Fair Value Measurements

In determining the value of the Fund s investments various inputs are used. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including management s assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the Fund s fair value measurements as of September 30, 2009:

Derivative Instruments and Hedging Activities

During the current fiscal period, the Fund adopted amendments to authoratative guidance under GAAP on disclosures about derivative instruments and hedging activities. This guidance is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments; b) how derivative instruments are accounted for; and c) how derivative instruments affect a fund's financial position, results of operations and cash flows, if any. The Fund records derivative instruments at fair value with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Fund's investments in derivatives may represent economic hedges, under this guidance they are considered to be non-hedge transactions for financial reporting purposes.

The table below presents the fair value of all derivative instruments held by the Fund as of September 30, 2009, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

Underlying Risk		Location on the	he Statement of Assets and Liabilities			
	Derivative	Asset Derivatives	Liability Derivatives

Equity Price	Options	\$		value	\$	9,974,753

Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, recognition of premium amortization, timing differences in the recognition of income on REIT investments and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At September 30, 2009, the cost of investments (excluding proceeds received on securities sold short and options written) was \$1,689,808,090.

Gross unrealized appreciation and gross unrealized depreciation of investments (excluding proceeds received on securities sold short and options written) at September 30, 2009, were as follows:

Gross unrealized: Appreciation Depreciation

\$ 74,957,525 (228,722,396)

Net unrealized appreciation (depreciation) of investments

\$(153,764,871)

- (1)All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (3)Investment, or portion of investment, has been pledged to collateralize the net payment obligations under call options written.
- (4)Ratings: Using the higher of Standard & Poor s Group (Standard & Poor s) or Moody s Investor Service, Inc. (Moody s) rating. Ratings below BBB by Standard & Poor s or Baa by Moody s are considered to be below investment grade.
- (5)Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (6)Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
 - Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (7)Non-income producing; denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
- (8) This issue is under the protection of the Federal Bankruptcy Court.
- (9) Position, or portion of position, represents an unfunded Senior Loan Commitment outstanding at September 30, 2009.
- (10)This issue is under protection of the Federal Bankruptcy Court. As a result, the Adviser has concluded this issue is not likely to meet its interest payment obligations and has directed the Fund s custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund s records.
- (11)Subsequent to September 30, 2009, the Adviser concluded this issue is not likely to meet its interest payment obligations and has directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records.
- (12)Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3.
- (13)As of March 1, 2009, this issue is under protection of the Federal Bankruptcy Court (the Bankruptcy Court). As a result, the Adviser concluded that the issuer was not likely to meet its future interest payment obligations and directed the Fund's custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund's records. On July 1, 2009, the Fund received its June 1, 2009 interest payment and also received its September 1, 2009, interest payment as directed by the Bankruptcy Court's Final Order. As of September 2, 2009, the Fund ceased accruing additional income on this issue.
- (14) For fair value measurement disclosure purposes, investment categorized as Level 3.
- (15)For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.
- (16)Borrowings as a percentage of Total Investments is 21.5%.
- (17)The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of September 30, 2009, investments with a value of \$855,520,438 have been pledged as collateral for Borrowings.
- (18)The Fund s Adviser has concluded this issue is not likely to meet its future interest payment obligations and has directed the Fund s custodian to cease accruing additional income on the Fund s records. The Fund s Adviser directed the Fund s custodian to write-off any remaining recorded balances on the Fund s records. N/RNot rated.
