and Section 27A of the Securities Act of 1933, as amended.

Forward-looking statements include those regarding our goals, beliefs, plans or current expectations and other statements regarding matters that are not historical facts. For example, when we use words such as project, believe, anticipate, plan, expect, estimate, intend, should, could, or may, or other words that convey uncertainty of future events or outcome, we are making forward-looking statements. Forward-looking statements are subject to significant risks and uncertainties and our actual results may differ materially from the results discussed in the forward-looking statements. For example, certain market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual income gains and losses could materially differ from those that have been estimated. Other factors that could cause actual results to differ materially from forward-looking statements include, but are not limited to, the following:

general economic conditions, either globally, nationally, in the State of Texas, or in the specific markets in which we operate;

legislation or regulatory changes which adversely affect the businesses in which we are engaged;

adverse changes in Government Sponsored Enterprises (the GSE) status or financial condition impacting the GSE guarantees or ability to pay or issued debt;

economic or other disruptions caused by acts of terrorism in the United States, Europe or other areas;

changes in the interest rate yield curve such as flat, inverted or steep yield curves, or changes in the interest rate environment which impact interest margins and may impact prepayments on the mortgage-backed securities portfolio;

changes impacting our leverage strategy;

significant increases in competition in the banking and financial services industry;

changes in consumer spending, borrowing and saving habits;

technological changes;

our ability to increase market share and control expenses;

the effect of changes in federal or state tax laws;

the effect of compliance with legislation or regulatory changes;

the effect of changes in accounting policies and practices;

the costs and effects of unanticipated litigation; and

other risks, described below in **Risk Factors** and from time to time in our other SEC filings.

We do not assume any obligation to update any of these forward-looking statements.

DIVIDEND PAYMENT HISTORY

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

We have declared cash dividends of \$0.46 per share and paid cash dividends of \$0.33 per share during the current fiscal year to date. We have declared and paid cash dividends of \$0.42 and \$0.36 per share during the fiscal years ended December 31, 2004 and 2003, respectively. Future dividends will depend on our earnings, financial condition and other factors, which our Board of Directors considers to be relevant.

We cannot assure the continuation of dividend payments. Participants should recognize and understand that we cannot assure them of a profit or protect them against a loss on the shares purchased by them under the Plan.

THE CORPORATION

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

We were incorporated in Texas in 1982 and serve as the bank holding company for Southside Bank (the Bank), headquartered in Tyler, Texas. Tyler has a metropolitan area population of approximately 184,000 and is located approximately 90 miles east of Dallas, Texas and 90 miles west of Shreveport, Louisiana. The Bank has the largest deposit base in the Tyler metropolitan area and is the largest bank, based on asset size, headquartered in East Texas.

At September 30, 2005, we had total assets of \$1.7 billion, loans of \$679.2 million, deposits of \$1.0 billion, and shareholders' equity of \$105.4 million. We had net income of \$16.1 million and \$13.6 million and fully diluted earnings per common share of \$1.32 and \$1.16 for the years ended December 31, 2004 and 2003, respectively. We have paid a cash dividend every year since 1970.

The Bank is a community-focused financial institution that offers a full range of financial services to individuals, businesses and non-profit organizations in the communities it serves. These services include consumer and commercial loans, deposit accounts, trust services, safe deposit services and brokerage services.

The Bank's consumer loan services include 1-4 family residential mortgage loans, home equity loans, home improvement loans, automobile loans and other installment loans. Commercial loan services include short-term working capital loans for inventory and accounts receivable, short and medium-term loans for equipment or other business capital expansion, commercial real estate loans and municipal loans. The Bank also offers construction loans for 1-4 family residential and commercial real estate.

The Bank offers a variety of deposit accounts having a wide range of interest rates and terms, including savings, money market, interest and noninterest bearing checking accounts and certificates of deposit (CDs). The Bank's trust services include investment, management, administration and advisory services, primarily for individuals and, to a lesser extent, partnerships and corporations. At December 31, 2004, the Bank's trust department managed approximately \$413 million of trust assets. Through its 25% owned securities brokerage affiliate, BSC Securities, LLC, the Bank offers full retail investment services to its customers.

We and the Bank are subject to comprehensive regulation, examination and supervision by the Board of Governors of the Federal Reserve System (the Federal Reserve), the Texas Department of Banking (the TDB) and the Federal Deposit Insurance Corporation (the FDIC), and are subject to

numerous laws and regulations relating to internal controls, the extension of credit, making of loans to individuals, deposits, and all facets of operations.

Our administrative offices are located at 1201 S. Beckham Avenue, Tyler, Texas 75701, and our telephone number is 903-531-7111. Our website can be found at *www.southside.com*.

Our primary source of income is dividends received from the Bank. Dividend payments are, among other things, based on bank earnings, deposit growth and capital position in compliance with regulatory guidelines. Management presently anticipates that future increases in the capital of the Bank will be accomplished through earnings retention or capital injection, although there is no assurance of any future increases.

RISK FACTORS

You should consider carefully the following risks, in addition to all of the other information included or incorporated by reference in this Prospectus, including in the section entitled "Special Note Regarding Forward-Looking Information," before deciding whether to purchase the Common Stock offered hereby.

If we are unable to successfully execute our leverage strategy, our business may be adversely affected.

In May 1998, we implemented a leverage strategy in an attempt to enhance profitability while maintaining acceptable levels of credit, interest rate and liquidity risk. Our leverage strategy consists of borrowing long and short-term funds from the Federal Home Loan Bank and investing the funds primarily in mortgage-backed securities and, to a lesser extent, long-term municipal securities. Our failure to execute successfully this strategy could adversely affect our financial performance. Our leverage strategy and our ability to successfully execute it are subject to the following risks:

We fund our leverage strategy primarily through funds borrowed from the Federal Home Loan Bank. These funds are more costly than most funds received from deposits. We invest a substantial portion of our assets in a securities portfolio consisting mainly of mortgage-backed and municipal securities. The yield on our securities portfolio is lower than interest earned on our loan portfolio. As a result, these investments have reduced our interest rate spreads and margins. Although we believe that the impact of lower operating expenses and reduced credit and interest rate risk associated with these investments has exceeded the impact of spread and margin reductions, we cannot be sure whether this situation will continue.

The size and composition of our securities portfolio has increased in connection with the implementation of our leverage strategy. This size and complexity has substantially increased our sensitivity to market risk and requires a significantly higher degree of continuous management. Our failure to effectively manage the size and composition of our securities portfolio could have an adverse affect on our financial condition.

Our profitability is vulnerable to interest rate fluctuations.

Our profitability is dependent to a large extent on our net interest income, which is the difference between our interest income on interest-earning assets, such as loans and investment securities, and our interest expense on interest-bearing liabilities, such as deposits and borrowings. We expect that we will periodically experience "gaps" in the interest rate sensitivities of our assets and liabilities, meaning that

either our interest-bearing liabilities will be more sensitive to changes in market interest rates than our interest-earning assets, or vice versa. In either event, if market interest rates move contrary to our position, our earnings may be negatively affected.

We cannot predict fluctuations of interest rates, which are affected by, among other factors, changes in inflation rates, levels of business activity, unemployment levels, monetary and fiscal policies of the United States and its agencies, particularly the Federal Reserve, money supply and domestic and foreign financial markets.

Our decisions regarding credit risk could be inaccurate and our allowance for loan losses may be inadequate, which could materially and adversely affect our business, financial condition, results of operations and future prospects.

Our loan portfolio and investments in securities subject us to credit risk. Inherent risks in lending also include the inability to compete with other lenders, lack of control over fluctuations in interest rates and collateral values, principally real estate, and economic downturns. Making loans is an essential element of our business, and there is a risk that our loans will not be repaid. The risk of nonpayment is affected by a number of factors, including:

the duration of the loan;

credit risks of a particular borrower;

changes in economic or industry conditions; and

in the case of a collateralized loan, risks resulting from uncertainties about the future value of the collateral.

We attempt to maintain an appropriate allowance for loan losses to provide for losses inherent in our loan portfolio. During 2004, we recorded a provision for loan losses of \$925,000 based on our overall evaluation of the risks of our loan portfolio. As of September 30, 2005, our allowance for loan losses totaled \$7.0 million, which represented approximately 1.0% of our total loans.

There is no precise method of predicting loan losses, and therefore, we always face the risk that charge-offs in future periods will exceed our allowance for loan losses and that additional increases in the allowance for loan losses will be required. Such increases could be the result of various factors, including changes in the value of collateral securing our loans or additional reserves required by regulators. Additions to our allowance for loan losses will result in a decrease in our net earnings and capital and could hinder our ability to grow our assets.

The loss of our key personnel could adversely affect our operations.

Our success and the success of the Bank depends on the services of our employees. In particular, our growth and development and the management of our leverage strategy depends primarily on the continuing efforts of the following officers: B. G. Hartley, Sam Dawson, Jeryl Story, and Lee Gibson. Our business may be adversely affected if the services of these officers or any of our other key personnel become unavailable to us. While we have obtained a key person life insurance policy on the lives of the above-mentioned officers, amounts payable under these policies may not be sufficient to offset the loss of their services.

Our business may be adversely affected by the highly regulated environment in which we operate.

We are subject to extensive federal and state regulation and supervision. Recently enacted, proposed and future legislation and regulations have had, will continue to have or may have significant impact on our business.

Changes in regulation or government policies could increase our costs of doing business and could adversely affect our operations. The Bank is a member of the Federal Home Loan Bank of Dallas. The Bank is subject to certain limited regulation by the Federal Reserve. As the holding company of the Bank, we are also subject to regulation and oversight by the Federal Reserve. This regulation and supervision governs our activities and is intended primarily for the protection of the Federal Deposit Insurance Corporation insurance funds and depositors. Regulatory authorities have extensive discretion in connection with their supervisory and enforcement activities and regulations have been implemented which have increased capital requirements, increased insurance premiums and resulted in increased administrative, professional and compensation expenses. Any change in the regulatory structure or the applicable statutes or regulations could have a material adverse impact on us and our operations. Additional legislation and regulations may be enacted or adopted in the future which could significantly affect the powers, authority and operations of our competitors, which in turn could have a material adverse effect on our operations.

Competition from other financial intermediaries may adversely affect our profitability.

We face substantial competition in originating loans and in attracting deposits. The competition in originating loans comes principally from other U.S. banks, mortgage banking companies, consumer finance companies, credit unions, insurance companies and other institutional lenders and purchasers of loans. A number of institutions with which we compete have significantly greater assets, capital and other resources. Increased competition could require us to increase the rates we pay on deposits or lower the rates we offer on loans, which could adversely affect our profitability. This competition may also limit our future growth and earnings prospects.

An economic downturn or a natural disaster, especially one affecting our market areas, could adversely affect our business, financial condition, results of operations and future prospects.

Our operations are conducted primarily in Smith, Gregg, Cherokee, and Henderson counties and surrounding counties in East Texas. Substantially all of our real estate loans are collateralized by properties located primarily in East Texas, and substantially all of our loans, with the exception of our municipal loans, are made to borrowers who live in and conduct business in East Texas. A weakening of the East Texas real estate market or the local or national economy could result in an increase in the number of borrowers who default on their loans and a reduction in the value of the collateral securing the loans, which in turn could have a material adverse effect on us and our operations.

New or acquired branch facilities and other facilities may not be profitable.

We may not be able to correctly identify profitable locations for new branches and the costs to start up new branch facilities or to acquire existing branches, and the additional costs to operate these facilities, may increase our noninterest expense and decrease earnings in the short term. If other banks or branches of other banks become available for sale, we may acquire them. It may be difficult to adequately and profitably manage our growth through the establishment of these branches. In addition, we can provide no assurance that these branch sites will successfully attract enough deposits to offset the expenses of operating these branch sites. Any new or acquired branches will be subject to

regulatory approval, and there can be no assurance that we will succeed in securing such approvals.

Our securities are not FDIC insured.

Our common stock is not a savings or deposit account or other obligation of the bank, and is not insured by the Federal Deposit Insurance Corporation or any other governmental agency and is subject to investment risk, including the possible loss of principal.

DESCRIPTION OF DIVIDEND REINVESTMENT PLAN

This section of the prospectus summarizes the material terms and conditions of the Southside Bancshares, Inc. Dividend Reinvestment Plan. The following summary is qualified entirely by reference to the complete text of the terms and conditions of the Plan, which are attached to the accompanying Authorization Form and are incorporated into this prospectus by reference. We encourage you to read the Terms and Conditions of the Plan in their entirety.

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

Purpose - The Plan provides holders of our Common Stock who elect to participate in the Plan with a convenient method of reinvesting their cash dividends to purchase additional shares of Common Stock.

Participation - All holders of record of shares of Common Stock are eligible to participate in the Plan. In order to participate in the Plan, a beneficial owner of shares of Common Stock registered in a name other than his own must become a holder of record of shares by having shares transferred into his name or make arrangements with the record holder to participate in the Plan on his behalf. Participants must maintain their status as shareholders of record to participate directly in the Plan. Disposal of all of a Participant's shares of Common Stock will constitute an automatic termination of participation in the Plan.

Enrollment - Holders of record of Common Stock may enroll in the Plan at any time by signing and returning the enclosed Authorization Form to the Transfer Agent:

Computershare Trust Company, Inc., Transfer Agent

350 Indiana Street, Suite 800

Golden, Colorado 80401

If a shareholder's Authorization Form is received by our transfer agent, Computershare Trust Company, Inc. (the "Transfer Agent"), prior to the close of business on the record date for payment of a cash dividend, reinvestment of the Participant's dividends with respect to the designated portion of shares of Common Stock will begin with that dividend payment. If, however, a shareholder's Authorization Form is received by the Transfer Agent after the close of business on the record date for payment of a cash dividend, that shareholder's dividend will be paid in cash and participation in the Plan will begin with the next cash dividend payment. For example, if our Board authorizes the payment of a dividend on December 16 to holders of our Common Stock on December 1, you would need to submit your Authorization Form to the Transfer Agent prior to the close of business on December 1, the record date for a dividend payment. If the Transfer Agent received your Authorization Form prior to the close of business on the record date, you would be enrolled in the Plan for that dividend. If, however, the Transfer Agent received your Authorization Form after the close of business on the record date, then the first dividend reinvestment under the Plan that you would participate in would be the next dividend payment date occurring after December 16. After enrollment, all future cash dividends, as designated on the Authorization Form, will be automatically reinvested until the earlier of (i) receipt by the Transfer Agent of written notice of termination from you, (ii) you ceasing to be a shareholder of record, or

(iii) suspension or termination of the Plan by the Corporation. During participation in the Plan, a Participant's dividends will be reinvested according to the directions given to the Transfer Agent on the Authorization Form.

The Authorization Form directs the Transfer Agent to reinvest all of the Participant's cash dividends, including dividends received on shares acquired by the Participant under the Plan, in shares of Common Stock, unless otherwise specified. The Participant, however, has the option to designate on the Authorization Form that the Transfer Agent reinvest only those cash dividends declared on a portion of the shares of Common Stock registered in his name. If the latter option is chosen, the dividends declared on the remaining shares will continue to be paid in cash. A Participant may change his investment option at any time by signing a new Authorization Form and returning it to the Transfer Agent.

Administration - The Transfer Agent administers the Plan for Participants. The Transfer Agent, upon reinvestment of dividends for the Participant, will issue fractional shares which will increase the accuracy of our shareholder accounting and provide a cost savings to the Corporation. The Transfer Agent will forward a quarterly stock ownership statement representing the shares purchased with the cash dividend to the Participant as soon as is practicable. Those participants desiring stock certificates may request issuance of any full shares at any time after the reinvestment procedure is complete. However, a reasonable service charge may be assessed at the time of a Participant's withdrawal from the Plan or at any time a share certificate is requested by a Participant.

Purchases and Purchase Price - Shares of Common Stock will be purchased for dividend reinvestment under the Plan on the date that the cash dividend payment on shares of the Common Stock is made (the Investment Date). In the past, cash dividends on the Common Stock have been paid quarterly. Shares of Common Stock will be acquired from the authorized but unissued shares of Common Stock of the Corporation. Participants become record owners of shares purchased under the Plan as of the Investment Date.

The purchase price of shares of Common Stock purchased with reinvested cash dividends will be the market price of such shares on the Investment Date, or if not traded that day, the previous day a trade occurred. The market price for the Common Stock will be based on the weighted average purchase price of all shares of Common Stock, to the extent known to us, traded on the applicable Investment Date, and if no shares were traded on that day, the weighted average purchase price of all shares of Common Stock on the previous day a trade occurred. The common stock is traded on the NASDAQ National Market under the symbol SBSI.

The number of shares of Common Stock to be purchased on behalf of a Participant depends on the amount of the Participant's dividend and the market price of the shares on the Investment Date. Each Participant will be credited with the number of shares, including fractional shares rounded to three decimals, equal to the total amount of his cash dividend divided by the purchase price of the shares acquired on the Investment Date. Quarterly statements will be provided on the book entry purchases.

Participants in the Plan will be responsible for the entire tax liability associated with the payment of the dividends on the Common Stock despite their participation in the Plan. Please see Federal Income Tax Consequences below.

Delivery of Shares - Through our Transfer Agent, we will issue quarterly statements representing book entry shares to the Participants in the Plan representing the number of shares, including fractional shares rounded to three decimals, purchased under the Plan on their behalf.

Withdrawal and Termination - A Participant may terminate participation in the Plan by submitting a written notice addressed to the Transfer Agent at the address set forth under Description of Dividend Reinvestment Plan Enrollment.

If the notice of termination is received by the Transfer Agent prior to the close of business on dividend record date, the amount of the cash dividend which would otherwise have been invested on the next Investment Date, and all subsequent dividends, will be paid in cash. If the notice of termination is received by the Transfer Agent after close of business on the dividend record date, the amount of the cash dividend to be invested on the next Investment Date will be so invested, but all subsequent dividends will be paid to the Participant in cash. A shareholder may reenroll in the Plan at any time by submitting a new Authorization Form to the Transfer Agent.

If a Participant sells all shares of Common Stock registered in his name, the Transfer Agent will terminate his participation in the Plan as of the date that the final dividend on such shares is paid to the Participant. The transferee of the Participant's shares must submit a new Authorization Form to the Transfer Agent and request Plan enrollment to participate in the Plan.

If a Participant who is reinvesting the cash dividends on part of the Common Stock registered in his name disposes of a portion of such shares, the Transfer Agent will continue to reinvest the dividends on the remainder of the shares designated by the Participant for dividend reinvestment until the Transfer Agent is otherwise notified by the Participant in writing.

Death of a Participant - On receipt by the Transfer Agent of proper notice of death or incompetency of a Participant, together with any other form or documentation as may be properly required by the Transfer Agent, such Participant's participation in the Plan can be terminated in the same manner as that of a Participant who withdraws from the Plan.

Cost - The purchase of Common Stock under the Plan is available to Participants without the payment of brokerage commissions or administrative costs of the Plan. However, should the Participant sell any of the shares acquired under the Plan through a broker or dealer, the Participant will be responsible for payment of any applicable brokerage fees, transfer taxes, and similar charges.

Stock Splits and Stock Dividends - In the event of a stock split or a stock dividend, the Participant will be issued additional shares of Common Stock as the result of the split or the dividend on the total shares acquired by the Participant under the Plan.

Shareholder Voting - We will distribute to each Participant proxy material that will enable him to vote all the Common Stock registered in the Participant's name in connection with each meeting of shareholders. This will include those shares issued to the Participant under the Plan.

Reports - Each Participant in the Plan will receive a 1099-DIV form reporting the total dividend paid. The 1099's are the Participant's continuing record of the cost of his purchases and should be retained for tax purposes. In addition, Participants will receive this Prospectus as well as copies of all reports sent to the holders of shares of Common Stock.

Responsibility of the Corporation and Transfer Agent - Neither we nor the Transfer Agent shall be liable for any act done in good faith or for any good faith omission to act when done or omitted in accordance with the terms and conditions of the Plan including, without limitation, any

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

claim of liability arising out of a failure to terminate a Participant's participation in the Plan upon such Participant's death prior to receipt of written notice of such death. In addition, neither we nor the Transfer Agent shall be liable with respect to the prices at which the shares are purchased on behalf of a Participant or the times

when such purchases are made or with respect to any fluctuation in the market value of the Common Stock before or after purchases.

Suspension, Modification or Termination of the Plan We may, in our sole discretion, terminate a Participant's individual participation in the Plan. We may also for any reason terminate, suspend or modify the Plan or any provisions of the Plan at any time. Participants will be notified, by written notice, of any suspension, modification or termination of the Plan or of the termination of their participation in the Plan. All notices to Participants shall be mailed to Participants at the address furnished by Participants to the Transfer Agent.

Federal Income Tax Consequences - The following discussion is based upon information provided by the Corporation, the Internal Revenue Code of 1986, as amended and in effect on the date hereof (the Code), existing and proposed regulations thereunder, reports of congressional committees, judicial decisions and current administrative rulings and practices. Any of these authorities could be repealed, overruled or modified at any time after the date hereof. Any such change could be retroactive and, accordingly, could modify the tax consequences discussed herein. No ruling from the Internal Revenue Service or opinion of counsel with respect to the matters discussed herein has been requested and there is no assurance that the Internal Revenue Service or the courts would agree with the conclusions set forth in this discussion.

This discussion is for general information only and does not address the federal income tax consequences that may be relevant to particular Participants in light of their personal circumstances or to certain types of Participants (such as dealers in securities, insurance companies, foreign individuals and entities, financial institutions and tax-exempt entities) who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local or foreign laws.

A Participant who reinvests his dividends pursuant to the Plan generally will be treated as having received a taxable dividend on the relevant dividend payment date in an amount equal to the sum of the fair market value of the shares of Common Stock purchased on his behalf. In essence, a Participant will be treated, for Federal income tax purposes, as receiving a taxable dividend on each dividend payment date even though such Participant may not receive any cash with which to pay the tax on such income.

We will take the position for Federal income tax purposes that the fair market value of the shares will be determined in the same manner as the purchase price for shares purchased under the Plan. Please see the discussion under Description of Dividend Reinvestment Plan - Purchases and Purchase Price for a description of how the purchase price is determined. We believe that this is a reasonable method to calculate the fair market value of the Common Stock.

A Participant's tax basis for the shares of Common Stock purchased with reinvested dividends generally will be equal to the amount treated as a taxable dividend (measured by the fair market value of the shares of Common Stock purchased on his behalf). This basis would be relevant to a Participant upon the subsequent disposition of the shares received pursuant to the Plan. Gain or loss equal to the difference between the amount realized on the disposition and the tax basis in the shares sold would be realized by the Participant when the shares received pursuant to the Plan are sold or otherwise disposed of. Such gain or loss generally would be capital in character if such shares were a capital asset in the hands of the Participant. A Participant's holding period for shares obtained pursuant to the Plan will begin on the day that the shares are purchased.

The Jobs and Growth Tax Relief Reconciliation Act of 2003, or the Tax Relief Act, enacted on May 28, 2003, reduced the maximum rate of tax imposed on most dividends received by individuals from

the higher marginal income tax rates to 15 percent (5 percent for individuals in the lower tax brackets to 0 percent for these taxpayers in 2008). This provision applies to dividends received in taxable years beginning after December 31, 2002 and before January 1, 2009. In order to be eligible for the reduced rate described above, an individual stockholder must own our Common Stock for more than 60 days during the 120-day period beginning 60 days before the ex-dividend date.

The dividend income received by a corporate shareholder generally will be eligible for a 70 percent (70%) corporate dividends-received-deduction under current federal tax laws unless the dividends are qualifying dividends from certain 80%-owned subsidiaries or dividends from certain 20%-owned subsidiaries. Corporate shareholders should be aware that the availability of the dividends-received-deduction is limited under various special rules and that special rules also apply with respect to extraordinary dividends (as defined in section 1059 of the Code). For further information on eligibility for the dividends-received-deduction and extraordinary dividends, corporate Participants should consult with their own tax advisors.

In the case of a foreign Participant whose dividends are subject to the withholding of U.S. income taxes or to any Participant subject to backup withholding, the tax required to be withheld will be deducted from each dividend payment before it is reinvested in the Common Stock. Thus, only the net amount of the dividend payment available after such withholding would be available to be reinvested under the Plan.

A Participant's (including a foreign shareholder) dividends that are subject to United States income tax withholding will have the amount of the tax to be withheld deducted from those dividends before reinvestment in additional shares for that Participant's plan account. We will report to Participants and to the Internal Revenue Service information sufficient to apprise each of them of the amounts that would constitute dividend or other income as described herein and the amount of any amounts withheld.

PARTICIPANTS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OR PARTICIPATION IN THE PLAN, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS AND ANY PENDING OR PROPOSED LEGISLATION.

DESCRIPTION OF COMMON STOCK

Edgar Filing: SOUTHSIDE BANCSHARES INC - Form S-3D

Our authorized capital presently consists of 20,000,000 shares of the Common Stock, of which 11,520,570 shares were outstanding at September 30, 2005 and an additional 1,718,737 shares were held as treasury stock at September 30, 2005. Each holder of shares of the Common Stock is entitled to one vote for each share held on all questions submitted to holders of shares of Common Stock. Holders of Common Stock do not have cumulative voting rights at elections of directors, and the holders of the Common Stock have no preemptive or conversion rights. Upon issuance and sale of the shares offered hereby in accordance with the terms of the Plan, such shares will be fully paid and nonassessable. In the event of any liquidation, dissolution or winding-up of the Corporation, holders of Common Stock are entitled to share ratably in the assets of the Corporation remaining after provision for payment of creditors.

Our articles of incorporation provide for the election of directors to three classes, as nearly equal in number as possible, to hold office for staggered terms. Directors elected to each class shall hold office until the expiration of the term applicable to the class of directorship to which the respective director is elected and until their successors are elected and qualified, or they shall hold office until death or retirement or until resignation or removal in the manner provided in our bylaws. This helps ensure the

continuity of the Board of Directors and effectively makes it more difficult for potential acquirers of the Corporation to acquire control of the Corporation through control of the Board of Directors.

USE OF PROCEEDS

We cannot determine the number of shares of Common Stock that will be sold under the Plan or the prices at which such shares will be sold. We intend to use proceeds from the sale of the Common Stock for general corporate purposes, including advances to or investments in our Bank. We are unable to estimate the amount of the proceeds that will be devoted to any specific purpose.

INDEMNIFICATION OF DIRECTORS AND OFFICERS OF THE CORPORATION

Article 2.02-1 of the Texas Business Corporation Act empowers a Texas corporation, including the Corporation, to indemnify its directors, officers, employees and agents against judgments, penalties (including excise and similar taxes), fines, settlements and reasonable expenses under certain circumstances.

Sections 6.01-6.03 of the Bylaws of Southside Bancshares, Inc. (the Corporation) provide that the Corporation shall indemnify any director or officer or former director or officer of the Corporation, or any person who may have served at its request as a director or officer or former director or officer of another corporation in which it owns shares of capital stock or of which it is a creditor, for expenses actually and necessarily incurred by him in connection with the defense of any action, suit or proceeding, whether civil or criminal, in which he is made a party by reason of being or having been such director or officer, except as to matters as to which he is adjudged to be liable for negligence or misconduct in the performance of his duty. In addition, such Bylaws provide that the Corporation shall reimburse any such director or officer, or former director or officer or any such person serving or formerly serving in the capacities set forth above at the request of the Corporation for the reasonable cost of settlement of any such action, suit or proceeding, if a majority of the directors not involved in the matter in controversy, whether or not a quorum, determine that it is in the best interests of the Corporation that such settlement be made and that such person was not guilty of negligence or misconduct in the performance of duty. The Corporation may pay in advance any expenses which may become subject to indemnification if the Board of Directors authorizes the specific payment, and if the person receiving the payment undertakes in writing to repay the amounts unless it is ultimately determined that he is entitled to indemnification by the Corporation. Finally, such Bylaws provide that the Corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability as above provided or as provided by the laws of the State of Texas. The Corporation currently maintains insurance policies which insure its officers and directors against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers, and other persons controlling the Corporation pursuant to the foregoing provisions, the Corporation has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.
